The developer and its active partners (i.e., its "co-developers") will want to make sure that the manner in which they acquire their interests in the partnership that owns the project will not be characterized as an income or gain recognition event to them. n9 The principal developer will generally be the person who forms the entity that will own the real estate project, and since he or she will be forming it at a very early stage, and since, at that time, there will generally be no other participant in the transaction from which the principal developer can be viewed as receiving an interest in the owning partnership in connection with the performance of services, the principal developer will generally not be concerned that its acquisition of an interest in the owning partnership is taxable compensation. However, the principal developer will frequently expand the ownership equity to include others who will be active partners and may be viewed as receiving an interest in the partnership as compensation for services, such as architects, land use planners and other key people who will assist in the development of the project. These co-developers *may* have to be concerned about the tax consequences of their acquisition of their interests in the partnership that owns the project.

[2] Co-developer's "Sweat" Equity

[a] Profits Interests

The treasury regulations addressing the tax consequences of the acquisition of a partnership interest provide that the non-recognition rule of *IRC Section 721* does not apply to a partner who receives an interest in capital (as distinguished from a share in partnership profits) as compensation for services. n10 Despite the inference in the parenthetical phrase that the receipt of an interest in partnership profits would not be a taxable event, in a series of cases, the Service was able to establish the principle that the receipt of an interest in partnership profits as compensation for services was a taxable event. However, the practical consequence of this conclusion was frequently insignificant, because the courts concluded that the partnership profits interest had little or no value. n11 The Service has since retreated from its victories, and it announced in *Revenue Procedure 93-27* n12 that, in general,

- (1) it will not treat the receipt of an interest in a partnership as compensation for services to the partnership as a taxable event for the partner or the partnership as long as the interest is merely an interest in future profits or future appreciation;
- (2) the profits interest does not relate to a substantially certain predictable stream of income from partnerships assets (such as income from a high quality debt obligation or a high quality net lease);
- (3) the partner does not dispose of the partnership interest within two years; and
- (4) the partnership interest is not an interest in a publicly-traded limited partnership.

[b] Other Interests

Persons who enter the developer partnership on a subsequent date, after value has been created, may be in a different position than those who acquire their interests at the beginning of the project. The Service distinguishes between the receipt of a profits interest in a partnership (generally not taxable) and the receipt of an interest in partnership capital (generally taxable if received as consideration for the performance of services), by analyzing the new partner's rights to receive any value if the partnership were immediately liquidated, its assets sold at their fair market values, and the proceeds distributed in accordance with the partnership agreement. n13 The application of this standard in determining whether a partner has received a profits interest or a capital interest in a real estate project that is underway but still has many remaining hurdles to negotiate requires a difficult valuation analysis.

Some partnerships have attempted to deal with this issue, as well as with the issue of distinguishing between the rewards to persons who are involved with a venture from start to finish and those whose contribution may be less because they have joined the partnership after some significant milestones have been achieved, by providing partnership interests that are weighted on the basis of the number of days during the existence of the partnership that the partner is a member. Under this approach, a service partner who received a 1 percent profits interest on the first day of a project partnership's existence (and remained a partner until the project is sold) would receive 1 percent of the profits realized by the partnership, whereas a service partner who acquired its 1 percent interest halfway through the life of the partnership (and remained a partner until the partnership is sold) would receive only 1/2 percent of the profits realized by the partnership on the sale of the project. Those structuring these partnerships would analyze *Revenue Procedure 93-27* as providing that a partner receiving this type of interest in a partnership would own a mere profits interest (using the definition provided in the Revenue Procedure), because it would have a "zero" fraction on its first day as a partner.

In other circumstances, the new members of a developer-partnership may receive partnership interests that are not fully vested. *Revenue Procedure 2001-43* provides that the determination of whether an interest granted to a service provider is a profits interest is under certain circumstances tested at the time the interest is granted, even if, at that time, the interest is substantially nonvested. Where a partnership grants a profits interest to a service provider in a transaction meeting the requirements of *Revenue Procedure 93-27*, the IRS will not treat the grant of the interest or the event that

causes the interest to become substantially vested n13.1 as a taxable event for the partner or the partnership. For purposes of *Revenue Procedure 93-27*, where a partnership grants a partnership profits interest that is substantially nonvested to a service provider, the service provider will be treated as receiving the interest on the date of its grant provided that: n13.2

- (1) the partnership and the service provider treat the service provider as the owner of the partnership interest from the date of its grant and the service provider takes into account the distributive share of partnership income, gain, loss, deduction, and credit associated with that interest in computing the service provider's income tax liability for the entire period during which the service provider has the interest;
- (2) upon the grant of the interest or at the time the interest becomes substantially vested, neither the partnership nor any of the partners deducts any amount (as wages, compensation, or otherwise) for the fair market value of the interest; and
- (3) all other conditions of *Revenue Procedure 93-27* are satisfied.

Assuming the interest is not fully vested, the partnership agreement might provide that the new service partner will forfeit its interest if it does not remain with the partnership until the project has received its certificate of occupancy and achieved a stabilized rent roll. Under such circumstances, the partner will generally want to file an election under *IRC Section 83(b)* to include in gross income (in the year of acquisition) the value of the partnership interest in excess of any amount paid for it, and the partnership may well insist that the partner file such an election. Pursuant to *Revenue Procedure 93-27*, this amount should be zero. A partner who does not make the *IRC Section 83(b)* election will also avoid income recognition on receipt of the partnership interest (both pursuant to *Revenue Procedure 93-27* and pursuant to *IRC Section 83(a)*) but will recognize compensation income, when the forfeiture restrictions lapse, in an amount equal to the fair market value of the partnership interest at that time over the amount, if any, paid for it. n14 The fact that the receipt of the partnership interest would not otherwise have been taxable pursuant to the principles of *Revenue Procedure 93-27* should not change this result. The Service has successfully contended that even a service provider who pays full fair market value for property received subject to forfeiture restrictions is nevertheless taxable--at ordinary income rates--on any increase in fair market value when the forfeiture restrictions lapse, absent an *IRC Section 83(b)* election. n15

The service partner's failure to make an *IRC Section 83(b)* election would also have tax consequences for the partnership and the other partners. The service partner will not be treated as the owner of the partnership interest for Federal income tax purposes during the period before the forfeiture restrictions lapse, and its holding period will not begin until that time. n16 Accordingly, any partnership income or loss allocable to the non-electing service partner's interest cannot be allocated to it and must be allocated to the other partners; any cash flow distributions made to the non-electing service partner must be treated as compensation for services rather than as a distribution of partnership cash flow that might otherwise be partially sheltered by the partnership's depreciation deduction; and the partnership (and thus the other partners) may have a taxable event at the time of vesting, equivalent to the consequences of a sale of an undivided interest in partnership assets (the undivided interest being the portion attributable to the non-electing service partners' percentage interest) for their fair market value. n17 The partnership will not necessarily be entitled to an offsetting compensation deduction at that time, since it may well be that the expenditure must be capitalized because it relates to the construction or acquisition of a capital asset. n18

[c] Allocation Issues

The creation of partnership interests with vesting schedules produces interesting tax complexities even when the recipient makes the *IRC Section 83(b)* election. Under those circumstances, the electing service partner is treated as the owner of the partnership interest for Federal income tax purposes from the commencement of its legal ownership of the

interest, and its holding period begins on that date. n19 Accordingly, the partner will be entitled to receive the allocations of profit and loss properly allocable to its partnership interest, even though that interest is not vested and the amounts allocated may never actually be received by the partner. Under such circumstances, the partnership has several alternative ways in which to draft its allocation provisions:

Profits interest with full income allocation. In this alternative, the service partner would acquire a profits interest in the partnership and would receive an allocation of income equal to its full percentage share, whether or not the full share was vested. The partnership agreement would contain a forfeiture provision pursuant to which a service partner who left before his or her interest fully vested would forfeit the unvested portion, with that amount going to the benefit of the principal developer, or to the other partners, or both. In this scenario, whatever the service partner received in the way of allocations and distributions would have the same character as did the income earned by the partnership, giving the service partner capital gain potential if the partnership's investment activities generated long term capital gains. This could produce some tax inefficiencies, however, because the service partner would have to pay tax on the income or gain allocated to it in respect of the unvested portion of its partnership interest, n20 but might not be entitled to any deduction with respect to the forfeited amount if there was a forfeiture n21 or might not be able to use the loss, since any allowable loss would likely be a capital loss. Furthermore, in the event that there is a forfeiture, the shift of the fair market value of the forfeited capital interest to the other partners whose interests are increased might be taxable to them at that time.

Profits interest with companion phantom partnership interest. In this scenario, the partnership interests acquired by the service partners would entitle them to an allocation of only their *vested* portion of any income received by the partnership; these service partners would also have a non-qualified unfunded deferred compensation arrangement with the principal developer, entitling them to receive an amount equal to the unvested portion of the income attributable to their profits interests, as and when they vested. The partnership income attributable to the unvested portion of the service partner's partnership interest would be allocated to the principal developer, and the partnership agreement would presumably provide a tax distribution for the taxes on that allocation. If and when the unvested portion of a service partner's partnership interest vested, the principal developer would also be obligated to make an in-kind deferred compensation payment of the just-vested partnership interest to that service partner. Any deduction attributable to that payment would be specially allocated by the partnership to the principal developer, although there might not be a current deduction. n22 The principal developer, whose partnership interest is reduced at that time, would probably have a gain recognition event at that time. The proper analysis of a compensatory capital account shift (from the perspective of the partner whose interest is reduced in the shift) is that the partner has disposed of an undivided interest in its share of the assets of the partnership for an amount equal to their fair market value, and if gain is realized on such a disposition, that gain must be recognized. The service partner would clearly have ordinary compensation income with respect to the deferred compensation payments and the transferred interest, and such amounts would be subject to social security taxes and the medicare tax.

[3] Third Party Equity

Third party equity may come from a variety of sources: pension or profit-sharing plans and other tax-exempt investors, other taxable investors, or foreign investors. Third party equity investors will typically seek a market rate cumulative priority return and then a residual share of profits from the venture. Losses from the venture (i.e., the excess of depreciation over principal amortization and free cash flow) must be allocated in accordance with capital accounts for as long as any of the equity owners have positive capital accounts. Accordingly, a developer with no capital investment would generally not be eligible to receive an allocation of losses while third party investors have positive capital account balances. Assuming that the developer partner does not undertake a deficit restoration obligation, n23 it will not be possible to allocate losses to the developer at a time when the co-equity investors have positive capital account balances. n24 Furthermore, if the partnership's lenders are related to one or more of the other equity investors, it will generally not be possible to allocate losses to the developer until the related party partner has received an additional allocation of losses equal to the amount loaned by the related party lender. n25

If the partnership that owns the property includes tax-exempt investors, further constraints will be imposed on the allocation provisions of the partnership agreement, since the agreement will generally have to comply with the "fractions rule" of *IRC Section 514(c)(9)* to allow certain of the exempt investors to avoid unrelated business taxable income.

Foreign investors would generally invest through a domestic corporation, to avoid the application of the branch profits tax. Should a foreign investor invest directly through a foreign entity, or through a single-member domestic LLC that does not elect to be treated as a corporation, the partner will have branch profits tax issues, and the partnership will have withholding responsibilities. n26

CHAPTER 19 Financing Commercial Real Estate Transactions *

2-19 Federal Taxes Affecting Real Estate § 19.03

§ 19.03 Debt Financing

[1] Mezzanine Financing

A real estate developer will frequently seek more debt financing than is available on a first mortgage basis for a loan that will have an investment grade rating. For example, during the fourth quarter of 2000, a lender to the developer of a commercial office property might require a loan-to-value ratio for its first mortgage of between 60 and 75 percent, depending on the location of the property. A developer seeking to fill the gap between such a first mortgage and the cost of its project can consider mezzanine financing, a category of financing that includes second mortgages, loans secured by the developer's interest in the partnership that owns the project, and preferred equity interests in the property-owning entity. However, the developer will generally find that if its first mortgage loan is going to be securitized in a REMIC, the loan documents will prohibit second mortgages on the property, thereby leaving the developer with only mezzanine financing secured by interests in the owning entity or preferred equity interests as its sources for filling the gap between the first mortgage and the cost of the project. This will limit the universe of possible lenders. In general, loans secured by interests in partnerships that own real estate may not be "qualifying REIT assets". Accordingly, mortgage REITs, one fairly large category of potential lenders, may be eliminated as possible sources of capital. n27 For the same reasons, REMICS are not likely sources for mezzanine financing collateralized only by interests in the entity that owns the real estate. n28

Another type of mezzanine financing is a preferred equity investment in the entity that owns the real property. This form of financing might be used where the first mortgage loan documents will prevent not only a second mortgage on the property, but also any pledge of the ownership interests in the entity that owns the real property. A preferred equity investment will generally entitle the mezzanine financing party to receive a guaranteed payment or preferred return from the partnership equal to its agreed-upon yield, and to receive a return of its capital investment on a basis senior to that of all other partners in the partnership--generally on a fixed date. The terms of the preferred equity investment will frequently give the investor creditor-like control rights with respect to the owning partnership in the event that the guaranteed payments or preferred return are not made. This type of investment will also have a narrower available pool of capital--it will not constitute a qualified mortgage for REMIC purposes. However, an interest in a partnership that owns real estate can constitute a qualifying REIT asset, n29 unless the substance of the investment is such that it must be characterized as debt for federal income tax purposes, in which case the discussion of *PLRs 8708082 and 8626025* in the preceding paragraph becomes relevant.

In some circumstances, a developer may be able to complete the financing of a commercial real estate project through the use of seller financing. As a business matter, seller financing will probably have to be mezzanine financing, and will be subject to the same constraints discussed above. In addition, developers that are affected by the "at risk rules" will not be able to include seller financing in their amount at risk, because such amount does not constitute qualified non-recourse financing. n30

[2] Loans from Certain Lenders

[a] Participating Loans

A developer will find that the anticipated source of funding for its first mortgage loan will affect the economic terms of the loan. For example, the developer of a speculative project may find that first mortgage funds are available only at such a high rate that the cash flows from the project in its early years may be unable to carry the loan, and it may seek, as an alternative, a loan with a lower interest rate that also entitles the lender to a share of profits from the property or to a percentage of the appreciation in the value of the property. Such a financing proposal will be received more or less warmly by different categories of prospective lenders. For example, if the proposed lender is a foreign entity, a conventional first mortgage loan with a fixed rate of interest will not constitute a United States real property interest for purposes of *IRC Section 897* (imposing a tax on dispositions of investments in United States real property by non-resident alien individuals or foreign corporations). n31 In addition, interest paid on such a mortgage to a foreign, non-bank lender not otherwise engaged in business in the U.S. will generally not be subject to tax pursuant to the portfolio interest rules. n32 Accordingly, the rate charged by the foreign lender on a fixed rate loan will not have to take into account the possibility that the borrower will have to withhold Federal income tax from the interest payments to the lender. n33 However, these same conclusions do not apply to a loan with the lower coupon and a share of profits. A participating loan that entitles a foreign lender to receive a share in the appreciation in the value of real property, or a share of gross or net proceeds or profits derived by the borrower from the property, is not an interest solely as a creditor for purposes of *IRC Section 897*, and thus will constitute a United States real property interest. n34 In addition, any interest paid on a mortgage loan that is determined by reference to receipts, sales or cash flow of the borrower, the income or profits of the borrower, or any change in the value of the underlying property does not constitute "portfolio interest." n35 Accordingly, that interest would be taxable to the foreign lender, and the borrower would be obligated to withhold tax from the payment. Most loan documents proposed by foreign lenders in these circumstances will provide that the borrower is required to "gross up" the interest payments to its lender, in order to offset the impact of withholding.

A borrower who approaches a mortgage real estate investment trust will also find an adverse tax-based reaction to a proposal that a loan be structured with a lower fixed interest coupon but a share of profits from the property. Interest based on the income or profits of the borrower or of the property generally does not qualify as "interest" for purposes of the income qualification tests applicable to real estate investment trusts. n36 A borrower approaching a pension fund will not encounter a negative tax-based reaction to a proposal that a loan carry a lower fixed coupon and a share of the profits from the property. The interest on such a loan will generally not be subject to tax in the hands of the pension fund, because the unrelated business income rules contain no exception (for interest on participating loans) to the general rule that interest does not count as unrelated business taxable income. n37

[b] Registration Requirements

The Code contains several provisions supporting the tax policy bias against bearer debt. Interest on bearer debt may not be deductible. n38-39 Loans from foreign lenders are eligible for the portfolio interest exception to the withholding rules only if, *inter alia*, the obligations are in registered form and the United States person who would be subject to the withholding requirements (if withholding was required) receives a statement that the beneficial owner of the obligation is not a United States person. n40 The person who would otherwise be obligated to withhold if withholding was required would normally be the borrower, unless the transaction is structured with a United States intermediary. An

obligation is in registered form only if either ownership of the obligation can be transferred only pursuant to a book entry system or by means of a surrender of the obligation to the issuer and its issuance or reissuance to the new owner. n41 The Service has the authority to issue regulations, exempting from these requirements obligations of a type which it believes are not used frequently to avoid federal income taxes. n42

NOTE:

For debt obligations issued before March 19, 2012, n42.1 interest paid on bonds that are not issued in registered form but which meet the foreign targeting requirements of *IRC Section 163(f)(2)(B)* also qualifies as portfolio interest. n42.2 The exception allowing the treatment of that interest as portfolio interest is repealed effective for debt obligations issued after March 18, 2012. n42.3

[i] Structure for a Static Pool

It is relatively difficult for individual borrowers or small real estate developers to comply with these complex regulations, which implement statutory provisions that have as their focus much larger commercial transactions. One investment structure that has been used to pool the obligations of multiple small borrowers, such as in a vacation interval development, is to create a grantor trust to hold the borrowers' notes. Such a structure can enable the developer (who is typically pledging the notes received from its customers to the developer's financing source) to comply with the rules applicable to portfolio interest if that financing source is a foreign entity. A trust for each project could be established as a grantor trust to hold an existing portfolio of receivables relating to the project and those generated within up to 90 days after closing. This trust will not have any power to vary the investment of its assets after the end of the 90-day period. The trust agreement for such a trust would provide that it does not have the power to vary the investment of the owner or the power to reinvest any proceeds from the original investment, except on a temporary basis in specified liquid assets. The trust certificates evidencing ownership of a beneficial interest in the trust will be transferable only by means of record entry on the books of the trust, and will therefore qualify as registered obligations for tax purposes. No withholding would be required with respect to payments to foreign holders of the trust certificates, in reliance on the authority of the temporary and final portfolio interest exception withholding regulations. n43

[ii] Structure for a Dynamic Pool

Another trust could be organized as a domestic entity n44 having at least two members, and could agree *not* to elect to be treated as a corporation for Federal income tax purposes. This trust would not be restricted in its ability to accept deposits of additional receivables from the relevant project after its formation period, because it would seek classification as a partnership, not as a grantor trust. *Treas Reg Section 301.7701-3(a)* provides as follows:

"business entity that is not classified as a corporation ... can elect its classification for federal tax purposes as provided in this section. An eligible entity with at least two members can elect to be classified as either an association (and thus a corporation under Section 301.7701-2(b)(2)) or a partnership."

In addition, the section provides that elections are necessary only when an eligible entity chooses to be classified initially as other than the default classification or when an eligible entity chooses to change its classification. n45 The promissory notes to be received by this second type of trust would have to provide that ownership thereof (and the right to receive payments of principal and interest) could be transferred only pursuant to a book entry system. An agent, however, might be able to maintain the book entry system on behalf of the makers of those promissory notes, and the foreign owners of the certificates of beneficial interest in the trust, and any transferee, could provide the trust with Forms W-8 indicating their foreign status. A book entry system maintained by an agent should satisfy the registration requirement of the regulations.

[3] Tax-Exempt Financing

Developers may find in some circumstances that the tax-exempt debt market is an available source of low-cost funding for a real estate project, assuming that the project comes within the statutory list of projects eligible to be financed with state or local bonds, the interest on which is excludable from gross income under *IRC Section 103*.ⁿ⁴⁶ For example, such financing may be available with respect to:

- (1) real estate projects that constitute qualified residential rental projectsⁿ⁴⁷ that provide low-income housing,
- (2) qualified small issue bondsⁿ⁴⁸ used to finance certain small approved commercial real estate projects,
- (3) qualified redevelopment bondsⁿ⁴⁹ used to finance redevelopment in certain designated blighted areas, and
- (4) qualified green building and sustainable design projects that qualify for "qualified green bond" financing.^{n49.1}

The basic tests that a project must satisfy before it can be concluded that it is eligible for financing with state or local bonds are complex, and the bond issuance process is time consuming and expensive. Further, a bond financed project, once successfully financed, must continue to comply with those complex rules lest the tax exempt status of the bonds be compromised. For example, a modification of the terms of tax-exempt financing that constitutes a reissuanceⁿ⁵⁰ may be treated as the issuance of a new municipal bond which, if it fails to comply with the rules applicable to new bond issuances or bond refundings, will no longer be exempt from tax. A common situation in which this issue arises is in the context of a proposed sale of a bond-financed project when it is contemplated that the terms of the bond financing with respect to the project will have to be modified to make the project economically successful. The new developer's dilemma is that, if it acquires the project without any commitment on the part of the issuing authority to modify the terms of the bond financing, it may lose its investment if the negotiations with respect to the modification ultimately fall through. On the other hand, if the issuing authority agrees to the terms of the modification in advance of the transfer, the modified financing may be treated as new acquisition financing rather than as a current refunding of the existing project, and the new acquisition financing may not qualify under the relevant tax rules for acquisition financing with state or local bonds.ⁿ⁵¹ For example, the initial financing of a qualified residential rental project requires an allocation of volume cap, and if the qualified residential rental project is not a new project, a specified amount of rehabilitation must be accomplished with respect to the project.ⁿ⁵² Although these restrictions will not apply to a current refunding of a bond financing project that originally qualified under these rules, a financing that is characterized as acquisition financing will not qualify as a current refunding.

Another situation that may face a developer of a bond financed project is the desire of some of its partners to dispose of their interests in circumstances in which the developer may wish to continue its ownership interest in that partnership. The economics of the project may be quite different for, on the one hand, limited partners who invested in the project at a time when it was generating (or expected to generate) deductible losses or sheltered cash flow, but who now find that it is generating taxable income in excess of distributable cash, as compared to the general partner who may have shelter from its other real estate activities for its share of this "phantom" income and who may be earning significant fees for its management services with respect to the project and the partnership.

If the partnership that owns the project: (a) borrows through a taxable financing and uses the proceeds to redeem the limited partners, and (b) simultaneously refinances its tax-exempt debt, the refinancing should be treated as a current refunding and not recharacterized as acquisition financing pursuant to *Regulations Section 1.150-1(d)(2)(v)*.

For Federal income tax purposes, a partnership generally remains the same legal and tax entity after a redemption of even a majority of the partnership interests, assuming that there has not been a sale or exchange of 50 percent or more of

the other partnership interests within a year before or after the transaction, n53 and assuming that the manner in which the redemption occurs cannot be recharacterized as a disguised purchase of partnership interests. n54 Thus, the partnership that owns the project will remain in existence for Federal income tax purposes and will remain the owner of the project, notwithstanding changes in the beneficial ownership of the partnership.

The regulation applies only to *asset* acquisitions. It should not be interpreted as automatically applying to shifts in the equity ownership of an entity that owns the asset. n55

The Service dealt with the concept of an indirect asset acquisition in a private letter ruling involving an electric utility (referred to herein as Lico). n56 That private letter ruling dealt with a transaction in which a *new issuer* issued tax-exempt bonds to buy the stock of Lico and to provide Lico with funds to pay off its existing debt. In the Lico transaction, it appears that the Lico assets were generally being transferred to new entities, although the exact mechanics of the transfers are not clearly described in the ruling. The Service needed to reach a conclusion that the proposed acquisition fell within the transition rule to the *Tax Reform Act of 1986*, applicable to bonds used directly or indirectly to provide electrical output facilities, and concluded that the stock acquisition was an indirect asset acquisition in order to fit within the transition rule. Having so concluded, the Service also held that bonds issued by the new issuing authority during the six-month period following the closing date and used to refinance outstanding Lico debt would be treated as bonds used to finance an asset acquisition within the meaning of the cited regulation. The facts in this private letter ruling are distinguishable from the hypothetical transaction under discussion--the bonds in the Lico transaction were issued by *the new issuing authority* for the purpose of acquiring the stock; in the hypothetical transaction discussed above, the bonds are being issued by the existing asset owning entity, not for the purpose of acquiring the asset, albeit in connection with a transaction in which there is a redemption of current equity owners.

[4] Original Issue Discount

Complicated commercial real estate projects will frequently result in complicated financing structures. Mortgage loans may be negotiated with interest holidays, provisions requiring payment of interest only when there is cash flow from the project, provisions entitling the lender to receive equity interests in the borrower, etc. Many of these loan structures will require an examination of the original issue discount rules. n57 In general, with numerous exceptions and limitations, these rules provide that the lender and borrower must accrue original issue discount income and expense on a constant interest basis over the term of the debt, even though the interest will be paid on some other schedule.

Observation: A real estate financing is likely to encounter the original issue discount rules when either:

- (a) the mortgage loan is actually issued at a discount, or provides for a higher interest accrual rate than its "pay" rate;
- (b) the loan provides for interest payments that are contingent (such as payments based on cash flow or increases in value of the mortgaged property); or
- (c) a significant modification is made to the terms of an outstanding mortgage loan, resulting in a "reissuance" exchange of a new loan for the old loan.

[a] Overview of Statutory Provisions

IRC Section 1271 provides for the tax treatment of amounts received on retirement or sale or exchange of debt instruments. Amounts received by a holder on the retirement of a debt instrument are generally treated as received "in exchange" for the debt instrument, n58 thus, potentially allowing (or requiring) the holder to report capital gain (or loss) on the transaction. Exceptions are provided for loans issued with an intent to call the loan for redemption before maturity (in which case, an amount of gain realized equal to the unamortized original issue discount is treated as

ordinary income) n59 and certain short-term obligations. n60

Original issue discount must be included in the income of the holder of the loan, calculated on the basis of a constant interest rate. n61 The timing and amount of the interest deductions for the borrower on such a loan are determined by reference to similar principles, subject to numerous exceptions. n62 The *IRC Section 1273* provides the general rules for determining the amount of original issue discount. In general, subject to a *de minimis* rule, n63 original issue discount is defined as the excess of the stated redemption price of a debt instrument at its maturity over its "issue price." n64

Observation: In the case of a debt instrument such as the note and mortgage given by a typical real estate borrower to raise funds to acquire or improve real estate, the "issue price" of the debt instrument will be the proceeds of the loan. Different rules apply with respect to purchase money debt taken back by a seller of the property. The issue price of purchase money debt will generally be equal to either the stated redemption price at maturity (if the debt has an interest rate at least equal to the applicable federal rate (the "AFR") n65 or an imputed amount (if it does not.) n66 The stated redemption price of the debt instrument at maturity means, in general, all amounts payable under the note other than interest based on a fixed rate and unconditionally payable at fixed intervals at least annually during the entire term of the debt. n67 A real estate financing may have a "stated redemption price at maturity" that exceeds the principal amount of the debt if interest accrues but is not required to be paid currently. n68

IRC Section 1275 provides definitions and special rules, including a broad grant of authority to the Service to provide regulations dealing with the tax treatment of debt instruments having varying rates of interest, put and call options, indefinite maturities, contingent payments or other circumstances, and modifying the tax treatment of such debt instruments to the extent necessary to carry out the purposes of the original issue discount provisions. n69

[b] Contingent Interest Regulations

The Treasury Department has recently exercised its regulatory authority with respect to loans providing for contingent interest.

Observation: Such a loan might arise as a mortgage on a commercial property entitling the lender to receive a percentage of the gross rent or cash flow from the property, or a percentage of any increase in the fair market value of the property. n70 Final regulations issued on June 14, 1996 set forth the tax treatment of debt obligations providing for contingent payments. n71 In general, these regulations apply to debt obligations issued on or after August 13, 1996. n72

The Contingent Interest Regulations, in general, abandon the former "wait and see" method of accounting for contingent interest, n73 in which the lender and borrower would not be required or allowed to take account of contingent interest until the amount thereof was reasonably determinable, in favor of a method that requires lenders and borrowers to make a reasonable projection of the contingent interest to be received or paid, and then prepare their tax returns on the basis of that projection. This method of accounting for interest is referred to as the "non-contingent bond" method. Under the non-contingent bond method required by the Contingent Interest Regulations, interest on a debt instrument subject to this rule must be taken into account for tax purposes by the lender and the borrower *whether or not* the amount of any payment is fixed or determinable for the year.

[i] Borrower Must Determine Payment Schedule

For any contingent payment debt instrument subject to the non-contingent bond method, a borrower must first determine the yield on the instrument and then establish a payment schedule to fit the yield. n74 The yield that must be determined by the borrower is the yield at which it would be able to borrow pursuant to a fixed rate debt instrument with terms and conditions otherwise similar to the terms and conditions of the contingent payment debt instrument. n75

This fixed rate yield is intended to be a "comparable" yield. The terms and conditions of a loan with a comparable yield--such as the level of subordination, term, timing of payments and general market conditions--must closely resemble the terms and conditions of the contingent payment loan in question. After determining the comparable yield, a "projected payment schedule" for the contingent interest loan must be determined. n76 The "projected payment schedule" includes the non-contingent payments on the loan and an amount (i.e., a projected amount) for each contingent payment. n77

[iii] Types of Contingent Payments

The regulations describe two different types of contingent payments. Contingent payments that are based on market information, referred to as "market-based payments," must be taken into account in an amount equal to the amount that would be paid on the issue date, between unrelated parties, for the right to receive the contingent payment on the date the contingent payment is required to be made. This amount is referred to as the "forward price" of the contingent payment. Contingent payments that are not based on market information, referred to as "non-market based payments," must be taken into account on the basis of the "expected value" of the payment as of the issue date.

Observation: It seems likely that most real estate loans bearing contingent interest will have "non-market based payments."

[iii] Adjustments to Payment Schedule

After the projected payment schedule has been determined by the borrower, the projected payments (rather than the actual payments) are used to determine the adjusted issue price of the debt instrument, the holder's basis in the debt instrument, and the amount of interest to be included in income by the lender and deducted by the borrower. The regulations provide that if the actual contingent payments differ from the projected contingent payments, adjustments are made to take account of the differences. n78 Lenders take into account only those adjustments that occur during a tax year in which the lender holds the debt; borrowers take into account only those adjustments that occur in a year in which the borrower is primarily liable for the debt. n79 The reference to a period of time during which a borrower is primarily liable for the debt presumably includes, in the case of a non-recourse debt, taxable years in which the borrower owns the property that is the primary security for the debt.

The adjustments are referred to as positive adjustments (for instances in which the actual amount of a contingent payment is more than the projected payment), and negative adjustments (for instances in which the actual amount of a contingent payment is less than the projected payment). In each case, the adjustment occurs on the actual (or scheduled) date of the contingent payment. Adjustments occurring during the year are netted. A net positive adjustment is treated as additional interest paid and received during the year. n80 A net negative adjustment first reduces interest on the debt instrument that the lender and the borrower would otherwise take into account for the year (such as the non-contingent components of the projected payment schedule). Any excess amounts are treated as ordinary loss to the lender and ordinary income to the borrower (but limited to net amounts taken into account by the lender and borrower in prior years); and any remaining net negative adjustment is carried forward to future years. n81 A net negative adjustment is not subject to the limitation imposed by *IRC Section 67* (the 2 percent floor on miscellaneous itemized deductions) for taxpayers otherwise subject to those limitations.

[iv] Determination of Comparable Yield

Responsibility for establishing the comparable yield and the projected payment schedule is initially allocated under the Contingent Interest Regulations to the borrower.

Observation: This seems logical because, in most cases, the borrower will have significantly more information about its own borrowing ability than will the lender, and thus the borrower will be in the best position to determine the "comparable yield" that it would have to pay.

The borrower's calculations must be supported by contemporaneous documentation showing that the amounts determined are reasonable, are based on reliable, complete and accurate data, and are made in good faith. n82 If the borrower maintains this contemporaneous documentation, its determination of the comparable yield and projected payment schedule will be respected, unless one or the other of those determinations is unreasonable. n83

The "comparable yield" for a debt instrument with "non-market-based" contingent payments, such as a right to a percentage of the cash flow or gross revenues from a real estate project, is presumed to be the applicable federal rate, if the issue is marketed or sold in large part to tax-exempt investors (including foreign investors). For example, if a pension fund makes a first mortgage loan for a real estate project and the terms of the loan provide for a fixed coupon plus a percentage of gross rents from the project, the "comparable yield" that the borrower would determine would be presumed to be limited to the applicable federal rate for comparable maturities. n84 This presumption is a rebuttable presumption, but rebutting the presumption requires clear and convincing evidence. For example, if a recent issue of the same borrower, with a comparable maturity, seniority, etc., is trading at a yield above the AFR, this fact should be clear and convincing evidence that a yield above AFR can appropriately be determined as the yield for the debt instrument in question. However, an appraisal of the value of the contingent payments would not be clear and convincing evidence sufficient to rebut the presumption.

[v] Disclosure of Projected Payment Schedule

The projected payment schedule determined by the borrower must be disclosed to the lender and used by the lender to determine its interest income accruals. The borrower must provide this information to the lender in a reasonable manner. For example, the borrower may provide the name or title and the address or telephone number of a representative of the borrower who will make this information available to the lender on request. n85 Alternatively, this information may be set forth in an original issue discount legend on the face of the debt instrument. The securities laws will also require disclosure of this information in any disclosure documents applicable to debt instruments subject to the disclosure requirements of the securities laws.

If the borrower does not comply with these rules, or if its projected payment schedule is unreasonable, the lender must determine the comparable yield and then inform the Service that it has created its own projected payment schedule. This information must be set forth on a statement attached to the lender's timely-filed federal income tax return for the year in which it acquired the debt instrument. n86 Thus, under the revised Contingent Interest Regulations, lenders and borrowers are generally required to take consistent positions with respect to timing of the accrual of contingent interest.

Observation: This is a significant change from prior law. The rules applicable to debt instruments issued prior to August 13, 1996, contain no clear requirement that lenders and borrowers utilize the same method for accounting for contingent interest. n87

[vi] Determination of Whether Contingencies Are Real

An issue raised but not resolved in either the final regulations or prior law is whether a specific debt instrument does, in fact, bear contingent interest. The Contingent Interest Regulations provide that if payments on a debt instrument are subject to a contingency that is either remote or incidental, the contingency is, in effect, ignored. For this purpose, a contingency is "remote" if there is a remote likelihood that the contingency will occur, or will not occur. The determination of remoteness is made at the time of issuance (and at the time of any reissuance) of the debt instrument. n88 In the case of a remote contingency, if there is a remote likelihood that the contingency will occur, it is assumed that the contingency will not occur; if there is a remote likelihood that the contingency will not occur, it is assumed that the contingency will occur. n89

A contingency relating to the amount of a payment is "incidental" if, under all reasonably expected market conditions,

the potential amount of the contingent payment is insignificant relative to the total expected amount of the remaining payments on the debt instrument. A payment subject to such an incidental contingency is ignored until the payment is made. n90 A contingency relating to the timing of a payment is incidental if, under all reasonably expected market conditions, the potential difference in the timing of the payment in question is insignificant. A payment subject to an incidental timing contingency is assumed to be made at the earliest date that the payment could be made pursuant to the contingency. n91

Example:

If a shopping center is financed with seven-year debt that provides for the payment of additional interest equal to a very small percentage of cash flow in excess of \$1,000,000, and the current cash flow from the fully-occupied, recently leased center is only \$10,000, it may be that the likelihood that the contingent payment would be made would be remote and/or incidental, in which case the possibility that the payment might be made would be ignored unless and until it is made.

[vii] Consequences of Remote Contingencies

A conclusion that a contingency with respect to interest on a debt instrument is remote has a different impact on a debt instrument issued before August 13, 1996 (and not "reissued" thereafter) than it does on a debt instrument issued on or after that date. In the case of pre-August 13, 1996 debt instruments, to which the final Contingent Interest Regulations do not apply, a contingency that is not remote may require the borrower and the lender to defer reporting the entire amount of interest until the contingency is resolved, whereas a conclusion that a contingency is remote may require the lender and the borrower to report the non-contingent interest income and expense with respect to the debt instrument currently, pursuant to the original issue discount rules relating to non-contingent obligations.

Example:

If a pre-August 13, 1996 structured zero coupon borrowing had payment provisions subject to a material non-remote contingency, the "wait and see" approach authorized by the case law would justify a cash basis lender's reporting all of the income only at the maturity of the borrowing, when the contingency would have been resolved. n92 However, if the contingency were determined to be remote, or not material, it is likely that it would be ignored, in which case the interest income should be accrued currently in accordance with the original issue discount rules applicable to non-contingent obligations.

In contrast, in the case of borrowings occurring on or after August 13, 1996, the base interest amount must be reported currently, in any event, in accordance with the original issue discount rules. The determination of whether or not an amount payable is subject to a remote contingency affects only the issue of whether the contingent amount itself must be projected and also taken into account currently, or can be ignored until paid. This change may reduce the frequency with which extremely remote or insubstantial interest contingencies are included in loan term sheets.

[viii] Exceptions to Non-Contingent Bond Method

Under the Contingent Interest Regulations, certain contingent payment obligations are not subject to the non-contingent bond method of calculating interest (i.e., non-publicly traded debt instruments issued in connection with a sale or exchange of non-publicly traded property). n93 These exceptions apply to certain debt instruments issued in exchange for property, such as a real estate buyer's purchase money indebtedness issued to a seller of the property. Debt instruments that are not subject to the non-contingent bond method are generally bifurcated, with the contingent payments being taken into account when paid and the non-contingent payments taken into account under the original issue discount rules applicable to non-contingent debt instruments. n94

[ix] Anti-Abuse Rule

The Contingent Interest Regulations also contain an anti-abuse rule, pursuant to which the Commissioner can apply or

depart from the regulations "as necessary to achieve a reasonable result" if a principal purpose in structuring a debt instrument or engaging in a transaction is to achieve a result under the regulations that "is unreasonable in light of the applicable statutes." This anti-abuse rule replaces the anti-abuse rule adopted as a temporary regulation in January of 1994. n95 The temporary anti-abuse rule applies to debt instruments issued on or after April 4, 1994, and before August 13, 1996. n96

The anti-abuse rule leaves the Commissioner with a substantial degree of discretion. First, it applies whenever "a" principal purpose of the transaction is to achieve an unreasonable result; it is not limited to transactions in which the unreasonable tax planning is "the" principal purpose of the transaction. Second, it empowers the Commissioner to apply or depart from the regulations, as necessary, to reach a reasonable result--there does not appear to be any need, for example, for there to be a conclusion that the result otherwise reached by the regulations be abusive or unreasonable. Not surprisingly, a significant factor in determining whether the result reached in the transaction is reasonable is whether it has a significant effect on the Federal income tax liability of the borrower or the lender. Another significant factor in the determination is whether the tax result reached in the contingent payment transaction could be reached if the debt instrument (without the contingency) and a contract relating to the contingency were entered into separately. n97 For example, if a debt instrument with original issue discount contained an interest rate formula pursuant to which the amount due at maturity could be reduced or increased if short-term interest rates at that time are outside an expected range, the determination of whether the result of the transaction is reasonable could depend on whether the same tax result would be obtained if the borrower issued the debt instrument without the contingency and entered into the interest rate contract with a third party.

[x] Reissuance and Original Issue Discount

The Contingent Interest Regulations provide that, in certain circumstances, contingent payment debt instruments can be treated as reissued solely for purposes of the original issue discount rules, even if the debt instrument would not otherwise be treated as reissued for purposes of Section 1001. For example, if a scheduled payment of qualified stated interest is not made, there is a deemed reissuance solely for purposes of *IRC Sections 1272 and 1273*. n98

[5] Debt Restructuring

[a] Background of Reissuance Regulations

IRC Section 1001(c) requires that, in general, gain or loss realized on the sale or exchange of property be recognized. *Regulations Section 1.1001-1(a)* provides that, in general, the gain or loss realized from the exchange of property for other property differing materially, either in kind or in extent, is treated as income or loss sustained. In a series of Revenue Rulings in the 1970's and 1980's, the Service began providing guidance, primarily to issuers of tax-exempt obligations, as to the changes that could be made to the terms of a debt instrument without the changes being so significant that the changed debt instrument would be considered to "differ materially, either in kind or in extent." These changes generally were made in the context of a workout, a proposed change in the use of the bond-financed property or a change in tax rates that would affect the interest rate on the tax-exempt bond. n99 Numerous private letter rulings were also issued during this time period, and a consensus emerged that although changes in interest rates (other than extremely small changes) would result in the exchange of a "materially different" new debt instrument for the old one, changes in the identity of the obligor and/or the collateral, as well as changes in the maturity, would not. This consensus is no longer valid.

[b] Cottage Savings Association

This consensus was disturbed in 1991 when the Supreme Court decided *Cottage Savings Association v. Commissioner*, n100 which held that a loss was recognized by a savings and loan association on the exchange of a participation interest in a pool of residential mortgages for a participation interest in another pool of residential mortgages that had "substantially identical" economic terms, although different borrowers. In its opinion allowing loss recognition, the

Court stated that the term "materially different" used in the Regulations in determining whether a disposition of property had occurred referred not to material differences in economic substance but to "legally distinct entitlements."

[c] Administrative Reaction to *Cottage Savings*

The *Cottage Savings* decision led to the December 1992 publication of proposed regulations under *IRC Section 1001*, setting forth rules pursuant to which a significant modification of a debt instrument would be deemed to result in an exchange of the original debt instrument for a modified debt instrument differing materially in kind or extent. These proposed regulations, as revised, were adopted as final regulations on June 26, 1996 (*TD 8675*, 61 *Federal Register* 32926). The final regulations provide a series of "bright line" tests and safe harbors that enable lenders and borrowers engaged in workout discussions to know with certainty whether modifications to the loan terms will be challenged by the Service as constituting an exchange of a new debt instrument for an old debt instrument. n101

[d] Reasons for Avoiding Reissuance

Borrowers and lenders may both be interested in avoiding a taxable exchange when restructuring a debt in a workout. A lender may wish to avoid having a debt restructuring treated as an exchange if its basis for the debt instrument is less than the face amount. n102 The Treasury Regulations establishing the amount of gain recognized when a new debt instrument is exchanged for an old debt instrument provide that the amount realized is either its issue price, or, in some circumstances, its stated principal amount, but not its fair market value. n103 Accordingly, even a cash method lender will realize gain on debt restructuring if its adjusted basis for the debt instrument is less than the recomputed issue price or stated principal amount of the modified debt instrument. n104

A borrower may wish to avoid modifications that are treated as an exchange for a number of reasons, including the possibility that:

- (1) as a result of the application of the original issue discount rules, the modified debt instrument will have a lower issue price than the old debt instrument, which could result in cancellation of indebtedness income under *IRC Section 108*;
- (2) the new debt instrument will be recharacterized as equity for tax purposes, which could result in a taxable disposition of the collateral; or
- (3) the new debt instrument will be subject to different partnership basis allocation rules or no longer constitute qualified non-recourse financing.

[e] Approach Taken in Final Regulations

The final regulations adopt an analytical building block approach, requiring first a determination of whether a change in the terms of a debt instrument rises to the level of being a "modification," and then a determination of whether any modification is a "significant modification." One of the consequences of this methodology is that multiple alterations to different terms of a debt instrument, each of which separately is not a "modification," are not aggregated into a modification; accordingly, such alterations cannot combine to become a significant modification. In contrast, multiple alterations of a term of a debt instrument, each of which does constitute a "modification," can be aggregated to result in a significant modification, even if each of the modifications, on its own, would not be deemed to be significant. A "significant modification" results in a deemed exchange that can be a taxable event.

[i] Scope of the Regulations

The regulations apply to alterations to the terms of a debt instrument rising to the level of a modification, however accomplished. Thus, they apply to an amendment to the terms of an existing debt instrument, changes that the lender

and the borrower accomplish indirectly through one or more transactions with third parties, and the actual issuance of a new debt instrument in exchange for an old debt instrument. They do not, however, apply to exchanges of debt instruments solely involving holders, or to transactions with third parties, such as interest rate swaps. n105

[ii] Definition of Modification

The definitions used in the regulations are a blend of the Supreme Court's language in the *Cottage Savings* case with the position of the Service before the Court in that case. The definition of "modification" follows the Supreme Court--it focuses on changes in legal relationships. A "modification" is defined as any alteration (including any deletion or addition, in whole or in part) of a legal right or obligation of the issuer or of a holder of a debt instrument. n106 Such an alteration is a modification whether it is evidenced by an express agreement between the parties, by the conduct of the parties, or otherwise.

Example:

An alteration that might occur by reason of the conduct of the parties, although not pursuant to any express agreement, would be the forbearance of the lender in a workout situation.

[iii] Alterations May Not Constitute Modifications

The regulations identify certain alterations that will not constitute modifications. First, as a general rule, an alteration of a legal right or obligation is not a modification if it occurs by operation of the terms of a debt instrument. This general rule does not apply to:

- (1) changes in the identity of the obligor, to the addition or deletion of a co-obligor, or to a change of an obligation, in whole or in part, from recourse to non-recourse or from non-recourse to recourse;
- (2) an alteration that changes a debt instrument into something that is not debt for federal income tax purposes (other than pursuant to the exercise of a right to convert the debt into equity of the issuer pursuant to a conversion right existing in the terms of the document); and
- (3) certain alterations resulting from the exercise of an option, unless the option is a unilateral option or, in the case of an option exercisable by the lender, the exercise does not result in a deferral or reduction of any scheduled payment. n107

Example:

An alteration that occurs by operation of the terms of the debt instrument would be changes in the interest rate required to be made to reflect changes in a reference index rate.

An option is unilateral only if:

- (1) under the terms of a debt instrument or under applicable law, the party burdened by the option does not have (at the time the option is exercised), or acquire as a result of the exercise, a right to alter or terminate the instrument or put the instrument to a person related to the issuer;
- (2) the exercise of the option does not require the consent of the other party, a party related to that party, or a court or arbitrator; and
- (3) the exercise of the option does not require consideration (other than incidental costs and expenses relating to the exercise of the option) unless, on the issue date of the instrument, the consideration is a *de minimis* amount, a specified amount or an amount that is based on a formula that uses objective financial information.

[iv] Alterations May Constitute Modifications

A change in the recourse nature of the mortgage will constitute a modification even if it occurs pursuant to the terms of the debt instrument. n108

Example:

If a mortgage loan provides that it is recourse to the owner until the property achieves a specified stabilized cash flow level, at which time it ceases to be recourse, a modification of the loan would occur at the time the property achieves the specified stabilized cash flow. Recall, however, that a taxable exchange will not automatically result unless the modification is significant.

Example:

If an obligation of the tenants-in-common of a real estate project provided that one tenant-in-common would be released if it conveyed its interest in the property to a substitute tenant-in-common whose net worth met specified standards, a modification of the debt instrument would occur at the time of such a transfer and substitution.

[v] Debt/Equity Retesting

The regulations resolve what had been a troublesome issue in debt workouts and restructuring; namely, whether, in a restructuring that was a reissuance, it would always be necessary to evaluate the new debt from a traditional debt/equity perspective.

Example:

Assume that a more than *de minimis* change in the interest rate on a mortgage loan was made at a time when a decline in the fair market value of the property had wiped out the equity cushion underlying the lender's position. Assume further that if a new loan secured by the same property were being made at the same time and on the same terms as the restructured loan, the parties' tax advisors would be concerned that the "debt" would be treated as "equity," because it had substantially all of the economic upside and substantially all of the economic downside with respect to the property. Under these circumstances, if the debt restructuring requires a debt/equity retesting, an "equity" conclusion could have undesirable tax effects on the owners of the property, including gain recognition with respect to the property, gain recognition pursuant to the partnership basis rules as a result of a reduction in the partnership's liabilities, etc. However, the regulations provide that, although an alteration resulting in an instrument that is not debt for tax purposes is generally a modification, n109 if the conclusion that the modified debt instrument is not debt for tax purposes is predicated on a decline in the borrower's financial condition from the date of issuance of the old debt instrument to the date of the modification, then the modification is generally not a significant modification. n110

[vi] Forbearance

The regulations provide that as long as there is no written or oral agreement to alter other terms of a debt instrument, a lender's temporary forbearance (i.e., an agreement by the lender to stay collection or temporarily waive an acceleration clause or similar default right) is not a modification unless the forbearance remains in effect for a period that exceeds two years (measured from the date of the issuer's initial failure to perform) plus any additional period during which either the parties conduct good faith negotiations (with respect to the debt) or the issuer is in bankruptcy or receivership, etc. n111 Note that in the event of a payment default, the lender's forbearance allows the deferral of payment during the period of the forbearance and is comparable in some respects to an extension of the maturity date. n112 This comparison is particularly appropriate if the forbearance takes the form of a binding written agreement to forbear for a specified period, as is permitted by the regulations. However, as is discussed below, the regulations also provide rules pursuant to which extensions of maturity will be considered substantial modifications. An agreement by a lender,

following a payment default, to forbear collection remedies for two years (measured from the date of the original default) is not a modification; whereas an agreement by a lender to extend the maturity of a debt obligation for two years is a modification, although it is an insubstantial modification as long as the original maturity of the debt instrument was at least four years.

[vii] Timing of a Modification

In general, if the lender and the borrower enter into an agreement to make changes in the terms of a debt instrument, and if the changes will constitute a modification, the modification occurs at the time the lender and the borrower enter into the agreement, even if the changes in the terms are not immediately effective. There are two exceptions to this rule. First, if the parties provide that the changes in the terms of the debt instrument are conditioned on reasonable closing conditions, the modification occurs on the closing of the agreement, with the result that if the closing does not occur because of the failure to satisfy the conditions, no modification occurs. n113 Second, if the change in a term of a debt instrument occurs pursuant to a plan of reorganization in a bankruptcy or similar case, the modification occurs upon the effective date of the plan. n114

[f] Significant Modifications

After adopting the approach of the Supreme Court in *Cottage Savings* to establish the definition of a modification, the Treasury Regulations generally adopted the position of the Service before the Supreme Court in that case to determine whether a modification is significant. The regulations provide that, as a general rule, a modification is significant only if the legal rights or obligations that are altered, and the degree to which they are altered, are "economically significant." n115 In general, other than modifications relating to changes in yield, timing of payments, identity of obligor or security, the nature of the debt (debt or equity; recourse or non-recourse), and accounting or financial covenants, all modifications to a debt instrument are considered collectively, so that a series of non-significant modifications may be significant when considered together. n116

[i] Changes in Yield

The regulations provide a bright-line test for determining whether a change in the yield of the debt instrument is a significant modification. The test is somewhat more generous than either prior administrative practice or the proposed regulations. The bright-line test applies to

debt instruments that provide only for fixed payments, debt instruments with alternative payment schedules subject to *Regulations Section 1.1272-1(c)*, n117 debt instruments that provide for a fixed yield subject to *Regulations Section 1.1272-1(d)* n118 and variable rate debt instruments.

Whether a change in the yield of other debt instruments is a significant modification (for example, if there is a change in the formula for determining contingent payments on a debt obligation calling for contingent payments of interest) is determined pursuant to the general rule requiring a determination of whether the changes are "economically significant".

The bright-line test for changes in yield is that a change in yield is a significant modification only if the yield of the new debt instrument varies from the yield of the old debt instrument by more than the greater of 25 basis points or 5 percent of the annual yield of the old debt instrument. n119 The 25 basis point test was carried over from the proposed regulations, which were viewed by many as being more generous than existing administrative practice. The new bright-line test based on the interest rate on the old bonds (5 percent of the yield on the old bonds) was intended to allow for *de minimis* modifications of the interest rate on higher yielding bonds where the change in interest rate might be quite small as a percentage of the yield on the bonds even though it is greater than 25 basis points.

Example:

For an obligation with a yield of 5 percent, a permitted 25 basis point increase would produce a yield of 5.25 percent (5 percent higher than the original yield). A smaller percentage increase in the yield of a mortgage loan with a higher yield (for example, a 4 percent increase that would increase the yield on an 8 percent obligation from 8 percent to 8.32 percent) would exceed the 25 basis point threshold, even though the economic significance of the change might be less for the 8 percent obligation than the 25 basis point change would be for the 5 percent obligation.

[ii] Changes in the Timing of Payments

The regulations provide that a modification changing the timing of payments due under a debt instrument is a significant modification if it results in the material deferral of scheduled payments. ⁿ¹²⁰ The regulations do not specifically address a change in the timing of payments that results in a material acceleration of scheduled payments; this is a change from the proposed regulations, which stated that a partial prepayment was not a significant modification. ⁿ¹²¹ The background information for the final regulations gives no explanation of the reason for this change.

The regulation also provides a bright-line safe harbor that a deferral of scheduled payments is not a material modification if the deferred payments are unconditionally payable no later than the end of a period beginning on the original due date of the first deferred payment and ending after a period equal to the lesser of five years or 50 percent of the original term of the instrument. ⁿ¹²² This safe harbor may not be a secure anchorage.

Example:

If, in the tenth year of a 20-year partially amortizing mortgage, the lender extended the due date for the balloon payment due at the end of the mortgage, so that it became due in 25 years rather than 20 years, the deferral would come within the safe harbor. However, if the lender, pursuant to the same mortgage, agreed in the 10th year to allow the borrower to skip one year's principal installment and extended the due date for the final principal payment by one year, the extension would not seem to fall within the safe harbor. ⁿ¹²³

[iii] Changes in Obligor

The regulations provide that, as a general rule, a change in the obligor is a significant modification. Several exceptions to this general rule are provided. First, the substitution of a new corporate obligor is not a significant modification if it occurs pursuant to a liquidation under Section 332 (a liquidation of an 80 percent owned subsidiary) or a reorganization described in subparagraphs A, C, D, F or G of Code Section 368(a)(1); if the transaction does not result in a change in the lender's "payment expectations"; and if the transaction does not result in a "significant alteration" (an alteration that would be a significant modification but for the fact that it occurs pursuant to the terms of the loan documents). ⁿ¹²⁴ A lender's payment expectations change if, as a result of the change, there is a substantial increase in the borrower's ability to pay the debt, and the change increases the borrower's ability from primarily speculative to adequate, or if there is a substantial decrease in the borrower's ability to pay the debt and the decrease changes that ability from adequate to primarily speculative. ⁿ¹²⁵

[iv] Certain Asset Acquisitions

The substitution of a new obligor is not a significant modification if the new obligor acquires substantially all of the assets of the original obligor, provided that the transaction does not result in a change in payment expectations and does not result in a significant alteration. ⁿ¹²⁶

[v] Significant Alterations

The conclusion that certain of the foregoing changes in obligor do not constitute a significant modification depends in

part upon the conclusion that the transaction does not result in a "significant alteration." The regulations define the term significant alteration to mean an alteration (i.e., a deletion or addition in whole or in part of a legal right or obligation of the issuer or holder of a debt obligation) that would be a significant modification but for the fact that it occurs by operation of the terms of the instrument. n127 Understanding this provision requires a review of the basic structure of the regulations. In general, alterations are examined to determine whether they constitute modifications. Modifications are then examined to determine whether they are significant modifications. Certain alterations occurring pursuant to the terms of a debt instrument are not modifications (for example, a debt instrument might provide for a change in interest rate because of changes in prevailing index rates or in the value of the collateral securing the mortgage). Even though such a change occurring pursuant to the terms of the debt instrument would be an alteration that does not constitute a modification, if it did constitute a modification, the modification might be significant (for example, if the change violated the "change in yield" bright line test). Accordingly, if the debt instrument provided that the interest rate would automatically increase in the event of a corporate acquisition, and if the increase was a change in yield that was outside the change in yield bright-line, the interest rate change would be a significant alteration and would cause the substitution of an obligor to constitute a significant modification.

[vi] Other Rules Relating to Changes in the Obligor

The regulations provide that the substitution of a new obligor on a non-recourse debt instrument is not a significant modification. n128 On initial evaluation, this seems like a reasonable position--the lender on a non-recourse loan is depending on the value of the property and has no right to seek payment from other assets of the borrower, so a change in the identity of the borrower should not be material. However, not all borrowers are created equal. It is not uncommon for loan documents to prohibit the transfer of the property providing collateral security for a non-recourse loan without the consent of the lender. Lenders include such a provision in their loan documents because, even in the case of a non-recourse loan, the lender is relying to some extent on the track record and reputation of the borrower. One borrower ("Borrower A") may have the reputation of having a long-term view and may have the resources to maintain the quality of a rental building even during a slow rental market; another ("Borrower B") may be thinly capitalized and have a reputation for letting properties struggle and suffer during such a period. n129

[vii] Addition or Deletion of a Co-Obligor

The regulations provide that the addition or deletion of a co-obligor on a debt instrument is a significant modification if it results in a change in payment expectations or it is part of a series of transactions that results in a substitution of a new obligor. In the latter case, it is tested under the rules applicable to substitutions of obligors rather than the rules applicable to additions or deletion of co-obligors. n130

[viii] Changes in Security or Credit Enhancement

The regulations provide that a modification that releases, substitutes, adds or otherwise alters the collateral for, or a guarantee on or other form of credit enhancement for a recourse debt instrument is a significant modification if the modification results in a change in payment expectations. Here also the distinction between an alteration that is not a modification and one that is a modification is important. For example, if a mortgage loan that is supported by a guarantee from an AA credit enhancer requires that the credit enhancer be replaced by an AAA credit enhancer under certain circumstances, such a change would be an alteration that is not a modification (because it occurs pursuant to the terms of the debt instrument) even if the change in credit enhancer resulted in a change in payment expectations. n131 However, if the change in credit enhancer was not provided for in the terms of the loan document, but instead was negotiated by the parties (thus constituting a modification), it would be a significant modification if it resulted in the change in payment expectations. n132

The regulations provide that a modification that releases, substitutes, adds, or otherwise alters a substantial amount of the collateral for, or a guarantee on, or other form of credit enhancement for a non-recourse debt instrument is a

significant modification, except that a substitution of collateral is not a significant modification if the collateral is fungible (e.g., government securities); a substitution of a similar commercially available credit enhancement contract for existing credit enhancement is not a significant modification; n133 and the improvement of the property securing a non-recourse debt does not result in a significant modification. n134

[ix] Changes in Priority

A change in the priority of a debt instrument relative to other debt of the issuer is a significant modification if it results in a change in payment expectations. n135

[x] Changes in Recourse Nature of a Debt Instrument

The regulations provide, in general, that a change in a debt instrument from recourse (or substantially recourse) to non-recourse (or substantially non-recourse) is a significant modification. For example, a legal defeasance of a recourse loan is a significant modification because, after the legal defeasance, the borrower no longer has any legal liability on the debt. There are two exceptions to this rule, one dealing with defeasance of tax exempt bonds, and the second dealing with a modification that changes a recourse debt to a non-recourse debt if (a) the debt continues to be secured only by the original collateral, and (b) the modification does not result in a change in payment expectations.

Example:

This latter exception should apply to a change in a loan from recourse during the construction period to non-recourse after the building receives a Certificate of Occupancy and achieves a stabilized specified revenue level, as long as the change to non-recourse does not result in a change in payment expectations. n136

A loan agreement well drafted by the lender will presumably not permit a change from recourse to non-recourse that results in a change in payment expectations.

[xi] Rules of Application

A transaction that implicates several provisions of the regulations must be tested under each of them. For example, a deferral of the maturity date of a zero coupon bond that changed both the yield and the timing of payments would have to be tested both under the section dealing with changes in yield and under the section dealing with deferrals of payments. If a modification would otherwise be covered by the bright-line tests or safe harbors for significance (i.e., those dealing with changes in yield, changes in timing of payments, changes in the obligor or security and changes in the nature of the debt instrument, such as from recourse to non-recourse), but is effective only upon the occurrence of a substantial contingency, the significance of the modification must be determined pursuant to the general rule of economic significance, rather than the specific bright-line tests and safe harbors. n137

[xii] Cumulative Effect and Aggregating

The regulations provide that modifications of different terms of a debt instrument, none of which separately would be a significant modification under any of the bright-line tests, do not need to be aggregated (except that in evaluating the significance of any particular modification, it is assumed that all of the other simultaneous modifications have already occurred). In contrast, two or more modifications of the same term of a debt instrument over a period of time must be aggregated to determine whether they would constitute a significant modification if they had been made as part of a single change. n138

[g] Substitutions of Debt Instruments Using Election Under Revenue Procedure 2001-21

[i] In General

In Revenue Procedure 2001-21, n138.1 the IRS has provided taxpayers with an optional election to treat certain debt substitutions as realization events, applicable to substitutions occurring on or after March 13, 2001. n138.2 The election is available when a taxpayer substitutes a newly issued debt instrument for an outstanding one. The election is available even though the substitution does not result in a significant modification under the regulations, n138.3 and is therefore not otherwise an exchange. n138.4

[ii] Background

A modification of a debt instrument is generally treated as a taxable exchange of the original instrument for the modified instrument only if the modification is significant. n138.5 The regulations provide rules to determine whether certain modifications, such as a change in the yield or timing of payments, constitute significant modifications. n138.6

A taxpayer may want to refinance and consolidate outstanding debt instruments in a way that increases the liquidity of the issuer's debt by concentrating more of the issuer's outstanding debt in a smaller number of issues. In general, if the terms of the newly issued debt are not materially different from the terms of the outstanding debt, substituting the newly issued debt for the outstanding debt does not result in a significant modification of the outstanding debt. Therefore, the substitution of the newly issued debt for the outstanding debt in the refinancing and consolidation is not a realization event for tax purposes. Some or all of the newly issued debt, however, may have original issue discount in varying amounts, depending upon the terms of the outstanding debt for which the newly issued debt was substituted. n138.7

[iii] Scope of Revenue Procedure 2001-21

The election under this *Revenue Procedure 2001-21* is available only if all of the following conditions are satisfied: n138.8

- Either (a) debt instruments from a single new issue ("new debt") are substituted for debt instruments from two or more outstanding issues of debt ("old debt"), or (b) debt instruments issued in a qualified reopening n138.9 ("new debt") are substituted for debt instruments from one or more outstanding issues of debt ("old debt").

- The substitution does not result in a significant modification of the old debt under the regulations. n138.10

This determination may be made either on the substitution date or on the date that is two business days before the date on which the substitution offer commences, provided that date is no more than 30 business days before the date on which the substitution offer ends.

- The new debt and the old debt are publicly traded.
- The old debt was issued at par, at a premium, or with less than a *de minimis* amount of original issue discount. n138.11
- The new debt is issued at par or with less than a *de minimis* amount of original issue discount or premium. For purposes of this condition, the issue price of the new debt is determined under Treas Reg § 2510.3-101, rather than under 29 CFR § 2510.3-101, and the *de minimis* amount for premium is determined using principles of Treas Reg § 1.1273-1(d).
- Neither the new debt nor the old debt is a contingent payment debt instrument, n138.12 a tax-exempt obligation, n138.13 or a convertible debt instrument. n138.14

- All payments on the old debt and the new debt are denominated in, or determined by reference to, US dollars, and the functional currency of the business unit issuing the new debt is the US dollar.
- The issuer and one or more holders of the old debt make the election provided for in *Revenue Procedure 2001-21*.

[iv] Making the Election

The issuers and holders make the election by agreeing in writing to treat the substitution in the manner specified in §§ 4.02 through 4.04 of *Revenue Procedure 2001-21*. The agreement must be entered into no later than the last day of the month in which the substitution occurs. The procedure gives several sample statements of election. n138.15 The issuer must attach a statement containing specified information about the old and new debt to its return for the taxable year in which the substitution occurs. n138.16

[v] Treatment of Substitution

If the election is made, the issuer and electing holders must report the substitution for tax purposes as a repurchase of the old debt in exchange for the new debt in the taxable year in which the substitution occurs. n138.17 The revenue procedure specifies the manner in which the issuer and electing holders must account for the deemed exchange. n138.18 Unless the new debt is issued in a qualified reopening, the issuer must take into account over the term of the new debt any difference between the adjusted issue prices of the old debt at the time of the substitution and the issue price of the new debt. If the aggregate issue price of the new debt that is transferred to electing holders as a substitute for the old debt is greater than the aggregate adjusted issue prices of the old debt for which it is substituted, the issuer treats the difference as a reduction in the aggregate issue price of the new debt. As a result, the difference is taken into account by the issuer over the term of the new debt as increased original issue discount or as reduced bond issuance premium. If the aggregate issue price of the new debt that is transferred to electing holders as a substitute for the old debt is less than the aggregate adjusted issue prices of the old debt for which it is substituted, the issuer treats the difference as an increase in the aggregate issue price of the new debt. As a result, the difference is taken into account by the issuer over the term of the new debt as reduced original issue discount or increased bond issuance premium. n138.19 If the new debt is issued in a qualified reopening, the issuer applies the above rules by using the remaining term of the new debt instead of the term of the new debt, and by using the adjusted issue price of the new debt immediately after the substitution instead of the issue price of the new debt. n138.20 Notwithstanding any other Code provisions that would otherwise apply (including *IRC* §§ 356(a) and 1276(a)), an electing holder does not recognize any gain or loss as a result of the deemed exchange. Instead, the holder's basis immediately after the substitution in the new debt is the same as the holder's adjusted basis (determined as of the date of the substitution) in the debt instruments for which the new debt was substituted. In addition, the holder's holding period for the new debt includes the holder's holding period for the old debt. n138.21

If the stated redemption price at maturity of the new debt n138.22 is greater than the holder's basis (immediately after the substitution) in the new debt, the holder treats the difference as market discount on the new debt and the new debt as a market discount bond, unless the discount is *de minimis*. n138.23 The treatment of market discount is governed under *IRC Sections 1276 and 1278*. n138.24 A different rule applies if, as of the date of the substitution, there is any accrued market discount on the old debt that has not been taken into account by the holder as ordinary income. If there is no market discount on the new debt or the amount of any market discount on the new debt is *de minimis*, the amount of accrued market discount on the new debt is zero, and the accrued market discount on the old debt is ignored. If the amount of market discount on the new debt is more than *de minimis*, the lesser of this market discount and the accrued market discount on the old debt is treated by the holder, as of the date of the substitution, as accrued market discount of the new debt. In addition, solely for purposes of determining the accruals of any additional market discount on the new

debt, the holder's basis is increased by the amount of the accrued market discount on the old debt that is treated as accrued market discount on the new debt. n138.25 If the holder's basis in the new debt (immediately after the substitution) is greater than the stated redemption price at maturity of the new debt n138.26 the holder treats the difference as bond premium on the new debt. n138.27

[h] Election to Defer Cancellation of Indebtedness Income from Reacquisition of a Debt Instrument

In response to the economic downturn and tight lending market in 2008 and 2009, Congress enacted a temporary provision that allows taxpayers to elect to defer cancellation of indebtedness income arising from a reacquisition of certain debt instruments after December 31, 2008, and before January 1, 2011. Income so deferred must be included in gross income of the taxpayer ratably over five years beginning four or five years after the reacquisition. n138.28 A taxpayer who makes the election must defer any otherwise allowable original discount deduction with respect to the newly issued instrument. n138.29 See Chapter 12 for a detailed discussion of the provision.

[6] Debt Securitizations--Flexibility Constraints

[a] Overview

A Real Estate Mortgage Investment Conduit, or "REMIC" is an entity created under *IRC Sections 860A-860G* to provide a tax structure within which real estate mortgages can be securitized. A REMIC is generally not subject to any federal income tax; instead, the income from the mortgages it holds is taxed to the holders of interests in the REMIC. n139 It may be necessary or desirable for the developer of a commercial real estate project to seek financing that would be eligible for inclusion in a REMIC. The securitization of a real estate mortgage results in a lower effective interest rate for the borrower than would be obtainable through a non-securitized financing, because the securitization process repackages the underlying real estate mortgages into separate securities with differing maturities and priorities. Because of their attractiveness to different categories of investors, the separate securities will have a lower aggregate interest cost than would a single conventional loan. However, a principal issue that must be faced by a borrower is whether the structural rigidity of the REMIC rules will outweigh the interest rate advantages of the use of a REMIC as a real estate financing technique.

This chapter will limit its analysis of the REMIC rules to some of the operational constraints a REMIC financing will impose on the owner of a commercial real estate project. n140 In greatly simplified form, the essential structural elements for a REMIC, and the essential characteristics of a mortgage loan to be securitized through a REMIC, are the following:

The interests in the REMIC must consist only of regular interests (which, in general, are taxed like debt instruments) and a single class of residual interest (which, in general, is taxed like an equity investment). n141 The regular interests in the REMIC must have fixed terms, be issued at the inception of the REMIC, and must not be materially modified at any time thereafter. n142 The assets held by the REMIC must be limited to: qualified real estate mortgages, permitted liquid investments as reserves or as temporary investments of cash flow, and property acquired in the event of foreclosure, default or imminent default on a qualified mortgage. n143 The qualified mortgages held by the REMIC generally must be acquired at the inception of the REMIC, or within a brief period thereafter, or as replacements for defective mortgages within a limited time after the formation of the REMIC. n144 In general, the qualified mortgages may not be materially modified at any time after their acquisition by the REMIC. n144.0.1 As will be seen, this last requirement may prove to be a significant restriction on the borrower. It should be noted, however, that regulations provide a number of exceptions under which changes in the terms of a mortgage are not treated as modifications. n144.0.2 In addition, the IRS has issued several revenue procedure "safe harbors", under which it will allow modifications of certain loans without challenging the tax status of the REMIC. n144.0.3 These procedures are discussed in detail in Chapter 16. It should also be noted that qualified mortgage obligations represent an increase in the principal amount under the original terms of an obligation, provided that increase: (1) is attributable to an advance made

to the obligor pursuant to the original terms of the obligation; (2) occurs after the REMIC startup day; and (3) is purchased by the REMIC pursuant to a fixed price contract in effect on the startup day. n144.1 The term also includes reverse mortgage loans and the periodic advances made to obligors on them. n144.2

[b] Limitations on Borrower

The REMIC qualification requirement that substantially all the assets of the REMIC must consist of "qualified mortgages" and "permitted investments" can limit the flexibility of the borrower under a REMIC-securitized mortgage to manage its real estate, by limiting the times and circumstances in which it can obtain the release of collateral in connection with a sale or other transaction with respect to the property, and will generally eliminate the ability of a borrower to renegotiate the terms of its mortgage if economic conditions change.

[i] Definition of Qualified Mortgage

A "qualified mortgage" is, generally, any obligation (including any participation or certificate of beneficial ownership therein) that is principally secured by an interest in real property and is transferred to the REMIC on the start-up date in exchange for regular or residual interests therein, or is transferred to the REMIC within three months after the start-up date in exchange for another obligation, or is transferred to the REMIC within two years after the start-up date in exchange for a defective obligation. Accordingly, a real estate mortgage otherwise constituting a "qualified mortgage" will not be a "qualified mortgage" if (with limited exceptions not applicable here) it is acquired by the REMIC after its start-up day. A substantial modification of a mortgage loan can cause a REMIC to be treated as acquiring a new mortgage loan on the date of the substantial modification.

Observation: This requirement can limit the flexibility of a borrower whose mortgage loan is securitized in a REMIC, for example, by preventing a borrower from obtaining the release of some real estate collateral by posting substitute real estate collateral.

[ii] Release of Collateral-Defeasance

A borrower in a multiple property real estate financing may need to be able to obtain the release of one or more of the properties in the collateral package (for example, because the collateral consists of a large number of properties and the borrower's normal business operations result in periodic property dispositions and acquisitions), while keeping the original financing in place secured by replacement collateral. The borrower will generally find that its financing costs will be higher for a loan that is prepayable than they will be for a loan that is not prepayable, but it may need to preserve its flexibility with respect to the collateral and have the ability to obtain a release of a portion of the original collateral. In a conventional multi-property loan, if the collateral properties are sufficiently homogenous, a borrower may be able to negotiate with the lender for the right to obtain the release of a portion of the original collateral by pledging substitute property as collateral, provided that the substitute property meets pre-specified underwriting criteria. With a non-securitized conventional loan, a borrower's ability to obtain these rights is limited primarily by the strength of its negotiating position, by its ability to develop with the lender satisfactory underwriting criteria for the replacement collateral, and by the parties' general desire to avoid causing a reissuance of the mortgage loan because of potential gain recognition and original issue discount/ cancellation of indebtedness income consequences. n145 In the context of a loan intended to be securitized in a REMIC, however, the borrower's flexibility is also constrained by the REMIC rules.

[iii] Restrictions Imposed in REMIC Documentation

The loan documents relating to a loan to be securitized through a REMIC will generally provide that the borrower will be entitled to defease the loan, in whole or in part, at any time after the later of (a) a negotiated number of years after the loan closing or (b) two years from the lender's securitizing the loan, if it delivers to the trustee sufficient secure liquid collateral such that the scheduled payments of principal and interest on the defeasance collateral will provide timely payment of all the remaining scheduled payments of principal and interest on the defeased portion of the loan. n146 If

the loan is a multi-property cross collateralized loan, the defeasance provisions will probably require that the defeasance collateral be a percentage (higher than 100%) of the portion of the outstanding loan principal allocated to the property being defeased.

Observation: Such a right to defease a portion of the loan will give the borrower the right to manage its property portfolio within the permitted time frame, but at a potentially significant cost if the opportunity to sell one of the properties occurs at a time when interest rates have declined, because of the increased cost of obtaining the defeasance collateral.

[iv] Required Legal Opinions

It can be expected that the loan documents will provide that, in connection with any such defeasance, the borrower will have to provide an opinion of counsel that the defeasance (i) will not adversely affect the federal income tax status of the REMIC pool in which the loan has been included (the "Non-disqualification Opinion") and (ii) will neither result in any "deemed" exchange pursuant to *IRC Section 1001* nor adversely affect the loan's status as indebtedness for federal income tax purposes. The first two of these concepts are specifically addressed in the Treasury Regulations and the third requires the application of reasonably well-established common law principles. It should be possible for a borrower to negotiate a defeasance right that is neither a reissuance of the underlying mortgage loan, nor a conversion of the mortgage loan into something other than true debt, and does not have an adverse impact on the status of the REMIC.

[v] Criteria for Defeasible Loans

First, the right to defease must be contained in the terms of the loan documents. Second, either the loan must not be a recourse loan, or the defeasance must not constitute a legal defeasance. n147 As is discussed in greater detail in § 19.03[5] above, an alteration of a legal right or obligation that occurs by operation of the terms of a debt instrument is generally not a modification, and if it is not a modification, it cannot be a significant modification that causes a "deemed" exchange. A legal conclusion that there has been no reissuance (and that the defeasance does not otherwise cause the loan to be treated as other than true debt for federal income tax purposes) will justify the giving of the tax opinions referred to above.

[vi] Exceptions

The rule that alterations occurring by operation of the terms of a debt instrument cannot constitute modifications contains exceptions potentially applicable to a defeasance. One exception is for an alteration that results in the substitution of a new obligor, or a change, in whole or in part, in the recourse nature of the instrument. The reissuance regulations provide that a legal defeasance of a recourse debt instrument (i.e., a defeasance transaction in which a recourse borrower is released from all liability to make payments on the debt instrument, including any obligation to contribute additional securities if necessary to provide sufficient funds to meet all scheduled payments on the instrument) is a change in the nature of a recourse debt instrument to a non-recourse debt instrument and constitutes a significant modification. n148 Accordingly, it is important for tax purposes that a multi-property loan as to which defeasance flexibility is required not be a recourse loan, or that the permitted defeasance not be a legal defeasance as described above. Rating agencies involved with a securitized mortgage may insist that the defeasance collateral be owned by a new special purpose entity, a step that may cause the defeasance to be treated as a legal defeasance.

Observation: There may be a conflict between a recourse borrower's business goals for a defeasance (which would lean towards a legal defeasance) and its tax goals (which may require that the defeasance not be a legal defeasance).

A second exception is for alterations resulting from the exercise of an option that is not unilateral, provided to an issuer or holder, to change a term in a debt instrument (and, in the case of options exercisable by a holder, only if the exercise of the option does not result in deferral of, or a reduction in, any scheduled payment of interest or principal). This

provision should not apply to a defeasance right as long as the exercise of the right does not give the lender any right to alter the debt; to require it to be paid; to "put" the debt to an affiliate of the borrower; a right to consent; or a right to a payment that is not fixed in the terms of the debt instrument and would make the borrower's right to defease something other than unilateral.

Observation: A borrower under a multi-property loan destined for securitization will, for both business and tax reasons, generally resist any requirement that consent be obtained for a defeasance, or that a fee be payable, unless the fee is *de minimis*, or fixed in or calculable from the terms of the loan documents.

[vii] REMIC Disqualification Analysis

The REMIC regulations specify the circumstances in which a defeasance will not have an adverse impact on the status of the REMIC. The release of a lien on real property securing a qualified mortgage will not cause the mortgage to cease to be a qualified mortgage on the date the lien is released if the mortgagor pledges substitute collateral consisting solely of government securities (as defined in Section (2)(a)(16) of the *Investment Company Act of 1940*); the mortgage documents allow such a substitution; the lien is released to facilitate the disposition of the property or any other customary commercial transaction and is not part of an arrangement to collateralize a REMIC offering with obligations that are not real estate mortgages; and the release does not occur within two years of the start-up date of the REMIC.

n149

[c] Partial Prepayment Alternative

The requirements set forth in the preceding paragraph should not be applicable to transactions in which a loan is prepaid or partially prepaid. Accordingly, an alternative strategy for a borrower who wishes to sell a portion of the mortgaged collateral would be to prepay a sufficient portion of the loan to obtain a release of the property. As is noted above, however, a borrower will generally pay an increased interest cost on a prepayable loan to compensate the lender for the reinvestment interest rate risk that would arise in the event of a prepayment. The REMIC statutory provisions and regulations do not address the consequences of the release of a lien by a REMIC as a result of the partial payoff of a mortgage loan. However, a partial or complete payoff of a mortgage loan is a transaction that will occur frequently in the ordinary course of business of a mortgage pool, and a partial or complete payoff of a mortgage loan will frequently be caused by a desire to obtain the release of the mortgage lien on all or a portion of the collateral. Accordingly, *Regulations Section 1.860G-2(a)(8)* should not be interpreted as applying to a release of collateral attributable to a partial prepayment, but should be viewed merely as a test for determining whether an obligation continues to be principally secured by real property if the lien on the original real estate collateral is released, and other collateral is pledged as substitute security. *Regulations Section 1.860G-2(a)(8)* imposes limits on the release of real property collateral securing a qualified mortgage at a time when the mortgage and the regular interests are not being prepaid, because the regulation limits the type of substitute collateral that may be pledged by the mortgagor without violating the "primarily secured by real property" requirement. In a partial or complete payoff of a qualified mortgage, the mortgagor will not need to pledge substitute collateral. A mortgage that has been paid off is no longer an asset of the REMIC. Under the final regulations, a prepayment should not be viewed as a significant modification because it does not generally have an economically significant effect on the remaining portion of the loan.

[7] Debt to Equity Conversions

[a] Background

The ultimate debt restructuring is a conversion of the debt into an equity interest in the collateral property or in the borrower. There remains some controversy concerning the issue of whether or not a conversion by a partnership creditor of its debt of the partnership into an equity interest in the partnership is an income recognition event. *IRC Sections 61(a)(12)* and *108* provide that, except as otherwise provided in subtitle A, gross income includes income from

discharge of indebtedness. The exclusions provided in *IRC Section 108* do not address the conversion of partnership indebtedness into partnership equity, although they do contain specific rules addressing the tax consequences of a contribution of corporate debt to the capital of a corporation or the satisfaction of corporate debt through the issuance of corporate stock to the creditor. n151 On the other hand, *IRC Section 721(a)* provides, without any exceptions, other than an exception for transactions involving partnership investment companies, that no gain or loss shall be recognized to a partnership or any of its partners in the case of a contribution of property to the partnership in exchange for an interest in the partnership.

The foregoing analysis supports the conclusion that a partnership should not recognize cancellation of indebtedness income if a creditor transfers all or a portion n152 of the partnership's debt to the partnership in exchange for an equity interest in the partnership, n153 and receives a capital account interest in the partnership equal to the outstanding amount of the debt. The conversion may be an occasion on which the other partners may wish to have the partnership adjust their capital accounts to reflect the fair market value of the partnership's assets. n154 There may be a different result if the creditor receives a capital account that is *smaller* than the outstanding amount of the debt--under those circumstances, the argument against debt relief income may be weaker. n155

[b] Internal Revenue Service Position

The Service has been of two minds on this issue. *Compare* notice of proposed rule making CO-90-90, which states:

The Treasury Department intends to issue regulations designed to prevent the elimination of income from discharge of indebtedness in certain non-recognition transactions... . [T]he regulations to be issued will provide for recognition of income from discharge of indebtedness in these cases. Some of the non-recognition transactions to which the regulation will apply will include transactions described in Sections ... 721 The regulations to be issued will be effective for any transaction on or after March 21, 1991; n156

with *Notice 91-15* , which states:

Except to the extent described above [describing certain transactions not related to the subject under discussion] the preamble to proposed Section 1.108-2 and this notice do not affect the treatment of transactions in which debtor and creditor interests are combined. Until further guidance is issued, such transactions will be treated in accordance with current law. Thus, in general, the transfer of partnership debt to a partnership in exchange for a partnership interest is not within the scope of the preamble. n157

It should be noted that Service officials have stated publicly that the Service does not believe that there is a partnership equity for debt exception to the cancellation of indebtedness income rules. n158

[c] Analysis of Convertible Partnership Debt

At times when the available pool of funds for financing commercial real estate projects is in short supply, a developer may find that institutional lenders will lend only if they also receive a right to convert their debt into an equity interest in the borrower-partnership. The more speculative the project, the more likely it is that the lender will take this position. The borrower-partnership will have an additional basis to contend that the conversion of debt into partnership equity is not a taxable event under these circumstances. This non-recognition theory is based on the analysis contained in authorities dealing with convertible corporate debt, which hold that no gain is realized on conversion, without regard to whether the transaction would stand up as a recapitalization, on the theory that the equity interest into which the debt is converted was an element always existing in the debt. n159 The authorities in this area also provide that the holding period of stock acquired on conversion of convertible debt will include the holding period of the debt that was converted. n160 This "tacked on" holding period conclusion is based either on *IRC Section 1223(1)*, which provides that in determining the holding period for property received in an exchange, the period for which the exchanged property

was held shall be included if the property received has the same basis, in whole or in part, as the property exchanged, or on the theory that the equity is simply the continuation of the original investment, albeit in a different form.

FOOTNOTES:

(n1)Footnote 27. *PLR's 8708082 and 8626025* hold that a REIT can treat a loan secured by the borrower's interest in a partnership or joint venture as if it was secured by an allocable portion of the assets of the partnership or joint venture. Accordingly, under the theory of these private letter rulings, a loan secured by interests in a partnership that owns only real estate would be a qualified mortgage. However, the Service is reportedly reconsidering its position on this issue and has stopped issuing rulings. See Fass, Shaff and Zief, *Real Estate Investment Trust Handbook* at § 4.11[2][b] (West Group, 1999).

(n2)Footnote 28. The REMIC regulations define the terms "interests in real property" and "real property" for REMIC purposes by reference to the definitions of those terms in the REIT rules. *Treas Reg § 1.860G-2(a)(4)*, cross referencing *Treas Reg §§ 1.856-3(c)* and *-3(d)*. Both of these definitions are used for purposes of the definition of "qualified mortgage" within the meaning of *IRC § 860G(a)(3)* and "real estate assets" in *IRC § 856(c)(5)*.

(n3)Footnote 29. *Treas Reg § 1.856-3(g)*.

(n13)Footnote 40. *IRC § 871(h)(2)(B)*. See *IRC § 163(f)(1), (2)*; the Secretary may determine that the statement is not necessary in order to carry out the purposes of *IRC § 871(h)*.

(n14)Footnote 41. *Temp Treas Reg § 5f-1.103-1(c)* provides as follows:

"(1) General Rule. An obligation ... is in registered form if--(i) the obligation is registered as to both principal and any stated interest with the issuer (or its agent) and transfer of the obligation may be effected only by surrender of the old instrument and either the reissuance by the issuer of the old instrument to the new holder or the issuance by the issuer of a new instrument to the new holder, [or] (ii) the right to the principal of and stated interest on the obligation may be transferred only through a book entry system maintained by the issuer (or its agent) (as described in paragraph (c)(2) of this section)."

The cross referenced paragraph (c)(2) reads as follows:

"(2) Special rule for registration of a book entry obligation. An obligation should be considered transferable through a book entry system if the ownership of an interest in the obligation is required to be reflected in a book entry, whether or not physical securities are issued. The book entry is a record of ownership that identifies the owner of an interest in the obligation."

(n18)Footnote 42.3. Pub Law No 111-147, § 502(f).

(n19)Footnote 43. As to payments before January 1, 2001, see *Temp Treas Reg §§ 35A.9999-5(e)(A-21); (A-1) (A-8)*; and *Temp Treas Reg § 1.163-5 T(b)*; as to payments after December 31, 2000, see *Treas Reg § 1.871-14(d)*; see also *Notice 99-25, 1999-20 IRB 75 and TD 8856*.

(n20)Footnote 44. *Treas Reg § 301.7701-1(d)* defines a domestic entity as one "created or organized in the United States or under the law of the United States or of any state."

(n21)Footnote 45. *Treas Reg § 301.7701-3(a)*.

(n22)Footnote 46. *IRC §§ 141-150*.

(n23)Footnote 47. *IRC § 142(d)*.

(n24)Footnote 48. *IRC § 144(a)*.

(n25)Footnote 49. *IRC § 144(c)*. For a thorough discussion of the federal tax rules applicable to municipal bonds, see *National Association of Bond Lawyers, Federal Taxation of Municipal Bonds*.

(n26)Footnote 49.1. See *IRC § 142(a)(14)*.

(n27)Footnote 50. See *§ 19.03[5]*.

(n28)Footnote 51. *Treas Reg § 1.150-1(d)(2)(v)*. This regulation provides that if, within six months before or after a person assumes (or takes subject to) obligations of an unrelated party in connection with an asset acquisition, the assumed issue is refinanced, the refinancing issue is not treated as a refunding issue.

(n29)Footnote 52. *IRC §§ 146; 147(d)*.

(n30)Footnote 53. *IRC §§ 708(a); 708(b)(1)(B)*.

(n31)Footnote 54. Such a recharacterization might be possible if the funding for the redemption is contributed to the partnership or loaned to the partnership by the remaining partners, guaranteed by the remaining partners, etc. *IRC § 707(a)(2)(B)*.

(n32)Footnote 55. This conclusion follows from the fact that although there is an exception in the regulations for certain tax-free reorganizations, the reorganizations referred to in the exception include only corporate *asset* acquisitions (liquidations of subsidiaries, mergers, tax-free asset acquisitions, etc.)—the exception does not cover the tax-free acquisition of all of the stock of a corporation. If the regulation applied to a transaction in which the equity interests in

the owning entity are sold and the owning entity simultaneously refinances its tax-exempt bonds, there would be no exception for a tax-free stock acquisition, even though there clearly is an exception for all of the variations of tax-free asset acquisitions. This would not make any sense.

(n33)Footnote 56. *PLR 9823008* .

(n34)Footnote 57. *IRC §§ 1271-1275*.

(n35)Footnote 58. *IRC § 1271(a)(1)*.

(n36)Footnote 59. *IRC § 1271(a)(2)(A)*.

(n37)Footnote 60. Short-term obligations are obligations with an original maturity of not more than one year from date of issue obligations, on which an amount of gain realized equal to the ratable share of "acquisition discount" is treated as ordinary income. Because these rules apply only to short-term obligations, and primarily affect the holder of the indebtedness, not the issuer, they are not likely to be relevant in real estate finance transactions.

(n38)Footnote 61. *IRC § 1272*.

(n39)Footnote 62. *IRC § 163(e)(1)*. The exceptions include a deferral [*IRC § 163(e)(3)*] of the original issue discount deduction for obligations held by related foreign persons and limitations on the deduction of original issue discount on certain high yield obligations [*IRC § 163(e)(5)*]. Note that the restrictions related to certain high yield obligations are suspended for qualifying obligations issued from Sept 1, 2008 through Dec 31, 2010 [*IRC § 163(e)(5)(F)(i), (iii); Notice 2010-11, 2010-4 IRB 326*].

(n40)Footnote 63. Original issue discount of less than an amount equal to 1/4 of 1 percent of the stated redemption price at maturity times the number of complete years to maturity is de minimis. *IRC § 1273(a)(3)*.

(n41)Footnote 64. *IRC § 1273(a)(1)*.

(n42)Footnote 65. *IRC § 1274(d)*.

(n43)Footnote 66. *IRC §§ 1273(b)(4) and 1274(a)*.

(n44)Footnote 67. *IRC § 1273(a)(2); Treas Reg § 1.1273-1(c)*. The contingent interest regulations discussed below change the definition of "qualified stated interest" as a result of the establishment of the rules relating to remote and incidental contingencies, and the rules providing for alternative but fixed payment schedules. Accordingly, the former definition of qualified stated interest contained in former *Treas Reg § 1.1273-1(c)* "stated interest that is unconditionally payable... at least annually at a single fixed rate ..." is modified to provide that interest is only treated as unconditionally payable if reasonable legal remedies exist to compel payment, or the debt instrument otherwise contains terms and conditions that make the likelihood of late payments or non-payment remote. See Rev Rul 95-70, 1995-2 CB 124 , for an analysis of a loan that bears a penalty rate of interest on delinquent interest, and holding that such amounts are not unconditionally payable.

(n45)Footnote 68. *IRC § 1274A* provides special rules for certain smaller transactions, which would generally not be of any benefit to a real estate financing of any significant size.

(n46)Footnote 69. *IRC § 1275(d)*.

(n47)Footnote 70. For a discussion of a loan bearing contingent interest that was held to constitute equity, not debt, see, *Farley Realty Corp v. Commr*, TC Memo Dec 1959-93 (1959), *aff'd* 279 F2d 701 (2d Cir 1960) .

(n77)Footnote 100. 499 US 554 (1991) .

(n78)Footnote 101. *Treas Reg* § 1.1001-3. The final regulations apply to modifications to debt instruments on or after Sept 24, 1996, although taxpayers could rely on them for modifications occurring after Dec 2, 1992 [*Treas Reg* § 1.1001-3(h)]. December 2, 1992 was the date on which the reissuance regulations were first proposed. It isn't clear why the Service chose not to allow taxpayers to rely on the final regulations for prior transactions, whenever occurring. One reason might have been the recognition that this would be a one-way street; it would not be appropriate for the Service to require taxpayers to follow the regulations for periods before their proposal, because there was more favorable prior administrative authority, and the language used by the Supreme Court in the *Cottage Savings* case created substantial confusion. Alternatively, in view of the fact that the statute of limitations on 1992 restructurings for calendar year taxpayers would generally be expiring during 1996 (unless consents extending those statutes of limitations have been executed by the taxpayer and the government), it may be that this statement has as its background a decision by the Service that it will not pursue pre-1993 cases and that it does not expect or want to facilitate any refund claims for pre-1993 cases. In any event, this issue is one that has an audit focus, not a planning focus.

(n79)Footnote 102. This could result either because the lender has taken a charge-off with respect to the debt, based on partial worthlessness, or because the lender acquired the debt in the secondary market, at a discount. Regulations address the problems of the lender who has taken a partial bad debt writeoff, but not the problems of a holder who purchased at a discount. *Treas Reg* § 1.166-3(a)(3).

(n80)Footnote 103. *Treas Reg* § 1.1001-1(g)(1).

(n81)Footnote 104. *Treas Reg* § 1.1001-1(g)(1) appears, in the context of cash method taxpayers, to be in conflict with the statute. *IRC* § 1001(b) states that "the amount realized from the sale or other disposition of property shall be the sum of any money received plus the fair market value of the property (other than money) received." This inconsistency exists only in the case of lenders on the cash method of accounting, because it is well established that the accrual concepts of the accrual method of accounting override this provision. *Rev Rul* 89-122, 1989-2 CB 200 , clarifying *Rev Rul* 79-292, 1979-2 CB 287 .

(n82)Footnote 105. *Treas Reg* § 1.1001-3(a)(1).

(n83)Footnote 106. *Treas Reg* § 1.1001-3(c)(1)(i).

(n84)Footnote 107. *Treas Reg* § 1.1001-3(c)(2).

(n85)Footnote 108. *Treas Reg* § 1.1001-3(c)(2)(i).

(n86)Footnote 109. This conclusion does not apply to the holder's exercise of a conversion right in the debt instrument.

(n87)Footnote 110. *Treas Reg* §§ 1.1001-3(c)(2)(ii); -3(e)(5). This general rule does not apply if the modification is or includes the substitution of a new obligor or the addition or deletion of a co-obligor.

(n88)Footnote 111. *Treas Reg § 1.1001-3(c)(4)*.

(n89)Footnote 112. It is not clear whether a waiver of the imposition of a default interest rate is part of a permitted forbearance, or a potentially prohibited change in yield. In view of the fact that the imposition of a default interest rate is a common financing term, but is probably not normally factored into the yield analysis of a proposed transaction, and that the purpose of the forbearance rule seems to be to facilitate workouts, the waiver of a default rate of interest should not be viewed as a change in yield. This interpretation is consistent with the conclusion in *Treas Reg § 1.1001-3(e)(2)(iii)(B)* that the payment of a commercially reasonable prepayment penalty is not taken into account in determining yield.

(n90)Footnote 113. *Treas Reg § 1.1001-3(c)(6)(ii)*. Query--if the closing conditions are all satisfied in advance of the closing, does the modification occur at the time the last condition is satisfied or is it delayed until closing? The Treasury Regulation seems to contemplate the latter. Additional query--Since an agreement between a lender and a borrower to extend the term of a debt obligation is a modification occurring at the time of the agreement, is there a different result if the lender agrees at some time prior to maturity to refinance a loan at its maturity? Does the mere agreement to refinance constitute a modification of the old debt at the time the commitment is entered into? If the lender's obligation to refinance is subject to reasonable closing conditions, such as the requirement that the borrower's financial condition satisfy certain ratios, is the problem eliminated?

(n91)Footnote 114. Query--if a prepackaged bankruptcy [a bankruptcy in which the agreement of a majority of the creditors is obtained prior to the filing of the bankruptcy petition and the reorganization plan] changes the terms of a debt obligation, does the modification occur on the date the agreement with the majority of the creditors is obtained, or only on the date of the subsequent approval of the plan by the bankruptcy court? It would seem that the effective date of the modification should be the date of the confirmation of the plan even in the context of a "prepackaged" bankruptcy, because of the bankruptcy court's obligation to confirm that the disclosure of the terms of the plan was adequate, that the plan satisfies the requirements of the Bankruptcy Code, and otherwise prevent the plan from becoming final at an earlier date.

(n92)Footnote 115. *Treas Reg § 1.1001-3(e)(1)*.

(n93)Footnote 116. *Id.*

(n94)Footnote 117. This section applies to debt instruments providing for alternative schedules applicable on the occurrence of contingencies, but only if the timing and amounts of the payments that comprise each payment schedule are known as of the issue date.

(n95)Footnote 118. This section applies to debt instruments that provide for principal payments fixed in amount but uncertain as to time.

(n96)Footnote 119. *Treas Reg § 1.1001-3(e)(2)(ii)*.

(n154)Footnote 144.1. *IRC § 860G(a)(3)(A)(iii)*, effective Jan 1, 2005.

(n155)Footnote 144.2. *IRC § 860G(a)(3)*. See Chapter 16 for a detailed discussion of REMICs.

(n156)Footnote 145. If the terms of a debt instrument are changed, and if the change results in a "significant modification", the lender may recognize gain or loss, and the borrower may recognize cancellation of indebtedness income coupled with ultimately offsetting original issue discount. See § 19.03[5][d], above.

(n157)Footnote 146. These requirements have their origin in *Treas Reg § 1.860G-2(a)(8)*.

(n158)Footnote 147. Note that with a *de facto* defeasance, the borrower will remain legally liable on the defeased debt, and must include the earnings on the defeasance fund in its income and will generally be able to deduct the interest paid on the defeased debt. A borrower that legally defeases a loan may be able to claim a deduction for a debt prepayment premium with respect to any excess of the cost of the defeasance collateral over the outstanding balance of the loan, and will no longer have to account for either the earnings on the defeasance collateral or the interest on the defeased debt.

(n159)Footnote 148. *Treas Reg § 1.1001-3(e)(5)*.

(n160)Footnote 149. *Treas Reg § 1.860G-2(a)(8)*. There are also certain exceptions in the REMIC regulations under which events that would otherwise constitute a significant modification under *IRC § 1001* are not treated as a reissuance under the REMIC rules (*Reg § 1.860G-2(b)(3)*). These events are (i) changes in the terms of the obligation occasioned by a default (or a reasonably foreseeable default); (ii) the assumption of the obligation; (iii) the waiver of a due-on-sale clause or a due-on-encumbrance clause; and (iv) the conversion of the interest rate by a mortgage pursuant to the terms of a convertible mortgage. These exceptions are not particularly relevant to a defeasance.

(n161)Footnote 150. Partial prepayments are not modifications under other Code provisions. Under the original issue discount rules, a partial prepayment does not result in the creation of a new instrument. *Treas Reg § 1.1275-2(f)* provides that "pro rata prepayments" (payments which are not made pursuant to the instrument's payment schedule and which result in a substantially pro rata reduction of each payment remaining to be paid on the instrument) are treated as payments in retirement of a portion of a debt instrument, which may result in gain or loss to the holder. However, this gain or loss is determined by assuming that the original debt instrument consisted of two instruments--one that is retired and one that remains outstanding. If a portion of the instrument is treated as remaining outstanding, it should not be treated as a new instrument resulting from a modification. This approach was also adopted in *Treas Reg § 1.446-2(e)(4)*, which provides rules for allocating interest to prepayments.

(n162)Footnote 151. *IRC §§ 108(e)(6); 108(e)(8)*.

(n163)Footnote 152. The lender and the partners of the borrower may wish to keep a portion of the debt alive. In many instances a conversion of partnership debt into equity is under consideration at a time when the partnership is in economic difficulty and the partners' capital accounts in the partnership are negative. From the lender's position, keeping a portion of the debt alive may preserve its priority *vis-a-vis* other creditors of the partnership. From the

perspective of the partners of the borrower, it may be necessary to preserve a portion of the indebtedness as debt in order to avoid income under *IRC* § 752 as a result of a reduction in the partnership's liabilities.

(n164)Footnote 153. There may be an exception to this conclusion if the initial consideration creating the obligation would not have qualified for non-recognition treatment if it had been contributed directly to the partnership in exchange for a partnership interest, for example, if the debt was issued for services rendered.

(n165)Footnote 154. *Treas Reg* § 1.704-1(b)(2)(iv)(f).

(n166)Footnote 155. See *Treas Reg* § 1.721-1(b)(1), which provides that the non-recognition provisions of *IRC* § 721 do not always apply when a partner gives up a part of its capital account in favor of another partner. This provision could apply by analogy, if the creditor receives a capital account that is smaller than the outstanding amount of the debt.

CHAPTER 19 Financing Commercial Real Estate Transactions *

2-19 Federal Taxes Affecting Real Estate § 19.04

§ 19.04 Governmental Subsidies

[1] In General

Many real estate developers will be designing projects for tenants who have a significant degree of locational flexibility, and who are thus able to use the prospect of the new jobs and other community economic benefits that will result from the project as a carrot when negotiating for various types of governmental subsidies for their project. For example, a tenant looking for a major block of office space in the New York Metropolitan area can realistically consider Manhattan, certain other New York City boroughs, Westchester or Nassau Counties in New York, Fairfield County, Connecticut, and New Jersey. Since real estate developers are generally competing for key tenants in the same way that municipalities may be competing for those same tenants, the real estate developer must explore the possibility of qualifying a project for the maximum amount of government subsidies in order to be able to present a project to a tenant at the lowest cost to the tenant. A developer could work with economic development authorities and other municipal entities to piece together the available public contributions to the project. These would include grants, low-rental-cost land, low-cost energy, reduction or abatement of various city and state taxes, and federally tax-exempt or federally taxable but state tax-exempt financing. For example, financing is available through the New York Industrial Development Agency for projects that would not qualify for federally tax-exempt financing, but would offer a state and city income tax exemption, and exemption from mortgage recording tax, state sales tax and real property tax. In addition, a Business Improvement District may be formed to issue bonds exempt from federal, state and city income taxes to finance certain infrastructure costs to be repaid from the proceeds of a district charge on the property owners in the district.

As regards several of the most visible recent large scale publicly-supported projects (or proposed projects in the New York metropolitan area), the basic public financing packages included (or would include) as follows:

Yankee Stadium. The New York City proposal would use commercial Rent and Occupancy Tax revenues to pay the City's portion of the construction cost. This tax is in a phase-out stage in 1999; the New York City proposal would delay the phase-out and use the tax revenues to pay the City's contribution to the stadium construction.

USTA National Tennis Center. This project was financed with a \$150 million insured civic facility revenue bond issued by the New York City IDA in 1994. The Tennis Center bonds may have been Section 501(c)(3) bonds (the USTA National Tennis Center, Inc., is a Section 501(c)(3) organization) and the facility financed by the bond issue is a public

recreational facility for most of the year.

Times Square/Disney. A package of public assistance was put together for this project, including tax abatements, city grants, low-interest city loans, municipal acquisition of sites made available to the projects, sales tax savings on sales taxes payable on tangible personal property going into the project, etc.

Other projects may be eligible for government subsidies because the project fulfills a governmental purpose, such as low-income housing. As an example of such specifically targeted governmental subsidies, New York City provides Section 421-A "negotiable certificates" to developers of low income housing in certain parts of the City. The negotiable certificates can be transferred to other market rate residential projects, resulting in a real estate tax abatement for the transferee project. Partnerships that construct low income housing and receive negotiable certificates generally have not treated the award of the negotiable certificates as an income recognition event and also have not allocated any portion of the cost of the building to the negotiable certificates. This conclusion is not mandated by any explicit Code provision, and the Code does provide that gross income means "all income from whatever source derived", unless otherwise excluded by law.ⁿ¹⁶¹ However, the conclusion that the subsidy is not income has firm policy foundations and is supported by a substantial body of case law. As noted below in more detail, however, the IRS takes a contrary position.ⁿ¹⁶²

Municipal subsidies that are a reimbursement for capital expenditures should not be income to the recipient but instead should be treated as capital contributions.ⁿ¹⁶³ The gross income exclusion under the *Cuba Railroad* theory requires that the subsidy become a permanent part of the transferee's capital structure; that the subsidy not be compensation for a specific service provided by the transferee to the transferor; that the contribution must be bargained for (presumably it is the "bargaining for" that restricts the grant to capital uses); that the contribution must be expected to benefit the recipient in an amount that approximates its value (perhaps to buttress the requirement that the grant is not compensation for specific services); and that the grant must ordinarily be used to generate additional income (buttressing the dedication of the grant to capital and presumably prohibiting use of the grant as a source for distributions to owners).

Government subsidies given to replace lost income, permitted to be used to subsidize operating expenses (or distributed to the owners of the enterprise), are *currently taxable*.ⁿ¹⁶⁴ However, the taxpayer does not receive any basis in the government subsidy, and therefore cannot, for example, depreciate it.ⁿ¹⁶⁵

Governmental incentives for businesses to relocate, or for investors to develop real estate in particular locations, have increased in popularity and proliferated in many state and local jurisdictions in recent years. Incentive programs range from direct subsidy payments to financing assistance, infrastructure development, and site development and relocation subsidies. These programs generally have the goal of providing assistance to businesses for the purpose of promoting economic development in the community. In the case of real estate projects, "soft subsidies" in the form of job training programs are generally of less benefit than programs oriented toward reducing the cost for the business of locating or remaining in the community. Incentive payments for the owners and developers of real estate can take many forms. These payments have evolved from simple contributions of cash or property, to low-interest or no-interest long-term subordinated indebtedness, to "tax increment financing" (TIF).

As the incentive programs have evolved, the case law and Internal Revenue Code on the tax treatment of payments under them have likewise evolved, but in a slower and more reactive fashion. As with other areas, the response has generally been limited by the need to address the income tax issues within the framework of case law and Code provisions that developed without regard to the underlying purpose of the incentive programs. In some cases, the amounts received can be excluded from gross income by a specific Code provision, e.g., *IRC Section 118*, if the payment qualifies as a contribution to the capital of a corporation. In other cases, the taxpayer must rely on case law developed to address other issues. The details of government incentives differ dramatically, so the tax effect of any particular program cannot be predicted with absolute certainty. This is especially true for non-corporate taxpayers such

as partnerships and LLCs. n165.1

[2] Statutory Framework for Treatment of Governmental Incentives

The core statutes affecting taxation of governmental incentives for corporations are *IRC Sections 118* and *362(c)*. *IRC Section 118(a)* excludes from gross income of a corporation any contribution to the corporation's capital. Regulations clarify that Section 118 also applies to contributions to capital made by persons other than shareholders. For example, the exclusion applies to the value of the land or other property contributed to a corporation by a governmental unit or by a civic group for the purpose of inducing the corporation to locate its business in a particular community, or for the purpose of enabling the corporation to expand its operating facilities. However, the exclusion does not apply to any money or property transferred to the corporation in consideration for the goods and services rendered, or to subsidies paid for the purpose of inducing the taxpayer to limit production. n165.2

To prevent a corporation from gaining a basis in assets acquired from a tax-free contribution, any property other than money that is acquired as a contribution to capital (other than property contributed by a shareholder as a contribution to capital) is given a zero basis. n165.3 A separate rule applies to money received by a corporation as a contribution to capital (other than money contributed by a shareholder as a contribution to capital). The basis of any property acquired with that money during the 12-month period beginning on the date the contribution is received must be reduced by the amount of the contribution. The excess of any money so contributed over the amount of that reduction must be applied to reduce the basis of other property held by the taxpayer, n165.4

It is not always clear whether a particular item is a contribution to capital. An early case dealing with whether a payment should be excluded from basis (and not whether the payment was gross income) is routinely cited and used to determine whether a payment is a "capital contribution" under *IRC Section 118*. n165.5 The case sets forth five factors (looking at the contributor's motive) to determine if a payment is a capital contribution: n165.6

- (1) the payment must become a permanent part of the transferee's working capital;
- (2) the payment must not constitute compensation for a specific service provided to the transferor;
- (3) the payment must be bargained for;
- (4) the asset transferred or acquired with the payment must benefit the transferee with a value commensurate with its cost; and
- (5) the asset transferred or acquired must ordinarily be employed in or contribute to the production of additional income.

The focus of the five factors is on the absence of specific *quid pro quo* services provided in exchange for the contribution, and the presence of a meaningful and long-term benefit to the transferor. In most cases the key factor appears to be whether the payment constitutes compensation for a specific service provided to the transferor. n165.7 The five-factor test gives corporate taxpayers some certainty as to whether a government subsidy or grant will be gross income upon receipt.

[3] Tax Principles Relating to Below-Market Interest Loans

Separate provisions apply to below-market loans. Because the focus of current economic subsidies is to reduce the costs to business of moving to, or remaining in, a community, a frequent mechanism used by state and local governments is financing with an interest rate that is significantly below the market rate of interest. This type of assistance generally takes the form of a deeply subordinated and very long-term maturity loan by the governmental entity to the taxpayer.

IRC Section 7872 governs the tax treatment of below-market interest rate loans between taxpayers. *IRC Section 7872* was enacted to correct perceived abuses in the use of loans that have a zero or significantly below market interest rate. Generally, *IRC Section 7872* operates to impute interest income to the lender and a constructive cash transfer to the borrower, consistent with the form and purpose of the transaction, so as to give tax effect to the substance of the borrowing arrangement. In the case of a term loan, the borrower is treated as having received an amount from the lender, on the date the loan was made, equal to the excess of the amount loaned over the present value of all payments required under the terms of the loan. n165.8 In addition, a below-market term loan is treated as having original issue discount in an amount equal to the imputed transfer, in addition to any other OID on the loan determined without regard to *IRC Section 7872(b)(1)*. n165.9

The IRS is authorized to apply the Section 7872 rules to any loan having a significant effect on the tax liability of the lender or the borrower. n165.10 Obviously, a long-term,.05-percent interest rate loan from a government entity provides a significant subsidy to the borrower in the form of a lower cost of capital for the funds provided by the loan.

Temporary regulations provide an exception from the rules of *IRC Section 7872* in the case of loans subsidized by the federal, state (including the District of Columbia), or municipal government (or any agency or instrumentality thereof), and which are made available under a program of general application to the public. n165.11 If a taxpayer structures a transaction as a loan exempt under the temporary regulations, n165.12 and one of the principal purposes for doing so is the avoidance of federal tax, then the transaction can be recharacterized as a tax avoidance loan under *IRC Section 7872(c)(1)(D)*. n165.13 The legislative history of *IRC Section 7872* indicates that most government-subsidized loans, such as government-insured residential mortgage loans, were intended to be exempt from Section 7872, n165.14 and the IRS has applied the provision in a manner consistent with its legislative history. n165.15

The use of subsidized financing in the case of projects eligible for the low-income housing tax credit can affect the amount of the income tax basis of the property otherwise eligible for the credit. Effective for buildings placed in service after July 30, 2008, a federal subsidy includes only obligations the interest on which is exempt from tax under *IRC Section 103*. Thus, for these buildings, only the use of proceeds from a tax-exempt obligation can affect the amount of basis eligible for the credit. n165.15.1 For buildings placed in service before July 31, 2008, any below-market federal loan can reduce the basis eligible for the credit. n165.15.2 For these buildings, if the proceeds of an obligation funded in whole or in part with federal funds are or were used (directly or indirectly) with respect to new construction or a substantial rehabilitation, and the interest rate is below the applicable federal rate, then, the owner of the property generally must either reduce the basis eligible for the low-income housing tax credit by the amount of any federally subsidized financing, or compute the low-income housing tax credit based on a 30-percent present value on the entire cost of construction and/or rehabilitation. n165.16

[4] Taxation of Common Developer Incentives

[a] Government Grants

Generally, this form of incentive involves direct cash grants to the project, grants which take the form of contributions of property, or infrastructure development for property to be acquired by, or adjacent to property to be developed by the private entity. Assuming the five-factor test of the *Chicago, Burlington & Quincy Railroad* case can be met, n165.17 these types of grants ordinarily may be excluded from a corporate taxpayer's income. n165.18

The IRS has ruled in this area both publicly and privately. It has ruled that money received from a state or local government by a railroad to subsidize the cost of relocating railroad roadways is a contribution to capital and not includable in the railroad's gross income. n165.19 The underlying authority for the holding was the *Cuba Railroad* case, n165.20 a pre-1954 Code case which held that payments made by the Cuban government to a US railroad corporation operating in Cuba to subsidize the construction of railroad improvements were not "income" because the cash was

contributed by the Cuban government to benefit the Cuban public at large and because the contribution increased the taxpayer's equity and assets, but not its earned surplus.

The IRS has also ruled that payments received to subsidize job training costs of a corporate taxpayer that would otherwise have been required to be capitalized under *IRC Section 195* may be excluded from gross income as non-shareholder contributions to capital, provided that the five-part test of *Chicago, Burlington & Quincy* is met. n165.21 Note, however, that if the job training or business relocation costs would otherwise be deductible by the taxpayer, the five-part *Chicago, Burlington & Quincy* test would not be met because no asset would be created or transferred which becomes part of the capital of the recipient due to the current deductibility of the amount subsidized. n165.22 In that case, the amounts would be includable in the ordinary taxable income of the taxpayer. n165.23

The IRS has ruled in other cases that payments to subsidize capital expenditures of a taxpayer can be excluded as non-shareholder contributions to capital, as long as the payment was not for some demonstrable service provided to the payer. n165.24

In sum, the cases and rulings in this area ordinarily try to distinguish between payments made in consideration of the performance of services, as opposed to payments made in support of the public welfare. The line of demarcation has never been a sure one. Where a payment or property transfer meets the five-factor test of *Chicago, Burlington & Quincy*, n165.25 there is more certainty--the payment will be excluded from the gross income of the corporate recipient under *IRC Section 118*, and the recipient will acquire no basis in the property to the extent of the grant under *IRC Section 362(c)*.

[b] Extensions of Credit

As noted above, n165.26 below-market interest rate loans received from government entities generally do not result in the imputation of taxable income to the borrower on account of the below-market interest rate. n165.27 However, if a below-market interest loan were to fall outside the exemption under the *IRC Section 7872* regulations, certain consequences could arise. For example, in the case of a \$2 million, 0-percent interest term loan, due in 25 years, when the AFR is 6.5-percent per annum, the present value of the loan would be approximately \$1.585 million, resulting in the required payments being only a small fraction of the principal amount of the loan. Consequently, if the *IRC Section 7872* rules applied, the borrower would be treated as having received a payment from the lender that, in many cases, would equal virtually all of the amount of the funds advanced by the lender.

This transfer might be excluded under the principles of under *IRC Section 118* by applying the five-factor test in *Chicago, Burlington & Quincy*. n165.28 Even if the payment from the lender were treated as a non-shareholder capital contribution, however, a corporate recipient would lose virtually all of the income tax basis attributable to the expenditures financed with the loan. n165.29

[c] Tax Increment Financing

Tax increment financing (TIF) is an economic development tool that sets aside property tax revenue generated by a new project in a targeted area. These funds are used to pay for improvements associated with the project. n165.30 Municipalities in most states have been using TIFs for several decades to stimulate economic development in distressed areas. TIFs are popular tools because they are believed to raise tax revenue for development efforts without raising taxes, they provide incentives for businesses and developers, and are believed to be a revenue generator for municipal governments and regional development organizations. Moreover, they are popular because they are perceived to connect the public expenditures with the resulting tax revenues. The TIF concept began in the 1940s and was first implemented on a large scale in California in 1952 where it was used as a means to provide local matching funds for federal grants. Its popularity in California increased in reaction to the enactment of Proposition 13, which limited increases in local property taxes. n165.31

TIF programs fall into two general categories: programs that are funded on a "pay-as-you-go" basis (the programs are funded and carried out as the incremental revenue is generated), and those which use the expected revenues to borrow capital in advance that can be spent currently. Bond-financed TIF is often used to fund projects through the issuance of indebtedness by a municipality or authority to pay for acquisition, demolition, and infrastructure costs associated with redevelopment. Because of the up-front capital investment required to initiate a project, the "pay-as-you-go" method cannot generate enough capital to provide an effective subsidy.

Sometimes, a development is planned in a blighted area where property values and property taxes are declining. With public funding for the necessary site preparation, such as sidewalk improvements or demolition of existing structures, the development can go forward where it otherwise might not. The local government bodies that draw taxes from the blighted area agree to the development. A TIF district is then created around the area and its property tax base is frozen. The taxes on this frozen base continue to go to the local governments covering the district for the duration of the project. The authority sells bonds to finance the site improvements and gives the developer the bond proceeds to pay for the costs. Once the development is completed, the property tax revenues in the district should increase by at least by the revenues generated by the new facility. This marginal increase, or tax increment, is captured by the authority and is used to pay off the indebtedness incurred to pay for the site improvements. After the bonds are retired, the higher taxes revert to the city, county, school board, and any other taxing body that covers the district.

TIF districts have moved beyond the redevelopment of blighted areas to the financing of sports stadiums, retail shopping districts, and entertainment complexes. Mechanically, TIF financing depends upon the following: n165.32

- (1) The assessed value of the property is determined, based on the value of the property at the time the TIF district is established. The real property taxes determined with respect to this portion of the assessed value remain payable to the municipality.
- (2) The taxes generated by the increase in the assessed value of the real property are segregated and diverted to the district. These amounts are used either to pay off indebtedness incurred to finance the expenditures or to pay or reimburse expenditures on a "pay-as-you-go" basis.
- (3) Following the retirement of the indebtedness or the cessation of the TIF district, the diverted property tax revenues are payable 100-percent to the municipalities and taxing jurisdictions otherwise entitled to receive them.

The tax consequences to the real estate owner depend largely on the manner in which the subsidy is provided. If the funds are expended for general improvements that benefit the TIF district, but are not expended to benefit a particular parcel (e.g., reconstruction of streets and off-ramps) rather than specific site costs for a project, and are not received specifically by the taxpayer for such work, it is likely that such amounts will not have to be included in its gross income using general tax principles under *IRC Section 61*.

If the funds are expended for specific site work that benefits an individual taxpayer (e.g., construction of a parking garage and building shell), the taxpayer can exclude the funds from gross income only if they are treated as a non-shareholder contribution to capital. n165.33

Another common form of direct subsidy is for the governmental authority to acquire the site on which the project will be built, clear the site, remediate any existing environmental contamination problems, and convey the site (with certain improvements) to the developer. As above, the taxpayer to avoid having significant gross income must rely on being treated as having received a non-shareholder (non-owner) contribution to capital, excludible from gross income. n165.34

In some cases, TIF can be used to subsidize the return to the developer by allowing some portion of the developer's equity contribution to be funded through a TIF borrowing. For example, assume that a developer agrees to construct a warehouse for use in its business that is anticipated to bring an additional 400 jobs to an otherwise depressed area. The cost to construct the facility (on land to be conveyed to the developer by the City for \$1.00) is budgeted at \$15 million. The developer will finance \$11 million with a third-party institutional lender, and intends to close the remaining \$4 million gap with its own funds. If the City creates a TIF district that includes the building, issues a TIF revenue bond that is repayable from the incremental growth in property taxes with respect to the new district, and the developer purchases the TIF revenue bond for \$3.5 million, the City would have an additional \$3.5 million that it could make available to the developer, either by a direct grant (which would be intended to be excludible under *IRC Section 118(a)*) or by completing additional work on the site prior to its conveyance to the developer.

Although the revenue bonds in the above case would be issued by a municipality authority, the IRS could challenge both the exclusion of any interest income under *IRC Section 103* and the characterization of the bonds as indebtedness of the issuing authority. Assume that, in the case outlined above, the revenue bonds are to be paid only out of the tax proceeds from the benefitted property. In that case, TIF revenue bonds issued to provide financing for major capital improvements to an industrial facility located in the taxing jurisdiction would be private activity bonds within the meaning of *IRC Section 141(a)*. Because the proceeds of the revenue bonds would not be expended for an essential government function, the revenue bonds would meet the private loan financing tests of *IRC Section 141(c)*. Therefore, the interest on the bonds would not be exempt under *IRC Section 103*. The tax increment payments would be treated as loan repayments because they are not taxes of general application. In actuality, the taxpayer in substance would be found to have received a loan of the revenue bond's proceeds in order to construct site improvements. The transfer of benefits to the developer could be seen in substance as a loan, especially if covenants and financing arrangements were not generally applicable to taxpayers in the TIF district. n165.35

A similar analysis applies under the private loan financing test of *IRC Section 141(c)*. In fact, the regulations now incorporate provisions that would have rendered the interest on the bonds in *Technical Advice Memorandum 9250005* taxable *ab initio*. Under *IRC Section 103*, the exclusion from gross income does not include interest on "private activity bonds" that are not qualified bonds. n165.36

Private activity bonds are obligations that meet either the private loan financing test or both the private business use and the private security or payment tests. n165.37 The private loan financing test is met if the proceeds of the issue which are to be directly or indirectly used to make or finance loans to persons other than governmental units exceeds the lesser of 5-percent of the proceeds or \$5,000,000. n165.38 The private business use test is met if more than 10-percent of the proceeds of the issue are to be used for any private business. Private business use is any direct or indirect use in a trade or business carried on by any person other than a governmental unit. n165.39 The private security or payment test is met if the payment of principal of, or interest on, more than 10-percent of the proceeds of the issue is directly or indirectly protected in a qualified manner.

The following rules apply to situations that are encountered often in connection with TIF financed projects:

(1) Under the private loan financing test, certain debt obligations are treated as private activity bonds if the proceeds of the issue are used to make or finance loans to persons other than a governmental person. n165.40 A grant of proceeds to a person is not treated as a "loan." Moreover, a grant using proceeds of an issue that is secured by generally applicable taxes attributable to the improvements to be made with the grant is not treated as a loan, unless the grantee makes any impermissible agreements relating to the payment that results in the taxes imposed on that taxpayer not to be treated as "generally applicable taxes" under the regulations. n165.41

(2) The ownership of property financed by the proceeds of a debt issuance by a non-governmental person, or the use by a nongovernmental person of the financed property pursuant to a lease results in a

private business use of the property. n165.42 An arrangement that conveys special rights to the use of property can result in a private business use. In the case of financed property that is not available for use by the general public, private business use may be established solely on the basis of a special economic benefit to one or more nongovernmental persons, even if those nongovernmental persons have no special legal entitlements to use of the property. Use as a member of the general public is not treated as private business use. In determining whether a special economic benefit enjoyed by a nongovernmental user gives rise to private business use, the regulations consider the following factors: (i) whether the financed property is functionally related or physically proximate to property used in the trade or business of a nongovernmental person; (ii) whether only a small number of nongovernmental persons receive the special economic benefit; and (iii) whether the cost of the financed property is treated as depreciable by a nongovernmental person. n165.43

(3) The private security or payment test relates to the nature of the security for, and the source of, the payment of debt service on an issue. The private payment portion of the test considers payment of the debt service on the issue that is directly or indirectly derived from payments in respect of property, or borrowed money, used or to be used for a private business use. The private security portion of the test considers the payment of the debt service on the issue that is directly or indirectly secured by any interest in property used or to be used for a private business use or payments in respect of property used or to be used for a private business use. n165.44 This provision is implicated in TIF programs because the taxes payable with respect to the TIF district are the source of repayment of the obligations. The regulations have a series of special rules that deal with the characterization of tax payments for these purposes:

(a) For purposes of the private security or payment test, generally applicable taxes are not taken into account (that is, are not payments from a nongovernmental person and are not payments in respect of property used for a private business use). n165.45

(b) A generally applicable tax is an enforced contribution exacted pursuant to legislative authority in the exercise of the taxing power that is imposed and collected for the purpose of raising revenue to be used for governmental purposes. A generally applicable tax must have a uniform tax rate that is applied to all persons of the same classification in the appropriate jurisdiction and a generally applicable manner of determination and collection. n165.46 A payment for a special privilege granted or service rendered is not a generally applicable tax. Special assessments paid by property owners benefitting from financed improvements are not generally applicable taxes. For example, a tax or a payment in lieu of tax that is limited to the property or persons benefited by an improvement is not a generally applicable tax. n165.47

(c) A tax does not have a generally applicable manner of determination and collection to the extent that one or more taxpayers make any impermissible agreements relating to payment of those taxes. n165.48 The following are impermissible agreements that cause a tax to fail to have a generally applicable manner of determination and collection: n165.49

- an agreement to be personally liable on a tax that does not generally impose personal liability, to provide additional credit support such as a third party guarantee, or to pay unanticipated shortfalls;
- an agreement regarding the minimum market value of property subject to property tax; and
- an agreement not to challenge or seek deferral of the tax.

Thus, the regulation would expressly address the factors that were the basis for *Technical Advice Memorandum 9250005*.

The following diagram illustrates the flow of funds in the type of project described above: n165.50

[Click here to view image.](#)

The principle to be learned from *Technical Advice Memorandum 9250005* is that attempts to tie the revenue bond financing too closely to the underlying project will cause the interest on the revenue bonds to be treated as taxable. n165.51 More importantly for the developer, they will also cause the funds advanced from the TIF to be treated as a loan to the project and the TIF payments to be treated as a repayment of the loan, rather than as a deductible payment of taxes or payments-in-lieu-of-taxes. Therefore, the taxpayer would not be able to currently deduct the payments. Assuming the loan is from a qualifying governmental entity, *IRC Section 7872* would not apply, however, so there would be no imputation of interest. n165.52

Use of the TIF borrowing in this fashion may also permit some portion of the developer's return to escape state and local taxes that would otherwise be imposed on the project. For example, if the developer in the above example were to transfer the TIF debt obligation to an entity located outside the relevant taxing jurisdiction, e.g., to a Delaware or Nevada holding company, the interest payable on the TIF borrowing should be sourced to Delaware or Nevada, as the case may be, rather than to the state in which the project is located. This may permit the developer to avoid the state or local taxes on the income attributable to interest on the TIF borrowing.

[5] Taxation of Real Estate Incentives for Taxpayers Other than C Corporations

[a] Partnerships and LLCs

By its terms, the *IRC Section 118(a)* exclusion from gross income applies only to capital contributions to corporations. There is no similar exclusion for non-owner contributions to noncorporate entities, such as partnerships or LLCs. Thus, governmental subsidy payments to a noncorporate entity lack the statutory protection of *IRC Section 118(b)* and must rely on the earlier common law principles to avoid current taxation.

For federal income tax purposes, the receipt of capital contributions by a partnership in exchange for a partnership interest is nontaxable, n165.53 but the *IRC Section 118(a)* exclusion, which applies to all capital contributions, from whatever source derived, has no parallel under Subchapter K. n165.54

The Service's position on the taxability of capital contributions to noncorporate entities by a non-owner (not in consideration for a partnership interest or an LLC membership interest) has been inconsistent and lacking in analysis. Moreover, it has not been the subject of formally published guidance.

The IRS position was initially set forth in a private letter ruling, which concluded that there was a nonstatutory contribution to capital exclusion for partnerships and that third-party contributions could be excluded from a partnership's gross income. In the ruling, a municipality made available grants to a partnership in order to subsidize the costs of development by the partnership. The IRS ruled that the amounts were excluded from the partnership's taxable income but that the partnership had to reduce the income tax basis of the property acquired with the grants, by analogy to *IRC Section 362(c)*. n165.55

The IRS later reversed its position in *General Counsel Memorandum 38944*. n165.56 There, the IRS concluded that the pre-1954 Code case law that had developed in the corporate context n165.57 was *not* controlling when there was a

non-corporate taxpayer, because the coordinated income exclusion and basis reduction provisions of *IRC Sections 118* and *362(c)* did not apply. *General Counsel Memorandum 38944* relied on an assertion that pre-1954 Code case law was merely a "guide" to interpretation, and did not survive the enactment of *IRC Section 118* in 1954. The IRS concluded that the enactment of *IRC Section 118* supplanted prior case law; the IRS also focused on the absence of a parallel to *IRC Section 362(c)* in Subchapter K of the Code. *General Counsel Memorandum 38944* acknowledged its apparent inconsistency with the Service's earlier position in private rulings. n165.58

The IRS followed *General Counsel Memorandum 38944* in a later private letter ruling, which concluded that *IRC Section 118(a)* was limited in application to contributions to corporations and ruled that contributions from a local school board to a public utility partnership to defray the costs of construction of a sewage disposal plant were taxable income to the partnership. n165.59

Planning Tip:

Where the operating entity for a subsidized project is a noncorporate entity, there are certain strategies that a taxpayer might employ to provide a better technical argument for the application of the "contribution to capital" analysis to a subsidy payment, and thereby avoid the Service's position as set forth in *General Counsel Memorandum 38944*. One possibility would be to form the real estate-owning entity as a limited partnership with a sole corporate general partner. The governmental grant could then be made to the corporate general partner and, in turn, contributed to the partnership as the capital contribution of the general partner. n160.60 In form, the corporation could avail itself of the *IRC Section 118* exclusion, and could reduce the basis of the partnership interest under *IRC Section 362(c)*, thereby arguably meeting the Service's objection to the extension of the case law to contributions to noncorporate entities. There are, however, at least three significant risks to the use of this approach:

- (1) Under *IRC Section 269*, the IRS may challenge the acquisition of control of a corporation where control is acquired with the principal purpose of obtaining a tax benefit to which the taxpayer would not otherwise be entitled. *IRC Section 269* could be applied by the IRS to challenge the availability of the *IRC Section 118* exclusion to the corporate general partner, if the IRS were correct that the enactment of *IRC Section 118* was the exclusive path to obtain non-taxability. A counter-argument could be made if the corporate general partner entity bore risks of construction and thus the limited partnership would have a principal purpose other than tax avoidance for the transaction structure. Further, in some jurisdictions, the use of a limited partnership with a sole corporate general partner continues to be advantageous (as opposed to an LLC) because of state or local tax consequences. In those jurisdictions the IRS might have a harder time arguing for the application of *IRC Section 269* to the arrangement.
- (2) The IRS could challenge the use of the limited partnership as a device under *Regulation Section 1.701-2* to obtain a stepped-up basis in partnership assets by avoiding the application of the *IRC Section 362(c)* basis reduction rule and to achieve non-taxability upon the receipt of the subsidy.
- (3) The IRS could argue that the use of the sole corporate partner and the subsequent contribution to the partnership should be collapsed into a single transaction under the step-transaction doctrine. As under *IRC Section 269*, this argument could be countered if the corporate general partner has economic risk.

[b] S Corporations

It seems likely that *IRC Section 118(a)* applies to an S corporation because of the application of *IRC Section 1371(a)*, which provides that Subchapter C of the Code applies to an S corporation and its shareholders except to the extent that

Subchapter C is inconsistent with Subchapter S of the Code. Thus, although *IRC Section 118* is not in Subchapter C because the basis reduction rule of *IRC Section 362(c)* applies to S corporations, a non-shareholder incentive contribution to an S corporation should qualify for exclusion if it meets the principles of *IRC Section 118(a)* and meets the five-factor test of *Chicago, Burlington & Quincy Railroad Co.* n165.61

Example:

ARC is an S corporation. There are three shareholders of ARC: Individuals X and Y, and the Inner City Economic Union ("ICEU"). n165.62 ARC has entered into a negotiated Development Agreement with the local Tax Increment Financing Commission (the "TIFC"), in which ARC is to own or develop the property (the "Project") located in the inner city (the "Development Agreement"). The Project will consist of two large tenants and several other smaller tenants. The land needed to comprise the Project will be contributed to ARC by TIFC, with TIFC having acquired and cleared the land.

Pursuant to the Development Agreement, TIFC is to contribute cash and the property with which the Project will be developed. TIFC has issued bonds in the amount of \$46 million, but the Project is not security for that debt. The proceeds of the bond issue are to be used to pay past and future costs of the development of the Project. TIFC will also contribute funds to ARC to pay the future costs, which will total approximately \$22 million. This \$22 million will be used for infrastructure (e.g., parking lots, lights, and flood control) and buildings in the Project. The past costs (i.e., the acquisition of the property, environmental clean-up, and the clearing of the land) paid by TIFC were approximately \$24 million. The above-described land, infrastructure improvements, and buildings will all be owned by ARC or ARC and its investors.

To determine whether TIFC's cash and property contributions are includable in ARC's gross income, the five-factor test of *Chicago, Burlington & Quincy Railroad Co.* must be applied. n165.63 Under that test, it is likely that the cash and property contributions will be treated as a nontaxable capital contribution to ARC because (i) the payments do not appear to be for a specific purpose; (ii) the Development Agreement was negotiated; (iii) a governmental entity, TIFC, desires for economic development and civic reasons to locate a shopping center in a particular area of inner city; and (iv) the property and cash will be used to construct the development which will produce income. Thus, property and cash contributions to ARC, except with respect to the fees paid for services, would be nontaxable to ARC under *IRC Section 118(a)*. ARC would be subject to the basis reduction required by *IRC Section 362(c)*. ARC's status as an S corporation would not affect this result, because S corporations are subject to Subchapter C of the Code. n165.64

If ARC wishes to obtain additional capital from persons who cannot be S corporation shareholders (such as foreign investors), n165.65 ARC might organize a limited liability company taxed as a partnership to own and operate the Project (the "LLC"). If this is done and TIFC makes its cash and property contributions to the LLC, the IRS takes the position that the LLC's receipt of the contributions are not tax-free contributions to capital under *IRC Section 118(a)*, but are taxable to the LLC (and hence, the LLC members). n165.66

[6] Tax Credits

Tax credits, such as the rehabilitation credit and the low-income housing credit, are another form of government subsidy. *IRC Section 38* allows an income tax credit for various amounts, including the rehabilitation credit authorized by *IRC Section 47* and the low-income housing credit authorized by *IRC Section 42*. The rehabilitation credit is the sum of (a) 10 percent of the qualified rehabilitation expenditures with respect to any qualified rehabilitated building other than a certified historic structure, and (b) 20 percent of the qualified rehabilitation expenditures with respect to any

certified historic structure. The low-income housing tax credit is a percentage of the eligible basis of the low-income housing units in a low-income housing project. The low income housing credit is generally designed to subsidize 30 percent of the cost of constructing new federally subsidized low income housing units or acquiring existing buildings and 70 percent of the cost of new low-income housing that is not federally subsidized. The rules relating to rehabilitation and low-income housing tax credits are discussed in Chapter 5. Credits operate as an up-front subsidy that can help a developer finance a real estate project because they can be "sold" for an up-front discounted payment to persons who invest in the partnership that will own the project.

Taxpayers can irrevocably elect to claim an advance rehabilitation investment credit for progress expenditures on certain rehabilitated buildings before the property is placed in service. n166 An election is made separately by each partner, shareholder, or beneficiary for progress expenditure property rehabilitated by or for a partnership, S corporation, trust or estate. n167 Claiming credits on a progress expenditure basis will accelerate the time in which the investor-partners receive the economic benefit of the credit and therefore will increase the amount that a developer will receive with respect to the "sale" of the credits if the developer is able to cause the project to comply with the rules applicable to progress expenditure-based credits.

Investment credits will be recaptured if there is an early disposition of the property. n168 A developer will therefore have to provide assurance to its investors that it will comply with the rules necessary for them to avoid recapture.

CHAPTER 19 Financing Commercial Real Estate Transactions *

2-19 Federal Taxes Affecting Real Estate § 19.05

§ 19.05 Plan Asset Issues Under ERISA

[1] Overview

One of the sources that a commercial real estate developer is likely to approach, when seeking equity investors for a major project, is the pension fund community and the funds through which they invest. The rules applicable to pension and profit-sharing plans subject to ERISA n169 will affect the relationship among such an investor, the fund through which it invests, the developer and the partnership that owns the project. Generally, when a qualified pension or profit-sharing plan subject to ERISA makes an equity investment in an entity (such as a real estate fund), the plan's assets include the equity interest, but will not include any of the underlying assets of the entity if the entity constitutes an "operating company." If, however, the entity does not constitute an "operating company," and if another exception is not available, n170 the assets of the plan investing in the entity include the equity investment and an undivided interest in each of the underlying assets of the entity.

[2] Consequences of a "Plan Assets" Conclusion

If the underlying assets of the entity are plan assets, those persons exercising any discretionary authority or control over the management of the entity or the management or disposition of the entity's assets, or who render investment advice for a fee, directly or indirectly, with respect to the entity's assets, or have any authority or responsibility to do so, become fiduciaries under ERISA subject to the duties, responsibilities and prohibitions prescribed by ERISA. This could give rise to a "prohibited transaction" within the meaning of ERISA, which provides, *inter alia*, that an ERISA plan fiduciary is prohibited from causing the plan of which it is a fiduciary to engage in a transaction involving the sale or exchange of property or the lending of money or other extensions of credit between the plan and a party in interest. For example, if an ERISA plan invested in a real estate fund and the fund loaned money or leased property to the sponsor of the plan, a prohibited transaction would occur if the assets of the fund were treated as "plan assets" of the plan, but would not arise if the plan asset was only the investment in the fund. Transactions by those individuals involving the entity's assets must be reviewed for compliance with ERISA and the Code (e.g., payment of fees by the investment partnership to its general partner). It is generally considered to be quite undesirable to be subject to these rules.

[3] Qualification as an Operating Company

It is possible to organize a real estate investment partnership that will satisfy the "operating company" exception and

avoid the application of the look-through rules described above by complying with the "Plan Asset Regulation" promulgated under ERISA. n171 Pursuant to the Plan Asset Regulations, an "operating company" is an entity that is primarily engaged, directly or through one or more majority owned subsidiaries, in the production or sale of a product or service other than the investment of capital. Whether an entity is an operating company under the Plan Asset Regulations is a factual question to be determined by taking into account all relevant facts and the particular characteristics of the entity. The preamble to the Plan Asset Regulations (the "Preamble") states that certain companies may have elements of both an operating company and investment fund, but that, except as noted below, it is impractical to provide detailed guidance with respect to the types of activities necessary for characterization as an operating company. The term "operating company" also includes an entity that does not meet the general definition, but that is a "real estate operating company" ("REOC") or a "venture capital operating company" ("VCOC"). n172 A real estate investment partnership will qualify as a general operating company if it is actively involved in the management of the properties in which it invests, either through its own employees or through the use of independent contractors. Actively negotiating leases, maintaining the buildings and common areas, and the supervision and responsibility for the engagement or termination of employees and/or independent contractors are all indicative of management services. Accordingly, a commercial real estate developer seeking equity investment from a fund with ERISA investors may find that its equity investor will insist on having significant management rights.

[4] Definition of Real Estate Operating Company

A REOC is an entity, at least 50 percent n173 of the assets of which (other than short-term investments pending long-term commitment or distribution to investors) are invested in real estate that is managed or developed by the entity and with respect to which the entity (i) has the right to substantially participate directly in management or development activities and (ii) actually exercises those rights in the ordinary course of its business. For this purpose, management rights would include the right to negotiate leases, maintain common areas and conduct maintenance activities with respect to the properties. n174 If such activities are carried out by an independent contractor, management rights would then include the authority to direct and terminate such independent contractor. A real estate investment partnership that maintains appropriate levels of investments and has and exercises management rights with respect to the properties in which it invests will satisfy one of the operating company exceptions to the Plan Asset Regulation. Accordingly, the general partners of such an investment partnership will not be subject to the fiduciary duties of ERISA as a result of pension plan investments therein.

[5] REOC Status Must be Attained in First Year

The investment threshold for a REOC is generally determined with respect to a 12-month period. The requirement that management rights be exercised may be satisfied any time during the 12-month period. However, initial status as a REOC is determined as of the date of the entity's first long-term investment. Accordingly, in order for a real estate investment partnership to qualify initially as a REOC, its first long-term investment must be an investment that confers management rights, and is in real estate (and not mortgages). A prohibited transaction could result if an investment fund held pension plan money prior to its first qualifying investment.

The Department of Labor has announced that an entity seeking to qualify as a VCOC may use an escrow arrangement to facilitate initial capital contributions by pension plans. n175 The Department of Labor has approved arrangements in which the VCOC acquires a contingent interest in funds placed in escrow by pension plans and the plans acquire a contingent interest in the VCOC. Upon full performance of the terms of the escrow agreement, which would include a qualifying investment by the VCOC, legal title to the escrow property vests and the plans' interests in the VCOC become unconditional. By using such a structure, the escrow agent does not become a fiduciary with respect to the pension plans and VCOC status can be achieved. A similar rule should be applicable to REOCs. If the initial equity contribution of partners in a real estate investment partnership will be called as investments are made, a prohibited transaction will not occur if the capital contribution by pension plans are invested on the date of the call or held in escrow after the date of call until closing.

FOOTNOTES:

(n1)Footnote 169. *The Employee Retirement Income Security Act of 1974*, as amended ("ERISA").

(n2)Footnote 170. Other exceptions exist. One exemption is for a fund in which 25 percent or less of the equity interests in the fund are held by benefit plan investors (i.e., ERISA and certain non-ERISA plans and IRAs). ERISA plans and IRAs that invest in such a fund will not be deemed to own an interest in the underlying assets owned by the fund, and the investment activities of the fund will therefore generally not invoke the prohibited transaction rules. However, fund sponsors may find it undesirable to limit the potential amount that they can raise from ERISA plans in order to enable the fund to meet this test. Another exemption applies if the fund in which the ERISA plan invests is organized as a regulated investment company registered under the *Investment Company Act of 1940*. Under the plan asset regulations, a regulated investment company is not treated as a look-through entity, and the plan is treated as having an investment in the shares of the regulated investment company, but not its underlying assets. This latter exception is not particularly useful to real estate funds--a general exemption from the *Investment Company Act* rules is available to real estate funds.

(n3)Footnote 171. Department of Labor Treas Reg § 2510.3-101; 29 *CFR* § 2510.3-101.

(n4)Footnote 172. A VCOC is an entity, at least 50 percent of the assets of which (other than short-term investments pending long-term commitment or distribution to investors), valued at cost, are invested in portfolio companies that are operating companies (other than VCOCs) with respect to which the entity has or obtains management rights that it, in fact, exercises in the ordinary course of its business.

(n5)Footnote 173. For purposes of this test, assets are valued at cost.

(n6)Footnote 174. It is not necessary for the real estate investment partnership to manage *each* property in which it invests, but it must, in fact, exercise management rights with respect to some of the properties.

CHAPTER 20 Valuation Of Real Property

2-20 Federal Taxes Affecting Real Estate § 20.01

§ 20.01 Overview of Valuation in Tax Cases

[1] In General

The value of property is a question of fact determined after consideration of all relevant evidence of record. n1 All factors bearing on value are relevant, including, where pertinent, cost, n2 stipulations of value by the parties, n3 selling price of the subject property, n4 use to which the property is (or is not) put, n5 leases or other restrictions on the property, n6 threats of litigation with respect to the property, n7 available access (e.g., to roads), n8 zoning, n9 opinion evidence, and expert appraisals. n10

Valuation is admittedly not an exact science, and each case necessarily turns on its own particular facts. Therefore, the weight given to a particular factor in a particular case is unlikely to be of significant precedential value in future cases. n11

Note:

For estate tax purposes, qualifying taxpayers may elect to value farms and real estate used in closely held businesses at their current value rather than their "highest and best use." n12 The special use valuation election and valuation under *IRC § 2032A* are discussed in Chapter 18, "Estate Planning for Real Estate."

[2] Appellate Court Standard of Review

An appellate court's review of the Tax Court's valuation determines whether the Tax Court's valuation finding is clearly erroneous or not supported by substantial evidence. n13

[3] Weight of Position Taken in Tax Return

Often, a taxpayer will take a valuation position before the Tax Court that differs from the value given in an estate or other tax return. The valuation given in the return is treated as an admission by the taxpayer when that value is inconsistent with a later position taken by the taxpayer. The admission is not conclusive, however, and the court may determine the weight to be given to it. n14

Even if testimony before the Tax Court indicates a different value, the court may find a value equal to the one originally

given in the tax return. n15 A different value can be substituted by the court only with cogent proof that the reported value was incorrect. n16

[4] Assessed Value for Local Real Estate Tax Purposes

The assessed value of property for local property tax purposes is generally rejected as probative evidence of fair market value because assessed value is almost never a reliable criterion of fair market value. n17 Assessed values determined by probate court representatives are also not controlling, but may be accepted absent other evidence. n18

A court has also rejected as irrelevant for valuation purposes data from a county assessment sales ratio study indicating the median ratio of assessed values to sales price for all property in the county. n19

The use of *tax comparables* may provide "some insight" to value, but the use of *comparable sales* is much preferred. A tax comparable is used to determine a value or price per square foot based on the assessed value of property. n20

Practice Tip:

If a relationship between assessed value and fair market value can be demonstrated, assessed value should generally be used only to corroborate the fair market value as determined by another, more reliable method. Courts do place some reliance on assessed value if it is used primarily as corroboration. n21 In addition, even though assessed valuation is not often a reliable criterion in estimating fair market value, it has been used as a guide for determining the relative values of several parts of a larger piece of property. n21.1

[5] Sale of Subject Property

A direct arm's length sale of the property being valued at a time near the valuation date is probably the best evidence of fair market value, and it is given great weight in determining value. n22

A binding agreement to sell property for a stated price may also fix the value of the property. n23 The market in which the property is sold must be similar to the market on the valuation date, however; and intervening events between the sale date and the valuation date--such as a rapidly escalating or declining market--must not have affected the sale price. n24 Even a sale of the subject property, or portions of it, several years after the valuation date may be relevant in determining fair market value on the valuation date, provided that it can be shown that fluctuating market conditions since the valuation date do not dissipate the evidentiary value of the sale. n25

A sale of the subject property is not always accepted as the best evidence of valuation, if circumstances of the sale indicate it is not a sale at arm's length n26 or that it is otherwise a sale for a price different than fair market value. n27

A bona fide offer, made by a willing and able purchaser, but rejected by the owner, is some evidence of what the owner considers the lower limits of the value of the property to be. n28 It does not, however, conclusively establish the fair market value of the property. n29

[6] Events Occurring After the Valuation Date

[a] In General

It is well settled that events occurring after the valuation date are not considered in determining fair market value, except to the extent that those events were reasonably foreseeable on the valuation date. n30

Subsequent events may be considered for the limited purpose of establishing what a willing buyer's and seller's expectations were on the valuation date, and whether those expectations were reasonable. n31 For example, if a buyer

purchases undeveloped land in a wooded area at an unusually high price, the subsequent building of a nearby highway and shopping mall may be considered in determining expectations of buyer and seller on the valuation date. Did they know these major improvements were in the works at the time of valuation?

Actual ignorance of particular facts that may affect value on the valuation date is not sufficient to remove reasonably discoverable facts from consideration, however. Facts that a reasonable investigation would have disclosed must be taken into account. n32 For example, the presence of fuel tanks on a property might alert a taxpayer to the possibility of potential hazardous waste problems that could reduce the value of the property. n33

[b] Future Development and Re-zoning

The possibility of future development or re-zoning after the date of valuation is often present, particularly with property located in areas undergoing rapid growth and urban expansion. Whether and how they should be factored into the valuation of property on the valuation date depends on whether and how the likelihood of development would have influenced a buyer and seller on the valuation date. The likelihood or risks of obtaining the re-zoning and developing the property, the time frame in which they are likely to occur, and the costs involved must all be considered in making that determination. n34

Zoning and future development are discussed in further detail in connection with the "highest and best use" of property, at § 20.04[2].

[7] Burden of Proof of Valuation

In the usual case, the IRS's determination of fair market value of property in a notice of deficiency is presumed correct. The taxpayer bears the burden of proving a different value. n35

If the IRS pleads an increased deficiency in its answer before the Tax Court, the IRS has the burden of proving a value to the extent that it increases the deficiency claimed in the notice of deficiency. n36

[8] Costs of Removing Structures

The cost of removing undesirable structures after the sale usually causes a reduction in the value of the underlying land. n37

[9] Restrictive Agreements and First Offer Provisions

A restrictive agreement may affect the value of real estate. A restrictive agreement can affect valuation only if it has some legitimate business or other purpose and is not just a substitute for a testamentary disposition. In considering whether a restriction agreement may fix value or have some effect on the value of real estate, the following factors are considered: n38

- whether the price is determinable under the terms of the agreement;
- whether the owner of the interest is obligated to sell at the contract price and the other interest holders are obligated to purchase at that price;
- whether the obligation to sell at the contract price is binding upon the owner of the interest during the owner's lifetime and also binding upon the owner's estate upon the owner's death; and
- whether the agreement is a bona fide business arrangement and not a testamentary device.

Courts have distinguished "first offer" provisions from other types of restrictions and have held them to be only a factor in considering value, rather than determinative of value. n39

Evidence that a first offer provision has not been enforced in the past may lead to a finding that the restriction has little effect on value. n40

[10] Miscellaneous Indications of Value

Miscellaneous items or circumstances may be treated as relevant to, or determinative of, value in particular cases. The following have been mentioned in court cases:

- value recited in various documents relating to a sales transaction; n41
- value of revenue stamps placed on a deed of transfer; n42
- amount of a loan the taxpayer was able to obtain with the property; n43
- amount of a condemnation award; n44
- price at which the subject property was listed for sale; n45
- option price agreed to in a previously executed lease and option agreement; n46
- long-term leases on the property; n47
- evidence of the local economy and the real estate market; n48
- existence of local rent control laws; n49
- evidence of valuations in similar cases. n50

[11] Evidence Not Deemed Relevant to Value

The following have been held in particular cases to be irrelevant in determining the fair market value of real estate:

- data from a county assessment sales ratio study indicating the median ratio of assessed values to sales price for all property in the county; n51
- value for which buildings were insured; n52
- unaccepted offers to purchase or sell; n53
- incompleting sales; n54
- the taxpayer's initial cost, investment or basis in the property; n55
- the value of a "mortgage benefit" as a component of value (a mortgage benefit is the cost savings a purchaser of property would obtain by being able to assume a mortgage on property bearing a rate of interest below prevailing rates); n56

- options giving a right of first refusal, if the taxpayer is not under compulsion to sell; n57
- options granted to purchase property for a specified price; n58
- book value of real estate shown on the taxpayer's books; n59
- changes in the neighborhood based on ethnic or racial factors; n60
- deferred income tax liability that might be incurred on a future sale. n61

CHAPTER 20 Valuation Of Real Property

2-20 Federal Taxes Affecting Real Estate § 20.02

§ 20.02 Valuation Date

Property is valued on the valuation date. For estate tax purposes, this is the date of the death of the decedent. n62

If the alternate valuation date is chosen for valuing the decedent's estate, however, the valuation date is six months after the date of the decedent's death, n63 except for property that is distributed, sold, exchanged, or otherwise disposed of within six months after the decedent's death. That property is valued as of the date of distribution, sale, exchange, or other disposition. n64

For estate tax purposes, any interest or estate that is affected by mere lapse of time is valued as of the date of the decedent's death even if the alternate valuation date is chosen. An adjustment is made for any difference in its value as of the alternate valuation date that is not due to mere lapse of time. n65

Property affected by mere lapse of time includes estates for the lives of persons other than the decedent, remainders, and reversions, and other like properties, interests, or reversions. n66 For gift tax purposes, property is valued as of the date of the gift. n67 For purposes of the tax on generation-skipping transfers, property is generally valued as of the time of the generation-skipping transfer. n68

In the case of any direct skip of property that is included in the transferor's gross estate, the value of the property for purposes of the generation-skipping tax is determined as of the same date as for estate taxes (determined with regard to any alternate valuation date election). n69

The valuation date may also be any date upon, or as of, which the value of real property must be determined, including the following:

- the date of a purchase, for purposes of allocating basis among assets, n70 determining the basis of assets, n71 computing gain, n72 or for some other purpose; n73
- the date a residence is converted into income-producing property, for purposes of determining loss; n74
- the date a constructive dividend is determined to have been paid; n75

- the date of a liquidating distribution; n76
- the date upon which solvency of a subsidiary must be determined. n77

CHAPTER 20 Valuation Of Real Property

2-20 Federal Taxes Affecting Real Estate § 20.03

§ 20.03 Use of Expert Opinion to Value Real Estate

[1] In General

Expert opinion is admissible in federal courts if it will assist the trier of fact to understand evidence that will determine the fact in issue. n78 An expert's valuation opinion is a guide in determining value. n79 A court is not bound by any expert opinion that is contrary to its own judgment, however, and it may either accept or reject an expert's testimony. n80 Furthermore, the court need not accept an expert's opinion on valuation in its entirety, but may be selective and accept certain parts and reject others. n81 It may also accept the general methodology of an expert, but reject that expert's ultimate conclusion if it is unsupported by the record. n82 It may also find one expert more persuasive on one element of valuation and another expert more persuasive on another element. n83 Furthermore, an expert's appraisal may be rejected even if it is the only opinion evidence in the record. n84

The following factors with respect to an expert's valuation opinion can add to its persuasiveness:

- personal inspection by the expert of the subject property, n85 especially if the inspection occurs at or near the valuation date; n86
- familiarity with local real estate market conditions; n87
- a detailed report describing facts and data upon which a valuation opinion is based, and reasons for conclusions. This should include a detailed explanation of the effect of each variable for comparable properties, and the weight given to any unique circumstances of comparable sales. n88

[2] Qualifications of Valuation Experts

Courts routinely weigh valuation evidence in light of the demonstrated qualifications of the experts and all other credible evidence. n89 For example, the testimony of a broker is likely to be given less credibility than the testimony of a professional appraiser, even if the broker is knowledgeable about local market conditions. n90

Nevertheless, a court will often permit testimony of valuation from a person with valuation experience and familiarity with local market conditions, even if formal appraisal credentials and memberships in professional appraisal societies are lacking. n91

Objections to the credentials of an expert typically go to the weight to be given to the valuation testimony or other evidence provided, rather than being grounds for exclusion of the evidence entirely. n92

In addition, opinion testimony of value by a lay witness is admissible if the testimony is based on the perception of that witness and is helpful to a clear understanding of either the witness's testimony or the determination of a fact in issue. n93 Thus, the owner of property is qualified, by ownership alone, to testify as to its value because of the presumption of special knowledge that arises out of ownership of the land. n94 There is also authority for the proposition that a witness is sufficiently qualified to give testimony as to land values as a "quasi-expert," where the witness is a resident, landowner, or farmer in the neighborhood. n95 A witness may be qualified as an expert by knowledge, skill, experience, training, or education. n96 It is within the discretion of a trial court to determine whether a witness qualifies as an expert. That determination will not be reversed on appeal unless it is clearly erroneous. n97

A court may refuse to admit into evidence valuation opinions by a person who does not qualify as an expert, n98 may restrict the matters upon which testimony may be given, n98.1 or it may give little or no weight to testimony or reports from someone who is not an expert. n99

In nearly all valuation cases, the court lists the qualifications and experience of the various experts, often listing the particular number of appraisals an expert has done. The relative qualifications of the competing experts are then considered in determining the weight the court gives to their valuation reports and testimony. n100

Of importance are the following: n101

- education and association memberships of the expert (membership in the American Institute of Real Estate Appraisers, Society of Real Estate Appraisers, or American Society of Appraisers is often mentioned);
- achievement of particular designations within those organizations is also mentioned, with the MAI designation considered the most highly recognized appraisal designation; n102
- experience in appraising and/or buying and selling the particular type of property involved; n103
- experience in appraising property in the locale of the subject property; n104
- experience with local zoning approval processes; n105
- experience in providing expert testimony, and in representing a variety of clients; and n106
- general familiarity with the local area and subject property. n107

Regardless of qualifications, however, courts are not reluctant to reject expert testimony that is unsupported or biased, n108 and they may give greater weight to more solid evidence presented by a less qualified expert. n109 Doubts about the reliability of an expert's valuation are more often due to the failure of facts to support valuation assumptions and the testimony of value, as well as internal inconsistencies or errors within appraisal reports and testimony, rather than to the qualifications of the expert *per se*. n110

[3] Litigation of Valuation Cases

The Tax Court hates valuation cases and has said repeatedly that valuation disagreements are far better resolved by negotiations between the parties rather than by judicial pronouncement. n111 Often, the Tax Court's final valuation

figure is summarily given, with little explanation of the process by which it was reached, or with a statement that explaining its reasoning in detail would serve no useful purpose. n112

The Tax Court has admitted that its valuation conclusions are subjective and that to fully explain its analysis would merely give an illusion of a process of reasoning, when in fact the result reached is simply an ultimate finding based on the record as a whole. n113

In case after case, the Tax Court simply does the best it can with the data presented by the parties, and it gleans what it can from the experts' often widely conflicting analyses and valuations. In the exercise of its "Solomon-like wisdom", it then arrives at its own conclusions as to value. n114

All too often, however, the valuation experts give blatantly result-oriented, self-serving valuation data that favors the side that hired them. In these cases, the court more or less throws its hands up in disgust, castigates the experts' credibility and evidence, and comes up with a figure on its own. The court's figure is not infrequently about mid-way between the figures promoted by the IRS and the taxpayer. This isn't surprising, given the ludicrous extremes experts claim as the value for a single parcel of property. n115

Even in cases where the integrity of the experts isn't questioned and their evidence is not clearly "result oriented," courts often reach a middle figure from those suggested by the parties. n116 Nevertheless, a "middle-of-the-road-compromise" is not always the end result. n117 Indeed, the Sixth Circuit has admonished the Tax Court for finding mid-point valuations without giving a detailed explanation of its rationale. n118

[4] Contents of Appraisal Reports

An appraisal of real property for tax purposes should be obtained from a qualified and reputable appraiser, and it should generally contain the following: n119

- a summary of the appraiser's qualifications;
- a statement of the value and the appraiser's definition of the value obtained;
- the bases upon which the appraisal was made, including any restrictions, understandings, or covenants limiting the use or description of the property;
- the date as of which the property was valued;
- the signature of the appraiser and the date of the appraisal.

CHAPTER 20 Valuation Of Real Property

2-20 Federal Taxes Affecting Real Estate § 20.04

§ 20.04 Definition of Value

[1] "Fair Market Value" Standard

The figure at which property is valued is its "fair market value" as of the valuation date. n120

Fair market value is generally the price at which property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or to sell, and both having reasonable knowledge of relevant facts. n121 (In short, the transaction must be at arm's length.) The willing buyer and willing seller are necessarily hypothetical persons, not any particular person or type of person. n122 Thus, evidence of what a particular seller is likely to do, n123 what one particular buyer offered to pay for a property, n124 or the special value that a particular property has to a particular person n125 is given no weight in assessing a property's fair market value. For example, the sentimental value a seller places on his childhood home is irrelevant in determining its fair market value.

Fair market value depends upon value in the market and not on intrinsic worth. n126 The particular market in which the fair market value of property is determined is the market in which it is most commonly sold to the public, in the sense of the "customary purchasers" of the property. n126.1 This market may be the wholesale or retail market, and the market used to value the property may be different from the market in which the taxpayer purchased the property. n126.2

The determination of fair market value is a question of fact, and a court will consider all relevant facts and testimony of record in making its finding. n127

[2] Highest and Best Use

The fair market value of property must generally be based on the property's highest and best use on the valuation date, including potential development. "Highest and best use" is that use which will support the highest present value on the date of the valuation. In determining highest and best use, the realistic, objective potential uses of the property control. To determine what uses are reasonable and probable, courts focus on the highest and most profitable use for which the property is adaptable and needed or is likely to be needed in the reasonably near future. n128

A property's highest and best use may very well be different from its existing use. The fair market value of property is not affected by whether the owner has actually put, or ever intends to put, the property to its highest and best use. n129 Zoning restrictions may, of course, limit the uses to which property may be put and therefore affect a property's highest

and best use. n130 Nevertheless, the highest and best use for property may be one that is prohibited on the valuation date by some restriction in a deed, statute, or zoning regulation. n131

Determining highest and best use depends on many factors including the property's general location and physical features, and market conditions, such as supply and demand. n132

In determining whether a potential use is reasonably likely, existing zoning and historic preservation laws must also be taken into account. Any potential use must also be economically feasible. n133

The possibility of re-zoning and consequent development after the date of valuation is often in issue in determining the highest and best use of property, particularly with property located in areas undergoing rapid growth or development. Whether and how they should be factored into the valuation of property on the valuation date depends on the likelihood or risks of obtaining the re-zoning, the time frame in which re-zoning/development is likely to occur, and the costs of obtaining re-zoning or development permits. The value of the property is discounted by the reasonable estimates of the cost of, and time involved in, removing the restrictions. n134

Any projected highest and best use, however, must have a strong possibility of achievement and not be remote, speculative, or conjectural. n135

In rare cases, a property's highest and best use may not be relevant to valuation. In one case, the court refused to consider an underlying property's highest and best use in valuing a decedent's interest in the limited partnership that owned the property. Its rationale was that a 99-year ground lease to which the property was subject prevented the property from being used in its highest and best use. n136

Note:

For estate tax purposes, qualifying taxpayers may elect to value farms and real estate used in closely held businesses at their current value rather than their "highest and best use." n137 The special use valuation election and valuation under *IRC § 2032A* are discussed in Chapter 18, "Estate Planning for Real Estate." n138

(n12)Footnote 129. *Olson v US*, 292 US 246 (1934) ; *Stanley Works and Subs v Commr*, 87 TC 389 (1986) ; *Symington v Commr*, 87 TC 892 (1986) ; *Frazee v Commr*, 98 TC 554 (1992) ; *Dorsey, Jr v Commr*, TC Memo 1990-242 ; *Estate of Butscher v Commr*, TC Memo 1975-224 (highest and best use was general commercial/retail use, although building was being used as bowling alley); *Estate of Adams v Commr*, TC Memo 1973-113 (highest and best use of property was for development, rather than its current farm use, in part because of local urban growth); *Schapiro v Commr*, TC Memo 1991-128 (Tax Court found highest and best use of property was as subdivided residential building lots, not current use as single parcel, because there was subdivision activity in the area and development costs of subdividing the land would be minimal).

(n13)Footnote 130. *Crowley v Commr*, TC Memo 1990-636 (court accepted IRS's \$64,000 valuation and rejected the taxpayer's \$860,000 estimate for 8 acres of undeveloped land, based on zoning restrictions which precluded the taxpayer's alleged highest and best use for the property as a resort hotel).

(n14)Footnote 131. *Thornton v Commr*, TC Memo 1988-479 , *aff'd without publ opinion* 908 F2d 977 (9th Cir

1990); *Ebben v Commr*, TC Memo 1983-200, *affd on this issue* 783 F2d 906 (9th Cir 1986); *Crowley v Commr*, TC Memo 1990-636; *Stanton v Commr*, TC Memo 1980-300 (because of surrounding growth and good highway access, highest and best use of property, currently zoned agricultural, was for commercial development).

(n15)Footnote 132. *Crock v Commr*, TC Memo 1983-351; *Van Zelst et al v Commr*, TC Memo 1995-396, *affd* 100 F3d 1259 (7th Cir 1996) (court found highest and best use of 93 acres of remote, steep Alaskan wilderness to be as recreational cabin site, and not as commercial resort, and therefore accepted IRS valuation of \$38,000 and not the \$2.75 million claimed by the taxpayers; for a separate property involving mineral rights, the court gave a zero value because mining would not be economically feasible); *Tidler v Commr*, TC Memo 1987-268 (highest and best use of property as hospital rejected because local market would not have supported additional hospital on valuation date and other evidence showed that construction of a hospital was not financially feasible); *Lloyd v Commr*, TC Memo 1996-30 (unaccepted offers and option contracts to purchase may indicate commercial nature of property if investors and developers are involved).

(n16)Footnote 133. *Losch v Commr*, TC Memo 1988-230 (possible addition of two stories to building rejected in determining property's highest and best use because taxpayer failed to show economic feasibility of the addition); *Talkington v Commr/Sessions v Commr*, TC Memo 1998-412 (court found highest and best use of parcel to be its current agricultural use, even though it was zoned for industrial use, because local industrial market was weak, rental rates did not justify new construction, and access to property was not good); *Estate of Murphy v Commr*, TC Memo 1981-489 (prospect for commercial development of subject property was unlikely because of poor local economy, numerous vacancies, and decreasing population); *Great Northern Nekoosa Corp v US*, 711 F2d 473 (1st Cir 1983) (parcel could not be valued as hydroelectric dam site, because federal government had selected the site as a possible part of a wildlife and scenic river system); *McMurray v Commr*, 985 F2d 36 (1st Cir 1993), *affg* TC Memo 1992-27 (value of peat bog property contributed to charity could not take into account the value of harvestable peat on the property because zoning and other harvesting restrictions for peat and the lack of a market made that value speculative).

(n17)Footnote 134. *Frazee v Commr*, 98 TC 554 (1992) (likely rezoning of property from agricultural to industrial should have been considered at time of valuation); *Estate of Feuchter v Commr*, TC Memo 1992-97 (land valued as agricultural, rather than as potential residential, commercial, or industrial property because long-standing recession in local economy made development unlikely); *Mathis v Commr*, TC Memo 1989-254; *Turner v Commr*, TC Memo 1977-437; *Lloyd v Commr*, TC Memo 1996-30 (court found highest and best use of property was commercial, notwithstanding that it was zoned as residential, because of its proximity to highways, likelihood of re-zoning, and developer interest); see *Walker v Commr*, TC Memo 1982-495 (value reduced because it was doubtful that necessary permits could be obtained to develop Florida marshland).

(n18)Footnote 135. *Hay v Commr*, TC Memo 1992-409 (highest and best use of California coastland was 71-lot subdivision, even though that residential use was prohibited at time of valuation; court rejected as too pessimistic the IRS claim that highest and best use was as 5-acre lot development); *Thornton v Commr*, TC Memo 1988-479, *affd without publ opinion* 908 F2d 977 (9th Cir 1990) (valuation of donated cemetery as multiple unit housing was too speculative in view of zoning legislation, and disinterment and other costs involved in adapting the property for that use); *Crowley v Commr*, TC Memo 1990-636; *Olson v US*, 292 US 257 (1934).

CHAPTER 20 Valuation Of Real Property

2-20 Federal Taxes Affecting Real Estate § 20.05

§ 20.05 Valuation Methods

[1] In General

A variety of methods are used to value real property. Courts typically describe the particular methods being used in a given case, often quoting from one of several appraisal textbooks. n139

Although common methodologies are used in valuation, the result as to the particular value of a property, the weight given to a particular factor within a particular methodology, and whether the result is pro-taxpayer or pro-IRS are all issues that are extremely fact- and property-specific. Therefore, prior decisions are typically of little, if any, use in predicting what result will be reached in another case.

The three most common methodologies used are the comparable sales (or market data) approach, n140 the income approach, n141 and the cost approach. n142 When possible, all three approaches to valuation should be used, in order to check each against the others. n143

Easements are typically valued using a "before and after" approach, which looks to the change in value of the property resulting from the imposition of the easement. n144 The failure to use a recognized appraisal method will cause any conclusions reached to be discredited or ignored. n145

[2] Comparable Sales Approach

[a] In General

The "comparable sales" approach--also called the "market data," "direct sales," or "sales comparison" approach--generally involves locating parcels of land that are physically similar to the property being valued and which have been sold within a reasonable time of the valuation date. The sales prices of comparable properties are adjusted up or down to reflect differences between them and the subject property. Adjustments are typically made for location, size, age, condition, type of improvements, different uses to which comparables are put, zoning differences, terrain, topography, and other physical attributes of the land, water supply, water rights, access to roads and utilities, market conditions, and sale date. The existence and type of financing may also warrant an adjustment. The estimated values of comparable properties, as so adjusted, provide an indication of the value of the subject property on the valuation date. n146 Results determined from comparable sales will generally be an array of indicated values for the subject property.

These values should not be averaged. n147 Rather, those comparables with the least adjustments should be considered most comparable. n148 The comparable sales approach tends to be seen as the most reliable method of valuation. n148.1

It is critical that any value adjustments made to compensate for differences between a comparable property and the subject property be fully explained. If they are not, the comparable, and the expert's opinion based on it, may be disregarded altogether, or the court may make whatever adjustments it feels are necessary. n149

Most valuation cases involve the court's grappling with inconsistencies in the comparable valuation evidence or errors in the application of the comparable sales approach. The court frequently modifies valuations based on its finding that so-called comparable properties used were not in fact comparable, n150 or were improperly adjusted to reflect for differences. n151 The court may also reject comparables used in their entirety if they are not analyzed with reference to the subject property. n152 Errors or difficulty in assessing the subject property itself may also influence a court's application of the comparable sales method. n153

The type of sale may affect the comparability of an otherwise similar property. Thus, allegedly comparable sales that do not reflect fair market value may be ignored or given little weight in determining the fair market value of a subject property. The following sales may be less reflective of fair market value, and therefore they may need to be significantly adjusted or even ignored as comparables: n154

- distress sales, such as foreclosure sales, or other highly motivated sales;
- transactions that are part sale and part gift;
- transactions with unusual terms of sale;
- cash transactions;
- transactions with unusual or different financing, such as owner financing, or assumable financing at a lower rate; n155
- transactions that are not at arm's length (as with below-market sales to relatives or premium sales to adjoining landowners who attach a special value to the property); n156
- sales in exchange for services. n157

Indefinite or unaccepted offers of purchase of comparable properties are generally not substantial evidence of value, nor are incompleted sales or mere listings of property for sale. These should therefore not be used as comparables. n158

[b] Comparable Sales Approach in Valuing Unimproved Real Estate

In the case of vacant, unimproved property, the comparable sales approach is considered the most reliable method of valuation, the rationale being that the market place is the best indicator of value, based on the conflicting interests of many buyers and sellers. n159

The IRS has issued guidance on how to use the comparable sales approach for valuing unimproved real property for federal income, estate, and gift tax purposes. The following factors should be considered in an appraisal: n160

- location, including proximity to roads, schools, shopping, transportation, and other amenities;

- configuration, topographic features, and total area;
- restrictions as to land use or zoning;
- road frontage and accessibility;
- available utilities and water rights;
- existing easements, rights of way, leases, etc.;
- soil characteristics;
- vegetative cover, such as grass, brush, trees, or timber;
- status of mineral rights;
- riparian rights; and
- other factors affecting value.

[c] Usefulness of Comparable Sales Approach

The use of the comparable sales method itself is seldom contested, and the method is generally considered to be the most reliable method of valuation, the rationale being that the market place is the best indicator of value. n161

The usual disagreements that arise relate to the accuracy of the particular comparable sales used and the correctness of the adjustments made to reflect the differences in the comparable properties. The resolution is an extremely fact- and property-specific one, and the particular result or weight attributed to a particular item of value in any given case is of little use in other cases. n162

The comparable sales approach is considered especially useful for valuing residential properties. n163

The comparable sales method is obviously not useful when there are no comparable properties to the property being valued. In that case, reproduction cost may be considered in determining value. n164 In other words, builders would be called upon to testify about the cost of creating from scratch a building identical to the one whose value is being determined.

[3] Income Method

The income method, also called the income capitalization method, is generally used to value income-producing property such as office buildings, rental property, and farms. The income method determines fair market value by considering the value of the stream of future income to be produced by the property. The estimated gross income is reduced by estimated vacancy losses and expenses to compute net income. This net income is then processed into an indication of value by using one or several different methods to determine the proper capitalization or discount rate for the current market. n165 The higher the risk perceived to be associated with a given income stream, the higher the capitalization rate, and the lower the fair market value of the property. n166 A reversionary value for land and improvements may also be taken into account in applying the income method of valuation. n167

Income from a property is often determined by looking to the rental rate per square foot commanded by similar properties. Adjustments are then made for quality, condition of property, location, parking areas, vacancy rates, and

other relevant differences. The income capitalization approach is often considered more appropriate than the market data or cost approaches for valuing commercial and other income-producing property. n168

The income method may not always be appropriate for valuing single-family or even small multi-family properties, if there is evidence that those properties are seldom rented n169 or not generally bought and sold locally for the purposes of producing income. n170

The income method is also not useful to value property that is held for its land value as opposed to income-producing value, as with damaged property or property in disrepair. n171 It is also not useful if use of that method is inconsistent with the highest and best use of the property. n172

[4] Cost Methods

[a] Replacement Cost Method

The replacement cost method, or cost approach, estimates value by determining the replacement cost of the improvements, reduced for depreciation, and then adding the estimated fair market value of the land to reach a final value. n173

The cost approach estimates value based on the assumption that a prudent person will not pay more for a property than it would cost to acquire a site and erect a comparable structure (less accrued depreciation). This approach is especially applicable to new or nearly new structures when the land value is also reliable. n174 When the replacement cost method is used to value improvements, the underlying land may be valued by another method, such as the comparable sales method. n175

The replacement cost method is of questionable value for older, historic properties, n176 unique, individualized properties, n177 or functionally obsolete properties, n178 because of the unlikelihood that those properties would be reconstructed in their existing form. In addition, for properties that are several years old, it is often difficult to precisely estimate the accrued depreciation, and the problem is compounded if depreciation exists in more than one form (i.e. physical, functional, and economic obsolescence). n179

The replacement cost can also be of limited value when the local market conditions are extremely low on the valuation date. n180

[b] Reproduction Cost Method

The reproduction cost method can be used as a relevant measure of fair market value when the property to be valued is unique, its market limited, and when there is no evidence of sales of comparable properties. n181

Reproduction cost is the current cost of reproducing or replacing a property, less loss in value from deterioration and functional or economic obsolescence (sometimes referred to as accrued depreciation). n182

Reproduction cost differs from replacement cost n183 in that reproduction cost is the cost of duplicating the existing improvements exactly as they are, rather than replacing them with similar improvements. n184

The method generally assumes that the property being valued is worth replacing. n185 This is often not the case, as reproduction cost will often exceed the property's fair market value. n186

For the reproduction cost appropriately to have an impact on a subject property's fair market value determination, however, the taxpayer must establish a probative correlation between it and fair market value. n187 In other words, even

if a reproduction cost is established, evidence must also be offered to convert that figure into a resulting fair market figure for the property. Otherwise, the court may engage in a "guesstimate" based on an incomplete record. n188

The accrued depreciation used in the reproduction cost method must be determined by inspection. Factors such as actual use, condition, and age are all relevant in arriving at an appropriate rate. n189

[5] "Before and After" Method

[a] In General

In the case of gifts of easements on property (usually involving charitable contributions, such as conservation easements), there is rarely an established market, and often no comparable sales of the particular type of easement donated. Therefore, the fair market value of the easement is often determined indirectly by using the "before and after" valuation method. The "before and after" method determines the negative effect the easement has on the value of the total property. It determines the difference in the value of the property with and without the easement by subtracting the value of the property immediately after the imposition of the easement from the value of the property immediately before the imposition of the easement. This method has been approved by the courts and the IRS in valuing easements. n190

The fair market value of the easement is based on the highest and best use for the property on the valuation date, including potential development. n191 In determining the "before" value, consideration is given to the effect of existing preservation and zoning laws restricting the property's development apart from the easement, n192 but the value is not affected by whether the owner actually intends to put, or has put, the property to its highest and best use on the valuation date. n193

[b] Anticipated Use Valuation Technique

The anticipated use technique is widely accepted in valuing conservation easements and is used in conjunction with the "before and after" method. The following steps are followed in applying the technique: n194

- for both "before" and "after" conservation gift scenarios, the market is studied, and an overall plan reflecting the highest and best use for each scenario is derived.
- from these plans, by comparison with the development and sale experience for similar types of property, gross sale proceeds for developed lots are projected. The sale proceeds can reflect per-lot sales, anticipated absorption, and built-in factors for property appreciation.
- from the gross sale proceeds projected for each of the "before" and "after" conservation scenarios are deducted respective development costs, including the following:
 - planning and design;
 - roadway construction;
 - utility and installation;
 - administration and overhead;
 - legal and audit;

- survey and testing;
- sales and marketing;
- finance and carry; and
- developer profit.

■ The net available after all costs of creation have been deducted for each of the "before" and "after" subdivision plans represents an annual net income imputable to the land. Applying a discount factor to account for the time-value concept of money results in a net present value for the land as generated by the anticipated use (development) methodology.

■ the final step in the valuation of the subject conservation easement involves the comparison of "before" and "after" restriction land values. The difference between these two values reflects the value of development rights implicit in the donation of a partial conservation restriction.

[6] Development Method

The development method may also be used to value property. The development approach to valuation is used to determine the value of undeveloped land by treating it as if it were subdivided, developed, and sold. The expected proceeds from the sale of the property are discounted over the estimated period required for market absorption of the developed sites. From the proceeds of sale, development costs, incentive costs, and carrying charges are subtracted in order to determine the amount a developer would pay for the undeveloped property, i.e., the property's fair market value. Costs that are incurred at the beginning of the development of the property are subtracted from the projected income after discounting the income stream, while expenses incurred in relation to selling the developed sites are subtracted prior to discounting the income stream. n195

[7] Land Residual Method

The land residual method is a form of income valuation method that is designed to show the maximum amount a developer could afford to pay for land, while earning a reasonable profit, after all costs of construction and operation are taken into account. The method uses discounted forecasted net income streams. The method first estimates the market value of a completed and operating development and then, after subtracting the total cost of development, including the developer's profit, arrives at a residual land value. n196 This method is not a favored one n197 and has been rejected by the Tax Court in one case as a purely academic exercise. The Tax Court objected to its flexibility and to the fact that its benchmark is sometimes what a developer willing to take high risks--rather than a reasonably prudent investor--would pay for property. n198

CHAPTER 20 Valuation Of Real Property

2-20 Federal Taxes Affecting Real Estate § 20.06

§ 20.06 Valuation Discounts

[1] In General

A variety of discounts may be applied in valuing a property. A taxpayer bears the burden of showing that a discount is appropriate, and the amount of any discount. n199

[2] Lack of Marketability Discount

A marketability discount measures the diminution in value attributable to the lack of a ready market for real property. n200 Although distinct, this discount is often discussed in conjunction with, and sometimes as a component part of, a minority or fractional interest discount. n201 The likely reason is that one of the factors making a minority interest in property less desirable than a fee interest is its lack of marketability. n202

[3] Minority and Fractional Interest Discounts

[a] In General

The economic theory underlying a minority or fractional interest discount is that the value of a part may be *less* than a proportionate part of the value of the whole--i.e., the undivided partial interest in real estate is worth less than its allocable share of the entire value. n203

Discounts are not just given for minority interests in property. A fractional interest discount may be given even when the ownership interest being valued is 50 percent or more. n204

There are several underlying rationales for permitting a minority or fractional interest discount: n205

- A holder of a fractional interest in property can compel partition of the property, which is not available with other types of shared ownership interests; therefore, a minority discount should reflect the cost, uncertainty, and delays attendant upon partition proceedings, and the value of the interest secured thereby. n206
- Difficulty of marketing undivided interests in real property; n207

- General disadvantages of owning real estate jointly with others, n208 along with the significance of the control factor. n209

In order to be entitled to a minority or fractional interest discount, a taxpayer must offer evidence that a partial interest in the real property would sell for less than its proportionate share of the entire value of the property. Absent that evidence, no discount will be allowed. n210

Evidence of the amount of discount to be given can be from comparable sales of partial interests or testimony of local real estate market practices. n211 It may also be helpful to provide evidence of discord among current owners, evidence that a new purchaser is likely to be unable to get along with existing owners, and evidence that the property is not readily divisible in kind. n212

[b] Property Interests Eligible for Minority or Fractional Interest Discounts

Minority or fractional interest discounts are allowed for property held in tenancy in common n213 and for community property. n214 Ownership of remainder interests in the subject property by family members does not necessarily preclude the discount. n215 Discounts are also given for fractional ownership interests in entities that hold real estate, such as partnerships, n216 limited partnerships, n217 corporations, n218 or trusts. n219

Separate interests in the same property that are included in a decedent's estate under different statutory provisions or held in different capacities by the same taxpayer are also eligible for a fractional interest discount. The interests are not aggregated so as to preclude the discount. n220 Fractional interest discounts are not permitted for property held in joint tenancy because of the right of survivorship that is characteristic of that property. n221 A fractional discount may not be allowed when the property in question, for some reason, must be sold as a fee interest. n222 A fractional interest discount also cannot be taken for estate tax purposes with respect to real property for which a special use valuation election is made under *IRC Section 2032A*. n223

[c] Amount of Discount

The minority or fractional interest discounts given in various cases vary widely. The amount given depends on the percentage ownership being discounted, unique facts and circumstances of each case, and, perhaps most importantly, the expert evidence presented in support of the discount. For this reason, it is difficult to predict the likely amount of discount, if any, to be applied in valuing a fractional interest in a particular property. Sometimes, the existence of a fractional interest is given as a factor in establishing value, but the court does not specify the exact weight given to it. n224

Factors favoring a lower discount include the following: n225

- good condition of the property;
- desirable location;
- good rental histories with creditworthy tenants.
- long-term leases.

[4] Market Absorption or Blockage Discount

A market absorption (or blockage) discount may be given for properties where the addition of numerous similar

properties into the market within a short period of time depresses their price. This can occur when a decedent dies owning numerous parcels of real estate in the same geographic area. n226 For the discount to be available, a taxpayer must show that a sale of all the properties at once would depress the market and result in a lower price for each property than would result if the properties were sold gradually over a period of time. The price reduction can then be reflected in the properties' values for valuation purposes. n227

The Tax Court applies a five-part analysis in determining whether and how a market absorption discount should apply: n228

- (1) Examine the assets to be valued and categorize them by type.
- (2) Ascertain the market value (without market absorption discount) of each asset in each category, assuming that each asset will be marketed separately.
- (3) Compare the number of assets in each category to the number of assets of that type that are traded in the market over a reasonable period of time.
- (4) Ascertain how much longer than this reasonable time period it would take to sell at market value each asset that could not be sold in this reasonable time period.
- (5) Discount the value of each asset in the category of assets that cannot be sold within a reasonable time period, taking into account the time value of money and the period of time that the category of assets would have to be marketed in order to sell each asset.

[5] Combined Discounts on Same Property

A single property may be entitled to multiple discounts, such as both a minority interest discount and lack of marketability discount, n229 both a minority interest discount and lack of accessibility discount, n230 or both a market absorption and minority interest discount. n231

Discounts are, and generally should be, considered and weighted separately. At times, however, discounts are combined to come up with a single valuation discount figure. n232 In addition, courts sometimes discuss various discounts and then lump them into a composite discount percentage without clarifying the amount attributable to each particular type of discount. n233 Multiple discounts may be found even though family members own all interests in the property. n234

2-Forms Federal Taxes Affecting Real Estate [A]

[A] Real Estate Entities

A.1 Tenancy in common--equal ownership by two individuals--unimproved property

COMMENT

This group of forms illustrates various joint ventures for the coownership of property. Generally, a joint venture is a union of two or more persons or corporations in a business enterprise with well-defined restrictions on its activities. If the joint venture is involved in real estate, one of the first questions that arises is the form in which title to the real estate is to be held by the joint venturers. In many instances title is taken in the name of all of the participants as tenants in common. In other cases title is taken in the name of the joint venture. In some cases a nominee is designated to hold title for the benefit of the joint venture. This technical problem as to how title is to be held will often depend upon the number of participants in the joint venture and the extent of the proposed real estate activity, and must be governed by rules of local real estate law, considerations of title, control, and the practice of title insurance companies.

Tax classification:

From the viewpoint of the income tax law, the first problem with respect to a real estate joint venture is to determine whether it is subject to the partnership provisions of the Code, or whether the coowners can compute and report their respective shares of income or losses separately and without reference to those provisions. The venture may be classified as a mere coownership, in which event the partnership provisions will not be applicable. Even a venture which has the technical characteristics of a partnership may be excluded from the partnership provisions if it qualifies as an "investing or operating venture." If it does not fall into either of these two categories, the partnership provisions will be applicable to the venture unless it elects to be taxable as a corporation. For these purposes the results depend upon the provisions of the Code and the applicable Regulations thereunder.

Coownership vs. partnership tax status:

The Regulations define a partnership as including "a syndicate, group, pool, joint venture, or other unincorporated organization through or by means of which any business, financial operation, or venture is carried on, and which is not a corporation or a trust or estate within the meaning of the Code." The Regulations also provide that the mere ownership of property which is maintained, kept in repair, and

2-Forms Federal Taxes Affecting Real Estate [A]

rented or leased does not constitute a partnership. Tenants in common, however, may be partners if they actively carry on a trade, business, financial operation, or venture and divide the profits thereof. For example, a partnership exists if coowners of an apartment building lease space and in addition provide service to the occupants either directly or through an agent. It has been held, however, that cotenants do not become partners by reason of an agreement to appoint an agent for management, collection of rents, and sale. The result in any given case seems to depend upon the extent of the business activities of the venture. If the relationship is solely for the coownership of property, the characteristics of a partnership are absent.

Limited election to be excluded from partnership taxation:

The statute recognizes the existence of certain borderline relationships. It provides that even if a business arrangement fits the definition of a partnership, it may elect to be excluded from the partnership provisions of the Code if it is availed of either for investment purposes only and not for the active conduct of a business, or for the joint production, extracting, or use of property, but not for the purpose of selling services or property produced or extracted. In either case, exemption from the partnership provisions is possible only if the income of the members may be adequately determined without the computation of partnership income.

Investing partnership exclusion election:

The Regulations state that an "investing partnership" qualifies where "the participants in the joint purchase, retention, sale, or exchange of investment property (a) own the property as coowners, (b) reserve the right separately to take or dispose of their shares of any property acquired or retained, and (c) do not actively conduct business, or irrevocably authorize some person or persons acting in a representative capacity to purchase, sell, or exchange such investment property, although each separate participant may delegate authority to purchase, sell, or exchange his share of any such investment property for the time being for his account, but not for a period of more than a year." This definition would include the usual stock pool, or a syndicate for investment in land or in improved real estate subject to a lease under which the lessee incurs all operating expenses. The "active conduct of business" requirement, however, would seem to exclude syndicates which operate an office building or an apartment house, whether directly or through an agent. The election not to be treated as a partnership, however, has no effect upon the classification of the organization as an "association" subject to corporate tax.

Election procedure:

The election to be excluded from treatment as a partnership is made by filing a properly executed partnership return containing only the name and address of the organization, together with a statement containing the names and addresses of all members, a statement that the organization qualifies for the election, a statement that all of the members of the organization so elect, and a statement indicating where a copy of the agreement under which the organization operates is available. However, the election is not effective if any member notifies the Commissioner that he desires the partnership provisions to apply, but such notice must be filed within 90 days after the formation of the organization and the notice must state that the member has so notified all other members by registered mail. The election is irrevocable so long as the organization remains qualified, except with the consent of the Commissioner. It is not affected by a sale of a member's interest.

Coownership forms:

2-Forms Federal Taxes Affecting Real Estate [A]

Many of the forms in this group relate to ventures which qualify either as mere coownership arrangements, or as investing partnerships which may elect to be excluded from the operation of the partnership provisions of the Code. Keep in mind that the classification in each instance depends upon the activities of the venture. In cases where the activity extends beyond the mere ownership of property, it is strongly advisable to submit the formal election to be excluded from the partnership provisions, rather than to rely upon the position that the venture does not have any partnership characteristics. Of course, the terms of the cotenancy or joint venture agreement by themselves cannot be the excuse for the failure to file a regular partnership return, if in fact the venture pursues the "active conduct of a business."

Joint acquisition for investment:

This form illustrates an arrangement for the joint acquisition of property where no substantial business activity is contemplated. The primary objective is to hold the property as an investment for future resale. On these facts, the venture could elect to be excluded from the operation of the partnership provisions. The venture is predicated upon a contract for the purchase of property in a state where the unpaid portion of the purchase price is generally secured by a deed of trust to a bank. The coownership agreement is designed to insure that each venturer will promptly contribute to the installments due under the deed of trust and to other expenses as they become due. Thus, the agreement defines certain penalties to be imposed upon a defaulting party. In addition, the agreement outlines the conditions under which one coowner may dispose of his interest to an outsider. Here, the objective, as in many agreements of this kind, is to give the other coowner the so-called right of first refusal.

Tax basis of coowner:

The tax basis of a coowner of his interest in property acquired by purchase is his cost, including amounts contributed on behalf of a defaulting coowner (as well as costs relating to acquisition, such as payments for perfecting title, architects' fees, brokers' commissions, and appraisal fees).

For further information, see Chapters 1, 2, and 14.

FORM

AGREEMENT entered into on November 30, 2002, between Harold Stern, a married man dealing with his sole and separate property (Stern), and Frank Realty Corporation (Frank).

Recitals

The parties are purchasing as tenants in common the property described in Exhibit A attached hereto.

Each of the parties has an individual one-half interest in the property.

The parties desire to provide for the management and disposition of such property.

It is, therefore, agreed as follows:

1. *Down payment and title.* The down payment, including closing costs, on such property under Escrow No. 100, Desert Land Title & Trust Company, Flagstaff, Arizona, shall be contributed by Frank. Title to such property shall be

2-Forms Federal Taxes Affecting Real Estate [A]

conveyed to Desert Land Title & Trust Company under the terms of its usual title holding trust agreement, modified to incorporate, either by reference or otherwise, the terms of this agreement.

2. *Subsequent contributions.* Subsequent contributions of principal, interest, taxes, and all other costs on such property shall be paid equally by each party.

3. *Sale of property.* Any decision to sell all or part of such property shall be made by both parties. Except as hereinafter otherwise provided, the net proceeds of any sale or sales shall be distributed equally between both parties.

4. *Default.* Each party shall promptly contribute, when and as the same becomes due, his equal share of all future payments required to be made pursuant to the trust agreement under which the property is being purchased, including principal, interest, taxes, and all other costs with respect to such property. If either party is unable to pay his share of such costs, the other party is authorized to make such payment or payments so as to avoid a default under the trust agreement. All amounts so advanced by either party on behalf of the other party shall bear interest at the rate of 9 percent per year from the date of advance, and shall be due immediately upon written demand for payment in the manner hereinafter provided. If the full amount of such advance or advances, together with interest thereon is not paid by the party for whom such advance was made, within ten days after receipt of such notice of demand for payment, then such party shall be a defaulting party hereunder. In the event of any sale of such property, the proceeds shall be distributed equally between both parties, but a defaulting party shall in no event be entitled to receive an amount in excess of the total contributions made by such party, without interest. All other proceeds of sale shall belong to the nondefaulting party. In the event of a sale at a loss such defaulting party shall bear his one-half share of such loss.

5. *Management.* All matters relating to the management and sale of the property shall be decided by both parties, except that if either of the parties becomes a defaulting party, the other party shall have full power to make all decisions relating to the management and sale of such property.

6. *Restrictions.* Neither party shall sell, transfer, mortgage, or otherwise dispose of, or encumber his undivided interest in such property without first giving written notice to the other party of his intention to do so. The notice shall set forth the terms on which the offering party proposes to sell, transfer, mortgage, or otherwise dispose of or encumber his interest, and the identity of the person or persons to whom it is proposed to sell, transfer, or encumber such interest. The other party shall have ten days after the giving of notice in which to elect to acquire the interest for a purchase price based upon \$3,000 per acre, less the amount per acre of any unpaid balance or other encumbrance against the property. The purchase price shall be paid on the same terms as the original price paid by the parties pursuant to the escrow referred to in paragraph 1, including percentage of down payment, amortization of principal balance, and interest rate. If the party to whom the notice is given does not elect to acquire the interest on the terms provided herein within the ten-day period, then the party giving the notice shall have the right to sell, transfer, mortgage, or otherwise dispose of, or encumber his interest, on the same terms as provided in the notice, for a period of 30 days after the expiration of the ten-day period. After the expiration of the 30-day period, the party giving the notice shall not sell, transfer, mortgage, or otherwise dispose of, or encumber his interest without again complying with the terms of this paragraph. If the party to whom notice is given elects to purchase, an escrow shall be established forthwith with a title company having an office in Flagstaff, Arizona, for the purpose of consummating the purchase. The escrow shall, by its terms, provide for a closing not more than 30 days after its establishment.

7. *Notices.* Any and all notices and demands given under this agreement shall be given by registered or certified mail, return receipt requested, postage prepaid, addressed to the parties at the following addresses or at such other addresses as either or both may designate on written notice:

Harold Stern
100 Aspen Street

2-Forms Federal Taxes Affecting Real Estate [A]

Flagstaff, Arizona 85723

Frank Realty Corp.
200 West First Street
Tucson, Arizona 85718

8. *Binding effect.* This agreement shall be binding upon and shall inure to the benefit of each of the parties, and their respective heirs, executors, administrators, legal representatives, successors, and assigns.

9. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

10. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

11. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

12. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Arizona.

13. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

A.2 Tenancy in common--acquisition of leasehold by a group--operation of property--provisions for sale by coowner

COMMENT

The basic purpose of this agreement is to control the relationship of a group of unrelated individuals who are involved in the common ownership of property that may continue over an extended period of time. In this situation, it becomes essential to set out numerous operating details. This agreement includes restrictive provisions on transfers and on sales, a provision setting up a technique for the sale of the entire property, a provision permitting a participant to borrow against his ownership interest, and a provision to take care of the possibility that an owner's interest may become subject to an involuntary lien. These provisions are designed to define the rights of the participants in certain prescribed contingent circumstances.

Partnership taxation:

In this agreement the ownership of the leasehold interest is to be taken by the participants as tenants in common. This in itself does not qualify the enterprise as an organization "for investment purposes only and not for the active conduct of business," permitting an election to be exempt from the operation of the partnership provisions of the Revenue Code (see comment on Form A.1). Generally, the exemption is available to a joint venture which owns land subject to a lease under which the lessee incurs all operating

expense. But the "active conduct of a business" requirement would generally exclude ventures which are organized to operate a building, whether directly or through an agent. Under this agreement, the leasehold is to be operated by subleasing portions of the premises to various subtenants. While all this is to be done through an agent, it nevertheless involves the active operation of property with all the risks attached to such a "business." This enterprise would, therefore, most likely be classified as a partnership, so that all the income tax requirements applicable to general partnerships would apply.

One of the practical problems in many joint ventures is the method of fixing the return on investment of the investor. Frequently such return is deferred until realized by the venture. Under this agreement, the ratio of investment by a participant does not necessarily correspond with his ratio of income distributions. Presumably, the investor will be compensated through a disproportionately larger share of the profits.

For further information, see Chapters 1, 2, and 14.

FORM

AGREEMENT made June 15, 2002, among John Richmond and Lester Franklin, partners trading as Richmond & Franklin, 51 West 18th Street, New York, New York; Benjamin White, 30 Maujer Street, Brooklyn, New York; Francis Bush, 445 East 65th Street, New York, New York; Arthur Abeles and Victor Young, partners trading as The Abeles Company, 40 Broadway, New York, New York; Herman Hahn, 150 Broadway, New York, New York; Charles King, 20 West 16th Street, New York, New York; and Harry Gordon, 20 West 16th Street, New York, New York (collectively the "Owners").

Recitals

The Owners are about to acquire a leasehold interest (the "Leasehold"), on the property more fully described in Schedule A, subject to the mortgage and other encumbrances recited in such Schedule A.

The Owners desire to provide for the holding of title to the Leasehold, division of the profits and losses thereon, restrictions upon disposition, management of the property, and other matters relating to their common ownership.

It is therefore agreed:

1. *Ownership.* Title to the Leasehold shall be taken in the names of the Owners as tenants in common, and the instrument of conveyance shall be duly recorded in the appropriate recording office.

2. *Profits and losses.* The interests of the Owners in the Leasehold and in its profits and losses shall be as follows:

(a) *Capital.* The capital interest of each of the Owners in the Leasehold is the amount of his investment in this joint venture as set opposite his name under the heading Capital Investment in Schedule B.

(b) *Profit and loss share.* All profits and losses in the operation of the leasehold shall be shared and borne by the Owners in the percentages set opposite their respective names under the heading Share of Profits in Schedule B. In the event that there is a deficit at any time in the operations of the Leasehold and it becomes necessary to obtain contributions from the Owners, each Owner shall be required, within five days after receipt of notice of such deficit, to pay an amount equivalent to his pro rata share of the deficit based upon his share of profits.

2-Forms Federal Taxes Affecting Real Estate [A]

(c) *Distribution on sale.* In the event of the sale of the Leasehold, the net proceeds of sale shall be distributed as follows:

(1) *Adjusted capital investment.* Each of the Owners shall first receive a return equal to his adjusted Capital Investment. For all other purposes of this agreement, the adjusted Capital Investment of each Owner shall be the amount set opposite his name under the heading Capital Investment in Schedule B, as reduced, at any given time, by his proportionate share of amortization as reflected on the books of the joint venture. Amortization shall be allocated to each Owner on the basis of his proportionate interest in the total Capital Investments of all the Owners. If the net proceeds of sale are less than the adjusted Capital Investments of all the Owners, distribution shall be made among the Owners on the basis of their proportionate interests in the total adjusted Capital Investments.

(2) *Special payment.* All additional net proceeds of sale, but in no event in excess of \$50,000, shall then be paid to Harry Gordon (in addition to all net proceeds of sale distributable to him as an Owner under subdivision (1) above).

(3) *Profits.* All remaining net proceeds of sale shall then be shared by the Owners, including Harry Gordon, in the proportions set opposite their respective names under the heading Share of Profits in Schedule B.

3. *Restrictions on transfer.* Except as hereinafter set forth, none of the Owners shall sell, dispose of, transfer, or encumber the Leasehold or any interest therein. Notwithstanding the foregoing:

(a) Any partnership which is a party to this agreement may at any time dissolve such partnership and distribute its interest in kind to the individuals who comprise it.

(b) Any partnership which is a party to this agreement may transfer all of its interest to a successor partnership in which its present members have more than a 50 percent interest in capital and profits.

(c) Each individual Owner may, during his life time, transfer all or any part of his interest to his spouse, his adult issue, or the adult spouses of his issue.

(d) Each individual Owner may, at death, either by will or by operation of law, transfer his interest to one or more persons, provided that if a fiduciary, including but not limited to a testamentary trustee, guardian, executor, or administrator, shall be the holder of legal title to such interest, such fiduciary shall be subject to all of the terms of this agreement.

4. *Sale of interest of owner.* In the event that any Owner shall receive an acceptable offer from a competent adult, who is not a fiduciary, for the purchase of all of such Owner's interest in the Leasehold, such Owner shall have the right to sell his interest only after complying with the following requirements:

(a) *Notice.* Such Owner shall procure and deposit with the Mailing Agent, as designated in paragraph 7, a certified check for 10 percent of the amount of the offer and the written offer signed by the prospective purchaser.

(b) *Option to purchase.* The Mailing Agent shall forthwith notify all of the Owners of the terms of the offer. Each of the other Owners shall then have the option to purchase the interest of the offering Owner upon the same terms set forth in the offer, provided notice of purchase in writing is mailed to the Mailing Agent within 20 days after the initial receipt by the Mailing Agent of the offer. Each Owner who exercises his option to purchase shall set forth in his letter of acceptance the amount of the interest he is willing to purchase. If the total interests which the Owners offer to purchase are in excess of the interest offered, each Owner shall then purchase that proportion of the offered interest which that acceptor's offer to purchase bears to the total offers of all the acceptors. If the total interests which the acceptors have offered to purchase shall be less than the interest offered, the Mailing Agent shall immediately give notice in writing to the acceptors of the amount of the difference. If within 30 days after the initial receipt by the Mailing Agent of the offer, the acceptors do not make satisfactory arrangements for the purchase of the difference, then the offer of the entire

2-Forms Federal Taxes Affecting Real Estate [A]

interest shall be deemed to have been rejected. In the latter event, the Owner offering his interest shall have the right to sell to the person named in the offer, provided that the sale is concluded within 30 days of the date upon which he is notified by the Mailing Agent that his offer has been rejected, and provided further that the sale is made strictly in accordance with the terms of the offer and at no less favorable terms.

(c) *Purchase.* If the interest of the offering Owner is purchased pursuant to the option referred to in subparagraph (b) of this paragraph, payment for the interest shall be made by certified check to the order of the Owner within 30 days after the initial receipt by the Mailing Agent of the offer, against the delivery to the purchasers of appropriate instruments transferring title to the interest of the Owner.

5. *Assumption by assignee.* All permitted transferees or other persons to whom an interest in the Leasehold may be transferred by the terms of this agreement, and any assignee receiving an interest pursuant to the terms of this agreement, shall automatically take that interest subject to all of the terms and conditions of this agreement, and shall not be considered to have title to that interest until they and each of them have signified their acceptance and assumption of the terms and conditions of this agreement in writing.

6. *Sale of leasehold.* (a) *Offers to purchase.* If any Owner acting individually or jointly with other Owners (the "offering party"), shall receive a bona fide offer in writing acceptable to him to purchase the Leasehold, he shall obtain from the prospective customer and deposit with the Mailing Agent, designated in this agreement, a certified check in the amount of \$150,000, an agreement to hold all Owners of the Leasehold harmless in respect to any brokerage commissions in the event that the sale is not consummated, and an executed contract for the purchase of the Leasehold providing for the payment of the purchase price in the form of all cash above mortgages and conditioned upon the acceptance of the offer within 45 days by all of the Owners of the Leasehold.

(b) *Option to purchase.* The Mailing Agent shall forthwith notify all of the Owners of the terms of the offer. The offering party and any Owner accepting the offer (the "offerors") shall be deemed to have offered their interests for sale to the other Owners upon the same terms set forth in the offer. (Any Owners rejecting the offer shall be referred to as rejectors).

(c) *Acceptance of offer.* Each Owner other than the offering party shall notify the Mailing Agent in writing, within 20 days after the initial receipt of the offer by the Mailing Agent, whether he accepts or rejects the offer. If the Mailing Agent does not receive any notice within the 20-day period, the Owner shall be deemed to have accepted the offer. If no Owner shall reject the offer, then it shall be deemed accepted by all of the Owners. In such event, the Owners shall take any and all steps necessary and proper to pass title pursuant to the offer.

(d) *Rejection of offer.* Any rejector shall set forth in his letter of rejection, the amount of the interest of the offerors that the rejector is willing to purchase if available, provided, however, that in any case any rejector shall be obligated to purchase, if available, from the offerors an interest equal to a percentage of the interest then held by the rejector. If the total interests which the rejectors offer to purchase are in excess of the total interests of the offerors, each rejector shall then purchase that proportion of the interests offered that the total interests which the rejector has offered to purchase bears to the total offers to purchase made by all rejectors. If the total interests which the rejectors have offered to purchase shall be less than the total interests of the offerors, the Mailing Agent shall immediately give written notice to the rejectors of the amount of the difference. If within 35 days after the initial receipt by the Mailing Agent of the offer, the rejectors do not make satisfactory arrangements for the purchase of the difference, then the offer shall be deemed accepted by all of the parties, and they shall take all of the steps necessary and proper to pass title pursuant to the offer.

(e) *Sale.* In the event of a sale of the Leasehold pursuant to the offer, each Owner shall share in the net proceeds of the sale in accordance with the terms of paragraph 2(c). In the event that, pursuant to the provisions of subparagraph (d) above, any rejectors shall purchase the interests of any offeror, the price to be paid to each offeror shall be such offeror's pro rata share of the difference between the selling price (less brokerage) set forth in the offer and the outstanding

2-Forms Federal Taxes Affecting Real Estate [A]

principal of any mortgages, plus or minus all usual real estate adjustments, in accordance with the interest of each offeror. Payment for the interest shall be made by certified check to the order of the offeror within 60 days after the initial receipt of the offer by the Mailing Agent, against the delivery to the purchasers of appropriate instruments transferring title to the interests of the offerors.

7. *Mailing agent.* Donald B. Held is designated Mailing Agent, and all notices to him shall be sent to 575 Park Avenue, New York, New York, or to such other address as he shall, from time to time, designate in a notice given to all the Owners. The Mailing Agent or such other Owner or Owners as may be required to give notice under the terms of this agreement shall mail all notices required herein by registered or certified mail to the addresses of the Owners set forth in this agreement, or to the last address as the Owners or any of their transferees shall, from time to time, give in writing to the Mailing Agent. The Mailing Agent hereby is relieved of all liability by virtue of his undertaking herein, except for malfeasance or fraud.

8. *Loan to owners.* Any Owner may borrow money on his interest in the Leasehold on the following terms and conditions:

(a) The amount of the loan may be no more than 75 percent of the Owner's investment in the Leasehold, less any capital returned to the Owner.

(b) The hypothecation of the Owner's interest in the Leasehold, whether in the form of a mortgage or pledge, shall provide for prepayment of the loan without penalty.

(c) The Owner's pro rata share of the proceeds on any new mortgage placed upon the Leasehold may be applied toward the payment of the loan made to the Owner, and any payment may be made directly to the lender.

(d) The unpaid balance of any mortgage or pledge by an Owner shall be subordinate to any mortgage placed upon the entire Leasehold, and the lender shall undertake to execute all documents necessary and proper to effectuate the subordination of his loan to any mortgage on the entire Leasehold.

(e) The Owner's pro rata share of the proceeds of the sale of the Leasehold may be applied towards the payment of the loan made by an Owner, and any proceeds may be paid directly to the lender.

(f) The terms of any mortgage or pledge shall in no manner prevent or unreasonably delay the sale or mortgage of the entire Leasehold.

(g) The lender shall undertake to be bound by the terms and conditions of this agreement whenever required to carry out the purposes of this agreement.

(h) Any owner's mortgage or pledge shall provide that, in the event there is any default in the mortgage or pledge (provided the default is not a default on the part of the Owners as lessees under the terms of the Leasehold) the lender, his successors, heirs, and assigns, shall give immediate notice of the default to the Mailing Agent. The notice shall constitute an irrevocable offer for a period of 30 days, on the part of the lender and the Owner to sell the Owner's interest in the Leasehold, and any interest of the lender in the Owner's leasehold, to all other Owners for the amount of the loan then outstanding plus interest to the date of payment.

9. *Partition.* No Owner shall, either directly or indirectly, make application to or petition any court for a partition of the Leasehold.

10. *Managing agent.* (a) *Commission and statements.* The Owners appoint Enterprises, Inc., as agent to supervise and manage the Leasehold. Enterprises, Inc., shall pay all employees engaged in the operation of the Leasehold out of the

2-Forms Federal Taxes Affecting Real Estate [A]

sums paid to it by the Owners. In full consideration of its services, Enterprises, Inc., shall be paid a yearly sum not to exceed 3 percent of the collected rents, the sums to be paid monthly within 20 days after the end of each month. Brokerage payable to outside brokers shall not be deemed included in the 3 percent item payable to Enterprises, Inc. Monthly statements of the Leasehold's operation shall be submitted by Enterprises, Inc., to each of the Owners within 20 days after the end of each month, and the statements shall include an itemized list of all income and expenses in connection with the Leasehold.

(b) *Term.* Enterprises, Inc., shall be employed for a term of one year from the date of the execution of this agreement. Such term shall be automatically extended from year to year thereafter unless written notice of termination signed on behalf of the Owners is served upon Enterprises, Inc., at least 60 days prior to the termination of any yearly period.

(c) *Profit payments.* Enterprises, Inc. shall from time to time during the year, but at intervals of no more than three months, distribute to the various Owners their share of all profits earned from the operation of the Leasehold.

11. *Meetings.* Meetings of the Owners may be called, upon five days notice, by the Mailing Agent or by Owners who have a 10 percent or greater interest in the capital of the Leasehold as set out under the heading Capital Investment in Schedule B. Meetings shall be held in New York, New York, at the office of the Mailing Agent, or at the office of any Owner who has a 5 percent or greater interest in the capital of the Leasehold. The power to make all decisions with respect to the management of the Leasehold is vested in the Owners. The decisions of the Owners shall be binding upon all the Owners if made by Owners who have a 50 percent or greater interest in the capital of the Leasehold, at a meeting called pursuant to the provisions of this paragraph.

12. *Separability.* If any part or provision of this agreement shall be determined to be invalid or unenforceable under the laws of the State of New York, the remaining portions of this agreement which can be separated from the invalid, unenforceable provisions shall nevertheless continue in full force and effect.

13. *Arbitration.* Any dispute or controversy arising under or as a result of this agreement shall be settled and determined by arbitration held in New York, New York, in accordance with the governing rules of the American Arbitration Association. Any award pursuant to such arbitration may be entered in any court of competent jurisdiction.

14. *Modification.* This agreement embodies the full understanding of the Owners. This agreement may not be changed orally. Any modifications of this agreement must be in writing signed by all of the parties hereto.

15. *Binding effect.* Except as herein otherwise specifically stated, this agreement shall bind and inure to the benefit of the parties to this agreement, their legal representatives, successors, and assigns.

16. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

17. *Notices.* All notices under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

18. *Non-waiver.* No delay or failure by a party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

19. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

20. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of New York.

2-Forms Federal Taxes Affecting Real Estate [A]

21. *Counterparts*. This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

In witness whereof the parties hereto have signed and sealed this agreement.

A.3 Joint venture--between partnership and corporation--contribution in kind by one venturer

COMMENT

Because one of the participants in this joint venture is a partnership, the agreement must cover the possibility that the partnership may be dissolved by reason of the death, incapacity, bankruptcy, or default of any one of its partners. The problem is to preserve the continuity of the joint venture. To achieve this continuity, the agreement obligates each member of the partnership to continue the partnership if a dissolution does in fact occur. Restrictions are imposed upon the transfer of a partner's interest in the partnership. In addition, a member of the partnership is irrevocably authorized to act for the partnership in matters relating to the joint venture. All of this is designed to insulate the corporate joint venturer from the internal problems of the partnership joint venturer.

As to requirement that partnership must file an annual information return, Form 1065, which discloses its profits and distributive shares of income.

For further information, see Chapters 1, 2, and 14.

FORM

AGREEMENT made and entered into February 10, 2002, by and between Camden Realities, Inc., a Delaware corporation ("Camden"), and David Wohl, Harvey Lorins, James Burnes, and Frank Mason, individually and as copartners and members of the general partnership created under a general partnership agreement dated January 5, 2002, between all of the such persons (the "Wohl Partnership").

Recitals

Camden owns certain real and personal property described in Exhibit A, which is attached hereto and made a part hereof (the "Camden Property").

The legal title to the real property described in Exhibit A is held in a real estate land holding trust, under which Central Title Guarantee & Trust Company is Trustee, and all of the beneficial interest is owned by Camden.

The parties desire to form a joint venture to operate, lease, and exploit the Camden Property,

Now, therefore, it is agreed as follows:

1. *Joint venture.* The parties hereby form a joint venture (the "Venture"), upon the terms and conditions herein set forth.

2. *Name of venture.* The name of the Venture shall be the Camden Venture.

3. *Purpose.* The purpose of the Venture shall be to maintain, lease, and exploit the Camden Property and to engage in such operations and business as may be deemed necessary or appropriate to such purposes.

4. *Capital.* Simultaneously, with the execution of this agreement, the parties shall contribute the following:

Camden--The Camden Property.

Wohl Partnership--\$750,000.

5. *Interests of parties in venture.* The respective interests of the parties in the Venture, and in the assets, property, profits, and losses of the Venture, shall be as follows:

Camden 50%

Wohl Partnership 50%

6. *Additional funds.* All further funds required in connection with the ownership, maintenance, leasing, and exploitation of the Camden Property shall be contributed by the parties in proportion to their respective interests as set forth in paragraph 5.

7. *Title.* The legal title to the real property described in Exhibit A shall continue to be held in the real estate land holding trust, with Central Title Guarantee & Trust Company as Trustee. The remainder of the Camden Property and all other property of any kind which shall be owned, held, or operated by the Venture shall be owned, held, or operated in the name of the person or entity which shall be designated for that purpose by the parties, as nominee solely for the

Venture.

8. *Term.* This agreement shall continue in full force and effect until March 31, 2010, unless sooner terminated as provided in this agreement. Unless at least three months prior to March 31, 2010, either party gives notice to the other electing that the Venture shall terminate as of March 31, 2010, the Venture and this agreement shall be renewed and continue until December 31, 2011. Thereafter, this agreement shall be renewed and continued from fiscal year to fiscal year unless at least three months prior to December 31, 1992, or to the end of any such other fiscal year, either party gives written notice to the other terminating the Venture as of the end of the then fiscal year. The Venture shall terminate as of the end of any fiscal year in which all of its property and assets are sold or otherwise disposed of. In the event of the dissolution of the Wohl Partnership for any reason, it shall not wind up or terminate until the end of the term of this Venture, as such term is herein provided, it being the parties' intention that this Venture shall not be terminated or affected on account of any dissolution of the Wohl Partnership.

9. *Assignment.* The respective interests in the Venture of the parties hereto shall not be transferred or assigned in whole or in part.

10. *Books of account.* The Venture shall keep accurate books and accounts. As soon as practicable after the end of each fiscal year of the Venture (but in no event later than 120 days after the end of any fiscal year), a general accounting and audit shall be made by certified public accountants, covering all matters and things customarily included in such accounts and audits. In addition, a full and detailed statement shall be furnished to each party to the Venture, showing its assets, properties, net worth, and profits and losses for the preceding fiscal year. Each party shall have the right to object to such statement by giving written notice to the other party within 60 days after the statement is received by the objecting party, setting forth in reasonable detail the objections and the basis for the objections. If either party shall fail to give such notice within the 60-day period, such statement and its contents shall be deemed conclusive and binding upon the party failing to give such written notice. Each party to the Venture shall have the right to examine, at all reasonable times, its books, records, and accounts. The fiscal year of the Venture shall end on December 31 of each year.

11. *Distributions.* Until otherwise determined in accordance with the provisions of paragraph 14, except for a working capital balance in the aggregate amount of \$15,000 which shall be retained in the Venture, there shall be paid to each of the parties, in proportion to their respective interests in the Venture as set forth in paragraph 5, all moneys and funds at any time held by the Venture, as and when received.

12. *Salaries.* The Venture shall pay no salary, fees, commissions, or other compensation to either party or to any of the persons comprising the Wohl Partnership, for any services rendered to the Venture, or in connection with any of its business or property, except as both parties may expressly agree to in writing.

13. *Provisions affecting partnership member.* Each of the persons comprising the Wohl Partnership warrant and represent to, and agree with, each other and Camden, as follows:

(a) *Buy-out.* In the event of the dissolution of the Wohl Partnership because of the death, incapacity, bankruptcy, default, other act or omission of any partner (the "Retiring Partner"), the other partners ("Surviving Partners"), shall forthwith:

(1) acquire, in the same proportions as their present interests in the Wohl Partnership, the interest of the Retiring Partner at a price and upon terms which are and shall be specified in definitive and ascertainable terms in the Wohl Partnership agreement, and in connection with the acquisition, the Surviving Partners shall assume all of the liabilities and obligations of the Retiring Partner in, under, and in connection with the Wohl Partnership; or in the alternative, in the event of the dissolution of the Wohl Partnership because of the death or incapacity of any such partner, the Surviving Partners shall continue the Wohl Partnership with the heirs, executors, administrators, or guardian of the deceased or

2-Forms Federal Taxes Affecting Real Estate [A]

incapacitated partner succeeding to the interest of such deceased or incapacitated partner, upon the same terms and conditions as set forth in the Wohl Partnership agreement; and

(2) in the case of either alternative set forth in (1) above, continue the Wohl Partnership, its affairs and business, upon the same terms and conditions as set forth in the Wohl Partnership agreement; and

(3) cause the general partnership continuing the affairs and business of the Wohl Partnership to continue as a member of this Joint Venture upon the same terms and conditions as set forth in this agreement.

(b) *No assignment.* The interests of the members of the Wohl Partnership shall not be assigned or transferred, without Camden's prior written consent, except as follows: (1) the transfers provided for in subparagraph (a) of this paragraph 13, and (2) the transfer by one member of the Wohl Partnership to one or more of its other members.

(c) *No release.* Nothing in this agreement, including, without limitation, the provision of subparagraphs (a) and (b) of this paragraph 13, and any assumption by any one or more members of the Wohl Partnership ("Assumption Member"), of the obligations and liabilities of any other members of the Wohl Partnership ("Transferring Member"), in, under, or in connection with the Wohl Partnership (as provided in subparagraph (a) of this paragraph 13, or otherwise), shall be deemed to release or relieve any of the obligations or liabilities (individual, personal, or as a member of the Wohl Partnership) of such Transferring Member (or of his estate) to Camden, whether the obligations or liabilities are incurred or arise under this agreement or under any other agreement, lease, note, or instrument to which the Wohl Partnership is or shall be a party.

(d) *Partnership agent.* (1) *Appointment and powers.* Any provisions in this agreement or in the Wohl Partnership agreement to the contrary notwithstanding, David Wohl (or in the event of his death, incapacity, failure, or refusal to act, then Harvey Lorins), shall have, and is irrevocably granted, full and complete power and authority, for and on behalf of the Wohl Partnership, and for and on behalf of all the members of and the persons comprising the Wohl Partnership to make, consent, and agree to any and all determinations and decisions (including, without limitation, all of the decisions and determinations referred to and provided for in paragraph 14) with respect to any and all questions relating to the management, operation, and conduct of any and all affairs and activities of the Venture and to any and all of its assets or properties; to execute and deliver any and all instruments and documents under, in connection with or with respect to this agreement and the Venture; and to give or to receive any and all notices and demands, given or received, in, under, or in connection with, or with respect to this agreement or the Venture.

(2) *Effect.* All of the determinations, decisions, notices, demands, instruments, and documents which may or shall be made, executed, or delivered (at any time and from time to time during the entire period until the Venture shall terminate, and whether before or after any dissolution of the Wohl Partnership) by David Wohl or Harvey Lorins, as the case may be, are irrevocably authorized, approved, confirmed, and ratified, and shall be binding and conclusive upon the Wohl Partnership and upon each and all of the persons comprising the Wohl Partnership, with the same force and effect as though made, executed, or delivered by each and all of such persons themselves.

(e) *Partnership agreement.* The Wohl Partnership agreement dated January 5, 2002, and all agreements amending or supplementing the general partnership agreement, shall contain provisions consistent with, and implement, all the provisions and undertakings set forth above in this paragraph 13.

14. *Management.* All questions relating to the conduct, management, or operation of the affairs, activities, or business of the Venture, and all questions relating to any or all of its assets or property, shall be determined by mutual agreement of both members. All determinations made in accordance with this paragraph shall be deemed to be the determinations of the Venture and of all its members and parties.

15. *Notices.* All notices and demands shall be in writing, and shall be deemed to have been given and received 48 hours

2-Forms Federal Taxes Affecting Real Estate [A]

after it shall have been deposited in a United States Post Office depository by Registered or Certified Mail, postage prepaid, addressed to the parties hereto as follows:

To: Wohl Partnership
c/o David Wohl
500 East Pine Street
Newark, New Jersey

To: Camden Realities, Inc.
200 River Road
Camden, New Jersey

Each party shall have the right by written notice given to the other pursuant to the provisions of this paragraph 15 to change, from time to time, the respective addresses at which notices shall be given.

16. *Office.* The principal office of the Venture shall be at 200 River Road, Camden, New Jersey.

17. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of New Jersey.

18. *Personal liability of partnership members.* Each and all of the obligations and liabilities provided in this agreement as the obligations or liabilities of the Wohl Partnership shall be the obligations and liabilities of the Wohl Partnership as a general partnership, and the obligations and liabilities of each and all of the persons comprising the Wohl Partnership as members and copartners, and shall also be the separate, individual, and personal obligations and liabilities, jointly and severally, of each and all of the persons comprising the Wohl Partnership. All references to the Wohl Partnership herein shall be deemed to include each and all of the copartners and members thereof, not only as members and copartners, but also individually and personally.

19. *Binding effect.* The terms and conditions of this agreement shall be binding upon, and inure to the benefit of the parties, and all of the persons comprising the Wohl Partnership, and their respective heirs, executors, administrators, successors, and (except as herein otherwise provided) assigns.

20. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

21. *Non-waiver.* No delay or failure by a party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

22. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

23. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

In witness whereof the parties have executed this joint venture agreement the day and year first above written.

Personally, and as members of the Wohl Partnership, a general partnership.

A.4 General partnership--real estate operation

COMMENT

The choice of the partnership as the form in which to carry on a real estate business depends upon a combination of tax and nontax factors. The principal nontax factor is the rule which imposes individual responsibility upon each of the partners for all of the liabilities of the partnership. This is a major deterrent to the use of the partnership in any business enterprise. However, the ownership of real estate is one of the areas in which this problem of unlimited liability has frequently been solved by the use of the limited partnership.

Comparison of partnership and corporate taxation:

The problem of unlimited liability may be solved by the use of the corporate form. The choice will often depend upon the potential impact of the income tax, by comparing the rate of tax levied upon corporations with the rate of tax on individual partners. A partner is taxed each year on his share of partnership earnings, whether or not distributed to him; a shareholder is taxed only when corporate income is distributed to him. A corporation may offer advantages if the shareholders are high bracket taxpayers or if the income is to be retained for further expansion, especially if it will not be distributed until liquidation of the corporation. On the other hand, corporate income faces a double tax: the corporate rate plus the tax at individual rates on dividend distributions. Thus, if corporate income is to be frequently distributed the partnership form may be preferable. It should be noted also that the advantage of accumulation by a corporation is not unlimited. There is an additional tax on "unreasonable" accumulations (accumulations above \$250,000 beyond "the reasonable needs of the business"). Moreover, there are many situations in which partnership operations may be desirable in order to secure for each partner the tax benefit of depreciation, operating losses, or other deductions.

Passive activity loss limitation:

Individuals, including partners or limited partners, are limited in the tax use of losses and expenses from passive activities. Passive activity losses (including expenses) can only be used to offset income from other passive activities of the taxpayer. Unused passive activity losses are carried forward indefinitely to

offset future passive activity income or are allowed on a complete taxable disposition of the passive activity. Passive activities include a trade or business, or activity for the production of income, in which the taxpayer does not materially participate.

Generally speaking, rental real estate activity is considered to be a passive activity. *IRC § 469(c)(2)*. Therefore, deductions and credits from rental activities can only offset income from other passive activities. Such deductions and credits **cannot be deducted from nonpassive income, such as wages, dividends, interest, etc. However, there are two major exceptions to this general rule.**

First, beginning in 1994, certain eligible taxpayers who **materially** participate in rental real estate activities can deduct losses from such activities against nonpassive income. These eligible taxpayers include individuals and closely-held C corporations that meet special eligibility requirements. *IRC § 469(c)(7)*. Second, an individual who owns at least a 10-percent interest and **actively** participates in rental real estate activity is permitted to offset up to \$25,000 of passive activity losses against his nonpassive income. *IRC § 469(i)*.

Elements of agreement:

In general, a partnership agreement should cover at least the following points: (1) name and business; (2) term; (3) capital; (4) profit and loss; (5) salaries and drawings; (6) interest on capital; (7) management, duties, and restrictions; (8) banking; (9) books; (10) voluntary liquidation; (11) retirement; and (12) death. The forms in this group are designed to illustrate the special problems encountered in drafting partnership and limited partnership agreements in the real estate area.

Partnership tax aspects:

A partnership as such is not subject to the income tax. Fundamentally, the partnership entity is disregarded and only the partners in their individual capacities are liable for the payment of income tax. However, the partnership is the basic accounting unit and must file an annual information return. The taxable income of the partnership is computed in the same manner as that of an individual, except that certain items of income and deduction must be separately itemized, and except that the standard deduction, the deduction for personal exemptions, the deduction for foreign taxes, the charitable contribution deduction, the net operating loss deduction, and other itemized deductions applicable only to individuals, such as child care and medical expenses, are not allowed to the partnership.

Partnership and partner tax returns:

The partnership, in its return, must separately state, and the partner must separately take into account on his return, his distributive shares of certain items including gains and losses from the sale or exchange of property; charitable contributions; dividend income; partially tax-exempt interest; and miscellaneous items required by the regulations.

Each partner's share of income is derived from the partnership return, with the character of each item of income, gain, loss, deduction, or credit retaining the same character as it had for the partnership. However, the tax treatment of items of partnership income, loss, deductions, and credits are determined at the partnership level on a unified basis rather than on the basis of individual partner treatment. In addition, each partner is required to treat partnership items on his return consistently with the treatment of the items on the partnership return. If the treatment is inconsistent and the consistency requirement is requested to be waived, the partner must file a statement identifying the inconsistency. Unless the consistency requirement is waived, adjustments will be made to conform the partner's treatment of the

items with the treatment on the partnership return. The consistency rules do not apply to small partnerships, i.e., a partnership of ten or fewer partners who are individuals or estates, provided that each partner's share of any partnership item is the same as his distributive share of every other partnership item. A husband and wife are treated as one partner in a small partnership.

Partner's distributive share:

Each partner must thus include in his individual return his distributive share of each item of partnership income, gain, loss, deduction, or credit. The partner's distributive share is determined by the partnership agreement. If the agreement does not make such an allocation, or if the allocation does not have a "substantial economic effect," the partner's distributive share is determined in accordance with his interest in the partnership, taking into account all facts and circumstances.

Real estate subject to "at risk" rules:

Holding real property is an activity which is not exempt from the "at risk" loss deduction limitations. A taxpayer cannot deduct losses derived from an activity which exceed the amount at risk by the taxpayer. The amount at risk is the amount of money and property contributed by the taxpayer to the activity, and borrowed amount for which the taxpayer is personally liable or has pledged property, other than property used in the subject activity, as security for the loan. The amount of nonrecourse financing is not at risk. Qualified nonrecourse financing however is treated as an amount at risk. Generally, qualified nonrecourse financing is amounts borrowed from an institutional lender, government entity, or an amount insured by a government entity.

Partnership provisions:

This form contains the basic provisions of a general partnership agreement. The real estate activity of the partnership is principally reflected in the provisions dealing with the character of the business, the capital, and problems of management. Initially the partnership capital will consist of a contract to purchase real property which is to be contributed to the partnership by the partners. The partners will also contribute the cash required to close the contract. Additional funds, as required, will be provided equally by the partners.

All decisions with respect to management of the property require the consent of both partners. The partnership may be terminated by mutual consent. The death or retirement of a partner will terminate the partnership business, unless the remaining partner exercises an option to purchase the deceased or retiring partner's interest.

For further information, see Chapter 14.

FORM

AGREEMENT made February 1, 2002, between Harry James and John Gable, both of New York, New York.

1. *Name and business.* The parties hereby form a partnership under the name of Smith Realty Co. to own, build upon, alter, repair, rent, lease, and otherwise deal with real and personal property, of any kind or description, including the lands and premises known as 300 Penbrooke Avenue, Staten Island, New York (the "Property"). The principal office of the business shall be in New York, New York.

2-Forms Federal Taxes Affecting Real Estate [A]

2. *Term.* The partnership shall begin on February 1, 2002, and shall continue until terminated as herein provided.

3. *Capital.* (a) *Contract and closing costs.* The capital of the partnership shall consist initially of a contract to purchase the Property which the partners have entered into and which they agree to contribute to the partnership. The contract is dated December 20, 2001, and is to be closed March 20, 2002. A copy of the contract is attached as Exhibit A. The partners agree to contribute equally \$40,000 in cash required at the closing. Title to the Property shall be taken in the name of the partnership.

(b) *Additional contributions.* If at any time or times the partners determine that the partnership capital should be increased, the additional capital required shall be contributed by the partners equally.

(c) *Capital accounts.* A separate capital account shall be maintained for each partner. Neither partner shall withdraw any part of his capital account. If the capital account of a partner becomes impaired, his share of subsequent partnership profits shall be first credited to his capital account until that account has been restored, before such profits are credited to his income account.

4. *Profit and loss.* The net profits and losses of the partnership shall be divided and borne equally between the partners. A separate income account shall be maintained for each partner. Partnership profits and losses shall be charged or credited to the separate income account of each partner. If a partner has no credit balance in his income account, losses shall be charged to his capital account.

5. *Salaries and drawings.* Neither partner shall receive any salary for services rendered to the partnership. Each partner may, from time to time, withdraw the credit balance in his income account. No additional share of profits shall inure to either partner by reason of his capital or income account being in excess of the capital or income account of the other.

6. *Interest.* No interest shall be paid on the initial contributions to the capital of the partnership or on any subsequent contributions of capital.

7. *Management, duties, and restrictions.* (a) *Authority.* The consent of both partners shall be required with respect to the management, conduct, and operation of the partnership business and in all matters, including, but not limited to, full power to sell and convey the Property on such terms as they may determine, to lease the Property or any part of it on such terms and for such periods as they may determine, to mortgage the Property, whether the mortgage is a first or second mortgage lien, to make all agreements modifying any lease or mortgage, and to borrow or lend money on behalf of the partnership.

(b) *Competition.* Each partner may have other business interests and may engage in any other business or trade, profession, or employment whatsoever, for his own account, and shall not be required to devote his entire time to the business of the partnership.

8. *Banking.* All funds of the partnership shall be deposited in its name in any checking account or accounts as the partners shall designate. All withdrawals shall be made upon checks signed by either partner.

9. *Books.* The partnership books shall be maintained at its principal office, and each partner shall at all times have access thereto. The fiscal year of the partnership shall be the calendar year. The books shall be closed and balanced at the end of each fiscal year. An annual audit shall be made as of the closing date.

10. *Voluntary termination.* The partnership may be dissolved at any time by agreement of the partners, in which event the partners shall proceed with reasonable promptness to sell the real and personal property owned by the partnership and to liquidate its business. The partnership shall be dissolved also by the sale of all real property owned by it. Upon dissolution, the assets of the partnership business shall be used and distributed in the following order: (a) to pay or

2-Forms Federal Taxes Affecting Real Estate [A]

provide for the payment of all partnership liabilities and liquidating expenses and obligations; (b) to equalize the partners' income accounts; (c) to discharge the balance of the partners' income accounts; (d) to equalize the partners' capital accounts; and (e) to discharge the balance of the partners' capital accounts.

11. *Retirement.* (a) *Notice, purchase option.* Either partner shall have the right to retire from the partnership at the end of any fiscal year. Written notice of intention to retire shall be served upon the other partner at the office of the partnership at least three months before the end of the fiscal year. The retirement of either partner shall have no effect upon the continuance of the partnership business. The remaining partner shall have the right either to purchase the retiring partner's interest in the partnership or to terminate and liquidate the partnership business. If the remaining partner elects to purchase the interest of the retiring partner, he shall serve notice in writing of such election upon the retiring partner at the office of the partnership within two months after receipt of his notice of intention to retire.

(b) *Purchase price.* If the remaining partner elects to purchase the interest of the retiring partner, the purchase price and method of payment shall be the same as stated in Section 12 with reference to the purchase of a decedent's interest in the partnership.

(c) *Liquidation.* If the remaining partner does not elect to purchase the interest of the retiring partner, the partners shall proceed with reasonable promptness to sell the real and personal property owned by the partnership and to liquidate its business. The procedure as to liquidation and distribution of the assets of the partnership business shall be the same as stated in Section 10 with reference to voluntary termination.

12. *Death.* (a) *Purchase option.* Upon the death of either partner, the surviving partner shall have the right either to purchase the interest of the decedent in the partnership or to terminate and liquidate the partnership business. If the surviving partner elects to purchase the decedent's interest, he shall serve notice in writing of such election, within three months after the death of the decedent, upon the decedent's executor or administrator, or, if at the time of such election no legal representative has been appointed, upon any one of the decedent's known legal heirs at such heir's last known address.

(b) *Purchase price.* If the surviving partner elects to purchase the decedent's interest in the partnership, the purchase price shall be equal to the decedent's capital account at the date of his death plus his income account as at the end of the prior fiscal year, increased by his share of partnership profits or decreased by his share of partnership losses for the period from the beginning of the fiscal year in which his death occurred until the end of the calendar month in which his death occurred, and decreased by withdrawals charged to his income account during such period. The purchase price, with interest at 9 percent on each installment from the end of the calendar month in which the decedent's death occurred to the date of payment, shall be paid in four semiannual installments beginning six months after the end of the calendar month in which the decedent's death occurred.

(c) *Liquidation.* If the surviving partner does not elect to purchase the decedent's interest in the partnership, he shall proceed with reasonable promptness to sell the real and personal property owned by the partnership and to liquidate its business. The surviving partner and the estate of the deceased partner shall share equally in the profits and losses of the business during the period of liquidation, except that the decedent's estate shall not be liable for losses in excess of the decedent's interest in the partnership at the time of his death. No compensation shall be paid to the surviving partner for his services in liquidation. Except as otherwise stated in this agreement, the procedure for liquidation and distribution of the assets of the partnership shall be the same as stated in Section 10 with reference to voluntary termination.

13. *Arbitration.* Any controversy or claim arising out of or relating to this contract, or any breach thereof, shall be settled by arbitration in accordance with the governing rules of the American Arbitration Association. Judgment upon the award rendered may be entered in any court of competent jurisdiction.

14. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its

2-Forms Federal Taxes Affecting Real Estate [A]

subject matter. There are no other understandings or agreements between them.

15. *Notices.* All notices under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

16. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

17. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

18. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of New York.

19. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

20. *Binding effect.* Except as otherwise expressly provided herein, the provisions of this agreement shall be binding upon and inure to the benefit of each of the parties and their respective legal representatives, successors, and assigns.

In witness whereof the parties have signed this agreement.

John Gable

A.5 General partnership--contribution of asset in kind

COMMENT

The contribution to a partnership of real property by one partner and cash by another presents a number of tax ramifications which must be clearly understood before an agreement can be drafted that will accurately accommodate the intention of the partners. Aside from the necessity of assigning a value to the real property to be contributed, the partners may find it desirable to make special provisions with respect to the allocation of depreciation between themselves and with respect to the distribution of gain or loss on any disposition of such property. Allocation of partnership items, however, must satisfy the requirement that they have substantial economic effect. Allocations lacking substantial economic effect or established primarily for tax avoidance purposes generally will not be recognized for tax purposes.

Tax basis of contributed property:

The tax aspects can be best presented by a simple illustration. Suppose in the formation of a 50-50 partnership, partner A contributes a building which has an adjusted tax basis to him of \$100,000, but has a value at the time of the contribution of \$150,000. Partner B is willing to accept the asset at the value of \$150,000, and makes a matching contribution of \$150,000 in cash. The statute provides that no gain or loss is to be recognized to a partnership or to any of its partners in the case of a contribution of property to the partnership in exchange for an interest in the partnership. It provides also (a) that the tax basis of the partnership interest acquired by the contributing partner is the adjusted tax basis of the contributed property, and (b) that the tax basis of a contributed asset in the hands of the partnership is the adjusted tax basis in the hands of the contributing partner. So far as the partnership is concerned, this will require

that cost recovery or depreciation and gain or loss be computed on the tax basis of \$100,000, although the partners as between themselves have agreed that the contributing partner shall be credited with \$150,000 as a capital contribution.

Economic effect of tax basis carryover:

In the computation of cost recovery in this example, the allowable tax basis will be \$100,000. Partner B's share of the cost recovery deduction will not be as large as it would have been if the partnership had itself purchased the asset for \$150,000. Should partner A compensate partner B for this "loss" of cost recovery allowances? The same type of problem arises on a sale. Suppose the asset is sold for \$160,000 at a time when its tax basis after cost recovery allowances is \$90,000 (\$100,000 basis to the partnership minus \$10,000 cost recovery allowance). How is the \$70,000 gain to be allocated between the partners? Generally, the first \$50,000 of gain should be reported by partner A, and the balance allocated between the partners in the ratio in which they share gains. Suppose, on the other hand, the asset is sold for \$80,000 at a time when its tax basis after cost recovery is \$90,000. Here, partner B's entire share of his "loss" is not deductible, since the partnership has sustained a loss of only \$10,000. Should partner A compensate partner B for the unavailable portion of the latter's tax loss? Similar problems exist where the asset has a tax basis in the hands of the contributing partner which is more than the value at which it is accepted as a capital contribution.

Allocation of gain on sale of property:

Income, gain, loss, and deductions for property contributed to the partnership by a partner is shared among the partners under a method which takes into account the difference between the basis of the property contributed to the partnership, i.e. the contributing partner's adjusted basis, and its fair market value at the time of contribution. For property contributed to a partnership after October 3, 1989, the contributing partner must recognize gain or loss, as the case may be, if within five years after the contribution the partnership makes a distribution of the contributed property to someone other than the contributing partner. The amount that must be recognized is the difference between the property's basis and its fair market value upon contribution of the property, had the property been sold by the partnership at its fair market value at the time of the distribution.

Inaccurate basis calculations:

It is conceivable that the basis of an asset may, upon examination by the Service, turn out to be different than that represented by the contributing partner, thus altering the cost recovery or depreciation deduction available to the partnership and gain or loss on any disposition. It may be wise to include an indemnification by the contributing partner to cover the possibility that the adjusted basis will be found to be less than represented. Another alternative is a provision that if the basis of the property turns out to be less than represented, any resulting increase in the taxable income of the partnership is to be allocated to the partner who contributed the property.

Alternate sale or lease of property to partnership:

If a partner sells property to the partnership instead of contributing it, he has taxable gain or loss. Normally the parties have it within their own control to determine which set of tax consequences will follow. The "sale" technique creates the simplest tax picture and may result in the most equitable tax distribution between the partners. However, where the contribution of real property to a partnership is utilized as a means of obtaining mortgage loans or other funds for further operations without incurring tax, the sale device may not be attractive. Another alternative is for the partner to retain title to the

property under a lease with the partnership, with rent approximating the cost recovery or depreciation. This, too, is a method for simplifying the tax structure. The partner's rent income would be offset by the cost recovery or depreciation, and the partnership would take a deduction for the rent.

Passive activity loss limitations:

Individuals, including partners, are limited in the tax use of losses, including expenses, from passive activities. Generally, passive activity losses can only offset income from the same or other passive activities. Unused losses are carried forward indefinitely to offset passive activity income in the following years, or until the activity is completely disposed of in a taxable disposition.

Generally speaking, rental real estate activity is considered to be a passive activity. *IRC § 469(c)(2)*. Therefore, deductions and credits from rental activities can only offset income from other passive activities. Such deductions and credits **cannot** be deducted from nonpassive income, such as wages, dividends, interest, etc. However, there are two major exceptions to this general rule.

First, beginning in 1994, certain eligible taxpayers who **materially** participate in rental real estate activities can deduct losses from such activities against nonpassive income. These eligible taxpayers include individuals and closely-held C corporations that meet special eligibility requirements. *IRC § 469(c)(7)*. Second, an individual who owns at least a 10-percent interest and **actively** participates in rental real estate activity is permitted to offset up to \$25,000 of passive activity losses against his nonpassive income. *IRC § 469(i)*.

Fiscal year and tax year:

This agreement provides that the partnership's taxable year will be the calendar year. A partner's income is his distributive share of the partnership income for the taxable year of the partnership ending with or within his own taxable year. A partnership's taxable year must be the calendar year unless the Service is satisfied that there is a business purpose for a different taxable year. The deferral of income to partners is not considered a business purpose. An election is available to a partnership to adopt or change to a taxable year with a limited deferral period. This election is only available if the deferral period of the taxable year elected is not longer than the shorter of three months or the deferral period of the taxable year being changed.

For further information, see Chapter 14.

FORM

AGREEMENT made January 2, 2002, among James Adams, Charles Stone, and George Brown.

1. *Name and business.* The parties hereby organize a partnership to own, build upon, alter, repair, rent, lease, subdivide, sell, and otherwise deal with real and personal property, particularly the real property to be contributed as capital, as described in paragraph 3.

2. *Term.* The partnership shall begin on January 2, 2002, and continue until December 31, 2012, unless sooner terminated by unanimous decision of the partners or by the sale of the real property to be contributed as capital, as described in paragraph 3.

3. *Capital.* (a) The original capital of the partnership shall consist of \$1,800,000 cash, to be contributed equally by

2-Forms Federal Taxes Affecting Real Estate [A]

Adams and Stone, and a fee interest in the land and a building at 2880 Cathedral Avenue, Washington, D. C. (the "property"), to be contributed by Brown, and to be deemed to have a value of \$900,000 for purposes of this agreement. The partners, by mutual agreement, may at the end of any partnership year transfer a portion of partnership profits to the capital of the partnership. No partner shall withdraw any part of his original or additional capital account without the written consent of the other partners. The capital accounts of the partners shall be maintained in the proportions in which they share in the partnership profits and losses.

(b) Brown warrants that he has full power to convey the property and that it is free and clear of all liens and encumbrances except those set forth in Schedule A annexed hereto and made a part hereof. The following items shall be apportioned between Brown and the partnership as of December 31, 1987: rents, interest on mortgages, premiums on existing transferable insurance policies, taxes, sewer rents, and water charges.

4. *Profit and loss.* (a) The net profits or net losses of the partnership shall be distributed or charged to the partners in equal proportions, and shall be credited or charged, as the case may be, to the drawing account of each partner.

(b) For tax purposes allocations with respect to the property shall follow *Section 704 of the Internal Revenue Code* and the "traditional method" in the regulations thereunder.

5. *Salaries and drawings.* No partner shall receive any salary for services rendered to the partnership. The partners shall have equal drawings in such amounts as they may agree upon. If at the end of any partnership year, there is a debit balance in the drawing account of any partner, such partner shall, within a reasonable time, clear such debit balance by a payment to the partnership.

6. *Interest.* No interest shall be paid to any partner on his original capital, his additional capital, or his credit balance in his drawing account.

7. *Management, duties, and restrictions.* Each partner shall have an equal voice in the management of the partnership. No partner shall, without the consent of the others, borrow or lend money on behalf of the partnership; enter into a contract to sell the property; sell, assign, or pledge his interest in the partnership; or execute any lease or mortgage with respect to the property. In all other matters relating to the business of the partnership, a decision of two of the partners shall be controlling.

8. *Banking.* All funds of the partnership shall be deposited in partnership bank accounts, as designated from time to time by the partners. All withdrawals from partnership accounts shall be made upon checks signed by two of the partners.

9. *Books.* The partnership books shall be maintained on the accrual basis, and shall be closed and balanced at the end of each calendar year.

10. *Retirement.* (a) *Notice, purchase option.* Any partner may retire from the partnership at the end of a calendar year, provided he has given two months' advance written notice of his intention to the other partners. A retirement shall cause a dissolution of the partnership, but the remaining partners shall have the right to continue the partnership business, provided the continuing partnership pays to the retiring partner the value of his interest in the partnership.

(b) *Valuation.* For this purpose, the value of the interest of a retiring partner shall be the amount of his capital account, plus or minus any credit or debit balance in his drawing account, all determined at the end of such calendar year in accordance with the accounting methods regularly used by the partnership.

(c) *Payment.* Payment of the amount due to the retiring partner shall be made in cash in two equal installments, the first within 60 days and the second within 120 days after the end of the calendar year. Upon payment, the retiring partner shall have no further interest in the partnership or in its business or assets.

2-Forms Federal Taxes Affecting Real Estate [A]

(d) *Liquidation.* If the continuing partnership does not elect to purchase the interest of the retiring partner, the partnership shall promptly sell the property and commence to wind up its affairs and shall distribute its assets in liquidation under the supervision of all of the partners. All profits and losses in liquidation shall be allocated equally to the partners. In liquidation, the partnership shall first pay all its debts, then pay credit balances in the drawing accounts of the partners, and finally distribute all other proceeds against the capital accounts of the partners.

11. *Death.* (a) *Purchase option.* The death of any partner shall cause a dissolution of the partnership, but the surviving partners shall have the right to continue the partnership business, provided the continuing partnership pays to the estate of the deceased partner the value of his interest in the partnership.

(b) *Valuation.* For this purpose, the value of the interest of a deceased partner shall be the amount of his capital account, plus or minus any credit or debit balance in his drawing account, all determined as at the end of the month in which his death occurs in accordance with the accounting methods regularly used by the partnership.

(c) *Payment.* Payment for the interest of a deceased partner shall be made to his estate in cash in three equal installments, the first within 60 days, the second within 120 days, and the third within 180 days after the end of the month in which death occurs. Upon such payment, the estate of the deceased partner shall have no further interest in the partnership or in its business or assets.

(d) *Liquidation.* If the continuing partnership does not elect to purchase the interest of the deceased partner, the partnership shall promptly sell the property and commence to wind up its affairs and shall distribute its assets in liquidation under the supervision of the surviving partners and a representative of the deceased partner's estate. All profits and losses in liquidation shall be allocated equally among the surviving partners and the deceased partner's estate. In liquidation, the partnership shall first pay all its debts, then pay credit balances in the partners' drawing accounts, and finally distribute all other proceeds against the partners' capital accounts.

12. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

13. *Notices.* All notices under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

14. *Non-waiver.* No delay or failure by a party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

15. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

16. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Maryland.

17. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

18. *Binding effect.* Except as otherwise expressly provided herein, the provisions of this agreement shall be binding upon and inure to the benefit of each of the parties and their respective legal representatives, successors, and assigns.

In witness whereof the parties have signed this agreement.

George Brown

A.6 Limited partnership--small group of investors

COMMENT

The distinctive feature of a limited partnership is the restriction of the liability of the limited partners to the amount of their contributions to the capital of the partnership. Generally, a limited partnership may be formed by two or more persons to carry on any business which might be carried on by a general partnership. At least one of the partners must be a general partner. The partnership name must not contain the surname of a limited partner unless it is also the surname of a general partner or unless the partnership was conducted under that name prior to the time when the limited partner became associated with the firm. Violation of this provision will result in the named limited partner being held liable to partnership creditors as a general partner. The same consequence follows if the limited partner takes an active part in the control of the partnership business; a limited partner may contribute cash or property to the partnership, but he may not contribute services.

Limited partnership agreement:

The basic provisions of a general partnership agreement should be covered in a limited partnership agreement. In addition, the agreement may contain provisions regulating the assignment of a limited partner's interest in the partnership, the withdrawal or reduction of his contribution to capital, the priority of any limited partner in the distribution of profits or upon dissolution, and the admission of new limited partners. In this agreement limited partners have no priority as to distributions upon dissolution. Limited partners possess no right to withdraw any part of their contribution until termination of the partnership, and then only after all liabilities have been paid (except liabilities to partners for contributions) or until the partnership has sufficient assets to pay them. Death of a limited partner does not dissolve the partnership.

Passive activity loss limitation:

Individuals, including partners and limited partners, are limited in the tax use of losses, including expenses, from passive activities. Generally, passive activity losses can only offset income from the same or other passive activities. Unused losses are carried forward indefinitely to offset passive activity income in the following years, or until the activity is completely disposed of in a taxable disposition. Material participation by the taxpayer in the activity will take it out of the passive activity classification.

Generally speaking, rental real estate activity is considered to be a passive activity. *IRC § 469(c)(2)*. Therefore, deductions and credits from rental activities can only offset income from other passive activities. Such deductions and credits **cannot** be deducted from nonpassive income, such as wages, dividends, interest, etc. However, there are two major exceptions to this general rule.

First, beginning in 1994, certain eligible taxpayers who **materially** participate in rental real estate activities can deduct losses from such activities against nonpassive income. These eligible taxpayers include individuals and closely-held C corporations that meet special eligibility requirements. *IRC §*

469(c)(7). Second, an individual who owns at least a 10-percent interest and **actively** participates in rental real estate activity is permitted to offset up to \$25,000 of passive activity losses against his nonpassive income. *IRC § 469(i)*.

For further information, see Chapter 14.

FORM

AGREEMENT made as of the 25th day of August, 2002, by and among Sam Harris, residing at 100 Forest Avenue, New York, New York, John Baker, residing at 200 Fifth Avenue, Harrison, New Jersey, and Myron Lowe, residing at 60 Palm Drive, New Rochelle, New York (the "General Partners"), and Martin Brown, residing at 100 Gramercy Park, New York, New York, Edward Berger, residing at 80 Eastern Parkway Brooklyn, New York, Adam Paine, residing at 150 Eastern Road, Bayshore, New York, Gordon Gray, residing at 30 South Road, Great Neck, New York, and Mary Stern, residing at 80 Echo Bay Drive, New Rochelle, New York (the "Limited Partners").

The parties desire to form a limited partnership in accordance with the laws of the State of Georgia and acquire for the partnership the ownership of certain property situated in Atlanta, Georgia, and generally known as No. 1000 Palmetto Road (the "property"), which property is under contract of sale dated August 25, 2002, between Central Properties, Inc., as Seller, and Palmetto Road, Inc., nominee for the partnership, as Purchaser.

Now, therefore, it is mutually agreed as follows:

1. *Formation.* The parties by this agreement form a limited partnership pursuant to the laws of the State of Georgia.
2. *Name.* The partnership shall be conducted under the name of Palmetto Road Company.
3. *Purpose.* The purpose of the partnership is to acquire for investment the property situate in Atlanta, Georgia, and commonly known as No. 1000 Palmetto Road, and to own, manage, mortgage, lease, exchange, sell, or otherwise transfer or dispose of the property. The partnership is empowered to accept an assignment of the contract of sale for the property from Palmetto Road, Inc., its nominee, and to do all things necessary to acquire title to the property. The General Partners are directed and empowered to take any action on behalf of the partnership as may be necessary to accomplish the acquisition, and to repay out of partnership funds the sum of \$42,500 deposited by Palmetto Road, Inc., upon the signing of the aforementioned contract of sale, either to Palmetto Road, Inc., or to any partners who advanced funds to Palmetto Road, Inc., for the purpose of making the deposit or, in the discretion of the General Partners, to apply all advances made by any of the partners toward the capital contributions required to be made by them under paragraph 8.
4. *Term.* The term of the partnership shall be from August 25, 2002, to August 24, 2042. The partnership, however, shall be dissolved prior to such date upon: (a) any disposition by the partnership of its entire interest in all of the property described above, including any mortgage or leasehold interest which the partnership may acquire in exchange therefor; (b) the desire of a majority of General Partners to dissolve the partnership as set forth in paragraph 20; or (c) the death, retirement, resignation, bankruptcy, expulsion, or insanity of any General Partner as provided in paragraph 18.
5. *Principal office.* The principal office of the partnership shall be maintained c/o William Conner, Esq., Eastern National Bank Building, Atlanta, Georgia, or at any other place as the General Partners from time to time may determine.
6. *General partners.* Sam Harris, John Baker, and Myron Lowe shall be the General Partners.

2-Forms Federal Taxes Affecting Real Estate [A]

7. *Limited partners.* Martin Brown, Edward Berger, Adam Paine, Gordon Gray, and Mary Stern shall be the Limited Partners.

8. *Capital contributions.* Each partner shall contribute to the capital of the partnership the cash amount set opposite his or her respective name:

Partner	Contribution
Sam Harris	\$ 60,000
John Baker	30,000
Myron Lowe	30,000
Martin Brown	120,000
Edward Berger	90,000
Adam Paine	90,000
Gordon Gray	90,000
Mary Stern	90,000

9. *Profits, losses, and cash proceeds.* (a) *Percentage interest.* The net profits of the partnership, and net proceeds resulting from the sale, mortgage, refinancing, and condemnation of any property held by it shall be divided among, and any losses shall be borne by, each of the partners in the following proportions, subject, however, insofar as the Limited Partners are concerned, to the limitation of their liability to the amount of their individual investment, as hereinafter provided:

Partner	Percentage
Sam Harris	10
John Baker	5
Myron Lowe	5
Martin Brown	20
Edward Berger	15
Adam Paine	15
Gordon Gray	15
Mary Stern	15

(b) *Net profits defined.* The term "net profits" of the partnership shall mean net profits derived from the property owned by the partnership as ascertained through the use of generally accepted accounting practices. The following exceptions, however, shall apply: (a) depreciation of building, improvements, furniture, fixtures, furnishings, and equipment shall not be taken into account; (b) mortgage amortization paid by the partnership shall be considered a deduction; (c) all amounts expended by the partnership in the discretion of the General Partners for capital improvements shall be considered a deduction; and (d) if the General Partners shall so determine, a reasonable reserve shall be deducted to provide funds for improvements or for any other contingencies of the partnership.

(c) *Net profit distributions.* The net profits of the partnership shall be distributed quarterly or at other more frequent or

2-Forms Federal Taxes Affecting Real Estate [A]

less frequent intervals as the General Partners in their sole discretion may determine. Distribution shall commence three months after the acquisition by the partnership of the aforementioned property, or at such earlier or later date as the General Partners in their sole discretion may deem advisable.

(d) *Withdrawals.* A Limited Partner shall have the right to withdraw his capital contribution upon the termination of the partnership, provided, however, that no part of the capital contribution of any Limited Partner shall be withdrawn unless all liabilities of the partnership, except liabilities to partners on account of their contributions, have been paid or unless the partnership has assets sufficient to pay them. Except as otherwise provided in paragraph 21, no Limited Partner shall have the right to demand or receive property other than cash in return for his contribution. No Limited Partner shall have priority over any other Limited Partner either as to contribution to capital or as to compensation by way of income.

10. *Losses of limited partners.* Notwithstanding anything to the contrary in this agreement, the liability of any of the Limited Partners for the losses of the partnership shall in no event exceed in the aggregate the amount of his or her contribution to the capital of the partnership. All losses in excess of the contributed amount shall be borne solely by the General Partners in the proportion that their respective percentage shares of profits, as set forth in paragraph 9, bear to each other.

11. *General partners' fee.* At or prior to the acquisition of title by the partnership to the property, the partnership shall pay to the General Partners the aggregate sum of \$45,000 for their services in negotiating the contract for the purchase of the property. Such sum shall constitute full payment to the General Partners of their fee and all expenses and disbursements incurred by them in connection with the negotiations.

12. *Salaries, drawings, and interest on capital contributions.* Except as otherwise provided in paragraph 11 and in this paragraph 12, none of the partners, General or Limited, shall receive any salary or drawings for services rendered on behalf of the partnership in their capacity as partners, nor shall any partner receive any interest on his contributions to the capital of the partnership. Notwithstanding anything to the contrary in this agreement and in addition to the authorizations and consents herein contained, the partners consent to the employment by the partnership of Sam Harris and John Baker as Supervisory Managing Agents for the purpose of supervising the management of the partnership property. Sam Harris and John Baker shall be paid \$22,500 per year in the aggregate, payable monthly (or at less frequent intervals if the General Partners shall so determine) as and for their supervisory management fee. This sum shall include all traveling expenses incurred by them in the performance of their duties.

13. *Management, duties, and restrictions.* (a) *General partners.* The General Partners shall have equal rights in the management of the partnership business, and shall devote such time to the partnership as shall be reasonably required for its welfare and success. Without the consent of a majority of the General Partners, no General Partner shall, on behalf of the Partnership: borrow or lend money, or make, deliver, or accept any commercial paper or execute any mortgage, security interest, or bond, or lease, purchase, or contract to purchase or sell any property for or of the partnership; or assign, create a security interest in, or sell his interest as a General Partner in the partnership.

(b) *Limited partners.* No Limited Partner shall participate in the management of the partnership business.

(c) *Agents.* The Limited Partners hereby consent to the employment, when and if required, of any brokers, managing and other agents, accountants, and attorneys as the General Partners may from time to time determine. The fact that a General or Limited partner, or a member of such partner's family, is employed by, or directly or indirectly interested in or connected with, any person, firm, or corporation employed by the partnership to render or perform a service, or from which the partnership may purchase any property, shall not prohibit the General Partners from employing such person, firm, or corporation, or from otherwise dealing with him or it. Neither the partnership nor any of the partners herein shall have any rights in or to any income or profits derived therefrom as a consequence of the partnership relationship herein created.

2-Forms Federal Taxes Affecting Real Estate [A]

(d) *Other business ventures.* Any of the General or Limited Partners may engage in or possess an interest in other business ventures of every nature and description, independently or with others. Such other interest may include, but not be limited to, the ownership, financing, leasing, operation, management, or development of real property. Neither the partnership nor any of the partners shall have any rights by virtue of this agreement in and to any independent ventures or the income or profits derived therefrom.

14. *Banking.* All funds of the partnership shall be deposited in such bank account or accounts as the General Partners shall designate. Withdrawals from any such bank account or accounts shall be made upon such signature or signatures as the General Partners may designate.

15. *Conveyances.* Any deed, bill of sale, mortgage, security agreement, lease, contract of sale, or other commitment purporting to convey or encumber the interest of the partnership in all or any portion of any real or personal property at any time held in its name shall be signed by two of the General Partners. Notwithstanding anything contained in this agreement, occupancy leases for individual apartments may be signed by any one of the General Partners or by the resident Managing Agent. No person shall be required to inquire into the authority of any individual to sign any document pursuant to the provisions of this paragraph.

16. *Books.* The partnership shall maintain full and accurate books in its principal office or such other office as the General Partners shall designate for such purpose. All partners shall have the right to inspect and examine the books at reasonable times. The books shall be closed and balanced at the end of each calendar year. The accountants for the partnership shall prepare annual statements showing its profits and losses for the fiscal year and indicating each partner's share of profit or loss for income tax purposes, and shall distribute such statements to all the partners within a reasonable time after the close of each fiscal year.

17. *Assignability.* No Limited Partner shall have the right to substitute an assignee as contributor or substituted Limited Partner in his place. Any Limited Partner may assign his interest in the partnership without the consent of the General Partners, provided that the Limited Partner and his assignee shall execute such instruments as the General Partners may reasonably deem necessary to effectuate an assignment and shall furnish the General Partners with duplicate original copies thereof.

18. *Death, retirement, and resignation.* In the event of the death, retirement, resignation, bankruptcy, expulsion, or adjudication of insanity or incompetency of any General Partner, the partnership shall be dissolved and terminated. In the event, however, of the death, retirement, or insanity of a General Partner, the partnership may be continued if all of the surviving or remaining competent General Partners so elect. If the surviving or remaining competent General Partners shall determine to continue the partnership, the withdrawing General Partner or his personal representative shall become a Limited Partner in the partnership with the same relative percentage interest, as set forth in paragraph 9, in partnership profits, losses, and distributions of all kinds, including (but not limited to) liquidating distributions and distributions of proceeds from the sale or condemnation of partnership property and proceeds resulting from any mortgage or refinancing, as previously possessed by the General Partner in this partnership, subject, however, to the limitation of liability to an amount equal to the share of the partner in the total net assets of the partnership at the date that the partner became a Limited Partner under this paragraph. The percentage share of such partner in the total assets of the partnership shall be the same as his percentage share of partnership profits and losses as set forth in paragraph 9. The surviving or remaining competent General Partners shall determine whether to continue the partnership no later than 90 days following the death, retirement, or adjudication of insanity of any General Partner, and shall within such 90 days give written notice of such determination to the then Limited Partners.

19. *Death of limited partner.* The death of a Limited Partner shall not dissolve or terminate the partnership. In the event of death, the deceased Limited Partner's personal representative shall have all the rights of a Limited Partner in the partnership to the extent of the deceased's interest therein, subject to the terms and conditions of this agreement.

2-Forms Federal Taxes Affecting Real Estate [A]

20. *Termination prior to end of term.* A majority of the General Partners may terminate the partnership prior to the end of its term by giving at least 30 days' prior written notice to each of the Limited Partners.

21. *Distributions on termination.* In the event of the dissolution and termination of the partnership, the then General Partners shall proceed to the liquidation of the partnership. The proceeds of the liquidation shall be applied and distributed in the following order of priority:

(a) *Debts.* To the payment of the partnership's debts and liabilities (other than any loans or advances that may have been made by the partners to the partnership) and the expenses of liquidation.

(b) *Reserves.* To the setting up of all reserves which the General Partners may deem reasonably necessary for any contingent or unforeseen liabilities or obligations of the partnership or of the General Partners arising out of or in connection with the partnership. Any reserves shall be paid over by the General Partners to an attorney-at-law of the State of New York, as Escrowee, to be held by him for the purpose of disbursing the reserves in payment of any of the contingencies, and, at the expiration of the period as the General Partners shall deem advisable, to distribute the balance thereafter remaining in the manner hereinafter provided.

(c) *Partner loans.* To the repayment of all loans or advances that may have been made by any of the partners to the partnership, but if the amount available for such repayment shall be insufficient, then pro rata on account thereof.

(d) *Balance.* Any balance remaining shall be distributed among all General and Limited Partners, as follows:

(1) *Cash.* In the event that the partnership assets shall have been sold, the net proceeds shall be distributed to each partner in satisfaction of his interest in the partnership in the manner provided in paragraph 9.

(2) *In kind.* In lieu of sale, the partnership assets may be distributed in kind, each partner accepting an undivided interest in the partnership's assets subject to its liabilities in satisfaction of his interest in the partnership.

(e) *Valuation.* In the event of a liquidating distribution of the partnership's property in kind, the fair market value of such property shall be determined by averaging the appraisals of two appraisers selected by the Real Estate Board of the City of New York, New York, or any other comparable body, and each partner shall receive an undivided interest in the property equal to the portion of the proceeds to which he would be entitled under paragraph 9 if the property were sold.

22. *Procedure on termination.* A reasonable time shall be allowed for the orderly liquidation of the partnership's assets and the discharge of liabilities to creditors so as to enable the General Partners to minimize the normal losses attendant upon a liquidation. Each of the partners shall be furnished with a statement prepared by the partnership's then Certified Public Accountants, which shall set forth the assets and liabilities of the partnership as at the date of complete liquidation. Upon the General Partners complying with the distribution plan set forth in paragraph 21 (including payment over to the Attorney-Escrowee if there are sufficient funds), the Limited Partners shall cease to be Limited Partners, and the General Partners, as the sole remaining partners of the partnership, shall execute, acknowledge, and cause to be filed a Certificate of Cancellation of the Partnership.

23. *Limit on general partners' liability.* Anything in this agreement to the contrary notwithstanding, the General Partners shall not be personally liable for the return of the capital contributions of Limited Partners, or any portion thereof, it being expressly understood that any return shall be made solely from partnership assets.

24. *Opinion of counsel.* Any act or failure to act by any General Partner which may cause or result in loss or damage to the partnership, if pursuant to opinion of legal counsel employed by the General Partners on behalf of the partnership, shall not subject the General Partners to any liability.

2-Forms Federal Taxes Affecting Real Estate [A]

25. *Indemnity.* The partnership shall indemnify and hold harmless any General Partner from any loss or damage incurred by him by reason of any act performed by him for and on behalf of the partnership and in furtherance of its interests. The foregoing shall not relieve the General Partners of liability for gross negligence or willful malfeasance.

26. *Notices.* All notices provided for in this agreement shall be directed to the parties at the addresses herein set forth in this agreement and to the partnership at its principal office by Registered or Certified Mail.

27. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

28. *Non-waiver.* No delay or failure by a party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

29. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

30. *Governing law.* This agreement and the rights of the parties shall be construed in accordance with and governed by the laws of the State of Georgia.

31. *Counterparts.* This agreement may be executed in two or more counterparts, and all so executed shall constitute one agreement, binding on all the parties, notwithstanding that all the parties are not signatory to the original or the same counterpart.

32. *Binding effect.* The provisions of this agreement shall be binding upon and inure to the benefit of each of the parties and their respective estates, heirs, legatees, successors, and assigns.

In witness whereof the parties have executed this agreement as of the day and year first above written.

A.7 Limited partnership--provision for additional capital--hotel renovation

COMMENT

Insufficient capital can become a problem in any business venture. In the agreement illustrated here, a limited partnership is in the process of acquiring a hotel property which requires substantial alterations and improvements. The right to make these capital expenditures is vested in the general partner, together with the collateral right to demand additional proportionate capital contributions from the limited partners. If any of the limited partners fails to make his additional contribution, the general partner undertakes to provide all the additional financing. In that event, a priority is established in favor of the general partner, for the additional capital contributions, in the net profits of the partnership, in the proceeds of any mortgage refinancing, and in distributions from the proceeds of liquidation.

The requirement that all limited partners contribute their proportionate shares of additional capital is designed to preserve the initial ownership percentages among the various partners. Under the Uniform Limited Partnership Act, if a priority is to be given a limited partner over other limited partners in respect of income, return of contributions, or any other matter, that priority must be set forth in the filed certificate of limited partnership.

For further information, see Chapter 14.

FORM

AGREEMENT made November 1, 2002, among Sanford Corporation, a Delaware corporation with offices at 100 East 42d Street, New York, New York (the "General Partner"), and James Meyer, residing at 100 Central Park West, New York, New York, Perry Barnes, residing at 150 East 59th Street, New York, New York, and George Roberts, residing at 10 Willow Lane, Scarsdale, New York (the "Limited Partners").

Recitals

The General Partner on behalf of itself and of the Limited Partners has entered into a contract dated September 15, 2002, to acquire the premises known as the Skyline Hotel in New York, New York, together with certain furniture, furnishings, and personal property located in the premises ("property").

The parties desire to form a Limited Partnership under the laws of the State of New York for the purposes and on the terms and conditions set forth in this agreement.

The General Partner has simultaneously herewith assigned the purchase contract to the Limited Partnership organized pursuant to this agreement.

Now, therefore, it is mutually agreed as follows:

1. *Formation.* The parties hereby form a Limited Partnership pursuant to the provisions of Article 8 of the Partnership Law of the State of New York.

2-Forms Federal Taxes Affecting Real Estate [A]

2. *Name.* The Partnership shall be conducted under the name of Skyline Hotel Company.

3. *Purpose.* The purpose of the Partnership is to acquire pursuant to a certain contract of purchase dated September 15, 2002, and to hold for investment the premises known as the Skyline Hotel in New York, New York, and certain furniture, furnishings, and personal property located therein, and to own, manage, mortgage, create security interests in, lease, improve, exchange, sell, or otherwise transfer or dispose of such property.

4. *Term.* The term of the Partnership shall begin on November 1, 2002, and shall continue until November 1, 2037. The Partnership shall be dissolved prior to such date, however, if any of the following events shall occur: (a) any disposition by the Partnership of its entire interest in the real and personal property, including all mortgages or leasehold interests which it may acquire in exchange therefor; (b) the desire of the General Partner to dissolve the Partnership as set forth in paragraph 21; or (c) the bankruptcy, receivership, or liquidation of the General Partner as provided in paragraph 19.

5. *Principal office.* The principal office of the Partnership shall be maintained in care of Sanford Corporation, 100 East 42d Street, New York, New York, or at such other place as the General Partner from time to time may determine.

6. *General and limited partners.* Sanford Corporation shall be the General Partner. James Meyer, Perry Barnes, and George Roberts shall be the Limited Partners.

7. *Capital contribution of general partner.* The General Partner shall contribute to the capital of the Partnership the sum of \$600,000. The General Partner warrants and represents that it has full power and authority to enter into this agreement and to make its contribution to the capital of the Partnership, and that this agreement and its execution by the General Partner have been ratified, approved, and confirmed by resolution of its Board of Directors.

8. *Capital contributions of limited partners.* Each Limited Partner shall contribute to the capital of the Partnership the sum of \$200,000 in cash.

9. *Profits and losses.* Except as otherwise provided in paragraph 11(b), the net profits of the Partnership shall be divided and any losses shall be borne by each of the Partners in the following proportions (subject, however, insofar as the Limited Partners are concerned, to the limitation of their liability to the amount of their individual investment as hereinafter provided):

Partner	Percentage
Sanford Corporations	50%
James Meyer	16 2/3 %
Perry Barnes	16 2/3 %
George Roberts	16 2/3 %

10. *Losses of limited partners.* Notwithstanding anything to the contrary contained in this agreement, the liability of any Limited Partner for the losses of the Partnership shall in no event exceed in the aggregate the value of his original contributions to the Partnership's capital. The General Partner shall solely bear all losses in excess of the contributed amount.

11. *Alterations and additional capital contributions.* (a) *Proportionate contributions.* The Partnership shall cause all alterations, additions, improvements, repairs, and replacements to or of the Partnership property that the General Partner in its sole discretion shall deem advisable, notwithstanding the same may substantially alter the character or use of the premises. If in the sole judgment of the General Partner the Partnership requires additional capital contributions from

2-Forms Federal Taxes Affecting Real Estate [A]

the Partners for such work, the Limited Partners shall be notified in writing and shall have the option, to be exercised unanimously within 30 days after such notification, to make additional contributions in cash to the Partnership equal to 16 2/3 percent each of the estimated net cost to the Partnership of the work. The exercise of such option by a Limited Partner shall not be deemed effective unless all of the Limited Partners exercise the option in accordance with the terms of this paragraph. If the option is exercised by all of the Limited Partners, they shall make their additional capital contributions at such time or times as the General Partner shall direct, and the General Partner shall make an additional contribution in cash to the Partnership equal to 50 percent of the estimated net cost to the Partnership of such work, and in such event the Partners' shares of profits and losses shall remain unchanged, i.e., shall be in the proportions set forth in paragraph 9.

(b) *Contribution by general partner.* If any Limited Partner fails to exercise such option, the General Partner shall, in lieu of the foregoing, make an additional contribution of cash to the Partnership equal to the Partnership's entire estimated net cost of the work. In such event the net losses of the Partnership shall continue to be apportioned by the Partners in the proportions set forth in paragraph 9 (subject, however, insofar as the Limited Partners are concerned, to the limitation of their liability to the amount of their individual investment as hereinabove provided), but effective as of the date of the making of such additional capital contribution by the General Partner, the net profits of the Partnership shall be divided among the Partners as follows:

(1) *Preferred share of profits.* The General Partner shall first be entitled, before any allocation to the Limited Partners, to a portion of the net cash receipts of the Partnership from the operation of the Partnership property equal to 10 percent per annum of the amount of the additional capital contribution made by it to the Partnership pursuant to this paragraph 11(b), subject, however, to the following provisos: (a) in the event that the additional contribution made by the General Partner pursuant to this paragraph 11(b) is repaid in part or in whole to the General Partner from the proceeds of any mortgage refinancing or from the sale or condemnation of any partnership property, at any time or from time to time, as provided in paragraph 12(b), then, effective as of the date of such repayment or repayments, the preferred share of profits to which the General Partner shall be entitled pursuant to this subdivision (1) shall be reduced to an amount equal to 10 percent of the unreturned portion of the General Partner's additional capital contribution; and (b) if the entire additional contribution made by the General Partner pursuant to this paragraph 11(b) shall have been so repaid to the General Partner, then effective as of the date of the repayment the General Partner shall no longer be entitled to a preferred share of profits as provided in this subdivision (1), and all profits shall thereafter be divided among the General and Limited Partners in the proportions set forth in paragraph 9.

(2) *Balance of profits.* The balance of Partnership net profits over and above the amount allocable to the General Partner, pursuant to subdivision (1) above, shall be divided among the General and Limited Partners in the proportions set forth in paragraph 9.

(c) All additional capital contributions to the Partnership and the rights of the Partners and the Partnership with respect thereto shall be governed by the provisions of this agreement pertaining to original capital contributions to the Partnership.

12. *Partnership cash receipts.* (a) *Net cash receipts.* The net cash receipts of the Partnership derived from operation of the Partnership property, in excess of operating expenses and such reasonable reserves as may be established at the sole discretion of the General Partner for alterations, repairs, or other contingencies, shall be distributed to the Partners quarterly or at such other more frequent intervals as the General Partner shall determine. Distributions to the Partners of such net cash receipts shall be made to the Partners in the same proportions in which they then share profits pursuant to paragraph 9 or paragraph 11(b), as the case may be. No Partner shall be obligated to repay to the Partnership any such cash distributions received by him or by any other Partner.

(b) *Mortgage, sale, or condemnation proceeds.* Notwithstanding anything herein contained to the contrary, in the event that the Limited Partners are given the option of making additional contributions to the capital of the Partnership, as

2-Forms Federal Taxes Affecting Real Estate [A]

provided in paragraph 11(b), and fail to exercise such option, and if the General Partner then makes an additional capital contribution as provided for in paragraph 11(b), the net proceeds (after payment of all expenses) subsequently received by the Partnership from the refinancing of any mortgage constituting a lien against the Partnership property or from the sale or condemnation of any Partnership property shall be first applied to the repayment to the General Partner of the additional contribution made by it pursuant to paragraph 11(b), and shall be distributed to the General Partner accordingly. The Limited Partners shall have no right to such sale, mortgage, or condemnation proceeds or to the proceeds of any successive mortgage refinancing or sale or condemnation of Partnership property until the additional contribution of the General Partner shall have been repaid to it in full by the Partnership. All such distributions to the General Partner shall be charged against the General Partner's capital account, and the General Partner shall not be obligated to repay such distributions to the Partnership.

13. *Salaries, drawings, and interest on capital contributions.* None of the Partners (General or Limited) shall receive any salary or drawings for services rendered on behalf of the Partnership in their capacity as Partners, nor shall any Partner receive any interest on his contribution to the capital of the Partnership.

14. *Management, duties, and restrictions.* (a) *General partner.* The General Partner shall manage the Partnership business and shall devote such time to the Partnership as shall be reasonably required for its welfare and success. The General Partner shall have the right, in its discretion, on behalf of the Partnership, to borrow or lend money, to make, deliver, or accept any commercial paper and execute any mortgage, security agreement, bond, or lease, and to purchase or contract to purchase or sell or contract to sell any property for or of the Partnership.

(b) *Limited partners.* No Limited Partner shall participate in the management of the Partnership business. A Limited Partner shall have the right to withdraw his capital contribution upon the termination of the Partnership as provided herein. No part of the capital contribution of any Limited Partner shall be withdrawn, however, unless all liabilities of the Partnership (except liabilities to partners on account of their contributions) have been paid or unless the Partnership has assets sufficient to pay them. No Limited Partner shall have the right to demand or receive property other than cash in return for his contribution. No Limited Partner shall have priority over any other Limited Partner either as to contributions to capital or as to compensation by way of income.

(c) *Limited partners' consent.* The Limited Partners consent to any sale or other disposition, encumbrance, mortgage, security agreement or lease (or modification, cancellation, or replacement of any existing mortgage or lease) by the General Partner on behalf of the Partnership, of any or all of the Partnership's assets on such terms and conditions as the General Partner may determine in its sole discretion, and to the employment, when and if required, of such brokers, accountants, managing, and other agents and attorneys as the General Partner may from time to time determine. The fact that a Partner, General or Limited, or an officer, director, or shareholder of the General Partner, or a member of the family of a Limited Partner or of an officer, director, or shareholder of the General Partner, is employed by, or directly or indirectly interested in or connected with, any person, firm, or corporation employed by the Partnership to render or perform a service, or from which the Partnership may purchase any property, shall not prohibit the General Partner from employing such person, firm, or corporation, or from otherwise dealing with him or it, and neither the Partnership nor any of the Partners shall have any rights in or to any income or profits derived therefrom as a consequence of the Partnership relationship herein created.

(d) *Other activities.* Any General or Limited Partner, may engage in and possess an interest in other business ventures of every nature and description, independently or with others, including but not limited to the ownership, financing, leasing, operation, management, or development of real property. Neither the Partnership nor any of its Partners shall have any rights by virtue of this agreement in and to such independent ventures or the income or profits derived therefrom.

15. *Banking.* All funds of the Partnership shall be deposited in such bank account or accounts as the General Partner shall designate. Withdrawals from any such bank account or accounts shall be made upon such signature or signatures

2-Forms Federal Taxes Affecting Real Estate [A]

as the General Partner may designate.

16. *Conveyance.* Any deed, bill of sale, mortgage, security agreement, lease, contract of sale, or other commitment purporting to convey or encumber the interest of the Partnership in all or any portion of any real or personal property at any time held in its name, shall be signed by the General Partner, and no other signature shall be required. No person shall be required to inquire into the authority to sign any document pursuant to the provisions of this paragraph.

17. *Assignability.* With the consent of the General Partner only, any Limited Partner may assign his interest in the Partnership. No Limited Partner shall have the right to substitute an assignee as a contributor or substituted Limited Partner in his place.

18. *Power of attorney.* Each of the Limited Partners hereby irrevocably constitutes and appoints the General Partner his true and lawful attorney, in his name, place, and stead, to make, execute, acknowledge, and file:

- (a) A certificate of limited partnership under the laws of the State of New York;
- (b) Any certificate or other instrument which may be required to be filed by the Partnership under the laws of the State of New York or which the General Partner shall deem it advisable to file;
- (c) Any and all amendments or modifications of the instruments described in the preceding subdivisions (a) and (b); and
- (d) All documents which may be required to effectuate the dissolution and termination of the Partnership;

It is expressly understood and intended by each of the Limited Partners that the grant of the foregoing power of attorney is coupled with an interest.

19. *Bankruptcy, receivership, or liquidation of general partner.* In the event of the bankruptcy, receivership, or liquidation of the General Partner, the Partnership shall be dissolved and terminated.

20. *Death of limited partner.* The death of a Limited Partner shall not dissolve nor terminate the Partnership. In the event of such death, the personal representative of the deceased Limited Partner shall have all the rights of a Limited Partner in the Partnership to the extent of the deceased's interest therein, subject to the terms and conditions of this agreement.

21. *Termination prior to end of term.* The General Partner may, in its sole discretion, terminate the Partnership prior to the end of the partnership term by giving at least 30 days' prior written notice to each of the Limited Partners.

22. *Distributions on termination.* In the event of the dissolution and termination of the Partnership, the General Partner shall proceed to the liquidation of the Partnership. The proceeds of such liquidation shall be applied and distributed first in payment of Partnership liabilities, then to the repayment of the additional capital contribution (if any) made by the General Partner pursuant to paragraph 11(b) or so much thereof as shall not theretofore have been returned to the General Partner in accordance with the provisions of paragraph 12(b), and finally to each Partner in proportion to the percentages as set forth in paragraph 9. Anything in this agreement to the contrary notwithstanding, the General Partner shall not be personally liable for the return of the capital contributions of Limited Partners, or any portion thereof, it being expressly understood that any such return shall be made solely from Partnership assets.

23. *Notices.* All notices provided for in this agreement shall be directed to the parties at the addresses herein set forth and to the Partnership at its principal office by registered or certified mail.

24. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its

2-Forms Federal Taxes Affecting Real Estate [A]

subject matter. There are no other understandings or agreements between them.

25. *Non-waiver.* No delay or failure by a party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

26. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

27. *Governing law.* This agreement and the rights of the parties hereunder shall be construed in accordance with and governed by the laws of the State of New York.

28. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

29. *Binding effect.* The provisions of this agreement shall be binding upon and inure to the benefit of each of the parties and their respective estates, heirs, legatees, successors, and assigns.

In witness whereof the parties hereto have executed this agreement as of the day and year first above written.

A.8 Syndication--limited partnership agreement--provision for continuance of partnership upon death of general partner

COMMENT

This form illustrates a limited partnership agreement which might be used by a substantial real estate syndication. Participating interests purchased by limited partners in a syndication have been recognized as "securities." This requires compliance with state and federal securities laws, which require filing statements, prospectus materials and other items.

Partnership vs. publicly traded partnership:

2-Forms Federal Taxes Affecting Real Estate [A]

A newly formed partnership that is publicly traded is generally treated as a corporation for tax purposes. Publicly traded means that the partnership interests either are traded on an established securities market, or are readily tradable on a secondary market or its substantial equivalent. If 90 percent or more of its gross income is qualifying passive-type income, including real property rents, and gains from the sale or other disposition of real property, the partnership is excluded from corporate tax treatment. Net income from a publicly traded partnership is not treated as passive income for purposes of the passive loss rules. Losses are not allowed against other passive income or even against income from another publicly traded partnership.

Parties who wish to avoid "publicly traded" status can include a prohibition against any transfer that would cause the partnership to become publicly traded.

"Association" tax status:

If the partnership were treated as a corporation in any taxable year, income and deductions of the partnership would be reflected only on its tax return rather than being passed through to the unit holders. In that event, the partnership would be required to pay income tax at corporate tax rates on its net income, thereby reducing the amount of cash available to be distributed to the unit holders and all or a portion of such distributions made to them could be treated as ordinary income regardless of the source from which they were generated. Depreciation and other "loss" items would be deducted at the corporate (partnership) level, rather than by the partners.

Partnership tax status:

A partnership is not subject to any federal income taxes. The partnership files federal partnership information tax returns reporting its operations on a cash basis for each calendar year. Each unit holder will be required to report on his own federal income tax return his share of partnership items of income, gain, loss, deduction, or credit and, accordingly, may be subject to tax on his distributive share of partnership income whether or not any cash distribution is made to him.

Passive activity limitations:

Generally speaking, rental real estate activity is considered to be a passive activity. *IRC § 469(c)(2)*. Therefore, deductions and credits from rental activities can only offset income from other passive activities. Such deductions and credits **cannot** be deducted from nonpassive income, such as wages, dividends, interest, etc. However, there are two major exceptions to this general rule.

First, certain eligible taxpayers who **materially** participate in rental real estate activities can deduct losses from such activities against nonpassive income. These eligible taxpayers include individuals and closely-held C corporations that meet special eligibility requirements. *IRC § 469(c)(7)*. Second, an individual who owns at least a 10-percent interest and **actively** participates in rental real estate activity is permitted to offset up to \$25,000 of passive activity losses against his nonpassive income. *IRC § 469(i)*.

Allocation of partnership tax items:

Items of partnership income, gain, loss, deductions, credits, or other items are allocated to a partner only if realized, paid, or incurred by the partnership during the portion of the year in which the partner is a member of the partnership and not retroactively to periods prior to entry. If any partner's interest in a partnership changes during the partnership tax year, each partner's share of partnership income, gain, loss, deduction, or credit is to be determined by using any method prescribed by regulations which takes

into account the varying interests of the partners in the partnership during the tax year. For partnerships using the cash method of accounting, specific cash method items are required to be assigned to each day in the period to which they are attributable. The assigned amounts are then apportioned among the partners in proportion to their interests in the partnership at the close of each day. This allocation is similar to the accrual method and applies specifically to interest, taxes, payments for services, or for the use of property and other items prescribed by regulation to avoid retroactive allocation.

Generally, allocation of partnership tax items among partners is controlled by the partnership agreement, provided that the allocation has substantial economic effect. If the allocation is set aside, a partner's share of partnership items will be determined in accordance with the partner's interest in the partnership.

Amortization of organization expenses:

Fees for the syndication of a partnership must be capitalized. Partnership organization fees must be capitalized and may be amortized over a five year period. Regulations provide that no deduction is allowed to a partnership or a partner for expenses to organize a partnership or to promote the sale, or to sell, any partnership interest. However, "organizational expenses" may be amortized under an exception which permits an election to amortize by the partnership. The election to amortize organizational expenses is made with the partnership tax return. The expenses are to be amortized on a straight-line basis over a period of not less than 60 months. "Organizational expenses" are defined as expenditures which meet each of the following tests: expenses which are

- (1) incident to the creation of the partnership;
- (2) chargeable to a capital account; and
- (3) of a character which would be amortized over the life of a partnership if the partnership had an ascertainable life.

Expenses connected with the following are not organizational expenses:

- (1) acquisition or transfer of assets;
- (2) admission or removal of partners other than at the time of organization of the partnership;
- (3) contracts relating to the operation of the partnership's business; and
- (4) syndication fees.

For further information, see Chapter 14.

2-Forms Federal Taxes Affecting Real Estate [A]

A contract of sale, dated March 15, 2002, was entered into between John Baker, Marvin Harris, and Alvin Johnson, as purchasers, and Central Realty Co., Inc., as seller (the "Purchase Agreement"), covering the sale of the improved real property situated in New York County known as the Blackacre Building (the "Real Property").

The Purchase Agreement provides, among other things, that contemporaneously with the acquisition of the fee title to the Real Property, the purchaser will enter into a Net Lease with the seller of the fee title as lessee, covering the entire Real Property for an initial term of 21 years with options in the lessee to renew for four additional terms of 21 years each, upon the terms more particularly provided in the form of Net Lease attached to the Purchase Agreement.

The parties desire to form a limited partnership for the purpose of acquiring the Real Property pursuant to the Purchase Agreement.

It is therefore agreed:

1. *Formation.* The parties hereby form a Limited Partnership (the "Partnership"), pursuant to the provisions of Article 8-A of the Partnership Law of the State of New York.
2. *Name.* The Partnership shall be conducted under the firm name and style of Blackacre Realty Company.
3. *Purpose.* The purpose of the Partnership is to acquire and hold the Real Property for investment and to lease the same to another for operation, and if future circumstances require it, to again lease the real property or operate the same on such terms and conditions as a majority of the General Partners shall determine.
4. *Term.* The term of the Partnership shall be from July 15, 2002, to December 31, 2052. The Partnership shall be dissolved and terminated prior to such date, however, if any of the following events shall occur:
 - (a) Any disposition by the Partnership of its entire interest in the Real Property, including any mortgage, leasehold, securities, or other interest which it may acquire upon a transfer of the Real Property.
 - (b) The death, retirement, or adjudication of bankruptcy, insanity, or incompetency of any General Partner, unless the remaining General Partners elect to continue the Partnership pursuant to the provisions of paragraph 20.
 - (c) The happening of the events described in paragraph 8(b) of this agreement.
 - (d) The decision of all of the General Partners to terminate the Partnership.
5. *Capital.* The capital of the Partnership shall be \$3,500,000, consisting of
 - (a) \$3,200,000 in cash; and
 - (b) Other property consisting of the Purchase Agreement at an agreed value of \$300,000.
6. *General partners and their contributions.* The following parties shall be the General Partners of the Partnership. The General Partners shall contribute to the partnership capital undivided interests aggregating 100 percent in the Purchase Agreement, in the amounts set forth alongside their respective names as follows:

John Baker	\$100,000
Marvin Harris	100,000

2-Forms Federal Taxes Affecting Real Estate [A]

Alvin Johnson 100,000

These contributions shall be accomplished by the execution and delivery by the General Partners, concurrently with the execution of this Partnership Agreement, of an instrument assigning to the Partnership their undivided 100 percent interest in the Purchase Agreement. The assignment shall include the interest of the General Partners in the \$125,000 which they paid on account of the purchase price under the Purchase Agreement. However, the Partnership shall reimburse the assignors for their payment under the Purchase Agreement by delivering to them a noninterest-bearing note or notes in the amount of \$125,000. Such note or notes shall be payable at the time and in the event of the closing of the Partnership's acquisition of the Real Property.

7. Original limited partners and their contributions. The following parties shall be the Original Limited Partners of the Partnership. The Limited Partners shall contribute to the partnership capital, in cash, concurrently with the execution of this Partnership Agreement, the amounts set forth alongside their respective names as follows:

William Minton \$10,000
 Oscar Kindler 5,000
 Donald Enright 10,000

8. Additional limited partners and their contributions. (a) *Admission of limited partners.* The General Partners are authorized to admit Additional Limited Partners to the Partnership, who shall contribute, in cash, to the partnership capital sums aggregating \$3,175,000. Upon the admission of such additional Limited Partners an amendment to the certificate of limited partnership of the Partnership, reflecting such admissions, shall be filed. The cash contributions of each additional Limited Partner shall be in the amount of \$5,000 or multiples thereof, or in lesser fractional amounts if the General Partners so determine. To accomplish the purposes of this paragraph, the General Partners are authorized to do all things necessary to effectuate the admission of such Additional Limited Partners. Each Additional Limited Partner shall become signatory to this agreement by executing a conformed counterpart of the agreement at the foot thereof, and each Additional Limited Partner shall be deemed to have adopted and agreed to be bound by all of the provisions of this agreement. However, each executed counterpart shall not become binding and effective until it has been attested by the signature of one of the General Partners. The original of this agreement, executed by the General Partners and the Original Limited Partners, and the duly executed and attested counterparts, taken together, shall constitute a single instrument.

(b) *Preconditions.* If for any reason whatsoever (1) additional contributions to the Partnership of \$3,175,000 are not made by Additional Limited Partners by October 15, 1987, or any adjourned date for the closing of title to the Real Property, or (2) the acquisition of the Real Property shall not close by October 15, 1987, or any adjourned date for the closing of title to the Real Property, then the cash contributions of the Original Limited Partners and the Proposed Limited Partners shall be repaid to them without interest; and the Partnership shall pay over to the General Partners, as their interests may appear, the deposit of \$125,000 under the Purchase Agreement, in the event that the deposit is returnable to the Partnership by the seller on the occasion of the termination of the Partnership in the circumstances described in this subparagraph. Upon such payments being made, this Partnership Agreement shall be of no further force and effect, and the Partnership shall terminate, with the authority in the General Partners, or any of them, to execute a Certificate of Cancellation of the Partnership, as well as any and all other documents required to effectuate the Partnership dissolution.

9. Acquisition of real property, etc. Upon the admission of Additional Limited Partners whose cash contributions to the Partnership aggregate \$3,175,000, the Partnership shall proceed to acquire fee title to the Real Property and enter into the Net Lease pursuant to the terms of the Purchase Agreement, and the General Partners shall take all steps which they shall deem necessary or proper to effectuate such transactions. Any of the General Partners, acting on behalf of the Partnership, may execute any or all of the instruments required to accomplish the foregoing.

2-Forms Federal Taxes Affecting Real Estate [A]

10. *Principal office.* The principal office of the Partnership shall be maintained at 100 East 42d Street, New York, New York, or at such other place or places as the General Partners may from time to time determine, notice of which shall be given to the Limited Partners.

11. *Profits and losses.* (a) *Allocation.* The net profits receipts of the Partnership shall be apportioned among the General Partners and the Limited Partners (collectively the "Partners"), and net losses shall be borne by them pro rata in accordance with the amounts of their respective original cash and agreed value of other property contributions to the Partnership capital, as the case may be. In any event, however, the liability of any Limited Partner (except one who is also a General Partner) for the losses of the Partnership shall be limited to the actual cash or property originally contributed by him to the Partnership capital.

12. *Distributions.* (a) *Time.* The net cash receipts of the Partnership, apportioned in the manner provided in paragraph 11, shall be distributed at reasonable intervals as determined by the General Partners in their absolute discretion.

(b) *Net cash receipts defined.* The term "net cash receipts of the Partnership" shall mean net profits derived from the ownership of the Real Property as ascertained through the use of generally accepted accounting practices, except that (1) depreciation of buildings, improvements, and personalty shall not be considered as a deduction, (2) mortgage amortization shall be considered as a deduction, (3) all amounts expended by the Partnership in the discretion of the General Partners for capital improvements shall be considered a deduction, and (4) if the General Partners shall so determine, a reasonable reserve shall be deducted for working capital needs or to provide funds for improvements or for any other contingencies of the Partnership.

(c) *Effect.* The foregoing provisions for the apportionment of net cash receipts shall remain effective irrespective of whether all or any portion of the Partners' capital contributions shall have been returned to them pursuant to the provisions of this paragraph.

(d) *Refinance proceeds.* In the event that moneys shall be available for distribution among the Partners as a return of capital by reason of mortgage refinancing, all such moneys shall be divided among the General Partners and Limited Partners, pro rata, in accordance with their respective original cash and agreed value of other property contributions to the Partnership capital, as the case may be.

(e) The respective amounts of the Partners' contributions to the Partnership capital in cash or the agreed value of other property may be returned to them, in whole or in part, in cash, at any time in the absolute discretion of the General Partners. Such returns of contributions shall be pro rata to all Partners in accordance with the amounts of their respective cash or agreed value of other property contributions to Partnership capital, as the case may be. No Partner shall have the right to demand or receive property other than cash in return for his contribution.

13. *Advances.* If any Partner shall, in excess of his contribution to the capital of the Partnership, advance any moneys to the Partnership, the amount of any such advance shall not be an increase of his capital contribution or entitle him to any increase in his share of the distributions of the Partnership. The amount of any such advance shall be an obligation of the Partnership to the Partner and, unless otherwise provided and agreed, shall be repaid to him without interest, except that such advances shall be payable or collectible only out of the Partnership assets, and the General Partners shall not be personally obligated to repay any part thereof.

14. *Books, records, and reports.* (a) *Maintenance.* At all times during the continuance of the Partnership, the General Partners shall keep or cause to be kept complete and true books of account, in which shall be entered fully and accurately each transaction of the Partnership. The books of account, together with a certified copy of the certificate of limited partnership and all amendments thereto, shall at all times be maintained at the Partnership's principal office and shall be open to the reasonable inspection of the Partners or their duly authorized representatives.

2-Forms Federal Taxes Affecting Real Estate [A]

(b) *Annual statements.* Annual statements of Partnership gross receipts and operating expense, as prepared by the Partnership's accountants, shall be transmitted to each of the Partners. Within a reasonable period after the close of each year, a report shall be transmitted to each Partner indicating his share of the Partnership's profits or loss for such year for federal income tax purposes.

15. *Bank accounts.* All funds of the Partnership shall be deposited in the Partnership name, in such bank account or accounts as the General Partners shall designate. Withdrawals from any bank account or accounts shall be made upon such signature or signatures as the General Partners may designate.

16. *Powers and rights of general partners.* (a) *Management.* Except as otherwise provided in subparagraph (b), the General Partners shall have equal rights in the management and conduct of the Partnership business.

(b) *Authority.* A majority of the General Partners in their absolute discretion shall have the power on behalf of the Partnership:

(1) to sell, exchange, or convey title to, and to grant an option for the sale of all or any portion of the Real Property, including any mortgage or leasehold interest or other property which may be acquired by the Partnership upon a transfer of the Real Property; to lease all or any portion of the Real Property without limit as to the term, whether or not such term (including renewal terms) shall extend beyond the date of the termination of the Partnership and whether or not the space so leased is to be occupied by the lessee or, in turn, subleased in whole or in part to others; to borrow money and as security therefor to mortgage all or any part of the Real Property, and to prepay, in whole or in part, refinance, recast, increase, modify, consolidate, correlate, or extend all mortgages affecting the Real Property; all of the foregoing at the price, rental, or amount, for cash, securities, or other property and upon such terms as they deem proper;

(2) to place record title to the Real Property in the name or names of a nominee or nominees for the purpose of mortgage financing or any other convenience or benefit of the Partnership;

(3) to employ from time to time persons, firms, or corporations for the operation and management of the Real Property, including, without limitation, a supervisory managing agent, a building management agent, accountants, and attorneys on such terms and for such compensation as they shall determine;

(4) to change and reorganize the Partnership into any other legal form; and

(5) to execute, acknowledge, and deliver any and all instruments to effectuate the foregoing.

By way of extension of the foregoing and not in limitation thereof, the General Partners shall possess all of the powers and rights of partners in a partnership without limited partners under the Partnership Law of the State of New York. However, whenever a decision shall have been made by a majority of the General Partners in respect of any of the foregoing matters, such majority decisions shall be binding upon all General Partners, and any action taken thereunder shall constitute the act of all General Partners.

(c) *Approval of sale.* Notwithstanding the unqualified power and right of a majority of the General Partners to sell, exchange, or convey title to the Real Property, or any part thereof, the General Partners represent that it is not their intention to sell, exchange, or convey the Real Property unless written approval of a majority in interest of the Limited Partners is first obtained. Each of the Limited Partners agrees that such written approval, if given, shall be irrevocable and upon receipt by the General Partners of such approval of a majority in interest of the Limited Partners to any such sale, the express irrevocable approval and consent of all Limited Partners shall be deemed conclusively to have been given to the General Partners. Each of the Limited Partners hereby irrevocably constitutes and appoints the General Partners, or any one of them, jointly and severally, his true and lawful attorney, in his name, place, and stead, in such event, to execute his consent to confirm and adopt such unanimous approval. The foregoing power of attorney is

2-Forms Federal Taxes Affecting Real Estate [A]

coupled with an interest and shall survive delivery of an assignment of limited partnership interest in the same manner as in paragraph 23 provided. A transfer of record title to a nominee for the Partnership for the purpose of mortgage financing or any other convenience or benefit of the Partnership shall not be construed as a sale, exchange, or conveyance within the meaning of this subparagraph (c) or of paragraph 4(a) hereof. Nothing herein contained shall require any assignee or grantee to investigate the General Partners' authority to sell, exchange, or convey all or any portion of the Real Property or any other property of the Partnership, or to grant any option therefor, nor require any assignee or grantee to inquire as to whether the approval of the Limited Partners for any sale, exchange, or conveyance, if executed by a majority of the General Partners, shall bind the Partnership.

(d) *Other activities.* The General Partners shall devote so much of their time as they in their absolute discretion deem necessary to the affairs of the Partnership business, and they shall receive no compensation therefor from the Partnership. Any General or Limited Partner may engage in or possess an interest in other business ventures of every nature and description, independently or with others. Such other activities may include, but shall not be limited to, the ownership, financing, leasing, operation, management, syndication, brokerage, and development of real property. Neither the Partnership nor the Partners shall have any right by virtue of this agreement in and to such independent ventures or to the income or profits derived therefrom. The fact that a General or Limited Partner, or a member of his family, is employed by, or is directly or indirectly interested in or connected with, any person, firm, or corporation employed by the Partnership to render or perform a service, or from whom or which the Partnership may buy merchandise or other property, or to or from whom or which the Partnership shall lease the Real Property, shall not prohibit the General Partners from executing a lease with or employing such person, firm, or corporation or from otherwise dealing with him or it. Neither the Partnership nor any of the Partners, as such, shall have any rights in or to any income or profits derived therefrom.

(e) *Reliance on counsel.* Any act or failure to act by a General Partner, the effect of which may cause or result in loss or damage to the Partnership, if pursuant to opinion of legal counsel employed by the General Partners on behalf of the Partnership, shall not subject the General Partners to any liability.

17. *Activities of limited partners.* The Limited Partners shall take no part in, or interfere in any manner with, the conduct or control of the Partnership business or the sale, leasing, or refinancing of its assets, and shall have no right or authority to act for or bind the Partnership.

18. *Substituted limited partners.* (a) *Consent.* Anything in this agreement to the contrary notwithstanding, no assignee of the whole or any portion of a Limited Partner's interest in the Partnership shall have the right to become a Substituted Limited Partner in place of his assignor, unless (1) his assignor shall designate such intention in the instrument of assignment, and (2) the written consent of all the General Partners to such substitution shall be obtained. The General Partners shall have the sole and absolute discretion to grant or deny such substitution. Their failure or refusal to grant consent, however, shall not affect the validity of any such instrument as an assignment of the right to receive Partnership distributions applicable to such interest under this agreement, provided such instrument is in form satisfactory to the General Partners, a duly executed and acknowledged counterpart is filed with the Partnership, and the terms thereof are not in contravention of the provisions of subparagraph (c) of this paragraph 18. In no event shall the consent of any other Limited Partner be required to effectuate such substitution.

(b) *Preconditions.* Notwithstanding the granting of consent by the General Partners, the admission of an assignee as a Substituted Limited Partner shall be further conditioned on (1) the assignment instrument being in form and substance satisfactory to the General Partners, (2) the assignor and assignee named in the assignment executing and acknowledging such other instrument or instruments as the General Partners may deem necessary or desirable to effectuate the admission, (3) the assignee's written acceptance and adoption of all of the terms and provisions of this agreement, as the same may have been amended, and (4) the assignee paying or obligating himself to pay, as the General Partners may determine, all reasonable expenses connected with the admission.

2-Forms Federal Taxes Affecting Real Estate [A]

(c) In no event shall a limited partnership interest, or any portion thereof, be assigned or transferred to a minor or incompetent. Any such attempted assignment or transfer shall be void and ineffectual and shall not bind the Partnership.

19. *Death of limited partner.* The death of a Limited Partner shall not dissolve or terminate the Partnership. In the event of death the personal representative of the deceased Limited Partner shall have all the rights of a Limited Partner in the Partnership to the extent of the deceased's interest therein, subject to the terms and conditions of this agreement; and his estate shall be liable for all his liabilities as a Limited Partner.

20. *Right of surviving or remaining general partner to continue business of partnership.* (a) *Election.* In the event of the death, retirement, or adjudication of bankruptcy, insanity, or incompetency of any of the General Partners, such retiring partner, or personal representative of the deceased partner, or the trustee of the bankrupt partner, or the committee or other representative of the insane or incompetent partner, as the case may be (the "Withdrawing General Partner"), the surviving or remaining General Partners, as the case may be (the "Remaining General Partners," which shall denote the singular if there is only one remaining or surviving General Partner), acting unanimously, shall have the right, but not the obligation, to elect to continue the business of the Partnership for the balance of the term as specified in paragraph 4. The election may be exercised by notice to the Limited Partners stating in substance that the Remaining General Partners have elected to continue the business of the Partnership.

(b) *Purchase options.* In the event that the election is exercised upon the death or adjudication of insanity or incompetency of a General Partner, the Remaining General Partners shall have the option to purchase (pro rata, or as they may otherwise agree among themselves) the entire interest of the Withdrawing General Partner for a cash price equal to the original contribution of the Withdrawing General Partner plus his proportionate share of mortgage amortization payments made by the Partnership less any distributions of capital made to him from the proceeds of any mortgage refinancing.

(c) *Bankruptcy or retirement.* In the event that the election is exercised upon the adjudication of bankruptcy or retirement of a General Partner, the Remaining General Partners shall have the option to purchase (pro rata, or as they may otherwise agree among themselves) the entire interest of the Withdrawing General Partner for a cash price equal to the original contribution of such Withdrawing General Partner, less all distributions of capital theretofore made to him from the proceeds of any mortgage refinancing.

(d) *Exercise of purchase option.* Any of the foregoing options may be exercised by notice thereof to the Withdrawing General Partner, within 60 days after the remaining General Partners shall have elected to continue the business of the Partnership or the appointment of the legal representative of the deceased, bankrupt, insane, or incompetent General Partner, as the case may be, whichever is the later. Until such option is exercised and payment made thereunder, the Withdrawing General Partner shall be entitled to receive distributions applicable to his interest.

(e) *Limited partner alternative.* In the event the Remaining General Partners do not exercise their option to purchase, the Withdrawing General Partner shall become a Limited Partner of the Partnership with the same interest in the Partnership capital and profits as the Withdrawing General Partner had.

21. *Distribution on dissolution.* (a) *Liquidation priority.* Upon the dissolution and termination of the Partnership, the then General Partners shall proceed to the liquidation of the Partnership. The proceeds of liquidation shall be applied and distributed in the following order of priority:

(1) To the payment of the Partnership's debts and liabilities (other than any loans or advances that may have been made by any of the Partners to the Partnership) and the expenses of liquidation.

(2) To the setting up of any reserves which the General Partners may deem reasonably necessary for any contingent or unforeseen liabilities or obligations of the Partnership or of the General Partners, arising out of or in connection with the

2-Forms Federal Taxes Affecting Real Estate [A]

Partnership. The General Partners shall pay over the reserves to a New York State attorney-at-law, as escrowee, to be held by him for the purpose of disbursing them in payment of any of the contingencies. At the expiration of a period that the General Partners shall deem advisable, the escrowee shall distribute the balance remaining in the manner provided in subparagraphs (3) and (4) of this paragraph 21.

(3) To the repayment of all loans or advances that any of the Partners may have made to the Partnership, but if the amount available for repayment shall be insufficient, then pro rata on account thereof.

(4) Any balance then remaining shall be distributed among all General and Limited Partners, pro rata, in accordance with the amounts of their respective original contributions to the Partnership capital.

(b) *Liquidation period.* A reasonable time shall be allowed for the orderly liquidation of the Partnership assets and the discharge of liabilities to creditors so as to enable the General Partners to minimize the normal losses attendant upon a liquidation.

(c) *Financial statement, termination.* Each of the Partners shall be furnished with a statement prepared by the Partnership's then accountants, which shall set forth the Partnership assets and liabilities as at the date of complete liquidation. Upon the General Partners complying with the distribution plan (including payment over to the attorney escrowee if there are sufficient funds therefor), the Limited Partners shall cease to be such, and the General Partners, as the sole remaining partners of the Partnership, shall execute, acknowledge and cause to be filed a certificate of cancellation of the Partnership.

(d) *Return of capital contribution.* The General Partners shall not be personally liable for the return of the capital contributions of Limited Partners, or any portion thereof. Any such return shall be made solely from Partnership assets.

22. *Withdrawal by limited partners.* No Limited Partner shall at any time withdraw from the Partnership, except as hereinbefore provided.

23. *Power of attorney.* (a) *Partnership documents.* In addition to the powers of attorney contained in paragraph 16, each of the Limited Partners irrevocably constitutes and appoints the General Partners, or any one of them, jointly and severally, his true and lawful attorney, in his name, place, and stead, to make, execute, acknowledge, and file:

- (1) a certificate of limited partnership under the laws of the State of New York;
- (2) any certificate or other instrument which may be required to be filed by the Partnership under the laws of the State of New York or which the General Partners shall deem it advisable to file;
- (3) any and all amendments or modifications of the instruments described in the preceding subdivisions (1) and (2); and
- (4) all documents which may be required to effectuate the dissolution and termination of the Partnership;

It is expressly intended by each of the Limited Partners that the foregoing power of attorney is coupled with an interest.

(b) *Survival.* The foregoing power of attorney, as well as the powers contained in paragraph 16, shall survive the delivery of an assignment by any of the Limited Partners of the whole or any portion of his limited partnership interest. Where, however, the General Partners have approved an assignee of a limited partnership interest as a Substituted Limited Partner, then the foregoing power of attorney of the assignor Limited Partner shall survive the delivery of the assignment for the sole purpose of enabling the General Partners to execute, acknowledge, and file any and all instruments necessary to effectuate the substitution.

2-Forms Federal Taxes Affecting Real Estate [A]

(c) *Substitute limited partners.* A similar power of attorney shall be one of the instruments which the General Partners, under para graph 18, shall require an assignee of a Limited Partner to execute as a condition of his admission as a substituted Limited Partner.

(d) *Tax election.* In the discretion of the General Partners, the Partnership may, but shall not be obliged to, make or revoke the election referred to in *Section 754 of the Internal Revenue Code of 1954* or any similar provision enacted in lieu of Section 754. Each of the Partners shall supply to the Partnership the information necessary, properly to give effect to such election.

(e) *Disability.* This power of attorney, and any other power of attorney granted by this agreement, shall not be affected by the subsequent disability or incompetence of the principal.

24. *Acknowledgment of limited partners.* (a) *Other instruments.* Each of the Additional Limited Partners acknowledges that statements contained in this agreement as to the contents of any agreement or other instrument are not necessarily complete. In each instance reference is made to the copies of such instruments which have been available for inspection by the Additional Limited Partners as hereinafter set forth.

(b) *Prospectus.* Each of the Additional Limited Partners further acknowledges that prior to the date of execution of a counterpart of this agreement he received and examined a copy of the Prospectus filed with the Securities and Exchange Commission, as amended to the execution date.

(c) *Inspection.* True copies of the Purchase Agreements and exhibits annexed thereto, the Registration Statement filed with the Securities and Exchange Commission, and all other instruments related to this transaction shall be available for inspection by each of the Additional Limited Partners prior to the submission of a counterpart hereof for his signature. Such availability for inspection shall be at the Partnership's principal office.

25. *Notice.* All notices under this agreement shall be in writing, and shall be given to the parties at the addresses herein set forth and to the Partnership at its principal office, or at such other address as any of the parties may hereafter specify in the same manner.

26. *General partners' option.* If all the General Partners deem it to be in the best interests of the Partnership, they may treat an assignee, who has not become a Substituted Limited Partner, as a Substituted Limited Partner in the place and stead of his assignor.

27. *Captions.* Paragraph titles or captions contained in this agreement are inserted only as a matter of convenience and for reference, and in no way define, limit, extend, or describe the scope of this agreement or the intent of any provision hereof.

28. *Variations in pronouns.* All pronouns and variations thereof shall be deemed to refer to the masculine, feminine, singular, or plural as the identity of the person or persons may require.

29. *Arbitration.* Any dispute or controversy arising under, out of, in connection with, or in relation to this agreement, and any amendment thereof, or the breach thereof, or in connection with the formation, operation, or dissolution of the Partnership, shall be determined and settled by arbitration in New York City in accordance with the rules of the American Arbitration Association. Any award rendered therein shall be final and binding on each and all of the Partners, and judgment may be entered thereon in any court of competent jurisdiction.

30. *Conversion.* Notwithstanding the foregoing, nothing in paragraph 29 shall affect the right of any Partner to bring an action for conversion in the event of violation of the trust provisions of Section 352-h of the General Business Law of the State of New York.

2-Forms Federal Taxes Affecting Real Estate [A]

31. *Agreement in counterparts.* This agreement may be executed in several counterparts, and all so executed shall constitute one agreement, binding on all the parties, notwithstanding that all the parties are not signatory to the original or the same counterpart.

32. *Partners' representation.* Each of the Partners represents and warrants that he is over the age of 21 years, and that the residence address set forth opposite or below his name, as the case may be, at the end of this agreement is his bona fide residence.

33. *Cash contributions.* At the election of the General Partners, cash contributions by Limited Partners to the Partnership capital may be in the form of cash, bank draft, certified check, or uncertified check subject to collection.

34. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

35. *Non-waiver.* No delay or failure by a party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

36. *Governing law.* This agreement and the rights of the parties hereunder shall be construed in accordance with and governed by the laws of the State of New York.

37. *Binding effect.* Except as otherwise expressly provided herein, the provisions of this agreement shall be binding upon and inure to the benefit of each of the parties and their respective personal representatives, successors, and assigns.

In witness whereof the parties have executed this agreement.

General Partner _____

A.9 Limited partnership--corporate general partner--sale of limited partnership units to the public--detailed provisions concerning the general partner's fees, powers, and duties

COMMENT

One of the principal features of this limited partnership agreement is that a corporation is the sole general partner. The Uniform Limited Partnership Act ("ULPA") has been modified in several states to specifically permit a corporation to act as general partner in a partnership. A major benefit of this arrangement is to permit the possibility of limited liability for the persons holding shares in the corporate general partner, as well as limited liability for the limited partners. There is some conflict of authority, however, as to whether a limited partner, who is also a director, officer and/or principal shareholder of the corporate general partner, exercises sufficient "control" so as to be personally liable as a general partner under the ULPA. Local law on these issues should be consulted.

Publicly traded partnerships taxed as corporations:

A partnership first publicly traded after December 17, 1987 is generally treated as a corporation for tax purposes. A partnership is publicly traded if its partnership interests are either traded on an established securities market, or readily tradable on a secondary market or the substantial equivalent of a secondary market. An exception to corporate tax treatment applies to certain partnerships if 90 percent or more of

2-Forms Federal Taxes Affecting Real Estate [A]

their gross income is qualifying passive-type income, including real property rents, and gains from the sale or other disposition of real property.

Net income from a publicly traded partnership is not treated as passive income for purposes of the passive loss rules. Each partner in a publicly traded partnership treats loss, if any, from the partnership as separate from income and loss from any other publicly traded partnership, and separate from any income or loss from passive activities. Under the passive loss rules net income from publicly traded partnerships is treated as portfolio income.

Parties who wish to avoid "publicly traded" status can include a prohibition against any transfer that would cause the partnership to become publicly traded.

For further information, see Chapter 14.

FORM

This PARTNERSHIP AGREEMENT ("Partnership Agreement") entered into as of September 2, 2002, by and between NWP Management Corp., a Delaware corporation ("General Partner"), as General Partner, and Arthur D. Smith, as the original Limited Partner, all of whom hereby form a limited partnership pursuant to the Uniform Limited Partnership Act of the State of California, upon the following terms and conditions:

1. Name and Place of Business

The name of the Partnership is New World Property Investors. Its principal place of business is 10946 Victory Boulevard, Van Nuys, California, or such other place or places as the General Partner may hereafter determine.

2. Definitions and Glossary of Terms

2.1 The following terms used in this Partnership Agreement shall (unless otherwise expressly provided herein or unless the context otherwise requires) have the following respective meanings:

2.1.1 "Acquisition Fees" shall mean the total of all fees and commissions paid by any person to any person, including any Sponsor, in connection with the selection, purchase, or initial operation of any Property by the Partnership, whether designated as real estate commission, selection fee, management fee, nonrecurring start-up fee, development fee, construction fee, or any fee of a similar nature, however designated, but not any loan fee ("points"), independent appraisal fees, engineering fees or architectural fees in connection with the selection, purchase or initial operation of any Property by the Partnership.

2.1.2 "Adjusted Cash From Operations" shall mean the excess of cash revenue from operation of Partnership Property (including lease payments on net leases) over cash disbursements without deduction for depreciation and amortization of intangibles such as organization, underwriting and debt placement costs but after a reasonable allowance for cash reserves for repairs, replacements, contingencies and anticipated obligations (including debt service), as determined by the General Partner. Adjusted Cash from Operations shall not include Cash From Sales or Refinancings, Cash From

2-Forms Federal Taxes Affecting Real Estate [A]

Initial Financings, or Cash From Property Reserve Account.

2.1.3 "Adjusted Invested Capital" of a Holder shall be the Original Invested Capital paid for or attributable to his Units reduced by the total of cash distributed to him and prior Holders of his Units from Cash From Sales or Refinancings and from Cash From Property Reserve Account (to the extent such cash distributed came from Net Proceeds).

2.1.4 "Affiliate" shall refer to: (i) any person directly or indirectly controlling, controlled by or under common control with another person, (ii) a person owning or controlling 10 percent or more of the outstanding voting securities of such other person, (iii) any officer, director or partner of such person, and (iv) if such other person is an officer, director or partner, any company for which such person acts in any such capacity.

2.1.5 "Assignee" shall mean a person who has acquired a beneficial interest in one or more Units from a third party but who is neither a substituted Limited Partner nor an Assignee of Record.

2.1.6 "Assignee of Record" shall mean an Assignee who has acquired a beneficial interest in one or more Units whose ownership of such Units has been recorded on the books of the Partnership and which ownership is the subject of a written instrument of assignment, the effective date of which assignment has passed.

2.1.7 "Cash From Initial Financing" shall mean the net cash realized by the Partnership during that portion of the term of the Partnership ending 24 months after the effective date of the Prospectus from the initial financing of any Partnership Property purchased for all cash.

2.1.8 "Cash From Property Reserve Account" shall mean that portion of the Net Proceeds not utilized in the acquisition of Partnership Properties including cash maintained according to the provisions of Paragraph 3.2.

2.1.9 "Cash From Sales or Refinancing" shall mean the net cash realized by the Partnership from the sale, refinancing or other disposition of any Partnership Property after retirement of applicable mortgage debt and all expenses related to the transaction; however, Cash From Sales or Refinancing shall not include Cash From Initial Financing or Cash From Property Reserve Account.

2.1.10 "Closing Date" shall mean such date designated by the General Partner, but not later than November 12, 2002.

2.1.11 "Code" shall mean the Internal Revenue Code of 1986, as amended, or corresponding provisions of subsequent revenue laws.

2.1.12 "Cost of Partnership Property" with respect to each Partnership Property means the total consideration paid for federal income tax purposes by the Partnership in connection with the purchase of such Property, whether paid to the seller, the General Partner or any other person, either in cash or by way of promissory notes, including payments for Acquisition Fees paid by the Partnership, if any, and financing charges. Reference to "Cost Of All Partnership Properties" shall be the total of such consideration paid by the Partnership for all Partnership Properties.

2.1.13 "Distributions" shall refer to any cash or other property distributed to Holders and the General Partner arising from their interests in the Partnership, but shall not include any payments to the General Partner under the provisions of Paragraph 9 or Paragraph 10.

2.1.14 "General Partner" shall refer to NWP Management Corp., a Delaware corporation, or to any other person or corporation who succeeds it in such capacity.

2.1.15 "Gross Proceeds" shall mean the aggregate total of the Original Invested Capital of the original and all of the additional Limited Partners.

2-Forms Federal Taxes Affecting Real Estate [A]

2.1.16 "Gross Revenues" shall mean revenues from the operation of real property owned by the Partnership other than from security deposits paid by lessees thereof. The term "Gross Revenues" shall not include revenues from sale, refinancing or other disposition of Partnership Properties.

2.1.17 "Holders" shall refer to owners of Units who are either Partners or Assignees of Record, and reference to a "Holder" shall be to any one of them. The General Partner shall be considered to be a Holder.

2.1.18 "Limited Partners" shall refer to the original Limited Partner, and to any other persons who are admitted to the Partnership as additional or substituted Limited Partners. Reference to a "Limited Partner" shall refer to any one of them.

2.1.19 "Majority Vote" shall mean the vote of Limited Partners who own more than 50 percent of the Total Outstanding Units.

2.1.20 "Net Income" or "Net Loss" shall mean the net income or net loss of the Partnership, as determined in accordance with the cash method of accounting.

2.1.21 "Net Proceeds" shall mean the total Gross Proceeds less expenses incurred and to be paid by the Partnership in organizing the Partnership and in offering Units to the public.

2.1.22 "Original Invested Capital" shall mean the amount in cash contributed by the original and each additional Limited Partner to the capital of the Partnership for his Units, which amount shall be attributed to such Units in the hands of a subsequent Holder.

2.1.23 "Partners" shall refer collectively to the General Partner and to the Limited Partners, and reference to a "Partner" shall be to any one of the Partners.

2.1.24 "Partnership" shall refer to the Limited Partnership created under this Partnership Agreement.

2.1.25 "Partnership Properties" or "Properties" shall refer to all properties or any interest therein acquired directly or indirectly by the Partnership, in whole or in part, with Net Proceeds or Cash From Initial Financing. Reference to "Partnership Property" or "Property" shall be to any one of them.

2.1.26 "Prospectus" shall mean the final prospectus in the registration of Units filed with the Securities and Exchange Commission on Form S-11, as amended.

2.1.27 "Sponsor" shall mean any person directly or indirectly instrumental in organizing, wholly or in part, the Partnership or who will manage or participate in the management of the Partnership including the General Partner and its Affiliates, but excluding (i) any nonaffiliated person whose only relationship with the Partnership or the General Partner is that of an independent property manager whose only compensation from the Partnership is as such, and (ii) nonaffiliated third parties such as attorneys, accountants, and underwriters whose only compensation from the Partnership is for professional services rendered in connection with the offering of Units or the operations of the Partnership.

2.1.28 "Subordinated Incentive Fee" shall refer to the fee payable to the General Partner and its Affiliates under the provisions of Paragraph 9.5.1 of this Partnership Agreement.

2.1.29 "Total Outstanding Units" shall mean all Units issued at or before the Closing Date.

2-Forms Federal Taxes Affecting Real Estate [A]

2.1.30 A "Unit" shall represent a capital contribution of \$500 to the Partnership and shall entitle the Holder thereof to an interest in the Net Income, Net Loss, and Distributions of the Partnership, without regard to capital accounts.

3. Business and Purpose

3.1 The primary purpose (character of business) of the Partnership is to invest in, hold and manage income-producing real estate which is improved or which will be improved within a reasonable period after acquisition, with emphasis planned to be upon the acquisition of existing apartment complexes, shopping centers, industrial buildings and commercial properties located in the United States. The Partnership may enter into ventures, partnerships, and other business arrangements with respect to real estate deemed prudent by the General Partner in order to achieve successful operations for the Partnership; subject, however, to the provisions of Paragraph 15.3.8.

3.2 For the Partnership Properties, the Partnership shall initially endeavor to maintain a cash reserve for normal repairs, replacements, contingencies and accruals required by mortgages for insurance, real estate taxes and related items in an amount equal to at least five percent in the aggregate of the Gross Proceeds applicable to the acquisition of such Properties. Upon the disposition of each Partnership Property, any cash reserve for that Property need not be maintained thereafter, but may be applied as reserves for other Properties. Any cash reserve used as aforesaid need not be restored and if restored, shall be restored from cash generated from Partnership Properties.

3.3 Subject to the provisions of Paragraphs 11.10 and 11.11, during that part of the Partnership term which ends 24 months after the effective date of the Prospectus, the Partnership may obtain initial financing on any Partnership Property purchased for all cash, and may reinvest all proceeds therefrom. The Partnership may also reinvest proceeds from any financing effected during the period commencing 24 months and ending 60 months after the Closing Date. Thereafter, proceeds from any financing or refinancing shall not be reinvested but shall be available for and used in Distributions.

4. Term

The Partnership commenced September 2, 2002, and shall continue until December 31, 2026, unless sooner terminated in accordance with the provisions of this Agreement.

5. General Partner

5.1 NWP Management Corp., as the General Partner, has contributed \$500 in cash to the Partnership. The General Partner shall on the Closing Date contribute additional cash in the sum of \$100,000 as a Limited Partner, and shall receive 200 Units for such additional cash contributions, and at all times during the existence of the Partnership, have a present and continuing interest in Net Income, Net Loss and Distributions according to the provisions of Paragraph 11.

5.2 In the event that, immediately prior to the dissolution of the Partnership referred to in Paragraph 19.2, the General Partner shall have a deficiency, if any, in its capital account, and if the assets available for distribution upon the dissolution and termination of the Partnership are insufficient to allow Distributions to the Holders of Units of amounts

equal to the then balances in their capital accounts, then, the General Partner shall contribute in cash to the capital of the Partnership an amount equal to whichever is less of (a) the deficiency in the General Partner's capital account, or (b) the amount needed so that the Distributions may be made to the Holders of Units is an amount equal to the then balances in their respective capital accounts.

6. Original and Additional Limited Partners

6.1 The original Limited Partner has contributed the sum of \$2,500 to the capital of the Partnership, and has received five Units for such contribution.

6.2 The Partnership intends to sell and issue not less than 6,200 nor more than 20,000 additional Units, and to admit as additional Limited Partners the persons who contribute cash to the Partnership capital for such Units.

6.3 Each person who acquires any such additional Units shall become a Limited Partner in the Partnership at such time as he has: (i) purchased five or more Units, (ii) contributed the sum of \$500 in cash for each Unit purchased, and (iii) executed and filed with the Partnership a written instrument which sets forth an intention to become a Limited Partner and requests admission to the Partnership in that capacity, together with such other instruments as the General Partner may deem necessary or desirable to effect such admission, including the written acceptance and adoption of such person of the provisions of this Partnership Agreement, and the execution, acknowledgement and delivery to the General Partner of a special power of attorney, the form, style and content of which are more fully described in Paragraph 20.

6.4 The General Partner shall in timely fashion amend (but not later than the last day of the calendar month following the date of acceptance of the additional Limited Partner's subscription) this Partnership Agreement and any separate certificate of limited partnership filed for record to reflect the admission of a person as an additional Limited Partner.

6.5 The Partnership shall not issue any additional Units after the Closing Date.

6.6 All Original Invested Capital of Holders shall be received by the Partnership in trust, and shall be deposited in an escrow account in any branch of the Bank of America National Trust and Savings Association or in any other banking institution designated by the General Partner as escrow holder for the Original Invested Capital. Upon receipt of a minimum of \$3,000,000 in Original Invested Capital from purchasers of Units, the Partnership shall admit such purchasers into the Partnership as additional Limited Partners not later than 15 days after the receipt of such minimum. At the time the purchaser is admitted as a Limited Partner, the escrow holder shall transfer such person's Original Invested Capital to the Partnership. If the \$3,000,000 minimum amount is not obtained within 180 days from the effective date of the Prospectus, all Original Invested Capital shall be promptly refunded to the purchasers with any interest earned thereon.

7. Status of Limited Partners

Limited Partners shall not be bound by, or be personally liable for, the expenses, liabilities or obligations of the Partnership.

8. Status of Units

Each Unit shall be fully paid and nonassessable.

9. Compensation to General Partner and its Affiliates

9.1 The General Partner and its Affiliates shall receive compensation only as specified by this Partnership Agreement.

9.2 *Limitation on Compensation*

9.2.1 The aggregate amount of the Acquisition Fees shall not exceed the lesser of: (i) 15 percent of Gross Proceeds, (ii) the normal and competitive rate for similar services in the locations where the services are performed, or (iii) 3 percent of the Cost of all Partnership Properties.

9.2.2 The amount of the Acquisition Fees with respect to a particular Partnership Property shall not exceed the lesser of: (i) 15 percent of that portion of the Gross Proceeds applicable to the Partnership Property which is the subject of the acquisition, (ii) the normal and competitive rate for similar services in the location where the services are performed, or (iii) 3 percent of the Cost of such Partnership Property.

9.2.3 The Partnership shall pay no Acquisition Fee to any of its Affiliates, nor shall any of its Affiliates receive a fee, commission, or other benefit from any person, upon any reinvestment of the Cash From Sales or Refinancing of Property by the Partnership other than any Acquisition Fees in connection with the investment of Cash From Initial Financing.

9.2.4 Except as set forth in Paragraph 9, no other real estate commission, property purchase fee, or finder's fee shall be paid or payable by the Partnership to the General Partner or to any other person in connection with the acquisition of specific real properties. However, if such commissions or fees exceed the limitations in this Paragraph 9.2, the General Partner may cause Acquisition Fees to be paid to other persons, without cost to the Partnership.

9.3 *Acquisition Stage*

9.3.1 *Acquisition fee.* The General Partner or its Affiliates or any person shall receive an Acquisition Fee not greater than 15 percent of that portion of the Gross Proceeds applicable to each Partnership Property purchased through the services of the General Partner or its Affiliates. Such fee shall be paid by the seller of the Partnership Property acquired and not by the Partnership.

9.4 *Operating Stage (Operating Compensation)*

9.4.1 *Property management fee.* The General Partner or an Affiliate shall be entitled to a Property Management Fee for services in providing continuing professional property management or supervision of professional property managers of the Partnership Properties. Such fee shall be paid monthly and shall be equal to 5 percent of Gross Revenues for the preceding month (but not to exceed rates prevailing for comparable services in the localities where the Properties are located). In the event the General Partner retains third parties to perform a portion or all of the services set forth below, it shall be solely responsible for all fees charged by such persons and shall pay such fees without cost to the Partnership. Property management services shall include, but not be limited to: (i) review of the maintenance, repair, remodeling and refurbishing of all Partnership Properties, (ii) review of rental schedules and recommendations with respect to changes

2-Forms Federal Taxes Affecting Real Estate [A]

thereto, (iii) supervision of on-site property managers and other employees together with the establishment of procedures regarding the management of Partnership Properties, (iv) preparation and review of rental surveys, (v) preparation and review of historical and projected performance, (vi) preparation and review of leases, management agreements and maintenance agreements, and (vii) review of replacement reserves and working capital and recommendations with respect to changes thereto. Property management services to be rendered by the General Partner or by third parties retained by it do not include the leasing or releasing of Partnership Properties or the salaries of on-site property managers for which separate fees may be paid.

9.5. *Liquidating Stage (Final Compensation)*

9.5.1 *Subordinated incentive fee.* The General Partner shall be entitled to receive the Subordinated Incentive Fee as compensation for the services rendered in: evaluating and selecting Properties for the Partnership; making decisions as to the nature and terms of the acquisition and disposition of such Properties; selecting, retaining, and supervising consultants, contractors, architects, engineers, lenders, borrowers, and others; and otherwise generally managing the Partnership's day-to-day operations. The Subordinated Incentive Fee shall be an amount equal to 15 percent of the remaining Cash from Sales or Refinancings in excess of the Cost of All Partnership properties, and shall be paid when such Cash From Sales or Refinancings is distributed. Payment of 50 percent thereof, however, shall be computed on the remainder after the Partnership has distributed to Holders an aggregate amount in cash which is equal to (i) the total of Original Invested Capital, and (ii) a sum equal to 6 percent per year cumulative on their Adjusted Invested Capital, commencing with the third full fiscal quarter following the Closing Date. Payment of 50 percent thereof shall be computed on the remainder after the Partnership has distributed to Holders an aggregate amount in cash which is equal to (i) the total of Original Invested Capital, and (ii) a sum equal to 10 percent per year cumulative on their Adjusted Invested Capital, commencing with the third full fiscal quarter following the Closing Date.

9.6 If the General Partner is expelled from the Partnership, such Partner shall be entitled to interest on all loans so made subject to the provisions of this Partnership Agreement.

9.7 Should the General Partner be expelled from the Partnership any portion of the Acquisition Fee, Property Management Fee, Subordinated Incentive Fee, or any other fee or commission payable according to the provisions of this Paragraph 9 which is then accrued and due, but not yet paid, shall be paid by the Partnership to the General Partner in cash within 30 days of the date of expulsion as stated in the written notice of expulsion.

10. Partnership Expenses

10.1 Reimbursement (other than for organization and offering expenses) to the General Partner or its Affiliates shall not be made, except for reimbursement of the actual cost to the General Partner or its Affiliates of goods and materials used for or by the Partnership. Reimbursement of the actual costs to the General Partner and its Affiliates of travel expenses shall be limited as follows: the amount of such reimbursement plus the amount of Acquisition Fees paid to any party in connection with the acquisition of Partnership Properties and the amounts payable to the General Partner under Paragraph 11.4 shall not exceed the lesser of (a) 12 percent of the Gross Proceeds of the offering (or, if less, the real estate commissions or Acquisition Fees customarily charged in arm's length transactions by others in the same geographical location for comparable property to that acquired by the Partnership), or (b) 10 percent of the total amount of Adjusted Cash From Operations. In addition, such reimbursement as to expenses relating to the acquisition of the Partnership Properties shall not be made if and to the extent that such expenses, when combined with the Acquisition Fees payable to any party in connection with the acquisition of the Partnership Properties, exceed 6 percent of the Cost of all Partnership Properties acquired. The reimbursement for expenses provided for in this Paragraph 10.1 shall be made to the General Partner regardless of whether any Distributions are made to the Limited Partners under the

provisions of Paragraph 11.4.

10.2 The General Partner shall pay: (i) salaries and other compensation of its officers and directors incidental to the organization of the Partnership, the sale of Units and the acquisition of Partnership Properties, (ii) expenses incurred by the General Partner or its Affiliates in connection with the administration of the Partnership, including the overhead expenses of the General Partner or its Affiliates, (iii) expenses incidental to the organization of the Partnership and marketing of Units (exclusive of sales commissions payable in connection with the sale of Units to those persons who are admitted to the Partnership as additional Limited Partners therein), which expenses are in excess of 2.25 percent of Gross Proceeds, (iv) expenses related to the performance of those services for which the General Partner or its Affiliates are entitled to compensation by way of the Acquisition Fee, Property Management Fee and Subordinated Incentive Fee, and (v) all other expenses which are unrelated to the business of the Partnership.

10.3 Subject to Paragraphs 10.1 and 10.2, the Partnership shall pay all of its expenses. Such expenses may include, but shall not be limited to: (i) all costs of personnel employed by the Partnership and involved in its business, including persons who may also be officers or employees of the General Partner; (ii) all costs of borrowed money, taxes and assessments on Partnership Properties and other taxes applicable to the Partnership; (iii) legal, audit, accounting, brokerage and other fees; (iv) printing, engraving and other expenses and taxes incurred in connection with the issuance, distribution, transfer, registration and recording of documents evidencing ownership of an interest in the Partnership or in connection with its business; (v) fees and expenses paid to independent contractors, mortgage bankers, brokers and servicers, leasing agents, consultants, on-site managers, real estate brokers, insurance brokers and other agents; (vi) expenses in connection with the disposition, replacement, alteration, repair, remodeling, refurbishment, leasing, refinancing and operation of Partnership Properties (including the costs and expenses of foreclosures, insurance premiums, real estate brokerage and leasing commissions and of maintenance of such Property); (vii) the cost of insurance as required in connection with the business of the Partnership; (viii) expenses of organizing, revising, amending, converting, modifying or terminating the Partnership; (ix) expenses in connection with Distributions made by the Partnership to, and communications and bookkeeping and clerical work necessary in maintaining relations with Unit Holders, including the cost of printing and mailing to such persons certificates for Units and reports of meetings of the Partnership, and of preparation of proxy statements and solicitations of proxies in connection therewith; (x) expenses in connection with preparing and mailing reports required to be furnished to Unit Holders for investor, tax reporting or other purposes, or which reports the General Partner deems the furnishing thereof to Unit Holders to be in the best interests of the Partnership; (xi) costs of any accounting, statistical or bookkeeping equipment necessary for the maintenance of the books and records of the Partnership; and (xii) the cost of preparation and dissemination of the informational material and documentation relating to potential sale, refinancing or other disposition of Partnership Property.

11. Allocation of Income, Loss, and Distributions

11.1 That portion of Net Income, Net Loss and Distributions of the Partnership allocated to the Unit Holders shall be apportioned among the Holders, in the ratio in which the number of Units owned by each of them on the last day of each calendar quarter bears to the total number of Units owned by all of them as of that date, without regard to capital accounts or the number of days during such quarter in which a person was a Holder.

11.2 *Allocation of net loss.* Except as provided in Section 11.9 of this Partnership Agreement, Net Loss shall be allocated as follows:

11.2.1 One percent shall be allocated to the General Partner.

2-Forms Federal Taxes Affecting Real Estate [A]

11.2.2 Ninety-nine percent shall be allocated to the Unit Holders.

11.3 *Allocation of net income.* Net Income shall be allocated as follows:

11.3.1 One percent shall be allocated to the General Partner.

11.3.2 Ninety-nine percent shall be allocated to the Unit Holders.

11.4 *Distribution of adjusted cash from operations.* Adjusted Cash From Operations shall be distributed as follows:

11.4.1 One percent shall be distributed to the General Partner.

11.4.2 Ninety-nine percent shall be distributed to the Unit Holders.

11.5 *Distributions of cash from sales and refinancings and cash from property reserve account.* Cash From Sales and Refinancings and Cash From Property Reserve Account shall be distributed in the following order of priority (for purposes of this Paragraph 11.5, Adjusted Invested Capital shall not be reduced by the amount of Distributions of Cash From Sales and Refinancings and Cash From Property Reserve Account that is applied toward the preference to Unit Holders pursuant to Paragraph 11.5.1(i)):

11.5.1 First, to the Unit Holders, in an amount equal to: (i) the amount, when added to all prior Distributions to the Unit Holders, that shall be equal to 6 percent per annum cumulative on their Adjusted Invested Capital commencing with the third full fiscal quarter following the Closing Date, and (ii) the Original Invested Capital.

11.5.2 Second, to the General Partner, in an amount equal to the initial portion of the Subordinated Incentive Fee it is entitled to under Paragraph 9.5.1.

11.5.3 Third, to the Unit Holders, in an amount equal to 4 percent per annum cumulative on their Adjusted Invested Capital commencing with the third full fiscal quarter following the Closing Date.

11.5.4 Fourth, to the General Partner, in an amount equal to the remaining portion of the Subordinated Incentive Fee it is entitled to under Paragraph 9.5.1.

11.5.5 Fifth, with respect to the remainder, 1 percent to the General Partner and 99 percent thereof to the Unit Holders.

11.6 The Partnership may be restricted from making Distributions under the terms of notes, mortgages or other types of debt obligation which it may issue or assume in conjunction with borrowed funds, and Distributions may also be restricted or suspended in circumstances when the General Partner determines, in its absolute discretion, that such action is in the best interests of the Partnership.

11.7 The methods hereinabove set forth by which Distributions and allocations of Net Income and Net Loss are made and apportioned are hereby expressly consented to by each Partner as an express condition to becoming a Partner.

11.8 All Distributions are subject to the payment of Partnership expenses, and to the maintenance of reasonable reserves for alterations, repairs, improvements, maintenance, and replacement of furniture and fixtures.

11.9 To the extent that the Partnership shall be entitled to any deduction for federal income tax purposes as a result of any interest in Net Income and Net Loss granted to the General Partner, such deduction shall be allocated for federal income tax purposes to the General Partner.

2-Forms Federal Taxes Affecting Real Estate [A]

11.10 During the first 60 months after the Closing Date, the General Partner shall also distribute after the completion of each calendar year such amounts of Cash From Sales or Refinancings (when considered with prior distributions of Adjusted Cash From Operations) sufficient to allow a Holder in a 28 percent federal, income tax bracket to pay the income taxes due with respect to Net Income derived by him from the operations of the Partnership.

11.11 In the event that any portion of the Net Proceeds are not invested or committed for investment within 24 months from the effective date of the Prospectus (except for any amounts utilized to pay Partnership operating expenses, including amounts set aside for reserves as set forth in Paragraph 3.2 of this Partnership Agreement), such portion of the Net Proceeds shall be distributed to the Unit Holders by the Partnership as a return of capital. For the purposes of this Paragraph 11.11, funds will be deemed to have been committed to investment and will not be returned to the Unit Holders to the extent written agreements in principle or letters of understanding were at any time executed, regardless of whether any such investment may or may not be consummated, and to the extent any funds have been reserved to make contingent payments in connection with any Property, regardless of whether any such payments may or may not be made.

12. Assignment of Partnership Units

12.1 Holders shall have the right to assign five or more whole Units (or, if fewer, the number of Units owned by the Partner) by a written instrument of assignment. The terms of such instrument shall not be in contravention of any provision of this Partnership Agreement, and the instrument shall have been duly executed by the assignor of such Units. A Limited Partner shall within 30 days after assignment notify the General Partner of any assignment of a beneficial interest in any Units which occurs without a transfer of record ownership.

12.2 An Assignee of Record shall be entitled to receive distributions of cash or other property from the Partnership attributable to the Units acquired by reason of such assignment from and after the effective date of the assignment of such Units to him. Anything herein to the contrary notwithstanding, however, the Partnership and the General Partner shall be entitled to treat the assignor of such Units as the absolute owner thereof in all respects, and shall incur no liability for allocations of Net Income, Net Loss, or Distributions, or transmittal of reports and notices required to be given to Holders hereunder which are made in good faith to such assignor until such time as the written instrument of assignment has been received by the Partnership and recorded on its books and the effective date of the assignment has passed. Provided the Partnership has actual notice of an assignment of Units, the effective date of such assignment on which the Assignee shall be deemed as Assignee of Record shall be the first day of the month set forth on the written instrument of assignment.

12.3 Except as provided in this Paragraph 12.3, no assignment of any Units by a Holder may be made if the Units sought to be assigned, when added to the total of all other Units assigned within the period of 12 consecutive months prior to the proposed date of assignment would, in the opinion of counsel for the Partnership, result in the termination of the Partnership under Section 708 of the Code. Such assignment may be made, however, if, upon the application and at the expense of the Holder desiring to assign his Units in the Partnership, the Internal Revenue Service shall have granted to the transferring Holder and the Partnership a private ruling that the proposed assignment will not cause such termination.

12.4 No assignment, sale, transfer, exchange or other disposition of any Units in the Partnership may be made except in compliance with the then applicable rules of any other applicable governmental authority.

12.5 Any assignment, sale, exchange, or other transfer in contravention of any provision of this Paragraph 12 shall be void and ineffectual, and shall not bind or be recognized by the Partnership.

13. Substituted Limited Partners

13.1 No Assignee shall have the right to become a substituted Limited Partner in place of his assignor unless all of the following conditions are first satisfied:

13.1.1 A duly executed and acknowledged written instrument of assignment shall have been filed with the Partnership. Such instrument shall specify the number of Units being assigned and set forth the intention of the assignor that the Assignee succeed to the assignor's interest as a substituted Limited Partner in his place;

13.1.2 The assignor and Assignee shall have executed and acknowledged such other instruments as the General Partner may deem necessary or desirable to effect such substitution, including the written acceptance and adoption by the Assignee of the provisions of this Partnership Agreement, as the same may be amended and his execution, acknowledgement and delivery to the General Partner of a special power of attorney, the form and content of which are described herein;

13.1.3 The written consent of the General Partner to such substitution shall have been obtained, the granting or denial of which shall be within its absolute discretion;

13.1.4 A transfer fee shall have been paid to the Partnership which is sufficient to cover all reasonable expenses connected with such substitution; and

13.1.5 The provisions of Paragraphs 12.3 and 12.4 of this Partnership Agreement are complied with.

13.2 By executing or adopting this Partnership Agreement, each Limited Partner hereby consents to the admission of additional or substituted Limited Partners by the General Partner and to any Assignee of his Units becoming a substituted Limited Partner.

13.3 The General Partner shall cause the Partnership Agreement or any separate certificate of limited partnership to be amended to reflect the substitution of Limited Partners at least once in each calendar quarter.

14. Books, Records, Accountings and Reports

14.1 The Partnership's books and records, the Partnership Agreement and all amendments thereto, all separate certificates of limited partnership, and copies of each appraisal on Partnership Property shall be maintained at the Partnership's principal office or such other place as the General Partner may determine. All such materials shall be open to inspection and examination of Limited Partners or their duly authorized representatives at all reasonable times. Upon written request, a Limited Partner or his duly authorized representative shall be provided with a copy of the certificate or certificates of limited partnership containing the most recent listing of Partners' names, addresses and capital contributions. Each appraisal on Partnership Property shall be maintained by the General Partner and available for such inspection and examination by any Limited Partner or his duly authorized representative for a period of at least five years following the date of acquisition of the Property subject to such appraisal.

14.2 The General Partner shall have prepared at least annually, at Partnership expense, financial statements (balance

2-Forms Federal Taxes Affecting Real Estate [A]

sheet, statement of income or loss, partners' equity, and changes in financial position) prepared in accordance with generally accepted accounting principles and accompanied by a report thereon containing an opinion of an independent certified public accounting firm. Copies of such statements and report shall be distributed to each Limited Partner within 90 days after the close of each taxable year of the Partnership.

14.3 The General Partner shall have prepared at least annually, at Partnership expense: (i) a statement of cash flow, (ii) Partnership information necessary in the preparation of the Limited Partners' federal income tax returns, (iii) a report of the Partnership business, (iv) a statement as to the compensation received by the General Partner during the year from the Partnership, setting forth the services rendered or to be rendered by the General Partner and the amount of fees received, and (v) a report identifying distributions from: (a) Adjusted Cash From Operations of that year, (b) Adjusted Cash From Operations of prior years, (c) Cash From Sales or Refinancings, and (d) Cash From Property Reserve Accounts and other sources. Copies of such report shall be distributed to each Limited Partner within 90 days after the close of each taxable year of the Partnership provided, however, all Partnership information necessary in the preparation of the Limited Partners' federal income tax returns shall be distributed to each Limited Partner within 45 days, but not later than 75 days, after the close of each taxable year of the Partnership.

14.4 The General Partner shall have prepared quarterly, at Partnership expense, commencing with the first calendar quarter after the Closing Date: (i) a statement as to the compensation received by the General Partner during such quarter from the Partnership, setting forth the services rendered or to be rendered by the General Partner and the amount of fees received, and (ii) other relevant information. Copies of such statements shall be distributed to each Limited Partner within 60 days after the end of each quarterly period.

14.5 Until such time as the Partnership is registered under Section 12(g) of the Securities Exchange Act of 1934, the General Partner shall have prepared, at Partnership expense, a semi-annual report covering the first six months of Partnership operations in each calendar year, commencing with the first six-month period after the Closing Date and semi-annually thereafter, unaudited financial statements (balance sheet, statement of income or loss for said first six-month period and statement of Adjusted Cash From Operations for said first six-month period), and a statement of other pertinent information regarding the Partnership and its activities during the six-month period covered by the report. Copies of such statements and other pertinent information shall be distributed to each Limited Partner within 60 days after the close of the six-month period covered by the Partnership report.

14.6 At such time as the Partnership is registered under Section 12(g) of the Securities Exchange Act of 1934, the General Partner shall have prepared, at Partnership expense, a quarterly report covering the first three quarterly calendar year periods of Partnership operations in each calendar year, commencing with the first quarterly period required after Section 12(g) registration is effective, unaudited financial statements (balance sheet, statement of income or loss for said quarterly period and Statement of Adjusted Cash From Operations for said quarterly period) and a statement of other pertinent information regarding the Partnership and its activities during the quarterly period covered by the report. Copies of such statements and other pertinent information shall be distributed to each Limited Partner within 60 days after the close of the quarterly period covered by the report of the Partnership.

14.7 The General Partner shall have prepared, at Partnership expense, no later than the end of each quarter in which Partnership Properties are acquired, a notice which shall describe therein: (i) each real property so acquired, (ii) the geographic area in which such Property is located, and (iii) such other relevant information with respect to the acquisition of such Property as the General Partner deems appropriate (including by way of illustration the date and appraised value of the real property, its purchase price, including the terms of purchase, the total cash expended by the Partnership for the property, and the amount of Net Proceeds remaining uncommitted, in terms of dollars and percentage of Gross Proceeds). Copies of such notice shall be distributed to each Limited Partner within 60 days after the end of such quarter. If deemed appropriate by the General Partner, such notice may be prepared and distributed to each Limited Partner more frequently than quarterly.

2-Forms Federal Taxes Affecting Real Estate [A]

14.8 The General Partner, at Partnership expense, shall cause income tax returns for the Partnership to be prepared and timely filed with the appropriate authorities.

14.9 The General Partner, at Partnership expense, shall cause to be prepared and timely filed, with appropriate federal and state regulatory and administrative bodies, all reports required to be filed with such entities under then current applicable laws, rules and regulations. Such reports shall be prepared on the accounting or reporting basis required by such regulatory bodies. Any Limited Partner shall be provided with a copy of any such report upon request without expense to him.

14.10 The General Partner, at Partnership expense, shall maintain for a period of at least four years a record of the information obtained to indicate that a Limited Partner meets with the suitability standards set forth in the Prospectus.

15. Rights, Authority, Powers, Responsibilities and Duties of the General Partner

15.1 The General Partner shall have all authority, rights and powers conferred by law and those required or appropriate to the management of the Partnership business which, by way of illustration but not by way of limitation, shall, subject only to the provisions of Paragraph 15.3, include the right, authority and power:

15.1.1 To acquire, develop, hold and dispose of real property, interests therein or appurtenances thereto, as well as personal or mixed property connected therewith, including the purchase, lease, development, improvement, maintenance, exchange, trade or sale of such properties, at such price, rental or amount, for cash, securities (in compliance with appropriate securities regulations), or other property, and upon terms as the General Partner deems, in its sole discretion, to be in the best interests of the Partnership;

15.1.2 To borrow money and, if security is required therefor, to mortgage or subject any Partnership investment to any other security device, to obtain replacements of any mortgage or other security device, and to prepay, in whole or in part, refinance, increase, modify, consolidate or extend any mortgage or other security device, all of the foregoing at such terms and in such amounts as the General Partner, in its sole discretion, deems to be in the best interests of the Partnership;

15.1.3 To place record title to, or the right to use, Partnership assets in, the name or names of a nominee or nominees, trustee or trustees for any purpose convenient or beneficial to the Partnership;

15.1.4 To acquire and enter into any contract of insurance which the General Partner deems necessary or appropriate for the protection of the Partnership and the General Partner for the conservation of Partnership assets, or for any purpose convenient or beneficial to the Partnership;

15.1.5 To employ persons in the operation and management of the business of the Partnership including, but not limited to, supervisory managing agents, building management agents, insurance brokers, real estate brokers and loan brokers, on such terms and for such compensation as the General Partner shall determine, subject, however, to the limitations with respect thereto as set forth in Paragraph 9, and also subject to the following provisos: agreements with the General Partner or its Affiliates for the services set forth in Paragraph 9 shall contain the terms and limitations as to fees and expenses as set forth therein, and any such agreement shall be terminated immediately upon the Partnership's dissolution under Paragraph 19.1;

15.1.6 To prepare or cause to be prepared reports, statements, and other relevant information for distribution to Holders, including annual and quarterly interim reports;

2-Forms Federal Taxes Affecting Real Estate [A]

15.1.7 To open accounts and deposit and maintain funds in the name of the Partnership in banks or savings and loan associations, provided, however, that the Partnership funds shall not be commingled with the funds of any other person;

15.1.8 To cause the Partnership to make or revoke any of the elections referred to in *Sections 108, 754, or 1017 of the Internal Revenue Code of 1954*, or any similar provisions enacted in lieu thereof;

15.1.9 To select as its accounting year a calendar year or such fiscal year as approved by the Internal Revenue Service;

15.1.10 To determine the appropriate accounting method or methods to be used by the Partnership (the Partnership intends initially to utilize the accrual method of accounting in maintaining its books and records);

15.1.11 To offer and sell Units in the Partnership to the public directly or through any licensed Affiliate of the General Partner and to employ personnel, agents and dealers for such purpose;

15.1.12 To amend this Partnership Agreement to reflect the addition or substitution of Limited Partners or the reduction of capital accounts upon the return of capital to Partners;

15.1.13 To require in all Partnership obligations that the General Partner shall not have any personal liability thereon but that the person or entity contracting with the Partnership is to look solely to the Partnership and its assets for satisfaction. In the event that any such obligations have personal liability, the General Partner may require their satisfaction prior to contracts without such personal liability;

15.1.14 To execute, acknowledge, and deliver any and all instruments to effectuate the foregoing, and to take all such action in connection therewith as the General Partner shall deem necessary or appropriate;

15.1.15 To reinvest all Cash From Initial Financing; and

15.1.16 To purchase Property in its own name or in the name of a nominee, a trust or a corporate "nominee" or otherwise (and assume loans in connection therewith), and temporarily hold title thereto for the purpose of facilitating the acquisition of such Property or the borrowing of money or obtaining of financing for the Partnership, or completion of construction of the Property, or any other purpose related to the business of the Partnership. The Partnership, however, shall not purchase the Property for a price greater than the cost thereof to the General Partner, except for compensation in accordance with Paragraph 9 of this Partnership Agreement. In addition, there shall be no difference in interest rates of the loans secured by the Property at the times acquired by the General Partner and by the Partnership, nor any other benefit arising out of such transaction of the General Partner apart from the compensation otherwise permitted by this Partnership Agreement.

15.2 The General Partner shall, except as otherwise provided in this Partnership Agreement, have all the rights and powers and shall be subject to all the restrictions and liabilities of a partner in a partnership without limited partners.

15.3 Neither the General Partner nor any Affiliate shall have the authority to:

15.3.1 Enter into contracts with the Partnership which would bind the Partnership after the expulsion, adjudication of bankruptcy or insolvency of the General Partner, or continue the business with Partnership assets after the occurrence of such event;

15.3.2 Grant to it or any Affiliate an exclusive listing for the sale of Partnership assets, including Partnership Properties;

15.3.3 Sell substantially all of the assets of the Partnership in a single sale, or in multiple sales in the same 12-month

2-Forms Federal Taxes Affecting Real Estate [A]

period, except in the orderly liquidation and winding up of the business of the Partnership upon its termination and dissolution;

15.3.4 Pledge or encumber substantially all of the assets of the Partnership at one time, other than in connection with the acquisition or improvement of assets or the refinancing of previous obligations;

15.3.5 Alter the primary purpose of the Partnership as set forth in Paragraph 3;

15.3.6 Receive from the Partnership a rebate or give-up or participate in any reciprocal business arrangements which would enable it or an Affiliate to do so;

15.3.7 Sell or lease property to any entity in which the General Partner or any Affiliate has an interest;

15.3.8 Cause the Partnership to invest in any program, partnership or other venture unless: (i) it is a general partnership or a joint venture; (ii) the other partner or joint owner is not the General Partner or an Affiliate; (iii) such general partnership or venture owns and operates a particular property and the Partnership acquires the controlling interest in such venture or general partnership; (iv) the Partnership, as a result of such joint ownership or partnership ownership of a property, is not charged directly or indirectly, more than once for the same service; and (v) the agreement of partnership or joint venture does not authorize the Partnership to do anything as a Partner or joint venturer with respect to the property which the Partnership, or the General Partner, could not do directly because of the policies set forth in this Partnership Agreement; and (vi) the General Partner and its Affiliates are prohibited from receiving any compensation, fees or expenses which are not permitted to be paid under the terms of this Partnership Agreement.

15.3.9 Purchase or lease real property from the Partnership, or sell or lease real property to it;

15.3.10 Purchase Partnership Property without first having obtained an appraisal with respect to the value thereof, rendered by an independent appraiser who is a member of a nationally recognized society of appraisers, which provides that the Cost of such Partnership Property and all Acquisition Fees paid with respect to such Property by any person equals or is less than the appraised value;

15.3.11 Cause the Partnership to exchange Units for real property;

15.3.12 Make long-term secured loans to the Partnership, and on short-term unsecured loans made to the Partnership, receive interest or other financing charges or fees in excess of those amounts which would be charged by third party financing institutions on comparable loans for the same purpose in the same geographic area but in no event in excess of 2 percent above the prime rate of the Chemical Bank, New York, N. Y.;

15.3.13 Cause the Partnership to finance the purchase of Partnership Property by use of a wrap-around note and mortgage ("all-inclusive" note and deed of trust) unless: (i) neither the General Partner nor any Affiliate thereof shall receive interest in excess of that payable to the lender on such underlying encumbrances; (ii) all payments on the underlying obligation shall be made by the Partnership or, in the alternative, payments by the Partnership on the wrap-around note are made to a third party collecting agent which in turn disburses such payment, first to the holder of such underlying obligation, and thereafter to the holder of the wrap-around note; and (iii) the Partnership receives credit on its all-inclusive note for payments made directly on the underlying obligations;

15.3.14 Redeem or repurchase Units on behalf of the Partnership;

15.3.15 Do any act in contravention of this Partnership Agreement or which would make it impossible to carry on the ordinary business of the Partnership;

2-Forms Federal Taxes Affecting Real Estate [A]

15.3.16 Confess a judgment against the Partnership in connection with any threatened or pending legal action;

15.3.17 Possess any Partnership property or assign its rights in specific Partnership property for other than a Partnership purpose;

15.3.18 Admit a person as a General Partner except with the consent of the Limited Partners as provided for in this Partnership Agreement;

15.3.19 Perform any act (other than an act required by this Agreement or any act taken in good faith reliance upon counsel's opinion) which would, at the time such act occurred, subject any Limited Partner to liability as a general partner in any jurisdiction;

15.2.20 Reinvest any Adjusted Cash From Operations, or after five years from the Closing Date, Cash From Sales or Refinancings;

15.3.21 Invest any Gross Proceeds in nonincome-producing Properties except in amounts and upon terms which can be financed by the Partnership's Gross Proceeds or Adjusted Cash From Operations.

15.3.22 Receive any insurance brokerage fee or write any insurance policy covering the General Partner on any of the Partnership Properties;

15.3.23 Employ, or permit to employ, the funds or assets of the Partnership in any manner except for its exclusive benefit;

15.3.24 Incur any nonrecourse indebtedness wherein the lender will have or acquire, at any time as a result of making the loan, any direct or indirect interest in the Partnership's profit, capital or property other than as a secured creditor;

15.3.25 Incur aggregate borrowings of the Partnership in excess of 80 percent of the purchase price of all Partnership Properties on a combined basis. Purchase price for purposes of this subparagraph 15.3.25 shall mean the sum of the price paid for a property by the Partnership, including Acquisition Fees plus all costs of improvements, if any, reasonably and properly allocable to all the Partnership Properties made at the time of the acquisition or within 60 days thereafter, but does not include loan points, prepaid interest, or other prepaid expenses;

15.3.26 Commingle the Partnership funds with those of any other person or entity;

15.3.27 Cause the Partnership to enter into any transactions with any other partnership in which the General Partner or any Affiliates have an interest, including, but not limited to, any transaction involving the sale, lease or purchase of any property to or from the Partnership, or the lending of any moneys or other property to or from the Partnership;

15.3.28 Receive any commission or fee for the placement of mortgage loans or trust deed loans on the Partnership Property or otherwise act as a finance broker on its behalf;

15.3.29 Directly or indirectly pay or award any finder's fees, commissions, or other compensation to any person engaged by a potential investor for investment advice as an inducement to such advisor to advise the purchaser regarding the purchase of Units. The General Partner, however, shall not be prohibited from paying the normal sales commissions payable to a registered broker-dealer or other properly licensed person for selling Units;

15.3.30 Operate the Partnership in such a manner as to have the Partnership classified as an "investment company" for purposes of the Investment Company Act of 1940;

2-Forms Federal Taxes Affecting Real Estate [A]

15.3.31 Invest any Gross Proceeds in junior mortgages, deeds of trust, or other similar obligations;

15.3.32 Incur short term borrowings, except for Partnership short term construction loans, repairs, replacements of working capital;

15.3.33 Use any Gross Proceeds to prepay interest on Partnership mortgages, deeds of trust or other similar obligations. The General Partner, however, may cause the Partnership to pay "points" to prospective lenders as a condition to obtaining financing;

15.3.34 Cause the Partnership to enter into any agreements with the General Partner or its Affiliates which shall not be subject to termination without penalty by either party upon not more than 60 days' written notice;

15.3.35 Cause the Partnership to enter into any contracts with the General Partner or with any Affiliate to construct or develop Partnership Properties or to render any services in connection with such construction or development; or

15.3.36 Cause the Partnership to enter into any contracts to construct or develop Partnership Property without such contract being guaranteed at the price contracted by an adequate completion bond or other satisfactory arrangements.

15.4 Within 90 days after the Limited Partners have voted to remove the General Partner, the General Partner shall have prepared, at Partnership expense, a financial statement (balance sheet, statement of income or loss, partners' equity, and changes in financial position) prepared in accordance with generally accepted accounting principles and accompanied by a report thereon containing an opinion of a recognized independent certified public accounting firm. The General Partner shall cause such statement to be mailed to the Limited Partners as soon as possible after its receipt.

15.5 The General Partner or any Affiliate may acquire and resell Units from time to time on its or their own behalf and for its or their own benefit.

15.6 The General Partner shall have the duty and responsibility to provide continuing administrative and executive support, advice, consultation, analysis and supervision with respect to the functions of the Partnership as an owner of Partnership Property, including decisions regarding adjustments to rental schedules, the sale or refinancing or other disposition of property, and compliance with federal, state and local regulatory requirements and procedures.

16. Rights, Powers and Voting Rights of the Limited Partners

16.1 Limited Partners shall take no part in or interfere in any manner with the control, conduct or operation of the Partnership, and shall have no right or authority to act for or bind the Partnership.

16.2 Limited Partners shall have the right, by Majority Vote, to vote only upon the following matters affecting the basic structure of the Partnership;

16.2.1 Removal of the General Partner;

16.2.2 Election of a successor General Partner;

16.2.3 Termination and dissolution of the Partnership;

16.2.4 Amendment of the Partnership Agreement, provided such amendment is not for the purpose of reflecting the

2-Forms Federal Taxes Affecting Real Estate [A]

addition or substitution of Limited Partners or the reduction of capital accounts upon the return of capital to Partners;

16.2.5 The sale of all or substantially all of the Partnership assets in a single sale, or in multiple sales in the same 12-month period, except in the liquidation and winding up of the Partnership business upon its termination and dissolution;

16.2.6 The pledge or encumbrance of all or substantially all of the Partnership assets at one time, other than in connection with the acquisition or improvement of assets, initial financing of a Partnership Property, or the refinancing of previous obligations; and

16.2.7 The extension of the term of the Partnership.

16.3 In any such vote each Holder shall be entitled to cast one vote for each Unit which he owns, and the procedures set forth in Paragraph 16.5 of this Partnership Agreement shall be applicable.

16.4 The General Partner may at any time call a meeting of the Limited Partners or for a vote, without a meeting, of the Limited Partners on matters which they are entitled to vote, and shall call for such meeting or vote following receipt of written request therefor of Limited Partners holding 10 percent or more of the Units held by all Limited Partners as of the date of receipt of such written request ("notice date"). Within ten days of such notice date, the General Partner shall notify all Limited Partners of record as of the notice date as to the time and place of the Partnership meeting, if called, and the general nature of the business to be transacted thereat, or if no such meeting has been called, of the matter or matters to be voted upon and the date upon which the votes will be counted. Any Partnership meeting or the date upon which such votes, without a meeting, will be counted (regardless of whether the General Partner has called for such meeting or vote upon the request of Limited Partners or has initiated such event without such request) shall be no less than 15 nor more than 60 days following mailing of the notice thereof by the General Partner. All expenses of the voting and such notification shall be borne by the Partnership.

16.5 A Limited Partner shall be entitled to cast one vote for each unit which he owns: (i) at a meeting, in person, by written proxy or by a signed writing directing the manner in which he desires that his vote be cast; or (ii) without a meeting, by a signed writing directing the manner in which he desires that his vote be cast. The General Partner must receive such writing prior to the meeting, or, if there is no meeting, prior to the date upon which the votes of the Limited Partners are to be counted. Only the votes of Limited Partners of record on the notice date, whether at a meeting or otherwise, shall be counted. The General Partner shall not be entitled to vote. The laws of the State of California pertaining to the validity and use of corporate proxies shall govern the validity and use of proxies given by Limited Partners.

16.6 No Limited Partner shall have the right or power to: (i) withdraw or reduce his contribution to the capital of the Partnership except as a result of its dissolution or as otherwise provided by law, (ii) bring an action for partition against the Partnership, (iii) cause the termination and dissolution of the Partnership by court decree or otherwise, except as set forth in this Partnership Agreement, or (iv) demand or receive property other than cash in return for his contribution. No Limited Partner shall have priority over any other Limited Partner either as to the return of contributions of capital or as to Net Income, Net Loss or Distributions. Other than upon the termination and dissolution of the Partnership as provided by this Partnership Agreement, there has been no time agreed upon when the contribution of each Limited Partner may be returned.

16.7 In addition to any amendments otherwise authorized herein, the General Partner may amend this Agreement from time to time, without the consent of any Limited Partner, (i) to add to the representations, duties, or obligations of the General Partner or its Affiliates or surrender any right or power granted to the General Partner or its Affiliates herein, for the benefit of the Limited Partners; (ii) to cure any ambiguity, to correct or supplement any provision herein which may be inconsistent with any other provision herein, or to make any other provisions with respect to matters or

2-Forms Federal Taxes Affecting Real Estate [A]

questions arising under this Agreement which will not be inconsistent with the provisions of this Agreement; and (iii) to delete or add any provision of this Agreement required to be so deleted or added by the Staff of the Securities and Exchange Commission or by a State "Blue Sky" Commissioner or similar such official, which addition or deletion is deemed by such Commissioner or official to be for the benefit or protection of the Limited Partners. Notwithstanding anything to the contrary contained in this Partnership Agreement, this Agreement may not be amended without the consent of the Partners to be adversely affected by an amendment that:

16.7.1 Converts a Limited Partner into a general partner;

16.7.2 Modifies the limited liability of a Limited Partner;

16.7.3 Alters the interest of the General or Limited Partners in Net Income or Net Loss or Distributions from the Partnership; or

16.7.4 Affects the status of the Partnership as a partnership for federal income tax purposes;

17. Expulsion, Bankruptcy or Dissolution of the General Partner

17.1 The General Partner may be expelled from the Partnership upon a Majority Vote.

17.2 Written notice of the expulsion of the General Partner shall be served upon it either by certified or by registered mail, return receipt requested, or by personal service. Such notice shall set forth the date upon which the expulsion is to become effective.

17.3 Upon the retirement, expulsion, adjudication of bankruptcy or dissolution of the General Partner ("Terminated Partner"), the Partnership shall purchase the Terminated Partner's interest in the Net Income, Net Loss and Distributions of the Partnership for a purchase price determined according to the provisions of Paragraph 17.4.

17.4 The Terminated Partner shall receive from the new general partner or partners ("acquiring partner") the fair market value of its interest in the Partnership, determined by agreement between the Terminated Partner and the acquiring partner, or if they cannot agree, by arbitration in accordance with the then current rules of the American Arbitration Association. For this purpose, the fair market value of the interest of the Terminated Partner shall be deemed to be the amount it would receive upon the Partnership's dissolution and termination under Paragraph 19.2, assuming such dissolution or termination occurred on the date of the dissolving event and that the Partnership assets were sold for their then fair market value without compulsion of the Partnership to sell such assets. Payment shall be made by a promissory note bearing 8 percent simple interest per year on such note's unpaid principal amount, secured by the acquiring partner's assignment to the Terminated Partner of the Partnership's future Distributions to the acquiring partner. The principal amount, together with accrued interest, shall be payable at the times and in the amounts equal to 75 percent of such Distributions until such time as the principal amount, together with accrued interest, is paid in full, but shall become due and payable in full by the acquiring partner at such time as the Partnership is finally wound up and liquidated. If the Terminated Partner requests, however, the sale and payment shall be made, to the extent required, on terms and conditions that will allow such sale to qualify for the installment method as provided in *Section 453 of the Internal Revenue Code*. The Terminated Partner shall be required to sell, and the acquiring partner shall be required to purchase, the Terminated Partner's interest in the Partnership no later than the 60th day after the occurrence of one of the events specified in Paragraph 19.1, or the election of a new General Partner under Paragraph 16.2, whichever occurs later.

18. Certain Transactions

The General Partner, any Holder, any Affiliates, any shareholder, officer, director or employee thereof, or any person owning a legal or beneficial interest therein, may engage in or possess an interest in any other business or venture of every nature and description, independently or with others including, but not limited to, the ownership, financing, leasing, operation, management, brokerage and development of real property.

19. Termination and Dissolution of the Partnership

19.1 The Partnership shall be terminated and dissolved upon the earlier to occur of the following:

19.1.1 The General Partner's retirement (provided there has been 90 days prior written notice to the Limited Partners), expulsion, adjudication of bankruptcy, insolvency, dissolution or other cessation to exist as a legal entity, unless the General Partner in place thereof within 120 days of the date of such event by Majority Vote elects to continue the business of the Partnership. Expenses incurred in the reformation, or attempted reformation, of the Partnership shall be deemed expenses of the Partnership;

19.1.2 A Majority Vote in favor of the Partnership's dissolution and termination;

19.1.3 The expiration of the term of the Partnership; or

19.1.4 The disposition of all interests in the Partnership's real property and other assets (other than cash and cash equivalents).

19.2 Upon a dissolution and termination of the Partnership for any reason, the General Partner shall take full account of the Partnership assets and liabilities, shall liquidate the assets as promptly as is consistent with obtaining the fair value thereof, and shall apply and distribute the proceeds therefrom in the following order.

19.2.1 To the payment of the Partnership's creditors, but excluding secured creditors whose obligations will be assumed or otherwise transferred on the liquidation of Partnership assets;

19.2.2 To the repayment of all outstanding loans made by the General Partner to the Partnership; and

19.2.3 To the General Partner and Holders pursuant to the provisions of Paragraph 11.5, of this Partnership Agreement.

20. Special Power of Attorney

20.1 Concurrently with the execution of written acceptance and adoption of the provisions of this Partnership Agreement, each Limited Partner shall execute, acknowledge, and deliver to the General Partner a special power of attorney in form acceptable to the General Partner. Each such special power of attorney shall constitute and appoint the General Partner as the attorney-in-fact for the Limited Partner, with power and authority to act in his name and on his

2-Forms Federal Taxes Affecting Real Estate [A]

behalf to execute, acknowledge, and swear to in the execution, acknowledgement, and filing of documents. Such powers shall include, by way of illustration but not of limitation, the following:

20.1.1 The Partnership Agreement, all separate certificates of limited partnership, as well as all amendments to the foregoing which, under the laws of the State of California or of any other state, are required to be filed or which the General Partner deems to be advisable to file;

20.1.2 Any other instrument or document which the Partnership may be required to file under the laws of any state or by any governmental agency, or which the General Partner deems advisable to file; and

20.1.3 Any instrument or document which may be required to effect the continuation of the Partnership, the admission of an additional or substituted Limited Partner, or the dissolution and termination of the Partnership (provided such continuation, admission or dissolution and termination are in accordance with the terms of this Partnership Agreement), or to reflect any reductions in amount of contributions of Partners.

20.2 The special power of attorney to be concurrently granted by each Limited Partner:

20.2.1 Is a special power of attorney coupled with an interest, is irrevocable, shall survive the death or legal incapacity of the granting Limited Partner, and is limited to those matters herein set forth;

20.2.2 May be exercised by the General Partner acting alone for each Limited Partner by a facsimile signature of the General Partner or by any one of its officers, or by listing all of the Limited Partners executing any instrument with a signature of the General Partner or one of its officers acting as its attorney-in-fact; and

20.3.3 Shall survive an assignment by a Limited Partner of all or any portion of his Units except that, where the Assignee of the Units owned by a Limited Partner has been approved by the General Partner for admission to the Partnership as a substituted Limited Partner, the special power of attorney shall survive such assignment for the sole purpose of enabling the General Partner to execute, acknowledge and file any instrument or document necessary to effect such substitution.

21. Indemnification

21.1 The Partnership, its receiver or its trustee, shall indemnify, save harmless and pay all judgments and claims against the General Partner, from any liability or damage incurred by reason of any act performed or omitted to be performed by them in connection with the business of the Partnership, including attorneys' fees incurred by them in connection with the defense of any action based on any such act or omission, which attorneys' fees may be paid as incurred, including all such liabilities under Federal and State Securities Acts (including the Securities Act of 1933) as permitted by law. If a claim for indemnification (other than for expenses incurred in a successful defense) is asserted against the Partnership by the General Partner under this Partnership Agreement or otherwise, the Partnership will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy and will be governed by the final adjudication of such issue.

21.2 In the event of any action by a Holder against the General Partner including a Partnership derivative suit, the Partnership shall indemnify, save harmless and pay all expenses of the General Partner including attorneys' fees incurred in the defense of said action, if (a) the General Partner is successful in said action, or (b) in the opinion of the Partnership's counsel the matter has been settled by controlling precedent, or (c) if the matter has not been settled by

2-Forms Federal Taxes Affecting Real Estate [A]

controlling precedent, it will be submitted to a court of appropriate jurisdiction as to whether such indemnification by the Partnership is against public policy and all parties will be governed by the final adjudication of such issue.

21.3 Notwithstanding the provisions of Paragraph 21.1 and 21.2, the General Partner shall not be relieved from any liability imposed by law, including liability for fraud, bad faith, willful neglect or negligence. All judgments against the Partnership and the General Partner, wherein the General Partner is entitled to indemnification, must first be satisfied from Partnership assets before the General Partner is responsible for these obligations.

21.4 The General Partner shall have the right and authority to require in all Partnership contracts that it will not be personally liable thereon and that the person or entity contracting with the Partnership is to look solely to the Partnership and its assets for satisfaction.

22. Miscellaneous

22.1 This Partnership Agreement may be executed in several counterparts and all so executed shall constitute one Partnership Agreement, binding on all of the parties hereto, notwithstanding that all of the parties are not signatory to the original or the same counterpart.

22.2 The terms and provisions of this Partnership Agreement shall be binding upon and shall inure to the benefit of each of the Partners and their respective legal representatives, successors, and assigns.

22.3 In the event any sentence or paragraph of this Partnership Agreement is declared by a court of competent jurisdiction to be void, such sentence or paragraph shall be deemed severed from the remainder of the Partnership Agreement and the balance of the Partnership Agreement shall remain in effect.

22.4 All notices under this Partnership Agreement shall be in writing and shall be given to the Holder entitled thereto, by personal service or by mail, posted to the address maintained by the Partnership for such person or at such other address as he may specify in writing.

22.5 Paragraph titles or captions contained in this Partnership Agreement are inserted only as a matter of convenience and for reference. Such titles and captions in no way define, limit, extend or describe the scope of this Partnership Agreement nor the intent of any provision hereof.

22.6 Whenever required by the context hereof, the singular shall include the plural, and vice-versa; the masculine gender shall include the feminine and neuter genders, and vice-versa; and the word "person" shall include a corporation, partnership, firm or other form of association.

22.7 The name and address of the General Partner is:

NWP Management Corp.
10946 Victory Boulevard
Van Nuys, California

22.8 The names, addresses and capital contributions of the Limited Partners are set forth on Exhibit I attached hereto, which exhibit shall be maintained at the principal place of business of the Partnership.

A.10 Single Member Limited Liability Company Agreement

COMMENT

This form illustrates a limited liability company agreement that might be used by a single owner to own an interest in a specific project. Single member LLCs are treated as disregarded entities for federal income tax purposes, with the result that the Federal income tax consequences of the LLC's business and operations are reported directly on the Federal income tax returns of its owner, unless the entity files an election to be treated as a corporation. A single member LLC is a technique used by individual owners of real estate or other businesses to insulate themselves from liabilities with respect to the underlying business or property without the tax implications of a regular corporation or a subchapter S corporation.

For further information, see Chapters 14, 15, and 17.

FORM

LIMITED LIABILITY COMPANY AGREEMENT

This Limited Liability Company Agreement is made as of August 1, 2002 by Pemburn Development Company, Inc. (the "Member") to serve as the limited liability company agreement under the Act (hereinafter defined) for the limited liability company specified herein. NOW, THEREFORE, intending to be legally bound hereby, the Member agrees as follows:

1. *Definitions.* Unless the context otherwise requires, the terms defined in this Section 1 shall, for the purposes of this Agreement, have the meanings herein specified.

"Act" means the New York Limited Liability Company Law, Chapter 34 of the Consolidated Laws of New York, and any successor statute, as amended from time to time.

2-Forms Federal Taxes Affecting Real Estate [A]

"Agreement" means this Limited Liability Company Agreement, as amended, modified, supplemented or restated from time to time.

"Certificate" means the Articles of Organization of the Company and any and all amendments thereto and restatements thereof filed on behalf of the Company with the office of the Department of State of the State of New York pursuant to the Act.

"Company" means S & J Renovations, LLC, the New York limited liability company of such name which has been formed under the Act.

"Person" means any individual, corporation, association, partnership (general or limited), joint venture, trust, estate, limited liability company, or other legal entity or organization.

2. *Organization.* The Member heretofore has authorized the organization of the Company as a limited liability company under and pursuant to the provisions of the Act and the Member agrees that the rights, duties and liabilities of the Member shall be as provided in the Act, except as otherwise provided herein.

3. *Purpose.* The Company is formed for the object and purpose of acquiring the property known as the Coventry Inn and renovating, owning, redeveloping, operating, financing, leasing and selling it for any lawful use or purpose (together, the land and improvements are collectively referred to herein as the "Project"), and engaging in any and all activities necessary, convenient, desirable or incidental to the foregoing.

4. *Term.* The existence of the Company commenced on the date the Certificate was filed in the office of the Department of State of the State of New York and shall continue perpetually until the Company is dissolved in accordance with the provisions of this Agreement. The existence of the Company as a separate legal entity shall continue until cancellation of the Certificate in the manner required by the Act.

5. *Registered Office and Principal Office.* The registered office of the Company in the State of New York and the principal office of the Company shall be located at 38 Any Street, Town, NY 11111, or at such other location as may be determined by the Member. The Company may also have such other offices at such other locations as may from time to time be deemed advisable by the Member.

6. *Management.* Management of the business and affairs of the Company shall be vested in the Member. The Member shall have all rights and powers and shall make all decisions affecting the Company in furtherance of the Company's purposes. The Member may appoint such officers and agents of the Company as the Member deems appropriate to carry out and execute the decisions and instructions of the Member in the operations of the business of the Company. Such officers and agents shall have such duties and powers as are from time to time specified by the Member and they may be removed or discharged by the Member at any time with or without cause. If the Member does not specify the duties and powers of an officer, such officer shall be deemed to have the duties and powers of an officer of a New York business corporation with the same title. The Member shall make such tax elections as are deemed desirable in the sole discretion of the Member.

7. *Distributions.* Distributions shall be made to the Member (in cash or in property) at the times and in the amounts determined by the Member and as permitted by applicable law.

8. *Other Interests of the Member.* The Member may engage in or possess an interest in other business ventures of any nature or description, independently or with others, similar or dissimilar to the business of the Company, and the Company shall have no rights by virtue of this Agreement in and to such independent ventures or the income or profits derived therefrom, and the pursuit of any such venture, even if competitive with the business of the Company, shall not be deemed wrongful or improper. The Member shall not be obligated to present any particular investment opportunity

2-Forms Federal Taxes Affecting Real Estate [A]

to the Company even if such opportunity is of a character that, if presented to the Company, could be taken by the Company, and the Member shall have the right to take for the Member's own account (individually or as a partner or fiduciary) or to recommend to others any such particular investment opportunity.

9. *Transfer of Membership Interest; Admission of Additional Members.*

(a) *Transfers of Membership Interest.* The Member's membership interest in the Company shall be freely transferable by the Member or by operation of law. The Member may transfer all or a portion of the Member's economic interest in the Company without transferring management power and without the transferee becoming a member of the Company. If a transferee is to become a member of the Company, the requirements of Section 9(b) must be complied with, unless the transferee will then be the sole member of the Company, in which case references herein to the Member shall refer to such transferee.

(b) *Admission of Additional Members.* Additional members of the Company may be admitted on such terms as the Member may approve or upon the transfer of the Member's entire interest in the Company (including transfer upon the Member's death); provided that if, upon such admission, there will be more than one member of the Company, this Agreement must be amended and restated to reflect the relative rights, duties and obligations of the Member and such additional members and the admission of such additional members shall not become effective until this Agreement is so amended and restated.

10. *Liability of Member.* The Member shall have no liability for the obligations or liabilities of the Company except to the extent required by the Act.

11. *Indemnification.* The Company shall indemnify the Member and those authorized officers, agents and employees of the Company identified in writing by the Member as entitled to be indemnified under this section for all costs, losses, liabilities and damages paid or accrued by the Member (whether as a member, officer, agent or employee of the Company) or any such officer, agent or employee in connection with the business of the Company, to the fullest extent provided or allowed by the laws of the State of New York. In addition, the Company may advance costs of defense of any proceeding to the Member or any such officer, agent or employee upon receipt by the Company of an undertaking by or on behalf of such person to repay such amount if it shall ultimately be determined that the person is not entitled to be indemnified by the Company.

12. *Dissolution.*

(a) *Events of Dissolution.* The Company shall be dissolved and its affairs wound up upon the first to occur of the following:

(i) the happening of any event specified as a dissolution event in the Certificate;

(ii) at any time at which there are no Members;

(iii) the written direction or determination of the Member; or

(iv) the entry of a decree of judicial dissolution of the Company under Section 702 of the Act.

(b) *Distributions upon Dissolution.* Upon the dissolution of the Company, the assets of the Company shall be liquidated in such manner as the Member shall determine, and the proceeds of such liquidation and the remaining assets of the Company shall be used first to discharge, or make provision for the Company's payment of, obligations to creditors, including the Member to the extent permitted by

2-Forms Federal Taxes Affecting Real Estate [A]

applicable law. Any remaining proceeds and assets shall be distributed to the Member.

(c) *Certificate of Cancellation*. Following the dissolution and the winding up of the Company, the Company shall file in the office of the Department of State articles of dissolution containing the information required by the Act.

13. *Miscellaneous*.

(a) *Controlling Law*. This Agreement and all questions relating to its validity, interpretation, performance and enforcement shall be governed by and construed in accordance with the laws of the State of New York.

(b) *Entire Agreement*. This Agreement represents the entire limited liability company agreement of the Company within the meaning of the Act.

(c) *Amendments or Modifications*. This Agreement may be amended or modified from time to time by an agreement in writing signed by the Member.

(d) *Rights of Creditors and Third Parties*. This Agreement is entered into by the Member solely to govern the operation of the Company. This Agreement is expressly not intended for the benefit of any creditor of the Company or any other Person other than Persons to be indemnified pursuant to Section 11 and the heirs, personal representatives, successors and assigns of the Member or of such indemnified Persons. Except to the extent provided by applicable law, no creditor or third party shall have any rights under this Agreement.

IN WITNESS WHEREOF, the undersigned has executed this Agreement as of the date first above written.

Pemburn Development Company, Inc.

Name:

Title: A.11 Limited Liability Company Agreement--Multiple Members

COMMENT

This form illustrates a multi-member limited liability company agreement that will be managed by one of the members. The agreement is suitable for the ownership and operation of real estate or an operating business and contemplates a pro rata sharing of contributions, profits and losses. Management of the company is vested in the members and determined on the basis of majority vote. An alternative management structure would be to identify a single member as manager or identify a non-member third party as manager, in which case the manager would typically be required to provide an annual operating and capital budget, be given broad discretion to operate within those budgets, and be required to obtain approval of a majority or supermajority of the members for extraordinary items, such as a sale of the business.

For further information, see Chapters 14, 15, and 17.

FORM

LIMITED LIABILITY COMPANY AGREEMENT

This Limited Liability Company Agreement is made as of August 1, 2002 by and among Member, Incorporated, John Jones, and Sally Smith to serve as the limited liability company agreement under the Act (hereinafter defined) for the limited liability company specified herein.

NOW, THEREFORE, in consideration of the agreements and obligations set forth herein and for other good and valuable consideration, and intending to be legally bound hereby, the parties hereto agree_____ as follows:

1. *Definitions.* Unless the context otherwise requires, the terms defined in this Section 1 shall, for the purposes of this Agreement, have the meanings herein specified.

"Act" means the Delaware Limited Liability Company Act of 1994, 6 *Del. C.* § 18-101, *et seq.*, and any successor statute, as amended from time to time.

"Affiliate" means, as to any Person, any other Person that directly or indirectly, through one or more intermediaries controls, is controlled by or is under common control with such Person or, if such Person is an individual, the Immediate Family of such Person or trusts solely for the benefit of such Immediate Family. As used in this definition, the term "control" means the possession, directly or indirectly, or as trustee or executor, of the power to direct or cause the direction of the management and policies of a Person, whether through ownership of voting securities, as trustee or executor, by contract or credit arrangement or otherwise.

"Agreement" means this Limited Liability Company Agreement, as amended, modified, supplemented or restated from time to time.

"Capital Account" means, with respect to any Member, the account maintained for such Member in accordance with the provisions of Section 8 hereof.

"Capital Contribution" means, with respect to each Member, the aggregate amount of cash and the agreed value of any property or services contributed to the Company pursuant to Section 7 hereof. In the case of a Member that acquires an Interest in the Company by virtue of an assignment or transfer in accordance with the terms of this Agreement, "Capital Contribution" means the *pro rata* Capital Contribution of such Member's predecessor proportionate to the acquired Interest.

"Certificate" means the Certificate of Formation of the Company and any and all amendments thereto and restatements thereof filed on behalf of the Company with the office of the Secretary of State of the State of Delaware pursuant to the Act.

"Claim" has the meaning set forth in Section 18(b) hereof.

"Code" means the Internal Revenue Code of 1986, as amended from time to time, or any corresponding federal tax statute enacted after the date of this Agreement. A reference to a specific section of the Code refers not only to such specific section but also to any corresponding provision of any federal tax statute enacted after the date of this Agreement that is applicable to the transaction or event in question, as such specific section or corresponding provision is in effect on the date of application of the provisions of this Agreement containing such reference.

"Company" means Real Estate Associates, LLC, the Delaware limited liability company of such name which has been formed under the Act.

2-Forms Federal Taxes Affecting Real Estate [A]

"Covered Person" means a Member, any Affiliate of a Member, any officer, director, shareholder, partner, employee, representative or agent of a Member, or their respective Affiliates, or any officer, employee or agent of the Company or its Affiliates.

"Damages" has the meaning set forth in Section 18(a) hereof.

"Fiscal Year" means [(a) the period commencing upon the formation of the Company and ending on such date as the Members shall determine, (b) any subsequent twelve (12) month or 52/53 week period ending on such date as the Members shall determine, or (c) any portion of the period described in clause (b) of this sentence] [the calendar year or any portion thereof] for which the Company is required to allocate Net Income and Net Loss and other items pursuant to Section 9 hereof.

"Immediate Family" means, with respect to any individual, such individual's parents, spouse, issue and adopted children, or any of them.

"Indemnified Party" has the meaning set forth in Section 18(b) hereof.

"Initial Members" means Member, Incorporated, John Jones and Sally Smith.

"Interest" means a Member's interest in the Company, including, without limitation, such Member's share of the profits and losses of the Company and such Member's right to receive distributions (liquidating or otherwise), allocations and information and such Member's right to consent to or approve actions by the Company, all in accordance with the provisions of this Agreement and the Act.

"Laws" means:

(a) all constitutions, treaties, laws, statutes, codes, ordinances, orders, decrees, rules, regulations and municipal by-laws, whether domestic, foreign or international;

(b) all judgments, orders, writs, injunctions, decisions, rulings, decrees and awards of any governmental body;

(c) all policies, practices and guidelines of any governmental body; and

(d) any amendment, modification, re-enactment, restatement or extension of the foregoing, in each case binding on or affecting the party or Person referred to in the context in which such word is used; and

"Law" shall mean any one of them.

"Majority Vote" means the written approval of, or the affirmative vote by, Members holding a majority of the Percentage Interests.

"Member" means each Initial Member and any Person admitted as an additional Member or a substitute Member pursuant to the provisions of this Agreement, in such Person's capacity as, and so long as such Person is, a member of the Company, and "Members" means two or more of such Persons when acting in their capacities as members of the Company. For purposes of the Act, the Members shall constitute one class or group of members. Schedule A hereto shall list the Members and shall be revised from time to time to reflect changes in the Members.

"Net Income" or "Net Loss" means, for each Fiscal Year or other period, an amount equal to the Company's taxable income or loss for such year or period, other than items of income or loss specially allocated pursuant to this Agreement, as determined by the Company's accountants in accordance with Section 703(a) of the Code (for this

2-Forms Federal Taxes Affecting Real Estate [A]

purpose, all items of income, gain, loss or deduction required to be stated separately pursuant to Section 703(a)(1) of the Code shall be included in Net Income or Net Loss), with the adjustments required to comply with the Capital Account maintenance rules of *Treasury Regulation Section 1.704-1(b)*, including the rules relating to (i) revaluations in the case of distributions of Company property in kind and the optional revaluation of Company property and (ii) utilizing "book" depreciation, cost recovery or amortization as determined under *Treasury Regulation Section 1.704-1(b)(2)(iv)(g)(3)* if there is a difference between the fair market value of contributed or revalued property and the adjusted tax basis of such property. The Members shall cause the Company to revalue property as required or permitted under the applicable Treasury Regulations.

"Notice" has the meaning set forth in Section 18(b) hereof.

"Percentage Interest" means the interest of a Member, expressed as a portion of one hundred percent, as shown on Schedule A hereto, which reflects the Member's ownership interest in the Company.

"Person" means any natural person, corporation, association, partnership (general or limited), limited liability company, joint venture, trust, estate, unincorporated association, or other legal entity or organization.

"Regulatory Allocations" means allocations of Net Income and Net Loss (or items thereof) and Company indebtedness in accordance with the following:

(a) The non-recourse deductions of the Company (within the meaning of *Treasury Regulation Section 1.704-2(b)(1)* and (c)) shall be allocated among the Members in accordance with their respective Percentage Interests.

(b) Net Income or Net Loss (or items thereof) shall be allocated in a manner consistent with the requirements of *Treasury Regulation Section 1.704-2(e)*, including, without limitation, those provisions relating to allocations of income and deductions attributable to non-recourse debt and partner non-recourse debt. Allocations that would conform to those required by a "minimum gain chargeback" (as defined in *Treasury Regulation Section 1.704-2(f)*) in addition to the requirements of *Treasury Regulation Section 1.704-1(b)(2)(ii)(d)*, relating to a "qualified income offset," and *Treasury Regulation Section 1.704-2(i)(4)*, relating to the chargeback on account of a decrease in minimum gain attributable to partner non-recourse debt, shall be made in a manner, at a time, and in the amounts consistent with those provisions.

(c) The "excess non-recourse indebtedness" of the Company (within the meaning of *Treasury Regulation Section 1.752-3(a)(3)*) shall be allocated among the Members in accordance with their respective Percentage Interests.

(d) Items of income, gain, loss and deduction shall, solely for federal income tax purposes, be allocated among the Members in a manner that takes into account the difference between the income tax basis of any Company property contributed by a Member to the Company and its value for purposes of this Agreement, as required by Section 704(c) of the Code, both determined immediately after its contribution to the Company. The Members, in their absolute discretion, may elect to account for the book-tax variation using any method permitted under the applicable Treasury Regulations.

"Tax Matters Member" has the meaning set forth in Section 16 hereof.

"Tax Payment Loan" has the meaning set forth in Section 10(c) hereof.

"Treasury Regulations" means the income tax regulations, including temporary regulations, promulgated under the

2-Forms Federal Taxes Affecting Real Estate [A]

Code, as such regulations may be amended from time to time (including corresponding provisions of succeeding regulations that are applicable to the transaction or event in question).

"Voting Rights" means the number of votes of each Member (as set forth in Section 12(b) hereof) for purposes of voting on any matter arising under this Agreement. "Withholding Tax Act" has the meaning set forth in Section 10(c) hereof.

2. *Organization.* The Members heretofore have authorized the organization of the Company as a limited liability company under and pursuant to the provisions of the Act and agree that the rights, duties and liabilities of the Members shall be as provided in the Act, except as otherwise provided herein. Sally Smith, as an authorized person within the meaning of the Act, is hereby authorized and directed to execute, deliver and file the Certificate.

3. *Name.* The name of the Company is Real Estate Associates LLC. The business of the Company may be conducted upon compliance with all applicable Laws under any other name designated by the Members.

4. *Purpose.* The Company is formed for the object and purpose of, and the nature of the business to be conducted and promoted by the Company is, the development of the Pleasant Street Inn, and engaging in any lawful act or activity for which limited liability companies may be formed under the Act and engaging in any and all activities necessary, convenient, desirable or incidental to the foregoing.

5. *Term.* The existence of the Company shall commence on the date the Certificate is filed in the office of the Secretary of State of the State of Delaware and shall continue perpetually until the Company is dissolved in accordance with the provisions of this Agreement. The existence of the Company as a separate legal entity shall continue until cancellation of the Certificate in the manner required by the Act.

6. *Registered Office and Principal Office.* The registered office of the Company in the State of Delaware shall be located at 21 Dover Street, Dover, Delaware and the principal office of the Company shall be located at 21 Pleasant Street, Ispwich, NY 55555, or at such other locations as, from time to time, may be determined by the Members. The Company may also have such other offices at such other locations as, from time to time, may be deemed advisable by the Members.

7. *Company Capital and Initial Percentage Interests.*

(a) The initial Capital Contribution which each member has made or is deemed to have made to the Company is set forth opposite each Member's name on Schedule A hereto.

(b) No Member shall be required to lend any funds to the Company or to contribute any capital to the Company in excess of the amount that is initially credited to such Member's Capital Account. No Member shall have any obligation to eliminate a deficit balance in such Member's Capital Account at any time or to bring such Member's Capital Account into any particular parity with any other Member's Capital Account at any time.

(c) No interest shall be paid on or with respect to the Capital Contribution or Capital Account of any Member.

(d) Although the Company may make distributions to the Members from time to time as a return of their Capital Contributions, no Member shall have the right to resign, withdraw or otherwise dissociate from the Company (whether voluntary or involuntary) or demand a return of any of such Member's Capital Contribution or Capital Account or the fair value of such Member's interest in the Company, except upon dissolution and winding up of the Company. Any attempted resignation, withdrawal or other dissociation in violation of this Agreement shall be null and void *ab initio*.

2-Forms Federal Taxes Affecting Real Estate [A]

8. *Capital Accounts.* A separate Capital Account shall be established and maintained for each Member under this Agreement. The Capital Account of each Member shall be credited with the cash and the agreed value of any property (net of liabilities assumed by the Company and liabilities to which such property is subject) or services contributed to the Company by such Member, plus all income, gain, or Net Income of the Company allocated to such Member pursuant to Section 9 (including Net Income and income and gain exempt from tax), and shall be debited with the sum of (i) all Net Losses or deductions of the Company allocated to such Member pursuant to Section 9, (ii) such Member's distributive share of expenditures of the Company described in Section 705(a)(2)(B) of the Code (or treated as so described under *Treasury Regulation Section 1.704-1(b)(2)(iv)(i)*), and (iii) all cash and the fair market value of any property (net of liabilities assumed by such Member and the liabilities to which such property is subject) distributed by the Company to such Member pursuant to Section 10. The amount of the Capital Account of a Member shall be determined in accordance with the rules set forth in *Treasury Regulation 1.704-1(b)*. Any references in any Section or subsection of this Agreement to the Capital Account of a Member shall be deemed to refer to such Capital Account as the same may be credited or debited from time to time as set forth above. It is the intention of the Members to satisfy the capital account maintenance requirements of *Treasury Regulation Section 1.704-1(b)(2)(iv)*, and the foregoing provisions defining Capital Accounts are intended to comply with such provisions.

9. *Allocation of Net Income or Net Loss.*

(a) *Allocation of Net Income or Net Loss Generally.* Except as otherwise provided in this Section 9, Net Income or Net Loss, and all tax credits of the Company for each fiscal period, shall be allocated among the Members in accordance with their respective Percentage Interests.

(b) *Regulatory Allocations.* Net Income and Net Loss (and items thereof) and Company indebtedness shall be specially allocated in accordance with the Regulatory Allocations, to the extent applicable, and Regulatory Allocations of Net Income and Net Loss (and items thereof) shall be made prior to other allocations of Net Income or Net Loss under this Agreement.

(c) *Allocations and Distributions with Respect to Percentage Interests Transferred.* If a Percentage Interest is transferred, there shall be allocated to each Member who held the transferred Percentage Interest during the Fiscal Year of transfer the product of (a) the Net Income or Net Loss allocable to such transferred Percentage Interest for such Fiscal Year and (b) a fraction, the numerator of which is the number of days such Member held the transferred Percentage Interest during such Fiscal Year and the denominator of which is the total number of days in such Fiscal Year; *provided, however*, that the Company shall allocate the Net Income or Net Loss by closing the Company's books immediately after the transfer of any Percentage Interest if requested by the transferor or transferee of the Percentage Interest within forty-five (45) days after the close of the taxable year in which the transfer occurred. Either allocation shall be made without regard to the date, amount or recipient of any distributions which may have been made with respect to any such transferred Percentage Interest.

10. *Distributions.*

(a) Subject to Sections 10(b) and 10(c), distributions of cash and/or other assets or property of the Company, from whatever source (including, without limitation, net proceeds of Company operations and sale, financing or refinancing of Company assets) shall be made to the Members in accordance with their respective Percentage Interests at such times, and in such amounts, as the Members shall determine. In making such determination, the Members may set aside funds and establish reserves for such items as the Members shall determine, including, without limitation, working capital, maintenance of bonding capacity, capital expenditures, acquisition of other assets by the Company and the satisfaction of liabilities (including, without limitation, contingent liabilities) as they may come due.

2-Forms Federal Taxes Affecting Real Estate [A]

(b) With respect to any Fiscal Year of the Company in which Members are allocated taxable income for federal income tax purposes (and for this purpose all items of income, gain, loss or deduction required to be separately stated pursuant to Section 703 of the Code shall be included in this calculation of taxable income (other than the amount, if any, by which capital losses exceed capital gains)), the Company shall attempt to distribute to the Members, within 90 days after the close of such Fiscal Year, no less than the amount determined by multiplying the Company's taxable income (computed as set forth in this sentence) by the highest composite federal, state and local income tax rate applicable to any Member. Nothing herein shall require the Company to borrow money or reduce its cash flow so as to restrict its ability to operate the day-to-day activities of the business in order to make such distributions.

(c) Unless treated as a Tax Payment Loan (as hereinafter defined), any amount paid by the Company for or with respect to any Member on account of any withholding tax or other tax payable with respect to the income, profits or distributions of the Company pursuant to the Code, the Treasury Regulations, or any foreign, state or local statute, regulation or ordinance requiring such payment (each a "Withholding Tax Act") shall be treated as a distribution to such Member for all purposes of this Agreement. To the extent that the amount required to be remitted by the Company under a Withholding Tax Act exceeds the amount then otherwise distributable to such Member, the excess shall constitute a loan from the Company to such Member (a "Tax Payment Loan") which shall be payable upon demand and shall bear interest, from the date that the Company makes the payment to the relevant taxing authority, at the applicable federal short-term rate under Section 1274(d) of the Code, compounded semiannually. So long as any Tax Payment Loan or the interest thereon remains unpaid, the Company shall make future distributions due to such Member under this Agreement by applying the amount of any such distribution first to the payment of any unpaid interest on all Tax Payment Loans of such Member and then to the repayment of the principal of all Tax Payment Loans of such Member. The Members shall take all actions necessary to enable the Company to comply with the provisions of any Withholding Tax Act applicable to the Company and to carry out the provisions of this subsection.

11. *Other Interests of Members.* Any Member or Affiliate thereof may engage in or possess an interest in other business ventures of any nature or description, independently or with others, similar or dissimilar to the business of the Company, and the Company and the Members shall have no rights by virtue of this Agreement in and to such independent ventures or the income or profits derived therefrom, and the pursuit of any such venture, even if competitive with the business of the Company, shall not be deemed wrongful or improper. No Member or Affiliate thereof shall be obligated to present any particular investment opportunity to the Company even if such opportunity is of a character that, if presented to the Company, could be taken by the Company, and any Member or Affiliate thereof shall have the right to take for its own account (individually or as a partner or fiduciary) or to recommend to others any such particular investment opportunity.

12. *Control and Management.*

(a) *Power and Authority of the Members.* Management of the business and affairs of the Company shall be vested in the Members. Any decision, determination or other action to be made or taken by the Members shall be made or taken upon the affirmative vote of Members holding a majority of the Voting Rights. The Members shall have all rights and powers and shall make all decisions affecting the Company in furtherance of the Company's purposes, including, but not limited to, the following:

(i) to appoint a President, one or more Vice Presidents, a Secretary, a Treasurer and such other officers of the Company as the Members deem appropriate to carry out and execute the decisions and instructions of the Members in the day to day operations of the business of the Company. Such officers shall have such duties and powers as are from time to time

2-Forms Federal Taxes Affecting Real Estate [A]

specified by the Members and they may be removed by the Members at any time with or without cause;

(ii) to retain all or any part of the Company's assets as long as the Members deem advisable, and to invest, reinvest and keep invested all or any part thereof, without being restricted in any way with respect to the type of assets retained or invested in or with respect to the portion of the assets devoted to any investment;

(iii) to purchase, lease or otherwise acquire the ownership, use or benefit of assets, properties, rights or privileges, real or personal, tangible or intangible, of any kind or description, whether income producing or not;

(iv) to sell, pledge, mortgage, lease without limit of time, exchange, or to grant options for the purchase, lease or exchange of any Company assets, on such terms and conditions as the Members may determine;

(v) to institute any legal action or proceeding on behalf of the Company;

(vi) to assign, transfer, pledge, compromise or release any claims or debts due the Company;

(vii) to make, execute or deliver any assignment for the benefit of creditors or any confession of judgment, mortgage, deed, guarantee, indemnity or surety bond;

(viii) to vote at any election or meeting of any corporation, partnership, limited liability company, joint venture or other entity, in person or by proxy, to appoint agents to do so in the place and stead of the Members, and to exercise all rights (including without limitation approval and consent rights) that the Company may have with respect to such entity, whether pursuant to applicable Law, governing documents, contracts or otherwise;

(ix) to borrow money for any purpose that the Members consider to be for the benefit of the Company or to facilitate its administration, and to mortgage or pledge Company assets to secure the repayment thereof;

(x) to retain and pay custodians, accountants, counsel and other agents and to incur any other expenses which are reasonably related to the operation of the Company;

(xi) to enter into agreements with, and to fix and adjust the compensation of, employees of the Company; and

(xii) to invest in time deposits and savings accounts and to maintain banking accounts in any institutions determined by the Members.

(b) *Voting.* Each Member shall have that number of Voting Rights as equals such Member's Percentage Interest in the Company stated without a percentage symbol (e.g., a Member who has a 10% Percentage Interest in the Company would have 10 Voting Rights). Except as otherwise expressly provided to the contrary in this Agreement, the affirmative vote of Members holding a majority of the Voting Rights shall be required for the approval of any matter requiring the approval of Members. Members may vote in person or by proxy at a meeting of Members (which may be held by conference telephone), or by consent in writing without a meeting signed by a Member or Members holding a majority of the Voting

2-Forms Federal Taxes Affecting Real Estate [A]

Rights.

(c) *Binding Effect of Actions.* Each Member shall be bound by, and hereby consents to, any and all actions taken and decisions made by the Members in accordance with the terms of this Agreement. Any person designated by the Members, including a Member so designated, shall have the authority to bind the Company. Any act taken by, or any document executed by, Members holding the number of Voting Rights needed to approve such action, or the execution of such document, shall be binding on the Company with the same force and effect as if such action, or the execution of such document, were approved by a vote of the Members. Except as provided in this Section 12(c), no Member shall have authority to bind the Company.

(d) *Business Combination.* Notwithstanding any other provision of this Agreement, unless approved by Members holding a majority of the Voting Rights, the Company may not (i) engage in a merger or consolidation with or into any corporation, partnership, limited liability company or any other entity, whether or not the Company shall be the surviving entity of such merger or consolidation; or (ii) sell all or substantially all of its assets to any Person; or (iii) engage in any similar business combination.

13. *Transfers of Interests; Admission of Additional Members.*

(a) *Restrictions on Transfer.* Except as otherwise provided in this Agreement, no Interest of a Member may be sold, assigned, transferred, given, bequeathed, donated, mortgaged, pledged, attached, levied upon, seized by or for creditors, or otherwise encumbered or disposed of, whether by act of the Member or by operation of Law (any of the foregoing being a "Transfer"), without the prior written consent of Members (other than the Member whose Interest is involved) holding a majority of the remaining Voting Rights (i.e., excluding the Voting Rights of the Member whose Interest is involved), which consent may be withheld for any reason or for no reason. Any attempted Transfer by a Person of a Member's Interest, or any part thereof, other than in accordance with this Agreement shall be, and is hereby declared, null and void *ab initio*.

(b) *Admission of Additional Members.* Additional members may be admitted only with the consent of a majority in interest of the Members.

14. *Dissolution.*

(a) *Events of Dissolution.* The Company shall be dissolved and its affairs wound up upon, but only upon, the first to occur of the following:

(i) the written consent of Members holding at least 80% of the Voting Rights;

(ii) the termination of the membership of the last remaining Member; provided that the Company shall not be dissolved and its affairs shall not be wound up if (i) within 30 days after the occurrence of the event that terminated the continued membership of the last remaining Member, the personal representative of the last remaining Member agrees in writing to continue the Company and to the admission of the personal representative of such Member or its nominee or designee to the Company as a Member, effective as of the occurrence of the event that terminated the continued membership of the last remaining Member [Note: The Agreement may provide that the personal representative of the last remaining Member shall be obligated to agree in writing to continue the Company and to the admission of the personal representative of such Member or its nominee or designee to the Company as a Member, effective as of the occurrence of the event that terminated the

2-Forms Federal Taxes Affecting Real Estate [A]

continued membership of the last remaining Member] [or, (ii) a Member is admitted to the limited liability Company in the manner provided for in this Agreement, effective as of the occurrence of the event that terminated the continued membership of the last remaining Member, within 30 days after the occurrence of the event that terminated the continued membership of the last remaining Member, pursuant to Section 14(a)(ii) of this Agreement

(iii) the entry of a decree of judicial dissolution of the Company under Section 18-802 of the Act.

(b) *Distributions upon Dissolution.* In the event of a dissolution of the Company, the assets of the Company shall be liquidated in such manner as the Members shall determine and, after Company obligations to third parties have been discharged or provided for in accordance with applicable Law, the net proceeds of such liquidation shall be distributed as follows:

(i) First, among the Members, if any, who have made unrepaid loans or advances to the Company, an amount up to the aggregate amount of such unrepaid loans and advances, in proportion to the amount of such loans and advances and the unpaid interest thereon;

(ii) Second, among the Members, an amount up to the aggregate amount of their unrepaid Capital Contributions, in proportion to the amounts of such unrepaid Capital Contributions; and

(iii) Third, among the Members in accordance with their respective Percentage Interests. A reasonable time shall be allowed for such liquidation in order to minimize the losses normally attendant upon a liquidation.

(c) *Statement of Assets.* In connection with the Company's liquidation, the Company's accountants shall compile and furnish to each Member a statement setting forth the assets and liabilities of the Company as of the date of complete liquidation.

(d) *Certificate of Cancellation.* Upon the dissolution and the completion of winding up of the Company, the Members shall file in the office of the Secretary of State a certificate of cancellation containing the information required by the Act.

15. *Books and Records.*

(a) The Members shall cause to be kept full and accurate books and records of the Company. A separate Capital Account shall be established for each Member on the books of the Company. The Company shall maintain the following records, among others:

(i) A current list of the full name and last known business address of each Member.

(ii) A copy of the Certificate and all amendments thereto, together with executed copies of any powers of attorney pursuant to which the Certificate and such amendments have been executed.

(iii) Copies of the Company's federal, foreign, state and local income tax returns and reports, if any, for the three (3) most recent years.

2-Forms Federal Taxes Affecting Real Estate [A]

(iv) Copies of this Agreement and all amendments thereto.

(v) Any financial statements of the Company for the three (3) most recent Fiscal Years. All books and records of the Company shall be kept at the Company's principal office and shall be available at such location at reasonable times for inspection and copying by the Members or their duly authorized representatives. The books will be kept on an accrual basis. All information needed by the Members and other Persons who were Members during the applicable calendar year for income tax purposes shall be prepared by the Company's accountants and furnished to each such Person after the end of each calendar year of the Company.

(b) The books will be closed and balanced at the end of each Fiscal Year. The Members shall cause to be made available to each Member, upon written request, within 120 days after the close of each Fiscal Year, copies of the Company's annual financial statements, including a written balance sheet and statement of income or loss. Such financial statements will also indicate the Members' share of the Net Income and Net Loss and other relevant fiscal items of the Company for such year. The Members shall arrange for the preparation of all tax returns required to be filed for the Company. Each Member shall be entitled to receive, upon written request, copies of all federal, state and local income tax returns and information returns, if any, which the Company is required to file.

16. *Tax Matters.*

(a) *Tax Elections.*

(i) The Members shall cause the Company to make the election under Section 754 of the Code to adjust the basis of the Company's property in the case of a transfer of a Percentage Interest by sale or exchange or upon the death of a Member, if the transferee becomes a substitute Member, and the transferee requests that the Company make the election, in writing, not later than thirty (30) days after the close of the Fiscal Year in which the event giving rise to the adjustment for which an election is needed occurs. The Members may also, in their discretion, cause the Company to make an election at any time without a request to do so.

(ii) The Company shall take any action necessary to be taxed as a "partnership" for federal and state income tax purposes and neither the Company nor any Member shall take any action that would result in the Company being taxed as other than a "partnership" for federal income tax purposes, including (but not limited to) electing to be taxed as other than a "partnership" by filing Form 8832, "Entity Classification Election."

(iii) All other tax elections on behalf of the Company may be made or rescinded in the discretion of the Members.

(b) *Tax Matters Member.* Sally Smith or such other Member as may be designated by the Members from time to time shall act on behalf of the Company as the "tax matters member" within the meaning of Section 6231(a)(7) of the Code.

17. *Liability of Members.* The Members shall have no liability for the obligations or liabilities of the Company except to the extent required by the Act.

18. *Indemnification.*

2-Forms Federal Taxes Affecting Real Estate [A]

(a) *Indemnification of Covered Persons.* To the extent permitted by Law, the Company shall indemnify, defend and hold harmless each Covered Person from and against any and all debts, losses, claims, damages, costs, demands, fines, judgments, contracts (implied and expressed, written and unwritten), penalties, obligations, payments, liabilities of every type and nature (whether known or unknown, fixed or contingent), including, without limitation, those arising out of any lawsuit, action or proceeding (whether brought by or on behalf of a party to this Agreement or by any third party), together with any reasonable costs and expenses (including, without limitation, reasonable attorneys' fees, out-of-pocket expenses and other reasonable costs and expenses incurred in investigating, preparing or defending any pending or threatened lawsuit, action or proceeding) incurred in connection with the foregoing (collectively "Damages") suffered or sustained by such Covered Person by reason of any act, omission or alleged act or omission by such Covered Person arising out of such Covered Person's activities taken primarily on behalf of the Company, or at the request or with the approval of the Company, or primarily in furtherance of the interests of the Company. Notwithstanding the foregoing, indemnification shall not be available under this Section 18(a) where the acts, omissions or alleged acts or omissions upon which an actual or threatened action, proceeding or claim is based constituted willful misconduct or gross negligence.

(b) *Indemnification Procedure.* A party seeking indemnification from the Company pursuant to Section 18(a) hereof (an "Indemnified Party") shall give prompt notice to the Company of the assertion of any claim, including any claim brought by a third party, in respect of which indemnity may be sought hereunder (a "Claim") and shall give the Company such information with respect thereto as the Company may reasonably request, but no failure to give such notice shall relieve the Company of any liability hereunder except to the extent the Company has suffered actual prejudice thereby. The Company shall have the right, exercisable by written notice (the "Notice") to the Indemnified Party (which Notice shall state that the Company expressly agrees that as between the Company and the Indemnified Party, the Company shall be solely obligated to satisfy and discharge the Claim) within thirty (30) days of receipt of notice from the Indemnified Party of the commencement of or assertion of any Claim, to assume the defense of such Claim, using counsel selected by the Company and reasonably acceptable to the Indemnified Party; *provided* that the Company shall not have the right to assume the defense of a Claim (A) seeking an injunction, restraining order, declaratory relief or other nonmonetary relief against the Indemnified Party (whether or not the Company is also named as a party) or (B) if the named parties to any such action (including any impleaded parties) includes both the Indemnified Party and the Company and the Indemnified Party shall have been advised by counsel that there are one or more legal or equitable defenses available to the Indemnified Party which are different from those available to the Company; in which case such Indemnified Party shall have the right to participate in the defense of a Claim of the type set forth in clause (A) and/or (B) above and all Damages in connection therewith shall be reimbursed by the Company to the extent provided in Section 18(a). In addition, if the Company fails to give the Indemnified Party the Notice complying with the provisions stated above within the stated time period, the Indemnified Party shall have the right to assume control of the defense of the Claim and all Damages in connection therewith shall be reimbursed by the Company to the extent provided in Section 18(a) upon demand of the Indemnified Party. In any event, no party assuming the defense of any Claim shall have the right to compromise or settle any claim for non-monetary relief against the other party or any claim for monetary relief against another party without such party's consent (which consent shall not be unreasonably withheld or denied) unless such monetary relief is paid in full by the settling party.

If at any time after the Company assumes the defense of a Claim any of the conditions set forth above are no longer satisfied, the Indemnified Party shall have the same rights as if clause (A) or (B) in the preceding paragraph had been satisfied and the Company never assumed the defense of such Claim.

2-Forms Federal Taxes Affecting Real Estate [A]

The Company or the Indemnified Party, as the case may be, shall in any event have the right to participate, at its own expense, in the defense of any Claim which the other is defending.

The Company, if it has assumed the defense of any Claim in accordance with the terms hereof, shall have the right, upon five (5) business days prior written notice to the Indemnified Party, to consent to the entry of judgment with respect to, or otherwise settle, such Claim unless (i) the Claim involves equitable or other non-monetary damages or (ii) in the reasonable judgment of the Indemnified Party such settlement would have a continuing material adverse effect on the Indemnified Party's business (including any material impairment of its relationships with customers and suppliers). In the case of (i) and (ii) above, such settlement may be made only with the written consent of the Indemnified Party, which consent shall not be unreasonably withheld or delayed. If the Indemnified Party otherwise assumes the defense of a Claim, it shall have the right to settle such Claim only with the consent of the Company.

Whether or not the Company chooses to defend or prosecute any Claim involving a third party, all the parties hereto shall cooperate in the defense or prosecution thereof and shall furnish such records, information and testimony, and attend such conferences, discovery proceedings, hearings, trials and appeals as may be reasonably requested in connection therewith.

(c) *Right to Advancement of Expenses.* To the fullest extent permitted by applicable Law, expenses (including legal fees) incurred by a Covered Person in defending any claim, demand, action, suit or proceeding shall, from time to time, be advanced by the Company prior to the final disposition of such claim, demand, action, suit or proceeding upon receipt by the Company of an undertaking by or on behalf of the Covered Person to repay such amount if it shall be determined that the Covered Person is not entitled to be indemnified as authorized in Section 18(a) hereof.

(d) *Insurance.* The Company may purchase and maintain insurance, to the extent and in such amounts as the Members shall deem reasonable, on behalf of Covered Persons and such other Persons as the Members shall determine, against any liability that may be asserted against or expenses that may be incurred by any such Person in connection with the activities of the Company or such indemnitees, regardless of whether the Company would have the power to indemnify such Person against such liability under the provisions of this Agreement. The Company may enter into indemnity contracts with Covered Persons and such other Persons as the Members shall determine and adopt written procedures pursuant to which arrangements are made for the advancement of expenses and the funding of obligations under this Section 18 and containing such other procedures regarding indemnification as are appropriate.

(e) *Non-Exclusivity of Rights.* The rights conferred on any Person by this Section 18 shall not be exclusive of any other rights which such Person may have or hereafter acquire under any statute, provision of the Certificate, agreement, vote of Members or otherwise.

(f) *Amendment or Repeal.* Any repeal or modification of this Section 18 shall not adversely affect any right or protection hereunder of any Person in respect of any act or omission occurring prior to the time of such repeal or modification.

(g) *Changes in Law.* References in this Section 18 to Law shall be to such Law as it existed on the date this Agreement was executed or as such Law thereafter may be changed; provided that (i) in the case of any change which limits the indemnification rights or the rights to advancement of expenses which the Company may provide, the rights to indemnification and to the advancement of expenses provided in this Section 18 shall continue as theretofore agreed upon to the extent permitted by Law; and (ii) if such change permits the Company without the requirement of any further action by the Members to provide

2-Forms Federal Taxes Affecting Real Estate [A]

broader indemnification rights or rights to the advancement of expenses than the Company was permitted to provide prior to such change, then the rights to indemnification and the advancement of expenses shall be so broadened to the extent permitted by Law.

(h) *Applicability.* The provisions of this Section 18 shall be applicable to all actions, suits or proceedings commenced after its adoption, whether such arise out of acts or omissions which occurred prior or subsequent to such adoption and shall continue as to a Person who has ceased to be a Covered Person, and shall inure to the benefit of the heirs, personal representatives, successors and assigns of such Person.

19. *Miscellaneous.*

(a) *Indulgences, Etc.* Neither the failure nor any delay on the part of any party to exercise any right, remedy, power or privilege under this Agreement shall operate as a waiver thereof, nor shall any single or partial exercise of any right, remedy, power or privilege preclude any other or further exercise of the same or of any other right, remedy, power or privilege, nor shall any waiver of any right, remedy, power or privilege with respect to any occurrence be construed as a waiver of such right, remedy, power or privilege with respect to any other occurrence. No waiver shall be effective unless it is in writing and is signed by the party asserted to have granted such waiver.

(b) *Controlling Law.* This Agreement and all questions relating to its validity, interpretation, performance and enforcement (including, without limitation, provisions concerning limitations of actions), shall be governed by and construed in accordance with the Laws of the State of Delaware.

(c) *Notices.* All notices, requests, demands and other communications required or permitted under this Agreement shall be in writing and shall be deemed to have been duly given, made and received only when delivered (personally, by reputable courier service such as Federal Express, or by other messenger) or when deposited in the United States mails, registered or certified mail, postage prepaid, return receipt requested, addressed as set forth below:

If to the Company:

Real Estate Associates LLC
21 Pleasant Street
Ipswich, NY 55555

If to a Member:

to the address appearing for such Member on Schedule A hereto.

Any party may alter the address to which communications to such party are to be sent by giving notice of such change of address to the other parties in conformity with the provisions of this paragraph for the giving of notice, whereupon Schedule A shall be amended to reflect such change.

(d) *Binding Nature of Agreement; No Assignment.* This Agreement shall be binding upon and inure to the benefit of the parties and their respective successors and assigns except that no party may assign or transfer any of its rights or obligations under this Agreement except as provided herein.

(e) *Execution in Counterparts.* This Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original as against any party whose signature appears thereon, and all of

2-Forms Federal Taxes Affecting Real Estate [A]

which shall together constitute one and the same instrument. If executed in multiple counterparts, this Agreement shall become binding when any counterpart or counterparts hereof, individually or taken together, bear the signatures of all of the parties reflected hereon as the signatories.

(f) *Provisions Separable.* The provisions of this Agreement are independent of and separable from each other, and no provision shall be affected or rendered invalid or unenforceable by virtue of the fact that for any reason any other provision may be invalid or unenforceable in whole or in part.

(g) *Entire Agreement.* This Agreement contains the entire understanding among the parties hereto with respect to the subject matter hereof and supersedes all prior and contemporaneous agreements and understandings, inducements or conditions, express or implied, oral or written. The express terms hereof control and supersede any course of performance and/or usage of the trade inconsistent with any of the terms hereof.

(h) *Amendments or Modifications.* This Agreement may not be amended or modified other than by an agreement in writing signed by all of the parties hereto.

(i) *Headings.* The headings in this Agreement are for convenience only; they form no part of this Agreement and shall not affect its interpretation.

(j) *Gender, Etc.* Words used herein, regardless of the number and gender specifically used, shall be deemed and construed to include any other number, singular or plural, and any other gender, masculine, feminine or neuter, as the context indicates is appropriate.

(k) *Number of Days.* In computing the number of days for purposes of this Agreement, all days shall be counted, including Saturdays, Sundays and holidays; provided, however, that if the final day of any time period falls on a Saturday, Sunday or holiday on which federal banks are or may elect to be closed, then the final day shall be deemed to be the next day which is not a Saturday, Sunday or such holiday.

(l) *Assurances.* Each Member shall execute all certificates and other documents and shall do all such filing, recording, publishing and other acts as the Members deem appropriate to comply with any Laws relating to the acquisition, operation or holding of the property of the Company.

(m) *Specific Performance.* The parties recognize that irreparable injury will result from a breach of any provision of this Agreement and that money damages will be inadequate to fully remedy the injury. Accordingly, in the event of a breach or threatened breach of one or more of the provisions of this Agreement, any party who may be injured (in addition to any other remedies which may be available to that party) shall be entitled to one or more preliminary or permanent orders (i) restraining and enjoining any act which would constitute a breach, or (ii) compelling the performance of any obligation which, if not performed, would constitute a breach.

(n) *Estoppel Certificate.* Each Member shall, within ten (10) days after written request by any Member, deliver to the requesting Person a certificate stating, to the Member's knowledge, that: (a) this Agreement is in full force and effect, (b) this Agreement has not been modified except by any instrument or instruments identified in the certificate, and (c) there is no default hereunder by the requesting Person, or if there is a default, the nature and extent thereof.

IN WITNESS WHEREOF, the undersigned have executed and delivered this Agreement as of the date first above written.

SCHEDULE A

MEMBER (Name and Address)	INITIAL CAPITAL CONTRIBUTION	PERCENTAGE INTEREST
Member, Incorporated	\$100,000	40%
John Jones	50,000	20%
Sally Smith	100,000	40%
Total	\$250,000	100%

A.12 Real estate investment trust--general investments--declaration of trust**COMMENT**

A real estate investment trust (REIT) is a pass through entity used for investment in real estate by holders of beneficial interests. If specific requirements are met, the REIT will not be required to pay tax. The requirements are designed to insure that (1) the organization is a trust or corporation with widely held beneficial interests, (2) its principal assets are real estate, (3) it is engaged only in passive investment, and (4) it distributes its income currently to its beneficiaries.

The organization must be either a corporation, a trust, or an association that is managed by one or more directors or trustees. In order for a trust or an association to qualify for REIT status, it must possess those characteristics that would require it to be taxed as a corporation, but for the real estate investment trust provisions of the Code. Thus, the trustee must have the rights and powers which would meet the "centralization of management" test for the taxability of an association as a corporation. This includes exclusive authority to manage the trust. A trust may qualify despite the shareholders' rights to elect or remove trustees, to terminate the trust, and to ratify amendments proposed by the trustees.

Beneficial ownership of the trust must be evidenced by transferable shares, or by transferable certificates of beneficial interest, and must be held by 100 or more persons. This 100-person ownership must exist during at least 335 days of a taxable year of 12 months, or during a proportionate part of a taxable year of less than 12 months. This requirement does not apply for the first tax year of the REIT. Shares are considered "transferable" even though the trustee has the power to redeem shares or to refuse to transfer shares whenever he believes in good faith that such action is required to maintain the trust's status as a real estate investment trust. A second class of beneficial interest shares granting dividend and liquidation preference is permissible. A trust is disqualified if it is closely held, i.e. more than 50 percent of the beneficial interests are owned by no more than five individuals.

Real estate assets:

Under the first asset qualification test, at least 75 percent of the value of the organization's total assets must consist of real estate assets, cash and cash items (including receivables) and government securities. This test must generally be met at the close of each quarter of the taxable year. Not more than 25 percent of the value of the trust's total assets may be invested in other securities. "Real estate assets" means real property (including "interests in real property" and interests in mortgages on real property) and shares in other qualified real estate investment trusts. "Interests in real property" include fee ownership and coownership of land or leaseholds, options to acquire land or leaseholds, or improvements with respect

to any of the foregoing, but exclude mineral, oil, or gas royalty interests. Real property includes land or improvements of an inherently permanent nature, including structural components such as plumbing systems, etc.

Sources of income:

In order to insure that the trust will engage in primarily "passive" real estate investment, the Code requires that at least 75 percent of its gross income must consist of real estate items, and at least 95 percent must consist of those real estate items plus other investment items.

Rents from real property:

Rents from real property are included in the sources of income that must satisfy the 75 percent and 95 percent income-source tests. Rents include rent from interests in real property; charges for services customarily furnished in connection with the rental of real property, whether or not they are separately stated; and rent attributable to personal property which is leased in connection with a lease of real property, provided that the amount allocable to the personal property (in accordance with a prescribed formula) is less than 15 percent of total rent. To ensure that such rent is "passive" in nature, the Code excludes rent received under circumstances that are based upon sharing of profits, the trust's equity interest in the lessee, and the active conduct of business. Rents include rents based on the net income of a tenant, but only if the tenant itself receives substantially all of its income from subleasing the property, and these sublease rents would qualify as rents if received by the REIT. Rents derived in connection with providing services, unless provided by an independent contractor, will not qualify as rents from real property. Certain services, such as providing parking facilities on an unreserved basis to tenants, do not require an independent contractor.

Failure to meet income-source tests:

A trust is not deprived of its status as a qualified trust if it fails to meet the income-source tests, provided that such failure is due to reasonable cause and not willful neglect. The trust must report the nature and amount of each item of its gross income in a separate schedule attached to its income tax return. Even if the trust complies with these requirements, it must still pay a 100 percent tax on the greater of the amount by which it fails to meet the 75 percent or 95 percent income-source test.

Current distribution of income:

In order to retain its qualified status, a trust must distribute to its shareholders at least 95 percent of its annual real estate investment trust taxable income and net income derived from foreclosure property, less the amount of any net loss sustained from prohibited transactions and any penalties paid with respect to deficiency dividends. The required percentage of income must be distributed in the taxable year during which it is earned or in the next succeeding year. However, if a trust fails to distribute at least 75 percent of its taxable income during the year in which it is earned, it must pay a 3 percent nondeductible excise tax on the difference between such amount and the amount actually distributed.

Deficiency dividend procedure:

A trust is not deprived of its qualified status for failure to distribute the required percentage of income provided that it complies with a deficiency dividend procedure. This procedure permits distributions of income, qualifying for a deduction, to be made in subsequent years if a "determination" results in an adjustment that either increases that amount of income which the trust is required to distribute in order to

meet the distribution requirement for a prior year in question, or decreases the amount of the deduction for dividends previously paid for that year. A "determination" refers to a decision of the Tax Court or any other court of competent jurisdiction which has become final, a closing agreement, or an agreement relating to the tax liability of the trust. The deficiency dividend must be paid within 90 days after the determination and a claim for its deduction must be filed after its payment, but not later than 120 days after the date of the determination. The trust pays interest and penalties in conjunction with this procedure.

Taxation of REITs and shareholders:

Although a qualified trust is taxable at regular corporate rates, it is entitled to a deduction for the amount of dividends paid in computing its taxable income for the year. In this connection, a trust must distribute most of its income as dividends in order to obtain qualified trust status.

Beneficiaries of a trust are taxed in essentially the same manner as any corporate shareholder, except that no exclusion or deduction for dividends received is allowable to either an individual or corporate beneficiary. Thus, distributions out of "earnings and profits" are fully taxable ordinary income when received. The portion of any distribution designated by the trust as a "capital gain dividend" is treated by the beneficiary as long-term capital gain. Distributions out of depreciation reserves by a trust without earnings or profits are treated as a return of capital upon the shares, and thereafter as capital gain.

Since the real estate investment trust is a creature of the tax law, this form for a trust which intends to engage in general real estate investments follows closely the specifications of the Revenue Code and the Regulations. There are provisions for transferable shares and for the exercise of broad powers by the trustees. In addition, there are provisions insuring continuity of life, and limited liability on the part of shareholders. Thus, it is clear that the trust would be taxable as a corporation if it did not qualify as a real estate investment trust. Several special powers are given to the shareholders. They may elect and remove trustees, terminate the trust, and approve amendments to the basic declaration of trust. These rights may be granted to the shareholders without reducing the powers of the trustees below the minimum required by the statute.

It should be noted that local law may pose problems. In the absence of a state statute which recognizes a real estate investment trust, there may be questions connected with the rule against perpetuities, personal liability of the trustees or beneficial owners, and the permissible uses of a trust. In addition, consideration must be given to federal and state regulations relating to the sale of securities. As to the rule against perpetuities, this instrument provides that in any jurisdiction where it is found that the holding of property by the trust violates the local rule against perpetuities the trust is to continue only for specified lives in being plus 21 years.

It should also be noted that in recent years several jurisdictions, including New York and Connecticut, have codified the powers which every fiduciary possesses by virtue of his designation, whether or not such powers are expressly conferred upon him by the underlying trust indenture, will, or other instrument. The enumerated powers in this type of legislation are of the kind normally found in carefully drafted trusts and wills. Accordingly, in those jurisdictions where this type of legislation is in force, the draftsman does not need to encumber the instrument with the typical fiduciary powers clauses but can, when necessary, modify or add to the powers enumerated in the statute as the situation requires.

For further information, see Chapter 16.

FORM

DECLARATION OF TRUST made December 15, 2002, by the Trustees of Queensbrook Real Estate Trust, creating a trust primarily to invest and reinvest in real estate, interests in real estate, leasehold interests, mortgages, and interests in mortgages secured by real estate. All funds contributed to or invested in the Trust by those who have acquired and who will acquire beneficial interests herein as hereinafter provided are referred to herein as the "Shareholders."

Whereas the Trustees hereunder have acknowledged the receipt of \$10 and agreed to hold and manage the same and any property added thereto; and

Whereas the Trustees for the purpose of defining the respective interests of the Shareholders in the Trust, have agreed to issue to each Shareholder negotiable certificates of beneficial interest or shares ("Shares"), in the respective amounts and with the designations and form as hereinafter provided.

Now, therefore, the Trustees hereby declare that they assume the duties of Trustees hereunder and will hold all assets of the Trust, including those received as above recited and those to be received as hereinafter provided, and all rents, income, profits, and gains therefrom, from whatever source derived, in trust for the Shareholders in accordance with the terms and conditions hereinafter in this instrument provided and all amendments thereto, hereinafter called the Declaration.

Article I The Trust

Section 1. *Name.* The Trust shall be designated as "Queensbrook Real Estate Trust," in which name the Trustees may conduct business, sue and be sued, and otherwise do all things and take all action they may deem appropriate to carry out the business and preserve the assets of the Trust except as is provided in Article IV, Section 6, with respect to the holding of title to property owned by the Trust.

Section 2. *Location.* The Trust's principal office shall be in such city, town, or locality in the United States of America as the Trustees shall from time to time determine. The Trust may have such other offices or places of business as the Trustees may from time to time determine.

Section 3. *Nature of trust.* The Trust shall be of the type commonly termed a business trust, and shall not be a general partnership, limited partnership, partnership association, or corporation. The Shareholders are *cestuis que trustent* hereunder. No Trustee or Shareholder shall ever be, in any way whatsoever, liable or responsible hereunder as a partner. This Trust is intended to have the status of a "real estate investment trust" as that term is defined in Part II, Subchapter M of Chapter 1 of the Internal Revenue Code of 1986, as now enacted and as it may be hereafter amended, and the Declaration and all actions of the Trustees shall be construed in accordance with such intent.

Section 4. *Purposes.* The Trust shall be primarily engaged in the investment and reinvestment of its funds and other assets in real property, interests in real property, mortgages secured by real property, leasehold interests in real property, and interests in mortgages on real property. If, however, the Trustees are of the opinion that investment in real estate assets at any particular time is not prudent because of market or economic conditions, the Trust's assets may be maintained in cash or government securities, or both. The Trust shall not be primarily engaged in investing, reinvesting, or trading in securities. It is the express purpose and objective of the Trust to have invested from time to time such percentages of the value of its total assets in real property, leaseholds thereof, mortgages on real property, or interests therein, cash, cash items, and government securities, and to follow such investment policies, as may be required in order that the Trust qualify (so long as such qualification, in the opinion of the Trustees, is advantageous to its Shareholders) as a "real estate investment trust."

2-Forms Federal Taxes Affecting Real Estate [A]

Section 5. *Particular policies.* The Trust shall follow such policies as are required to maintain its qualification as a "real estate investment trust." If the Trust shall desire to issue or sell Shares or other securities in any state or jurisdiction in which there shall be in force and effect a law, rule, or regulation of the governmental body having jurisdiction over any such sale requiring that this Declaration contain one or more particular limitations or restrictions on the Trust's policies or operations, then anything else in this Declaration contained to the contrary notwithstanding, the Trustees may, without the Shareholders' prior approval, amend this Declaration to incorporate herein any such limitations or restrictions. These shall include, without affecting the generality of the foregoing, limitations or restrictions on the issuance of senior securities, borrowing money, requiring appraisals in particular circumstances, making loans, underwriting securities of others, investing in unimproved real estate, investing in mortgages, investing in securities of other real estate companies, investing in real estate contracts of sale and commodities, issuing different classes of shares or options or redeemable securities, and on the amount of operating expenses that may be incurred. The Trustees shall also have the power to provide that no further amendments of this Declaration may be made without the Shareholders' consent.

Section 6. *Definitions.* The terms "value," "real estate assets," and "interests in real property" as used in this Declaration of Trust shall have the same meaning as the definitions of these words contained in Part II of Subchapter M of Chapter 1 of the Internal Revenue Code of 1986, as now enacted, and as hereafter amended.

The terms "mortgage" or "mortgages" as used herein shall mean and include all forms of liens on real estate and all transfers of real estate for security purposes, including deeds of trust and all other forms of security transfers.

Article II Shares

Section 1. *Shares: certificates of beneficial interest.* The units into which the beneficial interests in the Trust will be divided shall be designated as Shares. The certificates evidencing ownership of shares in the Trust will be designated as Certificates of Beneficial Interest or Shares, and shall be in such form as the Trustees may from time to time prescribe. The registered holders thereof shall be designated as Shareholders. The number of Shares authorized hereunder shall be unlimited. There shall be no limit upon the number of Shares to be issued. All Shares shall be without par value, shall be of the same class, shall have equal voting, distribution, liquidation, and other rights, and shall be fully paid and nonassessable.

The Shareholders shall have no legal title or interest in the Trust property and no right to a partition thereof or to an accounting during the continuance of the Trust but only the rights expressly provided in the Declaration.

Section 2. *Sale of shares.* The Trustees may from time to time issue, sell by private or public offering, or exchange Trust shares in such number or for such sums of money, real estate assets, or other considerations, and on such terms as they deem proper. The Shareholders shall have no preemptive rights of any kind whatsoever. Preemptive rights are hereby defined to include, but not be limited to, the right to purchase or subscribe for or otherwise acquire any Trust shares of any class, whether now or hereafter authorized, or any securities or obligations convertible into or exchangeable for, or any right, warrant, or option to purchase such shares, whether or not they are issued or disposed of for cash, property, or other consideration of any kind. The Trustees shall cause to be issued certificates of beneficial interest to evidence the ownership of Shares. Shares when issued for consideration in accordance with the provisions of this Section 2 shall be fully paid and nonassessable.

Section 3. *Offering of shares.* The Trustees may cause to be made from time to time offerings of the Trust Shares to the public at public offering prices deemed appropriate. For this purpose, the Trustees may enter into a contract with an underwriter upon such terms and with such commissions for its services as the parties may agree upon.

Section 4. *Shares purchased by trust.* The Trust may repurchase or otherwise acquire its own shares on such terms and conditions as the Trustees deem appropriate. For this purpose the Trust may create and maintain such reserves as are

deemed necessary and proper.

Shares issued hereunder and purchased or otherwise acquired for the account of the Trust shall not, so long as they belong to the Trust, either receive distributions (except that they shall be entitled to receive distributions payable in Trust Shares) or be voted at any meeting of the Shareholders. Such Shares may, in the Trustees' discretion, be cancelled and the number of Shares authorized by thereby reduced or be held in the treasury and be disposed of by the Trustees at such time or times, to such party or parties, and for such consideration, as the Trustees may deem appropriate.

Section 5. *Transferability of shares.* Shares in the Trust shall be transferable in accordance with the procedure prescribed from time to time in the Trustees' Regulations. The persons in whose names the Shares are registered on the Trust's books shall be deemed the absolute owners thereof and, until a transfer is effected on such books, the Trustees shall not be affected by any notice, actual or constructive, of any transfer.

Section 6. *Ownership, stop-transfer, and redemption.* The Shareholders, upon request, shall furnish to the Trustees, in writing, such particulars as to the direct and indirect ownership of the Shares as the Trustees deem necessary for compliance with the provisions of the Internal Revenue Code of 1986 and the Regulations thereunder regarding beneficial ownership in a real estate investment trust, as those provisions and the Regulations may be amended from time to time. If the Trustees, at any time, in good faith, shall be of the opinion that beneficial ownership of Trust Shares has or may become so concentrated as to prevent the Trust from continuing to qualify as a real estate investment trust under the applicable provisions of the Internal Revenue Code, the Trustees may prevent the transfer of such Shares by means deemed equitable to them or to call such number of Shares for redemption as will be sufficient to maintain or bring the beneficial ownership of Shares in conformity with the applicable provisions of the Internal Revenue Code. Any transferor in violation of the transfer restrictions shall be void *ab initio*. The price to be paid for the redeemed Shares shall be (a) the sale price on the securities exchange on which the Shares are traded, as reported at the close of the last business day prior to the date of redemption, or (b) if the Shares are not traded on any securities exchange, the last bid quotation on such business day as reported by the National Association of Security Dealers or a similar organization selected by the Trustees, or (c) if not determined as above, the book value of the Shares. From the date of redemption, the holder of any Shares called for redemption shall no longer be entitled to any dividends, distributions, voting rights, or any other benefits of Shareholders, except the right to the redemption price.

Section 7. *Effect of transfer of shares or death, insolvency, or incapacity of shareholders.* Neither the transfer of Shares nor the death, insolvency or incapacity of any Shareholder shall operate to dissolve or terminate the Trust, nor shall it entitle any transferee, legal representative, or other person to a partition of the Trust property or to an accounting.

Article III Shareholders

Section 1. *Meetings of shareholders.* (a) *Annual meetings.* Annual meetings of the Shareholders shall be called upon not less than 30 nor more than 60 days' prior written notice, and at such times and places as the Trustees' Regulations shall prescribe, for the election of all Trustees, the transaction of such other business as Shareholders may be entitled to vote upon as hereinafter provided in this Article III, or as the Trustees may determine. At such meeting the Trustees shall make a report of the business and operations of the Trust. The holders of a majority of Shares in the Trust, present in person or by proxy, shall constitute a quorum at any meeting.

(b) *Special meetings.* Special meetings of the Shareholders may be called at any time upon not less than 30 nor more than 60 days' prior written notice, at such places as the Trustees' Regulations shall prescribe for annual meetings, by the Chairman of the Trustees or by a majority of the Trustees. A special meeting shall be called by any Trustee upon written request of Shareholders holding in the aggregate not less than 20% of the issued and outstanding Shares entitled to vote at such meeting. The call shall state the nature of the business to be transacted, and no other business shall be considered.

Section 2. *Voting rights of shareholders.* The Shareholders shall be entitled to vote only upon the following matters:

(a) *Election of trustees.* Trustees shall be elected annually by vote of Shareholders. Each Shareholder shall be entitled to one vote in person or by proxy for each Share registered in his name. The candidates receiving the highest respective numbers of votes up to the number of trusteeships to be filled in the election shall be elected.

(b) *Removal of trustees.* Any Trustee who willfully violates any provision of the Declaration or willfully acts contrary to the Shareholders' interests may be removed at any time as Trustee by the vote or written consent of the holders of a majority of the issued and outstanding Shares so declaring. Such vote or written consent shall be conclusive evidence of such wilful violation or contrary action so far as such removal is concerned.

(c) *Termination of trust.* The Trust may be terminated as provided in Article V, Section 1 hereof.

(d) *Amendment of declaration of trust.* No change in or amendment of the Declaration shall be made without the vote or written consent of the holders of a majority of the issued and outstanding Shares, except as otherwise provided in Section 5 of Article I hereof.

(e) *Creation of corporation to acquire assets of trust.* Any action on the part of the Trustees creating a corporation to acquire the Trust assets shall be subject to the approval of the holders of a majority of the issued and outstanding Shares.

(f) *General.* Anything in Section 8, paragraph (u) of Article IV, or in Articles V and VI of the Declaration to the contrary notwithstanding, any action taken by the Trustees to merge or consolidate or otherwise amalgamate the Trust with any other trust or corporation, to terminate the Trust, to reorganize the Trust as a corporation, or to amend the Declaration shall not become effective until such action is first approved by the vote or written consent of the holders of a majority of the issued and outstanding Shares.

Section 3. *Distributions.* It is the declared policy of the Trust that the Trustees shall (and may more frequently) declare and pay, within 30 days after the end of each three calendar-month period in each calendar year after the calendar year in which the Trust is created, to the Shareholders as near to all of the net income of the Trust as shall be available therefor. No distribution shall be made, however, if the Trustees deem it imprudent to do so. Net income for the purpose of this Section shall mean net income for tax purposes adding back deductions for depreciation and similar noncash charges. In any event, however, the Trustees shall, from time to time, declare and pay to the Shareholders all distributions that may be necessary to continue to qualify the Trust as a "real estate investment trust" (provided that such qualification, in the opinion of the Trustees, is in the best interest of the Shareholders), as well as all additional distributions that the Trustees may in their discretion declare. Each distribution shall be accompanied by a written statement indicating, to the fullest extent practicable, its sources.

Section 4. *Reports to shareholders.* The Trust shall transmit to the Shareholders annually, within two calendar months following the close of its fiscal year, a report which shall contain:

(a) A statement by the Trustees as to the course of the Trust's operations during the fiscal year covered by such report, including a schedule of the funds distributed to the Shareholders during such fiscal year and the respective sources thereof;

(b) A description of the major real estate assets and mortgages owned by the Trust at the close of such fiscal year, and other disclosures of material interest to the Shareholders; and

(c) Financial statements consisting of a balance sheet, a profit and loss statement, and an analysis of surplus, all prepared in accordance with generally accepted accounting principles, and generally conforming to the requirements for

2-Forms Federal Taxes Affecting Real Estate [A]

financial statements to be included in annual reports filed with the Securities and Exchange Commission by companies subject to its jurisdiction. Such statements shall be audited and certified by an independent certified public accountant.

As promptly as possible after the close of each quarterly period in each fiscal year, the Trustees shall transmit an income and expense statement to the Shareholders for such three-month period. Such statement need not be audited or certified by an independent certified public accountant.

Section 5. *Books and records.* The Trust's books and records shall be open to inspection upon the written demand of a Shareholder at any reasonable time for a good faith purpose reasonably related to the interests of such Shareholder as a Shareholder, and shall be exhibited at any time when required by the demand at any Shareholders' meeting of 10% of the Shares represented at the meeting.

Such inspection by a Shareholder may be made in person or by agent or attorney, and the right of inspection includes the right to make extracts.

Demand of inspection other than at a Shareholders' meeting shall be made in writing upon the Chairman of the Trustees, or the Trust's Secretary or Executive Agent.

The duly authorized officials of any state shall have the same right of inspection as a Shareholder.

Section 6. *Nonliability of shareholders.* The Shareholders shall not be liable to assessment and the Trustees shall have no power to bind the Shareholders personally. Upon any debt, claim, demand, judgment, decree, or obligation of any nature whatsoever against or incurred by the Trust or by the Trustees or by a representative or agent of the Trust, in their respective capacities, whether founded upon contract, tort, or otherwise, resort shall be had solely to the Trust property and the Shareholders shall not be personally liable therefor. Any Shareholder held so personally liable shall be entitled to exoneration from the Trust's assets.

Section 7. *Notice of nonliability.* In each written order, contract, bond, note, mortgage instrument, or obligation given or executed by the Trustees or with their authority, the Trustees shall cause to be inserted a provision that the Shareholders shall not be personally liable and that the other party shall look solely to the Trust property for the payment of any claim thereunder, and reference shall be made to the Declaration.

Section 8. *Insurance.* The Trust shall use its best efforts to obtain or cause to be obtained all customary types of insurance against liabilities or hazards.

Article IV Trustees

Section 1. *Number, term of office, qualification, and compensation of trustees.* There shall be not less than three nor more than five Trustees, as fixed in the Trustees' Regulations, all of whom shall be United States citizens. The term of office of each Trustee shall be from the date of his election or appointment until the next annual meeting of Shareholders and shall continue until the election and qualification of his successor by the Shareholders. The Trustees shall be individuals of full age. No person shall qualify as a Trustee until he shall have either signed the Declaration or agreed in writing to be bound in all respects by the Declaration. The Trustees shall be entitled to receive compensation for their services as Trustees, in amounts, and in the manner fixed by them, but not in any event to exceed 11/2 % annually of the Trust's gross income. There shall be no requirement that each Trustee receive compensation in the same amount.

Section 2. *Resignation.* A trustee may resign at any time by giving written notice to the Trustees at the Trust's principal office. Such resignation shall take effect on the date it is received or any later time specified therein. Unless otherwise specified therein, the acceptance of a resignation shall not be necessary to make it effective.

2-Forms Federal Taxes Affecting Real Estate [A]

Section 3. *Vacancies.* The resignation, incompetency, or death of any or all of the Trustees shall not terminate the Trust or affect its continuity. During a vacancy, the remaining Trustee or Trustees may exercise the powers of the Trustees hereunder. Vacancies among the Trustees may be filled by a written designation signed by a majority of the remaining Trustees and entered in the Trust's records. The determination of a vacancy among the Trustees by reason of resignation, incompetency, or death, or for any other reason, when made by a majority of the remaining Trustees and stated in the instrument filling such vacancy, shall be final and conclusive for all purposes. If at any time, by reason of resignations, incompetencies, or deaths, there shall be no remaining Trustees, a meeting of the Shareholders shall be forthwith called for the election of successor Trustees. Any Shareholder or Shareholders owning of record an aggregate of 10% of the issued and outstanding Trust Shares shall be entitled to call such meeting and to nominate candidates for election as successor Trustees at any such election.

Section 4. *Successor trustees.* Title to the Trust property shall vest in successor Trustees, upon written acceptance of their election or appointment without any further act. They shall thereupon have the same powers, duties, and exemptions as though originally named as Trustees in this Declaration. Such written acceptance shall be filed with the records of the Trust. A certificate signed by a majority of the Trustees as to who are or were Trustees at any time shall be conclusive and binding for all purposes.

Section 5. *Actions by trustees.* The Trustees may act with or without a meeting. Any action of a majority of Trustees in office shall be conclusive and binding as an action of the Trustees. All agreements, deeds, and other instruments executed by a majority of the Trustees or executed by one Trustee pursuant to authorization of a majority of the Trustees given either at a meeting or in writing shall be effective and binding as if executed by all the Trustees.

Section 6. *Title and authority of trustees.* The Trustees, as joint tenants, shall hold the legal title to all property belonging to the Trust in its name, or in the name of one or more of the Trustees, as Trustees for the Trust, or in the name of one or more nominees for the Trust provided that each such nominee shall execute an instrument in recordable form recognizing the interest of the Trust in the property so held. The Trustees shall have absolute and exclusive control, management, and disposition thereof, and absolute and exclusive control over the management and conduct of the business affairs of the Trust, free from any power or control on the part of the Shareholders, in the same manner as if they were the absolute owners thereof, subject only to the express limitations in the Declaration.

Section 7. *Advisor and independent contractor.* In their exercise of the absolute control and management of all the Trust assets, the Trustees may contract for the services of an advisory firm or corporation, (the Advisor), to advise them in respect of investing and reinvesting the Trust funds in real property assets, interests in real property, mortgages secured by real property, leasehold interests in real property, interests in mortgages, or other assets. The total compensation to be paid to the Advisor and to be provided in such contract shall not exceed $\frac{1}{2}$ of 1% annually, of the Trust's gross income. Such contract may provide that the Advisor shall act as agent of the Trust in the purchase and sale of real estate, leaseholds, or real estate mortgages, or any interest therein, but without any independent compensation, direct or indirect, for such service. Such contract may also provide that the Advisor shall act as agent of the Trust in the management of real estate, leaseholds or real estate mortgages, or any interest therein, and receive commissions or other compensation for such management services at rates not in excess of those prescribed by real estate boards or similar organizations in the area in which the real estate is located, or the Trustees may employ a different firm or corporation to perform these functions for all or some of the Trust's properties and to receive such commissions and compensations. Such contracts shall provide that they shall not be assignable without the Trust's written consent. No employee or officer of the Trust, nor any investment advisor, shall receive a commission or other remuneration, directly or indirectly, in connection with the disposition or acquisition of Trust assets.

Section 8. *Powers of trustees.* The Trustees shall have all the powers necessary, convenient, or appropriate to effectuate the purposes of the Trust and may take any action which they deem necessary or desirable and proper to carry out such purposes. Any determination of the purposes of the Trust made by the Trustees in good faith shall be conclusive. In

2-Forms Federal Taxes Affecting Real Estate [A]

construing the provisions of the Declaration, the presumption shall be in favor of the grant of powers to the Trustees.

Subject to the limitations contained in Article I hereof, the Trustees' powers shall include the following:

(a) To purchase, acquire through the issuance of Shares in the Trust, obligations of the Trust, or otherwise, and to mortgage, sell, acquire on lease, hold, manage, improve, lease to others (without limitation as to the term of such lease, which may extend beyond the termination of the Trust), option, exchange for real or personal property, release, and partition interests in personal property and real estate interests of every nature, including freehold, leasehold, mortgage, ground rent, and other interests therein, and to erect, construct, alter, repair, demolish, or otherwise change buildings and structures of every nature.

(b) To purchase, acquire through the issuance of Shares in the Trust, obligations of the Trust, or otherwise, option, sell, and exchange shares, bonds, notes, certificates of indebtedness, and securities of every nature.

(c) To purchase, acquire through the issuance of Shares in the Trust, obligations of the Trust, or otherwise, grant security interests in, sell, acquire on lease, hold, manage, improve, lease to others, option, and exchange personal property of every nature.

(d) To hold title to the property of the Trust as is provided in Article IV, Section 6, hereof.

(e) To borrow money for the purposes of the Trust and to give notes, debentures, including debentures convertible into Shares, bonds, and other negotiable or nonnegotiable instruments of the Trust therefor; to enter into other obligations on behalf of and for the purposes of the Trust; and to mortgage, create security interests in, or pledge or cause to be mortgaged, have security interests created in, or pledged real and personal property of the Trust to secure such notes, debentures, bonds, instruments, or other obligations; and to subordinate the interests of the Trust in real and personal property, or interests therein to such other persons and on such conditions as is deemed desirable.

(f) To lend money on behalf of the Trust and to invest its funds.

(g) To create reserve funds for such purposes as they deem advisable.

(h) To deposit Trust funds in banks and other depositories without regard to whether such accounts will draw interest.

(i) To pay taxes and assessments imposed upon or chargeable against the Trust or the Trustees by virtue of or arising out of the Trust's existence, property, business, or activities.

(j) To purchase, issue, sell, or exchange Shares of the Trust as provided in Article II hereof. The good faith determination of the value of the consideration received by the Trust shall be within the Trustees' absolute discretion.

(k) To adopt and, from time to time, amend Trustees' Regulations which may include but shall not be limited to provisions relating to the time, place, and notice of meetings of the Trustees and of the Shareholders; record dates and other matters relating to voting and the use of proxies; designation, appointment, and compensation of representatives and agents and their number, duties, powers, authorities, and qualifications; the conditions for replacing lost, mutilated, or stolen Shares; and the procedure for amendment of the Trustees' Regulations.

(l) To exercise with respect to Trust property all options, privileges and rights, whether to vote, assent, subscribe, or convert, or of any other nature; to grant proxies; and to participate in and accept securities issued under any voting trust agreement.

(m) To participate in any reorganization, readjustment, consolidation, merger, dissolution, sale, or purchase of assets,

2-Forms Federal Taxes Affecting Real Estate [A]

lease, or similar proceedings of any corporation, partnership, or other organization in which the Trust shall have an interest, and in connection therewith to delegate discretionary powers to any reorganization, protective, or similar committee and to pay assessments and other expenses in connection therewith.

(n) To engage or employ agents, representatives, and employees of any nature, or independent contractors, including, without limiting the generality of the foregoing, Transfer Agents for the transfer of Trust Shares, Registrars, underwriters for the sale of Trust Shares, independent certified public accountants, attorneys at law, appraisers, and real estate agents and brokers; and to delegate to one or more Trustees, agents, representatives, employees, independent contractors, or other persons such powers and duties as the Trustees deem appropriate. The same persons may be employed in multiple capacities and may receive compensation from the Trust in as many capacities as they may be engaged or employed by the Trust. Any Trustee who serves in such capacities may receive compensation in addition to that provided in Article IV, Section 1 hereof.

(o) To determine conclusively the allocation between capital and income of the Trust's receipts, holdings, expenses, and disbursements, regardless of the allocation which might be considered appropriate in the absence of this provision.

(p) To determine conclusively the value from time to time and to revalue the Trust's real estate, securities, and other property, in accordance with such appraisals or other information as they deem satisfactory.

(q) To compromise or settle claims, questions, disputes, and controversies by, against, or affecting the Trust.

(r) To solicit Shareholders' proxies.

(s) To adopt a fiscal year for the Trust and to change such fiscal year.

(t) To adopt and use a seal.

(u) To merge or consolidate or otherwise amalgamate the Trust or any successor thereto with or into any other trust or corporation engaged or to be engaged in business activities substantially similar to those engaged in by the Trust, subject to the provisions of Article III, Section 2, paragraph (f).

(v) To deal with the Trust property in every way, including the entering into joint ventures, partnerships, and all other combinations or associations, that it would be lawful for an individual to deal with the same, whether similar to or different from the ways herein and hereinabove specified.

(w) To cause the Trust to file with its federal income tax return for the first year of its existence an election to be a real estate investment trust.

Section 9. *Trustees' right to own shares in trust.* A Trustee may acquire, hold, and dispose of Trust Shares for his individual account and may exercise all rights of a Shareholder to the same extent and in the same manner as if he were not a Trustee. After the commencement of any public offering of the Trust Shares, the Trustees may purchase Shares only at the current offering price then prevailing in connection with such public offering, less all or any part of the selling or other commission as may be agreed with the Distributor.

Section 10. *Transactions between trustees and their affiliates.* No trustee shall receive a commission or other remuneration in connection with the acquisition or disposition of Trust assets. Nothing herein, however, shall prohibit any Trustee who is a lawyer, or any law firm with which he may be affiliated, from performing legal services for the Trust and receiving reasonable compensation for such services, nor shall anything herein prohibit any person who is a Trustee from performing services for the Trust, in addition to services as a Trustee, and being separately compensated therefor.

2-Forms Federal Taxes Affecting Real Estate [A]

Section 11. *Nonliability of trustees.* No Trustee shall be liable individually for any act or omission of any other Trustee or agent or representative of the Trust, or for negligence, error in judgment, or any act or omission except his own willful misfeasance, bad faith, or gross negligence in the conduct of his duties.

Every act or thing done or omitted, and every power exercised or obligation incurred by any of the Trustees in the administration of the Trust or in connection with its business or property, whether ostensibly in their own names or in their trust capacity, shall be deemed done, omitted, exercised, or incurred by them as Trustees and not as individuals. Upon any debt, claim, demand, judgment, decree, or obligation of any nature whatsoever against or incurred by the Trustees in their capacities as such, whether founded upon contract, tort or otherwise, resort shall be had solely to the Trust property.

Nothing contained in the Declaration shall protect a Trustee or agent or representative of the Trust against liability to the Trust or to the Shareholders for willful misfeasance, gross negligence, or bad faith in the conduct of his duties.

Section 12. *Indemnification.* The Trust shall indemnify and hold harmless each Trustee from and against all claims and liabilities, whether they proceed to judgment or are settled, to which such Trustee may become subject by reason of his being or having been a Trustee, or by reason of any action alleged to have been taken or omitted by him as Trustee, and shall reimburse him for all legal and other expenses reasonably incurred by him in connection with any such claim or liability. No Trustee, however, shall be indemnified or reimbursed under the foregoing provisions in relation to any matter unless it shall have been adjudicated that his action or omission did not constitute willful misfeasance, bad faith, or gross negligence in the conduct of his duties, or, unless, in the absence of such an adjudication, the Trust shall have received a written opinion from independent counsel, approved by the Trustees, to the effect that if the matter of willful misfeasance, bad faith, or gross negligence in the conduct of duties had been adjudicated, it would have been adjudicated in favor of such Trustee. The rights accruing to a Trustee under these provisions shall not exclude any other right to which he may be lawfully entitled, nor shall anything herein contained restrict the right of the Trust to indemnify or reimburse such Trustee in any proper cause even though not specifically provided for herein. No Trustee, however, may satisfy any right of indemnity or reimbursement granted herein or to which he may be otherwise entitled except out of the Trust property and no Shareholder shall be personally liable with respect to any claim of a Trustee for indemnity or reimbursement. Notwithstanding any of the provisions hereof, however, no Trustee shall be indemnified for any liability which he personally may have under the provisions of the Securities Act of 1933, as amended.

Section 13. *Persons dealing with trustees.* Any act of the Trustees purporting to be done in their capacity as such, or by their agents or representatives under their authority shall, as to other persons dealing with such Trustees, agents, or representatives be conclusively deemed to be within the purposes of the Trust and within the powers of the Trustees. No person dealing with the Trustees or any of them, or with their authorized agents or representatives, shall be bound to see to the application of any funds or property passing into their hands or control.

The receipt of the Trustees or any of them, or of their authorized agents or representatives, for moneys or other consideration paid or delivered to any of them shall be effectual discharges to persons paying or delivering the same.

Section 14. *Administrative powers of trustees.* The Trustees may pay the expenses of the Trust's organization and administration, including all legal and other expenses in connection with the preparation and carrying out of the plan for its formation, the acquisition of properties thereunder and the issuance of Shares thereunder; and may employ such officers, experts, counsel, managers, salesmen, agents, workmen, clerks and other persons as they think best, and fix their compensation and define their duties. Any Trustee so employed may receive special or additional compensation therefor.

Article V Duration and Termination
of Trust

2-Forms Federal Taxes Affecting Real Estate [A]

Section 1. *Termination of trust.* The Trust shall, unless sooner terminated as provided hereinafter, continue in existence until all of its assets have been liquidated and distributed to the Shareholders. The Trust may be terminated at any time by the Trustees (subject to the requirements of Article III, Section 2, paragraph (f) hereof) or, if the Trustees have not so terminated the Trust, by the affirmative vote of the holders of a majority of the issued and outstanding Shares.

If a court of competent jurisdiction in any state in which the Trust owns property shall finally determine that the holding of such property is or shall be in violation of any statutory or other law that is similar to the common law "rule against perpetuity," then with respect to property affected thereby, unless this Trust is terminated earlier as provided in this Section, it shall continue only until the expiration of 21 years after the death of the last survivor of the following named persons:

[Insert list of names of persons in being on the date of the execution of this Declaration whose lives will govern the duration of the Trust]

In connection with any termination of the Trust, the Trustees, upon receipt of such releases or indemnity as they deem necessary for their protection, may

- (a) Sell and convert into cash the Trust property and distribute the net proceeds among the Shareholders ratably; or
- (b) Convey the Trust property to one or more persons, entities, trusts, or corporations for consideration consisting in whole or in part of cash, shares of stock, or other property of any kind, and distribute the net proceeds among the Shareholders ratably, at valuations fixed by the Trustees, in cash or in kind, or partly in cash and partly in kind; provided that the proposal to proceed as described in this paragraph (b) shall have been set forth in the written approval of the Shareholders holding a majority of the Shares issued and outstanding.

Upon termination of the Trust and distribution to the Shareholders as herein provided, a majority of the Trustees shall execute and enter in the Trust's records an instrument setting forth the fact of such termination, and the Trustees shall thereupon be discharged from all further liabilities and duties hereunder, and the right, title, and interest of all Shareholders shall cease and be cancelled and discharged.

Section 2. *Organization as a corporation.* Whenever the Trustees deem it for the best interests of the Shareholders that the Trust be organized as a corporation and such action shall have been approved as provided in Article III, Section 2, paragraph (e), the Trustees shall have full power to organize such corporation, under the laws of such State as they may consider appropriate, in the place and stead of the Trust without procuring the further consent of any Shareholder. In that event the capital stock of the corporation shall be and remain the same as fixed under this agreement and Declaration, and the Shareholders shall receive and accept stock in such corporation on the same basis as they hold Shares in the Trust.

Article VI Amendments

Section 1. *When no shares outstanding.* At any time when no shares in the Trust are outstanding, the Trustees may amend any provision of the Declaration. A certificate signed by a majority of the Trustees, setting forth such amendment and reciting that it was duly adopted by them, shall be lodged among the Trust records and shall be conclusive evidence of such amendment.

Section 2. *When shares outstanding.* At any time when Shares in the Trust are outstanding, except as provided in Article I, Section 5, the Declaration may be amended by the Trustees then in office only with the consent of Shareholders owning a majority of the issued and outstanding Shares. A certificate signed by a majority of the Trustees setting forth an amendment and reciting that it was duly adopted shall be lodged among the Trust records and recorded or filed in

each public office or registry in which the Declaration shall be recorded or filed and shall be conclusive evidence of such amendment, and any restatement of any provision of the Declaration purported to be contained therein.

Article VII Miscellaneous

Section 1. *Applicable law.* The Declaration is executed and delivered in New York, New York, and the laws of the State of New York shall govern the construction, validity, and effect of the Declaration and the administration of the Trust hereby created.

Section 2. *Headings for reference only.* Headings preceding the text, articles, and sections of this Declaration have been inserted solely for convenience and reference, and shall not be construed to affect its meaning, construction, or effect.

In witness whereof this Declaration of Trust is being executed by the Trustees on December 15, 2002.

A.13 Real estate investment trust: trustees' regulations

COMMENT

The basic declaration for a real estate investment trust will rarely set out the various mechanics for operating the entity. As in the case of the corporation, these details are reserved for a code of regulations (or bylaws) which can be amended if necessary by the trustees without going back to the individual beneficiaries for their consent. The declaration of trust (Form A.12) therefore provides that the trustees may adopt and, from time to time, amend regulations, which may include provisions covering meetings of trustees and of beneficiaries, voting procedures, appointment of agents, issuance and transfer of certificates of beneficial interest, and methods for amending the regulations. This set of regulations includes provisions for these and other matters generally covered in corporate bylaws.

For further information see Chapter 16.

FORM

TRUSTEES' REGULATIONS

2-Forms Federal Taxes Affecting Real Estate [A]

Article 1 Office, Seal, and Records

Section 1. The Trust's principal office shall be in New York, New York. The Trust may also have offices at such other places as the Trustees may from time to time designate.

Section 2. The seal of this Trust shall be circular in form and have inscribed thereon the name of the Trust and the year and place of its formation (2002).

Section 3. The original or a certified copy of these regulations, including all amendments, shall be kept at the Trust's principal office and be available during usual business hours for inspection and copying.

Section 4. The Trust shall keep correct and complete books and records of accounts of its transactions, and minutes and other records of the proceedings or other actions of its Trustees and of their committees.

Section 5. The Trust shall maintain at its principal office, or at such other of its offices or agencies as the Trustees may specify, the original Certificate of Beneficial Interest or Share Ledger containing the names and addresses of all Shareholders and the number of Shares held by each Shareholder.

Article 2 Trustees

Section 1. There shall be five Trustees.

Section 2. The Trustees shall elect one Trustee as Chairman of the Trustees, who shall act as chairman at all of the Trustees' meetings. The Chairman may appoint committees of the Trustees and perform all administrative acts on the Trustees' behalf, except to the extent that the Declaration of Trust specifically requires such acts to be performed by a majority of the Trustees. The Chairman shall be entitled to receive 25 percent greater compensation than the other Trustees.

The Trustees may elect one or more of their number as Alternate Chairman of the Trustees. The Alternate Chairman shall, in order of election, exercise the powers and duties of the Chairman, in case of the Chairman's absence, or until a new Chairman shall be elected, in case of a vacancy in that office.

Section 3. Meetings of the Trustees shall be held at the Trust's principal office, or at such other place or places as the Trustees may fix from time to time.

Section 4. Regular meetings of the Trustees shall be held at such times as the Trustees shall determine, but not less frequently than quarter-annually.

Section 5. Special meetings of the Trustees shall be held whenever called by the Chairman or by any two other Trustees at such time and place as may be designated in the notice of the meeting.

Section 6. At least three days' written notice shall be given of the time and place of any regular or special meeting of the Trustees. If the notice is sent by mail or telegraph, it shall be deemed to have been given when deposited in the mail or with the telegraph office for transmission. Notice of an adjourned meeting need not be given if the time and place of the adjourned meeting are announced at the meeting at which such adjournment action is taken.

Section 7. Three of the Trustees in office shall constitute a quorum for the transaction of business. The acts of a majority of the Trustees present at a meeting at which a quorum is present shall be the acts of the Trustees. The Trustees may, in lieu of a meeting, take any action which would be lawful if done at a meeting by having a certificate describing such action signed by the number of Trustees which would be required to vote for such action at a meeting and

depositing such certificate in the minute book of the Trust.

Article 3 Beneficiaries or Shareholders

Section 1. Meetings of the Shareholders shall be held at such place in New York City or elsewhere as the Trustees may fix.

Section 2. The Annual Meeting of Shareholders for the election of Trustees shall be held at the Trust's principal office at 10 a.m., E.S.T., on the fourth Tuesday of March in each year, unless the Trustees shall, by resolution, from time to time fix some other place, hour, or date.

Section 3. Written notice setting forth the time, place, and purpose of each such Annual Meeting shall be given to each Shareholder of record not less than 20 nor more than 50 days prior to the date fixed for the meeting. Notice sent by mail shall be deemed given when it is deposited in the mail addressed to the Shareholder at the address appearing on the Trust's records. Notice of an adjourned meeting need not be given if the time and place of the adjourned meeting is announced at the meeting at which such adjournment action is taken.

Section 4. If all of the Trustees shall resign, die, or become incompetent, a special meeting of Shareholders shall be called with the same requirements as to notice, time, place, and record date as herein provided for Annual Meetings to elect successor Trustees, except that the meeting may be called and nominations of Trustees may be made by any person or persons owning not less than 10% of the Shares of record as of the record date fixed for such meeting.

Section 5. The Chairman of the Trustees, or such other person as the Trustees may designate, shall preside and the Secretary shall take the minutes at every Shareholders' meeting. In the absence of the Secretary, the Trustees shall appoint one of themselves, or such other person as they may select, to act as Secretary of the meeting.

Section 6. A majority of the Shares in the Trust present in person or by proxy shall constitute a quorum at a Shareholders' meeting.

Section 7. Proxies shall be executed in writing and filed with the Chairman of the Trustees or such other officer or office of the Trust as may be designated in the notice of the meeting. No revocation of a proxy, whether by voluntary action, death, or incapacity of the Shareholder granting it or otherwise, shall be effective until notice thereof has been received by the Trust or one of the Trustees. No proxy shall be valid more than one year after its execution.

Section 8. Shares may be voted at the Shareholders' Annual Meeting as follows:

(a) Shares in the Trust registered in the name of a corporation may be voted by one of its officers or by a proxy appointed by an officer, unless the corporation's Board of Directors has, by resolution, appointed a general or special proxy, and notice thereof has been given to the Chairman of the Trustees, in which case such other proxy may vote such shares.

(b) Except as otherwise provided by law and as hereinafter provided in the case of certain fiduciaries, shares in the Trust registered in the name of two or more persons jointly, or as tenants in common, or in partnership may be voted by any one or more of such persons, either in person or by proxy.

(c) Shares of the Trust registered in the names of executors of an estate, trustees, or guardians may be voted by a majority of such fiduciaries, either in person or by proxy.

Section 9. The Trustees may appoint one or more Judges of Election, who need not be Shareholders, to act at Shareholders' meetings. If a Judge of Election fails to appear or refuses to act at a meeting, the Chairman of the Trustees

2-Forms Federal Taxes Affecting Real Estate [A]

or other person designated to preside at the Shareholders' meeting shall appoint a substitute Judge of Election. The Judge of Election shall determine the number of Shares in the Trust as of the applicable record date, the number of Shares represented at the meeting, the existence of a quorum, and all questions relating to voting, and shall count the votes and shall determine the results of any voting.

Section 10. For any lawful purpose, including but without being limited thereto, the determination of the Shareholders who are entitled to (a) receive notice of and vote at a meeting of the Shareholders, (b) receive payment of a distribution, and (c) participate in the execution of written approvals, the Trustees may fix a record date which shall not be earlier than the date on which the record date is fixed, and shall not be more than 60 days preceding the meeting, payment, final date of written approvals or waivers, or other event to which the record date relates. If no record date is fixed, the record date for determining the Shareholders who are entitled to receive notice of or to vote at a Shareholders' meeting shall be the close of business on the twentieth day prior to the date of the meeting.

Article 4 Agents

Section 1. The Trustees may appoint an Executive Agent, a Fiscal Agent, and a Secretary. Each appointee shall have all of the authority and duties prescribed in these regulations and as may be prescribed by the Trustees. The Trustees may also appoint other agents and representatives, including Alternate Executive Agents, Assistant Fiscal Agents, and Assistant Secretaries, to perform the business of the Trust. Each of these other agents and representatives shall have such authority and duties as the Trustees may prescribe.

Section 2. The Executive Agent shall administer the affairs of the Trust. Except as otherwise directed by the Trustees, he may execute all contracts, leases, and other documents requiring execution by the Trust.

Section 3. In the event of the death, resignation, absence, or disability of the Executive Agent then, except as otherwise directed by the Trustees, the Alternate Executive Agent (or if there is more than one, then the Alternate Executive Agents in order of their seniority) shall perform the duties of the Executive Agent.

Section 4. The Fiscal Agent shall have or provide for custody of the Trust's funds and securities which may come into his possession.

Section 5. The Secretary shall keep the minutes of all meetings of the Trustees and the Shareholders in appropriate minute books, and shall give all notices on behalf of the Trust including notice of the meetings of the Trustees and the Shareholders. Except as otherwise directed by the Trustees, he shall perform all of the customary duties of a Secretary.

Section 6. The Trustees may fix any compensation they deem appropriate for the services rendered by agents and representatives appointed under the authority of this Article 4.

Article 5 Shares

Section 1. Each Certificate of Beneficial Interest or Share shall state (a) that it represents units of Beneficial Interest in the Trust; (b) the name of the registered owner of the units of Beneficial Interest represented thereby; and (c) the number of Shares or units of Beneficial Interest which the certificate represents.

Section 2. Each Share certificate shall be signed by the Executive Agent or other duly authorized agent of the Trust. The signature, however, may be a facsimile signature on any certificate which contains the manual signature of a person authorized to sign on behalf of a Transfer Agent acting for the Trust. If the Executive Agent shall cease to be such prior to the issuance of a certificate signed by him, such certificate may, nevertheless, be issued by the Trustees with the same effect as if the Executive Agent had not ceased to be such at the date of its issuance.

2-Forms Federal Taxes Affecting Real Estate [A]

Section 3. Transfer of Shares may be made on the Share Ledger of the Trust only by the registered owner thereof or by an attorney duly authorized in writing and upon surrender of the Share certificate properly endorsed. The certificate shall be cancelled at the time of transfer. The Trustees may prescribe the requirements for any transfer of Shares otherwise than by an assignment validly executed by the registered owner or his attorney duly authorized as herein provided.

Section 4. The Trustees may establish transfer offices each in the charge of a Transfer Agent appointed by the Trustees, where the Shares of the Trust shall be transferable, and a Registry Office in the charge of a Registrar appointed by the Trustees, where the Shares shall be registered. If a Transfer Agent is appointed, no certificate for a Share shall be valid unless countersigned by him.

Section 5. If any Share or Certificate of Beneficial Interest is mutilated, lost, or destroyed, the holder thereof shall immediately notify the Trust or its Transfer Agent of that fact. The Trustees shall then cause one or more new certificates for the same number of shares or units in the aggregate to be issued to such beneficiary. The new certificate or certificates shall be issued, in the case of mutilation, upon surrender of the mutilated certificate, or in the case of loss or destruction, upon satisfactory proof of such loss or destruction. A deposit of indemnity shall be made by way of a bond or otherwise in such form and amount and with such surety as the Trustees may require, to indemnify the Trust against loss or liability by reason of the issuance of the new certificate or certificates.

Section 6. The Certificates of Beneficial Interest issued by the Trustees hereunder shall be in substantially the following form:

Share Or Certificate Of Beneficial Interest

..... Shares

Queensbrook Real Estate Trust

This certifies that _____ is the owner of _____ fully paid Shares in Queensbrook Real Estate Trust, a New York trust, which are held subject to a Declaration of Trust made on December 15, 2002, which, together with any subsequent amendments thereto, is hereby incorporated in and made a part of this certificate.

The holder hereof has no legal or equitable interest, in any specific property of the Trust. No transfer of this certificate will affect Queensbrook Real Estate Trust until this certificate has been surrendered at the offices of the Trust, or Transfer Agent, and the transfer recorded on the books of the Trust. This certificate is not valid until countersigned by the Transfer Agent and Registrar.

In witness whereof the Trustees have caused this certificate to be signed by the signatures of their duly authorized agents and a seal of the Trust to be imprinted thereon.

Dated:

[Seal] Chairman of Trustees

Secretary

2-Forms Federal Taxes Affecting Real Estate [A]

Countersigned by
 _____ Transfer Agent and Registrar

Article 6 Miscellaneous

Section 1. The fiscal year of the Trust shall be the calendar year.

Section 2. No Trustee, representative, or agent of the Trust shall have power or authority to borrow money in the Trust's behalf, to pledge its credit or to buy, sell, or mortgage its real property or securities except within the scope and to the extent of authority expressly delegated by resolution of the Trustees. Authority given by the Trustees for any of the above purposes may be general in scope or limited to specific instances.

Section 3. The Trustees may, by resolution, designate the Trust's representative or representatives who shall be authorized to act as signatory or signatories on the Trust's bank accounts and shall designate the number of signatures required. Any such signatory may, but need not, be a Trustee.

Section 4. Whenever any written notice must be given to the Trustees or the Shareholders, a waiver thereof in writing signed by a person entitled to such notice, whether before or after the time stated therein, shall be deemed equivalent to the giving of such notice. Attendance of a person either in person or by proxy at a meeting shall constitute a waiver of notice of the meeting unless such person attends it for the express purpose of objecting to the transaction of any business because the meeting was not lawfully called or convened.

Section 5. If any provision in these regulations shall be construed to be inconsistent with the provision of the Declaration of Trust, the provisions of the Declaration of Trust shall control.

Article 7 Amendments

These regulations may be amended at any regular or special meeting of the Trustees if notice of the proposed amendment is contained in the notice of meeting. The Trustees may make amendments to these regulations, with or without a meeting, by executing an instrument, which must be signed by all of them and entered in the records of the Trust. A.14 Plan of organization for cooperative apartment house

COMMENT

Cooperative housing is primarily utilized in multiple dwellings. The typical venture is one in which a corporation is organized to hold fee title to real estate and to lease apartments to its shareholders.

Organizing a cooperative:

The organization of a cooperative corporation is usually initiated by a "sponsor" who, apart from arranging the preliminary corporate matters, undertakes to provide improved real estate for acquisition by the cooperative corporation. All the details of the program of acquisition, improvement, and sale are usually set forth in a plan of cooperative organization which is made available to prospective tenant-stockholders. A copy of the stock purchase agreement and the proprietary lease is also provided with the plan. The forms included in this group are those required in the various stages of the organization of a particular cooperative, including (1) the plan of organization, (2) the certificate of incorporation, (3) the bylaws, (4) the contract with an agent to sell the corporation's stock, (5) the stock purchase agreement, and (6) the proprietary lease. Also included is a contract for the sale by a tenant-stockholder of his stock and the accompanying lease.

In the plan of cooperative organization illustrated, the sponsor sets forth in complete detail a description

2-Forms Federal Taxes Affecting Real Estate [A]

of the building which he undertakes to make available to the cooperative corporation and all aspects of the cooperative organization. Among the elements to be described are: (1) the property, (2) financing of the purchase of the fee, (3) proprietary lease, (4) conditions for the purchase of stock, (5) estimated completion date, (6) procedure for occupancy, (7) arrangement for management of the property, (8) parties involved in the enterprise, (9) corporate charter, and (10) corporate bylaws and other relevant information.

Appended are schedules of estimated income and expenses for the cooperative corporation, the selling price of the stock of the cooperative corporation, and estimated charges and income tax deductions attributable to each apartment. (In some states, such as New York, special statutes prescribe strict procedures and disclosures in the sale of cooperative real estate ventures.)

The plan of organization is intended to incorporate every essential detail of the venture. Its significance is evident from the fact that it is incorporated by reference in the purchase agreement with every prospective tenant-stockholder (see Form A.17). Note, however, that since cooperative corporations are creatures of state and local legislation, any plan will have to be modified to conform with applicable laws and regulations.

Cooperative plans may provide that, unless a minimum percentage of shares are contracted for sale by a given date, the plan will not become operative, but that, after a certain percentage of shares are contracted for sale, the plan must be declared operative.

The sponsor's obligation to provide responsible persons to purchase the shares which are unsold at the time the premises are ready for occupancy, and to enter into proprietary leases for all apartments to which the unsold shares are allocated is a vital element. This insures that each tenant-stockholder will bear only his expected proportionate share of the operating and other expenses of the property. In addition, it insures compliance with the requirement that at least 80% of the gross income of the cooperative corporation be from tenant-stockholders. The cooperative corporation may merely hold a long-term lease on the real property, in which case the stockholders merely receive subleases to their respective apartments.

The cooperative ownership technique has also been applied to a group of houses. In this type of cooperative, each shareholder executes a lease on a specific house in the group development. The common denominator in all cooperatives is the so-called "proprietary" lease which can be held only by the owner of a specific number of shares in the cooperative corporation. Generally, the tenant-stockholder may sublet his apartment or may sell the unit consisting of the lease and the related corporate stock to a person approved by the cooperative corporation (see comment to Form A.20). The term "tenant-stockholder" means a person whose stock is fully paid-up in an amount which bears a reasonable relationship to the portion of the cooperative corporation's equity in the property that such person is entitled to occupy.

Tenant's rights and duties:

As a shareholder in the owning corporation, the tenant has a voice in the management of the cooperative building. But under the proprietary lease, the tenant is further obligated to make periodic rent payments in amounts established annually by the directors of the cooperative corporation. These payments are designed to cover the tenant's proportionate share of the following recurring expenses:

(1) Interest;

- (2) Taxes;
- (3) Maintenance;
- (4) Special assessments;
- (5) Operating expenses; and
- (6) Mortgage amortization.

Income tax impact:

Tenant-stockholders may deduct that portion of their rent which is attributable to real estate taxes of the cooperative corporation and to its interest incurred on an indebtedness contracted in the acquisition, construction, alteration, rehabilitation, or maintenance of the land, houses, or apartment building. Each tenant-stockholder may deduct a portion of the taxes and interest paid or accrued by the corporation, measured by the proportion that his own stock bears to the entire amount of stock outstanding, including that owned by the corporation itself.

If the tenant-stockholder uses a cooperative apartment in his trade or business or for the production of income, he may take a depreciation deduction on the cost of his stock attributable pro rata to the proprietary lease or tenancy. The allowable depreciation to the shareholder is determined by a three-step formula:

- (1) Total depreciation which would be allowed to the cooperative is computed.
- (2) This amount is then reduced by the ratio that the space rented to nonshareholders bears to the total rentable space.
- (3) The shareholder's proportionate share of this reduced depreciation is the ratio that the number of his shares bears to the total number outstanding, including any held by the cooperative.

The depreciation allowed to a shareholder may not exceed his adjusted basis for the stock, reduced by the above ratio for space rented to nonshareholders. When the tenant-stockholder uses only a portion of the property for business or income production, he is allowed a proportionate deduction for such portion.

Real estate taxes:

If a cooperative corporation pays real estate taxes on a leased apartment building, generally, no deduction for taxes is available to the tenant-stockholders because the corporation's payment is for rent rather than for taxes imposed on it.

If a cooperative corporation builds an apartment building on leased land, and the building has a useful life less than that of the term of the lease, the real estate taxes on the building are treated as taxes on its own property because the entire use of the building rests in the cooperative lessee; therefore, the tenant-stockholders may deduct both their proportionate shares of the taxes and their proportionate shares of interest paid by the corporation in financing the construction.

Conditions precedent to pro rata deduction:

For the purpose of the tenant-stockholder's deduction, the following conditions must be satisfied:

- (1) The corporation must have only one class of stock outstanding;
- (2) The corporation must have shareholders who are entitled to possession only by reason of their ownership of stock of a house or apartment in a building owned or leased by the corporation;
- (3) None of the corporation's shareholders may be entitled (either conditionally or unconditionally) to any distribution, other than from earnings and profits of the corporation, except on its complete or partial liquidation; and
- (4) The corporation must receive at least 80 percent of its gross income from tenant-stockholders.

Tax impact on cooperative corporation:

The cooperative corporation is itself a taxpaying entity which must file an income tax return but it can avoid tax liability by means of the following principles:

- (1) Annual payments by tenant-stockholders which are earmarked for amortization of mortgage indebtedness are treated as contributions to capital and are not included in gross income.
- (2) The corporation will pay no tax on amounts received for interest, taxes, and maintenance if
 - (a) It actually expends these funds for the purposes; or
 - (b) It refunds any amounts not so expended to the tenant-stockholders in the year it receives them.

The undertaking by the sponsor to provide responsible persons to purchase the shares which are unsold at the time the premises are ready for occupancy, and to enter into proprietary leases for all apartments to which the unsold shares are allocated is a vital element. This insures that each tenant-stockholder will bear only his expected proportionate share of the operating and other expenses of the property. In addition, it insures compliance with the requirement that 80% of the gross income of the cooperative corporation be from individual tenant-stockholders.

A cooperative housing association recognizes neither gain nor loss on its distribution of a dwelling unit to a stockholder if such distribution is in exchange for the stockholder's stock in the corporation, and the exchange qualifies for nonrecognition of gain under *IRC Section 1034(f)*. According to the legislative history Congress expects the Service to prescribe regulations providing procedures to assure that this relief is available **only** in cases where the dwelling unit is used by the taxpayer as his principal residence both before and after the distribution.

For further information, see Chapters 9 and 16.

FORM

Plan of cooperative organization

Ace Realty Corp., (the "Sponsor") submits through Harris & Co., Inc., (the "Agent"), this Plan of Cooperative Organization with respect to premises 500 East 68th Street, New York, New York (the "Building"), and the new apartment building to be erected thereon (the "Skyline").

Skyline Apartments, Inc., hereinafter called the Apartment Corporation, has been organized for the purpose of acquiring the fee ownership of the land and completed Building. The land is presently owned by Ace Builders, Inc., hereinafter called the Builder, which will erect the Building from plans prepared by James Hoe & Associates, Inc., hereinafter called the Architect, which plans have been filed with the Department of Buildings in the City of New York. The Apartment Corporation has retained William Bender, hereinafter called the Consulting Architect, to check on the construction of the Building and to certify as to stages of and completion of construction. The shares of the Apartment Corporation are being offered for sale through the Agent on the terms and conditions herein set forth. The Sponsor will guarantee to the Apartment Corporation the completion of the Building and the payment of costs of construction.

As hereinafter set forth the Sponsor is a publicly owned corporation and is the holder of all of the stock of the Builder.

1. *Property and Improvements.* The property is located on the southerly side of 68th Street at the East River Drive. It has a frontage on 68th Street of approximately 132 feet and a depth of approximately 102 feet irregular and contains approximately 13,000 square feet. The Building will have 20 floors and Penthouse containing 128 residential apartments, a superintendent's apartment, nine separate servants' rooms, each with its own bath. The apartments will range in size from three and one-half to seven rooms. There will be a garage in the basement which will accommodate about 35 automobiles and there will also be an area on the ground floor, west of the main entrance, which will be leased as a doctor's office. No shares are being allocated to this space. The Building will be centrally air-conditioned and will be heated by steam purchased from the Consolidated Edison Company. The entrance and lobby as well as the public portions of the Building will be decorated and furnished under the supervision of Allen Hart, designer. There will be 24-hour doorman service and the passenger elevators will be operated by tenant owners but a day and evening hall man will be available to assist tenant owners. The plan anticipates 13 employees including superintendent, doorman, service elevator, porter, and handyman.

As set forth in Schedule B, 60,080 shares of the Apartment Corporation have been allocated to the 128 residential apartments plus nine separate servants' rooms. No shares are being allocated to the superintendent's apartment, the garage, or the rentable space on the ground floor. A lease has been entered into by the Sponsor with a garage operator affiliated with the sponsor to rent the garage space for a ten-year term at \$7,500 per annum. The garage operator in turn will rent space in the garage to the tenant-shareholders and others, with priority to the tenant-shareholders at prevailing rates. The garage may be closed between the hours of 2 a.m. and 7 a.m. It is also proposed to lease the rentable space on the ground floor at not less than \$5,200 per annum. Copies of these leases when executed will be on file with the Agent and the income therefrom will be received by the Apartment Corporation. The Sponsor will pay or cause to be paid the estimated income from the garage and the doctor's office for the first year starting from the time the plan is put into full force and effect. There will be a laundry on the service level, which is leased for ten years to a concessionaire, and the laundry equipment is to be coin-operated by the tenant-shareholders. The concessionaire is a wholly owned subsidiary of the Sponsor.

A general description of the Building is attached hereto. This description is for information purposes only and to assist in the examination of the Building plans and specifications. A copy of the plans and specifications are on file with the Agent. The Sponsor and Builder reserve the right, up to the time of the completion of the Building, to make such changes or amendments in the plans and specifications, construction contract, equipment, materials, furnishings, and supplies, as any governmental department or bureau or as may be deemed necessary or advisable by the Architect and

2-Forms Federal Taxes Affecting Real Estate [A]

Consulting Architect, or such may deem necessary or advisable, or such as may only affect particular apartments and are contracted for by the individual purchasers or such as are minor. Where alternatives are specified or where a particular practice or method of construction or equipment, material, or supplies is not specified, the choice and decision of the Architect and Consulting Architect shall be final.

Construction was started in June of 2000. It is anticipated that the Building will be substantially completed on or about February 1, 2002, unless delayed by strikes or other causes over which the Sponsor, the Builder, or the Apartment Corporation have no control.

2. Cooperative organization. The aggregate number of shares which the Apartment Corporation shall have authority to issue is 65,000 shares of the par value of \$1 each, of which 60,080 shares have been allocated to the residential apartments and separate servants rooms. The balance of the shares will be authorized and unissued. Ownership of the respective blocks of shares will entitle the purchasers to proprietary leases of the apartments and servants' rooms to which such blocks of shares are allocated.

The Apartment Corporation proposes to offer its shares to suitable purchasers, hereinafter called The Purchasers. In order to meet possible demands for greater or less space than is shown on any floor plan, the Apartment Corporation reserves the right to change the size and number of apartments and to vary the amount of shares to accompany each proprietary lease. No change, however, will be made with respect to shares allocated to any apartment for which a purchase agreement has been accepted, nor will any such change have the effect of increasing or decreasing the total number of shares allocated to the residential apartments and separate servants' rooms.

The proceeds from the sale of shares will be used for the acquisition of the land with the completed Building thereon, on the terms and conditions hereinafter outlined.

If, when the Plan is put into full force and effect, any shares are unsold, the Sponsor guarantees to provide responsible individuals to take over such unsold shares and to enter into proprietary leases for all the apartments in the Building to which the unsold shares are allocated. These purchasers may not be purchasing for personal occupancy and may assign the shares and proprietary leases or sublet the apartments, subject only to the approval of the Agent, but such purchasers will be responsible for the maintenance and carrying charges thereunder until any such shares and proprietary leases are resold, and the Sponsor will guarantee the same. Thus when the Plan is put into full force and effect proprietary leases outstanding for all the apartments and separate servants' rooms in the Building to which shares are allocated.

An estimate of the Apartment Corporation as prepared by the Agent and approved by the Sponsor is set forth in Schedule A hereto attached. The location of the respective units, the allocation and purchase price of the shares, the estimated annual maintenance charges, and the estimated income tax deductions are set forth in Schedule B attached hereto.

Financial Plan

The financial plan under which the land and completed Building will be acquired by the Apartment Corporation is as follows:

Acquisition of the land and completed

Building	\$5,626,000
Working Capital	\$ 41,552

2-Forms Federal Taxes Affecting Real Estate [A]

	\$5,667,552
Mortgage Indebtedness	\$3,000,000
60,080 shares @ \$44.40 per share	\$2,667,552

The mortgage indebtedness of \$3,000,000 above referred to, will have constant annual charges to the Apartment Corporation of \$172,500, payable in equal monthly installments to be applied to the interest at the effective rate of 5% per annum and the balance to the reduction of principal. The total mortgage indebtedness will be self-liquidating and will be fully paid in approximately 41 years or sooner. On the maturity of the mortgage indebtedness, the Apartment Corporation will have no further obligations with respect thereto and will be relieved of the annual charges thereon.

A mortgage commitment has been obtained from the Riverview Savings Bank in the City of New York for a first mortgage loan on the land and completed building of \$2,250,000, with constant quarter-annual charges of \$42,188 or a total annual payment of \$168,752, to be applied first to interest at the rate of $5\frac{3}{4}$ % per annum and the balance to reduction of principal, which will fully liquidate the loan within a period of $25\frac{1}{2}$ years. There will be a prepayment privilege after the tenth year with a 2% penalty declining $\frac{1}{4}$ of 1% annually to a minimum penalty of 1% of the then outstanding amount of the first mortgage. The Builder will take back a second purchase money mortgage in the amount of \$750,000 providing for interest at the average rate of 3.6% per annum until the first mortgage is fully paid or refinanced as hereinafter provided. Thereafter, the interest on the purchase money second mortgage will be at the rate of 5% per annum.

As previously stated, the total amount of interest and amortization payment that the Apartment Corporation will be obligated to pay in any one year is \$172,500. This sum is insufficient to pay all of the interest accruing on the second purchase money mortgage. Such mortgage will provide that the difference between the amount accruing and the amount annually paid will be added to the principal of the second mortgage. After the first mortgage is fully paid, then the sum of \$172,500 per year will be applied towards payment of interest and amortization on the second mortgage and it will be fully liquidated in 41 years from the date of the mortgages. The purchase money second mortgage may be prepaid at any time without penalty.

The holder of the second mortgage, so long as all or part of such indebtedness is unpaid, shall have the right at its expense to refinance the entire mortgage indebtedness provided the then unpaid principal is not increased, the annual interest or amortization charges are not increased, and the mortgage indebtedness remains self-liquidating within 41 years. Such refinancing may be in the form of one mortgage with senior or junior interests or in the form of two or more mortgages.

The Builder has obtained from the Central Manhattan Bank a commitment for a building loan in the principal amount of \$2,000,000. This will be fully paid before the Plan becomes effective, and no other mortgage indebtedness will be placed on such property in excess of \$2,000,000 before the Plan becomes effective.

Up to the time the Plan is put into full force and effect and when the rent commences to accrue under the proprietary leases, hereinafter called Effective Date, the Sponsor has agreed to pay all expenses of the Apartment Corporation, other than the principal of the mortgage indebtedness, including mortgage fees and taxes, legal fees, architect's charges, fee equity title policy, organization expenses, original issue stamps, advertising, printing, sales commissions, and all other

2-Forms Federal Taxes Affecting Real Estate [A]

expenses or debts and liabilities of the Apartment Corporation. It is estimated that these expenses will be not less than \$200,000. The Apartment Corporation will retain \$41,552 as working capital in the form of cash or prepaid expenses such as real estate taxes and insurance.

As a consideration for having transferred to the Apartment Corporation title to the land and completed Building, the Sponsors will be intitled to receive and retain the proceeds of the permanent mortgage financing of \$3,000,000 as well as the balance of the proceeds from the sale of the shares of the Apartment Corporation, which is \$2,667,552, as set forth in Schedule B. The Apartment Corporation has entered into a contract of sale with the Sponsor and Builder embodying the provision of the Plan and copy thereof is on file with the Agent.

3. *Ownership.* After the land and completed Building have been transferred to the Apartment Corporation and upon the Effective Date, the Apartment Corporation will have:

(a) Good and marketable title to the land and completed Building thereon and all equipment therein free and clear of all liens and encumbrances (and all of its debts will have been paid or provided for) except:

- (1) Mortgage indebtedness above described;
- (2) Accrued interest on such mortgage indebtedness, subject to an apportionment on closing;
- (3) Accrued real estate taxes, water charges, and sewer rent and prepaid insurance, subject to apportionment on closing;
- (4) Proprietary leases made to its shareholders;
- (5) Leases, if any, for garage, ground floor rentable space, and laundry space;
- (6) Restrictive covenants and agreements of record and such state of facts which an accurate survey would show, provided that neither prevents the proposed use of the land and Building;
- (7) Zoning regulations;
- (8) Service contracts.

(b) Title policy insuring the fee equity in the Apartment Corporation in an amount of not less than \$2,650,000, subject to normal title exceptions which will not prevent the proposed use of the land and Building.

(c) Working capital of \$41,552 in cash or prepaid expenses.

(d) All of the authorized shares of the Apartment Corporation allocated to residential units and separate servants' rooms will be issued and outstanding and proprietary leases will have been executed with respect to each such apartment and separate servants' room.

(e) Assignment to the Apartment Corporation of all assignable guarantees.

(f) Guaranty by the Sponsor that if within one year from the date of the issuance of the permanent Certificate of Occupancy, it shall be notified in writing by registered or certified mail and addressed to the Sponsor by the Apartment Corporation of the existence of then known defects in the construction of the Building or in the installation or operation of the Building's mechanical equipment, which shall be due to improper workmanship or materials supplied by the Builder, the Sponsor, at its own cost and expense, shall repair and correct such defects.

(g) Certificate by the Architect and Consulting Architect that the Building has been erected and completed generally in accordance with the plans filed with the Agent, subject to such changes or omissions as may be permitted.

(h) Temporary Certificate of Occupancy for the Building and a \$50,000 escrow fund pending issuance of permanent Certificate of Occupancy.

(i) Management contract with Harris & Co., Inc., hereinafter described.

4. *Corporate details.* The Certificate of Incorporation of the Apartment Corporation provides among other things that its primary purpose is to provide homes for its shareholders, and that its shareholders, solely by reason of their ownership of shares in it, shall be entitled to proprietary leases entitling them to occupancy of apartment or servants' rooms in the Building to which their shares have been allocated. The Apartment Corporation shall have not less than three nor more than 11 directors.

The Bylaws of the Apartment Corporation provide among other things that the shares accompanying each proprietary lease shall be in the amount allocated to the particular apartment or servants' rooms described in such proprietary lease as shown in Schedule B; that the shares accompanying each proprietary lease shall be represented by a single certificate; that such shares shall not be sold or transferred except as an entirety to a person who has acquired such proprietary lease or new lease in place thereof with proper approval; and that the Apartment Corporation shall at all times have a lien upon the shares owned by each shareholder to secure his payment of all rent and maintenance charges to become payable by him under the provisions of the proprietary lease issued by the Apartment Corporation and at any time held by him and to secure his performance of all the covenants and conditions of the proprietary lease.

Each share certificate issued by the Apartment Corporation will contain reference to such restrictions upon the sale and transfer of shares and to such lien.

All shares shall have equal voting privileges of one vote per share. The Apartment Corporation will submit annual reports to all of its shareholders including an annual balance sheet and profit and loss statement, certified by an independent certified public accountant. Even if less than 51% of the shares are sold at the time the Plan is put into full force and effect, the Purchasers will have the right to elect a majority of the Apartment Corporation's directors.

5. *Proprietary lease.* The printed form of proprietary lease intended to be used has been prepared and is on file with the Agent. All proprietary leases of apartments and servants rooms in the Building will be in the same form, subject to the provisions of the proprietary lease regarding possible future changes therein. The term and accrual of rent under the proprietary lease will begin when the Building has been completed as hereinafter described. The term of the proprietary lease will expire September 30th in the year 2057, unless sooner terminated as provided in the proprietary lease. The Lessee may not sublet the apartment or assign the proprietary lease or sell the accompanying shares at any time, unless the terms and conditions of such sublease or assignment and the sublessee or the purchaser-assignee are first approved by the Board of Directors or shareholders of the Apartment Corporation. The proprietary lessee may pledge his shares and lease with the seller thereof or a bank or lending institution, but no assignment of the shares or lease shall be made on the Apartment Corporation's books except as above provided in the proprietary lease. In the event of such cancellation the lessee shall have no further rights or liabilities in or to the shares and proprietary lease and will receive no cash payment. Rent under the proprietary lease will be determined by apportioning among the proprietary lessees the cash requirements of the Apartment Corporation in amounts proportionate to the number of shares held. The shares and leases allocated to apartments taken by persons provided by the Sponsor may be assigned or such apartments may be sublet, subdivided, or combined without the Apartment Corporation's consent. Gas will be included in the annual maintenance charges, but electricity will be separately metered and charged to each proprietary lessee. This charge will include electricity for the fans in the units in the apartments which will circulate the warm or cooled air. Reference should, of course, be made to the printed form of the proprietary lease for the details of the features above mentioned

2-Forms Federal Taxes Affecting Real Estate [A]

and the other provisions thereof. As provided in the purchase agreement each Purchaser shall sign two copies of such lease after the Plan has been declared operative, one copy of which is to be for the Purchaser.

As more specifically set forth in the description of the Building, attached hereto, the apartments and servants' rooms will be delivered in white plaster and the painting, decorating, and installation of additional fixtures and equipment will be the obligation of the proprietary lessee to be performed by a contractor or contractors to be approved by the Sponsor. The Lessee shall continue to do his own painting and decorating and maintain the equipment in the apartment at his expense, as provided in the proprietary lease.

6. *Income tax deductions.* Section 216 of the Internal Revenue Code and Section 360 of the New York Tax Law allow certain income tax deductions to tenant-shareholders of cooperative housing corporations. The Apartment Corporation has been advised by counsel that the tenant-shareholders entitled to occupancy may deduct from their gross income for federal and New York State income tax purposes, their proportionate share of the interest with respect to the mortgage indebtedness and of the real estate taxes on the land and Building and paid by the Apartment Corporation, when 80% of the Apartment Corporation's gross income is derived from qualified tenant-shareholders. The estimated deduction at the inception of the Plan is as set forth in Schedule B. The exact amount of the actual tax savings to each individual will depend on the amount allowable by the Treasury Department and the New York Department of Taxation and Finance, and will further depend upon the tenant-shareholder's own income tax bracket. The Apartment Corporation, the Sponsor, the Agent, and counsel can make no warranties or representations that the United States Treasury Department or the New York Department of Taxation and Finance will allow the deductions, and they shall not be liable, if, for any reason, it is held that the Apartment Corporation does not meet, or at any future date ceases to meet, the requirements of the sections above enumerated, or any amendments thereof.

7. *Completion of building.* It is estimated that the Building will be completed and ready for occupancy on or about February 1, 2002, subject, of course, to delays by strikes, lockouts, government restrictions on operations or materials, or other causes beyond the control of the Sponsor, the Apartment Corporation, or the Builder. This Plan and all agreements shall continue in effect notwithstanding any such delays. The Building will be deemed completed as soon as all the following conditions are met:

- (a) The Department of Buildings of the City of New York has issued a temporary or permanent Certificate of Occupancy permitting the use for residential purposes of all of the apartments and servants' rooms to which shares are allocated, except for unsold apartments or where delayed for special work in individual apartments.
- (b) The financing has been completed as provided herein.
- (c) The Architect and Consulting Architect have certified to the Apartment Corporation and the Sponsor that the Building has been erected and completed substantially in accordance with the plans and specifications filed with the Agent and the general description of the Building, subject to such modifications and changes as may be permitted under this Plan, and the Building is ready for occupancy, except for special work in individual or unsold apartments, or such work in the public portions or rentable area of the Building as is customarily left uncompleted until after its occupancy.
- (d) Certification from the Sponsor to the Apartment Corporation that the completed Building has been fully paid for or adequate reserves have been made by the Sponsor for all unpaid items.

When the four events above mentioned have occurred, this shall be deemed and considered by all parties as conclusive proof that the Building has been fully completed in accordance with the provisions of any agreement or obligation of the Builder or the Sponsor, subject to their obligations as otherwise herein specifically provided. The sole obligation of the Builder or Sponsor is to complete the Building in accordance with the plans and specifications, as amended or modified, and as approved by the Architect and Consulting Architect.

2-Forms Federal Taxes Affecting Real Estate [A]

If title is transferred to the Apartment Corporation prior to the issuance of a permanent Certificate of Occupancy, the Apartment Corporation shall retain \$50,000 pending the issuance thereof.

8. *Plan in operation.* In order that the Purchasers as well as the Sponsor and the Apartment Corporation may have assurance that this Plan will be truly cooperative, the following safeguards have been established:

(a) The Sponsor will not declare the Plan operative unless and until contracts for the sale to Purchasers of at least 30% of the shares have been procured.

(b) The Sponsor agrees to declare the Plan operative when contracts for the sale to Purchasers of at least 65% of the shares have been procured.

(c) The Sponsor reserves the right to declare the Plan abandoned prior to the time the 65% quota described in subparagraph (b) above has been reached and the Plan has not previously been declared operative.

If the Plan is abandoned all Purchasers will be promptly notified and all moneys paid by them under their purchase agreements will be promptly returned by the Escrow Agent, without interest. The Sponsor has agreed that all such moneys will be repaid in full to the Purchasers in the event of abandonment.

If the Plan is declared operative, all Purchasers will be promptly notified. The Apartment Corporation shall call a meeting of all Purchasers in ample time before the completion of the Building so that they can receive a report on the estimated date of the Building's completion, select a Board of Directors in preparation for the passing of title, and attend to other organization matters.

9. *Purchase agreement and payments to sponsor.* A form of purchase agreement is annexed hereto as Exhibit I. When a prospective purchaser has indicated his decision to purchase the shares allocated to an apartment or servants' room, a form of purchase agreement in similar form will be prepared in duplicate for his signature. Such agreement will not be binding on the Apartment Corporation until accepted by it and approved by the Sponsor, in writing at the end thereof.

The Purchase Agreement will provide for the following payments: (a) a down payment of 10% of the purchase price of the shares as specified in Schedule B; (b) 40% thereof after the Plan has been declared operative and the Architect and Consulting Architect certify that the outside brick work has been completed, except such portions thereof as are customarily left to be completed after the interior portions are erected; (c) 30% thereof when the Architect and Consulting Architect certify that the white plaster in the apartments above the ground floor has been completed (except such portions thereof as are left incompleting due to individual tenant changes); and (d) the balance of 20% thereof when the Department of Buildings has issued a temporary certificate of occupancy. The Apartment Corporation or the Agent shall give purchasers not less than 15 days' prior written notice of the anticipated date for such payments. Prices of the several blocks of shares as shown on Schedule B, are subject to change or withdrawal at the Sponsor's direction without notice at any time, before acceptance by the Apartment Corporation of a purchase agreement for any such block of shares.

All payments are to be made by the Purchaser's personal check to the order of the Trust Bank of New York, as Escrow Agent. The proceeds are to be held in trust as required by law. The Sponsor and the Apartment Corporation have entered into an Escrow Agreement with the Trust Bank, a copy of which is attached hereto as Exhibit II, which provides that if the Plan is abandoned all moneys so deposited will be returned by the Escrow Agent to the several purchasers, without interest. After the Plan has been declared operative, the moneys received by the Escrow Agent from purchasers will be paid in the following installments:

(a) To the Sponsor, 80% of the moneys then or thereafter received by the Escrow Agent after the Architect and Consulting Architect have certified to the Apartment Corporation that the outside brick work has been completed,

except such portions as are customarily left to be completed after the interior partitions are erected.

If, after any such payments provided for above have been made, additional shares shall be sold and additional payments shall be received by the Escrow Agent, it shall pay to the Sponsor 80% of such additional funds.

(b) When the Architect and the Consulting Architect have certified to the Apartment Corporation that the Building has been erected and completed substantially in accordance with the plans and specifications, subject to such modifications and changes as may be permitted under the Plan, and all of the apartments and servants' rooms to which shares are allocated are ready for occupancy except for unsold apartments and special work in individual apartments, or such work in the public portions or rentable area of the Building as is customarily left uncompleted until after occupancy of the Building. Upon transfer of the land and completed Building to the Apartment Corporation, as acknowledged by it, the Escrow Agent shall pay the balance of the moneys received by it from Purchasers as follows:

(1) \$41,552 to the Apartment Corporation for its working capital.

(2) \$50,000 to the Apartment Corporation if the permanent Certificate of Occupancy has not then been issued.

(3) The balance of all moneys to the Sponsor.

The Apartment Corporation shall pay the Sponsor the \$50,000 referred to in (2) above when the permanent Certificate of Occupancy has been issued.

If the Plan is not declared operative by May 1, 1987, any Purchaser may, within 15 days thereafter, elect to cancel the purchase agreement by giving written notice to the Apartment Corporation. In the event of any such cancellation, the Purchaser shall receive back all moneys paid under any such purchaser agreement, without interest.

10. *Attorneys and architects.* The law firm of Ferris & Meyers has been retained to represent the Apartment Corporation in connection with the Plan and at the closing.

The Sponsors are being represented by Arnold Josephs, Esq.

James Hoe and Associates have been retained as the Architect for the Building.

William Bender has been retained as Consulting Architect for the Apartment Corporation to check on the construction of the Building and to certify as to its completion.

If the Architect, Consulting Architect, or Agent above named shall cease to act in such capacity the Sponsor and the Apartment Corporation may appoint a substitute or substitutes.

11. *Management.* The Apartment Corporation will enter into an agreement with Harris & Co., Inc., for it to act as Managing Agent of the Building for a period of five years commencing from the date on which it is completed and ready for occupancy. The Agent may not cancel, renew, or assign the management contract except with the Apartment Corporation's written consent. The Agent will receive an annual fee of \$12,000. The Managing Agent's services shall include the billing and collection of rent, the hiring of help, and the operation of the Building, all under the supervision of the Apartment Corporation's Board of Directors, and the other usual services rendered by managing agents of cooperative apartment house buildings. The officers and employees of the Agent who will handle the moneys received from purchasers are bonded.

The only interest of Harris & Co., Inc. in the successful consummation of this Plan is as follows:

2-Forms Federal Taxes Affecting Real Estate [A]

If the Plan is put into effect it will receive from the Sponsors a commission of 4% of the funds paid by Purchasers for the purchase of shares under this Plan and a management fee from the Apartment Corporation as above provided.

It has no other financial interest and acts merely as Agent under this Plan, which has been formulated and issued by the Sponsor and Apartment Corporation.

The Agent has been in the real estate business since 1930 and manages many buildings in the area.

12. *Parties and agreements.* As hereinbefore stated the Sponsor is Ace Realty Corp., with its principal office at 600 First Avenue, New York, New York. It is a publicly owned corporation which has shares listed on the American Stock Exchange. Harvey Price is President and a director, William Price is a director, and Benjamin Green is Vice President and a director. The Sponsor owns all of the shares of Ace Builders, Inc., the Builder named in the Plan. The Sponsor or its subsidiaries or predecessor companies have been in the building business for over 25 years, and they have built or caused to be built many residential apartment house buildings.

The land was acquired in November, 1994, by the Builder at a cost of \$825,000 plus accrued expenses, and the construction work is on an actual cost basis plus the builder's fee of \$250,000. The Builder will receive a profit in the form of a \$750,000 second mortgage or junior participation, previously described. This mortgage is self-liquidating in approximately 41 years.

The Apartment Corporation was organized on September 14, 1999, and the incorporators and directors are: James Ferris, William Meyers, and Allen Pace. They are partners or employees of the law firm of Ferris & Meyers. They are only acting temporarily as nominees of the Sponsor and upon transfer of title of the land and completed Building to the Apartment Corporation will resign in favor of directors to be elected by the tenant-shareholders who in turn will elect officers. James Ferris, William Meyers, and Allen Pace have no financial interest in the Sponsor or the Cooperative Plan, and will receive no compensation for acting as the Apartment Corporation's officers and directors. The Apartment Corporation will be under the Sponsor's control up until the time the plan is put into full force and effect.

The Sponsor, as Seller, and the Apartment Corporation, as Buyer, have entered into a contract of sale which embodies the provisions of this Cooperative Plan, and the Sponsor agrees to comply with all of their obligations as set forth herein or therein. The Sponsor will cause the Building to be erected and will pay the full cost thereof.

13. *Schedules and exhibits.* Annexed hereto are the following:

--General description
of Building.

--Schedule A-- Estimated annual income and expenses.

--Schedule B-- Description of apartments, share allocations, selling prices and additional equity payments, estimated annual maintenance charges, estimated annual tax deductions, and other data.

--Exhibit I-- Purchase Agreement.

--Exhibit II-- Escrow Letter.

Copies of the contract of sale between the Sponsor and the Apartment Corporation, plans and specifications, the management contract, the proprietary lease, the Certificate of Incorporation and Bylaws of the Apartment Corporation

2-Forms Federal Taxes Affecting Real Estate [A]

are on file with the Agent and may be examined by prospective purchasers.

The estimates in Schedules A and B have been prepared by the Agent based on past experience with cooperative buildings of a substantially similar type. The estimates are believed to be correct and dependable. However, they are not intended to be representations, guaranties, or warranties of any kind whatsoever, including, without limitation, that the actual expenses or income for any period of operation may not vary from the amounts shown or that the Apartment Corporation may not incur additional expenses, or its Board of Directors may not provide for reserves not reflected in such schedules, or that the annual maintenance charges for any period of the proprietary leases may not vary from the amounts shown on Schedules A and B due to economic conditions, increased taxes or wages, or other causes. The Agent is not a builder, engineer, or architect, and assumes no responsibility with respect to the building plans or specifications, the general description thereof as hereinafter set forth, the equipment, materials, decoration, workmanship, or completion of the Building.

Any information, data, or representation not referred to in this plan or contained in the various documents mentioned herein must not be relied upon. There are no suits pending or judgments outstanding against any party mentioned herein which might become a lien against the property.

No person has been authorized to make any representations other than those set forth herein. This Plan may not be modified orally. This offer is made only to individuals over the age of 21 years who are residents of the State of New York.

This plan does not omit any material fact or contain any untrue statement of a material fact.

Dated: April 1, 2001, New York, New York

Ace Realty Corp., Sponsor

by _____

President

General Description of Building to Assist in the Examination of Plans and Specifications

The Skyline will be a 20-story and penthouse apartment building. It will be of fireproof construction, having reinforced concrete floors, columns, and beams. The exterior walls will be of glazed brick, backed up with cinder block, forming a cavity wall as shown on plans. The exterior of the building will be so designed as to create a pleasing architectural effect. The first floor of the 68th Street facade will be treated with granite plus other ornamentation as designed by the Architect. (Here follows detailed description of important features of the building including: entrances, basement, plumbing, heating, ventilating, cooling, electrical work, plastering, partitions, roofing, gas, electricity, elevators, telephone system, windows, railings, floors, bathrooms, kitchens, doors, trim, closets, painting, mail chute, venetian blinds, and laundry.)

Schedule A Estimated Annual Income and Expenses for First Year of Operation

Estimated Maintenance (60,080 Shares at \$7.40 per share)	\$444,592.00
Estimated Rent from Garage and Ground Floor Space (West of Entrance)	12,700.00

\$457,292.00

Operating:

Management	10,000.00

\$136,400.00

Mortgage Indebtedness--

Interest:--

Accrued	17,700.00	21,500.00	\$150,000.00

2-Forms Federal Taxes Affecting Real Estate [A]

.....

Amortization:

1st Mortgage	\$ 40,200.00		
Less Accrued Interest added	17,700.00	22,500.00	\$172,500.00(***)
to 2nd Mortgage			
Estimated Contingency Reserve		\$ 14,392.00	
TOTAL ESTIMATED EXPENSES			\$457,292.00
.....			

(*) There will be 24-hour doorman service. Passenger elevators to be operated by tenant-owners but a day and evening hallman will be available to assist tenant-owners. Service car is to be manned during operation--Monday through Saturday.

(**) The figure given above is an estimate of real estate taxes for a full year after both the land and the completed building have been assessed. The full assessment of the land and building will probably not be determined by the Tax Commission of the City of New York until after the consummation of the Plan.

(***) This payment remains constant during term of mortgage, but portion allocable to interest decreases and amortization increases as mortgage is reduced.

A.15 Certificate of incorporation--New York corporation

COMMENT

This form illustrates a certificate of incorporation for a cooperative corporation organized under the Business Corporation Law of New York. The information to be included in any certificate of incorporation will, of course, vary with the requirements of local law. However, the particular characteristics of a real estate cooperative corporation will dictate the inclusion of certain provisions regardless of the state of incorporation. Obviously, the certificate should not contain provisions which would result in loss of the tax benefit.

This certificate, therefore, provides for only one class of shares. In addition, the purpose clause makes it clear that shareholders shall be entitled solely by reason of their ownership of shares to proprietary leases permitting them to occupy the dwelling units of the cooperative. The statutory requirement prohibiting distributions to shareholders is taken care of in the corporate bylaws (see Form A.16). Certain other provisions in the certificate are indigenous to the cooperative corporation: a statement that the primary purpose is to provide homes for shareholders under proprietary leases; a broad statement of purposes with respect to the purchase of land, construction of buildings, and acquisition of personal property necessary to the operation of apartments; and a provision that the corporation may withhold its consent to a transfer of shares by a shareholder if he is in default on any indebtedness to the corporation.

For further information, see Chapters 9 and 16.

FORM

Certificate of Incorporation of Skyline Apartments, Inc.
Under Section 402 of the Business Corporation
Law of the State of New York

We, the undersigned, for the purpose of forming a business corporation pursuant to the provisions of the Business Corporation Law of the State of New York, do hereby certify:

1. *Name.* The name of the Corporation shall be

Skyline Apartments, Inc.

2. *Purposes.* The purposes for which it is to be formed are:

(a) To acquire by purchase, lease, or otherwise the land and building or buildings erected or to be erected thereon at 500 East 68th Street, New York, New York; to demolish existing building or buildings; to erect a new building or buildings; to hold, operate, manage, sell, or exchange and lease the same and the several parts and apartments in any building thereon, and in any replacement thereof, or additions thereto; to do and transact all other lawful business incident to, necessary, and suitable or advisable for, or in any way connected with, such purposes for which the Corporation is formed as above set forth. The primary purpose of this Corporation is to provide homes for its shareholders by leasing to them, under leases now commonly known as proprietary leases, apartments in the building or buildings on such premises, and all of its shareholders shall be entitled solely by reason of their ownership of shares in the Corporation to proprietary leases, entitling them to occupy for dwelling purposes apartments in the building or buildings.

(b) To acquire, by purchase, lease, or otherwise, own and possess any other lands and premises and any interest or rights therein or thereto appertaining, with the buildings and improvements thereon erected to be used incidental and appurtenant to such premises, 500 East 68th Street, New York, New York, and to improve, rebuild, manage, and operate any such property or properties; to rent, lease, and sublease apartments to its shareholders and to others upon such terms and for such periods as any individual might or could; to procure the necessary permits or licenses from municipal authorities for the operation of apartment houses and to do and perform every act required by law to be done or performed in the maintenance and operation of any type of apartment house; to maintain and operate the necessary conveniences, such as elevators, lighting, and heating, as may be required in the proper operation of any apartment house; to mortgage or otherwise encumber its real property and improvements thereon and equipment thereof; to sell, exchange, or otherwise transfer, convey, or dispose of real estate, in whole or in part, or lease the same in whole or in part, for cash or by taking purchase money bonds and mortgages in payment therefor or for valuable consideration of any character; to buy, sell, and deal in bonds and loans secured by mortgages; and generally to deal with and act in relation to such real estate and any and every part thereof and to the fullest extent that a corporation organized under the Business Corporation Law is lawfully empowered to do.

(c) To acquire by purchase, or lease, or by way of a secured transaction or otherwise, any personal property necessary or proper or useful in the equipment, furnishing, improvement, development, operation, or management of any such buildings and to trade and deal in any personal property beneficial to the Corporation, and to enter into security agreements in connection with, pledge, sell, let, or otherwise dispose of any personal property at any time owned or

held by the Corporation.

(d) To purchase, acquire, hold, and dispose of corporate shares of rights to subscribe thereto, bonds and other evidences of indebtedness of any corporation, domestic or foreign, and to issue in exchange therefor its shares, bonds, or other obligations; to possess and exercise in respect thereto all the rights, powers, and privileges of individual holders or owners thereof; and to exercise any and all voting power thereon, to purchase, hold, and reissue its own shares, insofar as permitted by law, and to purchase and hold its own bonds and to take and acquire, and hold or sell and dispose of bonds and mortgages and assignments thereof.

(e) To borrow money, to make and issue promissory notes, bills of exchange, bonds, debentures, and obligations and evidences of indebtedness of all kinds, whether secured by mortgage, pledge, security agreement, or otherwise, without limit as to amount and to secure the same by mortgage, security agreement, or pledge of its property or otherwise, provided the same is permitted by the Business Corporation Law of the State of New York.

(f) To compromise or settle all claims, debts, leases, tenancies, or occupancies asserted by or against the Corporation.

(g) To do all and everything necessary, suitable, convenient, or proper for the accomplishment of any one or more of the objects herein enumerated, or incidental to the powers herein named, or which at any time appear conducive or expedient for the protection or benefit of the Corporation, either as holders of, or as interested in any property or otherwise, with all the powers now or hereafter conferred by the laws of the State of New York upon corporations incorporated under the Business Corporation Law.

(h) The foregoing clauses shall be construed both as objects and powers. It is hereby expressly provided that the foregoing enumerations of specific powers shall not be held to limit or restrict in any manner the powers of the Corporation.

3. *Authorized shares.* The Corporation may issue a total of 65,000 shares, each with a par value of \$1, all of which shall be common shares. These shares shall be issued only in connection with the purchaser's and Corporation's execution and delivery of a proprietary lease of an apartment or apartments in a building owned or leased by the Corporation.

4. *Office.* The office of the Corporation shall be located at 500 East 68th Street, City, County, and State of New York.

5. *Agent for service of process.* The Secretary of State of the State of New York is hereby designated as the agent of the Corporation upon whom process in any action or proceeding against it may be served. The address within the State to which the Secretary of State shall mail a copy of process in any action or proceeding against the Corporation which may be served upon him is 500 East 68th Street, New York, New York.

6. *Restriction on transfer of shares.* If a shareholder shall be indebted to the Corporation, the directors may refuse to consent to a transfer of his shares until such indebtedness is paid, provided a copy of this section or the substance thereof is written or printed upon the share certificate.

7. *Salaries.* No salary or other compensation shall be paid to any director or officer of the Corporation for services rendered in that capacity unless and until it shall have been approved in writing or by affirmative vote taken at a duly held shareholders' meeting by the record holders of at least two-thirds of the Corporation's then outstanding shares.

8. *Contracts.* No contract or other transaction between the Corporation and any other corporation shall be affected by the fact that the Corporation's directors are interested in or are directors or officers of such other corporation, and any director individually may be a party to or may be interested in any contract or transaction of the Corporation. No contract or other transaction of the Corporation with any person or persons, firm, or association shall be affected by the fact that any of its directors may be a party or parties to or interested in any contract or transaction with such person or

2-Forms Federal Taxes Affecting Real Estate [A]

persons, firm, or association; provided that the director's interest in any such transaction or other contract shall be fully disclosed. Each and every person who may become a director of the Corporation is hereby relieved from any liability which might otherwise exist from contracting with the Corporation for his benefit or that of any firm, association, or corporation in which he may in any way be interested.

9. *Subscription for unissued shares.* No holder of any shares now or hereafter issued by the Corporation shall be entitled as a matter of right to subscribe for or purchase any part of its unissued shares of any class whatsoever or to subscribe for or purchase any additional shares, whether common, preferred, or of any other class, to be issued by reason of any increase in its authorized shares, or to subscribe for or purchase any bonds, certificates or indebtedness, debentures, or other securities, convertible into shares of the Corporation. Any and all such unissued shares and such additional authorized issuance of new shares and such securities convertible into shares may be issued, allotted, and disposed of to such persons, firms, corporations, or associations and for such lawful consideration, and upon such terms, as the Board of Directors may deem advisable and for the best interests of the Corporation.

10. *Incorporators.* All of the incorporators are natural persons over the age of 21 years.

In witness whereof the incorporators have signed and acknowledged this Certificate this 14th day of September, 1999.

A.16 Bylaws of cooperative corporation

COMMENT

In addition to defining the intracorporate procedures found in the usual corporate bylaws, those of a cooperative corporation must contain special provisions relating to the problems inherent in the cooperative purpose of the organization. Thus, the board of directors is granted the power to fix the annual cash requirements of the cooperative which in turn will establish the rental payments to be made by the tenant-shareholders; the power to adopt a form of proprietary lease; the power to determine the number of shares to be allocated to each apartment; and the power to subdivide and regroup space at the request of one or more owners. Corporate shares may be issued only in connection with the execution of proprietary leases, and the ownership of the shares entitles the shareholder to occupy a specified apartment for dwelling purposes. No shareholder is entitled, either conditionally or unconditionally, except upon a complete or partial liquidation of the corporation, to receive any distribution not out of the earnings and profits of the corporation. These latter provisions are designed to secure the tax benefit for the tenant-shareholders (see comment on Form A.14). The corporation is given a lien on its shares to secure the payment of rent and compliance with the terms of the proprietary leases, but this lien is subordinate to any lien to secure payment of the purchase price of the shares.

For further information, see Chapters 9 and 16.

FORM

Bylaws of Skyline Apartments, Inc. Article I Meetings of Shareholders

1. *Annual meeting.* The annual meeting of the Corporation's shareholders, for the election of directors and for such other business as may properly come before such meeting, shall be held in the Borough of Manhattan, at 5 p.m. on the first Monday of May of each year commencing with the year 2000. If that day is a legal holiday, however, the meeting shall be held on the first day thereafter not a legal holiday. The notice of the meeting shall be in writing and signed by the President or a Vice President or the Secretary or an Assistant Secretary. Such notice shall state the purpose or purposes for which the meeting is called and the time when and the place within the state where it is to be held. A copy thereof shall be served, either personally or by mail, upon each shareholder of record entitled to vote at such meeting, not less than ten nor more than 40 days before the meeting.

2. *Special meetings.* The President or Secretary, or a majority of the Board of Directors, may at any time call special meetings of shareholders, other than those regulated by statute. The Secretary shall also call a special meeting whenever so requested in writing by shareholders of record of at least one-quarter of the outstanding shares. A notice of each special meeting, stating its time, place, and purpose and the officer or other person or persons by whom the meeting is called, shall be served, either personally or by mail, on each shareholder of record, at least ten days before such meeting. No business other than that stated in the notice shall be transacted at any special meeting unless the holders of record of all the Corporation's outstanding shares are present in person or by proxy.

3. *Waiver of mailing of notice.* The notice provided for in the two foregoing sections is not indispensable. Any shareholders' meeting whatever shall be valid for all purposes if the shareholders of record of all the Corporation's outstanding shares are present in person or by proxy, or if a quorum is present as provided in the next succeeding section and notice of the time, place, and purpose of such meeting has been duly waived in writing by all shareholders not so present. Any notice to be served upon a shareholder by mail shall be directed to him at his address as it appears on the Corporation's books unless the shareholder shall have filed with the Secretary of the Corporation a written request that notices intended for him be mailed to some other address, in which case it shall be mailed to the address designated in such request.

4. *Quorum.* At all meetings of shareholders, in order to constitute a quorum and to permit the transaction of any business, except to adjourn a meeting, there shall be present, either in person or by proxy, holders of record of a majority of the Corporation's outstanding shares.

5. *Voting.* Each shareholder of record shall be entitled at each shareholders' meeting to one vote, in person or by proxy, for each share standing in his name on the Corporation's books at the time of the meeting. All proxies shall be in writing and shall be filed with the Secretary at or before the time of the meeting. All voting shall be viva voce, except that any qualified voter may demand a ballot vote, in which case the voting shall be by ballot. Each ballot shall state the name of the shareholder voting and the number of shares owned by him, and in addition the name of the proxy, if such ballot is cast by a proxy.

6. *Inspectors of election.* Inspectors of election shall not be required to be appointed at any meeting of shareholders unless requested by a shareholder present (in person or by proxy) and entitled to vote at such meeting. Upon the making of such request inspectors shall be appointed or elected as provided in the applicable statute.

7. *Order of business.* The regular order of business for the annual meeting of shareholders, and for each special meeting to the extent such order is applicable, shall be as follows:

(a) Roll call.

2-Forms Federal Taxes Affecting Real Estate [A]

- (b) Presentation of notice of the meeting and proof of service, or waiver of notice.
- (c) Reading of minutes of preceding shareholders' meeting.
- (d) Reports of officers.
- (e) Reports of committees.
- (f) Appointment or election of inspectors of election, if requested.
- (g) Election of directors for ensuing year.
- (h) Miscellaneous business.

Article II Directors

1. *Election and term.* Directors shall be elected at the annual meeting of shareholders, or at a special meeting called for that purpose as provided by law, by a plurality of the votes cast at such election. Directors shall serve until the date herein fixed for the next annual meeting of shareholders and until the election of their respective successors. Directors need not be shareholders.

2. *Vacancies.* Vacancies in the Board of Directors resulting from death, resignation, or removal may be filled without notice to any of the shareholders by a vote of a majority of the remaining directors present at the meeting at which such election is held even though no quorum is present. Such vote may be at any regular meeting of the Board of Directors or any special meeting thereof called for such purpose. Vacancies in the Board of Directors resulting from an increase in its size shall be filled in the manner provided in the resolution increasing its size. If all the directors die or resign, any shareholder may call a special meeting of the shareholders as provided herein, at which directors for the unexpired term may be elected in the manner provided for their election at annual meetings. If any director, by ceasing to be a resident of the State of New York, reduces the number of such residents remaining on the Board to less than one, he shall be deemed to have resigned and his place shall be vacant.

3. *Removal.* Any director may be removed from office without cause by the Corporation's shareholders at a meeting duly called for that purpose.

4. *Meetings.* The Board of Directors shall hold its annual meeting immediately after the annual meeting of shareholders, without notice. It shall hold a special meeting whenever called together by the President or by a Vice President, or, after written request of any two directors then holding office, by any other officer, upon two days' written notice to each director served in person or by mailing the same to him at the last address furnished by him to the Corporation. Any meeting of the Board at which all the directors are present, or of which notice has been duly waived by all absentees, shall be valid for all purposes provided a quorum is present. A majority of the directors shall constitute a quorum. Meetings of the Board shall be held at such place within the City of New York as is specified in the notice calling the meeting. At meetings of the Board, each director shall be entitled to one vote.

5. *Annual budget.* In furtherance of the definitions and provisions of the proprietary leases entered into by the Corporation with its shareholders, the Board of Directors shall determine the cash requirements, as defined therein, and shall likewise fix the terms and times of payment of the rent due from shareholders who are lessees under such proprietary leases to meet such cash requirements. The Board of Directors shall have discretionary power to prescribe the manner of maintaining and operating the Corporation's apartment building, and any other premises acquired by the Corporation by purchase or otherwise, and to determine the foregoing cash requirements. Every such determination by

2-Forms Federal Taxes Affecting Real Estate [A]

the Board shall be final and conclusive as to all shareholders who are lessees under proprietary leases. All expenditures made by the Corporation's officers or agents under the direction or with the approval of the Board shall, as against such shareholders, be deemed necessarily and properly made for such purposes. The operating year of the Corporation shall be the calendar year.

6. *Distributions.* The Board of Directors shall by vote declare dividends from the surplus profits of the Corporation whenever in their opinion the condition of its affairs will render it expedient for such dividends to be declared. The shareholder shall not, either conditionally or unconditionally, except upon a complete or partial liquidation of the Corporation, receive any distribution not out of the Corporation's earnings and profits.

7. *House rules.* The Board of Directors may make and change the house rules applicable to the Corporation's apartment building whenever the Board deems it advisable so to do. All house rules shall be binding upon all tenants and occupants of the apartment building.

8. *Executive committee.* The Board of Directors may by resolution appoint an executive committee to consist of three or more Directors of the Corporation. Such committee shall have and may exercise all of the powers of the Board in the management of the Corporation's business and affairs during the intervals between the meetings of the Board, so far as may be permitted by law. The Executive Committee, however, shall not have power to determine the cash requirements defined in the proprietary leases, to fix the rent to be paid under the proprietary leases, or to vary the terms of payment thereof as fixed by the Board.

Article III Officers

1. *Election and removal.* The Board of Directors at its first meeting and at each annual meeting shall elect by a majority vote, a President and one or more Vice Presidents, a Secretary, and a Treasurer. The Board may also at any time appoint one or more Assistant Secretaries or Assistant Treasurers and accord to such assistant officers such powers as it deems proper. Any person otherwise qualified may hold any two offices. Each officer shall serve until the next annual meeting of the Board and until the election or appointment of his respective successor. Any officer, however, may be removed from office at any time, and a successor chosen, at the Board's pleasure, upon affirmative vote, taken at any meeting, by a majority of the then total authorized number of directors.

2. *President and vice president.* The President shall preside at meetings of shareholders and of the Board of Directors. He shall, subject to the control of the Board: have general management of the Corporation's affairs; perform all the duties incidental to his office or prescribed for him by these Bylaws or the Board; and make and sign in the Corporation's name all contracts, leases, and other instruments that the Board may from time to time authorize. If the President shall be absent or unable to perform these duties, any Vice President shall have his powers and perform his duties. A Vice President shall at all times have power to make and sign proprietary leases in the Corporation's name.

3. *Secretary.* The Secretary shall keep and record, in proper books provided for the purpose, the minutes of meetings of the Board of Directors and of the shareholders, record all transfers of stock and cancel and preserve certificates of the shares so transferred, and keep such other records as the Board shall require. He shall attend to the giving and serving of notices of the Corporation, have custody of the corporate seal, and affix the same to the share certificates and to instruments required by law or by these Bylaws or authorized by the Board. He shall also perform all other duties incidental to his office. He shall keep a book, to be known as the share book, containing the names, alphabetically arranged, of all persons who are shareholders of the Corporation, showing their places of residence, the number of shares held by them respectively, the time when they respectively became the owners thereof, the amount paid thereon, and the denomination and amount of all transfer stamps affixed thereto. The share book shall be open daily, during at least three business hours, for inspection by any judgment creditor of the Corporation, by any person who shall have been a shareholder of record for at least six months immediately preceding his demand, or by any person holding, or

2-Forms Federal Taxes Affecting Real Estate [A]

thereunto in writing authorized by the holders of, at least 5% of all the outstanding shares. Persons so entitled to inspect the share book may make extracts therefrom. If the Secretary shall be absent or unable to perform these duties, the Assistant Secretary shall have all his powers and perform all his duties.

4. *Treasurer.* The Treasurer shall, subject to the Board's control, have the care and custody of, and be responsible for, all funds and securities of the Corporation and shall keep the same in its name in such banks, trust companies, or safe deposit companies as the Board shall designate, and shall perform all other duties incidental to his office, or prescribed for him by these Bylaws or by the Board. If so required by the Board, he shall, before receiving any such funds or securities, furnish to the Corporation a bond with a surety company as surety, in such form and amount as the Board from time to time shall determine. The premium upon such bond shall be paid by the Corporation. Within a reasonable time after the close of each year ending December 31st, the Treasurer shall furnish to each shareholder who is a lessee under a proprietary lease then in force a statement of the Corporation's income, expenses, and paid-in surplus during such year. The statement shall indicate the portions of the rent paid by such shareholder under his proprietary lease during such year which the Corporation has used to pay real estate taxes and interest on its mortgage or other indebtedness. If the Treasurer shall be absent or unable to perform these duties, the Assistant Treasurer shall have all his powers and perform all his duties.

5. *Salaries.* No director or officer of the Corporation shall be paid a salary or other compensation for his services in that capacity unless and until such payment shall have been authorized in writing or by affirmative vote, taken at a duly held shareholders' meeting, by the record holders of at least two-thirds of the Corporation's then outstanding shares.

Article IV Proprietary Leases

1. *Form.* The Board of Directors shall adopt a form of proprietary lease to be used by the Corporation for the leasing of all apartments and extra servants' rooms, if any, in the apartment building to be leased to shareholders under proprietary leases. Such proprietary leases shall be for such terms, with or without provisions for renewals, and shall contain such restrictions, limitations, and provisions in respect to the assignment thereof, the subletting of the premises demised thereby, and the sale or transfer of the shares of the Corporation accompanying the same, and such other terms, provisions, conditions, and covenants, as the Board deems advisable. After the Corporation has executed and delivered a proprietary lease in the form so adopted by the Board of Directors, all proprietary leases subsequently executed and delivered shall be in the same form (except with respect to the statement as to the number of shares owned by the lessee), unless the variation is approved by lessees owning at least two-thirds of the Corporation's shares then owned by all lessees under proprietary leases then in force.

2. *Assignment.* Proprietary leases shall be assigned or transferred only in compliance with, and shall never be assigned or transferred in violation of the terms, conditions, and provisions of, such proprietary leases. A duplicate original of each proprietary lease shall always be kept on file in the office of the Corporation or with the managing agent of the apartment building.

3. *Accompanying shares.* The Board of Directors shall allocate to each apartment or extra servant's room to be leased under a proprietary lease the number of the Corporation's shares that must be owned by the proprietary lessee thereof. If the size of any such apartment or extra servant's room is changed from that shown on the typical plan thereof, the number of shares so allocated to such apartment or extra servant's room and to any other apartment or extra servant's room affected by such change shall be ratably and correspondingly changed by the Board.

4. *Regrouping of space.* The Board of Directors, upon the written request of the owner or owners of one or more proprietary leases covering one or more apartments or extra servants' rooms in the apartment building and of the shares issued to accompanying the same, may in its discretion, at any time, permit such owner or owners, at his or her own expense: (1) to subdivide or combine all or any portions of any such apartment or apartments or extra servants' rooms

2-Forms Federal Taxes Affecting Real Estate [A]

into one or any desired number of apartments or extra servants' rooms, (2) to convert all or any portion of any such apartment into extra servants' rooms or into a suite or suites of extra servants' rooms, and (3) to reallocate the shares issued to accompany the proprietary leases, in such proportions as such owners request and the Board approves, provided only that (a) the total number of the shares so reallocated is not less than the shares previously allocated, and (b) the proprietary leases so affected and the accompanying share certificates are surrendered, and that there are executed and delivered in place thereof, respectively, a new proprietary lease for each separate apartment, extra servant's room, or suite of extra servants' rooms so created and a new share certificate for the number of shares so reallocated to each such new proprietary lease.

5. *Fees on assignment.* The Board of Directors may fix by resolution and collect, before any assignment of a proprietary lease or any reallocation of shares takes effect as against the Corporation as lessor, reasonable fees to cover the Corporation's expenses and attorneys' fees in connection with such proposed assignment or reallocation, or both, as the case may be.

6. *Lost proprietary leases.* If any proprietary lease in full force and effect shall be lost, stolen, destroyed, or mutilated, the Board of Directors may authorize the issuance of a new proprietary lease in lieu thereof, in the same form and with the same terms, provisions, conditions, and limitations. The Board may, in its discretion, before the issuance of such new proprietary lease, require the owner of the lost, stolen, destroyed, or mutilated proprietary lease, or the owner's legal representative, to make an affidavit or affirmation setting forth such facts as to the loss, destruction, or mutilation as it deems necessary, and to give the Corporation a bond in such reasonable sum as it directs, to indemnify the Corporation.

Article V

Corporate Shares

1. *Issuance of shares.* Shares of the Corporation shall be issued only in connection with the execution and delivery by the lessee and the Corporation of a proprietary lease of an apartment in the building owned or leased by the Corporation. The ownership of the shares so issued shall entitle the holder thereof to occupy for dwelling purposes the apartment specified in the proprietary lease so executed and delivered in connection with the issuance of such shares, subject to the covenants and agreements contained in such proprietary lease.

2. *Share certificates.* Certificates for the Corporation's shares shall be in the form prescribed by the Board of Directors. Such certificates shall be signed by the President or a Vice President and the Secretary or an Assistant Secretary or the Treasurer or an Assistant Treasurer, and sealed with the seal of the Corporation, and shall be numbered in the order in which issued. Certificates shall be bound in a book and issued in consecutive order therefrom, and in the margin or stub thereof shall be entered the name of the person holding the shares therein represented, the number of shares, and the date of issue. Each certificate exchanged or returned to the Corporation shall be cancelled, and the Secretary shall indicate the date of cancellation thereon. Such certificate shall be immediately pasted in the certificate book opposite the memorandum of its issue.

3. *Transfer.* Transfers of shares shall be made only upon the books of the Corporation by the holder in person or by power of attorney, duly executed and witnessed and filed with the Secretary, and on the surrender of the certificate of such shares, except that shares sold by the Corporation to satisfy any lien which it holds thereon may be transferred without the surrender of such certificate. No transfer of shares shall be valid as against the Corporation, its shareholders, and creditors for any purpose until it shall have been entered in the share book by an entry showing from whom and to whom transferred.

2-Forms Federal Taxes Affecting Real Estate [A]

4. *Units of issuance.* Shares issued to accompany each proprietary lease shall be issued in the amount allocated by the Board of Directors to the apartment or extra servant's room or suite of extra servants' rooms described in such proprietary lease. Unless and until all proprietary leases which have been executed by the Corporation shall have been terminated, the shares which accompany each proprietary lease shall be represented by a single certificate. These shares shall not be sold or transferred except to the Corporation or as an entirety to a person who has acquired such proprietary lease, or a new one in place thereof, after complying with and satisfying the requirements of such proprietary lease in respect to its assignment.

5. *Fees on transfer.* The Board of Directors may fix by resolution and collect, before the transfer of any shares, reasonable fees to cover the Corporation's expenses and attorneys' fees in connection with such proposed transfer.

6. *Corporation lien.* The Corporation shall at all times have a lien upon the shares owned by each shareholder to secure the payment of all rent to become payable by such shareholder under the provisions of any proprietary lease issued by the Corporation and at any time held by such shareholder and for all other indebtedness from such shareholder to the Corporation, and to secure the performance of all the covenants and conditions of such proprietary lease to be performed or complied with by the shareholder. Unless and until such shareholder or lessee makes default in the payment of any such rent or other indebtedness or in the performance of any such covenant or condition, such shares shall continue to stand in the name of the shareholder upon the Corporation's books and the shareholder shall be entitled to exercise the right to vote thereon. The Corporation may issue to any purchaser of such shares upon its enforcement of such lien, or to the nominee of such purchaser, a certificate of the shares so purchased substantially of the tenor of the certificate issued to such defaulting shareholder. Thereupon the certificate for such shares issued to such defaulting shareholder shall become void and such defaulting shareholder shall surrender the same to the Corporation on demand. The defaulting shareholder's failure so to surrender such certificate, however, shall not affect the validity of the certificate issued in replacement thereof.

7. *Lost certificates.* If any share certificate shall be lost, stolen, destroyed, or mutilated, the Board of Directors may authorize the issuance of a new certificate of the same tenor and for the same number of shares in lieu thereof. The Board may in its discretion, before the issuance of such new certificate, require the owner of the lost, stolen, destroyed, or mutilated certificate, or the owner's legal representative, to make an affidavit or affirmation setting forth such facts as to the loss, destruction, or mutilation as it deems necessary, and to give the Corporation a bond in such reasonable sum as it directs, to indemnify the Corporation.

Article VI Seal

The seal of the Corporation shall be in the form of a circle, and shall bear its name, the year of its incorporation, and the words "Corporate Seal, New York."

Article VII Checks, Notes, Etc.

1. *Signatures on checks.* Checks drawn against the Corporation's deposit accounts with banks or trust companies shall be signed by such officer or officers, or employee or employees, as the Board of Directors may from time to time prescribe.

2. *Signatures on notes and bonds.* The Corporation's promissory notes and bonds shall be signed by any two officers who the Board of Directors shall from time to time designate for that purpose.

3. *Safe deposit boxes.* Any officer or officers who, from time to time, the Board of Directors shall designate for that purpose shall have access to any safe deposit box of the Corporation in the vault of any safe deposit company.

4. *Securities.* Any officer or officers who, from time to time, the Board of Directors shall designate for that purpose shall have power to control and direct the disposition of any bond or other security or property of the Corporation deposited in the custody of any bank, trust company, or other custodian.

Article VIII Amendments

These Bylaws may be amended at any shareholders' meeting provided that the proposed amendment has been inserted in the notice of meeting or that all of the shareholders are present in person or by proxy. These Bylaws may also be amended at any directors' meeting provided that the proposed amendment has been inserted in the notice of the meeting and that at least two-thirds of the then authorized total number of directors shall be present at such meeting. The shareholders, however, may at any time rescind, repeal, or amend any Bylaw adopted by the Board of Directors.A.17
Proprietary lease

COMMENT

A distinctive feature of a proprietary lease for a cooperative apartment is that the lessee's "rent" consists of a proportionate share of the cash requirements as determined annually by the board of directors. The proportionate share of each lessee depends upon his percentage of ownership of the total outstanding shares of the cooperative corporation. Most proprietary leases extend for a long term, usually between 30 and 50 years. In this form the lessee may cancel the lease as of September 1 of any year after the second year by giving notice on or before the preceding April 1.

The tenant's responsibility for repairs is usually broader under proprietary leases than under other types of leases. Thus, the lessee is responsible under this lease for the maintenance or replacement in his apartment of plumbing fixtures, lighting fixtures, refrigerators, and ranges. Another unique feature of the proprietary lease is that its terms are virtually the same for all tenants and can be altered only by a vote of the shareholders at a meeting called for this purpose or by the written consent of at least two-thirds of the shareholders owning at least two-thirds of the corporation's stock. Subleasing is permitted only with the consent of the board of directors, except in the case of those tenants who are designated by the sponsor for the purpose of putting the plan into operation (see comment on Form A.14).

Except for the above features, this lease is basically similar to leases for the conventional type of apartment house.

For further information, see Chapters 9 and 16.

FORM

INDENTURE OF LEASE, made the _____ day of _____, 20 _____, by and between Skyline Apartments, Inc., a corporation organized under the laws of the State of New York, (the "Lessor"), and

(the "Lessee").

Whereas the Lessor is the owner of the land and the building erected thereon in the Borough of Manhattan, City of New York, known as The Skyline and by the street number 500 East 68th Street (the "building"); and

2-Forms Federal Taxes Affecting Real Estate [A]

Whereas the Lessor has leased or proposes to lease the apartments in the building to the several owners of its common shares by instruments known as proprietary leases; and

Whereas the Lessee is the owner of _____ of the common shares of the Lessor, which have been allocated to the apartment;

Now, therefore, in consideration of the premises and of the rents, covenants, and agreements hereinafter provided and contained, the Lessor hereby leases to the Lessee, subject to the terms and conditions hereinafter expressed, and the Lessee hereby hires and takes from the Lessor, all that certain space on the _____ floor of the building, known as apartment _____ (the "apartment"),

To Have and To Hold the apartment, with the appurtenances, unto the Lessee and the executors, administrators, legal representatives, and authorized assigns of the Lessee, upon the terms and conditions herein set forth, from the _____ day of _____, 20 _____, until the 30th day of September, 2053 (unless the term shall sooner expire as hereinafter in this lease provided), at a rent for each year or portion of year during such term equal to the Lessee's proportionate share as hereinafter provided of the aggregate amount of the cash requirements of the Lessor, as hereinafter defined, for such year or portion of year, together with additional rent as hereinafter provided.

If at the time the Lessee executes this lease the date of the commencement of the term has not been inserted herein, then the Lessee hereby authorizes the Lessor to insert such date, which shall be the same date that title to the premises is transferred to the Lessor.

The cash requirements above referred to for each year or portion of year are hereby defined and shall be deemed to be such aggregate sum as the Lessor's Board of Directors from time to time, by a resolution or resolutions adopted during such year or portion of year or the preceding year, shall determine, in its judgment, is to be paid by all the lessees under proprietary leases then in force (after deducting all estimated rents or income to be received during such year other than rents under proprietary leases) on account of the Lessor's estimated expenses and outlays to the close of such year, growing out of or connected with the ownership, maintenance, and operation of such land and building. Such sum may include among other things taxes, assessments, water rates, insurance premiums, operating expenses, legal and accounting fees, management fees, commissions, employees' gratuity fund, alterations, replacements and repairs, expenses and liabilities incurred by the Lessor under or by reason of this or other leases, interest on mortgage or other indebtedness, mortgage amortization payments, the payment of any other liens or charges, the payment of any deficit remaining from a previous period, the creation of a reasonable contingency or other reserve or surplus fund or capital contribution, and expenses for other corporate purposes. The Lessor's Board of Directors may, from time to time, by resolution or resolutions duly adopted up to the close of the year for which such cash requirements have been so fixed or determined, increase or diminish the amount previously fixed or determined for such year. The Board of Directors may include in the cash requirements for any year all liabilities or items of expense which accrued or became payable in a previous year, or which might have been included in the cash requirements for a previous year but were not included therein, and also all sums which it may deem necessary or prudent to provide as a reserve against liabilities or expenses then accrued or thereafter to accrue although not payable in that year.

The rent payable by the Lessee in and for each year or portion of year of such term shall be a sum (within the limits and on the conditions hereinabove provided) bearing to the aggregate amount of such cash requirements for such year or portion of year, determined as herein provided, the same ratio as that which the number of shares of the Lessor, owned by the Lessee at the time of the execution hereof as stated in the recitals of this proprietary lease, bears to the aggregate of the shares similarly specified in all the proprietary leases in effect at the time of the fixing and determination of such cash requirements. Such rent, together with any additional rent accruing under this lease, shall be payable monthly in advance or in such payments or installments as the Lessor's Board of Directors by resolution shall require, and at such times as such resolution shall provide.

2-Forms Federal Taxes Affecting Real Estate [A]

The Lessor's Board of Directors shall have discretionary power to prescribe the manner of maintaining and operating the building, and to determine the Lessor's cash requirements to be paid as herein provided by the lessees under proprietary leases. Every such determination by the Board of Directors, within the bounds of this agreement of lease, shall be final and conclusive as to all lessees. All expenditures made by the Lessor's officers or managing agent, under the direction or with the approval of the Lessor's Board of Directors, within the bounds of this agreement of lease, shall, as against the lessees, be deemed necessarily and properly made for such purposes.

The power and authority to determine and establish the amount of and to require payment of the rent above provided for shall be possessed only by the Board of Directors, as elected by the Lessor's shareholders, and shall not pass to or be exercised by:

(a) any creditor, receiver, or trustee of the Lessor or any of their representatives, except to the extent of actual cash requirements for operating the building and the payment of current real estate taxes and current interest and amortization on any mortgage that may then be a lien on the premises; or

(b) any Board of Directors elected by any such creditor, receiver, or trustee or by any of their representatives, except to the extent of actual cash requirements for operating the building and the payment of current real estate taxes and current interest and amortization on any mortgage that may then be a lien on the premises.

Article I

The Lessor hereby covenants with the Lessee, as follows:

1. *Repairs.* The Lessor shall keep in good repair the foundations, sidewalks, walls (except interior surfaces of all walls of apartments), supports, beams, roofs, terraces, gutters, fences, cellars, chimneys, entrances and street and court doorways, main halls, main stairways, windows, fire escapes, elevators, pumps and tanks, and all main and principal pipes for carrying water, gas, or steam through the building, and the main drain pipes and electrical conduits, together with all plumbing, heating, cooling, and other apparatus intended for the general service of the building, except those portions of any of the foregoing which it is the Lessee's duty to maintain and keep in good repair as provided in paragraph 7 of Article II hereof and subject to the provisions of paragraph 16 of Article II hereof. The Lessee shall give the Lessor prompt notice in writing of any accident or defect known to the Lessee and requiring repairs to be made. Subject to the foregoing limitations all such repairs shall be at the Lessor's expense. The Lessee, however, shall bear all expenses for such repairs that have been rendered necessary by the act, neglect, carelessness, or improper use of equipment either by Lessee or by any of Lessee's family, guests, employees, or subtenants.

2. *Maintenance.* The Lessor shall maintain and manage the building as a first-class apartment building, keep the elevators and the public halls, cellars, and stairways clean and properly lighted and heated, provide unattended passenger elevator service and the number of employees requisite in the judgment of the Board of Directors for the care and service of the building, and, without extra cost to the Lessee, provide the apartment with a proper and sufficient supply of hot and cold water. The building will have a central heating and cooling system, and the unit fans for the circulation of warm or cooled air will be connected to the Lessee's meter and paid for by the Lessee. The replacement of filters in the heating and cooling units shall also be at the Lessee's expense.

The covenants by the Lessor herein contained are subject, however, to the discretionary power of its Board of Directors to prescribe the manner of maintaining and operating the building and to determine the cash requirements of the Lessor, as hereinabove stated. Such covenants are subject to the further proviso that there shall be no diminution or abatement of rent or other compensation accruing to the Lessor for its failure to perform the same or for interruption or curtailment of service, when such failure, interruption, or curtailment shall be due to accident or to alterations or repairs desirable or

necessary to be made, or to inability or difficulty in securing supplies or labor, or to some other event not caused by the Lessor's gross negligence. All of the Lessor's covenants contained in this instrument are also subject to the provisions of paragraph 16 of Article II hereof.

3. *Damage to building.* If the building shall be partly damaged by fire or other cause, it shall be repaired as speedily as is reasonably possible, at the Lessor's expense, so as to conform substantially to the plans and specifications under which the building was completed. If the damage shall be so extensive as to render the apartment untenable, the rent hereunder shall cease until the apartment shall again be rendered tenantable. If the building shall be totally destroyed by fire or otherwise, the rent shall be paid up to the time of such destruction, and thereupon this lease and all rights and obligations of the parties hereunder, and the tenancy hereby created shall wholly cease and expire. If, however, the Lessor or insurer shall elect to rebuild the building, this lease shall, at the option of the Lessee exercised within 30 days after the Lessor's or insurer's notice of election to rebuild, be reinstated at such time as the apartment may again be ready for occupancy.

4. *Books.* The Lessor shall keep full and correct books of account at the office of the managing agent or at such other place as the Board of Directors may from time to time determine. Such books shall be open during all reasonable hours to inspection by the Lessee or his representative.

5. *Accompanying shares.* In every proprietary lease heretofore executed by the Lessor there has been specified, and in every proprietary lease hereafter executed by it there will be specified, the number of its shares issued therewith. Such number, in relation to the aggregate of all numbers of shares similarly specified in all the proprietary leases at the time in force, shall constitute the basis for fixing, as hereinbefore provided, the proportionate share of the aggregate amount of the Lessor's cash requirements, as hereinbefore defined, which shall be payable as rent by the Lessee. If after the fixing of the amounts payable as rent by the lessees under proprietary leases for any period of time, one or more additional proprietary leases are made, thus increasing the aggregate number of shares specified in all proprietary leases, the rent to be paid under such additional lease or leases, unless and until the Board of Directors shall otherwise fix the rent to be paid under all proprietary leases, shall be at the same rate per share specified in such additional lease or leases as applied to the shares specified in all other proprietary leases in effect at the time of the fixing and determination of such cash requirements. The rent payable for such period of time by lessees under such other proprietary leases shall not be modified or affected by any increase in the aggregate number of shares specified in all proprietary leases.

6. *Changes in leases.* All proprietary leases of apartments in the building hereafter executed shall be in the form of this lease except with respect to statements as to the number of shares owned by the Lessee and his proposed use and occupancy. The Lessor will not make or consent to any change or alteration in the terms or conditions of any proprietary lease which the Lessor shall have executed (as distinct from the house rules) unless such change or alteration shall be made pursuant to the affirmative vote taken at a meeting called for that purpose, or written consent signed, by lessees owning at least two-thirds in amount of the Lessor's shares then owned by all lessees under proprietary leases then in force, and being at least two-thirds in number of such lessees.

7. *Penthouses, balconies, and terraces.* A lessee of an apartment embracing a penthouse, balcony, or terrace or a portion thereof shall have and enjoy the exclusive use of the balcony or terrace (but not the roof above the penthouse) appurtenant to such apartment as shown on the building plan, subject to all the applicable provisions of this lease and to the use of any penthouse roof by the Lessor to enable it to fulfill its obligations hereunder. The Lessor, on behalf of itself or other lessees, may erect on the roof of a penthouse radio or television aerials and antennas for its use and the use of the other lessees in the building and shall have the right of access thereto for such installations and for the repair thereof. The Lessor shall have no duty to keep such roof clean or free from ice or snow and this shall be the Lessee's obligation. The Lessee shall not install any walls, enclosures, awnings, or planting on any penthouse, balcony, or terrace, except with the prior written approval of the Lessor or its agent.

8. *Quiet enjoyment.* The Lessee, upon paying the rent and performing the covenants and complying with the conditions

that the Lessee is required to perform, as herein set forth, shall, at all times during the term hereby granted, quietly have, hold, and enjoy the apartment without any let, suit, trouble, or hindrance from the Lessor.

Article II

The Lessee hereby covenants with the Lessor, as follows:

1. *Payment of rent.* The Lessee will pay to the Lessor, or to its managing agent, the rent upon the terms, at the times, and in the manner herein provided, without any deduction on account of any set-off or claim which the Lessee may have against the Lessor. If the Lessee shall fail to pay any installment of rent within one month from the time when it becomes due, the Lessee shall pay interest thereon at the rate of 6% per annum from the due date of the installment to the date of the payment thereof, and such interest shall be deemed additional rent hereunder.

2. *Default by lessee.* If the Lessor shall resume possession of the apartment, either by summary proceedings, action of ejectment, or otherwise, because of the Lessee's default in the payment of any rent or any part of the same, on or the expiration of the term pursuant to a notice given as provided in Article III hereof upon the happening of any event specified in subparagraphs (a), (b), (c), (d), (e), and (g) of paragraph 1 of Article III, the Lessor may, at its option, either (1) relet the apartment for its own account, or (2) from time to time relet the apartment as the agent of or for the account of the Lessee. If the Lessor relets the apartment under its option in (2), it shall, after reimbursing itself for its reasonable expenses in connection therewith, including a reasonable amount for decorations, alterations, and repairs in and to the apartment, apply the remaining proceeds of such reletting to the payment of any and all sums then due to it from the Lessee and which would thereafter have become due from the Lessee under the provisions of this lease if the Lessor had not so resumed possession, accounting to the Lessee at the expiration of each of the several terms of such reletting for any surplus. If at any time or from time to time before the expiration of the term originally demised hereunder, there shall be a deficiency between the proceeds of such reletting and such sums as would have become due hereunder, the Lessee shall pay such deficiency upon demand. If the Lessee shall at any time sublet the apartment and shall default for a period of one month in the payment of any rent, the Lessor may, at its option, so long as such default shall continue, demand and receive from any subtenant of the Lessee occupying the apartment the rent due or becoming due from such subtenant to the Lessee, up to an amount sufficient to pay all sums due from the Lessee to the Lessor. Any payment of such rent to the Lessor shall be sufficient payment and discharge of such subtenant as between the subtenant and the Lessee, to the extent of the amount so paid. Any such demand or acceptance of rent from any subtenant, or from any assignee hereof, shall not be deemed the Lessee's consent or approval of any sublease or assignment.

3. *Failure to fix rent.* The failure of the Lessor's Board of Directors, before the expiration of any year of such term, to fix the rent hereunder for that or the next year, shall not be deemed a waiver or modification in any respect of the covenants or provisions of this lease, or a release of the Lessee from the obligation to pay the rent or any installment thereof for that or any subsequent year, provided such rent shall ultimately be fixed.

4. *House rules.* The Lessor may from time to time establish such reasonable house rules as its Board of Directors may deem necessary for the management and control of the building, and may also from time to time alter, amend, and repeal such rules. This lease shall be in all respects subject to such rules, which, when a copy thereof has been furnished to the Lessee, shall be taken to be part hereof. The Lessee shall obey all such rules and see that they are faithfully observed by his family, guests, employees, and subtenants. All such rules shall apply to and be binding upon all of the tenants of the building, whether shareholders of the Lessor or not, but the Lessor shall not be responsible to the Lessee for the nonobservance or violation of such rules by any other lessee or person other than the Lessor's employees. Without limiting the generality of the foregoing, such house rules may regulate and control the use of any roof or terrace appurtenant to the apartment.

5. *Use of premises.* The Lessee shall not occupy or use the apartment, or permit the same or any part thereof to be occupied or used, for any purpose other than as a private dwelling apartment for the Lessee, and the Lessee's family and

servants, except such portions of the building as the Lessor's Board of Directors may allocate as professional offices or servants' rooms. The Lessee shall not permit or suffer anything to be done or kept in the apartment which will increase the rate of fire insurance on the building or its contents, or which will interfere with the rights of other tenants or annoy them by unreasonable noises or otherwise, or which will obstruct the building's public halls or stairways. The Lessee shall comply with all the requirements of the Board of Health and other governmental authorities and with all laws, ordinances, rules, and regulations with respect to the occupancy or use of the apartment, and will not do anything or permit anything to be done which might increase the rate of fire insurance on the building, its contents or the individual apartments. If, however, by reason of the occupancy or use of the apartment by the Lessee, the rate of fire insurance on the building, its contents or the individual apartments shall be increased, the Lessee shall become personally liable to the Lessor or other lessees for the additional insurance premiums or payments caused by Lessee's use of the apartment.

6. *Subletting and assignment.* The Lessee may sublet the apartment for any term to any person or persons subject to the Lessor's written consent to the sublessee and the terms of the sublease, authorized by a resolution of the Board of Directors, or signed by a majority of the directors, or by lessees owning of record at least a majority of the Lessor's capital stock accompanying proprietary leases then in force. Whenever the Lessee applies to the Lessor for a consent to a subletting, the Lessee may be required to deliver to the Lessor a copy of the sublease to which consent is requested. The Lessor reserves the right to adopt rules and regulations with respect to subletting.

Except as provided in Article IV of this lease, the Lessee shall not assign this lease, or any interest therein. No such assignment shall take effect as against the Lessor for any purpose, unless and until all of the following requirements have been complied with and satisfied:

- (a) An instrument of assignment containing a covenant by the assignee to perform and comply with all the covenants and conditions of this lease to be performed or complied with by the Lessee on and after the effective date of such assignment must be executed and acknowledged by the assignee and delivered to the Lessor.
- (b) All shares of the Lessor accompanying this lease must be transferred to the assignee.
- (c) All sums due from the Lessee, together with a sum to be fixed by the Lessor's Board of Directors to cover the Lessor's reasonable legal and other expenses in connection with such assignment and transfer of the shares, must be paid to the Lessor.
- (d) A written consent to such assignment, authorized by a resolution of the Board of Directors, or signed by a majority of the directors, or by lessees owning of record at least a majority of the Lessor's shares accompanying proprietary leases then in force, must be delivered to the Lessor. If the Lessee shall die during the term of this lease, the Board of Directors or the other lessees owning the Lessor's shares shall not unreasonably withhold the consent provided for in this paragraph to any assignment or transfer of the shares and the lease which the Lessee may make in his or her last will and testament, or through the acts of his or her administrator or executor, to a financially responsible member of his immediate family; provided, however, that the other conditions of this paragraph 6 are complied with.

Whenever the Lessee shall, under the provisions of this lease, be permitted to assign and shall so assign the same, and the assignee shall deliver to the Lessor an instrument assuming all of the assignor's unfulfilled obligations hereunder, the assignor shall have no further liability on any covenant of this lease to be thereafter performed. Upon the making of any assignment of this lease, as herein provided and permitted, the same shall, at the Lessor's option, be surrendered. In such case the Lessor and the assignee shall enter into a new lease, in the same form, for the remainder of the term of this lease.

No executor, administrator, personal representative, or successor of the Lessee, or trustee, or receiver of his property, or anyone to whom his interest hereunder shall pass by law, may assign this lease, or sublet the apartment, or any part thereof, except upon compliance with the requirements of this paragraph 6. The character of and restriction upon the

occupancy of the apartment, and upon assignment of this lease, as hereinbefore expressed, restricted, and limited, are an especial consideration and inducement for the granting of this lease by the Lessor to the Lessee. If the Lessee shall violate any restriction or covenant herein contained in respect to either subletting or assignment, this lease may be terminated and shall expire at the Lessor's option as hereinafter provided. In such case the Lessor may cease performance of its covenants contained in Article I of this lease, and may restrain and prevent the occupancy of the apartment by any one other than the Lessee.

Notwithstanding the above, if an individual supplied by the Sponsor to purchase unsold shares pursuant to the Lessor's plan of organization is the Lessee under this lease then the apartment may be sublet or this lease and the accompanying shares assigned without requiring the Lessor's written consent, as provided herein, except that the sublessee or assignee shall be approved by the building's then managing agent. The foregoing exception shall apply only to an assignment by individuals supplied by the Sponsor and shall not apply to any subsequent assignment.

7. *Interior repairs.* The Lessee shall keep the interior of the apartment in good repair, and the Lessor shall not be held answerable for any repairs in or to the same except as hereinbefore specifically provided. If the Lessee shall refuse or neglect, during ten days after the Lessor's written notice, to make such repairs or to restore the apartment to good condition, the Lessor may do so. The Lessor may, by its officers or authorized agents, enter the apartment for that purpose, and collect the cost of such repairs or restoration as additional rent for the apartment. In addition to decorating and keeping the interior of the apartment in good repair the Lessee shall maintain or replace all its plumbing fixtures, lighting fixtures, refrigerators, and ranges.

8. *Alterations.* The Lessee shall not, without first obtaining the Lessor's written consent, make in the apartment, or on any penthouse, balcony, or terrace appurtenant thereto, any structural alteration or any alteration of the water, gas, or steam pipes, electrical conduits or plumbing, or, except as hereinafter authorized, remove any additions, improvements, or fixtures from the apartment. If the Lessee shall have heretofore or shall hereafter place in the apartment at his own expense any additions, improvements, or fixtures, such as mantels, lighting fixtures, refrigerators, ranges, woodwork, panelling, ceilings, doors, or decorations, which can be removed without structural alterations, then the Lessee may, prior to the termination of this lease, remove the same at his own expense, provided that: (a) the Lessee at the time of such removal shall not be in default in the payment of rent or in the performance of any other provision or condition of this lease; (b) upon any such removal, the Lessee shall give written notice thereof in advance to the Lessor; (c) the Lessee shall pay the cost of any such removal and shall repair any damage resulting therefrom; and (d) the Lessee shall replace and reinstall at his own expense any equipment that was in the apartment at the beginning of the term or shall replace and reinstall substitutes of a kind and quality customary in buildings of this type and satisfactory to the Lessor.

On the expiration of the term hereby granted, or upon a sooner termination of this lease, the Lessee shall surrender to the Lessor possession of the apartment with all additions, improvements, and fixtures then included therein except as hereinabove provided.

9. *Lease subordinate to mortgages.* This lease is and shall be subject and subordinate to all mortgages now a lien upon the land and building and to any and all extensions, modifications, renewals, and replacements thereof, and shall be subject and subordinate to the lien of any other mortgage or mortgages which shall at any time be placed on the land and building. The Lessee shall at any time, and from time to time, on demand, execute all instruments that may be required by any mortgagee, or by the Lessor, for the purpose of more formally subjecting this lease to the lien of any such mortgage or mortgages. Each of the Lessor's duly elected officers, for the time being, is hereby irrevocably appointed the Lessee's attorney-in-fact and agent to execute the same upon such demand. The Lessee hereby ratifies any such instrument hereafter executed by virtue of the power of attorney hereby given.

10. *Mechanics' liens.* In case a notice of mechanic's lien shall be filed against the building, for, or purporting to be for, labor or material alleged to have been furnished or delivered at the building or the apartment to or for the Lessee, or anyone claiming under him, the Lessee shall forthwith cause such lien to be discharged by payment, bonding, or

2-Forms Federal Taxes Affecting Real Estate [A]

otherwise. If the Lessee shall fail to cause such lien to be discharged within 20 days after the filing of such notice, the Lessor may cause such lien to be discharged by payment, bonding, or otherwise, without investigation as to the validity thereof or of any offsets or defenses thereto. The Lessor may collect, as additional rent, all amounts so paid and all costs and expenses paid or incurred in connection therewith, including reasonable attorneys' fees and disbursements, together with interest thereon from the time or times of payment.

11. *Cooperation.* The Lessee shall always in good faith endeavor to observe and promote the cooperative purposes for the accomplishment of which the Lessor was incorporated.

12. *Right of entry.* The Lessor and its agents shall be permitted to visit and examine the apartment at any reasonable hour of the day, and workmen may enter at any time, when authorized by the Lessor or its agents to make or facilitate repairs in any part of the building and to remove such portions of the walls, floors, and ceilings of the apartment as may be required for the purpose of making such repairs. The Lessor, however, shall at its own cost and expense thereafter restore the premises to their proper and usual condition. If the Lessee shall not be personally present to open and permit an entry into the apartment, at any time when for any reason an entry therein shall be necessary or permissible hereunder, the Lessor or its agents may forcibly enter the apartment without rendering any of them liable to any claim or cause of action for damages by reason thereof (if during such entry the Lessor shall accord reasonable care to the Lessee's property), and without in any manner affecting the obligations and covenants of this lease. The right and authority hereby reserved do not impose, nor does the Lessor assume by reason thereof, any responsibility or liability whatsoever for the care or supervision of the apartment, or any of the pipes, fixtures, appliances, or appurtenances therein contained or therewith in any manner connected, except as may be herein specifically provided.

13. *Waivers.* The Lessor's failure to insist, in any one or more instances, upon a strict performance of any term, covenant, condition, or agreement of this lease, or to exercise any right or option herein contained, or to serve any notice, or to institute any action or summary proceeding, or otherwise to act as though this lease had expired pursuant to the provisions of Article III hereof, shall not be construed as a waiver, or a relinquishment for the future, of such covenant or option or right thereafter to serve notice and to have this lease expire under the provisions of Article III, but such covenant or option or right shall continue and remain in full force and effect. The Lessor's receipt of rent, with knowledge of the breach of any covenant hereof, shall not be deemed a waiver of such breach. No waiver by the Lessor of any provision hereof shall be deemed to have been made unless expressed in writing and signed by one of its officers pursuant to authority contained in a resolution of its Board of Directors; and even though a consent to an assignment hereof, or to any subletting, be given, no further assignment or subletting shall be made without express consent in writing given as hereinbefore provided.

14. *Notices.* Any notice by the Lessor to the Lessee shall be deemed to be duly given, and any demand by the Lessor upon the Lessee shall be deemed to have been duly made, if enclosed in a postpaid envelope addressed to the Lessee at 500 East 68th Street, New York, New York, or such other address as the Lessee may designate in writing, and mailed by registered mail in any general or branch post office. Any notice by the Lessee to the Lessor shall be deemed to be duly given, and any demand by the Lessee upon the Lessor shall be deemed to have been duly made, if enclosed in a postpaid envelope, addressed to the Lessor at 500 East 68th Street, New York, New York, or such other address as the Lessor may designate in writing.

15. *Attorneys' fees.* If the Lessee shall at any time be in default hereunder, or if the Lessor shall institute an action or summary proceeding against the Lessee based upon such default, the Lessee will reimburse the Lessor for the reasonable expense of attorneys' fees and disbursements thereby incurred by the Lessor, and the Lessor shall have the right to collect the same as additional rent.

16. *Lessor's immunities.* The Lessor shall not be liable for any failure of heat, water supply, air conditioning, electric current, telephone, or elevator service, or other service to be supplied by it hereunder, or for injury or damage to person or property caused by the elements or by another tenant or person in the building, or resulting from steam, gas,

2-Forms Federal Taxes Affecting Real Estate [A]

electricity, water, rain, or snow which may leak or flow from outside or from any part of the building, or from any of its pipes, drains, conduits, radiators, boilers, tanks, appliances, or equipment, or from any other place, unless caused or due to its negligence. The Lessor shall not be liable for interference with light or other incorporeal hereditaments by anybody other than itself. The Lessor or its agent shall not be responsible for any damage to any automobile or other vehicle left in the care of any of its employees by the Lessee, and the Lessee shall hold the Lessor or its agent harmless from any liability arising from any injury to person or property caused by or with such automobile or other vehicle while in such employee's care. The Lessor or its agent shall not be responsible for any package or article left with or entrusted to any employee of the Lessor, or for the loss of any property within or without the apartment by theft or otherwise. If the Lessor shall, before, during, or after the term of this lease, furnish to the Lessee any storage space, use of laundry, or any other facility outside of the apartment, the same shall be furnished gratuitously by the Lessor. If any person shall use the same, such use shall be entirely at the risk of such person, and the Lessor or its agent shall not be liable for any loss of property therein, for any damage or injury whatever to person or property therein or in connection therewith. Storage space may only be used for the storage of empty trunks and bags. No diminution or abatement of rent, or other compensation, shall be claimed or allowed for inconvenience or discomfort arising from the making of repairs or improvements to the building or to its appliances.

Article III

It is hereby mutually agreed, as follows:

1. *Expiration of lease.* If upon, or at any time after, the happening of any event mentioned in subparagraphs (a) to (h) inclusive of this paragraph 1, the Lessor shall give to the Lessee a notice stating that the term hereof will expire on a date at least ten days thereafter, this lease shall expire on the date so fixed in such notice, and all right, title, and interest of the Lessee hereunder shall wholly cease and expire, it being the intention of the parties hereto to create hereby a conditional limitation. Thereupon the Lessor shall have the right to reenter the apartment and to remove all persons and personal property therefrom, either by summary dispossession proceedings, or by any suitable action or proceeding at law or in equity, or by force or otherwise, and to repossess the apartment in its former estate as if this lease had not been made. No liability whatsoever shall attach to the Lessor by reason of the exercise of the right of reentry, repossession, and removal herein granted and reserved.

(a) If at any time during the term of this lease the Lessee shall cease to be the owner of all of the shares which are hereinbefore stated to be owned by him and allocated to this lease, or if this lease shall pass or be assigned to anyone who is not then the owner of all of such shares.

(b) If: (1) the Lessee shall be declared a bankrupt under United States law or adjudicated insolvent or take the benefit of any insolvency act; (2) a receiver or trustee of the Lessee's property shall be appointed by any court; (3) the Lessee shall make a general assignment for the benefit of creditors; (4) any of the Lessor's shares owned by the Lessee shall be duly levied upon under court process; or (5) this lease or any of the Lessor's shares owned by the Lessee shall be pledged, other than to the seller thereof, a bank, or other lending institution, except with the consent of the Lessor's Board of Directors.

(c) If at any time there is an assignment of this lease, or any subletting hereunder, without full compliance with the requirements of paragraph 6 of Article II hereof.

(d) If the Lessee shall be in default for a period of one month in the payment of any rent or additional rent or of any installment thereof, hereinbefore provided for.

(e) If the Lessee shall default in the performance of any covenant or provision hereof, other than the covenant to pay rent, for 30 days after the Lessor shall have given written notice of such default.

2-Forms Federal Taxes Affecting Real Estate [A]

(f) If at any time the Lessor shall determine, upon the affirmative vote of two-thirds of its full Board of Directors and the affirmative vote of the record holders of at least two-thirds in amount of its shares then outstanding and owned by Lessees under proprietary leases then in force, at a shareholders' meeting duly called for that purpose, to terminate all proprietary leases or to sell the land and building above described.

(g) If at any time the Lessor shall determine, upon the affirmative vote of the holders of record of two-thirds or more of its Board of Directors, that because of objectionable conduct on the part of the Lessee, or of a person dwelling in or visiting the apartment, the Lessee's tenancy is undesirable. Objectionable conduct shall be deemed to occur if the Lessee or such other person repeatedly violates or disregards the house rules and regulations hereunto attached or hereafter established in accordance with the provisions of this lease, or permits or tolerates a person of dissolute, loose, or immoral character to enter or remain in the building or apartment.

(h) If at any time the building or a substantial portion thereof shall be taken by condemnation proceedings.

2. *Waiver of right of redemption.* The Lessee hereby expressly waives any and all right of redemption in case he shall be dispossessed by judgment or warrant of any court or judge. The words "enter," "reenter," and "reentry" as used in this lease are not restricted to their technical legal meaning. If the Lessee shall breach or threaten to breach any covenant or provision hereof, the Lessor shall have the right of injunction, and the right to invoke any remedy allowed at law or in equity, as if reentry, summary proceedings, and other remedies were not herein provided for.

3. *Surrender of possession.* Upon the termination of this lease under the provisions of subparagraphs (a), (b), (c), (d), (e), or (g) of paragraph 1 of this Article, the Lessee shall remain liable as provided in paragraph 2 of Article II here of. Upon the termination of this lease under the provisions of subparagraphs (f) or (h) of paragraph 1 of this Article, or upon the expiration of this lease, the Lessee shall be and remain liable to pay all rent, additional rent, and other charges due or accrued and to perform all his covenants and agreements up to the date of such termination. On or before such termination the Lessee shall vacate the apartment and remove therefrom all of his property which upon such termination does not become the property of the Lessor under the provisions of paragraph 8 of Article II hereof and surrender possession of the apartment to the Lessor or its assigns. Upon demand of the Lessor or its assigns the Lessee shall execute, acknowledge, and deliver to the Lessor or its assigns any instrument which may reasonably be required for surrendering all his estate and interest in the apartment, or in the building of which it is a part. The Lessee, however, may retain ownership of his shares in the Lessor, and shall continue to enjoy all rights of ownership of them other than the right to occupy any part of the building of which the apartment forms a part.

4. *Sale of shares.* Upon the termination of this lease under the subparagraphs (a), (b), (c), (d), (e), or (g) of paragraph 1 of this Article, the Lessee shall surrender to the Corporation his certificate or certificates for the shares of the Corporation owned by him and allocated to the apartment. Whether or not such certificate or certificates are surrendered, the Lessor may issue a new proprietary lease on the apartment and issue a new certificate for its shares owned by the Lessee and allocated thereto. In that event the certificate owned or held by the Lessee shall be automatically cancelled and rendered null and void. The Lessor may apply the proceeds received for the issuance of such shares towards the payment of the Lessee's indebtedness hereunder, including interest, attorneys' fees, and other expenses incurred by the Lessor. If the proceeds are sufficient to pay the same the Lessor shall pay over any surplus to the Lessee, but if insufficient the Lessee shall remain liable for the balance of the indebtedness. Upon the issuance of any such new proprietary lease and share certificate, the Lessee's continuing liability hereunder shall cease and he shall only be liable for rent and expenses accrued to that time.

Article IV

It is further mutually agreed, as follows:

2-Forms Federal Taxes Affecting Real Estate [A]

1. *Lessee's option to cancel.* The Lessee may cancel this lease on September 30, 1989, or on any September 30 thereafter, upon complying with all the provisions of this Article IV. The Lessee must serve irrevocable written notice of intention to cancel upon the Lessor on or before April 1 in the calendar year in which such cancellation is to occur. At the time such notice is served the Lessee must deposit with the Lessor:

(a) a proper assignment of the Lessee's counterpart of this lease whereby the full and absolute right, title, and interest in and to this lease is assigned as the Lessor may direct, as of August 31 of the year of cancellation, free from all subleases, liens, encumbrances, and charges whatsoever;

(b) the Lessee's certificate for the shares of the Lessor which accompany this lease, duly stamped and endorsed in blank for transfer;

(c) a written statement setting forth in detail those additions, improvements, and fixtures, such as mantels, lighting fixtures, refrigerators, cooking ranges, woodwork, panelling, ceilings, doors, and decorations, placed in the apartment at the Lessee's expense which the Lessee has, under the terms of this lease, the right to remove, and which the Lessee desires to remove.

2. *Additional payments by lessee.* If the Lessee shall give such notice of intention to cancel, the Lessee shall:

(a) subject to the limitations and conditions embodied in paragraph 8 of Article II hereof, replace all mantels, lighting fixtures, refrigerators, cooking ranges, woodwork (other than panelling), ceilings, doors, or other fixtures removed by the Lessee, with others of a kind and quality customary in buildings of this type, and pay the cost of such replacement; and

(b) pay the cost of repairing any damage resulting from Lessee's removal of any panelling or other additions, improvements, or fixtures, for which Lessee is not required to pay the cost of replacing.

3. *Removal of fixtures.* The Lessee shall remove all additions, improvements and fixtures which are removable under the terms of this lease and which are enumerated in the statement made as provided in subparagraph (c) of paragraph 1 of this Article IV prior to the 31st day of August next preceding the 30th day of September named in the notice of election to cancel as the date for the cancellation of this lease. On or before such 31st day of August the Lessee shall deliver possession of the apartment to the Lessor free from all subleases, liens, encumbrances, or other charges and remove therefrom all of Lessee's property which upon such cancellation does not become the Lessor's property under the provisions of paragraph 8 of Article II hereof. The Lessee shall pay to the Lessor (a) all rent, additional rent, and other charges which shall be payable under this lease up to and including the 30th of September succeeding such 31st day of August, and (b) the amounts due under subparagraph (b) of paragraph 2 of this Article IV. The requirements for delivery of possession to the Lessor shall be waived if, pursuant to the provisions of paragraph 6 of Article II of this lease, the Lessor shall have on or before August 31st entered into an agreement with any sublessee whereby it permits such sublessee to remain in possession of the apartment.

4. *Lessor's entry.* The Lessor and its agents may show the apartment to prospective or succeeding tenants at any time and from time to time after the Lessee gives notice of intention to cancel this lease as provided in this Article IV. After the 31st day of August next succeeding the date on which such notice the Lessor and its agents, employees, and tenants may enter the apartment, occupy the same, and make such alterations, additions, and repairs therein as it may deem necessary or desirable without diminution or abatement of the rent due hereunder.

5. *Cancellation of lease.* If the Lessee is not otherwise in default hereunder and if the Lessee shall have done the things and made the payments at the times, in the amounts, and in the manner required by this Article IV, then upon the 30th day of September named in the notice of intention to cancel as the date for the cancellation of this lease, this lease shall be cancelled and all rights, duties, and obligations of the parties hereunder shall cease, terminate, and expire as of such

date. The shares of Skyline Apartments, Inc. shall then become the Lessor's absolute property. The Lessee, however, shall not be released or discharged from any indebtedness to the lessor on such last mentioned date. Moreover, if the Lessee shall fail to do anything or make any payment at the time, in the amounts, and in the manner required by this Article IV, the Lessor may (a) return to the Lessee this lease, the share certificate, and other documents deposited, and the sums paid by the Lessee under this Article IV, other than any sum paid as rent under this lease or as the cost of repairing any damage resulting from the Lessee's removal of additions, improvements, or fixtures, and thereupon the Lessee shall be deemed to have withdrawn the notice of intention to cancel this lease, or (b) treat this lease as cancelled as of the 30th day of September named in the notice of intention to cancel as the date for the cancellation of such lease, and bring such proceedings and actions as it deems best to enforce the covenants of the Lessee contained in this Article IV, and collect from the Lessee the payments which he is required to make under this Article IV, together with reasonable counsel fees and costs.

Article V

It is further mutually agreed, as follows:

1. *Transfer of shares.* The Lessor's shares held by the Lessee and allocated to the apartment have been acquired and are owned subject to the following conditions agreed upon with the Lessor and with each of the other proprietary lessees for their mutual benefit:

(a) The shares represented by each certificate are transferable only as an entirety; and

(b) Neither the Lessee nor the Lessee's personal representatives shall sell or transfer such shares except to the Lessor, or to an assignee of this lease, after compliance with all of the provisions of paragraph 6 of Article II of this lease relating to assignments.

2. *Binding effect.* The references herein to the Lessor shall be deemed to include its successors and assigns, and the references herein to the Lessee or to a shareholder of the Lessor shall be deemed to include their respective executors, administrators, legal representatives, legatees, distributees, and assigns. The covenants herein contained shall apply to, bind, and inure to the benefit of the Lessor and its successors and assigns, and the Lessee and the executors and administrators, legal representatives, legatees, and assigns of the Lessee, except as hereinbefore stated.

3. *Waiver of jury trial.* The Lessor and the Lessee shall and they hereby do waive trial by jury in any action, proceeding, or counterclaim brought by either against the other on all matters whatsoever arising out of or in any way connected with this lease, the Lessee's use or occupancy of the apartment, or any claim of damage resulting from any act or omission of the parties in any way connected with this lease or the apartment.

4. *Modification.* This lease may not be changed orally but only in writing signed by both parties.

5. *Non-assignment.* This lease may not be assigned by either party, unless otherwise expressly provided herein.

6. *Notices.* All notices or other documents under this lease shall be executed and delivered as provided in paragraph 14 of Article II hereof.

7. *Governing law.* This lease shall be construed in accordance with and governed by the laws of the State of New York.

8. *Entire agreement.* This lease contains the entire understanding between the parties and supersedes all prior understandings and agreements between them respecting its subject matter.

9. *Non-waiver.* No delay or failure by either party to exercise any right under this lease, and no partial or single exercise

2-Forms Federal Taxes Affecting Real Estate [A]

of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

10. *Headings for reference only.* Headings preceding the text and paragraphs of this lease are for convenience and reference only, and shall not be used to interpret or construe its meaning, construction, or effect.

11. *Counterparts.* This lease may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

In witness whereof the Lessor has caused its corporate seal to be hereto affixed and this instrument to be signed by its President, and the Lessee has executed this instrument under seal, the day, and year first above written.

The Skyline

House Rules

1. The public halls and stairways of the building shall not be obstructed or used for any other purpose than ingress to and egress from the apartments in the building, and the fire towers and fire escapes shall not be obstructed in any way.
2. Children shall not play in the public halls, stairways, fire towers, or elevators, and shall not be permitted in the service elevator of the building.
3. No public hall above the ground floor of the building shall be decorated or furnished by any lessee in any manner without the prior consent of the Lessor and all of the Lessees to whose apartments such hall serves as a way of ingress and egress.
4. No lessee shall make or permit any disturbing noises in the building or do or permit anything to be done therein which will interfere with the rights, comforts, or conveniences of other Lessees. No Lessee shall play upon or cause to be played upon any musical instrument or permit to be operated a phonograph or a radio or television loud speaker in such lessee's apartment between the hours of 11 p.m. and the following nine a.m. if such action disturbs or annoys other occupants of the building, and in no event shall practice or cause to be practiced either vocal or instrumental music for more than two hours in any day or between the hours of six p.m. and the following nine a.m. All floor space in apartments, other than baths and kitchens, shall be adequately covered with carpeting or rugs with a view to minimizing noise transmission to the apartment below.

2-Forms Federal Taxes Affecting Real Estate [A]

5. Each Lessee shall keep such Lessee's apartment in a good state of preservation and cleanliness and shall not sweep or throw or permit to be swept or thrown therefrom, or from the doors, windows, terraces, or balconies thereof, any dirt or other substance.
6. No article shall be placed in the halls or on the staircase landings, fire towers, or fire escapes, nor shall anything be hung or shaken from the doors, windows, terraces, or balconies or placed upon the window sills of the building.
7. No shades, awnings, window guards, ventilators, or air conditioning devices shall be placed or used in or about the building except such as the Lessor shall have approved.
8. No sign, signal, advertisement, or illumination shall be inscribed or exposed on or at any window or other part of the building, except such as the Lessor shall have approved in writing; nor shall anything be projected out of any window of the building without similar approval.
9. The passenger and service elevators in the building, unless of automatic type and intended for operation by a passenger, shall be operated only by the Lessor's employees, and there shall be no interference whatever with the same by Lessees or members of their families or their guests, employees, or undertenants.
10. No velocipedes, bicycles, scooters, or similar vehicles shall be allowed in the passenger elevators, and no baby carriages or any of the above-mentioned vehicles shall be allowed to stand in the public halls, passageways, areas, or courts of the building.
11. Servants, messengers, and tradespeople shall use the service elevators in the building for ingress and egress and shall not use the passenger elevators for any purpose, except that nurses in the employ of Lessees and of their guests or undertenants may use the passenger elevators when accompanying such children, guests, or undertenants.
12. Kitchen supplies, market goods, and packages of every kind are to be delivered only at the service entrance of the building and through the service elevators to the apartments.
13. Trunks and heavy baggage shall be taken in or out of the building through the service area.
14. Garbage and refuse from the apartments shall be sent to the basement of the building only at such times and in such manner as the superintendent of the building may direct. The incinerators in the building are to be used in connection with specific rules and instructions to be promulgated by the Lessor's Board of Directors.
15. Water closets and other water apparatus in the building shall not be used for any purpose other than those for which they were constructed, nor shall any sweepings, rubbish, rags, or any other article be thrown into the same. Any damage resulting from misuse of any water closets or other apparatus shall be paid for by the Lessee in whose apartment it shall have been caused.
16. No Lessee shall send any employee of the Lessor out of the building on the Lessee's private business.
17. No bird or animal shall be kept or harbored in the building unless the same in each instance is expressly permitted in writing by the Lessor and subject to such rules as the Board of Directors may promulgate.
18. If the Lessor supplies any storage space outside of the apartment to the Lessee, the same shall be deemed to be supplied gratuitously and the Lessor shall have no liability in connection therewith. Such space may only be used for the storage of empty trunks and bags.

2-Forms Federal Taxes Affecting Real Estate [A]

19. No radio or television aerial shall be attached to or hung from the exterior of the building without the Lessor's written approval.
20. The agents of the Lessor, and any contractor or workman authorized by it, may enter any apartment at any reasonable hour of the day for the purposes of inspecting such apartment to ascertain whether measures are necessary or desirable to control or exterminate any vermin, insects, or other pests and taking such measures, at the Lessee's expense as may be necessary to control or exterminate all pests.
21. No vehicle belonging to a Lessee or to a member of the Lessee's family or guests, undertenant, or employee shall be parked in such manner as to impede or prevent ready access to the entrance canopy of the building by another vehicle.
22. Except where the Lessee has been granted the exclusive use of a laundry, the Lessee shall use the laundry facilities available only upon such days and during such hours as the Lessor not designate.
23. The Lessor may from time to time to curtail or relocate any space devoted to storage or laundry purposes.
24. No air conditioning or other electrical device shall be installed or used by the Lessee without the Lessor's prior written approval as to the type, location, and manner of installation or use of such device and provided sufficient electric current is available for its use.
25. Complaints regarding the service of the building shall be made in writing to the Lessor's managing agent.
26. Any consent or approval given under these house rules by the Lessor shall be revocable at any time.
27. These house rules may be added to, amended, or repealed at any time by resolution of the Lessor's Board of Directors. A.18 Purchase agreement with tenant-stockholder

COMMENT

This is an agreement by which a prospective tenant-stockholder commits himself to purchase the cooperative's shares allocated to a specific apartment. It is in the form of an offer to be accepted by the sponsor and the cooperative corporation. It provides for the payment of the purchase price in installments as various stages in the completion of the building are achieved, with the final installment due after the architect and consulting architect have certified that a temporary certificate of occupancy for the building has been issued. For purposes of the requirement in the Revenue Code that 80% of the cooperative's income must be received from tenant-stockholders, a shareholder does not qualify until his shares are fully paid for. This does not preclude payment in the form of a promissory note. Nor does it prevent a tenant-stockholder from borrowing money from outside sources and pledging his shares and proprietary lease as collateral security.

All payments made on account of the purchase price are to be hold in escrow. At the time of the completion of the building, the purchaser will receive the proprietary lease for the designated apartment, provided he is not in default in his required payments. It should be noted that the basic plan of cooperative organization is incorporated by reference into this purchase agreement (see Form A.14). This assures the purchaser that the various representations in the plan are part of his contract to purchase, and that he can hold the sponsor to those representations. Because cooperative corporations are creatures of statute, it is necessary to review applicable state and local laws and regulations in connection with this Form.

For further information, see Chapters 9 and 16.

FORM

1. *Approval of plan.* The undersigned (the "Purchaser") has read and hereby approves the Plan of Cooperative Organization dated April 1, 2001, and the Schedules and Exhibits attached thereto and the documents referred to therein (collectively the "Plan"), and on file with Harris & Co., Inc. (the "Agent"), and made a part hereof with respect to the land and building ("The Skyline") and by the street number 500 East 68th Street, New York, New York (the "Building").

2. *Desire to participate.* The Purchaser desires (a) to obtain a proprietary lease for Apartment 4E (the "Apartment") in the Building, and (b) to purchase 553 common shares of Skyline Apartments, Inc. (the "Apartment Corporation"), which shares have been allocated to the Apartment.

3. *Purchase price.* The Purchaser hereby irrevocably offers to purchase from the Apartment Corporation 553 of its common shares with a par value of \$1 per share for a total purchase price of \$500 per share payable by good checks drawn to the order of Trust Bank of New York (the "Escrow Agent") and delivered to the Agent as follows:

(a) 10% thereof at the time of execution of this agreement;

(b) 40% thereof after the Plan has been declared operative and the Architect and Consulting Architect have certified that the outside brickwork has been completed (except such portions thereof as are customarily left to be completed after the interior portions are erected) and upon at least 15 days' prior written notice to the Purchaser;

(c) 30% thereof when the Architect and Consulting Architect have certified that the white plaster in the apartments above the ground floor has been completed (except such portions thereof as are left uncompleted due to individual purchasers' changes) and upon at least 15 days' prior written notice to the Purchaser; and

(d) the balance of 20% thereof when the Architect and the Consulting Architect have certified that a temporary certificate of occupancy for the Building has been issued and upon at least 15 days' prior written notice to the Purchaser.

The time of each payment is hereby made the essence of this agreement. The shares shall not be issued and delivered nor shall the Purchaser acquire any rights therein or pertinent thereto until the full payment of all the amounts above provided have been duly made.

The Escrow Agent shall hold and dispose of all such payments made hereunder as provided in an Escrow Agreement in the form of an Exhibit attached to the Plan, and the Purchaser agrees to be bound thereby.

4. *Proprietary lease.* At the time of the completion of the Building, as referred to in the Plan, or as soon thereafter as may be practicable, if the Purchaser shall have made the full payments provided for herein, then the Purchaser shall be entitled to receive a proprietary lease from the Apartment Corporation for the Apartment in the form adopted by the Apartment Corporation as well as a share certificate for the Apartment Corporation's fully paid and nonassessable common shares hereby purchased. The Purchaser shall at the request of the Apartment Corporation, before or after the time of closing, execute such proprietary lease in duplicate. The Purchaser hereby authorizes the Apartment Corporation or the Agent to insert in the proprietary lease the date of the Building's completion as the date of the commencement of the term of such proprietary lease.

5. *Abandonment of plan.* If the Plan is declared abandoned, the Purchaser shall be entitled thereupon to receive back all moneys paid pursuant hereto, without interest, and this agreement shall be deemed terminated and of no further force and effect, and no party shall have any claim against any other party with respect hereto.

2-Forms Federal Taxes Affecting Real Estate [A]

6. *Escrow.* All moneys paid hereunder are to be paid by good checks to the order of the Escrow Agent, which shall hold the proceeds until paid out as provided in this agreement, the Plan, and the Escrow Agreement.

7. *Default by purchaser.* If the Purchaser shall fail to perform any provision of this agreement that he is required to perform, the Apartment Corporation may elect to cancel this agreement by giving the Purchaser written notice of such proposed cancellation. Such notice shall contain the effective date (not less than ten days after the giving of such notice) of such cancellation. If the Purchaser shall cure his default prior to the effective cancellation date the cancellation notice shall be deemed withdrawn. If the Purchaser shall fail to cure his default prior to the cancellation date, then the cancellation shall be effective and the Sponsor named in the Plan shall be entitled to receive all payments made by the Purchaser hereunder and all of the parties hereto shall be relieved and discharged of any further liability and obligation hereunder, except as herein provided. The Sponsor shall then have the right to list the Apartment and to sell the shares and lease covered hereby to any other person at public or private sale, and shall only account to the Purchaser for the net proceeds after payment of all expenses including repairs, decorations, commissions, legal fees, loss of rent, and purchase price.

8. *Default by others.* If the Apartment Corporation, the Sponsor, or the Builder shall have failed to substantially perform their obligations hereunder or under the Plan, the Purchaser's sole rights and remedy shall be to proceed within 12 months from the date of the issuance of the permanent Certificate of Occupancy for the Building against the Apartment Corporation for the return of the moneys paid by the Purchaser for the purchase price of his shares, upon the surrender to the Apartment Corporation of such shares and the accompanying proprietary lease, and possession of the Apartment. The parties hereto waive trial by jury in any action or proceeding hereunder or arising by reason of this agreement or the Plan.

9. *Outside of effective date.* If the Plan is not declared operative by May 1, 2003, then the Purchaser may within 15 days thereafter elect to cancel this agreement by giving written notice to the Apartment Corporation. In that event the Purchaser shall be entitled to receive back all moneys paid hereunder, without interest.

10. *Acceptance of agreement.* This agreement shall not be effective or binding on the Apartment Corporation until it accepts in writing a duplicate hereof, which is approved by the Agent and delivered to the Purchaser.

11. *Notices.* Any notice to be given hereunder shall be made to the Purchaser, in writing, at the address given below, and to the Apartment Corporation, care of Harris & Co., Inc., 500 Fifth Avenue, New York, New York. The date of mailing shall be deemed the date of the giving of such notice.

12. *Errors.* The statements contained in the Plan are believed by the Apartment Corporation, the Sponsor, and the Agent to be correct, and the expressions of opinion therein are likewise believed to be well founded, but no liability shall attach in the event of error.

13. *Assignment.* The Purchaser shall not assign this agreement or the Purchaser's rights hereunder, without the Apartment Corporation's prior written consent.

14. *Examination of facts.* The Purchaser acknowledges that he has had full and free opportunity to investigate and examine all of the facts and documents referred to herein and in the Plan of Organization; and that he has not relied on any representations, warranties, or statements of any nature or kind, including but not limited to estimated date of completion, general description attached to Plan, maintenance charges, or right to any tax deduction, whether contained in any advertisement, selling brochure, or made orally.

15. *Binding effect.* Subject to the provisions hereof, this agreement shall bind and apply to the parties hereto and their respective personal representatives, successors, and permissible assigns.

2-Forms Federal Taxes Affecting Real Estate [A]

16. *Entire agreement.* This agreement contains the full understanding and agreement of the parties and may not be amended, altered, or discharged except by another agreement, in writing, signed by the party sought to be charged therewith.

17. *Purchaser's residence.* The Purchaser represents that he is a resident of the State of New York.

18. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of New York.

19. *Non-waiver.* No delay or failure by a party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

20. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

21. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

A.19 Resale of shares in cooperative corporation--estate sale by executor

COMMENT

The following form is a contract of sale of shares in a cooperative. As such, it deals with the transfer of personal property, i.e., the interest in the shares, and is not a closing of real estate. However, there are ancillary real estate-related documents which must be executed by the parties, such as an assignment and assumption of a proprietary lease referred to in this agreement. Although persons are frequently said to be "owners" of cooperative apartments this is not in fact the case. Purchasers of cooperatives acquire ownership of stock in the corporation that owns the building in which the apartment is located. As stockholders, the purchasers are entitled to lease an apartment to which the stock is allocated.

For further information, see Chapters 9 and 16.

FORM

AGREEMENT, made April 15, 2002, between Paul Richards, as Executor under the Last Will and Testament of Ralph Richards, Deceased, residing at 115 Park Avenue, Rye, New York (the "Seller"), and Morris Monk and Mary Monk, his wife, both residing at 26 West 72nd Street, New York, New York (the "Purchasers").

Whereas the Seller was designated as the Executor under the Last Will and Testament of Paul Richards, Deceased, dated July 25, 1984, who died February 9, 2002; and

Whereas Letters Testamentary were duly issued to the Seller on March 15, 2002, by the Honorable Millard Midonick, a Surrogate of the County of New York, State of New York, authorizing the Seller to administer the estate of the Decedent and such Letters Testamentary have not been revoked; and

Whereas the Decedent at the time of his death was the owner of 221 shares of the capital stock of 165 East End Avenue Corporation (the "Corporation"), of the par value of \$1 per share (the "Stock"), which Stock was allocated to Apartment 17-L (the "Apartment"), in the building owned by the Corporation known as and by the street number 165 East End Avenue, New York, New York, and was the lessee under that certain proprietary lease dated February 1, 1981, between the Corporation, as Lessor, and the Decedent, as Lessee, covering the Apartment for a term commencing on February 1, 1981, and expiring on September 30, 2030 (the "Lease"); and

Whereas the Seller, as Executor under the Last Will and Testament of Ralph Richards, Deceased, has succeeded to the ownership of the Stock and the Lease; and

Whereas the Purchasers desire to purchase the Stock and acquire the Lease from the Seller, and the Seller is willing to sell same to them, for a purchase price of \$500,000, as hereinafter provided.

Now therefore, in consideration of the premises and mutual covenants hereinafter contained, the Seller and Purchasers mutually covenant and agree as follows:

1. *Sale and purchase.* The Seller shall sell to the Purchasers and the Purchasers shall purchase from the Seller, the Stock and Lease for a purchase price of \$500,000.

2. *Seller's representations.* The Seller represents and warrants that, as the Executor under the Last Will and Testament of Ralph Richards, Deceased:

(a) He is the owner of the Stock and Lease;

(b) The Stock is fully paid and nonassessable;

(c) The Stock and Lease are free and clear of all liens, encumbrances, or adverse interests (subject, however, to any liens and mortgages on the underlying real property of which the Apartment forms a part); and

(d) He has the full right and authority to enter into this agreement with the Purchasers and to sell the Stock and Lease to them.

3. *Price.* The purchase price of \$500,000 is payable as follows:

(a) \$50,000 on the execution of this agreement, by check of Purchasers drawn to the order of the Seller, the receipt of

which check, subject to collection, the Seller hereby acknowledges; and

(b) \$450,000 at the Closing in cash or by cashier's check of a New York City bank or by duly certified check of Purchasers drawn to the order of Seller on a bank or trust company which is a member in good standing of the New York City Clearing House Corporation.

4. *Closing.* The closing under this agreement shall take place at 10 a.m. on April 30, 2002, at the offices of Good and Mann, Esqs., the Seller's attorneys, 53rd Floor, 70 Pine Street, New York, New York (the "Closing").

5. *Closing documents; seller.* At the Closing the Seller shall deliver to the Purchasers (against their delivery to the Seller of the balance of the purchase price payable at the Closing and the instrument provided for in paragraph 6 hereof) the following:

(a) *Stock certificate.* Stock Certificate No. 145 of the Corporation issued to the Decedent for the Stock, duly endorsed by the Seller for transfer with all necessary stock transfer stamps duly affixed thereto to cover the transfer to the Purchasers (or, in the alternative, the Seller may at his option deliver to the Purchasers at the Closing cash or his check in the amount necessary to purchase such stamps); and

(b) *Proprietary lease.* A fully executed copy of the Lease and an assignment of proprietary lease in triplicate, duly signed and acknowledged by the Seller, in the form and content of Exhibit A attached hereto and hereby made part hereof; and

(c) *Consents.* A written consent to the transfer of the Stock and assignment of the Lease by the Seller to Purchasers, as provided for in paragraph 5 of Section 6 of Article II of the Proprietary Lease therein.

6. *Closing documents; purchaser.* At the Closing, the Purchasers shall deliver to the Seller (against delivery by the Seller to them of the items provided for in paragraph 5 of this agreement) the following:

(a) *Balance.* The balance of the purchase price payable pursuant to subparagraph (b) of Section 3 hereof; and

(b) *Lease.* An acceptance of assignment and assumption of proprietary lease in triplicate, duly signed and acknowledged by the Purchasers, in the form and content of Exhibit B attached hereto and hereby made part hereof.

On the day of the Closing the Seller shall hand deliver to Brett, Wyckoff and Rudnick, Inc., Managing Agent for the Corporation, fully executed copies of such assignment of proprietary lease and such acceptance of assignment and assumption of proprietary lease.

7. *Effective date; apportionment.* The effective date of the assignment of the Lease by the Seller to the Purchasers shall be the date of the Closing. Rent under the Lease and other charges which have or shall become due and payable under the Lease shall be apportioned as of the date of the Closing, so that the Seller shall bear and pay the portion thereof applicable to the period up to the date of the Closing and the Purchasers shall bear and pay the portion applicable to the period commencing 12:01 a.m. on the date of the Closing. The net amount payable by the Seller to Purchasers, or by the Purchasers to Seller, as the case may be, shall be paid in cash or by check at the Closing.

8. *Subject to board of directors' consent.* This sale is expressly made subject to the granting of written consent by the Corporation, and its Board of Directors, as provided in the Corporation's Bylaws and in the Lease, to the transfer of the Stock and assignment of the Lease by the Seller to the Purchasers. The Purchasers shall submit to the Managing Agent for Corporation and its Board of Directors, in writing, within three days from the date hereof, the names and addresses of persons to whom, and corporations and other entities to which, reference may be had as to Purchasers' social and financial standing. The Purchasers shall also cooperate fully with the Managing Agent and submit to an interview by it

2-Forms Federal Taxes Affecting Real Estate [A]

or by the Corporation's representatives and provide all such information as may be reasonably requested in order for a determination to be made as to the Purchasers' social and financial standing.

If the Seller does not procure the Corporation's written consent provided for in this Section 8 and in Section 5 paragraph (c) hereof at or before the Closing, the downpayment received by the Seller from the Purchasers upon the execution of this agreement shall be returned to the Purchasers and this agreement shall wholly cease and terminate without further liability on either party. In such event neither party shall have any further claim against the other by reason of this agreement.

9. *Acceptance; discharge.* The acceptance by the Purchasers of the instruments referred to in paragraphs (a), (b), and (c) of Section 5 hereof shall be deemed to be full performance and discharge of every agreement and obligation of the Seller to be performed under this agreement or otherwise.

10. *Execution of new proprietary lease.* The Purchasers shall, if the Corporation so requests, surrender the Lease assigned to them and in place thereof enter into a new proprietary lease with the Corporation for the Apartment for the remainder of the term thereof, as more particularly provided in Section 6, paragraph B. 2, and elsewhere of the Proprietary Lease.

11. *Property conveyed.* This sale includes all of the Seller's right, title, and interest, if any, in and to such fixtures, equipment, and items of personal property, including but not limited to kitchen appliances, as may now be contained in the Apartment.

12. *Disclosure and inspection.* The Purchasers represent and warrant to the Seller that they have examined and initialed changes, where appropriate, in the Lease and that they are familiar with the terms, provisions, and conditions contained in the Certificate of Incorporation and Bylaws of the Corporation. The Purchasers further warrant and represent to the Seller that they have inspected the Apartment and the building of which it forms a part, and that they are fully familiar with the condition of the Apartment and of the building. They agree that they are purchasing the Stock and acquiring the Lease for the Apartment in the Apartment's condition "AS IS" on the date hereof and on the date of the Closing (subject to the provisions of Section 14, paragraph (b) hereof). The Purchasers further represent and warrant to the Seller that in the making and execution of this agreement they have not relied upon or been induced by any statements or representations other than those expressly set forth in this agreement, of any person in respect of the Stock, Lease, Apartment, Corporation, or the building, the income, expenses, profit or loss from the operation of the building by the Corporation, or any other matter affecting the building or this sale transaction which might be pertinent in considering the purchase of the Stock and Lease from the Seller or the execution of this agreement. The Purchasers expressly acknowledge that no such representations have been made except as expressly made herein, and they have relied only on such investigations, examinations and inspections, financial and otherwise, as they have chosen to make or have made.

13. *No broker or finder's fee.* The Purchasers warrant and represent to the Seller that they have not negotiated for the purchase of the Stock and Lease with or through any person, firm, or corporation. The Purchasers agree that should any claim be made by anyone for a brokerage commission or finder's fee in connection with this sale transaction by reason of any affirmative act on their part, they will indemnify and hold the Seller free and harmless from any and all liability and expense of any nature in connection therewith.

14. *Events of termination.* This agreement shall terminate forthwith and neither party shall have any rights against the other, except that the Seller shall return to Purchasers the downpayment paid on the execution hereof, if any of the following conditions shall occur prior to the Closing:

(a) The Seller shall be unable, except for his wilful default, to comply with each of paragraphs (a), (b), and (c) of Section 5 hereof;

2-Forms Federal Taxes Affecting Real Estate [A]

(b) The Apartment shall be damaged or injured by fire prior to the Closing so as to render it untenable; or

(c) Prior to the Closing, the Corporation shall have elected to cancel and terminate the Lease under any option or privilege reserved or contained therein;

(d) Prior to the Closing, the Purchasers shall have complied with the provisions of the second sentence of the first paragraph of Section 8 hereof but the Seller shall have been unable to obtain the issuance of the Corporation's written consent to the transfer of the Stock and assignment of the Lease to the Purchasers.

15. *Default; liquidated damages.* If the Purchasers shall fail to take title to the Lease and Stock on the Closing and pay to the Seller the balance of the purchase price and adjustments (if any) for any reason other than one of those set forth in Section 14 hereof, the downpayment paid on the execution of this agreement, and all other sum or sums which may be paid by the Purchasers to the Seller prior to the Closing, may, at the Seller's option, be retained by the Seller as liquidated and agreed damages for the Purchasers' failure to comply with this agreement. In such event neither party shall have any further rights against the other with respect to this agreement. The foregoing liquidated and agreed damage privilege shall not, however, unless so specifically exercised by the Seller, be exclusive of any other right or claim which the Seller shall have against the Purchasers because of any such default.

16. *Joint and several liability.* The Purchasers' liability under this agreement shall be both joint and several.

17. *Time of the essence.* Time shall be of the essence of this agreement with respect to all of the terms hereof. Any delay, however, that shall occur in obtaining the Corporation's written consent to this sale transaction shall permit a reasonable postponement of the Closing until such written consent is obtained. If, however, it is ascertained that no written consent shall be forthcoming, the downpayment shall be returned to the Purchasers.

18. *Corporation consent not unreasonably withheld.* The Purchasers warrant and represent to the Seller that they know of no reason why the Corporation should not consent to their acquiring the Stock and Lease from the Seller.

19. *Notices.* Any notice which either party is required to or desires to give to the other party shall be deemed duly given when mailed by certified mail, return receipt requested, postage charges prepaid, enclosed in an envelope and addressed to the other party at the last address which shall have been designated in writing by the other party as its address for the purpose of receiving notices hereunder. The parties hereby designate for this purpose the following address which is set forth immediately below their name or names:

To Seller: Paul Richards, Executor
c/o Good and Mann
70 Pine Street, New York,

with a duplicate copy sent simultaneously to:

Paul Richards
115 Park Avenue
Rye, New York

To purchasers: Mr. and Mrs. Morris Monk
c/o Louis Loeb, Esq.

2-Forms Federal Taxes Affecting Real Estate [A]

30 Wall Street
New York, New York 10007

20. *Definition.* Whenever the term "other party" is used in this agreement it shall refer to the Seller or to the Purchasers, as the case may be.

21. *Modification.* This agreement may not be changed orally but only in writing signed by all the parties.

22. *Transferability; binding effect.* The Purchasers shall not assign this agreement or their rights hereunder. Subject to the foregoing limitation, this agreement shall be binding upon and inure to the benefit of the parties, the successors and assigns of the Seller, and the heirs, executors, administrators, and personal representatives of the Purchasers.

23. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of New York.

24. *Entire agreement.* This agreement contains the entire understanding between the parties and supersedes all prior understandings and agreements between them respecting the within subject matter.

25. *Non-waiver.* No delay or failure by a party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

26. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

27. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

In witness whereof the parties hereto have signed this agreement as of the day and year first above written.

Paul Richards,

as Executor under the L/W/T of Ralph Richards, Deceased, and not individually.

A.20 Contract for sale by tenant-stockholder of cooperative apartment

COMMENT**Consent to sale:**

Under most cooperative plans, the sale of shares and the transfer of the accompanying lease cannot be accomplished without the consent of the cooperative corporation. In the agreement illustrated here, the closing of the contract is predicated upon the seller's obtaining this consent.

For further information, see Chapters 9 and 16.

FORM

AGREEMENT made April 14, 2002, between John Oxman, residing at 1000 Fifth Avenue, New York, New York (the "Seller"), and Robert Robbins, residing at 100 West 38th Street, New York, New York (the "Purchaser").

1. *Sale.* The Seller agrees to sell, transfer, and deliver to the Purchaser and the Purchaser agrees to purchase and take title from the Seller (all subject, however, to the further terms and conditions of this agreement), the following:

(a) 1100 shares of 1000 Fifth Avenue, Inc. (the "Corporation"), which carry the privilege of receiving the proprietary lease hereinafter referred to in subparagraph (b) of this paragraph.

(b) The proprietary lease (the "Proprietary Lease") between the Corporation, as Lessor, and the Seller, as Lessee, covering apartment 5-F in the apartment building known as 1000 Fifth Avenue, New York, New York, with all necessary executed assignments or consents.

(c) The Seller's right, subject to the provisions of the Proprietary Lease, in and to the fixtures, equipment, and personal property now contained in the apartment, other than furniture, furnishings, and personal effects. Neither the Seller nor the Corporation are obligated to install any additional equipment in the apartment.

(d) The Purchaser has inspected the apartment and shall take it in its present condition, normal wear and tear and removal of fixtures and property not included in this sale excepted.

(e) The Purchaser also acknowledges that he has examined the Proprietary Lease covering the apartment, as well as the Corporation's Certificate of Incorporation and Bylaws, and that he is familiar with the terms of each such instrument.

2. *Price.* The purchase price is \$2,500,000, payable as follows:

(a) \$250,000 by check, subject to collection, when this agreement is signed; and

(b) \$2,250,000 in cash, certified check, or cashier's check, drawn on a New York bank or trust company, payable to the order of the Seller, and to be delivered at the closing.

3. *Warranty of seller.* The Seller warrants and represents that he is the owner of the shares in the Corporation, the Proprietary Lease, and the fixtures, equipment, and personal property heretofore set forth; that the same are free and clear of all liens, encumbrances, and adverse interests, subject, however, to any liens or mortgages on the real property of which the apartment forms a part. The shares in the Corporation are duly paid for and are nonassessable.

2-Forms Federal Taxes Affecting Real Estate [A]

4. *Date of transfer.* The effective date of the assignment of the Proprietary Lease shall be June 16, 2002. Maintenance or rent and other charges which shall have become due and payable under the provisions of the Proprietary Lease shall be apportioned as of such effective date of the assignment, so that the Seller shall bear and shall have paid the portion thereof applicable to the period up to the effective date of the assignment and the Purchaser shall bear and pay the portion applicable to the period commencing with such effective date.

5. *Closing.* The transfer of title hereunder shall be closed and the papers delivered and payments or adjustments made at the office of Jones & Co., Inc., 10 East 42nd Street, New York, New York, on June 15, 2002, at 2 p.m., which date, time, and place are hereby designated as the closing.

6. *Documents to be delivered to purchaser.* At or before the closing the Seller shall deliver to the Purchaser:

(a) Certificate or certificates for the number of shares mentioned in subparagraph (a) of paragraph 1. If the Seller shall be a fiduciary there shall also be delivered all documents necessary or required by the Corporation for the purpose of transferring such shares, including but not limited to wills, waivers by taxing authorities, and certificates of authority to act.

(b) Share transfer power or endorsements on such share certificate or certificates, together with all necessary transfer stamps duly affixed thereto to cover the transfer thereof into the name of the Purchaser.

(c) The Seller's original Proprietary Lease referred to in subparagraph (b) of paragraph 1, together with all such assignments or consents as may have been necessary to transfer the interest of the Lessee named therein to the Seller.

(d) Assignment of the Proprietary Lease, in triplicate, duly executed for the purpose of conveying to the Purchaser all the Seller's right, title, and interest as Lessee in the Proprietary Lease. This assignment shall include a warranty to the effect that good and valid title is being transferred to the Proprietary Lease and the corporate shares above described.

(e) The Corporation's consent to the transfer of such shares and the Proprietary Lease to the Purchaser, or in the alternative, a certificate by an officer of the Corporation that a consent to such assignment is on file with it.

7. *Document to be delivered by purchaser.* At or before the closing the Purchaser, in addition to the payment of the balance of the sale price and adjustments, shall deliver the following:

(a) Agreement signed and acknowledged by the Purchaser in triplicate, in form approved by the Corporation, accepting the assignment of the Proprietary Lease and assuming and agreeing to perform and comply with all of its terms, covenants, and conditions, including observance of house rules and any special provisions with respect to such shares, on and after the effective date of the assignment. One of such executed agreements shall be delivered to the Seller and the other to the Corporation.

(b) If the Corporation so requests, the Purchaser shall surrender the assigned Proprietary Lease and in place thereof shall enter into and execute a new Proprietary Lease with the Corporation in substantially the same form and covering the same apartment as the Proprietary Lease so assigned and surrendered.

8. *References.* The Purchaser shall submit to the Corporation or its managing agent forthwith after the execution hereof adequate references as to the Purchaser's social and financial standing, and shall cooperate in any way reasonably required by the Corporation, including the appearance before any board or committee thereof.

9. *Possession.* The Seller agrees that as of the effective date of the closing the premises will be vacated and possession and keys made available to the Purchaser.

2-Forms Federal Taxes Affecting Real Estate [A]

10. *Termination of agreement.* This agreement shall become null and void and neither party shall have any rights against the other, except that the Seller shall return to the Purchaser the amount paid on the execution hereof, if any of the following conditions shall occur prior to the closing:

(a) The Seller shall be unable, except for his wilful default, to comply with each of subparagraphs (a), (b), (c), (d), and (e) of paragraph 6 of this agreement.

(b) The apartment covered by the Proprietary Lease is damaged or injured by fire between the date of the execution hereof and the date of the closing so as to render it untenable.

(c) Prior to the closing, the Corporation shall have elected to cancel and terminate the Proprietary Lease under any option or privilege reserved or contained therein.

(d) Prior to the closing, the Purchaser shall have complied with the provisions of paragraph 8 of this agreement but the Seller shall have been unable to obtain the Corporation's consent to the transfer of the shares and the Proprietary Lease.

11. *Default by purchaser.* If the Purchaser shall fail to take title to the Proprietary Lease and shares of the Corporation on the closing and pay to the Seller the balance of the sale price and adjustments for any reason other than those set forth in paragraph 10, the amount paid on the execution hereof, and any other sum or sums paid by the Purchaser to the Seller prior to the closing, may at the Seller's option be retained by the Seller as liquidated damages. In such event neither party shall have any further rights against the other with respect to this agreement. The foregoing privilege shall not, however, unless so specifically exercised by the Seller, be exclusive of any right or claim which the Seller shall have against the Purchaser because of any such default.

12. *Broker.* The Purchaser represents to the Seller that Jones & Co., Inc., is the only broker who was instrumental in bringing about this sale. Based upon such representations, the Seller agrees to pay to Jones & Co., Inc. commissions in accordance with a separate agreement made with it.

13. *Annual maintenance.* The seller represents that the annual maintenance for the apartment at the present time is \$100,000.

14. *Time of the essence.* Time shall be of the essence with respect to all terms of this agreement, except that any delay which shall occur in obtaining the Corporation's approval shall permit a reasonable postponement of the closing until such approval is obtained. If it is ascertained, however, that no approval shall be forthcoming, the down payment shall be returned to the Purchaser.

15. *Entire agreement.* This agreement contains the entire agreement between the parties hereto and cannot be changed orally.

16. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of New York.

17. *Non-assignment.* The Purchaser shall not assign this agreement or his rights hereunder.

18. *Binding effect.* Subject to the limitation in paragraph 17, this agreement shall bind and apply to both parties and their respective personal representatives and successors in interest.

19. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

20. *Headings for reference only.* Headings preceding the text and sections of this agreement have been inserted solely for convenience and reference, and shall not be construed to affect its meaning, construction, or effect.

21. *Notices.* All notices or other documents under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

22. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

In witness whereof the parties hereto have signed this agreement the day and year first above written.

A.21 Declaration of condominium--Florida

COMMENT

The passage in 1961 of legislation allowing the Federal Housing Administration to insure mortgages on condominium units triggered the enactment of enabling legislation in the various states. Today, all 50 states have special condominium statutes relating to this form of ownership.

Basically, a condominium is a system of separate ownership of individual units in multi-unit projects. A purchaser of a condominium unit receives fee title to that unit, as if it were a separate unit of property. In addition, there is appurtenant to each unit an undivided interest in the common areas. The ownership of these common elements, which consist generally of hallways, parking areas, recreation facilities, heating plants, etc., is generally allocated to the owners on the basis of the ratio of the value of the unit to the value of the entire project.

The cooperative form of ownership is quite different. There, ownership of the entire structure is lodged in the cooperative corporation. The cooperative-lessee does not hold any interest in the property itself (other than as tenant under a fairly traditional form of lease). The centralization of ownership precludes the characteristic which gives the condominium its special appeal, namely, the ability of each condominium unit owner to arrange his own financing. If he mortgages his unit, his obligation is confined to that debt alone. In contrast, a mortgage on cooperative property blankets every unit in the structure, so that each tenant-shareholder is concerned and involved with possible defaults by every other tenant-shareholder.

It has also been suggested that the condominium owner has greater freedom with respect to the disposition of his property. It is pointed out that a proprietary lease generally gives the cooperative corporation the right of first refusal if the tenant-shareholder wants to sell his interest in the cooperative venture. In some cases, the sale cannot be made without prior approval of the cooperative's board of

2-Forms Federal Taxes Affecting Real Estate [A]

directors which, by contractual or other stipulation, is not to be withheld unreasonably. In both the cooperative and condominium, there are restraints on transfer (such as by a right of first refusal). So long as such restraints are reasonable and not discriminatory, they are lawful.

For tax purposes, the condominium owner and the cooperative owner are similarly treated. The deduction for taxes and interest for a cooperative owner depends upon compliance with certain special statutory requirements because the taxes and interest are in fact paid by the cooperative corporation. In contrast, condominium owner pays his own taxes and his own interest on his own property. His right to these deductions is as clear as the right of any private homeowner. The income tax consequences upon the sale of a condominium apartment are the same as those applicable upon the sale of any residence. The postponement of gain upon the replacement of property used as a principal residence is allowed if either the old or the new residence is a condominium apartment.

A condominium is established by filing, with the formalities of a deed, a declaration submitting specified land, and the improvements to be erected thereon, to condominium ownership. This document generally is called the "declaration of condominium." The information which must be included in the declaration is specified in the applicable statute. The form which follows is a declaration drafted by reference to the Florida statute, which is fairly representative of condominium legislation. However, because a condominium is a creature of statute even the condominium plan must be drafted with due respect to applicable state laws and regulations. Under the Florida statute, the following items are to be set forth in the declaration:

- (1) a statement submitting the property to condominium ownership;
- (2) the name by which the condominium is to be identified, which must include the word "condominium," or must be followed by the words "a condominium";
- (3) a legal description of the land on which the improvements are to be located;
- (4) a survey of the land and a graphic description of the improvements, certified by an engineer, architect, or surveyor, including the number of stories, number of units, apartment boundaries, materials to be used in construction, and a description of the common elements, illustrated by floor plans, maps, building plans, or other means;
- (5) a designation of each unit by letter, name, or number;
- (6) the share of each owner in the common elements;
- (7) the share of common expenses and common surplus of each owner;
- (8) the voting rights;
- (9) the method of amending the declaration;
- (10) a provision for the enactment of by-laws, to be either included in or annexed to the declaration; and
- (11) the name of the association of owners which is to operate the condominium, and a statement as to whether or not it is to be incorporated. If the association is not incorporated, the name and address of the person designated as agent to receive service of process upon the association.

In addition to these required items, the declaration generally includes various limitations relating to the operation of the condominium. For example, as noted above, the declaration often sets forth the conditions under which an apartment may be sold, leased, or received by gift, inheritance, or devise. Under this declaration, an owner who wishes to sell his apartment must notify the owners' association, and may demand that the association furnish a purchaser if it disapproves of the proposed sale. Other optional provisions customarily relate to restrictions on the use of the premises, the maintenance of insurance, the responsibility for the common elements, and the reconstruction of the building after damage by fire or other causes.

In large measure, the problem of the draftsman is simplified to the extent that he relies on the statutory provisions. For example, the technique employed in this form is to define such terms as "apartment," "apartment owner," and "common elements" by reference to the statute. In the same technique, the statutory provision giving the owners' association a lien for unpaid assessments is not restated in the declaration. Unless this approach is adopted, the declaration can become an even more formidable document than the one illustrated in this form.

In Florida, in addition to the declaration, the basic organization documents consist of the articles of incorporation of the owners' association, the bylaws of that association, the agreement of purchase between the builder and the prospective condominium owner, the agreement relating to the availability of a mortgage loan on each unit, and the form of warranty deed. In other jurisdictions, additional documentation may be required.

For further information, see Chapters 6, 13, and 16.

FORM

DECLARATION OF CONDOMINIUM OF CASTELLE APARTMENTS, A CONDOMINIUM

3000 Seaview Road
Miami, Florida

DECLARATION made December 28, 2002, by the Castelle Development Corporation, a Florida corporation, (the "Developer") for itself, its successors, grantees, and assigns.

1. *Submission to condominium ownership.* The purpose of this Declaration is to submit the lands herein described and the improvements to be constructed thereon to the condominium form of ownership and use in the manner provided by Chapter 711, Florida Statutes, herein called the Condominium Act.

(a) The name by which this condominium is to be identified is Castelle Apartments, a condominium, herein called the condominium, and its address is 3000 Seaview Road, Miami, Florida.

(b) The lands owned by the Developer which are hereby submitted to the condominium form of ownership are the following:

[insert description]

2-Forms Federal Taxes Affecting Real Estate [A]

which lands are herein called the land.

2. *Definitions.* The terms used herein and in the Bylaws (attached as Exhibit E) shall have the meanings stated in the Condominium Act and as follows:

- (a) "Apartment" means unit as defined by the Condominium Act.
- (b) "Apartment owner" means unit owner as defined by the Condominium Act.
- (c) "Association" means the Castle Association, Inc., and its successors.
- (d) "Common elements" shall be all the parts of the condominium property not included within the apartment boundaries as described in paragraph 4.
- (e) "Common expenses" include (1) expenses of administration; expenses of maintenance, operation, repair, or replacement of the common elements, and of the portions of apartments to be maintained by the Association; (2) expenses declared common expenses by provisions of this Declaration or by the Bylaws; and (3) any valid charge against the condominium as a whole, such as ad valorem taxes for the year in which this Declaration is recorded.
- (f) "Utility services" as used in the Condominium Act and construed with reference to the condominium, and as used in this Declaration and the Bylaws, shall include but not be limited to electric power, gas, hot and cold water, heating, refrigeration, air conditioning, and garbage and sewage disposal.

3. *Development plans.* The condominium is being developed according to the following plans:

- (a) A survey of the land to be developed is attached as Exhibit A.
- (b) The improvements shall be constructed by the Developer substantially in accordance with the plans and specifications therefor prepared by Paul J. Fisch, A.I.A., which are attached hereto as Exhibit B. The condominium will include an apartment building consisting of a ground floor, a lobby floor, and 15 additional floors, making a total of 17 floors. The building will contain 127 owners' apartments and a manager's apartment. The condominium will also include storage space for each apartment, gardens and landscaping, a swimming pool, automobile parking areas, and other facilities located substantially as shown in the plans and specifications. Use of parking areas will be permitted according to regulations of the Association.
- (c) This Declaration may be amended by filing such additional plans as may be required to describe adequately the completion of improvements. Such completion may be shown by a certificate of an architect, engineer, or surveyor certifying that the improvements have been constructed substantially as herein represented, or designating any changes made. Such plans or certificate when signed and acknowledged by the Developer shall in themselves constitute an amendment of this Declaration, notwithstanding the procedures for amendment described elsewhere in this Declaration.
- (d) Easements are reserved through the condominium property as may be required for utility services.

4. *Apartment boundaries.* Each apartment shall include that part of the building containing the apartment which lies within the boundaries of the apartment. The boundaries shall be determined in the following manner:

- (a) The upper boundary shall be the plane of the lower surfaces of the ceiling slab.
- (b) The lower boundary shall be the plane of the lower surfaces of the floor slab.

(c) The vertical boundaries of the apartment shall be (1) the exterior of the outside walls of the apartment building bounding an apartment except where there is attached to the building a balcony, loggia, terrace, canopy, stairway, or other portion of the building serving only the apartment being bounded, in which event the boundaries shall be such as will include all of such structures and fixtures thereon, and (2) the center line of the interior walls bounding an apartment.

5. *Description of apartments.* The apartments of the condominium are more particularly described as follows:

(a) There are eight typical apartment floor plans which are designated by the capital letters A, B, C, D, E, F, G, and H. These apartments are generally described below and by the sketches attached hereto as the exhibits indicated in the following schedule. Further details are illustrated by the building plans and specifications attached as Exhibit B.

Apartment	Containing	Exhibit
A	Living-room, dining-room, kitchen, three bedrooms, three bathrooms, and balcony terrace	C-1
B	Living-room, dining-room, kitchen, two bedrooms, two bathrooms, and balcony terrace	C-2
C	Living-room, dining-room, kitchen, two bedrooms, two bathrooms, and balcony terrace	C-3
D	Living-room, dining-room, kitchen, two bedrooms, two bathrooms, and balcony terrace	C-4
E	Living-room, dining-room, kitchen, two bedrooms, two bathrooms, and balcony terrace	(Reverse of Apartment D)

F	Living-room, dining-room, kitchen, two bed- rooms, two bath- rooms, and bal- cony ter- race	r-5
G	Living-room, dining-room, kitchen, one bed- room, and one and one-half bathrooms	C-6
H	Living-room, dining-room, kitchen, three bed- rooms, Apartment A) three bath- rooms, and bal- cony ter- race	(Reverse of

(b) Each apartment is identified by the use of the capital letter designating the typical apartment floor plan utilized, preceded by the number designating the floor upon which the apartment is located, the initial "G" being used for the ground floor. Two apartments located on the ground floor are designated G C and G D. Terraces for these apartments are not balconies. Five apartments located on the lobby floor are designated 1 A, 1 B, 1 C, 1 D, and 1 E. There are one of each of the typical apartments A, B, C, D, E, F, G, and H upon each of the remaining fifteen floors. Such floors are numbered 2 through 16, both inclusive.

(c) The Developer reserves the right to change the interior design and arrangement of all apartments and to alter the boundaries between apartments, so long as the Developer owns the apartments so altered. Any such change shall be reflected by an amendment of this Declaration which may be executed by the Developer alone, notwithstanding the procedures for amendment described in paragraph 21 of this Declaration. However, no such change shall increase the number of apartments nor alter the boundaries of the common elements without amendment of this Declaration in the manner described in paragraph 21 of this Declaration. If more than one apartment is altered the Developer shall appropriately reapportion the shares in the common elements which are allocated to the altered apartments.

6. *Shares of common elements and expenses.* Each apartment owner shall own a share in the common elements and in any surplus possessed by the Association, and be liable for common expenses as follows:

An undivided.92% share to each Apartment A (16 such apartments)	14.72
An undivided.81% share to each Apartment B (16 such apartments)	12.96
An undivided.76% share to each Apartment C (17 such apartments)	12.92

2-Forms Federal Taxes Affecting Real Estate [A]

An undivided.78% share to each Apartment D (17 such apartments)	13.26
An undivided.78% share to each Apartment E (16 such apartments)	12.48
An undivided.75% share to each Apartment F (15 such apartments)	11.25
An undivided.574% share to each Apartment G (15 such apartments)	8.61
An undivided.92% share to each Apartment H (15 such apartments)	13.80
Total	100. 00%

7. *Maintenance and alteration of apartments.* (a) The Association shall maintain, repair, and replace

(1) all portions of an apartment, except interior surfaces, contributing to the support of the apartment building, which portions shall include but not be limited to the outside walls of the apartment building and all fixtures on the exterior thereof; boundary walls of apartments; floor and ceiling slabs; and load-bearing columns and load-bearing walls; and

(2) all conduits, ducts, plumbing, wiring, and other facilities for the furnishing of utility services which are contained in the portions of an apartment maintained by the Association; and all such facilities contained within an apartment which service part or parts of the condominium other than the apartment within which contained.

All incidental damage caused to an apartment by such work shall be promptly repaired at the expense of the Association.

(b) The responsibility of the apartment owner shall be

(1) to maintain, repair, and replace at his expense all portions of his apartment except the portions to be maintained, repaired, and replaced by the Association;

(2) not to paint or otherwise decorate or change the appearance of any portion of the exterior of the apartment building;

(3) to promptly report to the Association any defect or need for repairs the responsibility for which is that of the Association.

(c) Except as elsewhere reserved to the Developer, neither an apartment owner nor the Association shall make any alteration in the portions of an apartment or apartment building which are to be maintained by the Association, remove any portion thereof, make any additions thereto, do anything which would jeopardize the safety or soundness of the apartment building, or impair any easement, without first obtaining approval in writing of owners of all apartments in which such work is to be done and the approval of the Board of Directors of the Association. A copy of plans for all of such work prepared by an architect licensed to practice in this state shall be filed with the Association prior to the start of the work.

8. *Maintenance and alteration of common elements.* (a)

2-Forms Federal Taxes Affecting Real Estate [A]

The Association shall be responsible for the operation and maintenance of the common elements, and shall pay for the cost and expense thereof.

(b) After the completion of the improvements included in the common elements, contemplated by this Declaration, there shall be no alteration or further improvement of the real property constituting the common elements without prior written approval by the owners of not less than 75% of the common elements except as provided by the Bylaws, but no such alteration or improvement shall interfere with the rights of any apartment owner. The cost of such work shall not be assessed against a bank, life insurance company, or federal savings and loan association which acquires its title as the result of owning a mortgage upon an apartment unless such an owner shall approve the alteration or improvement, regardless of whether the title is acquired by deed from the mortgagor or through foreclosure proceedings. The share of any cost not so assessed shall be assessed to the other apartment owners in the proportions which their shares in the common elements bear to each other. There shall be no change in the shares and rights of an apartment owner in the common elements which are altered or further improved, whether or not the apartment owner contributes to the cost thereof.

9. *Assessments.* (a) Assessments against apartment owners for common expenses shall be made pursuant to the Bylaws and shall be allocated as set forth in paragraph 6 of this Declaration. However, if services are furnished to apartment owners beyond the maintenance and operation of the condominium property, such as operation of a restaurant or bar, no assessment on account of such services shall be made against a bank, life insurance company, or federal savings and loan association which acquires its title as a result of owning a first mortgage upon an apartment, unless the occupant of the apartment owned by such an institution voluntarily accepts such services. This shall be so whether the title is acquired by deed from the mortgagor or through foreclosure proceedings. The shares of any cost or loss not so assessed shall be assessed to the other apartment owners in the proportions which their shares in the common elements bear to each other.

(b) Assessments and installments thereon paid on or before ten days after the date when due shall not bear interest, but all sums not paid on or before ten days after the date when due shall bear interest at the rate of 10% per annum from the date when due until paid. All payments upon account shall be first applied to interest and then to the assessment payment first due.

(c) The lien for unpaid assessments provided by Florida law shall also secure reasonable attorneys' fees incurred by the Association incident to the collection of such assessment or enforcement of such lien.

(d) In any foreclosure of a lien for assessments the owner of the apartment subject to the lien shall be required to pay a reasonable rental for the apartment, and the Association shall be entitled to the appointment of a receiver to collect such rental.

10. *Association.* The operation of the condominium shall be by Castle Association, Inc., (the "Association") a corporation not for profit under the laws of Florida, which shall be organized and shall fulfill its functions pursuant to the following provisions:

(a) The members of the Association shall be the apartment owners.

(b) The Association shall be incorporated under Articles of Incorporation in the form attached as Exhibit D.

(c) The Bylaws of the Association shall be in the form attached as Exhibit E.

(d) Notwithstanding the duty of the Association to maintain and repair parts of the condominium property, the Association shall not be liable for injury or damage, other than the cost of maintenance and repair, caused by any latent condition of the property that it is required to maintain and repair, nor for injury or damage caused by the elements or

other owners or persons.

(e) The share of a member in the funds and assets of the Association cannot be assigned, hypothecated, or transferred in any manner except as an appurtenance to his apartment.

(f) Whenever the decision of an apartment owner is required upon any matter, whether or not the subject of an Association meeting, such decision shall be expressed by the same person who would cast the vote of such owner if in an Association meeting, unless the joinder of record owners is specifically required by this Declaration.

11. *Insurance.* (a) The Association shall purchase insurance policies upon the condominium property covering the items described in subparagraph (b) of this paragraph, for the benefit of the Association and the apartment owners and their mortgagees as their interests may appear. Provision shall be made for the issuance of certificates of mortgage endorsements to the mortgagees of apartment owners. Such policies and endorsements shall be deposited with the Insurance Trustee, which shall hold them subject to the provisions of paragraph 12.

(b) Insurance shall cover the following:

(1) all buildings and improvements upon the land and all personal property included in the common elements in an amount equal to the maximum insurable replacement value, excluding foundation and excavation costs, as determined annually by the Board of Directors of the Association. Such coverage shall afford protection against loss or damage by fire and other hazards covered by a standard extended coverage endorsement, and such other risks as are customarily covered with respect to buildings similar to the buildings on the land, such as vandalism and malicious mischief;

(2) public liability in such amounts and with such coverage as shall be required by the Board of Directors of the Association, including but not limited to hired automobile and nonowned automobile coverages, and with cross liability endorsement to cover liabilities of the apartment owners as a group to an apartment owner;

(3) workmen's compensation as required by law;

(4) such other insurance as the Board of Directors of the Association shall determine from time to time to be desirable.

(c) Premiums upon insurance policies purchased by the Association shall be paid by the Association as a common expense.

(d) The Association is hereby irrevocably appointed agent for each apartment owner to adjust all claims arising under insurance policies purchased by the Association, and to execute and deliver releases upon the payment of claims.

12. *Responsibilities of insurance trustee.* (a) All insurance policies purchased by the Association shall provide that proceeds covering property losses shall be paid to any bank in Florida which is selected by the Board of Directors of the Association as a trustee, which bank is herein referred to as the Insurance Trustee. The Insurance Trustee shall not be liable for payment of premiums, for the renewal or the sufficiency of policies, or for the failure to collect any insurance proceeds.

(b) The Insurance Trustee shall receive such proceeds as are paid and hold them in trust for the benefit of the apartment owners and their mortgagees as follows. An undivided share of such proceeds on account of damage to common elements shall be allocated to the apartment owners according to their shares of the common elements set forth in paragraph 6. Proceeds on account of apartments shall be held for the owners of damaged apartments in proportion to the cost of repairing the damage suffered by each apartment owner, which cost shall be determined by the Association. If a mortgagee endorsement is issued as to an apartment, the share of the apartment owner shall be held in trust for the mortgagee and the apartment owner as their respective interests may appear.

(c) Proceeds of insurance policies received by the Insurance Trustee shall be distributed as follows:

(1) All expenses of the Insurance Trustee shall be first paid.

(2) If the damage for which the proceeds are paid is to be repaired or reconstructed, the remaining proceeds shall be expended as provided in paragraph 14. Any proceeds remaining after defraying such costs shall be distributed to the beneficial owners, remittances to apartment owners and their mortgagees being payable jointly to them. This is a covenant for the benefit of any mortgagee of an apartment and may be enforced by such mortgagee.

(3) If it is determined as provided in paragraph 14 that the damage for which the proceeds are paid shall not be reconstructed or repaired, or if there are excess proceeds remaining after a reconstruction and repair, the remaining proceeds shall be distributed to the beneficial owners, remittances to apartment owners and their mortgagees being payable jointly to them. This is a covenant for the benefit of any mortgagee of an apartment and may be enforced by such mortgagee.

(4) In making distribution to apartment owners and their mortgagees, the Insurance Trustee may rely upon a certificate of the Association as to the names of the apartment owners and their respective shares of the distribution, and as to whether or not the building is to be reconstructed or repaired.

13. *When damaged property is to be reconstructed or repaired.* (a) If common elements are damaged, they shall be reconstructed or repaired, unless it is determined under paragraph 22 that the condominium shall be terminated.

(b) If the damaged property is the apartment building, and if apartments to which 50% or more of the common elements are appurtenant are found by the Board of Directors of the Association to be tenantable, the damaged property shall be reconstructed or repaired unless within 60 days after the casualty it is determined under paragraph 22 that the condominium shall be terminated.

(c) If the damaged property is the apartment building, and if apartments to which more than 50% of the common elements are appurtenant are found by the Board of Directors to be not tenantable, the damaged property will not be reconstructed or repaired and the condominium shall be terminated under paragraph 22 unless within 60 days after the casualty the owners of at least 75% of the common elements agree in writing to such reconstruction or repair. No mortgagee shall have any right to participate in the determination as to whether damaged property shall be reconstructed or repaired.

(d) Any reconstruction or repair must be substantially in accordance with the plans and specifications for the original building prepared by Paul F. Fisch, A.I.A., or if not, then according to plans and specifications approved by the Board of Directors of the Association, and if the damaged property is the apartment building, by the owners of not less than 75% of the common elements, including the owners of all damaged apartments, which approval shall not be unreasonably withheld.

14. *Responsibilities and procedures as to payment for repairs.* (a) If damage occurs only to those parts of an apartment for which the responsibility of maintenance and repair is that of the apartment owner, such owner shall be responsible for reconstruction and repair after casualty. In all other instances the responsibility of reconstruction and repair after casualty shall be that of the Association.

(b) Immediately after a casualty causing damage to property for which the Association has the responsibility of maintenance and repair, the Association shall obtain reliable and detailed estimates of the cost to rebuild or repair so as to place the damaged property in condition as good as that before the casualty.

2-Forms Federal Taxes Affecting Real Estate [A]

(c) If the insurance proceeds are not sufficient to defray the estimated costs of reconstruction and repair, assessments shall be made against the apartment owners who own the damaged property, and against all apartment owners in the case of damage to common elements, in sufficient amounts to provide funds to pay the estimated costs. Additional assessments may be made at any time during, or following the completion of, construction. Such assessments against apartment owners for damage to apartments shall be in proportion to the cost of reconstruction and repair of their respective apartments. Such assessments on account of damage to common elements shall be in proportion to the owner's share in the common elements.

(d) If the amount of the estimated costs of reconstruction and repairs for which the Association is responsible is more than \$5,000, the Association shall deposit the sums paid upon assessments to meet such costs with the Insurance Trustee. In all other cases the Association shall hold the sums paid upon such assessments and disburse them in payment of the costs of reconstruction and repair.

(e) The proceeds from assessments and insurance received by the Insurance Trustee shall be disbursed as follows:

(1) The portion of insurance proceeds representing damage, the reconstruction and repair of which is the responsibility of the apartment owner, shall be paid by the Insurance Trustee to the apartment owner or, if there is a mortgagee endorsement, then to the apartment owner and the mortgagee jointly, who may use such proceeds as they may be advised.

(2) The portion of insurance proceeds representing damage, the reconstruction and repair of which is the responsibility of the Association, shall be disbursed in payment of the costs of such repair and reconstruction in the manner required by the Board of Directors of the Association and upon approval of an architect qualified to practice in Florida and employed by the Association to supervise the work.

(3) The Insurance Trustee shall not be required to determine whether a disbursement is to be made, the identity of the payee, or the amount to be paid, but may rely upon a certificate of the Association stating such information.

15. *Use restrictions.* The use of the property of the condominium shall be in accordance with the following provisions:

(a) Each of the apartments shall be occupied only by a family, its servants, and guests, as a residence and for no other purpose. Except as reserved to the Developer, no apartment may be divided or subdivided into a smaller unit nor any portion thereof sold or otherwise transferred without first amending this Declaration to show the changes in the apartments to be effected thereby.

(b) The common elements shall be used only for the purposes for which they are intended in the furnishing of services and facilities for the enjoyment of the apartments.

(c) No use or practice shall be permitted on the condominium property which is the source of annoyance to residents or which interferes with the peaceful possession and proper use of the property by its residents. All parts of the property shall be kept in a clean and sanitary condition, and no rubbish, refuse, or garbage allowed to accumulate nor any fire hazard allowed to exist. No apartment owner shall permit any use of his apartment or of the common elements which will increase the rate of insurance upon the condominium property. No immoral, improper, offensive, or unlawful use shall be made of the condominium property or any part thereof. All valid laws, zoning ordinances, and regulations of all governmental bodies having jurisdiction thereof shall be observed. The responsibility of meeting the requirements of governmental bodies which require maintenance, modification, or repair of the condominium property shall be the same as the responsibility for the maintenance and repair of the property concerned. No rooms may be rented or transient guests accommodated.

(d) Neither the apartment owners nor the Association nor the use of the condominium property shall interfere with the

2-Forms Federal Taxes Affecting Real Estate [A]

completion of the contemplated improvements and the sale of the apartments until the Developer has completed and sold all of the apartments. The Developer may make such use of the unsold units and common areas as may facilitate such completion and sale, including but not limited to the maintenance of a sales office, the showing of the property, and the display of signs.

(e) The Association may make and amend, from time to time, reasonable regulations concerning the use of the condominium property. Such regulations shall be made and amended in the manner provided in the Association's Articles of Incorporation and Bylaws. The Association shall furnish copies of such regulations and amendments thereto to all apartment owners and residents of the condominium, upon their request.

16. *Approval of transfer or lease.* (a) No apartment owner may effectively dispose of an apartment or any interest therein by sale or lease, except to another apartment owner in the condominium, without approval of the Association. If any apartment owner shall acquire his title by gift, devise, or inheritance, the continuance of his ownership of his apartment shall be subject to the approval of the Association.

(b) An apartment owner intending to make a bona fide sale or lease of his apartment or any interest therein shall give to the Association notice of such intention, together with the name and address of the intended purchaser or lessee, and such other information concerning the intended purchaser or lessee as the Association may reasonably require. In the case of a prospective sale, such notice may include the apartment owner's demand that the Association furnish a purchaser if the proposed purchaser is not approved; and if such demand is made, the notice shall be accompanied by an executed copy of the proposed contract to sell. An apartment owner who has obtained his title by gift, devise, or inheritance shall give to the Association notice of the acquisition of his title, together with such personal information as the Association may reasonably require, and a certified copy of the instrument evidencing his title. If the notice to the Association is not given, then at any time after receiving knowledge of a transaction or event transferring ownership or possession of an apartment, the Association at its election and without notice may approve or disapprove the transaction or ownership.

(c) Within 30 days after receipt of the notice described in subparagraph (b) of this paragraph the Association must either approve or disapprove the proposed transaction or the continuance of ownership, as the case may be. If approved, the approval shall be stated in a certificate executed by the President and Secretary in recordable form, and shall be delivered to the purchaser, lessee, or new owner and shall be recorded in the public records of the county (except that a lease need not be recorded).

17. *Disapproval of transfer or leases.* (a) If the Association disapproves a proposed sale and if the notice of sale given by the apartment owner shall so demand, within 30 days after receipt of such notice and information the Association shall deliver or mail by registered mail to the apartment owner an offer to purchase by a purchaser approved by the Association who will purchase and to whom the apartment owner must sell the apartment. At the option of such purchaser, to be stated in his offer, the price to be paid shall be that stated in the disapproved contract to sell or shall be the fair market value determined by arbitration in accordance with the then existing rules of the American Arbitration Association, except that the arbitrators shall be two appraisers appointed by the American Arbitration Association who shall base their determination upon an average of their appraisals of the apartment; and a judgment of specific performance of the sale upon the award rendered by the arbitrators may be entered in any court of competent jurisdiction. The expense of the arbitration shall be paid by the purchaser. The purchase price shall be paid in cash, and the sale shall be closed within 30 days after the delivery or mailing of such offer to purchase, or within ten days after the determination of the sale price if such is by arbitration, whichever is the later.

(b) If the proposed transaction is a lease, the apartment owner shall be advised of the disapproval in writing, and the lease shall not be made.

(c) If the Association disapproves the acquisition of title by gift, devise, or inheritance, the provisions of subparagraph

2-Forms Federal Taxes Affecting Real Estate [A]

(a) of this paragraph shall apply (except that the purchase price shall be at fair market value determined by arbitration).

(d) If the Association shall fail to provide a purchaser as required in subparagraphs (a) and (c) of this paragraph, then notwithstanding the disapproval, the sale or ownership, as the case may be, shall be deemed to have been approved, and the Association shall furnish a certificate of approval as provided in paragraph 16.

18. *Mortgage and acquisition by mortgagees.* (a) No apartment owner may mortgage his apartment or any interest therein without the approval of the Association, except to a bank, life insurance company, or a federal savings and loan association. The approval of any other mortgagee shall be subject to conditions determined by the Association.

(b) The provisions of paragraphs 16 and 17 shall not apply to a transfer to or purchase by a bank, life insurance company, or federal savings and loan association which acquires its title as the result of owning a mortgage upon the apartment concerned, whether the title is acquired by deed from the mortgagor or through foreclosure proceedings. Nor shall such provisions apply to a transfer, sale, or lease by a bank, life insurance company, or federal savings and loan association which so acquires its title. Neither shall such provisions require the approval of a purchaser who acquires title to an apartment at a duly advertised public sale with open bidding which is provided by law, such as, but not limited to, execution sale, foreclosure sale, judicial sale, or tax sale.

19. *Notice of lien or suit.* (a) An apartment owner shall give notice to the Association of every lien upon his apartment, other than for permitted mortgages, taxes, and special assessments, within five days after the attaching of the lien. Failure to comply with this subparagraph will not affect the validity of any judicial sale.

(b) Notice shall be given to the Association of every suitor other proceeding which may affect the title to his apartment within five days after the apartment owner receives knowledge thereof.

20. *Compliance and default.* (a) Each apartment owner shall be governed by and shall comply with the terms of this Declaration, the Articles of Incorporation, Bylaws, and regulations adopted pursuant thereto, and by such documents and regulations as they may be amended from time to time. A default shall entitle the Association or other apartment owners to the relief described in subparagraph (b) of this paragraph in addition to the remedies provided by the Condominium Act.

(b) An apartment owner shall be liable for the expense of any maintenance, repair, or replacement rendered necessary by his act, neglect, or carelessness or by that of any member of his family or his or their guests, employees, agents, or lessees, but only to the extent that such expense is not met by the proceeds of insurance carried by the Association. Such liability shall include any increase in fire insurance rates occasioned by use, misuse, occupancy, or abandonment of an apartment or its appurtenances. In any proceeding arising out of an apartment owner's alleged default, the prevailing party shall be entitled to recover the costs of the proceeding and such reasonable attorneys' fees as may be awarded by the court.

(c) The failure of the Association or any apartment owner to enforce any covenant, restriction, or other provision of the Condominium Act, this Declaration, the Articles of Incorporation, the Bylaws, or the regulations adopted pursuant thereto, shall not constitute a waiver of the right to do so thereafter.

21. *Amendments.* This Declaration may be amended in the following manner:

(a) Notice of the subject matter of a proposed amendment shall be included in the notice of any meeting at which a proposed amendment is considered.

(b) Either the Board of Directors or the members of the Association may propose a resolution adopting a proposed resolution. Directors and members not present in person or by proxy at the meetings considering the amendment may

2-Forms Federal Taxes Affecting Real Estate [A]

express their approval in writing, providing such approval is delivered to the Secretary at or prior to the meeting. Except as elsewhere provided, such approvals must be either by (1) not less than 75% of the entire membership of the Board of Directors and by not less than 75% of the votes of the entire membership of the Association; or (2) not less than 80% of the votes of the entire membership of the Association; or (3) until the first election of directors, only by all of the directors, provided the amendment does not increase the number of apartments nor alter the boundaries of the common elements.

(c) No amendment shall discriminate against any apartment owner or against any apartment or class or group of apartments unless the apartment owners so affected shall consent. No amendment shall change any apartment nor the share in the common elements appurtenant to it, nor increase the owner's share of the common expenses, unless the record owner of the apartment and all record owners of liens thereon shall join in the execution of the amendment.

(d) A copy of each amendment shall be certified by the President and Secretary of the Association as having been duly adopted and shall be effective when recorded in the Public Records of Dade County, Florida.

22. *Termination.* The condominium may be terminated in the following manner in addition to the manner provided by the Condominium Act:

(a) If it is determined under paragraph 13(c) that the apartment building shall not be reconstructed because of major damage, the condominium plan of ownership will be thereby terminated without agreement.

(b) The condominium may be terminated at any time by the written approval of all of the owners of the condominium, and by all record owners of liens thereon. If the proposed termination is submitted to a meeting of the members of the Association, the notice of which meeting gives notice of the proposed termination, and if the approval of the owners of not less than 75% of the common elements, and of the record owners of liens upon the same 75% of the common elements, are obtained not later than 30 days from the date of such meeting, then the approving owners shall have an option to buy all of the apartments of the other owners during the period ending on the 60th day from the date of such meeting.

(c) The option described in subparagraph (b) of this paragraph shall be exercised by delivery or mailing by registered mail to each of the record owners of the apartments to be purchased of an offer to purchase signed by the record owners of apartments who will participate in the purchase. Such offer shall indicate which apartments will be purchased by each participating owner and shall offer to purchase all of the apartments owned by owners not approving the termination, but the offer shall effect a separate contract between each seller and his purchaser.

(d) The sale price for each apartment shall be the fair market value determined by agreement between the seller and purchaser within 30 days from the delivery or mailing of such offer, and in the absence of agreement by arbitration in accordance with the then existing rules of the American Arbitration Association, except that the arbitrators shall be two appraisers appointed by the American Arbitration Association who shall base their determination upon an average of their appraisals of the apartment; and a judgment of specific performance of the sale upon the award rendered by the arbitrators may be entered in any court of competent jurisdiction. The expense of the arbitration shall be paid by the purchaser. The purchase price shall be paid in cash, and the sale shall be closed within ten days following the determination of the sale price.

(e) The termination of the condominium shall be evidenced by a certificate of the Association executed by the President and Secretary certifying as to facts effecting the termination, which certificate shall become effective upon being recorded in the public records of Dade County, Florida.

(f) After termination of the condominium the apartment owners shall own the condominium property and all assets of the Association as tenants in common in undivided shares, and their respective mortgagees and lienors shall have

mortgages and liens upon the respective undivided shares of the apartment owners. Such undivided shares of the apartment owners shall be the same as the undivided shares in the common elements appurtenant to the owners' apartments prior to the termination.

23. *Severability.* The invalidity in whole or in part of any covenant or restriction, or any section, subsection, sentence, clause, phrase, or word, or other provision of this Declaration and the Articles of Incorporation, Bylaws, and regulations of the Association shall not affect the validity of the remaining portions thereof.

In witness whereof the Developer has executed this Declaration the day and year first above written.

A.22 Articles of incorporation: association of condominium owners

COMMENT

Since there is no single owner of the entire condominium to whom the responsibility for maintenance and operation can be directly traced, condominium enabling statutes provide for the administration of the condominium by a representative group of owners. In general, the formation and conduct of such an owners' organization are governed by bylaws that are required to be filed with the declaration of condominium.

Basic provisions:

The articles of incorporation state that the association is organized for the purpose of conforming to that provision of the condominium statute requiring that an entity be formed to operate the condominium. All the record owners of apartments are to be members of the association. Since the association is organized as a nonprofit corporation, the articles must provide that no distributions of income are to be made to members, directors, or officers.

Association powers:

The articles of incorporation must grant to the association sufficient powers to operate the condominium, including the following:

- (1) To maintain, replace, and operate the condominium property;

- (2) To make and collect assessments against members for costs, expenses, and losses;
- (3) To contract for the management of the condominium, and to employ necessary personnel;
- (4) To purchase insurance on condominium property for the protection of the association and its members;
- (5) To make regulations as to use of the property, subject to approval by at least 75% of the votes of the entire membership;
- (6) To approve or disapprove the transfer, mortgage, and ownership of apartments, as provided in the declaration of condominium and in bylaws; and
- (7) To enforce the provisions of the condominium act, the declaration of condominium, the bylaws, and regulations for use of the property.

Corporate procedure:

The articles must also set forth the general ground rules for corporate organization. These include provisions with respect to the directors, officers, bylaws, term of the association, and indemnification of directors and officers. These provisions must be drafted with due regard to applicable state statutes and regulations.

Tax aspect:

A condominium management association may qualify as a homeowners' association that is treated generally as a tax-exempt organization, provided that an election is made and certain tests are met as to the function, income, and expenditures of the association. The association must be organized and operated to provide for the acquisition, construction, management, maintenance, and care of association property. Association property includes property owned by the association or its members, either privately or in common with other members. At least 60% of the association's annual gross income must come only from membership dues, fees, or assessments and at least 90% of its annual expenditures must be for the purposes for which it must be organized and operated. The net earnings of the association may not inure to the benefit of anyone except to the extent that the organization performs its required functions; however, members of the organization may receive a rebate of excess dues and assessments.

If a condominium management association complies with the above requirements, and makes a proper election, it will not be taxed on its "exempt function income" (membership dues, fees, and assessments), but all other income will be taxed at a 30 percent rate.

For further information, see Chapter 6, 13, and 16.

FORM

Articles of Incorporation
of
Castelle Association, Inc.

2-Forms Federal Taxes Affecting Real Estate [A]

The undersigned hereby associate themselves for the purpose of forming a corporation not for profit under Chapter 711, Florida Statutes, and certify as follows:

Article I Name

The name of the corporation shall be Castelle Association, Inc., hereinafter called the Association.

Article II Purpose

1. The purpose for which the Association is organized is to provide an entity pursuant to Chapter 711, Florida Statutes, hereinafter called the Condominium Act, for the operation of Castelle Apartments, a Condominium located upon the following lands:

[Insert description]

2. The Association shall make no distributions of income to its members, directors, or officers.

Article III Powers

The powers of the Association shall include and be governed by the following provisions:

1. The Association shall have all of the common law and statutory powers of a corporation not for profit which are not in conflict with the terms of these Articles.

2. The Association shall have all of the powers and duties set forth in the Condominium Act except as limited by these Articles and the Declaration of Condominium (hereinafter called the Declaration), and all of the powers and duties reasonably necessary to operate the condominium as set forth in the Declaration and as it may be amended from time to time, including but not limited to the following:

(a) To make and collect assessments against members to defray the costs, expenses, and losses of the condominium.

(b) To use the proceeds of assessments in the exercise of its powers and duties.

(c) To maintain, repair, replace, and operate the condominium property.

(d) To purchase insurance upon the condominium property and insurance for the protection of the Association and its members.

(e) To reconstruct improvements after casualty and to further improve the property.

(f) To make and amend reasonable regulations respecting the use of the property in the condominium; provided, however, that all such regulations and amendments thereto shall be approved by not less than 75% of the votes of the entire membership of the Association before such shall become effective.

(g) To approve or disapprove the transfer, mortgage, and ownership of apartments as may be provided by the

2-Forms Federal Taxes Affecting Real Estate [A]

Declaration and the Bylaws.

(h) To enforce by legal means the provisions of the Condominium Act, the Declaration, these Articles, the Bylaws of the Association, and the regulations for the use of the condominium property.

(i) To contract for the management of the condominium and to delegate to such contractor all powers and duties of the Association except such as are specifically required by the Declaration to require approval of the Board of Directors or the membership of the Association.

(j) To contract for the management or operation of portions of the common elements susceptible to separate management or operation, and to lease such portions.

(k) To employ personnel to perform the services required for proper operation of the condominium.

3. The Association shall not have the power to purchase an apartment of the condominium. This provision shall not be changed without unanimous approval of the members.

4. All funds and the titles of all properties acquired by the Association and the proceeds thereof shall be held in trust for the members in accordance with the provisions of the Declaration, these Articles, and the Bylaws.

5. The powers of the Association shall be subject to and shall be exercised in accordance with the provisions of the Declaration and the Bylaws.

Article IV Members

1. The members of the Association shall consist of all of the record owners of apartments.

2. Change of membership in the Association shall be established by the recording in the public records of Dade County, Florida, of a deed or other instrument establishing a record title to an apartment in the condominium and the delivery to the Association of a certified copy of such instrument, the owner designated by such instrument thereby becoming a member of the Association. The membership of the prior owner shall be thereby terminated.

3. The share of a member in the funds and assets of the Association cannot be assigned, hypothecated, or transferred in any manner except as an appurtenance to his apartment.

4. The members of the Association shall be entitled to at least one vote for each apartment owned by them. The exact number of votes to be cast by owners of an apartment and the manner of exercising voting rights shall be determined by the Bylaws of the Association.

Article V Directors

1. The affairs of the Association shall be managed by a Board consisting of the number of directors as shall be determined by the Bylaws, but not less than three directors, and in the absence of such determination shall consist of three directors.

2. Directors of the Association shall be elected at the annual meeting of the members in the manner determined by the Bylaws. Directors may be removed and vacancies on the Board of Directors shall be filled in the manner provided by the Bylaws.

2-Forms Federal Taxes Affecting Real Estate [A]

3. The first election of directors shall not be held until after all of the apartments of the condominium have been sold by the developer of the condominium, or until after December 31, 2003, or until such developer elects to terminate its control of the condominium, whichever shall first occur. The directors herein named shall serve until the first election of directors, and any vacancies in their number occurring before the first election shall be filled by the remaining directors.

4. The names and addresses of the members of the first Board of Directors who shall hold office until their successors are elected and have qualified, or until removed, are as follows:

Richard Quinn
400 Clove Road
Miami, Florida

George Champion
400 Clove Road
Miami, Florida

John Preis
400 Clove Road
Miami, Florida

Article VI Officers

The affairs of the Association shall be administered by officers elected by the Board of Directors at its first meeting following the annual meeting of the members of the Association, which officers shall serve at the pleasure of the Board of Directors. The names and addresses of the officers who shall serve until their successors are designated by the Board of Directors are as follows:

President:	Richard Quinn	400 Clove Road Miami, Florida
Vice President and Assistant Secretary:	John Preis	400 Clove Road Miami, Florida
Secretary-Treasurer:	George Champion	400 Clove Road Miami, Florida

Article VII Indemnification

Every director and every officer of the Association shall be indemnified by the Association against all expenses and liabilities, including counsel fees, reasonably incurred by or imposed upon him in connection with any proceeding to which he may be a party, or in which he may become involved, by reason of his being or having been a director or officer of the Association, or any settlement thereof, whether or not he is a director or officer at the time such expenses are incurred, except in such cases wherein the director or officer is adjudged guilty of willful misfeasance or malfeasance in the performance of his duties; provided that in the event of a settlement the indemnification herein shall apply only when the Board of Directors approves such settlement and reimbursement as being for the best interests of

2-Forms Federal Taxes Affecting Real Estate [A]

the Association. The foregoing right of indemnification shall be in addition to and not exclusive of all other rights to which such director or officer may be entitled.

Article VIII Bylaws

The first Bylaws of the Association shall be adopted by the Board of Directors, and may be altered, amended, or rescinded in the manner provided by the Bylaws.

Article IX Amendments

Amendments to the Articles of Incorporation shall be proposed and adopted in the following manner:

1. Notice of the subject matter of a proposed amendment shall be included in the notice of any meeting at which a proposed amendment is considered.
2. A resolution approving a proposed amendment may be proposed by either the Board of Directors or the members of the Association. Directors and members not present in person or by proxy at the meetings considering the amendment may express their approval in writing, providing such approval is delivered to the Secretary at or prior to the meeting.
3. Approval of an amendment must be by not less than 75% of the entire membership of the Board of Directors and by not less than 75% of the votes of the entire membership of the Association, or by not less than 80% of the votes of the entire membership of the Association.
4. No amendment shall make any changes in the qualifications for membership nor the voting rights of members, nor any change in Section 3 of Article III, without approval in writing by all members.
5. A copy of each amendment shall be certified by the Secretary of State and recorded in the public records of Dade County, Florida.

Article X Term

The term of the Association shall be the life of the condominium, unless the Association is terminated sooner by unanimous action of its members. The Association shall be terminated by the termination of the condominium in accordance with the provisions of the Declaration.

Article XI Subscribers

The names and residences of the subscribers of these Articles of Incorporation are as follows:

Richard Quinn	400 Clove Road Miami, Florida
John Preis	400 Clove Road Miami, Florida
George Champion	400 Clove Road Miami, Florida

In witness whereof the subscribers have hereto affixed their signatures on December 28, 2002.

A.23 Bylaws of condominium owners' association

COMMENT

To a great extent, the contents of the bylaws will depend upon what has been included in the declaration, since many essentials of condominium operation may be provided for in either instrument.

Condominium statutes generally require that various matters be set forth in the bylaws. Accordingly, due regard should be paid to applicable state statutes. In general, these include matters relating to the organization of the owners' association, the meetings of members, the election of a board of directors, the election of officers, the procedure for collecting assessments against unit owners, the percentage of unit owners required to make decisions, and the procedure for amending the bylaws. Other subjects not required by statute to be included in the bylaws, or in the declaration of condominium, may be in the bylaws if they have not been covered in the declaration.

In drafting the documents for this condominium, the decision was made to treat in the declaration many of the problems which could be covered in either instrument. For example, the declaration deals with limitations on the transfer of a unit, limitations on the use of the premises, responsibility for maintenance of the property, and responsibility for reconstruction after damage. However, the bylaws do cover some matters with respect to the maintenance and operation of the condominium, in addition to the matters required to be included by statute. Thus, the bylaws prescribe certain accounting and budgetary practices, including the establishment of reserves for current operating expenses, for maintenance, and for replacement of improvements. With respect to the annual budget prepared by the board of directors, the bylaws specify certain limitations which cannot be exceeded without approval of the owners. The bylaws also allocate to the owners the voting rights to be exercised at meetings of the association.

For further information, see Chapters 6, 13, and 16.

FORM

Bylaws
of the
Castelle Association, Inc.,
A Corporation Not for
Profit Under the Laws
of the State of Florida

1. *Identity.* These are the Bylaws of the Castelle Association, Inc., (the "Association"), a Corporation not for profit under the laws of the State of Florida, the Articles of Incorporation of which were filed in the office of the Secretary of State on December 28, 2002. The Association has been organized for the purpose of administering a condominium

2-Forms Federal Taxes Affecting Real Estate [A]

pursuant to Chapter 711, Florida Statutes, (the "Condominium Act"), which condominium is identified by the name Castle Apartments, a Condominium, and is located upon the following land:

(Insert description)

The office of the Association shall be at 3000 Seaview Road, Miami, Florida. The fiscal year of the Association shall be the calendar year.

The seal of the Corporation shall bear the name of the Corporation, the word "Florida," the words "Corporation not for profit" and the year of incorporation.

2. *Members' meetings.* (a) The annual members' meeting shall be held at the office of the Corporation at three p.m., Eastern Standard Time, on the second Friday in February of each year for the purpose of electing directors and transacting any other business authorized to be transacted by the members. If that day is a legal holiday, the meeting shall be held at the same hour on the next day.

(b) Special members' meetings shall be held whenever called by the President or Vice President or by a majority of the Board of Directors, and must be called by such officers upon receipt of a written request from members entitled to cast one-third of the votes of the entire membership.

(c) Notice of all members' meetings, stating the time and place and the objects for which the meeting is called, shall be given by the President or Vice President or Secretary unless waived in writing. Such notice shall be in writing to each member at his address as it appears on the books of the Association and shall be mailed not less than ten days nor more than 60 days prior to the date of the meeting. Proof of such mailing shall be given by the affidavit of the person giving the notice. Notice of meeting may be waived before or after meetings.

(d) A quorum at members' meetings shall consist of persons entitled to cast a majority of the votes of the entire membership. If any meeting of the members cannot be organized because a quorum is not present, the members who are present, either in person or by proxy, may adjourn the meeting for at least ten days, and adequate notice of the new date shall be given as described in paragraph (c) of this Section.

(e) In any meeting of members the owners of apartments shall be entitled to cast the number of votes indicated in the following schedule, unless the decision to be made is required to be by the owners of a stated percentage of the common elements:

Number of votes for each Apartment bearing the designation	of such apartments
—	—
A	3
B	2
C	2
D	2
E	2

2-Forms Federal Taxes Affecting Real Estate [A]

F	2
G	1
H	3

If an apartment is owned by one person his right to vote shall be established by the record title to his apartment. If an apartment is owned by more than one person, or is under lease, the person entitled to cast the vote for the apartment shall be designated by a certificate signed by all of the record owners of the apartment and filed with the Secretary of the Association. If an apartment is owned by a corporation, the person entitled to cast the vote for the apartment shall be designated by a certificate of appointment signed by the President or Vice President and attested by the Secretary or Assistant Secretary of the Corporation and filed with the Secretary of the Association. Such certificates shall be valid until revoked, or until superseded by a subsequent certificate, or until a change in the ownership of the apartment concerned. A certificate designating the person entitled to cast the vote of an apartment may be revoked by any owner thereof.

(f) Votes may be cast in person or by proxy. Proxies may be made by any person entitled to vote. They shall be valid only for the particular meeting designated and must be filed with the Secretary before the appointed time of the meeting.

(g) The order of business at annual members' meetings, and as far as practical at all other members' meetings, shall be

- (1) election of chairman of the meeting;
- (2) calling of the roll and certifying of proxies;
- (3) proof of notice of meeting or waiver of notice;
- (4) reading and disposal of any unapproved minutes;
- (5) reports of officers;
- (6) reports of committees;
- (7) election of inspectors of election;
- (8) election of directors (if necessary);
- (9) unfinished business;
- (10) new business; and
- (11) adjournment.

(h) Until the Developer of the condominium (the "Developer"), has completed and sold all of the apartments of the condominium, or until December 31, 1989, or until the Developer elects to terminate its control of the condominium, whichever shall first occur, there shall be no meeting of members of the Association unless a meeting is called by the Board of Directors.

3. *Directors.* (a) The affairs of the Association shall be managed by a board of not more than 11 directors, the exact number to be determined at the time of election. Directors' fees shall be determined by the members.

2-Forms Federal Taxes Affecting Real Estate [A]

(b) Election of directors shall be conducted at the annual members' meeting. A nominating committee of five members shall be appointed by the Board of Directors not less than 30 days prior to the annual members' meeting. The committee shall nominate one person for each director then serving. Additional nominations for directorships and directors may be made from the floor. The election shall be by ballot (unless dispensed with by unanimous consent) and by a plurality of the votes cast, each person voting being entitled to cast his votes for each of as many nominees as there are vacancies to be filled. There shall be no cumulative voting.

(c) Except as to vacancies provided by removal of directors by members, vacancies in the Board of Directors occurring between annual meetings of members shall be filled by the remaining directors.

(d) Any director may be removed by concurrence of two-thirds of the votes of the entire membership at a special meeting of the members called for that purpose. The vacancy in the Board of Directors so created shall be filled by the members of the Association at the same meeting.

(e) Until the Developer has completed and sold all of the apartments of the condominium, or until December 31, 2003, or until the Developer elects to terminate its control of the condominium, whichever shall first occur, the first directors of the Association shall serve, and in the event of vacancies the remaining directors shall fill the vacancies, and if there are no remaining directors the vacancies shall be filled by the Developer.

(f) The term of each director's service shall extend until the next annual meeting of the members and thereafter until his successor is duly elected and qualified or until he is removed in the manner elsewhere provided.

4. *Directors' meetings.* (a) The organization meeting of a newly-elected Board of Directors shall be held within ten days after its election at such place and time as shall be fixed by the directors at the meeting at which they were elected, and no further notice of the organization meeting shall be necessary providing a quorum shall be present.

(b) Regular meetings of the Board of Directors may be held at such time and place as shall be determined, from time to time, by a majority of the directors. Notice of regular meetings shall be given to each director, personally or by mail, telephone, or telegraph at least three days prior to the day named for such meeting.

(c) Special meetings of the directors may be called by the President and must be called by the Secretary at the written request of one-third of the directors. Notice of the meeting shall be given personally or by mail, telephone, or telegraph at least three days prior to the day named for such meeting, which notice shall state the time, place, and purpose of the meeting.

(d) Any director may waive notice of a meeting before or after the meeting and such waiver shall be deemed equivalent to the giving of notice.

(e) A majority of the entire board of directors shall constitute a quorum at directors' meetings. The acts approved by a majority of those present at a meeting at which a quorum is present shall constitute the acts of the Board of Directors, except where approval by a greater number of directors is required by the Declaration of Condominium, (the "Declaration"), the Articles of Incorporation, or these Bylaws. If at any meeting of the Board of Directors less than a quorum is present, the majority of those present may adjourn the meeting from time to time until a quorum is present. At any adjourned meeting any business which might have been transacted at the meeting as originally called may be transacted without further notice. The joinder of a director in the action of a meeting by signing and concurring in the minutes thereof shall constitute the presence of such director for the purpose of determining a quorum.

(f) The Chairman of the Board, if such an officer has been elected, shall be the presiding officer at directors' meetings; otherwise, the President shall preside. In the absence of the presiding officer, the directors present shall designate one of

their number to preside.

(g) The order of business at directors' meetings shall be

(1) calling of roll,

(2) proof of due notice of meeting;

(3) reading and disposal of any unapproved minutes;

(4) reports of officers and committees;

(5) election of officers;

(6) unfinished business;

(7) new business; and

(8) adjournment.

5. *Powers and duties of the board of directors.* All of the powers and duties of the Association existing under the Condominium Act, the Declaration, the Articles of Incorporation, and these Bylaws shall be exercised exclusively by the Board of Directors, its agents, contractors, or employees, subject only to approval by apartment owners if such is specifically required. Compensation of employees of the Association shall be fixed by the directors. A director may be an employee of the Association, and a contract for management of the condominium may be entered into with a director.

6. *Officers.* (a) The executive officers of the Association shall be a President, who shall be a director, a Vice President, who shall be a director, a Treasurer, a Secretary, and an Assistant Secretary, all of whom shall be elected annually by the Board of Directors and who may be removed by vote of the directors at any meeting. Any person may hold two or more offices except that the President shall not also be the Secretary or an Assistant Secretary. The Board of Directors may from time to time elect other officers to exercise such powers and duties as the Board shall deem necessary or appropriate to manage the affairs of the Association. Compensation of officers shall be fixed by the Board of Directors.

(b) The President shall be the chief executive officer of the Association. He shall have all of the powers and duties which are usually vested in the office of president of an association, in order to assist in the conduct of the affairs of the Association, including, without limitation, the power to appoint such committees as he may deem appropriate from time to time from among the members of the Board.

(c) The Vice President shall in the absence or disability of the President exercise the powers and perform the duties of the President. He shall also generally assist the President and exercise such other powers and perform such other duties as shall be prescribed by the directors.

(d) The Secretary shall keep the minutes of all proceedings of the directors and the members. He shall attend to the giving and serving of all notices to the members and directors and other notices required by law. He shall have custody of the seal of the Association and affix the same to instruments requiring a seal when duly signed. He shall keep the records of the Association, except those of the Treasurer, and shall perform all other duties incident to the office of Secretary of an association and as may be required by the directors or the President. The Assistant Secretary shall perform the duties of the Secretary when the Secretary is absent.

2-Forms Federal Taxes Affecting Real Estate [A]

(e) The Treasurer shall have custody of all property of the Association, including funds, securities, and evidences of indebtedness. He shall keep the books of the Association in accordance with generally accepted accounting practices and shall perform all other duties incident to the office of Treasurer.

7. *Accounting.* The funds and expenditures of the Association shall be credited and charged to accounts under the following classifications as shall be appropriate, all of which expenditures shall be common expenses:

(a) "Current expenses," which shall include all funds and expenditures to be made within the year for which the funds are budgeted, including a reasonable allowance for contingencies and working funds, except expenditures chargeable to reserves, to additional improvements, or to operations. The balance in this fund at the end of each year shall be applied to reduce the assessments for current expense for the succeeding year.

(b) "Reserve for deferred maintenance," which shall include funds for maintenance items which occur less frequently than annually.

(c) "Reserve for replacement," which shall include funds for repair or replacement required because of damage, depreciation, or obsolescence.

(d) "Additional improvements," which shall include the funds to be used for capital expenditures for additional improvements or additional personal property which will be part of the common elements.

8. *Budget.* The Board of Directors shall adopt a budget for each calendar year which shall include the estimated funds required to defray common expenses and to provide funds for the accounts listed in Section 7 of these Bylaws. The budget shall take into account the following items:

(a) "Current expense," the amount for which shall not exceed 105% of the budget for this account for the prior year.

(b) "Reserve for deferred maintenance," the amount for which shall not exceed 105% of the budget for this account for the prior year.

(c) "Reserve for replacement," the amount for which shall not exceed 105% of the budget for this account for the prior year.

(d) "Additional improvements," the amount for which shall not exceed \$12,700; provided, however, that in the expenditure of this fund no sum in excess of \$2,500 shall be expended for a single item or purpose without approval of the members of the Association.

(e) "Operations," the amount of which may be to provide a working fund or to meet losses.

The amount for each budgeted item may be increased over the foregoing limitations when approved by apartment owners entitled to cast not less than 75% of the votes of the entire membership of the Association. Until the Developer has completed and sold all of the apartments of the condominium, or until December 31, 1989, or until the Developer elects to terminate its control of the condominium, whichever shall first occur, the Board of Directors may omit from the budget all allowances for contingencies and reserves. Copies of the budget and proposed assessments shall be transmitted to each member on or before December 1 preceding the year for which the budget is made. If the budget is subsequently amended, a copy of the amended budget shall be furnished to each member.

9. *Assessments.* (a) Assessments against the apartment owners for their shares of the items of the budget shall be made on or before December 20 preceding the year for which the assessments are made. Such assessments shall be due in two equal payments on the first day of January and July of the year for which the assessments are made. If an annual

2-Forms Federal Taxes Affecting Real Estate [A]

assessment is not made as required, it shall be presumed to have been made in the amount of the last prior assessment. If the annual assessment proves to be insufficient, the budget and assessments therefor may be amended at any time by the Board of Directors if the items of the amended budget do not exceed the limitations thereon for that year. Any item which does exceed such limitation shall be subject to the approval of the membership of the Association as provided in section 8 of these Bylaws. The unpaid assessment for the remaining portion of the calendar year for which the amended assessment is made shall be due upon the date of the assessment.

(b) If an apartment owner shall default in the payment of an installment upon an assessment, the Board of Directors may accelerate the remaining installments of the assessment upon notice thereof to the apartment owner, and thereupon the unpaid balance of the assessment shall come due upon the date stated in the notice, but not less than ten days after delivery thereof to the apartment owner, or not less than 20 days after the mailing of such notice to him by registered or certified mail, whichever shall first occur.

(c) Assessments for common expenses of emergencies which cannot be paid from the annual assessments for common expenses shall be made only after notice of the need therefor to the apartment owners concerned. After such notice and upon approval in writing by persons entitled to cast more than one-half of the votes of the apartment owners concerned, the assessment shall become effective, and it shall be due after 30 days' notice thereof in such manner as the Board of Directors may require.

(d) The depository of the Association shall be such bank or banks as shall be designated from time to time by the directors and in which the moneys of the Association shall be deposited. Withdrawal of moneys from such accounts shall be only by checks signed by such persons as are authorized by the directors.

(e) An audit of the accounts of the Association shall be made annually by a certified public accountant, and a copy of the report shall be furnished to each member not later than April 1 of the year following the year for which the report is made.

(f) Fidelity bonds shall be required by the Board of Directors from all persons handling or responsible for Association funds. The amount of such bonds shall be determined by the directors, but shall be at least one-half of the amount of the total annual assessments against members for common expenses. The premiums on such bonds shall be paid by the Association.

10. *Parliamentary rules.* Roberts' Rules of Order (latest edition) shall govern the conduct of Association meetings when not in conflict with the Declaration, the Articles of Incorporation, or these Bylaws.

11. *Amendments.* These Bylaws may be amended in the following manner:

(a) Notice of the subject matter of a proposed amendment shall be included in the notice of any meeting at which a proposed amendment is considered.

(b) A resolution adopting a proposed amendment may be proposed by either the Board of Directors or by the members of the Association. Directors and members not present in person or by proxy at the meetings considering the amendment may express their approval in writing, provided such approval is delivered to the Secretary at or prior to the meeting. Except as elsewhere provided, such approvals must be by at least 75% of the entire membership of the Board of Directors and by not less than 75% of the votes of the entire membership of the Association; or by at least 80% of the votes of the entire membership of the Association. Until the first election of directors, all directors must approve any amendment.

(c) No amendment shall discriminate against any apartment owner or against any apartment or class or group of apartments unless the apartment owners so affected shall consent. No amendment shall change any apartment nor the

2-Forms Federal Taxes Affecting Real Estate [A]

share in the common elements appurtenant to it, nor increase the owner's share of the common expenses, nor change the voting rights of members, unless the record owner of the apartment concerned and all record owners of liens thereon shall join in the execution of the amendment.

(d) A copy of each amendment shall be certified by the President and Secretary of the Association as having been duly adopted and shall be effective when recorded in the Public Records of Dade County, Florida.

The foregoing were adopted as the Bylaws of Castelle Association, Inc., a corporation not for profit under the laws of the State of Florida, at the first meeting of the Board of Directors on January 30, 2003.

A.24 Agreement to purchase condominium apartment

COMMENT

As soon as preliminary plans for construction have been completed and the declaration of condominium has been drafted, the developer will normally arrange for the sale of apartments. If the purchase contract is entered into during the early stage of the venture, both the seller and the purchaser are likely to require special protections. The developer may desire to avoid an ironclad commitment to build while he attempts to arrange sufficient sales to insure the profitability of the project. In addition, he may want to screen the various applications for apartments in order to sell only to potentially compatible residents. On the other hand, the purchaser needs protection against the possibility that the developer may abandon the project.

Several of the techniques which have been developed for satisfying these and other basic difficulties are illustrated by this form, which has been cast as an offer by a prospective owner to purchase an apartment in the condominium. Upon acceptance by the developer, this document will serve as the purchase agreement. In the meanwhile, during the period allowed to the developer to consider the offer, it may investigate the personal information submitted by the offeror, and may further evaluate the desirability of completing the venture. If the developer should decide to abandon the project, even subsequent to accepting the offer, he is liable under the agreement only to return the amounts deposited by the purchaser.

As a protection to the purchaser under this agreement, his payments are to be held in trust and are not to be paid to the developer until the developer (1) accepts the offer; (2) gives the purchaser notice of the commencement of construction; (3) gives the purchaser an architect's certificate that he has entered into a general construction contract, and has received a performance bond; (4) gives the purchaser a certificate of a mortgagee that sufficient loans have been extended to cover the general contract price; and (5) obtains commitments for title insurance. There are other protective features for the purchaser. During the initial period when apartments remain unsold, assessments levied upon the purchaser for operating expenses may not exceed a specified amount. All mortgages on the property are to be discharged or released at the closing unless assumed by the purchaser. This affords the purchaser the opportunity to make his own financial arrangements. The developer undertakes to organize an owners' association (as required by the statute), and to arrange for the management of the condominium property.

Dealer treatment:

The tax consequences of selling apartments in a condominium project constructed by a developer can probably be equated with the construction and sale of private homes. Thus, the developer who dedicates property to condominium ownership and sells the apartments to different purchasers is likely to be treated as if he had subdivided real property and developed and sold private homes in separate transactions. Such a developer would be considered a "dealer" in real property and gains realized would be treated as ordinary income. However, if the owner of an apartment building, after holding it several years for the production of income, liquidates his investment by converting it to condominium ownership, there may be some basis for contending that such a liquidation is a capital transaction.

Unit owners' benefit:

The analogy for tax purposes between the condominium apartment and the private home will apply as well to the apartment owner. Any loss realized from the sale of a condominium apartment is nondeductible if the apartment was used solely as a personal residence. On the other hand, if the owner of the apartment had converted it to rental property, he could deduct loss realized upon its sale. But, in such case, the basis for determining loss is the value of the property at the date of the conversion to rental use (but not greater than cost), adjusted for depreciation subsequent to such appropriation. If the owner of a condominium apartment leases it to a tenant, the owner is entitled to depreciation deductions. In computing the depreciation deductions, the basis is the cost of the property or its value at the time of conversion to rental use, whichever is less.

For further information, see Chapters 6, 13, and 16.

FORM

January 15, 2003

The undersigned (the "Purchaser"), herewith pays the sum of \$10,000 to Quinn Management Corp., a real estate broker, ("Quinn"), as earnest money to evidence the Purchaser's good faith, and hereby offers to purchase from Castell Development Corporation, 3000 Seaview Road, Miami, Florida, (the "Developer"), Apartment 4A of Castell Apartments, a condominium, (the "condominium"). The condominium is to be established by the filing of a Declaration of Condominium (the "declaration"). This apartment (the "apartment") is to be subject to the provisions of the declaration, which require the Purchaser to pay .92% of the common expenses. The condominium is to be located upon the following land:

(Insert description)

This offer is subject to the following terms and conditions.

1. *Price and terms of payment.* (a) The purchase price of the apartment is \$460,000, \$10,000 of which is paid herewith, \$200,000 of which is to be paid to Quinn within 15 days after the Developer has given notice to the Purchaser of the beginning of construction of the apartment building, and the balance of which amounting to \$250,000 is to be paid in cash at the time of closing.

(b) All payments made upon the purchase price shall be held in Quinn's Castelle Trust Account until:

2-Forms Federal Taxes Affecting Real Estate [A]

(1) The Developer shall have complied with all of the requirements of paragraph 2 of this agreement, and

(2) The Developer shall have entered into a sufficient number of contracts for the sale of apartments to assure satisfactory condominium operation. This condition shall be satisfied by the making of contracts for the sale of 64 apartments at prices totalling not less than \$3,400,000, or by a determination made by the Developer in its sole discretion that the number of contracts for the sale of apartments which have been made are sufficient for this purpose, whichever shall first occur. The satisfaction of this condition shall be evidenced by the Developer's certificate which shall be delivered to Quinn.

If all of the foregoing conditions are not satisfied before completion of the Purchaser's apartment, or before December 15, 2003, whichever shall first occur, the sums held by Quinn shall be returned to the Purchaser upon demand, and all parties shall be released from all obligations under this agreement.

(c) This offer is conditioned upon the Pruchaser's ability to obtain a mortgage loan upon the apartment in the amount and upon the terms set forth in the supplemental agreement attached hereto.

2. *Performance by developer.* Quinn shall not deliver to the Developer any payments made by Purchaser until such time as the Developer shall have satisfied the following conditions:

(a) The Developer shall have accepted this offer by delivering or mailing to the Purchaser a counterpart of this agreement signed by the Developer.

(b) The Developer shall have given notice to the Purchaser of the start of construction of the apartment building.

(c) The Developer shall have given to the Purchaser a certificate by an architect qualified to practice in Florida certifying that the Developer has contracted with a general contractor for the construction and equipping of the condominium as herein required, and that the Developer has been supplied with a performance bond by the general contractor in the amount of the general contract price.

(d) The Developer shall have given to the Purchaser a certificate of a mortgagee that a construction fund, consisting of the proceeds of mortgage loans and such other funds as may be required for the constructing and equipping of the condominium, has been established in an amount not less than the amount of the general contract price, and that such fund will be disbursed only in a manner approved by the mortgagee.

(e) The Developer at its expense shall have furnished to the Purchaser a commitment by a title guarantor or insurer selected by the Developer and qualified to do business in Florida to guarantee or insure the title of the apartment to the Purchaser in the amount of the purchase price, subject only to the exceptions stated in paragraph 6 hereof and the following exceptions: rights of persons in possession of the property; facts that an accurate survey or personal inspection of the property will disclose; unrecorded labor, mechanic, or materialmen's liens; encumbrances, liens, or conveyances, other than a conveyance to the person to whom such commitment is made, which are recorded, or of which the Purchaser or his attorney acquires knowledge, between the effective date of the commitment and the date of issuance of the opinion and guarantee or insurance policy; and mortgages and liens of record. All mortgages and liens will be discharged or released at the closing unless assumed by the Purchaser.

3. *Approval of purchaser.* The Purchaser understands that the Developer is attempting to create a community of congenial residents, that this offer will be screened with such purpose in view, and that this offer may be arbitrarily rejected. The Purchaser represents that the information he has submitted to the Developer concerning the Purchaser and his family are true. As part of the consideration for this agreement the Purchaser consents that the Developer may make such investigation of the Purchaser as may be deemed desirable, and the Purchaser shall hold the Developer harmless

2-Forms Federal Taxes Affecting Real Estate [A]

and releases the Developer from liability on account of such investigation and the Developer's decision thereon.

4. *Disclosure.* The Purchaser acknowledges having received copies of the following instruments: (a) the Developer's Declaration of Condominium; (b) the Developer's Articles of Incorporation; (c) the Developer's Bylaws; (d) the Developer's deed to the property on which the condominium will be situated; (e) the management contract for the condominium; (f) the projected operating budget for Apartment 4A; and (g) the sales brochure and floor plan for Apartment 4A.

5. *Acceptance of offer.* If this offer is not accepted on or before 60 days after the date hereof by delivery or mailing to the Purchaser of a copy of this agreement executed by the Developer, the Purchaser may elect to withdraw this offer at any time prior to its acceptance. Upon such withdrawal all sums paid hereunder will be paid to the Purchaser forthwith upon demand. If the Developer shall reject this offer, then all sums paid hereunder by the Purchaser shall be returned to the Purchaser forthwith with notice of such rejection. Upon return to the Purchaser of all sums paid hereunder, all parties shall be released from all obligations under this agreement.

6. *The condominium.* (a) The Developer will construct a multi-story apartment building and other improvements substantially in accordance with the plans and specifications therefor prepared by Paul J. Fisch, A.I.A., subject, however, to modifications approved by the Developer. Such plans and specifications are available for inspection by the Purchaser at the office of the Developer.

(b) The wood trim and doors in the Purchaser's apartment will be primed for painting but the apartment will not be otherwise decorated. The Purchaser's apartment is being sold unfurnished but will be equipped in the manner shown by the plans and specifications. The Purchaser will furnish all hanging lighting fixtures.

(c) The declaration will be recorded at or prior to the closing. The Developer reserves the right to make changes in the proposed declaration, a copy of which has been delivered to the Purchaser, providing such changes do not decrease the Purchaser's share in the common elements nor increase the Purchaser's share of the common expenses.

(d) Risk of loss prior to closing shall be borne by the Developer.

(e) The Developer shall cause Castle Association, Inc., a Florida nonprofit corporation, which will be responsible for the operation of the condominium, to contract with Quinn, a corporation owned by the same corporation that owns the Developer, for the furnishing of professional management in the operation of the condominium. This contract will be for the period beginning with the closing of the first sale of an apartment in the condominium and will continue until 90 days after notice of cancellation given by either party to the contract.

(f) The Developer shall cause Castle Association, Inc., to make assessments so that the assessment against the apartment for common expenses for the period beginning with the closing of this sale and ending when the Developer has sold all of the apartments in the condominium, or on December 31, 2005, or when the Developer elects to pay assessments upon the apartments owned by it, whichever shall first occur, shall be at a rate of not more than \$100 per month and shall be payable semi-annually in advance on January 1 and July 1 of each year. The Developer shall be assessed for only that part of the common expenses incurred during such period which in excess of the sums collected by assessments against apartments sold by the Developer. This clause shall survive the closing.

7. *Title to be conveyed.* The Developer shall convey by warranty deed a marketable or insurable fee simple title to the apartment, subject only to the following exceptions:

(a) The provisions of the declaration, including such regulations and service contracts as shall be in force under the declaration.

2-Forms Federal Taxes Affecting Real Estate [A]

(b) Taxes for the year in which the sale is closed, if not paid.

(c) Restrictions of record and such zoning or other restrictions upon the use of the property as may be imposed by governmental authorities having jurisdiction thereof.

(d) Liens for work done or materials furnished at the request of the Purchaser.

8. *Closing.* (a) This sale shall be closed and the balance of the purchase price paid on or before 15 days after delivery or mailing to the Purchaser of a certificate evidencing the completion of construction. Such certificate shall be made by an architect qualified to practice in Florida and shall certify that the Purchaser's apartment has been completed and equipped substantially in accordance with the manner herein described, and that approval of the apartment for occupancy has been obtained from all governmental bodies of which such approval is required.

(b) The closing will be at the office of the Developer, and title to the apartment shall be conveyed by warranty deed subject only to the exceptions herein stated.

(c) The following expenses will be prorated to the date of closing:

(1) Ad valorem taxes. If the taxes for the year in which the sale is closed are assessed against the property as a whole, then the portion of such taxes apportioned to such apartment shall be the same share as the share in the common elements which is appurtenant to such apartment. Such taxes will be paid by Castelle Association, Inc., as a common expense and the taxes apportioned to such apartment shall be assessed to the Developer and the Purchaser in the sums prorated to them. The Developer covenants that the assessment against it for such taxes shall be secured by a lien against all apartments which the Developer then owns. If the Developer shall own less than three apartments at the time of closing, then at the closing the Developer will deposit in escrow with Castelle Association, Inc., a sum which is 150% of the amount of the Developer's estimated share of such taxes on the entire condominium, which escrow shall be used for the payment of the Developer's share of the taxes, and the balance shall be paid to the Developer. This clause shall survive the closing.

(2) The costs of maintenance and operation of the condominium in the amount of the assessments last made against such apartment, or if none, then the assessments which would have been made if the sale had been closed prior to the last assessment date.

(d) The following expenses will be paid by the Purchaser:

(1) Documentary stamps required to be affixed to the deed.

(2) Recording of deed.

(3) Premium for title guarantee or insurance unless such guarantee or insurance is waived by the Purchaser.

(4) All costs required to be paid by the mortgagee if the Purchaser's apartment is to be mortgaged.

(5) Utility deposits apportioned to said apartment.

9. *Default.* (a) If the Developer shall default in the performance of this agreement, the Purchaser may elect to cancel the same by giving written notice to the Developer of the specified default and of such election before the Developer tenders performance of the omitted act, whereupon all sums paid hereunder by the Purchaser shall be returned to him upon demand. Purchaser's failure to give such notice prior to the Developer's tender of performance shall constitute a waiver of Developer's default.

2-Forms Federal Taxes Affecting Real Estate [A]

(b) If this offer is accepted by the Developer and the Purchaser defaults in the performance of the resulting contract, then the Developer, if the Developer is not in default, at its election may terminate this agreement, in which event the value of the option given to the Purchaser by this agreement and the amount of damages suffered by the Developer because of such default shall be liquidated and paid in the following manner: The liquidated sum to be due to the Developer shall be one-half of all sums paid by the Purchaser upon the purchase price, but not more than 10% of the purchase price. All sums paid upon the purchase price in excess of such liquidated amount shall be paid forthwith to the Purchaser, together with a statement of the Developer's election to terminate the agreement and describing the Purchaser's default. If the liquidated sum is held by Quinn, it shall be paid forthwith to the Developer.

(c) Upon the making of the payments provided in the event of default, both parties shall thereby be released from all further obligations under this agreement.

10. *Nonassignability.* This contract cannot be assigned by the Purchaser without approval of the Developer in writing.

11. *Notice.* The delivery of any item and the giving of notice in compliance with this agreement shall be accomplished by delivery of the item or notice to the party intended to receive it, or by mailing the same within the continental United States by certified mail addressed to the address of the recipient herein stated. Notice or delivery by mail shall be effective when mailed.

12. *Broker.* The Purchaser represents that this sale was made by James Macrae of Miami, Florida, and that no other broker has been employed in this transaction.

In witness whereof this offer is signed this January 15, 2003.

**Advance Payments Made Pursuant

A.25 Condominium warranty deed

COMMENT

This form illustrates a deed conveying an apartment unit in a condominium. The description of the apartment unit is made only by reference to the condominium declaration, which is a document of public record. It should be noted that the grantee obligates himself to comply with the provisions of the condominium declaration, and especially to pay the assessments levied against his apartment for the operation of the property.

For further information, see Chapters 6, 13, and 16.

FORM

INDENTURE made January 2, 2003, between Castelle Development Corporation, a Florida corporation, hereinafter called the Developer, and Paul Nielsen, of 3000 Seaview Road, Miami, Florida, hereinafter called Nielsen.

The Developer, for and in consideration of the sum of ten dollars and other good and valuable consideration to it in hand paid by Nielsen, the receipt and sufficiency of which is hereby acknowledged, has granted and sold to Nielsen, his successors, heirs, legal representatives, and assigns forever, the following described property:

Apartment 4A in Castelle Apartments, a Condominium, hereinafter called the Condominium, according to a Declaration of Condominium dated December 28, 2002, filed for record on December 31, 2002, and recorded in the Public Records of Dade County, Florida; together with the undivided interest in common elements declared in the Declaration of Condominium to be appurtenant to such apartment.

Nielsen, by acceptance hereof and by agreement with the Developer hereby expressly assumes and agrees to be bound by and to comply with all of the covenants, terms, provisions, and conditions set forth in such Declaration of Condominium, including, but not limited to, the obligation to make payment of assessments for the maintenance and operation of the Condominium which may be levied against such apartment.

2-Forms Federal Taxes Affecting Real Estate [A]

This conveyance is made subject to the following:

1. Real estate taxes for the year 2003 and subsequent years;
2. Applicable zoning regulations and ordinances;
3. All of the terms, provisions, conditions, rights, privileges, obligations, easements, and liens set forth in such Declaration of Condominium.
4. Such covenants, conditions, restrictions, and easements of record, if any, which may now affect the above described property; and
5. All facts which may be shown by an accurate survey of the above described property.

The Developer hereby fully warrants the title to the property, and will defend such title against the lawful claims of all persons.

In witness whereof the Developer has caused this warranty deed to be signed in its name by its President, and its corporate seal to be affixed, attested by its Secretary, the date first above written.

B.1 Contract for sale of condominium unit--subject to effective offering plan after conversion from rental apartment building--subject to existing tenancy--plain language

COMMENT

This form is a contract of sale for a condominium unit in an apartment building. The contract is subject to the sponsor obtaining an effective offering plan after conversion of the rental apartment building into a condominium.

Unit purchaser and tenant:

This agreement provides that the purchaser will acquire the condominium unit subject to the rights of an existing tenant. Certain jurisdictions have enacted laws protecting the occupancy of tenants in apartments converted to condominium units, and these laws vary in the jurisdictions which have adopted them. If the applicable law permits the tenant to remain indefinitely, the purchaser will be in the position of a landlord rather than an occupant of the unit. This contract contains a provision that the purchaser will acquire the unit subject to the existing tenancy (paragraph 12). The unit may also be purchased by the existing tenant, or by a third party who intends to purchase the unit vacant, free of any tenancy. This form includes provisions for each of these circumstances.

Disclosure of lead-based paint hazards:

Federal law requires the seller of pre-1978 residential housing to disclose known information to the prospective purchaser on lead-based paint hazards. *See* 42 USC §§ 4851-4856; 40 CFR Part 745 and 24 CFR Part 35, Subpart A. The sales contract must include a lead warning statement and certain disclosure information. *See* discussion in comments to Form B.3, *supra*. A sample lead-based paint sales contract rider, including both disclosure under the federal law and a lead-based paint contingency clause, is included in this chapter at Form B.6, *infra*.

For further information, see Chapters 6, 13, and 16.

PURCHASE AGREEMENT

THE PARK CONDOMINIUM

Purchaser's Name: John Addison and Ellen Addison, husband & wife

Address: 235 West Elm St., Staten Island, N.Y. 10079

Apartment Unit No. 5-D in Building E-4

1.	Down Payment _____	\$ 490
2.	Balance of 10% Due _____	\$ 4,410
3.	Amount to be Financed _____	\$39,200
4.	Balance Due at Closing _____	\$ 4,900
5.	Total Purchase Price (1 + 2 + 3 + 4) _____	\$49,000

1. *My agreement to purchase.* As Purchaser, I agree to purchase from you, Park Apts. Co., apartment unit No. 5-D in Building E-4 and the appurtenant interest in the common elements of The Park Condominium for the Total Purchase Price shown on line 5, above. I am delivering to you now my \$490 check, subject to collection, for the Down Payment shown on line 1. When you sign this Agreement you acknowledge receiving this check although you will not then have cashed it.

2. *Balance of total purchase price and Closing Expenses.* (a) *Deposit balance.* Upon the Offering Plan of Condominium Ownership of The Park Condominium (the "Plan") being declared effective, you shall advise me in writing when the balance of 10 percent of the Total Purchase Price is due, as shown on line 2, and I will pay it to you within 15 days after I receive your notice.

(b) *Balance due and costs at closing.* You will also write to me at least 15 days (but not more than 90 days, unless you request an adjournment of Closing as provided in paragraph 3) in advance of my closing to tell me the exact scheduled date of Closing. In that notice, you will inform me that I must give you or anyone you designate, not later than 15 days from the date I receive the notice, my certified check or official bank check for the Balance Due at Closing, as shown on line 4, drawn on a New York City bank which is a member of the New York Clearing House Association. You will, however, offset against amounts due at closing the security deposit you hold for me under my lease, if I am a tenant and am not in default under the lease on the closing date. You will also notify me of the date on which common charges will first be due and payable. In the same notice, you will remind me that I must also pay, within the same time period, (i) the expenses shown in the Plan under "Closing Costs and Adjustments" which are my obligations, plus (ii) any amount I owe you as a result of our apportionment of the real estate taxes and common charges for the apartment, so that you pay those real estate taxes and common charges attributable to any period prior to the midnight before the date of closing and I will pay the rest. You agree to pay at Closing the expenses shown in the Plan which are your obligations.

(c) *Bank financing.* If I am taking advantage of Met Bank financing as permitted in the Plan, I will promptly sign and return all documents and instruments required by Met Bank to complete its financing and pay all expenses due by check

2-Forms Federal Taxes Affecting Real Estate [B]

upon demand by Met Bank, or its authorized representatives. I understand that the form of the note, mortgage, deed, and power of attorney is contained in the Plan. I will also execute any other document or instrument that Met Bank deems necessary to complete its loan.

(d) *Sponsor financing.* If I am unable to obtain Met Bank financing, but am entitled to Sponsor-financing, you will also notify me in writing what expenses relating to the loan are payable by me. In addition, you will send me the required Note, Mortgage, Deed, and Power of Attorney in the form contained in the Plan, as well as all other documents that you, your counsel, or the insurance company deem necessary to assure the validity of your mortgage lien and compliance of the loan with law. I will pay the expenses due by check, made payable to anyone you designate, and will sign and return all documents and instruments in appropriate form for recording to the Selling Agent within 15 days after I receive your notice. I authorize the Selling Agent to complete, date and deliver to you or the title company representative the Note, Mortgage, Deed, Power of Attorney and other documents and instruments that are necessary to properly conclude the transaction.

3. *Delivery of deed and marketable title.* Upon my properly paying you the full amount of the Total Purchase Price, the Closing Costs and Adjustments and expenses (as described in the preceding paragraphs) and delivery of the Deed, Power of Attorney, Note, Mortgage and other required documents and instruments, you will execute the deed to my apartment unit and request the Bank or the Selling Agent, whichever is applicable, to deliver all documents and instruments to The Title Security Insurance Company for recording. The proceeds of the Escrow Account may be used to meet the purchase price and such costs, adjustments, and expenses. The deed will be a standard type of deed known as a bargain and sale deed with covenant against grantor's acts, the form of which is shown in the Plan. In any case, you will not deliver to me the deed to my Apartment Unit until all of the events described in the Plan under "Closing of Title to Units" have occurred. I agree to be bound by the Declaration, By-Laws and Rules and Regulations of the Condominium and the Plan.

You will convey to me good and marketable title in fee simple to my apartment unit without any liens or encumbrances other than those shown in the Plan.

I understand that you have the right at any one or more times, by giving me written notice, to adjourn the scheduled closing date for a period of not more than 180 days.

4. *Recording of deed.* I understand that the deed to my apartment unit will be delivered to the title company representative issuing title insurance to me or to you (if I do not obtain title insurance), so that the deed can be recorded in the Office of the New York City Register, Queens County.

5. *My payments to be held in trust.* All monies received from me by you through your agents or employees will be deposited with Met Bank (the "Escrow Agent") at 13-25 Jay Avenue, Queens, New York, in a special account with or without interest under the name of "Park Condominium Escrow Account" or similar name. These funds will be held on the following terms: (a) if the Plan is declared effective and the Closing takes place under this Agreement, you will be paid the monies due you, and the Selling Agent may satisfy expenses I owe from my previous payments and any interest earned thereon, (b) if the Plan is abandoned or the closing does not take place because you fail to keep your promises under this Agreement, I will be paid the monies and any interest earned thereon, and (c) if I fail to keep my promises under this Agreement, you will be paid the monies (not more than 10 percent of the Total Purchase Price, plus any interest earned thereon). The Escrow Agent will pay out the monies only upon written instructions of the attorneys for the Board of Managers, Conrad, Weis & Bok, who may rely upon your written description of the facts when they give the instructions.

I understand that you will have no obligation to place any monies received from me in an interest-bearing account. You will hold all such monies through your agents or employees in trust in accordance with the provisions of Sections 352-h and 352-e(2-b) of the General Business Law until actually employed in connection with the consummation of my

purchase. I understand that Conrad, Weis & Bok may rely on your written description of the facts when they give instructions to the Escrow Agent.

6. *My mortgage loan.* I will not be obligated to purchase my apartment unit from you unless Met Bank (the "Bank") promises in writing to give me a mortgage loan for the same amount shown on page one of this Agreement. The mortgage loan must provide for repayment in full within no more than 30 years and be on the terms regularly offered by Met Bank. I understand that the actual interest rates to be charged on my Mortgage Loan may not be determinable until approximately five days before you give me the deed to my Unit and I sign the documents for this mortgage loan. I also understand that my application may have to be renewed every 90 days, and I agree to do so. I know that each monthly payment I make will be used first to pay the interest I then owe and second to pay back the amount I have borrowed. I may make payments in addition to these monthly payments in the amounts of repayment of principal that would be due in future monthly payments so that I pay back sooner the amount I have borrowed, but I may have to pay any extra fee for making these additional payments depending upon the type of mortgage loan I select among those offered by the Bank. The sample forms of documents which the Bank will require me to sign for this mortgage loan are contained in the Plan, but I understand that these might be different at closing.

I have signed and given you my application for a mortgage loan, which you will send to the Bank promptly. I agree to supply all information which the Bank requests for this application within five business days and to keep you advised of its status. I authorize you to check the status of my application directly with the Bank, and I will tell you when my application has been accepted or rejected. If 45 days from now, the Bank has not given me its then current written promise to make the mortgage loan as described in this Paragraph (or if a commitment is issued and is subsequently withdrawn), and I give you written notice of this fact, either of us may cancel this Agreement, unless within 30 days after my written notice, you arrange for me to receive from a lending institution (including the Bank) or from you the same type of mortgage loan. If no such mortgage loan is available to me, either of us may cancel this Agreement by written notice no later than five days after the 30-day period expires. In that case, all my payments to you under this Agreement and all interest earned on them will be returned to me. However, you may cancel this Agreement and keep my Down Payment and all interest earned on it if either I do not promptly supply the information required for a mortgage application loan within five days after the information is requested, or I do not accept a written promise from the Bank, any other bank, or you to give me the type of mortgage loan described in this Paragraph.

7. *Your rights if I fail to keep my promises and agreements.* You may keep my payments and any interest earned on them if I fail to do any of the following: (a) to pay when due any portion of the Total Purchase Price when notified, (b) to pay when due closing adjustments and expenses, (c) to execute and return within 15 days any document or instrument needed to complete the transaction, including any mortgage application, note, or mortgage, if I elect financing and, in any case, the power of attorney, deed, and New York State gains tax transferee questionnaire, or (d) to keep any other promise under this Agreement.

If I am in default under my lease or the terms of my apartment tenancy, and if I am now a tenant of the apartment unit that I agree to purchase under this Agreement, or become a tenant of the unit before the closing of title on it, you may also keep any payment made by me on account of the Total Purchase Price (but not more than 10 percent, plus any interest earned thereon). I understand that any default in that situation will be treated also as a default under this Agreement. I further understand that my above promise is a separate and material inducement for you to enter into this Agreement with me.

Before you may keep any payment, however, you must first send me a notice stating that you intend to cancel this Agreement and describing each promise you think I did not keep under it. If I do not cause each promise to be kept within 30 days after your notice is sent, you may keep the payments (but not more than 10 percent of the Total Purchase Price, plus any interest earned on it). After that, neither of us will have any further obligations under this Agreement, the Agreement will be considered cancelled without any further action by either of us, and you may sell the apartment unit to any other person.

2-Forms Federal Taxes Affecting Real Estate [B]

8. *No right to assign this agreement.* I understand that I cannot give or sell my rights under this Agreement to anyone else (except my spouse or my adult children), unless I first obtain your written consent.

9. *Survival of seller's obligations.* After you give me the deed to the apartment unit, your only remaining obligations are those set forth in this Agreement and the Plan.

10. *Agreement subject to plan becoming effective.* This Agreement is contingent upon the Plan being declared effective. The Agreement will be cancelled if (a) the Plan is abandoned or does not become effective within 15 months after the Attorney General issues a letter stating that the Plan has been accepted for filing, or (b) the Plan is declared effective within 15 months after the acceptance letter is issued, but the first deed to an apartment unit in the Condominium is not delivered within 21 months after the letter's issuance. Not later than 45 days after cancellation, I will receive a full refund of all my payments to you under this Agreement and all interest earned on them. After I receive this refund, neither of us will have any claim against the other or any further obligation under this Agreement.

11. *My acceptance of the apartment unit.* I have read the Sponsor's Statement of Condition of the Property. I have also examined the apartment unit and agree to accept it, and all fixtures, machinery, equipment, furnishings, appliances, installations and other personal property in the apartment unit in their present condition, except for reasonable wear and tear and natural deterioration between now and the time you give me the deed to the apartment unit. I understand that because of the amount and power of electricity in the Building I will not be able to install air conditioners or other appliances in my unit unless the Board of Managers permits me to do so.

12. *Purchase subject to rights of tenant in occupancy.* I understand that the apartment unit is now occupied by a tenant under a lease expiring on May 31, 1993 (monthly tenancy) at a rent of \$400 per month. If the tenant does not voluntarily move out when his lease expires or his right to occupancy ends, you will have no obligation to obtain possession for me. I also understand that the apartment unit is subject to the Rent Stabilization Law or Rent Control Law and the Omnibus Housing Act of 1983 (as described in the Plan), and I will have all your rights and obligations under the tenant's lease or tenancy after you give me the deed to the apartment unit, including, without limitation, the right to collect all rents (whether more or less than my common charges and assessments and mortgage payments) and the obligations to comply with the applicable law and to repair and maintain the apartment unit for the benefit of the tenant, and the tenant cannot be evicted except for nonpayment of rent or other default under his lease or tenancy or his refusal to renew his lease in compliance with law. I know I cannot evict the tenant for my own occupancy unless allowed under Section 352-eeee of the General Business Law. In addition, I agree that I (and my successors) shall always use the managing agent of the property to manage my unit. I shall deliver promptly to the managing agent and continue to maintain a fund equal to two months common charges to secure my performance of my obligations, and I shall not subject the tenants to unconscionable rent increases if the apartment unit becomes no longer subject to the Rent Stabilization Law and Rent Control Law. This sale is subject to the tenant's right to continue in occupancy as a nonpurchasing tenant in accordance with Section 352-eeee of the General Business Law and as set forth in the Plan. I represent and warrant I have read Section G of the Plan and understand and accept the risks involved in this purchase.

13. *Designation of managing agent.* If this Agreement is for an apartment not occupied by me, I will designate the managing agent of the Property as my agent to provide to the nonpurchasing tenant now in occupancy all services and facilities required by law, as provided in the Plan.

14. *Purchase for personal occupancy.* If this agreement is for an apartment I do not occupy, I represent to you that I am purchasing the apartment for my personal occupancy or for the occupancy of a member of my immediate family and, if requested, I will promptly deliver an affidavit confirming this to you.

15. *Broker.* I did not negotiate for the apartment unit with any broker other than Broderick & Dey, Real Estate Brokers.

2-Forms Federal Taxes Affecting Real Estate [B]

16. *Receipt of documents.* I received at least 72 hours ago a copy of the Plan. I understand that we are treating the contents of the Plan as if it were included in this Agreement. I have also been given an opportunity to examine the apartment unit, the Building and the Property.

17. *No representations.* I have not relied on any statements made by you or any other person except those contained in this Agreement or the Plan. You will have no liability to me if there is a minor error or inaccuracy in the layout or dimensions of the apartment unit or of the common elements of the Condominium as shown on the floor plans (the "floor plans") certified by Vox & Albans, Architects, on file at the office of the Selling Agent and to be filed in the Office of the Register of the City of New York, County of Queens, so long as the layout and dimensions conform substantially to the floor plans, which I have been given the opportunity to examine.

18. *Plain language.* I have read this Agreement, and I understand it. Under New York law (General Obligations Law Section 5-702), I know that as a consumer I have a right to an agreement written in clear and simple language. You and I both think that this is such an agreement.

19. *Notices.* All notices between us (including requests, consents, and other communications) must be in writing and sent by registered or certified mail, to me, at the address shown on page one of this Agreement, and, to you, at 10 East 59th Street, New York, N.Y. 10022. I will send a copy of any notice I give you to your attorneys, Boone & Davis, at 10 East 39th Street, New York, N.Y. 10016, Attention: John Davis, Esq. Either of us can specify a different address by notifying the other, as provided in this paragraph. A notice shall be considered given on the date it is mailed, except that a notice of an address change shall be considered given when it is received.

20. *Jury waiver.* I waive my right to trial by jury in any action, proceeding, or counterclaim in any way connected with this Agreement or the Plan.

21. *No discriminatory inducement.* If I am a tenant, I confirm that I have purchased the apartment unit in good faith and without fraud, discriminatory repurchase agreements or other discriminatory inducements. If requested to do so, I will promptly deliver an affidavit confirming this to you, together with all other documents or instruments you reasonably request.

22. *Acceptance of this agreement.* This Purchase Agreement shall not be binding on me or the Sponsor until it is accepted, as evidenced by endorsement hereon by the Selling Agent, and a fully signed copy is delivered to me. The Purchase Agreement will be deemed accepted if I am not notified within 20 days of the date hereof whether it has been accepted or rejected. If the Purchase Agreement is rejected within the 20-day period, the Down Payment, together with any interest on it, will be refunded to me within 10 days after the rejection.

23. *Headings.* Headings in this Agreement are for convenience and reference only, and may not be used to interpret or construe its provisions.

24. *Binding effect.* This Agreement shall be binding upon both of us and our respective heirs, legal representatives, and assigns.

25. *Non-waiver.* No delay or failure by either party to exercise any right hereunder, and no partial or single exercise of any such right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

26. *Governing law.* This Agreement shall be construed in accordance with and governed by the laws of the State of New York.

27. *Counterparts.* This Agreement may be executed in two or more counterparts. Each copy shall be deemed an original, but all of them together shall constitute one and the same instrument.

2-Forms Federal Taxes Affecting Real Estate [B]

28. *Time of essence.* Time is of the essence of this Agreement.

29. *Entire agreement.* All prior understandings and agreements between the parties are merged in this contract, which constitutes the entire agreement between the parties. This contract is entered into after full investigation made by Seller, and neither party relies upon any statement or representation made by anyone unless contained herein.

30. *Definitions.* The term "I" shall be read as "we" if more than one person is a purchaser, in which case our obligations shall be considered joint and several. All the terms used in this Agreement shall have the same meanings as in the Plan.

B.2 Option to purchase--annual increasing payments by optionee--escalating purchase price

COMMENT

This option refers to an annexed form of contract of sale. Since both parties are corporations, there are provisions for the exchange of appropriate corporate resolutions authorizing the execution of the option agreement and the sales contract. This option also restricts the assignment of the option to a parent, subsidiary or merged corporation of the optionee.

Increasing option installments and purchase price:

A most distinctive feature of this agreement is an option price which increases during the option period. This device is used because of the relatively long period during which the option may be outstanding. The option is granted for a total of five years, but the optionee must pay additional amounts on the first, second, third, and fourth anniversaries of the option agreement in order to keep the option alive. The purchase price for the property also is increased on each anniversary date from the date that the option is granted. Unlike the usual option agreement, no portion of the consideration paid for the option is credited toward the purchase price.

Lapse of option:

Upon the failure of the optionee to pay any amount required to extend the option period or upon any breach of its obligations after the exercise of the option, all payments made by the optionee are retained as liquidated damages, which would be considered as ordinary income to the optionor. For the optionee, the damages would be considered as a business expense if the optioned property was intended for use in a trade or business, or for the production of income. Whether a liquidated damage clause will be given effect depends upon applicable state law.

For further information, see Chapter 6.

FORM

OPTION AGREEMENT, executed on July 21, 2002, by and between Mainland Corporation, a Texas corporation having its principal office in the County of Dallas, State of Texas ("Optionor"), and Southwest Lands, Incorporated, a Delaware corporation having its principal office in the County of Dallas, State of Texas ("Optionee").

1. *Grant of option and consideration.* (a) In consideration of the following cash payments, made and to be made, to Optionor by Optionee:

(1) \$5,000 at the time of the execution of this Agreement;

(2) \$7,000 on July 21, 2003;

(3) \$9,000 on July 21, 2004;

(4) \$11,000 on July 21, 2005; and

(5) \$13,000 on July 21, 2006.

(b) Optionor grants and gives to Optionee, for the period of five years from the date of the execution of this Agreement and ending at 10 a.m. on July 21, 2007, the right and option to purchase all that certain tract of land lying and being situated in the City of Arlington, County of Tarrant, State of Texas, more particularly described in the annexed Appendix 1 (the "Property"). Notwithstanding any provision in this paragraph to the contrary, Optionee's exercise of this option shall relieve it from making any required payments to Optionor under this paragraph at any date or dates after the "time of closing" (as defined in paragraph 2 below).

(c) Concurrently with the execution of this option:

(1) Optionor shall deliver to Optionee a certified resolution of Optionor's Board of Directors authorizing (i) Optionor to enter into this option, and (ii) its officers to execute this Agreement and do all other things and execute all other documents required to close this transaction if Optionee exercises its option hereunder; and

(2) Optionee shall deliver to Optionor a certified resolution of its Board of Directors authorizing Optionee to enter into this option and its officers to execute this Agreement.

2. *Notice of exercise.* To exercise this option Optionee must deliver a written notice to Optionor fixing a date not more than 60 days in advance for the closing of title to the Property (the "time of closing"). Concurrently with the exercise of the option, Optionee shall deliver to Optionor a certified resolution of its Board of Directors authorizing the exercise of the option and authorizing its officers to execute all documents and do all things necessary to close this transaction. If this option is exercised, Optionor shall sell and Optionee shall buy Property pursuant to the terms and provisions of the attached Agreement set forth in Appendix 2.

3. *Purchase price.* The total purchase price for the land described in Appendix 1 shall be determined at the time of closing as follows:

(a) \$100,000 if the option is exercised on or before July 20, 2003;

2-Forms Federal Taxes Affecting Real Estate [B]

- (b) \$115,000 if the option is exercised after July 20, 2003 and on or before July 20, 2004;
- (c) \$130,000 if the option is exercised after July 20, 2004 and on or before July 20, 2005;
- (d) \$140,000 if the option is exercised after July 20, 2005 and on or before July 20, 2006; and
- (e) \$150,000 if the option is exercised after July 20, 2006 and on or before July 21, 2007.

The total purchase price, as shown above, shall be paid to Optionor in cash at the time of closing. Optionee shall not receive any credit against the purchase price for the amounts paid for this option.

4. *Payment default; liquidated damages.* If Optionee shall fail to pay promptly any payment required under paragraph 1, this option shall automatically terminate on the date specified for the payment and this Agreement shall no longer be effective. In that event, or if Optionee in any manner breaches its obligations hereunder after exercising the option, Optionor may keep all previous payments made for the option as liquidated damages. Both parties agree that the total amount of such payments is a reasonable approximation of the damages that Optionor would sustain if damages were readily ascertainable.

5. *No assignment by optionee.* Optionee may assign this option to any of its subsidiary or parent corporations, to any corporation into or with which Optionee or its subsidiary or parent corporation is duly merged or consolidated, or to anyone to which all or substantially all of Optionee's assets are sold. Except as expressly permitted herein, any direct or indirect assignment of this option shall automatically terminate the option and all of Optionee's rights hereunder.

6. *Binding effect.* This option shall be binding upon and inure to the benefit of the parties and their respective representatives, successors, and assigns.

7. *Headings.* Headings in this Agreement are for convenience only and shall not be used to interpret or construe its provisions.

8. *Governing law.* This Agreement shall be governed by and construed in accordance with the laws of the State of Texas.

9. *Counterparts.* This Agreement may be executed in one or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

10. *Time of essence.* Time is of the essence of this agreement.

11. *Entire agreement.* This Agreement supersedes all prior agreements between the parties with regard to the subject matter hereof and there are no other understandings or agreements between them.

12. *Notices.* All notices hereunder shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

In witness whereof the parties have duly executed this Agreement on the day and year first above written.

B.3 Contract for sale of residence--purchase money mortgage--title subject to existing mortgage--mortgage contingency--settlement adjustments

COMMENT

This contract can be used for a variety of real estate sale transactions. Although practices and legal requirements vary from jurisdiction to jurisdiction, this contract contains many useful sections for dealing with common problem areas, such as financing, title conditions, settlement adjustments, and pest inspections.

Gain or loss recognized on sale:

Most dispositions of real estate result in the realization and recognition of gain or loss to the seller. Gain or loss is the difference between the adjusted basis of the property sold and the consideration received by the seller. The date of the completion of the transaction usually fixes the tax year in which it must be reported by the seller. The nature of the property determines whether capital gain (or loss) or ordinary income (or loss) is realized by the seller.

Time of sale:

The execution of a contract of sale does not in itself result in the realization of gain or loss. Usually, the sale does not occur until the transaction is completed. Generally this is when title passes. In some special situations the transaction may be completed before title passes, for example, when possession is transferred to a buyer under a contract of sale. The date of the completion of the transaction determines the holding period of property.

Adjusted basis:

A seller's adjusted basis of his property, generally, is his original basis (usually cost, which includes the mortgages involved in acquisition) adjusted for improvements, other capital expenditures and for cost recovery or depreciation prior to the sale, if any. Cost recovery or depreciation is taken into account only with respect to real property used in a trade or business or held for the production of income, but not for property used exclusively as a residence. The consideration received by the seller is the cash plus the fair market value of other property received, such as the purchaser's obligations to pay in the future, plus outstanding mortgages which the purchaser assumes or to which the property is subject.

Capital or ordinary gain or loss:

Whether the gain or loss on the sale of real property is capital or ordinary depends upon whether the property is: (1) a capital asset; (2) "Section 1231" property; or (3) dealer property. In general, a taxpayer's own residence is a capital asset, so that gain on its disposition ordinarily qualifies as capital gain.

Deductible and nondeductible loss:

A loss incurred by an individual on the sale of real property is deductible only if the property was held by him in his trade or business or as an investment for a profit. A loss on the sale of the taxpayer's own residence generally is not deductible. However, if the property is leased by the taxpayer prior to its sale, a loss may be deducted if the property is deemed to have been converted into an investment for profit. The basis for determining the loss is the value of the property on the date of its change to rental use, adjusted for cost recovery allowances. Cost recovery is computed on the cost of the property or on its value on the conversion date, whichever is less. When the property is held partly for personal use and partly for income producing purposes, a proportionate part of the loss on its sale is deductible. The deductible loss is computed by apportioning cost, selling price, cost recovery or depreciation, and selling expenses, as if there were two separate transactions.

Reporting gain or loss:

An important question in connection with gain or loss on a sales transaction is the time when it is to be reported. When the purchase price is fully paid in cash, gain or loss is reported when the transaction is completed. However, there are two types of sales in which part or all of the payment is not made at the time of the sale. One class is that which qualifies as an installment sale. The second class includes deferred payment sales.

Information reporting of real estate transactions:

The attorney or title company responsible for closing title is responsible for reporting the real estate transaction to the IRS. In addition a statement must be provided to the customer before January 31 of the year following the closing. If an attorney or title company is not involved in the closing, the information reporting is the responsibility of the mortgage lender.

Plain language laws apply to consumer transactions:

New York, and a few other jurisdictions, have adopted plain language laws which generally require contracts for consumer transactions to be written in plain language. Plain language laws generally provide for damages and penalties for violations; however, such violations do not render the underlying contract void or voidable and are not a defense to an action under the contract. New York's law, similar to other plain language laws, requires the consumer contract to be written in a clear and coherent manner using words with common and everyday meaning, with appropriate divisions and captions. The law applies if the subject of the contract involves money, property, services or leases of personal property used primarily for personal, family or household purposes and a consumer is a party to the agreement. The law does not apply, however, to agreements involving amounts over \$50,000, which exempts most real estate transactions. New York General Obligation Law Section 5-702. Other jurisdictions with plain language laws, however, may not include such an exemption. Because the price exceeds \$50,000, the following contract is not a plain language agreement.

Disclosure of lead-based paint hazards:

Federal law requires the seller of pre-1978 residential housing to disclose known information to the prospective purchaser on lead-based paint hazards. See 42 USC §§ 4851-4856; 40 CFR Part 745 and 24 CFR Part 35, Subpart A. The sales contract must include a lead warning statement and certain disclosure information. The information required by law includes both specific information about the property being sold and general information about lead-based paint hazards. The seller must disclose known lead-based paint and lead-based paint hazards and provide available records and reports to the purchaser.

The seller also must give the purchaser the pamphlet, developed by EPA, HUD, and the Consumer Product Safety Commission (CPSC), titled "Protect Your Family From Lead in Your Home." The purchaser must be given a 10-day period to conduct a lead-based paint inspection or risk management at the purchaser's expense. The parties have flexibility to negotiate the key terms of the evaluation. Finally, the sales contract must include certain notification and disclosure language. The law also does not invalidate a sales contract that does not include the required disclosure; however, any person who violates the lead disclosure requirements may be subject to civil and criminal penalties, as well as treble damages in a private civil suit. A sample lead-based paint sales contract rider, including both disclosure under the federal law and a lead-based paint contingency clause, is included in this chapter at Form B.6, *infra*.

For further information, see Chapters 2 and 9.

FORM

CONTRACT OF SALE made May 1, 2002, between John Curran, residing at 134 E. 67th Street, New York, New York ("Seller"), and Harrison Whitman, residing at 200 Chester Street, New York, New York ("Purchaser").

1. *Sale*. Seller shall sell, and Purchaser shall purchase the property, including all buildings and improvements thereon, erected, situated, lying, and being in the Borough of Manhattan, City, County, and State of New York, more particularly described as follows (the Premises):

(Insert description)

2. *Street rights*. This sale includes all the right, title, and interest, if any, of Seller in and to any land lying in the bed of any street, or highway opened or proposed, in front of or adjoining the Premises, to the center line thereof. It also includes any right of Seller to any unpaid award by reason of any taking by condemnation and/or for any damages to the Premises by reason of grade of any street or highway. Seller shall deliver to Purchaser on demand, at or after closing, and at no additional cost to Purchaser, any document that Purchaser may require in order to collect the award and damages.

3. *Personal property*. All fixtures and articles of personal property, attached to or used in connection with the Premises, are included in the sale unless specifically excluded. Seller represents that the fixtures and personal property are paid for and owned by him free and clear of all security interests or liens other than the existing mortgage(s). The following fixtures and personal property are included in this sale: heating, air conditioning, plumbing, electrical and lighting fixtures, bathroom and kitchen fixtures and cabinets, storm windows and doors, screens, shades, venetian blinds, awnings, window boxes, mail boxes, wall-to-wall carpets, mantels, sump pumps, well pump, shrubbery, fences, exterior sheds, ranges, refrigerators, freezers, washing machines, clothes dryers, dishwashers, garbage disposal units, and drapery and curtain hardware and rods.

Not included in this sale are the following: furniture, household furnishings, drapes, curtains, microwave oven, automatic garage door openers, fireplace equipment, and trash compactor.

4. *Purchase price*. The purchase price is \$250,000, payable as follows:

By check on the signing of this contract, \$ 25,000
subject to collection, to be held in escrow by Seller's attorney

2-Forms Federal Taxes Affecting Real Estate [B]

By allowance for the principal amount remaining unpaid on the Existing Mortgage _____	\$	110,000
By a Purchase Money Note and Mortgage from Purchaser, as assigns, to Seller _____	\$	60,000
Balance due and payable at closing _____	\$	55,000

5. *Purchase money mortgage.* The Purchase Money Note and Mortgage shall be drawn on the standard forms of Central Title Company by Seller's attorney at Purchaser's expense. Purchaser shall pay the mortgage recording tax, recording fees, and the attorney's fee of \$500 for preparation of the mortgage. If this sale is subject to an Existing Mortgage, the Purchase Money Note and Mortgage will state that it is subject to the prior lien of any Existing Mortgage, and to any extension or modification of the Existing Mortgage made in good faith. If any required payments are made on an Existing Mortgage between now and closing, which reduce the unpaid principal amount of an Existing Mortgage below the amount shown in this agreement, the balance of the price payable at closing will be adjusted.

6. *Existing Mortgage.* The Premises will be conveyed subject to the lien of an Existing Mortgage as follows: Mortgage now in the unpaid principal amount of \$110,000 and interest of 12 percent per year payable in monthly installments of \$1,484.35, which include principal, interest, and real property taxes, and with any balance of principal and interest being due and payable on July 31, 2021. If there is a mortgage escrow account that is held for the payment of taxes, insurance or other expenses, Seller will assign it to Purchaser, if it can be assigned, and Purchaser will pay the amount of the escrow account to Seller at the closing. Seller states that:

- (a) The principal amount shown above for the existing mortgage is reasonably correct and only the payments required by the Existing Mortgage will be made;
- (b) No Existing Mortgage contains any provision allowing the holder of the mortgage to require its immediate payment in full or to change any interest rate or other terms by reason of the transfer of title or closing; and
- (c) Any Existing Mortgage will not be in default at the time of closing.

7. *Title conditions.* The premises are sold and are to be transferred subject to:

- (a) Laws and government regulations that affect the use and maintenance of the Premises, if they are not violated by the buildings and improvements existing on the Premises or by their current use;
- (b) Consents by Seller or any former owner of the premises for the erection of any structure or structures on, under, or above any street or streets on which the premises abut;
- (c) Encroachments of stoops, areas, cellar steps, trim, and cornices, if any, upon any street or highway;
- (d) Any state of facts an accurate survey may show, provided that it does not render title unmarketable; and
- (e) Any covenants and restrictions of record, if they are not violated by existing use of the property.

8. *Mortgage estoppel certificate.* If there is a mortgage on the premises Seller shall deliver to Purchaser at closing a certificate dated not more than 30 days before closing signed by the holder of each Existing Mortgage, in form for recording, certifying the amount of the unpaid principal and interest, date of maturity, and rate of interest. Seller will

pay the fees for recording the certificate.

9. *Violations.* Seller shall comply with all notes or notices of violations of law or municipal ordinances, order, or requirements noted in or issued by any governmental department having authority as to lands, housing, buildings, fire, health and labor conditions affecting the premises at the date of this contract, and the premises shall be conveyed free of them. This provision shall survive closing. Seller shall furnish Purchaser with an authorization to make the necessary searches. If the Premises are located within New York City, Seller shall discharge at closing all obligations affecting the Premises incurred under the Administrative Code of the City of New York and payable in money. This provision shall survive closing.

10. *Assessments.* If, at the time of closing, the Premises are affected by any assessment which is or may become payable in annual installments, and the first installment is then a lien, or has been paid, for the purposes of this contract all the unpaid installments shall be deemed to be due and shall be paid by Seller at closing.

11. *Items to be apportioned.* The following are to be apportioned as of midnight of the day before closing:

- (a) Rents as and when collected;
- (b) Interest on existing mortgage(s);
- (c) Premiums on existing transferable insurance policies or renewals of those expiring before the closing;
- (d) Taxes, water charges, and sewer rents, if any, on the basis of the fiscal year for which assessed;
- (e) Fuel, if any; and
- (f) Vault charges, if any.

If the closing occurs before a new tax rate is fixed, the apportionment of taxes shall be upon the basis of the old tax rate for the preceding period applied to the latest assessed valuation.

If there is a water meter on the premises, Seller shall furnish a reading to a date not more than 30 days before closing, and the unfixed meter charge and sewer rent, if any, shall be apportioned on the basis of the last reading.

All errors or omissions in computing apportionments of any of the above items at closing shall be corrected, and this provision shall survive closing.

12. *Lien of purchaser.* All money paid on account of this contract and the reasonable expense of the examination of the title to the premises and of any survey and survey inspection are made liens on and are collectible out of the Premises. However, the lien shall not continue if Purchaser shall default in the performance of this contract.

13. *Purchaser's credit for unpaid items.* As an adjustment to the purchase price, Seller may credit Purchaser with the amount of all unpaid taxes, assessments, water charges, and sewer rents, plus any interest and penalties, to a date not less than five days after the closing, if the official bills, computed to that date, are produced at closing. If Seller is required to pay and discharge at closing anything else affecting the sale, he may use any part of the balance of the purchase price to discharge the same. Alternatively, Seller may deposit money with Purchaser's title insurance company to assure discharge, but only if the company will insure Purchaser's title free and clear of the matter or insure against its enforcement against the Premises. Upon request made within a reasonable time before closing, Purchaser shall provide separate certified checks as requested to assist in clearing these matters.

2-Forms Federal Taxes Affecting Real Estate [B]

14. *Judgment affidavit.* If a title examination discloses judgments, bankruptcies, or other returns against other persons having names the same as or similar to that of Seller, Seller will deliver to Purchaser at closing an affidavit showing that they are not against Seller.

15. *Default by seller.* If Seller is unable to convey title in accordance with the terms of this contract, his sole liability will be to refund to Purchaser the amount paid on account of this contract, plus all charges made for examination of title and all additional searches made under this contract and survey and survey inspection charges. Upon such refund and payment this contract shall be considered cancelled, and neither party shall have any further rights against the other by reason of this contract or transaction.

16. *Closing, deed.* The term "closing" as used in the contract means the settlement of the parties' obligations hereunder to each other. Closing includes the payment of the purchase price to Seller and the delivery to Purchaser of a bargain and sale with covenants against grantor's acts deed in the proper statutory form for recording to transfer full ownership, fee simple title, to the Premises, free of all encumbrances except as stated in this contract. The deed will contain a covenant by Seller required by Section 13 of the Lien Law.

If Seller is a corporation, it will deliver to Purchaser at closing (a) a resolution of its Board of Directors authorizing the sale and delivery of the deed, and (b) a certificate of its Secretary or other authorized officer certifying the resolution and stating the facts showing that the transfer conforms with the requirements of Business Corporation Law Section 909. The deed will contain a recital sufficient to establish compliance with that Statutory section.

The closing will take place at the office of Purchaser's lending institution at 10:00 A.M. on July 1, 2002.

17. *Title.* Seller shall give and Purchaser shall accept any title that a reputable title company which is a member of the New York Board of Title Underwriters will be willing to approve and insure at standard rates with their standard form of title policy, subject only to the matters specifically excepted in this contract.

18. *Payments by acceptable funds.* All money payable under this contract shall be paid, unless otherwise specified, as follows:

(a) Cash, but not over \$1,000,

(b) Good certified check of Purchaser, or an official check of any bank, savings bank, trust company, or savings and loan association having a banking office in New York State, payable to the order of Seller, or to the order of Purchaser duly endorsed to the order of Seller in the presence of Seller or his attorney,

(c) Money other than the purchase price, payable to Seller at closing, may be by Purchaser's check up to the amount of \$500, or

(d) As Seller or his attorney otherwise agrees in writing.

19. *Risk of casualty loss.* Seller assumes the risk of loss or damage to the premises by fire or other casualty until delivery of the deed.

20. *Broker.* Purchaser has not dealt with any broker in connection with this sale other than Wilson Real Estate & Company. Seller shall pay the broker the commission earned under a separate agreement.

21. *Transfer and recording taxes.* Seller will deliver a certified check at the closing payable to the order of the appropriate State, City or County officer in the amount of any applicable transfer tax, recording tax, or both, payable by reason of the delivery or recording of the deed, together with any required tax return. Purchaser shall duly complete the

tax return and cause the check and the tax return to be delivered to the appropriate officer promptly after closing.

22. *"As is" condition.* Purchaser has inspected the buildings on the Premises and the personal property included in this sale and is fully acquainted with their condition. Purchaser shall purchase the Premises, buildings and personal property "as is" and in their present condition subject to reasonable use, wear, tear and natural deterioration between now and closing. Purchaser may, after reasonable notice to Seller, inspect them before closing.

23. *Mortgage contingency.* This contract is conditioned upon Purchaser's ability to obtain, at his expense, a conventional mortgage loan in the principal amount of \$50,000, to be amortized over a period of not less than 25 years, with interest at the prevailing rate at the time of closing. Purchaser shall with due diligence apply to a lending institution or institutions for such a loan and fully cooperate with their procedures in the processing thereof. Purchaser shall have 45 days from the date hereof to obtain a firm commitment for the mortgage loan. If Purchaser does not receive such commitment before the expiration of such period, either party may cancel this contract. Cancellation shall be in writing, by certified mail. Upon cancellation, all money paid hereunder by Purchaser shall be returned to him, and neither party shall have any further rights or obligations hereunder with respect to the other party.

24. *Pest inspection.* Purchaser shall, at his expense, obtain a termite inspection of the Premises within ten days after the date hereof. If the inspection report indicates the presence of termite infestation, Seller may either eliminate the infestation or cancel the contract by returning Purchaser's down payment. If Seller decides to do either, he shall give Purchaser appropriate notice within ten days after the termite inspection report is received. If notice is not given within the ten day period, Seller shall eliminate the reported infestation at his expense. If Seller does not receive the termite inspection report within 15 days after the date hereof, this paragraph shall be unenforceable and void.

25. *Entire agreement.* All prior understandings and agreements between the parties are merged in this contract, which constitutes the entire agreement between the parties. This contract is entered into after full investigation made by Seller, and neither party relies upon any statement or representation made by anyone unless contained herein.

26. *Oral modification.* No provision of this contract may be modified or waived unless in writing and signed by the party against whom the enforcement of such modification or waiver is sought.

27. *Binding effect.* This contract shall be binding upon and inure to the benefit of the parties hereto and their respective executors, administrators, legal representatives, heirs, successors, distributees, and assigns.

28. *Non-waiver.* No delay or failure by either party to exercise any right under this contract, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

29. *Headings.* Headings in this contract are for convenience only and shall not be used to interpret or construe its provisions.

30. *Governing law.* This contract shall be construed in accordance with and governed by the laws of the State of New York.

31. *Counterparts.* This contract may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

32. *Time of essence.* Time is of the essence of this contract.

33. *Notices.* All notices hereunder shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

B.4 Contract for construction and sale of new home--builder's warranty of major systems--liquidated damages for seller's breach--closing after construction completed

COMMENT

This form is for the construction and sale of a single family home. It includes paragraphs which reflect the interests of the builder-seller, and others which are directed toward the purchaser's interests.

New residential construction warranties:

In almost all states, new residential construction is subject to statutory or common law implied warranties as to condition, habitability or fitness for its intended purpose. Such implied warranties apply to the sale of completed new homes and well as to those under construction at the time of the contract, and usually survive the passing of title. In states where implied warranties do not survive the closing, the purchaser should attempt to negotiate a provision setting forth the seller's liability for defects in construction after the closing.

In general, statutory provisions regarding the condition of newly constructed homes presume certain warranties regarding workmanship and fitness for habitation to be implied in the contract of sale unless they are expressly waived. For example, under such a statute, there may be warranties for a specified or reasonable period of time that the new home will be free from defects due to unskillful construction; that the plumbing, electrical, heating, cooling and ventilation systems will be free from defects due to unskillful installation; and that the home will be free from material defects. In some states, such statutory provisions coexist with a common law implied housing merchant warranty of habitability or fitness.

In most states, the parties may expressly disclaim implied warranties for new construction and substitute specific limited warranties. In this form, there is no express disclaimer of implied warranties, so the specific warranties expressly made in the contract are presumably in addition to implied warranties as to condition, habitability or fitness for intended purpose.

Warranty of major systems by builder:

The builder, in this form, agrees to be responsible for the proper operation of the heating, plumbing, electrical and other major systems for a period of one year. The warranty also extends to roof and basement water leaks. (See paragraph 29 of the form.) This warranty, which clearly benefits the buyer, is not considered a standard provision in new construction contracts. However, similar warranties are included in new home agreements if the builder is willing to take on this additional obligation. This form also includes an agreement by the builder to assign to the buyer any warranties given by appliance suppliers or other parties involved in construction. (See paragraph 25 of the form.)

Liquidated damages for seller-builder's breach:

Another nonstandard provision in this contract is the seller's obligation to pay a specified amount of liquidated damages to the buyer if the seller fails to perform or otherwise breaches the contract. (See paragraph 30 of the form.) A more usual provision is for the seller to return the purchaser's deposit and other money advanced on the contract and a release of the parties. A liquidated damages clause, however, protects the purchaser from the risk of the seller refunding the deposit and selling the new home to a third party for a higher price. Although the seller may be liable for damages in such a case, depending on the contract terms and local law, a liquidated damages provision is more likely to encourage the builder to complete the transaction with the purchaser.

Closing date:

In this form the closing date is agreed upon, but it can be adjourned or advanced based on the completion of construction. (See paragraphs 19, 20, 21, and 33 of the form.) Generally, a builder requires this flexibility in setting the closing date, rather than a set closing date with no adjournments allowed, or a time of the essence closing date. There are numerous possible causes for construction delays: material delivery delays, unavailable subcontractors, bad weather, etc. As additional protection to the builder, cancellation of the contract is allowed if essential construction materials or utility hook-ups become unavailable, or if local ordinances, regulations, or approvals change to bar use of the property for a single family dwelling. (See paragraphs 14 and 18 of the form.)

Additional construction contract terms:

Other terms and conditions in this agreement deal with issues which arise in new construction situations. For example, this contract allows the purchaser to inspect the property during construction and order changes in the work, subject to the builder's right to adjust the price. (See paragraph 23 of the form.) This not only allows the purchaser, or the purchaser's architect or other agent, to see that construction is done according to plans, but also permits changes if they are desirable or necessary.

Because the property will have an increased assessed value for real estate tax purposes after the building is completed and approved, the real estate taxes will increase. This agreement provides that the tax adjustment at the closing will be based on the assessed value as fully determined, even if this determination is made after the closing. (See paragraph 16 of the form.)

For further information, see Chapters 2 and 9.

FORM

CONTRACT OF SALE made September 15, 2002, between Southshore Builders, Inc., a New York corporation having an office at 100 Front Street, Bay Shore, New York ("Seller") and James Perry, residing at 80 Fifth Street, Babylon,

2-Forms Federal Taxes Affecting Real Estate [B]

New York ("Purchaser").

1. *Sale.* Seller agrees to sell, and Purchaser agrees to purchase, the property (the "premises" or "property") described as follows:

(Insert description)

2. *Street rights, easement.* This sale includes all of Seller's right, title, and interest of, in, and to the land lying in the bed of the street, or highway in front of and adjoining the premises to the center line thereof, if such street, or highway in front of and adjoining the premises is, at the time of closing of title, dedicated to, and under maintenance by, the town, city, village, or other municipality in which the premises are situate. If at the time of title, such street or highway is not thus dedicated and maintained, Seller shall grant to Purchaser a good and sufficient easement of ingress and egress to and from the nearest public highway.

3. *Construction of dwelling.* Seller shall, at its expense, erect and complete a one family dwelling on the premises substantially similar to the Model House Type A on exhibit by Seller. Such dwelling shall be constructed in accordance with the requirements as to materials and workmanship of the municipality where it is or will be located, and with the requirements of the lending institution which makes the mortgage loan to Purchaser. Seller reserves the right to make changes or substitutions, or both, in the construction as required, authorized, or approved by Purchaser's lending institution. Seller shall determine the exterior color and design to fit into the general pattern of the development.

4. *Property and work included in sale.* All furniture and furnishings in the Model House are for exhibition purposes only and are not included in this sale. Except as otherwise specifically provided in this contract, Seller shall, at its expense, furnish and perform the following:

(a) Grade the premises and landscape the area in front of the house.

(b) Furnish and install a four-burner range, or if Purchaser furnishes a range before the title closing, install the same and allow Purchaser \$200 as an adjustment.

(c) Furnish and install kitchen cabinets, inlaid linoleum on kitchen floor, electrical fixtures, and plumbing and heating plants and fixtures.

(d) Within ten days of notification, Purchaser shall select wallpaper at a place to be designated by Seller or Seller's painting contractor, at a list price of \$9.50 per roll. The wallpaper will be installed at Seller's expense. If Purchaser selects a more expensive wallpaper he shall pay the additional cost of the wallpaper and of the painting contractor for installing it. Unless the parties specifically agree otherwise, Purchaser may not select more than one design of wallpaper for the walls in any one room.

5. *Purchase price.* The purchase price of the property is \$240,000, payable as follows: \$24,000 on the signing of this contract, receipt of which is acknowledged (subject to collection, if made by check), and \$216,000 in cash, or by good certified or savings bank check or the proceeds of the mortgage loan upon delivery of the deed.

6. *Mortgage loan.* Purchaser shall make diligent, truthful, and proper applications to lending institutions designated by Seller for a loan to be secured by a first mortgage against the premises, and without delay furnish such verifications of bank accounts and employment, and all other instruments or information required by the lending institutions in processing Purchaser's application for the following type of loan:

A first mortgage in the amount of \$192,000, to run for a period of 30 years, to bear interest at the prevailing rate, and to

be payable in monthly installments. The installments may include amortization of principal, interest, taxes, water rates if not a private company, fire and other hazard insurance premiums, and all other provisions required by the lending institution.

7. *Mortgage commitment conditions.* If the application for the mortgage loan is approved and commitment issued, Purchaser shall execute, acknowledge, and deliver any bond, mortgage assumption, extension, and modification agreements, affidavits, statements, or other instruments that are necessary or required by the lending institution to properly place the mortgage loan and any mortgage insurance. If the mortgage loan is granted in a reduced amount and the reduced amount is not more than \$6,000 less than the amount specified for such mortgage loan, Purchaser shall nevertheless accept the mortgage loan in the reduced amount, but the amount of cash to be paid on the closing of title shall be increased by the amount of the reduction. If the lending institution refuses to approve the application for the reduced amount and upon the terms and conditions above described, this contract shall become null and void and upon refunding the deposited money without interest both parties shall be released from any liability under this contract.

8. *Mortgage application.* Purchaser shall make diligent, truthful, and proper application to a lending institution designated by Seller, and without delay furnish all verifications of bank accounts, employment, and other instruments or information required by the lending institution in processing Purchaser's application for the mortgage loan.

9. *Subordination to building loan mortgage.* All terms and provisions of this contract are and shall be subject and subordinate to the lien of all present or future building loan mortgages and advances made thereon, without the execution of further legal documents by Purchaser.

10. *Mortgage costs and fees.* Seller shall pay the following costs and fees in connection with the mortgage loan: title examination fee and title policy premium to insure the mortgagee; attorney's fees for drawing the mortgage instruments; mortgage taxes; recording fees of the mortgage instruments; and survey, inspection, and approval fees. Purchaser shall pay Seller, at the time of closing title, the sum of \$1,200, to cover all of the foregoing costs and fees advanced by Seller. In addition, Purchaser shall pay the lending institution at title closing all origination, appraisal, and service charges and all points in connection with the mortgage loan.

11. *Closing adjustments.* Purchaser shall apportion with Seller and pay all taxes, water rates, and insurance premiums on existing policies determined to be due at closing of title. Purchaser shall also make the usual and required adjustments with and prepayments to the lending institution.

12. *Closing before completion.* The fact that the dwelling or its environs are not fully completed at the time set by Seller for closing of title shall not constitute an objection to the closing if Purchaser's lending institution issues an inspection report, Seller deposits an escrow fund with the institution (if the report so requires), and a certificate of occupancy has been issued for the dwelling.

13. *Title exceptions.* Purchaser shall accept the premises subject to:

(a) Municipal building restrictions and regulations and all amendments and additions in effect at the date of closing of title.

(b) Any state of facts an accurate survey may show if title is not rendered unmarketable thereby.

(c) Encroachments of stoops, area ways, steps, trim and cornices, retaining walls, party walls and extensions thereof, if any.

(d) Sewer, water, electric, gas, telephone, railroad, and other public utility consents and easements now or hereafter recorded.

2-Forms Federal Taxes Affecting Real Estate [B]

(e) Covenants, agreements, and restrictions now or hereafter recorded against or affecting the premises if they do not prohibit the erection or maintenance of the structures as a single family residence.

(f) Local, municipal, town, county, and state zoning ordinances and resolutions if they do not prohibit use of the property as a single family dwelling.

14. *Local ordinances; approvals and regulations contingency.* If at any time on or before closing of title any zoning or building ordinance or regulation, or required approval, prohibits or will prohibit Purchaser from using the property as a single family dwelling, this contract shall become null and void, Seller shall return to Purchaser the amount paid under the contract, and neither party shall have any further obligation or liability to the other by reason of hereof.

15. *Assessments.* If, upon delivery of the deed, all or any part of the premises is or has been affected by an assessment or assessments which are or may become payable in annual installments, and the first installment is then a charge or lien or has been paid, for the purpose of this contract all the unpaid installments of the assessments, including those which are to become due and payable after delivery of the deed, shall be deemed to be due and payable and to be liens upon the premises, and shall be paid and discharged by Seller upon delivery of the deed.

16. *Unpaid or unassessed taxes.* The existence of unpaid taxes at closing of title shall not constitute an objection to title if Seller deposits a sufficient amount with the title company and the company insures against the collection of such taxes from the premises. If the closing of title occurs before the tax rate is fixed, the tax apportionment shall be made when the valuation is fully determined, and this sentence shall survive delivery of the deed. The parties intend that the apportionment of taxes be based on the assessed value of the property with the completed dwelling and other improvements.

17. *Seller's inability to deliver title.* If for any reason Seller is unable to deliver title to the premises in accordance with this contract, Seller's liability shall be limited to the return of Purchaser's payments together with the net bulk rate cost of title examination without title insurance as actually charged to Purchaser by the title company engaged in making a search of the premises for the lending institution. Upon the return of such sum, this contract shall be and become null and void.

18. *Seller's inability to obtain construction materials.* Seller shall endeavor to complete the construction of the dwelling on the premises before the date set for the closing of title. Nevertheless, Seller may cancel this contract by forwarding its check in the full amount paid by Purchaser on the execution of this contract, together with a notice in writing, addressed to Purchaser if any of the following events occur: (a) a governmental bureau, department, or subdivision imposes restrictions on the manufacture, sale, distribution, or use of materials necessary in the construction of residential housing, (b) Seller is unable to obtain materials from its usual sources due to strikes, lockouts, war, military operations, abnormal prices and requirements, or National emergencies, or (c) the installation of public utilities is restricted or curtailed.

19. *Adjournment of closing.* Closing of title shall be adjourned to a date fixed by Seller if final action on the mortgage applications is not taken, final inspection or other necessary instruments or reports are not made or issued, or the dwelling is not ready for occupancy at the date set for title closing. However, the adjourned date shall not be later than one month after the dwelling is ready for occupancy and all necessary reports, inspections, and instruments are made or issued.

20. *Construction delays; adjourned closing.* The closing date shall be extended for up to one month after the dwelling can be completed, as provided above, if completion of the dwelling is delayed due to inclement weather; strikes, lockouts, or other disputes affecting either Seller or any of its suppliers of material or labor; delay in issuance of certificates, permits, or licenses; delayed inspections; acts of war or civil commotion; emergency proclamation;

2-Forms Federal Taxes Affecting Real Estate [B]

governmental regulations; changes ordered by Purchaser in the construction; or any reason beyond Seller's control.

21. *Early completion and closing.* If the house is completed before the closing date specified herein, Purchaser shall accept title five days after he receives written notice thereof from Seller's attorneys.

22. *Unauthorized possession; purchaser's default.* Purchaser shall in no event take possession of the premises before delivery of the deed and full compliance with the terms of this contract. If Purchaser violates this provision, Seller may dispossess him from the premises as a squatter and intruder by summary proceedings. If Purchaser fails to take title at closing or there is an unauthorized possession, this contract shall be deemed cancelled without further notice by Seller, and the amount paid hereunder shall belong to Seller as liquidated damages.

23. *Inspection by purchaser; change orders.* Purchaser or his agent shall have access to the dwelling at reasonable times during progress of the construction for the purpose of examining the work. Purchaser may order reasonable changes in the work, and the purchase price shall be adjusted accordingly. All such change orders and price adjustments shall be in writing and signed by Purchaser.

24. *Certificate of occupancy, permits.* On the closing of title, Seller shall deliver to Purchaser a certificate of occupancy issued by the proper authorities, and the certificate shall be in full force and effect at that time. Seller shall secure all permits and licenses, and pay all fees, necessary for construction of the dwelling.

25. *Appliance warranties and operating systems.* Seller will transfer to Purchaser all warranties given to Seller by any contractor, subcontractor, supplier, or third party for any portion of the building, fixtures, or appliances included in this sale. At the closing date, all water, heating and electrical services will be turned on and in good working order.

26. *Risk of loss.* Seller assumes all risk of loss or damage to the premises by fire or other casualty until delivery of the deed.

27. *Type of deed.* The deed shall be a bargain and sale deed with covenants against grantor's acts in proper statutory short form for record and shall contain the covenant required by Section 13. The deed shall be duly executed and acknowledged by Seller at its expense, so as to convey to Purchaser the fee simple of the premises free of all encumbrances, except as herein stated. The deed shall contain any description of the premises accepted and approved by the lending institution or the title company insuring it.

28. *Seller's full performance on delivery of deed.* This contract is a single, indivisible contract. The delivery to and acceptance of the deed by Purchaser shall be deemed and considered as full performance and compliance by Seller of all the terms of this contract, and as a release by Purchaser of all rights, obligations, claims, or causes of action against Seller. No provision of this contract, unless otherwise herein expressly provided, and no promise, representation, agreement, or obligation of Seller or its agents, employees, or representatives, shall survive the delivery and acceptance of the deed, unless the same is fully set forth in writing together with an express provision that it shall survive delivery of the deed, and is signed by Seller.

29. *One year builder's warranty.* In order to assure the proper care of the dwelling, Seller assumes responsibility for the proper operation, under normal conditions for a period of one year from the date of closing of title, of the following major systems: maintenance of the roof and roof flashings against leaks, except if caused by an act or event beyond Seller's control; service of the basement against water conditions resulting from seepage or pressure if such conditions develop; the heating unit and heating system that it is sufficient to heat the building when it is zero degrees outside with a five m.p.h. wind to a 70 degree temperature inside (Fahrenheit degrees); and the electrical system and interior plumbing. Seller's responsibility under this paragraph is subject to the condition that the above major systems are properly maintained. Seller's obligations and warranties under this paragraph shall survive delivery and acceptance of the deed.

30. *Liquidated damages for seller's breach.* If Seller breaches this contract or refuses to complete the sale of the property to Purchaser as herein provided, Purchaser may recover from Seller the amount paid hereunder, together with the sum of \$6,000 as liquidated damages. Such amount is agreed upon as the damages that Purchaser will sustain from Seller's breach, it being impractical and extremely difficult to fix actual damages at this time. The foregoing shall be in addition to all other remedies which Purchaser shall have either at law or in equity.

31. *Assignment.* Seller may assign this contract to any building corporation that assumes construction and completion of the dwelling and complies with all other terms and provisions hereof. Purchaser shall in no event make such assignment without Seller's written consent.

32. *Broker.* Thomas Cowan is the broker for this transaction, and his commission shall be paid by Seller as set forth in a separate agreement. However, Seller warrants and represents that no commission shall be due and payable unless until title closes hereunder.

33. *Closing.* The closing of the within transaction shall be held at Seller's office, or at the office designated by the lending institution which accepts the mortgage on the premises, at 10 a.m. on February 10, 2003.

34. *Binding effect.* This contract shall be binding upon the parties and their respective heirs, executors, administrators, successors, and assigns.

35. *Headings.* Headings in this agreement are for convenience and reference only and shall not be used to interpret or construe its provisions.

36. *Non-waiver.* No delay or failure by either party to exercise any right hereunder, and no partial or single exercise of any such right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

37. *Governing law.* This contract shall be construed in accordance with and governed by the laws of the State of New York.

38. *Counterparts.* This contract may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

39. *Time of essence.* Time is of the essence of this contract.

40. *Entire agreement.* All prior understandings and agreements between the parties are merged in this contract, which constitutes the entire agreement between the parties. This contract is entered into after full investigation made by Seller, and neither party relies upon any statement or representation made by anyone unless contained herein.

41. *Notices.* All notices hereunder shall be in writing and sent by registered or certified mail, postage prepaid, to the respective parties at their address shown above.

In witness whereof the parties have signed this contract.

B.5 Contract for sale of tract of land--release of subdivided parcels on specified payments--purchase money deed of trust and guarantee to seller

COMMENT

In this form a developer buys a tract of land which will be subdivided into residential lots after the acquisition. Payment of most of the purchase price is deferred. Frequently a developer in these circumstances intends to pay part of the purchase money debt as each subdivided lot is sold. To allow this, the deed of trust, which will secure the balance of the purchase price due to the seller, will provide that certain portions of the property are released from the seller's lien as the indebtedness is reduced by specified amounts. This type of release provision is a common device when the purchaser is planning to subdivide the property or otherwise intends to improve the property in parcels.

Tax aspects:

The release provision has no effect on basic tax consequences. The purchaser's cost basis and the amounts realized by the seller are established at the time of the sale. Subsequent releases from the lien do not affect these items, except to the extent that the purchaser's original allocation of his cost among the various parcels may have to be modified if a default occurs after some parcels have already been released from the seller's lien. The year in which payments are received by the seller will affect the seller's taxable income for that year. If the seller is a dealer, installment sale tax treatment generally is not available. The lien is released as the purchaser pays the deed of trust for each lot. Each lot is not sold separately by the seller receiving the installment payments.

Information reporting of real estate transactions:

The attorney or title company responsible for closing title is required to report the real estate transaction to the Service. In addition, a statement must be provided to the customer before January 31 of the following year. If an attorney or title company is not involved in the closing, the information reporting is the responsibility of the mortgage lender.

For further information, see Chapters 2 and 11.

FORM

AGREEMENT made and entered into February 6, 2002, by and between Graham Corporation, a California corporation ("Seller"), Central Housing Corporation, a California corporation ("Buyer"), and William Doyle ("Guarantor").

1. *Sale of property.* Seller shall sell and Buyer shall buy the following described real property located in the County of Los Angeles, State of California.

(Insert description)

2-Forms Federal Taxes Affecting Real Estate [B]

2. *Purchase price.* The total purchase price of the property shall be \$200,000. Buyer shall deposit \$10,000 of the purchase price in escrow at the opening of the escrow provided for below and an additional \$75,000 of the purchase price in escrow before the close of escrow. The balance of the purchase price of \$115,000 shall be payable in 10 equal annual installments, plus interest at the rate of 12 percent per annum, commencing one year after the close of escrow. If Buyer fails or refuses to pay the \$75,000 by the close of escrow, the initial deposit of \$10,000 shall immediately become Seller's property and be paid to it. Buyer may make additional payments of principal at any time before maturity, which shall be applied against the payment of future principal installments in the inverse order of their maturity. In such event, the balance of the unpaid purchase price shall continue to be payable in equal annual installments, plus interest of 12 percent per annum, for the remainder of the above ten year period.

3. *Note, guarantee, deed of trust.* The total unpaid balance of the purchase price of \$115,000 shall be evidenced by Buyer's promissory note providing for payment upon the terms set forth in Section 2. The note shall be guaranteed by Guarantor, as provided in Section 5. The note shall be secured by a deed of trust on the property, which shall be prior to any other deed of trust, mortgage, lien, or encumbrance on the property.

4. *Release of parcels from deed of trust.* One third of the total property then subject to the deed of trust referred to in Section 3 shall be released therefrom when all of Buyer's payments of principal after the close of escrow, including all elective prepayments referred to in Section 2, equal \$40,000. One half of the total property then subject to the deed of trust shall be released when the principal payments total an additional \$40,000. The balance of the property shall be released from the deed of trust as soon as the remaining unpaid balance of the purchase price is paid in full. For this purpose, the property, which has a 450 foot frontage along Holmes Avenue in Van Nuys, California, shall be divided into three equal parcels, each having a frontage of 150 feet along Holmes Avenue. The three parcels shall be referred to as follows: the most northerly parcel as Parcel A; the most southerly parcel as Parcel B; and the remaining portion of the property between Parcels A and C as Parcel B. Buyer may select Parcel A or Parcel C as the first parcel to be released in accordance with the above. If either parcel is released upon total payments of \$40,000 as set forth above, and Buyer makes additional payments of \$40,000 in accordance with the provisions of this Section, Parcel B shall be the second parcel released.

5. *Guaranty.* Guarantor personally guarantees all of Buyer's obligations under the terms of this agreement, including but not limited to the guarantee of the payment of the purchase price as provided in Sections 2 and 3. Guarantor shall execute a written guarantee of payment of Buyer's note evidencing the unpaid balance of the purchase price. Guarantor shall reimburse Seller, and its successors and assigns, for all damages sustained by Seller by reason of Buyer's breach of any term of this agreement.

6. *Escrow.* The sale shall be completed through an escrow to be opened at Central Title Insurance Company, 3000 Wilshire Boulevard, Los Angeles, California. The escrow instructions shall be in the standard form used by the Central Title Insurance Company, but shall be consistent with the terms and conditions of this agreement. The escrow shall be for a period of 120 days.

7. *Title to property.* At the close of escrow Seller shall convey to Buyer title to the property subject to all covenants, conditions, restrictions, easements, and rights of way of record, all of which shall be subject to Buyer's approval within ten days after receipt of a preliminary title report, and subject to any current unpaid real property taxes which are a lien on the property.

8. *Title insurance policy.* Seller shall provide Buyer with a C.L.T.A. standard coverage policy of title insurance in an amount equal to the total sales price.

9. *Taxes, insurance, and costs.* Any real property taxes and insurance shall be prorated as of the close of escrow. Escrow costs and recording fees shall be divided between the parties according to the normal practice in connection with escrows in Los Angeles County, California.

2-Forms Federal Taxes Affecting Real Estate [B]

10. *Commissions.* A commission of five percent of the total purchase price is payable by reason of this sale to Harris & Company, 1000 Van Nuys Boulevard, Van Nuys, California. Seller shall pay this commission.

11. *Binding effect.* This agreement shall be binding upon the parties hereto and their respective legal representatives, successors, and assigns.

12. *Headings.* Headings in this agreement are for convenience and reference only and shall not be used to interpret or construe its provisions.

13. *Non-waiver.* No delay or failure by either party to exercise any right hereunder, and no partial or single exercise of any such right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

14. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of California.

15. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

16. *Time of essence.* Time is of the essence of this agreement.

17. *Entire agreement.* All prior understandings and agreements between the parties are merged in this contract, which constitutes the entire agreement between the parties. This contract is entered into after full investigation made by Seller, and neither party relies upon any statement or representation made by anyone unless contained herein.

18. *Notices.* All notices hereunder shall be in writing and sent by registered or certified mail, postage prepaid, addressed to the respective parties at their addresses shown above.

In witness whereof the parties have executed this agreement the day and year first above written.

B.6 Contract rider for residential sales contracts containing lead-based paint disclosures and lead-based paint contingency

COMMENT

Disclosure of lead-based paint hazards:

Federal law requires the disclosure of lead-based paint hazards to individuals who are renting, buying or renovating pre-1978 residential housing. *See 42 USC §§ 4851-4856; 40 CFR Part 745 and 24 CFR Part 35, Subpart A.* Lead-based paint and paint dust often found in housing built before 1978. Lead is very dangerous, especially to young children and pregnant women. Sellers of pre-1978 housing must disclose known information on lead-based paint hazards before selling a house, and landlords must disclose such information before leases take effect. Both sales contracts and leases must include a lead warning statement and disclosure information. Renovators must provide information about lead-based paint before starting work.

The seller and the broker are responsible for providing lead-based paint information to the purchaser before the sale. The information required by law includes both specific information about the property being sold and general information about lead-based paint hazards. The seller must disclose known lead-based paint and lead-based paint hazards and provide available records and reports to the purchaser. The seller also must give the purchaser the pamphlet, developed by EPA, HUD, and the Consumer Product Safety Commission (CPSC), titled "Protect Your Family From Lead in Your Home." The purchaser must be given a 10-day period to conduct a lead-based paint inspection or risk management at the purchaser's expense. The parties have flexibility to negotiate the key terms of the evaluation. Finally, the sales contract must include certain notification and disclosure language.

Note that the law does not require the seller to test for lead-based paint or to remove such paint if it is known to exist. The law also does not invalidate a sales contract that does not include the required disclosure. However, any person who violates the lead disclosure requirements may be subject to civil and criminal penalties, as well as treble damages in a private civil suit.

Lead testing contingency:

To protect against the dangers of lead, many purchasers desire a provision making the contract of sale contingent upon the outcome of lead-based paint testing. A lead paint contingency should be included in any contract for the sale of a structure built before 1978, especially if the structure is a residence and the purchaser or anticipated tenant has small children. A commercial property contract should contain a contingency that at least provides for testing for lead dust, which is harmful to people of any age.

The contingency should specify the method of testing and analysis to be used and should require that multiple samples be taken in each room, as well as soil samples from outdoors. The contingency should provide for repair of the sampled areas. The lead paint contingency also should specify the qualifications and credentials of the party performing the sampling and analysis. It is important to be sure that the inspector is qualified and has received training in sampling and spectrography techniques.

The lead paint contingency should allow the purchaser to terminate the contract if any lead paint or dust is found, or if the soil around the premises is found to be contaminated with lead. Alternatively, the contingency may provide that the agreement will be modified to provide for the remediation of any lead problem. Upon receipt of the test results, the purchaser will have to decide whether remediation is required under the circumstances. If the purchaser has no small children and none are expected, he or she may decide against the expense. If the purchaser has small children or is purchasing a building where children may live or visit, he or she may be advised to seek another property.

Lead-based paint testing techniques and remedies:

Lead paint problems can be determined by visual inspection of paint condition and location, surface dust tests, spectrography or chemical tests of samples. Home test kits generally are not considered to be

reliable.

Lead paint can be handled in three ways: removal of the surface containing the paint, encapsulation (*i.e.*, by sheetrocking over the surface), or by sanding the surface. Removal is the most permanent and most expensive method, and it causes the least amount of lead dust. Encapsulation may not be permanent and is moderately expensive. As the seams age, lead dust may escape. Encapsulation may not be performed by painting alone. Sanding is not recommended, as it produces high quantities of lead dust; however, sanding is a lower cost alternative and deemed permanent.

For further information, see Chapters 4, 9, and 11.

FORM

Lead-Based Paint Rider to Contract of Sale

between _____, as Seller, and _____, as Purchaser

Property address: _____

☐ Disclosure of Information on Lead-Based Paint and Lead-Based Paint Hazards

Lead Warning Statement: Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead Poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real property is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase.

Seller's Disclosure (initial)

_____ (a) Presence of lead-based paint and/or lead-based paint hazards (check one below):

☐ Known lead-based paint and/or lead-based paint hazards are present in the housing (explain):

☐ Seller has no knowledge of lead-based paint and/or lead-based paint hazards in the housing.

_____ (b) Records and reports available to the seller (check one below):

☐ Seller has provided the purchaser with all available records and reports pertaining to lead-based paint and/or lead-based paint hazards in the housing (list documents below):

2-Forms Federal Taxes Affecting Real Estate [B]

☐ Seller has no reports or records pertaining to lead-based paint and/or lead-based paint hazards in the housing.

Purchaser's Acknowledgment (initial)

_____ (c) Purchaser has received copies of all information listed above.

_____ (d) Purchaser has received the pamphlet *Protect Your Family from Lead in Your Home*.

_____ (e) Purchaser has (check one below):

☐ Received a 10-day opportunity (or mutually agreed upon period) to conduct a risk assessment or inspection for the presence of lead based paint and/or lead-based paint hazards; or

☐ Waived the opportunity to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards.

Agent's Acknowledgment (initial)

_____ (f) Agent has informed the seller of the seller's obligations under 42 U.S.C. 4582(d) and is award of his/her responsibility to ensure compliance.

☐ **Exclusion from Disclosure.** Seller hereby represents that this property is excluded from the legal requirement to disclose the existence of lead-based paint and/or lead-based paint hazards in housing because this housing was constructed after 1978. (Initial _____)

Lead-Based Paint Contingency: This contract is contingent upon a risk assessment or inspection of the property for the presence of lead-based paint and/or lead-based paint hazards at the purchaser's expense within _____ days after the signing of this contract. If the risk assessment or inspection report shows no lead-based paint or lead-based paint hazards to be present, this contract is binding and effective. If the report shows the presence of lead-based paint and/or lead-based paint hazards, Purchaser (or Purchaser's agent) will deliver to Seller (or Seller's agent) a written list of the specific existing deficiencies and correction needed, together with a copy of the inspection and/or risk assessment report. Within _____ days after delivery of the list, Seller will notify Purchaser in writing whether Seller elects to correct the condition(s) before the closing of title, or to cancel this contract and cause the return of Purchaser's deposit money. If Purchaser accepts the deposit refund, this contract will be terminated and unenforceable. If Seller will correct the condition, Seller will furnish Purchaser with certification from a risk assessor or inspector demonstrating that the condition has been remedied before the closing of title. Purchaser may waive this contingency at any time without cause, either by stating so in writing or by refusing the deposit refund, in which event this contract will be binding and enforceable.

The risk assessor or inspector shall be fully qualified to conduct the risk assessment or inspection, and shall meet the standards for such professionals promulgated by the State of _____. The risk assessment or inspection shall include a visual inspection of paint condition and location, lab tests of multiple paint samples taken in each room, surface dust tests, lab tests of outdoor soil samples, and examination by a portable x-ray fluorescence machine.

Certification of Accuracy

The following parties have reviewed the information above and certify, to the best of their knowledge, that the information provided by the signatory is true and accurate.

B.7 Sale of garden apartment complex--purchase price allocation between personal and real property--assignment and assumption of leases--apartment unit and parking space leases

COMMENT

This agreement involves the sale of a four-unit garden type apartment complex with the purchase price to be allocated as to personal and real property in each unit. The personal property is to be conveyed by general warranty bills of sale. There is a warranty as to minimum amount of rent roll. The leases are to be assigned to and assumed by purchaser.

Allocation of purchase price:

In this contract not only is there a separate allocation of price for each of four parcels, but also sub-allocations, on each parcel, for both personal property and real property. (See paragraph 3 of the contract.) The cost recovery allowance each tax year for personal property and real estate does vary substantially and will, therefore, have an effect on the buyer's taxable income. The allocation also establishes a separate basis in each parcel of land and the personalty.

Lease provisions:

The contract contains specific provisions relating to the unit leases. The seller not only provides the purchaser with a "rent roll" showing the annual gross rent, but also represents and warrants a minimum amount of rent. (See paragraph 7(f).) The leases are to be assigned to the purchaser, and the purchaser agrees to indemnify the seller against claims and liabilities which may arise from the leases. The seller represents and warrants that there are no defaults in the leases to be assigned. (See paragraphs 7(g) and 12.)

Mortgage commitment:

The purchaser, in this contract obtained a commitment for financing prior to entering the agreement. This contract contains a relatively unique representation and warranty that the purchaser does in fact have a mortgage commitment. Also included is the representation and warranty that the purchaser will meet all conditions in the commitment. (See paragraph 4.)

Closing documents:

Paragraph 7 lists each document needed at closing and requires seller to deliver them to the escrow agent not later than five days before the closing date. This can serve as a preclosing checklist and should prevent disputes as to what documents are required at the closing. Specific items required for each unit include security deposit schedule, lease assignments, rent roll certification, employee list, and bills of

sale on personal property used in connection with the operation of complex. (See paragraph 7.)

Real estate tax litigation:

Another relatively unique clause in this contract acknowledges pending litigation challenging the existing tax assessment, and provides for the allocation of the tax savings in the event that the challenge is successful. Tax savings by reason of taxes due prior to closing are to be paid over to the seller. (See paragraphs 8 and 10(c).)

Seller's representations:

Several representations and warranties made by the seller upon which the purchaser relies in entering the contract are listed. Included are representations that the property is free of mechanic's liens, that the property (real and personal) will be in good condition on closing date, and that the various systems will be in good working order. There are no pending law suits, violations, or condemnation proceedings outstanding. (See paragraph 13.) These statements provide the buyer with a remedy in the event that any representations are not fulfilled at closing. The purchaser can claim breach of contract and sue for damages, or holding the threat of such a suit, renegotiate the relevant terms of the transaction at or prior to closing.

Disclosure of lead-based paint hazards:

Federal law requires the seller of pre-1978 residential housing to disclose known information to the prospective purchaser on lead-based paint hazards. *See 42 USC §§ 4851-4856; 40 CFR Part 745 and 24 CFR Part 35, Subpart A.* The sales contract must include a lead warning statement and certain disclosure information. *See* discussion in comments to Form B.3, *supra*. A sample lead-based paint sales contract rider, including both disclosure under the federal law and a lead-based paint contingency clause, is included in this chapter at Form B.6, *supra*.

For further information, see Chapters 2, 4, 6, 19, and 20.

FORM

1. *Purchase.* John E. Dowell, located at 700 Lakeside Tower, Toledo, Ohio ("Purchaser") agrees to purchase from Rosewood, Inc., Rosewood, Inc., No. 2, Rosewood, Inc., No. 3, and Rosewood, Inc., No. 4, each an Ohio Corporation (collectively, "Seller") certain real property, including certain premises identified collectively as 13755-13829 Cedar Road, City of Toledo, County of Lucas, State of Ohio, and certain personal property located thereon, appurtenant and/or relating thereto, and Seller agrees to sell the property to Purchaser.

2. *Property.* The property to be purchased and sold includes the following:

(a) *Lot 10, Block 1035.* From Rosewood, Inc., certain premises commonly known as 13755-773 Cedar Road, Toledo, Ohio, and more particularly described in Exhibit A;

(b) *Lot 11, Block 1035.* From Rosewood, Inc., No. 2, certain premises commonly known as 13775-791 Cedar Road, Toledo, Ohio, and more particularly described in Exhibit B;

(c) *Lot 12, Block 1035.* From Rosewood, Inc., No. 3, certain premises commonly known as 13793-811 Cedar Road, Toledo, Ohio, more particularly described in Exhibit C;

2-Forms Federal Taxes Affecting Real Estate [B]

(d) *Lot 13, Block 1035.* Rosewood, Inc., No. 4, certain premises commonly known as 13813-829 Cedar Road, Toledo, Ohio, and more particularly described in Exhibit D;

(e) *Appurtenances.* For each of the properties described in subparagraphs (a) through (d), all easements, rights of way, privileges, appurtenances and rights to the same belonging to and inuring to the benefit of the premises; and

(f) *Fixtures and equipment.* For each of the properties described in subparagraphs (a) through (d) all of the fixtures and articles of personal property, including, but not limited to, furniture, furnishings, gas and electric apparatus and equipment, engines, radiators, heating, ventilating and air-conditioning units, furnaces and equipment, steam and hot water boilers, stoves, ranges, refrigerating plant and refrigerators, cooking apparatus and appurtenances, shades, awnings, screens, blinds, carpeting, drapes, curtains, flowers, trees, shrubs, linoleum, storm windows and storm doors, and all other machinery, vehicles and equipment, attached to or appurtenant to the premises or used in connection with the maintenance or operation of the premises, and owned by Seller.

3. *Purchase price.* The purchase price for the properties described in paragraph 2 is as follows:

(a) *Lot 10.* For the property hereinabove described as Lot 10, Block 1035.

Personal Property	\$ 7,500.00
Land and Building	930,000.00
Total	\$ 937,500.00

(b) *Lot 11.* For the property hereinabove described as Lot 11, Block 1035.

Personal Property	\$ 8,000.00
Land and Building	940,000.00
Total	\$ 948,000.00

(c) *Lot 12.* For the property hereinabove described as Lot 12, Block 1035.

Personal Property	\$ 10,000.00
Land and Building	1,200,000.00
Total	\$1,210,000.00

(d) *Lot 13.* For the property hereinabove described as Lot 13, Block 1035.

Personal Property	\$ 9,000.00
Land and Building	1,100,000.00
Total	\$1,109,000.00

(e) *Earnest money.* Purchaser shall pay Seller or Seller's nominee \$25,000 as earnest money concurrently with the

2-Forms Federal Taxes Affecting Real Estate [B]

execution hereof by Seller; and

(f) *Balance*. The balance of the purchase price and/or bona fide commitments for payment shall be paid to the Escrow Agent not later than ten days before the time of closing.

4. *Mortgage commitment*. Purchaser represents and warrants that The Charleston Life Insurance Company of America has issued to Purchaser its commitment for a first mortgage loan on the property for \$3,000,000, that the commitment is in full force and effect, and that Purchaser is ready, willing and able to meet all of the conditions of the commitment, including providing for the payment of the balance of the purchase price over and above the sum total of the first mortgage loan and the earnest money deposit.

5. *Cash prior to closing*. Purchaser shall deliver into escrow the balance of the purchase price not less than ten days before the Closing Date.

6. *Closing date*. The sale described herein shall be consummated on the date all of the required deeds are recorded with the Lucas County Recorder, which shall be the same date on which possession is transferred to Purchaser. This date shall be no later than July 1, 2002 (the "Closing Date"), but the Closing Date may be any earlier date specified by Purchaser provided that Purchaser gives Seller at least ten days' prior written notice thereof.

7. *Closing documents*. Except for subparagraph (b) below, not later than five days before the Closing Date, Seller shall deliver to White Title & Trust Company (the "Escrow Agent") the following documents:

(a) *Deed*. Full warranty deeds conveying to Purchaser and/or Purchaser's grantee in deeds fee simple title to the real property. The title shall in each instance be free and clear of all encumbrances, except:

(i) zoning ordinances and conditions;

(ii) any reservations, easements, and restrictions of record approved by Purchaser;

(iii) taxes and assessments which are a lien but not yet due and payable;

(iv) leases to occupying tenants, whether of record or not; and

(v) matters which would be disclosed by a physical examination or accurate survey of the properties.

However, if Purchaser reasonably objects to any of the above conditions, reservations, easements, or restrictions of record, this Agreement shall be null and void and the parties shall be returned to their prior positions without penalty or cost to them.

(b) *Title report*. Notwithstanding any provisions to the contrary herein contained, Seller will cause to be delivered to Purchaser, within 30 days after this agreement is executed, a Preliminary Title Report prepared by White Title & Trust Company, together with copies of the most recent real estate tax bills and a tax search prepared by the Escrow Agent.

(c) *Bill of sale*. General warranty bills of sale including all personal property described herein and in the Exhibits, to be conveyed in accordance with this Agreement.

(d) *Security deposit schedule*. A schedule, which Seller represents and warrants and which Seller shall on the Closing Date represent and warrant to be accurate and complete, of all security deposits received to the Closing Date by or for Seller from or on account of the rental and/or occupancy of each dwelling unit in the garden-type apartment complex and/or on account of parking privileges exercised or to be exercised by persons in the parking facility situated on the

premises.

(e) *Insurance documents.* True copies of policies plus endorsements and riders, if any, and assignments thereof from Seller to Purchaser or his nominee of all insurance contracts relating to the premises, whether casualty, liability, or any other form of insurance coverage. The assignments shall be effective as of the Closing Date. Seller shall also furnish to Purchaser satisfactory evidence that the issuer of each insurance contract has consented to each assignment. Purchaser may obtain all or part of his own insurance coverage, in which event Seller shall retain its policies and cause them to be cancelled. The parties shall prorate, as of the Closing Date, the costs of all insurance contracts for which Purchaser accepts assignment from Seller.

(f) *Rent rolls.* A copy of the rent rolls reflecting annual gross rentals in an amount which Seller represents and warrants to be not less than \$686,400. Seller also represents and warrants that on the Closing Date, an accurate and complete copy of the rent rolls will be delivered to Purchaser for all of the 320 suites and 300 parking spaces conveyed under the terms of this Agreement, which shall reflect all rentals in effect at the Closing Date.

(g) *Lease assignments.* Written assignments from Seller to Purchaser of leases and leasehold interests, under the provisions of paragraph 12. As soon as the lease assignments become effective, Purchaser shall assume the leases and leasehold interests and indemnify Seller from all claims and liabilities subsequently arising from or on account of the leases and leasehold interests.

(h) *Corporate authority.* An opinion letter from Seller's counsel stating that Seller has full and complete authority to take all actions and make all conveyances and assignments required by this Agreement.

(i) *Corporate resolution.* Certification by Seller's secretary or other appropriate officer that Seller's Board of Directors and shareholders have authorized the sale in accordance with the terms of this Agreement to Purchaser and/or his grantee in deeds and/or nominee of the real and personal property which is the subject matter of this Agreement.

(j) *Employee list.* A schedule, which Seller represents and warrants on the Closing Date to be accurate and complete, of all maintenance and custodial employees presently engaged on a regular basis, whether by contract or otherwise, in, on, or for the benefit of the premises.

(k) *Miscellaneous contracts.* Copies, which Seller represents and warrants and shall on the Closing Date represent and warrant to be accurate and complete, of all contracts, whether for labor, materials, services or otherwise, which relate to the operation of the premises and/or which reasonably might become a liability of or a lien against the premises.

8. *Tax complaints.* Any proceeds realized from real estate tax complaints pending for periods preceding the date of closing shall belong to Seller.

9. *Brokers.* Purchaser represents and warrants that Peter John and Sarah Stine are the only real estate brokers or persons with whom he has dealt in this transaction who may have reason to make a claim for a sales commission. Seller shall indemnify and hold harmless Purchaser from and against losses and expenses arising out of, by reason of, or in connection with, claims asserted by any person for a broker's commission in this transaction and arising from any broker's contacts with Seller.

10. *Real estate taxes.* (a) *Adjustment.* All general and special real estate taxes and assessments on the property conveyed or to be conveyed under this Agreement shall be prorated as of the date of transfer of title, based upon the most recently available tax duplicate.

(b) *Payment.* Seller represents and warrants, and shall on the Closing Date represent and warrant, that all assessments and respreads of assessments, both general and special, on the property have been paid to the extent due as of the

2-Forms Federal Taxes Affecting Real Estate [B]

Closing Date or paid through the Escrow Agent.

(c) *Readjustment.* If any real estate tax controversy pending as of the Closing Date is successfully resolved, with the result that Seller would have been entitled to additional funds on the Closing Date due to the proration of taxes at Closing, Purchaser shall remit the additional funds to Seller as if they were included in the proration.

11. *Maintenance expenses.* (a) *Indemnity.* Seller shall indemnify and hold harmless Purchaser and his nominee for all claims by employees, including any wages and holiday or sick pay arising out of employment occurring before the Closing Date.

(b) *Utility and rental charges.* Utility charges and rent paid or payable on account of the apartment suites or the rental of parking space in the parking facility shall be prorated as of the date of transfer of title.

(c) *Rent prepayment prohibited.* Seller has not collected, and shall not at any time before the Closing Date collect, from any person more than one month's rental in advance, including apartment and parking rent.

12. *Lease assignment.* Seller shall assign to Purchaser or his nominee, or both, on or before the Closing Date, every lease of space, whether residential, parking, or otherwise, affecting the premises. Seller does not know, and has no reason to know, of any defaults presently existing on any lease. If any default of which Seller knows or should know occurs between the Acceptance Date and the Closing Date, Seller shall so notify Purchaser in writing on or before the Closing Date and shall promptly take all usual, necessary, and lawful steps to correct the default.

13. *Warranties.* Seller represents and warrants, and shall on the Closing Date represent and warrant, as follows:

(a) *No liens.* The premises are free and clear of all mechanics' liens and all other liens, except as recited in this agreement;

(b) *No defects.* All property, whether real or personal, which is conveyed or to be conveyed under the terms of this Agreement is and shall be on the Closing Date in good condition, except for ordinary wear and tear, and there are no structural defects of any kind or any latent defects of which Seller knows or should have known in the property;

(c) *Good working order.* The heating and cooling system, plumbing and sprinkler system, and roof are and at the time of closing shall be in good working order and condition, except for ordinary wear and tear, with valid permits outstanding where required;

(d) *Occupancy regulations.* All occupancy and fire regulations of the City of Toledo have been and, on the Closing Date shall have been, to the extent that Seller knows or should have known, fully complied with for each building on the premises;

(e) *No condemnations.* Seller has received no written notice nor official notice of any condemnation proceedings against the whole or any part of the premises;

(f) *No violations.* Seller does not know or have reason to know of any substantial violations of law or municipal ordinances affecting the premises. Seller shall, by the Closing Date, cure all violations of which it knows or should have known that occur between the Acceptance Date and the Closing Date;

(g) *Lawful occupancy.* Seller does not know, nor has it received written or official notice, of any violation of laws or ordinances governing occupancy of the premises;

(h) *No pending suits.* No lawsuits are presently pending or have been threatened in writing concerning the property to be

2-Forms Federal Taxes Affecting Real Estate [B]

conveyed hereunder. Seller does not know of any claims or liens against the property, other than those set forth herein;

(i) *Good title.* Seller now has and on the Closing Date shall have good, clear, and sufficient title, free from all liens, security interests, and encumbrances, to all fixtures and articles, including, but not limited to, furniture, furnishings, gas and electric apparatus and equipment, engines, radiators, heating and ventilating and air-conditioning units, furnaces and equipment, steam and hot water boilers, stoves, ranges, refrigerating plant and refrigerators, cooking apparatus and appurtenances, shades, awnings, screens, blinds, carpeting, drapes, curtains, flowers, trees, shrubs, linoleum, storm windows and storm doors, and all other machinery, vehicles, and equipment attached to or appurtenant to the premises or used in connection with the maintenance or operation of the premises, and owned by Seller;

(j) *Copies of contracts.* Seller has delivered and as of the Closing Date shall have delivered copies of every contract which it is required to deliver to the Escrow Agent under the provisions of paragraph 7(k);

(k) *Maintenance.* Seller has maintained, is continuing to maintain, and as of the Closing Date shall have maintained the premises in good condition and continued normal operations on the premises. Seller shall not, between the Acceptance Date and the Closing Date, incur any new indebtedness, enter into any new lease, or renew any existing lease, except in the ordinary course of business and on terms at least as favorable as those in effect on the Acceptance Date.

(l) *Possession.* Seller shall on the Closing Date transfer actual possession of premises to Purchaser or his grantee in deeds; and

(m) *Documents.* All documents that Seller has delivered or will deliver hereunder to Purchaser are and shall remain wholly accurate at closing. Seller shall immediately notify Purchaser, in writing, of every material change of which Seller knows or should have known in the facts, circumstances, or subject matter of every statement, assertion, schedule, or warranty made by Seller or under the terms hereof.

14. *Earnest money.* On or before the date all documents are required to be delivered to the Escrow Agent, Seller shall deliver to the Escrow Agent the \$25,000 earnest money deposit which Purchaser has delivered to Seller under the provisions of paragraph 3(e).

15. *Escrow agent.* A copy of this Agreement shall serve as instructions to the Escrow Agent. The Escrow Agent shall, under the terms of this Agreement, receive and accept not later than ten days before the Closing Date originals of all documents that Seller is required to deliver to it. On or before the Closing Date, the Escrow Agent shall perform the following acts:

(a) *Real estate taxes.* Prorate between the parties as of the Closing Date all real estate taxes, based on the most recently available tax duplicate, in accordance with paragraph 10, and other applicable taxes on the premises;

(b) *Utility charges.* Prorate between the parties as of the Closing Date all utility charges applicable to the premises;

(c) *Rent.* Prorate between the parties as of the Closing Date all rentals. Seller shall deliver all security deposits to Purchaser under the terms and definitions of this Agreement;

(d) *Purchase price.* Receive from Purchaser or his nominee the balance of the purchase price required under this Agreement;

(e) *Title guarantee.* Prepare and issue to Purchaser or his nominee, or both, a title guarantee in the amount of the purchase price, showing fee simple title in Purchaser or his grantee in deeds, subject only to those exceptions for liens for taxes and assessments, both general and special, not yet due and payable, zoning ordinances, and conditions, reservations, easements, restrictions and leases of record, if any, approved by Purchaser, and charge their costs to Seller.

2-Forms Federal Taxes Affecting Real Estate [B]

(f) *Documents*. Deliver to Purchaser or his nominee, or both, all documents that Seller is required to deliver to the Escrow Agent under this Agreement, except the warranty deeds, the disposition of which is described in paragraph 15(h);

(g) *Closing statement*. Deliver to Seller, after application of all debits and credits, the purchase price paid to the Escrow Agent under this Agreement; and

(h) *Recording of deeds*. Cause all four full warranty deeds to be filed concurrently for record on the Closing Date in the appropriate place in Lucas County and in the appropriate manner, all as provided by law, and charge their cost to Purchaser.

(i) *Escrow fee*. Each party shall pay one half of the escrow fee charged by the Escrow Agent. The above escrow instructions may be supplemented as required to comply with the normal standard form of escrow instructions used by the Toledo Real Estate Board.

16. *Possession conditional*. Seller shall transfer actual possession of the premises on the Closing Date, if the purchase price has been paid to Seller under the terms of this Agreement.

17. *Casualty*. Seller assumes all risks and liability for loss, damage or injury by fire, windstorm, accident, or other cause to the premises until the Closing Date. Moreover, if the premises suffer any damages beyond ordinary wear and tear, Seller shall make repairs before the Closing Date. If, however, the damages exceed \$100,000, Purchaser may, within 10 days after Seller notifies him of the damages, declare in writing to Seller that this agreement is null and void. If Purchaser does so, all documents and monies delivered to the Escrow Agent up to that date shall be returned to the parties who sent them. If Purchaser elects not to declare this agreement null and void, Seller shall assign to him all insurance proceeds payable on account of the damages, except to the extent required and used to make necessary repairs to the premises. If the damages do not exceed \$100,000, Seller may either retain the insurance and make or agree to make all necessary repairs before the Closing Date, or assign the insurance proceeds to Purchaser on the Closing Date and instruct him to make the repairs if he chooses to do so. If any damage occurs to the property before the Closing Date, Seller shall, not later than 10 days before that date, exercise in writing the option with regard to repairs of damage not exceeding \$100,000. If, however, the damage occurs less than 10 days before the Closing Date or Seller reasonably believes that repairs cannot be made before that date, Seller shall then so notify Purchaser and deliver written evidence of the exercise or disposition of the option at the time of closing.

18. *Nominees*. Purchaser reserves the right to designate the name of his grantee or grantees in deeds at a reasonable time before the Closing Date.

19. *Survival*. The parties' representations, warranties, covenants and agreements in this Agreement shall survive the closing.

20. *Time of essence*. All matters pertaining to the closing shall take place on the Closing Date at the office of the Escrow Agent. Time is of the essence of this Agreement.

21. *Notice*. All notices shall be in writing and shall be sent by First Class Mail, postage fully prepaid. If to Seller, they shall be addressed:

[Insert Address]

and if to Purchaser:

2-Forms Federal Taxes Affecting Real Estate [B]

[Insert Address]

Either party may at any time, by written notice addressed to the other party, change its address for sending notices.

22. *Binding effect.* This Agreement shall be binding upon and inure to the benefit of the parties and their respective heirs, personal representatives, successors, and assigns.

23. *Governing law.* This Agreement shall be construed in accordance with and governed by the laws of the State of Ohio.

24. *Interpretation.* Where necessary or appropriate to the meaning of this agreement, the singular shall be deemed to include the plural, the plural to include the singular, the masculine to include the feminine and neuter, the feminine to include the masculine and neuter, and the neuter to include the masculine and feminine.

25. *Entire agreement.* This contract contains the entire agreement between the parties. Neither party has made any representations or promises with respect to the premises other than those expressly set forth herein.

26. *Headings.* Headings in this agreement are for convenience and reference only and shall not be used to interpret or construe its provisions.

27. *Non-waiver.* No delay or failure by either party to exercise any right hereunder, and no partial or single exercise of any such right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

28. *Counterparts.* This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

In witness whereof, the parties hereto have set their hands on April 7, 2002.

B.8 Sale of office building--assumption of leases and other contracts by buyer--transaction closed in escrow

COMMENT

This is a contract for sale of an office building. After the initial contract deposit, the buyer is required to pay the balance of the purchase price in cash at the closing. The purchaser has examined the leases, service contracts, and other documents prior to signing of the contract, and agrees to assume each of them listed in an exhibit to the contract. The buyer agrees to indemnify the seller against matters arising after the closing, and the seller indemnifies the buyer against matters arising prior to the closing. The contract specifies the documents to be delivered at the escrow closing and the closing adjustments. The seller must maintain and operate the property until title is transferred.

For further information, see Chapters 2, 4, 6, 11, 19, and 20.

FORM

AGREEMENT made in Los Angeles, California, by and between the Camelot Building Corporation, a California corporation ("Seller") and James Warren ("Buyer").

1. *Purchase and sale.* Buyer agrees to buy, and Seller agrees to sell, the property more particularly described in Schedule A attached (the "property"), together with all items of personal property owned by Seller and located in or used in connection with the operation of the subject property.

2. *Purchase price.* The purchase price for the property shall be \$2 million.

3. *Terms of payment.* The purchase price shall be paid as follows:

(a) \$200,000 to be paid to Seller upon the execution of this agreement.

(b) \$1.8 million to be deposited in the escrow referred to in paragraph 5, before the closing.

4. *Inspection of documents and premises and assumption of obligations.* (a) Buyer acknowledges that, prior to the execution of this agreement, he has inspected each of the instruments listed on attached Exhibit B. Seller warrants that Exhibit B is a complete list of all leases and contracts under which it has any obligation or benefit. Buyer approves each of the instruments on Exhibit B. Seller represents that no tenant is entitled to any rebate, concession, or other benefit except as set forth in the leases referred to in Exhibit B, and that the rentals due or to become due under such leases and other tenancies will not be assigned, encumbered, or subject to liens at the close of the escrow. Buyer expressly accepts, assumes, and agrees to all of Seller's terms, provisions, covenants and conditions contained in each such instrument. Buyer shall also indemnify and hold Seller harmless from any claim, demand, or cause of action asserted against Seller arising from a breach, violation, or failure to perform any provision of any such instrument that allegedly occurred after the closing date of the escrow. Seller shall indemnify and hold Buyer harmless from any claim, demand, or cause of action asserted against Buyer arising from a breach, violation, or failure to perform any provision of any such instrument that allegedly occurred before the closing date of the escrow.

(b) Buyer has inspected a preliminary report of title issued by the Title Insurance Company of Los Angeles, California, dated July 2, 2002, bearing Order Number 50132, as to the status of the fee title of the property. This report is annexed and marked Exhibit C. If the extended coverage policy of title insurance fails to show any exception not shown in the preliminary report, or exceptions 4 through 10 of the report, Buyer expressly approves the report of title and agrees to accept title subject to exceptions 1, 2, and 3 of the report.

(c) Buyer has examined Seller's books and records, and is relying on such examination and not upon any representations made by Seller or its agents concerning the income or expense of the property. Seller warrants and represents that the

2-Forms Federal Taxes Affecting Real Estate [B]

books and records furnished to Buyer are kept and maintained by Seller in its ordinary and normal course of business and used by it in computing its federal income tax returns.

(d) Buyer has inspected the property during January 1992, and agrees to accept it at the close of escrow in the same condition as it was at the time of inspection, reasonable wear and tear excepted.

5. *Escrow.* (a). Within ten days after the execution hereof, the parties shall cause an escrow ("escrow") to be opened at the Title Insurance Company of Los Angeles, California, at its main office, 500 South Water Street, Los Angeles, for the purpose of carrying out the provisions hereof.

(b) Each party shall execute escrow instructions and all other necessary instruments to consummate the transaction and effectively convey and assign the property from Seller to Buyer. Each party shall also deposit into escrow all sums and documents required from time to time by the escrow instructions.

(c) Seller shall deposit the following documents into escrow on or before the escrow closing date:

(1) The original, or duplicate original, of each instrument listed in Exhibit B.

(2) All documents and data necessary to determine the prorations to be made, as set forth in paragraph 6.

(3) A grant deed to the property, duly executed and acknowledged and in sufficient recordable form to convey the required fee title.

(d) If for any reason Seller is unable to convey and assign all or any part of the property in accordance with the terms hereof, Buyer may purchase all rights, title, and interest Seller is able to convey and assign, without abatement of any part of the purchase price. Nothing in this subparagraph, however, shall relieve Seller of any of its obligations under this agreement.

(e) On the close of the escrow, Seller shall furnish, at its expense, a policy of title insurance issued by the Title Insurance Company of Los Angeles, California, in its extended coverage form, in the amount of \$2 million, insuring Buyer's title to the property, subject only to exceptions 1, 2, and 3, as they appear on Exhibit C, as provided in subparagraph 4(b).

(f) Each party will pay the portion of the escrow costs and charges which are normally charged to it, respectively, under existing escrow practices in the City of Los Angeles, California. Seller will pay the cost of the title policy to be furnished by it.

(g) The closing date of the escrow shall be on or before July 1, 2002. Buyer shall designate the closing date, by giving the Title Insurance Company, as escrow holder, and Seller, written notice at least ten days before the designated date. Time is of the essence with regard to the closing date. If the escrow fails to close on or before the above date for any reason other than Seller's default, this agreement shall terminate.

(h) At the close of the escrow, Seller will deliver to Buyer all documents, correspondence, lease files, and related records pertaining to the leases and contracts listed on Exhibit B.

(i) Seller shall pay a real estate broker's commission of \$35,000 to Harrison & Co., Inc., 100 State Street, Los Angeles, California, from the proceeds of the escrow, when the escrow is closed.

(j) The escrow instructions are not intended to supersede this agreement, but are deemed merely to be supplemental hereto and a means of carrying out and consummating the provisions hereof.

2-Forms Federal Taxes Affecting Real Estate [B]

6. *Prorations.* The following items shall be prorated as of the close of the escrow:

(a) Rents, other than delinquent rents under the leases and tenancies listed on Exhibit B. If any lease set forth in Exhibit B provides for a minimum basic rent, plus an additional rent to be computed on the basis of a stated percentage of the tenant's monthly or annual revenue or volume of business, then for the purpose of prorating such additional rents, it shall be assumed that the revenue for each month or each year for which additional rent is to be computed is the same as the revenue for the last calendar month or last calendar year, as the case may be, immediately before the close of escrow. Delinquent rents are rents which are not paid within ten days after they are due. Delinquent rents shall not be prorated and shall remain the property of Seller, except that Buyer shall be entitled to receive and retain all rents allocable to the period after the close of escrow.

(b) All security deposits and lease considerations then held by Seller. Seller shall, on the close of escrow, represent and warrant that such security deposits or lease considerations are the only ones in its possession.

(c) Garage parking and service income.

(d) City and county real and personal property taxes.

(e) Salaries of employees (not including management employees). Attached Exhibit D is a list of the names of such employees, their positions and salaries.

(f) Union welfare and pension fund contributions, social security payments, Christmas bonus payments (based on a calendar year on the amounts paid in 2001), and vacation payments accruing since the last previous vacation of the employees shown on Exhibit D or of employees replacing them.

(g) Exhibit E is a list of insurance policies showing the name of the insuring company, the policy number, the term and expiration date of the policy, the premium charged, and the general nature and the type of policy. Premiums on such policies shall be prorated. Seller shall maintain such policies in full force and effect until close of escrow.

(h) Charges under the service contracts listed on Exhibit B. The net balance of the foregoing prorations, if in favor of Seller, shall be added to the cash required to be paid by Buyer, before the close of escrow; or, if in favor of Buyer, shall be deducted from such cash required. No prorations will be made of public utilities but, in lieu thereof, Seller will cause the respective utility companies to read the gas, water, electric, and power meters on the morning of the close of escrow, and will pay such invoices when rendered. Seller will also pay any telephone charges allocable to the period before the close of escrow.

7. *Possession and use of building name.* Possession of the property shall be delivered to Buyer upon conveyance of title and the close of escrow. Seller will assign to Buyer its right to use the name "Camelot Building."

8. *Conduct of business during escrow.* (a) Seller shall continue to maintain, repair, manage, and operate the property in the same manner as it is now conducted, reasonable wear and tear excepted, and shall perform all obligations under the leases and contracts referred to in Exhibit B until the close of escrow and the delivery of possession of the property to Buyer. Except as provided in subparagraph (b) of this paragraph, Buyer shall have no rights with respect to the management, operation, or conduct of the property until the close of escrow.

(b) Seller shall submit to Buyer, for his approval, after the execution hereof, any contract or lease relating to the property which Seller contemplates executing. Seller shall not execute any such contract or lease until it is first approved in writing by Buyer. Seller, however, shall not be required to execute a contract or lease because it has been submitted to Buyer for approval and approved by him. Buyer will not unreasonably withhold approval of any contracts

2-Forms Federal Taxes Affecting Real Estate [B]

or leases submitted to him for approval by Seller. Seller shall not modify, extend, renew, cancel, or surrender any of the existing leases or contracts in Exhibit B without Buyer's written consent in each instance.

(c) If Buyer approves any such contract or lease, in writing, and it is subsequently executed by Seller, an executed copy of the contract or lease shall be deposited by Seller into the escrow.

(d) Buyer shall accept and assume all of the terms, provisions, covenants and conditions which Seller is required to observe, perform and keep in each contract or lease that Buyer approves under subparagraph (c) of this paragraph, and which is executed by Seller. Buyer shall indemnify and hold Seller harmless from and against any claim, demand, or cause of action asserted against Seller arising from a breach, violation, or failure to perform any provision of any such contract or lease that allegedly occurs after the closing date of the escrow. Seller shall hold Buyer harmless from any claim, demand, or cause of action asserted against him arising from any breach, violation, or failure to perform any provision of any such contract or lease that allegedly occurs before the closing date of the escrow.

9. *Passage of title.* Until the closing of escrow, the parties do not intend that title to the property pass from Seller to Buyer, that title to the funds to be deposited in escrow hereunder pass from Buyer to Seller, or that this agreement be deemed consummated. Seller's warranties, covenants, and representations contained in paragraphs 4(a) and (c), in paragraph 6(a), in the last two sentences of paragraph 6, and in paragraphs 8(a) and (d), shall survive the closing of escrow.

10. *Fire, earthquake, or other casualty.* If, at any time before the close of escrow, the property is destroyed or damaged by fire, earthquake, or other casualty, and the damage cannot be repaired for less than \$100,000, Buyer may terminate this agreement and be released from all obligations hereunder. If Buyer elects to terminate, he shall be entitled to the return of all monies paid hereunder and deposited in escrow. If Buyer does not elect to terminate, Seller shall assign to him any insurance proceeds paid on account of the casualty, or any claims under the insurance policies. In that event, Buyer shall complete the purchase of the property and accept the same in its damaged condition. If, at any time before the close of escrow, the property is damaged by fire, earthquake, or other casualty and the damage can be repaired for less than \$100,000, Seller shall repair the damage at its expense but may retain the insurance proceeds.

11. *Default.* The \$200,000 that Buyer is to pay Seller upon the execution hereof shall become Seller's property immediately upon payment. Seller shall apply the \$200,000 toward payment of the purchase price of the property upon the close of escrow. Buyer acknowledges that he has no right to the return any portion of the \$200,000, unless either Seller defaults or Buyer becomes entitled to the return of the money under the provisions of paragraph 10. If Buyer shall be in default of its obligations hereunder, Seller's sole remedy shall be to retain the foregoing sum of \$200,000 as liquidated damages.

12. *Assignment.* Buyer may assign this agreement and it shall be binding upon and inure to the benefit of the legal representatives, successors and assigns of both parties.

13. *Entire agreement; modification.* This contract constitutes the entire agreement between the parties. It may not be modified except by an instrument signed by the party against whom the enforcement of such modification is sought.

14. *Nonwaiver.* No delay or failure by either party to exercise or enforce any right hereunder, and no partial or single exercise of any such right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

15. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

16. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of

2-Forms Federal Taxes Affecting Real Estate [B]

California.

17. *Counterparts.* This agreement may be executed in one or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

18. *Time of essence.* Time is of the essence of this agreement.

19. *Notices.* All notices hereunder to Seller shall be given by certified mail, addressed to:

Camelot Building Corporation
100 Wilshire Boulevard
Los Angeles, California

All notices to Buyer under this agreement shall be given by certified mail, addressed to:

James Warren
200 State Street
Denver, Colorado

In witness whereof the parties have executed this agreement January 15, 2002, in the City of and County of Los Angeles, State of California.

B.9 Sale of operating hotel--liquor license transfer contingency--closing adjustments and other payments--assessed value reduction sought

COMMENT

This form is an agreement for the sale of an operating hotel. The sale includes not only the real property, but also the business, inventory, other personal property, and additional items related to the hotel. The contract contains terms, therefore, covering matters usually found in contracts for the sale of real estate as well as terms related to the sale of a business.

Closing adjustments and other payments under this contract include a number of hotel items (paragraph 4). The purchaser will pay an additional amount for inventory items certified by accountants, including new and unused furniture and furnishings, supplies, food and liquor. The purchaser pays sales tax for the personal property items (paragraph 15). The apportionment of rent covers percentage rent due from hotel shops as well as guest rentals. The contract contains specific procedures for the transfer of custody of safe deposit boxes (paragraph 6), guest baggage (paragraph 7), and tenant security deposits (paragraph 8). The contract is contingent on governmental approval of the transfer of the hotel's liquor license to the purchaser (paragraph 36).

In this agreement, the seller seeks a reduction in the hotel property's assessed valuation for lower real

property taxes. The reduced taxes, if any, and the costs of seeking the reduced assessed value are to be apportioned between the buyer and seller (paragraph 26). A seller oriented provision contained in this contract is the parties' waiver of the Uniform Vendor and Purchaser Risk Act, coupled with detailed procedures in the event of a casualty loss (paragraph 17). Under the Uniform Vendor and Purchaser Act, which has been adopted in a minority of states, the risk of loss transfers on the earlier of the transfer of possession or the transfer of title. As in this contract, the parties may waive the statute and allocate the risk of a casualty loss as they see fit.

For further information, see Chapters 2, 4, 6, 11, 19, and 20.

FORM

AGREEMENT, made January 30, 2002, by and between Carson Hotel, Inc., a New York corporation, having its principal place of business at 100 East 42d Street, in the City, County, and State of New York ("Seller"), and Central Realty Corporation, a New York corporation, having its principal place of business at 500 Fifth Avenue, in the City, County, and State of New York ("Purchaser").

1. *Description of property.* Seller agrees to sell and convey, and Purchaser agrees to purchase, all that lot or parcel of land, with the buildings and improvements thereon, in the Borough of Manhattan, City, County, and State of New York, bounded and described as follows:

(Insert description)

Such premises being known as and by the street numbers 100-112 East 68th Street.

Together with Seller's entire right, title, and interest:

- (1) of, in, and to any land lying in the bed of the street in front of or adjoining such premises to its center line; and
- (2) to the name "Carson" and all trade names used in connection with the hotel.

Also together with all fixtures, chattels, and articles of personal property that are now, or later may be, placed upon, attached to, or used in connection with or in the operation of the premises, regardless of whether enumerated herein, including, among other items, furnaces, boilers, oil burners, radiators and piping, plumbing and bathroom fixtures, refrigeration, air conditioning and sprinkler systems, washtubs, sinks, gas and electric fixtures, stoves, ranges, awnings, screens, window shades, elevators, motors, dynamos, refrigerators, kitchen cabinets, incinerators, and all furniture, fixtures, silverware, linen, china, glassware, napery, and all other articles of personal property owned by Seller and used in connection with that portion of the premises used and operated as a hotel.

Seller represents that it owns all of the above property free from liens and encumbrances, except as set forth hereinafter. Expressly excluded, however, are the following:

- (a) Fixtures, chattels, and articles of personal property in that portion of the premises known as 102 East 68th Street, all of which are owned by the tenant in possession.
- (b) Furniture, furnishings, and articles of personal property owned by tenants or occupants of rooms, apartments, or other areas in that portion of the premises used and operated as a hotel; and

2-Forms Federal Taxes Affecting Real Estate [B]

(c) Television sets and antenna owned by James Television, Inc. and leased to the hotel under the lease agreement set forth on Schedule B.

2. *Subject clauses.* The premises and personal property are sold and are to be conveyed and transferred, subject to the following:

(a) State of facts as shown on survey made by Herbert C. George, dated April 20, 2001, to any changes since the date of the survey, and to any state of facts the survey brought down to date will show, if such additional facts do not render title unmarketable.

(b) To leases and tenancies as set forth in the annexed Schedule A, and to all tenancies that exist on closing. Purchaser acknowledges that it has examined all leases referred to in Schedule A and has initialled each one for identification.

(c) A mortgage, now a lien of record originally given to secure the principal sum of \$1.3 million, which will have been reduced by payments at or before the date set for closing, to the sum of \$660,000 bearing interest at 12 percent per annum, requiring payments of \$12,500 on the first day of each month, applicable first to interest and the remainder to amortization of the principal balance, until December 1, 2004, when the balance of principal then remaining unpaid becomes due and payable. Seller represents that the last monthly payment on such mortgage was made to the Central Savings Bank.

(d) Zoning regulations and ordinances of the City of New York, now in force, which are not violated by existing structures.

(e) Covenants, restrictions, easements, and reservations of record, if any, if they are not violated by existing structures.

(f) Party walls, and party wall and sewer agreements, if any.

(g) Possible encroachments of retaining walls, foundations, cellar doors, gratings, water tables, trim, cornices, sidewalk, elevator, fences, copings, and variations between record lines and fences or retaining walls.

(h) Rights, if any, acquired by any utility company to maintain and operate lines, wires, cables, pipes, poles, and distribution boxes, in, over, or upon such premises.

3. *Purchase price.* The purchase price is \$4 million, which is payable as follows:

(a) \$340,000 on the signing of this agreement, by check subject to collection, the receipt of which is acknowledged.

(b) \$660,000 by taking title subject to the existing first mortgage now a lien on the premises. Receipts or letters signed by the mortgagee, its agent or attorney, evidencing the payment of installments of principal and interest or reciting the present status of the mortgage as to principal and interest, shall be sufficient evidence of the reduction of principal and the payment of interest.

(c) \$3 million in cash or by certified check, drawn by the grantee named in the Deed, on a New York Clearing House bank, to the direct order of Seller as payee, on delivery of the Deed.

4. *Apportionments and additional payments.* The following apportionments and payments are to be made:

(a) Rents. The rental paid by the tenant who occupies the portion of the premises known as 102 East 68th Street is measured in part by a percentage of the tenant's sales, the tenant being required to pay or adjust the rental at a date after the closing of title. The fixed and percentage rental shall be apportioned between the parties as at the closing date on the

2-Forms Federal Taxes Affecting Real Estate [B]

basis of a monthly rental accrual of \$3,000 for each month of the leased term, notwithstanding any contrary provision of the lease regarding fixed or percentage rental, even if payment or adjustment of rent by the tenant is after the closing.

(b) Interest on the mortgage.

(c) Premiums on existing transferable insurance policies or renewals of those expiring before the closing.

(d) Taxes and sewer rents, if any, on the basis of the fiscal year for which assessed. If the closing of title occurs before the tax rate is fixed, the apportionment of taxes shall be upon the basis of the tax rate for the preceding year applied to the latest assessed valuation.

(e) Water charges on the basis of the calendar year. If there is a water meter on the premises, the unpaid meter charge and unpaid sewer rents for the time intervening between the date of the last reading and the date of closing shall be apportioned on the basis of such last reading. If any tenant in possession is required to pay for water meter charges under the terms of a lease, Seller shall not be required to pay any portion thereof. Purchaser will take title subject to any unpaid water meter charges owing by any tenant, and Purchaser shall look solely to the tenants who are obligated to pay the same for payment.

(f) Employees' vacation pay, if any, and other fringe benefits under a collective bargaining agreement.

(g) One year after date of closing the accounting firm of Williams & Company shall determine whether Purchaser has failed to pay beneficiary employees the accruals for vacation pay charged against Seller, and if so, the unpaid amounts. On the basis of such determination, and within ten days thereafter, Purchaser shall pay Seller the amount charged against Seller but not paid out by Purchaser. In addition, Williams & Company shall determine whether, as a result of negotiations currently pending between the union representing Seller's employees and the hotel association of which Seller is a member, any wage increases are effective retroactively for any period before the date as of which closing adjustments are made. If there are, Seller shall pay Purchaser the retroactive wage adjustments determined to be due.

(h) All rents and charges payable under servicing and maintenance contracts to which Seller is a party, including those set forth on the annexed Exhibit B. The contracts shall be assigned Purchaser, who shall assume the obligations to be performed after the closing.

(i) Employees' accrued wages or salaries and wages and salaries of employees up to 7 a.m. on the day of closing shall be charged to Seller.

(j) Charges for the consumption of electricity, steam, gas, and telephone services.

(k) Telephone equipment rental.

(l) If the payment does not violate state and federal rules and regulations governing liquor sales, at the closing Purchaser shall pay Seller, in cash or by certified check, a sum equivalent to the cost of all foodstuffs, in good, wholesome condition and liquor inventories consisting of bottled or canned goods on hand at the hotel premises owned and operated by Seller, computed at cost and certified to by Williams & Company, whose certification shall be final, conclusive, and binding upon the parties.

(m) At the closing Purchaser shall pay Seller, in cash or by certified check, a sum equivalent to the cost of the following inventories and operating supplies, regardless of whether such inventories or supplies have been issued from storerooms to operated departments, computed at cost and certified to by Williams & Company, whose certification shall be final, conclusive, and binding upon the parties:

2-Forms Federal Taxes Affecting Real Estate [B]

- (1) food inventory, cooked or raw;
- (2) linen, glass, china, and silverware in unbroken packages;
- (3) guests' cleaning and paper supplies and stationery in unbroken packages;
- (4) printing and stationery, such as front office bills, menu stock, and advertising matter, in unbroken packages;
- (5) upholstery material in full bolts;
- (6) new and unused carpets and rugs on hand or in storage;
- (7) new and unused furniture, fixtures, and equipment;
- (8) new and unused engineers' supplies and equipment;
- (9) new and unused paint and painters' supplies and equipment;
- (10) new and unused employees' uniforms.

(n) At the closing Purchaser shall pay Seller, in cash or by certified check, a sum equivalent to all monies in house banks. The house banks shall be counted jointly by the parties' representatives on the day of closing.

(o) Transient rentals for guests for the night on the day of the closing shall be apportioned equally between the parties.

Except as otherwise provided herein, all apportionments provided for in this agreement shall be made as of the close of business of the day preceding the closing date. If any questions arise with respect to the amount of apportionments, the decision of Williams & Company shall be final, conclusive, and binding upon the parties. Closing adjustments shall be determined by Williams & Company tentatively at the closing and payment of the net figure resulting from such adjustment shall be made by Purchaser to Seller by check at the closing. A final closing adjustment shall be made by Williams & Company within 30 days after the closing, and to the extent that any additional payment or repayment is indicated on the final closing adjustment, the payment or repayment shall be made within five days after the final adjustment is made.

5. *Past due rents and past due accounts.* The following shall apply to past due rents and other customary hotel charges:

- (a) Seller's accountants shall, as at the close of business set forth as the closing date, prepare a listing of all accounts receivable balances originating before the closing date and due to Seller from tenants, guests, and patrons of the hotel for rents and other customary hotel charges.
- (b) Purchaser shall take over and exercise all reasonable diligence to collect for the account of Seller all balances contained in such listing. The first moneys received after the title closing from debtors owing such accounts receivable balances shall be received in trust for Seller on account of such accounts receivable for rents and other customary hotel charges and shall be remitted to Seller, together with a listing of such collections at ten-day intervals from the closing date.
- (c) Any credit balance of guests shall be credited to Purchaser.
- (d) Seller's accountants may review accounts receivable collections whether for rent or from other sources after the closing date at least once in each month following the closing date.

2-Forms Federal Taxes Affecting Real Estate [B]

(e) All past due accounts not collected by Purchaser within six months from the date of closing shall be turned back to Seller who, as the exclusive owner, may institute any proceedings and take any steps to effect collection.

6. *Safe deposit boxes.* Seller shall send written notice to guests who have safe deposit boxes advising of the sale of property to Purchaser and requesting the removal and verification of the contents within five days after the closing. Seller, at its expense, shall have a representative on the premises during such five-day period for this purpose. Boxes of guests not responding to written notice shall be listed at the end of the five-day period, and Seller shall have no responsibility to them in connection with the safe deposit boxes. Purchaser shall indemnify Seller against any such liability, unless Seller's representative is present when the box is finally opened.

7. *Baggage inventory.* All baggage checked or left in Seller's care shall be listed in an inventory to be prepared in duplicate and signed by the parties' representatives on the day before closing. Purchaser shall be responsible from and after the closing for all baggage listed in such inventory. All baggage or other property of guests retained by Seller as security for unpaid accounts receivable may be left on the hotel premises without any responsibility or liability therefor by Purchaser, for a period not exceeding six months from the closing date, within which time Seller shall remove or otherwise dispose of the baggage or other property.

8. *Security deposits.* Schedule A contains the names of all tenants who have deposited securities and the amounts deposited. At the closing, Seller shall deliver the security deposits to Purchaser (if not prohibited by the terms of the lease), after which Purchaser shall hold and apply the security for the purpose contained in the lease, and shall indemnify and hold Seller harmless against any liability in connection therewith.

9. *Fuel.* Purchaser shall purchase from Seller, at Seller's cost, all fuel on the premises at the time of delivery of the Deed, and shall pay Seller for the fuel upon such delivery. The parties shall accept as conclusive the written estimate of a reputable dealer as to the amount of oil on the premises at such time.

10. *Violations.* Seller shall furnish Purchaser, upon written request, with authorization to make the necessary searches for violations. All notices of violations of applicable federal, state, or municipal zoning ordinances, health codes, multiple dwelling laws, building codes, fire ordinances, and the like, against or affecting the premises at the date hereof shall be removed by Seller before the closing, or within a reasonable time thereafter, if Purchaser gives Seller written and detailed notice of the violations not later than ten days after the date hereof. Such violations shall not be objections to title. Seller, however, may cancel this agreement by notifying Purchaser in writing, if the reasonable cost of removal exceeds \$10,000 or if such compliance is affected by any governmental law, regulation, requirement, or limitation order in such a manner that, in the sole opinion of the architect named below, the violation cannot be removed within a reasonable time and with reasonable certainty. If Seller elects to terminate, this agreement shall be null and void and the parties shall be released from all further obligations hereunder, except that Seller shall refund to Purchaser the amount of the down payment. Seller's written election to terminate shall be given not later than ten days after it receives Purchaser's written notice. The written estimate of Harris & Johnson, Architects, 111 Fifth Avenue, New York, of the reasonable cost of such compliance shall be conclusive on the parties. Radio and television antennae violations shall be no objection to title and Purchaser will take title subject thereto. Violations which a tenant is required to comply with or remove pursuant to the terms of a lease shall be no objection to title and Purchaser will take title subject thereto. Notwithstanding anything in this paragraph, Purchaser may elect to close the contract and pay the purchase price in full without abatement, taking subject to the violations which Seller is not obligated to correct hereunder.

11. *Special assessments.* (a) If, at the time of delivery of the Deed, the premises, or any part thereof, shall be or has been affected by an assessment or assessments which are or may become payable in annual installments, of which the first installment is then a charge or lien, or has been paid, then, for the purposes of this agreement, all the unpaid installments of any such assessment, including those which are to become due and payable after delivery of the Deed, shall be deemed to be due and payable and to be liens upon the premises affected thereby and shall be paid and discharged by

Seller upon such delivery.

(b) Purchaser shall have ten days after the date of this agreement within which to examine the records with regard to any assessments, other than those referred to in subparagraph (a) above. If the examination discloses any assessments subject to which Purchaser is unwilling to take title, it shall so notify Seller in writing within the ten-day period and request Seller to discharge them. Within ten days after receiving the notice, Seller shall notify Purchaser whether Seller is willing to discharge the assessments. If Seller is not willing to do so, Purchaser may, within five days after notification by Seller, cancel this agreement. In that event, both parties shall be released from any further obligation hereunder, and Seller shall immediately return to Purchaser the amount paid upon the execution and delivery of this agreement. If Purchaser does not cancel, the assessments shall not be the subject of adjustment of the purchase price, and Purchaser shall be deemed to have waived the assessments as an objection to closing and for all purposes of this agreement.

12. *Encumbrances to be removed at closing.* If, at closing of title, the premises are affected by any liens which Seller is required hereunder to discharge or satisfy, Seller shall be deemed to have discharged or satisfied the same if proper instruments of satisfaction or discharge are delivered to Purchaser at title closing and reasonable allowances are made to Purchaser for the estimated charges for recording. Purchaser shall advance at title closing, in cash or by certified check satisfactory to Seller, drawn to the order of a payee or payees named by Seller, any amount (not exceeding the cash balance of the purchase price) required to discharge the liens, and the amount so advanced shall be credited against the cash balance of the purchase price due at title closing. Lien or liens dealt with as herein provided shall not be an objection or objections to title. Violations filed in any county, city, state, or federal department which Seller is required to remove shall not be objections to title if Seller deposits with its attorney a sufficient sum to secure the performance of the work and provide the necessary materials to remove such violations and agrees to remove such violations within 90 days from the closing date.

13. *Amortization payments by the seller.* Any installment of principal, including the portion which represents principal of a combined payment of principal and interest on the first mortgage, between the date hereof and the closing of title, and paid by Seller, which reduces the unpaid principal of such mortgage below \$660,000, shall be repaid to Seller by Purchaser, in cash or by certified check, at title closing.

14. *Deed.* The Deed shall be the usual bargain and sale deed with covenants against grantor's acts, in proper statutory form for recording, duly executed and acknowledged, so as to convey to Purchaser the fee simple of the premises, free of all encumbrances, except as herein stated, and shall also contain the covenant required by subdivision 5 of Section 13 of the Lien Law.

15. *Sales tax.* Purchaser shall pay Seller, in cash or by certified check, the amount that Williams & Company estimates Purchaser to owe for New York City and state sales and use tax. Such payment shall not be, or construed to be, part of the purchase price. Purchaser shall reimburse Seller for any additional amount Seller is required to pay for sales and use tax in connection with the sale. The final audits of the state and City of New York, Sales Tax Division, determining the amount of sales and use tax in connection with this purchase, together with receipted bills showing payment, shall be final and conclusive evidence of the amount of the additional tax and the fact of payment. The provisions of this paragraph shall survive the delivery of the Deed, Bill of Sale, and other instruments.

16. *Deposit a lien.* All sums paid on account of this agreement and the reasonable expenses of the cost of title examination are made liens on the premises, but such liens shall not continue after Purchaser's default under this agreement.

17. *Destruction of premises and eminent domain.* (a) The parties waive the provision of Section 5-1311 of the General Obligations Law, the New York Uniform Vendor and Purchaser Risk Act, if, before the date for closing title (1) all or a material part of the hotel building on the premises is destroyed by fire or the elements or by any cause beyond either

2-Forms Federal Taxes Affecting Real Estate [B]

party's control, or (2) all or a material part of the premises is taken by eminent domain. In either such event, neither party may cancel this agreement, and upon the closing of title, and the receipt of the purchase price, Seller shall pay Purchaser any money collected by Seller under the insurance policies or renewals thereof, listed on the annexed Schedule D, insuring against the loss in question, after deducting any amounts which Seller has agreed or become obligated to pay for repairs or restoration of the damage. In addition, Seller shall assign to Purchaser all of its right, title, and interest in and to such policies and any further sums payable under them, and, if any part of the premises is taken by eminent domain, in and to any awards made for such taking.

(b) If, before closing of title, (1) an immaterial part of the hotel building on the premises is destroyed by fire or the elements or by any cause beyond either party's control, or (2) an immaterial part of the premises is taken by eminent domain, neither party may cancel this agreement, and Purchaser shall be entitled to an equitable abatement of the purchase price, to the extent of the destruction or taking.

(c) Any dispute as to (1) the materiality of any part of the building destroyed or of the premises taken by eminent domain, or (2) the amount of any equitable abatement of the purchase price to which Purchaser is entitled, shall be referred to Harris & Johnson, Architects, whose written determination of the questions in dispute shall be final and conclusive as if rendered by a court of competent jurisdiction. If necessary, the closing date shall be adjourned until the dispute is fully resolved.

18. *Broker.* Purchaser represents to Seller that this sale was brought about by James Stoner & Company and Smith & Baron, as brokers, and that all negotiations with respect to the terms of this agreement were and are conducted exclusively by or through such brokers. If any claim is made for commissions by any broker other than James Stoner & Company or Smith & Baron, by, through, or on account of any acts of Purchaser or its representatives, Purchaser will hold Seller free and harmless from all liability and expenses in connection therewith. Purchaser shall pay the brokerage commission to James Stoner & Company and Smith & Baron if and when title passes hereunder. The provisions of this paragraph shall survive delivery of the Deed.

19. *Waiver, change, or modification.* This agreement may not be modified or terminated except by an instrument signed and executed by both parties.

20. *Unmarketable title.* If Seller is unable to convey a marketable title, subject to and in accordance with this agreement, its sole obligation shall be to refund Purchaser's down payment and to reimburse Purchaser for the cost of title examination. Upon the making of such refund and reimbursement, this agreement shall terminate and neither party shall have any further claim against the other by reason thereof, and Purchaser's lien, if any, against the premises shall wholly cease. Seller shall not be required to bring any action or proceeding or otherwise to incur any expense to render the title to the premises marketable. Purchaser may, nevertheless, accept such title Seller is able to convey, without any reduction of, or credit or allowance against, the purchase price and without any other liability against Seller. Purchaser's acceptance of a Deed shall be deemed to be a full performance and discharge of all of Seller's obligations hereunder, except any specifically stated herein to survive delivery of the Deed.

21. *Cost of title examination.* The term "cost of title examination" is defined, for the purposes of this agreement, as the expense actually incurred by Purchaser for title examination. Such cost, however, shall not exceed the net amount that would be charged by a title company in the City of New York for title examination of the premises, without issuance of policy, plus the cost to Purchaser of any survey actually obtained, such cost, however, not to exceed the amount which would be charged by such title company for a similar survey.

22. *"As is" condition.* Purchaser represents that it has inspected the premises and the personal property included in the sale and is purchasing them "as is."

23. *Unpaid franchise tax.* The nonpayment by Seller of the New York State franchise tax due at any time during the

2-Forms Federal Taxes Affecting Real Estate [B]

current year and its omission to file a franchise tax return during the current year shall not constitute an objection to Seller's title or a ground for the rejection of title. Seller shall hold Purchaser harmless from the collection of such franchise tax out of the premises. The provision of this paragraph shall survive delivery of the Deed. Unpaid franchise taxes of any corporation in the chain of title shall be no objection to title if Seller deposits with its attorney, in escrow, a reasonable amount to secure the payment of such unpaid franchise taxes within 60 days from the date of closing title.

24. *Other unpaid liens.* Unpaid liens for taxes, water charges, and assessments shall not be objections to title, but their amount, plus interest and penalties, shall be deducted from the cash consideration to be paid by, and allowed to, Purchaser, subject to the provisions for apportionment of taxes and water charges.

25. *Seller's right to summary proceedings.* Seller may institute summary proceedings against any tenant based on the tenant's default or failure to perform before the title closing.

26. *Seller's right to proceedings for reduction of assessed values.* Purchaser recognizes that there are currently pending proceedings instituted by Seller in connection with applications for the reduction of assessed values of the premises. Seller expressly reserves the right to continue such proceedings, to prosecute them through judgment, or to settle on any terms that it deems advisable. All refunds or tax savings resulting from such proceedings shall be apportioned between the parties as of the date of adjustments. Purchaser shall assume the legal retainer agreement with respect to required fees for such proceedings and such fees shall be apportioned between the parties as of the date of adjustments. Purchaser consents to any action so determined to be taken by Seller with respect to such proceedings.

27. *Agreement indivisible.* This agreement for the sale of Seller's real and personal property is indivisible even though separate considerations have been stated for the property. An election by either party under any provision hereunder shall be an election as to all such property, subject to the rights of election as set forth herein.

28. *Entire agreement.* This instrument constitutes the entire agreement between the parties. Seller is not liable or bound in any manner, except as otherwise expressly set forth herein, by express or implied warranties, guaranties, promises, statements, or representations pertaining to the premises or personal property or their condition, the rentals, or any other matter made or furnished by any real estate broker, agent, employee, or other person representing or purporting to represent Seller.

29. *Survival of warranties.* All warranties, representations, promises, covenants, and agreements specifically set forth in this agreement shall survive the acceptance of the Deed by Purchaser and payment made at the closing.

30. *Notices.* All notices under this agreement shall be in writing and sent by registered or certified mail, return receipt requested, postage prepaid, addressed, if to Seller, to Carson Hotel, Inc., c/o Nathan & Adams, Esqs., 200 Fifth Avenue, New York, New York; and if to Purchaser, to Central Realty Corporation, c/o John Banner, Esq., 500 Fifth Avenue, New York, New York. Either party may, at any time and from time to time, in the manner set forth for the giving of notices, change the address designated in this paragraph.

31. *Closing.* The closing shall take place at the offices of Nathan & Adams, Esqs., Seller's attorney, at 10 a.m. on the fifth day after the New York State Liquor Authority takes final action on Purchaser's application or May 30, 2002, whichever date is later.

32. *Seller's documents at the closing.* At the closing, Seller shall deliver to Purchaser the following:

- (a) Deed to the real property;
- (b) Bill of Sale to the personal property;

2-Forms Federal Taxes Affecting Real Estate [B]

(c) Assignment of leases set forth in Schedule A, together with the leases referred to in such assignments and any security deposits provided for in such leases;

(d) Assignment of any licenses that may be lawfully assigned;

(e) Assignment of service contracts set forth in Schedule B;

(f) Assignment of insurance policies on which apportionments were made;

(g) Certified copy of minutes of Seller's directors and shareholders authorizing the sale; and

(h) Assignment of service and maintenance contracts.

33. *Purchaser obligations at the closing.* At the closing, Purchaser shall deliver the following:

(a) The consideration set forth in paragraph 3;

(b) An amount for New York City and state sales tax set forth in paragraph 15;

(c) An assumption agreement assuming all of the service contracts set forth in Schedule B;

(d) Certified copy of minutes of Purchaser's directors and shareholders authorizing the purchase; and

(e) Sales tax payment.

34. *Assignment by purchaser.* Purchaser may not assign this agreement without Seller's prior written consent.

35. *Headings.* Headings in this agreement are for convenience and reference only and shall not be used to interpret or construe its provisions.

36. *Liquor license.* (a) This sale is conditional upon the approval of the New York State Liquor Authority of Purchaser's application for a license to dispense alcoholic beverages for on-premises consumption for the premises and the issuance of an appropriate license.

(b) Purchaser represents and warrants as follows: that neither it nor any officers, directors, or shareholders owning 10 percent or more of it have ever been convicted of a crime; that the State Liquor Authority has never disapproved of an application of Purchaser or of its officers, directors, or shareholders; that neither Purchaser nor any of its officers, directors, or shareholders has ever had a license revoked, cancelled, or suspended; that Purchaser is not borrowing money from any brewery, wholesaler, or dispenser of wines and liquors for the purpose of investing it in the business being purchased; that the funds to be paid under this agreement are from sources acceptable to the State Liquor Authority; and that Purchaser knows of no reason why its application for a liquor license should be denied.

(c) Any refund that the State Liquor Authority or another governmental agency returns to Seller on its unexpired portion of a license shall fully belong to Seller.

(d) Purchaser shall make diligent effort to procure a license by, among other things, executing and filing an appropriate application within five days after this agreement is executed, and attending all hearings and interviews required by the Alcoholic Beverage Control Board and the State Liquor Authority. If the State Liquor Authority disapproves the application, and the disapproval is not due to Purchaser's omission or other fault under the representations made in subparagraph (b), this agreement shall terminate, the deposit shall be returned to Purchaser, and neither party shall have

2-Forms Federal Taxes Affecting Real Estate [B]

any claim against the other.

(e) Purchaser shall deliver to Seller a photocopy of each communication from the State Liquor Authority within 24 hours after receipt by Purchaser or its representative, and Purchaser authorizes Seller to make inquiries as to the status and progress of the application.

(f) Purchaser shall be deemed in default hereunder if (1) the State Liquor Authority disapproves of Purchaser's application for a liquor license because of any act, omission, or other fault of Purchaser under the representations made in subparagraph (b), or (2) Purchaser withdraws its application for the license. If Purchaser is in default for either reason, Seller shall retain, as liquidated damages, the monies paid by Purchaser on the signing of this agreement.

(g) If Purchaser is unable, not through its fault, to obtain the State Liquor Authority's approval of its application for an appropriate liquor license within 180 days from the date hereof, Seller may cancel this agreement by giving Purchaser written notice. If Seller elects to cancel, this agreement shall immediately terminate, the deposit made herein shall be returned to Purchaser, and neither party shall have any claim against the other.

37. *Seller's representations.* Seller has not made and does not make any representations as to the physical condition, income, expense, operation, or any other matter or thing affecting or related to the premises, except as herein specifically set forth, and Purchaser acknowledges that no such representations have been made. Seller is not liable or bound in any manner by any verbal or written statements, representations, real estate broker's "set ups," or information pertaining to the premises furnished by any real estate broker, agent, employee, servant, or other person, except as specifically set forth herein.

38. *Lease renewals and rentals.* (a) Seller makes no representations as to the continued occupancy by any tenant or tenants.

(b) Seller does not undertake, represent, or guarantee that any leases or tenancies currently in effect will be in effect at closing.

(c) Seller reserves the right to terminate any lease or tenancy by agreement or through summary proceedings.

(d) Seller may rent any space now vacant or which may become vacant and may extend or renew leases. However, all rentals, leases, extensions, or renewals shall be for a period of not more than two years from the date of making and at rentals consistent with those currently existing for comparable space in the premises.

(e) Seller represents that no concessions for free rent or otherwise have been given to any tenant or occupant of the premises.

39. *Purchaser's inspections.* From the date of this agreement Purchaser may have its representatives upon the premises, but they shall not in any manner interfere with the operation of the hotel.

40. *Purchaser's right to designate nominee.* At the closing, Purchaser may require Seller to convey the land to one of Purchaser's nominees and the building and personal property to Purchaser or another nominee.

41. *Binding effect.* This agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns.

42. *Nonwaiver.* No delay or failure by either party to exercise or enforce any right hereunder, and no partial or single exercise of such right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

2-Forms Federal Taxes Affecting Real Estate [B]

43. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of New York.

44. *Counterparts.* This agreement may be executed in one or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

45. *Time of essence.* Time is of the essence of this agreement.

In witness whereof the parties have caused this agreement to be signed the day and year first above written by their respective duly authorized officers.

B.10 Exchange agreement--three-party exchange, two-party agreement--third property and owner to be located--alternative exchange and sale timing and methods

COMMENT

In this agreement two parties agree to exchange property. One party owns land which the other party wishes to acquire. This is a three party transaction because other property or properties are to be located, and the owner or owners are to agree to sell or exchange it with one of the parties to the agreement. The completion of this agreement, therefore, depends upon locating and acquiring other satisfactory property. This agreement intends that one of the parties to the agreement will purchase the third party's property and then exchange it for the property owned by the other party to the agreement. If this cannot be arranged, the agreement provides for a direct exchange between the property owner in the agreement and the third party. The third party will then sell the property acquired in the exchange to the other party to the agreement. Under either transaction, the property owner who enters into this agreement should qualify for nonrecognition of gain as a result of the like kind exchange. Also under either transaction, the party wishing to acquire the owner's property completes the transaction with title to the other party's property. An owner who engages in a triangular exchange secures the benefit of a "like-kind" tax-free exchange, if, among other requirements, his intention was only to make an exchange and if he did not have a binding agreement to sell for cash.

Exchange preceded by third party sale:

There are two basic patterns for triangular exchange transactions. In the first, the owner causes a third party (who wants to sell his property rather than exchange it) to make a sale of his property to the purchaser. The owner then exchanges his property for the property acquired by the purchaser from the third party. A variation of this pattern occurs where the owner agrees to transfer his property to the purchaser if the purchaser will arrange to have the third party's property transferred to the owner. In this latter situation there is usually a sufficient "exchange" even though the purchaser causes a direct conveyance to the owner from the third party. While in these cases the owner does not make a direct exchange with the third party (because the owner conveys his property to the purchaser), the effect of the over-all arrangement is a like-kind exchange by the owner. This latter technique of exchange is provided in this form as an alternative method to be followed by the parties for making an exchange if the parties'

preferred exchange method cannot be completed.

Exchange followed by third party sale:

The second pattern for a triangular exchange transaction, and the one described as the basic or preferred method in this form, is one in which the owner exchanges his property with a third party, but arranges as part of the exchange to have the third party sell the owner's property to the purchaser. The net effect is the same as under the first pattern: the owner makes an exchange; the third party makes a sale; and the purchaser acquires the owner's property. Here the owner's intention to make an exchange is carried out directly, and he himself is never obligated to sell for cash. Such a transaction by the owner should, therefore, fall within the tax-free exchange provision.

Tax free exchange time limitations:

Any property received by the taxpayer more than 180 days after the date on which the taxpayer transfers property, or after the due date of the taxpayer's tax return for the taxable year in which the transfer occurs if earlier, is not to be treated as like-kind property. Thus, tax-free treatment will be unavailable for exchanges not completed within this time period. In addition, property which was not designated as the property to be received by the taxpayer on or before the day which is 45 days after the date the transferred property was relinquished will not qualify as like-kind property. In this agreement, the transfers and exchanges all occur well within these time limitations.

Form combines option with three party exchange:

In this form the owner grants an option to purchase to an optionee, i.e. the purchaser. If this option is exercised, the owner has the right to exchange his property with a third party, but is obligated to find and commit a third party to sell the owner's property to the optionee-purchaser. If the owner is unable to effect an exchange within a prescribed period, he is then obligated to sell his property directly to the optionee-purchaser. Thus, in this agreement an option and a third-party exchange are combined. Also in this agreement, the optionee-purchaser is given two successive options, one exercisable after the other, and a third-party exchange is to be used in each instance.

Recognized gain or loss for third party:

The position of the third party in these transactions is fairly clear. Under the first pattern (exchange preceded by third party sale), the third party has plainly been involved only in a sale of his property. Under the second pattern (exchange followed by third party sale), although the third party appears to engage in an exchange, it is not a tax-free exchange because the property received is not intended to be held either in business or for investment. In any event, the immediate sale by the third party of the property received by him will result, most likely, in tax gain or loss.

For further information, see Chapters 2 and 12.

FORM

AGREEMENT entered into October 15, 2001, by and between Mountain Bank and Trust Company, as Trustee under Trust 500 ("Owner"), and Smith Realty Company, a corporation ("Optionee").

Recitals

2-Forms Federal Taxes Affecting Real Estate [B]

Owner is the owner in fee of certain real property in Orange County, California, comprising approximately 400 acres, more or less (the "Subject Property"), which is bordered by a yellow line and shown on a map prepared by Kay Engineering, Map No. K425, dated March 15, 2001. A copy of this map is attached as Exhibit A and made a part hereof as fully as though set out at length herein. For purposes of this agreement, the Subject Property is divided into two parcels which shall be referred to as follows: Parcel A, comprising 160 acres, and Parcel B, comprising 240 acres.

Owner has made available to Optionee copies of the attached map, which Optionee has examined. Optionee acknowledges that the boundaries bordered by a yellow line on such map are acceptable to it.

Owner wishes to exchange Parcels A and B of the Subject Property for other property of like kind and having these transactions qualify as Exchanges under *Section 1031 of the Internal Revenue Code*.

The Subject Property is the only land to which Optionee acquires any rights hereunder. All other property shown on the map is excluded.

Now, therefore, it is mutually agreed as follows:

1. *Grant of first option.* In consideration of \$50,000 paid by Optionee to Owner, the receipt of which is acknowledged, Owner grants to Optionee the sole and exclusive option to acquire Parcel A of the Subject Property. This option shall automatically terminate at 5 p.m. on June 15, 2002. If Optionee does not duly exercise this option to acquire Parcel A, Owner may retain the \$50,000 paid to it by Optionee as consideration for the option, without any obligation or liability to Optionee, and this agreement shall automatically terminate.

2. *Exercise of first option.* Optionee shall exercise the option for Parcel A of the Subject Property by delivering written notice thereof to Owner, no earlier than June 15, 2002, but no later than 5 p.m. on June 15, 2002, at the place set forth in paragraph 12 for sending notices. Such notice shall be deemed to have been delivered after personal delivery to Owner at the address to which notices are to be sent or within 24 hours after deposit in any branch of the United States Post Office in California, addressed as herein provided, registered or certified mail, return receipt requested and postage fully prepaid.

3. *Owner's right to effect an exchange.* Upon timely exercise of the option, Owner shall thereafter have until July 15, 2002, to exchange Parcel A of the Subject Property for other property of like kind, and to close the exchange. As soon as Owner exchanges Parcel A for other property, it will cause the new owner or owners to agree in writing to sell Parcel A to Optionee according to the following terms and provisions:

(a) If Parcel A is not exchanged by Owner in a consummated transaction within the time provided above, it shall be sold by Owner to Optionee as provided below.

(b) Optionee shall acquire Parcel A from Owner or from the person or persons then owning Parcel A, for the price and upon the terms set forth herein. Within five business days after Optionee has duly exercised the option, Owner shall enter into an escrow at the Western Title Company, Santa Ana, California, or cause the person or persons with whom Owner has entered into an exchange for Parcel A to enter therein, with Optionee, for the sale of Parcel A. Such escrow shall provide for the closing not later than on July 15, 2002. The value and purchase price of Parcel A shall be \$600,000. The purchase price of Parcel A shall be paid in cash at the close of escrow, and Optionee shall not be entitled to any credit for the \$50,000 already paid under the terms of paragraph 1.

(c) The parties agree to execute the escrow instructions as an accommodation for assisting the escrow holder in settling the escrow transaction. If no escrow instructions are executed, the terms of this agreement shall be deemed to be

instructions to such escrow holder.

(d) The following provisions shall govern the escrow:

(1) Parcel A shall be conveyed to Optionee free and clear of encumbrances, except any lien or liens for real property taxes and assessments not then delinquent, and any lien or charge suffered or created by the Optionee on Parcel A. The condition of title shall be subject to reservations, restrictions, easements, and rights-of-way of record at the date of execution of this agreement, but no others. Title shall also be subject to any future bonds and assessments placed of record after the date hereof.

(2) All real property taxes and assessments for the then current fiscal year shall be prorated to the close of the escrow.

(3) The seller and purchaser under such escrow shall pay the customary charges of the Western Title Company for its services and delivery of a standard coverage policy of title insurance. In particular, the seller shall pay for the standard policy of title insurance, the seller and purchaser shall each pay one-half of the escrow fee, the purchaser shall pay for the recordation of documents, and any unusual charges shall be paid by the party causing such expense to occur.

4. *Grant of second option.* If Optionee exercises the option set forth in paragraph 1, and acquires Parcel A of the Subject Property according to all of the applicable conditions, Optionee shall have the exclusive right and option to acquire Parcel B of the Subject Property upon the terms and conditions hereinafter set forth. The option to acquire Parcel B shall automatically terminate if Optionee fails either to perform any condition specified above within the time limitation provided or to exercise the option as provided below. In either event, Owner may retain the \$50,000 paid to it by Optionee under paragraph 1 as consideration for this option.

5. *Exercise of second option.* Optionee shall exercise the option as to Parcel B of the Subject Property by delivering to Owner, at the address provided in paragraph 12, a written notice that it intends to exercise the option as provided in paragraph 6. Such notice shall be deemed to have been delivered after personal delivery to Owner at the address to which notices are provided to be sent, or within 24 hours after deposit in any branch of the United States Post Office in California, properly addressed, registered or certified mail, return receipt requested, and postage fully prepaid.

6. *Time for exercise and price.* The written notice of exercise of the option to acquire Parcel B of the Subject Property shall be made in the manner described in the next preceding paragraph but shall only be effective if given during one of the periods of time set forth below. The value and purchase price of Parcel B shall be adjusted upward depending upon the date of exercise of the option. The applicable value and purchase price of Parcel B per gross acre is set forth opposite the respective periods of time for exercise of such option, as follows:

Period of Time	Value per Gross Acre
(a) July 16-31, 2002	\$20,600
(b) October 16-31, 2002	\$20,800
(c) January 16-31, 2003	\$21,000
(d) April 16-30, 2003	\$21,200
(e) July 16-31, 2003	\$21,400
(f) October 16-31, 2003	\$21,600

7. *Owner's right to effect exchange.* Upon timely exercise of the option, Owner shall have 90 days within which to exchange Parcel B of the Subject Property for other property of like kind, if such exchange is completed within 90 days after exercise of the option. As soon as Owner exchanges Parcel B for other property, it will cause the owner or owners to agree in writing to sell Parcel B to Optionee according to the following terms and provisions:

(a) If Parcel B is not exchanged by Owner in a consummated transaction within the time provided, it shall be sold by Owner to Optionee as provided below.

(b) Optionee shall acquire Parcel B from Owner or from the person or persons then owning Parcel B for the price and upon the terms set forth herein. Within 150 days after exercise of the option, Owner shall enter into an escrow at the Western Title Company at its then existing office in Orange County, or cause the person or persons with whom Owner has entered into an exchange for Parcel B to enter therein, with Optionee for the sale of all of Parcel B. Such escrow shall provide for the closing within 180 days after exercise of the option to acquire Parcel B. The purchase price shall be paid in cash at the close of escrow, except that Optionee shall be entitled to credit for the \$50,000 already paid as option money under paragraph 1.

(c) The following provisions shall govern the escrow:

(1) Parcel B shall be conveyed to Optionee free and clear of encumbrances, except any lien or liens for real property taxes and assessments not then delinquent, and any lien or charge suffered or created by Optionee on Parcel B. The condition of title shall be subject to reservations, restrictions, easements, and rights-of-way of record at the date of execution of this agreement, but no others. Title shall also be subject to any future bonds and assessments placed of record after the date hereof.

(2) All real property taxes and assessments for the then current fiscal year shall be prorated to the close of escrow.

(3) The seller and purchaser under such escrow shall pay the customary charges of the Western Title Company for its services and delivery of a standard coverage policy of title insurance. In particular, the seller shall pay for the standard policy of title insurance, the seller and purchaser shall each pay one-half of the escrow fee, the purchaser shall pay for the recordation of documents, and any unusual charges shall be paid by the party causing such expense to occur.

8. *Alternative method of exchange.* As an alternative to the manner of exchanging Parcels A and B of the Subject Property as set forth in paragraphs 3 and 7 above, Optionee shall cooperate fully with Owner and purchase any other land that Owner wishes to receive in exchange for Parcel A or B, or both. Optionee shall not be charged with any additional expense on account of the exchange transactions. The closing dates and other provisions of this agreement shall remain unchanged.

9. *License to optionee to enter property.* Owner hereby grants to Optionee a nonexclusive license to enter the Subject Property from time to time during the option period referred to in paragraph 1, for the sole and exclusive purpose of allowing Optionee to conduct soil, engineering, and other tests on such land. Optionee shall indemnify and hold Owner harmless from all damage caused by Optionee or its agents to the land, crops, and cattle grazing thereon. Optionee shall be responsible for any hazards created through its conduct on the Subject Property. After performing its tests and engineering work, Optionee shall restore the land to substantially the same condition that existed before its activities thereon. Optionee shall warn Owner before it goes onto the land so that Owner may post notices of nonresponsibility. Owner's failure to post such notices shall not be deemed a failure to mitigate any damages caused by Optionee's conduct on the land. Optionee shall indemnify and hold Owner harmless from all mechanics', laborers', and other liens arising out of its activity on the Subject Property. The license to go onto the Subject Property shall be only for the limited

purpose of allowing Optionee to perform soil, engineering, and other tests. The license shall automatically terminate after the option period referred to in paragraph 1 expires or the tests are completed, whichever occurs first. Thereafter, Optionee shall not have the right to possession of any portion of the Subject Property until it acquires fee title.

10. *Limitation on right of assignment.* Optionee shall not assign this agreement or any right or interest hereunder without Owner's prior written consent. No such prior approval shall be necessary, however, if Optionee assigns its entire rights hereunder to a corporation in which it owns at least 50 percent of the voting stock, or to a joint venture in which it owns at least a 50-percent interest in the profits. Optionee shall remain liable hereunder even if it makes a valid assignment.

11. *Remedies.* If either party brings an action against the other to enforce any term or provision of this agreement or in connection with the Subject Property, the prevailing party shall be awarded its reasonable costs and expenses, not limited to taxable costs, and reasonable attorneys' fees. Such award shall be in addition to any other available relief, including damages or injunction.

12. *Notices.* All notices under this agreement, whether to a party or the escrow holder, shall be in writing and delivered personally or mailed by certified or registered mail, postage prepaid, return receipt requested, addressed to the parties or the escrow holder at the respective addresses set forth below, or to any other address later designated by them:

Owner:

Mountain Bank & Trust Company, Trustee
under Trust 500
100 West First Street
Santa Ana, California

Optionee:

Smith Realty Company
100 Coast Highway
Santa Barbara, California

Escrow Holder:

Western Title Company
Santa Ana, California

Any notice sent by mail shall be deemed given on the day after it is deposited in the United States mail, properly addressed with postage fully prepaid, if mailed in the County of Orange, or on the second day after mailing if mailed elsewhere.

13. *Binding effect.* This agreement shall be binding upon and inure to the benefit of the parties hereto and their respective legal representatives, successors, and assigns.

14. *Entire agreement; modification.* This agreement constitutes the entire agreement between the parties. It is entered into after full investigation, neither party relying upon any statement or representation made by the other not embodied herein. This instrument may not be changed or terminated except by an agreement duly executed and signed by both parties.

2-Forms Federal Taxes Affecting Real Estate [B]

15. *Non-waiver.* No delay or failure by either party to exercise any right hereunder, and no partial or single exercise of such right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

16. *Headings.* Headings in this agreement are for convenience and reference only and shall not be used to interpret or construe its provisions.

17. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of California.

In witness whereof this agreement has been executed at Santa Ana, California, by the parties as of the day and year first above written.

B.11 Broker's agreement granting exclusive agency to sell real property for fixed time period--terms of sale include existing and purchase money mortgages

COMMENT

In the following form, an owner of real property grants a broker an exclusive agency to negotiate a sale of the property. This agreement does not preclude the owner from selling the property without the broker. Unless the owner is a dealer in real estate, selling commissions are an offset against selling price and are not separately deductible.

For further information, see Chapters 6, 8, and 13.

FORM

AGREEMENT made September 21, 2002, between Max Ross, 4 Larch Avenue, Scarsdale, New York, the Owner, and Michael Blum, 912 Third Avenue, New York, New York, the Broker.

2-Forms Federal Taxes Affecting Real Estate [B]

1. *Exclusive agency.* The Owner grants to the Broker the exclusive agency to sell the real property hereinafter described for a period of six months from the above date.

2. *Description of property.* The property covered by this agency is the parcel of land, with the buildings and improvements thereon in the County of Westchester, State of New York, generally known as 4 Larch Avenue, Scarsdale, New York, and more particularly described in the annexed Exhibit A subject to the encumbrances listed in Exhibit A and to any other encumbrances and to any zoning regulations, ordinances, encroachments, covenants, restrictions of record, and any other defects which a title search may reveal and to any state of facts an accurate survey may show.

3. *Terms of sale.* The purchase price for the property shall be not less than \$200,000, to be paid by the purchaser as follows: \$10,000 in cash on the signing of the contract; \$50,000 in cash or certified check upon the closing of title; \$60,000 by the purchaser taking the premises subject to a mortgage for that amount now a lien on the premises; and \$80,000 by the purchaser executing and delivering to the Owner a purchase-money mortgage for \$80,000 payable in 15 years with interest of 12 percent per annum payable semiannually.

4. *Commission.* The Broker shall be entitled to a commission of 7 percent, payable out of such purchase price when, as, and if title actually closes.

5. *Commission at higher sales price.* If the Broker sells the real property for more than the amount set forth in paragraph 3, and on the same terms and conditions, except that the balance of such purchase price over the mortgages referred to in paragraph 3 is payable in cash, the excess amount over \$200,000 shall be divided as follows: 75 percent to the Owner and 25 percent to the Broker.

6. *Authority of broker.* The Broker is authorized to place a "For Sale" sign on the premises and to take all necessary steps to bring about a sale.

7. *Duties of broker.* The Broker shall make diligent efforts to effect a sale of the property, and shall list and advertise it in such manner as he deems most likely to bring about a sale.

8. *Representations.* The Owner represents that he is now the owner in fee simple of the property, and shall convey it by a bargain and sale deed with full covenants if it is sold by the Broker for the price and on the terms and conditions above set forth.

In witness whereof the parties have executed this agreement the date above written.

B.12 Sale and leaseback of commercial property

COMMENT

The nature of a "sale and leaseback" transaction is apparent from its title. Generally, a sale of property is made on condition that the purchaser lease it back to the former owner. The seller becomes the lessee of the property he has just sold. The new owner does not get physical possession of his property; his right is to receive rent under the lease to the former owner. Usually, the lease is made for a long term, and often with renewal options.

Tax advantages to seller-lessee:

The sale and leaseback arrangement may frequently offer tax and nontax advantages to both parties. The seller converts his equity in the property into the cash and other proceeds of the sale, while retaining physical use of the property. As tenant, he may deduct his rental payments, which are often greater than the deductions for cost recovery or depreciation and mortgage interest available to an owner. When a substantial portion of the value of property is allocable to the land, which is not depreciable, or is allocable to substantially depreciated assets, the deductions as a lessee are especially likely to be greater than those as an owner. The loss of the cost recovery or depreciation deduction may, in some circumstances, outweigh any advantage from the deductible leaseback rent payments. In that case, the sale and leaseback may not be appropriate.

Options to renew or purchase:

Because the seller-lessee wants to retain use and occupancy of the property, there may be an option to renew the lease in the leaseback, or even an option to buy back the property. The options to renew or purchase may subject the transaction to attack by the Service, on the basis that the parties are actually financing by mortgage loan, rather than completing a bona fide sale. Here, a careful examination of the case law, the Code, and regulations is required.

The renewal option in the leaseback assures the seller continued use of the property, even though title has been relinquished. The purchase option provisions in the leaseback agreement often establishes the option price. The price can be stated, or can be determined in the future by appraisal, or related to the remaining lease payments. The purchase option can be limited in time by permitting exercise only during the term of the lease, only during certain periods, or only upon expiration of the lease. These terms are usually negotiated between the parties based on business concerns, but with an eye toward the possible tax consequences of these factors.

Advantages to purchaser:

A major attraction to the buyer is that he often obtains a long-term tenant who has a special interest in remaining on the property. In many transactions the lease calls for a net rental, under which the tenant is obligated to pay all carrying charges, such as taxes, insurance, etc. This rental usually is designed to give the new owner sufficient money to pay the mortgage servicing charges (interest plus amortization) and a fair return on his investment. The entire rental, of course, is deductible by the tenant. The owner, on the other hand, has interest and cost recovery or depreciation deductions to set off against his rental income.

Taxation of the seller-lessee:

The seller-lessee exchanges deductions of mortgage interest and cost recovery or depreciation for the deduction of rent, and additional rent in the net leaseback. The seller-lessee can determine the time of sale, thus timing the realization of gain or loss. Gain may be timed to be realized on an appreciated asset in a year when net operating loss carryover or investment credits would expire otherwise unused. The gain would thus be sheltered by the net operating loss carryovers or investment credit carryover which would otherwise be lost.

Although normally gain realized would be capital gain, the property sold may be subject to investment credit or depreciation recapture. The recaptured amount would be taxed at ordinary income rates, and may offset any advantages from the sale and leaseback set up.

Taxation of purchaser-lessor:

Rent received by the purchaser-lessor is ordinary income. This is offset, to a certain extent, by the cost recovery or depreciation deduction. If accelerated cost recovery or depreciation is available, in the early years, the purchaser-lessor cannot only receive the rent tax-free, but shelter some other income as well. Interest on the purchaser's purchase money mortgage is also a deductible offset against rental income.

Tax recharacterization risks:

The tax and financial advantages of the sale and leaseback may be destroyed in the event of a successful Service attack on the substance of the transaction. This risk is increased when there is an obvious tax avoidance arrangement without a legitimate business purpose. The Service, however, has specific lines of attack on sales and leasebacks.

Recharacterization as mortgage loan:

A second line of attack by the Service on the sale and leaseback transaction is the recharacterization of the transaction as a mortgage loan. This approach is most likely to occur when the transaction looks like an alternative to conventional mortgage financing while the seller retains substantial control over the property. A purchase option in the leaseback for nominal consideration or for a price against which the rent is credited could cause the transaction to fail. If the Service prevails, the seller-lessor would not be entitled to deduct the entire rental payments, but only that portion which would have been interest on the intended mortgage. The seller, not the buyer-lessor, would be entitled to the cost recovery or depreciation deduction. The income to the lessor would not include all the rent payments, but only that portion credited to be interest on the hypothetical mortgage.

Economic substance test for tax classification:

The Supreme Court has held that where there is a genuine multiple-party transaction with economic substance which is compelled or encouraged by business or regulatory realities, is imbued with tax-independent considerations, and is not shaped solely by tax-avoidance features that have meaningless labels attached, the Government should honor the allocation of rights and duties put into effect by the parties. Looking to the economic substance of the transactions, the court also found that the lessee's option to purchase, though fixed, was for a reasonable amount, and that the lessor bore the risk that the lessee would not exercise that option if the price was more than the fair market value of the property.

Sale and leaseback agreement:

This form illustrates an agreement for the sale and leaseback of property which the seller is under contract to purchase. In effect, the seller is arranging to finance his acquisition of a leasehold by the sale-leaseback technique. The seller is primarily interested in this commercial property for the various subleases. The rent is a fixed annual amount, plus an amount equal to the buyer-lessor's annual payments on the mortgage, plus a percentage of gross rentals from subtenants in excess of a fixed amount. If the rentals received from the subtenants exceed the fixed amount, the owner and the lessee will share the excess.

Information reporting of real estate transactions:

The attorney or title company responsible for closing title is required to report the real estate transaction

to the IRS. In addition, a statement must be provided to the customer before January 31 of the year following the closing. If an attorney or title company is not involved in the closing, the information reporting is the responsibility of the mortgage lender.

For further information, see Chapters 4, 18, and 19.

FORM

AGREEMENT made September 12, 2002, by and between Major Realty Corp., a New York corporation having an office at 100 East 42d Street, New York, New York ("Seller"), and Midwest Realty Investments Company, a partnership having its principal place of business at 1100 Main Street, Cleveland, Ohio ("Purchaser").

Recitals

Seller has entered into a contract to purchase a shopping center located in Broward County, Florida.

The parties desire that Seller, upon acquiring title to the shopping center, shall convey title to Purchaser and, that thereupon, Purchaser shall lease the premises back to Seller, all in accordance with the terms and conditions of this agreement.

Now, therefore, the parties agree as follows:

1. *Sale of premises.* Seller shall sell and convey, and Purchaser shall purchase, all that certain tract of land, together with the buildings and improvements erected thereon, lying and being in the County of Broward, State of Florida, commonly known as the Southern Shopping Plaza, and more particularly described in the annexed Exhibit A (the "Premises"). This sale shall include all of Seller's right, title, and interest in, to, and under all fixtures and articles of personal property attached or appurtenant to or used in connection with the Premises, excluding, however, any such fixtures or personal property belonging to tenants or subtenants.

2. *Purchase price.* The purchase price shall be \$1.45 million over and above an existing first mortgage covering the Premises held by the Central Life Insurance Company in the original principal amount of \$4.2 million and having an unpaid principal balance in the approximate amount of \$4.16 million, payable as follows:

(a) \$150,000 on the execution of this contract, by check subject to collection, payable to Wilson & Meredith, Esqs., as attorneys for Seller, to be held in escrow; and

(b) \$1.3 million in cash or certified check or checks on delivery of the deed.

3. *Liens and encumbrances and title policy.* The Premises are to be sold and conveyed subject to the following:

(a) The first mortgage held by the Central Life Insurance Company.

(b) All current zoning and building laws, regulations, and requirements relating to the Premises;

(c) Any state of facts as shown on an accurate survey of the Premises, if the same does not render title unmarketable.

(d) Rights of tenants under and subject to existing leases, and vacancies, rentals, and leases in existence at the time of closing of title.

2-Forms Federal Taxes Affecting Real Estate [B]

(e) Such state of facts as a personal inspection may disclose.

(f) Conditions, restrictions, and limitations of record none of which prohibit the use of the Premises for the operation of a shopping center or contain any reverter or forfeiture provisions.

Seller shall deliver to Purchaser at the closing, at Seller's expense, a title policy for \$5.61 million insuring Purchaser's interest as fee owner of the Premises, subject, however, to the matters herein set forth and the usual standard exceptions of the title company issuing such policy. Seller shall use its best efforts to have such policy provide that there are no restrictions of record which contain reversions or forfeitures.

4. *Representation by seller.* The Seller warrants and represents as follows:

(a) The first mortgage held by the Central Life Insurance Company is repayable in constant monthly payments of \$50,228 which include interest of 12 percent per annum, and is self-liquidating over a period of approximately 20 years.

(b) The attached Exhibit B is a true and correct list of tenants who have leased space in the Premises and the rentals provided for in their respective leases, all such leases having been exhibited to Purchaser and initialled by the parties. The tenants listed on Exhibit B are in possession and such leases are in full force and effect, except as otherwise noted thereon. Seller does not make any representations or covenants herein with respect to any vacancies which may occur between the date hereof and the closing date.

5. *Additional documents at closing.* At the closing Seller shall deliver to Purchaser:

(a) A certificate of occupancy issued by the applicable governmental authority (if any is issued under local regulations).

(b) A letter or receipt issued by the Central Life Insurance Company or its servicing agent certifying as to the amount of the unpaid principal and interest on the first mortgage, the date to which interest has been paid, and further certifying that the mortgage is in good standing and that the mortgagor is not in default. Such letter or receipt shall be deemed sufficient evidence of the reduction of the first mortgage.

(c) A letter from the present owner of the Premises stating that the first mortgage is in good standing and not in default and that all of the owner's obligations under the first mortgage have been performed.

6. *Outstanding assessments, taxes, etc.* In view of the leaseback provided in this agreement:

(a) If the Premises are affected by assessments at the time of Seller's delivery of the deed to Purchaser, Purchaser shall accept title subject to such assessments, and Purchaser shall not be entitled to any reduction of the cash to be paid at closing on account thereof. However, to the extent that Seller has received sufficient payment (or credit at closing) from the present owner of the Premises to discharge an assessment, Seller shall apply the amount in payment of such assessment.

(b) The existence of any violations or unpaid real estate taxes, utility charges, or like charges on the date of title closing shall not be deemed an objection to title.

(c) No closing adjustments shall be made between the parties at the closing.

7. *Seller's contract to obtain title.* It is understood that Seller is not the owner of the Premises, but Seller represents that it is the owner of a contract for the purchase of the Premises. It is further understood that all of the statements, conditions, representations, and agreements herein contained, in reference to the title to the Premises, the income, the

rents, leases, other agreements, rent rolls, and other matters and things are made by Seller based not upon its own knowledge but upon information received from others and as contained in the contract of sale executed by the present owner. Seller shall use its best efforts to obtain title to the Premises from the present owner and convey the same to the Purchaser at the closing so as to vest title to the Premises in Purchaser. However, if for any reason (other than Purchaser's default) title is not conveyed in accordance with the terms hereof, or if any matter represented herein appears to be inaccurate, Purchaser shall be entitled to the return of the monies deposited on the execution hereof. Upon such payment, this contract shall terminate, and there shall be no further obligation or liability between the parties. If the present owner of the Premises defaults under its contract with Seller, Seller shall pay Purchaser one half of all amounts received by Seller as liquidated damages by reason of the owner's default. Seller shall not be required to incur any expense or commence any litigation in order to clear title or compel performance of the sales contract with the present owner.

8. *Destruction of premises.* Seller represents that the following provision is set forth in its contract with the present owner of the Premises: "Between the date hereof and the date of closing hereunder, Seller assumes the full risk for any damage or destruction by fire or the elements to the premises, including the buildings, structures, and other improvements comprising the shopping center, and Seller shall bear the full cost of the work of restoration, rebuilding, repairing, and replacement before the closing date. Such risk of loss or damage assumed by Seller shall continue until the actual delivery of the deed in accordance with the terms of this agreement."

9. *Deed.* The deed shall be the usual bargain and sale deed with covenant against grantor's acts in proper statutory form for recording, and shall be duly executed and acknowledged so as to convey to Purchaser the fee simple of the Premises free of all encumbrances except as herein provided.

10. *Closing.* The closing shall be held at the office of Burger & Kahn, Esqs., Plaza Office Building, Palm Beach, Florida, at 10 a.m. on October 3, 2002, or at any other place in Florida or New York City that Seller designates by notice to Purchaser. However, Seller reserves the right to cause title to be closed earlier than October 3, 2002 by giving Purchaser at least 48 hours prior written notice, in which event Purchaser shall close title on the earlier date designated by Seller. Purchaser shall not adjourn closing of title without Seller's prior written consent. Seller reserves the right to grant an adjournment of closing of title in connection with its contract for the purchase of the Premises, and Purchaser agrees to a similar adjournment of closing of title hereunder in order to provide for simultaneous closings.

11. *Leaseback.* At the closing, and immediately after Purchaser receives a deed to the Premises from Seller, Purchaser, as landlord, shall enter into a net lease of the Premises with Seller, as tenant. The lease shall be in the form of that annexed as Exhibit C, and shall provide, inter alia, as follows:

(a) The initial term shall be for 21 years, and there shall be three 21-year renewal options.

(b) The fixed rent shall be \$159,500 plus the annual interest and amortization charges required to be paid in reduction of the first mortgage now held by the Central Life Insurance Company.

(c) The tenant shall pay the landlord 50 percent of gross rentals received by the tenant from sublessees in excess of \$620,000, as reduced by 50 percent of any increase in real and personal property taxes and assessments against the Premises after the first lease year.

The form of lease attached hereto shall be completed at the closing as follows: the date of the lease shall be the date of the closing of title; the commencement date of the initial term of the lease shall be the date of title closing; and the dates of the renewal terms shall be set forth to comply with the foregoing.

12. *Assignment and reassignment of leases.* At the closing, Seller shall assign to Purchaser all of its right, title, and interest in and to all of the existing leases (or subleases) affecting the Premises; and, in turn, Purchaser shall reassign

2-Forms Federal Taxes Affecting Real Estate [B]

such leases (or subleases) to Seller as lessee under the foregoing leaseback. All securities and deposits paid over by the present owner of the Premises to Seller at the closing of title shall be retained by Seller as lessee under the foregoing leaseback.

13. *Rental of space.* Purchaser consents to the renting of any space in the Premises which is now vacant, or which may become vacant between the date hereof and the date of title closing, and agrees to take title subject to such leases.

14. *Corporation as purchaser.* If Purchaser takes title in the name of a corporation, such corporation shall be qualified to do business in the State of Florida before the closing date.

15. *Escrow of deposit money.* The down payment check of \$150,000 delivered by Purchaser to Seller's attorneys on the execution hereof shall be deposited by the attorneys, and the proceeds therefrom shall be held in escrow upon the following conditions:

(a) If Purchaser fails or refuses to consummate this agreement in accordance with its terms, through no fault of Seller, Seller's attorneys shall deliver such proceeds to Seller, whereupon Seller's attorneys shall have performed their duties hereunder and will be relieved and discharged of any further obligations in connection therewith.

(b) If Seller defaults under this agreement, or is unable to convey title to Purchaser, Seller's attorneys shall return such proceeds to Purchaser, whereupon Seller's attorneys shall be relieved and discharged of any further obligations in connection therewith.

(c) If there is any dispute in respect of the above, Seller's attorneys may deposit the proceeds with any court of competent jurisdiction in New York City. In such event, they shall be relieved and discharged of any further obligations in connection therewith.

16. *Broker.* The parties agree that Parsons & Company of New York City brought about this sale and leaseback, and Seller agrees to pay a commission to Parsons & Company pursuant to separate agreement. Purchaser shall indemnify and hold Seller harmless from any claim made by any other broker in connection with this transaction. This agreement by Purchaser shall survive the closing of title.

17. *Notices.* All notices hereunder shall be in writing and delivered personally or mailed by certified or registered mail, postage prepaid, return receipt requested, addressed to the other party at its address set forth at the beginning of this agreement, or at any other address the party designates in writing.

18. *Entire agreement; modification.* This instrument constitutes the entire agreement between the parties with respect to the subject matter hereof. It may not be modified or terminated except by an agreement duly executed by both parties.

19. *Nonwaiver.* No delay or failure by either party to exercise any right hereunder, and no partial or single exercise of such right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

20. *Headings.* Headings in this contract are for convenience and reference only and shall not be used to interpret or construe its provisions.

21. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Florida.

22. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

2-Forms Federal Taxes Affecting Real Estate [B]

23. *Time of essence.* Time is of the essence of this agreement.

In witness whereof the parties have caused these presents to be executed on the day and year first above written.

B.13 Sale of land for shopping center--construction by developer--leaseback of store to seller

COMMENT

The seller in this form is a retailer who owns land suitable for a shopping center and is interested in operating a retail store in the center. He sells the land to a developer for cash and a purchase money mortgage. The developer is to construct a building to be occupied by the seller, in accordance with the seller's plans and specifications, and the building is to be leased back to the seller at the closing. The remainder of the shopping center is to be constructed by the developer, subject to the approval of the seller, and is to be leased to others. The developer agrees to obtain commitments from lessees of specified types of establishments.

For further information, see Chapters 4 and 18.

FORM

AGREEMENT made May 10, 2002, between Metropolitan Realty Co., Inc., a New York corporation of 100 East 42d Street, New York, New York ("Seller"), and Fillmore Shopping Centers, Inc., a New York corporation of 525 Fifth Avenue, New York, New York ("Developer").

Recitals

Seller acquired real estate for development and use as a one-stop regional shopping center; and

Developer, having been fully informed of Seller's intent and desires with respect to the development and use of such real estate, on its own initiative proposed that if Seller would sell such real estate to Developer, Developer would cause the same to be developed and used in the manner below and in the accompanying documents and would give Seller the assurances to do so.

2-Forms Federal Taxes Affecting Real Estate [B]

The parties, therefore, agree as follows:

Article I Sale of Center

Section 1.1. *Sale.* Seller shall sell and convey, and Developer shall purchase, that certain parcel of land situate, lying, and being in Rockland County, State of New York, described as follows:

(Insert description)

Section 1.2. *Purchase price.* The purchase price for the Center is \$800,000, payable as follows:

(a) Upon the execution and delivery of this agreement, a down payment of \$100,000 by check subject to collection (the "down payment"); and

(b) Upon the closing date, as defined below:

(1) by delivery to Seller of a check of Developer drawn to Seller's order upon a bank which is a member of the New York Clearing House and duly certified by such bank or official, or cashier's check of a New York City bank to Seller's order, for \$200,000; and

(2) by Developer duly executing, acknowledging, and delivering to Seller a purchase money note and mortgage for \$500,000 covering the Center in the form and substance annexed, completed as therein indicated.

Section 1.3. *Deed.* The deed conveying the Center to Developer shall be the usual bargain and sale deed with covenant against grantor's acts in proper short statutory form for recording; shall be duly executed and acknowledged so as to convey to Developer the fee simple to the Center, free of all encumbrances, except as herein stated; and shall also contain the covenant required by subdivision 5 of Section 13 of the Lien Law. All expenses in connection with the recording of the deed, including the recording charges, shall be paid on the closing date by Developer.

Section 1.4. *Purchase money mortgage.* The purchase money note and mortgage shall be drawn by Seller's attorneys at Seller's expense. Developer shall, on the closing date, pay the mortgage recording tax and recording fees.

Section 1.5. *Prorations.* All taxes, including town, village, and school taxes, and water charges for the Center, shall be apportioned as of the closing date. If the closing date occurs before the tax rate is fixed, the apportionment of taxes shall be based upon the tax rate for the next preceding year applied to the latest assessed valuation. If there is any water meter or meters on the Center, Seller shall furnish a reading to a date not more than 30 days before the closing date and the unfixed meter charge for the intervening time shall be apportioned on the basis of the last reading.

Section 1.6. *Condition of property.* Seller has not made and does not make any warranty or representations as to the quality or nature of the Center's ground or subsurface.

Section 1.7. *Right of entry.* From and after the date hereof and so long as Developer is not in default under any provision of this agreement, Developer may, from time to time, at its sole cost, expense and risk, enter upon all or any part of the Center for the purpose of performing Developer's obligations hereunder.

Section 1.8. *Title examination.* (a) Developer shall order an examination of title to, and survey of, the Center, and shall deliver a copy of the report and survey to Seller's attorneys, Sterne and Leeds, Esqs., 666 Fifth Avenue, New York, New York, no later than 20 days after the date hereof. If any defects, encumbrances, or encroachments appear upon such

2-Forms Federal Taxes Affecting Real Estate [B]

report or survey, other than those to which Developer has agreed to take subject to by the terms of this agreement, which render the title unmarketable, Developer shall send notice to Seller's attorneys within five days after the above-specified date. Developer shall take title subject to any defects, encumbrances, and encroachments set forth in such report or survey and not included in such notice. Within 20 days after receipt of such notice, Seller shall notify Developer either that it will cure the defects, encumbrances, and encroachments of which Developer notified Seller (other than those to which Developer has agreed to take subject), or that it elects to cancel this agreement. If Seller fails to notify Developer that it will cure such defects, encumbrances, and encroachments, this agreement shall be cancelled. In such event, neither party shall have any liability to the other hereunder; but Seller shall promptly thereafter refund to Developer the down payment and pay to Developer the cost of title examination, Developer's reasonable attorneys' fees, and the reasonable value of all work performed by architects and engineers, which Developer has paid or is obligated to pay, as provided in Article II of this agreement. The term "cost of title examination" is defined, for the purposes of this agreement, as the expense actually incurred by Developer for title examination, but in no event to exceed the charges fixed by the New York Board of Title Underwriters for title examination of the Center, without the issuance of a policy, plus the cost to Developer of any survey actually obtained.

(b) Developer shall also order a continuation of the examination of title and a survey of the Center, and deliver a copy of the report and survey to Seller's attorneys not less than ten or more than 20 days before the closing date.

(c) Seller shall be entitled to a 20-day adjournment of the closing date in order to eliminate the defects, encumbrances, and encroachments contained in the continuation report and survey.

Section 1.9. *Failure of title.* If Seller is unable to convey title to the Center to Developer in accordance with the terms of this agreement, Developer shall have only the following rights:

(a) to accept any title Seller is able to convey without any abatement of the purchase price or any other liability by Seller. However, if the title is encumbered by any lien dischargeable by the payment of money (except liens that Developer has agreed hereunder to take subject to), Seller shall either present a proper discharge to Developer at the closing and pay the cost of filing and recording such instruments, or deduct the amount thereof with costs of discharge from the purchase price; or

(b) to reject title.

Developer shall not have any other right or remedy. If Developer rejects title, neither party shall have any liability to the other hereunder, but Seller shall promptly refund the down payment to Developer and pay Developer for the cost of title examination and its reasonable attorneys' fees. If Developer rejects title because of any defect, encumbrance, or encroachment appearing on the report, continuation report, or surveys, which render title unmarketable, or if title is rejected under Section 1.14, Seller shall pay Developer, in addition to and at the time of the payments specified above, all related architects' and engineers' fees and other expenses which Developer has paid or is obligated to pay under Article II. If, however, the defects, encumbrances, or encroachments that render title unmarketable appear in the continuation report or survey but not in the original title report or survey, and such defects, encumbrances, or encroachments were in existence when the original title report was issued or the original survey was made and should have been disclosed therein, Seller shall not be required to pay Developer the architectural and engineering fees and expenses specified in this section.

Section 1.10. *Test of good title.* Seller shall give, and Developer shall accept, any title approved and insured by Home Guaranty Company, subject to any objection that Developer has agreed under this agreement to take subject to. If at the closing date the Center is subject to any liens that are the subject of litigation or negotiation or that have not been finally fixed (except those to which Developer is to take subject hereunder), such liens shall not be deemed an objection to title if Home Guaranty Company, upon delivery of the deed, issues or binds itself to issue a fee title policy which will insure Developer against the collection of such liens.

2-Forms Federal Taxes Affecting Real Estate [B]

Section 1.11. *Customs.* Except as otherwise provided in this agreement, "the customs in respect of title closings" adopted by the Real Estate Board of New York, Inc., as amended, shall apply to the apportionments and other matters mentioned in this Article I.

Section 1.12. *Fire and condemnation.* The parties waive the provisions of Section 5-1311 of the New York General Obligations Law. If, before the closing date, all or any part of the Center is taken by eminent domain, neither party shall have the right to cancel this agreement, and Seller, upon the closing of title and the receipt of the purchase price, shall assign, transfer, and set over to Developer all of Seller's right, title, and interest in and to any awards made for such taking.

Section 1.13. *Purchaser's lien.* The cost of title examination and the \$100,000 down payment by check subject to collection delivered by Developer simultaneously with the execution and delivery of this agreement shall, upon collection, become a lien upon the Center. Such lien shall not continue after default by Developer or payment to it of all the moneys provided for in Sections 1.8 or 1.9.

Section 1.14. *Zoning and other restrictions.* (a) Developer shall take title subject to existing zoning and building laws, ordinances, restrictions, and regulations imposed by any public authority ("zoning laws") affecting the Center. If, between the date hereof and the closing date, such zoning laws are so changed as to prevent the construction, operation, maintenance, and use of the Center as a one-stop regional shopping center as described in this agreement, Developer shall have only the right to accept title and thereby waive any objections to such change in zoning laws or to reject title, in which case its only rights and remedies shall be as provided in Section 1.9.

(b) If any governmental authority having jurisdiction over the Center has obtained, at the closing date, any rights in and to any streets, roads, or avenues in, upon, or across the Center which may be plotted or laid out on any map or plan issued and filed by such authority, or has imposed any restrictions against building upon the bed of such streets, roads, or avenues, and if such rights or restrictions would prevent the construction, operation, maintenance, and use of the Center as a one-stop regional shopping center as described in this agreement, Developer shall have only the right to accept title and thereby waive any objections to such rights and restrictions or to reject title, in which case Developer's only rights and remedies shall be as provided in Section 1.9.

Article II Development of Center

Section 2.1. *Outline plans.* Seller has previously prepared and delivered to Developer, and each has approved and initialed, outline plans and specifications for the construction of Seller's building. As used in this agreement, the term "Seller's building" means the Tenant's building--including building equipment--to be erected and installed as provided in Article II of the lease. The plans and specifications for Seller's building shall be so drawn and written that it will be capable of supporting and servicing four stories, including a basement.

Section 2.2. *Preliminary architectural and structural engineering plans.* No later than 30 days after the date hereof, Developer shall, at no expense to Seller, prepare and deliver to Seller preliminary architectural and structural engineering plans and specifications for Seller's building, including building equipment. Such plans and specifications and those referred to in Section 2.3 shall be consistent with and reasonably inferable from both Seller's outline plans and specifications referred to in Section 2.1 and provide for first-class workmanship and materials. The parties contemplate that Seller's building will be of the same quality of workmanship and material as is contained in, but may otherwise differ substantially from, Seller's Yonkers, New York, store. Such preliminary plans and specifications and all other plans and specifications and drawings shall be prepared by architects and engineers selected by Developer from time to time, as provided in this section. Developer shall select only architects or engineers approved by Seller from time to time to perform services with respect to the leased premises. Before selecting an architect or engineer to perform

services with respect to the remainder of the Center, excluding the premises, Developer shall deliver to Seller a list of one or more proposed architects or engineers. Within 20 days after receiving such list, Seller shall advise developer of any architect or engineer of which it disapproves, but Seller shall not unreasonably withhold its approval. After the 20-day period expires, Developer may select any architect or engineer named in the list to perform services with respect to the remainder of the Center, excluding the leased premises, except those specifically disapproved of by Seller. Developer shall pay all of the selected architects' and engineers' fees and expenses. Developer shall submit each unit or part of the preliminary architectural and structural engineering plans and specifications for Seller's building as soon as it completes the same. Developer shall complete and submit all of the preliminary plans and specifications to Seller on or before July 10, 2002. Seller shall have full right and authority to object to, and require changes, modifications, and corrections which it deems necessary or desirable in the plans and specifications, if such objections and requirements are made in writing within 30 days after receipt of the preliminary plans and specifications and are consistent with and reasonably inferable from Seller's outline plans and specifications referred to in Section 2.1. Developer shall, at no cost to Seller, revise the preliminary plans and specifications and diligently make all changes, modifications, and corrections required by Seller promptly after it receives Seller's written request therefor. Seller's failure to make such request within the specified 30-day period shall be deemed to constitute its approval. Three copies of all revised and corrected preliminary plans and specifications shall promptly be supplied to Seller without charge after they are completed.

Section 2.3. *Preliminary mechanical engineering plans.* Developer shall diligently prepare, at no cost to Seller, preliminary mechanical engineering plans and specifications for Seller's building, and shall submit each unit or part thereof to Seller as it is completed, but in any event shall complete and submit all such plans and specifications no later than August 10, 2002. Seller shall have the unconditional right to object to such plans and specifications and to require any change, modification, or correction it deems necessary or desirable, if the objections and requirements are made in writing within 30 days after the plans and specifications are received and are consistent with and reasonably inferable from Seller's outline plans and specifications referred to in Section 2.1. Promptly after receiving Seller's written request, Developer shall, at no cost to Seller, revise the preliminary plans and specifications and diligently make all required changes, modifications, and corrections. Seller's failure to make the request within the above 30-day period shall be deemed its approval of the preliminary plans and specifications. Copies of all revised and corrected preliminary plans and specifications shall promptly be supplied to Seller without charge.

Section 2.4 *Final plans.* No later than 30 days after (a) Seller approves Developer's preliminary plans and specifications originally submitted to Seller under Section 2.3, or (b) Developer makes all of the requested changes, modifications, and corrections and supplies the revised and corrected plans and specifications to Seller, as the case may be, Developer shall:

Commence to prepare and thereafter diligently prepare, without cost to Seller, and deliver to Seller detailed final architectural and engineering plans and specifications, including working drawings, for Seller's building. The final plans, specifications, and drawings shall be consistent with and reasonably inferable from the preliminary plans and specifications, as revised and corrected under Sections 2.2 and 2.3. Developer covenants that it will submit completed units or parts of the final plans, specifications, and working drawings for Seller's building as each unit or part is completed, and that it will complete all the plans, specifications, and drawings and deliver them to Seller within eight months after the applicable date provided in the first sentence of this section for Developer to commence their preparation. Seller shall have the unconditional right to object to the final plans, specifications, and drawings and to require any change, modification, or correction it deems necessary or desirable, if the objections and requirements are made in writing within 30 days after the plans, specifications, and drawings are received and are consistent with and reasonably inferable from the preliminary plans and specifications, as revised and corrected under Sections 2.2 and 2.3. Promptly after receiving Seller's written request, Developer shall, at no cost to Seller, revise the final plans, specifications, and drawings and diligently make all required changes, modifications, and corrections. Seller's failure to make the request within the above 30-day period shall be deemed to constitute its approval of the plans, specifications, and drawings. Copies of all revised and corrected final plans, specifications, and drawings shall promptly be supplied to Seller without charge.

2-Forms Federal Taxes Affecting Real Estate [B]

Section 2.5. *Costs in excess of items in seller's building.* If the plans, specifications, and drawings for Seller's building, under Sections 2.2, 2.3, and 2.4, include any items of equipment or material which are more or less expensive than items that serve the corresponding functions in Seller's Yonkers, New York store, Developer shall advise Seller of any such net increase, as follows:

(a) Whenever Seller requests, Developer shall promptly cause to be prepared and submitted to Seller a bona fide written estimate by the architects or engineers responsible for the preparation of such plans, specifications, and working drawings of any increase or decrease in architects' and engineers' fees and in such construction costs that would result from any such request. Such estimate shall itemize separately the estimated cost of any item of material Seller so requested Developer to include.

(b) Any approval by Seller of the submitted estimate shall be in writing and returned to Developer within 15 days after the estimate is received. If Seller approves the estimate, it shall reimburse Developer under the attached lease for any aggregate net increase in architects' and engineers' fees and in construction costs shown on all the approved estimates promptly after a statement therefor is received following completion of the work involved. Alternately, Seller may revise the submitted estimate by deducting from any stated increase in such fees and costs the difference between the estimated cost of any item of material included therein and the lower written bid for the identical item from a reliable supplier, if Seller submits the bid to Developer within 15 days after Seller receives the estimate. Any approval by Seller of the revised estimate shall be in writing and returned to Developer within 15 days after it is received. If Seller approves the revised estimate, it shall reimburse Developer under the attached lease for any aggregate net increase in architects' and engineers' fees and in construction costs shown on all the approved estimates, as so revised, promptly after a statement therefor is received following completion of the work involved. If Seller does not approve of the estimate, whether or not revised, and return it to Developer within the above 15-day period, Seller shall be deemed to have withdrawn the request, but it shall reimburse Developer for reasonable architects' and engineers' fees for preparing the estimate.

Section 2.6. *Preliminary plans for other buildings.* No later than 30 days after the date hereof, Developer shall commence to prepare and thereafter diligently prepare, at no cost to Seller, and deliver to Seller, preliminary architectural plans and outline specifications, including isometric drawings and elevations, for the construction of at least 200,000, but not more than 400,000, square feet of building floor area of the buildings, other than Seller's building, and the other improvements. Such plans, specifications, drawings, and elevations shall provide for good quality workmanship and materials, that all vehicular and pedestrian traffic ways be hard-surfaced, and that all parking areas be finished with a permanent surface at least equal in quality to blacktop. Developer covenants to complete and submit to Seller without charge copies of such plans, specifications, drawings, and elevations no later than 90 days after the date hereof. If Seller, within 30 days after receiving such plans, specifications, drawings, or elevations, gives written notice to Developer that any of them do not comply with this section, Developer shall, promptly after receipt of such notice, and at no cost to Seller, diligently make any change, modification, or correction to make them so comply. Seller's failure to give Developer notice within the above 30-day period shall be deemed to constitute Seller's approval of the plans, specifications, drawings, and elevations. Copies of the revised and corrected plans, etc., shall be promptly supplied to Seller without charge after their completion.

Section 2.7. *Plans for service areas.* Developer covenants to prepare, without cost to Seller, and deliver to Seller no later than 60 days before the closing date, preliminary architectural plans for screened service courts for all buildings other than Seller's building, unless before the delivery date the parties agree on a substitute arrangement to replace such courts.

Section 2.8. *Other leases.* Developer guarantees that on or before June 30, 2002, tenants other than Seller will have entered into commitments to lease stores aggregating at least 200,000 square feet of floor area in the Center. Such tenants will be obliged to open for business on or before the date that Seller opens for business in its building, or May

10, 2004, whichever is later. Developer shall deliver a true copy of each lease commitment to Seller on or before June 30, 2003. Each commitment shall include a commitment for lease of at least: (a) 5,000 square feet of floor area to a drugstore for an initial term of at least ten years; (b) 15,000 square feet of floor area to a supermarket for an initial term of at least 15 years; (c) 20,000 square feet of floor area to one or more variety of stores for initial terms of at least 20 years each; and (d) 40,000 square feet to apparel stores for initial terms of at least 15 years each. Developer shall deliver to Seller a true copy of each lease or commitment to lease space in the Center within ten days after its execution.

Article III Closing

Section 3.1. *Place of closing.* All matters to be performed under this agreement on the closing date shall be done at the office of Sterne and Leeds, Esqs., 666 Fifth Avenue, New York, New York, at 11 a.m. on the closing date.

Section 3.2. *Date of closing.* The closing date shall be September 11, 2002. However, Developer may accelerate the closing date if (1) it is not in default hereunder, (2) all matters to be performed hereunder before the closing date, except those required of Seller, have been performed, and (3) Developer gives 20-days' prior written notice to Seller of the earlier closing date. The closing date may be extended as provided in Section 1.8 or 3.3.

Section 3.3 *Default by developer.* Seller may cancel this agreement and retain the down payment if Developer defaults under any provision hereof and shall fail to cure the same within 20 days after Seller's written notice specifying the nature of the default. Seller's cancellation shall not prejudice any of its other rights or remedies hereunder, in any other instrument, or at law.

Section 3.4 *Completion bond.* On the closing date, Developer shall deliver a bond to Seller in which the general contractor to be employed by Developer to construct Seller's building and Developer shall be the Principals, Seller shall be the Obligee, and any surety company shall be the Surety. The bond shall be for \$700,000, unless the amount is changed as provided below, and shall guarantee the construction and completion of Seller's building, fully paid for. If either party believes that the cost of such construction and completion will be more or less than \$700,000, it may request that the amount be changed by giving the other party written notice between 60 and 90 days before the closing date. If the parties cannot agree upon a mutually satisfactory amount within ten days after notice is given, either party may refer the dispute to the architect selected to perform services for the leased premises, as provided in Section 2.2, not later than 45 days before the closing date. The architect shall, not later than 15 days before the closing date, advise the parties of the amount required by a responsible contractor to construct and complete Seller's building, and the bond shall be in that amount.

Section 3.5. *Authority of seller.* On the closing date, Seller shall deliver to Developer: (1) certified resolutions of Seller's Board of Directors authorizing the execution of this agreement and performance of its obligations, and (2) an opinion of Sterne & Leeds, Esqs., Seller's attorneys, to the effect that the execution and delivery of this agreement and of the deed and lease have been duly authorized by Seller, have been duly executed and delivered on behalf of Seller by a duly authorized officer or officers, and are legal, valid, and enforceable under their terms.

Section 3.6. *Authority of developer.* On the closing date, Developer shall deliver to Seller: (1) certified resolutions of Developer's Board of Directors authorizing the execution of this agreement and performance of its obligations, (2) an opinion of James Cooper, Esq., Developer's attorney, to the effect that the execution and delivery of this agreement and of the purchase money mortgage, purchase money note, the bond, and the lease have been duly authorized by Developer, have been duly executed and delivered on behalf of Developer by a duly authorized officer or officers, and that all the above documents are legal, valid, and enforceable in accordance with their terms, and (3) a certificate, executed by Developer's chief executive officer, to the effect that all leases or written commitments to lease any part of the Center entered into by or on behalf of Developer conform with this agreement and the accompanying documents.

2-Forms Federal Taxes Affecting Real Estate [B]

Section 3.7. *Documents.* On the closing date, provided that all matters required to be performed hereunder by both parties prior thereto have been duly performed:

(a) Seller shall deliver the required deed to Developer;

(b) Concurrently, Seller and Developer shall duly execute, acknowledge, and deliver, as Tenant and Landlord, respectively, the lease in the attached form (the "lease").

On the closing date, before the parties execute such lease:

(a) Both parties shall approve, date, and initial the final plans, specifications, and drawings, as revised and corrected under Section 2.4, and the preliminary plans, specifications, drawings, and elevations, as revised and corrected under Section 2.6.

(b) The lease in form attached shall be completed as indicated therein.

Article IV Miscellaneous

Section 4.1. *Notices.* Unless otherwise expressly provided herein, all notices hereunder shall, be in writing and be deemed to have been given when mailed by registered or certified mail, postage prepaid, to the other party at the address stated below, or at the last changed address given by the other party:

If to Developer, at:

Fillmore Shopping Centers, Inc.
525 Fifth Avenue
New York, New York 10017

If to Seller, at:

Metropolitan Realty Co., Inc.
100 East 42nd Street
New York, N.Y. 10017

Either party, however, may at any time change its address for notification purposes by mailing a notice to the other party, as provided above, stating the change and setting forth the new address.

Section 4.2. *Assignment; binding effect.* All references herein to Developer shall be deemed to mean Fillmore Shopping Centers, Inc. If, however, Developer assigns all of its right, title, and interest under this agreement to any person, firm, or corporation, Developer shall be deemed to mean that person, firm, or corporation. If this agreement is assigned, the assignee shall expressly assume, in writing, all of Developer's obligations hereunder, and a duplicate original of the assignment and assumption shall be delivered to Seller no later than five days before the closing date. The duplicate original shall state the assignee's business address and, if the assignee is a corporation, the state of its incorporation. Except as otherwise expressly provided herein, this agreement shall be binding upon and inure to the benefit of both parties and their respective legal representatives, successors, and assigns.

Section 4.3. *Relationship between parties.* The relationship between the parties is solely that of Vendor and Purchaser. Nothing contained herein shall be construed to make the parties partners or joint venturers, or to render either party liable for the other party's debts or obligations. The provisions of Sections 1.6, 4.3, and 4.5 and of Article II shall survive the delivery of the deed and lease.

2-Forms Federal Taxes Affecting Real Estate [B]

Section 4.4. *Nonwaiver.* No delay or failure by either party to exercise any right hereunder, and no partial or single exercise of such right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

Section 4.5. *Broker.* The parties agree that Rossman Realty Associates, 600 Third Avenue, New York, New York, brought about this agreement as broker. Developer shall pay all commissions or brokerage with respect to this agreement and its negotiation, including the attached lease and extensions or renewals thereof and all additions to Seller's building.

Section 4.6. *Headings.* Headings in this contract are for convenience and reference only and shall not be used to interpret or construe its provisions.

Section 4.7. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of New York.

Section 4.8. *Entire agreement; modification.* This instrument constitutes the entire agreement between the parties. It may not be changed or terminated except by an agreement duly executed by the parties.

Section 4.9 *Short forms for recording.* For recordation purposes, Developer shall execute and deliver a short form of this agreement, in the form requested by Seller, in order to record its provisions. Each party shall execute, in recordable form, any certificate reasonably requested by the other party concerning the parties' rights and obligations hereunder.

Section 4.10. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original and all of which together shall constitute one and the same instrument.

Section 4.11. *Time of essence.* Time is of the essence of this agreement.

In witness whereof the parties have duly executed this agreement as of the day and year first above mentioned.

B.14 Sale and leaseback of single-purpose property improved by seller to his own specifications

COMMENT

This form illustrates the use of the sale-leaseback technique as a method of releasing working capital for a business organization. Here, the owner is planning to construct an office and research building to its own specifications for use in its own business. The owner has arranged to sell the property for cash upon the completion of the improvements, and simultaneously to take back a long-term lease from the new owner.

Tax aspects on termination:

If the lease is cancelled before the end of its term, the unamortized portion of the cost of the lessee's improvements is deductible in the year of cancellation. The lessor is not entitled to depreciation upon a building or other improvements constructed by the lessee. The value of improvements made by the lessee

2-Forms Federal Taxes Affecting Real Estate [B]

does not constitute income to the lessor either during the lease term or when the lessor acquires the improvements upon the termination of the lease.

For further information, see Chapters 4 and 18.

FORM

AGREEMENT made January 2, 2002, between Jason Products, Inc., a New York corporation, having its principal office at 100 White Plains Road, White Plains, New York ("Seller"), and Realty Holding Corp., a New York corporation, having its principal office at 600 Fifth Avenue, New York, New York ("Purchaser").

1. *Sale.* Seller agrees to sell and convey, and Purchaser agrees to purchase, the premises situated on Central Avenue, in the City of White Plains, County of Westchester, State of New York, together with the buildings and improvements to be completed and constructed by the Seller, such premises being more particularly described in the annexed Schedule A initialed by the parties (the "Premises").

2. *Liens and encumbrances.* The premises are being sold subject to the encumbrances, liens, and exceptions to title enumerated in Schedule A.

3. *Purchase price.* The purchase price is \$600,000, payable as follows:

\$60,000 on the signing of this agreement, receipt of which, by check, is acknowledged, subject to collection; and

\$540,000 either by check drawn by the grantee named in the deed, on a bank or trust company which is a member of the New York Clearing House, to the direct order of Seller as payee, and duly certified by such bank or trust company, or by an official check of such a bank or trust company to the direct order of Seller, to be delivered against receipt of the deed.

4. *Satisfaction of liens at closing.* If, at closing of title, the premises are affected by any lien which Seller is required hereunder to discharge or satisfy, Seller shall not be required to discharge or satisfy the lien of record if proper instruments of satisfaction or discharge are delivered to Purchaser at the closing and proper allowance is made to Purchaser for recording charges.

5. *Construction of improvement by Seller.* Seller shall, at its expense, complete and construct a two-story and basement office and research building on the premises in accordance with the plans and specifications of Jones & Harrison, Architects, which have been initialed by the parties. Such construction shall include all improvements shown on the plans and specifications, and the installation of all fixtures and articles of personal property shown thereon. Seller shall perform the construction and installation with diligence and continuity until completion. All construction and installations, and the buildings and improvements when completed, shall comply with all federal, state, and local laws and regulations, as well as the orders, rules, and regulations of the New York Board of Fire Underwriters or any other body exercising similar functions. All construction and installation shall be under the supervision of Jones & Harrison, Architects. Construction and installation shall not be deemed completed until the following are delivered to Purchaser:

(a) a certificate of completion by Jones & Harrison, Architects, certifying that the work has been completed in accordance with such plans and specifications, and with all applicable laws, ordinances, orders, rules, regulations, and requirements, and

(b) a Certificate of Occupancy issued by the governmental authorities having jurisdiction over the premises, a certificate of the New York Board of Fire Underwriters, and any other certificate required or customarily issued by any other

2-Forms Federal Taxes Affecting Real Estate [B]

governmental authority or agency having jurisdiction over the premises.

If the construction and installation is not completed on July 10, 2002, Purchaser may either:

(a) Cancel this agreement by giving written notice to Seller. If Purchaser cancels, Seller shall immediately refund to Purchaser the amount paid on account of the purchase price, without interest, and pay Purchaser's net cost of examining the title. This agreement shall then terminate, and neither party shall have any further claim against the other by reason thereof; or

(b) Extend Seller's time for completing the construction and installation, by giving it written notice of the extension. If the construction and installation is not completed at the end of the extended time, Purchaser may either cancel as provided in subdivision (a) or further extend as provided in this subdivision (b).

Seller warrants and represents that the building and improvements on the premises, when completed, their sale to Purchaser, and Seller's use thereof as tenant under the lease will not violate any applicable zoning restrictions or ordinances.

6. *Personalty, fixtures, and equipment.* No part of the personal property, fixtures, machinery, or equipment used or procured for use in connection with the operation of Seller's business, whether now or later placed on the premises, is included in this sale, regardless of whether such property, etc., can be removed without material damages to the freehold. It is expressly understood and agreed that all the above property, including movable partitions, shall be and remain Seller's property. However, all fixtures and articles of personal property, machinery, and equipment used or procured for use in connection with the operation of the building, now or hereafter placed on the premises, and the heating, lighting, ventilating, plumbing, and any air conditioning systems are represented to be owned by Seller free from all liens and encumbrances and are included in this sale as a part of the realty.

7. *Leaseback.* Upon closing of title, Seller, as tenant, and Purchaser, or the person or corporation taking title to the premises, as landlord, shall enter into a lease of the premises in the form and containing the same provisions as those set forth in the annexed Schedule B, initialed by the parties, and a short form memorandum of such lease for recording in the form set forth in the annexed Schedule C, initialed by the parties.

8. *Street rights.* This sale includes all of Seller's right, title, and interest in and to any land lying in the bed of any street, road, or avenue opened or proposed, in front of or adjoining the premises, and in and to any award made or to be made in lieu thereof. Seller will execute and deliver to Purchaser on closing of the title, or thereafter, on demand, all proper instruments for the conveyance of such title and the assignment and collection of any such award. The proceeds of any such award shall, however, be dealt with by Purchaser pursuant to the terms of the lease in the same manner and to the same extent as though Purchaser were now the owner, and Seller the tenant from Purchaser, of the premises under the lease.

9. *Deed.* Seller shall, upon receipt of the amounts specified in paragraph 3, make, execute, and deliver a good and sufficient deed to convey to Purchaser, or Purchaser's assigns, the fee of the premises, free from all encumbrances, except as herein stated. Such deed shall be a bargain and sale deed in statutory short form for record, and, except as hereinafter stated, shall contain no covenants or warranties, and shall be duly executed and acknowledged by Seller, at Seller's expense. Such deed shall contain the covenant required by subdivision 5 of Section 13 of the Lien Law.

10. *Closing.* The closing of title shall take place and the deed shall be delivered and the price paid on the 24th day of July, 1987 at 11 a.m. at the office of the Seller's attorneys, Messrs. Smith & Ryan, 100 Wall Street, in the Borough of Manhattan, City of New York. Purchaser may have the title closing advanced to an earlier date if it notifies Seller's attorneys at least five days before such date.

2-Forms Federal Taxes Affecting Real Estate [B]

11. *Objections to title.* Purchaser shall deliver to Seller's attorneys, at least five days before title closing, a statement of all defects, encumbrances, and objections to title, except those to which by the terms of this agreement the premises are to be conveyed subject or which may be expressly waived herein. Seller shall pay all taxes or assessments that are assessed, levied, confirmed, imposed, or become a lien upon the premises or that are due and payable at or before title closing, and shall cure or remove all encumbrances or objections to title arising from Seller's own acts. Seller, however, shall not be under any duty or obligation to cure or remove, or incur any expense to cure or remove, any other defects, encumbrances, or objections to title.

12. *Seller's inability to convey good title.* If Seller is unable to convey a good and marketable title under this agreement, its sole liability shall be to refund to Purchaser the amount paid on account of the purchase price, without interest, and to pay Purchaser's net cost of examining the title. Upon the Seller's making the refund and payment, this agreement shall terminate, neither party shall have any claim against the other, and any lien of Purchaser against the premises shall wholly cease. Seller shall not be required to bring any action or proceeding, or otherwise to incur any expense or take any steps, to render the title to the premises marketable, except as provided in paragraph 11. Purchaser may, however, accept any title that Seller is able to convey, without reduction of the purchase price or any credit or allowance against the same, and without any other liability of Seller. Purchaser's acceptance of a deed shall be deemed full performance and discharge of all Seller's agreements and obligations hereunder, except those specifically stated herein to survive delivery of the deed. All of Seller's obligations as tenant under the lease shall survive delivery of the deed.

13. *Lien for deposit and title expense.* All sums paid on account of this agreement and the reasonable cost of title examination are made a lien against the premises. The lien, however, shall not continue after Purchaser's default hereunder or after any termination of this agreement as provided herein.

14. *Brokers.* The parties agree that Messrs. Gordon & Roth, of 400 Lexington Avenue, New York, New York, are the brokers who brought about this sale. Seller shall pay the brokerage commission, but only upon the conditions and in the amount, with which Purchaser is fully familiar, agreed upon between Seller and Messrs. Gordon and Roth.

15. *Notices.* All notices under this agreement shall, unless otherwise expressly provided herein, be in writing and be deemed to have been given when mailed by registered or certified mail, postage prepaid, to the other party at the address set forth above, or at the last changed address given by the other party.

16. *Departmental violations.* Seller shall, at or before title closing, comply with all applicable state, local, or municipal laws affecting the premises at the closing date, including zoning ordinances, health codes, multiple dwelling laws, building codes, fire ordinances, and the like. This provision shall survive delivery of the deed. Seller shall furnish Purchaser, at its request, with an authorization to make the necessary searches for the above violations.

17. *Unpaid assessments for improvements.* If, upon delivery of the deed, all or part of the premises are or have been affected by any one or more assessments which are or may become payable in annual installments, of which the first installment is then a lien or charge, or has been paid, for the purposes of this agreement all the unpaid installments of any such assessment, including those that are to become due and payable after the delivery of the deed, shall, if required by the mortgagee from whom Purchaser or its assigns borrows part of the purchase price, be deemed to be due and payable and to be liens upon the premises affected thereby. Seller shall pay and discharge such assessments at or before delivery of the deed. The Westchester County Sewer System taxes shall be excluded from the provisions of this paragraph, and the installments of such taxes not due and payable upon delivery of the deed shall not be assumed by Seller as tenant under the lease.

18. *Taxes, assessments, and insurance.* The parties shall not apportion any taxes, assessments, or insurance premiums. At or before title closing, Seller shall pay and discharge all taxes, assessments, water charges, and sewer rents that are assessed, levied, confirmed, imposed, or become liens upon the premises or that become due and payable on or before the closing date. In addition, Seller, as tenant under the lease, shall pay all taxes and assessments, water charges, and

2-Forms Federal Taxes Affecting Real Estate [B]

sewer rents that become liens on or after the closing date. At title closing, Seller shall have in force and deliver to Purchaser all insurance policies required under such lease, and shall cause such policies to be bound for the benefit of the landlord and tenant and the holder of any mortgage upon the premises, as their respective interests appear, in the manner required by the provisions of such lease.

19. *Survival of certain provisions.* The provisions of paragraphs 5, 8, 16, 17, and 18 shall survive delivery of the deed.

20. *Entire agreement; modification.* This instrument constitutes the entire agreement between the parties. It may not be changed or terminated except by an agreement duly executed by the parties.

21. *Nonwaiver.* No delay or failure by either party to exercise any right hereunder, and no partial or single exercise of such right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

22. *Headings.* Headings in this contract are for convenience and reference only and shall not be used to interpret or construe its provisions.

23. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of New York.

24. *Counterparts.* This agreement may be executed in one or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

25. *Time of essence.* Time is of the essence of this agreement.

In witness whereof the parties have caused these presents to be executed in their names and on their behalfs by their respective officers the day and year first above written.

B.15 Escrow agreement--funded by part of mortgage proceeds--completion of building

COMMENT

A lender is usually not required to disburse the mortgage proceeds until the terms and conditions of its mortgage commitment are satisfied. These conditions usually include such matters as title, insurable first lien, fire insurance, survey, and premises that are approved for occupancy. Occasionally, a loan will be made prior to complete satisfaction of the conditions of the commitment letter if the lender determines that the loan will otherwise comply with its lending restrictions and the unsatisfied matters are reasonably certain of being cleared within a short time. As a protective measure, the lender may withhold a part of the mortgage proceeds, in escrow, until the unsatisfied matters are resolved. Such matters might

2-Forms Federal Taxes Affecting Real Estate [B]

include the obtaining of an administrative certification, clearing a relatively minor title defect or removal of an undesirable exception to the title insurance.

Here the purpose of the escrow is the completion of a building to the point where the local authorities will issue various certifications. The escrow provides the lender with funds which it considers to be adequate to complete the building if the builder fails to do so by a specified date.

For further information, see Chapters 6, 17, and 19.

FORM**ESCROW RECEIPT**

Dated:	2/24/02	Re:	Mortgage No. 99999
Amount of Escrow:	\$9,000	Premises:	
Depositor of Escrow:	New England River Homes, Inc.	571 Waterbury-Stamford Road	Georgetown, Connecticut

In connection with the above premises, Hartford National Bank and Trust Company ("Hartford") acknowledges receipt of the above identified escrow deposit, to be held in escrow until completion of the escrow purposes.

If the escrow purposes are not completed on or before the completion date to Hartford's sole and exclusive satisfaction, Hartford, without notice to anyone, may cause the escrow purposes to be completed and fulfilled, and may deduct from the escrow deposit the full costs, disbursements, and expenses deemed necessary by Hartford and actually incurred in the furtherment of the escrow purposes, regardless of whether the escrow purposes are in fact completed.

The costs, disbursements, and expenses shall include, work, labor, materials, general and subcontractor charges, official permit, license, filing and recording fees, legal fees, and fees of architects and other professionals and specialists.

The escrow sum shall not bear interest. Any balance remaining shall be returned to the depositor of the above escrow.

Hartford shall have no liability in completing any escrow purposes beyond the amount of the escrow deposit.

If the escrow purposes are completed on or before the completion date to Hartford's sole and exclusive satisfaction, the escrow shall be returned to the depositor of the escrow.

The escrow sum is not assignable by the depositor of the escrow.

Depositor of Escrow:	New England River Homes, Inc.
Completion Date:	May 24, 2002
Escrow Purposes:	

Issuance of and exhibition to Hartford of a Certificate of Occupancy providing for a one-family dwelling; also Connecticut Electrical Inspection Certificate and Fire Underwriter's Certificate. Upon issuance of Certificate of

2-Forms Federal Taxes Affecting Real Estate [B]

Occupancy, \$9,000 will be released to the escrow depositor.

B.16 Occupancy agreement--occupancy by purchaser prior to settlement--owner's form

COMMENT

An occupancy agreement is useful when the right of possession is transferred at a time before or after settlement. If the buyer wishes to occupy the building before settlement, possession would be given prior to closing by the seller. If, on the other hand, the seller wishes to remain in possession for a limited time after the transfer of title, the buyer, as the new owner, would let the seller retain possession for the limited time. The terms of the agreement depend upon the negotiating strength of each party. Matters to be negotiated include the occupancy fee, risk of loss, liability insurance, settlement adjustments, and surrender of possession if necessary.

Occupancy fee:

Generally the owner will require a fee from the party to occupy the property. Although the occupancy fee can be any amount agreed to by the parties, some practitioners believe it should have some relationship to the owner's expenses. These expenses include the monthly amortization due on the owner's mortgage, the proportionate amount of real estate and other taxes, and other charges incurred by the owner by reason of title to the property. The owner may add a premium to this amount and establish the occupancy fee. If the party taking possession does not assume the utility charges for gas, electric, water, etc., these should be included in the occupancy fee. However, since the occupying party has control over the extent of use of utility services, it is often provided that the occupant assume such charges.

Risk of loss:

The risk of loss to the premises is usually assumed by the party in possession. The party in possession maintains the most control over the premises, so the occupier is better able to protect against loss. If the buyer is to take possession prior to settlement, then the risk of loss should, by agreement, shift to the buyer upon occupancy. If the seller is to remain in possession after closing, the risk of loss should remain with the seller until possession is surrendered.

Liability and insurance:

Both the party in possession and the owner have insurable interests in the property and liability risks. Each should maintain insurance for their own protection. Usually an owner will have insurance from the date of ownership to the date of transfer. However, the party in occupancy may overlook this risk. The owner may wish to have a fund to recover against in the event the occupant is liable to the owner. Therefore the agreement should provide that the party in occupancy maintain satisfactory insurance

coverage.

Settlement adjustments:

Customarily, expenses incurred in occupying property are borne by the party in possession. Therefore, settlement adjustment associated with possession should correspond to the time when possession changes hands, rather than the date title changes hands. Such items would include fuel, utilities, real estate, water or other taxes, and maintenance expenses. Personal obligations of the parties, however, would be adjusted as of settlement, and would include such items as insurance, mortgage payments, and mortgage insurance, if any. (Part or all of these personal expenses can be recovered, however, in the occupancy fee.)

Surrender of possession:

If all does not go as planned, the owner will want some assurance that possession will be surrendered or returned. This can be handled by a number of different methods. One method may require liquidated damages in a prescribed monthly amount. Another approach would prescribe an increased monthly occupancy fee, which could be secured by an adequate cash deposit. Another approach, used separately or in conjunction with the other methods, would be an express submission to the court having jurisdiction over summary eviction proceedings.

Inspection of the property:

In some locations it is customary for the purchaser to conduct an inspection of the property prior to closing. This may be specifically allowed in the contract, or may be part of the practice in the locality. In order to avoid a situation where the seller is held responsible for damages to the property between the time the buyer takes possession and the settlement date, the pre-closing inspection should be moved up to a time just prior to the purchaser's taking possession. Any objections can be raised and resolved before possession or closing. Any unsatisfactory conditions not objected to by purchaser, or occurring during purchaser's occupancy, would be the purchaser's responsibility.

For further information, see Chapters 1, 4, and 9.

FORM**USE AND OCCUPANCY AGREEMENT**

AGREEMENT made September 23, 2002, by and between John P. La Costa and Mildred O. La Costa, husband and wife, residing at 449 Windsor Street, Round Valley, Pennsylvania ("Seller"), and Charles W. Long and Alice B. Long, husband and wife, residing at 213 Craig Drive, Chattanooga, Tennessee ("Buyer").

Recitals

By a certain contract of sale between the parties, dated August 11, 2002, Seller agreed to sell and Buyer agreed to purchase the premises known as 449 Windsor Street, Round Valley, Monongahela County, Pennsylvania ("the premises").

2-Forms Federal Taxes Affecting Real Estate [B]

Buyer is desirous of taking possession of the premises before the anticipated closing of title on October 31, 2002, and Seller is willing to allow such possession of the premises subject to certain conditions:

Now, therefore, the parties agree as follows:

1. *Possession; fee.* Seller will on September 27, 2002, at 4:00 p.m., deliver to Buyer the full possession of the premises as if the conveyance thereof had been executed, and Buyer shall pay Seller an occupancy fee of \$1,000 per month commencing with this agreement.

2. *Disclaimer.* Buyer acknowledges and agrees that the use and occupation of the premises contemplated by this agreement is on an AS IS basis. SELLER HAS NOT INSPECTED THE PREMISES TO DETERMINE ITS PRESENT CONDITION. SELLER MAKES NO WARRANTIES OR REPRESENTATIONS, EXPRESS OR IMPLIED, ABOUT THE PREMISES EXCEPT AS SPECIFICALLY SET FORTH IN THE CONTRACT OF SALE. SELLER HAS ENTERED INTO THIS AGREEMENT IN RELIANCE UPON THESE LIMITATIONS OF SELLER'S LIABILITIES AND WOULD NOT HAVE ENTERED INTO THIS AGREEMENT WITHOUT SUCH LIMITATIONS.

3. *Liability.* Buyer assumes all risks of and responsibility and liability for all losses, damages, and personal injuries incurred by Buyer or any other persons during Buyer's use and occupancy of the premises, regardless of whether they are caused by Buyer's use and occupancy thereof. Buyer shall indemnify and hold Seller harmless from all claims, actions, suits, proceedings, costs, expenses, damages, and liabilities, including attorneys' fees, arising out of, connected with, or resulting, directly or indirectly, from or during Buyer's use and occupancy of the premises. Buyer shall defend, at his expense, all suits brought against Seller, either alone or in conjunction with others, upon any such liabilities of claims, and shall promptly satisfy, pay, and discharge all judgments and fines recovered against Seller in all such actions.

4. *Adjustments.* All adjustments for taxes, water charges, and utility charges shall be determined as of September 27, 2002, and Buyer shall thereupon be solely liable for their payment.

5. *Insurance.* Buyer shall secure hazard and liability insurance covering the premises to protect against any loss or damage occurring, or liability incurred, during Buyer's use and occupancy of same. Prior to delivery of possession, Buyer shall provide satisfactory evidence of such insurance to Seller's attorney. Such evidence shall include a copy of the insurance policy issued and a premium paid receipt.

6. *Surrender of possession.* If the closing of title does not take place by October 31, 2002, through no fault of Seller, Buyer shall pay \$1,300 per month to Seller commencing on November 1, 2002. In no event, however, shall Buyer's use and occupancy of the premises at any time be considered a tenancy in any form. Buyer shall vacate the premises immediately following Seller's demand in the event of a breach by Buyer of any term or conditions of this agreement. Buyer further agrees that, failing such voluntary vacation, Buyer may be dispossessed on three days' notice by summary proceedings.

7. *Maintenance and compliance.* During Buyer's use and occupancy of the premises, Buyer shall keep the premises in good condition and repair at his expense and shall comply with all governmental ordinances and regulations concerning the premises.

8. *Deposit.* Prior to delivery of possession, Buyer shall deposit \$3,000 with Seller's attorney to be held in escrow. This sum may be applied to: (a) the \$1,000 per month occupancy fee agreed to by and between the parties; (b) the repair of any damages to the premises incurred after the date of delivery of possession; (c) the payment of any taxes, water charges, or utility charges incurred after that date; or (d) the payment of any other amounts which are Buyer's responsibility under the terms and conditions of this agreement, following Buyer's failure to pay for any of the above items upon demand. Any balance remaining shall be repaid to Buyer at title closing.

2-Forms Federal Taxes Affecting Real Estate [B]

9. *Assignability.* Neither this agreement, nor any right or obligation hereunder, is assignable by Buyer.

10. *Contract of sale.* Neither this agreement, nor Buyer's taking of possession of the premises, shall be deemed a waiver of the contract of sale, but shall be considered as being conditional upon, and without prejudice to, the due performance of the contract of sale in all respects.

11. *Inspection of premises.* Buyer acknowledges that he has conducted an inspection of the premises prior to taking occupancy thereof, and waives all rights to such an inspection prior to settlement, which may arise by custom or contract. Buyer shall accept the premises in the condition found upon their taking occupancy, and acknowledges that any personal property included in the sale is properly located in the premises and is in good working order.

12. *Entire agreement; modification.* This instrument constitutes the entire agreement between the parties in connection with Buyer's use and occupancy of the premises. No modification of this agreement shall be effective unless in writing and signed by both parties.

13. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Pennsylvania.

14. *Notices.* All notices hereunder shall be sent by registered or certified mail, postage prepaid, return receipt requested, addressed to the other party at its address set forth at the beginning hereof. Either party, however, may designate a different address by serving written notice of change of address on the other party, in the manner provided above.

15. *Binding effect.* This agreement shall be binding upon and inure to the benefit of the parties hereto and their respective legal representatives, successors, and assigns.

16. *Headings.* Headings in this agreement are for convenience and reference only and are not deemed to be a part thereof.

17. *Non-waiver.* No delay or failure by either party to exercise any right hereunder, and no partial or single exercise of such right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

18. *Counterparts.* This agreement may be executed in one or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

19. *Time of essence.* Time is of the essence of this agreement.

In witness whereof the parties have set their hands and seals the day and year first above written.

B.17 Occupancy agreement--occupancy by seller subsequent to closing--letter agreement

COMMENT

This form reflects the buyer's agreement to permit the seller to remain in occupancy after settlement. The seller is usually required to surrender possession of the property, along with title, at closing. This agreement not only permits the seller to remain in possession for the specified time, but also deals with closing adjustments, utilities, failure to surrender possession, buyers' right of inspection, indemnification and insurance.

Closing adjustments:

Settlement adjustments are made as of the date the seller is to vacate the property. The seller will enjoy the benefits of possession until such date, and should bear the expenses related to possession. Such adjustments would include real estate taxes, utilities, and fuel.

Possession deposit:

At closing, the seller, under the agreement, deposits a sum of money with the buyer's attorney to secure the surrender of possession by the seller. The deposit also secures the payment of the monthly occupancy charge, as well as expenses incurred to obtain possession from the seller. A specified \$100 per diem liquidated damages provision is also secured by the deposit. The seller will be obligated to pay the buyer an additional \$100 per day for each day beyond the date the seller is supposed to vacate the property. This is in addition to the other accruing charges and expenses.

Right of inspection:

The purchaser's right to inspect the property just prior to closing will not give the buyer an opportunity to object to any defects or unsatisfactory conditions in the premises after the seller vacates. Therefore, this agreement provides for the inspection to take place after the property is vacated by the seller. All representations and warranties contained in the contract are extended past settlement, so that, upon inspection, the buyer has the same rights as he had prior to closing. This provision should prevent non-title representations being deemed waived or merged with delivery of the deed, by expressly providing that the parties intend such representations and warranties to survive settlement and delivery of the deed.

Indemnification and insurance:

By reason of ownership of the property, the buyer may be subject to liability and law suits. This agreement provides that the seller will indemnify the buyer for any liability incurred by reason of the seller's continued occupancy. To back up this indemnity, the seller is obligated to continue his insurance on the property.

For further information, see Chapters 1, 4, and 9.

May 16, 2002

Mr. and Mrs. Mark C. Witkowski
c/o Dolan, Levine and Camprice
Attorneys at Law
1030 First Street
Bridgeport, Connecticut

Re: 195 Centerville Road
Hamden, New Haven County Connecticut

Dear Mr. and Mrs. Witkowski:

As sellers of the above premises pursuant to our contract dated May 1, 2002, we are not entitled to remain in possession of the premises after closing. However, at our request, you agreed to our continued possession.

1. *Adjustments.* We agree at the closing, all adjustments will be as of June 30, 1992. During the time of extended possession, we will pay all the expenses of running the premises, including fuel oil, water, electricity, gas, and repairs.

2. *Relationship.* The relationship between us in this transaction is that of licensee and licensor, and not that of landlord and tenant.

3. *Surrender of possession.* If we do not surrender possession to you for any reason by July 1, 2002, we agree upon three days' written notice from you or your attorney, to vacate the premises and deliver it to you in broom clean and good condition. In addition, we shall make full payment of the amount then due at the monthly rate of \$1,112, as apportioned from June 30, 2002 to such date. Furthermore, if we refuse to remove ourselves and possessions on the date set forth in such notice, we shall reimburse you for all reasonable costs incurred in recovering possession of the property, including reasonable attorney's fees and an additional \$100 per day for each day we continue in possession after the date of such revocation of license. You are authorized to deduct such sums from the \$4,000 deposited at closing with your attorney before returning the balance to us.

4. *Inspection.* We acknowledge that you have the right to inspect the house after our vacation therefrom. We agree that your closing of title, in reliance upon this letter agreement, shall not constitute an acceptance of the house in its present state and condition. Any representations, covenants, promises, or obligations made by us as set forth in such contract shall survive the closing of title and delivery and acceptance of the deed. Further, we agree that all of the personal property set forth in the contract as included in the sale, shall be present in the house upon surrender of our license.

5. *Occupancy.* While we are in possession of the house, after the closing of title, we shall take good care of the premises, make all necessary and reasonable repairs, and be responsible for any damage.

6. *Indemnification.* We further agree to indemnify you and hold you harmless from all damages caused by our occupancy of the house, and the money deposited at closing with your attorney shall be held by him also as a fund out of which you shall be reimbursed for such damages, after the assessment of same. We agree to continue our insurance on the premises until we turn over possession to you.

Very truly yours,

Roger V. Rustic

Jane C. Rustic Agreed and Accepted:

Mark C. Witkowski

Barbara J. Witkowski

(2) Contract form

THIS AGREEMENT, made this 1st day of August, 2002 between Roger V. Rustic and Jane C. Rustic, husband and wife ("Sellers"), and Mark C. Witkowski and Barbara J. Witkowski, husband and wife ("Purchasers"), each of whom is a party to the following agreement and to that certain contract to sell and purchase premises located at 12 Elm Street, Hempstead, Nassau County, New York dated June 2, 2002.

Recitals

The closing of title has been negotiated and took place on August 27, 2002, in accordance with the terms of the sale contract.

Sellers are unable to vacate the premises on the date of closing of title and desire to continue to reside within the premises until September 15, 2002.

Purchasers are willing to grant Sellers continued occupancy until the September 15, 2002, and not longer.

It is understood and agreed that:

1. Purchasers and Sellers have made their adjustments as of September 1, 2002. If Sellers remove from occupancy by such date, no additional charges shall be made or payable by them except as set forth below. If, however, Sellers remain beyond September 1, 2002, they shall pay a charge of \$77 for each day until removal, or such amount shall be deducted from any deposit or escrow held herein and given to Purchasers.
2. Sellers will deposit in the trust account of Purchasers' attorney the sum of \$4,000 as a good faith deposit to insure the performance of this agreement. The deposit will be returned to Sellers when they vacate the premises.
3. Sellers shall be responsible for the cost of any repairs, maintenance, or damage with respect to the premises resulting from their occupancy during the above period of time.
4. Sellers shall be responsible for all public and private utility charges, inclusive of oil, gas, electricity and water, for the period during their occupancy.
5. Sellers shall suffer all risk of loss or damage to their property stored or located on the premises, and shall hold Purchasers harmless from all claims or demands arising from their occupancy of the premises.
6. Sellers agree that if they fail to vacate the premises on or before September 15, 2002, a penalty of \$200 per day shall be charged against them until they vacate the premises.

2-Forms Federal Taxes Affecting Real Estate [B]

7. It is expressly understood and agreed that no landlord-tenant relationship is implied or created by this agreement, except that this agreement may be enforced in the landlord-tenant court or in any other court of the state and Seller may be put out of the premises by Purchaser's physical act if Purchaser so desires, without any further liability to Purchaser on and after September 15, 2002.

8. Seller waives any defense it may have with respect to any matter contained in this agreement.

In witness whereof the parties have duly executed this agreement, the day and year first above written.

Roger V. Rustic, Seller

Mark C. Witkowski, Purchaser

Jane C. Rustic, Seller

Purchaser

B.18 Commercial building note and mortgage--building equipment included as collateral--parties' rights regarding rent defined--no recourse against borrower--New York

COMMENT

This is a note secured by a mortgage on a commercial building which the seller of the building accepts from the purchaser as part of the purchase price.

Building equipment and fixtures as collateral:

As additional collateral for the payment of this note and mortgage, the mortgage covers "any and all articles of personal property attached to or used in any way in connection with the operation or renting of the premises." In the event of default, the mortgagee may take possession of the building or request the court to appoint a receiver to collect rents and operate the building. The right to possession of not only the building itself, but also the fixtures, equipment and furnishings necessary or desirable for the continued operation of the building and the collection of rent, can have significant economic effects. A substantial factor in the valuation of a commercial building is the amount of rent generated. Upon possession, the mortgagee is concerned not only with receiving sufficient cash flow to pay operating expenses but also maintaining rent-paying tenants in the building. The fixtures, equipment and furnishings for the operation of the building are therefore important security for the loan. Although fixtures, permanently attached to the building, are generally covered by the mortgage on the real estate, it may be advisable to take additional steps, under Article 9 of the Uniform Commercial Code, to perfect a security interest in personal property used in the operation of the building. Some practitioners take the additional step of perfecting a UCC security interest in fixtures as well.

Rent provisions:

Specific and detailed provisions dealing with rent are included in this mortgage. The building owner is prohibited from accepting rent prepayments from tenants (paragraph 28), and rents are assigned to the

mortgagee effective on default (paragraph 18). Upon default, the owner of the building is also required to pay rent, if it is an occupant in the building (paragraph 19).

No recourse:

The mortgagee agrees not to sue on the note, but to resort solely to the security of the mortgage to recover any money due on the note. If, after foreclosure, there is a deficiency, the mortgagee may not seek a judgment against the mortgagor (note and paragraph 27 of the mortgage).

For further information, see Chapters 12 and 19.

FORM

(1) Nonrecourse note

\$3,150,000 New York, July 28, 2002

FOR VALUE RECEIVED, Central Offices, Inc., a New York corporation, having its principal place of business at 250 East 57th Street, New York, New York ("Maker"), promises to pay to 236 West 32nd Street Corporation of 926 Fifth Avenue, New York, New York ("Payee"), or order, at 926 Fifth Avenue, New York, New York, or at any other place designated in writing by the holder of this note, the principal sum of \$3,150,000, as follows: \$126,000 on November 1, 2002, and a like amount of \$126,000 on the first days of February, May, August, and November in each year thereafter, to be applied first to interest at the rate of 10 percent per annum computed from the date hereof, and the balance in reduction of the principal of this note, until August 1, 2012, when the entire unpaid principal balance of together with accrued interest on this note shall become due and payable. The Maker of this note may prepay it in whole at any time after August 1, 2010, upon giving 30 days' prior written notice to the holder, without penalty or premium.

1. *Default.* The principal sum secured by this note shall become due at the holder's option on the happening of any default or event by which, under the terms of the mortgage securing this note, the principal sum may or shall become due and payable. All of the covenants, conditions, and agreements contained in the mortgage are made part of this instrument.

2. *No recourse.* This is a nonrecourse note and, anything herein to the contrary notwithstanding, Payee agrees for itself, its representatives, successors, endorsees, and assigns that (a) neither Maker nor its representatives, successors or assigns shall be personally liable on this note, it being intended that Maker's obligation to pay the principal of this note with interest thereon is included for the sole purpose of establishing the existence of the indebtedness represented hereby, and (b) in the event of default, Payee (and any such representative, successor, endorsee, or assign) shall look for payment solely to the security of the property which is the subject of the mortgage and will not make any claim or institute any action or proceeding against Maker (or any representative, successor or assign of Maker) for payment of this note (or for any deficiency remaining after application of the property which is the subject of the mortgage). Nothing contained herein, however, shall be construed to release or impair the indebtedness evidenced by this note, or of the lien upon the property mortgaged to secure it, or preclude the application of said mortgaged property to the payment hereof in accordance with the terms of the mortgage.

3. *Waiver.* Presentment for payment, notice of dishonor, protest, and notice of protest are waived.

4. *Mortgage.* This note is secured by a mortgage made by Maker to Payee of even date herewith, on property situate at 236 West 32nd Street, in the Borough of Manhattan, City and State of New York.

2-Forms Federal Taxes Affecting Real Estate [B]

5. *Amendment.* This note may not be changed or terminated orally.

Central Offices, Inc.

by _____

Conrad Johnson, President

(2) Commercial building mortgage

THIS MORTGAGE made July 28, 2002, between Central Offices, Inc., a New York corporation, having its office and principal place of business at 250 East 57th Street, Borough of Manhattan, City and State of New York, the mortgagor, and 236 West 32nd Street Corporation, a New York corporation, having its office and principal place of business at 926 Fifth Avenue, Borough of Manhattan, City and State of New York, the mortgagee.

Witnesseth, that to secure payment of an indebtedness in the sum of \$3,150,000, lawful money of the United States, to be paid with interest thereon, according to a certain note or obligation bearing even date herewith, the mortgagor hereby mortgages to the mortgagee

All that certain plot, piece or parcel of land, situate, lying and being in the Borough of Manhattan, City, County and State of New York, bounded and described as follows:

[Insert Description of Property]

This mortgage and the accompanying note have been executed and delivered by authority of the mortgagor's Board of Directors.

Together with any and all articles of personal property attached to or used in any way in connection with the operation or renting of the premises, including all partitions, elevators, engines, motors, dynamos, boilers, furnaces, fuel oil, coal; heating, refrigerating, air-conditioning, plumbing, gas and electric light equipment; vacuum cleaning system, sprinkler system or other fire preventing or extinguishing equipment and materials; stoves, ranges, refrigerators, ice boxes, awnings, screens, window shades; furniture and furnishings for the common halls and lobbies; hotel, theatre, meeting hall, club and lodge furnishings and equipment; also all other articles constituting a part of, or used in connection with the operation of, the plant of the mortgaged premises, to all of which the mortgagor represents that the mortgagor has title free from any prior liens or encumbrances, and all buildings, structures, improvements, fixtures and articles of personal property at any time hereafter constructed, affixed to or placed upon said premises or used in connection with the operation thereof. This provision shall apply to any personalty or fixtures, now or hereafter in the premises, even though any fixture or article of personal property may not form a part of the realty as a matter of law, or may not be essential to the support of the realty. It is intended that such fixtures and articles of personal property shall become a part of the mortgaged realty and be covered by the lien of the mortgage. If any security agreement is executed simultaneously with the execution hereof, the security agreement shall be deemed to be given by the mortgagor and accepted by the mortgagee as additional security and shall be in confirmation of the foregoing. The execution or delivery of such other security agreement shall not render the security interest or mortgage herein contained ineffective or without force, regardless of whether any financing statement or mortgage is filed or refiled, the security interest herein being, notwithstanding the execution and delivery of such security agreement, fully effective and operative. If any of the personal property or fixtures are placed in the premises by the mortgagor or any successor in interest subject to any conditional bill of sale, or subject to a security interest, the lien of this mortgage shall be deemed to include the

2-Forms Federal Taxes Affecting Real Estate [B]

equity and interest of the mortgagor or any such successor in interest in any of such personal property. In the event of any default hereunder, all the right, title and interest of the mortgagor or of any such successor in interest in and to any and all personal property is assigned to the mortgagee, together with any benefits of any deposits or payments theretofore made thereon by the mortgagor or any such successor in interest. The mortgagor grants to the mortgagee a security interest in all fixtures and personal property to the extent provided herein.

Together also with all awards made by any Municipal, County, State, Federal or other governmental authority to the present and all subsequent owners of the premises, including awards for any changes of grade of streets affecting the premises. All such awards are assigned to the mortgagee, and its legal representatives, successors and assigns. The mortgagee, for itself and its legal representatives, successors and assigns (at its or their option) is authorized, directed, and empowered to collect and receive the proceeds of all such awards from the authorities making the same and to give proper receipts and acquittances therefor, and to apply the proceeds toward the payment of the amount owing on account of this mortgage and its accompanying note, even though the amount owing on account of the mortgage and note is not then due and payable. The mortgagor, for itself and its legal representatives, successors, and assigns, agrees to and with the mortgagee and its legal representatives, successors, and assigns, upon demand by the holder, to make, execute, and deliver all assignments and other instruments sufficient for the purpose of assigning the awards to the holder of this mortgage, free, clear, and discharged of all encumbrances of any kind or nature.

And the mortgagor covenants with the mortgagee as follows:

1. *Payment of debt.* The mortgagor will pay the indebtedness as above provided.

2. *Insurance on real property.* The mortgagor will keep the buildings on the premises insured against loss by fire and all other hazards and casualties against which the mortgagee, from time to time, deems it advisable to be insured for its behalf. The mortgagor will assign and deliver to the mortgagee fully prepaid, unassigned, unpledged, and unencumbered policies of insurance required by the mortgagee. The unexpired premiums on such policies shall at all times likewise be unassigned, unpledged, and unencumbered, except that in the event of any default hereunder, any unearned premium on any policy of insurance for fire or any other insurance required by the mortgagee, is assigned to the mortgagee. The mortgagor will reimburse the mortgagee for any premiums paid for insurance by the mortgagee on the mortgagor's default in so insuring the buildings or in so assigning and delivering said policies. The provisions of subdivision 4 of Section 254 of the Real Property Law applying to insurance against loss by fire shall apply, so far as possible, to any other insurance required by the mortgagee hereunder.

3. *Insurance on personal property.* The mortgagor will insure and keep insured all of the articles of personal property, referred to above, against loss by fire or any other casualty or hazard against which the mortgagee from time to time deems it advisable to be insured, for the mortgagee's benefit. This provision shall be construed in the same manner as the foregoing provision for the keeping of the buildings on the premises insured against loss by fire and any other casualty or hazard.

4. *Maintenance of building.* The mortgagor will maintain the buildings on the premises in good repair. If all or any portion thereof is rented or adopted for renting, the mortgagor will maintain same in good rentable condition at all times, whether or not occupied.

5. *Structural changes.* No structural changes shall be made to the building on the premises, and no building on the premises shall be removed or demolished, without the mortgagees' prior written consent.

6. *Payment defaults.* The entire principal sum, and the interest thereon, shall become due, at the mortgagee's option, after default in any of the following: in the payment of any installment of principal when due, or of interest for ten days; in the payment of any taxes, including corporate franchise taxes payable by any corporate owner of the premises, water rates, or assessments for 30 days; either in assigning or delivering the policies insuring the buildings against loss by fire,

2-Forms Federal Taxes Affecting Real Estate [B]

or any other hazard or casualty referred to in paragraph 2 hereof, or in reimbursing the mortgagee for premiums paid on such insurance; or upon request, in furnishing a statement setting forth the amount due on the mortgage and whether any offsets or defenses exist against the mortgage debt.

7. *Receiver.* The holder of this mortgage shall be entitled to the appointment of a receiver in any action to foreclose the same.

8. *Taxes.* The mortgagor shall pay all taxes, including corporate franchise taxes, assessments, and water rates, and, on demand, shall submit receipted bills therefor to the mortgagee. If the mortgagor fails to pay such taxes and assessments, the mortgagee may do so. If any duplication of payment results from the mortgagor's failure to submit receipted bills, mortgagor shall bear the costs of procuring a refund of duplicate payments.

9. *Debt statement.* The mortgagor, within six days upon request in person or within 15 days upon request by mail, will furnish a written statement, duly acknowledged, setting forth the amount due on this mortgage and whether any offsets or defenses exist against the mortgage debt.

10. *Notice.* All notices and demands or requests under this mortgage shall be served either in person or by registered or certified mail, postage prepaid, return receipt requested, addressed to the other party at its address set forth at the beginning hereof. Either party, however, may designate a different address by serving written notice of change of address on the other party, in the same manner.

11. *Warranty of title.* The mortgagor warrants the title to the premises.

12. *One parcel.* In case of a sale, the premises, or so much thereof as may be affected by this mortgage, may be sold in one parcel.

13. *Defaults.* The principal shall become due, at the mortgagee's option, upon the occurrence of any of the following events of default: (a) after default for 30 days, after notice and demand, in the payment of any installment of any present or future assessment for local improvement, which is, or may become, payable in installments, and which has affected, now affects, or may hereafter affect the premises, even if the installments are not due and payable when the notice and demand is made; (b) immediately after any structural change is made, or upon the actual or threatened demolition or removal of any present or future building on the premises, without the mortgagee's prior written consent. In such event, interest on the indebtedness secured by this mortgage shall be 12 percent per annum from the date that the unauthorized structural change, demolition, or removal commenced, but only if such interest rate is then less than 12 percent per annum; (c) upon any default in keeping the building and contents on the premises insured against loss by fire or any other casualty or hazard, as required by paragraphs 2 and 3; or (d) if the buildings on the premises are not maintained in reasonably good repair or good rentable condition.

14. *Real estate and mortgage taxes.* If, after the date of this mortgage, the State of New York enacts any law that deducts the lien on land from the value of the land for tax purposes, or changes in any way the laws of taxation of mortgages, or debts secured thereby, for State or local purposes, or the manner of collecting such taxes, so as to affect such mortgage, the holder of the mortgage and of the debt secured thereby may, by giving 30 days' written notice, require the owner of the land to pay the mortgage debt. If such notice is given, the debt shall become due, payable, and collectible when the 30-day period expires.

15. *Mortgage foreclosure moratorium laws.* If this mortgage is now or hereafter protected or affected by moratorium laws, or by any other statutes preventing the mortgagee from foreclosing for nonpayment of the principal at the expiration date hereof, the mortgagor shall continue to pay amortization to the mortgagee (if the mortgagee so elects, and only so long as such laws or statutes protect the mortgagee from foreclosure for nonpayment of the balance of the principal debt), at the same rate existing during the last year of this mortgage, on its maturity date, and, thereafter, on

2-Forms Federal Taxes Affecting Real Estate [B]

the same days of the months provided for herein. If, however, the laws of New York State require, in connection with mortgages so protected or affected, that installment payments to the mortgagee amortizing such debt be greater, in aggregate per annum, than the aggregate per annum of the payments that would be due if based on such last year's payments, the mortgagee may elect, as soon as permitted after the debt matures, that the installments payable, after the installment required by this paragraph to be paid on the maturity date hereof, shall be at the rate and as provided for in such laws. If the mortgagor defaults in paying any such amortization installment on its due date, the mortgagee may foreclose solely by reason of such default.

16. *Litigation expenses.* If any action or proceeding is commenced (except an action to foreclose this mortgage, or to collect the debt secured thereby) and to which the holder of this mortgage is made a party, or in which it becomes necessary to defend or uphold the lien there of, all sums paid by the holder for the expense of any litigation to prosecute or defend the rights and lien created by this mortgage (including reasonable counsel fees), shall be paid by the mortgagor, together with interest thereon at 12 percent per annum. Any such sum, and the interest thereon, shall be a lien on the premises before any right or title to, interest in, or claim upon the premises attaches or accrues, subsequent to the lien of this mortgage, and shall be deemed to be secured by this mortgage and by the note secured thereby. In any action or proceeding to foreclose this mortgage, or recover or collect the debt secured thereby, the provisions of law respecting the recovery of costs, disbursements, and allowances shall not be affected by this covenant.

17. *Violations.* If the premises, as they exist or are used, or because of changes in their physical condition or use, are or may become in violation of any New York State statute, or any other applicable local or municipal law, including zoning ordinances, labor laws, multiple dwelling laws, building codes, fire ordinances, and the like, the mortgagor shall take immediate steps to alter the premises to comply with such laws. In any such event, (a) the alteration or repair shall proceed with all due diligence and be completed within a reasonable time, and (b) there shall be submitted to the mortgagee, upon completion (i) receipted bills evidencing the payment of the cost of such work, and (ii) satisfactory proof that no liens or encumbrances have been, or will be, filed on account thereof. If the alterations or repairs require filing and approval of plans or specifications by a governmental department, the plans and specifications must first be approved by the mortgagee. The mortgagor, on completion, shall procure and exhibit to the mortgagee a Certificate of Occupancy issued by such governmental department, and a Notice of Dismissal of all violations. If the alterations do not require filing and approval of plans, the mortgagor shall produce, on completion, a Notice of Dismissal of all violations. For the purpose of this mortgage, any attempted compliance with the above by the partial, or total, vacating of the premises, shall not be considered compliance with the requirements hereof. On any occasion, when the premises are deemed to be in violation of any law, order, decree, code, violation or requirement, it shall be deemed so to be on the assumption that the premises are, or will be, fully occupied. The repairs and alterations to be made, in order to comply with the foregoing, shall include all unoccupied portions of the premises with like effect as though they were fully occupied.

18. *Assignment of rents.* In the event of any default hereunder, by the mortgagor or any subsequent owner of the premises, the rents and profits of the mortgaged premises are assigned to the holder of the mortgage as further security for the payment of the indebtedness. Immediately upon the occurrence of any default or breach, the mortgagee may immediately, with the irrevocable consent of the mortgagor, or any subsequent owner or person then in possession, given and evidenced by the execution of this mortgage, enter upon and take possession of the premises, including any portion occupied by the mortgagor or any subsequent owner. At the option of the mortgagee, such entry and taking of possession shall be accomplished either by actual physical entry and taking of possession or by written notice given personally or by mail addressed to the owner at his address as it then appears on the mortgagee's records. Such entry and taking of possession may be so accomplished irrespective of the pendency of any action of foreclosure by the mortgagee or any junior lienor. Simultaneously with such actual physical entry and taking of possession or the giving of written notice, the rents, issues, profits and all other amounts accrued, and accruing, to the owner by reason of the ownership of the premises, including deposits held as security under leases, thereupon shall be deemed to be assigned as security to the mortgagee, together with the leases and all other documents evidencing such rents, issues, profits and other amounts, including deposits held as security under leases. For the purpose of giving immediate effect to such

2-Forms Federal Taxes Affecting Real Estate [B]

assignment, no other or further instrument of assignment or other document shall be necessary or requisite. The mortgagee may then let all or any part of the premises, collect and receive all the rents, issues, profits, and other amounts past due, due, or to become due to the mortgagor or any subsequent owner of the premises by reason of such ownership, and apply the same after payment of all necessary charges and expenses in connection with the operation of the premises, including any managing agent's commission, at the mortgagee's option, on account of the interest, amortization, taxes, water charges and assessments, insurance premiums, and any advance made by the mortgagee for the account of the mortgagor, or on account of the debt hereby secured.

19. *Rent upon possession.* In the event of entry, of taking of possession by the mortgagee pursuant to the above provisions, or of the appointment of a receiver of rents or profits in any action brought by the mortgagee under this mortgage, the mortgagor or any subsequent owner, if in possession of any portion of the mortgaged premises, shall be obligated to pay to the mortgagee or to the receiver of rents, a reasonable rental monthly in advance for the portion of the premises so occupied. If a receiver is appointed by reason of such default or breach, the amount of rent payable shall be determined upon an application to be made by the receiver to the court for a determination of the reasonable rental value payable by the mortgagor, or any subsequent owner. In the event of a default in the payment of any advance monthly rent, to be determined as above stated, the mortgagor, or any subsequent owner, may be dispossessed by the usual summary proceedings in the same manner that any defaulting tenant may likewise be dispossessed.

20. *Assignment.* The mortgagor shall not assign, pledge, or otherwise alienate any rents, issues, or profits from the premises without the mortgagee's prior written consent and any such attempted assignment, pledge, or alienation shall be subject and subordinate to the rights of the mortgagee.

21. *Proportionate income payments.* If, at any time, the income of the property is any criterion of the amount of interest, or amortization, payable by the owner, either by operation of any law, or otherwise, the portion of the mortgaged premises occupied by the owner shall be treated as income producing and the reasonable rental value thereof shall be treated as additional income from the mortgaged premises.

22. *Books and records.* If by law, or the provisions hereof, the amount of income from the premises is any basis for a determination of the amounts payable to the mortgagee, the mortgagor shall make its books, records and vouchers of income and disbursements available for inspection by the mortgagee at any time, upon the mortgagee giving mortgagor five days' prior written notice.

23. *Accounting.* The mortgagor, or any subsequent owner of the premises, upon demand, shall furnish to the mortgagee or any subsequent holder of this mortgage, a full and complete statement of all income and expenses incurred in the operation and maintenance of the premises.

24. *Trust funds.* In compliance with Section 13 of the Lien Law, the mortgagor shall receive the advances secured by this mortgage, and hold the right to receive such advances, as a trust fund to be applied first for the purpose of paying the cost of the improvement, and the mortgagor shall apply the advances first to the payment of the cost of the improvement before using any part of them for any other purpose.

25. *Acceleration.* Upon the breach of any covenant hereof, at the option of the mortgagee, or any subsequent holder of this mortgage, the entire principal sum secured hereby shall become due and payable, and the mortgagee, or any subsequent holder hereof, may foreclose this mortgage.

26. *Sundays and holidays.* If the date for payment of all or any part of the principal sum secured by the note to which this mortgage is collateral falls on a Sunday or any public holiday other than a half holiday, it is understood and agreed that interest thereon at the rate provided for therein shall be paid to the actual date of payment of such principal sum.

27. *No recourse.* The mortgagee shall not exercise its right to institute any action at law against the mortgagor for the

payment of any sum of money which is or may be payable under the note secured hereby, other than the right to foreclose, which is specifically reserved; nor shall it seek against the mortgagor any judgment for a deficiency in any action to foreclose this mortgage, provided, however, that nothing shall be, or be deemed to be, a release or impairment of the indebtedness, or of the lien thereof upon the Premises, or preclude the holder of the note secured by the mortgagee from foreclosing the mortgage in case of any default, or from enforcing any and all rights under and by virtue of the mortgage.

28. *Rent prepayment.* The mortgagor shall not accept the prepayment of rent under any leases for a period of more than one month.

29. *Purchase money.* This is a Purchase Money Mortgage given to secure a portion of the purchase price of the mortgaged premises conveyed this day from the mortgagee, as seller, to the mortgagor, as purchaser.

30. *Late payment penalty.* If default is made in the payment of the indebtedness when due, pursuant to the terms hereof, the mortgagee shall be entitled to receive interest on the entire unpaid principal sum at the legal rate of interest at the time of such default, at 12 percent, or at the highest rate of interest set forth herein or in the obligation secured by the mortgage, whichever is the greater, to be computed from the due date and until the actual receipt and collection of the entire indebtedness. This charge shall be added to and be deemed secured by the mortgage. The within clause, however, shall not be construed as an agreement or privilege to extend the mortgage, nor as a waiver of any other right or remedy accruing to the mortgagee by reason of any such default.

31. *Collection fees.* If the mortgage is referred to attorneys for collection or foreclosure, the mortgagor shall pay all sums, including reasonable attorney's fees, incurred by the mortgagee, together with all statutory costs, disbursements and allowances, with or without the institution of an action or proceeding. All such sums with interest thereon at the rate set forth herein shall be deemed to be secured by the mortgage and collectible out of the mortgaged premises.

32. *Late charge.* If any payment provided for herein is made more than 15 days after the due date thereof, a "late charge" of four cents for each \$1 of such payment shall become immediately due to the mortgagee as liquidated damages for failure to make prompt payment. Such charge shall be payable not later than the due date of the next payment, and shall be secured by such mortgage.

33. *Condemnation.* In the event of condemnation, the mortgagee shall not be limited to the interest paid on the award by the condemning authority but shall be entitled to receive out of the award interest on the entire unpaid principal sum at the rate herein provided. The mortgagor assigns to the mortgagee so much of the balance of the award payable by the condemning authority as is required to pay such total interest.

34. *Ownership change fee.* For recording on its records a change of ownership of the mortgaged property, the mortgagee shall be entitled to receive a fee of \$50, except that in no event shall this fee be payable if it would render the loan usurious under the laws of the jurisdiction where the property is situated.

35. *Prepayment.* The mortgagor may prepay this mortgage in whole without penalty or premium after eight years from the date hereof, by giving the holder of the mortgage 30 days' prior written notice.

36. *Rent roll statement.* The mortgagor shall furnish to the mortgagee, within 15 days after the mailing by the mortgagee of a written request therefor, a detailed certified statement in writing, duly sworn, showing all income derived from the operation of the premises, and all disbursements made in connection therewith, and containing a list of the names of all tenants of the premises and all occupants other than those claiming possession through such tenants, the portion or portions of the premises occupied by each such tenant and occupant, the rent and other charges payable under the terms of their leases or other agreements, and the periods covered by such leases or other agreements. Such statement shall cover the period of time specified in the request.

2-Forms Federal Taxes Affecting Real Estate [B]

37. *Corporate authority.* The execution and delivery of this mortgage has been duly authorized by the mortgagor's Board of Directors, and the mortgagor's certificate of incorporation does not require any vote or consent of the shareholders to authorize the making of this mortgage.

38. *Insurance proceeds.* If the buildings on the mortgaged premises are damaged by fire or other insured casualty, the mortgagee shall deliver to the owner of the premises the loss proceeds, if any, received from the insurance companies by appropriate progress payments if the work or repair and rehabilitation progresses to full restoration to the reasonable satisfaction of the mortgagee. Any excess of moneys over the cost of restoration of the damaged buildings is to be applied toward reduction of the mortgage principal or returned to the owner at the mortgagee's discretion. No moneys shall be delivered to the owner if the mortgage is in arrears or under foreclosure, and any loss under the fire insurance policies, as stated in the loss payable clause, shall be payable to the mortgagee.

39. *Undisclosed principals.* The covenants to pay the indebtedness contained herein shall be binding only upon the mortgagor, and not upon any disclosed or undisclosed principal or any other person or corporation.

40. *Entire agreement; modification.* This instrument constitutes the entire agreement between the parties. No modification or discharge of this mortgage shall be effective unless it is in writing and signed by the party, or by its duly authorized agent, against whom enforcement of the change or discharge is sought.

41. *Binding effect.* This instrument shall be binding upon and inure to the benefit of both parties and their respective heirs, legal representatives, successors, and assigns.

42. *Governing law.* This mortgage shall be construed in accordance with and governed by the laws of the State of New York.

43. *Headings.* Headings in this instrument are for convenience and reference only and are not deemed to be a part thereof.

44. *Non-waiver.* No delay or failure by either party to exercise any right under this mortgage, and no partial or single exercise of such right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

45. *Counterparts.* This instrument may be executed in one or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

In witness whereof this mortgage has been duly executed by the mortgagor.

B.19 Wraparound mortgage--loan evidenced by promissory note and secured by second mortgage

COMMENT

A wraparound mortgage is a form of second mortgage and is subordinate to an existing first mortgage or other prior mortgages, on the real property involved. The first mortgage remains outstanding and unsatisfied but the face of a wraparound mortgage restates the actual indebtedness by adding in the unpaid balance of the first mortgage to raise the total. The wraparound contains a special provision for payment of the debt service on the first mortgage. The loan is otherwise evidenced and secured by the usual form of promissory note and a second or junior mortgage. The annual debt service is figured on the over-stated face amount so the wraparound mortgage interest rate is always greater than the interest rate on the first mortgage alone.

Prior mortgage payments:

The wraparound lender agrees, when he receives his interest payments on the wraparound mortgage, to deduct and remit directly to the first mortgagee the required debt service on the first mortgage. If the wraparound lender does not receive the debt service on the wraparound mortgage, he has no obligation to remit the payments on the first mortgage. Failure to pay debt service on a wraparound mortgage constitutes a default under that mortgage. In addition, the borrower expressly agrees not to make any further payments to the first mortgagee on account of the first mortgage.

Borrower's obligations:

The wraparound mortgage usually contains covenants by the borrower identical with those in the first mortgage, including escrow of taxes and insurance premiums which, on receipt by the wraparound lender, will be remitted to the first mortgagee. The first mortgage must not contain covenants personal to the borrower and which cannot be cured or complied with by the wraparound mortgagee. The wraparound borrower agrees to comply with all nonmoney covenants in the first mortgage and a default in the first mortgage is deemed a default in the wraparound mortgage.

The borrower also has the following obligations:

(1) Notification to the first mortgagee that payments of debt service, as well as any prepayment or payment after acceleration, are to be received from the wraparound mortgagee, in his behalf;

(2) Authorization of acceptance of such payments by the first mortgagee or prior mortgagees;

(3) Direction of due delivery to the wraparound lender of all notices by the lender under the mortgage.

Economic advantages:

A hybrid mortgage of this type permits a lender to advance funds to a borrower in excess of an existing first mortgage, or to enable the borrower to obtain terms different from those of the existing first mortgage, without requiring the discharge of the existing mortgage. Usually, the wraparound mortgagee advances the difference between the amount due on the existing mortgage and the amount of the wraparound mortgage to the mortgagor. However, the wraparound mortgagee may instead give the borrower terms that are considerably different from those of the existing mortgage. In either case, the wraparound mortgagee takes over the obligations in connection with the existing mortgage. The borrower need no longer deal with the original mortgagee.

For further information, see Chapters 7, 12, and 13.

FORM

This Mortgage Agreement, made this June 29, 2002, between John Gigante & Sons, Inc., a New York corporation, having its office at 370 Fifth Avenue, New York, New York ("Mortgagor"), and Panadyne Corporation, a New York corporation, having its office at 37 Park Avenue, New York, New York ("Mortgagee").

Recitals

Mortgagor is the owner of the fee simple title to the real estate and the buildings and improvements thereon, situated and being in the County of Westchester, State of New York (collectively, the "Mortgaged Premises"), more particularly described in Exhibit A attached to this agreement.

The consideration for this mortgage is \$680,166.03, representing cash advanced by Panadyne Corporation, and \$1,769,833.97 representing the assumption, by Panadyne Corporation of the interest and principal payments under the First Mortgage (the "Wraparound Mortgage").

The Mortgaged Premises are subject to, and the Wraparound Mortgage is subordinate to, a certain mortgage note and mortgage securing such note (collectively, the "First Mortgage"). The note by its terms matures on January 1, 2016. The mortgage and the mortgage note, both of which are dated August 3, 1994, were originally made between Morris Management Corporation, as mortgagor, and Merchants Bank of New York Trust Company, as mortgagee. The mortgage was recorded in the Clerk's Office of the County of Westchester on August 5, 1994, in Liber 6862 of Mortgages on Page 6. The mortgage and mortgage note were subsequently assigned by Merchants Bank of New York Trust Company to Massachusetts General Life Insurance Company by assignment dated June 24, 1995 and recorded in the Clerk's Office of the County of Westchester on January 5, 1985, in Liber 6994 on Page 44. The mortgage constitutes a first mortgage lien upon the Mortgaged Premises described in Exhibit A attached hereto, the principal balance of which is \$1,769,833.97 as of the date of this agreement, the Mortgagor on the date hereof having made the principal payment coming due on July 1, 2002.

Now, therefore, the parties agree as follows:

1. *Wraparound mortgage.* The principal amount due to the mortgagee by the mortgagor is \$2.45 million. This sum represents \$680,166.03, the amount advanced by the mortgagor to the mortgagee upon the execution of this agreement, plus \$1,769,833.97, representing the mortgagee's assumption of the interest and principal payments under the First Mortgage.

2. *Interest.* The interest rate payable on the principal sum of the Wraparound Mortgage shall be 10 percent per annum. Such interest shall commence to accrue on June 29, 2002.

3. *Payments.* The principal sum of the Wraparound Mortgage, together with interest thereon at 10 percent per annum, shall be payable as follows: Constant equal monthly payments of \$34,166.66 each shall be paid on the 15th of each calendar month, starting on July 15, 2002, and ending on January 15, 2015, at which date the entire unpaid principal balance of the Wraparound Mortgage, together with accrued interest, shall be due and payable. Each constant monthly payment when received shall be applied first in payment of interest on the unpaid balance, and the balance in reduction of the unpaid principal sum.

4. *Payments on first mortgage.* (a) *Payment.* Mortgagee shall pay to the holder of the First Mortgage, the \$1,769,833.97 unpaid principal balance of the First Mortgage, together with all interest thereon accruing thereunder from and after June 29, 2002, as and when required by the terms of the First Mortgage, that is, by paying the constant monthly installments of principal of \$14,333.33 before the expiration of the applicable grace periods provided for such payments as contained in the First Mortgage.

(b) *Other obligations.* With the sole exception of the payments of principal, and of the interest due thereon after June 29, 2002, Mortgagee does not assume any of Mortgagor's obligations under the First Mortgage. Mortgagee's obligation to make the above payments of principal and interest under the First Mortgage shall be solely for the benefit of Mortgagor hereunder or any subsequent owner of the Mortgaged Premises, and shall not inure to the benefit of, or be enforceable by, any third person or party, and specifically not the holder of the First Mortgage.

5. *Prepayments of first mortgage.* Mortgagee shall not make any prepayments of principal or of interest under the First Mortgage, without Mortgagor's prior written consent. Mortgagee, however, may prepay all or any part of the First Mortgage if Mortgagor commits a default under either the First Mortgage or the Wraparound Mortgage, or in any other instance in which this agreement grants Mortgagee the express or implied right to make prepayments of the First Mortgage. Such implied right shall arise whenever a prepayment right is necessary or appropriate for Mortgagee to have the benefit of some other right granted to it under the Wraparound Mortgage (for example, Refinancing mentioned in paragraph 35).

6. *Modification of first mortgage.* Mortgagor shall not exercise any right or privilege of prepayment (in whole or in part) of principal or interest under the First Mortgage, and shall not enter into any agreement with the holder of the First Mortgage modifying or amending any of its provisions, including the provisions dealing with payment of principal or interest, without Mortgagee's prior written consent.

7. *Obligations of mortgagor--first mortgage.* (a) *Performance.* Mortgagor shall comply with all of the terms, covenants, and conditions of the First Mortgage, other than with respect to the payment of the monthly constant payments of principal and interest due under the First Mortgage.

(b) *Default.* If Mortgagor shall fail to comply with any term, provision, or condition of the First Mortgage within five days before the expiration of any applicable grace period provided for in the First Mortgage, and Mortgagor's noncompliance results in a default thereunder (other than with respect to payment of the constant monthly payments), such failure shall automatically constitute a default under the Wraparound Mortgage. Such deemed default shall, in turn, entitle Mortgagee to exercise any or all of the same rights and remedies given to it in the Wraparound Mortgage in the event of a default in the payment of principal or interest thereunder.

8. *Principal reductions.* If the unpaid principal balance of the First Mortgage is reduced either by application by the holder of the First Mortgage of insurance proceeds or of condemnation proceeds in reduction of the principal balance, or by prepayments made by Mortgagor with Mortgagee's prior written consent, so that in either event Mortgagee's

obligation under the Wraparound Mortgage to pay the holder the unpaid principal balance of the First Mortgage is similarly reduced, Mortgagee agrees that Mortgagor's obligation to pay the principal indebtedness to Mortgagee under the Wraparound Mortgage, shall be likewise reduced by an equivalent amount, which shall be deducted from the payment Mortgagor is to make to Mortgagee under the Wraparound Mortgage at maturity. Such deduction, however, shall not operate to reduce Mortgagor's obligation to make the constant monthly payments (of principal and interest) due and payable under the Wraparound Mortgage.

9. *Grace period.* If Mortgagee defaults in making any required constant payment (of principal interest) under the First Mortgage, at least five days before the expiration of the applicable grace period therefor, Mortgagor may advance the necessary funds to cure such default. All funds so advanced by Mortgagor, together with interest thereon at the rate of 10 percent per annum, shall be credited against the next installment(s) of the interest and principal due under the Wraparound Mortgage.

10. *Title searches and defects.* Each month hereafter, Mortgagor shall furnish or cause to be furnished, at its expense, a continuation title search issued by The Urban Title Guaranty Company (the "Title Company"), showing the status of the title records in the Office of the County Clerk of Westchester County, respecting any liens or encumbrances which are filed against the Mortgaged Premises except the lien of the First Mortgage, the Wraparound Mortgage, and any other liens or encumbrances which were recorded at the date of this agreement. If a Title Company search discloses the entry of any liens or encumbrances, other than liens upon personal property created by occupancy tenants, Mortgagor shall cause the liens or encumbrances to be forthwith discharged of record by bonding or otherwise. If Mortgagor fails to do so within ten days after receiving written notice from Mortgagee, such failure shall constitute a default under the Wraparound Mortgage and entitle the Mortgagee to accelerate the maturity date thereof immediately, and Mortgagee may advance funds necessary to effect a discharge of such liens or encumbrances. All funds so advanced, together with interest thereon at the rate of 12 percent per annum (or lesser percentage, not exceeding the maximum rate legally collectible if 12 percent exceeds the maximum legal rate), shall be payable by Mortgagor to Mortgagee on demand, and shall be recoverable by Mortgagee in addition to all principal and interest then due on the Wraparound Mortgage, and shall be treated as part of the principal debt thereon for which the Wraparound Mortgage shall stand as security.

11. *Casualty and condemnation.* Notwithstanding any contrary provision above: (a) *Casualty.* In case of casualty to any portion of the Mortgaged Premises resulting in damage or destruction, all insurance moneys paid to Mortgagee, less any actual costs, fees and expenses incurred in connection with the adjustment of the loss, and provided no default exists under the terms of the Wraparound Mortgage, shall be made available to Mortgagor from time to time towards the cost of restoring the Mortgaged Premises, as the work of restoration progresses. Such payments shall be made on the certification of an independent, reputable licensed architect of the Mortgagor or of the then owner of the Mortgaged Premises, showing the amounts actually expended or incurred in connection with such restoration. This provision shall be further conditioned on proof satisfactory to Mortgagee being submitted to Mortgagee in writing before the request for release of any proceeds, that the cost of such restoration will not exceed the net amount of the insurance proceeds actually collected. If it is determined that the cost of restoration will exceed the net amount of such proceeds, Mortgagor shall deposit with Mortgagee sufficient funds (or security therefor reasonably acceptable to Mortgagee) which, when added to the net insurance proceeds collected, shall be adequate to pay for the complete restoration. If the amount of the net insurance proceeds received by Mortgagee from the insurance carrier, plus any additional funds paid by Mortgagor, exceeds the actual amount necessary to effect such restoration, then after the completion of such restoration, any balance remaining in Mortgagee's hands shall be applied by Mortgagee to the payment of principal due under the Wraparound Mortgage at maturity. However, no such principal payments shall operate to reduce Mortgagor's obligation to make the constant monthly payments (of principal and interest) due and payable under the Wraparound Mortgage. The provisions of this subparagraph (a) are subject to the rights of the holder of the First Mortgage. Prior to release of funds under this subparagraph (a) or subparagraph (b), Mortgagor shall submit proof satisfactory to Mortgagee that there are no claims for mechanics liens.

(b) *Eminent domain.* In the event of any partial taking of the Mortgaged Premises in condemnation or by right of

2-Forms Federal Taxes Affecting Real Estate [B]

eminent domain, Mortgagee shall, if Mortgagor is not in default in performing any covenant or agreement contained herein, make the net award paid to Mortgagee, less all expenses incurred in effecting collection thereof, available from time to time as work progresses to Mortgagor or the then owner of the Mortgaged Premises for the purpose of restoring the improvements thereon to a complete architectural unit. Such award shall be made available to Mortgagor or the then owner of the Mortgaged Premises in the same manner and under the same conditions as required in the case of fire insurance proceeds under subparagraph (a) of this paragraph. The preceding provision shall apply only if Mortgagor or the then owner of the premises proceeds, with reasonable diligence, to so restore the improvements. The provisions of this subparagraph (b) are subject to the rights of the holder of the First Mortgage.

12. *Reimbursement.* If Mortgagor defaults in performing any covenant or condition hereof, Mortgagee may perform such covenant or condition. In such case, the expense thereof, together with interest at 12 percent per annum (or lesser percentage, not exceeding the maximum rate legally collectible, if 12 percent exceeds the maximum legal rate) from the date the expense is incurred until the date Mortgagor reimburses Mortgagee, shall immediately be due and payable from Mortgagor to Mortgagee, and be secured by the Wraparound Mortgage.

13. *Financial and operating reports.* Mortgagor shall furnish Mortgagee, within 30 days after Mortgagee mails a written request (but not more than once in any year), a detailed statement, signed by Mortgagor (or by one of its duly authorized officers if it is a corporation, or by a general partner if it is a partnership), covering the period specified in such request. The statement shall show all income derived from the operation of the Mortgaged Premises and all disbursements made in connection therewith, and a rent roll listing all tenants (which may be by apartment or office numbers instead of names) of the Mortgaged Premises, the rent and other charges payable under the terms of their leases or other agreements, and the expiration dates of their leases. The Mortgagee and its authorized representatives shall have the right to enter and inspect the Mortgaged Premises at all reasonable times.

14. *Covenants run with land.* The covenants contained in this agreement shall run with the land and bind Mortgagor, its successors and assigns, and all subsequent owners, encumbrancers, tenants, and subtenants of Mortgaged Premises, and shall inure to the benefit of the Mortgagee, its personal representatives, successors, and assigns, and all subsequent holders of the Wraparound Mortgage.

15. *Attorneys' fees; defenses waived.* Mortgagor shall pay Mortgagee its reasonable attorneys' fees if (a) any mortgage secured by the Wraparound Mortgage is placed in the hands of an attorney for collection, either after maturity or upon Mortgagor's default; (b) legal proceedings are instituted for the recovery of all or part of such note, or for interest thereon; or (c) such note is placed in the hands of an attorney to protect the rights of the holder or to enforce any agreement contained in the Wraparound Mortgage. Mortgagor waives any defense, setoff, or counterclaim (except those resulting from Mortgagee's failure to make the constant monthly payments under the First Mortgage, as provided in paragraph 4(a)) in any action or proceeding to enforce payment or any other provision of the Wraparound Mortgage.

16. *Condemnation; application of proceeds.* If all or part of the Mortgaged Premises are taken in condemnation by any governmental authority, the Wraparound Mortgage and the notes secured by it, after vesting of title in such condemnation and until paid, shall nevertheless continue to bear interest at the rate of 10 percent per annum (or lesser percentage not exceeding the maximum rate legally collectible if 10 percent exceeds the maximum legal rate). If the rate of interest on the condemnation award is less than the 10 percent rate, Mortgagor covenants to pay to Mortgagee the difference between the 10 percent interest and the interest paid by the government or condemning authority, computed upon the unpaid principal from the date to which interest on the Wraparound Mortgage has been paid to the date of payment of the award to the Mortgagee. Mortgagor assigns to Mortgagee so much of the award in such condemnation as is required to pay the difference in interest. The foregoing assignment of the award is in addition to, and not in derogation or limitation of, the rights in and claim to any condemnation award for the taking of the whole or part of the Mortgaged Premises which, by virtue of the Wraparound Mortgage or by operation of law, Mortgagee may have for the principal and interest under the Wraparound Mortgage unpaid and accrued on the date of the vesting of title in such condemnation.

2-Forms Federal Taxes Affecting Real Estate [B]

17. *Leases.* Mortgagor shall not cancel, abridge, or otherwise modify existing or future tenancies, sub-tenancies, leases, or sub-leases of the Mortgaged Premises, or accept prepayment of installments of rent without Mortgagee's prior written consent, which it shall not unreasonably withhold or delay. However, Mortgagor may cancel any lease, without Mortgagee's consent, if simultaneously therewith Mortgagor enters into a new lease with a replacement tenant, and (a) the new tenant has a net worth equal to or greater than the net worth of the tenant under the cancelled lease; (b) the annual rental payable under the new lease is not less than the annual rental payable under the cancelled lease; and (c) the new lease is for a term not less than the term remaining of the cancelled lease.

18. *Notices and payments.* Mortgagor shall promptly send to Mortgagee copies of all notices received by it from the holder of the First Mortgage. Mortgagee shall send to Mortgagor, at the time the Mortgagee makes each monthly constant payment to the holder of the First Mortgage, an advice that each such payment has been made. (A copy of Mortgagee's transmittal letter, if any, will suffice).

19. *Continuing obligations.* Mortgagor's obligations under the Wraparound Mortgage, and the mortgage notes which it is given to secure, shall continue until the entire debt is paid, notwithstanding any action or actions of partial foreclosure which are brought to recover any amount or amounts for installments of principal, interest, taxes, assessments, water rates, vault taxes or fire insurance premiums, or other payments due and payable under the provisions of the Wraparound Mortgage.

20. *Mortgage tax.* If it is determined by any competent governmental authority that United States or New York State mortgage taxes are due on any mortgage note secured by the Wraparound Mortgage, Mortgagor shall pay such taxes, together with any accrued penalty.

21. *Waiver.* No delay or omission by Mortgagee to exercise any right, power, or remedy accruing under the Wraparound Mortgage shall be construed to be a waiver of any default or acquiescence. A waiver in one or more instances to exercise any right, power, or remedy shall apply only to the particular instance or instances, and at the particular time or times only. No such waiver shall be deemed a continuing waiver, but every term, covenant, provision, or condition establishing such right, power, or remedy shall survive and continue to remain in full force and effect.

22. *UCC documents.* At Mortgagor's request, the Mortgagor shall execute and deliver Uniform Commercial Code Financing Statements, in duplicate, covering the fixtures, chattels, and articles of personal property subject to the lien of the Wraparound Mortgage.

23. *Municipal requirements.* Mortgagor shall promptly pay and discharge all license fees or similar charges, with penalties and interest, which are imposed by the municipality in which the Mortgaged Premises are situated, for the use of vaults, chutes, areas and other space beyond the lot line and under or abutting the public sidewalks in front of or adjoining the Mortgaged Premises. Mortgagor shall promptly cure any violation of law and comply with any order of the municipality in which the Mortgaged Premises are situated respecting the repair, replacement, or condition of the sidewalk or curb in front of or adjoining the Mortgaged Premises. If Mortgagor defaults in any of the above, Mortgagee may pay any or all of the license fees or similar charges with penalties and interest, and the municipality's charges for such repair or replacement. In such event, Mortgagor shall, on demand, repay Mortgagee for all amounts expended, with interest thereon at 12 percent per annum (or lesser percentage, not exceeding the maximum rate legally collectible, if 12 percent exceeds the maximum legal rate) from the date the expenses are incurred until the date Mortgagor reimburses Mortgagee. Such amounts shall thereupon be liens on the Mortgaged Premises and secured by the Second Mortgage.

24. *Further instruments.* The Wraparound Mortgage is a security agreement which covers, and the Mortgaged Premises includes, both real and personal property and all other of Mortgagor's rights and interests, whether tangible or intangible in nature, in the Mortgaged Premises. Mortgagor shall, at Mortgagee's request deliver to Mortgagee all further

instruments required by Mortgagee in order to further secure and perfect the lien of the Wraparound Mortgage.

25. *Severability.* If any term, covenant, or condition of the Wraparound Mortgage is held to be invalid, illegal, or unenforceable in any respect, the Wraparound Mortgage shall be construed without such provision.

26. *Governing law; cumulative rights.* The terms of the Wraparound Mortgage shall be construed under the laws of the State of New York. The rights of Mortgagee shall be separate, distinct, and cumulative, and none shall be given effect to the exclusion of the others. No act of Mortgagee shall be construed as an election to proceed under any one provision herein to the exclusion of any other provision.

27. *Prepayment penalty.* Mortgagor may prepay in full the unpaid balance of the indebtedness under the Wraparound Mortgage at any time by giving Mortgagee at least 90 days prior written notice, by paying the principal and interest due plus a prepayment fee as follows: During the first loan year, 3 percent of the then principal amount; thereafter the prepayment fee will reduce by one half of 1 percent each loan year until the prepayment fee is reduced to 1 percent, the 1 percent to prevail during the remaining term of the loan. A "loan year" shall be any one year beginning on the date of this agreement or any anniversary hereof. If Mortgagor prepays the entire unpaid principal balance of the indebtedness under the Wraparound Mortgage, such amount shall include all prepayment charges due under the First Mortgage. In addition, if Mortgagee makes all prepayment of the First Mortgage, either in whole or in part, and pays to the holder of the First Mortgage a prepayment fee, the amount of the prepayment fee shall be added to and become part of the principal of the Wraparound Mortgage, and shall bear interest of 10 percent per annum (or lesser percentage not exceeding the maximum rate collectible, if 10 percent exceeds the maximum legal rate).

28. *Subsequent liens.* No further mortgage may be placed by Mortgagor against all or any part of the Mortgaged Premises unless such mortgage contains express language satisfactory to Mortgagee subordinating the mortgage to the lien of the Wraparound Mortgage and to all the provisions thereof, including the full principal indebtedness of the Wraparound Mortgage as such indebtedness may be reduced by the application of a portion of the constant monthly payments thereunder in amortization of the principal indebtedness and all past and future advances made or to be made by Mortgagee. The placing, by Mortgagor, or by any subsequent fee owner of all or any portion of the Mortgaged Premises, of any such mortgage not containing the subordination provisions herein required shall make such mortgage null and void and of no force and effect, and such act shall be a default under the Wraparound Mortgage, entitling Mortgagee to the same rights and remedies given it in the Wraparound Mortgage for nonpayment of interest or principal.

29. *Subrogation.* Mortgagor agrees that Mortgagee is subrogated to all of the rights, remedies, and liens held by the holders of the First Mortgage to the extent of all amounts paid out or advanced by Mortgagee which are used directly or indirectly to reduce, pay-off, discharge, or satisfy in whole or in part any part of the indebtedness secured by the First Mortgage, or to cure any default thereunder.

30. *First mortgage.* Mortgagor shall, immediately at Mortgagee's request from time to time, notify and confirm to the holder of the First Mortgage, by signed notice sent by registered or certified mail, return receipt requested, with a counterpart delivered to Mortgagee, that: (i) Mortgagor has entered into the Wraparound Mortgage, describing the essence of the Wraparound Mortgage so that the holder of the First Mortgage will understand the same as it affects said holder, (ii) payment of the constant monthly payments under the First Mortgage as well as deposits for taxes, assessments, and similar charges which are mentioned in the First Mortgage, as well as any prepayment under the First Mortgage, or payment after acceleration of the First Mortgage, shall be made by the holder of Wraparound Mortgage upon receipt of the same from Mortgagor, (iii) authorizing and directing the holder of the First Mortgage to accept the aforesaid payments, as well as the payment or performance of any other obligation contained in the First Mortgage to be performed by Mortgagor's thereunder, with same effect as if paid or performed by Mortgagor itself, (iv) directing the holder of the First Mortgage to send and deliver to the holder of the Wraparound Mortgage counterpart copies of all demands, notices and communications of defaults, payments due, or otherwise, required to be given or actually given to

Mortgagor, and (v) requesting the holder of the First Mortgage to enter into an agreement with the holder of the Wraparound Mortgage whereby the holder of the Wraparound Mortgage is given notice of and opportunity to cure any default by Mortgagor under the First Mortgage.

31. *First mortgage due dates.* Notwithstanding any contrary provision in the Wraparound Mortgage, all payments required to be made by Mortgagor, whether to Mortgagee or to any other person, by the provisions of the First Mortgage (except the constant payments of principal and interest under the First Mortgage, which Mortgagee has agreed to pay) shall be due and payable at least 15 days before such payments are required to be made by the provisions of the First Mortgage, except if a period of time more than 15 days is required expressly by the Wraparound Mortgage, the longer period shall be effective.

The whole of the principal sum and interest on the Wraparound Mortgage shall become due at Mortgagee's option after default in the payment of any installment of principal or of interest for five days. The preceding sentence shall supersede any contrary provision contained elsewhere in the Wraparound Mortgage.

32. *Purchase-money mortgage.* The Wraparound Mortgage constitutes a purchase-money mortgage given to secure a portion of the purchase price paid by Mortgagor in acquiring the fee title to the Mortgaged Premises.

33. *Representations of mortgagor.* Mortgagor covenants, represents, and warrants that on the date of the agreement it is not default under the First Mortgage, and there are no outstanding claims of indebtedness for labor or materials furnished in connection with the construction, improvements, alteration or repair of any building or other improvements on the Mortgaged Premises.

34. *Assignment of first mortgage.* If Mortgagee pays or satisfies the First Mortgage at any time, it may obtain from the holder thereof, instead of satisfaction piece, an assignment to it of the First Mortgage.

35. *Refinancing.* The First Mortgage or the Wraparound Mortgage, or both, may, at Mortgagee's option, be extended, replaced, increased, modified, or consolidated ("Refinancing"), including a consolidation with the Wraparound Mortgage. Any mortgage so extended, replaced, increased, modified or consolidated, is referred to as "New Mortgage(s)."

The conditions of the Refinancing are as follows:

- (1) All proceeds, if any, in excess of the then unpaid principal amount of the First Mortgage and/or the Wraparound Mortgage being refinanced shall be the property of Mortgagee and shall not be deemed to reduce the principal amount of the Wraparound Mortgage plus interest and other charges secured by the Wraparound Mortgage. Notwithstanding any Refinancing, nothing shall be deemed to reduce, abridge, or postpone Mortgagor's obligation to make the regular payments of principal or interest or other payments required by the Wraparound Mortgage;
- (2) The aggregate annual charges payable for interest and amortization on the New Mortgage(s) shall not at any time exceed the annual charges then payable for interest and amortization under the Wraparound Mortgage;
- (3) The maturity date of any New Mortgage(s) shall not be later than the maturity date of the Wraparound Mortgage;
- (4) If the proceeds of any New Mortgage(s) are insufficient to pay the unpaid principal amount then due to the holder of the mortgage being refinanced, the deficiency shall be paid by Mortgagee;
- (5) Mortgagee shall pay all expenses necessary to consummate the closing of the New Mortgage(s);
- (6) The aggregate unpaid principal amount of the New Mortgage(s) shall not at any time exceed the unpaid principal

2-Forms Federal Taxes Affecting Real Estate [B]

amount of the Wraparound Mortgage plus interest and other charges secured by the Wraparound Mortgage;

(7) In Refinancing, the forms customarily utilized by the holder of the New Mortgage for similar properties shall be used, and if the holder of the New Mortgage has no forms which are customarily used for such property, the customary forms of an institutional lender who makes loans on similar properties shall be used;

(8) The New Mortgage(s) may provide for a prepayment penalty not to exceed 3 percent of the amount being prepaid;

(9) Mortgagee shall request the holder of the New Mortgage(s) to utilize provisions equivalent to those contained herein for insurance and condemnation proceeds.

(10) The New Mortgage(s) shall not prohibit the sale of the Mortgaged Premises.

(11) The New Mortgage(s) shall not be cross-collateralized with any other mortgage or loan, and shall cover only the Mortgaged Premises. The maturity date of the Wraparound Mortgage for the purpose of this paragraph shall be deemed to be the maturity date when, pursuant to the terms of the Wraparound Mortgage, the unpaid principal amount thereof is stated therein to become due and payable.

Mortgagor shall execute all documents that are necessary to effectuate such Refinancing, provided such documents provide for an exculpation of Mortgagor from personal liability. Upon Mortgagor's failure to execute such documents within ten days of Mortgagee's written request, the unpaid principal balance due on the Wraparound Mortgage and interest, shall become due, at Mortgagee's option in the same manner as Mortgagor's failure to pay interest or principal under the Wraparound Mortgage. Any additional mortgage placed by Mortgagor on the Mortgaged Premises or any part thereof shall be expressly subordinate to Mortgagee's right of Refinancing.

36. *Default in note.* Any default under the terms of any notes secured by the Wraparound Mortgage shall be deemed a default under the Wraparound Mortgage, and each of the terms, covenants, and conditions of such notes are incorporated in and made a part of this agreement.

37. *Ground leases.* No owner of the Mortgaged Premises shall enter into a ground or master lease covering all or a material part thereof unless: (a) a true copy is delivered to Mortgagee, by registered or certified mail not more than ten days after the execution thereof; and (b) such ground or master lease provides (i) that it is subject and subordinate to the Wraparound Mortgage and all advances, past or future, which are made thereunder and the Refinancing, and (ii) that all occupancy subleases shall provide that in case of termination of the ground or master lease, the sublessee will attorn to and recognize the lessor under such ground or master lease or the owner of the demised premises as sublessee's landlord unless such sublease has terminated in any dispossession or foreclosure proceedings.

38. *No usury.* Notwithstanding any contrary provision herein, Mortgagee shall not at any time charge, and Mortgagor shall not be required to pay, interest which exceeds the maximum rate of interest applicable to this agreement that is permissible under the laws of the State of New York.

If any interpretation of the provisions of this agreement would require Mortgagor to pay interest or other fees or sums the payment of which would, in the opinion of Mortgagee or its counsel, constitute a violation of the above-stated intention of the parties, Mortgagee shall advise Mortgagor in writing as to what reduced amount of interest or other charges or fees shall be paid. Thereupon, this agreement shall be deemed to be interpreted and intended to read as set forth herein as the true intention of the parties.

39. *Entire agreement; modification.* This instrument constitutes the entire agreement between the parties. It may not be modified, amended, or terminated unless such modification, amendment, or termination is in writing and signed by both parties.

40. *Binding effect.* This agreement shall be binding upon and inure to the benefit of both parties and their respective legal representatives, successors, and assigns.

41. *Notices.* All notices under this agreement shall be sent by registered or certified mail, postage prepaid, return receipt requested, addressed to the other party at its address set forth at the beginning hereof. Either party, however, may designate a different address by serving written notice of change of address on the other party, in like manner.

42. *Headings.* Headings in this agreement are for convenience and reference only and are not deemed to be a part hereof.

43. *Non-waiver.* No delay or failure by either party to exercise any right hereunder, and no partial or single exercise of such right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

44. *Counterparts.* This agreement may be executed in one or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

In witness whereof the parties have duly executed this instrument as of the date first above written.

B.20 Variable interest rate mortgage note--annual adjustment--adjustment limitations

COMMENT

Variable rate mechanism:

This variable rate note provides for a periodic review of interest rates once a year, with the possibility of a modest change either up or down, as indicated by the cost of money at the time of each review. The interest rate changes are legally regulated and are based on a prescribed standard or "index" which reflects the cost of money.

(1) No adjustment may be made more often than each semiannual period thereafter, and six months must elapse between any changes.

(2) No adjustment can be made unless the latest index, compared with the loan's base index, has a cumulative increase or decrease of 0.1 percent or more.

(3) No adjustment up or down may exceed 0.25 percent per annum in any semiannual period and shall not result in an interest rate more than a specified percentage greater than the initial interest

rate.

Mortgagor protection:

There is "downside" protection for the borrower as evidenced by the following aspects:

(1) Decrease. The note provides for mandatory decreases of rate when applicable, and there is no percentage limitation on decreases.

(2) Constant payment. On single family (one to four unit property) loans, under certain circumstances, regulations permit the term of the loan to be extended, not to exceed 40 years, to keep the monthly payment constant in the event of interest rate increases.

(3) Prepayment. Within 90 days from the date of a notice of increase of rate, the borrower has the right to pay all, or part of the loan, without a prepayment charge.

(4) Notice. A notice must be mailed to the mortgagor at least 30 days before any change. The change is effective with the payment due in the second month following the notice.

For further information, see Chapter 12.

FORMS

(1) Variable rate promissory note

Promissory Note NOTICE TO BORROWER: THIS DOCUMENT CONTAINS PROVISIONS FOR A VARIABLE INTEREST RATE

Loan No. 210802-47

\$44,000 Ventura, California May 7, 2002

1. *Promise to pay.* For value received, I promise to pay to State Savings and Loan Association, a corporation, or order, at its offices in the City of Ventura, State of California, or at any other offices that the holder of this note may from time to time designate, the principal sum of \$44,000, with interest from the date hereof on the unpaid principal balance at the initial rate of 15 percent per annum (the "Initial Interest Rate"), principal and interest payable in monthly installments of \$558.77 each, beginning on June 1, 2002 and continuing on the first day of each and every month thereafter until May 1, 2032, when the principal and interest shall have been paid in full.

Each payment shall be credited first on interest then due and the remainder on principal; and interest thereupon ceases upon the principal so credited.

2. *Variable rate; standard.* I agree that the Initial Interest Rate shall be increased and decreased from time to time in accordance with increases and decreases in the prime rate of State Savings and Loan Associations (the "Standard"), or any other Standard that may be approved by the California Savings and Loan Commissioner. Subject to the following provisions, the increases and decreases shall be effected in such manner as to maintain the same margin above or below

2-Forms Federal Taxes Affecting Real Estate [B]

the Initial Interest Rate as the last published Standard is above or below the last published Standard on the date of this Note:

- (a) *Maximum for term.* Any change in the interest rate shall not exceed 1 percent per annum in any annual period, and shall not result in an interest rate more than 4.75 percentage points greater than the Initial Interest Rate.
- (b) *Maximum per year.* No increase or decrease in the interest rate in any annual period shall be less than 1/10 of 1 percent per annum, except for increases or decreases not previously invoked in full by reason of the 1 percent per annum maximum limitation set forth above.
- (c) *Annual changes.* No change in the rate of interest shall be made during the first annual period; after the first annual period there shall be only one change in any one annual period and at least 12 months shall elapse between each change. As used in this Note, "annual period" means each of the successive periods of 12 calendar months commencing with the first day of the calendar month in which this Note is dated.
- (d) *Effective date of change.* Each change in the interest rate shall become effective commencing on the date the monthly installment becomes due during the second month following the first publication of the Standard in each annual period, provided, however, that the first change in interest rate (if there has then been a sufficient change in the Standard) shall become effective with the first loan installment falling due more than 30 days after the first publication of the Standard following expiration of the first annual period of the loan.
- (e) *Decreases.* Decreases in the interest rate shall be mandatory and increases shall be optional with the holder. The fact, however, that the holder may not have invoked a permissible increase, in whole or in part, shall not be deemed a waiver of the holder's right to invoke such increase at any time thereafter within the limits herein provided.
- (f) *Monthly installments, term.* When there is a change in the interest rate, at the option of the holder of this Note, (1) the amount of each monthly installment may be decreased or increased to an amount which, when paid in equal monthly installments rounded to the next highest dollar amount, would result in full payment of the then unpaid principal balance together with interest thereon at the changed rate by the end of the amortization period in effect just prior to such change, or (2) with the consent of the undersigned, such amortization period may be reduced or extended, or (3) a combination of (1) or (2) may be made. Notwithstanding the foregoing, if the purpose of the loan evidenced by this Note is to finance the purchase or construction of real property containing four or fewer residential units, then upon any increase in the interest rate, at the option of the undersigned the amortization period of this Note may be extended for the additional period required to amortize this Note without increasing the then existing monthly installment, but not to exceed a maximum amortization period of 40 years from the due date of the first installment; provided that when there is a subsequent reduction in the interest rate, at the option of the holder such amortization period may be reduced to the degree that it was extended pursuant to the provisions of this sentence.
- (g) *Notices.* Notices of any change in interest rate or amount of the monthly installment shall be deemed given by the holder when deposited in the United States mail, postage prepaid, addressed to the current owner of the property described in the Deed of Trust securing this Note and any other person personally liable on this Note, as those persons' names and addresses appear on the holder's records at the time of giving notice.

3. The last published standard on the date of this Note is April 30, 2002.

B.21 Condominium mortgage note and mortgage--assignable to institutional lender

COMMENT

These forms may be used if the sponsor of a condominium project is unwilling or unable to sell the units for cash. In such case the sponsor may decide to accept the purchaser's agreement to pay the unpaid balance of the purchase price over a period of time, evidenced by the purchaser's promissory note, and a mortgage on the unit sold to the purchaser as security for payment.

These forms have two distinguishing features. First, the promissory note is acquired by an institutional lender, the purchaser agrees to pay additional amounts into a sinking fund which is used to discharge taxes and other amounts assessed against the condominium unit. Second, the forms presuppose that the unit is sold on a furnished basis and, accordingly, the furnishings within the unit are also covered under the mortgage. Since the furnishings constitute personal property, a security agreement and filed financing statements that comply with Article 9 of the UCC. are required. The "further assurance" clause contained in paragraph 22 of the mortgage only provides for situations which may arise subsequent to initial compliance with the UCC. For example, a financing statement will generally expire after five years and accordingly the security interest in the furnishings will not be perfected at that time unless another financing statement is obtained and filed.

Condominium owners may deduct mortgage interest and real estate taxes paid with respect to the unit to the same extent as other homeowners.

These forms may be adapted for use by any owner of a condominium unit who desires to sell to a subsequent purchaser on the purchaser's credit.

For further information, see Chapters 6, 12, and 16.

FORMS

(1) Mortgage note

New York, N.Y.
November 3, 2002

1. *Promise to pay.* For value received, I, Henry Phillips, promise to pay to West House Condominium Corporation, or order, at 700 Central Park South, New York, New York, or at any other place designated in writing by the holder of this note, the principal sum of \$200,000, with interest thereon to be computed from the date hereof at the rate of 10 percent per annum, in constant monthly installments of \$1,755.16 each, commencing on the first day of the calendar month after the date hereof and on the first day of each succeeding calendar month until September 1, 2017, when the entire unpaid balance of principal, together with accrued interest, shall become due and payable. Each constant monthly installment shall be applied first to the payment of interest accrued on the unpaid principal, and the balance on account of the principal sum.

2. *Total amount due.* The principal sum evidenced by this note and all accrued and unpaid interest shall become due at the option of the holder on the happening of any default or event by which, under the terms of the mortgage securing this note, such principal sum and interest may or shall become due and payable. All of the covenants, conditions, and agreements contained in the mortgage are made part of this instrument.

2-Forms Federal Taxes Affecting Real Estate [B]

3. *Extensions.* If time is extended for the payment of the principal sum because the due date falls on a Sunday or a public holiday, the extended time shall be included in the computation of interest.

4. *Prepayment right.* The principal sum may be prepaid in its entirety, or in part, on the first day of any calendar month without penalty. If partial prepayment of principal is made, the amount of each regular monthly installment of principal and interest thereafter shall not be reduced, and any such partial prepayments shall be applied to the regular monthly payments in the inverse order of their maturity.

5. *Tax escrow payments.* If the holder at any time is a bank, trust company, savings and loan association, insurance company, union, pension, welfare, or retirement fund or other institutional lender (the "Institutional Lender"), the maker agrees to deposit with the holder, at the holder's election, as and when each payment of a monthly installment becomes due during the period of 12 calendar months commencing on the first monthly installment payment date after the Institutional Lender becomes the holder and during each period of 12 calendar months thereafter, one twelfth of the amount, as estimated from time to time by the Institutional Lender, of the taxes, and assessments if any, becoming due with respect to the premises during the respective periods of 12 calendar months. It is intended that not later than one month before the respective due dates for such taxes, or assessments if any, sufficient amounts shall be deposited with the holder to pay the same. Such amounts shall be held by the Institutional Lender without interest, and applied to the payment of the items in respect of which such amounts were deposited, or, at the option of the Institutional Lender, to the payment of the items in any order of priority determined by such holder, on or before the respective dates on which the same or any of them would become delinquent. If one month before the due date of any of the aforesaid items, the amount then on deposit is insufficient for the payment of the item in full, the maker, within ten days after demand, shall deposit the amount of the deficiency with such holder. Nothing contained in this paragraph shall be deemed to affect any right or remedy of the holder under any provision of the mortgage or of any statute or rule of law to pay any such tax or assessment and to add the amount so paid, together with interest at the legal rate, to the indebtedness owing hereon which shall thereupon be secured by the lien of the mortgage.

6. *Joint and several liability.* If the maker consists of two or more parties, such parties shall be jointly and severally liable on all obligations of this note.

7. *Waiver of presentment.* Presentment for payment, notice of dishonor, protest, and notice of protest are waived.

8. *Security of note.* This note is secured by a mortgage made by the maker to the payee of even date herewith on the premises, including furnishings, designated as Unit No. 17W in the Declaration establishing a Plan for Condominium Ownership of the property known as and by the street number 700 Central Park South, Borough of Manhattan, City of New York.

(2) *Mortgage*

2-Forms Federal Taxes Affecting Real Estate [B]

THIS MORTGAGE, made November 3, 2002, between Henry Phillips, residing at 980 Riverside Drive, New York, New York (Mortgagor), and West House Condominium Corporation, having an office at 700 Central Park South, New York, New York (Mortgagee).

Recitals

To secure the payment of an indebtedness in the sum of \$200,000, lawful money of the United States, to be paid with interest thereon according to a certain note or obligation bearing even date herewith (the "note"), Mortgagor does mortgage to Mortgagee the unit known as Unit No. 17W in the property known as the West House Condominium located at 700 Central Park South, Borough of Manhattan, City, County and State of New York, such unit being designated and described as Unit No. 17W in the Declaration establishing a plan for condominium ownership of such property under Article 9-B (the "Condominium Act"), of the Real Property Law of the State of New York dated July 27, 1990, and recorded in the office of the City Register in the County of New York on September 27, 1990, in Reel 1975, page 1201 and also designated as Tax Lot 874 in Block 7518 of the Borough of Manhattan on the Tax Map of the Real Property Assessment Department of the City of New York and on the Floor Plans of the building, certified by Hans Hartmann, Architect, on June 15, 1989, and filed in the office of the City Register in the County of New York on September 27, 1990, as Condominium Plan No. 5018.

Together with the appurtenances and all the estate and rights of Mortgagor, including the appurtenant common interest, in and to the above-described unit conveyed or intended to be conveyed to Mortgagor by deed bearing even date herewith delivered and intended to be recorded simultaneously herewith. This mortgage is a purchase money mortgage.

Together also with all fixtures and equipment used or useful in connection with the above-described unit and now or hereafter attached to or installed therein.

Together also with all furnishings included within the above-described unit and now or hereafter attached to or installed therein, including furniture, rugs, carpeting, lighting fixtures, electrical appliances, cabinets, shelving, wall covering, pictures, decorative objects, draperies, window shades or blinds, and all other like furnishings used or useful within the unit.

Together also with the rents, issues, and profits of the above-described unit, including Mortgagor's right, title, and interest in the common profits.

Together also with all right, title, and interest hereafter acquired by Mortgagor in and to the property and in and to the net proceeds of sale thereof pursuant to provision of law or otherwise, not including, however, any other unit or any appurtenant common interest thereto hereafter acquired by Mortgagor or by the Board of Managers or their designee on Mortgagor's behalf.

The above-described unit is referred to in this mortgage as the Unit. The Unit together with the appurtenances and all the estate and rights of Mortgagor therein and all fixtures, furnishings, and equipment used or useful in connection with the Unit and now or hereafter attached to or installed therein, such rents, issues, and profits and such right, title, and interest of Mortgagor hereafter acquired in the property, and the net proceeds of sale pursuant to any provision of law are sometimes collectively referred to in this mortgage as the Mortgaged Premises.

Together with all awards heretofore and hereafter made for taking by eminent domain the whole or any part of the Mortgaged Premises or any easement, including any awards for changes of grade of streets, such awards being assigned to Mortgagee, which is authorized, subject to the provisions of Article VIII of the Condominium Bylaws, to collect and

2-Forms Federal Taxes Affecting Real Estate [B]

receive the proceeds of such awards and to give proper receipts and acquittances therefor, and to apply the same toward the payment of the mortgage debt, even if the amount owing thereon is not then due and payable.

The property in which the Unit is situated is bounded and described as follows:

All that certain plot, piece, or parcel of land, with the building and improvements thereon erected, situate, lying, and being in the Borough of Manhattan, City, County and State of New York, bounded and described as follows:

Beginning at a point on the southerly side of Central Park South, distance 200 feet easterly from the corner formed by the intersection of the easterly side of Apex Avenue with the southerly side of Central Park South; running thence southerly and parallel with Apex Avenue, 10 feet to the northerly side of 58th Street; thence easterly, along the northerly side of 58th Street, 270 feet 8 inches; thence northerly and again parallel with Apex Avenue, 310 feet to the southerly side of Central Park South; thence westerly along the southerly side of Central Park South, 270 feet 8 inches to the point or place of Beginning.

Together with an undivided 1.02 percent interest in the Common Elements of the Property, hereinafter called the Common Elements;

For the purposes of this mortgage, unless the context otherwise requires, the terms used herein shall have the meanings set forth in the Condominium Act.

Mortgagor covenants with Mortgagee as follows:

1. *Promise to pay.* Mortgagor will pay the indebtedness provided as in this mortgage and the note.
2. *Use of deposit.* If Mortgagee exercises any right under this mortgage to declare the principal sum and interest due, it may, at any time thereafter, apply the whole or any part of the amount then on deposit pursuant to the note on account of any accrued interest, and/or on account of the principal sum and/or any costs and expenses (including reasonable attorneys' fees) paid or incurred by Mortgagee in connection with the exercise of any remedies hereunder. If this mortgage is assigned, the assignor shall transfer to the assignee the amount then on deposit with the assignor pursuant to the note, and upon each such assignment and transfer the assignor shall be under no further obligation to Mortgagor with respect to such amount.
3. *Late charges.* To cover the additional expense incurred by Mortgagee in handling delinquent payments, Mortgagor will pay on demand a "late charge" not exceeding 5 cents for each dollar of principal, interest and other sum required to be paid or deposited pursuant to the note or this mortgage if any such payment or deposit is received more than 15 days after its due date. Such late charge shall be payable on each event of delinquency, and payment or tender thereof shall not preclude the exercise by Mortgagee of any remedies herein provided upon Mortgagor's default.
4. *Warranty of title.* Mortgagor warrants the title to the Mortgaged Premises.
5. *Payment of taxes.* To the extent provision has not otherwise been made for the payment under the note, Mortgagor will pay all taxes and assessments affecting the Mortgaged Premises and in default thereof, Mortgagee may pay the same.
6. *Alterations.* No structural alteration or improvement shall be made to the Mortgaged Premises without Mortgagee's prior written consent.
7. *Estoppel certificate, tax receipts.* Mortgagor, within five days upon request in person or within ten days upon request by mail, will furnish a written statement duly acknowledged of the amount due on this mortgage and whether any

2-Forms Federal Taxes Affecting Real Estate [B]

offsets or defenses exist against the mortgage debt and that after a similar request Mortgagor will exhibit receipts showing payment of all taxes and assessments affecting the Mortgaged Premises, unless paid by Mortgagee pursuant to the note.

8. *Appointment of receiver.* The holder of this mortgage, in any action to foreclose it, shall be entitled to the appointment of a receiver.

9. *Foreclosure sale.* In case of a foreclosure sale the Mortgaged Premises may be sold in one parcel.

10. *Defense of rights or lien.* If any action or proceeding is commenced to which Mortgagee is made a party, or in which it becomes necessary to defend or uphold the lien of this mortgage, all sums paid by Mortgagee for the expense of any litigation to prosecute or defend the rights and lien created by this Mortgage (including reasonable counsel fees), shall be paid by Mortgagor within 15 days after written demand, together with interest thereon at the legal rate. Any such sum and the interest thereon shall be a lien on the Mortgaged Premises, prior to any right, or title to, interest in or claim upon the Mortgaged Premises attaching or accruing subsequent to the lien of this mortgage, and shall be deemed to be secured by this mortgage. In any action or proceeding to foreclose this mortgage, or to recover or collect the debt secured hereby, the provisions of law respecting the recovery of costs, disbursements and allowances shall prevail unaffected by this covenant.

11. *Advance rent.* Mortgagor will not, without Mortgagee's written consent, receive or collect rent from any tenant of the Mortgaged Premises for a period of more than two months in advance.

12. *Use of advances.* Mortgagor will, in compliance with Section 13 of the Lien Law, receive the advances secured hereby and will hold the right to receive such advances as a trust fund to be applied first for the purpose of paying the cost of the Mortgaged Premises before using any part of the same for any other purpose.

13. *Rental payments in event of default.* In the event of any default under this mortgage Mortgagor will pay monthly in advance to Mortgagee, or to any receiver appointed to collect the rents, issues, and profits of the Mortgaged Premises the fair and reasonable rental value for the use and occupancy of the Mortgaged Premises if the same are in Mortgagor's possession. Upon default in any such payment Mortgagor will vacate and surrender the possession of the Mortgaged Premises to Mortgagee or to such receiver, and in default thereof may be evicted by any appropriate legal proceeding.

14. *Joint and several liability.* If Mortgagor consists of more than one party, such mortgagors shall be jointly and severally liable under all of Mortgagor's obligations, covenants, and agreements contained herein.

15. *Payment of common charges.* Mortgagor will pay all assessments for common charges, service charges, and expenses made against the Mortgaged Premises as and when they become due and payable.

16. *Condition of premises.* Mortgagor shall keep the Mortgaged Premises (other than the Common Elements) in reasonably good repair, working order and condition, and shall make all repairs, renewals, and replacements that Mortgagee deems reasonably necessary.

17. *Compliance with rules.* Mortgagor shall observe, perform and keep all of the terms, provisions, covenants, and conditions required by it to be kept, observed and performed under the Declaration, Bylaws, and Rules and Regulations, as the same shall exist from time to time.

18. *Default.* At Mortgagee's option, the entire principal amount and interest accrued thereon, as evidenced by the mortgage and the note secured thereby, shall immediately become due and payable if one or more of the following "Events of Default" shall occur and be continuing:

2-Forms Federal Taxes Affecting Real Estate [B]

- (a) Default is made in the payment of any installment of interest, or of principal and interest, or in the making of any deposit under the note when all or any part thereof becomes due and payable, and such default continues for 15 days;
- (b) Default is made in the payment of any tax or assessment when the same becomes due and payable, and the default continues for 30 days, unless provision for payment thereof has been made pursuant to the note;
- (c) Default is made in the performance of any covenant in paragraph 3, 4, 6, 7, 10, 11, 12, 13, or 20 of this mortgage within the time provided, or in the performance of the covenant in paragraph 15, and the default continues for 30 days;
- (d) Default is made in the performance of any covenant in paragraph 16 or 17, and the default continues for 30 days after written notice is given to Mortgagor, which specifies the nature of such default and requires the same to be remedied;
- (e) Mortgagor sells or otherwise conveys the Mortgaged Premises without having simultaneously paid the note in full plus all interest accrued thereon to the date of the sale or conveyance;
- (f) Withdrawal of the property from the Condominium Act is authorized as provided in Section 339-t of the act, or 75 percent or more of the building is destroyed or substantially damaged and 75 percent or more of the Unit owners do not duly and promptly resolve to proceed with repair or restoration;
- (g) Any provision of the Condominium Act, or its application, in any circumstances is held invalid, and such invalidity affects the lien of this mortgage or Mortgagee's rights;
- (h) Mortgagor assigns the rents, issues, or profits (including the common profits) of all or part of the Mortgaged Premises without Mortgagee's prior written consent;
- (i) Any fixtures, furniture, or equipment constituting a part of the Mortgaged Premises are removed from such premises unless, before or concurrently with such removal, the fixtures, furniture, or equipment are promptly replaced by other fixtures or equipment not necessarily of the same character but of a value at least equal to the removed items, which shall immediately become subject to the lien of this mortgage;
- (j) Any law is passed that deducts from the value of the property for tax purposes any lien thereon, or that changes in any way the taxation of mortgages or debts secured thereby for state or local purposes so as to affect this mortgage; or
- (k) A petition in bankruptcy is filed by or against Mortgagor, or Mortgagor makes an assignment for the benefit of creditors or receives the benefit of any insolvency or reorganization act.

19. *Waiver of provisions.* Any failure by Mortgagee to insist upon the strict performance by Mortgagor of any term or provision hereof shall not be deemed to be a waiver of that or any other term or provision. Notwithstanding such failure, Mortgagee may thereafter insist upon strict performance by Mortgagor of any or all of the terms and provisions of this mortgage. All clauses and covenants in this agreement that are similar to those construed under Section 254 of the Real Property Law shall also be construed under that section. The additional clauses and covenants herein shall afford rights that are supplemental to, and not exclusive of, the rights conferred by the clauses and covenants construed by Section 254. Such additional clauses and covenants shall not impair, modify, alter, or defeat such rights even though they relate to the same subject matter or provide for different or additional rights in the same or similar contingencies as clauses and covenants construed by Section 254. Mortgagee's rights hereunder shall be separate, distinctive, and cumulative, and none of them shall be exclusive of any other. Moreover, no act of Mortgagee shall be construed as an election to proceed under any one provision hereof to the exclusion of any other provision.

20. *Eminent domain.* Notwithstanding any contrary provisions of existing or future law, Mortgagor shall continue to pay

2-Forms Federal Taxes Affecting Real Estate [B]

interest on the entire principal sum secured as such principal is reduced from time to time at the rate specified in the note, until any award or payment made by any public or quasi-public authority or corporation for taking by eminent domain of the entire or part of the Mortgaged Premises, or any easement therein, has actually been received by Mortgagee. Any reduction in the principal sum resulting from the application by Mortgagee of such award or payment shall be deemed to take effect only on the date of such receipt.

21. *Inspection of premises.* Mortgagee and all persons authorized by it may enter and inspect the Mortgaged Premises at all reasonable times.

22. *Further assurances.* Promptly upon request, Mortgagor shall execute and deliver to Mortgagee all additional instruments or assurances that are reasonably necessary or desirable to further secure the lien of this mortgage, including the execution and delivery of one or more financing statements on Form UCC-1 under the Uniform Commercial Code.

23. *Definitions.* Wherever used in this mortgage, unless the text clearly indicates a contrary intent or otherwise specifically provided herein, the word "Mortgagor" shall be construed to mean the "Mortgagor and/or any subsequent owner or owners of the Mortgaged Premises," and the word "Mortgagee" shall be construed to mean "Mortgagee or any subsequent holder or holders of the mortgage." Other terms used herein shall be defined as follows: "Declaration" means the instrument recorded, as provided above, in the office of the City Register in New York County submitting the property to the provisions of the Condominium Act; "Bylaws" means the instrument required by Section 339-u of the Condominium Act providing for the operation of the property, a true copy of which is annexed to the Declaration; and "Rules and Regulations" mean the instrument referred to in clause (i) of Section 339-v of the Condominium Act, relating to restrictions and requirements respecting the use and maintenance of the Unit and the common elements of the property.

This mortgage cannot be changed or terminated orally.

In witness whereof this mortgage has been duly executed by Mortgagor.

B.22 Cooperative apartment loan security agreement

COMMENT

This is a form for an agreement giving a creditor a security interest in the shares of stock and proprietary lease allocated to a cooperative apartment, as a part of the financing of the debtor's purchase of the apartment. Although similar to the financing of a purchase of real property, the financing of the purchase of a cooperative apartment must be structured differently because the purchaser is buying an interest in the cooperative corporation and a lease, rather than an interest in real property. Unlike a mortgage, a security interest in shares of stock of a cooperative corporation, or in a proprietary lease from such a corporation, is subject to the provisions of UCC Article 9. This form provides for the execution and filing of a financing statement as provided by the Uniform Commercial Code for secured transactions.

Truth in Lending:

A cooperative apartment loan security agreement must comply with the requirements of the Truth in Lending Act. The Federal Reserve Board has issued model disclosure forms and clauses which are

2-Forms Federal Taxes Affecting Real Estate [B]

published in an appendix to Regulation Z. A creditor is not required to use the model disclosure forms; however, they are a useful guide in drafting such forms.

For further information, see Chapters 9, 12, and 16.

FORM**Loan Security Agreement**

THIS AGREEMENT made _____, 20 _____, between _____, residing at _____ Street, City of _____, State of _____ ("Debtor"), and _____ Bank Corp., a corporation incorporated under the laws of the State of _____, having its principal office at _____ Avenue, City of _____, State of _____ ("Secured Party").

WHEREAS:

A. Debtor has executed, or is about to execute, a Purchase Agreement for the purchase of _____ shares of capital stock of _____ Cooperative Apartment Corp. ("Corporation") allocated to Apartment No. _____ in premises known as _____ Road, City of _____, State of _____, and the acquisition of the accompanying proprietary lease at the purchase price of \$ _____.

B. Pursuant to the Purchase Agreement, Debtor has made or is about to make the down payment of \$ _____, leaving the remainder of the purchase price in the amount of \$ _____ to be furnished by the Secured Party, for the account of and as a loan to the Debtor.

C. Debtor desires to borrow from the Secured Party, and the Secured Party is willing to lend to Debtor the remainder of the purchase price, namely \$ _____, all upon the terms and conditions set forth below.

NOW THEREFORE, in consideration of their mutual promises, it is hereby covenanted and agreed as follows:

1. The Debtor hereby agrees to borrow from the Secured Party the sum of \$ _____, and, provided that Debtor makes the payment required to be made by Debtor pursuant to the Purchase Agreement, Secured Party shall lend Debtor the sum of \$ _____. The sum borrowed by Debtor from Secured Party shall be paid to the Corporation/Seller on behalf of and for the account of the Debtor.

2. Simultaneously herewith, Debtor shall execute the following documents: (a) a promissory note in form annexed hereto, (b) a stock power in form annexed hereto, (c) an assignment of proprietary lease in form annexed hereto, and (d) a pledge of the shares in the cooperative corporation. Debtor agrees that provided that the Secured Party makes the loan provided for herein and advances to the Corporation/Seller on behalf of and for the account of Debtor the sum borrowed, then when the certificate of shares being purchased by Debtor and the proprietary lease are issued, such certificate and proprietary lease shall be delivered to Secured Party, and Debtor hereby authorizes the Corporation to deliver the certificate and lease to Secured Party. The certificate and lease are herein sometimes collectively referred to as "collateral" or "security."

3. Debtor hereby grants to Secured Party, as collateral security for the payment of the note, a continuing security interest in and to all of Debtor's right, title and interest in and to the shares of the Corporation to be evidenced by the certificate

2-Forms Federal Taxes Affecting Real Estate [B]

issued to Debtor and the proprietary lease entered into between Debtor and the Corporation for Apartment No. _____, together with the proceeds thereof. Upon repayment in full of the entire balance of the indebtedness hereby secured, together with accrued interest, the documents referred to in paragraph 2 above held by Secured Party, or its assignee or designee, shall forthwith be returned to Debtor, the security interest created herein shall cease and terminate, and this agreement shall be deemed terminated without further liability on the part of any party to the other. Debtor shall execute a Financing Statement and hereby authorized the Secured Party to file it.

4. In case any one or more of the following events ("Events of Default") shall occur, then, at the option of Secured Party, the note shall immediately become due and payable, together with accrued interest, without presentation, demand, protest or notice of any kind, all of which are hereby expressly waived:

- a. Nonpayment continued for thirty (30) days after the due date of any payment of interest and/or principal, or
- b. A default in the payment of maintenance charges and/or any other charges or payments required to be made pursuant to terms of the proprietary lease, which default is not cured within the time and in the manner provided for in the proprietary lease, or
- c. A default in performance of and/or a breach of any of the terms, covenants and conditions of the proprietary lease on the part of Debtor to be performed which is not cured within the time and in the manner provided for in the proprietary lease, or
- d. A termination and/or cancellation of the proprietary lease by the Corporation, or
- e. In the event Debtor shall become insolvent, or shall file a petition in bankruptcy, or take advantage of the Bankruptcy Act and/or any other law for the relief of debtors, or shall make an assignment for the benefit of creditors, or if a receiver, trustee or liquidator, whether temporary or permanent, shall be appointed for the property of Debtor, or if an involuntary proceeding under any bankruptcy law or insolvency act shall be instituted against Debtor and such proceedings and/or appointments shall not be dismissed or vacated within thirty (30) days after such institution or appointment, or if Debtor admits in writing Debtor's inability to pay his or her debts as they become due, or if Debtor becomes insolvent howsoever otherwise evidenced, or
- f. In the event Debtor shall transfer, sell, assign or grant a further security interest in the shares and/or proprietary lease without Debtor having paid Secured Party the entire remaining balance of Debtor's indebtedness, with interest, in or before the date of Debtor's transfer, sale, assignment or granting of a further security interest, or
- g. In the event Debtor sublets, or offers to sublet, or assigns, or offers to assign the proprietary lease for Apartment No. _____ without the prior written consent of Secured Party, which consent will not be unreasonably withheld if the Corporation's Board of Directors shall consent thereto.

Without limiting any of the terms and provisions contained in the Note, it is agreed that a default by Debtor in the performance of any of the terms or provisions on Debtor's part to be performed under the proprietary lease for Apartment No. _____, or the giving of any notice of surrender, cancellation or expiration of the proprietary lease (which notice the obligor represents shall not be given), shall constitute a default under the Note and entitle the holder of the Note, at its option, to exercise any and all of the rights under the Note and this Agreement.

5. In the event of the occurrence of any one or more of the Events of Default, and if the Secured Party elects to accelerate the Note, then written notice of such election and acceleration (which notice shall specify the amount of principal and accrued interest due) shall be given by Secured Party to the Debtor by registered or certified mail, return receipt requested; and, if Debtor shall fail to pay such principal and accrued interest within five (5) days of receipt (it being understood that if Debtor shall refuse to accept delivery of such notice, the date of refusal shall be deemed to be

the date of receipt), of such notice, then Secured Party in addition to any and all rights which it might have pursuant to the Uniform Commercial Code, may, but shall not be obligated to, sell, assign and deliver the security at public or private sale, for cash, upon credit or for future delivery with or without advertisement of the time, place, or terms of sale except that if the sale be a private sale, five (5) days' notice in writing from Secured Party of the time and place of sale and the terms of sale shall be given to Debtor. In case of any sale on credit or for future delivery, the security sold shall be retained by Secured Party until the sale price is paid, but Secured Party shall incur no liability if the purchaser fails to take up and pay for the security sold. In case of any such failure, the security may be again sold. At any sale, Secured Party, if Secured Party is an individual or individuals, may purchase the security sold, free from all right of redemption of the Debtor which is hereby waived and released. In case of any sale, Secured Party may first deduct all expenses of collections, sale and delivery of the security sold and any expenses incidental thereto, including, but not limited to, reasonable attorneys' fees, brokerage commissions and transfer taxes, and may then apply the residue to any liability of the undersigned under the Note, and shall return the surplus, if any, to Debtor. Any sale conducted upon the foregoing terms shall be deemed commercially reasonable. Debtor agrees that the Secured Party shall have the right to continue to retain the security until such time that Secured Party in its reasonable judgment believes that an advantageous price can be secured for the security, and Secured Party shall not be liable to Debtor for any loss in the value of the security by reason of any such retention of the security by Secured Party. If Secured Party shall not commence to dispose of the security within ninety (90) days after the right to dispose of the security shall have accrued, then Debtor shall have the right, at any time thereafter, and prior to the time that Secured Party shall commence to dispose of the security, to request of Secured Party that it dispose of the security, or Debtor himself or herself, at Debtor's own cost and expense, shall have the right to dispose of the security; provided however, that in the case of the former, Secured Party shall not be obligated to dispose of the security unless the net proceeds to be received therefrom shall be sufficient to satisfy in full the then obligations of Debtor to Secured Party, and that in the case of the latter, any disposition of the security by Debtor must be upon terms and conditions consented to by Secured Party. Secured Party shall be obligated to give consent to such terms and conditions if the net proceeds to be received from such disposition shall be sufficient to satisfy in full the then obligations of Debtor to Secured Party. Secured Party shall not be liable to Debtor for any agents' or brokers' fees in the event Debtor disposes of the security. Secured Party shall have the right to retain the security in partial discharge of Debtor's obligations to Secured Party. If Secured Party elects to retain the security, notice thereof by registered or certified mail, return receipt requested shall be given to Debtor, and if Debtor objects in writing within thirty (30) days after receipt of notification (it being understood that if Debtor shall refuse to accept delivery of the notice, the date of refusal shall be deemed to be the date of receipt) then and in such event Secured Party shall commence to dispose of the security in the manner hereinbefore set forth. In connection with any sale or disposition of the security, Secured Party shall have the absolute right to complete the incomplete stock power and assignment for the purpose of transferring the shares and proprietary lease.

6. Debtor agrees that until the Note together with accrued interest is paid in full, Debtor will not avail himself or herself of his or her rights under the proprietary lease to cancel and terminate the proprietary lease. A breach hereof shall be deemed an Event of Default entitling Secured Party to the rights provided for in paragraphs 5 and 6 hereof.

7. Debtor agrees that Debtor will not, and may not, assert against Secured Party or against the collateral security any claim, demand, offset or counterclaim arising out of the Purchase Agreement; and Debtor agrees that Debtor's sole remedies as a subscriber to the shares, as a shareholder and as a proprietary lessee are those afforded to all subscribers, shareholders and proprietary lessees in the Purchase Agreement and the proprietary lease. In an action on the Note or Security Agreement, Debtor will not interpose any defense or counterclaim which does not arise from this Loan Transaction.

8. Debtor agrees that the Corporation, its officers, agents, servants, employees and/or attorneys shall have no responsibility to Debtor hereunder other than to deliver the collateral security to Secured Party, or to return the collateral security to Debtor, all in accordance with the provisions of this Agreement.

9. Secured Party may, at its option, make any payments for Debtor's account, or do any acts required to be done in order

2-Forms Federal Taxes Affecting Real Estate [B]

to prevent a default in or breach of the proprietary lease, but Secured Party under no circumstances shall be obligated to do so. In the event Secured Party makes any of such payments or does any of such acts, the payments and the costs of such acts, together with interest thereon shall be added to the indebtedness hereby secured and the principal amount of the note shall be deemed increased accordingly; and the provisions thereof relating to no personal liability on the part of Debtor shall apply with equal force and effect to any such payments and/or costs.

10. In the event of a default as aforesaid, Debtor shall immediately remove himself or herself from the premises and give possession thereof to Secured Party. In the event that proceedings to evict Debtor become necessary, the cost of removal shall be borne by Debtor and the cost of the same may be added to the total indebtedness, evidenced by Debtor's Note.

11. The term "Secured Party" as used in this Agreement, includes the Secured Party named herein, its successors, assigns, heirs, executors, administrators and legal representatives.

12. The pronouns used herein shall be male, female or neuter and in the singular or plural, whichever the sense requires.

13. The term "Debtor" shall be read "Debtors" if more than one person is the Debtor, and in such event, the obligation of the Debtor shall be joint and several.

14. The Debtor shall not assign this Agreement without the prior written consent of Secured Party. Secured Party shall have the right to assign this Loan-Security Agreement and the collateral held as security hereunder and all of its right, title and interest hereunder and in said collateral without Debtor's consent.

15. Except as prohibited by statute, the respective parties hereto shall and they hereby do waive trial by jury in an action, proceeding or counterclaim brought by any of the parties hereto against the other on any matter whatsoever arising out of or in any way connected with this Agreement, the collateral security and/or the relationship created thereby and with respect to any matter for which a jury trial cannot be waived, the parties hereto agree not to assert any such claim as a counterclaim in nor move to consolidated same with any action or proceeding in which a jury trial is waived.

16. Secured Party agrees that until there has been an Event of Default and Secured Party has elected to accelerate the indebtedness, Debtor shall have the exclusive right to vote the shares as a shareholder at any meeting of shareholders of the Corporation, shall be entitled to receive and retain dividends, if any, from the Corporation, shall be exclusively entitled to the benefits of income tax deductions available to all shareholders of the Corporation, shall have the right to occupy the apartment as proprietary lessee and shall have all other rights and privileges of a shareholder and proprietary lessee. Debtor agrees that Debtor shall have the exclusive responsibility to the Corporation for payment of all maintenance charges and other charges to become due under the proprietary lease, shall be exclusively responsible for the performance of all of the terms, covenants and conditions of the proprietary lease on the part of the lessee to be performed and that Secured Party shall have no responsibility whatsoever under the proprietary lease and shall under no circumstances be deemed the lessee of the apartment for any purpose. Secured Party shall be entitled to receive distributions of capital, if any, from the Corporation, to be applied in reduction of the indebtedness in inverse order.

17. This Agreement contains the full understanding of the parties and may not be amended, altered, discharged or terminated, except by another instrument in writing signed by the party sought to be charged therewith, or by his, her or its duly authorized agent.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals this _____ day of _____, 20 ____.

B.23 Plain language note and mortgage--residential mortgage loan

COMMENT

The note, and the mortgage following this note, are drafted to comply with New York's "plain language" law. This law is a reflection of the increasing number of state laws enacted to protect consumers from deceptive trade practices.

"Consumer transactions":

Consumer transactions are purchases or leases by individuals of goods, equipment, or real estate for their personal, family, or household use. This typically includes automobile sales or leases, apartment leases, appliance, or furniture installment sales as well as purchase money loans on the purchase of a personal residence secured by a mortgage. One area of abuse, which consumer protection laws are aimed at correcting, is the use of complicated or incomprehensible language incomprehensible to consumers. In some situations, the consumer contract language is in direct contradiction to the oral representations of the seller, lessor, or creditor, or not a true expression of the agreement which the consumer believes was made.

Consumer protection laws:

Some states have enacted all or parts of the Uniform Deceptive Trade Practices Act (UDTPA), including Georgia, Nebraska, New Mexico, and Hawaii. Other jurisdictions have enacted their own version of consumer protection laws. The various consumer protection laws and UDTPA prohibit persons selling, leasing, or lending to individuals in consumer transactions from using unfair or deceitful practices. Enforcement of the act may be solely in the hands of the state's highest law enforcement official, such as an attorney general, or consumers themselves may be allowed to bring a direct individual or class action. In addition to recovery of damages, consumers may be entitled to also recover attorney's fees and penalties. The Texas Deceptive Trade Practice-Consumer Protection Act goes so far as to permit the consumer to enjoin deceptive practices and obtain, in specified circumstances, treble damages. These statutory remedies are usually in addition to any remedies at common law or in equity which the individual may otherwise have.

Legal document language:

Some courts have interpreted their jurisdiction's consumer protection law to prescribe the use of complicated, unclear, or deceptive language in consumer transaction legal documents. For example, the Pennsylvania courts have held that the Commonwealth's Consumer Protection Law forbids the use of incomprehensible language in a printed form of residential lease.

Plain language law:

The New York "plain language" statute specifically addresses the use of "legalese" in consumer agreements. The act affirmatively requires (1) the use of common and every-day words in a clear and coherent manner, and (2) appropriately divided and captioned sections. The law applies to residential leases and every other written agreement where a consumer is a party and the subject matter, i.e., money,

property, or services, is primarily for personal, family, or household use. A loan used by a consumer to purchase a principal residence, second home, or vacation home which is secured by a note and mortgage is a covered transaction.

Protection is given sellers, creditors, and lessors under New York's law by a penalty limitation of \$50 per consumer and \$10,000 in class action situations. The penalty is in addition to actual damages which the consumer may be able to prove. No action can be brought by a consumer under the "plain language" law after both parties have fully performed their obligations. Good faith in attempting to comply with the law on the part of the seller, creditor, or lessor is a complete defense. Agreements involving amounts over \$50,000 are specifically excluded from the provision's protection. The use of language required by federal law, rule, or regulation or by a governmental instrumentality is allowed without penalty or liability.

For further information, see Chapter 12.

FORMS

(1) Plain language note

NOTE

U.S. \$45,000 Newburgh, New York
November 1,
2002

1. BORROWER'S PROMISE TO PAY

In return for a loan that I have received, I promise to pay \$45,000 (this amount will be called "principal"), plus interest, to the order of the Lender. The Lender is Fifth National Bank of Ulster County. I understand that the Lender may transfer this Note. The Lender or anyone who takes this Note by transfer and who is entitled to receive payments under this Note will be called the "Note holder."

2. INTEREST

I will pay interest at a rate of 10 percent per year. Interest will be charged on that part of principal which has not been paid. Interest will be charged beginning on the date of this Note and continuing until the full amount of principal has been paid.

3. PAYMENTS

I will pay principal and interest by making payments every month. Each of my monthly payments will be in the amount of U.S. \$394.91.

I will make my monthly payments on the first day of each month beginning on December 1, 2002. I will make these payments every month until I have paid all of the principal and interest and any other charges, described below, that I may owe under this Note. If, on November 1, 2032, I still owe amounts under this Note, I will pay all those amounts, in full, on that date.

I will make my monthly payments at 50 West Main Street, Kingston, New York, or at a different place if required by the Note holder.

4. BORROWER'S FAILURE TO PAY AS REQUIRED

(A) Late Charge for Overdue Payments

If the Note holder has not received the full amount of any of my monthly payments by the end of 15 calendar days after the date it is due, I will pay a late charge to the Note holder. The amount of the charge will be 1 percent of my overdue payment of principal and interest.

(B) Notice From Note Holder

If I do not pay the full amount of each monthly payment on time, the Note holder may send me a written notice telling me that if I do not pay the overdue amount by a certain date I will be in default. That date must be at least 30 days after the date on which the notice is mailed to me or, if it is not mailed, 30 days after the date on which it is delivered to me.

(C) Default

If I do not pay the overdue amount by the date stated in the notice described in (B) above, I will be in default. If I am in default, the Note holder may require me to pay immediately the full amount of principal which has not been paid and all the interest that I owe on that amount.

Even if, at a time when I am in default, the Note holder does not require me to pay immediately in full as described above, the Note holder will still have the right to do so if, at a later time, I am in default again.

(D) Payment of Note Holder's Costs and Expenses

If the Note holder has required me to pay immediately in full as described above, the Note holder will have the right to be paid back for all of its reasonable costs and expenses. Those expenses include, for example, reasonable attorney's fees.

5. BORROWER'S PAYMENTS BEFORE THEY ARE DUE

(A) Borrower's Right to Make Prepayments

I have the right to make payments of principal before they are due. Any payment made before it is due is known as a "prepayment." A prepayment of only part of the unpaid principal is known as a "partial prepayment."

If I choose to make a partial prepayment, the Note holder may require me to make the prepayment on the same day that one of my monthly payments is due. The Note holder may also require that the amount of my partial prepayment be equal to the amount of principal that would have been part of my next one or more monthly payments. If I make a partial prepayment, there will be no delays in the due dates or changes in the amounts of my monthly payments unless the Note holder agrees in writing to those delays or changes. The Note holder will use all of my prepayments to reduce the amount of principal that I owe under this Note.

(B) Prepayment Charge

I will pay a prepayment charge to the Note holder only if a percentage and a date are filled in below *and if I make the*

2-Forms Federal Taxes Affecting Real Estate [B]

prepayment using money lent to me by a lender other than the Note holder. [Strike italics if not applicable.]

During any 12-month period ending on an anniversary of the date of this Note, I may make partial prepayments of up to \$5,000 without charge. This amount will be called the "free prepayment amount."

I will pay a prepayment charge if the total of my prepayments during any such 12-month period is greater than the free prepayment amount. The prepayment charge will be a percentage of the amount by which my prepayments in any such 12-month period are greater than the free prepayment amount. That percentage will be 3 percent until November 1, 2003; it will change to 2 percent on that date until November 1, 2004; and it will change to 1 percent on that date until November 1, 2005. After the last date filled in above, there will be no prepayment charge.

6. BORROWER'S WAIVERS

I waive my rights to require the Note holder to do the following things: (A) to demand payment of amounts due (known as "presentment"); (B) to give notice that amounts due have not been paid (known as "notice of dishonor"); (C) to obtain an official certification of nonpayment (known as a "protest"). Anyone else (i) who agrees to keep the promises made in this Note, (ii) who agrees to make payments to Lender if I fail to keep my promises under this Note, or (iii) who signs this Note to transfer it to someone else (known as "guarantors, sureties, and endorsers"), also waives these rights.

7. GIVING OF NOTICES

Any notice that must be given to me under this Note will be given by delivering it or by mailing it addressed to me at the Property Address below. A notice will be delivered or mailed to me at a different address if I give the Note holder a notice of my different address.

Any notice that must be given to the Note holder under this Note will be given by mailing it to the Note holder at the address stated in Section 3 above. A notice will be mailed to the Note holder at a different address if I am given a notice of that different address.

8. THIS NOTE COVERED BY A MORTGAGE

A Mortgage, dated November 1, 2002, protects the Note holder from possible losses which might result if I do not keep the promises which I make in this Note. That Mortgage describes how and under what conditions I may be required to make immediate payment in full of all amounts that I owe under this Note.

9. RESPONSIBILITY OF PERSONS UNDER THIS NOTE

If more than one person signs this Note, each of us is fully and personally obligated to pay the full amount owed and to keep all of the promises made in this Note. Any guarantor, surety, or endorser of this Note (as described in Section 6 above) is also obligated to do these things. The Note holder may enforce its rights under this Note against each of us individually or against all of us together. This means that any one of us may be required to pay all of the amounts owed under this Note.

Any person who takes over my rights or obligations under this Note will have all of my rights and must keep all of my promises made in this Note. Any person who takes over the rights or obligations of a guarantor, surety, or endorser of this Note (as described in Section 6 above) is also obligated to keep all of the promises made in this Note.

MORTGAGE

WORDS USED OFTEN IN THIS DOCUMENT

(A) "Mortgage." This document, which is dated November 1, 2002, will be called the "Mortgage."

(B) "Borrower." Charles T. Conroy and Ellen C. Conroy, husband and wife will sometimes be called the "Borrower" and sometimes simply "I."

(C) "Lender." Fifth National Bank of Ulster County will be called the "Lender." Lender is a corporation or association which was formed and which exists under the laws of the United States of America. Lender's address is 50 West Main Street, Kingston, New York.

(D) "Note." The note signed by Borrower and dated November 1, 2002, will be called the "Note." The Note shows that I owe Lender Forty Five Thousand and no/100 Dollars (\$45,000) plus interest, which I have promised to pay in monthly payments of principal and interest and to pay in full by November 1, 2032.

2-Forms Federal Taxes Affecting Real Estate [B]

(E) "Property." The property that is described below in the section titled "Description Of The Property," will be called the "Property."

BORROWER'S TRANSFER TO LENDER OF RIGHTS IN THE PROPERTY

I mortgage, grant and convey the Property to Lender subject to the terms of this Mortgage. This means that, by signing this Mortgage, I am giving Lender those rights that are stated in this Mortgage and also those rights that the law gives to lenders who hold mortgages on real property. I am giving Lender these rights to protect Lender from possible losses that might result if I do not:

- (A) Pay all the amounts that I owe Lender as stated in the Note;
- (B) Pay, with interest, any amounts that Lender spends under this Mortgage, to protect the value of the Property and Lender's rights in the Property;
- (C) Pay, with interest, any other amounts that Lender lends to me as Future Advances under Paragraph 23 below; and
- (D) Keep all of my promises and agreements under this Mortgage.

DESCRIPTION OF THE PROPERTY

I give Lender rights in the following Property:

(A) The property which is located at 235 North Elm Street, Little Britan, New York. This property is in Orange County in the State of New York. It has the following legal description:

[Insert Description]

If this property is a condominium, the following must be completed: This property is part of a condominium project known as Great Britan Gardens (called the "Condominium Project"). This property includes my unit and all of my rights in the common elements of the Condominium Project.

If this property is in a planned unit development, the following must be completed: This property is in a development which is a planned unit development known as _____ (called the "PUD"). The PUD was created by _____;

- (B) All buildings, structures and other improvements that are located on the property described in paragraph (A) of this section;
- (C) All rights in other property that I have as owner of the property described in paragraph (A) of this section. These rights are known as "easements, rights and appurtenances attached to the property;"
- (D) All rents or royalties from the property described in paragraph (A) of this section;
- (E) All mineral, oil and gas rights and profits, water, water rights and water stock that are part of the property described in paragraph (A) of this section;
- (F) All rights that I have in the land which lies in the streets or roads in front of, or next to, the property described in paragraph (A) of this section;

2-Forms Federal Taxes Affecting Real Estate [B]

(G) All fixtures on the property described in paragraphs (A) and (B) of this section. Usually, fixtures are items that are physically attached to buildings, such as hot water heaters;

(H) All of the property described in paragraphs (B) through (F) of this section that I acquire in the future, and all rights described in paragraphs (B) through (F) of this section that I acquire in the future;

(I) All replacements of or additions to the property described in paragraphs (B) through (F) and paragraph (H) of this section;

(J) All fixtures that: (i) are on the property described in paragraphs (A) and (B) of this section, and (ii) I acquire in the future, except for those fixtures that under the law are "consumer goods" and that I acquire more than ten days after the date of the Note; and

(K) All replacements of or additions to the fixtures that are on the property described in paragraphs (A) and (B) of this section, except for those replacements and additions that are: (i) made to fixtures that under the law are "consumer goods," and (ii) made more than ten days after the date of the Note.

It may be that I do not own the Property but am a tenant under a lease. In that case, the rights I am giving to Lender by this Mortgage are rights in my tenancy.

BORROWER'S RIGHT TO MORTGAGE THE PROPERTY AND BORROWER'S OBLIGATION TO DEFEND OWNERSHIP OF THE PROPERTY

I promise that except for the "exceptions" listed in any title insurance policy which insures Lender's rights in the Property: (A) I lawfully own the Property; (B) I have the right to mortgage, grant and convey the Property to Lender; and (C) there are no outstanding claims or charges against the Property.

I give a general warranty of title to Lender. This means that I will be fully responsible for any losses which Lender suffers because someone other than myself has some of the rights in the Property which I promise that I have. I promise that I will defend my ownership of the Property against any claims of such rights.

UNIFORM PROMISES

I promise and I agree with Lender as follows:

1. BORROWER'S PROMISE TO PAY PRINCIPAL AND INTEREST UNDER THE NOTE AND TO FULFILL OTHER PAYMENT OBLIGATIONS

I will promptly pay to Lender when due: principal and interest under the Note; late charges and prepayment charges as stated in the Note; and principal and interest on Future Advances that I may receive under Paragraph 23 below.

2. AGREEMENTS ABOUT MONTHLY PAYMENTS FOR TAXES AND INSURANCE

(A) Borrower's Obligation to Make Monthly Payments to Lender for Taxes and Insurance

I will pay to Lender all amounts necessary to pay for taxes, assessments, ground rents (if any), and hazard insurance on the Property and mortgage insurance (if any). I will pay those amounts to Lender unless Lender tells me, in writing, that I do not have to do so, or unless the law requires otherwise. I will make those payments on the same day that my

2-Forms Federal Taxes Affecting Real Estate [B]

monthly payments of principal and interest are due under the Note.

The amount of each of my payments under this Paragraph 2 will be the sum of the following:

- (i) One twelfth of the estimated yearly taxes, assessments and ground rents (if any) on the Property which under the law may be superior to this Mortgage; plus
- (ii) One twelfth of the estimated yearly premium for hazard insurance covering the Property; plus
- (iii) One twelfth of the estimated yearly premium for mortgage insurance (if any).

Lender will determine from time to time my estimated yearly taxes, assessments, ground rents and insurance premiums based upon existing assessments and bills, and reasonable estimates of future assessments and bills. (Taxes, assessments, ground rents and insurance premiums will be called "taxes and insurance.")

The amounts that I pay to Lender for taxes and insurance under this Paragraph 2 will be called the "Funds." The Funds are additional protection for Lender in case I do not fulfill my obligations under the Note and under this Mortgage.

(B) Lender's Obligations Concerning Borrower's Monthly Payments for Taxes and Insurance

Lender will keep the Funds in a savings or banking institution the deposits or accounts of which are insured or guaranteed by a federal or state agency. If Lender is such an institution then Lender may hold the Funds. Except as described in this Paragraph 2, Lender will use the Funds to pay taxes and insurance. Lender will give to me, without charge, an annual accounting of the Funds. That accounting must show all additions to and deductions from the Funds and the reason for each deduction.

Lender may not charge me for holding or keeping the Funds on deposit, for using the Funds to pay taxes and insurance, for analyzing my payments of Funds, or for receiving, verifying and totalling assessments and bills. However, Lender may charge me for these services if Lender pays me interest on the Funds and if the law permits Lender to make such a charge. Lender will not be required to pay me any interest or earnings on the Funds unless either (i) Lender and I agree in writing, at the time I sign this Mortgage, that Lender will pay interest on the Funds; or (ii) the law requires Lender to pay interest on the Funds.

If Lender's estimates are too high or if taxes and insurance rates go down, the amounts that I pay under this Paragraph 2 will be too large. If this happens at a time when I am keeping all of my promises and agreements made in this Mortgage, I will have the right to have the excess amount either promptly repaid to me as a direct refund or credited to my future monthly payments of Funds. There will be excess amounts if, at any time, the sum of (a) the amount of Funds which Lender is holding or keeping on deposit, plus (b) the amount of the monthly payments of Funds which I still must pay between that time and the due dates of taxes and insurance, is greater than the amount necessary to pay the taxes and insurance when they are due.

If, when payments of taxes and insurance are due, Lender has not received enough Funds from me to make those payments, I will pay to Lender whatever additional amount is necessary to pay the taxes and insurance in full. I must pay that additional amount in one or more payments as Lender may require.

When I have paid all of the amounts due under the Note and under this Mortgage, Lender will promptly refund to me any Funds that are then being held or kept on deposit by Lender. If, under Paragraph 20 below, either Lender acquires the Property or the Property is sold, then immediately before the acquisition or sale, Lender will use any Funds which Lender is holding or has on deposit at that time to reduce the amount that I owe to Lender under the Note and under this Mortgage.

3. LENDER'S APPLICATION OF BORROWER'S PAYMENTS

Unless the law requires otherwise, Lender will apply each of my payments under the Note and under Paragraphs 1 and 2 above in the following order and for the following purposes:

(A) First, to pay the amounts then due to Lender under Paragraph 2 above;

(B) Next, to pay interest then due under the Note;

(C) Next, to pay principal then due under the Note; and

(D) Next, to pay interest and principal on any Future Advances that I may have received from Lender under Paragraph 23 below.

4. BORROWER'S OBLIGATION TO PAY CHARGES AND ASSESSMENTS AND TO SATISFY CLAIMS AGAINST THE PROPERTY

I will pay all taxes, assessments, and any other charges and fines that may be imposed on the Property and that may be superior to this Mortgage. I will also make payments due under my lease if I am a tenant on the Property and I will pay ground rents (if any) due on the Property. I will do this either by making the payments to Lender that are described in Paragraph 2 above or, if I am not required to make payments under Paragraph 2, by making payments, when they are due, directly to the persons entitled to them. (In this Mortgage, the word "person" means any person, organization, governmental authority, or other party.) If I make direct payments, then promptly after making any of those payments I will give Lender a receipt which shows that I have done so. If I make payment to Lender under Paragraph 2, I will give Lender all notices or bills that I receive for the amounts due under this Paragraph 4.

If the Property includes a unit in a Condominium Project or in a PUD, I will promptly pay, when they are due, all assessments imposed by the owners association or other organization that governs the Condominium Project or PUD. That association or organization will be called the "Owners Association."

Any claim, demand or charge that is made against property because an obligation has not been fulfilled is known as a "lien." I will promptly pay or satisfy all liens against the Property that may be superior to this Mortgage. However, this Mortgage does not require me to satisfy a superior lien if: (A) I agree, in writing, to pay the obligation which gave rise to the superior lien and Lender approves the way in which I agree to pay that obligation; or (B) I, in good faith, argue or defend against the superior lien in a lawsuit so that, during the lawsuit, the superior lien may not be enforced and no part of the Property must be given up.

5. BORROWER'S OBLIGATION TO OBTAIN AND TO KEEP HAZARD INSURANCE ON THE PROPERTY

(A) Generally

I will obtain hazard insurance to cover all buildings, structures and other improvements that now are or in the future will be located on the Property. The insurance must cover loss or damage caused by fire, hazards normally covered by "extended coverage" hazard insurance policies, and other hazards for which Lender requires coverage. The insurance must be in the amounts and for the periods of time required by Lender. It is possible that the insurance policy will have provisions that may limit the insurance company's obligation to pay claims if the amount of coverage is too low. Those provisions are known as "co-insurance requirements." Lender may not require me to obtain an amount of coverage that is more than the larger of the following two amounts: either (i) the amount that I owe to Lender under the Note and

2-Forms Federal Taxes Affecting Real Estate [B]

under this Mortgage; or (ii) the amount necessary to satisfy the co-insurance requirements.

I may choose the insurance company, but my choice is subject to Lender's approval. Lender may not refuse to approve my choice unless the refusal is reasonable. All of the insurance policies and renewals of those policies must include what is known as a "standard mortgage clause" to protect Lender. The form of all policies and the form of all renewals must be acceptable to Lender. Lender will have the right to hold the policies and renewals.

I will pay the premiums on the insurance policies either by making payments to Lender, as described in Paragraph 2 above, or by paying the insurance company directly when the premium payments are due. If Lender requires, I will promptly give Lender all receipts of paid premiums and all renewal notices that I receive.

If there is a loss or damage to the Property, I will promptly notify the insurance company and Lender. If I do not promptly prove to the insurance company that the loss or damage occurred, then Lender may do so.

The amount paid by the insurance company is called "proceeds." The proceeds will be used to repair or to restore the damage Property unless: (a) it is not economically possible to make the repairs or restoration; or (b) the use of the proceeds for that purpose would lessen the protection given to Lender by this Mortgage; or (c) Lender and I have agreed in writing not to use the proceeds for that purpose. If the repair or restoration is not economically possible or if it would lessen Lender's protection under this Mortgage, then the proceeds will be used to reduce the amount that I owe to Lender under the Note and under this Mortgage. If any of the proceeds remain after the amount that I owe to Lender has been paid in full, the remaining proceeds will be paid to me. The use of proceeds to reduce the amount that I owe to Lender will not be a prepayment that is subject to the prepayment charge provisions, if any, under the Note.

If I abandon the Property, or if I do not answer, within 30 days, a notice from Lender stating that the insurance company has offered to settle a claim for insurance benefits, then Lender has the authority to collect the proceeds. Lender may then use the proceeds to repair or restore the Property or to reduce the amount that I owe to Lender under the Note and under this Mortgage. The 30-day period will begin on the date the notice is mailed or, if it is not mailed, on the date the notice is delivered.

If any proceeds are used to reduce the amount of principal which I owe to Lender under the Note, that use will not delay the due date or change the amount of any of my monthly payments under the Note and under Paragraphs 1 and 2 above. However, Lender and I may agree in writing to those delays or changes.

If Lender acquires the Property under Paragraph 20 below, all of my rights in the insurance policies will belong to Lender. Also, all of my rights in any proceeds which are paid because of damage that occurred before the Property is acquired by Lender or sold will belong to Lender. However, Lender's rights in those proceeds will not be greater than the amount that I owe to Lender under the Note and under this Mortgage immediately before the Property is acquired by Lender or sold.

(B) Agreements that Apply to Condominiums and PUD's

(i) If the Property includes a unit in a Condominium Project, the Owners Association may maintain a hazard insurance policy which covers the entire Condominium Project. That policy will be called the "master policy." So long as the master policy remains in effect and meets the requirements stated in this Paragraph 5: (a) my obligation to obtain and to keep hazard insurance on the Property is satisfied; (b) I will not be required to include an amount for hazard insurance premiums in my monthly payment of Funds to Lender under Paragraph 2 above; and (c) if there is a conflict, concerning the use of proceeds, between (1) the terms of this Paragraph 5, and (2) the law or the terms of the declaration, by-laws, regulations or other documents creating or governing the Condominium Project, then that law or the terms of those documents will govern the use of proceeds. I will promptly give Lender notice if the master policy is interrupted or terminated. During any time that the master policy is not in effect the terms of (a), (b) and (c) of this

subparagraph 5(B)(i) will not apply.

(ii) If the Property includes a unit in a Condominium Project, it is possible that proceeds will be paid to me instead of being used to repair or to restore the Property. I give Lender my rights to those proceeds. If the Property includes a unit in a PUD, it is possible that proceeds will be paid to me instead of being used to repair or to restore the common areas or facilities of the PUD. I give Lender my rights to those proceeds. All of the proceeds described in this subparagraph 5(B)(ii) will be paid to Lender and will be used to reduce the amount that I owe to Lender under the Note and under this Mortgage. If any of those proceeds remain after the amount that I owe to Lender has been paid in full, the remaining proceeds will be paid to me. The use of proceeds to reduce the amount that I owe to Lender will not be a prepayment that is subject to the prepayment charge provisions, if any, under the Note.

6. BORROWER'S OBLIGATION TO MAINTAIN THE PROPERTY AND TO FULFILL OBLIGATIONS IN LEASE, AND AGREEMENTS ABOUT CONDOMINIUMS AND PUD'S

I will keep the Property in good repair. I will not destroy, damage or substantially change the Property, and I will not allow the Property to deteriorate. If I do not own but am a tenant on the Property, I will fulfill my obligations under my lease.

If the Property is a unit in a Condominium Project or in a PUD, I will fulfill all of my obligations under the declaration, by-laws, regulations and other documents that create or govern the Condominium Project or PUD. Also, I will not divide the Property into smaller parts that may be owned separately (known as "partition or subdivision"), and I will not consent to any of the following unless I have first given Lender notice and obtained Lender's consent in writing:

(A) The abandonment or termination of the Condominium Project or PUD, unless, in the case of a condominium, the abandonment or termination is required by law;

(B) Any significant change to the declaration, by-laws or regulations of the Owners Association, trust agreement, articles of incorporation, or other documents that create or govern the Condominium Project or PUD, including, for example, a change in the percentage of ownership rights, held by unit owners, in the Condominium Project or in the common areas or facilities of the PUD;

(C) A decision by the Owners Association to terminate professional management and to begin self-management of the Condominium Project or PUD; and

(D) The transfer, release, creation of liens, partition or subdivision of all or part of the common areas and facilities of the PUD. (However, this provision does not apply to the transfer by the Owners Association of rights to use those common areas and facilities for utilities and other similar or related purposes.)

7. LENDER'S RIGHT TO TAKE ACTION TO PROTECT THE PROPERTY

If: (A) I do not keep my promises and agreements made in this Mortgage, or (B) someone, including me, begins a legal proceeding that may significantly affect Lender's rights in the Property (such as, for example, a legal proceeding in bankruptcy, in probate, for condemnation, or to enforce laws or regulations), then Lender may do and pay for whatever is necessary to protect the value of the Property and Lender's rights in the Property. Lender's actions under this Paragraph 7 may include, for example, appearing in court, paying reasonable attorney's fees, and entering on the Property to make repairs. Lender must give me notice before Lender may take any of these actions.

I will pay to Lender any amounts, with interest, which Lender spends under this Paragraph 7. This Mortgage will protect Lender in case I do not keep this promise to pay those amounts with interest.

I will pay those amounts to Lender when Lender sends me a notice requesting that I do so. I will also pay interest on those amounts at the same rate stated in the Note. However, if payment of interest at that rate would violate the law, I will pay interest on the amounts spent by Lender under this Paragraph 7 at the highest rate that the law allows. Interest on each amount will begin on the date that the amount is spent by Lender. However, Lender and I may agree in writing to terms of payment that are different from those in this paragraph.

Although Lender may take action under this Paragraph 7, Lender does not have to do so.

8. LENDER'S RIGHT TO INSPECT THE PROPERTY

Lender, and others authorized by Lender, may enter on and inspect the Property. They must do so in a reasonable manner and at reasonable times. However, before one of those inspections is made, Lender must give me notice stating a reasonable purpose for the inspection. That purpose must be related to Lender's rights in the Property.

9. AGREEMENTS ABOUT CONDEMNATION OF THE PROPERTY

A taking of property by any governmental authority by eminent domain is known as "condemnation." I give to Lender my right: (A) to proceeds of all awards or claims for damages resulting from condemnation or other governmental taking of the Property (or, if the Property includes a unit in a PUD, of the common areas and facilities of the PUD); and (B) to proceeds from a sale of the Property (or, if the Property includes a unit in a PUD, of the common areas and facilities of the PUD) that is made to avoid condemnation. All of those proceeds will be paid to Lender.

If all of the Property is taken, the proceeds will be used to reduce the amount that I owe to Lender under the Note and under this Mortgage. If any of the proceeds remain after the amount that I owe to Lender has been paid in full, the remaining proceeds will be paid to me. Unless Lender and I agree otherwise in writing, if only a part of the Property is taken, (or, if the Property is a unit in a PUD, if all or part of the common areas or facilities of the PUD are taken), the amount that I owe to Lender will only be reduced by the amount of proceeds multiplied by the following amount: (i) the total amount that I owe to Lender under the Note and under this Mortgage immediately before the taking, divided by (ii) the fair market value of the Property immediately before the taking. The remainder of the proceeds will be paid to me. The use of proceeds to reduce the amount that I owe to Lender will not be a prepayment that is subject to the prepayment charge provisions, if any, under the Note.

If I abandon the Property, or if I do not answer, within 30 days, a notice from Lender stating that a governmental authority has offered to make a payment or to settle a claim for damages, then Lender has the authority to collect the proceeds. Lender may then use the proceeds to repair or restore the Property or to reduce the amount that I owe to Lender under the Note and under this Mortgage. The 30-day period will begin on the date the notice is mailed or, if it is not mailed, on the date the notice is delivered.

If any proceeds are used to reduce the amount of principal which I owe to Lender under the Note, that use will not delay the due date or change the amount of any of my monthly payments under the Note and under Paragraphs 1 and 2 above. However, Lender and I may agree in writing to those delays or changes.

10. CONTINUATION OF BORROWER'S OBLIGATIONS

Lender may allow a person who takes over my rights and obligations to delay or to change the amount of the monthly payments of principal and interest due under the Note or under this Mortgage. Even if Lender does this, however, that person and I will both still be fully obligated under the Note and under this Mortgage unless the conditions stated in Paragraph 19 below have been met.

Lender may allow those delays or changes for a person who takes over my rights and obligations, even if Lender is

requested not to do so. Lender will not be required to bring a lawsuit against such a person for not fulfilling obligations under the Note or under this Mortgage, even if Lender is requested to do so.

11. CONTINUATION OF LENDER'S RIGHTS

Even if Lender does not exercise or enforce any right of Lender under this Mortgage or under the law, Lender will still have all of those rights and may exercise and enforce them in the future. Even if Lender obtains insurance, pays taxes, or pays other claims, charges or liens against the Property, Lender will still have the right, under Paragraph 20 below, to demand that I make Immediate Payment In Full (see Paragraph 20 for a definition of this phrase) of the amount that I owe to Lender under the Note and under this Mortgage.

12. LENDER'S ABILITY TO ENFORCE MORE THAN ONE OF LENDER'S RIGHTS

Each of Lender's rights under this Mortgage is separate. Lender may exercise and enforce one or more of those rights, as well as any of Lender's other rights under the law, one at a time or all at once.

13. OBLIGATIONS OF BORROWERS AND OF PERSONS TAKING OVER BORROWER'S RIGHTS OR OBLIGATIONS; AGREEMENTS CONCERNING CAPTIONS

Subject to the terms of Paragraph 19 below, any person who takes over my rights or obligations under this Mortgage will have all of my rights and will be obligated to keep all of my promises and agreements made in this Mortgage. Similarly, any person who takes over Lender's rights or obligations under this Mortgage will have all of Lender's rights and will be obligated to keep all of Lender's agreements made in this Mortgage.

If more than one person signs this Mortgage as Borrower, each of us is fully obligated to keep all of Borrower's promises and obligations contained in this Mortgage. Lender may enforce Lender's rights under this Mortgage against each of us individually or against all of us together. This means that any one of us may be required to pay all of the amounts owed under the Note and under this Mortgage. However, if one of us does not sign the Note, then: (A) that person is signing this Mortgage only to give that person's rights in the Property to Lender under the terms of this Mortgage; and (B) that person is not personally obligated to make payments or to act under the Note or under this Mortgage.

The captions and titles of this Mortgage are for convenience only. They may not be used to interpret or to define the terms of this Mortgage.

14. AGREEMENTS ABOUT GIVING NOTICES REQUIRED UNDER THIS MORTGAGE

Unless the law requires otherwise, any notice that must be given to me under this Mortgage will be given by delivering it or by mailing it addressed to me at the address stated in the section above titled "Description Of The Property." A notice will be delivered or mailed to me at a different address if I give Lender a notice of my different address. Any notice that must be given to Lender under this Mortgage will be given by mailing it to Lender's address stated in paragraph (C) of the section above titled "Words Used Often In This Document." A notice will be mailed to Lender at a different address if Lender gives me a notice of the different address. A notice required by this Mortgage is given when it is mailed or when it is delivered according to the requirements of this Paragraph 14.

15. AGREEMENTS ABOUT UNIFORM MORTGAGE AND LAW THAT GOVERNS THIS MORTGAGE

This is a "Uniform Mortgage." It contains "uniform promises" that are in mortgages used all over the country and also "non-uniform promises" that vary, to a limited extent, in different parts of the country.

The law that applies in the place that the Property is located will govern this Mortgage. If any term of this Mortgage or of the Note conflicts with the law, all other terms of this Mortgage and of the Note will still remain in effect if they can be given effect without the conflicting term. This means that any terms of this Mortgage and of the Note which conflict with the law can be separated from the remaining terms, and the remaining terms will still be enforced.

16. BORROWER'S COPY OF THE NOTE AND OF THIS MORTGAGE

I will be given a copy of the Note and of this Mortgage. Those copies must show that the original Note and Mortgage have been signed. I will be given those copies either when I sign the Note and this Mortgage or after this Mortgage has been recorded in the proper official records.

17. AGREEMENTS THAT APPLY TO VA LOANS

A loan that is guaranteed or insured by the United States Veterans Administration is known as a "VA loan." If the loan that I promise to pay in the Note is a VA loan, then my rights and obligations, as well as those of Lender, are governed by that law which is known as Title 38 of the United States Code and the Regulations made under that Title (called the "Title and Regulations"). It is possible that one or more terms of this Mortgage, or of other documents that are signed in connection with my VA loan, conflict with the Title and Regulations. For example, it is possible that the prepayment terms in the Note or Paragraph 19 of this Mortgage conflict with the Title and Regulations. Lender and I agree that if there is a conflict, the conflicting terms of this Mortgage or other documents are modified or eliminated as much as is necessary to make all of the conflicting terms agree with the Title and Regulations.

18. BORROWER'S OBLIGATION TO PAY MORTGAGE INSURANCE PREMIUMS

If Lender required mortgage insurance as a condition of making the loan that I promise to pay under the Note, then I will pay the premiums for that mortgage insurance. I will pay the premiums until the requirement for mortgage insurance ends according to my written agreement with Lender or according to law. Lender may require me to pay the premiums in the manner described in Paragraph 2 above.

NON-UNIFORM PROMISES

I also promise and agree with Lender as follows:

19. AGREEMENTS ABOUT ASSUMPTION OF THIS MORTGAGE AND ABOUT LENDER'S RIGHTS IF BORROWER TRANSFERS THE PROPERTY WITHOUT MEETING CERTAIN CONDITIONS

If I sell or transfer all or part of the Property or any rights in the Property, any person to whom I sell or transfer the Property may take over all of my rights and obligations under this Mortgage (known as an "assumption of the Mortgage") if: (A) I give Lender notice of the sale or transfer; (B) Lender agrees that the person's credit is satisfactory; (C) the person agrees to pay interest on the amount owed to Lender under the Note and under this Mortgage at whatever rate Lender requires; and (D) the person signs an assumption agreement that is acceptable to Lender and that obligates the person to keep all of the promises and agreements made in the Note and in this Mortgage. If I sell or transfer the Property and each of the conditions in (A), (B), (C) and (D) of this Paragraph 19 are satisfied, Lender will release me from all of my obligations under the Note and under this Mortgage.

However, if I sell or transfer the Property and the conditions in (A), (B), (C) and (D) of this Paragraph 19 are not satisfied, I will still be fully obligated under the Note and under this Mortgage and Lender may require Immediate Payment in Full, as that phrase is defined in Paragraph 20 below. However, Lender will not have the right to require Immediate Payment In Full as a result of any of the following: (i) the creation of liens or other claims against the

Property that are inferior to this Mortgage; (ii) a transfer of rights in household appliances, to a person who provides me with the money to buy those appliances, in order to protect that person against possible losses; (iii) a transfer of the Property to surviving co-owners, following the death of a co-owner, when the transfer is automatic according to law; or (iv) leasing the Property for a term of three years or less, as long as the lease does not include an option to buy.

If Lender requires Immediate Payment In Full under this Paragraph 19, Lender will send me a notice, in the manner described in Paragraph 14 above, which states this requirement. The notice will give me at least 30 days to make the required payment. The 30-day period will begin on the date the notice is mailed or, if it is not mailed, on the date the notice is delivered. If I do not make the required payment during that period, Lender may bring a lawsuit for "foreclosure and sale" under Paragraph 20 below without giving me any further notice or demand for payment. (See Paragraph 20 for a definition of "foreclosure and sale.")

20. LENDER'S RIGHTS IF BORROWER FAILS TO KEEP PROMISES AND AGREEMENTS

If all of the conditions stated in subparagraphs (A), (B), and (C) of this Paragraph 20 are satisfied, Lender may require that I pay immediately the entire amount then remaining unpaid under the Note and under this Mortgage. Lender may do this without making any further demand for payment. This requirement will be called "Immediate Payment In Full."

If Lender requires Immediate Payment In Full, Lender may bring a lawsuit to take away all of my remaining rights in the Property and to have the Property sold. At this sale Lender or another person may acquire the Property. This is known as "foreclosure and sale." In any lawsuit for foreclosure and sale, Lender will have the right to collect all costs allowed by law.

Lender may require Immediate Payment In Full under this Paragraph 20 only if all of the following conditions are satisfied:

(A) I fail to keep any promise or agreement made in this Mortgage, including the promises to pay when due the amounts that I owe to Lender under the Note and under this Mortgage; and

(B) Lender sends to me, in the manner described in Paragraph 14 above, a notice that states:

(i) The promise or agreement that I failed to keep;

(ii) The action that I must take to correct that failure;

(iii) A date by which I must correct the failure. That date must be at least 30 days from the date on which the notice is mailed to me, or, if it is not mailed, from the date on which it is delivered to me;

(iv) That if I do not correct the failure by the date stated in the notice, I will be in default and Lender may require Immediate Payment In Full, and Lender or another person may acquire the Property by means of foreclosure and sale;

(v) That I may speak with a named representative of Lender to discuss any questions which I have about the things stated in the notice;

(vi) That if I meet the conditions stated in Paragraph 21 below, I will have the right to have any lawsuit for foreclosure and sale discontinued and to have the Note and this Mortgage remain in full force and effect as if Immediate Payment In Full had never been required; and

(vii) That I have the right in any lawsuit for foreclosure and sale to argue that I did not fail to keep any of my promises or agreements under the Note or under this Mortgage, and to present any other defenses that I may have; and

(C) I do not correct the failure stated in the notice from Lender by the date stated in that notice.

21. BORROWER'S RIGHT TO HAVE LENDER'S LAWSUIT FOR FORECLOSURE AND SALE DISCONTINUED

Even if Lender has required Immediate Payment In Full, I may have the right to have discontinued any lawsuit brought by Lender for foreclosure and sale or for other enforcement of this Mortgage. I will have this right at any time before a judgment has been entered enforcing this Mortgage if I meet the following conditions:

(A) I pay to Lender the full amount that would have been due under this Mortgage, the Note, and any notes for Future Advances under Paragraph 23 below if Lender had not required Immediate Payment In Full; and

(B) I correct my failure to keep any of my other promises or agreements made in this Mortgage; and

(C) I pay all of Lender's reasonable expenses in enforcing this Mortgage including, for example, reasonable attorney's fees; and

(D) I do whatever Lender reasonably requires to assure that Lender's rights in the Property. Lender's rights under this Mortgage, and my obligations under the Note and under this Mortgage continue unchanged.

If I fulfill all of the conditions in this Paragraph 21, then the Note and this Mortgage will remain in full force and effect as if Immediate Payment In Full had never been required.

22. LENDER'S RIGHTS TO RENTAL PAYMENTS FROM THE PROPERTY AND TO TAKE POSSESSION OF THE PROPERTY

As additional protection for Lender, I give to Lender all of my rights to any rental payments from the Property. However, until Lender requires Immediate Payment In Full under Paragraphs 19 or 20 above, or until I abandon the Property, I have the right to collect and keep those rental payments as they become due. I have not given any of my rights to rental payments from the Property to anyone else, and I will not do so without Lender's consent in writing.

If Lender requires Immediate Payment In Full under Paragraphs 19 or 20 above, or if I abandon the Property, then Lender, persons authorized by Lender, or a receiver appointed by a court at Lender's request may: (A) collect the rental payments, including overdue rental payments, directly from the tenants; (B) enter on and take possession of the Property; (C) manage the Property; and (D) sign, cancel and change leases. I agree that if Lender notifies the tenants that Lender has the right to collect rental payments directly from them under this Paragraph 22, the tenants may make those rental payments to Lender without having to ask whether I have failed to keep my promises and agreements under this Mortgage.

If there is a judgment for Lender in a lawsuit for foreclosure and sale, I will pay to Lender reasonable rent from the date the judgment is entered for as long as I occupy the Property. However, this does not give me the right to be a tenant on the Property.

All rental payments collected by Lender or by a receiver, other than the rent paid by me under this Paragraph 22, will be used first to pay the costs of collecting rental payments and of managing the Property. If any part of the rental payments remains after those costs have been paid in full, the remaining part will be used to reduce the amount that I owe to Lender under the Note and under this Mortgage. The costs of managing the Property may include the receiver's fees, reasonable attorney's fees, and the cost of any necessary bonds. Lender and the receiver will be obligated to account only for those rental payments that they actually receive.

23. AGREEMENTS ABOUT FUTURE ADVANCES

I may ask Lender to make one or more loans to me in addition to the loan that I promise to pay under the Note. Lender may, before this Mortgage is discharged, make those additional loans to me. This Mortgage will protect Lender from possible losses that might result from my failure to fulfill my obligation to pay the amounts of any of those additional loans plus interest, only if the notes which contain my promises to pay those additional loans state that this Mortgage will give Lender such protection. Additional loans made by Lender that are protected by this Mortgage will be called "Future Advances." The principal amount that I owe to Lender under the Note and under all notes for Future Advances, not including the amounts spent by Lender to protect the value of the Property and Lender's rights in the Property, may not be greater than the original amount of the Note plus U.S. \$ _____.

24. LENDER'S OBLIGATION TO DISCHARGE THIS MORTGAGE WHEN THE NOTE AND THIS MORTGAGE ARE PAID IN FULL

When Lender has been paid all amounts due under the Note, under this Mortgage and under any notes for Future Advances, Lender will discharge this Mortgage by delivering a certificate stating that this Mortgage has been satisfied. I will not be required to pay Lender for the discharge, but I will pay all costs of recording the discharge in the proper official records.

25. AGREEMENTS ABOUT NEW YORK LIEN LAW

I will receive all amounts lent to me by Lender subject to the trust fund provisions of Section 13 of the New York Lien Law. This means that if, on the date this Mortgage is recorded in the proper official records, construction or other work on any building, structure, or other improvements located on the Property has not been completed for at least four months, I will: (A) hold all amounts, which I receive and which I have a right to receive from Lender under the Note and as Future Advances, as a "trust fund," and (B) use those amounts to pay for that construction or work before I use them for any other purpose. The fact that I am holding those amounts as a "trust fund" means that I have a special responsibility under the law to use the amounts in the manner described in this Paragraph 25.

By signing this Mortgage I agree to all of the above.

C.1 Option for ground lease

COMMENT

An option to lease a parcel of land often represents the first step in the development of a commercial project. Generally, it is during the option period that the developer will prepare feasibility studies and preliminary plans and specifications, and obtain preliminary cost estimates, commitments for financing, and indications of interest from major tenants.

Lease annexed to option:

This form follows the better practice of having the complete lease agreed upon in advance and annexed to the option as an exhibit. Occasionally, counsel may find an option to lease which contains specific provisions as to the rental and the term of lease and, ostensibly, the other provisions are covered by a clause to the effect that "the lease will also provide for such other terms and conditions as are generally contained in leases of the same nature." However, the developer soon finds that he is unable to obtain anything more than preliminary indications of interest from lenders and prospective tenants, due to the absence of a definitive lease. It is at this point, when considerable time and money may already have been expended, that the developer may discover there can be an honest difference of opinion as to what the "other provisions" of the lease should be and he may find that he must renegotiate what he had assumed to be agreed upon.

For further information, see Chapter 4.

FORM

For and in consideration of \$500, receipt of which is hereby acknowledged, and other valuable consideration, Stone Centers, Inc. (the "Optionors"), grants to Castle Co., a Florida corporation, its successors or assigns (the "Optionee"),

An Option to lease the following described property, together with all the buildings and improvements thereon and all rights and appurtenances thereunto appertaining, more particularly described as follows:

2-Forms Federal Taxes Affecting Real Estate [C]

[Insert legal description from title policy]

On the following terms and conditions:

1. *Lease appended; conflicting provisions.* The parties shall use the Lease form, marked Exhibit A and attached to and made a part of this Option, as the Lease to be executed at closing. However, the terms and conditions provided below shall be incorporated in the Lease. If there is any conflict between the provisions of the Lease form and those of this Option, the latter provisions shall prevail.

2. *Notice; exercise; termination.* The Optionee must give written notice to the Optionors of its election to lease the premises described below not later than 6 p.m., July 1, 2002. If the Optionee fails to give such notice, this Option shall terminate.

3. *Suitability studies.* The Optionors will permit the Optionee, at any time after this option agreement is executed and either before or after its exercise, to make engineering studies, including soil tests and borings and estimated cost of grading, on the premises to determine the suitability of the premises for the Optionee's proposed use.

4. *Zoning contingency.* If the premises are not zoned so as to permit their proposed use by the Optionee for the construction and operation of an office building, the Optionors shall, at their expense, secure the necessary zoning as soon as possible. If proceedings to obtain a change in zoning have been commenced but not completed by the date specified as the last date for exercising this Option, the time for giving notice of election to lease hereunder shall be extended to a date two weeks after the Optionee has received notice from the Optionors that they have obtained the proper zoning variance or exception. If the zoning change is finally denied, this Option shall terminate and the Optionors shall return to the Optionee all monies paid to them.

5. *Delivery of possession.* Possession will be given upon delivery and execution of the Lease, and Optionors will cause any Tenants in possession to vacate the premises prior to such time.

6. *Taxes.* Real estate taxes, whether or not then due or payable, shall be prorated to the date of closing. The Optionors will pay all assessments or installments thereof which become due prior to the execution and delivery of the Lease.

7. *Water; sewers.* This option is conditioned upon the Optionee being able to obtain an 8' Water Service to the Property to sustain a Sprinkler System and Permits to hook up to the Public Sewer System.

8. *Title policy; closing.* The Optionee shall have 30 days after the giving of notice of its election to lease the subject premises in which to secure title insurance. At such time the parties will proceed with the closing and the payment of the first rental.

9. *Notices.* Notice given hereunder must be in writing, and may be served personally or by mail. The time of service shall be the date of actual delivery to the address personally or the time of deposit in the mail, postage prepaid, directed to the last known address of the party to be served. Notice shall be directed to the Optionors at the office of _____ and to the Optionee at _____ or such other address as they may hereafter designate.

10. *Binding effect.* The provisions of this Option shall be binding upon and inure to the benefit of both parties and their respective heirs, assigns, executors, administrators, and successors.

11. *Non-waiver.* No delay or failure by either party to exercise any right under this Option, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

12. *Headings.* Headings in this Option are for convenience only and shall not be used to interpret or construe its provisions.

13. *Governing law.* This Option shall be construed in accordance with and governed by the laws of the State of Florida.

14. *Counterparts.* This Option may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

15. *Time of essence.* Time is expressly declared to be of the essence of this Option.

16. *Entire agreement.* This Option supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

In witness whereof the parties have signed this Option on this January 30, 2001.

[Acknowledgment] [Exhibit A: Lease Form]

C.2 Ground lease--shopping center

COMMENT

This form of ground lease contains several features which are favorable to the lessee that are not always found in long-term leases. The lease contemplates that the lessee will build a shopping center or other commercial buildings upon the leased premises, and that in addition to a fixed minimum rent which the lessee is to pay to the lessor (yearly, and in advance) the lessee will also pay percentage rent which is based upon percentage rent that the lessee will receive from its subtenants. It should be noted, however, that the lessee is not required to construct any improvements, as discussed below.

Construction of improvements:

Although the lease contemplates that a shopping center is to be built, Article XIII of the lease specifically provides that the lessee is under no obligation to do so. The lessee is not permitted to construct any improvements on the premises unless they are in the nature of a commercial building or shopping center. However, should the lessee elect to do so, he may continue the lease in effect merely by paying the minimum rent and the lessor would never receive the anticipated percentage rent. As a practical matter it is doubtful that the lessee would continue to pay rent indefinitely for bare land which produces no income and, upon failure to pay rent, the lessor could terminate the lease. In this respect, it should be noted that the fixed minimum rent increases by more than 100% within a period of five years (see Article III). It is more common, however, to provide that the lessor may terminate the lease in the event that the

lessee fails to commence and complete construction of the improvements by specified dates.

Mortgage financing:

Another feature contained in this lease, which should be useful to the lessee, is the requirement that the lessor mortgage his fee ownership in the land in order to help the lessee obtain temporary and permanent financing to construct the desired improvements (see Article XIV).

Nonrecourse mortgage as to lessor:

If the lessor is willing to go along with the basic concept of mortgaging his fee ownership, he will generally insist on additional provisions (similar to those contained in Article XIV below) which are designed to protect him from personal liability for the mortgage debt and offer some assurance that, although it is possible for him to lose his land in a mortgage foreclosure action, it is not probable. Nevertheless, the lessor must be made aware of the fact that if the lessor is unwilling or unable to cure a possible default of the developer (which may involve the payment of substantial sums) the lessor runs the risk of losing his land in a mortgage foreclosure action.

If the lessor is a "sophisticated" landowner who is unwilling to mortgage his fee ownership, he will generally permit the lessee to mortgage his leasehold interest in the land on terms and conditions that an institutional lender would require in order to make the leasehold mortgage acceptable security for temporary and permanent construction financing.

Table of contents:

Long-term leases are inherently lengthy documents due to the fact that they provide, as a matter of contract, for the rights and obligations of the lessor and the lessee with respect to a wide variety of matters, under varying circumstances, over a long period of time. Accordingly, a table of contents frequently precedes the agreement in order to give interested parties quick access to various contractual matters that are generally covered by all leases. These tables of contents are reproduced for two basic reasons. First, they serve as a basic checklist for broad problems that are normally covered in most leases. They also enable counsel to compare the manner in which the same problem receives comparable or different treatment in other leases provided in this section.

For further information, see Chapter 4.

THIS LEASE made and entered into at Bel Air, Harford County, State of Maryland, on March 1, 2002, by and between James Hackney Enterprises (the "Lessor") and Hebditch Holders, Inc., a Maryland corporation (the "Lessee");

The Lessor and the Lessee, for and in consideration of the keeping by the parties of their respective obligations hereinafter contained agree as follows:

Article I Demised Premises

1. *Lessor's demise.* Upon the terms and conditions hereinafter set forth, and in consideration of the payment of the rents and the prompt performance by the Lessee of the covenants and agreements, to be kept and performed by the Lessee, the Lessor does lease, let, and demise to the Lessee and the Lessee hereby leases from the Lessor, the following described premises, situate, lying, and being in Harford County, State of Maryland:

[Insert legal description or refer to attached exhibit]

2. *Conditions.* The demise is likewise made subject to the following:

- (a) All conditions, restrictions, and limitations now appearing of record;
- (b) Zoning ordinances of any municipality, the County of Harford, State of Maryland, and any other competent governmental body now existing or which may hereafter exist during the life of this Lease;
- (c) Any questions of survey, the Lessee having satisfied itself as to the boundary lines and contents of the above described premises as well as with the sufficiency of the Lessor's present title; and

2-Forms Federal Taxes Affecting Real Estate [C]

(d) The Lessee's proper performance of all the terms and conditions contained in this Lease.

Article II Term

To have and to hold the demised premises for a term commencing February 28, 2002 and ending February 28, 2052, inclusive, unless terminated sooner as provided below.

Article III Rent

1. *Annual rentals.* The Lessee shall pay the Lessor the following rent:

1st year_____	\$11,000

2nd year_____	17,500

3rd year_____	20,000

4th year_____	22,500

5th year_____	25,000

6-50th year_____	25,000

All rent payments shall be paid annually and in advance.

2. *Cost of fill; offset.* The Lessee shall pay the first \$35,000 of the cost of filling the subject property to the specifications of its subtenants, state and local building codes, and all other applicable authorities. The cost of fill shall be determined by three qualified bidders, approved by the Lessor and Lessee. If the cost exceeds \$35,000, all excess amounts shall be deducted from the minimum rent payment at the rate of 10% per annum between the sixth and fifteenth years of this Lease.

3. *Supplementary rent.* (a) The Lessee shall pay Supplementary Rent to the Lessor. Supplementary Rent shall be 10% of the net amount of "Percentage Rent" (as hereinafter defined) paid to the Lessee during the preceding calendar year by all subtenants of portions of the demised premises used for retail or other shopping center purposes, plus 5% of "Gross Rents" (as hereinafter defined) received by the Lessee during the preceding calendar year from subtenants of portions of the shopping center used for other purposes. If the premises leased to a subtenant are used principally or primarily for retail or other shopping center purposes, and the applicable lease provides for the payment of Percentage Rent, for the purpose of computing Supplementary Rent it shall be deemed that all thereof are used for retail or shopping center

2-Forms Federal Taxes Affecting Real Estate [C]

purposes. The operation of the following businesses shall be deemed to be shopping center uses (without limitation thereto): bank, finance company office, insurance company office, barber shop and beauty parlor, launderette, supermarket, dry cleaning store, variety store, department store, restaurant, discount store, or real estate office. Supplementary Rent shall be paid on July 1 of each year during the term.

(b) After the receipt of such statements of Gross Sales (as defined in the applicable sublease) and payments of Percentage Rent and Gross Rent from subtenants, the Lessee shall compile a schedule thereof and furnish a copy to Lessor on or before July 1 of each year.

(c) In lieu of Article III, Section 3(a), above, the Lessor may compute Percentage Rent as follows:

The sixth year that the Shopping Center is in operation will be considered the Base Year. Rental Incomes attributed to stores that were in operation during that year may increase, the amount of such increase to be deemed Percentage Rent, whether by having the stores in operation pay additional rent or procuring new tenants to replace such stores. The Lessor will receive 10% of these increases. On any new building the Base Year will be the first year's rental.

4. *Due date.* All rental payments shall be made on the anniversary of the payment of the first rental.

5. *Place of payment.* Rent shall be payable at such place as the Lessor may specify, in writing, from time to time.

6. *Net lease.* All rent shall be absolutely net to Lessor, so that this Lease shall, except as hereinafter provided to the contrary, yield net to Lessor the rent, to be paid in each year during the term of this Lease. Accordingly, the Lessee shall pay all costs, expenses, and obligations of every kind or nature, relating to the demised premises, or any improvements thereon, which may arise or become due during the term of this Lease, and shall indemnify and hold harmless the Lessor from and against the same. Nothing in this Lease shall be deemed to require the Lessee to pay or discharge any liens or mortgages of any character which may later be placed upon the demised premises by the Lessor's affirmative acts. However, the Lessee shall pay and discharge temporary and permanent mortgages referred to in Article XIV hereof.

Article IV Definitions

As used in this Lease, the following terms have the following definitions:

1. "Percentage Rent" shall mean rent payable by a subtenant of a part of the demised premises to the Lessee, computed in the following or similar manner:

(a) As the extent to which a specified percentage of certain sales (subject to exclusions and deductions) exceeds a fixed minimum rent and possibly other charges payable under the applicable sublease; or

(b) As a percentage of the extent to which certain sales (subject to exclusions and deductions) made in such premises exceeds a specified minimum sales figure; or the difference between such percentage and other charges payable by the subtenant.

If any subtenants are permitted to deduct sums or are entitled to refunds from the percentage rents, the amounts shall be deductible from the Percentage Rent referred to herein.

2. "Gross Rent" shall mean all rent payable to Lessee by subtenants minus Subtractions, as follows:

(a) The utility charges segregated in any sublease from the rent payable thereunder and paid to Lessee as a

2-Forms Federal Taxes Affecting Real Estate [C]

reimbursement for the supplying of utilities to such subtenant; and

(b) Such subtenant's pro rata share of the cost to Lessee of maintaining, repairing and operating common areas of the demised premises.

3. "Pro Rata Share" shall mean the proportion that the floor area of the premises leased to a subtenant bears to the square foot area of all of the space of the buildings (excluding any covered mall or any buildings used as common facilities) situated in the demised premises. For purposes of this formula, the floor area shall be computed on the basis of exterior dimensions.

Article V Payment of Taxes

1. *Lessee's obligations.* The Lessee shall pay, before any fine, penalty, interest, or cost may be added, become due, or be imposed for nonpayment thereof, the following: all taxes, assessments, water and sewer rents, rates and charges, transit taxes, charges for public utilities, excises, levies, licenses and permit fees and other governmental charges, general and special, ordinary and extraordinary, unforeseen and foreseen, of any kind and nature, which at any time during the term of this Lease may be assessed, levied, confirmed, imposed upon, or grow or become due and payable out of or in respect of, or become a lien on, the demised premises, or any improvements thereon, or any part thereof or any appurtenance thereto, or otherwise arising out of the rent and income received by the Lessee from subtenants, any use or occupation of the demised premises, and such franchises as may be appurtenant to the use of the demised premises, or any document (to which the Lessee is a party) creating or transferring an interest or estate in the demised premises.

2. *Obligations altered.* Nothing herein shall require the Lessee to pay municipal, state, or federal income taxes assessed against the Lessor, the Lessor's municipal, state, or federal capital levy, estate, succession, inheritance, or transfer taxes, or corporate franchise taxes imposed upon any corporate owner of the fee of the demised premises. However, if at any time during the term of this Lease the methods of taxation prevailing at the commencement of its term are altered so as to cause the whole or any part of the taxes, assessments, levies, impositions, or charges now levied, assessed and imposed, wholly or partially as a capital levy, or otherwise, on the rents received therefrom, or of any tax, corporation franchise tax, assessments, levy (including, but not limited to any municipal, state, or federal levy), imposition or charge, or any part thereof, are measured by or based in whole or in part upon the demised premises and are imposed upon the Lessor, then all such taxes, assessments, levies, impositions, or charges, or the part thereof so measured or based, shall be paid and discharged by the Lessee.

3. *Mode of payment.* The Lessee shall pay the taxes and other charges enumerated in this Article and deliver to the Lessor official receipts evidencing payment, at least 30 days before the tax itself would become delinquent in accordance with the then applicable law governing such payments. If, however, the Lessee desires to contest the validity of any tax or tax claim, it may do so without being in default hereunder, provided it gives the Lessor written notice of its intention to contest the tax or claim, and also furnishes the Lessor with a bond with a surety made by a surety company qualified to do business in the State of Maryland, or pays cash to a recognized Escrow Agent in Hartford County equal to 150 percent of the amount of the tax item or items it intends to contest, conditioned to pay the tax or tax items when their validity has been determined. The Lessee shall give the Lessor the notice and bond (or cash equivalent) not later than 60 days before the tax item or items it proposes to contest would otherwise become delinquent.

4. *Lessee's default.* If the Lessee fails, refuses, or neglects to make any payment required in this Article, the Lessor may do so. In that event, the Lessee shall, upon the Lessor's demand, repay to it the amounts so paid, including reasonable attorneys' fees and all other expenses reasonably incurred because of or in connection with the payments, together with interest thereon at the rate of 10 percent per annum. The Lessor may collect or enforce any payment in the same manner as though it were an installment of rent specifically required by the terms of the Lease to be paid by the Lessee, on the day when the Lessor demands repayment of or reimbursement therefor. However, the Lessor's election to pay the taxes

2-Forms Federal Taxes Affecting Real Estate [C]

shall not waive the Lessee's default.

5. *Proration.* Notwithstanding the above, the taxes for the first and last years of this Lease shall be prorated proportionately between Lessor and Lessee.

Article VI Mechanics' Liens

1. *No lien.* The Lessee shall not subject the Lessor's interest in the premises to any mechanics' or materialmens' liens or other lien of any kind, except to the extent that the creation of such lien or liens is specifically authorized by a provision in this Lease.

2. *Release of lien.* The Lessee shall not allow a lien or claim of any kind (except for the mortgage referred to in Article XIV) to be filed or claimed against the Lessor's interest in the demised premises during the continuance of this Lease. If such lien is claimed or filed, the Lessee shall cause the premises to be released from the claim within 30 days after the Lessor is given written notice that a claim has been filed, or within 30 days after the Lessor is given written notice of the claim and transmits written notice of its receipt to the Lessee, whichever 30-day period expires earlier. The Lessee will cause such release either by paying to the court the amount necessary to relieve and release the premises from the claim, or in any other manner which, as a matter of law, will result, within the 30-day period, in releasing the Lessor and its title from the claim.

Article VII Governing Law, Cumulative Remedies

1. *Governing law.* All of the rights and remedies of the parties shall be governed by the provisions of this instrument and by the laws of the State of Maryland.

2. *Cumulative remedies.* During the continuance of the Lease, the Lessor shall have all rights and remedies which this Lease and the laws of the State of Maryland assure to it. All rights and remedies accruing to the Lessor shall be cumulative; that is, the Lessor may pursue all rights that the law and this Lease afford to it, in whatever order the Lessor desires and the law permits without being compelled to resort to any one remedy in advance of any other.

Article VIII Indemnification of Lessor

1. *Indemnification by Lessee.* During the entire term of the Lease, the Lessee will indemnify and hold harmless the Lessor against any and all claims, debts, demands, or obligations which may be made against the Lessor or against its title in the premises, arising out of, or in connection with, any alleged act or omission of the Lessee or any person claiming under, by, or through the Lessee. If it becomes necessary for the Lessor to defend any action seeking to impose any such liability, the Lessee will pay the Lessor all costs of court and attorneys' fees incurred by the Lessor in effecting such defense in addition to all other sums that the Lessor may be called upon to pay by reason of the entry of a judgment against it in the litigation in which such claim is asserted.

2. *Insurance.* As soon as the Lessee commences construction on the demised premises or any part of it, or from and after any earlier date when the Lessee makes actual use of and occupies the demised premises or any part of it, the Lessee shall cause to be written a policy or policies of insurance in the form generally known as public liability policies. In addition, if any boilers or elevators are included in improvements located on the demised premises, the Lessee shall cause to be written boiler insurance and elevator insurance policies. The policies shall insure the Lessee against all claims and demands made by any person or persons for injuries received in connection with the operation and maintenance of the premises, improvements, and buildings located on the demised premises and for any other risk

insured against by such policies. Each class of policies shall be written within limits of not less than \$500,000 for damages incurred or claimed by any one person for bodily injury, or otherwise, plus \$100,000 for damages to property, and for not less than \$1,000,000 for damages incurred or claimed by more than one person for bodily injury, or otherwise, plus \$100,000 for damages to property. All such policies shall name the Lessee and the Lessor, as their respective interests may appear, as the insured persons. Lessee shall promptly deliver the original or a duplicate original of each policy or policies to the Lessor as soon as they are written, together with adequate evidence of the fact that the premiums are paid.

Article IX Insurance

1. *Lessee's obligation.* From and after the time the Lease commences, the Lessee will keep insured any and all buildings and improvements upon the premises against all loss or damage by fire and windstorm, together with "extended coverage." The amount of insurance shall at all times be sufficient to prevent any party in interest from being or becoming a co-insurer on any part of the risk, and shall not be less than 80 percent of the full insurable value. All of the insurance policies shall include the Lessor as one of the insured parties and shall fully protect both the Lessor and the Lessee, as their respective interests may appear. All insurance received by the Lessor and the Lessee for the destruction of buildings or improvements by fire, windstorm, or other casualty shall be deposited in a joint account in a bank designated by the Lessee in the County in which the demised premises are located. These funds shall be made available to the Lessee for the construction or repair, as the case may be, of any building or buildings damaged or destroyed by fire, windstorm, or other casualty for which insurance is payable. The Lessor and the Lessee shall periodically pay out these funds from the joint account on the estimate of any reliable and authorized architect licensed in the State of Maryland, who must certify that the amount of the estimate is reasonable and is being applied to the payment of the reconstruction or repair. However, the Lessee shall provide the total amount of money necessary for the reconstruction or repair of any destroyed or damaged building or buildings and shall assure the application of the money for such purpose. The Lessee shall rebuild and repair any buildings and improvements, or any part thereof, that are destroyed or damaged by fire, windstorm, or other casualty. The rebuilt or repaired building or improvement, or the replaced or repaired personal property on the demised premises, shall be of the same or higher value as prior to the damage or destruction, and shall be rebuilt and ready for occupancy within 15 months from the time of the loss or destruction. The 15-month period for reconstruction shall be extended by delays caused without the Lessee's fault or neglect by act of God, strikes, lockouts, or other conditions (other than matters of finance) beyond the Lessee's control.

2. *Delivery of policies.* The Lessee shall deliver to the Lessor the originals of all such policies along with the receipted bills evidencing payment of the premiums for them. However, nothing contained herein shall prohibit the Lessee from financing the premiums when the terms of the policies are for three years or more. In that event the receipts shall evidence that the installment premium payment or payments are paid at or before their respective maturities. If, however, there is a mortgage on the premises created pursuant to the provisions contained in Article XIV of this Lease ("Mortgage Financing"), and if the terms of that mortgage require the Lessee to cause the originals of the policies to be delivered to the mortgagee, the Lessee shall deliver to the Lessor duplicate certificates of the policies. The Lessee shall deliver to the Lessor the policies (or duplicate certificates thereof) at least 10 days before their effective date.

3. *Proceeds payable to mortgagee.* Any mortgagee holding a mortgage created under the provisions of Article XIV may, in accordance with its terms, require that the insurance proceeds be paid to it. However, even if the mortgagee so elects, the Lessee shall still be required to create the complete fund in the manner set forth in this Article to assure and complete the payment for the reconstruction and repair work.

4. *Damages; insurance proceeds; joint bank account.* If the Lessee is not in default, it shall be paid any excess money received from insurance remaining in the joint bank account after the building or buildings are reconstructed or repaired. If, after damage or destruction caused by fire, windstorm, or other cause, the Lessee does not commence reconstruction or repair within 6 months from the date of payment of the loss and prosecute the reconstruction or repair

2-Forms Federal Taxes Affecting Real Estate [C]

so that it will be completed within 15 months after the damage or destruction occurs, it shall pay to the Lessor the amount collected, or the balance thereof remaining in the joint account. If the Lessee fails promptly, within the time specified, to complete the reconstruction and repair work, the Lessor may terminate this Lease and retain the amount as liquidated and agreed upon damages. The 15-month period for reconstruction shall be extended by delays caused without the Lessee's fault or neglect by act of God, strikes, lockouts, or other conditions (other than matters of finance) beyond the Lessee's control.

5. *Direct repayment.* Notwithstanding the above, if the insurance proceeds are \$25,000 or less, no joint bank account shall be created but the proceeds shall be paid directly to the Lessee, who shall use the funds to make the necessary replacements or repairs.

Article X Insurance Premiums

The Lessee shall pay premiums for all of the insurance policies it is required to carry under the terms of this Lease, and shall deliver to the Lessor evidence of such payment before the payment of any premiums become in default. The Lessee shall also cause renewals of expiring policies to be written and the policies or copies thereof, as required by the Lease, to be delivered to the Lessor at least 10 days before the policies' expiration dates.

Article XI Assignment

1. *Written assignment; filing.* This Lease is freely assignable, but no assignment or transfer shall be valid unless the assignee expressly assumes and agrees to perform every covenant of this Lease which, by its terms, the Lessee agrees to keep and perform. The assignee's assumption shall be evidenced by a recordable instrument, either by joinder in the assignment itself or by separate instrument. The assignment shall not be deemed valid unless it and the assumption agreement are promptly filed for record in the appropriate office, and an executed original thereof delivered to the Lessor.

2. *Estoppel certificates.* Both the Lessor and Lessee shall, within 20 days after written notice that the status of the Lease is required, give a written statement showing that the Lease is in good standing, and, if it is not, the particulars thereof. Failure within the 20-day period to give a written reply shall constitute a representation, which any person may rely upon as being true and correct, that the Lease is in good standing. Notice and the subsequent reply shall be deemed given, and time shall begin to run, when they are deposited in the United States Registered or Certified Mails, with sufficient prepaid postage to deliver them to their addressed destinations. The notice and reply shall be addressed to the parties at the required places and in the required manner for giving notice. The notice shall contain the exact language set forth in this Section 2.

3. *Lessee's primary liability.* If the Lessee's interest in and to this Lease Agreement is assigned, its liability for the performance of every term, condition, covenant, or agreement contained herein shall remain in full force and effect.

Article XII Condemnation

1. *Eminent domain; cancellation.* If, at any time during the continuance of this Lease, all or any portion of the demised real estate or the improvement of any building located thereon is taken, appropriated or condemned by reason of eminent domain, the Lessor and Lessee shall divide the proceeds and awards in the condemnation proceedings, abate the rent, and make other adjustments in a just and equitable manner under the circumstances. If the parties cannot agree on a just and equitable division, annual abatement of rent, or other adjustments within 30 days after the award has been made, the disputed matters shall, by appropriate proceedings, be submitted to a court having jurisdiction of the subject

matter for its decision and determination. If legal title to the entire premises is wholly taken by condemnation, the Lease shall be cancelled.

2. *Apportionment.* Although title to the building and improvements placed by the Lessee upon the demised premises will pass to the Lessor, for purpose of condemnation, the fact that the Lessee placed the buildings on the demised premises shall be taken into account. The deprivation of the Lessee's use of the buildings and improvements shall, together with the remaining term of the lease, be an item of damage in determining the Lessee's portion of the condemnation award. It is the general intent of this Section that, upon condemnation, the parties shall share in their awards to the extent that their respective interests are depreciated, damaged, or destroyed by the exercise of the right of eminent domain. If the condemnation is total, the condemnation award shall be allocated so that the then value of the property, as if it were unimproved property, is allocated to the Lessor, and the then value of the building or buildings thereon is allocated between the Lessor and Lessee after giving due consideration to the number of years remaining in the term of this lease and the condition of the buildings at the time of condemnation.

Article XIII Construction

1. *Building not mandatory.* This Lease is executed with the understanding and agreement that the Lessee is obligated to construct buildings or improvements on the demised premises that will be commercial buildings or a shopping center.

2. *Lessee to bear expenses.* The Lessee shall pay the entire cost of all buildings constructed by it on the demised premises.

3. *Financial commitment.* Before commencing the building or buildings, the Lessee shall arrange for sufficient financing to pay for the entire construction.

Article XIV Mortgage Financing

1. *Construction mortgages.* Upon the circumstances and subject to the terms contained in this Article, the Lessee may, in conjunction with the construction work on the property and permanent financing, require the Lessor to join with it in executing a mortgage or mortgages to provide temporary and permanent financing for a shopping center or commercial buildings to be erected on the demised premises.

2. *Institutional lender.* Any such mortgage will be in favor of an institutional lender as mortgagee. As used herein, "institutional lender" means any bank, trust company, savings and loan association, insurance company, pension fund or title insurance company, real estate investment trust (REIT), or similar organization, authorized to make mortgage loans in Harford County, Maryland.

3. *Nonrecourse.* Any such mortgage must contain a provision that the mortgagee recognizes that the Lessor's joinder in the mortgage is primarily for the purpose of creating a mortgage lien against the property encumbered by it and that no personal liability shall ever attach to or personal judgment be sought or obtained against the Lessor by reason of the Lessor's joinder in the mortgage. Similarly, if any mortgagee requires the Lessor's joinder in the note or notes secured by the respective mortgages referred to in this Lease, no personal liability shall attach to, and no personal judgment shall be sought or obtained against, the Lessor by reason of its joinder in the note or notes.

4. *Debt service.* The Lessee shall submit satisfactory evidence to the Lessor that the total base rental to be due each month from all major credit tenants in the shopping center under signed leases will not be less than 100% of the debt service on a permanent loan in an amount then committed to be advanced under such mortgage or deed of trust. As used herein, "Debt Service" means the monthly installment of principal and interest necessary to amortize the loan; and

"Major Credit Tenant" means a tenant having a net worth of not less than \$10,000,000, established by generally accepted accounting practices as of the end of its last official year as shown by an audit by an independent certified public accountant. The net worth of all such tenants and all guarantors executing a single lease shall be combined for the purpose of determining whether the group collectively constitutes a "Major Credit Tenant." A prospective tenant who does not meet these requirements will still be deemed a Major Credit Tenant if it can obtain lease insurance or a guaranty by a surety company with assets of at least \$50 million.

5. *Expenses.* Before and during construction the Lessee shall draw Demised Premises Expenses from a Construction and Development Loan. As used in this lease the term "Demised Premises Expenses" means expenses incurred in connection with the demised premises or their development; the construction, reconstruction, and/or alteration of buildings, structures, and improvements thereto; allowances which may be paid to subtenants required by their respective subleases; development costs, including site preparation, site investigation, off-site improvements, temporary improvements, maintenance of off-site improvements, test borings, piling, filling, compacting, dredging, excavation, and demolition; bringing utilities to the demised premises; customary and reasonable related professional fees and disbursements, including those of attorneys, architects, brokers, surveyors, and engineers; contractors' overhead and profit; fees, charges, and expenses of the applicable Mortgagee; commitment fees and other charges with respect to all mortgage loans; interest charges with respect to construction loans; real estate taxes; and insurance premiums incurred before the consummation of the loan secured by the first Permanent Mortgage executed by the Lessor. This loan may be obtained from a noninstitutional source as long as it complies with subparagraph (c) above.

6. *Conditions of construction loan.* The Construction Loan shall be subject to the following restrictions:

(a) *Amount.* The amount of the Construction Loan shall not exceed that on the Permanent Mortgage Commitment.

(b) *Bid amount.* If construction is to be started before a Permanent Mortgage Commitment is obtained, the Construction Loan can only be for the amount bid for the construction of the Proposed Shopping Center. If the successful bidder is an organization owned by the Lessee, this bid must be less than the amount of bids obtained from outside general contractors presently working in Arundel and Harford Counties, Maryland.

(c) *Guarantee.* In addition to the requirements of subparagraph (b) above, during the period of construction there must be a Performance Guarantee to Lessee from Tydings Factors, a Maryland corporation, or a substitute corporation or individual having a net worth of at least \$2,200,000, or the total projected value of the Shopping Center, which shall be authenticated by a Certified Financial Statement 60 days prior to commencement of construction.

This Guarantee will be waived if a Permanent Mortgage Commitment is obtained and the successful bidder for the construction of the Shopping Center is bonded in full by a bonding company authorized to do business in the State of Maryland.

7. *Proceeds of loan application.* The Lessor hereby directs any lender to pay the proceeds of the loan directly to the Lessee. The Lessor shall execute all appropriate documents required by the lender for that purpose. If the lender refuses to pay the loan proceeds to any person other than the Lessor or to the Lessor and Lessee jointly, the Lessor shall pay over the proceeds to the Lessee immediately on receipt, and endorse and deliver to the Lessee any check made payable jointly to the Lessee and Lessor.

8. *Power of attorney.* The Lessor shall give the Lessee a General Power of Attorney so that the Lessee may sign on behalf of the Lessor all Mortgages, Consent Agreements, Subordination Agreements, and other necessary documents for the leasing or financing of the demised premises. Any mortgage must comply with the above provisions. The Lessor must approve all documents or instruments executed under the General Power of Attorney before their execution thereunder.

2-Forms Federal Taxes Affecting Real Estate [C]

9. *Refinancing.* The Lessee may refinance the permanent mortgage periodically provided that the following conditions are met:

- (a) The new permanent mortgage must provide for a sufficient principal amount to pay all the expenses of the refinancing and the unpaid principal balance of the then existing permanent mortgage;
- (b) The holder or mortgagee of the new permanent mortgage must be an institutional lender as defined in Section 2, Article XIV of this Lease; and
- (c) The new permanent mortgage shall provide for self-liquidation by its maturity date as a result of the application of the amortization payments provided for therein, shall not have a term longer than 25 years, and shall not bear interest at a rate in excess of the then prevailing rate of interest on similar institutional financing.

If the Shopping Center is refinanced, all excess funds received by the Lessee after paying off the original mortgage in full, and if there is new construction, all items covered in Sections 1 through 6 of Article XIV, shall be distributed equally between the Lessee and Lessor. If the new permanent mortgage complies with the above conditions, the Lessor and Lessee shall join in the execution, acknowledgment, and delivery of the new first mortgage for the purpose of subjecting their respective interests in the demised premises to the lien thereof, and the permanent mortgage shall cover and be a lien on the entire premises. Each shall also execute, acknowledge, and deliver all other agreements, certificates, and papers that are necessary or desirable in order to accomplish the replacement or refinancing of the existing permanent mortgage. However, the Lessor shall incur no personal liability for the payment of any portion of the principal amount secured by any permanent mortgage or the interest thereon, or the payment of any other sum that may be secured or required thereby, or for the performance of any term, agreement, covenant, condition, or provision thereof. Moreover, each mortgage shall provide that it be paid in full before the last five years of the term of this Lease.

- (d) Any such mortgage given for refinancing shall comply with the provisions of Section 1, Article XIV of this Lease.

Article XV Default

1. *Effect of default by lessee.* If at any time the Lessee defaults in the payment of any rent on the day it is due and payable, or if the Lessee fails to perform any other covenant under this Lease, the Lessor may declare the lease term ended. In that event, the Lessor may re-enter upon any part of the premises and the building or buildings and improvements situated on it, either with or without process of law, the Lessee waiving any demand for possession of the premises and all buildings and improvements situated thereon. The Lessor shall also have all other remedies provided by law and this instrument. Immediately upon termination of the demised term, at the Lessor's election or in any other way, the Lessee shall peaceably surrender and deliver up the demised premises and all real and personal property to the Lessor, or its agent or attorney. If the Lessee, or its agent, attorney, or tenants, holds the premises, or any part thereof, one day after the date for their surrender, according to the terms of this Lease, the Lessee shall be deemed guilty of forcible detainer of the premises under the statutes and shall be subject to eviction or removal, forcibly or otherwise, with or without process of law.

2. *Landlord-tenant relationship only.* The relationship between the parties is that of Landlord and Tenant. The Lessee specifically acknowledges that all statutory proceedings regulating the relationship of Landlord and Tenant respecting collection of rent or possession of the premises, accrue to the Landlord.

3. *Lessor's remedies.* Nothing herein shall be construed as authorizing the Lessor to declare this Lease in default, however, unless the default is for the nonpayment of rent, security, insurance premiums, or taxes in violation of the terms of this Lease and the nonpayment continues for 30 days after the respective due dates for payment of these items. If the alleged default consists of any other violation, the Lessor may not declare this Lease in default until the violation

continues for 30 days after the Lessor gives the Lessee written notice thereof. However, nothing contained herein shall be construed as precluding the Lessor from having any other remedy that may be necessary to preserve its right and its interest in the premises and this Lease, even before expiration of the grace or notice periods provided for in this Section, if under the then existing circumstances, the allowance of the grace or the giving of the notice would prejudice or endanger the Lessor's rights and estate in this Lease and the demised premises.

4. *Default period.* All default and grace periods shall be deemed to run concurrently and not consecutively.

5. *Legal costs; receiver.* Subject to the rights of the holder of any first mortgage to which this Lease has been subordinated, the Lessee pledges with, and assigns to, the Lessor all rents, issues, and profits that might otherwise accrue to the Lessee for the use, enjoyment, and operation of the demised premises. In connection with such pledging of the rents, the Lessee covenants and agrees with the Lessor that if the Lessor, upon the Lessee's default, elects to file suit in chancery to enforce the Lease and protect its rights, the Lessor may, as ancillary to such suit, apply to any court of competent jurisdiction for the appointment of a receiver of all and singular the demised premises, and the improvements and buildings located thereon. Thereupon, the parties expressly covenant and agree that the court shall immediately appoint a receiver with the usual powers and duties of receivers in like cases. The court shall make the appointment as a matter of strict right to the Lessor, without reference to the adequacy or inadequacy of the value of the property subject to the Lessor's lien, to the Lessee's solvency or insolvency, or to the commission of waste. Nothing contained in this Section shall be construed as empowering the Lessor to collect rents accruing from the premises, unless and until the Lessee is in default.

Article XVI Repair Obligations

During the continuance of this Lease the Lessee shall keep in good state of repair and in first class condition all buildings, furnishings, fixtures, and equipment which Lessee brings, constructs, or places upon the demised premises. The Lessee shall not suffer or permit any strip, waste, or neglect of any building or other property to be committed. The Lessee shall repair, replace, and renovate the property as often as necessary to keep the buildings and other property subject to this Lease in first class repair and condition.

Article XVII Demolition

1. *Conditions precedent to demolition by lessee.* Although it is the Lessee's duty under the terms hereof to keep and maintain all buildings and improvements on the demised premises in good repair, this shall not be construed as empowering the Lessee to demolish any buildings on the demised premises or any substantial part thereof or to cause any item of major repair and construction to be made unless and until the Lessee:

(a) Causes plans for the new buildings or the new construction to be prepared in full accordance with all applicable laws, building codes, and zoning ordinances, and delivers the plans to the Lessor for its approval (which the Lessor shall not unreasonably withhold) at least 30 days before the proposed work is actually commenced;

(b) Furnishes the Lessor with a performance and payment bond with corporate surety, guaranteeing the doing and completion of the work; or, in lieu of furnishing such bond; and

(c) Creates an escrow fund with any bank or trust company selected by the Lessee, into which it shall pay the full cost of the repair and replacement. The cost shall be evidenced by the bona fide bid of a responsible general contractor or the aggregate of the bona fide estimates of reliable subcontractors and materialmen. The Lessee shall submit all the evidence to the Lessor not later than 30 days before the work starts. The escrow fund shall be utilized to pay for the work as it progresses upon the requisition of the contractor and the certificate of an architect supervising the work, but

2-Forms Federal Taxes Affecting Real Estate [C]

disbursements from the escrow fund shall be made by written order of the Lessor and Lessee. If the Lessor elects to exercise joint control over the escrow fund, it shall promptly approve or cause to be approved progress payments so long as the balance remaining in the fund is sufficient to cause the work to be carried through to completion and paid for, and full and final waivers and releases are procured from all persons who furnish work, labor, services, or materials to the job.

2. *Replacement value.* The value of the reconstruction, repair, and replacement must not be less than the value of the building or buildings, or portion thereof, then being demolished, replaced, and repaired.

3. *Demolition defined.* For the purposes of this Article, no work shall be deemed a "demolition" or a major repair so as to bring it within the terms of this Section of the Lease unless it constitutes either the actual destruction of all or a substantial part of a building or a remodeling which, in substance, requires the tearing down of a substantial part of a building. The changing of openings or the removal and/or relocating of partition walls, or other work inside the building designed to accommodate itself to better occupancy, shall not be deemed major repair and construction within the meaning of this Article. The provisions of this Article shall not be applicable to the removal of any building or structure on the premises at the time of execution of this Lease.

Article XVIII Additional Covenants of Lessee

1. *Legal use.* The premises shall be used for legal purposes only.

2. *Insurance claims.* No damage or destruction to any building or improvements by fire, windstorm, or any other casualty shall be deemed to entitle the Lessee to surrender possession of the premises, to terminate this Lease, to violate any of its provisions, or to cause any rebate or reduction in the rent when due or thereafter becoming due under its terms. If the Lease is cancelled because of the Lessee's default while any obligation from an insurance company to pay for all or any part of the damage remains outstanding, the claim against the insurance company shall, upon cancellation of the Lease, be deemed immediately to become the absolute and unconditional property of the Lessor.

3. *Termination.* Upon termination of this Lease, the Lessee shall peaceably and quietly deliver to the Lessor possession of the premises and all improvements, including all furnishings, fixtures, and equipment which the Lessee has brought, placed, or constructed upon the premises, under the provisions of Article XIII of this Lease.

4. *Costs of suits.* If, at any time, the Lessor is required to enforce this Lease or to defend any action arising out of the facts connected with or caused by reason of the Lessee's ownership of this Lease or occupancy of the leased premises, the Lessee shall owe and pay to the Lessor all court costs and reasonable attorneys' fees incurred or expended by Lessor in conducting the defense or in enforcing the terms of this Lease. The Lessor may collect the amount of costs and fees as though it was rent then maturing and coming due.

Article XIX Quiet Enjoyment

So long as the Lessee keeps and performs all of its covenants and conditions under this Lease, it shall have quiet, undisturbed, and continued possession of the premises, free from all claims against the Lessor and all persons claiming under, by, or through the Lessor.

Article XX Right of Entry

The Lessor and its agents may enter upon the premises at all reasonable times to examine their condition and use, so

long as that right is exercised in a manner that does not interfere with the Lessee in the conduct of its business on the premises. If the premises are damaged by fire, windstorm, or other casualty which causes them to be exposed to the elements, the Lessor may enter upon them to make emergency repairs. However, if it does so, the act or acts shall not be deemed to excuse the Lessee from its obligation to keep the premises in repair, and the Lessee shall, upon the Lessor's demand, immediately reimburse it for the cost of the emergency repairs.

Article XXI Separate Parcels

1. *Multiple leases.* (a) It is contemplated that, from time to time, Lessee may find it desirable to develop, transfer, use, sublet, and/or mortgage the demised premises in separate portions. If Lessee so requests in writing, the Lessor shall execute four Leases for portions of the demised premises containing all the provisions hereunder, with the following exceptions: the applicable rent for each lease shall be as set forth below; and each lease may contain additional provisions which provide, in effect, that the respective lessees and persons designated by them may use certain portions of the premises designated by the lessees in common with each other.

(b) The portions of the demised premises may be two areas ("Front Parcels"). Neither Parcel shall front more than 250 feet on State Route 192 nor exceed one acre and another parcel in the shopping center of one 21/2 acre ("Interior Parcel") and the balance of the demised premises ("Balance Parcel"). In that event, the annual basic rent shall be \$2,500 for each Front Parcel, \$1,000 for the Interior Parcel, and the balance of rent then due for the Balance Parcel. The Lease for the Balance Parcel shall provide that if a default occurs with respect to the Front Parcels or Interior Parcel, the lessee of the Balance Parcel shall be required to cure the default.

2. *Single lease.* If some or all of the lessees under the new leases ("Multiple Leases") give written notice to the Lessor that they desire the premises demised under their respective leases to be governed by a single lease, and the Lessor agrees that it will execute a single lease of the premises containing all the provisions of this Lease (except that the applicable "Basic Rent" shall be the sum of the applicable basic rents provided in each such lease), the applicable multiple leases shall be cancelled.

3. *Performance.* If a subtenant performs any of the Lessee's obligations under this Lease for the Lessee's account or on its behalf in accordance with the subtenant's authority to do so under its sublease, the Lessor shall accept the performance as if it were performed by the Lessee.

Article XXII Miscellaneous

1. *Force majeure.* If the Lessor or Lessee is delayed, hindered, or prevented from performing any act required hereunder by reason of strikes, lockouts, labor troubles, inability to procure materials, failure of power, restrictive government laws or regulations, riots, insurrection, the act, failure to act or default of the other party, war, or other reason beyond its control, then performance of the act shall be excused for the period of the delay. In that event, the period for the performance of the act shall be extended for a period equivalent to the period of the delay.

2. *Estoppel certificates.* Either party shall, without charge, at any time and from time to time hereafter, within ten days after the others' written request of the other, certify by instrument duly executed and acknowledged to any mortgagee or purchaser or proposed mortgagee or proposed purchaser, or any other person, firm, or corporation specified in the request as to:

(a) Whether this Lease has been supplemented or amended, and, if so, the substance and manner of the supplement or amendment;

2-Forms Federal Taxes Affecting Real Estate [C]

- (b) The validity and force and effect of this Lease, in accordance with its tenor as then constituted;
- (c) The existence of any default thereunder;
- (d) The existence of all offsets, counterclaims, or defenses thereto on the part of the other party;
- (e) The commencement and expiration dates of the term of this Lease; and
- (f) All other matters that may reasonably be so requested.

Any such certificate may be relied upon by the party who requested it and any other person, firm, or corporation to whom it may be exhibited or delivered, and the contents of the certificate shall be binding on the party executing it.

3. *Duplicates; recordation.* Either party shall, at any time, at the other's request, promptly execute duplicate originals of an instrument, in recordable form, which shall constitute a short form of lease. This will set forth a description of the demised premises, the term of this Lease, and any other portion thereof, except for the rental provisions, requested by either party.

4. *No recourse.* Notwithstanding anything to the contrary, the Lessor shall look solely to the interest of the Lessee hereunder for the satisfaction of any remedy it may have hereunder or in connection herewith and shall not look to any other assets of the Lessee or of any other person, firm or corporation. If the Lessee is a corporation, no personal liability shall attach to any of its present or future shareholders, officers, or directors, or its successors or assigns, for any obligation hereunder or in connection herewith. If the Lessee is a firm, partnership, joint venture, or association, it shall have no personal liability for any obligation hereunder or in connection herewith. If the Lessee assigns its Leasehold Interest to Lessor, it shall be completely relieved of all liability hereunder or in connection herewith, regardless whether accrued at the time of assignment and whether a cause of action exists at such time or arises thereafter.

5. *Consent not to be unreasonably withheld.* The Lessor shall not unreasonably withhold its consent, permission, or approval for any act which may be required or desired by the Lessee under the provisions of this Lease. Such consent, permission, or approval shall be deemed to have been granted if, within 45 days after the Lessor receives the request, it fails to notify the Lessee of its express disapproval and the reasons therefor.

6. *Right of first refusal to purchase.* The Lessor shall not sell or grant options with respect to, or otherwise dispose of, the demised premises unless it has first (i) received a bona fide arm's-length offer from an unaffiliated party for the sale or disposition, (ii) notified the Lessee in writing of the offeror's identity and address all of the provisions of the offer, and (iii) afforded the Lessee the prior option to purchase or otherwise acquire the demised premises on the same terms and provisions as those contained in the offer.

7. *Option procedure.* The Lessee shall exercise its option by giving written notice to the Lessor within 30 days after it receives the Lessor's notice of the offer. The Lessor shall give such notice within 10 days after it receives the offer. If the Lessee fails to exercise its option and the Lessor does not subsequently sell or dispose of the demised premises under the provisions of the offer, the above prohibition against the Lessor's sale or other disposition shall continue in full force and effect. In that event, the Lessee's option to purchase shall apply to any subsequent offer on the same terms as set forth above.

8. *Notice of exercise of option.* The notice provided in Section 7 shall set forth the time and place of closing (which may not be more than 50 miles from the demised premises unless the Lessor so consents). The time of closing shall be designated in the notice of exercise but not later than 60 days after the notice is given.

9. *Closing.* At such closing conference; (i) the Lessee shall pay to Lessor (by good certified check or an official check of

2-Forms Federal Taxes Affecting Real Estate [C]

a bank or trust company) the applicable purchase price; (ii) the Lessor shall convey good and marketable title of the demised premises to the Lessee free and clear of all encumbrances and title defects other than those which arose at the Lessee's request or by virtue of the its tenancy; and (iii) the Lessor and Lessee shall execute all documents which may be necessary to effectuate the closing and the transfer of title contemplated hereunder.

10. *Related transactions; inapplicability.* The foregoing provisions of this Section shall not apply to the sale, transfer, or other disposition of the demised premises to (i) any parent, sibling, child, or grandchild of the Lessor, or (ii) a corporation or other entity owned or controlled by any or all of them.

11. *Income tax deductions and credits.* Only the Lessee may take deductions and credits on its tax returns for the buildings, structures, improvements, changes, alterations, repairs, additions, and installations, and for their depreciation or cost recovery.

12. *Covenants running with land; binding effect.* All covenants, conditions, and obligations contained herein or implied by law are covenants running with the land and shall attach and bind and inure to the benefit of the Lessor and Lessee and their respective heirs, legal representatives, successors, and assigns, except as otherwise provided herein.

13. *Non-waiver.* No waiver of a breach of any covenant in this Lease shall be construed to be a waiver of any succeeding breach of the same covenant. No delay or failure by either party to exercise any right under this Lease, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

14. *Arrears.* All arrearages in the payment of rent shall bear interest from the date when due and payable at the then prime rate of CitiBank, New York, New York per annum until paid.

15. *Written modifications.* No modification, release, discharge, or waiver of any provision hereof shall be of any force, effect, or value unless signed in writing by the Lessor, or its duly authorized agent or attorney.

16. *Entire agreement.* This instrument contains the entire agreement between parties as of this date. The execution hereof has not been induced by either party by representations, promises, or understandings not expressed herein. There are no collateral agreements, stipulations, promises, or undertakings whatsoever upon the respective parties in any way touching the subject matter of this instrument which are not expressly contained in it.

17. *Notices.* All notices between the parties in connection with this Lease shall be in accordance with its terms. Notice shall be given by registered or certified mail, deposited in the United States mails with postage prepaid. The notices shall be addressed as follows:

For the Lessor:

For the Lessee:

C.3 Commercial lease--tenant oriented clauses--retail use

COMMENT

The form of lease illustrated here is a commercial lease for retail use by the tenant. It contains many clauses which benefit or protect the tenant's interests. Several of these clauses may be useful in other types of forms of leases on behalf of the tenant. For example, the tenant, who is required to pay real estate taxes (§§ 3.2, 29.1(1)), is permitted to contest the amount of tax (§ 6.1), and is expressly entitled to any refund (§ 6.2). The tenant is permitted to provide the required insurance coverage under blanket policies, which may also cover other tenant locations (§ 9.2). In addition the landlord agrees to mitigate damages in the event of an eviction of the tenant. This may obligate the landlord to relet the premises, and thereby possibly reduce the tenant's liability for a deficiency in rent. The tenant's obligation for a rent deficiency is limited to basic rent, and specifically excludes the percentage rent under this lease (§ 24.2).

Future changes by tenant:

This lease contains several clauses which allow the tenant to surrender the premises or to move to another location. These provisions are aimed at allowing flexibility in future business planning. For example, the lessee is expressly permitted to assign or sublet the premises to a business which will use the property for the same purpose as the tenant (§ 12.1). A strongly pro-tenant clause in this lease allows the tenant to terminate the lease if, after a specified period, the use is uneconomical (§ 19.1). However, if the lease is terminated on this basis during the initial term, the tenant must offer to purchase the property from the landlord for a specified price (§ 12.2). During the initial term, however, the tenant is permitted to change locations, in effect, by exchanging property at another location with the landlord for the leased property (§ 20.1). These clauses give the tenant much future planning leeway. Future planning is anticipated by the required, but unspecified, operating hours, which cannot be less than those of similar businesses in the area, but may be as long as 24 hours per day (§ 11.2).

Purchase options:

This lease gives the tenant the opportunity to purchase the leased property from the landlord. The lease contains a purchase option (§ 17.1), and a right of first refusal (§ 18.1). On the last day of the initial term

or any extended term, the lessee can purchase the property for its fair market value, if prior notice is given (§ 17.1). Fair market value, if disputed, is to be determined by appraisers (§ 29.1(i)). The right of first refusal permits the tenant the option to purchase on substantially the same terms as a bona fide offer (§ 18.1).

For further information, see Chapter 4.

Lease agreement, by and between 1995 Main Street Corp. ("Lessor"), whose address is 1995 Main Street, Los Angeles, California 90000, and Greenwood Foods, Inc. ("Lessee"), whose address is 1000 State Street, San Francisco, California 90000.

Witnesseth: Article 1 Demised Property

1.1 Lessor hereby leases to Lessee and Lessee hereby leases from Lessor the Property in San Francisco, California, more particularly described in the Exhibit "A" attached hereto and made a part hereof. The Property has been improved with a restaurant building, which is included in this Lease as part of the Property. Lessee has inspected the Property and by the execution of this Lease accepts it in its present condition.

Article 2 Term

2.1 The term of this Lease shall begin on the Commencement Date and, unless terminated or extended, shall end on the Termination Date (the "Basic Term"). Lessee may extend the term for up to two consecutive periods of five years each ("Extended Terms"). The term shall automatically be extended for each Extended Term unless Lessee shall notify Lessor of its intention to terminate this Lease at least three months prior to the expiration of the then existing term.

Article 3 Rent, Percentage Rent

3.1. *Rent.* Lessee shall pay the minimum rent and percentage rent to Lessor, during the term of this Lease, in the amounts and at the times prescribed below in lawful money of the United States of America, at Lessor's address for notice hereunder or otherwise as Lessor may designate.

3.2. *Impositions.* Lessee will also pay all Impositions and all charges for utility, communications, and other services rendered or used on or about the Property during the term, before any interest or penalty may be added; and will furnish to Lessor, upon request, satisfactory proof evidencing such payment. If Lessee may legally pay any Imposition or other charge in installments and elects to do so, it shall only be liable for those installments coming due within the term. Lessor shall be responsible for all installments becoming due after the expiration of this Lease.

3.3. *Basic rent.* Lessee covenants and agrees to pay Lessor, as rent for the Property during the Basic Term, the minimum rent of:

--Dollars per annum (herein the "Basic Rent"), in equal monthly payments, in arrears, on the fifteenth business day of each month (herein the "Rent Payment Dates"), each in the sum of

--Dollars, commencing on the fifteenth day of the month next succeeding the Commencement Date. However, on the Commencement Date Lessee shall pay to Lessor a sum equal to one month's Basic Rent, to be applied against the final payment of Basic Rent due thereunder.

3.4. *Percentage rent.* In addition to the payment of the Basic Rent, Lessee shall pay to Lessor monthly in the manner, upon the conditions, and at the times hereinafter set forth, during the Basic Term of this

2-Forms Federal Taxes Affecting Real Estate [C]

Lease and each Extended Term additional rent. The additional rent shall equal 5 percent of the annual "gross sales," as hereinafter defined, from all business conducted on the Property by or under Lessee during the term of this Lease, less (a) the monthly installment of the Basic Rent, (b) the aggregate amount of all general real estate taxes and special assessments on the Property paid by Lessee and (c) the aggregate amount of all premiums paid by Lessee in connection with insurance maintained pursuant to Article 9. Amounts deducted from the sum representing 5% of gross sales pursuant to (b) and (c) above may be deducted either in the Lease Year in which such amounts are paid by Lessee or in which they accrue according to Lessee's election.

3.5. *Gross sales.* The term "gross sales" as used herein shall (subject to the exceptions and authorized deductions hereinafter set forth) mean the gross amount received for everything sold upon or from the Property, either for cash or credit, with the full amount of credit sales being reported as gross sales in the month in which said credit sales are made. The term "gross sales" as used herein shall not include the following: (i) commissions or location rentals received from vending machines or coin operated devices, provided they only constitute an incidental portion of Lessee's business; (ii) the amount of sales or excise taxes collected from customers; (iii) receipts from the sales of meals to the restaurant's employees on the Property, in the course of their employment, provided such sales are registered and recorded separately from other sales; (iv) any service charge made, collected and turned over to employees in lieu of tips or gratuities from patrons; (v) the proceeds of the sale of any franchise or joint venture interest in the restaurant on the Property, and all fees, charges or rentals charged to or received from any such franchisee or joint venturer; (vi) the proceeds of the sale of any of Lessee's trade fixtures or restaurant equipment used on the Property; (vii) the value of any promotional meals; (viii) service charges or commissions paid to any issuer of credit cards accepted by Lessee in lieu of cash; and (ix) sales and/or exchanges made to or with other restaurants owned or controlled by Guarantor.

3.6. *Statement.* On each Rent Payment Date, Lessee shall pay to Lessor any additional rent due hereunder, and shall concurrently therewith submit to lessor a statement of Lessee's gross sales during the preceding month. The statement shall be certified to be correct by a representative of Lessee or Guarantor.

3.7. *Annual adjustment.* Within 30 days after the close of each Lease Year, Lessee shall pay to Lessor any additional rent due hereunder, and shall concurrently submit to Lessor a statement of Lessee's gross sales during the preceding Lease Year. The statement shall be certified to be correct by a Representative of Lessee or Guarantor. If the aggregate percentage rent paid to Lessor exceeds the amount actually payable by Lessee, the excess amount shall be credited against rent thereafter becoming due.

3.8. *Audit.* Lessor may, by giving written demand within 60 days after the end of each Lease Year, and at Lessor's sole expense, have Lessee's records of gross sales for the period inspected at the Lessee's offices by an impartial, reputable licensed accountant of Lessor's choice. If such audit discloses an error of 5% or more in Lessee's monthly statements of gross sales, as adjusted, Lessee shall bear the costs of inspection. Lessor's failure to make written demand shall constitute a waiver of its rights for that Lease Year. Lessor shall be deemed to have accepted each annual statement as correct unless, within 30 days of receipt thereof, it notifies Lessee of any objection.

3.9. *Business records.* Lessee shall, at all times during the terms, keep in a manner consistent with good accounting practice accurate and complete records of all business transactions made in, on, or from the Property.

3.10. *Confidence.* Lessor shall hold in confidence all sales figures and other financial data or information relating to Lessee's operations obtained from Lessee or upon inspection and audit of Lessee's books and

records.

3.11. *No representations.* Lessee makes no representation or warranty to Lessor as to the gross sales to be made from the Property.

Article 4 Compliance with Requirements

4.1. Lessee will promptly procure, maintain and comply with all permits, licenses and other authorizations required for the use of the Property as a restaurant and for the lawful operation, maintenance, and repair of the Property or any part thereof. Lessee will not do any act or thing which constitutes a public or private nuisance. Lessor will join, if necessary, in the application for any permit or authorization with respect to any Legal Requirements.

Article 5 Covenant against Liens

5.1. *Liens of Lessee.* If because of any act or omission of Lessee, any mechanic's lien or other lien, charge, or order for the payment of money is filed against any portion of the Property, Lessee shall, at its expense, cause the lien or liens to be discharged of record or bonded within 90 days after it receives written notice from Lessor of their filing, unless Lessee contests their validity in accordance with Section 6.1.

5.2. *Removal of liens.* If Lessee fails to cause the liens to be discharged of record or bonded within the required 90-day period (unless it contests their validity as provided above) or to satisfy them within 60 days after any final (nonappealable) judgment in favor of the lien holders, Lessor may cause the liens to be discharged. All payments by Lessor to have liens discharged shall constitute additional Basic Rent payable to it by Lessee.

5.3. *Liens of Lessor.* If, because of any act or omission of Lessor, any lien, charge, or order for the payment of money is filed against the Property, Lessor shall, at its expense, cause the lien or liens to be discharged of record or bonded within 90 days after it receives written notice from Lessee of their filing. In that event, Lessor shall indemnify and save harmless Lessee against and from all costs, liabilities, suits, penalties, claims, and demands. If Lessor fails to cause the liens to be discharged or bonded within the required 90-day period, or if before that period expires Lessee's quiet enjoyment of the Property is affected or threatened as a result thereof, Lessee may cause the liens to be discharged. All payments by Lessee may be deducted from subsequent installments of rent payable under this Lease.

Article 6 Permitted Contests

6.1. *Contest proceedings.* Lessee may contest by appropriate proceedings, the amount, validity, or application of any Imposition, Legal Requirement, or any lien arising therefrom, provided that: (a) such proceedings suspend the collection thereof; (b) no part of the Property or of any rent would be subject to loss, sale, or forfeiture before determination of any contest; (c) Lessor would not be subject to any criminal liability for failure to pay; (d) such proceedings do not affect the payment of rent hereunder or prevent Lessee from using the Property for its intended purposes; and (f) Lessee notifies Lessor of any such proceedings at which the amount in contest exceeds \$25,000 within 20 days after the commencement thereof, and describes such proceedings in reasonable detail. Lessee will conduct all such contests in good faith and with due diligence and will, promptly after the determination of such contest, pay and discharge all amounts determined to be payable therein.

6.2. *Refunds.* All refunds or rebates of Impositions paid by Lessee shall belong to Lessee. All refunds

2-Forms Federal Taxes Affecting Real Estate [C]

received by Lessor shall be deemed trust funds and as such shall be received by it in trust and paid to Lessee forthwith. Lessor shall, at Lessee's request, sign all receipts which may be necessary to secure the payment of any refund or rebate, and shall pay over to Lessee all refunds or rebates received by it.

Article 7 Maintenance, Alterations, and Additions

7.1. *Maintenance.* Lessee shall keep the Property in good order and condition (except for ordinary wear and tear or damage caused by casualty or a Taking) and shall make all repairs and take all other action necessary or appropriate to keep and maintain the Property in good order and condition. Lessor will not be liable for any labor, services, or materials furnished or to be furnished to Lessee, or to anyone holding the Property or any part thereof through or under Lessee. No mechanics' or other liens for any such labor or materials shall attach to or affect the interest of Lessor in and to the Property.

7.2. *Alterations and additions.* If there is no continuing Event of Default, Lessee may make additions or improvements to or alterations of the Property. All maintenance and repair, and each such addition, improvement, or alteration (i) must not, individually or in the aggregate, substantially lessen the Fair Market Value of the Property or materially affect the Property's usefulness in Lessee's business, (ii) shall be completed expeditiously in a good and workmanlike manner, and in compliance with all Legal Requirements and all Insurance Requirements, and (iii) shall become part of the Property and subject to this Lease.

7.3. *Replacements.* Lessee may install or place or reinstall or replace upon and, if there is no continuing Event of Default, remove from the Property any trade fixtures, signs, machinery, and equipment. Such trade fixtures, signs, machinery, and equipment shall not become the property of Lessor. However, replacements of Lessor's trade fixtures, machinery, and equipment shall be its property.

Article 8 Indemnification

8.1. Lessee hereby indemnifies, and shall protect and hold Lessor harmless from and against all liabilities, losses, claims, demands, costs, expenses, and judgments of any nature arising, or alleged to arise, from or in connection with the following: (a) any injury to, or the death of, any person or loss or damage to property on or about the Property or any adjoining property arising from or connected with the Lessee's use of the Property during the term; (b) performance of any labor or services or the furnishing of any materials or other property in respect of the Property or any part thereof by or at the Lessee's request of Lessee; (c) any contest permitted by Article 6. Lessee will resist and defend any action, suit or proceeding brought against Lessor by reason of any such occurrence by counsel designated by Lessee.

Article 9 Insurance

9.1. *Insurance coverage.* Lessee will maintain with insurers authorized to do business in the state in which the Property is located and which are well rated by any recognized national rating organization:

(a) fire insurance and insurance with respect to risks from time to time included under the standard extended coverage endorsement, including vandalism and malicious mischief, in amounts sufficient to prevent Lessor and Lessee from becoming co-insurers of any loss, but in any event not less than the then Full Insurable Value of the Property as determined from time to time (but not less often than once every three years) by the insurer or insurers;

(b) comprehensive general public liability insurance against claims for bodily injury, death, or property

2-Forms Federal Taxes Affecting Real Estate [C]

damage arising out of the use or occupancy of the Property by Lessee, in a combined single limit amount of not less than \$300,000.

9.2. *Policy terms and conditions.* All insurance policies that Lessee must maintain under this Article shall name it and Lessor as the insured parties, as their respective interests may appear. The policies may be carried under blanket policies maintained by Lessee if they comply with the provisions of this subsection. The fire policies may provide for the same deductible amounts, not to exceed \$25,000, that Lessee customarily provides for in its insurance for similar properties owned or leased by it. The policies shall provide for a reserved amount with respect to the Property so as to assure that the amount of insurance required by section 9.1(a) will be available notwithstanding any losses with respect to other property covered by such blanket policies. All policies of insurance that Lessee must maintain under Section 9.1(a) shall: (i) bear a standard first mortgagee endorsement in favor of any holder or holders of a first mortgage lien or security interest in the Property with loss payable to the holder or holders for application as provided in Article 10; (ii) provide for the benefit of the holder or holders, that ten days' prior written notice of cancellation, termination, modification, or lapse of coverage shall be given; and (iii) not contain a provision relieving the insurer thereunder of liability for any loss by reason of the existence of other insurance policies covering the Property against the perils involved, regardless of collectibility.

9.3. *Insurance certificate.* Lessee shall deliver to Lessor, promptly after this Lease commences, insurers' certificates evidencing all insurance that Lessee must maintain under this Lease, and, within 30 days before any such insurance expires, other certificates evidencing its renewal.

9.4. *Waiver of claim.* If and so long as the insurance that Lessee must maintain under Section 9.1 is in full force and effect, Lessor waives, releases, and discharges Lessee from all claims or demands that Lessor may have or subsequently acquire arising out of damage or destruction of the Property occasioned by fire or extended coverage risks, whether the claim or demand arises because of the negligence of Lessee, its agents, or otherwise. Lessor shall look to the insurance coverage only in the event of such loss.

Article 10 Condemnation and Casualty

10.1. *Condemnation or insurance awards.* Lessee hereby assigns to Lessor any award or payment on account of any damage, destruction, or Taking which is payable in connection with the Property. However, Lessee shall be entitled to that portion of the net award representing payment for its leasehold interest, trade fixtures, moving expenses, business interruption, or loss of profits. All amounts paid pursuant to an agreement with a condemning authority in connection with any Taking shall be deemed to constitute an award on account of such Taking. Lessee agrees that this Lease shall control the rights of both parties in any such award, and any contrary provision of any present or future law is hereby waived.

10.2. *Notice.* If there is any damage to or destruction of the Property or if any proceedings or negotiations are instituted which do or may result in a Taking, each party will promptly give notice thereof to the other, describing its nature and extent.

10.3. *Lessee restoration.* Subject to subsection 10.5, if the cost of Restoration is less than \$25,000, Lessee will promptly commence and complete Restoration of the Property and Lessor shall cause the Net Award to be made available to Lessee for such purpose.

10.4. *Substantial restoration.* Subject to subsection 10.5, if the cost of Restoration exceeds \$25,000 and can be completed within 180 days after the occurrence, Lessor will promptly commence and complete

2-Forms Federal Taxes Affecting Real Estate [C]

Restoration of the Property in accordance with plans and specifications to be prepared by Lessee within 20 days after the occurrence reflecting the requisite nature and scope of the Restoration improvements. Lessee shall prepare such final plans and specifications and submit copies of them to Lessor within 20 days from the date it receives notice under subsection 10.2. The final plans and specifications shall be deemed approved by Lessor unless it notifies Lessee, within five days after receipt, of any reasonable objections to them, and specifies the nature of the objections. Lessor shall not unreasonably withhold approval of the final plans and specifications. If within ten days after Lessee receives Lessor's objections the parties are unable to agree upon the final plans and specifications, either party may terminate the Lease by giving ten days' prior written notice to the other.

10.4.1. *Ownership of plans.* Lessor acknowledges that the said plans and specifications are the sole property of Lessee and Guarantor, that the architectural design of Lessee's restaurant building is unique and that such plans and specifications will be furnished to Lessor in confidence. Lessor agrees not to knowingly permit or suffer any person to utilize same for any purpose other than the Restoration improvements.

10.4.2. *Contractor bids, contracts.* Within ten days after Lessor has approved or is deemed to have approved the final plans and specifications, Lessee, on Lessor's behalf, shall solicit and obtain a bid from a reputable and responsible contractor for the construction and completion of the Restoration improvements. A qualified, reputable, and bondable contractor designated by Lessor shall be allowed to submit a bid to Lessee, provided that Lessor submits the name of the contractor to Lessee within 30 days after the notice of occurrence, as foresaid. Within five days after receipt of bid(s), Lessee, on Lessor's behalf, shall designate the contractor who has submitted the acceptable bid to construct the Restoration improvements and shall forward to Lessor the general construction contract to be executed by Lessor on Lessee's approved contract form. Lessor agrees that no contractor shall be deemed any agent of Lessee and that Lessee assumes no obligations with respect to the manner or quality of construction or any other matter relating to the construction, and that Lessee shall have the right to insist upon compliance by Lessor with all terms and provisions hereof.

10.4.3. *Construction extras.* Lessee may require the Lessor to amend the construction contract to include Extras, provided however, that their aggregate cost shall not exceed the Net Award.

10.4.4. *Completion date.* Lessor shall diligently proceed with the construction of the Restoration improvements and shall complete them within 180 days after the occurrence, but this date shall be extended for all delays in construction resulting from causes beyond Lessor's reasonable control. However, if for any reason, including causes beyond Lessor's reasonable control, construction is not completed within one year from the date of occurrence, Lessee may terminate this Lease. Lessee's right to terminate is in addition to any other remedies provided herein or by law.

10.4.5. *Work standards and completion.* Lessor shall cause the general contractor to construct the Restoration improvements in a good workmanlike manner and in compliance with plans and specifications and all Legal Requirements. Lessor shall furnish to Lessee satisfactory evidence of completion in the form of (1) a certificate of occupancy (where appropriate) issued by the appropriate governmental authority, if available, and (2) Lessor's certificate of completion.

10.4.6. *Lessee inspection and work.* During the course of construction, Lessee or its representatives may enter upon the Property at all reasonable times for the purpose of inspecting the construction to determine that the work is being completed in accordance with the plans and specifications. When construction is substantially completed, Lessee may enter the Property for the purpose of installing improvements, fixtures, and other equipment, upon the condition that Lessee does not unreasonably

interfere with completion of construction of the Restoration improvements.

10.4.7. *Clean-up.* Lessor shall deliver the Property to Lessee on the completion of Restoration in broom clean condition, free and clear of all debris, rubbish, and discarded building materials.

10.4.8. *Construction bonds.* Before commencement of construction of Restoration improvements Lessor shall cause its contractor to procure performance and payment bonds issued by a duly qualified corporate surety in the full amount of the construction contract, naming Lessor as the Obligee. The bonds shall be: (a) conditioned upon the full and complete and faithful performance of the terms and conditions and of the work to be performed under the contract, and (b) further conditioned upon payment in full of the claims of all persons performing labor upon, or furnishing materials to be used in, or furnishing appliances, equipment or power contributing to such work. The bonds shall meet the statutory requirements of the governing jurisdiction of the work site, be recordable in form, and be in the form and written by the companies that Lessee reasonably approves. If any contractor defaults under a construction contract and Lessor receives sums under the bonds, Lessor shall hold the sums in trust to be applied to the cost of completion of Restoration improvements.

10.5. *Termination events.* This Lease shall terminate as of the date of the occurrence or Taking if any of the following termination events occur: (a) Restoration cannot be completed within 180 days after the occurrence; (b) the damage, destruction, or Taking occurs during the last five years of the Basic Term or during any Extended term; or (c) within 30 days after a Taking, Lessee determines in good faith and notifies Lessor that, as a result thereof, the Property no longer is suitable for use as a restaurant. In that event, the Basic Rent, Percentage Rent, and other payments to be made by Lessee shall be apportioned as of the date of the occurrence or Taking.

10.6. *Lessor's failure to restore.* If Lessor does not commence Restoration within 30 days after the occurrence, or does not prosecute the Restoration with due diligence, Lessee, upon ten days notice to Lessor, may either (i) commence and complete Restoration at Lessor's expense, in which event Lessor shall make the Net Award available to Lessee for such purpose, or (ii) terminate this Lease. If the Award is not adequate to complete Restoration, Lessor shall promptly pay the deficiency to Lessee.

10.7. *Rent abatement.* Upon damage or destruction to the Property or upon its Taking which does not result in termination under subsection 10.5, the Basic Rent, Percentage Rent, and all other payments to be made by Lessee hereunder shall abate as of the date of the occurrence. In the case of partial damage, destruction or Taking which does not cause Lessee to discontinue use of the Property as a restaurant, the above payments shall be equitably apportioned.

10.8. *Restoration trust funds.* If damage or destruction to the Property or the Taking thereof does not result in termination under subsection 10.5, the Net Award shall be paid to the Depository to be held in trust for Restoration.

10.9. *Arbitration.* If Lessor and Lessee are unable to agree upon the period required to complete Restoration or upon its cost, such matters shall be determined as follows: Each party shall appoint an arbiter. If the two arbiters cannot agree upon the disputed matter, it shall be determined by a third arbiter selected by them. If the two arbiters cannot agree upon a third arbiter, he shall be appointed by a federal district court judge, acting in a nonjudicial capacity, for the district in which the Property is located.

10.10. *Application of award.* If there is no continuing Event of Default and unless this Lease has been terminated under Section 10.5, the Net Award shall be applied as follows: (a) any Net Award received by Lessor as compensation for a Taking of temporary use or occupancy during the term of this Lease shall

2-Forms Federal Taxes Affecting Real Estate [C]

be paid over immediately to Lessee; (b) any portion of the Net Award allocable to a period after the expiration or earlier termination of this Lease shall become the property of Lessor and shall be paid to it; and (c) any portion of the Net Award which is received for damage to or destruction of the Property shall be paid to the Depository and applied as provided in subsections 10.3, 10.4, or 10.6.

Article 11 Use, Operation of Business

11.1. *Use.* Lessee shall use the Property only for the operation of a restaurant and for no other purpose without Lessor's prior written consent. However, at Lessor's option, Lessee may use the property for any legally permissible use which proves to be economically feasible, to be determined by Lessee within its good faith discretion.

11.2. *Operation.* During the term, Lessee shall operate a restaurant upon the Property not less than the hours similar businesses are open for business in the immediate area of the Property and may operate on a 24 hour per day, seven day per week basis if permitted by Legal Requirements. However, temporary discontinuance of business due to strikes, lockouts, fire, casualty, remodeling, Legal Requirements, or other causes beyond Lessee's control shall not be deemed a breach of this section 11.2.

Article 12 Assignment, Subletting

12.1. *Assignment and sublease.* Lessee may not mortgage, pledge, or otherwise encumber its interest in this Lease or in any sublease of the Property. Lessee may assign this Lease or sublet the Property to any person whose business is to operate a restaurant, provided that the sublease or assignment is expressly subject to the provisions of this Lease, and that the sublease or assignment does not affect or reduce Lessee's obligations hereunder, which shall continue in full effect as the obligations of a principal and not as a guarantor or surety, to the same extent as though no assignment or sublease had been made.

12.2. *Performance.* Any act required to be performed by Lessee under this Lease may be performed by its sublessees or assignees. Their performance shall be deemed to be that of Lessee and shall be acceptable as its act by Lessor.

Article 13 Right to Cure Defaults

13.1. *Lessor defaults.* If Lessor fails to pay any liens or encumbrances affecting the Property and to which this Lease may be subordinate when any of them become due or otherwise fails to perform any of its covenants or agreements under this Lease, and the failure or default continues for 30 days after Lessee gives notice to Lessor (notwithstanding any delay or forbearance in giving notice), Lessee may pay the lien or encumbrance and cure the default. Lessee may further make all necessary payments in connection therewith, including, but not limited to, the payment of reasonable attorney's fees, costs, and charges of or in connection with any pending legal action. Lessor shall immediately pay Lessee all amounts paid by Lessee, including interest thereon at the maximum legal rate, or, if no such rate is established, at 15 percent per annum. All sums charged to Lessor by Lessee hereunder shall be Lessor's indebtedness to Lessee, payable on demand. If all Lessor's indebtedness is not fully paid within 30 days after demand, Lessee may (i) deduct such amount from rent subsequently becoming due hereunder, (ii) terminate this Lease by giving 30 days notice to Lessor (unless Lessor cures the default), or (iii) extend this Lease on the same covenants and conditions as herein provided until the indebtedness is fully paid by application to rents.

13.2. *Lessee defaults.* If Lessee fails to make or perform any required payment or act, Lessor may do so for Lessee's account. Lessee shall pay to Lessor on demand all amounts so paid by Lessor and all

2-Forms Federal Taxes Affecting Real Estate [C]

incidental costs and expenses (including attorney's fees and expenses) incurred in connection with the payment or performance, including interest thereon at the maximum legal rate, or, if no such rate is established, at 15 percent per annum from the date the payment is made or the costs and expenses are incurred.

Article 14 Subordination and Nondisturbance

14.1. This Lease and all rights of Lessee hereunder are and shall be subject and subordinate to the lien of any and all mortgages, or consolidated mortgage or mortgages, which may now or hereafter affect the Property, or any part thereof, and to all renewals, modifications, consolidations, replacements, and extensions thereof, subject to the following conditions. Any mortgage placed upon the Property shall provide that so long as there is not outstanding a continuing Event of Default by Lessee in any term, condition, covenant, or agreement of this Lease, (i) the leasehold estate of Lessee created hereby and Lessee's peaceful and quiet possession of the Property shall be undisturbed by any foreclosure of the mortgage, (ii) the Net Award will be made available for Restoration, and (iii) the lien will be released if Lessee purchases the Property pursuant to Article 17 and pays the purchase price to the mortgagee to the extent that a balance is due on the mortgage.

Article 15 Lessee's Trade Fixtures and Equipment

15.1. All trade fixtures, signs, equipment, furniture, or other personal property of whatever kind and nature kept or installed on the Property by Lessee shall not become the property of Lessor or a part of the realty no matter how affixed to the Property and may be removed by Lessee at any time and from time to time during the entire term of this Lease. Upon request of Lessee or its assignees or any subtenant, Lessor shall execute and deliver any real estate consent or waiver forms submitted by any vendors, lessors, chattel mortgagees, or holders or owners of any trade fixtures, signs, equipment, furniture, or other personal property of any kind and description kept or installed on the Property setting forth that Lessor waives, in favor of the vendor, lessor, chattel mortgagee, or any holder or owner, any Superior lien, claim, interest or other right therein. Lessor shall further acknowledge that property covered by the consent or waiver forms is personal property and is not to become a part of the realty no matter how affixed thereto, and that such property may be removed from the Property by the vendor, lessor, chattel mortgagee, owner, or holder at any time upon default in the terms of such chattel mortgagee or other similar documents, free and clear of any claim or lien of Lessor.

Article 16 Surrender

16.1. Upon the expiration or earlier termination of this Lease, Lessee shall surrender the Property to Lessor in good order and condition, except for ordinary wear and tear, existing Legal Requirements, and the results of any damage, destruction, or Taking. Lessee shall remove from the Property on or prior to the expiration or earlier termination all of its property situated thereon and shall repair any damage caused by the removal. Property not so removed shall become the property of Lessor.

Article 17 Purchase Option

17.1. Lessee may purchase the Property on the last day of the Basic Term or of any Extended Term at a price equal to the Fair Market Value of the Property as of the date of purchase. Lessee shall give notice of the exercise of the option within 180 days prior to the expiration of the effective term. On the date of such purchase, Lessor shall convey marketable title to the Property to Lessee against payment of the purchase price therefor in accordance with Article 21.

Article 18 Right of First Refusal

18.1. If at any time during any term of this Lease, Lessor receives and is willing to accept a bona fide offer from a third party to purchase the Property, other than an offer to purchase it at any sale incidental to the exercise of a remedy provided for in a mortgage or other security instrument creating a lien on the Property, or if Lessor offers to sell the Property to a third party, Lessor shall, if there is no continuing Event of Default, promptly transmit to Lessee its offer to sell the Property to Lessee upon terms and conditions substantially similar to those offered by or to the third party, together with a true copy of such original offer. If Lessee does not accept such offer within 30 days after it is made, Lessor may, within 180 days after the 30-day period expires, sell the interest to a third party upon terms and conditions substantially similar to those offered to Lessee. If Lessee accepts such offer by notice to Lessor within the time permitted, the offer and acceptance shall constitute a contract for the sale by Lessor and the purchase by Lessee of the Property at a closing to be held within 30 days following the receipt by Lessor of Lessee's notice of acceptance. On the date of such purchase, Lessor shall convey marketable title to the Property to Lessee against payment of the purchase price therefor in accordance with Article 21.

Article 19 Termination for Uneconomic Use

19.1. *Termination option.* If at any time two years or more after this lease commences the Leased Property is no longer economic or suitable for Lessee's continued use and occupancy, Lessee may give notice to Lessor of its intention to terminate the lease. The notice shall specify that it is being given under this Article 19, and shall contain the following: (a) the termination date, which shall be the Payment Date as set forth below first occurring at least 180 days after notice is given; (b) Lessee's certification that its board of directors has made a determination that the Leased Property is no longer economic or suitable for Lessee's continued use and occupancy and that Lessee has discontinued or will discontinue its use on or before the termination date, and, after that date, Lessee will discontinue the use of the Leased Property in its ordinary course of business for a period of at least three years; and (c) if the termination date occurs during the Basic Term, Lessee's irrevocable offer to purchase the Leased Property on that date at a purchase price previously determined in accordance with Section 19.2. If Lessor rejects the offer by giving notice to Lessee not later than 30 days before the termination date, or if that date occurs during an Extended Term, this lease shall terminate on the termination date. Unless Lessor has rejected the offer provided in the preceding sentence, Lessor shall be conclusively presumed to have accepted it and, on the termination date Lessor shall transfer, and Lessee shall purchase, the Leased Property in accordance with Article 21.

19.2. *Purchase prices.* The payment dates and purchase prices, referred to above, are as follows:

Payment Date.....	Purchase Price

January 1, 2002.....	\$1,130,000
January 1, 2003.....	\$1,143,000
January 1, 2004.....	\$1,157,300
January 1, 2005.....	\$1,173,000
January 1, 2006.....	\$1,190,000

Article 20 Substitution of a New Lease

20.1. If, at any time during the Basic Term, the Leased Property is no longer economic or suitable for

2-Forms Federal Taxes Affecting Real Estate [C]

Lessee's continued use and occupancy, Lessee may give notice to Lessor of its intention to terminate the lease. The notice shall specify that it is being given under this Article 20, and shall contain the following: (a) the termination date, which shall be the Payment Date first occurring at least 180 days after notice is given; (b) Lessee's certification that its board of directors has made a determination that the Leased Property is no longer economic or suitable for Lessee's continued use and occupancy and that Lessee will discontinue its use on or before the termination date for a period of at least three years; and (c) a description, in reasonable detail, of the new property that Lessee intends to convey or assign to Lessor as the purchase price for the Leased Property payable under this Article 20. The new property shall consist of a fee interest in improved real property. However, if the Leased Property is subject to a Ground Lease, the new property may consist of a fee interest in improved real property or, with Lessor's consent, a leasehold interest created by a ground lease and its assignment. The term of the ground lease, including renewals, shall expire not earlier than 15 years after the expiration date of the lease referred to in the following sentence as that lease may be extended under its terms, and the ground lease shall otherwise be satisfactory to Lessor. Upon the date specified for termination of this Lease, Lessee shall convey or assign to Lessor a parcel of property which shall be unencumbered by any lien or charge and suitable for use in Lessee's business as a restaurant. Lessee shall then enter into a lease of the property with Lessor, provided the following conditions are met: (A) the Fair Market Value of the property is not less than the greater of (i) the Fair Market Value of the Leased Property, as determined by a member of the American Institute of Real Estate Appraisers, not more than 60 days before the termination date, or (ii) the purchase price of the Leased Property at the purchase date which would be payable upon a purchase under Article 19; (B) the new lease (i) provides for payments of basic rent on each Payment Date that are not less than the Basic Rent payable under this Lease, (ii) provides for a term ending on a date not earlier than the Termination Date, (iii) provides for purchase prices for the property that are not less than the respective purchase prices that would be payable upon a purchase of the Leased Property by Lessee under this Lease, (iv) has substantially the same other terms and provisions as this Lease, and (v) is guaranteed by the Guarantor on the same terms and conditions as set forth in the Guaranty; and (C) all of the documents and proceedings relating to the conveyance or assignment and new lease and its substitution, including the terms and provisions of the new lease, are reasonably satisfactory in form and substance to Lessor. Lessee shall pay all costs, charges, and expenses incident to the conveyance or assignment of the property and the lease thereof and any mortgage thereof by Lessor and any assignment of the lease thereof, including attorney's fees and expenses, recording fees, the costs of appraisals, title insurance premiums covering title insurance for Lessor and for the mortgagee under such mortgage, and all applicable taxes which may be incurred or imposed by reason of such transactions. On the termination date, Lessor shall transfer to Lessee, and Lessee shall purchase from Lessor, the Leased Property in accordance with Article 21.

Article 21 Procedure for Purchase

21.1. *Marketable title, liens.* Upon the purchase by Lessee of the Property under this Lease, Lessor shall transfer marketable title to Lessee. Title shall, however, be subject to all liens, encumbrances, charges, exceptions, and restrictions affecting the Property as of the Commencement Date (excluding any monetary liens or encumbrances) and those attaching thereto on or after such date (a) which shall be or have been expressly consented to in writing by Lessee, or (b) for the discharge of which Lessee is responsible under this Lease, and subject to all Legal Requirements, but free of all liens which secure amounts or obligations which Lessee is not obligated to pay or discharge under this Lease.

21.2. *Settlement.* Upon the date fixed for any such purchase, Lessee shall pay to Lessor at its address for notices hereunder or otherwise as the Lessor may designate, the purchase price specified herein, by certified or official bank check payable to the order of Lessor or its designee, and Lessor shall deliver to Lessee an appropriate instrument or instruments of transfer of the interest in the Property. Upon

2-Forms Federal Taxes Affecting Real Estate [C]

completion of the purchase, this Lease and all obligations hereunder shall terminate, except for actual or contingent obligations and liabilities which arose on or prior to the purchase date.

Article 22 Short Form Lease

22.1. *Recordable form.* The parties will, simultaneously with the execution of this Lease, execute counterparts of an instrument, in recordable form, which, when completed to include a metes and bounds description of the Property and the Commencement Date and Termination Date of this Lease, will constitute a short form of lease. Lessor authorizes and appoints Lessee as its attorney-in-fact to complete the document when the omitted data is available and thereupon to record it.

22.2. *Nondisclosure of rent.* Lessor shall not record this Lease or any short form lease or other document which sets forth the rent to be paid by Lessee. Any such recording or attempted recording by Lessor shall constitute a breach of this Lease.

Article 23 Certificates

23.1. Either party shall, without charge, at any time within ten days after the other's written request, from time to time, certify by written instrument duly executed and acknowledged to any actual or proposed mortgagee or purchaser, or any other Person specified in the request, as to the following: (a) whether this Lease has been supplemented or amended, and if so, the substance and manner of such supplement or amendment; (b) the validity and force and effect of this Lease, in accordance with its tenor as then constituted; (c) the existence of any default thereunder; (d) the existence of any offsets, counterclaims, or defenses thereto by the other party; (e) the commencement and expiration dates of the term of this Lease; and (f) all other matters that may reasonably be so requested. Any such certificate may be relied upon by the party requesting it and any other Person to whom it may be exhibited or delivered. The contents of the certificate shall be binding on the party executing it.

Article 24 Events of Default, Remedies

24.1. *Default.* Any of the following occurrences, conditions, or acts shall constitute an "Event of Default" under this Lease:

(a) if Lessee

(i) defaults in making payment when due of any Basic Rent or Percentage Rent, and the default continues for 30 days after Lessor gives written notice to Lessee specifying the default and demanding that it be cured, or

(ii) defaults in the observance or performance of any other provision of this Lease, and the default continues for 60 days after Lessor gives written notice to Lessee specifying the default and demanding that it be cured. However, if the default cannot be cured by the payment of money and cannot with due diligence be wholly cured within the 60-day period, Lessee may have any longer period that is necessary to cure the default, so long as Lessee proceeds promptly to cure it within that period, prosecutes the cure to completion with due diligence, and advises Lessor from time to time, upon Lessor's request, of the actions that Lessee is taking and the progress being made;

(b) if the Property is abandoned by Lessee for a period of 45 consecutive days;

(c) if Lessee or the Guarantor files a petition in bankruptcy, for reorganization or for an arrangement

2-Forms Federal Taxes Affecting Real Estate [C]

under the Bankruptcy law or any similar federal or state law, is adjudicated a bankrupt or becomes insolvent, is unable to meet Lessee's obligations as they become due, or takes any corporate action in furtherance of any of the foregoing;

(d) if a petition or answer is filed proposing the adjudication of Lessee or the Guarantor, if any, as a bankrupt or the reorganization of Lessee or the Guarantor under the Bankruptcy law or any similar federal or state law, and (i) Lessee or the Guarantor consents to the filing thereof, or (ii) the petition or answer is not discharged or denied within 60 days after its filing;

(e) if a receiver, trustee, or liquidator (or other similar official) of Lessee or the Guarantor, of all or substantially all of their respective businesses or assets, or of the estate or interest of Lessee in the Property is appointed and is not discharged within 60 days thereafter or if Lessee or the Guarantor consents to or acquiesces in the appointment; or

(f) if Lessee's estate or interest in the Property is levied upon or attached in any proceeding and the process is not vacated or discharged within 60 days after the levy or attachment, unless the levy or attachment is being contested under Article 6.

(g) Notwithstanding the provisions of subparagraphs (c), (d), and (e) above, if at any time during the term of this lease, proceedings in bankruptcy, insolvency, or similar proceedings are instituted by or against Lessee, whether or not they result in an adjudication against Lessee, or if a receiver of Lessee's business or assets is appointed, the proceedings or adjudications shall not affect the validity of this lease so long as rent and additional rent reserved under it continues to be paid to Lessor and Lessee performs all its other terms, covenants, and conditions under this lease. In that event, this lease shall continue to remain in full force and in accordance with its terms.

24.2 Remedies. If there is any default under the above Section 24.1, the following shall occur: (a) the rent shall immediately become due and be paid up to the time of reentry, expiration, and/or dispossession; (b) Lessor may relet the Property or any part or parts of it, either in Lessor's name or otherwise, for a term or terms which may, at Lessor's option, be less than or exceed the then remaining term of this lease; and (c) Lessee shall also pay to Lessor, as liquidated damages for Lessee's failure to observe and perform its covenants under this lease, any deficiency between the Basic Rent hereby reserved and/or agreed to be paid and the net amount, if any, of the rents collected on account of the Property's lease or leases for each month of the period which would otherwise have constituted the balance of the term of this Lease. However, any such deficiency shall be paid as the Basic Rent becomes due and payable in monthly installments. In computing the liquidated damages, there shall be added to the deficiency all reasonable expenses that Lessor may incur in connection with reletting, such as brokerage and preparation for reletting. Lessee shall pay any such liquidated damages in monthly installments on the Rent Payment Dates specified in the lease. Any suit brought to collect the deficiency for any month shall not prejudice in any way Lessor's rights to collect the deficiency for any subsequent month by a similar proceeding. Lessor may make all alterations, repairs, replacements, and decorations in the Property that it, in its sole judgment, considers advisable and necessary for the purpose of reletting the premises. Such action by Lessor shall not operate or be construed to release Lessee from its liability under this lease. Lessor shall use its best effort to mitigate all damages and to relet the Property if there is any Event of Default by Lessee.

Article 25 Notices

25.1. All notices, demands, requests, consents, approvals, offers, statements, and other instruments or communications required or permitted to be given hereunder shall be in writing and be deemed to have

2-Forms Federal Taxes Affecting Real Estate [C]

been given when delivered, or when mailed by first class registered or certified mail, postage prepaid, addressed, (a) if to Lessee, at its address set forth above, Attention: Corporate Counsel, with a copy addressed to Guarantor, Attention: Corporate Counsel, at the address specified in the guarantee instrument, or at any other address that Lessee or the Guarantor may furnish in writing to Lessor, or (b) if to Lessor, at the address set forth above.

Article 26 Amendments

26.1. This Lease may not be amended, modified, or terminated, nor may any obligation under it be waived orally. No amendment, modification, termination, or waiver shall be effective for any purpose unless it is in writing and signed by the party against whom enforcement thereof is sought.

Article 27 Lessor's Negative Covenants

27.1. *Restaurant leases.* During the term Lessor shall not, without Lessee's prior written consent, directly or indirectly engage in, or acquire any financial or beneficial interest in, or grant a lease to any Person to operate a restaurant business for the sale or furnishing of food, excluding only ethnic type establishments.

27.2. *Application of restriction.* The provisions of subsection 27.1 shall apply to all officers, directors, subsidiaries, and affiliates of Lessor, shall be covenants running with any land owned by Lessor, and shall be binding upon its successors and assigns.

Article 28 Miscellaneous

28.1. *Severability.* If any provision of this Lease or any application thereof shall be invalid or unenforceable, the remainder of this Lease and any other application of such provision shall not be affected thereby.

28.2. *Binding effect.* The provisions of this Lease shall be binding upon and inure to the benefit of both parties and their respective successors and assigns.

28.3. *Quiet Enjoyment.* Upon due performance by Lessee of its covenants and agreements under this Lease, Lessor covenants that Lessee shall and may at all times peaceably and quietly have, hold, and enjoy the Property during the Lease term. If this covenant of quiet enjoyment is breached and Lessee is made a party to any legal proceedings affecting its right of possession, Lessor shall reimburse Lessee for all reasonable attorneys' fees or other expenses incurred by it in defending its right to this Lease. Lessee may apply all such expenses to rent due or to become due.

28.4. *Headings.* The table of contents, Article, and Section headings are for convenience and reference only and shall not be used to limit or otherwise affect the meaning of any provision of this Lease.

28.5. *Counterparts.* This Lease will be simultaneously executed in two or more counterparts, each of which shall be deemed a fully enforceable original but all of which together shall constitute one and the same instrument.

28.6. *Governing law.* This Lease shall be construed in accordance with and governed by the laws of the State of California.

28.7. *Relationship of parties.* Lessor and Lessee shall not be considered or deemed to be joint venturers

2-Forms Federal Taxes Affecting Real Estate [C]

or partners and neither shall have the power to bind or obligate the other except as set forth herein.

28.8. *Default of Lessor's Trustee.* If Lessee is unable to use the Property for the use intended because Lessor is involved in a bankruptcy or insolvency proceeding and Lessor's Trustee fails to perform any of Lessor's obligations under this Lease, Lessee may terminate the Lease.

28.9. *Construction.* All terms used in this Lease, regardless of the number or gender in which they are used, shall be deemed and construed to include any other number, singular or plural, and by other gender, masculine, feminine, or neuter, as the context or sense of this Lease or any section, subsection, or clause herein may require as if such terms had been fully and properly written in such number or gender.

28.10. *Investment tax credit.* It is the parties intent that Lessee shall at all times be considered the owner and original user of all fixtures, trade fixtures, equipment, and other property upon or used in connection with the Property and that Lessee shall be entitled to and may claim an investment tax credit in accordance with Sections 38 and 46 through 48 of the Internal Revenue Code of 1954 or corresponding provisions of subsequent law. Lessor shall at no time take any action or file any document which is inconsistent with the foregoing intent and Lessor shall take such action and execute all documents that may be lawful, reasonable, and necessary to facilitate accomplishment of this intent.

28.11. *Modification.* No changes, additions, or interlineations made to this Lease shall be binding unless initialed by both parties.

28.12. *Non-waiver.* No delay or failure by either party to exercise any right under this Lease, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

28.13. *Time of essence.* Time is expressly declared to be of the essence of this Lease.

28.14. *Entire Agreement.* This Lease supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

Article 29 Definitions

29.1. As used in this Lease, the following terms have the following respective meanings:

(a) *Basic rent:* defined in Article 3.

(b) *Basic rent payment date:* the fifteenth day of each consecutive month during the term.

(c) *Basic term:* defined in Article 2.

(d) *Commencement date:* the date on which the Lessee takes possession of the premises.

If the Commencement Date falls on other than the first day of a month, Lessee shall pay a prorated rent for the partial month and the Commencement Date for the Basic Term of the Lease shall be adjusted to be the first day of the following month.

(e) *Date of this Lease:* the date of acknowledgment of the signatures of the Lessee's officers executing this Lease.

2-Forms Federal Taxes Affecting Real Estate [C]

(f) *Default*: an event or condition the occurrence of which would, with the lapse of time or the giving of notice or both, become an Event of Default.

(g) *Depository*: any bank, savings institution, trust company, or national banking associations located in the jurisdiction in which the Property is located.

(h) *Event of default*: defined in Article 24.

(i) *Fair market value*: The Fair Market Value of the Property shall be the amount a willing buyer would pay to a willing seller (neither party being forced to buy or sell) if such property were being used for its highest and best use. If Lessor and Lessee are unable to agree on the Fair Market Value of the Property, it shall be determined by two appraisers, one appointed by Lessor and the other by Lessee. If the two appraisers are unable to agree upon a Fair Market Value, it shall be determined by a third appraiser to be selected by them. If the two appraisers are unable to agree on a third appraiser, the appraiser shall be appointed by a federal district court, acting in a nonjudicial capacity, for the district in which the Property is located.

(j) *Full insurable value*: actual replacement costs, including the costs of debris removal, less physical depreciation, but not including the costs of soil tests, trenches, foundations, and other improvements below ground which are not ordinarily insurable.

(k) *Guarantor*: Greenwood, Inc., a California corporation, together with any successor thereto by way of merger, consolidation, or acquisition of all or substantially all its assets.

(l) *Impositions*: all taxes, assessments (including all assessments for public improvements or benefits), water, sewer, or other rents, rates and charges, excises, levies, license fees, permit fees, inspection fees, and other authorization fees and charges, in each case whether general or special (including all interest and penalties thereon), which at any time during or in respect of the term hereof may be assessed, levied, confirmed, or imposed on or in respect of or be a lien upon the Property or any part thereof.

(m) *Insurance requirements*: all terms of any insurance policy required to be maintained by Lessee under section 9.1 hereof, and all requirements of the National Board of Fire Underwriters (or any other body exercising similar function) applicable to or affecting all or any part of the Property.

(n) *Lease year*: the period between the Commencement Date for the Basic Term and the first anniversary of the Commencement Date and each successive annual period thereafter during the term.

(o) *Legal requirements*: all statutes, codes, ordinances, rules, regulations, orders, judgments, or decrees of governments, authorities, agencies, officials, and officers, which now or at any time hereafter may be applicable to the Property of any part of it.

(p) *Lessee*: the party defined as such in the first paragraph of this Lease together with any successor thereto by way of merger, consolidation, or acquisition of all or substantially all of its assets.

(q) *Lessor*: the party defined as such in the first paragraph of this Lease, together with any successor or successors to its rights and obligations as Lessor hereunder, including at any time after the date hereof, the then owner of Lessor's interest in the Property.

(r) *Net award*: any insurance proceeds or condemnation award payable in connection with any damage, destruction, or Taking, less the costs, fees, and expenses incurred in the collection thereof.

2-Forms Federal Taxes Affecting Real Estate [C]

(s) *Person*: any individual, partnership, corporation, trust, unincorporated association, or joint venture, a government or any department or agency thereof, or any other entity.

(t) *Property*: the parcel of land described in Exhibit "A," together with all improvements at any time existing thereon, all fixtures at any time affixed thereto and all easements, rights, and appurtenances at any time relating thereto but not including trade fixtures, machinery, and equipment which remains the property of Lessee under section 7.3.

(u) *Restoration*: the restoration, replacement, or rebuilding of the Property or any portion thereof as nearly as practicable to its value, condition, and character immediately prior to damage, destruction, or Taking.

(v) *Subsidiary*: any corporation which is at least 50% owned or controlled by Guarantor.

(w) *Taking*: a taking of all or any part of the Property, or any interest therein or right accruing thereto, as a result of or in lieu of or in anticipation of the exercise of the right of condemnation or eminent domain pursuant to any law, general or special, or by reason of the temporary requisition of the use or occupancy of the Property or any part thereof, by any governmental authority, civil or military.

(x) *Termination date*: the fifth anniversary after the Commencement Date.

In witness whereof the parties have executed this Lease as of the date first above written.

C.4 Shopping center lease

COMMENT

A shopping center lease provides not only (1) for the lease of store space by a tenant from a landlord, but also (2) for the use of common facilities with other tenants and customers, as well as (3) for the rules regulating the relationship among the tenants and the landlord for the success of their cooperative merchandizing venture. Another significant factor affecting the shopping center lease is the prospective assignment of the lease as additional collateral security for the landlord's mortgage lender. The realities of the bargaining powers of the tenants vis-a-vis the landlord will also affect the shopping center lease. A large desirable department store, which would draw a large number of customers will be better able to

obtain concessions from the shopping center owner than will a smaller "satellite" or "line" tenant.

Minimum and percentage rent:

Shopping center leases, as many store leases, generally require the tenant to pay not only a monthly installment of rent, in a minimum amount, but in addition, a percentage rental. The percentage rental is generally based on gross sales from the tenant's premises, and may be adjusted by subtracting the minimum rental, returned merchandise, credits, or similar items. Clear delineation of what amounts received by the tenant are included in "gross sales" is advisable. For example, gross sales may not include:

- **delivery and installation charges;**
- **mail order or catalogue purchases;**
- **finance charges on credit sales;**
- **sales, use or excise taxes; or**
- **receipts from vending machine, snack bar, or amusement devices installed for the tenant's employees sole use.**

Common areas:

Common areas in a shopping center generally include the malls, promenades, parking facilities, loading docks and area, landscaping and similar areas. A tenant should receive a right to the use of and access to common areas as an appurtenance to the lease.

Regulation of the use of the common elements is usually a right reserved by the landlord. This provides for uniformity for all tenants. Such regulations would include matters such as prohibition against "sidewalk" sales by tenants and restrictions of parking by tenant employees to areas further away from the shopping center.

Although maintenance of the common areas is most often the landlord's responsibility, the common area maintenance costs are generally shared proportionately among tenants and the owner. Maintenance may include the landlord's overhead and management expenses, as well as depreciation or maintenance equipment and overall insurance premiums.

Merchants' association:

A merchants association is a useful organization for considering planning, promotional, and operating functions within the shopping center. Tenant voting rights and the method of membership fee assessment are points to consider here.

Use restrictions and exclusives:

Use restrictions in a shopping center lease requires extreme care. Not only does a landlord seek a good tenant mix by carefully defining each tenant's use, but he must also avoid breach of "exclusives" or clauses barring competing product lines contained in other tenant leases. This can be a problem area.

Rather than entering a lease prohibiting another tenant from selling, for example, men's hats, a landlord may avoid future problems by agreeing not to lease to a tenant whose main business is selling men's hats, or even men's clothing.

Restrictions against competition:

In addition to tenant leases containing "exclusives" (whereby the landlord agrees not to lease to a tenant selling the same product as, or engaged in a business similar to, the subject tenant), a lease may also restrict a tenant from opening a store within a specified radius of the shopping center. If a tenant, prior to entering the shopping center lease, already maintains a store within the proposed radius, he should seek a specific exception. Such restrictions are aimed at preventing the diversion of business from the shopping center and diminishing the amount of the landlord's percentage rent.

Any restriction which involves restraints on trade should not be so strict as to be in violation of the federal or local anti-trust laws. A review of the current state of the anti-trust law should be made to avoid violation and insure enforceability.

Store hours:

A landlord, as well as most tenants, seeks to keep the shopping center in continuous operation, six to seven days a week including evenings. Many leases may therefore contain a clause requiring the tenant to be open at specified times or at such times as may be set by the merchants' association.

Signs:

In the interest of overall appearance of the shopping center, a landlord will generally retain control over the design and appearance of individual tenant signs. Usually a tenant and landlord should agree on both interior and exterior sign design and appearance before signing the lease.

Mortgage lender protection:

If a tenant enters and records its lease prior to the recording of the landlord's mortgage, the lease will not be subject, generally, to termination by foreclosure. A lender, on the other hand, may be restricted by government regulation to first lien priority on its loans. A tenant does not usually want to lose its lease because of a foreclosure against a landlord. A resolution of this conflict is found in this lease. In exchange for subordination of its lease to the mortgage, the tenant should receive a side agreement from the mortgage lender to honor the lease (despite the landlord's default in the mortgage) so long as the tenant is not in default under the lease, i.e., a nondisturbance agreement.

Mortgage lenders who maintain a substantial interest in upholding the value of the shopping center as a whole by assuring a steady flow of rental income, disfavor, generally, certain types of clauses. Included would be a clause giving the tenant the right to repair defects which the landlord failed to repair, and deduct the cost of such repairs from rent; a clause giving the tenant the right to terminate for breach of its "exclusive" right to sell a particular item or line.

THIS LEASE is entered into on December 31, 2001, by and between the Landlord and the Tenant named below.

Article I Definitions and Contract Basic Provisions

2-Forms Federal Taxes Affecting Real Estate [C]

1.1. *Definitions.* (a) "Landlord": Center Associates, a Texas Limited Partnership.

(b) Landlord's address: 1020 Marshall Tower, Dallas, Texas

(c) "Tenant": Big Star Clothes, Inc., a Texas corporation.

(d) Tenant's address: 224 King's Court, Center, Dallas, Texas.

(e) Tenant's trade name: Big Star Clothes Store.

(f) "Agent": Marshall Real Estate Company, 1020 Marshall Tower, Dallas, Texas.

(g) "Cooperating Agent": Lone Star Country Real Estate, Inc.

(h) "Demised Premises": King's Court Shopping Center (the "Shopping Center") in the City of Dallas, Dallas County, Texas. The store is approximately 9,198 square feet in area (outlined in red on Exhibit A attached hereto and made a part hereof) measured to the exterior of outside walls and to the center of interior walls, and the premises are known as 224 King's Court Center.

(i) Lease term: Commencing on January 1, 2002, except as may be modified by exhibits which will be attached to this lease if a building is to be constructed for Tenant (the "Commencement Date"), and continuing for ten years. However, if the Commencement Date is not the first day of a calendar month, the 10-year lease term shall be extended by adding the remainder of the calendar month following the Commencement Date.

(j) Minimum guaranteed rental: Minimum guaranteed rental shall be \$1,336.29 per month during the first five years of the term hereof. Minimum guaranteed rental during the second five years of the term shall be \$1,336.29 per month adjusted by the percentage increase in the Consumer Price Index for the last full month of the first five years of the term as compared to the last full month prior to the Commencement Date. The term "Consumer Price Index" shall, for the purpose of this lease, be the "Consumer Price Index for all Urban Consumers" specified for "All Items", (United States City Average, 1967 + 100) and issued by the Bureau of Labor Statistics of the United States Department of Labor. If the price index is in the future compiled upon a different basis, a proper adjustment shall be made therein, for the purposes of this paragraph, to reflect the change in the cost of living that has occurred since the date of this lease. If at the time of the computation the United States Department of Labor no longer compiles and publishes a price index, the index for "All Items" compiled and published by any other branch or department of the federal government shall be used for the purpose of this paragraph. If there is no such index, the basis for the adjustments shall be the statistics reflecting cost of living increases as compiled by any institution, organization, or individual generally recognized as an authority by financial and insurance institutions. The minimum guaranteed rental during the second five years of the lease term shall not be less than that during the first five years.

(k) Percentage rental rate: 21/2 percent of all gross sales over \$400,000 per year.

(l) Common area maintenance charge: A minimum of \$268.28 per month, payable in advance.

(m) Prepaid rental: \$_____ as rent for the_____ month(s) of the lease term.

(n) Security deposit: \$_____

(o) Permitted use: Operation of a men's, women's, boys' and girls' department or specialty store.

1.2. *Interpretation.* Each of the above definitions and basic provisions shall be construed in conjunction with and

limited to the references thereto in the other provisions of this lease.

Article II Granting Clause

2.1. In consideration of Tenant's obligation to pay rent and of the other terms, covenants, and conditions hereof, Landlord leases to Tenant, and Tenant takes from Landlord, the Demised Premises as described in Section 1.1(h), TO HAVE AND TO HOLD the premises for the lease term specified in Section 1.1(i), all upon the terms and conditions set forth in this lease. If Tenant performs all of its covenants and agreements herein, it shall, subject to the terms of this lease, at all times during the continuance thereof, have peaceful and quiet possession of the Demised Premises. [NOTE: If this lease provides for construction prior to occupancy, refer to the appropriate exhibits attached hereto. In such case Article II shall be deemed modified to the extent inconsistent with such exhibits.]

Article III Construction and Acceptance of Premises

3.1. *Occupancy deemed compliance.* By occupying the Demised Premises, Tenant shall be deemed to have accepted them and to have acknowledged that they comply fully with Landlord's covenants and obligations hereunder.

3.2. *Holdover of prior tenant.* If this lease is executed before the Demised Premises become vacant, or if any present tenant or occupant of the premises holds over, the Landlord cannot acquire possession of the Demised Premises before the Commencement Date (as defined in Section 1.1(i)), it shall not be deemed to be in default under the lease, and Tenant shall accept possession of the Demised Premises whenever Landlord is able to tender them. Landlord waives the payment of rent covering any period before possession is tendered to Tenant.

3.3. *Recordable lease memorandum.* Landlord and Tenant, at either's request, shall execute and deliver a short form lease in recordable form containing the basic provision of this agreement, acknowledging that Tenant has accepted possession and reciting the exact Commencement Date and termination date of this lease.

Article IV Rent

4.1. *Payment of rent.* Rental shall accrue hereunder from the Commencement Date, and shall be payable to Landlord in care of Agent at the address specified in Section 1.1(f).

4.2. *Minimum rent.* Tenant shall pay to Landlord minimum guaranteed rental in monthly installments in the amounts specified in Section 1.1(j). The first monthly installment shall be due and payable on or before the Commencement Date, and subsequent installments shall be due and payable on or before the first day of each succeeding calendar month during the demised term. However, if the Commencement Date is not the first day of a calendar month, Tenant shall, on or before that date, pay as minimum guaranteed rental for the balance of that month a percentage of the rent specified for the first full calendar month. This percentage shall be determined by a fraction, the numerator of which is the number of days from the Commencement Date to the end of the calendar month within which that date falls, and the denominator of which is the total number of days in the month.

4.3. *Percentage rent.* (a) In addition to the minimum guaranteed rental, Tenant shall pay to Landlord, for each year during the term of this lease, percentage rental determined by (i) multiplying the total gross sales made in or from the Demised Premises during the particular calendar year by the percentage rental rate stated in Section 1.1(k), and (ii) subtracting from the resulting product the minimum guaranteed rental paid by Tenant to Landlord for the calendar year. The percentage rental shall be paid in monthly installments as follows: On or before the 10th day of each calendar month during the term of this lease, Tenant shall pay to Landlord, after deducting therefrom the minimum guaranteed

rental paid for the preceding calendar month, an amount equal to the product of the specified percentage rental rate multiplied by the total gross sales made in or from the Demised Premises during that month. If the total monthly payments of percentage rental for any calendar year do not equal the annual percentage rental computed on the amount of gross sales for the calendar year in accordance with the specified rate, Tenant shall pay the deficiency to Landlord, or Landlord shall refund the overpayment to Tenant, as the case may be, within 60 days after the end of the calendar year. The rent to be paid by Tenant and retained by Landlord for any calendar year shall not be less than the annual minimum guaranteed rental specified above.

(b) If the designation of a percentage rental rate in Section 1.1(k) includes a breakpoint of gross sales (e.g., "5 percent of gross sales over \$100,000"), then: (a) subsection (ii) in the first sentence of this Section 4.3 shall be deemed to have been deleted and all other formula references in this Article IV adjusted accordingly, (b) the breakpoint shall be divided by 12 for purposes of computing monthly percentage rental installments in the second sentence of Section 4.3, and (c) during all periods when minimum guaranteed rentals are reduced (e.g., under Section 15.4 or Section 16.2) the breakpoint shall be reduced proportionately.

4.4. *Partial calendar years.* If this lease commences on a date other than the first day of a calendar year or terminates on a date other than the last day of a calendar year, percentage rental for the fractional part of the calendar year following the Commencement Date or preceding the termination date, as the case may be, shall be paid at the specified rate for all sales made during the fractional part that, after deducting from the percentage rental all payments of minimum guaranteed rental for the fractional period. The percentage rental shall be paid in monthly installments as provided above with respect to full calendar years.

4.5. *Gross sales.* The term "gross sales" as used herein shall be construed to include the entire amount of the sales price whether for cash or otherwise, of all sales of merchandise (including gift and merchandise certificates), services and other receipts whatsoever of all business conducted in or from the Demised Premises, including mail or telephone orders received or filled at the Demised Premises, deposits not refunded to purchasers, orders taken (even if they are filled elsewhere), sales to employees, sales through vending machines or other devices, and sales by any sublease, concessionaire or licensee or otherwise in the premises. Each sale upon installment or credit shall be treated as a sale for the full price in the month during which the sale was made, regardless of when Tenant receives payment from its customer. No deduction shall be allowed for uncollected or uncollectible credit accounts. Gross sales shall not, however, include the following: amounts collected and paid out for any sales or excise tax imposed by a duly constituted governmental authority; the exchange of merchandise between Tenant's stores if made solely for the convenient operation of its business, and not for the purpose of consummating a previous sale, or of depriving Landlord of the benefit of a sale which would otherwise be made, in or from the Demised Premises; returns to shippers or manufacturers; cash or credit refunds on sales if all or part of the merchandise is later returned by the purchaser and accepted by Tenant; and sales of Tenant's fixtures.

4.6. *Late payment penalty.* The minimum guaranteed rental shall be payable on or before the first day of the month (in accordance with Section 4.2). Percentage rental shall be payable on or before the 10th day of each calendar month, without any offset or deduction. If either rental is not received within 10 days after its due date for any reason, the amount due shall bear interest at the maximum contractual rate that could legally be charged if a loan of the rental were made to Tenant in the state where the Demised Premises are located (but not to exceed 11/2 percent per month). This interest shall accrue continuously on any unpaid balance due to Landlord by Tenant during the period commencing with the above due date and terminating with the date on which Tenant makes full payment of all amounts owing to Landlord at the time of payment. Any such increase shall be payable as additional rent hereunder, shall not be considered as a deduction from percentage rental, and shall be payable immediately on demand.

4.7. *Partial acceleration.* If Tenant fails in two consecutive months to make rental payments within ten days after due, Landlord, in order to reduce its administrative costs, may require, by giving written notice to Tenant, that minimum guaranteed rentals be paid in advance quarterly instead of monthly, that all future rental payments be made on or before

2-Forms Federal Taxes Affecting Real Estate [C]

the due date by cash, cashier's check, or money order, and that delivery of Tenant's personal or corporate check no longer constitutes a payment of rental under this lease. (The above rights are in addition to Landlord's right under Section 4.6 to receive accrued interest, as well as its other rights and remedies accruing under other terms, provisions, and covenants (including Articles XIX and XX) of this lease). Any subsequent acceptance by Landlord of a monthly rental payment or a personal or corporate check shall not be construed as a waiver of its rights.

Article V Sales Reports and Records

5.1. *Certified sales statements.* On or before the tenth day of each calendar month during the term of this lease, Tenant shall prepare and deliver to Landlord at the place where rental is then payable a certified statement of gross sales made during the preceding calendar month. In addition, within 60 days after the expiration of each calendar year, and within 60 days after the termination of this lease if it does not terminate at the end of a calendar year, Tenant shall prepare and deliver to Landlord at the place rental is then payable a statement of gross sales during the preceding calendar (or partial calendar) year, certified to be correct by an independent certified public accountant. Tenant shall furnish similar statements for its licensees, concessionaires, and subtenants. All statements shall be in the form required by Landlord.

5.2. *Books and records.* Tenant shall keep in the Demised Premises or at some other location in the city where they are located a permanent, accurate set of books and records of all sales of merchandise and revenue derived from business conducted in the Demised Premises, and all supporting records such as tax reports and banking records. All books and records shall be retained and preserved for at least 24 months after the end of the calendar year to which they relate and be subject to inspection and audit by Landlord and its agents at all reasonable times.

5.3. *Audit; adjustments.* If Landlord is not satisfied with the statements of gross sales submitted by Tenant, Landlord may have its auditors make a special audit of all books and records wherever located pertaining to sales made in or from the Demised Premises. If the statements are found to be incorrect by more than 2 percent over the figures submitted by Tenant, it shall pay promptly to Landlord any deficiency, or Landlord shall promptly refund to it any overpayment, as the case may be, established by the audit. In either case, however, Tenant shall pay for the audit.

Article VI Common Areas

6.1. *Common area; parking.* The term "Common area" is defined for all purposes of this lease as that part of the Shopping Center, including applicable facilities, that are intended for the common use of all tenants. For purposes of this definition, facilities include the parking area, private streets and alleys, landscaping, curbs, loading area, sidewalks, malls and promenades (enclosed or otherwise), lighting facilities, drinking fountains, meeting rooms, public toilets, and the like. Not included, however, are space in existing or future buildings designed for commercial rental purposes and streets and alleys maintained by a public authority. Landlord may from time to time change the dimensions and locations of the Common Area, as well as the dimensions, identity, and type of all buildings in the Shopping Center. Tenant, and its employees and customers, when duly authorized under the provisions of this lease, its subtenants, licensees, and concessionaires, shall have the nonexclusive right to use the Common Area as constituted from time to time. The use shall be in common with Landlord, other tenants to the Shopping Center, and other persons permitted by Landlord to use the Shopping Center. The use shall be subject to all reasonable rules and regulations prescribed by Landlord, including the designation of specific areas within the Shopping Center or in reasonable proximity to it for parking automobiles owned by Tenant and its employees, subtenants, licensees, and concessionaires. In this regard, Tenant shall furnish to Landlord, at its request, a complete list of the license numbers of all automobiles operated by Tenant and its employees, subtenants, licensees, and concessionaires. If automobiles or other vehicles owned or operated by Tenant or the above persons are at any time parked in a part of the Shopping Center that is not specifically designated for employee parking, Tenant shall pay to Landlord, as additional rent, an amount equal to the daily or hourly charge established by Landlord for each automobile or other vehicle so parked. Tenant shall not solicit business

2-Forms Federal Taxes Affecting Real Estate [C]

within the Common Area or take any action that would interfere with the rights of other persons to use it. Landlord may temporarily close any part of the Common Area for any period necessary to make repairs or alterations or to prevent the public from obtaining prescriptive rights.

6.2. *Substitute parking.* Landlord may from time to time substitute for any parking areas other areas, whether elevated, surface, or underground, reasonably accessible to tenants of the Shopping Center.

6.3. *Management and maintenance.* Landlord shall be responsible for the operation, management, and maintenance of the Common area. The manner of and expenditures for maintenance shall be in Landlord's sole discretion.

6.4. *Common area charges.* In addition to rentals and other charges prescribed in this lease, Tenant shall pay to Landlord Tenant's proportionate share of the cost incurred by Landlord of operating and maintaining the Common Area, including costs for lighting, painting, cleaning, policing, inspecting, repairing, and replacing, and for heating and cooling any enclosed mall or promenade in the Shopping Center, as well as a reasonable allowance for Landlord's overhead costs, for depreciation of maintenance equipment, and the cost of hazard insurance. However, such costs shall not include general real estate taxes, assessments, and depreciation of Landlord's original investment. Tenant's proportionate share of the cost of operating and maintaining the Common Area shall be computed on the ratio that the total ground floor area of the Demised Premises bears to the total ground floor area of all buildings within the Shopping Area. However, Tenant's share shall not be less than the amount specified in Section 1.1(l) above. Tenant shall make the payments to Landlord on demand, at monthly or longer intervals. Landlord may require Tenant to pay in advance monthly or other periodic charges based upon the estimated annual cost of operating and maintaining the Common Area. However, such charges shall be subject to adjustment after the end of the year on the basis of the actual cost for that year.

Article VII Use and Care of Premises

7.1. *Use; name; continuous operation.* The Demised Premises may be used only for the purpose or purposes specified in Section 1.1(o) unless Landlord gives prior written consent. In transacting business in the Demised Premises Tenant shall use only the trade name specified in Section 1.1(e) unless Landlord gives prior written consent. Tenant shall not at any time leave the Demised Premises vacant, but shall in good faith continuously throughout the term of this lease conduct and carry on the type of business for which the Demised Premises are leased. Tenant shall operate its business in an efficient, high class, and reputable manner so as to produce maximum sales from the premises. Tenant shall also, except during reasonable periods for repairing, cleaning, and decorating, keep the premises open to the public for business and have adequate personnel in attendance on all days and during all hours (including evenings) established by Landlord as store hours for the Shopping Center, and during all other hours the Center is open to the public for business, except when Tenant is prohibited from being open for business by applicable law, ordinance, or governmental regulation.

7.2. *Compliance with insurance requirements.* Tenant shall not, without Landlord's prior written consent, keep anything within the premises or use the premises for any purpose which increases the insurance premium cost or invalidates any insurance policy carried on the Demised Premises or other parts of the Shopping Center. All property kept, stored or maintained within the premises by Tenant shall be at its sole risk.

7.3. *Discount sales; nuisance.* Tenant shall not do any of the following acts: conduct within the Demised Premises any fire, auction, bankruptcy, "going-out-of-business," "lost-our-lease," or similar sales or operate within the Demised Premises a "wholesale" or "factory outlet" store, a cooperative store, a "second hand" store, a "surplus" store or a store commonly referred to as a "discount house"; advertise that it sells its products or services at "discount," "cut price," or "cut-rate" prices; permit any objectionable or unpleasant odors to emanate from the premises; place or permit any radio, television, loudspeaker or amplifier on the roof or outside the Demised Premises or where it can be seen or heard from

outside the building; place any antenna, awning or other projection on the exterior of the Demised Premises; take any other action that would constitute a nuisance or would disturb or endanger other tenants of the Shopping Center or unreasonably interfere with their use of their respective premises; or do anything that would tend to injure the reputation of the Shopping Center.

7.4. *Rubbish.* Tenants shall take good care of the Demised Premises and keep them free from waste at all times. Tenants shall keep the Demised Premises and sidewalks, serviceways and loading areas adjacent to the premises neat, clean and free from dirt or rubbish at all times, and shall store all trash and garbage within the premises, arranging for the regular pick up of such trash and garbage at Tenant's expense. Receiving and delivery of goods and merchandise and removal of garbage and trash shall be made only in the manner and areas prescribed by Landlord. Tenant shall not operate an incinerator or burn trash or garbage within the Shopping Center area.

7.5. *Display windows.* Tenant shall maintain all display windows in a neat, attractive condition, and shall keep all display windows, exterior electric signs and exterior lighting under any canopy in front of the Demised Premises lighted from dusk until 11:00 p.m. every day, including Sundays and holidays.

7.6. *Address in advertising.* Tenant shall include the address and identity of its business activities in the Demised Premises in all advertisements made by Tenant in which the address and identity of any similar local business activity of Tenant is mentioned.

7.7. *Licenses.* Tenant shall procure at its expense all permits and licenses required for the transaction of business in the Demised Premises and otherwise comply with all applicable laws, ordinances, and governmental regulations.

Article VIII Maintenance and Repair of Premises

8.1. *Landlord obligations.* Landlord shall keep the foundation, the exterior walls (except plate glass windows, doors, door closure devices and other exterior openings; window and door frames, molding, locks, and hardware; special store fronts; lighting, heating, air-conditioning, plumbing and other electrical, mechanical and electromotive installation, equipment and fixtures, signs, placards, decorations or advertising media of any type; and interior painting or other treatment of exterior walls) and roof of the Demised Premises in good repair. Landlord, however, shall not be required to make any repairs caused by the act or negligence of Tenant or of its agents, employees, subtenants, licensees, or concessionaires, subject, however, to the provisions of Articles XV and XVI of this lease. Tenant shall give Landlord immediate written notice of all repairs that Landlord is required to make on or in the Demised Premises, but it shall have a reasonable time after receipt of the notice to make the necessary repairs.

8.2. *Tenant obligations.* Tenant shall keep the Demised Premises in good, clean, and habitable condition and at its expense free of insects, rodents, vermin, and other pests. Tenant shall also make all needed repairs and replacements (including replacement of cracked or broken glass), except for those required of Landlord under Section 8.1 and Articles XV and XVI. Without limiting the foregoing, Tenant shall repair and replace all lighting, heating, air-conditioning, plumbing, and other electrical, mechanical, and electromotive installation, equipment, and fixtures, make all utility repairs in ducts, conduits, pipes, and wiring, and clear up any sewer stoppage located in, under, and above the Demised Premises. If Tenant does not make a required repair within 10 days after it receives Landlord's written notice, Landlord may make the repair without liability to Tenant for resulting loss or damage to Tenant's stock or business. In that case, Tenant shall pay to Landlord upon demand, as additional rent under this lease, the cost of repairs plus the maximum contractual interest (not to exceed 11/2 percent per month) that Landlord could charge to Tenant for a comparable loan in the state where the Demised Premises are located. Such interest shall accrue continuously from the date of payment by Landlord until repayment by Tenant. Upon expiration of the lease, Tenant shall surrender the Demised Premises in good condition, excepting reasonable wear and tear and losses required to be restored by Landlord under Section 8.1 and Articles XV and XVI.

Article IX Alterations

9.1. *Tenant installations.* Tenant shall not make any alterations, additions or improvements, to the Demised Premises without Landlord's prior written consent, except for the installation of unattached, movable trade fixtures, which may be installed without drilling, cutting or otherwise defacing the premises. All alterations, additions, improvements and fixtures (other than Tenant's unattached, readily movable furniture and office equipment) made or installed by either party upon the Demised Premises shall remain upon and be surrendered with the premises and become Landlord's property upon the termination of this lease. However, if Landlord requests removal of the above installations, Tenant shall at its expense do so and restore the premises to their original condition.

9.2. *Construction work.* All construction work done by Tenant within the Demised Premises shall be performed in a good and workmanlike manner, in compliance with all governmental requirements, and in a manner that causes a minimum of interference with other construction in progress and with the transaction of business in the Shopping Center. Tenant shall indemnify Landlord and hold it harmless from and against all loss, liability, or damage resulting from Tenant's work, and shall, if requested by Landlord, furnish satisfactory bond or other security against such loss, liability, or damage.

Article X Landlord's Right of Access, Use of Roof

10.1. *Access.* Landlord may enter upon the Demised Premises at any time for the purposes of inspection, repairs, alterations, or additions to adjacent premises, or to show the Demised Premises to prospective purchasers, lessees, or lenders.

10.2. *"For Sale" or "For Lease" signs.* Landlord may place and maintain "For Rent" or "For Lease" signs on the Demised Premises during the last 90 days of the lease term. The signs shall not affect Tenant's obligations under Section 7.3, Article XI, or any other provision of this lease.

10.3. *Roof.* Landlord shall have exclusive use of the roof above the Demised Premises.

Article XI Signs, Store Fronts

11.1. Tenant shall not, without Landlord's prior written consent, (a) make any changes to the store front, (b) install any exterior lighting decorations, paintings, awnings, canopies, or the like, or (c) erect or install any signs, window or door lettering, placards, decorations or advertising media of a type which can be viewed from the exterior of the Demised Premises, excepting only dignified displays of customary type for its display windows. All signs, lettering, placards, decorations and advertising media shall conform in all respects to the sign criteria established by Landlord for the Shopping Center, from time to time, and be subject to its prior written approval as to construction, method of attachment, size, shape, height, lighting, color and general appearance. All signs shall be kept in good condition and in proper operating order at all times.

Article XII Utilities

12.1. *Utility conduits.* Landlord shall cause to be provided and maintained all necessary mains, conduits, and other facilities for the supply of water, gas, electricity, telephone service, and sewerage service to the Demised Premises.

2-Forms Federal Taxes Affecting Real Estate [C]

12.2. *Tenant expense.* Tenant shall promptly pay all charges for electricity, water, gas, telephone service, sewerage service, and other utilities furnished to the Demised Premises. Landlord may furnish one or more utility services to Tenant. In such event, Tenant shall purchase the use of all such services and pay on demand as additional rent the rates established for them by Landlord. The rates shall not exceed those that local public utility companies would charge for directly furnishing the same services. Landlord may at any time discontinue a service without obligation to Tenant other than to connect the Demised Premises to the public utility furnishing such service.

12.3. *Interrupted service.* Landlord shall not be liable for any interruption in utility services not furnished by it, or for interruptions in utility services furnished by it that are due to fire, accident, strike, acts of God, or other causes beyond its control or are necessary to make alterations, repairs, or improvements.

Article XIII Indemnity and Public Liability Insurance

13.1. *Release and indemnity.* Landlord shall not be liable to Tenant, its employees, agents, or visitors, or any other person for injury to person or damage to property on or about the Demised Premises or the Common Area, if: caused by the negligence or misconduct of Tenant, its employees, subtenants, licensees, or concessionaires, or any other person entering the Shopping Center under Tenant's express or implied invitation; arising out of Tenant's use of the premises and the conduct of its business therein; or arising out of a breach or default by Tenant in performing its obligations under this lease. Tenant shall indemnify Landlord and hold it harmless from and against all losses, expenses, or claims arising out of such damage or injury.

13.2. *Public liability insurance.* Tenant shall procure and maintain throughout the term of this lease a policy or policies of insurance, at its expense, insuring both Landlord and Tenant against all claims, demands, or actions arising out of or in connection with Tenant's use or occupancy of the Demised Premises or by the condition of the Demised Premises. Each policy shall have a limit of at least \$200,000 for injuries to or death of any one person, \$500,000 for any one accident or disaster, and \$100,000 for damage or destruction to property, and shall be written by an insurance company satisfactory to Landlord. Tenant shall obtain a written obligation from each insurance company that it will notify Landlord at least 10 days before the insurance is cancelled. The policies or duly executed certificates of insurance shall be promptly delivered to Landlord, and all required renewals thereof shall be delivered to Landlord at least 30 days before the respective policy terms expire. If Tenant fails to comply with the above requirements, Landlord may obtain the insurance. In that case, Tenant shall pay to Landlord on demand, as additional rent under this lease, the premium cost of the insurance plus interest at the maximum contractual rate (not to exceed 11/2 percent per month) from the date of payment by Landlord until repayment by Tenant.

Article XIV Nonliability for Certain Damages

14.1. Neither Landlord nor its agents or employees shall be liable to Tenant for any injury to person or damage to property caused by the Demised Premises or other portions of the Shopping Center becoming out of repair, by defect or failure of any structural element of the Demised Premises or of any equipment, pipes, or wiring, by broken glass, by the backing up of drains, or by gas, water, steam, electricity, or oil leaking, escaping, or flowing into the Demised Premises, except when due to Landlord's wilful failure to make required repairs within a reasonable time after it receives written notice that repairs are needed. Landlord also shall not be liable to Tenant for any loss or damage occasioned by or through the acts or omissions of other tenants of the Shopping Center or of other persons, other than Landlord's duly authorized employees and agents.

Article XV Damages by Casualty

15.1. *Notice.* Tenant shall give immediate written notice to Landlord of any damage caused to the Demised Premises by fire or other casualty.

15.2. *Repair or termination.* If the Demised Premises are damaged or destroyed by fire or other casualty insurable under standard fire and extended coverage insurance and Landlord does not elect to terminate this lease (as provided below), it shall proceed with reasonable diligence and at its expense to repair or rebuild the Demised Premises. Landlord may either terminate this lease or proceed to repair or rebuild the Demised Premises if: (a) the building in which the Demised Premises are located is destroyed or substantially damaged by a casualty not covered by Landlord's insurance; (b) the building is destroyed or made untenable to the extent of over 50 percent of the first floor area by a casualty covered by Landlord's insurance; or (c) the holder of a mortgage, deed of trust, or other lien on the Demised Premises at the time of the casualty elects, under such particular lien, that all or part of Landlord's insurance proceeds be used in satisfaction of all or part of the indebtedness secured by the lien. Landlord shall give written notice to Tenant of the election within 60 days after the casualty occurs. If Landlord elects to rebuild or repair it shall proceed to do so with reasonable diligence and at its expense.

15.3. *Restoration work.* Landlord's above obligation to rebuild or repair shall be limited to restoring (a) the Demised Premises to substantially the same condition as before the casualty, exclusive of any alterations, additions, improvements, fixtures, and equipment installed by Tenant; or (b) Landlord's work (if any) to substantially the same condition as before the casualty, as the case may be. Promptly after Landlord completes the work, Tenant shall proceed with reasonable diligence and at its expense to restore, repair, and replace all alterations, additions, improvements, fixtures, signs, and equipment installed by or belonging to Tenant.

15.4. *Store operation; rent abatement.* During any period of reconstruction or repair, Tenant shall continue to operate its business within the Demised Premises to the extent practicable. During the period from occurrence of the casualty until Landlord's completion of the repairs, the minimum guaranteed rental shall be reduced by an amount that is fair and reasonable under the circumstances. However, there shall be no abatement of the percentage rental or other charges provided for in this lease.

Article XVI Eminent Domain

16.1. *Substantial taking.* This lease shall terminate if more than 30 percent of the floor area of the Demised Premises is taken for any public or quasi-public use under a governmental law, ordinance, or regulation, or by right of eminent domain or by private purchase in lieu thereof. In any such case, the rent shall be abated during the unexpired portion of the lease, effective on the date the condemning authority takes physical possession.

16.2. *Partial taking.* This lease shall not terminate if less than 30 percent of the floor area of the Demised Premises is taken as provided in Section 16.1. However, the minimum guaranteed rental (but not percentage rental) payable during the unexpired portion of this lease shall be reduced in proportion to the area taken, effective on the date the condemning authority takes physical possession. Following the partial taking, Landlord shall make all necessary repairs or alterations to the remaining premises or within the scope of its work, as the case may be, to make the remaining portions of the Demised Premises an architectural whole.

16.3. *Common area.* If any part of the Common Area is taken as provided above, this lease shall not terminate and the rent payable hereunder shall not be reduced. However, either Landlord or Tenant may terminate this lease if the area of the Common Area following the taking plus any additional parking area provided by Landlord in reasonable proximity to the Shopping Center is less than 70 percent of the area of the Common Area immediately before the taking. Either party may evidence its election to terminate this lease by delivering written notice of termination to the other within 30 days after the condemning authority takes physical possession.

2-Forms Federal Taxes Affecting Real Estate [C]

16.4. *Condemnation proceeds.* All compensation awarded for any taking (or the proceeds of private sale in lieu thereof) of the Demised Premises or Common Area shall be the property of Landlord, and Tenant hereby assigns its interest in any such award to Landlord. However, Landlord shall have no interest in any separate award made to Tenant for its moving and relocation expenses or for the loss of its fixtures and other tangible personal property.

Article XVII Assignment and Subletting

17.1. *Consent required; non-waiver.* Tenant shall not assign or in any other manner transfer this lease or any estate or interest therein, sublet all or part of the Demised Premises, or grant a license, concession, or other right of occupancy of any portion of the Demised Premises without Landlord's prior written consent. Landlord's consent to one or more assignments or sublettings shall not operate as a waiver of its rights as to any subsequent assignment or subletting.

17.2. *Corporate stock transfers.* If Tenant is a corporation and at any time during the primary term (or any renewal or extension) of this lease the majority owner or owners of either the outstanding voting shares or all outstanding shares of Tenant's capital stock at the time of execution of this lease cease to own a majority of the shares (except as the result of transfers by devise or descent), the loss of majority status shall be deemed an assignment of this lease by Tenant and therefore subject in all respects to the provisions of Section 17.1. The previous sentence shall not apply, however, if at the time of execution of this lease the outstanding voting shares of Tenant's capital stock are listed on a recognized security exchange or over the counter market.

17.3. *No release; excess rent.* Notwithstanding any assignment or subletting, Tenant and any guarantor of its obligations under this lease shall remain fully responsible and liable for the payment of rent and compliance with all of its obligations hereunder (even if future assignments and sublettings occur after the assignment or subletting by Tenant, and regardless of whether Tenant's approval has been approved for them). Moreover, Tenant shall be bound and obligated to pay Landlord the following excess amounts: if the rental due and payable by a sublessee for both the sublease rental and any bonus or other consideration for or incident to it exceeds the rental payable under this lease; or, if respect to an assignment, license, or other transfer by Tenant permitted by Landlord, the consideration payable to Tenant by the assignee, licensee, or other transferee exceeds the rental payable under this lease. Tenant shall pay Landlord the excess rental and other excess consideration within 10 days after its receipt from the sublessee, assignee, licensee, or other transferee. If there is any assignment or subletting, Tenant shall receive all rentals paid to it by the assignee or sublessee in trust for Landlord, and shall forward the amounts immediately to Landlord without offset or reduction of any kind. Landlord may require Tenant to pay such rentals directly to it as specified in Section 4.1, in which case they shall be applied as a credit and offset to Tenant's rental obligations.

17.4. *Leasehold mortgages.* Tenant shall not mortgage, pledge, or otherwise encumber its interest in this lease or in the Demised Premises.

17.5. *Landlord assignment.* If Landlord assigns and transfers its interest in this lease and in the building containing the Demised Premises to a person expressly assuming its obligations under the lease, Landlord shall thereby be released from all further obligations hereunder, and Tenant shall look solely to Landlord's successor in interest for performance of the obligations. Landlord may assign and transfer to the successor in interest any security given by Tenant to secure performance of its obligations under this lease, and Landlord shall thereby be discharged of all further related obligations.

Article XVIII Taxes and Insurance

18.1. *Personal property taxes.* Tenant shall be liable for all taxes levied against personal property and trade fixtures placed by it in the Demised Premises. If the taxes are levied against Landlord or its property and it elects to pay them, or

2-Forms Federal Taxes Affecting Real Estate [C]

if the assessed value of Landlord's property is increased by inclusion of personal property and trade fixtures placed by Tenant in the Demised Premises and Landlord elects to pay the taxes based on the increase, Tenant shall pay to Landlord upon demand that part of the taxes for which Tenant is primarily liable under this lease.

18.2. *Real estate and general tax increases.* Except as provided in Sections 18.1 and 18.3, Landlord shall pay or cause to be paid all general real estate taxes, general and special assessments, parking surcharges, and other governmental charges (collectively "the general taxes") levied against the Shopping Center for each real estate tax year. However, if during any real estate tax year of the primary term (or its renewal or extension) of this lease the general taxes levied against the Shopping Center (or against the Demised Premises, if separately assessed) for that year exceed the general real estate taxes levied against the Shopping Center (or the Demised Premises) for the base real estate tax year, Tenant shall pay to Landlord upon demand, and in addition to the rentals and other charges prescribed in this lease, the entire increase attributable to the Demised Premises. The term "base real estate tax year" means the real estate tax year during which the Demised Premises were originally occupied by Tenant under this lease or any other property. However, if this lease requires Tenant to construct a new building, and Landlord's work on the building is completed more than 60 days after the initial date of a real estate tax year, "base real estate tax year" means the real estate tax year immediately following the one in which Landlord completes its work. The term "increase attributable to the Demised Premises" is defined in Section 18.5, except that if the Demised Premises are separately assessed in either the base real estate tax year or the subsequent year in question, or both, the computations in Section 18.5 shall be modified accordingly. Tenant's payment for the real estate tax year in which this lease terminates shall bear the same ratio to payment which would be required to be made for the full tax year as the number of days of the tax year which elapsed prior to termination of this lease bears to a full tax year.

18.3. *Rent or other taxes.* If at any time during the primary term of this lease or any renewal or extension thereof a tax or excise on rents or other tax however described (except any franchise, estate, inheritance, capital stock, income or excess profits tax imposed upon Landlord) is levied or assessed against Landlord by any lawful taxing authority on account of Landlord's interest in this lease or the rents or other charges reserved hereunder, as a substitute in whole or in part, or in addition to the general taxes described in Section 18.2, Tenant shall pay to Landlord upon demand, and in addition to the rentals and other charges prescribed in this lease, the amount of the tax or excise. If the tax or excise is levied or assessed directly against Tenant, it shall be responsible for and pay the tax or excise whenever and in the manner required by the taxing authority.

18.4. *Increases in insurance premiums.* If at any time during the primary term of this lease or its renewal or extension the premiums for liability insurance, fire and extended coverage insurance, or both, carried by Landlord covering the Shopping Center (the "insurance premiums") exceed the insurance premiums for the base insurance term, Tenant shall pay to Landlord upon demand, and in addition to the rentals and other charges prescribed in this lease, the entire increase attributable to the Demised Premises. The term "base insurance term" means the period commencing with the date the Demised Premises were originally occupied by Tenant under this lease or any prior lease (or, if later the date on which Landlord commenced to carry insurance on the Shopping Center) and ending on the date at which the amount of insurance premiums is increased from the amount at the commencement of the term. The term "increase attributable to the Demised Premises" is defined in Section 18.5 below. Tenant's payment for the insurance term in which this lease terminates shall bear the same ratio to the payment that would be required for the full insurance term as the number of days of the term that elapsed prior to termination of this lease bears to the full term.

18.5. *Formula for increase.* The amount of any increase of general taxes or insurance premiums attributable to the Demised Premises shall be computed in accordance with the following formula:

$$I = (A \times B + C \times D) \times F$$

"I" equals the dollar amount of any increase which is attributable to the Demised Premises; "A" equals the amount of

2-Forms Federal Taxes Affecting Real Estate [C]

general taxes or insurance premiums accruing during the period in question (prorated, if necessary, to provide a period of like duration to the base real estate tax year or base insurance term, as the case may be; "B" equals the total leaseable ground floor area of all buildings in the Shopping Center at the commencement of the period in question; "C" equals the amount of general real estate taxes or insurance premiums which accrued during the base real estate tax year or base insurance term; "D" equals the total leaseable ground floor area of all buildings in the Shopping Center either at the beginning of the base real estate tax year or base insurance term, or, if later, when Tenant originally occupied the Demised Premises; and "F" equals the total square feet included in the Demised Premises.

18.6. *Prepayment.* If at any time during the primary term of this lease or its renewal or existence Landlord has reason to believe that at some time within the immediately succeeding taxable month period, Tenant will owe Landlord a payment pursuant to one or more of the preceding sections of this Article XVIII, Landlord may direct that Tenant prepay monthly a pro rata portion of the prospective future payment (i.e., the prospective future payment divided by the number of months before the prospective future payment will be due). Any prepayment directed by Landlord shall be due and payable monthly on the same day that minimum guaranteed rental is due.

Article XIX Default by Tenant and Remedies

19.1. *Default and remedies.* The following events shall be deemed to be events of default by Tenant under this lease:

- (1) Tenant fails to pay any installment of rent or other obligation hereunder involving the payment of money and the failure continues for ten days after the date due.
- (2) Tenant fails to comply with any term, provision or covenant of this lease, other than as described in subsection (1) above, and does not cure the failure within 15 days after written notice thereof to Tenant.
- (3) Tenant or any guarantor of its obligations under this lease becomes insolvent, makes a transfer in fraud of creditors, or makes an assignment for the benefit of creditors.
- (4) Tenant or any guarantor of its obligations under this lease files a petition under any section or chapter of the National Bankruptcy Act, as amended, or under any similar federal or state law or statute, or Tenant or any guarantor of its obligations under this lease is adjudged bankrupt or insolvent in proceedings filed against Tenant or any guarantor of its obligations under this lease.
- (5) A receiver or Trustee is appointed for the Demised Premises or for all or substantially all of the assets of Tenant or of any guarantor of its obligations under this lease.
- (6) Tenant deserts or vacates, or commences to desert or vacate, all or a substantial portion of the Demised Premises, or removes or attempts to remove, without Landlord's prior written consent, all or a substantial portion of Tenant's goods, wares, equipment, fixtures, furniture, or other personal property.
- (7) Tenant does or permits to be done anything that creates a lien upon the premises.

If any of the above events of default occur, Landlord may pursue either of the following alternative remedies:

A. Without any notice or demand, Landlord may take any action or actions permissible at law to insure performance by Tenant of its covenants and obligations under this lease. If Tenant deserts or vacates the Demised Premises, Landlord may enter upon and take possession in order to protect them from deterioration and continue to demand from Tenant the monthly rentals and other charges provided in this lease, without any obligation to relet. Moreover, if Landlord elects to relet the Demised Premises, that action shall not be deemed an acceptance of Tenant's surrender of them unless

2-Forms Federal Taxes Affecting Real Estate [C]

Landlord expressly notifies Tenant otherwise in writing pursuant to subsection B below. Landlord shall otherwise be reletting as Tenant's agent. Tenant shall pay Landlord on demand any deficiency between the monthly rentals and other charges provided in this lease that are actually collected by Landlord. If there is any default described in subsection (2) of this Section, Landlord may enter upon the Demised Premises, by force if necessary, without being liable for prosecution or any claim for damages, and do whatever Tenant is obligated to do under this lease. Tenant shall reimburse Landlord on demand for all expenses incurred by it in effecting compliance with Tenant's obligations hereunder, and Landlord shall not be liable for resulting damages to Tenant.

B. Landlord may terminate this lease by giving written notice to Tenant. In such event, Tenant shall immediately surrender the Demised Premises to Landlord. If Tenant fails to do so, Landlord may, without prejudice to any other remedy it may have for possession or arrearages in rent (including any accrued interest under Section 4.6), enter upon and take possession of the Demised Premises and expel or remove, by force if necessary, Tenant and any other person who is occupying all or a portion of the premises without being liable for prosecution or any claim for damages. Tenant hereby waives any statutory requirement of prior written notice for filing eviction or damage suits for nonpayment of rent. In addition, Tenant shall pay to Landlord on demand all loss and damage suffered by it by reason of any termination effected under this subsection B. The loss or damage shall be determined by either of the following alternative measures of damages:

(i) Until Landlord is able, through reasonable efforts the nature of which shall be at its sole discretion, to relet the Demised Premises, Tenant shall pay to it, on or before the first day of each calendar month, the monthly rentals and other charges specified in this lease. After Landlord relets the Demised Premises, Tenant shall pay to it, on the 20th day of each calendar month, the difference between the monthly rentals and other charges for the preceding calendar month and the amount actually collected by Landlord for that month. If Landlord is required to bring suit in order to collect a deficiency, it may allow the deficiency to accumulate and bring an action on several or all of the accrued deficiencies at one time. Such suit shall not prejudice in any way Landlord's right to bring a similar action for subsequent deficiencies. If the amount collected by Landlord from subsequent tenants for a calendar month exceeds the monthly rentals and other charges, the excess shall be credited to Tenant in reduction of its liability for any calendar month for which the amount collected is less than the monthly rentals and other charges. However, Tenant's right to the excess is limited to the above described credit.

(ii) Landlord may demand a final settlement at any time. Upon such demand, Tenant shall pay the difference between the monthly rentals and other charges provided in this lease for the remainder of the term and the reasonable rental value of the Demised Premises for that period. The difference shall be discounted to present value at the rate of interest agreed on by the parties, or, if there is no such agreement, at the rate allowed by law in the state designated by Section 28.9 (or, if there is no such law, at the rate of 12 percent per annum).

Landlord's election to exercise the remedy prescribed above in subsection A shall in no way prejudice its right at any later time to cancel the election in favor of the remedy provided in subsection B, if at the time of cancellation Tenant is still in default. Similarly, Landlord's election to compute damages in the manner prescribed above by subsection B(i) shall in no way prejudice its right at any later time to demand a final settlement in accordance with subsection B(ii). Pursuit of any of the above remedies shall not preclude pursuit of any other remedy provided elsewhere in this lease or by law. Landlord's forbearance to enforce any remedy provided herein upon an event of default shall not be deemed to constitute a waiver of the default.

19.2. *Other charges.* In determining "the monthly rentals and other charges provided in this lease," as that term is used in subsections A and B of Section 19.1, the minimum guaranteed rental (as specified in Section 1.1(j)) shall include the following: charges for maintenance of the Common Area (as specified in Section 6.4); charges for taxes and insurance (as specified in Article XVIII); and 1/2 percent of all percentage rentals required to be paid by Tenant (under Sections 4.3 and 4.4) because of gross sales during the two full calendar years immediately preceding the date Landlord initiated action under subsections A and B (or, if two full calendar years have not then elapsed, the minimum guaranteed rental

shall include the corresponding fraction of all percentage rentals required to be paid because of gross sales during the period from the Commencement Date of this lease to the date on which Landlord initiated the action).

19.3. *Landlord expenses.* In addition to the payments required by subsections A and B of Section 19.1, Tenant shall compensate Landlord for the following: all expenses incurred by Landlord in repossession (including any increase in insurance premiums caused by the vacancy of the Demised Premises), and in reletting (including repairs, remodeling, replacements, advertisements, and brokerage fees); all concessions granted to a new tenant upon reletting (including renewal options); all leases incurred by Landlord as a direct or indirect result of Tenant's default (including any adverse reaction by Landlord's mortgagee or by other tenants or potential tenants of the Shopping Center); and a reasonable allowance for Landlord's administrative efforts, salaries, and overhead attributable directly or indirectly to Tenant's default and Landlord's pursuing the rights and remedies provided under this lease and applicable law.

19.4. *Injunction; cumulative remedies.* Landlord may restrain or enjoin any breach or threatened breach of Tenant's covenants, duties, and obligations under this lease without having to prove the inadequacy of any legal remedy or irreparable harm. Landlord's remedies under this lease shall be deemed cumulative and not exclusive.

19.5. *Attorney's fees.* If Landlord is required, on account of a breach or default by Tenant in any obligation under this lease, to hire an attorney to present, enforce, or defend Landlord's rights or remedies under the lease, Tenant shall pay all reasonable attorney's fees incurred by Landlord in that connection.

19.6. *Security deposit.* Landlord hereby acknowledges receipt from Tenant of the sum stated in Section 1.1(m) (prepaid rental), to be applied to the first accruing installments of rent. Landlord further acknowledges receipt from Tenant of the sum stated in Section 1.1(n) (security deposit), to be held without interest as security for Tenant's performance of its covenants and obligations under this lease. The security deposit may be co-mingled with Landlord's other funds; it is not an advance payment of rental or a measure of Landlord's damages in case of Tenant's default. Whenever an event of default by Tenant occurs, Landlord may, without prejudice to any other remedy provided in this lease or by law, use the fund to the extent necessary to make good all arrears of rentals and other damage, injury, expense, or liability caused to it by the event of default. Tenant shall pay to Landlord on demand the amount so applied in order to restore the security deposit to its original amount. If Tenant is not then in default, Landlord shall return to Tenant the remaining balance of the deposit upon termination of this lease (subject to the provisions of Section 17.5).

Article XX Landlord's Contractual Security Interest

20.1. In addition to the statutory Landlord's lien, Landlord shall have at all times a valid security interest to secure payment of all rentals and other sums of money becoming due from Tenant under this lease, as well as all damages or loss which Landlord may suffer by reason of Tenant's breach of any covenant, agreement, or condition. Landlord's security interest shall be upon all of Tenant's goods, wares, equipment, fixtures, furniture, improvements, and other personal property presently or subsequently situated on the Demised Premises. Tenant shall not remove the property without Landlord's consent until it pays and discharges all arrearages in rent and other sums of money then due or to become due to Landlord and fully complies with and performs all of its covenants, agreements, and conditions. Whenever an event of default by Tenant occurs, Landlord may, in addition to any other remedy provided herein, enter upon the Demised Premises and take possession of all of Tenant's goods, wares, equipment, fixtures, furniture, improvements, and other personal property situated on the premises, without liability for trespass or conversion. Landlord may sell the property at public or private sale, regardless of whether it has the property there, after it gives Tenant reasonable notice of the time and place of sale. Landlord or its assigns may, unless otherwise prohibited by law, purchase any property at the sale. Unless otherwise provided by law, and without intending to exclude any other manner of giving Tenant reasonable notice, the requirement of reasonable notice shall be met if notice is given in the manner prescribed in this lease at least seven days before the time of sale. Any sale made under this paragraph shall be deemed to be a public sale conducted in a commercially reasonable manner if held in the above-described premises or where the

2-Forms Federal Taxes Affecting Real Estate [C]

property is located after the time, place, and method of sale and a general description of the types of property to be sold are advertised in a daily newspaper published in the county in which the property is located, for five consecutive days before the date of sale. The proceeds of the sale, less all expenses connected with the taking of possession, holding, and selling of the property (including reasonable attorney's fees and legal expenses), shall be applied as a credit against the indebtedness secured by the security interest granted in this paragraph. Any surplus shall be paid to Tenant or as otherwise required by law, and Tenant shall immediately pay all deficiencies. At Landlord's request, Tenant shall execute and deliver to it a financing statement in form sufficient to perfect Landlord's security interest in the above property and sales proceeds under the applicable provisions of the Uniform Commercial Code (or corresponding state statute) in the state in which the property is located, as well as under any other state law that Landlord considers to be applicable.

Article XXI Holding Over

21.1. If Tenant remains in possession of the Demised Premises after this lease expires and without executing a new lease, it shall be deemed to be occupying them as a tenant from month to month at a rental equal to 150 percent of the rental (including percentage rental) provided herein. Tenant shall also be subject to all the conditions, provisions, and obligations of this lease to the extent they are applicable to a month to month tenancy.

Article XXII Subordination

22.1. *Subordination.* Tenant accepts this lease subject and subordinate to any existing or subsequent mortgage, deed of trust, or other lien, or its renewal or extension, upon the Demised Premises or the Shopping Center as a whole. The mortgagee may at any time subordinate the mortgage, deed of trust, or other lien to this lease. However, notwithstanding that this lease may be (or made to be) superior to the mortgage, deed of trust, or other lien, the provisions of that lien relative to the mortgagee's rights with respect to proceeds arising from an eminent domain taking (including a voluntary conveyance by Landlord) or insurance payable by reason of damage to or destruction of the Demised Premises shall be prior and superior to contrary provisions in this instrument regarding the payment or usage thereof. Landlord shall have full and irrevocable power and authority to subordinate this lease to any future mortgage, deed of trust, or other lien placed upon the Demised Premises or the Shopping Center as a whole, and Tenant shall upon demand execute all further instruments requested by Landlord subordinating this lease. However, Landlord shall, upon Tenant's written request and notice to it, use good faith efforts to obtain the mortgagee's written agreement that Tenant's rights shall remain in full force and effect during the term of this lease so long as Tenant continues to recognize and perform all of its covenants and conditions.

22.2. *Tenant remedies.* Whenever the holder of an indebtedness secured by an outstanding mortgage, deed of trust, or other lien covering Landlord's interest in the Demised Premises gives Tenant written notice of its interest in this lease, Tenant may not exercise any remedies for Landlord's default until the holder receives written notice of the default and a reasonable time for curing the default has elapsed.

Article XXIII Merchants Association

23.1. If Landlord organizes a merchants association composed of tenants in the Shopping Center, Tenant shall join and maintain membership in the association, pay all dues and assessments fixed and determined by it, and comply with all its other bylaws, rules, and regulations.

Article XXIV Radius Restriction

2-Forms Federal Taxes Affecting Real Estate [C]

24.1. Tenant acknowledges that its monetary contribution to Landlord (in the form of rentals) and its general contribution to commerce within the Shopping Center (also important in Landlord's determination to execute this Lease with Tenant) will be substantially reduced if, during the term of this lease, either Tenant or any other person, firm, or corporation directly or indirectly controlling, controlled by, or under common control with it directly or indirectly operates, manages, conducts, or has any interest in any establishment within commercial proximity of the Shopping Center. Accordingly, during the term of this lease, neither Tenant nor any of the above persons (and also, if Tenant is a corporation, any officer or director or shareholder owning more than 10 percent of its outstanding stock, or any parent, subsidiary, related, or affiliated corporation) shall directly or indirectly operate, manage, conduct, or have any interest in any commercial establishment within three miles of the Shopping Center. However, any commercial establishment existing at the date of this lease may continue to be operated, managed, conducted, and owned in the same manner as at that date, if there is no change in its size or trade name.

Article XXV Notices

25.1. *Written notice.* Any notice required or permitted under this lease shall be in writing. The notice, or any other required or permitted document, shall be deemed to be delivered when actually received by the designated addressee, or, if earlier (and regardless of whether actually received), when deposited in the United States Mail, postage prepaid, Certified Mail, Return Receipt Requested. The notice or document shall be addressed to the parties at their respective addresses set forth in Section 1.1 (or, if Landlord so elects, to Tenant at the Demised Premises), or at any other address previously specified by them by written notice.

25.2. *Agent for notice purposes.* Whenever the term "Landlord" or "Tenant" is used in this instrument to include more than one person, firm, or corporation, all such parties shall arrange for the joint execution of the notice and specify an individual and address for the receipt of notices and payments to Landlord or Tenant, as the case may be. All parties included within the terms "Landlord" and "Tenant," respectively, shall be bound by notices and payments given in accordance with the provisions of this Article to the same effect as if each had received the notice or payment.

Article XXVI Commissions

26.1. Landlord shall pay its Agent, Marshall Development Associates ("Agent"), a commission for negotiating this lease. Agent's right to receive the commission (and rentals as provided in Section 4.1 for deduction of applicable commissions before forwarding to Landlord) shall irrevocably vest upon the execution of this lease, notwithstanding any subsequent default by Landlord or Tenant or any amendment, modification, or termination of this lease. Landlord also shall pay Agent additional commissions on all renewals, extensions, holdovers, new leases, or rental agreements (as long as Tenant continues to occupy all or a portion of the Demised Premises), as well as expansions or substitutions of lease space within the Shopping Center, made by Landlord with Tenant or its subtenants or assignees. Landlord shall pay all of the commissions to Agent at its principal office in Dallas, Texas. The commissions shall be six percent of guaranteed minimum and percentage rental, as well as other fees and charges due over the term of this lease. In addition, if Tenant or any assignee or subtenant purchases the Demised Premises (separately or together with all or a portion of the Shopping Center) under a contract entered into at any time before the tenth year of this lease, Landlord shall pay to Agent an additional sales commission of six percent of the gross sales price for the property purchased. Agent shall be granted a lien against Landlord's entire interest in the Shopping Center property to secure payment of the commissions (including not only the original commission payable hereunder, but also all additional commissions that may later become payable by reason of renewals, new leases, rental agreements, sales, or otherwise). Agent's lien shall be subordinate to Tenant's rights under this lease (except for Agent's rights as provided in the preceding sentence), but shall be prior and superior, except as provided in the following sentence, to subsequent liens created against the Shopping Center. Agent's lien shall be subordinate and inferior to all liens in favor of banks, insurance companies, building and loan associations, and similar regulated financial institutions ("institutions") securing indebtedness.

2-Forms Federal Taxes Affecting Real Estate [C]

incurred for the purpose of acquiring the Shopping Center or constructing, repairing, rebuilding, or remodeling buildings and other improvements on it, if the institutions recognize Agent's rights under this lease and acknowledge that the rights will be preserved in any foreclosure or similar proceeding. The above provisions shall be binding upon Landlord and its heirs, personal representatives, assigns, and successors in interest, and inure to the benefit of Agent and its successors in interest. If Landlord makes an assignment of this lease or there is a sale of all or a portion of the Demised Premises, Landlord and the assignee or purchaser, and their respective assigns and successors, shall be jointly and severally liable for all commissions due or to become due under this lease. However, if Landlord causes the assignee or purchaser to assume and agree to perform, in writing delivered to Agent before the transfer, Landlord's covenants, duties, and obligations under this section, Landlord shall be released whenever the assignee or purchaser commences performance under the assumption. If Agent employs an attorney to present, enforce, or defend its rights hereunder, the party against whom the rights are presented, enforced, or defended shall pay all reasonable attorney's fees incurred by Agent in that connection.

Article XXVII Government Regulations

27.1. *Government regulations.* Landlord and Tenant acknowledge that there are in effect federal, state, county, and municipal laws, orders, rules, directives, and regulations (collectively the "Regulations") and that additional Regulations may hereafter be enacted or go into effect, relating to or affecting the Demised Premises or the Shopping Center, and concerning the impact on the environment of construction, land use, maintenance and operation of structures, and conduct of business. Subject to the express rights granted to Tenant under the terms of this lease, Tenant will not cause, or permit to be caused, any act or practice, by negligence, omission, or otherwise, that would adversely affect the environment, or do anything or permit anything to be done that would violate any of the laws, regulations, or guidelines. Moreover, Tenant shall have no claim against Landlord by reason of any changes Landlord may make in the Shopping Center or the Demised Premises or any charges imposed upon customers or other invitees under the Regulations.

27.2. *Rent freeze.* If the payment to, or collection by, Landlord of any rental or other charge (collectively "Lease Payments") payable by Tenant under the provisions of this lease exceeds the amount (the "Maximum Charge") permitted by any federal, state, county or municipal law, order, rule, directive, or regulation (collectively the "Regulations"), then while the Regulations are in force and effect (the "Freeze Period"), Tenant shall not be required to pay, and Landlord shall not be permitted to collect, any sum in excess of the Maximum Charge." Upon the earlier of (i) the expiration of the Freeze Period, or (ii) the issuance of a final order or judgment of a court of competent jurisdiction declaring the Regulations to be invalid or not applicable to the provisions of this lease, Tenant, to the extent not then proscribed by law and commencing with the first day of the next month, shall pay to Landlord as additional rental, in equal monthly installments during the balance of the lease term, an amount equal to the cumulative difference between the Maximum Charges and the Lease Payments during the Freeze Period. If any provision of this lease, or its application, is to any extent declared to be invalid and unenforceable, that shall not be deemed to affect any other provision of this section or lease; the remaining provisions shall be deemed valid and enforceable to the fullest extent permitted by law.

Article XXVIII Miscellaneous

28.1. *Relationship of parties.* Nothing contained in this lease shall be deemed or construed by the parties, or by a third party, to create the relationship of principal and agent, of partnership, or of joint venture between them. No provision contained herein, including the method of computation of rent, and no acts of the parties shall be deemed to create any relationship between them other than the relationship of landlord and tenant.

28.2. *Separate rent obligation.* Tenant shall not for any reason withhold or reduce its required payments of rentals and other charges. Landlord's obligations under this lease are independent of Tenant's obligations, except as expressly

2-Forms Federal Taxes Affecting Real Estate [C]

provided otherwise. In this regard, if Landlord commences proceedings against Tenant for nonpayment of rentals or any other sum due and payable under this lease, Tenant shall not interpose any counterclaim or other claim against Landlord. If Tenant does so, Landlord may, in addition to its other lawful remedies, move to have the counterclaim or other claim severed out of the proceedings. The proceedings may then proceed to final judgment separately and apart from, and without consolidation with or reference to, the status of the counterclaim or other claim.

28.3. *No recourse.* Landlord's liability to Tenant for any default under this lease shall be limited to the sale proceeds on execution of Landlord's interest in the Demised Premises. Landlord shall not be personally liable for any deficiency, except that it shall, subject to the provisions of Section 17.5, remain personally liable to account to Tenant for any security deposited hereunder. This clause shall not be deemed to limit or deny any remedy, which does not involve Landlord's personal liability, that Tenant may have in case of Landlord's default.

28.4. *Consent discretionary.* Except as otherwise provided in this lease, whenever prior consent or permission of Landlord or Tenant ("first party") is required before the other party ("second party") is authorized to take a particular type of action, the decision to do so shall be within the sole discretion of the first party. This decision shall not constitute a breach under the lease, or a defense by the second party to its performance of any covenant, duty, or obligation hereunder that the first party delayed or withheld the granting of consent or permission, whether or not the decision to do so was, in the second party's opinion, prudent, reasonable, or based on good cause.

28.5. *Non-waiver.* A waiver by either party of one or more covenants, terms, or conditions of this lease shall not be construed as a waiver of a subsequent breach of the same covenant, term, or condition. The first party's consent to or approval of any act by the second party shall not be deemed to waive or render unnecessary consent to or approval of any subsequent similar act.

28.6. *Delays beyond Landlord's control.* Whenever a provision of this lease prescribes a time period for Landlord to take action, it shall not be liable or responsible for, and there shall be excluded from the computation of that period, all delays due to strikes, riots, acts of God, shortages of labor or materials, war, governmental laws, regulations, restrictions, or other causes that are beyond Landlord's reasonable control.

28.7. *Estoppel certificate.* Tenant shall, at Landlord's request, execute and deliver to it a statement in recordable form certifying that the lease is unmodified and in full force and effect (or if there have been modifications, that they are in full force and effect).

28.8. *Sublease obligations.* If this lease is in fact a sublease, Tenant accepts it subject to all of the terms and conditions of the underlying lease under which Landlord holds the Shopping Center as lessee. Tenant shall do no act or thing that would constitute a violation by Landlord of its obligation under the underlying lease. However, Tenant's agreement in this regard is premised on Landlord's assurances that the terms of this lease do not violate the underlying lease.

28.9. *Governing law; partial validity; venue.* The interpretation, validity, performance, and enforcement of this lease shall be governed by the laws of the State of Texas. If any provision is held to be invalid or unenforceable, the validity and enforceability of the remaining provisions shall not be affected thereby. Venue for any action under this lease shall be in the county in which rentals are due under Sections 4.1 and 4.4.

28.10. *Headings.* Headings in this lease are for convenience and reference only and shall not be used to limit, amplify, or otherwise construe its provisions.

28.11. *Number; gender.* Whenever used in this lease, the singular number shall include the plural, and words of any gender shall include each other gender.

28.12. *Binding effect.* The terms, provisions, and covenants of this lease shall be binding upon and inure to the benefit

2-Forms Federal Taxes Affecting Real Estate [C]

of both parties and their respective heirs, successors in interest, and legal representatives, except as otherwise expressly provided herein.

28.13. *Modification; entire agreement.* This lease contains the entire agreement between the parties. No other agreements shall be effective to change, modify, or terminate this lease, in whole or in part, unless in writing and duly signed by both parties. Each party acknowledges that it is not relying on any representation or promise of the other, or of the Agent or Cooperating Agent, except as expressly set forth herein.

28.14. *Counterparts.* This lease may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

28.15. *Contents.* This lease consists of 28 Articles and _____ attached pages, including Exhibit A through _____ (any space left blank will be deemed to have been completed with the word "none"). Except for Article VI, if any provision of an exhibit or other attached page is inconsistent with a provision in the body of the lease, the provision in the exhibit shall be deemed to control.

Executed as of December 31, 2001.

C.5 Office space lease--building under construction--procedure for tenant work

COMMENT

Although this lease contains special provisions which are specifically applicable to the lease of office space in a building that is under construction, leases generally provide that occupancy of the premises is not to commence until a future date, for a variety of reasons. Thus, the premises may be occupied by an existing tenant who is not required to move until a future date, or the premises may have to be redesigned in order to meet the specific requirements of the new tenant, etc. Accordingly, the comprehensive nature of this lease renders it suitable as a basic model for an office lease which must provide for these common occurrences.

For further information, see Chapter 4.

INDENTURE OF LEASE made June 24, 2001, between Melville Building Company, a New York limited partnership, having its office at 20 Victor Place, New York, New York 10004 ("Landlord"), and Page & Company, Inc., a Delaware corporation duly qualified to do business in the State of New York, and having its principal office at One Trafalgar Plaza, New York, New York 10005 ("Tenant").

Article I Premises; Term

Section 1.01. Landlord leases to Tenant and Tenant hires from Landlord the following space in the building to be constructed substantially in accordance with plans, as modified to this date, on file in Landlord's office and available for inspection by Tenant, in the Borough of Manhattan, City, County and State of New York, known as Melville Plaza (the "Building"):

The 19th, 20th, 21st, and 22nd Floors,

As set forth in the floor plan annexed hereto as "Exhibit A" (the "Demised Premises").

The Demised Premises are leased together with the appurtenances, including the right to use in common with others the lobby, public entrances, public stairways, public elevators (except elevators specifically assigned for the exclusive use of other tenants of the Building), and other public portions of the Building.

To Have and to Hold the Demised Premises unto Tenant for the term of 16 years. If the Commencement Date (defined in Section 2.01) is not the first day of a month, the term shall include the number of days from the Commencement Date to the last day of the month. The term shall commence on the Commencement Date and end, unless terminated sooner, on the last day of the month which includes the 16th anniversary of the Commencement Date. This Lease shall yield and pay the rents and additional rents set forth below, all on the covenants, conditions, and agreements stated therein. Promptly after the Commencement Date, Landlord and Tenant shall execute an agreement in recordable form (the "Commencement Date Agreement"), stating among other things the commencement and termination dates of this Lease.

Article II Commencement of Term

Section 2.01. *Commencement date.* The term of this Lease and the payment of rent hereunder shall commence on the date the Demised Premises are substantially completed ("Commencement Date"). The Demised Premises or any Occupancy Unit (as defined below) shall be deemed substantially completed when the following are done: Landlord procures either a temporary or permanent Certificate of Occupancy permitting occupancy of the Demised Premises or Occupancy Unit for the purposes provided herein; Landlord substantially performs the work and additional work

2-Forms Federal Taxes Affecting Real Estate [C]

required of it in Exhibit "B;" Landlord puts in operating condition for Tenant's permitted use under Article IV the Building's service facilities and systems serving the Demised Premises or the Occupancy Unit, including the elevators, air-conditioning, heating, lighting, water supply, and sewage systems; the exterior of the Building is substantially completed and enclosed; the lobby of the Building is substantially completed and reasonably free of debris and construction materials so as to be reasonably usable for egress and ingress; reasonable access is available to the Demised Premises or Occupancy Unit; and Landlord cleans the Demised Premises or Occupancy Unit and otherwise renders them in new and reasonably unblemished condition, excluding anything caused by Tenant, or its agents, servants, contractors, or employees. This work shall include but not be limited to the following:

- (i) Tile floors wet mopped, waxed, and buffed;
- (ii) Walls and partitions cleaned and all damaged places filled and touched up;
- (iii) All glass cleaned both sides;
- (iv) Toilet fixtures cleaned and polished;
- (v) Trash, dirt, and leftover materials removed from the Demised Premises, excluding anything caused by Tenant. "Operating condition," as applicable to air-conditioning and heating, shall include balancing, but Landlord shall only be required, at such time, to balance the system necessary for the then season.

Section 2.02. *Notice of completion.* Landlord shall give Tenant at least 30 days' prior written notice of the anticipated date of substantial completion of the work to be performed in the Demised Premises in Landlord. Tenant may enter the premises as provided in Exhibit "B," but nothing contained herein shall impose any liability upon Landlord for the care, maintenance, or preservation of Tenant's property. Landlord shall notify Tenant promptly if the substantial completion date is delayed after Landlord gives notice. In that case Landlord shall give Tenant at least five days' prior written notice of the anticipated postponed date of substantial completion. Further postponements shall also require at least five days' prior written notice.

Section 2.03. *Staggered completion.* (a) The parties recognize that the work to be performed by Landlord will be completed in stages. Accordingly, it is the parties' intention that Tenant will take occupancy of various portions of the Demised Premises at different times before the Commencement Date. Tenant shall, on or before March 1, 2002, give notice to Landlord:

(1) Advising it which floor or floors (but not exceeding three full floors in any Occupancy Unit) of the Demised Premises Tenant desires to occupy at or about the same time as the Commencement Date (collectively, an "Occupancy Unit"), and which full floor or floors Tenant does not desire to occupy before that date; and

(2) Setting forth a practicable sequence for the completion of Landlord's work with respect to the various Occupancy Units. The sequence shall be subject to Landlord's approval, which it shall not unreasonably withhold. Nothing in this subsection shall be deemed to obligate Landlord to complete its work with respect to any one or more Occupancy Units by any fixed date before the Commencement Date.

(b) Tenant may use and occupy each Occupancy Unit on a date (the "Earlier Completion Date") fixed by Landlord in a notice to Tenant. This date shall be at least 30 days after the date of Landlord's notice. Landlord's notice shall state that:

(1) The New York City Department of Buildings has or will have issued a temporary or permanent Certificate (or Certificates) covering the Occupancy Unit; and

(2) Landlord has, or before the Earlier Completion Date fixed in the notice will have, substantially completed

Landlord's work with respect to the Occupancy Unit.

Any such use or occupancy shall be deemed to be under all the terms, covenants, and conditions of this Lease, except as provided below in this subsection. Tenant shall pay rent for each Occupancy Unit for the period starting with the Earlier Completion Date for that Unit (or from any earlier date on which Tenant uses or occupies the Occupancy Unit to conduct its business) and ending with the date immediately preceding the Commencement Date. Rent for that period shall be equitably apportioned on the basis of the rentable area of the Occupancy Unit and the rent for the Demised Premises as set forth in Article III, Section 3.01. Rent for each Occupancy Unit shall be payable at the end of each month following the Unit's respective Completion Date (or any earlier date on which Tenant uses or occupies the Occupancy Unit to conduct its business) until the Commencement Date.

Section 2.04. *Possession; substantial completion.* If Tenant takes possession of any Occupancy Unit or of the entire Demised Premises, either fact shall be conclusive evidence, as against Tenant, that, at the time of taking, Landlord substantially completed its work on the Occupancy Unit or the Demised Premises, as the case may be, as required in Exhibit "B." Within 10 business after the Commencement Date, a representative of both parties shall survey the Demised Premises for the purpose of determining which items of Landlord's work remain to be completed, which they shall reduce to an itemized agreed "punch" list. Landlord shall complete these items within a reasonable time thereafter.

Section 2.05. *Site representatives.* Landlord and Tenant will each give full cooperation in having available at the job all persons who are necessary to settle problems arising out of job conditions.

Section 2.06. *Contractor's office, plans.* Landlord or its general contractors shall maintain an office in or near the Building. They shall at all times during the construction of the Building and the finishing of the Demised Premises have available in the office for Tenant's use a complete set of plans, drawings (including shop drawings), specifications pertaining to the work, and construction schedules. Moreover, they shall furnish to Tenant at its request copies of the plans, drawings, specifications, and construction schedules for the Demised Premises.

Section 2.07. *Tenant-caused delay.* If the occurrence of any condition specified in Section 2.01 is delayed due to any act or omission of Tenant, or of its agents, employees, or contractors, the Demised Premises shall be deemed ready for occupancy on the day they would have been ready but for the delay. For this purpose, a delay shall include:

(a) Delay in submission of Tenant's plans or specifications or giving authorizations or approvals required for the preparations for or execution of Landlord's work;

(b) Delay due to:

(1) Changes made by or on behalf of Tenant in its plans or in Landlord's work;

(2) Postponement by Landlord of any work, either at Tenant's request or because Tenant must perform work on a particular item or items before Landlord does so (and Landlord agrees to give Tenant notice of the delay and all additional costs resulting from it before commencing or postponing the work);

(3) Any other interference by Tenant or its agents, servants, or employees, with Landlord's work in the Demised Premises or the building.

Section 2.08. *Delay expenses.* If Landlord sustains additional costs or damages as a result of any delay by Tenant under this Article, Tenant shall pay to Landlord (in addition to the rent payable as a result of the acceleration of the Commencement Date, as provided above) all reasonable costs and damages sustained by Landlord as a result of the delay.

2-Forms Federal Taxes Affecting Real Estate [C]

Section 2.09. *Completion deadline.* If neither the Commencement Date nor any Earlier Completion Date occurs by June 30, 2002, or an extended date as provided in this Section, Tenant may cancel and terminate this Lease and the Demised Term. It shall do so by giving notice of cancellation and termination within 30 days after June 30, 2002, or the extended date. Upon giving of notice, this Lease and the Demised Term shall expire and come to an end, and both parties shall be released and discharged of and from all further liability under the Lease. However, Tenant shall remain liable for the cost of any work performed by Landlord at Tenant's request. Time is expressly declared to be of the essence with respect to any such notice of cancellation and termination. Tenant may not give any notice after expiration of the above 30-day period, and any such notice shall have no force or effect. If Tenant fails to give the required timely notice, or if it uses or occupies any part of the Demised Premises to conduct its business, the Demised Term shall commence in accordance with the provisions of Section 2.01, and Tenant shall have no further right under this Section to cancel and terminate this Lease. Landlord may extend the June 30, 1990 date, set forth in this Section, by a period equal to the total of:

(a) The number of days which have elapsed between the date on which Tenant is required to submit a plan to Landlord under the provisions of Exhibit "B," and the date on which Tenant submits the plan; plus

(b) The number of days of delay (or delays) in substantial completion of Landlord's work due to Tenant's delay (or delays) in submitting any other plans or specifications, in supplying information, in approving plans, specifications, or estimates, or in giving authorizations; by reason of any additional Work, as defined in Exhibit "B," designated by Tenant, or any changes by Tenant in designations previously made by it, under Exhibit "B;" or by reason of any other similar act or omission of Tenant.

Article III Rent

Section 3.01. *Rent payments.* During the term of this Lease, Tenant shall pay to Landlord a fixed annual minimum rent of \$900,000. Rent shall be payable in equal monthly installments, in advance on the first day of each month during this Lease term, at Landlord's office or any other place designated by it, without any set-off or deduction. Tenant shall pay the rent and all other payments deemed under this Lease to be additional rent by check drawn on any bank which is a member of the New York Clearing House. The check shall be payable in lawful money of the United States which, at the time of payment, is legal tender for the payment of public and private debts (Landlord to accept the check subject to collection). If the Commencement Date is not the first day of a calendar month, Tenant shall pay to Landlord, on the Commencement Date, a fraction of the equal monthly installment, the numerator of which is the number of days from the Commencement Date to the end of the calendar month in which that date occurs, and the denominator of which is the total number of days in the calendar month. This payment shall represent the pro rata rent from the Commencement Date to the end of the calendar month.

Section 3.02. *Additional rent.* All costs, charges, and expenses that Tenant assumes, agrees to, or is obligated to Landlord under this Lease and the annexed schedules, shall be deemed additional rent. In the event of nonpayment, Landlord shall have the same rights and remedies with respect to the additional rent as is provided for herein in case of nonpayment of rent. Tenant shall pay Landlord the rent, additional rent, and adjustments of rent provided for in this Lease, when due and without notice or demand, at the time and in the manner specified herein.

Article IV Use

Section 4.01. *Office use; density.* Tenant shall use and occupy the Demised Premises for the general office activities (excluding, however, a cafeteria, computer operations, general records storage, or operations of similar scope) of its executive, administrative, and sales personnel, or those of its assignees or subtenants, permitted under Article XI. The Demised Premises shall not be used for any other purpose. The number of persons per floor shall not exceed one person

2-Forms Federal Taxes Affecting Real Estate [C]

for each 100 square feet.

Section 4.02. *Adverse use.* Tenant shall not suffer or permit the Demised Premises or any part of them to be used in any manner, anything to be done in them, or anything to be brought into or kept in them, that would in any way:

- (i) violate any public law or requirement;
- (ii) cause structural injury to the Building or any part of it;
- (iii) interfere with the normal operations of the Building's heating, air-conditioning, ventilating, plumbing, or other mechanical or electrical systems, or of its elevators;
- (iv) constitute a public or private nuisance; or
- (v) alter the appearance of the Building's exterior or of any portion of its interior other than the Demised Premises.

Section 4.03. *Prohibited uses.* The use of the Demised Premises for the purposes specified in Section 4.01 shall not in any event be deemed to include, and Tenant shall not use, or permit the use of, the Demised Premises or any part thereof for:

- (a) Sale at retail of any products or materials (except for sale of beverages or food to Tenant's employees, only, through vending machines);
- (b) The conduct of a public auction of any kind;
- (c) The conduct of a commercial bank, trust company, savings bank, safe deposit, savings and loan association or bank, or any branches of any of the foregoing or a loan company business (except for the conduct of a credit union or benefit plan for Tenant's employees and except as incident to Tenant's business);
- (d) The issuance and sale of traveler's checks, foreign drafts, letters of credit, foreign exchange or domestic money orders (except as incidental to Tenant's business);
- (e) The receipt of money for transmission (except as incidental to Tenant's business).

Section 4.04. *Continued occupancy.* (a) Tenant acknowledges that the continued occupancy of the Demised Premises by Tenant or its assignees or subtenants permitted under Article XI, and the regular conduct of business therein by Tenant or its assignees or subtenants are of the utmost importance to the Landlord in the renewal of other leases of portions of the Building, in the renting of vacant space in the Building, in the providing of electricity, air-conditioning, steam, and other services to the Building's tenants, and in the maintenance of the character and quality of the Building's tenants. Tenant, therefore, except as otherwise provided in this Section or in Articles VI, X, XI, XIV, and XV, or when prevented by strikes or other labor troubles or generally applicable laws or public regulations, shall occupy the entire Demised Premises and conduct its business therein in the regular and usual manner, throughout the term of this Lease. Tenant acknowledges that Landlord is executing this Lease in reliance upon these covenants, and that they are a material element of consideration in inducing Landlord to execute it. If at any time during this Lease term Tenant vacates the entire Demised Premises, except in the case of constructive eviction or as otherwise permitted by law, or fails to so conduct its business therein, without Landlord's prior written consent, except as permitted by Articles VI, X, XI, XIV, and XV, or when prevented by strikes or other labor troubles or generally applicable laws or public regulations, all rent and additional rent reserved in this Lease from the date of the breach to its expiration date shall become immediately due and payable to Landlord.

2-Forms Federal Taxes Affecting Real Estate [C]

(b) The parties recognize and agree that the damage to Landlord resulting from any breach of the covenants in paragraph (a) of this Section will be extremely substantial, and will be impossible of accurate measurement. The parties therefore agree as follows:

(1) If there is a breach or threatened breach of the above covenants, Landlord shall, in addition to all of its other rights and remedies at law, in equity, or otherwise, have the right of injunction to preserve Tenant's occupancy and use. The words "become vacant or deserted," as used elsewhere in this Lease, shall include Tenant's failure to occupy or use as required by this Section. Cessation of the use or occupancy other than as provided in paragraph (a) of this Section for a period not exceeding 60 days shall not be deemed a breach by Tenant.

(2) If this Lease is terminated because Tenant breaches either covenant in paragraph (a) of this Section, Landlord may, notwithstanding any contrary provision in this Lease, re-enter the Demised Premises to alter, reconstruct, and rent all or any part of them, at any rental agreed to by Landlord, for any portion of or beyond the original Lease term. Any income received by Landlord on such re-rental shall be its property, as compensation for the expenses incurred in preparing and re-renting all or any part of the Demised Premises. This income, together with the above rents and additional rents, shall constitute liquidated damages for Tenant's breach. Tenant shall not receive any portion of the proceeds from the re-letting except for any payment made by or due from it to Landlord under paragraph (a) of this Section.

(c) If any provision of this Section or its application to any person or circumstance is, to any extent, invalid or unenforceable, the remainder of this Section, or the application of the provision to other persons or circumstances, shall not be affected thereby. Each provision of this Section and this Lease shall be valid and enforced to the fullest extent permitted by law.

Article V Construction of Building

Section 5.01. *Building.* Landlord shall, subject to delays by causes beyond its reasonable control, proceed to build the Building as a modern, fully air-conditioned office building on the land herein described in Exhibit "C" (the "Land").

Section 5.02. *Landlord work.* Landlord, prior to the Commencement Date, shall install and furnish in the Demised Premises all of the work, additional work, and installations substantially in accordance with Exhibit "B" annexed hereto.

Article VI Repairs; Alterations; Fixtures

Section 6.01. *Landlord maintenance.* If Landlord knows that structural repairs are needed, it shall, at its expense, make them and maintain the exterior and public areas of the Demised Premises and the public areas of the Building in good order and repair. Landlord shall also maintain in good condition and make (a) all repairs to the structure in the Demised Premises, (b) all repairs to all electric wiring, risers, plumbing, heating and air-conditioning facilities serving the Demised Premises (other than any of the above installed by Tenant), and (c) all other repairs necessary to correct any latent defects for one year after the Commencement Date in the Demised Premises (other than defects connected with, or related to, any alterations made or performed by or on behalf of Tenant by persons other than Landlord or its contractors). However, Landlord shall not be required to make any repairs referred to in subdivisions (a) or (b) if Tenant is obligated to make them under Section 6.02. Tenant shall promptly notify Landlord of the necessity of any repairs of which Tenant has knowledge and for which Landlord may be responsible under this Section.

Section 6.02. *Tenant maintenance.* Tenant shall take good care of the Demised Premises, and the fixtures, equipment and appurtenances therein, except those repairs required to be made by Landlord under Section 6.01. Tenant shall, at its own expense, make all repairs to the Demised Premises when needed to preserve them in good working order and condition. All damage or injury to the Demised Premises and its fixtures, glass, appurtenances, and equipment or to the

2-Forms Federal Taxes Affecting Real Estate [C]

Building or its fixtures, glass, appurtenances, and equipment caused by Tenant moving property in or out of the Building or by installation or removal of furniture, fixtures, or other property, or resulting from fire, explosion, short circuits, flow or leakage of water, steam, illuminating gas, sewer gas, sewerage, or by frost or by bursting or by leaking of pipes or plumbing or from any other cause of any other kind or nature whatsoever, due to carelessness, omission, neglect, improper conduct, or other cause of Tenant, its servants, employees, agents, visitors, or licensees, shall be repaired, restored, or replaced promptly by Tenant to the reasonable satisfaction of Landlord at Tenant's expense except to the extent that the cost and expense is covered by insurance proceeds recovered by Landlord. All repairs and restorations or replacements required in connection therewith shall be of quality and class at least equal to the original work or installations and done in a good and workmanlike manner.

Section 6.03. *Obstructions.* Tenant shall not store or place any materials of whatsoever kind or nature or any obstructions in the lobby, passageways, stairs, on the sidewalks or plaza abutting the Building or in any of its public portions.

Section 6.04. *Additional alterations.* Except as provided for in Exhibit B, Tenant shall make no alterations, decorations, installations, additions, or improvements in or to the Demised Premises, including but not limited to water coolers, air-conditioning or cooling system, unit or part thereof or other apparatus of other or like nature without Landlord's prior written consent and then only by contractors or mechanics approved in writing by Landlord. However, Landlord shall at all times authorize at least three contractors or mechanics in each trade to perform such alterations, decorations, installations, additions, or improvements in and about the Demised Premises. Landlord shall not unreasonably withhold its consent to any nonstructural alterations, decorations, installations, additions, or improvements proposed by Tenant to adapt the Demised Premises for Tenant's business purposes. Landlord hereby consents to all nonstructural alterations, decorations, installations, additions, or improvements proposed by Tenant to adapt the Demised Premises for Tenant's business purposes if they not interfere with furnishing services to other Tenants and if the aggregate estimated cost, in Landlord's reasonable judgment, of all proposed alterations, decorations, installations, additions, or improvements in any successive 12-month period does not exceed \$50,000. However, if the alterations, decorations, installations, or improvements interfere with or affect Landlord's ability to provide the services in the Demised Premises prescribed in Article XXI, Landlord shall be relieved from such obligation to the extent of such interference. All work, alterations, decorations, installations, additions, or improvements shall be done at Tenant's expense and at such times and in such manner as Landlord may from time to time designate and in full compliance with all applicable laws, rules, regulations, and requirements of all governmental bureaus and bodies having jurisdiction thereover. All alterations, decorations, installations, additions, or improvements (other than communications equipment, quotation devices, or equipment leased by Tenant) shall, at Landlord's election (which it shall make by notice as provided in Article XXX not less than 30 days before this Lease expires or is renewed or extended, or, if it is terminated before then, not later than 60 days after termination), become Landlord's property and shall remain upon and be surrendered with the Demised Premises as a part of them at the end of the term or renewal term, or the term's prior expiration, as the case may be. If Landlord elects otherwise, all alterations, decorations, installations, additions or improvements made by Tenant upon the Demised Premises as the Landlord may select (as well as any communications equipment, quotation devices, or equipment leased by Tenant) shall be removed by Tenant and it shall restore the premises to their original condition (except with respect to those items which Landlord has elected to remain) at Tenant's expense at or prior to the expiration of the term. As a condition precedent to Landlord's consent to the making by Tenant of alterations, decorations, installations, additions, or improvements to the Demised Premises in addition to other requirements as provided in this Lease or elsewhere, Tenant shall obtain and deliver to Landlord written and conditional waivers of mechanics' liens upon the property of which the Demised Premises are a part for all work, labor and services to be performed and materials to be furnished in connection with such work in the form approved by Landlord's attorneys, signed by all contractors, subcontractors, material-men, laborers, and workmen to become involved in such work. Notwithstanding the above, if any mechanic's lien is filed against the Demised Premises or the Building for work claimed to have been done for, or materials claimed to have been furnished to Tenant, it shall be discharged by Tenant within ten days thereafter, at Tenant's expense, by filing the bond required by law or payment or otherwise. Landlord shall not be liable for any failure or any Building facilities or services including but not limited to the air-conditioning and ventilating equipment in the Demised Premises installed

by Landlord caused by alterations, installations, and/or additions by Tenant, and Tenant shall correct any faulty installation. Upon Tenant's failure to correct same, Landlord may make the correction and charge Tenant for its cost. The sum due Landlord shall be deemed additional rent and shall be paid by Tenant promptly upon being billed therefor. Tenant shall keep full and accurate records of the cost of all alterations, installations, and improvements in and to the Demised Premises made by it and shall, if requested by Landlord, make them available to Landlord for use in connection with any proceeding to review the Assessed Valuation of the Building or to acquire the Land and Building for public or quasi public use. If any of Tenant's property remains in the Demised Premises after expiration of the term (or the earlier termination of this Lease) and Tenant's removal, the property may be deemed by Landlord to have been abandoned. In that case, Landlord may either retain the property or dispose of it at Tenant's expense and without accountability in whatever manner Landlord may see fit. If Landlord causes the property to be removed, any damage caused by the removal and any other damage to the Demised Premises caused by Tenant's removal may be repaired at Tenant's expense and Tenant shall pay to Landlord upon demand all such expenses. The above provisions shall survive the expiration or termination of this Lease.

Section 6.05. *Permits; insurance.* With the exception of Tenant's work performed under Exhibit "B," prior to commencing any work under the provisions of Section 6.04, Tenant shall furnish to Landlord:

- (a) Copies of all governmental permits and authorizations which may be required in connection with the work.
- (b) A certificate evidencing that Tenant (or its contractors) has (have) procured workmen's compensation insurance covering all persons employed in connection with the work who might assert claims for death or bodily injury against any Over-Landlord, Tenant, or the Building.
- (c) All additional personal injury and property damage insurance (over and above the insurance required to be carried by Tenant under Section 9.03) that Landlord may require because of the nature of the work to be done by Tenant.

Article VII Floor Load; Noise

Section 7.01. Tenant shall not place a load upon any floor of the Demised Premises which exceeds the load per square foot which the floor is then designed to carry and which is then allowed by law. All business machines and equipment and all other mechanical equipment installed and used by Tenant in the Demised Premises shall be properly shielded and be so placed, equipped, installed, and maintained by Tenant at its expense in settings of cork, rubber, or spring-type vibration-eliminators or in such other manner as Landlord may reasonably direct so as to be sufficient to eliminate the transmission of noise, vibration or electrical, or other interference from the Demised Premises to any other area of the Building. Landlord shall include a sentence of equivalent purport to the preceding sentence in other leases of space for adjacent floors in the Building, and shall exercise reasonable efforts to require compliance therewith with respect to such transmissions affecting the Demised Premises.

Tenant shall not move any safe, heavy equipment or bulky matter in or out of the Building without Landlord's written consent, which it shall not unreasonably withhold or delay. If the movement of such items requires special handling, Tenant shall employ only persons holding a Master Rigger's License to do the work and all such work shall be done in full compliance with the Administrative Code of the City of New York and other municipal requirements. All such movements shall be made during hours which will least interfere with the normal operations of the Building, and all damage caused by such movement shall be promptly repaired by Tenant at its expense.

Article VIII Laws, Ordinances, Requirements of Public Authorities

2-Forms Federal Taxes Affecting Real Estate [C]

Section 8.01. *Tenant compliance.* Tenant shall, at its expense, comply with all federal, state, county, and municipal laws, orders, ordinances and regulations and with any lawful direction of any public officer or officers which shall, with respect to the occupancy, use or manner of use of the Demised Premises or to any abatement of nuisance caused by Tenant, impose any violation, order, or duty upon Landlord or Tenant arising from Tenant's occupancy, use, or manner of use of the Demised Premises or any installations made therein by or at Tenant's request or required by reason of a breach of any of Tenant's covenants or agreements hereunder.

Section 8.02. *Notice of violations.* Tenant shall promptly notify Landlord if it receives notice of any violation of law, ordinance, rule, order, or regulation applicable to the Demised Premises. Landlord shall promptly notify Tenant if it receives notice of any violation of any such law, order, ordinance, or regulation applicable to the Demised Premises or services, access or other appurtenances to the Demised Premises, especially, but not limited to, any creating an obligation of Tenant under Section 8.01.

Section 8.03. *Landlord compliance.* Except as provided above, Landlord shall, at its expense, comply with or cause to be complied with, all federal, state, county, and municipal laws, orders, ordinances, and regulations and any direction made pursuant to law of any public officer or officers which shall, with respect to the public portions of the Building, or which affect Tenant's access to the Demised Premises, impose any violation, order or duty upon Landlord or Tenant and with respect to which Tenant is not obligated by Section 8.01 to comply. Landlord may at its expense contest the validity of any such law, ordinance, rule, order, or regulation.

Section 8.04. *Window cleaning.* Tenant shall not clean, nor require, permit, suffer or allow any window in the Demised Premises to be cleaned, from the outside in violation of Section 202 of the Labor Law or of the rules of the Board of Standards and Appeals or of any other board or body having or asserting jurisdiction.

Section 8.05. *Rent control laws.* Landlord may cancel this Lease and its term, by giving Tenant 30 days' notice, if at any time hereafter a law or ordinance which is of a nature commonly referred to as "rent control laws" is enacted. For this purpose, a rent control law is any law or ordinance which limits, reduces, or suspends in whole or in part or otherwise affects the rents or revenues from the Demised Premises or the Building or which makes it illegal to pay or prohibit or restrict the payment to, or receipt by, Landlord of the minimum fixed rent, additional rent, or adjustment of rent or any part or portion of any thereof or as a result of which the Landlord may not, or may not be entitled to receive when due, the full and entire fixed minimum rent, additional rent, and adjustments of rent, or which permits Tenant to seek the return of all or any part of the rent, additional rent, or adjustments of rent. If Landlord elects to terminate and serves upon Tenant a 30-day notice of cancellation of this Lease, upon the expiration of the 30-day period this Lease and its term shall end and expire as fully and completely as if the date of expiration of the 30-day period were the day herein definitely fixed for the end and expiration of this Lease and its term and Tenant shall then quit and surrender the Demised Premises to Landlord.

Article IX Insurance

Section 9.01. *Compliance with insurance regulations.* Tenant shall not do or permit to be done any act or thing in or upon the Demised Premises which will invalidate or be in conflict with the Certificate of Occupancy or the terms of the New York State standard form of fire, boiler, sprinkler, water damage, or other insurance policies covering the Building and/or the fixtures, equipment, and property therein. Tenant shall, at its expense, comply with all rules, orders, regulations, or requirements of the New York Board of Fire Underwriters or any other similar body having jurisdiction, that relate to its use or occupancy of the Demised Premises, and shall not knowingly do or permit anything to be done in or upon the Demised Premises or bring or keep anything therein or use them in a manner which increases the rate of insurance upon the Building or on any property or equipment located therein over the rate in effect at the commencement of the term of this Lease.

Section 9.02. *Tenant caused increases.* If, because of anything done, caused, or permitted to be done, permitted, or omitted by Tenant, the rate of liability, fire, boiler, sprinkler, water damage or other insurance (with all extended coverage) on the Building or on the property and equipment of Landlord or any other tenant or subtenant in the Building is higher than it otherwise would be, Tenant shall reimburse Landlord and the other tenants and subtenants in the Building for the additional insurance premiums thereafter paid by any of them. Tenant shall make the reimbursement on the first day of the month following the payment by Landlord or the other tenants or subtenants. In any action or proceeding in which Landlord and Tenant are parties, a schedule or "make up" of any insurance rate for the Building or Demised Premises issued by the New York Fire Insurance Exchange, or other body establishing fire insurance rates for the Building, shall be conclusive evidence of the facts therein stated and of the several items and charges in the insurance rates then applicable to the Building or Demised Premises.

Section 9.03. *Liability insurance.* Tenant, at its expense, shall maintain insurance protecting and indemnifying Landlord, Tenant and any Overlandlord against all claims for injury or damage to persons or property or for the loss of life or of property occurring upon, in or about the Demised Premises, the public portions of the Building used by Tenant, its employees, agents, contractors, customers, and invitees. The insurance shall afford minimum protection during the term of this Lease, of not less than \$1,000,000 for bodily injury or death to any one person and not less than \$3,000,000 for any one occurrence or accident, and not less than \$100,000 for property damage.

All such insurance shall be effected under valid and enforceable policies (which may cover the Demised Premises and other locations), shall be issued by insurers of recognized responsibility acceptable by Landlord, and shall contain a provision under which the insurer agrees not to cancel the insurance without 20-days' prior written notice to Landlord.

On or before the Commencement Date, Tenant shall furnish Landlord with a certificate evidencing the aforesaid insurance coverage. Renewal certificates shall be furnished to Landlord at least 30 days prior to the expiration date of each policy for which a certificate was furnished.

Section 9.04. *Waiver of subrogation.* Landlord's insurance policies shall insure the Building and its property therein against loss, damage, or destruction by fire or other casualty and the rental value thereof. Tenant's policies shall insure its property in the Demised Premises against loss, damage, or destruction by fire or other casualty. Both parties shall use their best efforts to include in their respective insurance policies: (a) a waiver of the insurer's right of subrogation against the other party; (b) an express agreement that the policy will not be invalidated if the assured waives the right of recovery against any party responsible for a casualty covered by the policy before the casualty; or (c) any other form of permission for the other party's release. If the waiver or permission is not, or ceases to be, obtainable, with or without additional charge, the insured party shall, upon learning that, promptly so notify the other party. In that case, if the other party so elects and pays the insurer's additional charge therefor, the waiver or permission shall be included in the policy. Each party hereby releases the other party with respect to any claim (including a claim for negligence) which it might otherwise have against the other party for loss, damages, or destruction with respect to its property by fire or other casualty (including rental value or business interest, as the case may be) occurring during the term of this Lease and with respect and to the extent to which it is not prohibited under a policy or policies containing a waiver of subrogation or permission to release liability or naming the other party as an additional assured, as provided above. If such waiver is not obtainable for any reason there shall be no release of the other party. The waiver of subrogation or permission for release referred to herein shall extend to the agents of each party and its and their employees and shall be coextensive therewith, and, in the case of Tenant, shall also extend to all other persons and entities occupying or using the Demised Premises in accordance with the terms of this Lease, but only if and to the extent that such waiver or permission can be obtained without additional charge (unless such party pays the charge). If Tenant does not carry insurance, Landlord shall be released co-extensively and to the same extent as though Tenant's property were insured for fire insurance with extended coverage.

Article X Damage by Fire or Other Cause

Section 10.01. *Damage.* If the Demised Premises are partially damaged by fire or other cause without the fault or neglect of Tenant, or of its servants, employees, agents, visitors, or licensees, the damage shall be repaired by and at Landlord's expense and the fixed minimum rent until the repairs are made shall be apportioned according to the part of the Demised Premises which is usable by Tenant. But if such partial damage is due to the fault or neglect of Tenant, or of its servants, employees, agents, visitors, or licensees, without prejudice to any other rights and remedies of Landlord and, except as provided in Section 9.04, without prejudice to the rights of subrogation of Landlord's insurer, the damage shall be repaired by Landlord but there shall be no apportionment or abatement of rent. No penalty shall accrue for any delay which may arise by reason of adjustment of insurance by Landlord and for any delay on account of "labor troubles," or any other similar or dissimilar cause, beyond Landlord's control. Tenant shall give immediate notice to Landlord in case of fire in the Demised Premises. If the Demised Premises are totally or substantially damaged or are rendered wholly or substantially untenantable by fire or other cause, and Landlord decides not to restore or rebuild them, or if the Building is substantially damaged and Landlord decides to demolish, rebuild, or remodel it (regardless of whether the Demised Premises have been damaged), Landlord may, within 90 days after the fire or other cause, give Tenant written notice (as provided in Article XXX) of its decision. Thereupon, the term of this Lease shall expire by lapse of time on the third day after notice is given, and Tenant shall vacate the Demised Premises and surrender them to Landlord. If Tenant is not in default under this Lease, upon its termination under the conditions provided for in the immediately preceding sentence, Tenant's liability for rent shall cease as of the day following the casualty. Tenant hereby expressly waives the provisions of Section 227 of the Real Property Law or any like law which may hereafter be enacted and agrees that the foregoing provisions of this Article shall govern and control in lieu thereof, this Article being an express agreement.

Section 10.02. *Limitation.* No damages, compensation, or claims shall be payable by Landlord for inconvenience, loss of business or annoyance arising from any repair or restoration of any portion of the Demised Premises or of the Building, except for rent abatement as provided in Section 10.01.

Article XI Assignment, Subletting, Mortgaging

Section 11.01. *Conditions, requirements.* Tenant shall not, by operation of law or otherwise, assign, mortgage, or encumber this Lease, or sublet or permit the Demised Premises or any part thereof to be used by others, without Landlord's prior written consent. Landlord's consent to any assignment or subletting shall not in any manner be construed to relieve Tenant from obtaining Landlord's express written consent to any other or further assignment or subletting. Tenant may permit portions of the Demised Premises to be used by, or sublet portions of the Demised Premises without profit to any wholly owned subsidiaries or affiliates of Tenant (*i.e.*, corporations at least 50% of whose stock is owned by Tenant), if, and so long as, Tenant's ownership of them continue to be not less than 20% of their stock. Tenant shall give prompt notice to Landlord of any such use or subletting by or to the subsidiaries or affiliates. Tenant may, without Landlord's consent, assign its interest in this Lease to any corporation which succeeds to the assets, business, and goodwill of Tenant (either by merger or consolidation) or of any wholly owned subsidiary or affiliate (*i.e.*, corporations of which Tenant owns at least 50 percent of the stock), if, and for so long as, the subsidiaries or affiliates continue to be owned by Tenant. However, the assignment shall not be valid unless, within 10 days after its execution, Tenant delivers to Landlord (i) a duplicate original instrument of assignment, in form and substance satisfactory to Landlord, duly executed by Tenant, and (ii) an instrument, in form and substance satisfactory to Landlord, duly executed by the assignee, in which such assignee shall assume observance and performances of, and agree to be personally bound by, all of the terms, covenants, and conditions of this Lease on Tenant's part to be observed and performed. Tenant shall, in no event, be released from liability under this Lease.

With the express exceptions set forth in the preceding paragraph, if Tenant desires to assign or sublet all or any portion of the Demised Premises, it shall use Landlord as its exclusive rental agent for such purpose and notify Landlord of its desire to assign this Lease or sublet the premises. Before obtaining a proposed assignee or sublessee, upon terms

2-Forms Federal Taxes Affecting Real Estate [C]

satisfactory to Tenant, Tenant shall submit to Landlord in writing the terms and conditions of the proposed assignment or subletting and any other information reasonably requested by Landlord.

Landlord shall have the following options, to be exercised within 90 business days from submission of Tenant's request:

(a) If the proposed assignment or subletting is for all or substantially all of the Demised Premises, Landlord may, within the above 90-day period, cancel and terminate this Lease as of the date proposed by Tenant for the assignment or subletting.

(b) If the proposed sublease is for less than all or substantially all of the Demised Premises or for less than the balance of the term granted hereunder, Landlord may, within the above 90-day period, cancel and terminate this Lease only as to the portion of the premises and of the term of the proposed sublease that takes effect as of the effective date thereof. If Landlord exercises its option under this paragraph (b), the rent and all other charges payable hereunder shall be equitably apportioned.

If Landlord does not exercise either option within the time set forth above, Tenant may list the proposed space with any other brokers. Landlord shall not unreasonably withhold consent to any proposed assignment or subletting if it is upon the same or better terms than those submitted to Landlord. Landlord shall give Tenant notice as to giving or withholding such consent within 30 days after Tenant furnishes Landlord, in writing, in addition to the information set forth above, (1) the name of the proposed assignee or sublessee and (2) the nature and character of the business of the proposed assignee or sublessee. However, if Landlord does not exercise either of the above options and Tenant assigns this Lease or sublets all or any portion of the Demised Premises, other than a sublease in lieu of temporary condemnation as provided in Article XIV, Section 14.03, Tenant shall pay to Landlord, as additional rent, any difference between the fixed minimum rent plus additional rent allocable to that part of the Demised Premises affected by such assignment or sublease under the provisions of this Lease, and the fixed minimum rent and additional rent payable by the assignee or sublessee to Tenant, less a single brokerage commission payable by Tenant with respect to such assignment or sublease. The additional payments shall be made monthly within five days after their receipt by Tenant.

Section 11.02. *Rent collection.* If this Lease is assigned, or all or a part of the Demised Premises is sublet or occupied by any person or persons other than Tenant, Landlord may, after default by Tenant, collect rent from the assignee, subtenant or occupant and apply the net amount collected to the rent herein reserved. However, no such assignment, subletting, occupancy or collection of rent shall be deemed a waiver of the covenants in this Article, nor shall it be deemed acceptable of the assignee subtenant or occupant as a tenant, or a release of Tenant from the full performance by Tenant of all the terms, conditions and covenants of this Lease.

Section 11.03. *Lease obligations.* Each permitted assignee or transferee shall assume and be deemed to have assumed this Lease and shall be and remain liable jointly and severally with Tenant for the payment of the rent, additional rent, and adjustments of rent, and for the due performance of all of Tenant's terms, covenants, conditions, and agreements for the term of this Lease. No assignment shall be binding on Landlord unless the assignee or Tenant delivers to Landlord a duplicate original of the instrument of assignment which contains a covenant of assumption by the assignee of all of the above obligations and obtains from Landlord the above written consent prior thereto.

Article XII No Liability on Landlord's Part

Section 12.01. Landlord and its agents shall not be liable for any damage to property of Tenant or of others entrusted to employees of the Building, or for the loss of or damage to any property of Tenant by theft or otherwise. Landlord and its agents shall not be liable for any injury or damage to persons or property resulting from fire, explosion, falling plaster, steam, gas, electricity, water, rain or snow, or leaks from any part of the Building, from the pipes, appliances or plumbing works, from the roof, street or sub-surface, or from any other place or by dampness or by any other cause of

whatsoever nature, unless caused by or due to the negligence of Landlord, its agents, servants, or employees. Moreover, Landlord and its agents shall not be liable for any such damage caused by other tenants or persons in the Building or caused by operations in construction of any private, public, or quasi-public work. Landlord shall not be liable for damages for injury to the person or property of Tenant or others, except to the extent of its obligation, if any, under Section 6.01 for any latent defect in the Demised Premises or in the Building. If at any time any windows of the Demised Premises are temporarily closed, darkened, or bricked up for any reason including, but not limited to, Landlord's own acts, Landlord shall not be liable for any resulting damage to Tenant, and Tenant shall not be entitled to any compensation therefor or abatement of rent; moreover, such actions shall not release Tenant from its obligations hereunder or constitute an eviction. (Reference above to Landlord shall for all purposes be deemed to include any Overlandlord.) Tenant shall reimburse and compensate Landlord as additional rent within five days after rendition of a statement for all expenditures made by or damages or fines sustained or incurred by Landlord due to nonperformance or noncompliance with or breach or failure to observe any term, covenant, or condition of this Lease upon Tenant's part to be kept, observed, performed, or complied with. Tenant shall give immediate notice to Landlord in case of accidents in the Demised Premises or in the Building or of defects therein or in any fixtures or equipment. Landlord shall give immediate notice to Tenant of its knowledge of accidents in the Demised Premises or accidents affecting services, access or other appurtenances to the Demised Premises, or (to the extent caused or claimed to arise from or be related to, Tenant's use or occupancy under this Lease) in the Building or of defects therein or in any fixtures or equipment.

Article XIII Name of Building

Section 13.01. The Building will be known as "Melville Plaza," but Landlord may from time to time change the name or designation, without Tenant's consent. So long as Tenant occupies the Demised Premises, Landlord shall not designate, as the name by which the Building is commonly known, the name of any firm whose principal line of business is the same as or related to Tenant's business, except as provided above.

Article XIV Condemnation

Section 14.01. *Condemnation.* If all or a material part of the Building is condemned or taken in any manner for any public or quasi-public use, this Lease shall cease and terminate as of the date of vesting of title. If only a part of the Demised Premises is so condemned or taken, then, effective thereafter as of the date Tenant vacates and removes from the part of the Demised Premises so taken, the fixed minimum rent and the Tenant's Proportionate Share shall be proportionately reduced, and this Lease shall continue as to the remaining part. If only a nonmaterial part of the Building is so condemned or taken, then (a) if substantial structural alteration or reconstruction of the Building is, in Landlord's opinion, necessary or appropriate as a result of the condemnation or taking (regardless of whether the Demised Premises are affected), Landlord may terminate this Lease as of the date of vesting of title by giving Tenant, within 60 days after it receives notice thereof, written notification of termination, or (b) if Landlord does not elect to terminate this Lease, this Lease shall be and remain unaffected by such condemnation or taking, except that the rent shall be abated to the extent, if any, hereinbefore provided. If only a part of the Demised Premises is so condemned or taken and this Lease and the term and estate hereby granted are not terminated as provided above, Landlord shall, at its expense, restore with reasonable diligence the remaining structural portions of the Demised Premises as nearly as practicable to their same condition as prior to the condemnation or taking. In the event of termination in any of the cases provided above this Lease and the term and estate hereby granted shall expire as of the date of the termination with the same effect as if that were the date hereinbefore set for the expiration of the term of this Lease, and the rent hereunder shall be apportioned as of that date.

Section 14.02. *Condemnation award.* If there is any condemnation or taking, as provided above, of all or part of the Building (regardless of whether the Demised Premises are affected), Landlord shall receive the entire award in the condemnation proceeding, including any award made for the value of the estate vested by this Lease in Tenant. Tenant

hereby expressly assigns to Landlord all of its right, title and interest now or hereafter arising in or to any such award or any part thereof, and Tenant shall not be entitled to receive any part of the award. Notwithstanding the above, Tenant shall be entitled to any award for loss or taking of its fixtures, or its relocation expenses.

Section 14.03. *Temporary condemnation.* (a) If the whole or any part of the Demised Premises is acquired or condemned for any temporary public or quasi-public use or purpose, for any period ending prior to the end of the term, then, except as otherwise provided in this Section, this Lease and the Demised Term shall continue in force and effect and Tenant shall continue to pay in full the rent, additional rent, and other charges herein reserved without deduction or abatement. Tenant shall be entitled, subject to the provisions of this Section, to all awards or payments made for such temporary use, except that they shall be paid to and held by Landlord as a fund which Landlord shall apply, from time to time, to the extent that such fund avails, to the payment of rent, additional rent and other charges due to Landlord from Tenant under the terms of this Lease provided Tenant is not otherwise in default hereunder beyond any applicable grace period for the curing of such default (if such use is for only a part of the Demised Premises, the awards or payments shall only be applied in payment of the rent, additional rent, and other charges allocable to such part of the Demised Premises). If required by Landlord, Tenant shall restore the Demised Premises to its condition prior to the temporary taking.

(b) If all of the Demised Premises are acquired or condemned for any temporary public or quasi-public use or purpose for a period extending beyond the end of the term, this Lease and the Demised Term shall end as of the Date of such taking with the same effect as if that Date were the end of the term.

(c) If any part, rather than all, of the Demised Premises is acquired or condemned for any temporary public or quasi-public use or purpose for a period extending beyond the end of the term, that part of the Demised Premises (the "Eliminated Condemnation Space") shall be eliminated from the Demises Premises from and after the date (the "Elimination Condemnation Date") immediately prior to the commencement of such temporary use, and

(1) From and after that date, the Eliminated Condemnation Space shall be eliminated from the Demised Premises for all purposes;

(2) Tenant shall surrender the Eliminated Condemnation Space on or before the Elimination Condemnation Date in the same manner as if that date were the end of the term but Tenant shall not be required to remove its property or restore the Demised Premises as required by Section 6.04;

(3) From and after the Elimination Condemnation Date,

(A) The rent, and any electric charge, escalation, or additional rent computed on a Floor area basis shall be equitably reduced on the basis of the area of the Eliminated Condemnation Space, and any pre-paid portion of rent or additional rent for any period after that Date allocable to the Space shall be refunded by Landlord to Tenant; and

(B) The Demised Premises Area shall be reduced in the proportion which the area of the Eliminated Condemnation Space bears to the total area of the Demised Premises immediately before the Elimination Condemnation Date.

Article XV Entry, Right to Change Public Portions of the Building

Section 15.01. *Access.* Landlord may erect, use, and maintain pipes and conduits in and through the Demised Premises, which shall be, to the extent possible, concealed. Landlord and its agents and designees may enter the Demised Premises for the purpose of making any repairs or alterations that it desires, is required, or has the right, to make under this Lease. Subject to the above, Landlord may enter the Demised Premises for the purpose of inspecting them or

exhibiting them to prospective purchasers or lessees of the Building, to prospective mortgagees, or to the mortgagees' prospective assignees. Except in cases of emergency, Tenant may require Landlord or its representative, agent, or employee to be accompanied, while in the Demised Premises, by Tenant's representative, agent, or employee if Tenant furnishes such person promptly after Landlord gives notice to Tenant that it is exercising its right of entry. Landlord may take all material into and upon the Demised Premises that is required for the above repairs or alterations, and such act shall not constitute an eviction or partial eviction of Tenant. Moreover, the rent reserved shall not abate, except as otherwise provided in this Lease, while the repairs or alterations are being made. However, the repairs shall be made as expeditiously as reasonably possible, and be conducted in such a manner, and on such notice, as to minimize as far as reasonably possible any unreasonable interference with Tenant's use and occupancy of the Demised Premises for the purposes specified in Article IV, Section 4.01.

Section 15.02. *Changes to public areas.* Landlord may at any time without thereby creating any actual or constructive eviction or incurring any liability to Tenant therefor, and without abatement in rent, change the arrangement or location of entrances, passageways, doors, doorways, corridors, stairs, toilets, and other like portions of the Building, as well as the designated express or local stops of elevators servicing the Demised Premises. However, such changes shall be designed to avoid any material obstruction or reduction in Tenant's access to the Demised Premises, and other appurtenances. Landlord may, if necessary to comply with laws, rules, or requirements of any governmental bureau or agency, move any wall or partition in or dividing the Demised Premises.

Article XVI Bankruptcy

16.01. *Prior to term.* This Lease shall *ipso facto* be cancelled and terminated if at any time before the date fixed above as the Commencement Date a petition in bankruptcy or insolvency, for reorganization, or for the appointment of a receiver or trustee of all or a portion of Tenant's property is filed by or against it in any court under any federal or state statute, and within 90 days thereafter Tenant fails to secure a discharge thereof, or if Tenant makes an assignment for the benefit of creditors, or petitions for or enters into an arrangement. In any such event, neither Tenant nor any person claiming through or under it or by virtue of any statute or court order shall be entitled to possession of the Demised Premises and Landlord, in addition to the other rights and remedies given by Section 16.03 and by virtue of any other provision contained in this Lease or any statute or rule of law, may retain as liquidated damages any rent, security, deposit or moneys received by it from Tenant or others in Tenant's behalf upon the execution thereof.

16.02. *During term.* Landlord may cancel and terminate this Lease if at the date fixed as the Commencement Date or any time during the term hereby demised a petition in bankruptcy or insolvency, for reorganization, or for the appointment of a receiver or trustee of all or a portion of Tenant's property is filed by or against Tenant in any court under any federal or state statute, and within 90 days thereafter Tenant fails to secure a discharge thereof, or if Tenant makes an assignment for the benefit of creditors or petitions for or enters into an arrangement. Landlord shall exercise its right to cancel and terminate within a reasonable time after it receives notice that any of the above events have occurred. If Landlord exercises such right, neither Tenant nor any person claiming through or under it by virtue of any statute or court order shall be entitled to possession or to remain in possession of the Demised Premises but shall forthwith quit and surrender the premises, and Landlord, in addition to the other rights and remedies it has by virtue of any other provision contained in in this Lease or any statute or rule of law, may retain as liquidated damages any rent, security, deposit or monies received by it from Tenant or others in Tenant's behalf.

16.03. *Landlord's damages.* In the event of the termination of this Lease under Sections 16.01 and 16.02, Landlord may immediately, notwithstanding any contrary provision of this Lease, recover from Tenant as and for liquidated damages the difference between the rent reserved hereunder for the unexpired portion of the term demised and the then fair and reasonable rental value of the Demised Premises for the same period. In computing such damages the differences between any installment of rent becoming due hereunder after the date of termination and the fair and reasonable rental value of the Demised Premises for the period for which such installment was payable shall be discounted to the date of

termination at the rate of 10% per annum. If all or any part of the premises are re-let by Landlord for the unexpired term of this Lease or any part thereof, before proof of such liquidated damages is presented to any court, commission or tribunal, the amount of rent reserved upon such reletting shall be deemed prima facie to be the fair and reasonable rental value for the part or the whole of the premises so re-let during the term of the re-letting. Nothing contained herein shall limit or prejudice Landlord's right to prove for and obtain as liquidated damages by reason of such termination, an amount equal to the maximum allowed by any statute or rule of law in effect at the time, and governing the proceedings in which, such damages are to be proved, regardless of whether that amount is greater than, equal to, or less than the amount of the difference referred to above.

Article XVII Defaults, Remedies and Waiver of Redemption

Section 17.01. *Default and remedies.* (a) If Tenant (1) defaults in fulfilling any covenant of this Lease, requiring the payment of fixed minimum rent or additional rent, (2) defaults in complying with any other term, condition, or provision of this Lease, or (3) except as provided in Articles VI, X, XI, XIV, or XV, or where prevented by strikes or other labor troubles, or generally applicable laws or public regulations, ceases to conduct its business in the Demised Premises or leaves them completely vacant, then, in the case of the nonpayment of fixed minimum rent or additional rent which continues for ten days after Landlord serves a written notice upon Tenant specifying such default, or if Tenant defaults in any one or more of the events referred to in (2) or (3) above, then upon Landlord serving a written 15-days' notice upon Tenant specifying the nature of the default and upon the expiration of said 15 days, if Tenant has failed to comply with or remedy such default, or if the default or omission complained of is of such a nature that it cannot be completely cured or remedied within the 15-day period, and if Tenant has not diligently commenced curing the default within such 15-day period, and does not thereafter with reasonable diligence and in good faith proceed to remedy or cure default, then Landlord may serve a written 15-days' notice of cancellation of this Lease upon Tenant, and upon the expiration of the 15 days, this Lease and the term hereunder shall end and expire as fully and completely as if the date of expiration of the 15-day period were the day herein definitely fixed for the end and expiration of this Lease and the term thereof. Tenant shall then quit and surrender the Demised Premises to Landlord but Tenant shall remain liable as provided below.

(b) If the 15-day notice of cancellation provided for in subparagraph (a) above is not given, and the term expires as provided above; or (1) if Tenant defaults after ten-days' notice in the payment of the fixed minimum rent reserved herein or any item of additional rent herein mentioned or any part of either or in making any other payment herein provided; or (2) if any execution or attachment is issued against Tenant or any of its property whereupon the Demised Premises are taken or occupied by someone other than Tenant, Landlord may, without notice, re-enter the Demised Premises by force or otherwise and dispossess Tenant, its legal representative, or other occupant by summary proceedings or otherwise, remove their effects, and hold the premises as if this Lease had not been made. However, Tenant shall remain liable hereunder as hereinafter provided, and it hereby waives the service of notice of intention to re-enter or to institute legal proceedings to that end.

Section 17.02. *Rent deficiency.* In case of any such default, re-entry, expiration and/or dispossession by summary proceedings or otherwise, (a) the fixed minimum rent and additional rent shall become due thereupon and be paid up to the time of re-entry, dispossession and/or expiration, together with all expenses incurred by Landlord for legal expenses, attorneys' fees, brokerage, and/or putting the Demised Premises in good order, or for preparing them for re-rental; (b) Landlord may re-let all or part of the premises, either in its name or otherwise, for a term or terms, which may be less than or exceed the period which would otherwise have constituted the balance of the term of this Lease, and may grant concessions or free rent; and/or (c) Tenant or its legal representatives shall also pay Landlord as liquidated damages for Tenant's failure to observe and perform its covenants contained herein, any deficiency between the rents and additional rents hereby reserved and/or covenanted to be paid and the net amount, if any, of the rents collected or to be collected on account of the lease or leases of the Demised Premises for each month of the period which would otherwise have constituted the balance of this Lease term. Landlord's failure or refusal to re-let all or part of the premises shall not

release or affect Tenant's liability for damages. In computing such damages there shall be added to the deficiency all expenses incurred by Landlord in connection with re-letting, such as legal expenses, attorneys' fees, brokerage, and for keeping the Demised Premises in good order or for preparing them for re-letting. Any such damages shall be paid in monthly installments by Tenant on the rent days specified in this Lease. Any suit brought to collect the deficiency for any month or months shall not prejudice in any way Landlord's rights to collect the deficiency for any subsequent month or months by a similar proceeding. Landlord may make all alterations, repairs, replacements and/or decorations in the Demised Premises that it considers advisable and necessary for the purpose of re-letting them. The making of such alterations and/or decorations shall not operate or be construed to release Tenant from its above liability. Landlord shall in no event be liable in any way for failure to re-let the Demised Premises, or if the Demised Premises are re-let, for failure to collect the rent thereof under such reletting. Any such action may be for the full amounts of all rents and damages suffered or to be suffered by Landlord. If Tenant breaches or threatens to breach any covenant or provision of this Lease, Landlord shall have the right of injunction and the right to invoke any remedy allowed at law or in equity as if re-entry, summary proceedings and other remedies were not provided for herein. Mention in this Lease of any particular remedy shall not preclude Landlord from any other remedy, in law or in equity. Landlord's above remedies and rights are cumulative. Tenant hereby expressly waives all rights of redemption granted by or under any present or future laws if it is evicted or dispossessed for any cause, or if Landlord obtains possession of the Demised Premises, by reason of Tenant's violation of any covenant or condition of this Lease, or otherwise.

Article XVIII Landlord's Right to Perform Tenant's Obligations

Section 18.01. *Tenant obligations.* If Tenant defaults in the observance or performance of any term or covenant under this Lease, Landlord may, without thereby waiving the default, remedy the default for Tenant's account and at Tenant's expense. If in connection therewith Landlord makes any expenditures or incurs any obligations for the payment of money or in instituting, prosecuting, or defending any action or proceedings commenced before or during the term of this Lease or after the expiration or termination of the term, including but not limited to legal expenses and attorneys' fees, Tenant shall pay to Landlord on demand the sums paid or obligations incurred, together with legal interest and costs. If not paid, Landlord, in addition to any other remedy, may deem the due payments to be additional rent.

Section 18.02. *Additional rent.* All amounts over the fixed minimum rent payable by Tenant to Landlord under the terms of this Lease shall be deemed additional rent hereunder. Tenant shall pay these amounts in the same manner as an installment of the fixed minimum rent within a reasonable time after they become payable unless provision is made in this Lease for their payment on a specific date or within a specified time and, in default of payment may, if the Landlord desires, be added to the next or any other installment of fixed minimum rent subsequently becoming due. Landlord shall have all the rights and remedies in the event of their nonpayment as it would have had in the event of the nonpayment of any installment of fixed minimum rent. Tenant's obligation to pay any additional rent which has theretofore become due and payable shall survive the expiration or earlier termination of this Lease.

Article XIX Covenant of Quiet Enjoyment

Section 19.01. Landlord warrants and represents that it has full authority to execute this Lease for the above term. Landlord covenants that upon Tenant's paying the rent and additional rent and performing its covenants, Tenant may peaceably and quietly have, hold, and enjoy the Demised Premises, subject, nevertheless, to the terms and conditions of this Lease. This covenant shall bind Landlord only so long as it is the owner of the premises.

Article XX Excavation

Section 20.01. If any excavation or construction is made or authorized for building or other purposes upon land adjacent

2-Forms Federal Taxes Affecting Real Estate [C]

to the Building, Tenant shall, if necessary, afford to the person or persons causing or authorizing the work a license to enter upon the Demised Premises for the purpose of doing all work that is reasonably necessary to protect or preserve the Building or its walls from injury or damage and to support them by proper foundations, pinning and/or underpinning, or otherwise.

Article XXI Services and Equipment

Section 21.01. *Landlord services.* So long as Tenant is not in default under any provision of this Lease, Landlord, at its expense, shall:

(a) Provide elevator service in accordance with Building Plans from 8:00 a.m. to 6:00 p.m., Mondays through Fridays, holidays excepted, and at least one elevator serving the Demised Premises on Saturdays, Sundays, and holidays and after regular hours on other days. Landlord intends to install operatorless elevators in the Building. Landlord may designate local and express stops for elevators and change the designation of express and local stops from time to time, as provided in Article XV, Section 15.02.

(b) Landlord, at its expense, shall supply heat during the heating seasons, air-conditioning during the cooling seasons, and ventilation from the system installed by it from 8 a.m. to 6 p.m. on Mondays through Fridays, holidays excepted, which the parties agree are the hours of normal occupancy. Landlord shall have no responsibility or liability for the ventilating conditions and/or temperature of the Demised Premises during the hours or days it is not required to furnish heat, ventilation, or air-conditioning under this paragraph. Landlord has informed Tenant that the windows of the Demised Premises and the Building may be sealed, and that the Demised Premises may become uninhabitable and the air therein may become unbreathable during the hours or days when Landlord is not required to furnish heat, ventilation, or air-conditioning except as provided in this Section 21.01(e). Any use or occupancy of the Demised Premises authorized by Tenant, other than by Landlord's employees, agents, or contractors, acting under this Lease, during the hours or days Landlord is not so required to furnish heat, ventilation, or air-conditioning to the Demised Premises shall be at Tenant's sole risk, responsibility and hazard. Such condition of the Demised Premises shall not constitute nor be deemed to be a breach or a violation of this Lease or of any provision thereof, nor shall it be deemed any eviction, nor shall Tenant claim or be entitled to claim any abatement of rent nor make any claim for any damages or compensation by reason of such condition.

The heating seasons shall be the periods between September 15th and the following May 15th and the cooling seasons shall be the periods between May 15th and the following September 15th. Tenant shall in any event cause and keep entirely unobstructed all of the vents, intakes, outlets, and grilles, at all times and shall comply with and observe all regulations and requirements prescribed by Landlord for the proper functioning of the heating, ventilating, and air-conditioning system.

(c) Provide Building standard cleaning services in the Demised Premises and public portions of the Building except on Saturdays, Sundays, and holidays, similar to first-class office buildings in the area.

(d) Furnish hot and cold water for lavatory and drinking and office cleaning purposes. If Tenant requires, uses, or consumes water for any other purposes, Landlord may install a meter or meters or other means to measure Tenant's water consumption. Tenant shall reimburse Landlord for the cost of all meters and their installation, and pay for the maintenance of the meter equipment and/or pay Landlord's cost of other means of measuring the water consumption by Tenant. Tenant shall reimburse Landlord for the cost of all water consumed as measured by the meter or meters or as otherwise measured, including sewer rents, and all other charges imposed by any authority, on, or measured by, the use of water.

(e) Landlord also shall furnish air-conditioning (heating, ventilating, and cooling) beyond the above stated hours if it is

2-Forms Federal Taxes Affecting Real Estate [C]

given notice of the need for such service before noon on a business day when required for use in the evening, and by noon of the preceding business day when such service is to be provided for Saturday, Sunday, or holiday use. Tenant shall pay Landlord's charge, as agreed upon from time to time, for supplying additional services under this Section 21.01.

Section 21.02. *Holidays.* Holidays shall be deemed to mean all those dates designated as holidays by the Board of Governors of the New York Stock Exchange, in addition to dates designated as holidays by the City of New York, State of New York and/or the United States, other than Columbus Day and Lincoln's Birthday, unless the Board of Governors designates them as holidays.

Section 21.03. *Interruptions.* Landlord may interrupt, curtail, or suspend its services under this Article when such action is necessary because of accident, emergency, or mechanical breakdown, or is required by any federal, state, county, or municipal law, order, or regulation, or for any other cause beyond Landlord's reasonable control. Landlord shall use reasonable diligence to complete all required repairs or other necessary work as quickly as reasonably possible so that Tenant's inconvenience resulting therefrom may be for as short a period as circumstances will reasonably permit. Tenant shall not claim any diminution or abatement of rent or other compensation as a result of such interruptions, curtailment, or suspension, nor shall this Lease or any of Tenant's obligations be affected or reduced by reason of them.

Section 21.04. *Reimbursement.* Tenant shall reimburse Landlord for its cost of removing from the Demised Premises and the Building any of Tenant's refuse and rubbish in excess of normal office waste and Tenant shall pay all bills therefor when rendered.

Section 21.05. *Lobby directory.* Tenant shall be entitled to its proportionate share of listing spaces on a directory to be maintained by Landlord in the lobby of the Building for the listing of the names of Tenant, its officers and employees and of all other permitted occupants of the Demised Premises, their officers and employees. Tenant shall pay all charges for such listings.

Article XXII Adjustment of Rent

Section 22.01. *Wage adjustments.* In addition to the fixed minimum rent reserved above, Tenant shall pay to Landlord, as additional rental, sums computed in accordance with the following provisions:

(a) "Wage Rate" shall mean one-half of the combined total of the minimum regular hourly wage rate plus all other sums required to be paid to or for the benefit of (1) porters, and (2) female cleaners engaged in the general maintenance and operation of office buildings of the type and in the vicinity of the Building under a collective bargaining agreement between Realty Labor Relations, Inc. (or any of its successors) and Local 45 of the Employees International Union (or any of its successors). The Wage Rate shall include but not be limited to sums paid for pensions, welfare funds, vacations, bonuses, social security, unemployment, disability benefits, health, life, accident, and other type of insurance. If any such agreement is not entered into or the parties or their successors cease to bargain collectively, the Wage Rate shall be one-half the combined total of the minimum regular hourly wage rate and above other sums payable to or for the benefit of porters and female cleaners engaged in the maintenance and operation of the Building and payable by either Landlord or the contractor furnishing such services. However, the Wage Rate shall not exceed the hourly minimum rate of wages and other sums for porters and female cleaners engaged in the general maintenance and operation of buildings of the same type as the Building.

(b) "Base Wage Rate" shall mean the Wage Rate in effect on December 30, 1983.

(c) For purposes of this article, the number of square feet of rentable area contained in the Demised Premises is hereby fixed at 89,428 square feet.

If the Wage Rate is changed at any time during the term of this Lease and is greater than the Base Wage Rate, Tenant shall pay to Landlord as additional rent an annual sum equal to 1.50 times the product obtained by multiplying (i) the number of cents (including any fraction of a cent), by which the Wage Rate exceeds the Base Wage Rate by (ii) the number of square feet of rentable area in the Demised Premises. Such amounts shall be payable in equal monthly installments commencing with the first monthly installment of fixed rent falling due hereunder after the effective date of such change in the Wage Rate and continuing thereafter until a new adjustment in the additional rent is established and become effective in accordance with the provisions of this paragraph, except that notwithstanding any change in the Wage Rate downwards the fixed minimum annual rental shall not be reduced. If any change in the Wage Rate is made retroactive, Tenant shall pay Landlord the amount of the retroactive adjustment within ten days after being billed for it.

Section 22.02. *Tax adjustments.* Tenant further shall pay to Landlord, as additional rent, sums computed as follows:

(a) "Taxes" shall mean all real estate taxes, assessments, governmental levies, county taxes or any other governmental charge, whether general or special, ordinary or extraordinary, foreseen or unforeseen, or of any kind or nature, which are or may be assessed or imposed upon the Land, any leasehold of air rights or Landlord's share thereof, the Building and the sidewalks, plazas or streets in front of or adjacent thereto, including any tax, excise or fee measured by or payable with respect to any rent, and levied against Landlord and/or the Land and/or Building, under the laws of the United States, the State of New York or any political subdivision thereof or by the City of New York, as a substitute or addition in whole or in part for taxes presently or hereafter imposed on the Land and Building or resulting from or due to any change in the method of taxation, provided that the substitute tax on rent is considered as if the rent were Landlord's only income, but excluding any income, franchise, corporate, estate, inheritance, succession, capital stock, or transfer tax levied on Landlord. The term "Land," when used in this Lease, shall, unless the context otherwise indicates, include air rights, by lease or deed over adjoining property.

(b) "Tax Year" shall mean every 12-month consecutive period commencing each July 1 during the term of this Lease.

(c) "First Tax Year" shall mean that period of 12 months commencing July 1 for which the Building is first assessed for tax purposes, as a completed building.

(d) "Tenant's Proportionate Share" shall be deemed to be 13.625%.

(e) "Basic Tax" shall mean the agreed amount of \$762,500.

If the taxes for any Tax Year including the First Tax Year are greater than the Basic Tax, Tenant shall pay to Landlord as additional rent an amount equal to Tenant's Proportionate Share of the increase over the Basic Tax. If the Commencement Date of this Lease occurs during any Tax Year, or if the term of this Lease expires or is terminated during any Tax Year, the amount shall be prorated.

After the applicable governmental authority issues tax bills for real estate taxes assessed, levied and/or imposed upon the Land and Building, Landlord shall submit to Tenant a copy of the bill or bills. Thereafter, on or about each respective anniversary date, Landlord shall submit a copy of the tax bill or bills for the Taxes assessed, levied or imposed upon the Land and Building for Tax Year, together with a statement which indicates any amount required to be paid by Tenant as additional rent as under this Section.

Within 30 days after the issuance of the statement, Tenant shall pay any additional rent set forth on the statement.

If Landlord receives a reduction of taxes for any Tax Year for which Tenant has paid any additional rent under this

2-Forms Federal Taxes Affecting Real Estate [C]

Section, the proceeds of such reduction less legal fees and other expenses incurred in collecting them, shall be applied and allocated to the period for which the reduction was obtained and proper adjustment shall be made between Landlord and Tenant.

All payments or refunds due hereunder for any period of less than a full Tax Year at the commencement or end of the term of this Lease, or because of any change in the area of the Demised Premises, shall be equitably pro-rated to reflect such event.

Section 22.03. *Rent tax.* Tenant shall pay to Landlord all present and future occupancy and rent taxes payable by Landlord. The tax shall be paid to Landlord as additional rent upon demand.

Article XXIII Electric Inclusion

Section 23.01. *Electric service.* Landlord shall furnish the electric energy required by Tenant in the Demised Premises on a rent inclusion basis. That is, there shall be no charge to Tenant for the electric energy by way of measuring it on any meter or otherwise, but it shall be included in Landlord's services which are covered by the fixed minimum rent. The amount included in the fixed minimum rent was based upon the normal use of electrical energy between the hours of 8:00 a.m. to 6:00 p.m. on Mondays through Fridays, except holidays, for lighting and for the operation of the machinery, appliances and equipment normally used in Tenant's business. Landlord shall not be liable in any way to Tenant for any failure or defect in the supply or character of electric energy furnished to the Demised Premises by reason of any requirement, act or omission of the public utility serving the Building with electricity or for any other reason not attributable to Landlord. Tenant shall furnish and install all lighting tubes, lamps, bulbs, and ballasts required in the Demised Premises, at its expense, or shall pay Landlord's reasonable charges therefor on demand.

Section 23.02. *Tenant electric use.* Subject to the provisions of Section 23.05, Tenant's use of electric energy in the Demised Premises shall not at any time exceed the capacity of any of the electrical conductors, machinery, and equipment in or otherwise serving the Demised Premises. In order to insure that such capacity is not exceeded and to avert possible adverse effect upon the Building electric service, Tenant shall not, without Landlord's prior written consent in each instance, connect any additional fixtures, machinery, appliances, or equipment to the Building electric distribution system or make any alteration or addition to Tenant's machinery, appliances, or equipment (other than an insubstantial number of electric typewriters, small computers, calculators, electric office equipment, or equipment of equivalent nature and immaterial consumption of electric energy), or the electric system of the Demised Premises existing on the Commencement Date. If Landlord grants consent, it shall provide all additional risers or other equipment required therefor and Tenant shall pay the cost thereof upon Landlord's demand. As a condition to granting consent, Landlord may require Tenant to agree to an increase in the fixed minimum rent by an amount that will reflect the values to Tenant of the additional service to be furnished by Landlord, that is, the potential additional electrical energy to be made available to Tenant based upon the estimated additional capacity of the additional risers or other equipment. If Landlord and Tenant cannot agree thereon, the amount shall be determined by an independent electrical engineer, based on standard practices, to be selected by Landlord and paid by Tenant. When the amount of the increase is so determined, the parties shall execute a supplementary agreement to reflect the increase in the amount of fixed minimum rent stated in this Lease and in the amount set forth in Section 23.04, effective from the date the additional service is made available to Tenant; but the increase shall be effective from such date even if the supplementary agreement is not executed.

Section 23.03. *Utility rate adjustment.* A utility rate adjustment shall be made (as provided below) if any one or more of the following events occur: the public utility rate schedule for the supply of electric current to the Building is increased or decreased during the term of this Lease; there is a change in taxes; additional taxes are imposed upon the sale or furnishing of the electric current; there is a change in the space constituting the Demised Premises; if Tenant's failure to maintain its machinery and equipment in good order and repair causes greater consumption of electrical current; if

2-Forms Federal Taxes Affecting Real Estate [C]

Tenant uses electricity on days or hours other than those specified in the third sentence of Section 23.01; or if Tenant adds any machinery, appliances or equipment. In any such event, the fixed minimum rent herein reserved shall be equitably adjusted to reflect the resulting increase in use, and the amount set forth in Section 23.04 shall also be adjusted accordingly. If Landlord and Tenant cannot agree thereon, the amounts of the adjustments shall be determined, based on standard practices, by an independent electrical engineer, to be selected by Landlord and paid by Tenant. When the amounts are so determined, the parties shall execute a supplementary agreement to reflect such adjustments in the amount of the fixed minimum rent stated in this Lease and in the amount set forth in Section 23.04. The adjustments shall be effective from the date of the increase or decrease of such usage as determined by the electrical engineer, or, if applicable, from the effective date of such increase or decrease in the public utility rate schedule. However, the adjustments shall be effective from such date regardless of whether a supplementary agreement is executed.

Section 23.04. *Discontinued service.* If required by law or public regulation or the tariff of the applicable public utility, or if Landlord wishes to discontinue service to the balance of the Building, Landlord may discontinue furnishing electric energy to Tenant in the Demised Premises at any time by giving it not less than 90 days' notice. If Landlord exercises such right to termination, this Lease shall continue in full force and effect and shall be unaffected thereby. However, from and after the effective date of termination, Landlord shall not be obligated to furnish electric energy to Tenant and the fixed minimum rent payable under this Lease shall be reduced by \$44,714 per annum, plus or minus the amount of any change under Sections 23.02 and 23.03. If Landlord so discontinues furnishing electric energy to Tenant, Tenant shall arrange to obtain electric energy directly from the public utility company furnishing electric service to the Building. Such electric energy may be furnished to Tenant by means of the then existing building system feeders, risers, and wiring to the extent that they are available, suitable and safe for such purposes. Tenant shall install and maintain, at its expense, all meters and additional panel boards, feeders, risers, wiring, and other conductors and equipment which may be required to obtain electric energy directly from the public utility company.

Section 23.05. *Electric load limitation.* At no time will the average connected electrical load in each floor of the Demised Premises exceed 5 watts per square foot. Subject only to any limiting requirement, act or omission of the public utility serving the Building with electricity referred to in Section 23.01, as well as the provisions of Section 23.04, Landlord shall furnish sufficient electric energy to each floor of the Demised Premises to supply an average connected electrical load of 5 watts per square foot.

Section 23.06. *Electric tax.* If any tax is imposed upon Landlord with respect to electrical energy furnished as a service to Tenant by any federal, state, or municipal authority, Tenant shall, if permitted by law or applicable regulations, reimburse its pro rata share of the taxes to Landlord.

Section 23.07. *Electrical survey.* Although the charge for the service of redistributing and furnishing electrical energy is included in the fixed minimum rent on a so-called "rent inclusion" basis, Landlord shall, at tenant's expense, select an independent electrical engineer or electrical consulting firm doing solely such work to make a determination within one year next following the commencement of Tenant's normal business activities in all of the Demised Premises, of the charge for the electrical service supplied by the Landlord and used by Tenant annually in the Demised Premises. If Tenant disputes the determination of such engineer or consultant, Tenant may have a survey made by an independent electrical engineer or electrical consulting firm doing solely such work. If the two consultants so chosen do not agree upon the rent inclusion charges, they shall pick a third similar consultant, and the opinion of two of them shall be binding upon the parties. If it is finally determined that the charge exceeds or is less than \$44,714, the parties shall enter into a written supplementary agreement, in form satisfactory to Landlord, modifying this Lease by adjusting the fixed minimum rent by an amount equal to the difference. In that event, the \$44,714 figure set forth in Section 23.04 shall be changed in a like amount.

2-Forms Federal Taxes Affecting Real Estate [C]

Section 24.01. The sole broker who negotiated and brought about this transaction was Stanley & Drake, Inc. Landlord shall pay it a broker's commission as per separate agreement.

Article XXV Subordination

Section 25.01. *Subordination.* This Lease is and shall be subject and subordinate to any ground or underlying lease and any lease of air rights which may now or hereafter affect the Building, the Land, or both, and to any amendment, modification, renewal, or extension of the ground or underlying lease or lease of air rights. This Lease is also subject and subordinate to all mortgages which may now or hereafter affect any lease of air rights or ground or underlying lease or the Land and/or Building and to all renewals, modifications, amendments, consolidations, replacements, or extensions thereof. The Landlord or Lessor under any ground or underlying lease is referred to in this Lease as "Overlandlord." This clause shall be self-operative and no further instrument of subordination shall be required by any Overlandlord or Mortgagee. In confirmation of such subordination, Tenant without cost or charge to Landlord, shall execute promptly any certificate or instrument of subordination requested by Landlord. If Tenant fails upon reasonable request to execute the certificate or instrument, Tenant hereby constitutes and appoints Landlord its attorney-in-fact to execute all such certificates or instruments for and on behalf of Tenant.

Section 25.02. *Notice of mortgagees.* If there is any act or omission by Landlord which would or may give Tenant the right to terminate this Lease or to claim a partial or total eviction, Tenant will not exercise the right until:

- (a) It has given written notice of any such act or omission to the holder of any leasehold mortgage or of any fee mortgage and to the Landlord or Landlords of any ground or underlying lease or leases whose names and addresses previously have been furnished to Tenant by giving such notice, addressed to the holders and the Landlord or Landlords at the last addresses so furnished; and
- (b) A reasonable period of time for remedying such act or omission has elapsed following the giving of notice, during which any of the parties to whom notice was given has not commenced with reasonable diligence to remedy, or cause to be remedied, the act or omission.

Section 25.03. *Mortgage modification.* If, in connection with obtaining temporary or permanent financing for the Land and/or Building or of any ground or underlying lease, any lender requests reasonable modifications of this Lease as a condition to such financing, Tenant shall not unreasonably withhold, delay, or defer the execution of an agreement of modification of this Lease if such modifications do not increase Tenant's financial obligations hereunder or materially adversely affect the leasehold interest hereby created or Tenant's reasonable use and enjoyment of the premises. If Tenant refuses to execute and deliver any such modification agreement within ten days after its request by Landlord, Landlord may cancel and terminate this Lease. Upon such cancellation and termination neither party shall have any further right or obligation to the other arising out of the execution and delivery of this Lease.

Section 25.04. *Nondisturbance of Tenant.* Notwithstanding the provisions of Section 25.01, the subordination of this Lease to any later executed superior lease or superior mortgage or to any later renewal, modification, replacement, or any extension of superior lease or superior mortgage, or to any existing or future consolidation or spreader of any superior mortgage, is subject to the express conditions that, so long as this Lease is in full force and effect and Tenant is not in default of the terms and provisions of this Lease beyond any applicable grace periods:

- (a) Tenant shall not be joined as a party defendant (1) in any action or proceeding which may be instituted or taken by the lessor of the superior lease for the purpose of terminating it by reason of any default thereunder, or (2) in any foreclosure action or proceeding which may be instituted or taken by the holder of the superior mortgage; and
- (b) Tenant shall not be evicted from the Demised Premises, Tenant's leasehold estate under this Lease shall not be

terminated or disturbed, nor shall any of Tenant's rights under this Lease be affected in any way, by reason of any default under the superior leasehold or superior mortgage.

Section 25.05. *Attornment.* If the lessor of a superior lease or the holder of a superior mortgage succeeds to Landlord's rights under this Lease, whether through possession or foreclosure action or delivery of a new lease or deed, then at the request of the successor party ("successor landlord") and upon such successor landlord's written agreement to accept Tenant's attornment, Tenant shall attorn to and recognize the successor landlord as Tenant's landlord under this Lease, and shall promptly execute and deliver any instrument requested by the successor landlord to evidence such attornment. If Tenant refuses or fails promptly upon reasonable request to execute such instrument, Tenant hereby irrevocable appoints Landlord or the successor landlord its attorney-in-fact to execute and deliver the instrument on its behalf. Upon such attornment this Lease shall continue in full force and effect as if it were a direct lease between the successor landlord and Tenant upon all of the terms, conditions, and covenants set forth in it and shall be applicable after such attornment. However, the successor landlord shall not:

- (a) Have any liability for refusal or failure to perform or complete Landlord's work or otherwise to prepare the Demised Premises for occupancy in accordance with the provisions of Exhibit "B" of this Lease;
- (b) Be obligated under Article X to repair, restore, replace, or rebuild the Building or the Demised Premises, in case of total or substantially total damage or destruction, beyond any repair, restoration, or rebuilding that can reasonably be accomplished with the net proceeds of insurance actually received by, or made available to, the successor landlord;
- (c) Be liable for any of Landlord's previous acts or omissions under this Lease;
- (d) Be subject to any offset, not expressly provided for in this Lease, which has previously accrued to Tenant against Landlord;
- (e) Be bound by any previous modification of this Lease, except as expressly provided for in it, or in Article XIV, Section 14.03, by any previous prepayment of more than one month's rent, unless the modification or prepayment has been expressly approved in writing by the lessor of the superior lease or the holder of the superior mortgage through or by reason of which the successor landlord has succeeded to Landlord's rights under this Lease.

Article XXVI Legal Proceedings

Section 26.01. *Waiver of jury trial.* Landlord and Tenant hereby waive, to the extent not prohibited by law, the right to a jury trial in any action, summary proceeding, or legal proceeding between or among the parties or their successors arising out of this Lease, Tenant's occupancy of the Demised Premises, or Tenant's right to occupy the Demised Premises.

Section 26.02. *Tenant counterclaims.* Tenant hereby waives the right to interpose a counterclaim in any summary proceeding instituted by Landlord against Tenant or in any action instituted by Landlord for unpaid rent or additional rent under this Lease.

Section 26.03. *Tenant's equitable remedies.* If Tenant claims or asserts that Landlord has violated or failed to perform a covenant not to unreasonably withhold or delay Landlord's consent or approval, or whenever Landlord's reasonableness in exercising its judgment is in issue, Tenant's sole remedy shall be an action for specific performance, declaratory judgment, or injunction. Tenant shall not be entitled to any money damages for a breach of such covenant or to claim or assert any claims in any money damages in any action or by way of set off, defense, or counterclaim. Tenant hereby specifically waives the right to any money damages or other remedies.

2-Forms Federal Taxes Affecting Real Estate [C]

Article XXVII Surrender of Premises

Section 27.01. Upon the expiration or other termination of the term of this Lease, Tenant shall quit and surrender the Demised Premises in good order and condition, ordinary wear and tear and damage by fire or other casualty, or the elements excepted, and shall remove all its property therefrom, except as otherwise provided in this Lease. Tenant's obligation to observe or perform this covenant shall survive the expiration or other termination of this Lease term.

Article XXVIII Rules and Regulations

Section 28.01. *Rules and regulations.* Tenant, its servants, employees, agents, visitors, and licensees shall observe faithfully and comply strictly with the rules and regulations set forth in Exhibit "D" attached hereto and made a part hereof. Landlord may from time to time during the term of this Lease make reasonable changes in and additions to the rules thus set forth if such changes and additions are applicable to all other office tenants in the Building.

Section 28.02. *Enforcement.* Landlord's failure to enforce any existing or future rules and regulations, either against Tenant or any other tenant in the Building, shall not constitute a breach hereunder or waiver of any such rules and regulations. However, any rule or regulation not generally enforced against other Tenants in the Building will not be discriminatorily enforced against Tenant.

Article XXIX Successors and Assigns

Section 29.01. *Binding effect.* The covenants, conditions, and agreements contained in this Lease shall bind and inure to the benefit of the parties and their respective heirs, legal representatives, successors and, except as otherwise provided herein, assigns.

Section 29.02. *Landlord defined.* The term "Landlord" whenever used in this Lease shall be limited to mean only the owner or owners at the time in question of the Building or the tenant under a ground or underlying lease affecting the Land and/or the Building, to whom this Lease may be assigned, or an overlandlord who enters into possession, or a mortgagee in possession, so that in the event of any sale, assignment or transfer of the Landlord and/or Building, or of the ground or underlying lease, such owner, tenant under the ground or underlying lease or overlandlord or mortgagee in possession shall thereupon be released and discharged from all of Landlord's covenants, conditions and agreements thereafter accruing. However, such covenants, conditions and agreements shall be binding upon each new owner, tenant under the ground or underlying lease, overlandlord or mortgagee in possession for the time being of the Building, until sold, assigned, or transferred.

Article XXX Notices

Section 30.01. Any notice, request, demand, or communication permitted or required to be given by this Lease, or by any law or governmental regulation, by one party to the other, shall be in writing. Unless otherwise required by law or regulation, the notice, request, or demand shall be given, and shall be deemed to have been served and given, by Landlord and received by Tenant when Landlord deposits it by certified or registered mail, return receipt requested, enclosed in a securely closed postpaid wrapper, in a United States Government general or branch post office, addressed to Tenant (1) at the Demised Premises, or (2) until Tenant shall have moved its offices to the Demised Premises, addressed to Tenant at its address as stated on the first page of this Lease. Such notice, request, or demand shall be given, and shall be deemed to have been served and given by Tenant and received by Landlord, when Tenant deposits it, by certified or registered mail, return receipt requested, enclosed in a securely closed postpaid wrapper in such post

2-Forms Federal Taxes Affecting Real Estate [C]

office addressed to Landlord at its address stated on the first page of this Lease. Either party may, by notice sent in the above manner, designate a different address or addresses for notices, requests, demands, or communications to it.

Article XXXI No Waiver; Entire Agreement

Section 31.01. *Non-waiver.* The failure of either party to seek redress for violation of, or to insist upon the strict performance of, any covenant or condition of this Lease, or of Landlord to enforce any Rule or Regulation set forth or hereafter adopted by it, shall not prevent a subsequent act, which would have originally constituted a violation, from having all the force and effect of an original violation. The receipt by Landlord of rent or payment of rent by Tenant with knowledge of the breach of any covenant of this Lease shall not be deemed a waiver of the breach. No provision of this Lease shall be deemed to have been waived by either party, unless it is in writing signed by such party. No payment by Tenant or receipt by Landlord of a lesser amount than the monthly rent herein stipulated shall be deemed to be other than on account of the earliest stipulated rent, nor shall any endorsement or statement on any check or any letter accompanying any check or payment as rent be deemed an accord and satisfaction. Landlord may accept the check or payment without prejudice to its right to recover the balance of the rent or pursue any other remedy provided in this Lease.

Section 31.02. *Entire agreement.* This Lease together with the annexed Exhibits contains the entire agreement between the parties. Any executory agreement hereafter made between them shall be ineffective to change, modify, waive, release, discharge, terminate, or effect an abandonment of this Lease, in whole or in part, unless the executory agreement is in writing and signed by the party against whom enforcement of the change, modification, waiver, release, discharge, termination, or effecting of the abandonment is sought.

Section 31.03. *Severability.* If any term or provision of this Lease is to any extent invalid or unenforceable, the remainder of this Lease shall not be affected thereby and the remaining terms and provisions shall be valid and enforceable to the fullest extent either hereunder or as permitted by law.

Article XXXII Index and Captions; Estoppel Certificate

Section 32.01. *Headings.* The index preceding this Lease and the headings of Articles in this Lease are inserted only as a matter of convenience and for reference. They in no way define, limit, or describe the scope of this Lease or of the intent of any provision thereof.

Section 32.02. *Estoppel certificates.* Each party shall, at any one or more times, upon not less than 10 days' prior notice by the other party, execute, acknowledge, and deliver to it a written statement. The statement shall certify that this Lease is unmodified and in full force and effect (or, if there have been modifications, that the same is in full force and effect as modified and stating the modifications), state the dates to which the fixed minimum rent, additional rent, and other charges have been paid, and state whether to the best knowledge of the signer of the certificate, there exists any default in the performance of any covenant, agreement, term, provision, or condition contained in this Lease, and, if so, specify each such default. The parties intend that any such statement may be relied upon by the other party, by any mortgagee or prospective mortgagee of any mortgage affecting the Building or the Building and the Land or Tenant's interest in this Lease, by any Landlord under a ground or underlying lease affecting the Land or Building, and by any subtenant or assignee of Tenant's interest in this Lease.

Article XXXIII Inability to Perform

Section 33.01. *Landlord performance.* This Lease and Tenant's obligation to pay rent or additional rent hereunder and

2-Forms Federal Taxes Affecting Real Estate [C]

perform and comply with all of its other covenants and agreements hereunder shall in no way be affected, impaired, or excused because of Landlord's delay or failure to perform or comply with any of its covenants or provisions hereunder; or because Landlord is unable to fulfill any of its obligations under this Lease or to supply or is delayed in supplying any service expressly or impliedly to be supplied or is unable to make; or is delayed in making any repair, additions, alterations or decorations; or is unable to supply or is delayed in supplying any equipment or fixtures if Landlord is prevented or delayed from so doing by reason of strike or labor troubles or any other cause including, but not limited to, governmental preemption in connection with a National Emergency or by reason of any rule, order or regulation of any governmental department, agency, or subdivision thereof or the conditions of supply and demand which have been or are affected by war or other emergency. The time given to Landlord to comply with any obligation under this Lease shall be extended for a period equal to any period of delay resulting from any of the above causes.

Section 33.02. *Tenant performance.* This Lease and Landlord's obligation to perform and comply with its covenants and agreements hereunder shall in no way be affected, impaired, or excused because of Tenant's delay or failure to perform or comply with any of its covenants or provisions hereunder; nor because Tenant is unable to fulfill any of its obligations under this Lease or to supply or is delayed in supplying any service expressly or impliedly to be supplied; or is unable to make, or is delayed in making any repair, additions, alterations, or decorations; or is unable to supply or is delayed in supplying any equipment or fixtures, if Tenant is prevented or delayed from so doing by reason of strike or labor troubles or any other cause including, but not limited to, governmental preemption in connection with a National Emergency or by reason of any rule, order or regulation of any governmental department or subdivision or the conditions of supply and demand which have been or are affected by war or other emergency. The time given to Tenant to comply with any obligation under this Lease shall be extended for a period equal to any period of delay resulting from any of the above causes.

Article XXXIV No Representations by Landlord

Section 34.01. Neither Landlord nor its agents have made any representations or promises with respect to the Building, the Land, or the Demised Premises except as expressly set forth herein. No rights, easements, or licenses are acquired by Tenant by implication or otherwise except as expressly set forth in the provisions of this Lease. The taking possession of the Demised Premises by Tenant shall be conclusive evidence as against it, that Tenant accepts the premises and the Building and that they were in good and satisfactory condition when possession was so taken.

Article XXXV Memorandum of Lease

Section 35.01. This Lease shall not be recorded. The parties shall, if Tenant requires, execute and deliver a memorandum of this Lease in proper form for the purpose of recording. However, the memorandum shall not in any circumstances be deemed to modify or change any provision of this Lease. The Lease provisions shall in all instances prevail.

In witness whereof Landlord and Tenant have respectively signed and sealed this Lease as of the day and year first above written.

Exhibit "A" (Floor Plan)

Exhibit "B" Procedure for Tenant Work

1. Tenant's work

Tenant, at its expense, shall prepare a set of plans, which shall contain complete information and dimensions necessary for the construction and finishing of the premises. Tenant shall submit the plans to Landlord on or before the following dates:

(a) Partition layouts for A/C design: November 1, 2002.

(b) Final detail drawings: April 1, 2003.

In accordance with these plans, Landlord, at its expense, except as otherwise expressly specified in this Exhibit B and in the foregoing Lease, shall make and complete in and to the premises the following work and installations, all of which shall be of material, manufacture, design, capacity, finish, and color of the building-standard adopted by Landlord for the Building:

I. Partitions:

A. Furnish and install 2 1/2" metal stud drywall partitions with one layer of 5/8" sheetrock each side, spackled, taped and painted. One side of partitions shall extend to slab above hung ceiling.

B. At all points that any partition intersects the perimeter airconditioning enclosures, furnish and install sound baffles within these enclosures.

II. Doors, Bucks & Hardware:

A. Furnish and install ceiling high hollow metal doors in hollow metal bucks. Doors shall be a 3/4" thick. All doors shall be installed in bucks in locations as specified on Tenant's plans.

B. Closets. Each closet, 5'-0' (nominal) in length, ceiling high, and flush bi-fold doors; two wood hat shelves (paint grade) and one metal chrome coat rod. One closet for up to each 3,000 square feet of net rentable area.

C. Furnish and install 1 1/2 pairs of ball bearing butts, a heavy duty latch set, and door stop on each door as designated on the Tenant's plans. All hardware shall be Schlage D-Line or equal in satin chrome finish. Locksets and door closers

2-Forms Federal Taxes Affecting Real Estate [C]

shall be furnished and installed on the basis of a maximum of two doors per floor. All locksets shall be masterkeyed to building system.

III. Ceilings:

Furnish and install a building standard mechanically suspended acoustic ceiling, concealed spline, mineral fissured.

IV. Floor Covering:

A. Furnish and install building standard 1/8" vinyl asbestos tile in all noncarpeted areas including 4" rubber or vinyl base (cove or straight edge) in accordance with Tenant's plans. Colors to be selected by Tenant from Landlord's building standards. (The expression "noncarpeted areas" shall not be deemed to include those areas in which rugs and/or carpets are used or initially planned to be used by the Tenant.)

V. Venetian Blinds:

Furnish and install building standard venetian blinds on all windows of office floors in color and type as selected by Landlord. (No substitutions)

VI. Lighting:

A. Furnish and install one fluorescent lighting fixture per every 90 square feet of rentable area in the demised premises. These fixtures shall be 2' x 4' recessed, designed to contain four 40-watt fluorescent lamps with rapid start ballasts and acrylic plastic lens (without lamps).

B. Furnish and install all miscellaneous fixtures, either fluorescent or incandescent, for such areas as mechanical spaces, toilets, stairwells, exits, etc., in quantities to conform with the Building Code.

C. Furnish and install all quiet type single pole switches and associated wiring facilities required to service the aforementioned lighting fixtures, as required by municipal authorities, but in no event less than one per room.

VII. Electrical:

A. Furnish and install a cellular floor with active cells approximately 6'0" on center and a header duct system for power receptacles and telephone wiring system. Furnish and install, in locations designated on Tenant's plans, standard electrical duplex receptacles with the required associated wiring facilities in the quantity of one outlet per 100 square feet of rentable area in the demised area of which 25% can be floor outlets.

All floor outlets must be located directly above active floor cells.

B. Landlord shall provide adequate electrical power feeders to each floor not to exceed 6-watts per square foot rentable area for Tenant power and lighting requirements, exclusive of air conditioning and elevator power requirements.

C. Furnish and install one telephone outlet per 150 square feet of rentable area in the demised area of which 25% may be floor outlets. All floor outlets must be located directly above active floor cells.

VIII. Heating, Ventilating & Air Conditioning:

Year round air conditioning system except as otherwise provided in this lease, combining the use of periphery units and interior duct air distribution system. The periphery air conditioning system shall service that portion of the demised

2-Forms Federal Taxes Affecting Real Estate [C]

premises being approximately 15 ft. distant from the glass line of the Building. For periphery rooms, Landlord will furnish one thermostat for every two peripheral column bays. Interior duct distribution, including building standard ducts, grilles, etc., to accommodate Tenant's layout. The air conditioning system will maintain interior conditions of 78 degrees dry bulb and 50% relative humidity when outside conditions are 95 degrees dry bulb and 75 degrees wet bulb, and will provide fresh air in a quantity not less than 0.30 cu. ft. per minute per square foot of floor area provided that in any given room or area of the demised premises--the occupancy does not exceed one person for each 100 square feet of the Demised Premises and total connected electric load does not exceed 5 watts per sq. ft. of all purposes, including lighting and power. Duct distribution to accommodate Tenant's layout shall be designed only by Engineer in Landlord's employ.

IX. Plumbing:

Furnish and install rough plumbing for a reasonable amount of Tenant's electric water coolers but not to exceed an average of two per floor and said rough plumbing shall be located at a wet column. Connections and water coolers shall be at Tenant's expense.

X. Painting & Wall Coverings:

A. Paint all walls, vertical furring, nonacoustically treated ceilings, metal or wood doors and door bucks, convactor enclosures and all other masonry or metal surfaces. This painting shall consist of one prime coat and two coats of paint, flat or semi-gloss, stippled finish. Colors for this initial painting of all surfaces shall be selected by Tenant from 12 building standard colors, with no more than one color in any one room or open area.

B. Complete one coat repainting after the fifth and tenth years of the term of the Lease. Only those areas which were originally painted by Landlord at its expense are to be repainted, as called for above.

XI. Miscellaneous:

A. All work performed by the Landlord shall be performed in good and workmanlike manner and the quality of materials, equipment and fixtures shall be of good quality throughout the Building.

2. Substitutions and Credits

Tenant may select different new materials (except venetian blinds) in place of Building standard materials which would otherwise be initially furnished and installed by Landlord under the provisions of this Exhibit. If Tenant makes any such selection, or if different new materials are required because of any situation created by Tenant (by reason of subleasing or any other similar or dissimilar cause) wherein the Building Code prohibits the use of Landlord's Building standard materials, and if the Work Cost of the different new materials exceed Landlord's cost of its Building standard material thereby replaced, Tenant shall pay to Landlord, as provided below, the difference between the Work Cost and Landlord's Cost. Tenant may also indicate on its plans additional Building standard work and materials to be furnished and installed at its expense, and Tenant shall pay to Landlord, as provided below, the Work Cost of the additional work and materials. No different new materials shall be furnished and installed in replacement for any of Landlord's Building standard materials nor shall any additional work or additional materials be furnished and installed until Landlord has received Tenant's agreement to pay the difference between the Cost of the different new materials and Landlord's Cost of the replaced Landlord's Building standard materials, of the Cost of the additional work or additional materials, as the case may be. If within ten days after Landlord's notice to Tenant of such Costs Tenant fails to deliver to Landlord its agreement to pay them, Landlord may proceed with the installation of the Building standard materials which would otherwise have been initially furnished and installed by it under the provisions hereof. All amounts payable by Tenant to Landlord under this exhibit shall be paid as additional rent promptly after Landlord submits bills for them to Tenant. Landlord may submit bills while the work is being performed or while the materials for it are furnished and installed.

2-Forms Federal Taxes Affecting Real Estate [C]

Tenant shall be allowed credit equal to Landlord's unit costs for the omission of Landlord's Building standard materials, but only within each trade.

The term "Work Cost," as used in this Exhibit, shall mean the actual cost (including the cost of applicable insurance premiums and the cost of additional engineering, if any, required by reason of the next preceding paragraph) to Landlord's contractor of furnishing and installing the different new materials or the additional work or additional materials including 21% of the actual costs for the contractor's overhead and profit. The term "Landlord's Cost," as used in this Exhibit, shall mean the estimated or actual cost to Landlord of furnishing and installing its Building standard materials thereby replaced.

3. *Tenant's Installations*

(a) Tenant may employ directly any finishing trades, such as carpeting, curtains, and interior furnishings. Landlord shall provide access to the Demised Premises for such trades and also for the purpose of permitting Tenant to install its furniture, furnishings, business machines, and other like movable property when, in Landlord's opinion, the basic work in the Building and Demised Premises has been completed to the point that the installations or the work of such trades can be made and installed without delaying or interfering with the performance of the work of Landlord's contractors or subcontractors in the Demised Premises or elsewhere in the Building.

(b) All employees of the above finishing trades and those who are employed in Tenant's Installations shall be of union affiliation acceptable to Landlord's contractors and subcontractors. Tenant shall cooperate fully in the maintenance of harmony between all trades. If at any time any entry in the Building causes disharmony, or in Landlord's opinion, interferes with or tends to delay completion of the work of Landlord's contractors or subcontractors in the Demised Premises or elsewhere in the Building, Landlord may immediately withdraw this license by giving Tenant oral or written notice. As soon as such notice is given all employees engaged in the finishing trades or installations shall immediately withdraw from the Building and thereafter have no further right of access in or to the Building.

(c) All work and installations to be done in the Demised Premises by Tenant shall be performed whenever, in the judgment of Landlord and its contractor, the work will not interfere with the performance of other work of Landlord's contractors or subcontractors in the Demised Premises or elsewhere in the Building. Tenant shall pay Landlord for all loss of rent under the Lease caused by delays in the substantial completion of any part of the Demised Premises or the Building resulting from any interference with or delay of other work of Landlord's contractors or subcontractors in the Demised Premises or the Building.

(d) Any installation or work by Tenant shall be at its sole risk and any loss or damage to any work or installations by or for Tenant shall be borne solely by it. Neither Landlord nor its contractors shall be responsible for the care or safety of Tenant's work or installations. Tenant shall promptly repair any damage resulting from its acts or those of its contractors, subcontractors, agents, or employees in the Demised Premises in advance of or subsequent to the Commencement Date.

(e) Any entry upon the Demised Premises or in the Building by Tenant or its agents, employees, contractors, and workmen shall be deemed to be under all of the terms, covenants and provisions of the Lease, except as to the covenant to pay rent.

(f) Tenant shall enter into a written contract or contracts with Landlord's contractor covering the installation of Tenant's Work if the contractor agrees to perform the work and installations at a cost to Tenant not exceeding the contractor's cost plus 21% for its overhead and profits.

4. Miscellaneous

(a) Tenant, at its expense, shall file all required Tenant plans with the Department of Buildings and obtain approvals of other applicable governmental authorities.

(b) The Building, and all facilities and equipment installed by Landlord as part of Landlord's Work, whether in the Demised Premises or elsewhere in the Building, shall be constructed, installed, and operated in such a manner that noise and vibration levels in the Demised Premises resulting from operation of the facilities and equipment shall not exceed the noise and vibration levels in buildings of similar nature, where good construction and operating practices prevail. Landlord shall not be liable for noise or vibrations, however caused, emanating from sources outside the Building.

(c) Landlord at its expense, shall cause the Demised Premises, including the exterior and interior of the peripheral windows, to be cleaned on completion of construction immediately prior to Tenant's occupancy.

(d) All plans, drawings, and specifications for the Demised Premises and required to be submitted by Tenant to Landlord, shall comply and conform with the Building plans filed with the Department of Buildings of the City of New York, and with all the rules, regulations, and other requirements of any governmental department having jurisdiction over the construction of the Building or the Demised Premises. In completing the Building and the Demised Premises, Landlord may make all changes required by any governmental department and all changes and variations in construction due to or in order to meet job conditions affecting their construction. The changes or variations shall not be deemed to be a violation of Tenant's plans or any provision of this Exhibit, and shall be accepted by Tenant.

(e) Notwithstanding any contrary provision herein, if Tenant fails to comply with the Submission Dates as set forth in this Exhibit, Landlord may proceed with all its work in accordance with plans and drawings last submitted by either party to the other and with the standard of the Building. The completion shall be deemed to be substantial completion of the Premises in accordance with the provisions of the Lease.

If, within 30 days after the Submission Dates, Tenant submits no plans, Landlord may complete the Demised Premises only in accordance with the minimum legal requirements necessary for occupancy as "open space." Completion in such manner shall be deemed full compliance with this Exhibit and Landlord shall be released of all further obligations under it.

(f) If substantial completion of the Demised Premises or substantial performance of Landlord's work under this Schedule or further agreements between the parties pertaining to the work is delayed by Tenant's failure to comply with its obligations under this Schedule or by Tenant's changes, the term of this Lease and the payment of rent under it shall commence on the date such term and payment would have commenced had Tenant not so delayed completion of the work. In addition, Tenant shall pay the costs and damages sustained by Landlord by reason of the changes or delay in submitting the layouts.

(g) All of Tenant's plans and drawings shall be subject to Landlord's approval, which it shall not unreasonably withhold. Except as otherwise permitted or required herein, each party shall give the other its required approval or disapproval within 10 days after written request therefor. Submissions of shop drawings, plans, layouts, etc., and requests for authorization to proceed with work at Tenant's expense that are not disapproved or corrected within ten days shall be deemed approved.

2-Forms Federal Taxes Affecting Real Estate [C]

(h) The initial air conditioning duct distribution for the premises other than for special areas will be designed at Landlord's expense. If any engineering services are required for any other purposes or as a result of changes in any of Tenant's layout or its requirements for occupancy, Tenant shall reimburse Landlord for their cost. The engineering services shall be performed by Landlord's engineer only.

Exhibit "C" (Description of Land)

Exhibit "D" Rules and Regulations

1. The rights of tenants in the entrances, corridors, elevators, and escalators of the Building are limited to ingress to and egress from the tenants' premises for the tenants and their employees, licensees, and invitees. No tenant shall use, or permit the use of, the entrances, corridors, escalators, or elevators for any other purpose. No tenant shall invite to its premises, or permit the visit of, persons in such numbers or under such conditions as to interfere with the use and enjoyment of any plaza, entrance, corridor, escalator, elevator or other facility of the Building by other tenants. Tenant shall not use or permit its employees to use the elevators before 10:00 a.m. in a "Down" direction for purposes of taking a coffee break or similar activities. Fire exits and stairways are for emergency use only, and shall not be used for any other purposes by the tenants, their employees, licensees or invitees. No tenant shall encumber or obstruct, or permit the encumbrance or obstruction of any sidewalk, plaza, entrance, corridor, escalator, elevator, fire exit, or stairway of the Building. Landlord reserves the right to control and operate the public portions of the Building and the public facilities, as well as facilities, furnished for the common use of the tenants, in any manner it deems best for the benefit of the tenants generally.

2. The cost of repairing any damage to the public portions of the Building or the public facilities or to any facilities used in common with other tenants, caused by a tenant or its employees, licensees, or invitees, shall be paid by the tenant.

3. Landlord may refuse admission to the Building outside of ordinary business hours to any person not known to the watchman in charge or not having a pass issued by the Landlord or not properly identified, and may require all persons admitted to or leaving the Building outside of ordinary business hours to register. Tenant's employees, agents, and visitors shall be permitted to enter and leave the building whenever appropriate arrangements have been previously made between the Landlord and the Tenant with respect thereto. Each tenant shall be responsible for all persons for whom permission is requested and shall be liable to the Landlord for all acts of such persons. Any person whose presence in the Building at any time shall, in Landlord's judgment, be prejudicial to the safety, character, reputation, and interests of the Building or its tenants may be denied access to the Building or may be ejected from it. For the safety of the tenants and protection of property in the Building, Landlord may prevent all access to the Building, by closing the doors or otherwise, during any invasion, riot, public excitement, or other commotion. Landlord may require any person leaving the Building with any package or other object to exhibit a pass from the tenant from whose premises the package or object is being removed, but the establishment and enforcement of such requirement shall not impose any responsibility on Landlord for the protection of the tenant against the removal of such property. Landlord shall, in no way, be liable to any tenant for damages or loss arising from the admission, exclusion, or ejection of any person to or from the tenant's premises or the Building under this rule.

4. No tenant shall obtain or accept for use in its premises ice, drinking water, food, vending machines, beverage, towel, barbering, boot blacking, floor polishing, lighting maintenance, cleaning, or other similar services from any persons not authorized by the Landlord in writing to furnish such services, if Landlord authorizes a person or persons to provide services desired by Tenant, and the charges for services are not excessive. The services shall be furnished only at the hours, in the places within the tenant's premises, and under the regulations fixed by Landlord.

5. No tenant shall install any awnings or other projections over or around the windows. Only window blinds supplied or

2-Forms Federal Taxes Affecting Real Estate [C]

permitted by Landlord shall be used in a tenant's premises.

6. No hand trucks, except those equipped with rubber tires and side guards, shall be used by Tenant, jobbers, or others in delivering or receiving merchandise in any space or the public halls of the Building.

7. All entrance doors in each tenant's premises shall be left locked when the premises are not in use. Entrance doors shall not be left open at any time. All windows in each tenant's premises shall be kept closed at all times and all blinds therein above the ground floor shall be lowered when and as reasonably required because of the position of the sun, during the operation of the Building air conditioning system to cool or ventilate the tenants' premises.

8. No noise, including the playing of any musical instruments, radio, or television, which, in Landlord's judgment, might disturb other tenants in the Building shall be made or permitted by any tenant. No cooking shall be done in the tenant's premises, except as expressly approved by Landlord. Nothing shall be done or permitted in any tenant's premises, and nothing shall be brought into or kept in any tenant's premises, which would impair or interfere with any of the Building services, the proper and economic hearing, cleaning or other servicing of the Building or the premises, or the use or enjoyment by any other tenant of any other premises. No tenant shall install any ventilating air conditioning, electrical, or other equipment of any kind which might cause any such impairment or interference.

9. Tenant shall not permit any cooking or food odors emanating within the Demised Premises to seep into other portions of the Building.

10. No acids, vapors, or other materials shall be discharged or permitted to be discharged into the waste lines, vents, or flues of the Building which may damage them. The water and wash closets and other plumbing fixtures in or serving any tenant's premises shall not be used for any purpose other than that for which they were designed or constructed, and no sanitary napkins, paper towels, sweepings, rubbish, rags, acids, or other foreign substances shall be deposited therein. Each tenant shall be responsible for all damages resulting from any misuse of the fixtures by it or by its servants, employees, agents, visitors, or licensees.

11. No signs, advertisement, notice, or other lettering shall be exhibited, inscribed, painted, or affixed by any tenant on any part of the outside or inside the premises or the Building without Landlord's prior written consent. If any tenant violates the preceding rule, Landlord may remove the sign or other lettering without any liability and charge the tenant for the resulting expense. Interior signs and lettering on doors and elevators shall be inscribed, painted, or affixed for each tenant by Landlord at the Tenant's expense, and shall be of a size, color and style acceptable to Landlord. Landlord may prohibit any advertising by any tenant which impairs the reputation of the building or its desirability as a building for offices, and upon written notice from Landlord, Tenant shall refrain from or discontinue such advertising.

12. No additional locks or bolts of any kind shall be placed upon any door or window in any tenant's premises and no lock on any door therein shall be changed or altered in any respect. Duplicate keys for a tenant's premises and toilet rooms shall be procured only from Landlord, which may make a reasonable charge therefor. Upon the termination of a tenant's lease, all keys of the tenant's premises and toilet rooms shall be delivered to Landlord.

13. No tenant shall mark, paint, drill into, or in any way deface any part of the Building or the premises demised to him. No boring, cutting or stringing of wires shall be permitted, except with Landlord's prior written consent and as directed by Landlord. No tenant shall install any resilient tile or similar floor covering in the demised premises except in a matter approved by Landlord.

14. No tenant shall use or occupy, or permit any portion of the demised premises to be used or occupied, as an office for a public stenographer or typist, as a barber or manicure shop, or as an employment bureau. No tenant or occupant shall engage or pay any employees in the Building, except those actually working for such tenant or occupant in the Building, nor advertise for laborers giving an address at the Building.

15. No premises shall be used, or permitted to be used, at any time, as a store for the sale or display of goods, wares, or merchandise of any kind, as a restaurant, shop, booth, bootblack, or other stand, for the conduct of any business or occupation which predominantly involves direct patronage of the general public in the premises demised to such tenant, or for manufacturing or other similar purposes. However, nothing in the preceding sentence shall prohibit the conduct of the business and services of securities and commodities brokerage and investment banking.

16. The requirements of tenants will be attended to only upon application at the building office. Landlord's employees shall not perform any work or do anything outside of the regular duties, unless under special instructions from Landlord's office.

17. If Landlord is required to discontinue providing electric current to the premises demised to Tenant, each tenant shall, at its expense, provide artificial light in its demised premises for Landlord's agents, contractors, and employees while performing janitorial or other cleaning services and making repairs or alterations in such premises.

18. The tenant's employees shall not loiter around the hallways, stairways, elevators, front, roof, or any other part of the building used in common by the occupants thereof.

19. If the premises demised to any tenant become infested with vermin, such tenant, at its expense, shall cause its premises to be exterminated, from time to time, to Landlord's satisfaction, and shall employ only those exterminators approved by Landlord.

20. Tenant shall, at its expense, care for and clean all cuspidors or similar containers or receptacles used in any tenant's premises. C.6 Amendment to office space lease providing for expansion of space--rent increase for added space--option for additional expansion space--right of first offer--renewal option

COMMENT

Lease amendments:

As with any contract, a lease may be amended in accordance with applicable requirements of law and the original requirement. Most leases provide that they can be amended, but only in a writing signed by both parties. Such a writing, the lease amendment, changes and becomes a part of the original lease. This lease amendment form specifically refers to, changes and deletes the various affected sections of the original lease.

Lease amendments are commonly needed to adjust the agreement of the parties to account for unanticipated changes in the premises or the business needs of one or both of the parties. This form amends a number of sections of the original lease in response to the unanticipated growth of the tenant. Among other things, the amendment provides for three separate office space expansions (including changes in rent to account for the additional space), an option to expand more in the future, a right of first refusal for certain nearby office space, and a renewal option.

Option to expand space:

If a tenant anticipates future growth, the tenant may want the option to expand the area of its premises in the landlord's facility. Expansion options may be achieved by giving the tenant the right of first refusal or the right of first offer for the desired space as it becomes available. Such a provision will give the tenant a right to lease the desired space that is superior to the right of any third party. Under such an arrangement, the tenant has no obligation to lease the additional space if and when it becomes available. Alternatively, surrounding tenants may be restricted to short-term leases of adjoining space, which are

2-Forms Federal Taxes Affecting Real Estate [C]

expressly subject to the right of the landlord to relocate them if the principal tenant seeks to expand.

Right of first offer:

This form accommodates the tenant's concerns about future expansion by granting the tenant a right of first offer. The landlord who gives a tenant a right of first offer is obligated to offer to lease the desired premises to the tenant before offering to lease the premises to any third parties. The tenant's right to lease is activated when the landlord offers the property to the tenant at a rental price and upon terms chosen by the landlord. The tenant may accept the landlord's terms for the lease, or, if not, the landlord may offer the premises to third parties at the same rental price and upon the same terms.

For further information, see Chapter 4.

FORM

AMENDMENT TO LEASE

THIS AMENDMENT TO LEASE ("Amendment") is made _____, 20_____,
between _____ Associates, a limited partnership in the State of _____ (Landlord),
and _____ Corp., a corporation incorporated under the laws of the State of _____
(Tenant).

RECITALS:

A. Landlord and Tenant entered into a certain Lease dated _____, 20_____, as amended by an Amendment to Lease dated _____, 20_____ (collectively the "Lease"), for the lease of certain premises now containing approximately _____ useable square feet (the "Existing Premises"), as more particularly described in the Lease, which space is known as Suite _____ and is located on the eighth floor of the building known as The _____ Building, in the City of _____, State of _____.

B. Tenant desires to lease additional space on the eighth floor of The _____ Building, shown within the area outlined in red on Exhibit B, attached hereto and by this reference made a part hereof, containing approximately _____ useable square feet (the "First Expansion Space").

C. Tenant desires to lease additional space on the seventh floor of The _____ Building, shown within the area outlined in red on Exhibit C, attached hereto and by this reference made a part hereof, containing approximately _____ useable square feet (the "Second Expansion Space").

D. Tenant desires to lease additional space on the ninth floor of The _____ Building, shown within the area outlined in red on Exhibit D, attached hereto and by this reference made a part hereof, containing approximately _____ useable square feet (the "Third Expansion Space").

E. Landlord and Tenant desire to amend the Lease in order to provide for the terms of leasing the First Expansion Space, the Second Expansion Space and the Third Expansion Space and to memorialize other changes they have agreed to concerning the Lease by entering into this Third Amendment.

2-Forms Federal Taxes Affecting Real Estate [C]

NOW, THEREFORE, in consideration of the premises, the terms, covenants and conditions set forth below and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Landlord and Tenant agree as follows:

1. *Certain Definitions.* Unless specifically defined herein or the context clearly requires a different meaning, the words and phrases used herein that are defined in the Lease and not otherwise defined in this Amendment shall have the meanings ascribed to them in the Lease. The term "First Effective Date" as used herein means the date that Landlord substantially completes and delivers the First Expansion Space to Tenant. The term "Second Effective Date" as used herein means the date that Landlord substantially completes and delivers the Second Expansion Space to Tenant. The term "Third Effective Date" as used herein means the date that Landlord substantially completes and delivers the Third Expansion Space to Tenant.

2. *Term.* The term of the Lease is hereby extended for a period of approximately seven (7) years beginning on the First Effective Date and ending seven (7) years after the last day of the month in which the First Effective Date occurs (the "Extended Term").

3. *First expansion space.* Effective as of the First Effective Date, Landlord leases to Tenant and Tenant hereby leases from Landlord the First Expansion Space. As of the First Effective Date, the Premises and all references thereto throughout the Lease shall include the First Expansion Space and the total square footage of the Premises shall contain _____ useable square feet and _____ rentable square feet.

As of the First Effective Date, the second sentence of Section _____ of the Lease is hereby deleted in its entirety and the following is substituted in lieu thereof:

"Tenant acknowledges, understands and agrees that the rentable square footage of the Premises (_____ square feet) rather than the usable square footage of the Premises (_____ square feet) is the basis for calculating rental increases for Real Estate Taxes and Building Operating Costs."

4. *Second expansion space.* Effective as of the Second Effective Date, Landlord leases to Tenant and Tenant hereby leases from Landlord the Second Expansion Space. As of the Second Effective Date, the Premises and all references thereto throughout the Lease shall include the Second Expansion Space and the total square footage of the Premises shall contain _____ useable square feet and _____ rentable square feet.

As of the Second Effective Date, the second sentence of Section _____ of the Lease is hereby deleted in its entirety and the following is substituted in lieu thereof:

"Tenant acknowledges, understands and agrees that the rentable square footage of the Premises (_____ square feet) rather than the usable square footage of the Premises (_____ square feet) is the basis for calculating rental increases for Real Estate Taxes and Building Operating Costs."

5. *Third expansion space.* Effective as of the Third Effective Date, Landlord leases to Tenant and Tenant hereby leases from Landlord the Third Expansion Space. As of the Third Effective Date, the Premises and all references thereto throughout the Lease shall include the Third Expansion Space and the total square footage of the Premises shall contain _____ useable square feet and _____ rentable square feet.

As of the Third Effective Date, the second sentence of Section _____ of the Lease is hereby deleted in its entirety and the following is substituted in lieu thereof:

"Tenant acknowledges, understands and agrees that the rentable square footage of the Premises (_____ square feet) rather than the usable square footage of the Premises (_____ square feet) is the basis for

2-Forms Federal Taxes Affecting Real Estate [C]

calculating rental increases for Real Estate Taxes and Building Operating Costs."

6. *New Exhibit A.* The Lease Data Sheet attached to the Lease as Exhibit A is deleted in its entirety and Exhibit A attached hereto is substituted as the new Lease Data Sheet.

7. *Rent.* During the Extended Term, Tenant covenants and agrees to pay to Landlord, at such place as Landlord may designate, without deduction or setoff, except as otherwise expressly provided in the Lease, rent for the Premises as follows:

(a) During the period beginning on the First Effective Date and ending on the date preceding the Second Effective Date, the sum of \$_____ per annum, in equal monthly installments of \$_____ each, in advance on the first day of each and every calendar month during said period;

(b) During the period beginning on the Second Effective Date and ending on the date preceding the Third Effective Date, the sum of \$_____ per annum, in equal monthly installments of \$_____ each, in advance on the first day of each and every calendar month during said period;

(c) During the period beginning on the Third Effective Date and ending _____, 20_____, the sum of \$_____ per annum, in equal monthly installments of \$_____ each, in advance on the first day of each and every calendar month during said period;

(d) During the period beginning _____, 20_____ and ending _____, 20_____, the sum of \$_____ per annum, in equal monthly installments of \$_____ each, in advance on the first day of each and every calendar month during said period; and

(e) During the period beginning _____, 20_____ and ending on the expiration date of the Extended Term, the sum of \$_____ per annum, in equal monthly installments of \$_____ each, in advance on the first day of each and every calendar month during said period.

8. *Rent abatement.* Effective as of the First Effective Date, Section _____ of the Lease, captioned "Rent Abatement," is hereby deleted in its entirety and the following is substituted in lieu thereof:

"Notwithstanding anything to the contrary contained in Section _____ of the Lease or the Lease Data Sheet, Tenant shall be entitled to a rent abatement at the rates and at the time set forth in the following schedule (collectively the "Rental Abatement"):

TIME PERIOD	RATE PER MONTH

Beginning on the Second Effective Date and ending _____ months thereafter.	\$_____ per month.

Beginning on the Third Effective Date and ending _____ months thereafter.	\$_____ per month.

2-Forms Federal Taxes Affecting Real Estate [C]

The Rental Abatement provided for in this Section is applicable only during the Extended Term and is totally inoperable and without effect during any renewal period of the Lease.

9. *Increases for taxes and building costs.*

(a) Effective as of the First Effective Date, Second Effective Date and Third Effective Date, Tenant's pro rata share of Building Operating Costs and Real Estate Taxes shall be respectively increased as shown in Sections _____, _____, _____, and _____ of the Lease Data Sheet attached as Exhibit A.

(b) Notwithstanding anything to the contrary contained in Section _____ of the Lease, Tenant's pro rata share of any increase for any comparison year in Building Operating Costs shall not exceed _____ percent of Tenant's pro rata share of those expenses for the preceding comparison year, or a _____ percent increase on a cumulative basis for the Extended Term.

10. *Improvements.* Landlord, at Landlord's expense, agrees to make the improvements to the First Expansion Space and the Existing Premises in accordance with the work letter and floor plan attached hereto as Exhibit E. Notwithstanding the foregoing, Tenant shall pay the sum of \$ _____ toward the cost of the improvements for the First Expansion Space, which sum shall be paid by Tenant to Landlord on or before the First Effective Date. Landlord, at Landlord's expense, agrees to make the improvements to the Second Expansion Space in accordance with the work letter attached hereto as Exhibit F. Landlord, at Landlord's expense, agrees to remodel the Third Expansion Space in the same manner and style and on the same terms as provided for in the Existing Premises.

11. *Storage area.* Landlord shall relocate Tenant's storage area to another location of comparable size in The _____ Building.

12. *Additional expansion space options.*

(a) The first paragraph of Section _____ of the Lease is hereby deleted in its entirety and the following is substituted in lieu thereof:

"Tenant shall have options to lease the respective additional amounts of rentable square feet shown at Sections _____ and _____ on the Lease Data Sheet located on the tenth floor of the Building by giving written notice to Landlord on or before the respective dates shown at Sections _____ and _____ on the Lease Data Sheet. Such options are given upon the following terms and conditions:"

(b) The term "Expansion Space Effective Date" as used in Section _____ of the Lease shall mean the dates appearing in Section _____ and Section _____ of the Lease Data Sheet, whichever may be applicable at the time in question.

(c) The following is added to the end of Section _____ of the Lease as Subsection _____ :

"If the spaces identified in Sections _____ and _____ of the Lease Data Sheet become available prior to the respective times specified, then Landlord will notify Tenant of such availability and Tenant may elect to lease such space(s) on the same terms as provided above. Tenant must exercise such election within fifteen (15) business days after receipt of Landlord's notice. If Tenant fails to exercise such option(s), Landlord may lease that space to another tenant; however, Tenant shall again have the right to elect to lease such space(s) at the times originally

stated."

(d) Section _____ of the Lease is deleted in its entirety and the following is substituted in lieu thereof:

"The annual rent for the additional space shall be at the same rate per rentable square foot, including all applicable escalations, then being paid by Tenant for the Existing Premises as of the Expansion Space Effective Date, but subject to the rental increases for the Existing Premises in effect from time to time as provided in Sections 7 and 17 of this Amendment."

(e) Notwithstanding anything to the contrary contained in this Amendment, the Lease Data Sheet or the Lease, Tenant's Second Expansion Option more fully described in Section _____ of the Lease Data Sheet, shall be null and void unless Tenant simultaneously exercises its renewal option in accordance with the provisions of Section 17 of this Amendment.

13. *Right of first offer.*

(a) During the Extended Term, Tenant shall have the right of first offer (the "Right of First Offer"), to lease space located on the tenth and eleventh floors of The _____ Building (the "Offer Space"), subject to Sections 13(b) through 13(f) of this Amendment, inclusive.

(b) At the time Tenant exercises a Right of First Offer:

(i) The Lease must be in full force and effect;

(ii) Tenant shall not be in Default; and

(iii) The commencement date of the lease for any Available First Offer Space must be at least three (3) years prior to the expiration date of the Extended Term unless Tenant simultaneously exercises its option to renew in accordance with the provisions of Section 17 of this Amendment.

(c)(i) Subject to the other terms of this Section 13, after any part of the Offer Space has or will "become available" (defined below), Landlord shall not, during the Extended Term, offer on the market or lease to another tenant that space within the Offer Space that has or will become available without first offering Tenant the right to lease that space.

(ii) Space shall be deemed to become available when the lease for the current occupant of the space expires or is otherwise terminated.

(iii) Notwithstanding Section 13(c)(ii) of this Amendment, Offer Space shall not be deemed to become available if the space is:

(1) Assigned or subleased by the current tenant of the space;

(2) Released by the current tenant of the space by renewal, extension, or renegotiation;

(3) Subject to a specific expansion right of another tenant in the Building existing as of the date of this Amendment unless and until such tenant(s) has (have) failed to timely exercise its (their) option(s) or right(s); or

(4) Not leased to a tenant as of the date of this Lease (until that space is leased, and then subsequently "becomes available").

2-Forms Federal Taxes Affecting Real Estate [C]

(iv) Consistent with Section 13(c)(i) of this Amendment, Landlord shall not offer any such Offer Space on the open market unless and until Landlord has first notified Tenant in writing (the "First Offer Leasing Notice") that Landlord intends to offer the designated Offer Space to third parties, and until a period of fifteen (15) days has elapsed from the date that Landlord has delivered to Tenant the First Offer Leasing Notice without Tenant having notified Landlord in writing of Tenant's desire to lease all of the Available First Offer Space (defined below). The First Offer Leasing Notice shall:

(1) Advise Tenant that Landlord intends to offer on the market the Available First Offer Space;

(2) Describe the amount and location of the First Offer Space that has or will become available (the "Available First Offer Space") and attach a floor plan showing the Available First Offer Space crosshatched; and

(3) Set forth the date on which the Available First Offer Space will be available for leasing by Tenant (which shall not be more than twelve (12) months and not less than three (3) months after the date of the First Offer Leasing Notice).

(v) Subject to Section 13(b) of this Amendment, if Tenant delivers to Landlord written notice of Tenant's desire to lease all of the Available First Offer Space within the fifteen-day period, the Available First Offer Space shall be leased by Tenant on the terms and conditions set forth in this Section 13.

(vi) If Tenant declines or fails to effectively exercise the Right of First Offer as provided herein or fails to meet the conditions set forth in Section 13(b) of this Amendment, Landlord shall thereafter be free to offer the particular Available First Offer Space previously identified in a First Offer Leasing Notice on the open market and to lease some or all of that Available First Offer Space previously offered to Tenant at any time without regard to the restrictions in this Section 13 and on whatever terms Landlord may decide in its sole discretion.

(vii) If Landlord rejects Tenant's acceptance of any Offer Space because Tenant fails to meet the conditions in Section 13(b) or (c) of this Amendment, Landlord must provide to Tenant a written notice within ten (10) days after receiving Tenant's acceptance, which Landlord notice shall specify in detail how Tenant failed to meet the cited conditions.

(d) If Tenant leases Available First Offer Space under this Section 13, all of the terms and conditions of the Lease shall apply to the Available First Offer Space except that:

(i) The commencement date of the Lease for each particular Available First Offer Space shall be seven (7) days after the Available First Offer Space is delivered to Tenant broom clean, free of tenants or other occupants, and otherwise in the condition required by Section 13(d)(ii), and the termination date shall be the same as for the Existing Premises, including any extension or renewal terms (exercised or to be exercised).

(ii) Landlord shall build-out the Available First Offer Space in the same manner and style as for the Existing Premises or if the Available First Offer Space is already built out, then Landlord shall adapt the Available First Offer Space to conform with the style and layout of the Existing Premises.

(iii) The annual rent for the Available First Offer Space shall be at the same rate per rentable square foot, including all escalations, then being paid by Tenant for the Existing Premises as of the commencement of the lease for the Available First Offer Space, but subject to rental increases for the Existing Premises in effect from time-to-time as provided in Sections 7 and 17 of this Amendment.

(iv) As of the commencement date for the Available First Offer Space, Tenant's pro rata share shall be increased to an amount computed by dividing the total of the rentable square footage of the Existing Premises plus all Available First Offer Space leased by Tenant plus all other space becoming part of the Existing Premises after the date of this Amendment (the numerator) by the rentable square footage of The _____ Building (the denominator),

2-Forms Federal Taxes Affecting Real Estate [C]

and expressing the fraction as a percentage.

(v) Any Available First Offer Space taken by Tenant shall be deemed part of the Premises as of the commencement of the lease term for such Available First Offer Space taken by Tenant.

(e) Landlord shall use commercially reasonable efforts to remove any holdover tenants or other occupants from the Available First Offer Space Tenant leases under this Section 13. Although Landlord shall not be liable for any damages for any holdover Tenant or other occupant (unless Landlord is not using commercially reasonable efforts to remove the holdover tenant or other occupant), all of Tenant's obligations regarding the Available First Offer Space shall be abated until the holdover tenant or other occupant is removed, and the commencement date for the Available First Offer Space shall be delayed until the holdover tenant or other occupant is removed.

(f) The parties shall, within thirty (30) days after each time Tenant adds any Available First Offer Space, confirm in writing:

(i) The Commencement date for the Available First Offer Space;

(ii) The Available First Offer Space that was leased showing that space cross-hatched;

(iii) The additional rent to be paid for the Available First Offer Space;

(iv) The increased pro rata share allocated to the Available First Offer Space; and

(v) Any other terms related to the Available First Offer Space or this lease that either party reasonably requests to be confirmed.

14. *Rental escalations--operating expenses.* Tenant shall have the right to audit Building Operating Costs payable as provided in Section _____ of the Lease upon thirty (30) days prior written notice to Landlord. Tenant's right to dispute any item pursuant to Section _____ of the Lease is subject to the condition that Tenant shall have paid to Landlord all amounts due from Tenant to Landlord on or before the time required therefor under the provisions of the Lease. In no event shall Tenant be entitled to withhold, deduct, or offset any monetary obligation of Tenant to Landlord under the Lease (including, without limitation, Tenant's obligation to make all rental payments and all payments for its pro rata share of real estate taxes and Building Operating Costs) pending the resolution of any disputed item. Tenant acknowledges that Landlord maintains its records for this property at its offices at _____ Street, City of _____, State of _____, and Tenant therefore agrees that any review of records under this Subsection shall occur at that location.

Tenant acknowledges and agrees that any records reviewed under Section _____ of the Lease constitute confidential information of Landlord, which shall not be disclosed to anyone other than the accountants performing the review, the principals of Tenant who receive the results of the review and Tenant's attorneys. Any dispute arising from any audit as provided in this Section 14 shall be subject to arbitration as provided in Section _____ of the Lease.

15. *Right to relocate.* Landlord reserves the right at any time to relocate Tenant from the Second Expansion Space to other space within the Building. Landlord shall give Tenant at least sixty (60) days' prior written notice of its intention to relocate Tenant from the Second Expansion Space to other space within the Building. Landlord shall make reasonable efforts to assure that the relocated premises are comparable in size and tenant finish with the Second Expansion Space; however, the relocated premises shall contain at least _____ percent of the number of useable square feet that are contained in the Second Expansion Space. The rent for the relocated premises will be calculated at the rate per rentable square foot of floor area as the rate from time to time in effect for the Second

2-Forms Federal Taxes Affecting Real Estate [C]

Expansion Space, but will not exceed the rent for the Second Expansion Space regardless of whether the relocated premises are larger than the Second Expansion Space. Landlord agrees to pay the reasonable costs of moving Tenant from the Second Expansion Space to the relocated premises and the cost of replacing Tenant's then existing stock of stationary and business cards bearing the Second Expansion Space suite number.

16. *Minimum space guaranty.*

(a) During calendar year 20_____, Landlord shall afford Tenant the opportunity to lease at least_____ square feet of additional space in the Building for a term commencing on or about_____, 20_____ and ending on the same termination date as for the Existing Premises including any extension or renewal term (exercised or to be exercised). Any additional space offered to Tenant during calendar year 20_____ as provided in Section_____ of the Lease and Section 13 of this Amendment shall be credited against that_____ square feet. Any additional space offered to Tenant other than pursuant to the provisions of Section_____ of the Lease or Section 13 of this Amendment shall be offered by Landlord to Tenant on the same terms and conditions as provided in Sections 13(b), (c)(iv)-(vii), (d), (e) and (f) of this Amendment. The additional space contemplated by this paragraph need not be a single block of space, but rather may comprise multiple areas of The_____ Building that together aggregate approximately_____ square feet.

(b) If Tenant exercises its renewal option in accordance with the provisions of Section 17 of this Amendment, then during calendar year 20_____, Landlord shall afford Tenant the opportunity to lease at least_____ square feet of additional space in The_____ Building for a term commencing on or about_____, 20_____ and ending on the expiration date of the renewal option described in Section 17 of this Amendment. Any additional space offered to Tenant during calendar year 19_____, as provided in Section_____ of the Lease and Section 13 of this Amendment, shall be credited against the_____ square feet. Any additional space offered to Tenant, other than pursuant to the provisions of Section_____ of the Lease or Section 13 of this Amendment, shall be offered by Landlord to Tenant on the same terms and conditions as provided in Section 13(b), (c)(iv)-(vii), (d), (e) and (f) of this Amendment. The additional space contemplated by this paragraph need not be a single block of space, but rather may comprise multiple areas of The_____ Building that together aggregate approximately_____ square feet.

17. *Renewal option.* Section_____ of the Lease is deleted in its entirety and the following is substituted in lieu thereof:

"(a) The Tenant shall, if it is not in default, have the option to extend this Lease for one (1) period (renewal period) as shown at Item_____ on the Lease Data Sheet for the number of years shown at Item_____ on the Lease Data Sheet by giving written notice of such renewal to Landlord no later than the date shown at Item_____ on the Lease Data Sheet.

"(b) If such option to extend is exercised, all provisions and covenants of this Lease shall be in full force and effect during such extended term, except that the annual rental during the renewal period shall be the higher of (i) the annual rental payable by Tenant during the last year of the Extended Term of this Lease, or (ii) the product of the annual rental payable by Tenant during the last year of the Extended Term of this Lease multiplied by a fraction, the numerator of which shall be the Department of Labor, Bureau of Labor Statistics Consumer Price Index for "All Urban Consumers" (CPI-U, 1982-84 Base = 100, the "Index") as of the first day of the renewal period and the denominator of which shall be the Index as of the Effective Date (i.e.,_____, 20_____).

"References to the Consumer Price Index applicable to any date means the Consumer Price Index published most recently prior to that date. If the Department of Labor, Bureau of Labor Statistics, ceases to publish the Index, the index

2-Forms Federal Taxes Affecting Real Estate [C]

that would most nearly accomplish the purpose and use thereof by the parties hereto with respect to the adjustment in rent herein contemplated shall be used in lieu of the Index. As soon as Landlord obtains the necessary data, it shall determine the annual rent payable during the renewal period and notify the Tenant of the adjustment in writing. Pending that determination, Tenant shall continue to pay the same monthly rent it was paying during the last year of the Extended Term. Should the monthly rent for the period following that adjustment date exceed the monthly rent previously paid by Tenant for such period, Tenant shall forthwith pay the difference to Landlord.

(c) If (i) Tenant shall fail to exercise the renewal option during the period in which it is available and in the manner required hereby, or (ii) this Lease is no longer in full force and effect for any reason, or (iii) Tenant is in default under this Lease, at the time of such exercise, said renewal option shall terminate, be void and of no further force or effect.

"(d) Unless otherwise herein expressly provided, any reference in this Lease to the "term of this Lease" shall mean the original term hereof, the Extended Term and the renewal period, if exercised by Tenant pursuant to its option to renew set forth in this Section, except to the extent that the original term, the Extended Term or renewal period may be sooner terminated or canceled under any provisions of this Lease.

"(e) The base year for rental escalation during the renewal period shall be the escalation base year as set out at Item _____ on the Lease Data Sheet."

18. *Reaffirmation and conflicts.* All of the terms, covenants and conditions of the Lease shall continue in full force and effect, and the same are hereby reaffirmed, remade and rewritten, except to the extent that any such terms, covenants or conditions have been nullified hereby or conflict or are inconsistent with the terms of this Amendment, in which event the terms of this Amendment shall, in all respects, govern and prevail. Tenant acknowledges that to the best of its knowledge, it has no claims, defenses, or offsets regarding the performance of any of its obligations under the Lease, nor any claims against Landlord or its agents.

19. *Binding effect.* This Amendment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns. No reference in the preceding sentence to assigns shall be deemed to authorize any assignment or other transfer, in whole or in part, of the interest of Tenant in violation of any of the provisions of the Lease.

IN WITNESS WHEREOF, Landlord and Tenant have executed this Amendment as of the date first above written.

C.7 Sublease--simultaneous termination with underlying lease

COMMENT

There is a distinction between a true sublease and an assignment of a lease. An assignment is deemed to be a complete transfer of all of one's interest in a lease in some jurisdictions.

Sublease vs. assignment:

An assignment transfers the entire unexpired term in the whole or some part of the leased and/or demised premises, leaving no reversionary interest in the transferor. It is a transfer of the prime lessee's whole interest in the lease in the whole or some part of the demised premises.

A transfer of a portion of the lessee's interest, however, is a sublease. A transfer creating new conditions with a right of reentry or new causes of forfeiture is also a sublease, since the transferee in such case holds by different tenure than his transferor. A transferor who reserves the right of reentry for breach of conditions has a contingent reversionary interest which prevents his transfer from operating as an assignment of the whole of the unexpired term; instead, a sublease is created. If a subtenant makes rental payments directly to the owner rather than to his transferor, that does not affect the status of the transfer, even though such payment is by mutual agreement.

Whether a given transaction constitutes an assignment or a sublease will depend upon its legal effect rather than on what the parties denominate it or what sort of instrument they may employ to give it effect.

Remedies of lessor against lessee's assignees:

Whatever remedies the lessor of any real property has against his immediate lessee for the breach of any agreement in the lease, or for recovery of the possession, he also has against the assignees of the lessee for any cause of action accruing while they are the assignees, except where the assignment is made as security for a loan, and is not accompanied by possession of the premises.

In some jurisdictions an occupant of real property holding possession by bare assignment of the lessee assumes, vis-a-vis the lessor, only such obligations as arise out of privity of estate, as distinguished from those arising on privity of contract and therefore is bound to perform only those covenants running with the land.

Effect of lease provisions on sublease:

Leases frequently contain a prohibition against the lessee's assigning or subletting the leased premises without the prior consent of the lessor. Generally, these provisions prohibit only voluntary and not involuntary assignments. Thus, transfer by execution sale and assignment by lessee's estate may be permissible. If the lessor desires to avoid an involuntary transfer of the leasehold interest of the tenant, it should be expressly provided in the lease.

A clause prohibiting the assignment of a lease does not necessarily foreclose every voluntary transfer of the lessee's rights. If a transfer results merely from a change in the legal form of a business and does not affect the interests of the party protected by the nonassignment provisions of the lease, there may be no breach of that provision. Accordingly, a lessee might be permitted to transfer the lease to a corporation formed and wholly owned by the lessee.

The incorporation of the lessee does not of itself operate as an assignment of the lease to the corporation. For example, the incorporation of an existing partnership does not operate to transfer to the corporation the title to the real or personal property of the partnership or association in the absence of a statutory provision to such effect. But there generally must be a conveyance, contract of sale, or assignment. (The corporation may, however, acquire an equitable title without a conveyance.)

Transfer by lessee in violation of lease prohibition:

Since a violation of the covenant or condition against assignment or subletting may result in forfeiture, the condition generally is strictly construed against the lessor. In such a case, assignment without consent may not of itself terminate the lease or render the assignment void. However, the making of the assignment may give the lessor certain rights to be exercised in the manner provided by law, i.e., the assignment is not void, but only voidable. The leasehold passes to the assignee, subject only to forfeiture by the lessor and the right to declare a forfeiture may be waived.

If the lessor desires to rely on the restriction against assignment, he may give notice of his election to declare a forfeiture of the lease and sue for breach of the lease. He may also pursue his remedy in unlawful detainer in some jurisdictions if possession is thereafter withheld following proper notice. But he does not have the option of merely giving notice of the invalidity of the assignment without declaring a forfeiture. The restriction as to the condition of assignment is generally considered to be a personal covenant for the benefit of the lessor and until the lessor elects to take advantage of the breach, the assignment remains a valid and binding conveyance of the leasehold interest as to all other parties.

Rent payments:

Absent a provision in the lease otherwise expressly providing, if the lessor accepts payments of rent from the assignee, even under a stipulation reserving the right to declare a forfeiture, the lessor's right is deemed waived. But, since a waiver is the relinquishment of a known right, there must be actual knowledge of the existence of the fact on which such right can be predicated. There is no waiver on the part of the lessor due to an acceptance of rent without actual knowledge of the assignment or sublease. Such knowledge must be actual, not constructive. However, there is a presumption of an assignment which follows occupancy of the leased premises by one other than the lessee, especially when the occupancy pays the rent and cost of maintenance.

For further information, see Chapter 4.

FORM

SUBLEASE, dated October 29, 2001, between Albany Metal Works, a New York Corporation, with its principal place of business at Houghton Park, Albany, New York 14830 (the "Lessor"), and Retailers Alliance Limited--U.S.A. ("RAL, U.S.A."), a Delaware Corporation, with a place of business at 57 East Road, Chicago, Illinois 60631 (the "Lessee").

The Lessor lets to the Lessee and Lessee hires from the Lessor the following described premises: Approximately 990 sq. ft. of office space located in the Fifth Floor, known as Suite No. 525, of the office building designated as Building 100 in the complex of buildings known as PHASE III, O'Hare Plaza, located at 57 East Road, Chicago, Illinois to be used only for a district sales office for the term commencing November 1, 2001 and expiring March 31, 2002 at the monthly rent provided in Section 20.

The Lessee agrees to each of the following:

1. *Payment of rent.* Pay the rent set forth herein to Albany Metal Works.
2. *Repairs.* At its expense keep the premises in good repair, ordinary wear and tear, repairs to the roof, exterior of the building, and structural repairs excepted, unless such repairs are made necessary by the Lessee's act or negligence. At the expiration of the term the Lessee shall remove its goods and effects and peaceably yield up the premises to the

2-Forms Federal Taxes Affecting Real Estate [C]

Lessor in as good condition as when delivered to the Lessee, ordinary wear and tear, damage by fire, the elements, act of the public enemy, or casualty excepted. All notices to quit or vacate are expressly waived, any law, usage or custom to the contrary notwithstanding.

3. *Compliance with regulations.* Comply promptly with all laws, ordinances, requirements, and regulations of the federal, state, county, municipal and other authorities, the fire insurance underwriters, and insurance organizations or associations. However, the Lessee shall not be required to make alterations to the exterior of the building, or alterations of a structural nature.

4. *Viewing premises.* Use the premises exclusively for the purpose set forth herein and during the last three months of this lease, or any extension thereof, and permit the Lessor to display the usual "To Let" signs and show the premises to prospective tenants. At any time during the term the Lessor, its landlord, or either's agents, may enter the premises for the purpose of examining their condition or making repairs in any part of the building. However, the Lessor does not assume any liability for the care or supervision of the premises or appurtenances.

5. *Assignment.* The Lessee shall not make or permit to be made any alterations or additions to the premises, assign, mortgage, or pledge this lease, or sublet the whole or any part of the premises without the Lessor's written consent. Such consent shall apply solely to the particular transaction consented to and shall not constitute the Lessor's waiver of the provisions of this lease.

6. *Insurance.* The Lessee shall not leave the premises unoccupied during the term, or by any act of commission or omission cause an increase in the rate of insurance or the cancellation of any insurance policy. If any increase in the rate of insurance is caused by the Lessee's occupancy, the Lessee shall pay on demand the amount of the increase, and in default of such payment, the amount may be added to the next installment of rent as additional rent. The Lessee shall furnish the Lessor with public liability insurance policies issued by companies and in amounts satisfactory to the Lessor.

7. *Signs.* The Lessee shall not install awnings, advertisements, or signs on any part of the premises without the Lessor's written consent and shall keep the sidewalks free from ice, snow, and all obstructions.

8. *Utilities.* The Lessee shall make its own arrangements for the supply of gas, electricity, water, fuel, and the like, and pay for all such services.

9. *Indemnification.* The Lessor shall not be responsible for any defect or change of condition in the premises, or for any damage thereto, or to any person, or to goods or things contained therein due to any cause except the Lessor's act or negligence. The Lessee shall indemnify the Lessor from all claims, demands, and actions arising in connection with the Lessee's use of the property, or the use by any person occupying the premises during the term hereof, or by reason of any breach or nonperformance of any covenant herein, or the Lessee's violation of any law or regulation.

10. *Fire damage.* If the premises are so damaged by fire, other casualty, or act of the public enemy so as to be substantially destroyed, this lease shall terminate and any unearned rent paid in advance by the Lessee shall be apportioned and refunded to it. However, if the premises are not substantially destroyed, the Lessor will endeavor to have the Lessee restore them, and a just proportion of the rent shall abate according to the extent to which the premises have been rendered untenable until they have been restored. The Lessee shall give the Lessor immediate notice of any damage to the premises.

11. *Default and remedies.* If the Lessee fails to perform or observe any of its covenants under this lease within 10 days after the Lessor gives it notice of default, the Lessor may immediately: (a) terminate or cancel this lease by notifying the Lessee as provided above, and upon such termination or cancellation the Lessee shall be liable to the Lessor for all damages sustained by it by reason of the Lessee's breach of covenant and of the termination or cancellation; or (b) re-enter the premises without notice and upon reentry let all or any part thereof as agent for the Lessee. If the premises

are let in accordance with the provisions of (b), the Lessor may receive the rent, applying it first to the payment of any expense the Lessor incurs in entering and letting the premises, and then to the payment of the rent and the fulfillment of the Lessee's covenants hereunder. If the Lessee defaults, it shall pay and be liable for the several installments of rent that would under this lease become due had no default occurred, regardless of whether the demised premises are re-let or remain vacant, and whether the vacancy is in whole or in part or for a period less than the whole or remainder of the term. The Lessee shall be credited at the end of each month with any net amounts actually received by the Lessor during that month for the use or occupancy of all or part of the demised premises provided that the Lessor has been fully reimbursed for all sums and liabilities it has paid or incurred for any of the above purposes (which the Lessee also shall pay and be liable for). Such payments shall be made either directly by the Lessee or out of moneys actually received for renting the demised premises after the Lessor has received undisputed possession. The Lessor's maintenance of any action or proceeding to recover possession of the premises or any installment or installments of rent or other moneys that may be due or become due from the Lessee shall not preclude the Lessor from also instituting and maintaining subsequent actions or proceedings to recover possession of the premises or of any subsequent payment or payments of rent or other moneys that may be due or become due from the Lessee. A waiver by the Lessor of the Lessee's breach of any one or more covenants or conditions contained herein shall not bar any of the Lessor's rights or remedies for a subsequent breach of the same covenant or condition.

12. *Additional rent.* If the Lessor makes any expenditure for which the Lessee is responsible, or if the Lessee fails to make any required payment under this lease, the Lessor may add such amount to any current or future installment of rent.

13. *Condemnation.* If all or any part of the premises are taken or condemned for a temporary or permanent public or quasi-public use, the Lessor may terminate this lease. In that case it shall return to the Lessee all unearned rent paid in advance.

14. *Demolition.* If any competent governmental authority decides that the building or buildings should be demolished and removed, the Lessee shall immediately vacate the premises, this lease shall terminate, and all unearned rent paid in advance by the Lessee shall be apportioned and refunded to it.

15. *Notices.* All notices or other documents under this lease shall be in writing and delivered personally to the party to be notified or sent by telegram or by registered or certified mail addressed to such party at its last known address.

16. *Termination.* The Lessor may terminate this lease if any one or more of the following events occur: proceedings in bankruptcy, or under any other act for the relief of debtors, are instituted by or against the Lessee; the Lessee compounds its debts, or assigns over its estate or effects for payment thereof; any execution issues against the Lessee or any of its effects; a receiver or trustee is appointed for the Lessee's property; or this lease by operation of law devolves upon or passes to any person or persons other than the Lessee personally. In any such event, the Lessor may immediately terminate this lease by notifying the Lessee as provided in paragraph 15. Upon such termination all present and future sums due from the Lessee shall immediately become due and payable.

17. *Sublease.* This is a sublease. The Lessor's interest in the premises is as Lessee under an underlying sublease made by General Products Corporation dated February 2, 1997, a copy of which, initialed for identification, is attached hereto. Except as provided in paragraph 20, this sublease is expressly made subject to all the terms and conditions of the underlying lease. The Lessee shall use the premises in accordance with the terms of the underlying lease and not do or omit to do anything which will breach any of its terms. If the underlying lease is terminated, this sublease shall terminate simultaneously and any unearned rent paid in advance shall be refunded to the Lessee, if such termination is not the result of a breach by the Lessee of the within sublease. The Lessee shall assume the obligation for performance of all of the Lessor's obligations under the underlying lease.

18. *Quiet possession.* The Lessor covenants that the Lessee, upon paying the rent reserved herein and performing all its

2-Forms Federal Taxes Affecting Real Estate [C]

covenants and agreements contained herein, may quietly enjoy the premises, except as otherwise provided herein. However, this covenant shall be subject to the terms of the underlying lease and of any mortgages which may now or later affect the premises.

19. *Waiver.* Both parties waives their respective rights against the other for damages caused by fire or other perils covered by insurance when the damages are sustained in connection with the occupancy of the leased premises.

20. *Rent payments.* Commencing November 1, 2001 through March 31, 2002, the monthly rental shall be \$763.13. No term of the underlying lease referred to in Section 17 shall be effective under any circumstances to increase or escalate this monthly rental during the term of this sublease. Rental shall be payable in advance on the first business day of each month during the term of the sublease.

21. *Binding effect.* The provisions of this instrument shall be binding upon and inure to the benefit of both parties and their respective legal representatives, successors, and assigns.

22. *Non-waiver.* No delay or failure by either party to exercise any right under this instrument, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

23. *Headings.* Headings in this Sublease are for reference and convenience only and shall not be used to interpret or construe its provisions.

24. *Counterparts.* This Sublease may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

25. *Entire agreement.* This instrument supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them, except as otherwise provided herein.

In witness whereof the Lessor has signed and sealed this instrument, November 3, 2001 and the Lessee has signed and sealed this instrument, October 29, 2001.

C.8 Assignment and assumption of lease--landlord consent--assignor remains liable for assignee's performance

COMMENT

Assignment and assumption agreement:

The agreement set forth in this form is a three-way agreement between an assignor, an assignee, and the landlord. Such an agreement is a convenient method to delineate the rights and obligations of all three parties interested in the transaction in one document. Each party then has full knowledge of the agreement between the other two parties. In this single agreement, the assignor assigns the lease to the assignee, the assignee assumes the assignor's obligations under the lease, and the landlord consents to the assignment. Alternatively, the assignment can be accomplished in one agreement between the assignor and the assignee, and the landlord's consent can be accomplished in a separate document.

Assignor's continued liability:

Where the original lease provides that it cannot be assigned without the landlord's consent, the landlord may refuse to consent to an assignment unless certain conditions are met. A common condition to the landlord's consent is that the assignor remain liable for the assignee-tenant's performance under the lease. In essence, the landlord requires the assignor to guarantee the assignee's performance. As with a lease guaranty, this protects the landlord from the consequences of a default by an assignee-tenant whose financial situation is uncertain.

For further information, see Chapter 4.

FORM

ASSIGNMENT AND ASSUMPTION OF LEASE

THIS ASSIGNMENT AND ASSUMPTION OF LEASE ("Assignment") is made as of the _____ day of _____, 20_____, by and among: (1) _____, Assignor, having a notice address of _____ Street, City of _____, State of _____; (2) _____ Corp., Assignee, a corporation incorporated under the laws of the State

2-Forms Federal Taxes Affecting Real Estate [C]

of _____, having a notice address of _____ Avenue, City of _____, State of _____; and (3) _____ Associates, Landlord, a limited partnership in the State of _____, having a notice address of _____ Road, City of _____, State of _____.

WITNESSETH:

WHEREAS, Assignor (as "Tenant"), and Landlord made and entered into a certain Lease Agreement dated _____, 20_____, as amended by a First Amendment to Lease dated _____, 20_____ (collectively the "Lease"), demising certain leased premises located at _____ Road, City of _____, State of _____, containing approximately _____ square feet of floor area, all as in the Lease more particularly described (the "Premises");

WHEREAS, Assignor desires to assign the Lease to Assignee;

WHEREAS, the Lease provides, among other things, that the Lease shall not be assigned without the Landlord's consent in writing;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein set forth, and of other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties covenant and agree as follows:

1. Effective as of _____, 20_____, Assignor assigns to Assignee all its right, title and interest in and to the Lease.
2. Assignor covenants, warrants and represents that: (a) the Lease is in full force and effect; (b) Assignor has performed all of its obligations up to the effective date of this Assignment; (c) Assignor has full right and power to execute this Assignment; and (d) the Lease has not been modified, supplemented or amended.
3. Assignor hereby surrenders and assigns to Assignee, and Assignee hereby accepts the surrender and assignment from Assignor of, all of Assignor's right, title and interest in, to and under the Lease, a copy of which is attached as Exhibit A and incorporated herein by reference.
4. Assignee hereby assumes and agrees to be bound by and pay and perform all of the obligations, terms, covenants and conditions which, pursuant to the Lease, are to be observed, kept and/or performed by the Assignor, effective as of _____, 20_____.
5. Assignor agrees to remain liable for the performance of all terms, covenants and conditions of the Lease to be performed by Assignee and by Assignee's successors and assigns thereunder.
6. Landlord consents to the aforesaid Assignment of the Lease by Assignor to Assignee upon the express conditions that: (a) the Assignor remains liable for the full and due performance by the Assignee, and by Assignee's successors and assigns, of all terms, obligations, covenants and agreements under the Lease; and (b) no further assignment of the Lease shall hereafter be made without the prior written consent of the Landlord.
7. Nothing in this Assignment shall be deemed to authorize any assignment or other transfer in whole or in part of the interest of Assignee in violation of any provisions of the Lease.

2-Forms Federal Taxes Affecting Real Estate [C]

8. This Assignment shall be binding upon and shall inure to the benefit of the parties hereto and their successors and permitted assigns.

IN WITNESS WHEREOF, the parties have executed this Assignment and Assumption of Lease as of the date first written.

C.9 Third party lease guaranty agreement

COMMENT

Lease guaranties:

A lease guaranty agreement is an agreement by a third-party to be liable for rent payments and the performance of the tenant's obligations under a lease agreement. The landlord may require such a guaranty before signing a lease with a tenant whose financial situation is uncertain. Such assurances might be necessary if the tenant is starting a new business, engages in a highly speculative business, has insufficient capital to provide a security deposit, or has a poor credit record. The guaranty protects the landlord from the consequences of a tenant default, and enables such a tenant to enter into a lease. Additionally, the guarantor may benefit from the tenant's ability to lease the premises if the guarantor is a partner in a tenant partnership, an officer or director of a tenant corporation, a franchisor of a tenant franchisee, or otherwise related to the tenant's business.

Conditional or absolute guaranty:

This form is an example of an absolute guaranty. Under the agreement, upon the tenant's default, the landlord may proceed directly against the guarantor without being obligated to proceed against the tenant first. In a conditional guaranty, the landlord is required to exhaust its remedies against the tenant before the landlord can proceed against the guarantor. Sometimes, the agreement provides that the guaranty is subject to certain conditions other than the tenant's default, and those conditions must be met before the landlord may proceed against the guarantor.

Scope and duration of guaranty:

A guaranty agreement may limit the scope of the guaranty, usually to a specified dollar amount. The agreement also may limit the duration of the guaranty to a specified period of time. The agreement set forth in this form is not limited as to its scope or duration.

For further information, see Chapter 4.

FORM

GUARANTY AGREEMENT

This Guaranty is made as of this _____ day of _____, 20_____,
by _____ ("Guarantor"), to _____ Associates, a State of _____
limited partnership ("Landlord").

WITNESSETH:

Guarantor has requested Landlord to enter into a certain Lease Agreement dated _____,
20_____, (hereinafter, together with any modifications, amendments, extensions, riders, and
renewals, referred to as the "Lease") with _____, Inc., a corporation incorporated under the laws of the
State of _____, as the Tenant ("Tenant"), covering the space as set forth in
Section _____ of the Lease, and defined as the "premises" in the Lease.

To induce Landlord to enter into the Lease, the Guarantor hereby agrees to guarantee, as hereinafter provided, the
performance by Tenant of all of the terms, covenants, conditions, obligations, and agreements (collectively the
"Covenants") contained in the Lease on the part of Tenant to be performed thereunder.

NOW THEREFORE, in consideration of the making of the Lease and other good and valuable consideration, including
the undertakings herein contained, the Guarantor hereby agrees as follows, intending to be legally bound hereby:

1. *Definitions.* Unless specifically defined in this Guaranty Agreement or the context clearly requires a different
meaning, the capitalized words and phrases used in this Guaranty Agreement have the same meanings ascribed to them
in the Lease.

2. *Guaranty of Lease.* Guarantor unconditionally and absolutely, jointly and severally, guarantees to Landlord the
prompt payment, when due, of the rents and any and all other charges payable under the Lease and the full and faithful
performance and observance of any and all Covenants contained in the Lease, including, without limitation, the rules
and regulations as therein provided, on the part of Tenant to be performed and observed. Guarantor unconditionally and
absolutely covenants to Landlord that, if Tenant shall default at any time in the Covenants to pay rent or any other
charge stipulated in the Lease or in the performance of any of the other Covenants contained in the Lease on Tenant's
part to be performed, Guarantor will well and truly perform such Covenants, and pay the rent or other charges or arrears
thereof that may remain due thereon to Landlord, and also all damages stipulated in the Lease. Guarantor shall pay to
Landlord, on demand, all expenses (including reasonable expenses for attorneys' fees and reasonable charges of every
kind) incidental to, or relating to, the enforcement of this Guaranty Agreement. If the Lease is renewed or its term
extended, for any period beyond the original expiration date specified in the Lease, either pursuant to any option to
renew granted under the Lease or otherwise at any time, or if the Tenant holds over beyond the term of the Lease, or if
the Lease is modified in any way, the obligations hereunder of Guarantor shall extend and apply with respect to the full
performance and observance of all of the covenants, terms, and conditions of the Lease, as existing, extended, renewed
or modified and of any such amendment thereof.

3. *No Discharge of Guaranty.* The liability of any Guarantor hereunder shall not be impaired, released, terminated or
discharged, in whole or in part, by any of the following, notwithstanding that the same are made with or without notice

2-Forms Federal Taxes Affecting Real Estate [C]

to the Guarantor:

- (a) any amendment or modification of the provisions of the Lease; or
- (b) any extensions of time for performance, whether in whole or in part, of the covenants of Tenant under the Lease given prior to or after default thereunder; or
- (c) any other Guaranty now or hereafter executed by any Guarantor or any other person; or
- (d) any waiver of, assertion or enforcement of, or failure or refusal to assert or enforce, in whole or in part, any covenants, claims, causes of action, or remedies that Landlord may, at any time, have under the Lease or with respect to any guaranty or any security that Landlord may hold, at any time, for or under the Lease or with respect to Tenant; or
- (e) any act, thing, omission or delay to do any act or thing that may, in any manner, or to any extent, vary the risk of Guarantor or that would otherwise operate as a discharge of any Guarantor as a matter of law; or
- (f) the failure to give any Guarantor any notice whatsoever; or
- (g) the release of any security, Guaranty, or any rights, power, or privileges Landlord may now or hereafter have against any persons, entity, or collateral; or
- (h) any transfer by Tenant or any assignment of Tenant's interest under the Lease, whether or not with Landlord's consent; or
- (i) the invalidity of the Lease for any reason whatsoever.

In the event that any agreement or stipulation between Landlord and Tenant shall extend the time of performance or modify any covenants of the Lease on the part of Tenant to be performed, Guarantor shall continue to be liable upon this Guaranty.

4. Demand Not Required. To charge any Guarantor under this Guaranty, no demand shall be required nor shall there be required any notice of any default in any of the covenants of the Lease on the part of Tenant to be performed or of the same as affected by any agreement or stipulation extending the time of performance or modifying the covenants of the Lease. Guarantor hereby expressly waives any such demand or notice. Landlord shall have the unlimited right to enforce this Guaranty without pursuing any rights or remedies of Landlord against Tenant, or any other party, of any security Landlord may hold, it being intended that immediately upon any breach or default by Tenant in the performance or observance of any covenant of the Lease, Landlord may enforce its rights directly against any Guarantor under this Guaranty. Landlord may commence any action or proceeding based upon this Guaranty directly against Guarantor for the full performance of the Lease without making Tenant, any other guarantors, or any other person a party defendant in such action or proceeding. Any one or more successive or concurrent actions may be brought on this Guaranty against any Guarantor either by the same action, if any, brought against Tenant and/or any other party or in separate actions, as often as Landlord, in its sole discretion, may deem advisable.

5. Waivers. The Guarantor hereby expressly waives and releases the following: (i) notice of the acceptance of this Guaranty and notice of any change in Tenant's financial condition; (ii) the right to interpose all substantive and procedural defenses of the law of guaranty, indemnification, and suretyship, except the defenses of prior payment or prior performance by Tenant (of the obligations which Guarantor is called upon to pay or perform under this Guaranty) or that there is no obligation on the part of Tenant with respect to the matter or matters claimed to be in default; (iii) all rights and remedies afforded by applicable law to Guarantor or sureties, including, without limitation, any extensions of time conferred by any law now or hereafter in effect; (iv) the right to interpose any defense (except as allowed under (ii)

2-Forms Federal Taxes Affecting Real Estate [C]

above), set-off, or counterclaim of any nature or description in any action or proceeding; (v) any right or claim of rights to cause a marshaling of Tenant's assets or to cause Landlord to proceed against Tenant or any collateral held by Tenant at any time or in any particular order; (vi) any right against Tenant for reimbursement or contribution because of any payment made by Guarantor under this Guaranty Agreement; and (vii) any defense based upon the invalidity of the Lease.

6. *No Impairment of Obligation.* Neither Guarantor's obligations to make payment in accordance with the term of this Guaranty nor any remedy for the enforcement thereof, shall be impaired, modified, changed, stayed, released, or limited in any manner whatsoever by impairment, modification, change, release, limitation or stay of the liability of Tenant or its estate in bankruptcy or any remedy for the enforcement thereof, resulting from the operation of any present or future provision of the Bankruptcy Act of the United States or other statutes, or from the decision of any court interpreting any of the same, and each Guarantor shall be obligated under this Guaranty as if no such impairment, stay, modification, change, release, or limitation had occurred.

7. *Subrogation Rights.* Whenever at any time or from time to time Guarantor makes any payment to Landlord or performs or fulfills any Covenant, Guarantor will notify Landlord in writing that such payment or performance, as the case may be, is for such purpose. No such payment or performance by Guarantor pursuant to any provision hereof shall entitle Guarantor, by subrogation or otherwise to the rights of Landlord to any payment by Tenant or out of the property of Tenant, except after payment of all sums or fulfillment of all covenants, terms, conditions, provisions or agreements to be paid or performed by Tenant.

8. *Estoppel Certificate.* Guarantor will, at any time and from time to time, within ten (10) business days following written request by Landlord, execute, acknowledge and deliver to Landlord a statement certifying that this Guaranty is unmodified and in full force and effect (or if there have been modifications, that the same is in full force and effect as modified and stating such modifications). Such certificate may be relied on by anyone holding or proposing to acquire any interest in the premises from or through Landlord or by any mortgagee or prospective mortgagee of the premises or of any interest therein.

9. *Binding Effect.* All of Landlord's rights and remedies under this Guaranty are intended to be distinct, separate and cumulative and no right or remedy mentioned herein is intended to be an exclusion of or a waiver of any of the others. This Guaranty shall be binding upon Guarantor and Guarantor's heirs, personal representatives and assigns.

10. *Confessions of Judgment.* Guarantor authorizes any attorney at law at any time or times to appear in any state or federal court of record in the United States of America after the amount guaranteed hereunder or any part thereof shall have become due and payable (whether the payment becomes due by lapse of time or by acceleration of maturity or otherwise), and in each case to waive the issuance and service of process, to admit the maturity of the debt in question and the nonpayment thereof when due, to present evidence of the debt in question or any part thereof to the court and to certify the amount of the debt then owing thereon, to confess judgment against Guarantor and each of them in favor of the Landlord for the amount of the debt then appearing due, together with interest and costs of suit, and thereupon to release all errors and waive all rights of appeal and stay of execution. The foregoing warrant of attorney shall survive any judgment, and should any judgment be vacated for any reason, the Landlord may nevertheless utilize the foregoing warrant of attorney in thereafter obtaining additional judgment or judgments against Guarantor.

IN WITNESS WHEREOF, this Guaranty is executed this _____ day of _____,
20_____.

WARNING--BY SIGNING THIS PAPER YOU GIVE UP YOUR RIGHT TO NOTICE AND COURT TRIAL. IF YOU DO NOT PAY ON TIME, A COURT JUDGMENT MAY BE TAKEN AGAINST YOU WITHOUT YOUR PRIOR KNOWLEDGE AND THE POWERS OF A COURT CAN BE USED TO COLLECT FROM YOU REGARDLESS OF ANY CLAIMS YOU MAY HAVE AGAINST THE CREDITOR WHETHER FOR RETURNED

GOODS, FAULTY GOODS, FAILURE ON THE CREDITOR'S PART TO COMPLY WITH THE AGREEMENT,
OR ANY OTHER CAUSE.

Appendix Forms: CHECKLISTS AND FORMS

2-Forms Federal Taxes Affecting Real Estate [D]

[D] Environmental Considerations in Real Estate Transactions

D.1 Representation by seller that premises have never been used for storage or disposal of hazardous waste

COMMENT

In this clause, the seller represents that the premises have never been used for storage or disposal of hazardous waste. The seller also agrees to be liable for all damages suffered by the purchaser in the event that this representation is incorrect. The clause should be used in situations where the purchaser, as a prerequisite to obtaining financing, must either provide the lender with an environmental site assessment establishing that the premises are "clean", or with the type of representation found below.

It should be remembered that the representation and indemnification are only as good as the financial ability of the seller to reimburse the purchaser for losses which may occur if the seller is either mistaken in his belief that the property is free of hazardous waste, or makes a deliberate misrepresentation. The losses may include such things as clean-up costs under the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), 42 USC § 9601 *et seq.*, loss of use of the premises, and damage to person or property.

For further information, see Chapter 4.

FORM

Seller hereby represents and warrants that the subject premises have never been used for the storage or disposal of hazardous waste. The term "hazardous waste", as used herein, shall mean substances deemed hazardous pursuant to the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), 42 USC § 9601 *et seq.*

This representation is made to induce Purchaser to enter into this contract for purchase of the subject premises. It is understood by the parties hereto that Purchaser's financing is contingent upon Seller making this representation. It is further understood that Purchaser's loan documents will provide that the loan will be due and payable in full if evidence of hazardous waste is discovered on the subject premises. Seller shall be liable for all damages, including economic and consequential damages, in the event that the representations contained in this section are inaccurate. D.2 Representation by seller that hazardous waste has been properly removed

COMMENT

2-Forms Federal Taxes Affecting Real Estate [D]

This form should be used when the parties are aware that hazardous waste has been located and removed from the property.

The concerns of the parties are fourfold:

- (1) that the waste has been completely removed;**
- (2) that removal has been performed in compliance with all state and federal laws;**
- (3) that the waste has been properly disposed of; and**
- (4) that all agencies with jurisdiction have been notified and have approved of the proceedings.**

This representation may assist the purchaser to establish an innocent purchaser defense under the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), 42 USC § 9601 *et seq.*, if a problem arises later.

For further information, see Chapter 4.

FORM

Seller hereby represents that the subject premises formerly contained approximately _____ barrels of _____, a substance deemed "hazardous" under various state and federal laws and regulations. Seller further represents and warrants that all known barrels of _____ have been removed from the subject premises. Said barrels have been packaged, transported and disposed of in strict compliance with all federal, state and municipal laws, regulations and policies.

Seller agrees to provide purchaser with copies of all shipping invoices and uniform hazardous waste manifests evidencing proper transfer of the barrels.

Seller agrees to indemnify and hold purchaser harmless for any loss including, but not limited to, damage to person or property or economic loss, including defense costs, and consequential damages arising out of the packaging, transportation and disposal of the above described barrels of _____. D.3 Representation by seller that it has complied with all federal, state and local environmental laws and regulations--long form

COMMENT

In the following clause, the seller makes a long series of representations for the benefit of the purchaser. These representations include, among others, that the seller has complied with all federal, state and local environmental laws and regulations affecting the subject property. The seller also represents that it is unaware of any legal actions or claims, either threatened or pending, arising out of an environmental mishap on the property or out of a violation of any environmental law or regulation on the property.

For further information, see Chapter 4.

FORM

Seller makes the following eight representations to purchaser:

2-Forms Federal Taxes Affecting Real Estate [D]

(1) Seller's counsel has carefully reviewed all federal, state and local environmental laws and regulations affecting the subject property.

(2) Any and all governmental approvals, permits and notifications required by federal, state and local environmental laws have been obtained.

(3) Seller is unaware of any action, either threatened or commenced, by any governmental agency arising out of an alleged violation of any environmental law or regulation on the subject premises.

(4) No governmental agency has notified the seller of any violation of any environmental law or regulation on the subject premises.

(5) Seller is unaware of any civil action, either threatened or commenced, by a party other than a governmental agency arising out of an alleged environmental mishap occurring on the subject premises.

(6) Seller is unaware of any environmental mishap on the subject premises.

(7) Seller is unaware of the presence on the subject premises of any hazardous waste or hazardous substances.

(8) The past and present uses to which the seller has put or is putting the subject premises do not violate any relevant federal, state or local environmental laws or regulations.

D.4 Representations by seller regarding present condition of subject premises--clause designed to protect purchaser

COMMENT

In this clause, the seller represents to purchaser that the subject property is not now, and never has been, used to produce, store, treat, handle or dispose of hazardous substances or wastes. The seller further represents that no storage vessel has ever existed on the premises. In addition, the seller states that no environmental mishap or violation of environmental law (federal, state or local) has ever occurred on the premises.

For further information, see Chapter 4.

FORM

Seller makes the following representations to purchaser:

(1) The subject premises are not now, nor have they ever been, used for any of the following purposes:

- (a) the production;
- (b) the manufacture;
- (c) the generation;
- (d) the storage;
- (e) the treatment;

(f) the handling;

(g) the refinement;

(h) the disposal; or

(i) the release of any hazardous substance or hazardous waste.

(2) Seller represents that the subject premises do not now contain, nor have they ever contained, the following hazardous substances: sulphur dioxide; hydrocarbons; vinyl chloride; mercury; asbestos; or urea formaldehyde insulation. Seller represents that the list of hazardous substances contained in the preceding sentence in no way limits representation (1).

(3) Seller represents that no storage vessel of any kind (including, but not limited to, an above-ground or underground tank) is currently on the subject premises or has ever been located on the subject premises.

(4) Seller's counsel has made a thorough review of the uses of the subject premises by seller and all previous owners and finds that no environmental mishap has ever occurred on the subject premises, and no violation of any federal, state or local environmental law or regulation has ever taken place.

(5) Seller's counsel has made a thorough review of the uses of the real property bordering the subject premises and has not discovered any evidence of the presence of hazardous substances or hazardous waste thereon which could in any way endanger the subject premises.

D.5 Representation by seller of its current and past uses of subject premises--long form--clause designed to protect seller

COMMENT

In the clause below, the seller represents to the purchaser that the seller is not now using, nor has it ever used, the subject premises to store, manufacture, use or dispose of hazardous substances or wastes. However, the seller expressly declines to make any representation about the uses of the property by *prior* owners.

For further information, see Chapter 4.

FORM

Seller hereby represents to purchaser that seller is not now using, and never has used, the subject premises for any of the following purposes:

(1) to produce;

(2) to manufacture;

(3) to generate;

(4) to store;

(5) to treat;

2-Forms Federal Taxes Affecting Real Estate [D]

- (6) to handle;
- (7) to refine;
- (8) to dispose of; or
- (9) to release any hazardous substance or hazardous waste.

Seller makes no representation, however, as to the uses which prior owners have made of the subject premises.D.6
 Promise of seller to indemnify and hold purchaser harmless for any existing conditions on premises--clause designed to protect purchaser

COMMENT

This form is designed to protect the purchaser from any adverse environmental conditions which may be discovered on the premises after the sale is completed. Because the form contains a requirement that the seller obtain environmental liability insurance, the hold harmless clause has more strength. The purchaser does not have to rely on the seller's financial ability alone for protection.

The form protects the seller by requiring that the purchaser give prompt notice of any potential claim, and that the purchaser cooperate with the seller.

It should be noted that environmental liability insurance is costly and generally requires some investigation of the property being sold, if not a full environmental site assessment.

For further information, see Chapters 2 and 4.

FORM

Seller agrees, for a period of _____ years from the date hereof, to indemnify and hold Purchaser harmless for and against any and all liability, claims and expenses of any kind whatsoever (including reasonable attorneys' fees and other defense costs) for any injury or damage to person or property sustained by anyone on or about the premises, which results from or arises out of any adverse environmental condition existing on the subject premises at or before the transfer of title of the subject premises from Seller to Purchaser.

Seller agrees, for a period of _____ years, to obtain environmental liability insurance from an insurance company rated "AA" or better in at least the amount of \$_____. Purchaser shall be named as an additional insured or loss payee on said policy. Seller's liability under this agreement shall be limited to the limits of this policy.

Purchaser shall give Seller notice of any claim or potential claim within ten (10) days after Purchaser shall received notice or have reason to know that a claim exists. Failure to provide prompt notice will relieve Seller of any liability hereunder.

Purchaser shall give Seller a reasonable opportunity to defend against such claim. Purchaser shall cooperate with Seller in such defense. Purchaser shall not compromise any claim without the consent of Seller. Violation by Purchaser of any of these provisions shall relieve Seller of any liability hereunder.

Purchaser agrees to cooperate with and comply with all reasonable requests of Seller's insurance carrier. In the event Purchaser fails to do so and the insurance carrier disclaims liability for that reason, Seller shall be relieved of any

liability hereunder.D.7 Sale is contingent upon results of inspection for radon gas

COMMENT

Radon gas is a natural, colorless, odorless vapor which emanates from the earth and enters the air supply of buildings. High levels of radon gas have been associated with lung cancer and other respiratory ailments. This contingency allows the purchaser to cancel the sale agreement if a particular level of radon gas is found. This gives the purchaser the ability to withdraw from the existing agreement and then negotiate a modification of that agreement if the parties so desire. Such a modification will provide for a reduction of the purchase price in an amount equivalent to the cost of remediation, leaving the purchaser responsible for remediation. In the alternative, the parties can maintain the purchase price while the seller takes the remedial action at his own expense.

For further information, see Chapter 4.

FORM

The Agreement is contingent upon the results of an inspection demonstrating that no radon gas exists on the premises. The inspection shall be performed by _____. The inspection shall be performed at the expense of _____.

Radon gas shall be deemed to exist if the inspection reveals a level of radon gas exceeding _____ pico curies per liter. The inspection report shall indicate the level of accuracy or tolerance of the measurements. A copy of the inspection report shall be provided to both Purchaser and Seller.

Seller agrees to comply with all requirements of the company or individual performing the inspection, provided that there shall be no monetary cost to Seller and no unreasonable effort or act required of Seller to comply.

This contingency shall be deemed waived unless Purchaser shall notify Seller of the existence of radon gas, in writing, on or before _____, 20____. Notice shall be deemed given when received by Seller, in person or by certified mail, return receipt requested. If notice is timely given, this Agreement shall be deemed canceled. All deposits made pursuant to this agreement shall be returned to the Purchaser immediately.D.8 Sale is contingent upon results of inspection for presence of lead-based paint

COMMENT

Lead is a non-organic element which can accumulate in the human body. Excessive levels of lead can cause serious harm to children, including damage to the brain and central nervous system, mental retardation, impaired hearing, epileptic seizures and death. The major source of lead poisoning is lead-based paint which, as it ages, cracks and chips. Those paint chips are often consumed by small children and pets. A second important source is lead dust, which is produced as lead-based paint ages and wears away.

The use of lead in paint was banned by the Consumer Product Safety Commission in 1978. However, a danger still exists in homes built before 1978, since their interior walls and other surfaces might have been painted with lead-based paint.

Accordingly, the purchaser of any structure built prior to 1978 should request that a lead paint contingency be inserted into the sale-purchase agreement. (This is especially important if the structure is a residence, and the purchaser has small children.) Even commercial property should be tested, since the normal aging process of lead-based paint will produce lead dust. Lead dust is especially dangerous

2-Forms Federal Taxes Affecting Real Estate [D]

because everyone, young and old alike, breathes it in, whereas paint chips only pose a danger to small children and pets, who frequently eat the chips.

If the structure contains lead-based paint, the purchaser should be able to terminate the agreement. Alternatively, if lead-based paint is discovered on the premises and the purchaser still wishes to purchase the premises, the parties may renegotiate the agreement and reduce the purchase price to reflect the cost to the purchaser of removal or containment of the paint. Alternatively, the seller may handle the removal or containment, leaving the purchase price intact.

For further information, see Chapter 4.

FORM

This Agreement of sale and purchase is contingent upon the results of an inspection and chemical analysis to be performed by _____ [_____ *insert name of inspector and laboratory that will perform the inspection and chemical analysis*], demonstrating that the premises to be transferred hereunder do not contain lead-based paint. The inspection and laboratory analysis shall be performed at the expense of the Purchaser. A copy of the inspection report and laboratory analysis shall be provided to both Purchaser and Seller. Seller consents to the inspector taking paint samples wherever the inspector deems it necessary and appropriate.

This contingency shall be deemed waived unless Purchaser shall notify Seller, in writing, of the existence of lead-based paint on or before _____, 20____. Notice shall be deemed given when received by Seller, in person or by certified mail, return receipt requested. If notice is timely given, this Agreement shall be deemed canceled. All deposits made pursuant to this Agreement shall be returned to the Purchaser immediately. D.9 Sale is contingent on results of asbestos inspection

COMMENT

Asbestos was once commonly used as an insulating material on pipes, boilers, furnaces and in ceiling and floor tiles. Asbestos can become "friable", that is, finely crumbled and airborne. Inhaled over an extended period of time, asbestos fibers and particles may lead to a variety of different lung diseases, including cancer.

This form provides the purchaser with the opportunity to withdraw from the agreement if any asbestos is discovered on the premises. The form provides two alternative methods to detect asbestos.

If asbestos is discovered, but the purchaser still wants the property, the purchaser can renegotiate the agreement to reduce the purchase price by an amount equivalent to the cost of removal and repair. In this case, the purchaser accepts responsibility for removal and repair. In the alternative, the parties can maintain the purchase price while the seller absorbs the cost, and effects the removal and repair.

For further information, see Chapter 4.

FORM

This Agreement is contingent upon the results of an inspection demonstrating that no asbestos exists on the premises. The inspection shall be performed by a licensed asbestos handler. Asbestos shall be deemed to exist if any asbestos-containing material shall be located within the structures on the premises, or, if the asbestos contained in air samples taken within the structures by a certified laboratory is _____ percent (____ %) above the

2-Forms Federal Taxes Affecting Real Estate [D]

level of asbestos contained in air samples taken outside of the structures. The inspection and all samples and analysis shall be performed at the expense of _____. A copy of the inspection report shall be provided to both Purchaser and Seller.

Seller consents to the taking of samples of ceiling material, pipe insulation and boiler or furnace insulation. Such samples shall be taken as inconspicuously as possible in the living areas of the structures.

This contingency shall be deemed waived unless Purchaser shall notify Seller of the existence of asbestos, in writing, on or before _____, 20____. Notice shall be deemed given when received by Seller, in person or by certified mail, return receipt requested. If notice is timely given, this Agreement shall be deemed canceled. All deposits made pursuant to this agreement shall be returned to the Purchaser immediately.D.10 Sale is contingent on results of inspection for urea formaldehyde insulation

COMMENT

During the 1970s urea formaldehyde insulation was used to insulate many existing houses. Frequently, it was blown into houses between the exterior siding and interior walls. Later, urea formaldehyde became associated with a number of health problems.

This contingency is designed to allow the purchaser to withdraw from the agreement if any urea formaldehyde insulation is found on the premises. Thereafter, if the purchaser still wishes to purchase the premises, the parties may consider renegotiating the agreement. This may be done by reducing the purchase price by an amount equal to the cost of removal of the insulation. The purchaser would then take responsibility for removal. In the alternative, the seller may take responsibility for the removal while the purchase price remains the same.

This contingency allows the purchaser's agent to remove and replace paneling or other finishing material in order to view the insulation and take samples.

For further information, see Chapter 4.

FORM

This Agreement is contingent upon the results of an inspection demonstrating that no urea formaldehyde insulation is located in or on any of the structures on the premises. The inspection shall be performed by _____ at the expense of _____. A copy of the inspection report shall be provided to both Purchaser and Seller.

Seller consents to the temporary removal of exterior siding and interior paneling, as deemed necessary by the inspector, for the purpose of the inspection. All materials removed shall be restored to their prior condition, all at Purchaser's expense, at the conclusion of the inspection. Seller further consents to the taking of samples of the insulation, if deemed necessary by the inspector.

This contingency shall be deemed waived unless Purchaser shall notify Seller of the existence of urea formaldehyde insulation, in writing, on or before _____, 20____. Notice shall be deemed given when received by Seller, in person or by certified mail, return receipt requested. If notice is timely given, this Agreement shall be deemed canceled. All deposits made pursuant to this agreement shall be returned to the Purchaser immediately.D.11 Sale is contingent on obtaining historic district approval of sale and planned modification to premises

COMMENT

Some older municipalities have made the preservation of historic structures in certain zones within the

2-Forms Federal Taxes Affecting Real Estate [D]

community a priority. Although the relevant municipal ordinances differ widely, it is often not possible to make certain changes to a structure located in that zone without the approval of the local historic review commission, or a similar body. The commission functions in a manner similar to a zoning board. Depending on the particular ordinance, changes in a structure's exterior color, windows, porches, trim design, or anything else for that matter, may require commission approval.

The contingency below allows the purchaser to terminate the agreement if the commission insists upon making "substantial" changes to the purchaser's proposed modifications of the property. Since the modifications are deemed essential to the purchaser's desire to purchase, the purchaser alone is entitled to determine whether any change to his proposal, required by the commission, is "substantial."

For further information, see Chapters 5, 6, and 7.

FORM

The parties hereto agree and acknowledge that the subject premises are located within the historic district of the City of _____. As a result thereof, the transfer of title is subject to the approval of the _____ Historic Review Commission.

It is further agreed and understood that the ability to make the modifications to the premises which are described in Schedule "A", annexed hereto and made a part hereof, are an essential part of this Agreement and the consideration therefor. In the event Purchaser is unable to obtain approval for said modifications, Purchaser shall not be required to purchase the Premises.

Purchaser and seller agree to make a joint application to the _____ Historic Review Commission for approval of the sale and the proposed modifications. Such application shall be prepared at Purchaser's expense by _____, Architects, and submitted no later than _____, 20____. Purchaser shall not be required to accept transfer of title unless all proposed modifications to the premises are approved by the _____ Historic Review Commission without substantial changes. The determination as to whether a change required by the _____ Historic Review Commission constitutes a "substantial" change shall be in the sole discretion of Purchaser. Purchaser may elect to cancel this Agreement if approval is not received on or before _____, 20____. This date may be extended by written agreement of the parties. Notice of election to cancel shall be given to Seller, in person or by certified mail, return receipt requested. Upon receipt of notice of election to cancel, Seller shall return the deposit made pursuant to this agreement immediately. D.12 Sale is contingent on obtaining conservation district approval of sale and planned modification of premises

COMMENT

Many states and municipalities have designated areas as "conservation districts", "forever wild", or some other similar designation. These areas are so designated because they contain something of nature that is worth preserving, such as wooded terrain, a marsh or stream, etc. The laws vary widely among states and municipalities and should be reviewed carefully. These laws often state that proposed modifications to existing structures, or to the use of land located within the conservation district, require review and approval of the proposal by a conservation council or its equivalent. These bodies function much like a zoning board or an arm of the zoning board.

The contingency allows the purchaser to terminate the agreement if the modifications which he wishes to make to the property are not approved without substantial changes. Since the modifications are deemed essential to the purchaser's desire to purchase, the purchaser alone is entitled to determine whether any change in his proposal, required by the conservation district council, is "substantial."

For further information, see Chapters 7 and 11.

FORM

The parties hereto agree and acknowledge that the subject premises are located within the conservation district of the County of _____. As a result thereof, the transfer of title is subject to approval of the _____ Conservation Council.

It is further agreed and understood that the ability to make the modifications to the premises which are described in Schedule "A", annexed hereto and made a part hereof, are an essential part of this Agreement and the consideration therefor. In the event Purchaser is unable to obtain approval for said modifications, Purchaser shall not be required to purchase the Premises.

Purchaser and Seller agree to make a joint application to the _____ Conservation Council for approval of the sale and the proposed modifications. Such application shall be prepared at Purchaser's expense by _____, Architects, and submitted no later than _____, 20____. Purchaser shall not be required to accept transfer of title unless all proposed modifications to the premises are approved by the _____ Conservation Council without substantial changes. The determination as to whether a change required by the _____ Conservation Council constitutes a "substantial" change shall be in the sole discretion of Purchaser.

Purchaser may elect to cancel this Agreement if approval is not received on or before _____, 20____. This date may be extended by written agreement of the parties. Notice of election to cancel shall be given to Seller, in person or by certified mail, return receipt requested. Upon receipt of notice of election to cancel, Seller shall return the deposit made pursuant to this agreement immediately. D.13 Model definition of phrase "adverse environmental condition"

COMMENT

The following clause provides a broad definition of the term "adverse environmental condition". It can be used not only in agreements for the sale and purchase of real property, but also in lease agreements, mortgages, real estate-based loan agreements and related documents, etc.

Basically, the clause describes the phrase "adverse environmental condition" as the release or spillage of hazardous or toxic substances or wastes into the air, water or ground. In addition, the violation of any environmental statute, regulation, permit, or an order issued by an administrative agency or judicial body, is also deemed to be an adverse environmental condition.

For further information, see Chapters 4 and 11.

FORM

"Adverse environmental condition" means:

(1) the existence or release (including, without limitation, sudden or nonsudden, accidental or nonaccidental leaks or spills) of, or exposure to, any hazardous substance, chemical, material, pollutant, contaminant, or audible noise in, into or onto the environment (including, without limitation, the air, ground, water or any surface); and

(2) the violation, or alleged violation, of any statute, ordinance, order, rule, regulation, permit or license of or from any governmental authority, agency or court relating to environmental matters.

D.14 Model definition of "hazardous substance"

COMMENT

This definition of "hazardous substance" can be used not only in agreements for the sale and purchase of real property, but also in lease agreements, mortgages, real estate-based loan agreements and related documents, etc.

The definition basically relies upon federal, state and local environmental statutes and regulations to specify the precise types of substances that are to be considered hazardous for the purposes of the sale/purchase agreement. However, the clause itself does list certain specific substances which are to be considered hazardous, including, asbestos, polychlorinated biphenyls ("PCBs") and radioactive substances. In addition, any other material or substance which has in the past or could in the future constitute a health, safety or environmental hazard to any person or property is likewise to be considered hazardous for the purposes of the sale/purchase agreement.

For further information, see Chapters 4 and 11.

FORM

"Hazardous substance" means those substances which are regulated by, or form the basis of liability under, any federal, state or local environmental laws, including, without limitation, asbestos, polychlorinated biphenyls ("PCBs"), and radioactive substances, or any other material or substance which has in the past or could in the future constitute a health, safety or environmental hazard to any person or property.

COMMENT

This definition of "environmental claim" can be used not only in agreements for the sale and purchase of real property, but also in lease agreements, mortgages, real estate-based loan agreements and related documents, etc.

An "environmental claim" is defined as any allegation, notice of violation, legal claim or order issued by any governmental authority, or by any private person, for personal injury, property damage, nuisance, contamination or other adverse effects on the environment, resulting from or based upon: (1) the release or spillage of hazardous substances into the air, water or ground; (2) the transportation, storage, treatment or disposal of hazardous substances; or (3) the violation of any environmental statute, order, regulation or permit.

For further information, see Chapters 4 and 11.

FORM

"Environmental claim" means any accusation, allegation, notice of violation, claim, demand, abatement, or order of direction (conditional or otherwise) by any governmental authority or any person for personal injury (including sickness, disease or death), tangible or intangible property damage, damage to natural resources, nuisance, pollution, contamination or other adverse effects on the environment, or for fines, penalties, or restrictions, resulting from or based upon:

2-Forms Federal Taxes Affecting Real Estate [D]

(1) the existence or release (including, without limitation, sudden or nonsudden, accidental or nonaccidental leaks or spills) of, or exposure to, any hazardous substance, chemical, material, pollutant, contaminant, or audible noise in, into or onto the environment (including, without limitation, the air, ground, water or any surface);

(2) the transportation, storage, treatment or disposal of hazardous substances; or

(3) the violation, or alleged violation, of any statute, ordinance, order, rule, regulation, permit or license of or from any governmental authority, agency or court relating to environmental matters.

D.16 Model definition of "environmental law"

COMMENT

The clause below provides a very expansive definition of the term "environmental law." The definition encompasses not only statutes enacted by legislative bodies, but also regulations, ordinances and policies promulgated by any governmental authority (whether federal, state, county or municipal) and pertaining to the environment or to public health or safety. It would be appropriate to include specific citations to applicable state and local environmental statutes.

For further information, see Chapters 4 and 11.

FORM

"Environmental law" means any applicable foreign, federal, state or local statute, law, ordinance, rule, regulation, or order (whether voluntary or not) relating to the environment, natural resources, or human health and safety, including, without limitation, the Comprehensive Environmental Response, Compensation, and Liability Act, 42 USC § 9601 *et seq.*; the Hazardous Material Transportation Act, 49 USC § 1801 *et seq.*; the Resource Conservation and Recovery Act, 42 USC § 6901, *et seq.*; the Federal Water Pollution Control Act, 33 USC § 1251 *et seq.*; the Clean Air Act, 42 USC § 7401 *et seq.*; the Toxic Substances Control Act, 15 USC § 2601 *et seq.*; and the Occupational Safety and Health Act, 29 USC § 651 *et seq.*, as such laws have been amended or supplemented now or in the future.D.17 Model definition of "environmental liabilities and costs"

COMMENT

The clause below provides a very expansive definition of the term "environmental liabilities and costs." It can be used not only in agreements for the sale and purchase of real property, but also in lease agreements, mortgages, real estate-based loan agreements and related documents, etc.

The term refers to any and all liabilities, obligations, losses, damages (including punitive, consequential and treble damages), expenses (e.g., attorneys' and environmental consultants' fees), fines, penalties and interest incurred as a result of a lawsuit based on: (1) an environmental mishap that occurs on the subject property (such as the sudden release or emission of toxic gases or liquids); or (2) the discovery of an adverse environmental condition already existing on the property (such as leaking barrels of hazardous waste buried beneath the ground).

For further information, see Chapters 4 and 11.

FORM

2-Forms Federal Taxes Affecting Real Estate [D]

"Environmental liabilities and costs" means all liabilities, obligations, responsibilities, remedial actions, losses, damages, punitive damages, consequential damages, treble damages, costs and expenses (including, without limitation, all reasonable fees, disbursements and expenses of counsel, expert and consulting fees, and costs of investigation and feasibility studies), fines, penalties, sanctions and interest, incurred as a result of any claim or demand, by any person, whether based in contract, tort, implied or express warranty, strict liability, criminal or civil statute, including any environmental law, permit, order or agreement with a governmental authority or other person, arising from environmental, health or safety conditions, or the release of a contaminant into the environment, resulting from the past, present or future operations of a business entity.D.18 Model definition of "release"

COMMENT

The clause below can be used not only in agreements for the sale and purchase of real property, but also in lease agreements, mortgages, real estate-based loan agreements and related documents, etc. The clause defines the environmental term "release" very broadly as any spill, leak, emission, discharge, disposal or migration of a contaminant into the exterior or interior environment, thereby contaminating the air, water, land or subsoil.

For further information, see Chapter 4.

FORM

"Release" means any release, spill, emission, leaking, pumping, injection, deposit, disposal, discharge, dispersal, leaching or migration of a contaminant into the indoor or outdoor environment, including the movement of contaminants through or in the air, soil, surface water, ground water or property.D.19 Model definition of "remedial action"

COMMENT

The clause below defines the environmental term "remedial action." It can be used not only in agreements for the sale and purchase of real property, but also in lease agreements, mortgages, real estate-based loan agreements and related documents, etc.

The clause defines the term as any action taken, whether voluntarily or by government order: (1) to clean up or remove contaminants from the environment; (2) to prevent further contamination of the environment; or (3) to perform pre-remedial or post-remedial studies and investigations to determine either the nature and extent of an environmental problem, or whether remedial efforts already taken have successfully eliminated the problem.

For further information, see Chapter 4.

FORM

"Remedial action" means all actions required or voluntarily undertaken to:

(1) clean up, remove, treat or in any other way address contaminants in the indoor or outdoor environment;

(2) prevent the release or threat of release or minimize the further release of contaminants so they do not migrate or endanger or threaten to endanger public health or welfare or the indoor or outdoor environment; or

(3) perform pre-remedial studies and investigations and post-remedial monitoring and care.

D.20 Model agreement to perform environmental site assessment

COMMENT

This form is a model agreement for an environmental site assessment. It sets forth, in very specific terms, the work to be performed by the environmental engineer (or other environmental consultant) and how it will be performed. The form also sets forth items which are specifically excluded from the scope of the assessment, such as soil testing.

With regard to payment, the form sets out the fee for the engineer's services and states when payment is required. It also provides for a *quantum meruit* payment in the event that the purchaser cancels the agreement after partial performance by the engineer. (Such cancellation might occur if a contingency in the sale and purchase agreement were to fail, e.g., where the purchaser is unable to obtain a mortgage at an acceptable interest rate.)

It is common practice for lenders to require an environmental site assessment as a condition of making a mortgage loan to a purchaser. Such an assessment is also required when the purchaser wants to obtain environmental insurance to protect himself or the lender against the economic consequences of the discovery of an adverse environmental condition on the premises after the transfer of title.

In the event that the environmental site assessment turns up evidence that there *might* be an adverse environmental condition on the premises, this agreement can be modified to have the engineer undertake whatever additional work may be necessary to make a definitive determination. This work might include laboratory testing of ground water or soil samples, or analysis of the composition of material removed from a building, such as insulation. If such work is necessary, the parties would simply execute a written amendment or addendum to this agreement, specifying the scope of the additional work, the added cost and payment terms.

For further information, see Chapters 4 and 11.

FORM

AGREEMENT made this _____ day of _____, 20____,
between _____ [*insert name of company performing environmental site assessment*], a corporation existing under the laws of the State of _____, with offices for the transaction of business at _____ (hereafter referred to as "Engineer"), and _____, residing at _____ (hereafter referred to as "Purchaser").

WITNESSETH:

WHEREAS, Purchaser is the contract vendee of a certain parcel of real property and premises commonly known as _____ (hereafter referred to as "subject premises");

WHEREAS, Engineer is in the business of performing environmental site assessments;

NOW, in consideration of the mutual promises contained herein, it is agreed as follows:

2-Forms Federal Taxes Affecting Real Estate [D]

1. *Scope of work.* Engineer will undertake the following tasks to determine whether there is any evidence of significant adverse environmental impact due to past or present practices or releases of hazardous material on the subject premises:

(a) Review of any maps which may be available which show adjacent property. These may include United States Geological Maps, maps filed in the

_____ County Clerk's Office, development maps filed with the Planning Office of the City of

_____, maps filed with the Department of Environmental Protection of the State of

_____, and maps filed with the

_____ County Health Department. It is unknown at this time whether any or all of the above maps may be in existence.

(b) Review of the title search of the property to determine the identity of previous owners. This title search will be provided to Engineer by Purchaser at Purchaser's expense.

(c) Personal interviews with:

(i) current owner to determine his use of the premises;

(ii) as many owners as can be reasonably located within a fifty-five (55) mile radius from the site or by telephone, to determine past uses of the premises;

(iii) representatives of the police department, fire department, sanitation department, and health department, to determine whether any records exist regarding environmental conditions or incidents existing or occurring on the subject premises or adjacent land;

(iv) occupants of neighboring properties to determine use of premises and neighboring land and whether any significant incidents can be recalled.

(d) Review of state and federal records of hazardous waste sites and other environmentally significant events.

(e) Personal inspection of the subject premises.

It is understood that no soil samples or other testing will be performed as part of this environmental site assessment. If Engineer discovers any piece of information which he reasonably believes warrants further investigation, he shall promptly notify Purchaser. Such further investigation shall be performed as part of an amendment to this Agreement, to be negotiated and executed prior to commencement of the further investigation.

2. *Findings.* Engineer shall present his findings in written form on or before _____, 20____. Time is of the essence. The findings shall include a statement of whether any evidence of significant adverse environmental impact was discovered. The findings shall also include whether Engineer recommends any additional testing or review. The findings shall also report whether any significant information was unavailable to Engineer and the import of such lack of information.

2-Forms Federal Taxes Affecting Real Estate [D]

3. *Cost.* The total cost of the environmental site assessment to be performed pursuant to the terms of this Agreement is the sum of \$_____, together with costs of disbursements made by Engineer for copies of maps, records, postage, photocopies, mileage, and long distance telephone calls. This sum shall be paid as follows:

(a) The sum of \$

_____ upon execution of this Agreement. This sum is non-refundable.

(b) The sum of \$

_____ is due upon delivery of the environmental site assessment. Engineer shall be entitled to withhold the assessment until this sum shall be paid in full.

In the event Purchaser cancels this Agreement after performance has begun, Engineer shall be entitled to a fee of \$_____ per hour for time expended to the date of cancellation, together with disbursements, as described above. The non-refundable deposit shall be applied to this amount. The balance, if any, shall be due and payable to Engineer upon his rendering of his statement for services.

4. *Confidentiality.* Engineer agrees not to discuss his findings or provide copies of his findings to anyone other than Purchaser, without the written authorization of Purchaser. Engineer acknowledges that Purchaser is under a contractual obligation to Seller to maintain confidentiality with regard to anything which he may learn about the subject premises. Engineer, for himself and his employees, agrees to comply with the confidentiality requirements.

Notwithstanding the foregoing, nothing contained herein shall prohibit Engineer from testifying before a duly constituted body of any state or federal government under compulsion of subpoena regarding his work or findings. Engineer shall provide a copy of the environmental site assessment to the owner at the premises address.

5. *Representations of engineer.*

(a) Engineer represents that he is qualified to undertake the work contemplated under this Agreement.

(b) The work will be performed in a professional manner, using generally acceptable practices in this field at this time.

(c) No other representations or warranties, express or implied, are made.

(d) Engineer shall be entitled to rely on oral information or representations made during interviews, unless Engineer reasonably believes such information to be of a questionable nature. In such case, Engineer shall report the information and the reason why he reasonably believes the information to be of a questionable nature.

6. *Representations of purchaser.* Purchaser will cooperate with Engineer and provide Engineer with all copies of maps and documents in his possession in a timely fashion so as to facilitate the timely completion of the work contemplated under this Agreement.

7. *Entire agreement.* This Agreement contains the entire understanding of the parties; there have been no representations made which are not contained herein.

2-Forms Federal Taxes Affecting Real Estate [D]

8. *Modification.* This Agreement may only be modified by a written amendment signed by all parties. An oral modification shall not be binding on any party.

9. *Governing law.* This Agreement shall be construed in accordance with the laws of the State of _____.

10. *Waiver.* Any failure by either party to enforce any right arising hereunder shall not be deemed a waiver of such right.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals the day and year first above written.

[Acknowledgements]

D.21 Model agreement with company for removal of hazardous condition on subject premises--clauses include licensing requirements, insurance requirements, scope of work, hold harmless provision, certificate of proper disposal

COMMENT

This agreement is used when contracting with a licensed hauler for the removal of hazardous matter located on the subject premises. The owner of the premises should demand copies of the hauler's certificate of insurance and state-issued license prior to providing a deposit to the hauler. The owner should also obtain proof of proper disposal of the hazardous matter before making the final payment required under the agreement.

The form contains provisions which require the hauler to inform his employees and agents of the nature of the substance being removed. In addition, the hauler agrees to provide any special training, protective clothing and other necessary gear for his employees and agents. This provision is designed to help prevent future claims, brought against *both* the hauler and the owner of the property by injured workers, that with proper training and protective gear, the injuries could have been avoided. It is also strongly recommended that the agreement include a requirement of worker's compensation insurance.

The removal process can be very dangerous, particularly where the hazardous matter is radioactive or highly flammable, or where it contains extremely carcinogenic chemicals. The owner should examine his own liability insurance coverage prior to the commencement of work. The owner must be certain that he has adequate coverage in the event that the hauler or its insurance company becomes bankrupt or is otherwise unable to meet its obligations to the owner and to anyone else who may be injured during the course of removal.

For further information, see Chapters 4 and 11.

FORM

AGREEMENT made this _____ day of _____, 20____,
between _____, a corporation licensed to do business in the State of _____, with
offices for the transaction of business at _____ (hereafter referred to as "Company"),
and _____, residing at _____ (hereafter referred to as "Owner").

2-Forms Federal Taxes Affecting Real Estate [D]

W I T N E S S E T H:

WHEREAS, a hazardous condition has been discovered on certain real property owned by Owner; and

WHEREAS, Company is in the business of correcting such conditions;

NOW, in consideration of the mutual promises contained herein, it is agreed as follows:

1. *Scope of work:*

(a) The Company will remove _____ [insert number of drums] fifty-five (55) gallon drums containing _____ [e.g., gasoline] from Owner's property located at _____. If any drums are not intact, Company will transfer the material to a suitable container and remove the container and damaged drum(s) as well.

(b) If any drums are found to be leaking, Company shall remove the contaminated soil as well. The amount of soil to be removed will be determined by soil samples to be taken by Owner's consultant and at Owner's expense.

(c) Company shall provide Owner with a hazardous materials shipping manifest, as required by state and federal laws and regulations.

(d) Company shall dispose of the items in Paragraphs (a) and (b), above, at an approved site, as required by law. Company shall provide owner with proof of proper disposal within ten (10) days after each item is removed from Owner's premises. Owner shall not be obligated to pay Company until such proof is provided in proper form.

2. *Cost:*

(a) Owner shall pay Company the sum of \$_____ per intact drum and \$_____ for any drum which requires replacement.

(b) Owner shall pay Company the sum of \$_____ per cubic yard of soil which is removed.

(c) Payment shall be made by certified check or bank draft as follows: \$_____ deposit shall be made upon execution of this Agreement. Company shall hold this sum in escrow until it has picked up all drums. A payment of \$_____ shall be made upon providing Owner with the shipping manifest and proof of proper disposal. The payment for soil removal shall be made in full upon Company providing Owner with proof of proper disposal.

3. *Insurance:*

(a) Company shall provide Owner with proof of worker's compensation insurance and liability insurance in at least the amount of \$_____. Owner shall be named as an additional insured on the policies.

(b) Company shall hold Owner harmless for any and all claims for injury to person or property arising from the removal and disposal as described in Paragraph 1, above, including, but not limited to, defense costs and consequential damages arising out of, or in any way related to, the_____.

(c) Company covenants that it will provide its employees and agents with appropriate protective clothing and equipment, including, but not limited to, ventilators, protective eyeglasses, coveralls, and gloves. Company also covenants that it will provide its employees and agents with any special training and other information necessary for the successful completion of this contract. Company will use only employees who are fully trained in the proper handling of such substances. Company will disclose to employees the identity and nature of the substance to be removed.

4. Representations:

- (a) Company represents that it is licensed by the appropriate federal and state authorities to undertake the work described in Paragraph 1. Company will provide a copy of its licenses to Owner upon execution of this Agreement.
- (b) Company represents that it has never been cited, convicted, fined, or the subject of any administrative proceeding for any action in connection with removal, storage or transportation of any hazardous substances.
- (c) Owner represents that the only substance contained in the drums is_____.

5. Time:

- (a) Company will remove all drums on or before_____, 20_____.
- (b) Company shall remove the contaminated soils, if any, within_____ days after receipt of the report from Owner's consultant stating the location and amount of soil to be removed.
- (c) Company shall be entitled to a reasonable extension of time, not to exceed_____ days, to compensate for adverse weather conditions.

6. Termination:

- (a) Either party may terminate this Agreement prior to performance by Company. Upon such termination, Company shall promptly refund the deposit.
- (b) If partial performance has occurred, Company shall be entitled to *quantum meruit* payment to be applied against the deposit. The balance of the deposit shall be promptly refunded. If the deposit is insufficient, Owner shall promptly remit the balance.
- (c) Notice of termination shall be given in writing and delivered as set forth in Paragraph 7 hereof.

7. *Notice.* Any notice required to be given to Company shall be in writing and sent certified mail, return receipt requested, to:

Any notice required to be given to Owner shall be in writing and sent certified mail, return receipt requested, to:

Notice shall be deemed given when received.

8. *Entire agreement.* This Agreement contains the entire understanding of the parties; there have been no representations made which are not contained herein.

9. *Modification.* This Agreement may only be modified by a written amendment signed by all parties. An oral modification shall not be binding on any party.

2-Forms Federal Taxes Affecting Real Estate [D]

10. *Governing law.* This Agreement shall be construed in accordance with the laws of the State of _____.

11. *Waiver.* Any failure by either party to enforce any right arising hereunder shall not be deemed a waiver of such right.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals the day and year first above written.

D.22 Model agreement for gift or donation of real property--hold harmless clause granted by transferor to transferee in the event environmental problems are discovered in future--transferee may reconvey property to transferor if environmental problems are discovered--warranty as to condition of premises

COMMENT

This agreement is designed to be used when an owner wishes to make a charitable donation of real property to a non-profit organization. Here, the tax benefits to the transferor are so great that he is willing to give to the transferee an environmental hold harmless and to agree to accept a reconveyance of the property if an environmental problem is discovered after the gift is made. The transferor is willing to take such a risk only because he had an environmental site assessment performed when he purchased the property. Thus, the transferor is aware that the property was free of any adverse environmental condition when he purchased it, and that no such condition arose during his tenure as owner.

If the transferor does not have this information available, paragraphs 7, 8, 9 and 10 should be omitted, and a disclaimer of warranties should be inserted. In such case, the transferee should strongly consider making the transfer contingent upon the results of an environmental site assessment. It should be remembered that under the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), 42 USC § 9601 *et seq.*, the transferee becomes liable for any condition on the property once the transfer of title occurs.

For further information, see Chapters 4 and 11.

FORM

AGREEMENT made this _____ day of _____, 20____, between _____, a corporation existing under the laws of the State of _____, with offices for the transaction of business at _____ (hereafter referred to as "Corporation"), and _____ Charities, a not-for-profit corporation organized under the laws of the State of _____, with offices for the transaction of business at _____ (hereafter referred to as "Charities").

WITNESSETH:

2-Forms Federal Taxes Affecting Real Estate [D]

WHEREAS, Corporation is the owner of certain real property and premises located in the City of _____, State of _____, with a street address of _____ (hereafter referred to as "property"); and

WHEREAS, Corporation no longer has use for said property; and

WHEREAS, Charities is seeking a site on which to house its _____ program;

NOW, in consideration of the mutual promises contained herein, it is agreed as follows:

1. *Transfer of property.* Corporation hereby agrees to transfer to Charities the property as a charitable donation. The transfer shall take place on or after _____, 20____.

2. *Terms and conditions of transfer.* Corporation shall provide Charities with a copy of its abstract of title to the premises. Charities shall obtain a continuation of title insurance at its own cost and expense.

Charities shall take title subject to any facts which may be revealed by a survey or personal inspection, any enforceable covenants, easements or restrictions which are of record, and any zoning ordinances in effect. In the event that Charities does not wish to accept title subject to any of the foregoing, the sole remedy shall be to terminate this agreement. Nothing contained herein shall require Corporation to take any steps to clear any title defects.

3. *Removal of all equipment and fixtures from property.* Corporation agrees to remove all equipment and fixtures from the structures located on the property. Corporation shall leave the structures "broom clean". Corporation shall not be required to repair any holes in the floors, walls or ceilings caused by removal of said fixtures as it is the intention of Charities to completely renovate the building into a center for its _____ program.

4. *Value of property.* The parties agree that the value of the property, including structures, is \$____. The parties have each obtained appraisals to that effect. Charities intends to insure the property for that sum. Corporation intends to use that sum for computation of its donation and tax deduction.

5. *Tax-exempt status of donee.* Charities represents that it is a not-for-profit organization and has received certification from the Internal Revenue Service. Charities further represents that it is a § 501(c)(3) charitable corporation under the Internal Revenue Code of 1986, as amended.

6. *Representation of condition of premises.* Corporation hereby represents that the premises are in good structural condition and that all systems, including plumbing, mechanical, and electrical, are in good working order and will be so on the date of transfer of title, reasonable wear and tear excepted.

7. *Premises have never been used to store or dispose of hazardous waste.* Corporation hereby represents and warrants that the subject premises have never been used for the storage or disposal of hazardous waste. The term "hazardous waste", as used herein, shall mean substances deemed hazardous pursuant to the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), 42 U.S.C. § 9601 et seq.

This representation is made to induce Charities to enter into this contract for transfer of the subject premises. Corporation shall be liable for all damages, including economic and consequential damages, in the event that the representations contained in this section are inaccurate.

8. *Compliance with environmental laws, regulations and policies.* Corporation hereby represents and warrants that, during its period of ownership, Corporation, its agents and employees, complied with all federal, state and municipal environmental laws, regulations and policies as such relate to the subject premises.

2-Forms Federal Taxes Affecting Real Estate [D]

Corporation agrees to indemnify and hold Charities harmless for any loss, including, but not limited to, damage to person or property or economic loss, including defense costs arising out of any violation of environmental law which occurred during Corporation's ownership of the subject premises, which violation was caused by the knowing or purposeful act or omission of Corporation, its agents or employees.

9. *Indemnification and hold harmless.* Corporation agrees, for a period of _____ years from the date hereof, to indemnify and hold Charities harmless for and against any and all liability, claims and expenses of any kind whatsoever (including reasonable attorney's fees and other defense costs) for any injury or damage to person or property sustained by anyone on or about the premises, which results from or arises out of any adverse environmental condition existing on the subject premises at or before the transfer of title of the subject premises from Corporation to Charities.

Corporation agrees, for a period of _____ years, to obtain environmental liability insurance from a company rated "AA" or better in at least the amount of \$ _____. Charities shall be named as an additional insured or loss payee on said policy. Corporation's liability under this agreement shall be limited to the limits of this policy.

Charities shall give Corporation notice of any claim or potential claim within ten (10) days after Charities shall receive notice or have reason to know that a claim exists. Failure to provide prompt notice will relieve Corporation of any liability hereunder.

Charities shall give Corporation a reasonable opportunity to defend against such claim. Charities shall cooperate with Corporation in such defense. Charities shall not compromise any claim without the consent of Corporation. Violation by Charities of any of these provisions shall relieve Corporation of any liability hereunder.

Charities agrees to cooperate with and comply with all reasonable requests of Corporation's insurance carrier. In the event Charities fails to do so and the insurance carrier disclaims liability for that reason, Corporation shall be relieved of any liability hereunder.

10. *No environmental site assessment to be performed.* On the basis of the representations made herein by Corporation, Charities will not be undertaking an environmental site assessment. In the event that Charities, during the term of its ownership, discovers any adverse environmental impact caused by use of the property or release of hazardous materials on the property prior to Charities' ownership, in addition to any other rights or remedies which Charities may have, Charities may require Corporation to accept a reconveyance of the property.

In addition, Corporation shall reimburse Charities for the reasonable current value of the improvements which Charities has made to the property. The value shall be determined by an appraiser who is mutually agreeable to the parties. If the parties cannot agree upon an appraiser, each shall select an appraiser. The two appraisers shall select a third appraiser, who shall perform the appraisal. The third appraiser's valuation shall be binding on both parties.

Payment shall be made within _____ days after receipt of the appraisal and upon tender of the deed by Charities. Notwithstanding the foregoing, if Charities has caused or suffered any acts or omissions during its ownership which result in any adverse environmental impact of any nature, Charities shall have no right to reconvey the property.

The benefits contained in this paragraph may not be transferred by Charities to subsequent owners.

11. The provisions of this Agreement shall survive the transfer of title.

12. This agreement may not be assigned by Charities.

2-Forms Federal Taxes Affecting Real Estate [D]

13. This Agreement contains the entire understanding of the parties; there have been no representations made which are not contained herein.

14. This Agreement may only be modified by a written amendment signed by all parties. An oral modification shall not be binding on any party.

15. This Agreement shall be construed in accordance with the laws of the State of _____.

16. Any failure by either party to enforce any right arising hereunder shall not be deemed a waiver of such right.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals the day and year first above written.

D.23 Conservation easement agreement

COMMENT

This form provides for the sale of an easement for recreational purposes by the owner of the subject property to the people of the State of New York. The agreement allows vast acreage to be made available to the general public for all-season use, including hiking, camping, skiing, snow shoeing, canoeing, fishing, etc. The property is to be preserved perpetually in its natural condition.

The form also allows the owner to maintain the right to use the property for harvesting forest crops. However, this right is predicated upon his adherence to environmentally-sound harvesting techniques.

The agreement allows the owner to mortgage or sell the property subject to the terms of the easement. The owner is also responsible for all taxes imposed on the property.

For further information, see Chapter 4.

FORM

UNDER THIS AGREEMENT made this _____ day of _____, 20____, between _____, a corporation existing under the laws of the State of _____, with offices for the transaction of business at _____ (hereafter referred to as "Owner"), and THE PEOPLE OF THE STATE OF NEW YORK (hereafter referred to as "Purchaser"), by THE NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION, and pursuant to the provisions of Section 3-0305 of the Environmental Conservation Law under which this purchase is being made, the parties hereby agree to the following terms and conditions:

W I T N E S S E T H:

WHEREAS, Owner claims to own the land hereinafter described and wishes to sell and convey same to the Purchaser, and desires the Purchaser to secure a search and make an examination of the title to said land; and

WHEREAS, the Purchaser desires to secure title to said land, but before doing so, it will be necessary that the Purchaser examine the title to said land and secure the approval of title thereto by the Attorney General;

NOW, THEREFORE,

The Owner, in consideration of the performance of the covenants hereinafter contained on the part of the Purchaser, hereby agrees to sell and convey unto the Purchaser a Conservation Easement affecting the land hereinafter described, by full covenant warranty deed free and clear from any and all liens and encumbrances, according to such description as approved by the Comptroller of the State of New York pursuant to his rules, such description to be made in accordance with an accurate survey or map to be made by or on behalf of the Purchaser and at the expense of the Purchaser, said deed to contain a trust covenant in accordance with Subdivision 5 of Section 13 of the Lien Law, for the sum of \$_____, and;

The Purchaser, subject to the approval of title to said land by the Attorney General, and in consideration of the performance of the covenants hereinabove and hereinafter contained on the part of the Owner, agrees to buy said land and to pay the Owner therefor the sum as aforesaid; such payment to be made after the deed from the Owner to the Purchaser shall have been duly recorded in the Office of the Clerk of the County in which said land is situated.

The Owner covenants with the Purchaser and the Purchaser covenants with the Owner as follows:

1. That the title to the land, hereinafter described, shall be examined with all convenient speed and said title shall be subject to the approval of the Attorney General of the State of New York after the same has been made satisfactory to him and that the Purchaser shall procure a search covering the said land if the Owner has not made such a search.
2. That said Owner will submit to the Attorney General all maps, deeds, and other papers and documents relating to, or affecting the title to, or right of possession of, the land hereinafter described, and will furnish the Attorney General such additional information and papers as the Attorney General may require, so far as the same may be in his possession or obtainable by him.
3. The Owner will cooperate with the Attorney General in an effort to clear any valid title objections which may arise.
4. That whenever notified by the Attorney General, by letter or otherwise, said Owner will execute and deliver to the Attorney General for the Purchaser, without delay, a full covenant warranty deed of the said land, hereinafter described. Said deed shall be subject to the approval of the Attorney General with respect to form, manner of execution and recordability.
5. The said Owner will pay and discharge all taxes and assessments which are due and payable or which are liens against said land at the time for the recording of the deed thereof to the Purchaser. All current taxes will be prorated accordingly.
6. That if the title of said Owner to the land hereinafter described is based on adverse possession, said Owner will, at its own expense, perpetuate the evidence of such possession in the manner provided by Article 31 of the Civil Practice Law and Rules before title will be approved by the Attorney General.
7. It is further mutually understood and agreed that the obligations of the Owner to clear objections to the title to said

2-Forms Federal Taxes Affecting Real Estate [D]

real property shall not include the extinguishment of easements, if any, for the construction, operation and maintenance of electric, telephone, telegraph, and pipe lines, or railroads and other transportation corporations, or the right of others in any public road, right-of-way, waterway, street or highway running through or along the premises. The above purchase price is exclusive of such other possible interests.

8. The conveyance shall also include the right, title and interest of the Owner in and to any lands lying in the bed of any right-of-way, highway, road, street, or avenue, or in the bed of any waterway, marsh, pond, lake, bay, drainage or irrigation ditch, river, creek or stream running through the premises to be conveyed or lying in front or adjacent thereto, together with any and all right of ingress or egress over and across any private drive, land, waterway or road leading to and from any highway, road, street, or avenue to the real property herein described.

9. It is further mutually understood and agreed, anything to the contrary notwithstanding, that if, in the opinion of the Purchaser, it is necessary or desirable to acquire the same by appropriation pursuant to law, title to said lands may be so acquired by the Purchaser in lieu of acquisition by conveyance from said Owner, and in such event upon the vesting of title in the Purchaser as provided by law, this Agreement shall be and become an Agreement of Adjustment of the Claim of said Owner for compensation for the value of the real property so appropriated, and shall constitute an agreement that the value of the real property so appropriated shall be and hereby is fixed and determined at the sum of \$_____ without interest, moving expenses, supplemental relocation payments and incidental expenses (except pro rata of taxes) and as payment in full of any and all such claims arising from the appropriation.

All covenants of this Agreement shall apply, in case of appropriation, with respect to disposition of objections to title, as that title and those objections are found by the Attorney General to have existed at the time of appropriation.

This Agreement, consisting of _____ pages, is executed in triplicate; both parties and the Comptroller have one and each is an original for all purposes.

It is further mutually understood and agreed that this Agreement is to apply to and bind the heirs, devisees, grantees, executors, administrators, successors, and assigns of the Owner.

The Conservation Easement being conveyed by this Agreement from the Owner to the Purchaser shall include but not be limited to "Partial Development" and "Partial Recreational" rights associated with the _____ acre parcel. The Owner will retain the underlying fee title together with the "Timber Rights in Perpetuity". The terms of the easement are more fully described in the attached Addendum "A."

The Conservation Easement hereby contracted to be sold by the Owner to the Purchaser is described as follows:

D.24 Representation by borrower to lender of condition of premises

COMMENT

This form provides several alternative representations which may be made by a borrower concerning the condition of the premises that will secure the loan. The appropriate representation should be included in the mortgage document.

In its list of events that will trigger a default by the borrower, the mortgage should include: "any misrepresentation made by the borrower at the time the mortgage terms were negotiated or memorialized in writing, regarding the condition of premises." This provision would allow the lender to accelerate the debt and call the loan due and payable in full upon the lender's discovery of the misrepresentation. In the alternative, the lender could exercise any other options which it might have available to it under the mortgage terms, such as requiring the borrower to proffer substitute collateral or collecting the mortgage debt from guarantors.

For further information, see Chapter 4.

FORM

Borrower hereby represents and warrants to Lender that Borrower knows of no state of facts or circumstances which would indicate that any adverse environmental condition exists on the premises described in Schedule "A," which is annexed to this mortgage.

"Adverse environmental condition" is defined as:

- (1) the contamination of the soil, air or water (whether surface water or ground water) of the subject premises by hazardous substances or hazardous wastes; or
- (2) the presence of hazardous substances or hazardous wastes which are stored upon the subject premises.

[Or:]

Borrower represents that he has caused a phase I environmental site assessment to be performed on the subject premises (described in Schedule "A," which is annexed to this mortgage) by a reputable environmental consulting firm. The results of the assessment showed no evidence of any adverse environmental condition on the property.

"Adverse environmental condition" is defined as:

2-Forms Federal Taxes Affecting Real Estate [D]

(1) the contamination of the soil, air or water (whether surface water or ground water) of the subject premises by hazardous substances or hazardous wastes; or

(2) the presence of hazardous substances or hazardous wastes which are stored upon the subject premises.

[Or:]

Borrower represents that he has been the owner of the premises described in Schedule "A," annexed to this mortgage, for _____ (____) years. During that time, no hazardous materials, as defined in the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. § 9601 *et seq.*, the Resource Conservation and Recovery Act, 42 U.S.C. § 6901 *et seq.*, the Hazardous Materials Transportation Act, 49 U.S.C. § 1801 *et seq.*, or the Toxic Substances Control Act, 15 U.S.C. § 2601 *et seq.*, have been used, stored or disposed of on said premises.

[Or:]

Borrower represents that _____ [insert number] drums of _____, a substance considered to be hazardous, was stored on the subject premises (described in Schedule "A," which is annexed to this mortgage) for a period of _____ (____) years. Those drums were intact when removed. The drums have been properly removed and disposed of in strict compliance with all federal, state and municipal laws, regulations and policies. Borrower knows of no other adverse environmental condition affecting the premises.

[Or:]

Borrower represents and warrants to Lender that:

(1) to the best of his knowledge, neither the premises described in Schedule "A," which is annexed to this mortgage, nor any adjacent property is currently being used or has been used for the storage, treatment, generation, transportation, processing, handling, production, or disposal of any hazardous substances as hereafter defined, or as a landfill or other disposal site;

(2) no storage tanks are now or have previously been located on the premises;

(3) all required permits have been obtained and are in full force and effect; and

(4) there are no proceedings, pending or threatened, which could result in damages or an order for remediation for any alleged violation of any environmental law.

As used herein, the term "hazardous substances" shall mean any substance described in the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. § 9601 *et seq.*, the Resource Conservation and Recovery Act, 42 U.S.C. § 6901 *et seq.*, the Hazardous Materials Transportation Act, 49 U.S.C. § 1801 *et seq.*, or the Toxic Substances Control Act, 15 U.S.C. § 2601 *et seq.*

[Whichever of the above representations is used, the following should also be added:]

Borrower makes the representations contained herein as part of the consideration for this loan from Lender. Any misrepresentation made by Borrower shall be an event of default under the terms of this mortgage. In the event Borrower has made a misrepresentation, Lender shall be entitled to enforce all rights and remedies regarding defaults under the terms of this mortgage. D.25 Representation by borrower to lender that it has complied with all federal, state and local environmental laws and regulations--another form

COMMENT

In the following clause, which may be inserted into a mortgage or loan agreement, the borrower makes a long series of representations for the benefit of the lender. These representations include, among others, that the borrower has complied with all federal, state and local environmental laws and regulations affecting the subject property. The borrower also represents that it is unaware of any legal actions or claims, either threatened or pending, arising out of an environmental mishap on the property or out of a violation of any environmental law or regulation on the property.

For further information, see Chapters 4 and 11.

FORM

Borrower makes the following nine representations to lender:

- (1) Borrower's counsel has carefully reviewed all federal, state and local environmental laws and regulations affecting the subject premises.
- (2) Any and all governmental approvals, permits and notifications required by federal, state and local environmental laws have been obtained.
- (3) Borrower has complied with all federal, state and local environmental laws, regulations, ordinances and policies applicable to the subject premises.
- (4) Borrower is unaware of any action, either threatened or commenced, by any governmental agency arising out of an alleged violation of any environmental law or regulation on the subject premises.
- (5) No governmental agency has notified the borrower of any violation of any environmental law or regulation on the subject premises.
- (6) Borrower is unaware of any civil action, either threatened or commenced, by a party other than a governmental agency, arising out of an alleged environmental mishap occurring on the subject premises or out of the alleged violation of any environmental law or regulation on the subject premises.
- (7) Borrower is unaware of the occurrence of any environmental mishap on the subject premises or of the existence or discovery of an adverse environmental condition on said premises.
- (8) Borrower is unaware of the presence on the subject premises of any hazardous waste or hazardous or toxic substances.
- (9) The past and present uses to which the borrower has put or is putting the subject premises do not violate any relevant federal, state or local environmental laws or regulations.

D.26 Environmental indemnification and hold harmless granted by borrower to lender--long form

COMMENT

The form below is known as an "environmental indemnification and hold harmless" provision and is granted by a borrower to its lender. In it, the borrower agrees that if, as a result of an adverse environmental condition that is discovered or occurs during the term of the loan, the lender is subjected to any liability whatsoever, then the borrower will indemnify and hold the lender harmless against such liability. The form includes its own definitions of the terms "liability" and "adverse environmental condition."

For further information, see Chapters 4 and 11.

FORM

If, as a result of an adverse environmental condition that is discovered or occurs during the term of the loan, Lender is subjected to any liability whatsoever, then Borrower will indemnify and hold Lender completely harmless against such liability.

"Adverse environmental condition" is defined as:

- (1) the contamination of the soil, air or water (whether surface water or ground water) of the subject premises by hazardous substances or hazardous wastes;
- (2) the contamination of the soil, air or water (whether surface water or ground water) of any piece of realty adjoining the subject premises due to a release of hazardous substances or hazardous wastes upon the subject premises; or
- (3) the presence of hazardous substances or hazardous wastes which are stored upon the subject premises.

"Liability" is defined as any claim or action (whether civil, criminal or administrative, and whether brought by any governmental entity or non-governmental entity or person), judgment, settlement, damages, fine, penalty, loss or expense brought against, imposed upon, suffered by or paid by Lender. Liability shall also include Lender's attorneys' fees, court costs, consultants' fees, experts' fees, and other litigation-related expenses.

Borrower expressly guarantees that it will assume all costs incurred by Lender in:

- (1) investigating the nature and severity of the adverse environmental condition;
- (2) conducting studies to determine the impact of the adverse environmental condition upon the public health;
- (3) eliminating the adverse environmental condition;
- (4) conducting tests following the clean up in order to determine whether remedial efforts have been successful; and
- (5) compensating any person, or the estate, heirs or beneficiaries of such person, who suffered injury, death or property damage as a result of the adverse environmental condition.

E.1 Option to purchase land for development--provision for partial releases from purchase money mortgage

COMMENT

This chapter illustrates various types of contracts in transactions for the acquisition of real estate where the buyer's principal objective is the improvement of the property. As in all matters relating to real estate, the law applicable to transfers varies considerably from state to state, so that no single set of forms can possibly meet the requirements of the real property and contract law of every state. Each agreement must be tested against the law of the appropriate jurisdiction.

Limit on financial involvement:

Even if substantial improvements are contemplated by the buyer, the transaction may take the form of a simple transfer of unimproved land. But in most large scale projects, the buyer is anxious to put a limit on his financial involvement, with the result that the seller must often retain a stake in the enterprise. This stake may be in the form of a purchase money mortgage with provisions for the release of specific parcels as improvements on these parcels are completed by the buyer.

The seller's interest in the type of improvements and in the time for their completion may come not only from a desire to protect his purchase money mortgage but from his concern over the effect the improvements may have on other land held by the seller. In many cases the first step in the transaction is merely an option to the buyer, giving him a chance to investigate the potentialities of the property. In some cases a sale may be made of one parcel with the understanding that additional parcels are to be made available to the purchaser when prior commitments with respect to other parcels are fulfilled. Frequently, the seller may want to retain temporary control over the property, or he may want to preserve a permanent interest by way of an easement or other encumbrance. On the other hand, the seller may undertake to make certain basic improvements in the land, such as streets, sewers, water mains, etc., before the buyer is required to take title. These and other contractual variations are illustrated by the forms in this group.

Partial release from mortgage:

This form is an option to acquire land, but with no special undertakings or limitations. However, it does

illustrate the usual technique employed in the sale of acreage for development and subdivision. The important provision is the one that permits partial releases from the purchase money mortgage (see paragraph 7(c)). With such a provision, the developer can sell unencumbered segments of the property as improvements on these segments are completed. Without such freedom, the developer's selling program would be inhibited since he could not convey clear title to any part of the property without satisfying the lien on all the acreage created by the purchase money mortgage.

Under this form, the developer, at the closing, is to be given a release of specific acreage in consideration for the down payment. Thereafter, the developer may obtain releases upon the payment of a specified amount for each acre, with the payments applied against the mortgage debt. Releases are to be granted only for acreage contiguous to previously release acreage. As a corollary to the release provision, the agreement provides for the prepayment of the mortgage debt without penalty.

Recording of plats:

Under the provisions of this form, the seller agrees to join in any plats that the purchaser may wish to record under local law. The agreement states that any such collaboration by the seller is only for the purpose of registering its consent to the subdivision, and is not to be construed as subdivision activity by the seller which might cause it to be classified as a "dealer" in real estate.

For further information, see Chapters 6 and 11.

FORM

OPTION AGREEMENT made December 10, 2002, between Hames Realty, Inc., a Florida corporation (the "Seller"), and James Baron, of St. Petersburg (the "Purchaser").

In consideration of the covenants hereinafter contained, and of other good and valuable considerations, it is agreed as follows:

1. *Grant of option.* The Seller grants to the Purchaser the exclusive option to purchase, upon the terms and conditions set forth below, the property situated in Sarasota County, Florida, particularly described as follows:

(Insert description)

2. *Exercise of option.* The Purchaser shall exercise this option within 90 days from the date of this agreement, by notice in writing to the Seller addressed in care of Harris & Harris, Esqs., 100 Professional Building, Sarasota, Florida. Said notice shall be either hand delivered or sent certified mail, return receipt requested. Notice shall be deemed given when received. Notice may not be given by facsimile transmission. Any attempt to give notice by facsimile transmission shall be void and of no effect.

3. *Default by purchaser.* If the Purchaser fails to exercise this option, or makes any default after he exercises it, the Seller shall retain all money paid to it by the Purchaser upon the execution of this agreement as consideration for the grant of the option to the Purchaser, and all rights of the Purchaser under this agreement shall terminate.

4. *Abstract of title.* Within 30 days after the Purchaser exercises this option as provided, the Seller, as its own expense, shall deliver to the Purchaser, or to the Purchaser's attorney, an abstract of title covering the property described in paragraph 1 continued down to date showing the Seller's title to be good and marketable or insurable. The Purchaser

2-Forms Federal Taxes Affecting Real Estate [E]

shall then have 30 days in which to exercise the title and to accept it if the title is good and marketable or insurable. If the abstract of title fails to disclose the Seller's title to be good and marketable or insurable, the Purchaser shall notify the Seller in writing of any defects within the 30-day period, and the Seller shall have a reasonable time (but not more than 25 days) in which to make the title good and marketable or insurable, and shall use due diligence in an effort to do so. If after using due diligence the Seller is unable to make the title good and marketable or insurable within such reasonable time, the Purchaser may either accept the title in its existing condition with no further obligation by the Seller to correct any defect, or cancel this agreement. If this agreement is cancelled, all money paid by the Purchaser to the Seller upon the execution of this agreement shall be returned to the Purchaser, and this agreement shall terminate without further obligation between the parties.

5. *Environmental site assessment.* Within thirty (30) days after the Purchaser exercises this option, as herein provided, the Purchaser shall obtain an environmental site assessment at his own expense. The environmental site assessment shall be performed by Cosmic Geo-Science, Inc., or by such other qualified environmental consulting company acceptable to both parties, in the event that Cosmic is not available. A copy of the environmental site assessment shall be provided to both Purchaser and Seller. In the event that the assessment report finds a need for testing of soil, water and/or air, or that there is an indication of a potential adverse environmental condition existing on the premises, Purchaser shall have the right to terminate this option agreement by giving written notice to Seller, as set forth in paragraph 2 above, within ten (10) days after receipt of the assessment report from Cosmic.

In the event that Purchaser decides to terminate the agreement based on the assessment report, all funds on deposit, including the deposit of \$2,000 paid upon the execution of this agreement, shall be refunded to Purchaser immediately. The parties shall also exchange mutual releases.

In the event that Purchaser elects to terminate the agreement, Purchaser agrees not to disclose the contents of the assessment report to anyone. Purchaser acknowledges that breach of this covenant may subject him to damages for any loss suffered by Seller as a result of such disclosure.

Notwithstanding the foregoing, Seller may delay the effective date of the termination of the agreement for sixty (60) days by giving written notice to Purchaser, as set forth in paragraph 2, and by arranging for any additional testing and/or remediation suggested in the assessment report during the said sixty (60) day period, at Seller's expense. Seller shall be required to obtain from Cosmic written evidence that the testing showed no evidence of unsatisfactory environmental conditions and/or that all remediation has been completed in compliance with all federal, state and local laws and regulations. In the event that Seller complies with the provisions of this paragraph, Purchaser shall remain obligated to complete the purchase of said property under the terms of this agreement.

6. *Purchase price.* The purchase price for the property described in paragraph 1 is \$165,000, to be paid by the Purchaser to the Seller as follows:

(a) \$2,000 upon the execution of this agreement, which is the consideration for the granting of this option to the Purchaser, but which shall be applied against the purchase price if this transaction closes in accordance with the terms of this agreement.

(b) \$46,000 in cash upon the closing.

(c) \$117,000 by a purchase money note and first mortgage to be executed by the Purchaser and delivered to the Seller at the closing. The note and mortgage shall contain the provisions enumerated in paragraph 7, and all other consistent provisions reasonably required for the mortgagee's protection.

7. *Purchase money note and mortgage.* The purchase money note and mortgage referred to in paragraph 6(c) shall contain the following provisions:

2-Forms Federal Taxes Affecting Real Estate [E]

(a) The amount of the purchase money note and mortgage shall be \$117,000, which shall be payable in five installments: the first installment of \$25,000 one year from the date of closing, and the remaining four installments of \$23,000 each successively two, three, four, and five years from the date of closing. Interest at 15 percent per annum on unpaid balances shall be payable semiannually.

(b) The purchase money note and mortgage shall provide for the standard 30-day default clause, and for prepayment, in whole or in part, at any time without penalty, after January 1, 2004.

(c) The purchase money mortgage shall provide that land subject to the lien of the mortgage may be released, in portions, under the following conditions:

(1) The Purchaser must be current on all required payments of principal and interest.

(2) Purchaser must not be in default on any of the terms and conditions of this contract, the note or the mortgage.

(3) Purchaser must tender the sum of \$1,500 per acre.

(4) The land sought to be released must be contiguous to a previously released parcel. For the first release only, the land must be adjacent to a public roadway. All acreage for release purposes shall include land used for parks, waterways and easements.

(5) The Purchaser must tender a proposed release for review and approval by Seller's attorney, together with the sum of \$150 as legal fees for said review.

Purchaser shall have the obligation to record all releases at Purchaser's sole expense.

Streets, as shown on the subdivision map, when completed and ready for dedication to the municipality, shall be released without the payment of any release fee.

(d) The purchase money mortgage shall provide that the Seller will join in any plat or plats which the Purchaser may place on record, so long as the same meets with the approval of proper governmental agencies having jurisdiction over such plats, for the purposes of evidencing the Seller's consent to such platting and of dedicating the streets, waterways, and easements as shown on such plat or plats. This provision is made at the Purchaser's request and it is not the Seller's intention to engage in or have any part in the subdividing or platting of the property as a dealer in real estate or otherwise.

(e) The purchase money mortgage shall provide that the digging of canals or lakes and the use of fill excavated on the property shall not constitute waste.

(f) Upon complete payment of the purchase money note and mortgage, the Seller shall execute and deliver to the Purchaser a satisfaction in recordable form.

8. *Closing.* The closing under this agreement shall take place at 10 a.m. in the office of the Seller's attorneys, Harris & Harris, Esqs., 100 Professional Building, Sarasota, Florida on the fifth day after the Purchaser's acceptance of the title (or on the fifth day after the Seller has made the title good and marketable or insurable, as provided above). If the fifth day falls on a Saturday or Sunday, the closing shall take place on the following Monday.

9. *Deed* At the closing, the Seller shall convey the property described in paragraph 1 to the Purchaser by good and

2-Forms Federal Taxes Affecting Real Estate [E]

sufficient warranty deed, subject only to the lien of the purchase money mortgage executed by the Purchaser and delivered to the Seller.

10. *Release at closing.* At the closing, after the payment of \$46,000 in cash to the Seller as required by paragraph 6(b), the Seller shall release from the purchase money mortgage a parcel of land in the northern end of the property described in paragraph 1 consisting of a strip across the north side of the SE 1/4 of Section 28, Township 40 South, Range 19 East, 330 feet wide, containing 20 acres.

11. *Expenses.* The Seller shall pay for the documentary stamps on the warranty deed, the intangible tax on the purchase money mortgage, and the fees for recording the purchase money mortgage. The Purchaser shall pay for state stamps on the promissory note delivered to the Seller at the closing, and for the cost of recording any partial releases from the lien of the purchase money mortgage.

12. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

13. *Notices.* All notices or other documents under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

14. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

15. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

16. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Florida.

17. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

18. *Binding effect.* This agreement shall be binding upon and inure to the benefit of the parties, and their respective heirs, representatives, successors, and assigns.

In witness whereof the parties have executed this agreement the day and year first above written.

E.2 Option to purchase land for subdivision development--partial releases by acre or by homesite

COMMENT

Partial release:

Under this agreement, the purchaser may obtain partial releases from the purchase money second mortgage on either a per acre or a homesite basis. Since the property is being acquired subject to an existing first mortgage, partial releases are probably also obtainable under that mortgage. Otherwise, the purchaser could not proceed with a piecemeal development of the land without first refinancing the existing first mortgage to provide for partial releases.

It should be noted that the seller, as the second mortgagee, agrees to join in the subdivision platting so that the lien of his mortgage becomes subordinate to any necessary dedications of streets, easements, and canals. The same subordination provision should also be contained in the existing first mortgage.

For further information, see Chapters 6 and 11.

FORM

OPTION AGREEMENT made September 29, 2002, by and between John S. Jacobs ("the Optionor"), and Central Land Company, a Florida corporation (the "Optionee").

Recitals

The Optionor has entered into a contract of sale to purchase a tract of land consisting of approximately 295 acres, more or less, in Lee County, State of Florida, and is preparing to purchase the tract under the contract of sale.

The Optionee desires to obtain an option to purchase the tract of land in order to determine to its satisfaction certain features of usability for its intended purposes.

Now, therefore, for good and valuable considerations, the parties agree as follows:

1. *Grant of option.* The Optionor grants to the Optionee the right to purchase under the terms and conditions hereinafter set forth, a tract of land consisting of approximately 295 acres, more or less, as described in a contract of sale dated September 29, 2002, between Jones Holding Company, as seller, and John S. Jacobs, as purchaser. The contract of sale is attached to and made part of this agreement as if incorporated herein. The parties acknowledge that, in the event the Optionor is unable to complete the purchase of the subject land from the current owner by January 31, 2006, this option shall become null and void, and the deposit of \$1,000 shall be returned to Optionee.

2. *Consideration for option.* The Optionee has paid to the Optionor at the time of the execution and delivery of this agreement, the sum of \$1,000, receipt of which the Optionor acknowledges. If the Optionee does not exercise the option herein granted, the Optionor may retain the \$1,000 as liquidated damages, and this agreement shall then be null and void.

3. *Term and exercise of option.* This option shall continue from the date this agreement is executed to and including January 31, 2003, and shall be exercisable only by the delivery, on or before its expiration, of written notice to the Optionor at 200 South Street, Palm Beach, Florida. Closing of the purchase transaction under this agreement shall take place at the office of William Borden, Esq., 100 Beach Drive, Palm Beach, Florida, at 10 a.m. on the tenth day (or on the next business day if the tenth day is a Sunday or legal holiday) after written notice of exercise is delivered to the Optionor.

4. *Purchase price.* If the Optionee exercises this option, it shall pay to the Optionor, against delivery of the deed as provided below, the sum of \$190,000 as follows:

2-Forms Federal Taxes Affecting Real Estate [E]

- (a) \$1,000 by the application of the consideration paid by the Optionee for the grant of this option.
- (b) \$114,000 by taking title subject to a first mortgage in that amount, which is recorded in the Public Records of Lee County, Florida, in Mortgage Book 20 at page 150.
- (c) \$75,000 by executing and delivering to the Optionor a purchase money note and second mortgage in that amount, payable in installments as follows: \$25,000 on August 28, 2003, and \$12,500 each on February 28, 2004, August 28, 2005, February 28, 2006, and August 28, 2007. The purchase money note and mortgage shall bear interest at 15 percent per year, payable with each installment of principal. The Optionee shall pay all required federal and state documentary stamps on the purchase money note, as well as the intangible tax on the purchase money mortgage.
5. *Additional terms of purchase money note and mortgage.* In addition to the terms set forth in paragraph 4, the purchase money note and second mortgage shall be in form acceptable to the Optionor and shall contain the other customary and usual covenants contained in second purchase money mortgages on real estate in the State of Florida. The purchase money note and second mortgage shall also contain the following provisions:
- (a) If the Optionee defaults in any payment or action required under the first mortgage referred to in paragraph 4(b), the entire unpaid principal and interest on the purchase money note and second mortgage shall immediately become due and payable. Alternatively, the Optionor, at his option, may cure the default on the first mortgage by paying whatever sums may be necessary to cure such default and by adding such sums to the second mortgage. Said sums, together with any legal fees incurred in connection therewith, shall be deemed secured by the lien of the second mortgage.
- (b) If the Optionee defaults under the purchase money note or second mortgage, the entire unpaid principal and interest thereon shall become due and payable after a 30-day grace period.
- (c) The Optionee shall be entitled to releases from the lien of the second mortgage by paying \$250 for each acre so released. The Optionee shall not be required to request releases of contiguous acres of land, but shall be entitled to releases of any tract it selects.
- (d) If any part of the property is platted into lots of less than one acre, the Optionee shall be entitled to releases from the lien of the second mortgage by paying \$100 for each homesite so released. For this purpose, one homesite shall be deemed to consist of two lots, together measuring 40 feet by 125 feet.
- (e) All payments made on account of releases shall be applied to the next installment of principal due under the purchase money note and second mortgage. Upon the payment of each installment of principal under the purchase money note and second mortgage, the Optionee shall be entitled to releases in accordance with the foregoing terms, to the extent not previously granted to the owner.
- (f) All the preceding release provisions shall be subject to the rules and regulations for subdivisions issued by the Florida Real Estate Commission.
- (g) The Optionor will, from time to time, join in a plat or plats of unreleased portions of the property encumbered by the second purchase money mortgage. The joinder by the Optionor will acknowledge, in effect, that the lien of the second purchase money mortgage, as to dedicated portions, is subordinate and subject in all respects to the plat or plats and to any dedications expressed therein. The joinder by the Optionor shall not be deemed or construed to render him liable for the paving of any streets shown on the plat or plats, or for any other obligations assumed by the owner in connection with the plat or plats, and all streets, easements, and canals shall be released without cost or charge to the owner.
- (h) The Optionee may, at any time and without penalty, prepay in whole or in part the purchase money note and second

2-Forms Federal Taxes Affecting Real Estate [E]

mortgage, but no partial prepayment shall be made during the calendar year 2002.

(i) The Optionee shall pay the Optionor's attorneys' fees for the preparation of partial releases, at the rate of \$25 for each acre of homesite released. Upon satisfaction of the entire purchase money note and second mortgage, the Optionee shall pay the Optionor's attorney a fee of \$100 for the preparation of a satisfaction in recordable form.

(j) The Optionee shall not assume any personal liability on the purchase money note and second mortgage, and in the event of any default thereunder no deficiency judgment will be taken against it.

6. *Deed.* At the closing, upon the payment of the purchase price by the Optionee, the Optionor shall execute and deliver to the Optionee a deed to the tract of land referred to in paragraph 1. The deed shall convey good and merchantable title to the Optionee, its successors and assigns, free and clear of all liens and encumbrances, but subject to the first and second mortgages referred to in paragraphs 4(a) and 4(b) and to the covenants and restrictions contained in the contract of sale referred to in paragraph 1. Except as herein otherwise provided, the usual practices in connection with sales of real estate in the State of Florida shall govern as to adjustments, prorations, documentary stamps, recording fees, and similar items.

7. *Brokerage.* Each party represents to the other that no broker is entitled to commissions by reason of this transaction.

8. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

9. *Notices.* All notices or other documents under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses, return receipt requested. Notice shall be deemed given when received, as evidenced by the United States Postal Service return receipt. Notice given by any other method, including, but not limited to, facsimile transmission, shall not be deemed effective.

10. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

11. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

12. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Florida.

13. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

14. *Binding effect.* This agreement shall be binding upon and inure to the benefit of the parties, and their respective heirs, representatives, successors, and assigns.

Witness the hands and seals of the respective parties the day and year first above written.

E.3 Options to purchase land for development--separate options exercisable progressively

COMMENT

A program of land development may require the owner of the land to retain at least a temporary stake in the enterprise. Frequently, this stake is represented by a purchase money mortgage from which the developer may periodically obtain partial releases. In contrast, the owner's stake under this agreement is represented by long-term options to which he has subjected his property. The developer is never obligated to purchase the entire tract of land from the owner, although he has an option to do so. In addition to the option to purchase the entire tract, the developer has a series of separate options to purchase the various parcels which make up the entire tract. At each stage in the program, the developer can preserve his option over the balance of the entire tract only by purchasing one parcel and by paying an additional consideration for an extension of the option period.

Purchase of separate parcels of land:

Upon each purchase of a parcel, the developer must pay in cash the full price for that parcel. Thus, as with the purchase of an entire tract with the right in the purchaser to obtain partial releases, this arrangement provides for the gradual acquisition of unencumbered land. In either case, the purchaser may subdivide, develop, and rent or sell according to a plan of gradual free and clear acquisition of property. However, in contrast with the purchase of an entire tract, this arrangement permits the purchaser to judge his future needs for additional land as his development progresses, without committing himself in advance to purchase the entire tract.

Many development programs start with an option in favor of the developer in order to give him time within which to check out the soundness and feasibility of the venture. Under this agreement, three preliminary requirements are introduced by the developer (see paragraph 5). No obligation of any kind is to be incurred by him unless before a fixed date prescribed conditions are fulfilled with respect to mortgage loans, zoning restrictions, and water and sewer services.

For further information, see Chapters 6 and 11.

FORM

OPTION AGREEMENT made November 25, 2002, between Smith Realty Corporation, a Colorado corporation (the "Seller"), and William M. Adkins, of Denver, Colorado (the "Purchaser").

1. *Grant of option.* In consideration of the sum of \$25,000 paid by the Purchaser to the Seller, the receipt of which the Seller acknowledges, the Seller grants to the Purchaser the rights and option, upon the terms and conditions set forth below, to purchase a tract of 640 acres of real property in the County of Arapahoe, State of Colorado, described as follows:

(Insert description)

2-Forms Federal Taxes Affecting Real Estate [E]

The consideration of \$25,000 is solely for the grant of this option. It shall not be applied against any purchase price that the Purchaser is required to pay under this agreement, and it shall not be repaid to the Purchaser except as specifically provided below.

2. *Option price for single purchase.* If the Purchaser exercises the option to purchase the entire tract of 640 acres on or before April 15, 2003, the purchase price shall be the sum of \$1,000,000.

3. *Option and option prices for progressive purchases.* If the Purchaser does not elect to purchase the entire tract of 640 acres as provided in paragraph 2, he may elect to purchase a minimum of 40 acres, to be designated by him, upon the payment of \$68,000 on or before April 15, 2003. Thereafter, the Purchaser shall have the following options to purchase a part or all of the balance of the tract, to be designated by him, upon the payment of the following amounts on or before the following dates, and such options shall continue as specified herein:

Date	Payment	Pays for
April 15, 2003	\$.....2 6,250	Option on 600 acres to October 15, 2003
October 15, 2003	68,000	40 acres land purchase
October 15, 2003	42,000	Option on 560 acres to October 15, 2004
October 15, 2004	136,000	80 acres land purchase
October 15, 2004	36,000	Option on 480 acres to October 15, 2005
October 15, 2005	36,000	Option on 480 acres to October 15, 2005
October 15, 2006	136,000	80 acres land purchase
October 15, 2006	30,000	Option on 400 acres to October 15, 1999
October 15, 2007	136,000	80 acres land purchase
October 15, 2007	24,000	Option on 320 acres to October 15, 2008
October 15, 2008	136,000	80 acres land purchase
October 15, 2008	18,000	Option on 240 acres to October 15, 2001
October 15, 2009	381,000	240 acres land purchase

4. *Condition of title.* Title to all property shall be conveyed by good and sufficient warranty deed, free and clear of all liens and encumbrances, except the current year's general taxes which shall be prorated to the date of the delivery of the deed, and except any and all special taxes levied or assessed for special improvements on such property after the date hereof. The Seller shall make a satisfactory settlement with the tenant farmer presently on the property, release the Purchaser from any obligation to such tenant farmer, and deliver possession upon closing.

5. *Conditions attached to option.* The consideration paid by the Purchaser for the options granted under this agreement is subject to the following conditions:

(a) The Seller shall cooperate with the Purchaser in his negotiations with the Arapahoe County Bank, so as to obtain loan approval on or before April 15, 2003.

2-Forms Federal Taxes Affecting Real Estate [E]

(b) The Seller shall cooperate with the Purchaser in his efforts to obtain zoning, including approval for 9,000 square foot lots for approximately 25 percent of the area of Section 30, Township 6 South, Range 68 West of the 6th P.M.; and zoning approval for 13,500 square foot lots for approximately 50 percent of the area of such Section 30; and zoning approval for one-half acre lots for approximately 25 percent of the area of such Section 30.

(c) Water and sewer service shall be available to such Section 30, Township 6 South, Range 68 West of the 6th P.M. at the present tap charge of \$250 for sewer taps and \$200 for water taps for each residential lot, plus any connection fees, inspection fees, or tap fees made by the water district or sanitation district of the City of Englewood. However, the Purchaser shall at his own expense run the water and sewer lines from the present facilities to the property purchased or to be purchased by him under this agreement.

In the event that water service is not available as described above, Purchaser, at his own expense, may drill wells and install storage tanks, pumping stations and such other facilities as are needed to supply water to the land. In such case, Seller shall extend the time in which to exercise each option described above in paragraph 3 by one (1) year.

In the event that, after installation of a water system, Purchaser does not exercise some or all of the options described above in paragraph 3, then Seller shall require all future purchasers of the land that was not purchased by the Purchaser to obtain water services from Purchaser.

If the Purchaser cannot meet or does not waive the above conditions regarding loan approval, zoning, and water and sewer service before April 15, 2003, the \$25,000 paid for the option shall be immediately returned to the Purchaser and both parties shall be completely released from this agreement.

6. *Wetlands*. Seller shall provide Purchaser with proof that no wetlands--as defined by federal or state laws or regulations--exist within the optioned areas. In the event that wetlands do exist, the purchase price shall be reduced by \$1,000 for each acre, or part thereof, containing such wetlands. In the event that 5 percent or more of any optioned section, as set forth in paragraph 3, is designated as wetlands, Purchaser shall not be obligated to purchase that section, but may purchase other sections instead.

7. *Environmental audit*:

(a) Purchaser shall be entitled to obtain, at his own expense, a phase I environmental site assessment. The assessment shall be completed on or before April 15, 2006. In the event that the phase I assessment indicates that there is evidence of an adverse environmental condition, Purchaser shall be relieved of his obligation to purchase, the \$25,000 shall be returned to him, and both parties shall be released from this agreement.

(b) In the event that the phase I assessment indicates that further testing is needed, Purchaser may either terminate this agreement and obtain a refund of the \$25,000 or have additional testing performed. Seller shall pay for half of the cost of such additional testing. If the testing reveals no adverse environmental condition, Purchaser shall remain obligated under the terms of this agreement. If the testing reveals an adverse environmental condition, then Purchaser may terminate the agreement and the \$25,000 paid for the option shall be returned to him.

(c) Unless presented with a valid subpoena or court order, each party shall not reveal the outcome of the phase I environmental site assessment, or the outcome of any additional testing, to any third person without the prior written permission of the other party. Notwithstanding the foregoing, Purchaser may reveal the results once he is the owner of the optioned parcels. Seller may reveal the results in the event Purchaser terminates the agreement and receives a refund of the \$25,000 payment.

8. *Right of entry*. The Seller grants to the Purchaser the right to enter upon the tract at any time prior to the closing for the purpose of making surveys, engineering studies, soil tests, and other tests or studies which the Purchaser may deem

2-Forms Federal Taxes Affecting Real Estate [E]

necessary in connection with the development of the property, but such work shall not interfere with the tenant farmer's farming activities.

9. *Title report.* The Seller shall furnish a preliminary title commitment satisfactory to the Purchaser for the entire tract on or before 20 days from the date hereof, and also an owner's title policy for each parcel of land purchased under this agreement.

10. *Exercise of option and closing.* The Purchaser shall notify the Seller if he desires to exercise any option granted herein and shall designate in the notice the acreage to be conveyed to him. The Purchaser shall furnish a copy of the notice to Mountain Title Company, Denver, Colorado, accompanied by his check in an amount equal to the purchase price of the designated parcel. Within ten days after receipt of the notice, the Seller shall deliver to the title company a good and sufficient warranty deed conveying the designated parcel to the Purchaser. The deed shall be free and clear of all liens and encumbrances, except the current year's general taxes which shall be prorated, and special improvement taxes as of the date of closing the escrow, plus any special taxes paid by the Seller after the date of this agreement. The closing shall take place upon the receipt by the title company of the Purchaser's check in the amount of the purchase price and of the Seller's warranty deed. Simultaneously therewith, the title company shall issue its policy of title insurance covering the designated parcel and shall record the warranty deed and disburse the net proceeds from the sale to the Seller.

11. *Time of the essence.* Time is expressly declared to be of the essence of this agreement. If the Purchaser does not make, tender, or perform any payment or other condition as provided herein, this agreement shall be void and of no effect. In that event, both parties shall be released from all obligations hereunder, the Seller shall retain any and all payments made to it by the Purchaser, and the Purchaser shall retain all property paid for in full.

12. *Assignment.* The Purchaser may assign this agreement in whole or in part by giving written notice to the Seller. The Purchaser and his assigns, by the execution of this agreement, shall incur no personal liability.

13. *Notices.* Any notice required under the terms of this agreement shall be deemed to have been given within 48 hours after the notice has been deposited in the United States mails, postage prepaid, addressed to the Seller at 100 Main Street, Denver, Colorado, and to the Purchaser at 200 South Street, Denver, Colorado, until the parties shall designate any other address. Notice sent by facsimile transmission or by private delivery service shall not be deemed effective.

14. *Commissions.* The Seller shall pay the commissions, as and when parcels are purchased and paid for by the Purchaser under this agreement, in accordance with the separate letter agreement made with Hayes Realty Company of Denver, Colorado. Seller shall hold Purchaser harmless against claims for commissions due.

15. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

16. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein. A valid waiver by either party shall not be deemed to extend the amount of time available to perform any other act required hereunder.

17. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

18. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Colorado.

2-Forms Federal Taxes Affecting Real Estate [E]

19. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument. At the trial of any matter relating to this instrument, only one counterpart need be produced.

20. *Binding effect.* This agreement shall be binding upon and inure to the benefit of the parties, and their respective heirs, representatives, successors, and assigns.

In witness whereof the Seller has caused its corporate officers to execute this option, and the Purchaser has set his hand and seal at Denver, Colorado, this 25th day of November, 2002.

E.4 Contract of sale--commercial property--tract of vacant land--sale is made contingent upon results of environmental site assessment--seller to take back a purchase money mortgage--release provisions for subdivision development

COMMENT

This agreement can be used in a transaction in which the purchaser of vacant real property envisions the subdivision of the land and construction of a residential development upon it.

Environmental considerations:

Whenever such a major project is undertaken, it is imperative that the prospective purchaser have a thorough environmental site assessment performed before accepting title to the land. The purchase of the property should be made contingent upon the results of the testing. By having an environmental site assessment performed, the prospective purchaser would be able to cancel the contract and walk away from the deal if a serious environmental problem were discovered. In so doing, the prospective purchaser would accomplish three important goals:

(1) It would escape liability under federal law for the cost of remediating environmental problems after taking title to the contaminated land.

(2) The prospective purchaser would be shielded from suit by future homeowners within the development and by owners of adjacent properties whose lands might be contaminated by seepage emanating from the purchased property.

(3) The prospective purchaser would escape the expenditure of vast sums of money on: purchasing the property, obtaining municipal subdivision approval, and constructing the infrastructure for the subdivision, including roads, water lines, sewer lines, storm sewers, etc.

Accordingly, before making any investment in vacant land and incurring potential liability, a developer should elicit the services of a qualified environmental consultant to perform an environmental site assessment.

Purchase money mortgage:

2-Forms Federal Taxes Affecting Real Estate [E]

In this particular form, the seller has agreed to take back a purchase money mortgage covering the cost of acquisition. (In other words, the seller will hold the mortgage on the property, rather than a lending institution such as a bank.)

It should be noted that if the purchaser-developer later seeks commercial financing to cover the cost of constructing the development's infrastructure, the lender would almost certainly require the purchaser-developer to obtain an environmental site assessment as a prerequisite for obtaining the financing. Thus, by making this purchase agreement contingent upon the results of an environmental site assessment, the purchaser-developer will be aware of any potential environmental problems long before committing itself to the purchase and making any sizeable financial investment.

Releases of individual parcels:

This agreement gives the purchaser-developer the right to obtain the release of individual parcels from the lien of the mortgage by making specific principal payments which are then applied against the mortgage debt. These releases are necessary in order for the purchaser-developer to transfer title to lots to future home buyers.

The agreement contains a specified geographical order in which parcels will be released from the purchase money mortgage. This geographical order is designed to prevent the developer from building upon and selling the most desirable lots within the development and then defaulting on the mortgage, thereby saddling the seller-mortgagee with the least desirable parcels--parcels which may even be difficult to gain access to in light of prior development.

Other provisions in the purchase agreement:

Finally, the seller-mortgagee is obligated to join in the execution of any subdivision documents or any instruments necessary to transfer roads, sewers, sidewalks and other parts of the infrastructure for public use.

For further information, see Chapters 11 and 19.

FORM

AGREEMENT made this _____ day of _____, 20____, between _____ [*insert name of seller*], residing at _____ (the "Seller"), and _____ [*insert name of purchaser-developer*], a corporation organized under the laws of the State of _____, with offices for the transaction of business at _____ (the "Buyer").

1. *Sale.* The Seller agrees to sell and the Buyer agrees to purchase the following _____ [*insert number, e.g., four*] parcels of property, located in the City of _____, County of _____, State of _____, and described as follows:

[*insert description*]

The approximate acreage listed in the description above for each parcel is as shown on the county tax map for that

2-Forms Federal Taxes Affecting Real Estate [E]

parcel. The Seller makes no representations as to the exact number of acres contained in any of the parcels. The purchase price set forth in this Agreement is a firm price and will in no way be affected by any variance between the actual number of acres in a particular parcel and the estimated number of acres within that same parcel as set forth above. Buyer has had an opportunity to inspect and survey all parcels prior to entering into this Agreement.

2. *Sale is contingent upon results of environmental site assessment.* This Agreement is contingent upon Buyer obtaining satisfactory results of a Phase I Environmental Site Assessment. The assessment shall be conducted by an environmental consultant of Buyer's choosing and at Buyer's expense. It shall demonstrate that the premises are free from all hazardous substances and are in compliance with all federal, state and local environmental laws and regulations. This contingency shall be deemed waived unless Buyer shall notify Seller--in writing and by certified or registered mail, return receipt requested, postmarked no later than _____, 20____, or by facsimile transmission or personal service by such date--of the unsatisfactory results of the site assessment report. Buyer must also supply a written copy of the site assessment report as part of said notice. If notice of unsatisfactory results is timely given, this Agreement shall be deemed canceled, null and void. All deposits made pursuant to this Agreement shall be returned to the Buyer immediately.

3. *Purchase price.* The purchase price for the property described above shall be the sum of \$ _____ [e.g., \$500,000]. The purchase price shall be paid as follows:

(a) As earnest money, the Buyer, upon execution of this Agreement, will pay to the law firm of

_____ [insert name of firm], as Escrow Agent, the sum of \$

_____ [e.g., \$10,000].

(b) On or before

_____, 20

_____, the Buyer shall pay to the Escrow Agent the additional sum of \$

_____ [e.g., \$40,000] on account of the purchase price.

(c) The closing shall occur on or before

_____, 20

_____. Time is of the essence. At that time, the Buyer shall pay to the Seller the additional sum of \$

_____ [e.g., \$50,000], plus or minus prorations for property and school taxes and interest as hereafter set forth. The Buyer shall also assume the existing mortgage on the property with a balance of \$

_____ [e.g., \$200,000], and the remainder of the purchase price, in the sum of \$

_____ [e.g., \$200,000], shall be paid by means of execution and delivery of a

2-Forms Federal Taxes Affecting Real Estate [E]

promissory note secured by a purchase money mortgage, from Buyer to Seller.

4. *Nonrecourse note and mortgage.* The promissory note shall be payable in _____ [insert number, e.g., ten (10)] equal semi-annual installments, on June 30th and December 31st of each year, of principal, with the first installment due and payable on June 30th, 20____, and shall bear interest at the rate of _____ [e.g., ten (10)] percent per annum, due and payable with each installment of principal.

Such purchase money mortgage shall be in the usual form, shall contain a grace period for the payment of any installment of principal and interest of _____ [e.g., ten (10)] days, shall provide for prepayment without penalty at any time after December 31, 20____, and shall further provide that, in the event the mortgagor shall fail to meet any installment of mortgage debt when due, the mortgagee may not accelerate the unpaid balance of principal and interest unless and until there has first been given to the mortgagor notice of the existence of a default by registered or certified mail (return receipt requested), and such default has not been cured within the _____ [e.g., ten (10)] days next following receipt thereof.

The purchase money note and mortgage shall also provide that the obligation of the Buyer with respect to the indebtedness secured thereby shall be limited wholly and solely to the value of the land encumbered thereby, without the Seller being entitled to any deficiency claim or judgment.

5. *Closing.* This Agreement shall be consummated and the purchase and sale concluded on or before _____, 20____, at the office of _____ [insert attorney's name], located at _____, attorney for the _____ [Seller or Buyer].

6. *Title insurance or abstracts.* At least _____ [e.g., thirty (30)] days prior to the closing date, the Seller shall furnish to the Buyer, at the Seller's own expense, either a commitment of title insurance issued by a recognized title company, or abstracts of title extended to such date, showing title to the property to be good and marketable and vested in the Seller, free and clear of all encumbrances, except:

- (a) the mortgage encumbrance to be assumed by the Buyer as part of the purchase price;
- (b) real property and school taxes and assessments for the year 20____ and thereafter;
- (c) conditions and restrictions of record that are common to the neighborhood;
- (d) any oil, gas and mineral leases of record, and reservations to receive royalties, rentals and other receipts therefrom; and
- (e) applicable zoning ordinances, if any.

7. *Objections to title.* The Buyer shall have _____ [e.g., ten (10)] days from the date of receipt of either the commitment or the abstract in which to examine it and make written objections. If the Buyer has valid objections to the state of the title, the Seller shall have a period of time, not to exceed _____ [e.g., thirty (30)] days from the receipt of the Buyer's written objections, within which the Seller may cause the objections to be removed, and the date of closing shall be extended for that purpose. If, at the end of the period set forth in the preceding sentence, the objections have not been eliminated, the Buyer may, at its option, refuse to accept title, or accept the same in its then-existing condition without any diminution in the purchase price. In the event of refusal by the Buyer to take title, all money paid on account of the purchase price shall immediately be refunded. In the event that there are valid objections to the condition of the title, then the closing will be held within _____ [e.g.,

2-Forms Federal Taxes Affecting Real Estate [E]

ten (10)] days after either elimination of the objections or receipt of notice from Buyer that it will accept title despite the existence of valid objections, but in no event later than _____, 20 ____ .

8. *Adjustments.* Real property and school taxes and interest on the existing mortgage shall be prorated as of the date of closing.

9. *Deed.* At the closing, the Seller shall convey good and marketable title to the Buyer by warranty deed, conveying the property free and clear of all liens and encumbrances, except as herein noted. The deed shall be prepared at the expense of the Seller.

10. *Tracts released from mortgage.* The purchase money mortgage to be delivered to the Seller shall provide that property in one-acre tracts shall be released from the lien of the mortgage upon payment to the Seller, at the rate of \$5,000 per tract, for tracts in Parcels No. 1, 2 and 3, and on payment to the Seller, at the rate of \$10,000 per tract, for tracts in Parcel No. 4.

The Buyer must obtain releases of all tracts in Parcel No. 1 prior to seeking a release in any other parcel. Buyer must obtain all releases in Parcel No. 2 prior to seeking releases in Parcels No. 3 or 4. Buyer may obtain releases of tracts in Parcels No. 3 and 4 at the same time; provided, however, that all such releases in either Parcel No. 3 or 4 shall commence at the southern boundary of such parcel and shall sequentially migrate toward the northern boundary of the parcel. All subsequent releases of tracts in a given parcel shall be contiguous to previous releases in the same parcel.

11. *Easements over released parcels.* In the event parcels released from the lien of the mortgage separate the still-encumbered property from access to an existing public road, then the Buyer, upon request of the Seller, shall grant an easement to the Seller, thereby furnishing access from the property still encumbered by the mortgage to a then-existing public road. However, the easement shall not be more than _____ [e.g., forty (40)] feet in width, the location thereof shall be selected by the Buyer, and, where possible, the easement shall follow the location of a planned, future road, if any, as shown on the subdivision map.

12. *Releases for public facilities.* The roads, green spaces and lots reserved for wells, water storage tanks, sewage treatment stations or other utilities shall be released either upon their dedication to the municipality or upon Buyer's payment in full of the mortgage, whichever event occurs first. The Seller shall join with the Buyer in the execution of any subdivision document or instrument dedicating to public use any and all roads, rights-of-way, easements for drainage, waterways, and similar public facilities after receipt of approval of the subdivision application and maps by the appropriate governmental authorities. The Buyer shall not be required to pay any release price for areas dedicated for public use as described above. However, the Buyer shall pay to the Seller the sum of \$ _____ per acre for any bodies of water created by the Buyer.

13. *Releases after mortgage default.* Nothing contained herein shall obligate Seller to release any lot from the lien of the mortgage in the event that Buyer is in default under any of the terms of the new or assumed promissory notes or mortgages or this Agreement.

14. *Application of release payments.* Payments made on account of releases shall be applied by the Seller to the next principal installment payment due and payable pursuant to the terms of the purchase money note and mortgage.

15. *Release preparation expenses.* All mortgage releases shall be prepared by Buyer for review by Seller's attorney. The Buyer shall pay to the Seller the additional sum of \$ _____ for each release requested in order to cover the attorney examination fee incurred by Seller.

16. *Broker.* The Seller represents to the Buyer that this Agreement was procured only by and through the efforts of _____ [insert broker's name], a licensed real estate broker, and that it has dealt with no other

2-Forms Federal Taxes Affecting Real Estate [E]

salesperson or broker in connection with this purchase. The Seller agrees to indemnify and hold the Buyer harmless against any claim for real estate brokerage commissions by _____ [insert broker's name], but assumes no responsibility or obligation with respect to any other claim or claims with respect to this Agreement by any other broker or salesperson. Seller agrees to pay _____ [insert broker's name] the commission set forth in the listing agreement dated _____, 20 ____.

17. *Benefit.* This Agreement shall be binding upon and inure to the benefit of the respective heirs, legal representatives, successors and assigns of the Seller and the Buyer.

18. *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties respecting the matters herein set forth and supersedes all prior agreements between them respecting such matters.

19. *Counterparts.* This Agreement may be executed in two (2) or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one (1) and the same instrument. At the trial of any matter arising under this Agreement, only one (1) counterpart need be produced.

20. *Headings.* Paragraph headings are for purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

21. *Gender and number.* Whenever the singular or plural number, or masculine or feminine gender, is used herein, it shall equally include the other.

22. *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of _____.

23. *Modifications.* This Agreement may be modified only by a written document signed by both parties. A purported oral modification shall not be effective.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals the day and year first above written.

E.5 Joint venture between land owner and real estate developer

COMMENT

The form that follows is a joint venture agreement between two parties. The first party is the owner of prime land that is highly suitable for real estate development. The second party is a seasoned developer with considerable knowledge and experience in this area and a wealth of capital at her disposal. Together they agree to join forces for a common goal, namely, the construction of a residential real estate development.

The value of the parties' respective contributions is reflected in their split of the expected profits.

Under the terms of the agreement, the developer, due to her vast experience, has nearly unfettered control

over the management and operation of the project. The land owner's interests are protected by the ability to audit the accounting books and records at any time and to have the audit costs paid by the developer if significant discrepancies are found. The land owner is also protected by a built-in dispute-mediation mechanism.

Termination clause:

The parties have included a termination provision in their agreement. The agreement can only be terminated for certain specified reasons. In the event of termination, the land owner is entitled to receive the land back, or at least the monetary value of the land at the time the agreement was executed.

The financial burdens of termination are largely placed on the developer. There are three reasons why this is so:

- (1) Since the developer has complete control over constructing and financing the project, if some problem does arise, it is very likely to be the developer's fault, rather than the land owner's.
- (2) The developer is in a far better position than its passive co-venturer to predict problems, avoid them, or formulate solutions once problems arise.
- (3) The developer has much less capital invested in the project than does the land owner, at least until construction is well underway.

Accordingly, for all of these reasons, the termination provision makes it difficult and expensive for the developer to back out of the project.

For further information, see Chapter 11.

FORM

AGREEMENT made this _____ day of _____, 20____, between Mr./Ms. _____, an individual residing at _____ (hereafter referred to as "Land Owner"), and Mr./Ms. _____, an individual residing at _____ (hereafter referred to as "Developer").

WITNESSETH:

WHEREAS, Land Owner is the owner of a certain parcel of land containing approximately _____ [e.g., three hundred (300)] acres, located in the Town of _____, County of _____, and State of _____, which parcel is more particularly described in Schedule A, which is annexed hereto and made a part hereof; and

WHEREAS, Developer is in the business of constructing residential multi-unit developments; and

WHEREAS, the parties wish to enter into an agreement whereby they will form a joint venture for the purpose of building a residential multi-unit development on the real property described in Schedule A,

2-Forms Federal Taxes Affecting Real Estate [E]

NOW, therefore, in consideration of the mutual promises contained herein, it is agreed as follows:

1. *Joint venture.* The parties hereby form a joint venture under the name and style of _____ [e.g., "Cricket Creek"]. The joint venture shall have an office on the site of the development and a mailing address of _____.

2. *Preliminary plans:*

(a) The parties, in the name of the joint venture, shall engage the architectural firm of _____, located at _____, in order to prepare preliminary plans for the development. These plans shall show the general location of:

- (1) roads within the development;
- (2) access to public water and sewer lines;
- (3) the approximate location of lots;
- (4) the approximate location of any wetlands or other environmentally sensitive areas.

These plans shall include a survey of the boundaries of the real property described in Schedule A. The preliminary plans shall be completed on or before _____, 20____.

(b) Upon receipt of the preliminary plans, the parties shall meet to review the plans. The parties shall make a list of changes which need to be made prior to finalization of the plans. If the parties cannot agree on a particular change, the dispute-resolution procedure set forth in Paragraph No. 11 hereof shall be used. The changes shall be provided to the architectural firm of _____ on or before _____, 20____, with instructions that final drawings, sufficient for subdivision approval in the Town of _____, shall be completed within _____ [e.g., forty-five (45)] days thereafter.

(c) Upon receipt of the final plans, the parties shall review the plans. Both parties shall sign the application for subdivision approval in the name of the joint venture. The application, together with all supporting documentation, shall be filed before _____, 20____.

(d) It is the intention of the parties that the plans will provide for approximately _____ [e.g., two hundred seventy-five (275)] residential lots of approximately _____ [e.g., one-half to three-quarters of an acre] each, together with roadways. In the event that fewer than the number of lots specified above can be created, this Agreement shall terminate. All lots shall conform to the requirements of the Town of _____ for size, road width and road location, green space and setbacks. [Optional: At least one park measuring at least _____ (e.g., five [5]) acres shall be included in the development.]

3. *Subdivision approval.* Developer shall be responsible for taking all further steps necessary for obtaining subdivision approval. This shall include securing whatever expert assistance Developer deems necessary, including, but not limited to:

- (a) legal services;
- (b) engineering services;

2-Forms Federal Taxes Affecting Real Estate [E]

(c) architectural services; and

(d) environmental services.

Developer shall appear at any zoning or planning board meetings held by the Town of _____. Developer shall arrange for appropriate testimony at such meetings. Developer shall pursue whatever appeals may be necessary in the event governmental approval is either not granted, or is granted subject to conditions that are unacceptable to the parties. In the event that subdivision approval cannot be obtained after exhausting all appellate remedies, this Agreement shall terminate. Either party may terminate the Agreement if the subdivision approval is not obtained within _____ [e.g., thirty (30)] months of the date of this Agreement.

4. Infrastructure:

(a) Once subdivision approval is obtained, Developer shall make arrangements for the installation of sewers, water mains, storm sewers and roadways for each phase of the development.

(b) Developer shall have authority, on behalf of the joint venture, to negotiate a loan from a commercial lender for up to _____ [e.g., eighty (80)] percent of the estimated cost of the infrastructure. The loan shall be structured so that funds may be drawn upon as needed. The interest rate shall not exceed the prime lending rate plus _____ [e.g., one (1)] percent per annum.

(c) Land Owner agrees to allow the lender to secure the infrastructure loan with a mortgage on the real property described in Schedule A.

(d) The loan shall provide for partial releases of the mortgage as lots are completed and ready to be sold. Releases may be conditioned upon payment of a specific principal sum per lot. The loan agreement must provide for releases of the roadways without consideration upon dedication of the same to the Town of _____.

(e) Developer shall contribute the balance of the cost of the infrastructure, up to the amount of _____ [e.g., Three Hundred Thousand Dollars (\$300,000)].

(f) All loan documents shall be executed in the name of the joint venture by Land Owner and Developer.

5. *House plans.* Developer shall secure a licensed architect to draw up plans for _____ [e.g., five (5) to seven (7)] model homes to be used in the development. Such plans shall be ready for preliminary review within _____ [e.g., thirty (30)] days after subdivision approval is obtained. The parties shall transmit required changes to the architect within _____ [e.g., ten (10)] days thereafter. Final plans shall be ready to display to home buyers within _____ [e.g., twenty (20)] days thereafter. All plans shall comply with the building code of the State or County of _____, and with any additional requirements of the Town of _____. If any plans or changes thereto cannot be agreed upon between the parties, the dispute resolution procedure of Paragraph No. 11 hereof shall be used.

6. Planned unit development:

(a) Developer shall be responsible for having covenants and restrictions drawn up and filed for the benefit of all lots to be contained in the development. The preliminary covenants and restrictions shall be available upon submission of the subdivision application. The final form of the covenants and restrictions shall be filed with the _____ County Clerk before any lots are marketed to the public.

2-Forms Federal Taxes Affecting Real Estate [E]

(b) At a minimum, the covenants and restrictions shall provide for the following:

- (1) minimum house size;
- (2) controls on exterior style of house and on further construction on houses or lots;
- (3) prohibition on the conduct of commercial activities within the development;
- (4) prohibition on the posting of signs on lots or houses (except "for sale" signs);
- (5) prohibition on the harboring of animals, except cats, dogs or domestic birds;
- (6) prohibition on the erection of exterior clothes' lines;
- (7) prohibition on the storage of vehicles, boats, or recreational vehicles;
- (8) prohibition on the erection of other structures on the premises; and
- (9) any other restrictions designed to protect property values.

(c) The covenants and restrictions shall not include any of the following:

- (1) restrictions on sale or ownership based on race, color, creed, national origin, age, gender or sexual orientation;
- (2) restrictions on a house's exterior color;
- (3) restrictions on fencing or swimming pool installation; and
- (4) restrictions on planting.

(d) Developer may call for the creation of a homeowners' association if Developer should so desire. Developer shall obtain any approvals which may be needed for such covenants, restrictions and/or homeowners' association.

7. Marketing:

(a) Developer shall locate and engage a marketing firm to market houses to be built in the development. The marketing agent shall enter into a contract which is terminable by the joint venture on _____ [e.g., thirty (30)] days' written notice without cause, or on _____ [e.g., forty-eight (48)] hours' written notice with cause. The marketing agent shall be an independent contractor and shall be paid no more than _____ [e.g., three (3)] percent of the purchase price of each house and lot as a commission.

(b) The marketing agent shall be given written instructions as to representations which may be made to purchasers. All purchasers shall be given a copy of the covenants, restrictions and homeowners' association documents at least _____ [e.g., five (5)] business days before a contract may be signed.

(c) The marketing agent may do advertising. The text of all advertisements shall be approved by Developer in writing prior to use. The joint venture will do advertising as well.

8. Representations of Land Owner:

(a) Land Owner owns the land described in Schedule A free and clear of any and all liens and encumbrances, except for certain power-line easements set forth in Schedule B, which is also annexed hereto and made a part hereof.

(b) Land Owner will allow agents and employees of the joint venture to enter upon the land for the purpose of making improvements thereon and to otherwise fulfill the purposes of the joint venture.

(c) Land Owner has engaged a reputable and skilled environmental engineer to perform a phase I environmental site assessment. The true and accurate results of the assessment have been provided to Developer. There have been no changes on the land since the date of the assessment, to the best of Land Owner's knowledge.

(d) Land Owner will give a deed to any lot included in Schedule A upon the request of the joint venture, provided that all terms and conditions of this Agreement have been met, and the agreement is still in full force and effect at that time.

(e) The value of the land which Land Owner is contributing to the joint venture has an appraisal value of _____ [e.g., Six Hundred Thousand Dollars (\$600,000)].

9. Representations of Developer:

(a) Developer is skilled in the creation of a housing development. Developer has already successfully completed _____ [e.g., eight (8)] housing developments, each consisting of _____ [e.g., two hundred (200) or more] houses.

(b) Developer will deposit the sum of _____ [e.g., One Hundred Fifty Thousand Dollars (\$150,000)] in the joint venture's checking account upon execution of this Agreement. Developer will deposit additional sums, as needed, to arrive at a maximum total of _____ [e.g., One Million, Two Hundred Thousand Dollars (\$1,200,000)].

10. General provisions:

(a) Neither party may bind the joint venture to any obligation without the consent of the other party. Both parties shall sign all contracts, notes, mortgages, checks and other obligations of the joint venture. Neither party shall make any representation to the contrary to any third party.

(b) Developer shall be the manager of the project. Developer shall have the right to hire and fire staff, and purchase inventory and supplies in the ordinary course of business. Developer shall conduct all negotiations with any third party. Land Owner shall not interfere in any way. Developer shall run the day-to-day operations and supervise construction.

(c) The parties shall have the ability to review the accounting books and records of the joint venture and make copies thereof for personal use at any time. Either party may audit the financial records at any time at his/her own expense. If a discrepancy appears in excess of _____ [e.g., Five Hundred Dollars (\$500)], then Developer shall pay the cost of the audit.

(d) Developer shall arrange for the financing of the construction. The interest rate shall not exceed the prime lending rate, plus _____ [e.g., one (1)] percent per annum. All financing shall be non-recourse, unless Land Owner agrees to recourse financing.

(e) The profits of the joint venture shall be divided between the parties in the following manner: _____

[e.g., one-third (1/3) to Land Owner, two-thirds (2/3) to Developer]. Profits shall be defined as the net proceeds from the sale of any lot, after deduction of all construction and other costs attributable to that lot, and payment of any lot release fees.

11. *Dispute resolution.* Any disputes between the parties may be fatal to the project. In the event that a dispute arises which cannot be settled within _____ [e.g., forty-eight (48)] hours, the parties agree to submit the dispute to a mediator within _____ [e.g., two (2)] business days thereafter to resolve the dispute. The mediator shall be _____ [insert the name of the person or dispute resolution firm that will mediate the dispute]. The mediator may attribute mediation costs to either or both parties, or to the joint venture. The parties agree to be bound by the results of the mediation.

12. *Death or disability:*

(a) In the event of the death of Land Owner, Developer and the executor of Land Owner's estate shall continue to adhere to the terms of this Agreement. Land Owner agrees to create a will with provisions which bind his/her executor to the terms of this Agreement.

(b) In the event of Developer's death, Land Owner may withdraw from the joint venture or secure a new joint venturer to replace Developer. Payment to Developer's estate shall be as set forth in Paragraph No. 14 ("Termination").

(c) In the event of the disability of Land Owner, Developer shall continue to pursue the goals of the joint venture pursuant to the terms of this Agreement.

(d) In the event of the disability of Developer, Land Owner shall have the same rights as set forth in Subparagraph (b) above. The term "disability" shall mean the inability of the Developer or Land Owner, due to physical or mental incapacity, to fulfill his/her obligations under this Agreement.

13. *Bankruptcy.* In the event that either party files a petition in bankruptcy, this Agreement would be considered executory by the court. In the event that the debtor-party chose to reject the contract, he/she would be bound by the termination provisions contained in Paragraph No. 14 hereof.

14. *Termination:*

(a) This Agreement may not be terminated by either party except for cause. The term "cause" shall be limited to the following:

- (1) defalcation or fraud committed by one party against the other;
- (2) failure of one party to fulfill a material obligation under the terms of this Agreement;
- (3) failure to obtain approval for the subdivision from the Town of _____ ;
- (4) death or disability of Developer; and
- (5) sale of the project.

(b) The party seeking to terminate the Agreement shall give the other party written notice of intention to terminate this

2-Forms Federal Taxes Affecting Real Estate [E]

Agreement. The written notice shall specify the basis for the termination and the date on which the termination shall become effective. Such date shall be at least _____ [e.g., ten (10)] days after delivery of the notice. If the other party agrees to the termination, he/she shall so state in a writing delivered to the party seeking to terminate. If the other party does not agree to terminate, the matter shall be submitted to dispute resolution under Paragraph No. 11 hereof.

(c) Upon termination in the pre-development phase (*i.e.*, before any of the land has been disturbed), Land Owner shall receive his/her land back free and clear of the terms of this Agreement. After payment of all outstanding obligations of the joint venture, Developer shall receive a refund of any funds remaining which he/she contributed. If any obligations of the joint venture remain unpaid, they shall be the sole responsibility of Developer.

(d) Upon termination of the Agreement during the development phase (*i.e.*, after the land has been disturbed, but prior to construction of any house), Developer shall have the right to buy Land Owner's land for the sum of _____ [e.g., Six Hundred Thousand Dollars (\$600,000), plus interest at four percent (4%) per annum from the date of this Agreement]. Land Owner shall hold paper for the purchase price for a period of up to _____ [e.g., three (3)] years, secured by a first or second mortgage on the property with an interest rate equal to the prime lending rate, plus _____ [e.g., one (1)] percent per annum.

In the event Developer chooses not to purchase the land, Developer shall take whatever steps are needed to release any liens from the land. Land Owner shall receive his/her land back free and clear of all liens and any obligations under this Agreement. Developer shall not be entitled to any credit for improvements on the land. After payment of all obligations of the joint venture, Developer shall receive a refund of any funds remaining which he/she contributed. If any obligations of the joint venture remain unpaid, they shall be the sole responsibility of Developer.

(e) Upon termination of the Agreement in the late development stage (*i.e.*, after commencement of construction of any house), rights upon termination shall be the same as in Subparagraph (d) above, except that Developer shall be obligated to complete any structure then under construction. In the event Developer purchases the land, Developer shall receive a credit against the purchase price for any profit distributions previously made to Land Owner. In the event Developer does not purchase the land, Developer shall be entitled to a lien against the land of Land Owner equal to the value of any improvements made by Developer.

(f) Upon the sale of the entire project, payments shall be made in the following order: Land Owner shall receive _____ [e.g., \$600,000, plus interest paid at the rate of four percent (4%) per annum from the date hereof]. All debts of the joint venture shall be paid in full by Developer. Developer shall receive payment of all sums contributed by him/her. Any balance remaining shall be divided _____ [e.g., one-third (1/3) to Land Owner and two-thirds (2/3) to Developer]. If a shortfall exists, Developer shall be solely responsible for any debts of the joint venture.

15. *Taxes.* Upon execution of this Agreement, all taxes which are levied against the lands described in Schedule A shall be paid by the joint venture until said lands are sold to a third party.

16. *Insurance.* The joint venture shall, at its expense, maintain liability insurance on the lands described in Schedule A. When construction begins, builder's all-risk insurance shall be obtained. Developer shall determine appropriate policy limits. The joint venture and the parties shall be named insureds on all policies of insurance.

17. *Tax returns.* Developer shall cause income tax returns to be prepared and filed for the joint venture in each year of its existence.

18. *Miscellaneous:*

2-Forms Federal Taxes Affecting Real Estate [E]

(a) *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties respecting the matters herein set forth and supersedes all prior agreements between them respecting such matters.

(b) *Counterparts.* This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. At the trial of any matter arising under this Agreement, only one counterpart need be produced.

(c) *Headings.* Paragraph and subparagraph headings are for purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

(d) *Notice.* Any notice to be given hereunder shall be in writing, signed by the party giving notice, and delivered by any one of the following methods:

- (1) personal delivery;
- (2) facsimile machine transmission;
- (3) certified or registered mail, return receipt requested; or
- (4) overnight courier service, provided that a receipt is maintained in the ordinary course of business.

Notices shall be given at the following addresses:

If to Land Owner:

Attn: _____

If to Developer:

Attn: _____

Either party may designate a new address by giving notice thereof to the other party.

(e) *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of _____.

(f) *Binding effect.* This Agreement shall be binding upon and inure to the benefit of the parties, their respective heirs, representatives, successors and assigns.

(g) *Amendments.* Any amendment of this Agreement must be made in writing and signed by both parties. Any attempted oral modification will not be valid.

(h) *Waiver.* Any failure by either party to enforce any right arising under this Agreement shall not be deemed a waiver of the ability to later enforce that right. Any waiver must be in writing and signed by the person waiving the right in order to be enforceable.

IN WITNESS WHEREOF, the parties hereto have set their hands the day and year first above written.

Land Owner

Developer

[*Acknowledgements*]

E.6 Joint venture for land development--finances by one party- development assumed by other party-profit and income distribution provisions

COMMENT

In this form a construction corporation and an investing corporation combine in a joint venture to purchase acreage for development. The areas of responsibility assigned to each venturer follow a pattern in which one venturer is to provide the necessary funds, while the other is to arrange for the construction of the improvements.

Funds and financing:

Since funds will be required to purchase the land to be developed, a significant contribution to initial capital is to be made by the investing venturer. Additional funds are first to be obtained through nonrecourse loans secured by the property, upon which neither coventurer will be individually liable. Any additional financing is to be arranged by the investing venturer, either by direct interestbearing loans to the venture or by guaranteeing outside loans for which it will receive a guarantor's premium. The investing venturer is to handle all other financial matters, including bookkeeping, purchasing, insurance, and banking.

Development and construction:

Responsibilities of the developing venturer include the formulation of a master development plan, the securing of governmental permits, the demolition of existing buildings, the installation of utilities, the construction and completion of improvements, and the lease or sale of the improved property.

For further information, see Chapter 11.

FORM

AGREEMENT made by Atlas United Corporation, an Illinois corporation having its principal office in the Lakeside Building, Chicago, Illinois ("Atlas"), and Wayne Construction Corp., a Delaware corporation having an office at 300 Fifth Avenue, New York, New York ("Wayne").

Atlas and Wayne hereby enter into a joint venture upon the following terms and conditions:

2-Forms Federal Taxes Affecting Real Estate [E]

1. *Name.* The name of the joint venture is Riverside City.

2. *Capital.* The capital of the joint venture, to be contributed by Atlas, shall consist of \$2,000,000 which shall be paid in as required. It is intended that funds required for the purposes of the joint venture, in addition to those for which commitments have been entered into prior to the closing, shall, to the extent reasonably possible, be supplied by loans from institutional lenders without personal liability on either Atlas or Wayne and from retained earnings. To the extent that such funds are not reasonably available from those sources, Atlas shall either lend such funds to the joint venture at _____ percent interest and upon terms which are mutually satisfactory to Atlas and Wayne, or shall guarantee loans by third parties to the joint venture and be entitled to guarantor's premium of the excess, if any, of _____ percent over the interest rate on such loans. No loans to the joint venture, whether by Atlas or others, shall impose any personal liability on either Atlas or Wayne unless expressly assumed.

3. *Purposes.* The purposes of the joint venture are:

(a) To purchase or otherwise acquire the property consisting of approximately 300 acres located in Los Angeles, California, which is presently owned by Riverside Corporation of California ("Riverside Property").

(b) To develop and improve the Riverside Property.

(c) To operate, maintain, lease, sell, or otherwise dispose of the Riverside Property, in whole or in part, and the improvements made thereon.

(d) To carry on any other activities necessary or incidental to the foregoing purposes, including the establishment of offices and the employment of personnel.

The joint venture shall not engage in any other business or activity without the written consent of Atlas and Wayne.

4. *Responsibilities of Wayne.* Wayne shall be responsible for:

(a) The preparation of a master plan for the development of and improvements to the Riverside Property, including the selection, subject to Atlas' prior written approval, of architects and engineers for this purpose.

(b) The preparation for development of the Riverside Property including (1) the securing of all necessary governmental permits, (2) the demolition of any buildings presently on the Riverside Property, and (3) the construction of roads and installation of utilities.

(c) The design, preparation of plans and specifications, construction, and completion of developments and improvements to those portions of the Riverside Property which Atlas and Wayne mutually agree to develop and improve.

(d) The operation, maintenance, leasing, sale, or other disposition of the Riverside Property, in whole or in part, and the improvements made thereon.

(e) The preparation of an environmental site assessment and the supervision of the remediation of any adverse environmental condition which may be found, including, but not limited to: removal of underground storage tanks, removal of contaminated soils, and removal of hazardous substances and materials, as is needed to comply with applicable federal, state and local laws and regulations.

5. *Responsibilities of Atlas.* Atlas shall be responsible for:

2-Forms Federal Taxes Affecting Real Estate [E]

(a) All financial matters involved in carrying on the business of the joint venture, including the negotiation of loans, maintenance of bank accounts, and payment of all obligations and expenses of the joint venture.

(b) Keeping all books and records and doing all accounting work in accordance with paragraphs 9, 11, 12, and 13 of this agreement.

(c) All purchasing by the joint venture.

(d) The insurance of the joint venture and its properties. The Riverside Property and its improvements and all other tangible property of the joint venture shall be insured against fire, wind-storm, and other risks protected by extended coverage of the kind usually carried for comparable properties in the general vicinity of the Riverside Property. The joint venture shall be insured against liability arising from its operations and activities, to the extent and of the kinds of insurance coverage normally carried for similar operations. All insurance shall be placed with responsible insurance companies and in the amounts determined by Atlas and Wayne.

6. *Management representatives.* For convenience of operation, Atlas and Wayne shall each designate management representatives to carry out the decisions of their principals and to serve as the channels of communication for disseminating information to and securing necessary action by their principals.

7. *Reimbursements.* The joint venture shall reimburse Wayne and Atlas for all costs and expenses incurred by each in performing its duties pursuant to paragraphs 4 and 5, including all allocation of compensation of employees performing substantial services for the joint venture, but not including any part of the compensation of management personnel (including management representatives) of either Wayne or Atlas. The reimbursement of costs and expenses incurred by Wayne and Atlas prior to closing on the Riverside Property shall include interest at _____ percent per annum.

8. *Limitations.* The performance by Wayne and Atlas of their responsibilities under paragraphs 4 and 5 shall be subject to the following limitations:

(a) The plans and specifications referred to in paragraph 4 for the development of and improvements to the Riverside Property, in whole or in part, shall be approved in writing by Atlas before any commitment is made by the joint venture with respect to them.

(b) No part of the Riverside Property and its improvements and no other property or assets of the joint venture may be leased, sold, or otherwise disposed of without the prior written consent of both Atlas and Wayne.

(c) No steps shall be taken by Wayne which may result in a substantial change in the operation or policies of the joint venture without the prior written consent of Atlas.

(d) The office manager or other person in charge of the activities of the joint venture shall be selected by Wayne, but if he or any successor is not satisfactory to Atlas, he shall, at Atlas' written request, be replaced by Wayne.

(e) Wayne shall only receive renting and management agent fees with respect to the Riverside Property or parts thereof as shall be agreed to in writing by Atlas and Wayne.

(f) No financing shall be committed by Atlas without the prior written consent of Wayne as to the terms of the financing commitment.

(g) No purchase commitment exceeding \$10,000 shall be made by Atlas without the prior written consent of Wayne.

2-Forms Federal Taxes Affecting Real Estate [E]

(h) The joint venture shall not mortgage, pledge, create a security interest in, encumber, or otherwise subject to any lien any property or assets owned or used by the joint venture or confess any judgment against the joint venture without the prior written consent of Atlas and Wayne.

(i) No legal action shall be commenced to enforce the rights of the joint venture without the prior written approval of Atlas and Wayne.

9. *Books and records.* There shall be kept for the joint venture accounts and complete books and records, on the accrual basis, in accordance with generally accepted accounting principles (which shall not be changed without mutual consent), showing all costs, expenditures, sales, receipts, assets, and liabilities, and profits and losses, and all other records necessary, convenient or incidental to recording the joint venture's business and affairs and sufficient to record the division of profits or losses as provided for in paragraphs 14 and 15.

10. *Fiscal year.* The fiscal year of the joint venture shall be the calendar year.

11. *Reports.* Promptly after the end of each month, there shall be prepared and delivered to each party a statement showing the results of operations during such month and for the year to date and a balance sheet. Promptly after the end of each fiscal year, there shall be prepared a balance sheet showing the assets and liabilities of the joint venture at the close of the year and a statement of income showing the results of operations for the year. The joint venture shall have an audit of its books made immediately after the close of each year by a nationally recognized firm of public accountants mutually agreed to from year to year. On or before February 1 following the close of each year, the joint venture shall furnish each party copies of the annual balance sheet and statement of income, together with the certificate of the public accountants covering the results of the annual audit.

12. *Bank accounts.* All moneys of the joint venture shall be deposited in the joint venture's account in banks selected by Atlas. Withdrawals from bank accounts shall be made by signatures only of such person or persons as shall be authorized by Atlas.

13. *Accounting decisions.* All decisions as to accounting principles, whether for book or tax purposes (and such decisions may be different for each such purpose), shall be made by Atlas, including all elections to be made by or for the joint venture under the provisions of the Internal Revenue Code or under any superseding Revenue Code or federal income tax legislation.

14. *Division of profits and losses.* (a) As used in this paragraph, the following definitions shall apply:

(1) "Capital" is defined as the amounts contributed as capital by Atlas under paragraph 2.

(2) "_____ percent annual return" is defined as _____ percent of the daily average of the capital remaining in the joint venture during the year.

(3) "Cumulative _____ percent annual return" is defined as the sum from the beginning of the joint venture of all of the _____ percent annual returns.

(4) "Cumulative tax profit" or "cumulative tax loss" is defined as the sum from the beginning of the joint venture of all of its annual tax profits and annual tax losses as reported in its annual United States income tax returns, adjusted to reflect any changes resulting from Internal Revenue Service audits which the parties have mutually accepted or with respect to which a final determination has been made.

(b) The current year's tax profit shall be shared as follows:

2-Forms Federal Taxes Affecting Real Estate [E]

(1) Up to the amount of any cumulative tax loss at the beginning of the year previously shared two-thirds by Atlas and one-third by Wayne, the current year's tax profit shall be shared two-thirds by Atlas and one-third by Wayne.

(2) Up to the amount of any remaining cumulative tax loss at the beginning of the year previously allocated entirely to Atlas and any unearned cumulative _____ percent annual return at the end of the year, the current year's tax profit shall be allocated to Atlas.

(3) Any balance shall be shared two-thirds by Atlas and one-third by Wayne.

(c) The current year's tax loss shall be shared as follows:

(1) Up to the amount of any cumulative tax profit at the beginning of the year previously shared two-thirds by Atlas and one-third by Wayne, the current year's tax loss shall be shared two-thirds by Atlas and one-third by Wayne.

(2) Up to the amount of any remaining cumulative tax profit at the beginning of the year previously allocated entirely to Atlas and all capital and loans to the joint venture on which Atlas is the lender, co-maker, or guarantor, remaining in the joint venture at the end of the year, the current year's tax loss shall be allocated to Atlas.

(3) Any balance shall be shared two-thirds by Atlas and one-third by Wayne.

15. *Distributions.* As mutually determined by Atlas and Wayne, any excess assets of the joint venture not needed to carry out the purposes of the joint venture (whether in the form of cash, securities, or other property, and whether arising from operations, loans on the security of assets of the venture, or proceeds from sales or other dispositions) shall first be used to repay the obligations of the joint venture on which Atlas or the joint venture is personally liable as Atlas shall determine. As mutually determined by Atlas and Wayne, any excess assets of the joint venture not needed to carry out the purposes of the joint venture and which are not used to repay obligations of the joint venture pursuant to the preceding sentence shall be distributed in the following priority:

(a) To the extent of the previously undistributed cumulative _____ percent annual return, all to Atlas.

(b) To the extent of previously undistributed capital, all to Atlas.

(c) Any remaining assets shall be distributed two-thirds to Atlas and one-third to Wayne.

Except as required in subparagraph (b) of paragraph 19, neither Atlas nor Wayne shall be required to return to the joint venture any amounts distributed pursuant to this paragraph 15.

16. *Events of termination.* The joint venture shall terminate upon the first to occur of the following events:

(a) Upon the expiration of 30 years from the date of this agreement.

(b) Upon notice by either party if the other party shall fail to perform its obligations hereunder and such failure shall continue for a period of at least three months after written notice from the party claiming the default. The party desiring to terminate under this provision shall, after the expiration of the three-month period, give one month's written notice of its intention to terminate.

(c) Upon three months' written notice by either party that such party elects to terminate the joint venture because of the failure of the parties to agree upon any proposed action or nonaction by the joint venture resulting in the inability to carry on the business of the joint venture under normal standards of commercial reasonableness, provided that at the end of the three-month period the parties still fail to agree.

(d) Upon the sale of all of the Riverside Property and its improvements.

(e) At the option of the other party, upon the purported assignment of rights or delegation of obligations under this agreement or upon the voluntary liquidation or dissolution of either party.

(f) At the option of either party within a reasonable time after notice that the other party shall have had filed against it pursuant to a statute of the United States or of any state, a petition in bankruptcy or insolvency or for reorganization or for the appointment of a receiver, custodian, or trustee of all or a portion of such other party's property and within 30 days thereof such other party fails to secure a discharge thereof or that such other party shall make an assignment for benefit of creditors or petition for or voluntarily enter into an arrangement, or be unable to meet its obligations as they become due.

(g) By mutual agreement of the parties.

17. *Distributions on termination.* Upon termination of the joint venture, a final audit shall be made by a mutually agreeable nationally recognized firm of public accountants and all of the property and assets of the joint venture shall be distributed as follows:

(a) All of the property and assets, if any, other than cash, shall be sold or collected and turned into cash or purchase money obligations within a period of three years from the date of such termination. Both Atlas and Wayne shall have the right to bid on and purchase any or all of the property and assets being sold.

(b) All of the debts and obligations of the joint venture on which the joint venture is separately and personally liable or on which Atlas is separately and personally liable shall be paid in full.

(c) The remaining cash and other property, if any, shall be distributed to the parties as provided in paragraph 15.

18. *Title.* Legal title to the Riverside Property shall be held by Atlas as nominee of and for the benefit of the joint venture or by such other nominee or nominees as Atlas and Wayne shall hereafter mutually designate. Atlas or the other nominee or nominees shall execute all deeds, leases, and other documents and instruments relating to the Riverside Property or any part thereof as required by the joint venture, and shall not lease, sell, mortgage, pledge, create a security interest in, encumber, lien, or otherwise dispose of the same without the prior written consent of both Atlas and Wayne.

19. *Liability.* (a) The liability of the joint venture or of Atlas or Wayne as joint venturers arising out of any of the activities of the joint venture shall be covered by appropriate policies of insurance to be purchased by the joint venture as provided in subparagraph (d) of paragraph 5.

(b) In the event that any liability shall not be adequately covered by insurance, the uninsured liability shall first be satisfied out of the assets of the joint venture. If the assets of the joint venture are not sufficient to fully satisfy the uninsured liability, Atlas and Wayne shall return to the joint venture in the ratio of two-thirds by Atlas and one-third by Wayne prior distributions made pursuant to subparagraph 15 (c) to the extent needed to satisfy such liability. Atlas shall, in accordance with paragraph 2 and subparagraph 8(f), be responsible for obtaining for or furnishing to the joint venture any additional funds necessary to satisfy the balance of the uninsured liability.

(c) Atlas and Wayne shall each be indemnified by the other and held harmless against and from all claims, demands, actions, and rights of action which shall or may arise by virtue of anything done or omitted to be done by the other (through or by agents, employees, or other representatives) outside the scope of, or in breach of the terms of this agreement provided the other shall be promptly notified of the existence of the claim, demand, action, or right of action and shall be given reasonable opportunity to participate in the defense thereof.

2-Forms Federal Taxes Affecting Real Estate [E]

(d) Nothing contained in this agreement shall be construed to constitute either party the general partner of the other party or the agent of the other party other than in connection with the activities included within the scope of the joint venture nor in any manner to limit the parties in the carrying on of their other respective businesses or activities.

(e) If on partial or complete termination of the joint venture or at a time of any distribution to the parties there are insufficient assets to repay any part or all of the capital contributions or the cumulative _____ percent annual return which is then unpaid, Wayne shall not be liable to Atlas for any deficiency in any such unpaid amounts nor shall Wayne be required to make any capital contributions to the joint venture or payments to the other party in order to cover such deficiencies, it being expressly understood that Atlas' capital contribution is made at its sole risk.

20. *Inspection.* Each party or its authorized representatives may examine any of the books and records of the joint venture or the Riverside Property or its improvements at any time and without notice.

21. *Integration.* This agreement is the entire agreement between the parties with respect to its subject matter hereof and supersedes all prior agreements between the parties with respect thereto. No alteration, modification, or interpretation hereof shall be binding unless in writing and signed by both parties.

22. *Interpretation.* This agreement shall be interpreted and construed in accordance with the laws of the State of Illinois. The titles of the paragraphs have been inserted as a matter of convenience of reference only and shall not control or affect the meaning or construction of any of the terms and provisions hereof.

23. *Assignment.* Neither Atlas nor Wayne may assign or pledge any of its right, title, or interest in this joint venture.

24. *Notices.* All notices required or permitted by this agreement shall be in writing and shall be sent by registered or certified mail addressed, in the case of Atlas, to: Atlas United Corporation Room 2001 Lakeside Building Chicago, Illinois

and, in the case of Wayne, to: Wayne Construction Corp. 300 Fifth Avenue, New York, New York

or to such other address or to the attention of such other person as shall be supplied in like manner.

In witness whereof the parties have caused this joint venture agreement to be executed in duplicate this 29th day of March, 2002.

E.7 Contract to prepare and implement master plan for subdivision of property

COMMENT

The forms in this group are for planning and completing a development program. In the form illustrated here, the owner of a large tract of undeveloped land hires an engineering company to prepare a master

plan for the property and supervise all the details for carrying out the plan. The engineering company is in effect taking over all the responsibilities of the developer. In addition to preparing the master plan, the company is to arrange for and supervise the necessary engineering, negotiate with utility companies, direct and manage the required construction, plan and promote sales and leases, and perform general management and administrative services. The owner has therefore turned over to the engineering company full control of the development program even to the sale and lease of the finished land sites.

Tax accounting:

Compensation for the services to be rendered by the engineering company generally falls into two classes. For its general services the company receives a fixed monthly payment. For its engineering services it is reimbursed for specified categories of costs plus a fixed percentage of certain of these costs as its fee. The fixed monthly payment is reportable by the engineering company when received or accrued depending upon its accounting method. If the company is on the accrual basis, its fee for performing the engineering services should be accrued as the costs for those services are incurred.

Cost allocation of future expenses:

Improvement costs are allocated to individual land sites for the purpose of determining gain or loss on each separate sale or other disposition. But in the sale of the first lots there may be also included in their tax basis an allocation of the estimated costs of future development which may benefit those lots. In order to sustain the allocation of an estimate of such future expenses on the basis of lots first sold, the owner must submit information supporting the following: (a) the cost of the entire tract on which the lots are located, and the suitable allocation of such costs to each lot; (b) a description of the proposed improvements, with evidence that the owner is contractually obligated to make such improvements; (c) an explanation of the method of estimating the costs of the future improvements; (d) an allocation of the estimated costs to each lot, accompanied by a plat map; and (e) if estimates have been allocated to lots sold in prior years, complete information as to the allocation, including actual expenditures for the improvements and their proper allocation. Estimates may be corrected in the light of actual experience.

For further information, see Chapter 11.

FORM

AGREEMENT dated and entered into on March 25, 2002, between Land East Corporation, a California corporation, (the "Owner"), and Hodges & Harrison Company, Inc., a New York corporation (the "Company").

The Owner and the Company agree as follows:

1. *Managerial services* The Company will, subject to the general direction and control of the Owner, perform for the Owner the following services:
 - (a) Prepare a master plan for the entire property of the Owner (in coordination with an environmental impact study) which will set forth the proper relationship of residential areas, golf courses, beach and recreational facilities, apartment houses, hotels, shopping centers, industrial parks, highways and road networks, and sewer, water, and power systems.
 - (b) Arrange for and supervise the engineering necessary to execute the master plan including detailed design of utilities, streets, subdivisions, and prepared building sites.

2-Forms Federal Taxes Affecting Real Estate [E]

- (c) Negotiate with each of the various utility companies to obtain installation of power, rail, gas, and telephone facilities required to implement the master plan on the most favorable terms and conditions, and coordinate the scheduling and installation of such facilities.
- (d) Arrange for and supervise the construction necessary to execute the master plan, and prepare budgets for various stages of development and specific projects.
- (e) Coordinate with the various municipal, county, and state agencies in design of services required to implement the master plan including schools, fire stations, locations of roads, access to existing roads, and major drainage systems.
- (f) Plan, coordinate, and supervise all sales, promotion, and advertising to facilitate at the earliest date possible the sale or lease of bulk land sites, individual land sites, and all finish uses which might be deemed to be the highest and best use of the land involved. sites, individual land sites, and all finish uses which might be deemed to be the highest and best use of the land involved.
- (g) Negotiate sales and leases, and work with tenants and prospective purchasers.
- (h) Negotiate for temporary and permanent financing of land development and building construction.
- (i) Arrange for and supervise on a coordinated program all necessary insurance.
- (j) Perform general management and administrative services for the Owner including, but not limited to, the following:
 - (1) Manage all property;
 - (2) Propose projects for sale or investment and make complete financial analysis and recommendations on each project to the Owner;
 - (3) Investigate and make financial analysis and recommendations on all proposals submitted to the Owner by other parties;
 - (4) Keep accounting books and records;
 - (5) Offer tax advice, consult with tax attorneys and advisers, and prepare tax returns;
 - (6) Review all legal documents, including land purchase and sale agreements, leases, construction loan agreements, notes, mortgages, and deeds;
 - (7) Represent the Owner at public functions as required, and recommend policies to be followed on public matters affecting the Owner;
 - (8) Work with municipal, county, and state officials and with municipal bodies, such as planning boards, water boards, board of appeals, and board of assessors;
 - (9) Seek short-term loans as needed, and offer financial advice;
 - (10) Handle advertising and public relations for the Owner, including preparation of press releases, opening ceremonies, releases of special sales and large sales, and the handling of magazine articles, trade publication articles, and anything else deemed to be in the best interests of the Owner.

2-Forms Federal Taxes Affecting Real Estate [E]

2. *Compensation for managerial services.* The Owner shall pay the Company for the services in paragraph 1 the sum of \$30,000 a month, payable in advance, the first payment to be due June 1, 2002, and each payment to be made on the 1st day of each and every calendar month thereafter to and including May 1, 2003. In addition the Company shall be entitled to a monthly reimbursement for costs and expenses incurred in rendering the services. Without limiting the generality of the foregoing, the Company shall be reimbursed for the following:

(a) All direct costs of any branch office that may be opened and operated by the Company in relation to the performance of the terms and conditions of this agreement, including but not limited to payroll, office overhead, advertising and promotion, legal fees, consulting fees, and transportation.

(b) Out-of-pocket expenses of Company personnel, including but not limited to travel, lodging, and communication expenses.

(c) The costs and expenses shall not include salaries of officers or employees of the Company, or general overhead expenses of the Company.

3. *Engineering services.* The Company shall have its Engineering Division perform engineering services required by the Owner, including site engineering and planning for the land owned by the Owner, preparation of necessary site development plans and specifications, environmental impact studies and statements, and such other engineering services as directed by the Owner, all to be in accordance with state Codes and Ordinances. Any such work may be cancelled at any stage by the Owner.

4. *Compensation for engineering services.* In consideration of the performance of the engineering services in paragraph 3, the Owner shall make monthly payments to the Company as follows:

(a) All direct costs of the work, including wages, supplies, blueprints, payroll taxes, and insurance. Direct costs, however, shall not include items such as rent, lights, clerical services, salaries of officers of the Engineering Division or of the Company, or other expenses of a similar nature.

(b) 70 percent of direct wages for overhead expenses. The premium portion of salaries and wages for overtime work shall be a reimbursable expenditure but shall not be included as a part of direct wages for the computation of overhead expenses.

(c) 20 percent of the total of the above two items as its fee for performing the work.

(d) Costs of any outside engineering services. The Engineering Division shall submit to the Owner for approval any contracts for outside engineering services amounting to more than \$60,000.

(e) Travel expenses.

(f) Living expenses incurred by personnel of the Engineering Division while away from their homes in connection with the rendering of the services required under paragraph 3 of this agreement.

5. *Term.* Services under this agreement shall commence June 1, 2002, and terminate June 1, 2003.

6. *Monthly statements.* The Owner may request and receive from the Company on request a detailed report of all or any item or items contained in any other usual monthly statement covering costs and expenses. Each monthly statement shall be subject to the approval of the Owner, such approval not to be unreasonably withheld.

7. *Assignment.* The Company may assign or transfer this agreement or any part to any other person, firm, trust,

2-Forms Federal Taxes Affecting Real Estate [E]

association, or corporation, hereinafter called the Assignee, provided only:

(a) That the Company receives the Owner's prior written consent to such assignment; and

(b) That the principal owners of the Company have at the date of the assignment and at all times during the term of this agreement (1) full and complete management and controls of the Assignee; and (2) are the owners of a majority interest in the Assignee.

8. *Personal liability.* No director, shareholder, officer, or agent of the parties shall be held to any personal liability under this agreement, but only the property of each party shall be liable hereunder or by reason hereof.

9. *Licenses and registration.* The Company shall procure, and thereafter during the term of this agreement maintain in effect, all necessary licenses and registrations for the performance of the activities to be engaged in under this agreement, or the Company shall have duly associated with it personnel duly licensed to perform the activities on behalf of the Company. Notwithstanding any other provision, this agreement shall not be deemed to have taken effect with respect to any activities which would be unlawful without proper licensing or registrations until the same have been procured, or the personnel having and maintaining the licenses to engage in the activities on behalf of the Company are associated with the Company.

E.8 Contract to plat and subdivide land and construct homes and other buildings--separate categories for contractor's cost plus percentage compensation--owner to pay construction costs

COMMENT

In this form, the owner of a large tract of undeveloped land employs a contracting corporation to supervise the platting and subdivision of the land and to construct homes and other buildings in accordance with plans and specifications furnished by the owner. There is a careful definition of the areas of activity for each of the parties. Essentially, the owner has reserved control over the planning and financing of the venture while passing on to the contractor the responsibility for substantially all of the construction work.

Since the development program involves the sale of building lots, the construction and sale of residences, and the construction of other buildings, the compensation of the contractor takes these various factors into account. Compensation to the contractor is to consist of the following: a percentage of the sales price of each building lot; a percentage of the cost of each residence, but not in excess of one-half the profit resulting from the sale of the residence; a percentage of the cost of each building (other than a residence) constructed by the contractor; and all of the overhead incurred by the contractor. The agreement carefully defines the terms "cost," "profit resulting from the sale of a residence," and "overhead," and the times and manner in which compensation payments are to be made to the contractor. In addition, the owner is obligated to pay all construction costs incurred under the contract, whether incurred in the name of the

owner or the contractor. Rights to inspect books of account are allowed to each party to permit verification of financial matters.

For further information, see Chapter 11.

FORM

AGREEMENT made December 15, 2002, in Miami, Florida, by and between General Realities Corporation, a Florida corporation ("General"), and Central Construction Corporation, a Delaware corporation authorized to do business in Florida ("Central").

The parties agree as follows:

1. *Definitions.* For the purposes of this agreement, the following terms have the following meanings:

- (a) "Lots" or "tracts" or "plots" mean property owned and hereafter acquired by General which are contained in a proposed unrecorded plat or a recorded plat of land.
- (b) "Land" or "property" means property owned and hereafter acquired by General which is not contained in a proposed unrecorded plat or a recorded plat.
- (c) "Residence" means a single-family residence.
- (d) "Building" means any structure other than a residence.

2. *Employment.* General employs Central to perform the work covered by this agreement and Central accepts such employment.

3. *Contractor's obligations.* Central shall perform the following work:

- (a) Supervise the platting and subdividing of the land General designates, from time to time, into lots, tracts, or plots; supervise the preparation of plats of the land and cause the plats to be recorded; and supervise the improvement of and development of land designated by General from time to time;
- (b) Construct residences and buildings on the land or the lots, tracts, or plots General designates, from time to time, in accordance with plans and specifications furnished by General, which plans and specifications shall comply with all building code provisions covering the construction of the residences and buildings covered by the plans and specifications. The construction of residences and buildings shall be at actual cost though subject to the payment by General to Central of the compensation and other moneys provided in paragraph 6, and its accompanying subparagraphs; and
- (c) Any and all other work necessary or incidental to accomplish any of the foregoing.

4. *Owner's obligations.* In connection with the work referred to in paragraph 3, General shall:

- (a) Construct and install the roads and other improvements on and across the land to enable Central to do and perform the work provided for under this agreement;
- (b) Execute all plats, procure all bonds, and pay all bond premiums, and make all disbursements which may be

2-Forms Federal Taxes Affecting Real Estate [E]

necessary or requisite to the preparation and recording of plats of the land;

(c) File all applications and pay all fees and expenses necessary to procure the approval of lots for financing under Federal Housing Administration or conventional mortgages;

(d) Furnish all financing and supply all funds for the construction of residences and buildings; in order to assure Central that all construction costs will be paid promptly;

(e) Do all things, award all contracts with subcontractors and materialmen, and place all orders, all of which shall be done in the name of General, to enable Central to perform the work provided in paragraph 3;

(f) Pay all bills for work, labor, services, and materials furnished for the doing of the work, and to pay the same within 30 days after Central has made demand that payment be made;

(g) Make the advances necessary for the purchase of materials, supplies, machinery, and equipment for the work;

(h) Indemnify and hold Central harmless from liability for the payment of any or all of the foregoing; and

(i) Pay Central its compensation and overhead hereinafter provided for.

5. *Time of performance.* In each instance, the work to be performed, under this agreement, shall be commenced as quickly as possible after General has notified Central of the particular work to be done. The work, when commenced, shall be carried through expeditiously and continuously to completion as rapidly as the proper doing of the work and the availability of crews of labor and materials permit. In no event shall Central ever be deemed liable to General for any delay in the completion of any work caused by act of God, or the public enemy, or by casualty, or by strike, or by governmental restriction upon the availability or use of labor or materials, or by reason of any other fact which shall not have been caused by the act or default of Central or any employee or agent of Central.

6. *Compensation to contractor.* General shall pay Central for the work performed under this agreement the following sums:

(a) A sum equivalent to 2 2/3 percent of the sales price of each lot, tract, or plot sold or contracted to be sold by General between and including January 1, 2003, and December 31, 2007, and payment shall be made in the following manner, and at the following times:

(1) If any lots, tracts, or plots are sold under sales contracts or agreements for deed, the compensation to be paid Central shall be paid in equal installments concurrently with the first 36 payments made by the purchasers under the sales contracts or agreements for deed; but if any of the sales contracts or agreements for deed are payable over a period of less than 36 months, then the compensation to be paid Central shall be paid in equal installments out of the payments received by General during the term of such sales contracts or agreements for deed; but

(2) If any lots, tracts, or plots are sold for cash or are sold partially for cash and the balance of the purchase price is evidenced by a purchase money mortgage, or other instrument evidencing the unpaid balance of the purchase price, and a deed of conveyance is delivered to the purchaser, General shall pay Central the compensation simultaneously with the execution and delivery of the deed of conveyance by General to the purchaser; and

(3) Payment of the compensation provided for in subparagraph (1) hereof is contingent upon payments being made under the sales contracts and agreements for deed, and if a purchaser defaults, and as a result of a default the sales contract or agreement for deed is cancelled, then General shall only be liable to pay Central the compensation out of the installments paid on contracts and agreements for deed up to the date of the cancellation of the sales contract or

2-Forms Federal Taxes Affecting Real Estate [E]

agreement for deed.

(b) A sum equivalent to 5 percent of the cost of each residence constructed by or for General between and including January 1, 2003, and December 31, 2006, but such sum equivalent to 5 percent of the cost of each residence shall not exceed one half of the profit resulting from the sale of the residence.

(1) The compensation for each residence shall be paid by General to Central within 30 days from the date of the execution and delivery to the purchaser of a deed of conveyance. If a residence is sold under an agreement providing for the payment of the purchase price in installments and the delivery of a deed to the purchaser after payment of installments in accordance with the agreement, then the compensation for the residence shall be paid by General to Central within 30 days from the date of the execution and delivery of the agreement.

(2) In the event the compensation to be paid Central, as herein provided, cannot be determined with mathematical precision at the time the compensation is required to be paid, then the compensation shall be estimated by the then Certified Public Accountants of General and the estimated amount shall be paid to Central. When such compensation can be accurately computed the parties will account to each other for the exact amount to be paid to Central.

(3) In the event General is unable to dispose of any residences, then General shall not be obligated to pay Central the sum of 5 percent of the cost of the residence for any residence remaining unsold. If a purchaser under a sales contract or agreement for deed purchases a residence from General and in connection with such purchase surrenders the sales contract and receives a credit on the purchase price of the residence for the amounts paid under the sales contract, then there shall be credited against the compensation to be paid Central upon the sale of the residence the amount of the compensation General previously paid Central on the sales contract surrendered in exchange for part payment on the purchase of a residence.

(c) A sum equivalent to 5 percent of the cost of each building constructed by or for General between and including January 1, 2003, and December 31, 2006; and for the purposes of this paragraph, the parties have agreed that the cost of each building shall be determined by taking the sum total, in the aggregate, of the lot improvement cost, actual cost of constructing, and overhead. Compensation for buildings shall be paid within 30 days from the date of the completion of the building. "Completion of the building" has occurred when the governmental agency having jurisdiction over the approval of the construction work issues a certificate of occupancy. If there is no governmental agency having authority to issue a certificate of occupancy then completion means the actual completion of all of the work required to be done by or through Central pursuant to the terms of this contract for the completion of the building. The fact that there may remain minor items of touching up to be done, which can be done after the occupancy of the building by General, or parties claiming by, through, or under General, will not prevent the building from being considered completed for the purpose of determining whether Central has completed the building and is entitled to payment.

(d) All of Central's overhead covering the work provided for under this agreement.

(e) The cost of each residence shall be determined in the following manner:

(1) First, the number of acres contained in and covered by the plat in which the lot, tract, or plot where the residence is to be constructed is located shall be determined; and then the actual cost paid by General per acre for the land included in the plat shall be determined; and then the total acreage covered by such plat shall be multiplied by the amount paid per acre and the resulting figure shall then be divided by the number of lots, tracts, or plots included in the plat, and the quotient shall be the "base cost" of the lot, tract, or plot. When the base cost of a lot, tract, or plot, is inequitable by reason of location and size of particular lots, tracts, or plots, then the base cost may be increased or diminished in accordance with sound accounting and business practices, agreed to by the parties, and upon their failure to agree to such change, then the same shall be resolved in the manner provided for in paragraph 15 hereof.

2-Forms Federal Taxes Affecting Real Estate [E]

(2) The cost shall be determined of surveying, platting, and laying out of the land contained in and covered by the plat in which the lot, tract, or plot is located, upon which the residence or building is to be constructed, including engineering and architect's fees, (other than the fees of engineers and architects employed by General or Central) and the cost of laying out and building all roads, streets, sidewalks, and parkways, and the cost of preparing the property for the construction of residences and buildings, and the cost of installing water and sewer mains to service all of the property included in the plat, and the cost of installing drainage systems, street signs, subdivision gates, and all other improvements necessary or required to create a complete subdivision of the land covered by the plat. The aggregate of all of these costs shall be divided by the number of lots, tracts, or plots included in such plat and the quotient shall be the "lot improvement cost." If there are any lots, tracts, or plots in such plat abutting on a canal or waterway, then the entire cost of creating the canals and waterways contained in such plat shall be divided by the number of lots, tracts, or plots, abutting the canals and waterways and the quotient shall be added to and included as a part of the lot improvement cost of each canal or waterfront lot, tract, or plot.

(3) The actual cost of constructing the residence or building shall then be determined. The term "actual cost of constructing" shall include the actual cost of all work, labor, services, and materials furnished for the construction of the residence or building, and all utilities furnished to the residence or building in connection with the construction work; and the cost of all machinery, equipment, and appliances installed in the residence or building; and the premiums for or the cost of comprehensive-liability insurance and workmen's compensation insurance and all other insurance carried on the residence or building being constructed, including any bond which the law may require, including drayage, cartage, gasoline, and oil used for or in connection with the doing of the work, and salaries or wages of employees, superintendents, foremen, supervisors, timekeepers, expeditors, and other personnel engaged upon and being paid wages for the construction of the residence or building; and all other improvements or installations on the lot, tract, or plot which are not included in the lot improvement cost; and including, in general, everything which, for example, under the terms of an A.I.A. cost-plus contract would be cost. The actual cost of constructing shall also include sales commissions paid for the sale of a residence and direct advertising costs applicable to a residence and interest paid on a construction mortgage on a residence.

(4) The overhead of Central in the proportions provided in this agreement shall be included in and deemed a part of the cost of each residence or building. In each "taxable year" of Central, the overhead of Central for the taxable year shall be ascertained by taking the sum total of Central's cost (not included in actual cost of constructing) of maintaining and operating its construction equipment, automobiles, trucks, and rolling stock, salaries and bonuses paid to Central's employees, charitable donations and contributions not exceeding \$30,000, dues, subscriptions for services, periodicals, and literature, premiums paid for general comprehensive-liability insurance, workers' compensation insurance, employees' health and accident insurance, legal and professional fees, lights, water, and all utility charges, salaries paid to the officers of Central which shall not exceed \$200,000 rent, in each year, office supplies, promotion, travel, and entertainment expenses, and all other items of expense which under sound accounting principles are included in and considered as overhead. The method of charging overhead against the work performed for General shall be as follows: there shall first be determined the entire amount of land development costs for General and actual cost of constructing residences and buildings for General in each taxable year of Central, but for the purposes of this subparagraph only, actual cost of constructing residences shall not include sales commissions, advertising, or interest on construction loans; and that proportion of the entire overhead allocable to work performed under this contract which the actual cost of constructing residences and buildings bears to the entire amount of land development costs and actual costs of constructing residences and buildings will be the overhead allocable to residences and buildings, and the balance of the overhead will be the overhead allocable to land development work. That proportion of the overhead (allocable to residences and buildings) which the actual cost of constructing the buildings bears to the actual cost of constructing residences and buildings shall be charged against the buildings constructed by Central for General, and the balance will be charged against the residences constructed by Central for General, and the overhead allocable to residences shall be divided by the number of residences constructed by Central for General in Central's taxable year and the quotient will be the overhead charged to each residence constructed by Central for General. The overhead allocable to buildings shall be divided by the number of buildings constructed by Central for General in Central's taxable year and the quotient will

be the overhead charged to each building constructed by Central for General. In determining the overhead and its allocation, consideration shall be given to uncompleted residences and buildings being constructed at the time the overhead and allocation is determined.

The sum total, in the aggregate, of the base cost of the lot, tract, or plot and the lot improvement cost and actual cost of constructing and the overhead of Central shall be the cost of each residence constructed by or for General; and the sum total, in the aggregate, of the lot improvement cost and actual cost of constructing and overhead of Central shall be the cost of each building constructed by or for General.

(f) The "profit resulting from the sale of a residence" shall be computed as follows:

(1) For a minuend or gross figure, there shall be first computed the net proceeds of the sale of the residence. The "net proceeds" are the sum total of the gross selling price of the residence less the actual deductions made at the time of the closing to give effect to the actual closing costs, including abstracting bills, mortgage loan creation costs, proration of taxes, and any other actual prorations or adjustments made upon the occasion of the closing; and

(2) The subtrahend will constitute the cost of each residence, determined under subparagraph (e) and its accompanying subparagraphs; and

(3) The subtrahend shall be subtracted from the minuend and the amount of the remainder shall be and constitute the profit resulting from the sale of a residence, for the purposes of subparagraph (b).

7. *Statements and books.* General will, at the time of making the payments to Central, furnish a statement to Central showing the manner in which the compensation has been determined, and the particular sales contracts and sales upon which the compensation is being paid. Central shall have the right to examine General's books and records, from time to time, for the purpose of determining the names of purchasers, and the lots, residences, and buildings being purchased and the amounts being paid; and General shall have a corresponding right to examine Central's books and records for the purpose of determining Central's overhead, and for any purpose germane to this agreement.

8. *Payments by owner.* In addition to the payments provided for in subparagraphs (a), (b), and (c) of paragraph 6, General will pay Central, upon demand, all moneys advanced or paid by Central for work, labor, services, and materials furnished in connection with the work covered by this agreement which, by the terms of this agreement, General is obligated to pay; and General will pay Central its overhead in the manner and at the times provided in paragraph 9.

9. *Time of payments.* The parties acknowledge that from an accounting standpoint it may be impractical to determine with mathematical precision the amounts to be paid to Central under subparagraphs (b) and (c) of paragraph 6, until the end of Central's taxable year in which the residences or buildings are completed; and, therefore, the parties agree as follows:

(a) General shall, on or before the tenth day of each calendar month, commencing with the calendar month next succeeding the date of the execution of this agreement, pay to Central a sum equivalent to 1/12th of Central's annual overhead as estimated by General and Central, and upon any failure to agree upon the annual overhead the matter shall be resolved as provided for in paragraph 15.

(b) Within 60 days after the end of each taxable year of Central, the overhead of Central will be determined for the taxable year, and if the overhead is in excess of or less than the amount paid by General to Central, then the overhead will be readjusted and whichever party owes the other any sums by reason thereof, will pay the same upon demand.

(c) General shall pay Central a sum equivalent to 5 percent of the cost of each residence and building constructed by or for General within the time provided for in subparagraphs (b) and (c) of paragraph 6 but with the understanding that the

amount or amounts so paid shall be subject to adjustment to give effect to the provisions of such subparagraphs. The adjustment will be made within 60 days after the end of the taxable year of Central in which payment has been made, and whichever party owes the other any sums by reason of the adjustment, will pay the sums upon demand. For the purpose of determining the cost of each residence and cost of each building a sum equivalent to 4 percent of the actual cost of constructing shall be included as "overhead" until the actual overhead is determined in accordance with the provisions of subparagraph (e)(4) of paragraph 6.

10. *Exclusive services of contractor.* During the term of this agreement Central will confine its efforts and work exclusively to the performance of the work provided for under this agreement. Anything in this agreement to the contrary notwithstanding, if at any time the construction of the residences and buildings by Central for General is insufficient to use Central's building and construction personnel normally used by Central, then Central shall have the right to construct residences and buildings for itself and other parties without being in default hereunder. If Central does so construct residences and buildings for itself and other parties, then the overhead of Central allocable to work performed under this agreement shall be that proportion of Central's overhead which the actual cost of land development work and the actual cost of constructing residences and buildings by Central for General bears to the actual cost of land development work and the actual cost of constructing residences and buildings by Central for itself, for General, and for other parties. General will not, during the term of this agreement, enter into any agreement or employ any party to do any of the work provided for by this agreement without the consent, in writing, of Central, and Central shall have the exclusive right to do and perform, for General, its successors and assigns, all of the work contemplated and provided for under the terms of this agreement.

11. *Term of agreement.* The term of this agreement shall be from the date hereof up to and including December 31, 2007. General shall be obligated to continue to pay Central the compensation provided for in subparagraph 6(a), after the expiration date, on those lots, tracts, or plots sold or contracted to be sold up to and including the expiration date. In the event there are any uncompleted residences, and buildings on the expiration date, Central shall be obligated to complete the construction of such residences and buildings, and General shall be obligated to pay Central the compensation provided for in subparagraphs 6(b) and 6(c) for all work completed subsequent to the expiration date. The compensation on any unsold residences completed prior to or subsequent to the expiration date shall be paid to Central when such residences are sold.

12. *Additional obligations of owner.* General agrees that:

(a) General shall pay Central the sums of money required under this agreement as and when they become due and payable in accordance with the terms of this agreement.

(b) General will take all actions, do all things, let all contracts, and make all payments and disbursements which, under the terms of this agreement, General is obligated to do and perform.

(c) General shall carry fire, windstorm, and extended coverage insurance on all residences and buildings constructed by Central, and shall pay all the premiums, and the insurance shall be taken out upon the commencement of the construction work and carried continuously until General sells the residences and buildings.

(d) From and after the completion of the construction of a residence and building by Central, General shall be responsible for the maintenance and repair of the residence and building; but the provisions herein contained shall not relieve Central of the obligation to make repairs to residences or buildings which become necessary as a result of defective materials and workmanship.

(e) General will hold Central harmless against any claim made against Central by reason of the use by General of Central's name in connection with the development and sale of General's properties; and

2-Forms Federal Taxes Affecting Real Estate [E]

(f) Upon the termination or expiration of this agreement, General shall not in any manner use Central's name in connection with the development and sale of General's properties, and shall not in any manner make reference to the fact that Central prior to termination or expiration developed General's properties. Upon a breach of the provisions herein contained, Central shall have such rights and remedies as the law permits to enforce the provisions herein contained and to recover damages for such breach.

13. *Additional obligations of contractor.* Central agrees that it:

- (a) Shall cooperate with General in the preparation and filing of the applications referred to in paragraph 4(c).
- (b) Will procure bids from subcontractors and materialmen to enable General to award the contracts referred to in subparagraph 4(e), and Central will do all necessary work to procure such bids.
- (c) Will supervise the work of all parties furnishing work, labor, services, and materials for the doing of the work provided for under this agreement.
- (d) Will represent General, if requested by General, in any and all disputes arising between General and parties furnishing work, labor, services, and materials for the doing of the work provided for under this agreement.
- (e) Will not assign this contract.
- (f) Will indemnify and hold General harmless against damages for injury to persons or property that may arise by reason of the work being performed by Central under this agreement.
- (g) Will execute such receipts, waivers, and releases as are appropriate and necessary to acknowledge payments made under this agreement upon the payment by General to Central of the sums due Central in accordance with the terms of this agreement; and
- (h) Will perform all work required under this agreement in compliance with any and all building laws, ordinances, and regulations of any and all governmental agencies entitled to impose such laws, ordinances, and regulations; and all such work shall be done in good and workmanlike fashion.

14. *Relationship between parties.* The relationship between the parties is that of owner and contractor, and the law relating to such relationship shall govern the rights of the parties.

15. *Settlement of disputes.* If any dispute shall arise between the parties as to the manner of computing the amounts due Central under this agreement, then the same shall be resolved by the certified public accountants then representing General and Central. If the certified public accountants are unable to resolve the dispute, then the accounting firms shall designate an independent certified public accountant who shall have the authority to resolve the dispute. If the accounting firms then representing General and Central are unable to agree upon an independent accountant to resolve the dispute, either of the parties shall have the right to procure the appointment of an independent accountant by filing an action in the Circuit Court of Dade County, Florida, for the appointment of a certified public accountant to resolve the dispute. The fees to be paid the independent certified public accountant, shall be borne equally by the parties, and the costs of procuring the appointment of the independent certified public accountant shall be borne equally by the parties hereto.

16. *Entire agreement.* This agreement contains the entire agreement between the parties, and supersedes, and extinguishes all previous agreements, contracts, and undertakings heretofore existing between the parties.

17. *Notice.* If either party desires to give notice to the other in connection with and according to the terms of this

2-Forms Federal Taxes Affecting Real Estate [E]

agreement, such notice shall be given by registered or certified mail, and it shall be deemed given when deposited, with sufficient prepaid postage to carry it to its addressed destination. Notices shall be addressed as follows:

For General:

200 Biscayne Blvd.,
Miami, Florida.

For General:

100 S. E. 2d Street,
Miami, Florida.

18. *Waivers.* Except as herein expressly provided, no waiver by either party of any breach of this agreement, or of any warranty or representation hereunder, shall be deemed to be a waiver by the same party of any other breach of any kind or nature (whether preceding or succeeding the breach in question, and whether or not of the same or similar nature).

No acceptance by a party of payment or performance after any such breach shall be deemed to be a waiver of any breach of this agreement or of any representation or warranty hereunder, whether or not the party knows of the breach when it accepts such payment or performance.

No failure by a party to exercise any right it may have under this agreement or under law upon another party's default, and no delay in the exercise of that right, shall prevent it from exercising the right whenever the other party continues to be in default. No such failure or delay shall operate as a waiver of any default or as a modification of the provisions of this agreement.

19. *Amendment.* This agreement may be modified only by a written document signed by both parties. A purported oral modification shall not be effective.

20. *Governing Law.* This agreement shall be construed and enforced in accordance with the laws of the State of Florida.

In witness whereof the parties have caused these presents to be executed by their proper officers, who are duly authorized, and their corporate seals to be affixed, all of which has been done at the place and on the day and year first above written.

E.9 Management agreement between owner of retail strip mall under construction and real estate agent--agent to locate tenants for mall--advertising budget provided to agent--agent to manage mall once it is built and occupied

COMMENT

This form is a management agreement for a retail strip mall. The construction of the mall is nearing completion, and the owner wishes to begin obtaining commitments from prospective tenants as soon as possible. Accordingly, it provides the agent with a substantial advertising budget for the first six months covered by the agreement, or until the units are fully rented, whichever comes first. The agent may supplement the budget itself, if it so desires.

In addition to the advertising budget, the landlord offers the agent other incentives so that the agent will rapidly lease the premises. For example, the agent's compensation is tied to a percentage of: (1) gross rentals; and (2) the "overhead" charge to be imposed on all tenants.

The agent will be responsible for virtually all aspects of the operation of the shopping center. For that reason, the agent must hold the landlord harmless for any claims arising out of the operation of the shopping center (see the "hold harmless" clause in paragraph 13). The sole exception is where the claim alleges an intentional act on the part of the owner. The agent is also required to provide insurance to order to "fund" the hold harmless provision in the event that a successful claim is brought by an injured party. After all, a hold harmless is only as good as the ability of the party providing it to cover the financial losses suffered by the recipient.

Under the terms of the agreement, the landlord has ownership of all books and records of the shopping center. However, such books and records are actually to be maintained and held by the agent. The landlord has the right to review all books and records at any time. Monthly, quarterly and annual statements must be produced by the agent for the owner's benefit. The owner may audit these statements at any time.

For further information, see Chapter 11.

FORM

AGREEMENT made this _____ day of _____, 20____, between DOTSON ASSOCIATES, a partnership existing under the laws of the State of New York, with offices for the transaction of business at 500 Broadway, New York, New York (hereafter referred to as "Dotson" or "Agent"), and THE MARLIN GROUP, LTD., a corporation organized under the laws of the State of Delaware with offices for the transaction of business at 92 Federal Street, Wilmington, Delaware (hereafter referred to as "Marlin" or "Owner")

W I T N E S S E T H:

WHEREAS, Marlin is the owner of a certain strip mall of approximately _____ square feet located in Guilderland, New York; and

WHEREAS, Dotson is in the business of managing strip malls in New York State;

NOW, in consideration of the mutual promises contained herein, it is agreed as follows:

1. *Managing agent.* Dotson agrees to act as managing agent for Marlin for its strip mall located on U.S. Route 20 (Western Avenue) in Guilderland, New York. In furtherance of its duties, upon execution of this Agreement, Dotson shall do the following:

- (1) seek and secure an anchor tenant which shall be one of the following: a major chain grocery store, a major chain discount department store, or a major discount catalogue store;
- (2) seek and secure a discount drug store as a key tenant; and
- (3) seek and secure such other tenants as will fill the available space in the mall and attract customers.

2. *Leases.* Dotson shall provide Marlin with a proposed lease to be used by all tenants in the mall. The leases shall provide for common area maintenance charges, taxes, overhead and insurance expenses to be paid *pro rata* by the tenants. All rental rates shall be approved by Marlin and shall be based on the number of square feet occupied by the tenant.

3. *Advertising.* Dotson shall advertise, as it deems necessary, to locate tenants for the initial rent up. Marlin shall contribute the sum of \$ _____ monthly toward the cost of advertising for six months, or until rent up is complete, whichever event occurs first. Thereafter, when a vacancy occurs, Marlin will contribute \$ _____ per month towards the cost of advertising. Any expenses of locating a tenant above these amounts shall be borne by Dotson. Dotson shall account to Marlin for all sums expended on advertising.

4. *Duties.* Dotson shall perform the following duties:

- (1) Collect rent, common area maintenance, insurance, taxes and overhead charges monthly from each tenant. Dotson shall also maintain accurate records relating thereto.
- (2) Evict tenants where violations of the lease occur. The expenses of an attorney, if needed, shall be

2-Forms Federal Taxes Affecting Real Estate [E]

charged to Marlin.

(3) Locate additional tenants, as needed. This shall include negotiation of the leases, as well as negotiation of fit-up expenses and incentives, if offered by Marlin. Dotson shall obtain an executed lease from each tenant.

(4) Minor maintenance and repair, such as changing light bulbs, repairing door handles, and similar things. This shall be done by the Dotson staff at Dotson's expense.

(5) Arrange for janitorial service, landscaping care, major repairs and maintenance, snow removal and trash removal. This shall be charged to the tenants as part of the common area charges. Funds shall be advanced by Marlin, as needed, until such funds are collected from tenants.

(6) Arrange for payment of taxes and insurance. These expenses shall be charged to the tenants. Funds shall be advanced by Marlin, as needed, until such funds are collected from tenants.

(7) Inspect the premises on a regular basis to be certain that the terms of all leases are adhered to, and to ascertain the need for maintenance and repair.

(8) Purchase necessary equipment and supplies to carry out the duties set forth herein. Equipment shall be charged to Marlin. Supplies shall be charged to the tenants as part of common area charges.

(9) Maintain the shopping center as a first-class establishment, in conformance with the high standards of all Marlin-owned malls.

5. *Accounting.* Dotson shall provide monthly, quarterly and annual summaries of income and expenses to Marlin. Marlin shall be deemed to own all books and records maintained by Dotson. Marlin may inspect and audit the books of Dotson at any time without notice to Dotson. Summaries shall be delivered to Marlin within fifteen (15) days of the close of the period to which they relate.

6. *Term.* The term of this agreement shall be for a period of one (1) year, commencing upon the date of execution. The agreement shall be automatically renewed for additional one (1) year periods unless either party shall give the other party notice of termination at least sixty (60) days prior to the expiration date.

7. *Termination.* Marlin may terminate this agreement for cause upon fifteen (15) days' notice. Upon receipt of notice to terminate by either party, an audit shall be performed by Marlin's accountants. Upon completion of the audit, final payments shall be made. Dotson shall execute a general release and return all keys to Marlin. Dotson shall cooperate with its successor by supplying all books and records and responding promptly to all reasonable requests for information.

8. *Compensation.* Dotson shall receive _____ percent of all gross monthly rents received, plus one-half of the overhead charges added to all common area maintenance payments. Dotson shall take its compensation from the receipts once each month.

9. *Payment to owner.* Dotson shall pay Marlin's mortgage each month from rental funds received after deduction of all expenses, including Dotson's compensation. In the event of a shortfall, Dotson shall notify Marlin of the amount. Marlin shall be responsible for the shortfall. In the event that there are excess funds, Dotson shall place up to \$1,000 of such excess funds in a savings account known as a "sinking fund", the purpose of which is to cover future major repairs. Any excess above that sum shall be delivered to Marlin.

10. *Conditions.* Dotson shall notify Marlin of any damage to the mall caused by fire or other casualty. Dotson shall notify Marlin of any incident which may give rise to a claim for personal injury. Dotson shall promptly notify the insurance company involved in either event. Dotson shall be responsible for all negotiations with the insurance company. Dotson shall arrange for any repairs needed as a result of the fire or other casualty.

11. *Laws.* Dotson shall promptly bring the shopping center into compliance with all laws, rules and regulations of any governmental entity having jurisdiction. The cost of such compliance shall be chargeable to Marlin or to the tenants as part of common area charges, depending on the nature of the item.

12. *Bond.* Dotson, at its sole expense, shall bond its employees who will be working to fulfill any aspect of Dotson's obligations under this agreement.

13. *Hold harmless.* Dotson shall indemnify and hold Marlin harmless for any claim arising out of the use or operation of the shopping center, except to the extent that the claim shall allege an intentional act on the part of Marlin. This indemnification shall include, but not be limited to, costs of defense, legal fees, disbursements, court costs and any monetary judgment or settlement, including interest and penalties, if any. Dotson shall provide Marlin with a certificate of insurance coverage adequate to fully fund the contractual liability set forth above. The policy shall contain a provision requiring notice to Marlin at least ten (10) days prior to the effective date of cancellation of the insurance policy.

14. *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties respecting the matters herein set forth and supersedes all prior agreements between them respecting such matters.

15. *Counterparts.* This Agreement may be executed in two (2) or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one (1) and the same instrument. At the trial of any matter arising under this Agreement, only one (1) counterpart need be produced.

16. *Headings.* Section headings are for purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

17. *Waivers.* Except as herein expressly provided, no waiver by Marlin of any breach of this Agreement or of any warranty or representation hereunder from Dotson shall be deemed to be a waiver of any other breach by Dotson of any kind or nature (whether preceding or succeeding, and whether or not of the same or similar nature). No acceptance of payment or performance by Marlin after any such breach by Dotson shall be deemed to be a waiver of any breach of this Agreement or of any representation or warranty hereunder by Dotson, whether or not Marlin knows of the breach when it accepts such payment or performance.

No failure by either party to exercise any right it may have under this Agreement or under law upon the other's default, and no delay in the exercise of that right, shall prevent it from exercising the right whenever the other party continues to be in default. No such failure or delay shall operate as a waiver of any default, or as a modification in any respect of the provisions of this Agreement.

18. *Gender and number.* Whenever the singular or plural number, or masculine or feminine gender, is used herein, it shall equally include the other.

19. *Notices.* Any notice which any party is required or may desire to give hereunder shall be in writing and may be personally delivered, transmitted by facsimile machine, or delivered by the United States Postal Service or private delivery service to the above addresses. Notice is deemed given when received.

2-Forms Federal Taxes Affecting Real Estate [E]

20. *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of New York.

21. *Binding effect.* This Agreement shall be binding upon, and inure to the benefit of, all the parties, and their respective heirs, representatives, successors, and assigns.

22. *Modifications.* This Agreement may be modified only by a written document signed by both parties. A purported oral modification shall not be effective.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals the day and year first above written.

E.10 Construction loan agreement--residential construction--proceeds of loan disbursed by lender--additional deposit by borrower--note and allied instruments

COMMENT

This group of forms illustrates instruments involved in financing the acquisition and development of real property. The nature of the documents utilized in connection with financing transactions depends to a great extent upon local law. There is considerable variation from state to state in the rules applicable to many significant aspects of financing arrangements, such as the relative priority of different liens, the nature of a mortgage interest as legal or equitable, and the procedures and consequences which come into play upon a default by the debtor. Since these distinctions may cause language which is appropriate in one jurisdiction to be abortive in another, the draftsman must exercise great caution in his use of model instruments. Despite the inevitable linguistic variations, there are many common problems in this area, and the methods for dealing with them illustrated in the following forms have widespread application. There are basically three stages of borrowing in connection with the acquisition and development of real property, viz., borrowing upon the purchase of the property, borrowing upon the construction of improvements, and long-term financing upon the completion of construction. This form illustrates a construction loan agreement for the purpose of residential construction.

In addition to the problems inherent in financing transactions in general, the construction loan involves a unique risk to the lending institution. The security for the loan is not in existence when the agreement is entered into, and will never be adequate if the owner or his builder fails to complete the intended

construction. This kind of uncertainty does not exist with respect to purchase money mortgages, or permanent financing, where the underlying security is at least tangible. The intrinsic problem of assuring completion of construction permeates the construction loan agreement.

To a certain extent, a guarantee as to the existence of some tangible security for repayment of outlays by the lender is provided by the schedule for the disbursement of funds. Advances are made to the borrower only as specified stages of construction are completed. The possibility that construction will be completed is enhanced by making certain that the owner will have enough funds to pay for the total construction costs in excess of loan proceeds. Under this agreement, the borrower must deposit with the lending institution the estimated amount required to complete the project in addition to the proceeds of the construction loan. Even assuming the adequacy of funds, the lender usually seeks assurance that the loan proceeds will be applied to the payment of construction costs. This agreement permits the lender to require the owner to submit contractors' bills or other proof of amounts due, and specifies that the owner is to hold the loan proceeds as trustee for the payment of construction costs. At the same time, the lender may require a builder's bond for the completion of construction. In some cases, the lender may waive the necessity for such a bond in return for the builder's promise to complete lien-free construction.

Besides measures to assure the existence of a security interest, this agreement includes provisions designed to insure repayment of the loan. In some instances, the grant of the construction loan is predicated upon the existence of a commitment for long-term financing. Where, as here, improvements are to be sold immediately upon the completion of construction, this type of protection would not be appropriate. In this instance, the owner undertakes to maintain a minimum price for the residential lots to be sold. Another common arrangement is for any purchase money mortgage holder to subordinate his interest to that of the construction lender. Also, where the owner is a corporation, the principal shareholders may be required to guarantee repayment.

Another type of control retained by the lender is the right to approve plans and specifications for construction, and to inspect work in progress to establish that plans and specifications are being adhered to. In the event of work stoppage or failure to conform to plans, further disbursements are to be withheld and amounts previously advanced may become due immediately.

For further information, see Chapters 11, 12, and 19.

FORMS

(1) Construction loan agreement

AGREEMENT entered into January 4, 2002, for the acquisition by Valiant Building Co., Inc. (the "Borrower") of a construction loan from Eagle Rock Savings and Loan Association (the "Association"), such loan to be evidenced by the Borrower's note for \$1,000,000, dated January 4, 2002, in favor of the Association. Such note shall be secured by a Deed of Trust affecting real property in the County of Contra Costa, State of California (the "property"), described as follows:

(Insert description)

1. *Construction agreement.* The Borrower proposes to construct on the above-described property single-family residences, according to plans and specifications attached hereto as Exhibit A and made a part hereof.

2-Forms Federal Taxes Affecting Real Estate [E]

2. *Deposit of proceeds.* The net proceeds of this loan, upon recordation of the Deed of Trust, are to be placed on deposit with the Association, together with the sum of \$300,000, to be deposited by the Borrower, in a special noninterest bearing account entitled "Loans in process, Valiant Building Co., Inc., building loan account" (the "account"). The deposit of such sums in the account shall be conclusively deemed a full and complete consideration for such note and Deed of Trust. Such funds are to be paid out, and are to be used, for the purposes set out herein. Subject to the provisions of this agreement, the Borrower hereby irrevocably assigns to the Association, as security for the obligations secured by such Deed of Trust and the due performance of this agreement by the Borrower and for any other obligation of the Borrower to the Association, such account and all moneys to be placed therein, specifically including amounts that may be deposited in such account from time to time in the future either by the Borrower or by the Association. The Borrower acknowledges that it has no right to the moneys in such account other than to have the same disbursed by the Association in accordance with this agreement. Except as hereinabove mentioned, any assignment or transfer, voluntary or involuntary, of this agreement, or of any right hereunder, shall not be binding upon, nor in any way affect, the Association without its written consent, and the Association may pay out the moneys in such account, as provided herein, notwithstanding any such assignment or transfer.

3. *Borrower's obligations.* The Borrower shall complete the proposed improvements to be constructed upon the property promptly, in accordance with plans and specifications approved or to be approved by the Association including any minimum specifications prescribed by the Association. If there is any difference between any such minimum plans and specifications and any plans and specifications approved by the Association, then the requirements of whichever are the higher shall be met in constructing such improvements. The Borrower shall furnish the Association with a policy of title insurance satisfactory to it, showing such Deed of Trust to be a first lien or charge on the property, excepting only such items as shall have been approved by the Association. No work of any character shall be commenced nor shall any materials be delivered upon or near the property prior to the recordation of the Deed of Trust. Should any work be commenced or materials delivered upon or near the real property prior to the recordation of the Deed of Trust, the Association may apply as much of the funds in such account as may be required to satisfy in full the indebtedness secured by the Deed of Trust, and to pay all expenses incurred in connection with this transaction. No materials, equipment, fixtures, or any other part of such improvements shall be purchased or installed pursuant to a security agreement or under any other arrangement wherein the right is reserved to remove or to repossess any such item, or to consider it as personal property.

4. *Schedule of loan disbursements.* The proceeds of the account, except as herein otherwise provided, are to be disbursed by the Association subject to the provisions of this agreement, in order to provide funds for the construction of improvements, in accordance with the schedule set forth in this paragraph. At such time as construction has, to the satisfaction of the Association, reached the following stages in accordance with the plans and specifications, the following payments shall be made:

\$200,000 when the foundation is completed, first-floor joists and subfloor are in place, and all rough lumber required to complete improvements is on the building site.

\$200,000 when improvements are framed and ready for lathing and plastering, rough plumbing, wiring, and heating are completed, and roof is on.

\$200,000 when improvements are plastered, complete inside and all except brush coat outside, or, if frame building, the exterior has received a prime coat.

\$200,000 when improvements and all work are fully completed and a valid notice of completion has been filed with the Association for recordation by it.

\$200,000 (being the balance remaining in the account) when the title company which issued a policy of title insurance

2-Forms Federal Taxes Affecting Real Estate [E]

will make an endorsement on the policy insuring against loss by reason of any mechanic's lien arising out of construction of improvements.

5. *Procedure for loan disbursements.* The Borrower may present to the Association (or its designated representative) a written loan disbursement order, drawn upon the moneys in the account, payable to a contractor, materialman, or laborer for work done or materials furnished in construction. The presentation to the Association of such order shall constitute a representation on the part of the Borrower that the moneys therein referred to have been used in the construction of the improvements, and the Association shall be entitled to rely thereon and shall be held harmless for all liability in connection therewith. Such orders may be approved and paid by the Association upon such terms and conditions as it may see fit to impose. The Borrower shall, if and when required by the Association, as a condition precedent to any disbursement from the account, furnish receipt bills and releases of lien rights covering work done or materials furnished for the improvement, showing the expenditure of an amount equal to the total funds at such time disbursed from the account, including the then requested payment. The Association shall be authorized to act upon, and shall be fully protected by, the written order or receipt of the Borrower in making any advances or payments, and in any other matter arising under this agreement. All funds received hereunder are received in trust for the purpose of paying in full all contractors, materialmen, and laborers then or theretofore engaged in construction, and the Borrower shall not have any beneficial interest in the funds unless and until such purpose has been fulfilled.

6. *Governmental mortgage insurance.* If payment of the indebtedness secured by the Deed of Trust is to be insured or guaranteed by the Federal Housing Administrator, or the Veterans Administrator, or by any other governmental agency, the Borrower shall conform to and abide by all of the rules, regulations, and requirements of such agency, and shall cause the indebtedness to be so insured or guaranteed.

7. *Additional deposits.* Whenever the Association shall determine and notify the Borrower that the balance remaining in the account is less than the amount required fully to complete and pay for improvements, and the Association shall demand that the Borrower deposit with the Association in the account an amount equal to such deficiency as estimated by the Association, the Borrower shall comply with such demand within ten days from the date thereof, and the judgment of the Association shall be final and conclusive in this respect.

8. *Inspection by association.* The Association or its agent shall have the right at all times to enter upon the property during the period of construction, and if the work is not in conformance with the plans or specifications or is not otherwise satisfactory to the Association, it shall have the right to stop the work and order its replacement, and to withhold all disbursements from the account until such work is satisfactory to it. If the work is not made satisfactory to the Association within 15 calendar days from the date of stoppage by the Association, such failure shall constitute a default by the Borrower under the terms of this agreement. The Association is under no obligation to construct or supervise the construction of improvements and inspection by the Association of the construction of improvements is for the sole purpose of protecting the security of the Association. Such inspection is not to be construed as a representation that there will be strict compliance on the part of the builder with the plans and specifications, or that the construction will be free from faulty material or workmanship. The Borrower will make or cause to be made such other independent inspections as it may desire for its own protection. In the event work should cease on such improvements, specifically including stoppage by the Association in accordance with paragraph 10 hereof, or for any reason whatsoever, for an aggregate of 15 calendar days, whether consecutive or not, the same shall be construed as an event of default hereunder.

9. *Default by borrower.* In the event of a default by the Borrower in the performance of any term, covenant, or condition contained in this agreement, all sums disbursed or advanced by the Association shall immediately become due and payable, and the Association may withdraw any balance on deposit with it under the terms of this agreement and credit the same upon the Borrower's indebtedness under the note referred to above. The Association shall thereupon be released from all obligations to the Borrower under the terms of this agreement. In the event such sums are so credited on the note, the same shall not in any respect cure or waive any default under the Deed of Trust, or any notice of default,

2-Forms Federal Taxes Affecting Real Estate [E]

or invalidate any act done pursuant to any such notice, and such credit on the note shall not change, alter, or prejudice any rights of the beneficiary given by the Deed of Trust.

10. *Appointment of association as agent.* The Borrower hereby irrevocably appoints, designates, empowers, and authorizes the Association, as agent, to file for record all notices of completion, cessation of labor, or any other notice that the Association deems necessary to file for record to protect its interest under the provisions of this agreement or the note and Deed of Trust. Such appointment of the Association as agent is hereby expressly declared to be that of an agency coupled with an interest, and as such to be irrevocable.

11. *Change in plans.* No change in the plans or specifications shall be made after the same have been approved by the Association without first obtaining its written consent to such change. All contracts let by the undersigned or any of them in connection with the construction shall contain this provision.

12. *Waiver.* The waiver by the Association of any breach hereof shall not be deemed, nor shall the same constitute, a waiver of any subsequent breach on the part of the Borrower.

13. *Legal action.* The Association shall have the right to commence, to appear in, or to defend any action or proceeding purporting to affect the rights, duties, or liabilities of the parties hereunder, or the payment of any funds in the account, and in connection therewith to incur and pay all costs and expenses, including its attorneys' fees, in a reasonable amount, in any such action in which the Association shall appear. To the extent deposited funds are sufficient, the Association shall have the right, but is not obligated, to pay costs, expenses, or attorneys' fees out of such funds.

14. *Time is essence.* Time is hereby expressly made of the essence of this agreement.

15. *Application of agreement.* This agreement is made for the sole protection of the Borrower, and the Association, its successors and assigns, and no other person or persons shall have any right of action hereon. This agreement and the note and Deed of Trust above mentioned contain all of the terms and conditions agreed to by the undersigned, or any or all of them, and no other agreement regarding the subject matter of this contract, unless it is in writing and signed by the Association and the Borrower, shall be deemed to exist or to bind any party hereto. The Borrower has read and understands the whole of the above agreement and now states, and in consideration of the contract agrees, that no representation, promise, or agreement not expressed in this agreement or the note or Deed of Trust has been made to induce the Borrower to enter into it.

16. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

17. *Notices.* All notices under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

18. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

19. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

20. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of California.

21. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

2-Forms Federal Taxes Affecting Real Estate [E]

22. *Binding effect.* The provisions of this agreement shall be binding upon and inure to the benefit of both parties and their respective legal representatives, successors, and assigns.

In witness whereof this agreement is executed the day and year first above written.

(2) *Installment note*

NEW CONSTRUCTION

\$1,000,000 Loan No. 3415 California, January 4, 2002

In installments and at the times hereinafter stated, for value received, the undersigned promises to pay to Eagle Rock Savings and Loan Association, a corporation, or order, at its office in the City of San Francisco, State of California, the principal sum of \$1,000,000, with interest from January 4, 2002, on the unpaid principal at the rate of 5 percent per year; the principal to be payable in semiannual installments of \$100,000 each, with interest on the unpaid principal, payments to be made on January 1 and July 1 of each year, commencing July 1, 2002, and continuing until principal and interest have been paid in full. Each payment shall be credited first on interest then due and the remainder on principal; and interest shall thereupon cease upon the principal so credited. Should default be made in the payment of any installment when due, or in the performance of any agreement of the Deed of Trust securing the payment of this note, the whole sum of principal and interest shall become immediately due at the option of the holder of this note. The undersigned promises to pay a late charge in an amount equal to 10 percent on any installment not paid within ten days after its due date. Principal and interest are payable in lawful money of the United States. If action is instituted on this note, the undersigned promises to pay such sum as the court may fix as attorney's fees. Privilege is reserved to prepay this note without penalty, provided that, when the aggregate amount prepaid in any one year equals or exceeds 20 percent of the original principal amount of this note, six months' advance interest on the amount prepaid may be charged. This note is secured by a Deed of Trust to Eagle Rock Savings and Loan Association, a California corporation.

Attest:	Valiant Building Co., Inc.

(3) *Agreement to maintain minimum sales prices*

2-Forms Federal Taxes Affecting Real Estate [E]

AGREEMENT entered into January 4, 2002, by and between Eagle Rock Savings and Loan Association, a California corporation (the "Association"), and Valiant Building Co., Inc. (the "Borrower").

Whereas the Borrower has applied to the Association for certain construction loans to be secured by a first Deed of Trust on each of the lots described as follows:

(Insert description)

Whereas in connection with the Borrower's application for such loans the Borrower has represented to the Association that it will construct single-family residences and appurtenances upon each of such lots and will sell each of them to subsequent purchasers for a minimum sales price of no less than \$20,000, and

Whereas the Association is unwilling to grant the loans applied for by the Borrower unless the Borrower adheres to the minimum sales price set forth herein.

Therefore, it is agreed as follows:

1. In the event the Borrower sells, transfers, conveys, or otherwise disposes of any interest in any property set forth herein, whether such interest be legal, equitable, or both, the Borrower shall immediately, upon demand of the Association, pay in cash to the Association as a payment of loan principal the sum of \$80 for each \$100 of sales price deficiency at which the property has been sold, transferred, conveyed, or otherwise disposed of.

2. The Association, by reason of any required payment as set forth above, shall charge the Borrower no prepayment penalty fee.

If the Borrower fails to comply with the promises set forth in this agreement, the Association reserves the right to disapprove of the Borrower's successor in interest and to declare that the then unpaid balance of the note is immediately due and payable.

Witness our hands the day and year first above written.

(4) Subordination agreement

AGREEMENT made January 4, 2002, between Valiant Building Co., Inc., owner of the property described below (the "Owner"), and Donald Bell, present owner and holder of the Deed of Trust and note described below (the

"Beneficiary").

Whereas Valiant Building Co., Inc., did on December 1, 2001, execute a purchase money Deed of Trust to Peter Small, as trustee, covering the following described property:

(Insert description)

to secure a note in the sum of \$200,000, dated December 1, 2001, in favor of the Beneficiary, and

Whereas the Owner has executed, or is about to execute, a construction loan escrow and construction loan agreement together with a Deed of Trust and note in the sum of \$1,000,000, dated January 4, 2002, in favor of Eagle Rock Savings and Loan Association (the "Lender"), payable with interest and upon the terms and conditions described therein, which Deed of Trust is to be recorded contemporaneously herewith, and

Whereas it is a condition precedent to obtaining such loan that the construction loan Deed of Trust shall be and remain a lien or charge upon the property hereinbefore described, prior and superior to the purchase money lien or charge of the Deed of Trust, first above mentioned, and

Whereas the Lender is willing to make such loan provided the Deed of Trust to secure the same is a lien or charge upon the above-described property prior and superior to the lien or charge of the Deed of Trust owned by the Beneficiary, and provided that the Beneficiary will specifically and unconditionally subordinate the lien or charge of his Deed of Trust above described to the lien or charge of the Deed of Trust of the Lender,

Now, therefore, in consideration of the premises and other valuable consideration, receipt of which is hereby acknowledged, and in order to induce the Lender to make the loan above referred to, it is agreed as follows:

1. *Subordination.* The Deed of Trust securing the note in favor of the Lender referred to above and all renewals or extensions of such Deed of Trust and the note secured thereby shall be and remain at all times a lien or charge on the property herein described, prior and superior to the lien or charge of the Deed of Trust in favor of the Beneficiary, first above mentioned.

2. *Acknowledgment of subordination.* The Beneficiary acknowledges that he hereby intentionally waives, relinquishes, and subordinates the priority and superiority of the lien or charge of the Deed of Trust first above mentioned in favor of the lien or charge upon such land of the Deed of Trust in favor of the Lender, and that he understands that in reliance upon and in consideration of this waiver, relinquishment, and subordination specific loans and advances are being and will be made, and as part and parcel thereof specific monetary and other obligations are being and will be entered into by third parties which would not be made or entered into but for such reliance upon this waiver, relinquishment, and subordination. The Beneficiary further acknowledges that an endorsement has been placed on the note secured by the purchase money Deed of Trust, and that such Deed of Trust has by this instrument been subordinated to the lien or charge of the Deed of Trust in favor of the Lender.

3. *Approval of construction loan agreement.* The Beneficiary hereby declares that he has personal knowledge of and hereby approves and consents to all the provisions of the loan escrow and loan agreement between the Owner and the Lender for the disbursement of the proceeds of the loan of the Lender. The Beneficiary further acknowledges that the Lender in making disbursement pursuant to such loan agreement is under no obligation or duty nor has the Lender made any representation that it will see to the application of such disbursement by the Owner, and any diversion by the Owner will not defeat this subordination agreement as to the funds so diverted.

4. *Cancellation of certain provisions of purchase money deed of trust.* The Beneficiary acknowledges that this

2-Forms Federal Taxes Affecting Real Estate [E]

agreement shall supersede, and operate as a cancellation of, those provisions, if any, in the purchase money Deed of Trust first above mentioned which provide for the automatic subordination of the lien of such Deed of Trust to the lien or liens of a mortgage or Deed of Trust, or mortgages or Deeds of Trust, affecting the whole or part of the above-described property.

5. *Entire agreement.* This agreement contains the whole agreement between the parties hereto as to the Deed of Trust loans, and the priority thereof, herein described. There are no agreements, written or oral, outside or separate from this agreement, and all prior negotiations, if any, are merged into this agreement.

6. *Binding effect.* This agreement shall inure to the benefit and be binding upon the legal representatives, heirs, devisees, successors, and assigns of the parties.

(5) Guaranty agreement

AGREEMENT made January 4, 2002, by and between John Dill, Edward Rollins, and Thomas Fays (collectively the "Guarantors"), and Eagle Rock Savings and Loan Association, a California corporation (the "Association").

Whereas the Guarantors are the principal stockholders of Valiant Building Co., Inc. (the "Borrower"), and

Whereas the Borrower is, or is about to become, the owner of certain real property in the County of Contra Costa, State of California, described as follows:

(Insert description)

and proposes (a) to improve such tract of land by the construction of streets, gutters, curbs, sidewalks, sewers, and other off-site improvements, all as contemplated in the plans and specifications for the project, or required to be done on such project by the state, county, city, or other governmental authority having supervision of such work; (b) to construct a dwelling house upon each of such lots above described; and (c) then to sell each of such dwelling houses, and

Whereas to aid in carrying out such project the Borrower has sought from the Association a building loan in the amount of \$1,000,000, to be evidenced by a note and to be secured by a Deed of Trust covering all of the property above described, and

Whereas the Association is willing to make the Borrower such a building loan, but only upon condition that the Guarantors shall execute this guaranty agreement,

In consideration of the premises, and other valuable consideration, the Guarantors do hereby unconditionally guarantee to the Association, on demand of the Association, as follows:

2-Forms Federal Taxes Affecting Real Estate [E]

1. *Completion of improvements.* The Guarantors shall: (a) furnish or cause to be furnished all labor or materials, or both, needed to complete any proposed improvements on such project, or the real property covered by such Deed of Trust, in accordance with such construction loan agreement, and in accordance with any plans and specifications for any such improvements, approved or to be approved by the Association; (b) pay, or cause to be paid, all claims for labor or materials, or both, performed or furnished in connection with any such work of improvement; and (c) cause the prompt release of record of any mechanic's lien or liens recorded against any part of such property.

2. *Independence of guarantors' obligations.* The obligations of the Guarantors hereunder are independent of the obligations of the Borrower, and a separate action, or actions, may be brought and prosecuted against the Guarantors, whether action is brought against the Borrower or whether the Borrower be joined in any such action or actions.

3. *Effect of waiver or modification.* The Guarantors consent to indulgences and extensions of time on the part of the Association being afforded to the Borrower, the waiver from time to time by the Association of any right or remedy on its part as against the Borrower, and any and all modifications, supplementations, or amendments of and to the agreement, or agreements, between the Association and the Borrower. The Guarantors hereby agree that no act or omission on the part of the Association, nor any agreement, modification, supplementation, or amendment thereof or of any other agreement between the Association and the Borrower, shall in any wise or manner affect or modify the obligation and liability of the Guarantors hereunder, and shall have the same force and effect as if the Guarantors were joint and several debtors with the Borrower to the Association.

4. *Attorney's fees.* In the event any action or proceeding be brought by the Association to enforce this guaranty, or the Association appears in any action or proceeding in any way connected with or growing out of this guaranty, then and in any such event the Guarantors agree to pay to the Association reasonable attorney's fees, but only if the Association is successful in obtaining judgment.

5. *Duration.* This guaranty shall continue in force until construction as contemplated in the construction loan agreement has been completed, and thereafter until sufficient time has elapsed to secure the Association from all statutory liens for work and material, or, in the alternative, until the Association has been supplied with a standard endorsement to a title policy securing the Association against any such liens for work or materials.

Edward Rollins _____ (L.S.)

Thomas Fays _____ (L.S.)

E.11 Construction loan agreement--commercial construction--loan predicated upon commitment for long-term financing--security interest to cover personal property

COMMENT

Frequently, the lender may require a commitment for permanent long-term financing. The permanent loan will be committed before construction is started, and the proceeds will provide the funds for repayment of the construction loan. In this case, the construction loan is granted on the condition that a specified permanent loan commitment has been made. The borrower agrees to complete construction by a certain date, and repayment of the construction loan falls due shortly thereafter. Normally, the permanent loan will be closed on or about the date the construction loan is to be repaid. In some situations, the arrangement between the borrower, the construction lender, and the long-term lender is contained in one instrument, commonly referred to as a buy-sell agreement. If the improvements are to

be sold following construction, the lender will not be as concerned with the availability of permanent financing.

Security interest in personal property:

Additional security for the lender is provided by the fact that personal property to be installed will be part of the mortgaged premises. Before the full amount of the loan is made available, the borrower is to install the personal property. The borrower will execute and deliver a security agreement when and if requested by the lender. This clause permits the lender to perfect its security interest in the personal property, and fixtures, under Article 9 of the jurisdiction's Uniform Commercial Code. A financing statement is filed in the appropriate office to protect the lender against competing security interests and claims.

Lien priority:

The relative priority of the liens of contractors, materialmen, and laborers obviously affects the lender's position. The local rules vary from granting such liens preference over interests recorded earlier to basing priority on the order of recording. In this instance, the lender's priority over such liens is protected if no work is commenced prior to the recording of the deed of trust securing the construction loan. Depending upon local law, a different form of protection, such as a separate agreement executed by the contractor, may be secured.

Lender protection:

Other forms of protection are contained in this instrument: the lender approves the original plans and has the right to supervise construction in order to make certain that such plans are adhered to; advances are to be made according to the stages of production completed to the satisfaction of the lender; and the borrower is to maintain adequate insurance and obtain a certificate of occupancy and any other form of approval of use required by governmental authorities.

Tax aspects:

No gain or loss results for tax purposes upon the borrowing or complete repayment of a loan, or the delivery or termination of a mortgage.

For further information, see Chapters 11, 12, and 19.

FORM

AGREEMENT made January 8, 2002, between Sandy Point Builders, Inc., a Delaware corporation with its principal place of business at 101 Massachusetts Avenue NE, Washington, D.C. (the "Borrower"), and Spring Lake Trust Company, a Virginia corporation having an office and its principal place of business at 120 Roanoke Street, Richmond, Virginia (the "Lender").

Whereas the Borrower owns the land described in Schedule A, hereto annexed and made a part hereof, and has applied to the Lender for a loan of \$3,000,000 to aid the Borrower in erecting and equipping on such land the building and other improvements described in Schedule B, hereto annexed and made a part hereof (the "Building"), and

Whereas the Lender has agreed to make the loan upon the terms, covenants, and conditions hereinafter set forth, and the Borrower has agreed to take such loan, and

Whereas Richmond Life Insurance Company, a Virginia corporation with its principal place of business at 300 Madison Avenue, Richmond, Virginia (the "Long-Term Lender"), has issued a commitment dated January 2, 2002, to make a \$3,000,000 long-term loan to the Borrower, to be evidenced by a note in that amount and to be secured by a deed of trust conveying the land described in Schedule A, on and subject to the terms and conditions set forth in such commitment,

Now, therefore, in consideration of the mutual promises herein after contained and of other valuable consideration, the parties hereto agree as follows:

1. *Agreement to make loan.* Subject to the terms hereof, the Borrower shall take, and the Lender shall make a loan in the principal sum of \$3,000,000 (the "Loan"), to be advanced as provided below. Such loan shall be evidenced by the Borrower's promissory note of even date herewith for such amount, and made payable to the order of the Lender on March 1, 2004, or such earlier date as may be provided in the note. Interest shall accrue from the date of each advance at the rate of 8 percent per annum, payable monthly on the first day of each and every month until the note is fully paid. The note shall contain such other terms and provisions as the Lender and Long-Term Lender shall determine are needed for their protection. Such note shall be secured by a deed of trust of even date herewith (the "Deed of Trust"), on the fee title to the land described in Exhibit A (the "Property").

2. *Construction by borrower.* The Borrower shall erect and complete on the Property on or before December 31, 2003, the Building substantially in accordance with the plans and specifications therefor to be filed with and duly approved by all governmental authorities having jurisdiction in respect thereof. Such plans and specifications for the Building shall be submitted to and approved by the Lender and the Long-Term Lender and shall be initially for identification by the parties hereto and the Long-Term Lender. The plans and specifications shall not, however, be deemed to be complete or finally approved unless they include provisions for the installation of all sidewalks, curbs, gutters, landscaping, utility connections, and all essential equipment required by and necessary for the operation of the completed Building. After approval of such plans and specifications, all changes therein must be approved by the Lender, and the Lender may also require the prior approval of the Long-Term Lender.

3. *Protection against prior liens.* The Borrower represents and promises that no excavating or work of any character has been or will be commenced, nor any material of any description delivered on or near the Property for the erection of the Building, prior to the recording of the Deed of Trust.

4. *First deed of trust on land and personal property.* The Lender shall not be obligated to make any advances hereunder unless the Deed of Trust is a valid and enforceable first lien on the Property and the Building, except for taxes and assessments not yet due and payable and other liens, if any, acceptable to the Lender. All fixtures and articles of personal property to be installed in the Building or on the Property or used in the operation thereof by the Borrower (including, without limitation, all furniture, furnishings, fixtures, decor, business and service equipment, linen, china, silverware, and glassware) shall form part of the mortgaged premises covered by and subject to the lien of the Deed of Trust. The Borrower shall, at its own expense, execute and deliver, as additional security for the payment of the note, when and if requested so to do by the Lender or Long-Term Lender, a Security Agreement, in form and substance acceptable to the Lender and the Long-Term Lender, on all fixtures and articles of personal property that may hereafter be installed or placed in the Building or on the Property.

5. *Fees paid by borrower.* The Borrower, at the time fixed for the delivery of the note and Deed of Trust, shall pay all fees heretofore agreed to be paid to the Lender, the expense of examination of title, mortgagee's title insurance in such amount and form as may be satisfactory to the Lender, the recording fee and tax upon the Deed of Trust, and any present or future assignment or assignments or collateral security, if any, required by the Lender. The Borrower shall, at its expense, furnish a survey to the Lender at the time the first advance is made hereunder and shall also furnish to the Lender such other and additional surveys during the course of construction, including a survey after the completion of

construction, as may be required by the Lender, all at the expense of the Borrower. No advances shall be made to the Borrower unless title to the Property is satisfactory to the Lender's counsel at the time such advance is requested and due. In case the Lender pays or advances any money for fees, surveys, recording, recording tax, examination of title, mortgagee's title insurance policies, preparation of loan documents, and any expenses incurred in the procuring and making of the loan, and in the payment of any insurance premiums, encumbrance, tax, assessment or other charge or lien upon the property, and any other amounts necessary for the payment of the cost of improvements, the Lender may reimburse itself out of any subsequent advances to be made in accordance herewith, and such reimbursement shall be deemed an advance under this agreement and secured by the note and Deed of Trust.

6. *Disbursements of loan.* Advances upon the note and Deed of Trust shall be made at such times and in such amounts as the Lender shall determine, but shall be substantially in accordance with the schedule contained in Schedule C hereto annexed and made a part hereof. The making of an advance or any part of an advance shall not be deemed an approval by the Lender of the work theretofore done. When requested, the Borrower shall exhibit to the Lender satisfactory evidence, by receipts or other vouchers, that there are no outstanding overdue claims and demands for labor and materials used in the Building, before each or any payment shall be due or demandable under this agreement. The title company shall furnish the Lender with a summary of the title before any payment is made. If any notice of lien be filed against the Property, or any part thereof, under the law commonly called the Mechanics' Lien Law, the Lender may suspend further payments under this agreement until such lien shall have been discharged of record, or may satisfy such lien and deduct the amount paid on account thereof from the money in its hands.

No advance shall be due unless, in the judgment of the Lender, all work usually done at the stage of construction when the advance is made payable is done in a good and workmanlike manner, and all material and fixtures usually furnished and installed at this time are furnished and installed, but the Lender may advance parts or the whole of any installments before they become due if the Lender believes it advisable so to do. All such advances or payments shall be deemed to have been made in pursuance of this agreement and not in modification thereof.

The Lender may require five-days' notice in writing from the Borrower before an advance shall be called for. All advances are to be made at the office of the Lender or at such other place as it shall designate.

7. *Extension of time for repayment.* The Lender or any holder of the note and Deed of Trust referred to above may extend the time of payment of the principal evidenced and secured by such note and Deed of Trust, and any extension so granted shall be deemed to be made in pursuance of this agreement and not in modification thereof.

8. *Installation of personal property.* On or before the making of the final advance hereunder, the Borrower shall install all furniture and equipment required for the operation of the Building as a Class A transient hotel, including, without limitation, all furniture, furnishings, fixtures, decor, business and service equipment, linen, china, silverware, and glassware. Prior to such final advance, the Borrower shall also exhibit to the Lender the final certificates of approval of the various governmental authorities having jurisdiction, including a final certificate of occupancy or a temporary certificate of occupancy for the entire Building, hotel, restaurant, bar, public assembly, and other operating permits, and the certificate of the board of fire underwriters acting in and for the locality in which the Property is situated, and thereafter the Borrower shall furnish the Lender with photocopies of each such certificate and permit.

9. *Fire insurance.* The Borrower shall furnish to the Lender, with premiums prepaid, or the Lender may procure at the expense of the Borrower, in companies and in amounts satisfactory to the Lender, insurance policies insuring the Property against loss or damage by fire and other hazards as the Lender may reasonably require. In any event, the amount of insurance in effect at any time shall be no less than the amount advanced under the loan agreement up to that point in time, or the cost of replacement of the improvements made and on-site materials, whichever amount is greater.

10. *Effect of borrower's default.* If the construction of the Building is at any time discontinued (unless such discontinuance is due to strikes or force majeure) or abandoned for a period of 20-consecutive days, or if the Borrower

does not proceed continuously with the erection and completion of the Building in such manner as reasonably to insure completion on or before the date herein specified, the Lender may, at its option, at any time thereafter take possession of the Property together with all materials, equipment, and improvements thereon, whether affixed to the realty or not, and perform any and all work and labor necessary to complete the improvements substantially according to the plans and specifications referred to in this agreement, and at the Borrower's expense may employ a watchman to protect the Property from theft or injury. For this purpose, the Borrower hereby appoints the Lender its true and lawful attorney-in-fact with full power of substitution in the premises to complete the project in the name of the Borrower and pay all bills and expenses incurred thereby and hereby empowers such attorney-in-fact to use any funds of the Borrower, including any balance which may not have been advanced for the purpose of completing improvements; to make such additions and changes and corrections in the plans and specifications which shall be necessary or desirable to complete the improvements in substantially the manner contemplated in the plans and specifications; to employ such contractor, subcontractors, agents, architects, and inspectors as shall be required for such purposes; to pay, settle, or compromise all existing bills and claims which may be or become liens against the Property or which may be necessary or desirable for the completion of improvements or for the clearance of title; to retain or deposit with the United States District Court for the District of Columbia a sum sufficient to discharge any mechanic's lien or other liens that may be filed against the Property; to execute all applications, certificates, or instruments in the name of the Borrower which may be required by any governmental authority or contract; and to do any act which the Borrower might do in its own behalf. This power of attorney shall be deemed to be a power coupled with an interest and cannot be revoked. The attorney-in-fact shall also have power to prosecute and defend all actions and proceedings in connection with the construction of the Building and to take such action and require such performance under any surety or other bond or other obligation or to execute in the name of the Borrower such further bonds or obligations as may be reasonably required in connection with construction work. The Borrower hereby assigns and quitclaims to the Lender all sums unadvanced under such Deed of Trust conditioned upon the use of such sums in trust for the completion of the improvements, such assignment to become effective only in case of the Borrower's default. All sums paid or expended in accordance with any of the foregoing provisions shall be deemed advances to the Borrower and secured by such note and Deed of Trust and may be applied at the option of the Lender or any other holder of the note and Deed of Trust to any advances thereafter becoming due. The Lender shall be under no obligation to do any of the things provided in this paragraph, and instead may exercise any of the remedies provided for hereunder or under the Deed of Trust, including, without limitation, the termination of this agreement, in which event the entire indebtedness shall be and become immediately due and payable at the election of the Lender.

11. *Assignment by borrower.* In the event the Borrower shall part with or be in any way deprived of title to the Property, the Lender may, at its option, continue to make advances under this agreement, subject to all its terms and conditions, to such persons or corporations as may succeed to the Borrower's title. All sums so advanced by the Lender shall be secured by the note and Deed of Trust.

12. *Events of default.* If any of the following events shall occur, all of the Lender's obligations to make the loan or to make any further advance shall, if the Lender so elects, cease and terminate, and the note shall at the option of the holder thereof become immediately due and payable, but the Lender may make advances without becoming liable to make any other advances:

- (a) If the Deed of Trust offered by the Borrower shall not give to the Lender a first lien on the Property for the indebtedness to be secured thereby, satisfactory to the Lender's attorney.
- (b) If the Property is encumbered in any way without the Lender's consent.
- (c) If improvements on the Property shall, in the opinion of the Lender's attorney, materially encroach upon the street or upon adjoining property.
- (d) If the Borrower does not take the loan or the advances within 30 days after they are made payable, or the Building is

2-Forms Federal Taxes Affecting Real Estate [E]

not fully completed and open to the public as an operating hotel by December 31, 1995.

(e) If the improvements on the Property are, in the Lender's reasonable judgment, materially injured or destroyed by fire or otherwise.

(f) If the Borrower shall fail to comply with any of the covenants contained in this agreement, the note, or the Deed of Trust.

(g) If a petition in bankruptcy is filed by or against the Borrower, or a receiver or trustee of the property of the Borrower is appointed; or if the Borrower files a petition for reorganization under any provision of the Bankruptcy Law or of any other state or federal law, or makes an assignment for the benefit of creditors, or is adjudged insolvent by any state or federal court of competent jurisdiction.

(h) If the Borrower does not erect the Building in accordance with the plans and specifications initialled by the Lender, the Borrower, and the Long-Term Lender and approved by the governmental authorities having jurisdiction, except as such plans and specifications may be changed by mutual consent.

(i) If the Borrower does not permit the Lender, or the Lender's representatives, to enter upon the Property to inspect the Building thereon at all reasonable times and examine all detailed plans, shop drawings, and specifications which are kept at the work, or fails to furnish to them, when requested, copies of such plans, drawings, and specifications.

(j) If the construction of the Building is not carried on with reasonable dispatch, in the judgment of the Lender.

(k) If the Borrower executes any security agreement, except to the Lender, covering any materials, fixtures, or articles used in the construction of the Building or covering articles of personal property placed in the Building, or grants any security interest in the foregoing, except to the Lender, or if any of such materials, fixtures, or articles is not purchased so that the ownership thereof will vest unconditionally in the Borrower, free from encumbrance, on delivery at the Property.

(l) If the Borrower fails to comply with any requirement of any governmental authority having jurisdiction within 30 days after notice in writing of such requirement shall have been given to the Borrower, or fails to furnish to the Lender, when requested, departmental searches made by governmental authorities having jurisdiction.

(m) If the Borrower does not disclose to the Lender, upon demand, the names of all persons with whom the Borrower contracted or intends to contract for the construction of the Building or the furnishing of labor or materials therefor.

13. *Application of proceeds.* The Borrower shall receive the advances to be made hereunder and to be secured by the Deed of Trust as a trust fund to be applied, first, for the purpose of paying the cost of improvement of the Property before using any part of such advances for any other purposes; provided that nothing herein shall impose upon the Lender any obligation to see to the proper application of such advances by the Borrower.

14. *Effect of agreement on note and deed of trust.* The note and Deed of Trust to be executed, acknowledged, and delivered pursuant to this agreement shall be subject to all the conditions, stipulations, agreements, and covenants contained in this agreement to the same extent as if the agreement were fully set forth and made part of such note and Deed of Trust, until this agreement is terminated by the completion of the Building described herein and the making of the final advance hereunder as provided for herein.

15. *Affidavits by borrower's officers.* The Borrower shall deliver to the Lender, and the Long-Term Lender, upon demand, and so often as called upon, an affidavit of the president or the secretary or other principal officer of the Borrower to the effect that all the chattels, fixtures, attachments, and equipment and all other personal and other

property now or hereafter delivered upon, attached to, or used in connection with the construction of the Building or the operation thereof, except owned or installed by tenants of the Borrower, are free and clear of all security interests and from all liens and encumbrances whatsoever, except the security interest given to the Lender, and that the Borrower is the absolute owner of such chattels, fixtures, attachments, and equipment.

16. *Discovery of adverse environmental conditions.* In the event that an adverse environmental condition is discovered or occurs upon the premises described in Schedule A, annexed hereto, Lender shall be under no obligation to make further advances to Borrower until such time as the adverse condition is satisfactorily remediated by Borrower or its agents. The determination of whether an adverse environmental condition exists shall be made in the sole discretion of Lender. Lender shall have the right to inspect the site and perform any tests Lender or its consultants may deem necessary or appropriate. The determination of whether the adverse condition has been satisfactorily remediated shall be made by Lender, in its sole discretion. Lender shall be entitled to require Borrower to meet all federal, state and local laws, regulations and policies pertaining to remediation.

Borrower shall also have a fiduciary duty to report to Lender any information in the possession of Borrower, its employees or agents, regarding environmental conditions on the real property described in Schedule A, annexed hereto. Failure to report such information shall be an event of default under the terms of this loan agreement.

17. *Right to receive advances.* The obligation of Lender to make advances hereunder shall be subject to the obligation of Borrower to comply with all of the terms of this agreement. In the event that Borrower is in default in any manner, Lender shall be under no obligation to make further advances until the default is fully cured.

18. *Amendment to agreement.* This agreement may not be changed orally, but only by an agreement in writing and signed by the party against whom enforcement of any waiver, change, modification, or discharge is sought.

19. *Title insurance.* No advance shall be due unless the Borrower furnishes to the Lender before the execution of this agreement title insurance policies in the amount of the loan, issued by title insurance companies satisfactory to the Lender, insuring the interest of the Lender as a valid first lien on the Property, free and clear of all prior liens, encumbrances, and exceptions to title whatsoever, other than those previously approved in writing by the Lender and the Long-Term Lender. It shall be a condition precedent to each advance that such title companies will continue their searches to the date of each advance and shall certify to the Lender in writing that such continuations disclose no liens, encumbrances, or exceptions to title.

20. *Application of agreement.* This agreement is made for the sole protection and benefit of the Borrower, the Lender, and the Long-Term Lender, and no other person shall be deemed to have a right of action of any kind hereunder.

21. *Architect.* The supervising architect for the erection of the Building shall be Philip Adams of 55 Connecticut Avenue NE, Washington, D.C. If Philip Adams shall be, or for any reason may become, disqualified or unable to act or to continue to act as supervising architect, the supervising architect to be named in his place, and any succeeding supervising architect, shall be satisfactory to, and approved by, the Lender and the Long-Term Lender.

22. *Long-term loan.* The Borrower represents that it has a commitment from the Long-Term Lender to make a long-term loan of \$3,000,000 to the Borrower and the Borrower understands that the Lender is willing to make this loan for the term recited because of such commitment. The Borrower, by its proper officers, shall be present at the closing of the loan provided for in the Long-Term Lender's commitment of January 2, 1994, and shall execute all such documents and otherwise perform and meet all requirements, conditions, and provisions of such commitment to the end that the loan provided for therein shall be consummated and the proceeds thereof used solely, to the extent required, fully to satisfy and fully to pay the principal and interest of the loan herein provided for. The Borrower shall notify the Lender ten days in advance of the time and place of its closing with the Long-Term Lender.

2-Forms Federal Taxes Affecting Real Estate [E]

23. *Notice.* Notices from the Lender to the Borrower may be given by mailing the same to the Borrower at 101 Massachusetts Avenue NE, Washington, D.C., and any notice so given shall be deemed to be sufficient for all purposes.

24. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

25. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

26. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

27. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Virginia.

28. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

29. *Binding effect.* The provisions of this agreement shall be binding upon and inure to the benefit of each of the parties and their respective legal representatives, successors, and assigns.

In witness whereof the parties hereto have caused this instrument to be signed in their respective corporate names and to be attested under their respective corporate seals.

E.12 Commercial note and mortgage

COMMENT

Traditionally, the lender's first preference in securing a commercial loan has been a mortgage on the property that will benefit from the loan. However, the fondness for this arrangement has diminished somewhat in recent years as commercial and residential real estate values across the nation have dropped--in some cases by very large percentages.

Despite this and other problems in collateralizing a loan using the underlying real property as security, most lenders still require a mortgage on the premises being built by the developer. The material that follows includes both a commercial mortgage and a promissory note.

Promissory note:

The note provides for an adjustable interest rate that is tied to the prime lending rate. The interest rate adjusts immediately in response to fluctuations in the prime. The borrower "draws down" (i.e., receives gradual disbursements of loan funds) on the note pursuant to a building loan agreement already executed by the lender and the borrower.

2-Forms Federal Taxes Affecting Real Estate [E]

Until the loan is fully disbursed, only interest payments are made by the borrower. After full disbursement of the loan proceeds occurs, amortizing payments of the principal begin.

The lender should carefully review the developer's title to the property before each disbursement is made in order to be certain that no intervening liens have been filed against the property. Such liens would take precedence over the lender's right to be repaid for any disbursements made after the liens were filed.

Mortgage:

The mortgage contains an interesting provision allowing the release of a lot from the terms of the mortgage upon payment of a specified sum. (See Paragraph 30.) This permits the construction and sale of individual dwelling units upon the released lots. The mortgage provides that the developer must not be in default at the time a release is granted. In the event that a default has already occurred, it must be fully cured before the developer is entitled to a release.

For further information, see Chapters 11, 12, and 19.

FORM

NOTE

_____, \$ _____
 __, 20 ____
 [insert amount of note]

The undersigned, _____ [_____ insert name of borrower], hereby promises to pay the sum of \$ _____, together with interest thereon at an annual rate which is _____ percent (_____ %) greater than the Lender's prime rate, to the order of Lender at _____ [insert lender's address], or at such other place as Lender may designate, as follows:

By paying interest only on the sums advanced pursuant to the terms of a certain building loan agreement of even date herewith until the earlier of the complete disbursement of the loan proceeds or _____, 20 _____. Thereafter, the payment of _____ [insert number] monthly installments of principal and accrued interest in an amount necessary to amortize the loan evidenced hereby for a term of _____ years, commencing _____, 20 _____, and continuing on the first day of each successive month thereafter to and including _____, 20 _____, when the entire unpaid principal balance and accrued interest, in any, shall be due and payable in full.

Changes in the interest rate resulting from changes in the prime rate shall be effective immediately. Upon any change in the interest rate, the amount of the monthly payment of principal and interest shall be adjusted to amortize the remaining balance over the remaining term of the loan at the adjusted rate. Notwithstanding the foregoing, Borrower, at his option, may draw down on the loan in amounts of not less than \$100,000 each.

Borrower shall give five (5) days' notice to Lender before each draw down. Lender shall be entitled to make a review of the title to the premises before each draw down. If any liens of any nature are placed against the premises, or if any conveyances have occurred without permission of Lender, Borrower shall not be entitled to further draw downs, and the

2-Forms Federal Taxes Affecting Real Estate [E]

amortization of the loan shall begin on the first day of the next month.

All payments shall be applied first to late charges, then to accrued interest, and then to principal. Interest shall continue to accrue until the entire balance is paid in full. Notwithstanding any provision contained herein, the interest rate to be paid hereunder shall not exceed the maximum rate allowed by law.

Presentment for payment, notice of dishonor, protest and notice of protest are hereby waived.

As used herein, the term "prime rate" shall mean the rate of interest publicly announced by Lender, from time to time, as its prime rate.

Borrower shall have the right to prepay the whole or any part of the principal at any time without penalty.

In the event that any payment shall not be paid within ten (10) days of its due date, an additional charge of six cents (6cent(s)) for each dollar so due shall be assessed to offset the additional costs and expenses of Lender due to such late payment.

This Note shall be secured by a mortgage. The terms of the mortgage shall be deemed a part of this Note as if fully set forth herein. A default in the terms of the mortgage or building loan agreement shall be deemed a default under the terms of this Note and shall entitle the holder to declare the entire sum immediately due and payable.

The terms of this note shall not be changed or terminated orally.

The failure of Lender to require strict performance of any of the terms or provisions of this Note shall not act as a waiver or release of such terms or provisions.

Borrower

MORTGAGE

This MORTGAGE, made the _____ day of _____, 20____, between _____ INC., a corporation formed under the laws of the State of _____ with offices for the conduct of business located at _____ (hereafter known as the Borrower), and _____, a banking corporation organized and existing under the laws of the State of _____, having its principal place of business at _____, in the City of _____, County of _____, and State of _____ (hereafter known as Lender)

WITNESSETH, that in order to secure the payment of an indebtedness in the principal sum of _____ Dollars (\$ _____), lawful money of the United States of America, with interest thereon, all to be paid according to a certain bond or note and building loan agreement bearing even date herewith, and also any and all further loans or indebtedness owed or to be owed by the Borrower, or any subsequent owner of the mortgaged premises, to the Lender, the Borrower hereby mortgages to the Lender

ALL THAT CERTAIN PARCEL OF LAND, with the buildings and improvements thereon erected, commonly known as Street No. _____, City of _____, State of _____, and more

2-Forms Federal Taxes Affecting Real Estate [E]

particularly described in "Schedule A", annexed hereto and made a part hereof, being the same premises conveyed to the Borrower herein by deed dated _____, 20 _____, and recorded in the office of the _____ County Clerk, in book number _____, at page _____.

TOGETHER with all right, title and interest of the Borrower, of, in, and to any land lying in the bed of any street, road or highway, in front, behind, or adjacent to the premises above described:

TOGETHER with all fixtures and articles of personal property, now or hereafter affixed to, or used in connection with, the premises or Borrower's business, all of which are covered by the lien of this Mortgage;

TOGETHER with the appurtenances, and all the estate and rights of the Borrower in and to said premises;

And the Borrower covenants and agrees with the Lender as follows:

1. *Mortgage subject to building loan agreement.* This mortgage is subject to the terms of a certain building loan agreement of even date herewith, to be filed with the County Clerk simultaneously herewith.

2. *Borrower to pay back loan.* The Borrower will pay the indebtedness, as provided in the accompanying bond or note, in a timely fashion. The terms, conditions and covenants of the bond or note secured hereby are made a part of this Mortgage. Said terms, conditions and covenants are incorporated by reference, with the same legal effect as if fully set forth hereat.

3. *Borrower to keep mortgaged premises insured.* The Borrower will keep the buildings and other improvements located on the premises, together with all fixtures and personalty covered hereby, insured for the benefit of the Lender against loss by fire and such other casualties as may be required by the Lender, by such companies as are acceptable to the Lender. Said insurance will be in the amount of the remaining principal balance of the Mortgage or the full replacement value of the buildings, other improvements, fixtures and personalty, and building materials stored on site covered by the lien of this Mortgage, whichever is greater. Borrower will assign and deliver the policies to the Lender, and he will reimburse the Lender for any premium payments for insurance made by the Lender because of the Borrower's failure to so insure as required herein or because of Borrower's failure to so assign and deliver the said insurance policies.

4. *Borrower warrants title to premises.* The Borrower hereby warrants title to the premises, fixtures and personal property mortgaged hereby and will defend and maintain the lien of this Mortgage as a valid first lien on the premises.

5. *Borrower to maintain mortgaged premises in good state of repair.* The Borrower affirmatively covenants to maintain the buildings on said premises in good repair. Borrower will not alter, demolish or remove any building, fixture or personal property mortgaged hereby, or any part thereof, without obtaining the written consent of the Lender in advance. Borrower will not suffer or permit any waste on the premises. Borrower will comply with all statutes, orders, and requirements of the federal, state, and municipal governments, or any departments or bureaus thereof, having jurisdiction over the premises covered by the lien of this Mortgage. The holder of this Mortgage, its successors, assigns, officers or agents, shall have the right to inspect the mortgaged premises from time to time at any reasonable hour of the day without advance notice to the Borrower.

6. *Default and acceleration of loan repayments.* The whole of said principal sum and interest shall become due and payable at the option of the Lender: after default in the payment of any installment of principal and/or of interest for thirty (30) days; or after default for thirty (30) days in the payment of any other sum required to be paid by the Borrower to the Lender under this Mortgage or under the terms of the bond or note secured hereby; or after default in the payment of any tax, special assessment, water rent, sewer rent or other assessment, which may become a lien against the property covered by the lien of this Mortgage, for thirty (30) days after the same becomes due and payable; or after

default (following notice and demand) either in assigning and delivering the policies of insurance for the buildings and improvements which insure Lender against loss by fire or other casualty, or in reimbursing the Lender for premiums paid on such insurance, as herein before provided; or after default (following request) in furnishing a statement of the amount due on the Mortgage and whether Borrower has any claim of offsets or defenses against the Mortgage debt, as hereinafter provided; or after any other default under the terms, covenants or conditions of this mortgage, or of the bond or note secured hereby, or upon the commencement by any party of an action or proceeding for the foreclosure or enforcement of any lien alleged to be filed against the mortgaged premises.

7. Receiver of rents to be appointed following institution of action to foreclose. The holder of this mortgage, in any action to foreclose this Mortgage, shall be entitled to the appointment of a receiver of rents without notice to the Borrower and without regard to the adequacy of any security for the debt.

8. Borrower to surrender possession of mortgaged premises after default. After any default hereunder, the Borrower shall, upon demand, surrender possession of the premises to the Lender. After any such default, the Lender may enter upon the premises or any part thereof. Lender may lease the same to third parties and collect the rents, income and profits therefrom, which are due or become due, and apply the same, after payment of all charges and expenses of entry and management, to the account of the Borrower. The Borrower hereby assigns to the Lender all of the said rents, income and profits and all the leases existing at the time of such default. This assignment shall act as further security for the payment of the indebtedness. Such entry, by or on behalf of the Lender, shall not be deemed to constitute the Lender a "Lender in possession." If the Borrower remains in possession thereof after any such default, the Borrower shall be a tenant of the Lender. In such case, the Borrower agrees to pay upon demand and in advance to the Lender a reasonable monthly rental fee for the premises or the portion so occupied by Borrower. The Lender may also dispossess, by summary proceedings or otherwise, any tenant of the Borrower, if such party fails to pay the rental fee as herein described. This provision shall, at the option of the Lender, become operative immediately after the happening of any event of default and without regard to whether foreclosure proceedings have been instituted and without application for the appointment of a receiver. In the event that a receiver of such rents, income or profits is so appointed, this provision shall inure to the benefit of such receiver.

9. Borrower to pay lender's attorneys' fees and other related costs in event of foreclosure. If any action or proceeding is commenced by the Lender to foreclose this Mortgage or to collect the indebtedness, the Borrower agrees to pay to the Lender statutory costs, expenses and reasonable attorneys' fees in connection with such action or proceeding. The said costs, expenses and attorneys' fees shall be deemed to be secured by the lien this Mortgage. The said costs, expenses and attorneys' fees may be collected as part of the foreclosure or as part of some other action or proceeding. The said costs, expenses and attorneys' fees shall be a lien on the premises covered by this Mortgage, existing prior to any right or title to, interest in, or claim upon, the premises attaching or accruing subsequent to the lien hereof.

10. Following foreclosure, premises may be sold in one or more parcels. If the lien of this Mortgage is foreclosed, the premises covered hereunder may be sold in one or more parcels, at the option and discretion of the Lender, subject to any provision of the law.

11. Borrower to reimburse lender for expenses arising from certain types of litigation. If any action or proceeding is commenced to which the Lender, by virtue of being Lender hereunder, becomes a party, the Borrower will reimburse the Lender for its expenses in connection therewith, including, but not limited to, legal fees and court costs.

12. Borrower to pay all taxes, assessments, water rents, etc. The Borrower will pay all taxes, assessments, water rents or sewer rents when due. If Borrower fails to do so, the Lender may pay the same. Borrower shall reimburse Lender therefor upon demand, together with interest at the note rate.

13. Upon request, borrower will furnish lender with statement of amount due on mortgage. The Borrower, within five (5) days of request made in person, or within ten (10) days of request made by mail, will furnish a written statement,

duly acknowledged before a notary public, of the amount due on this mortgage, and whether any offsets or defenses to payment of the mortgage debt exist.

14. *Notice and demand must be in writing.* Any notice and demand permitted or required hereunder shall be in writing and shall be served in person or by certified mail, return receipt requested.

15. *Abandonment of mortgaged premises by borrower.* If the premises covered by the lien of this Mortgage, or any part thereof, shall be abandoned or vacated by the Borrower, or by the then-owner thereof, the Lender shall have the right to enter upon and take possession of the premises to protect and conserve its security. Lender shall be vested with all usual powers of a Lender in possession.

16. *Borrower covenants that it has made no pledge or assignment of any rents, issues or profits.* Borrower has made no pledge or assignment of any of the rents, issues or profits of the said mortgaged premises, or any part thereof. Borrower has not accepted prepayment of rents. Borrower will not further pledge or assign such rents, or any part thereof, during the term of this Mortgage without the written consent of the Lender, in advance.

17. *Tax law changes.* In the event that any law is passed which changes in any way the laws for the taxation of mortgages or debts secured by mortgages, the Lender shall have the right to give thirty (30) days' written notice to the Borrower and require the payment of the indebtedness in full. If such notice is given, the indebtedness secured by the lien of this Mortgage shall become immediately due and payable at the expiration of said thirty (30) days.

18. *Failure of lender to require strict performance is not waiver or release of its rights.* If Lender fails at any time to require the strict performance of any of the terms or covenants of this Mortgage, said failure shall not act as a waiver or release of such terms or covenants.

19. *Modifications of terms contained in accompanying note or bond.* Any of the terms of the bond or note secured hereby may, at any time, be modified or altered by the Lender with the consent of the Borrower or the then-owner of the mortgaged premises, without impairing or affecting the priority of the lien of this Mortgage with respect to any subsequent lien or encumbrance.

20. *Release of portion of mortgaged premises.* The Lender may, at any time, release any portion of the mortgaged premises, or any fixtures or other personal property pledged or assigned to it as additional security for the payment of the bond or note and indebtedness secured by this Mortgage, without regard to the consideration for such release. Lender may accept other securities or other personal property in place thereof without being accountable to any other lienholder.

21. *Certain other events that will accelerate repayment of loan.* In the event that the premises subject to the lien of this Mortgage are sold, transferred, made subject to a "land sale" contract, or leased for a period exceeding two (2) years, or are otherwise conveyed, voluntarily or involuntarily, while this Mortgage shall remain a lien thereon, this Mortgage and the bond or note secured thereby shall, at the option of the Lender, become immediately due and payable. A transfer of stock ownership of the Borrower to another entity or to other principals to such an extent as would place the control of the Borrower in other than the current two (2) principal shareholders, or a change in ownership of shares constituting more than ten (10) percent of the outstanding and issued shares of the Borrower, shall be deemed a sale of the premises and will entitle Lender to demand payment in full of the outstanding balance.

22. *Copy of annual operating statement for lender.* The Borrower will furnish to the Lender the annual operating statement for the premises and/or financial statements of the Borrower in a form satisfactory to Lender within thirty (30) days after the close of Borrower's fiscal year, together with copies of Borrower's state and federal income tax returns.

23. *Borrower is corporation.* Borrower represents that it is a corporation. Neither its certificate of incorporation, any

2-Forms Federal Taxes Affecting Real Estate [E]

amendment thereto, nor its by-laws requires the consent of shareholders to the execution and delivery of this Mortgage. The execution and delivery of this Mortgage and the note or bond secured thereby have been duly authorized by its Board of Directors at a duly-called meeting.

24. *Terms in mortgage pertaining to number and gender of parties.* If more than one person joins in the execution of this Mortgage, the relative words herein shall be read as if written in the plural. If any Borrower be of the female gender, the relative words herein shall be read as if written in the feminine gender. If more than one person joins in the execution of this Mortgage, all the obligations herein contained shall be construed to be the joint and several obligations of all the said persons. If the Borrower is a corporation, all relative words shall be read as if written in the neuter gender.

25. *Maximum amount of mortgage.* The maximum amount secured by this Mortgage is the sum of \$ _____. This maximum amount shall be increased by the amount of any statutory costs, expenses and legal fees incurred by the Lender in any foreclosure or lawsuit. The maximum amount shall also be increased by the amount of any taxes or insurance premiums paid by Lender hereunder.

26. *Flood insurance.* The Borrower, its heirs, successors and assigns will, if required, keep the mortgaged premises insured against loss by flood under the provisions of the *Federal Flood Disaster Protection Act of 1973* for the benefit of Lender, up to the amount of the Mortgage debt or the maximum amount of coverage available. In the event of failure to obtain such insurance, the holder of the Mortgage may, at its option, insure the premises in the above manner and add the premiums therefor to the principal debt secured by this Mortgage.

27. *Agreement may not be orally amended, terminated or changed.* The terms of this Mortgage may not be amended, terminated or otherwise changed orally. The covenants contained in this Mortgage shall run with the land and bind the Borrower, the heirs, personal representatives, successors and assigns of the Borrower, and all subsequent owners, encumbrancers, tenants and subtenants of the premises. The covenants contained herein shall inure to the benefit of the Lender, its successors, assigns and all subsequent holders of this mortgage.

28. *Mortgage secures note.* This mortgage secures a note which has a variable interest rate.

29. *Sale of portion of mortgaged premises.* Notwithstanding anything to the contrary above stated, nothing herein shall be construed as preventing the sale of a portion of the premises described in Schedule "A", annexed hereto, provided a release is first obtained as herein provided below.

30. *Lender agrees to release sections of mortgaged premises.* The Lender agrees to release sections of the mortgaged premises described in Schedule "A" in one-acre units. Each unit will be released upon the payment of the sum of \$ _____ to Lender. The sum is determined by dividing the loan amount by the number of acres contained in Schedule "A." The payment for each release shall be applied to the indebtedness owed by the Borrower, as evidenced by the note and secured by this Mortgage in the manner provided in the note.

All costs and expenses incurred in connection with each release, including Lender's reasonable attorneys' fees for the preparation of the release and the recording fee will be the sole responsibility of Borrower and shall be paid in full upon the delivery of each release.

Notwithstanding the foregoing, Lender shall not be required to accept tender of payment for release or provide a release when Borrower shall be in default under any of the terms of this Mortgage or the note of even date which it secures.

IN WITNESS WHEREOF, this Mortgage has been duly signed and executed by the Borrower.

E.13 Commitment for long-term financing--loan to be closed upon completion of construction--provision for interest contingent upon earnings--liquidated damages

COMMENT

The availability of a construction loan is often dependent upon whether the prospective borrower has been able to obtain a commitment for long-term financing. This form illustrates the long-term lender's commitment letter which sets forth the promise to make the loan and the obligation to which the borrower will be bound upon countersigning the document.

When the improvement which will constitute the security for the loan is not yet in existence, and when the loan is not to be consummated until the completion of the improvement, the lender must be protected with respect to both the quality and the time of completion of construction. In order to insure the quality

2-Forms Federal Taxes Affecting Real Estate [E]

of construction, the lender has the right, before being required to close the loan, to approve final plans and specifications, and to verify that the completed structure conforms to such plans and specifications and to the requirements of applicable law. In addition, the lender may establish that the land and prospective building will have a specified minimum value by obtaining an appraisal report with respect to the final plans and specifications. Before the loan is closed, the appraiser is entitled to make certain that the improvements as constructed conform to the information from which his original appraisal was derived.

Since the lender must arrange to make funds available for an expected closing date, any delay in the completion of construction or other default of the borrower which postpones or cancels consummation of the loan will cause the loss of investment income and other damages to the lender. The letter specifies that upon such postponement or cancellation the lender may receive (a) a specified amount of liquidated damages, and (b) an additional amount for each month of delay between the scheduled closing date and final consummation or cancellation. The borrower must also pay the lender's fees and other expenses incurred in connection with the loan if it is not consummated.

This instrument also affords the lender protection against inflation over the extended period of the loan. The borrower must pay as "contingent interest" a certain percentage of earnings in excess of a specified amount.

Aside from these special features, the commitment letter covers the following essential points: (1) the amount and term of the loan, (2) the deadline for completion of construction, (3) criteria for determining completion of construction, (4) requirement for execution and approval of deeds of trust, including coverage of personal property, (5) assignment rights, and (6) prepayment privileges. An institutional lender in the business holding lucrative long-term investments is more likely to impose a penalty for prepayment than a seller holding a purchase money mortgage. In this case, prepayment is permitted only after the tenth loan year and a penalty is assessed thereafter according to a schedule of percentages of loan principal which decrease throughout the remainder of the term.

For further information, see Chapters 11, 12, and 19.

FORM

East Side Life Insurance Company
20 Madison Avenue
New York, New York 10016

January 15, 2002

Bostwick Builders, Inc.
40 Castleton Avenue
Staten Island, New York 10314

Gentlemen:

You have inquired as to the willingness of this Company to make a permanent first mortgage loan to you upon the security hereinafter mentioned and, in connection therewith, you have warranted and represented to us as follows:

2-Forms Federal Taxes Affecting Real Estate [E]

(a) Bostwick Developers, Inc., is a corporation duly organized and validly existing under the laws of the State of New York, and has its principal place of business in New York, New York.

(b) You hold fee simple title to a parcel of land described in Exhibit A annexed hereto and made a part hereof (the "Land").

(c) You shall cause a 12-story office building, hereinafter more fully described (the "Building"), to be constructed upon the Land in full compliance with all applicable zoning and other legal requirements of the State of New York, pursuant to detailed plans and specifications to be prepared by Paul L. Burns, A.I.A. (the "Architect").

You have submitted to us certain preliminary architectural drawings and memoranda specifications prepared by the Architect to aid us in arriving at a fair valuation of the Land and the proposed improvements for long-term investment purposes. This material does not contain sufficient detail to enable us to make a definitive valuation, but you have stated to us that the Building will contain approximately 1,100,000 square feet and approximately 12,000,000 cubic feet.

We are pleased to advise you that, relying on the foregoing, and subject to our approval of all proceedings to be taken in connection with the transaction herein contemplated, and the form and substance of all documents incident thereto, and subject further to the terms and conditions hereinafter set forth, our Finance Committee has authorized a first lien mortgage loan to be made to you to be evidenced by your note (the "Note"), and secured by a first lien mortgage (the "Mortgage"), upon a good and marketable fee simple title to the Land and the improvements to be erected thereon, and by a security agreement (the "Security Agreement"), on the personal property hereinafter referred to.

1. *Borrower.* The Borrower shall be Bostwick Developers, Inc.

2. *Amount and term of loan.* The loan shall be in the amount of \$9,000,000. The term of the loan shall be 20 years from the date of closing, as defined in paragraph 15 hereof. The loan shall be repaid by monthly payments of \$64,479, to be applied first to interest at the rate of 8 percent per year, and the balance to principal.

3. *Contingent interest payments.* Within 90 days after the close of each "operating year" (as the same shall be defined in the Mortgage) during which the loan herein contemplated shall be outstanding, and within 90 days after the close of the operating year during which such loan shall have been fully paid and discharged (other than by prepayment), you shall deliver to us a statement, prepared in accordance with sound and generally accepted accounting practice and certified as true and correct by one of the firms of accountants listed in Exhibit B attached hereto. Such statement shall set forth, in reasonable detail, the "net earnings" from the Building, as the same are defined in Exhibit C attached hereto, during and with respect to such operating year. Simultaneously with the delivery of each such statement, and in addition to and over and above the required constant monthly payments of fixed interest and amortization and the required monthly deposits in respect of real estate taxes, as herein set forth, the Borrower shall pay to us, as additional interest, an amount equal to 15 percent of the amount, if any, by which the "net earnings" from the Building for such operating year, as shown by such statement, shall exceed \$1,750,000 (or, in the case of any partial yearly period, the proportionate part of \$1,750,000). We shall have the right, through such agents or employees as we may determine, to examine your books of account and records for the purpose of verifying the amount of such "net earnings."

4. *Tax deposits.* Monthly noninterest bearing deposits of one-twelfth of the annual real estate taxes, as estimated by this Company, shall be made to this Company to accumulate for the payment of such taxes when due.

5. *Prepayment privilege.* The Note shall grant the privilege to pay the loan in full prior to maturity on any interest date after the end of the tenth loan year, upon giving not less than 30 days' prior written notice of intention to prepay, and upon paying, in addition to principal then owing, accrued fixed interest, and accrued contingent interest (as estimated, subject to adjustment) a sum equal to 3 percent of such principal if prepayment is made in the eleventh loan year, 2.5

2-Forms Federal Taxes Affecting Real Estate [E]

percent if the prepayment is made in the twelfth loan year, 2 percent if prepayment is made in the thirteenth loan year, 1.5 percent if prepayment is made in the fourteenth loan year, 1 percent if prepayment is made in the fifteenth loan year, 1/2 of 1 percent if prepayment is made in the sixteenth loan year, and without prepayment charge thereafter.

6. *Security.* The following shall constitute security for the loan:

(a) The Land.

(b) The 12-story office Building, fireproof and fully air conditioned, to be constructed in accordance with detailed plans and specifications to be prepared by the Architect and approved by us, and which shall contain retail stores on the ground floor, offices on the remaining floors, and off-street parking facilities for not less than 650 automobiles.

(c) All furniture, furnishings, fixtures, equipment, and articles of personal property (collectively, the Personal Property) required for the operation of the Building, and all future additions thereto and replacements thereof. All of such Personal Property shall be acquired by you and remain your exclusive property, free and clear of any and all liens and encumbrances thereon and security interests therein except the lien of the Mortgage and the Security Agreement to be executed and delivered to this Company pursuant hereto.

7. *Plans and specifications.* You shall retain the Architect for the purpose of preparing detailed plans and specifications (the "Plans"), which shall be consistent with, and conform in all material respects with, the preliminary plans and memoranda specifications. We reserve the right to retain, at your expense, an architect or engineer, or both (the Mortgagee's Architect), for the purpose of passing on such detailed Plans. Prior to the commencement of construction of the Building, you shall submit copies of the Plans both to us and to the Mortgagee's Architect and shall have obtained our prior written approval thereof, which approval shall not unreasonably be withheld.

8. *New appraisal.* After we have approved the Plans, we are to receive from our Chief Appraiser a new appraisal report (the New Appraisal) which shall show that the fair value of the Land and of the improvements contemplated thereon, as evidenced by the Plans (exclusive of any value attributable to the Personal Property), is not less than \$13,500,000. You are to furnish our Chief Appraiser with all information which he may deem necessary for the purpose of such New Appraisal.

9. *Construction of building.* Subject to unavoidable delays, as hereinafter defined, construction of the Building shall be commenced not later than July 1, 2002, and construction of the Building shall be completed not later than December 31, 2003. If, by reason of such unavoidable delays, construction of the Building shall not be completed by December 31, 2003, the time for such completion shall be extended by a period equal to the period of such delays, but in no event beyond July 1, 2004, unless we shall have otherwise agreed in writing. Wherever in this letter the term "unavoidable delays" appears, it shall be construed to mean only delays due to strikes, lockouts, acts of God, inability to obtain labor or materials, governmental restrictions, enemy action, civil commotion, fire, unavoidable casualty, or similar causes, provided such similar causes are beyond your control.

Promptly following completion of the foundations and footings for the Building, you shall furnish us with a survey in form, and prepared by a licensed surveyor, satisfactory to us and to the title insurance companies hereinafter referred to, showing that no part of any foundation or footing encroaches upon any adjoining street or property.

For the purposes of this letter, construction of the Building shall be deemed to have been completed upon the earliest date (the Completion Date) when all of the following conditions shall have been fulfilled:

(a) The Architect and, provided we shall have determined to retain such architect or engineer, the Mortgagee's Architect each shall have certified to us that all work in connection with the Building has been substantially completed in substantial accordance with the Plans as approved by us, or in accordance with any modifications thereof which we

2-Forms Federal Taxes Affecting Real Estate [E]

shall have approved, and that all such work has been done in accordance with all applicable requirements of law, including, but without limitation, all applicable zoning requirements.

(b) Our Chief Appraiser shall have certified to us that the Building, as completed, and the Personal Property, substantially conform in all material respects to a building of the size and character, and personal property of the character and quality, which our Chief Appraiser projected in arriving at the valuation set forth in the New Appraisal.

(c) We shall have been furnished with a copy of the permanent or temporary certificate of occupancy, certificates of electrical inspection, certificates of the Board of Fire Underwriters, and such other certificates as are normally and customarily required and issued by the Department of Buildings of the City of New York, or other city, county, and state departments having jurisdiction thereover, in connection with a new building.

(d) The Building shall have been formally opened as an operating office building.

10. *Leases and occupancy agreements.* All leases and other occupancy agreements in existence at the time of the closing with respect to garage and office space and space for sales and service facilities shall have been approved by this Company and its special counsel and shall contain such attornment and other provisions as this Company may require, and your right, title, and interest therein shall be assigned to this Company as collateral security to such extent as we may require.

11. *Security agreement.* This Company shall receive a Security Agreement creating a security interest in the Personal Property together with the certificate of the title companies referred to in paragraph 12 hereof and a certificate of the Secretary of State of the State of New York that the Security Agreement constitutes a good and valid first lien on the Personal Property.

12. *Documents and title.* The form and substance of all documents to be delivered to or received by us at or prior to the closing, including, but not by way of limitation, the Note, Mortgage, and Security Agreement, all leases and other occupancy agreements, and the assignments to this Company of your interest therein, surveys, title and other insurance policies, and certifications, shall in all respects be satisfactory to this Company and its special counsel. The title and the evidence thereof shall be satisfactory to this Company and its special counsel and, at the time of closing, there shall have been delivered to us title insurance policies distributed both as to companies and amounts in a manner satisfactory to us, providing for joint and several insurance, or coinsurance if we so require, by such companies, in the aggregate amount of \$9,000,000, insuring that the Mortgage constitutes the valid, direct first lien which it purports to create upon your good and marketable fee simple title in and to the Land and the Building subject only to such liens, charges, and encumbrances as shall have been previously approved by us in writing. You agree to use your best efforts to reach agreement with us, as soon as reasonably possible following your acceptance hereof, upon the provisions of the Note, the Mortgage, and the Security Agreement and of such other instruments incident to the transaction contemplated hereby as are presently determinable. It is understood that, without limiting the generality of the first sentence of this paragraph, the Note or the Mortgage shall contain, among other provisions, mutually satisfactory provisions with respect to the several types and amounts of insurance coverages to be maintained by you; the application of insurance and condemnation proceeds; the maintenance of working capital; the furnishing of financial and other statements by you, restrictions on the creation of junior liens, creation of additional indebtedness, declaration and payment of dividends, and creation of subsidiaries by you, your other business activities, merger and consolidation by or with you, the sale, conveyance, or other transfer of the Building, the leasing of the Building, and the modification and termination of leases, licenses, concessions, and other occupancy agreements made with respect to any space in the Building.

13. *Environmental site assessment.* Prior to the closing, you shall provide us with a phase I environmental site assessment, which shall state that there is no evidence of any adverse environmental condition existing on the real property which is to secure this loan. The site assessment shall be performed by an experienced environmental engineer who is acceptable to us. Acceptance shall not be unreasonably withheld. In the event that the site assessment does not

provide as required above, we shall be under no obligation to lend any sum to you.

14. *Legal opinions.* At the time of closing, we shall have received from Messrs. Downs and Liberty, who are acting as special counsel for us in connection with this transaction, an opinion in scope and substance satisfactory to us, as to the following:

(a) The due incorporation and existence of Bostwick Developers, Inc., as a New York corporation and its corporate power to own and operate the Building, and to borrow the moneys and otherwise assume and perform the obligations on its part to be assumed and performed, as contemplated herein.

(b) The due authorization, execution, and delivery by you of this agreement, and the legality, validity, and enforceability of this agreement in accordance with its terms.

(c) The due authorization, execution, and delivery of the Note, and the legality, validity, and enforceability thereof in accordance with its terms, and the availability to the holder thereof of the benefits and security afforded by the Mortgage and the Security Agreement in accordance with the terms of such Mortgage and such Security Agreement.

(d) The due authorization, execution, and delivery of the Mortgage, the legality, validity, and enforceability thereof in accordance with its terms, and the creation by the Mortgage of the valid lien which it purports to create upon your interest in the Land and the Building.

(e) The due authorization, execution, and delivery of the Security Agreement, the legality, validity, and enforceability thereof in accordance with its terms, and the creation by the Security Agreement of the valid lien which it purports to create upon your interest in the Personal Property then owned by you.

(f) The due filing for record and recording of the Mortgage and of the Security Agreement in the appropriate filing office or offices in order to perfect and preserve the liens thereof on the respective properties intended to be covered thereby, the due payment of all taxes, recording fees, and other charges in connection therewith, and the necessity of any periodic re-recording or re-filing of the Mortgage or of the Security Agreement in order to preserve and protect such liens.

(g) Such other matters incident to the transaction hereby contemplated as this Company may reasonably request.

None of the opinions required by this paragraph 14 need express any opinion as to your title to any of the property intended to be subjected to the lien of the Mortgage or of the Security Agreement, or as to the existence of any liens, charges, or encumbrances thereon other than the Mortgage or the Security Agreement.

15. *Closing date.* Subject to unavoidable delays, as defined in paragraph 9 hereof, the closing of the loan shall take place at this Company's home office at 20 Madison Avenue, New York, New York, on a date (the "Closing Date"), subsequent to the Completion Date which shall be fixed by the parties. Unless this Company, in its sole and absolute discretion, shall otherwise agree in writing, the Closing Date shall not be later than the earlier of (a) March 1, 2004, or (b) the date which is 60 days subsequent to the Completion Date. In the event of unavoidable delays, the Closing Date shall be such date, subsequent to the Completion Date of the Building, as shall be fixed by the parties and, unless this Company, in its sole and absolute discretion, shall otherwise agree in writing, shall not be later than the earlier of (c) September 1, 2004, or (d) the date which is 60 days subsequent to the Completion Date. In no event shall the Closing Date be earlier than January 1, 2004, unless this Company, in its sole and absolute discretion, shall otherwise decide and so notify you in writing.

16. *Payment of fees and expenses.* Your acceptance hereof shall constitute your unconditional agreement, whether or not the transaction contemplated hereby shall be consummated, to pay or reimburse us for all costs and expenses paid or

2-Forms Federal Taxes Affecting Real Estate [E]

incurred by us or on our behalf in connection with such transaction, including, but not limited to, the reasonable fees and disbursements of Messrs. Down and Liberty for their services to us with relation to this agreement, including the furnishing of the opinions referred to herein and all other opinions which we may request on questions incident to the proposed transaction, the fees and expenses of the Mortgagee's Architect, printing costs, charges for title examination, and insurance, surveys, recording and filing fees, revenue stamp, mortgage, and other taxes, if any are required, and all other actual out-of-pocket expenses in connection with such transaction. This Company shall not be obligated to pay any premium or other charge, or any brokerage fee or commission, in connection with such transaction and your acceptance hereof shall constitute your further unconditional agreement to pay, and to hold this Company harmless against, any and all claims in connection with the foregoing and with such transaction.

17. *Cancellation of commitment.* This Company reserves the right to cancel this commitment and to terminate its obligations hereunder, in any of the following events:

- (a) Failure to conform to the respective time limits specified in paragraphs 9 and 15 hereof.
- (b) Failure to comply with any of the requirements of paragraphs 7 to 14, inclusive, hereof.
- (c) Failure to construct the Building substantially in accordance with the Plans as they, including any changes therein, shall have been approved by this Company.
- (d) Nonreceipt by this Company of the Architects' certificates provided for in paragraph 9(a) hereof and satisfying the requirements of such paragraph.
- (e) Nonreceipt by this Company of the Chief Appraiser's certificate provided for in paragraph 9(b) hereof and satisfying the requirements of such paragraph.
- (f) Insufficiency of title or lack of approval by this Company or its special counsel of the title to the Land, or of any documents required hereunder to be delivered to this Company at or prior to the closing.
- (g) Substantial damage to the Building which shall not have been repaired or restored to the satisfaction of this Company at the time of closing, or insubstantial damage to the Building, as to which provision for repair or restoration, satisfactory to this Company, shall not have been made at the time of closing.
- (h) If any part of the Land or the Building shall have been taken in condemnation or other like proceedings.
- (i) If there shall be filed by or against you any petition in bankruptcy or insolvency or for reorganization or for the appointment of a receiver or trustee, or if you shall make an assignment for the benefit of creditors, or shall file a petition for arrangement, or shall enter into an arrangement, and if, in any such case, such petition is not withdrawn or dismissed or such appointment, assignment, or arrangement is not cancelled and terminated within 30 days after the filing of such petition or the entry into of such arrangement.
- (j) Failure to make any payment required to be paid to or for the account of this Company pursuant to paragraph 16 hereof.
- (k) Failure to comply with any requirement of law applicable to the construction of the Building, including, without limitation, any zoning requirement or any condition with respect to such construction.
- (l) Nonreceipt by this Company of the New Appraisal as provided in paragraph 8 hereof and satisfying the requirements of such paragraph.

This Company may exercise the foregoing right of cancellation and termination by giving you written notice thereof, by registered or certified mail addressed as provided in paragraph 20. Upon the giving of such notice all obligations of this Company hereunder shall come to an end as of the date of such notice. The issuance of such notice shall relieve you of all obligations hereunder except for the payment of the fees, expenses, and other disbursements mentioned in paragraph 16 hereof which shall have been paid or incurred by us, any amount which may have become payable under paragraph 18 hereof, and the liquidated damages provided for in paragraph 19 hereof.

18. *Compensation for loss of investment income.* In the negotiations preliminary to the delivery of this commitment, you indicated to us your expectation that the Building would be completed by December 31, 2003, and that it was your desire that the funds for the permanent financing of the Building should be available at that time. By reason of this commitment, it will be necessary for us to schedule our funds available for investment accordingly. In consideration of the agreement on our part to continue to make such funds available to the Borrower beyond March 1, 2004, as, and subject to the conditions, set forth herein, and in recognition of the loss of investment income which would accrue to this Company if the consummation of the loan were to be delayed beyond such date, you agree that if, for any reason whatsoever, including specifically, but not limited to, unavoidable delays as defined in paragraph 9 hereof, the closing of such loan shall not have been consummated by March 1, 2004, and if, and so long thereafter, as such loan shall not have been consummated or this commitment shall not have been terminated by this Company pursuant to the provisions of paragraph 17 hereof, you shall pay to this Company, commencing April 1, 2004, and monthly thereafter, as compensation for the loss of investment income which we would sustain in such event, during and with respect to the period from March 1, 2004, to the date of closing or the date of termination of this commitment, the sum of \$22,500 for each month that shall elapse between March 1, 2004, and the date of the actual closing of the loan or the date, if any, upon which we shall have notified you of our determination to cancel and terminate this commitment. If the closing of the loan shall be consummated, or if the date upon which we shall have notified you of any determination on our part to cancel and terminate this commitment, shall be any day other than the first or last day of the month, such monthly sum for the month in which such closing or such notification shall occur shall be prorated, on a per diem basis, from the first day of such month up to and including the actual date of closing or the date of such notification, and shall be payable on such date. Your obligation for the payments referred to in this paragraph shall be over and above your obligation for payment of the fees and expenses referred to in paragraph 16 hereof, and for the payment of liquidated damages, if any, as provided for in paragraph 19 hereof.

19. *Liquidated damages.* In consideration of the substantial services and the expense thereof heretofore and which will hereafter necessarily be rendered and incurred by this Company in processing and preparing for the closing of the loan contemplated hereby; the substantial long-term loss of investment income which this Company would sustain, in the event of your failure to consummate such loan, above and beyond the portion of such loss, if any, as might be recovered by this Company pursuant to the provisions of paragraph 18 hereof; the uncertainty, in the event of such failure to consummate such loan, as to the then availability to this Company of other investment opportunities having investment qualities and characteristics, and upon terms, comparable with those represented by the loan contemplated hereby; and in recognition of the difficulty of accurately ascertaining the amount of damages which this Company would sustain in the event of any such failure by you to take or cause to be taken all action necessary to cause such loan to be consummated, the acceptance hereof by you shall constitute your unconditional agreement to pay this Company, as liquidated damages, the sum of \$180,000 if for any reason other than the cancellation of this commitment by this Company pursuant to paragraph 17(h) hereof the transaction hereby contemplated is not consummated and the loan is not closed within the time hereby set for consummation and closing.

20. *Notices.* Any notice required or desired to be given hereunder shall be deemed to have been properly given if sent by registered or certified mail addressed, if to this Company, to Vice President, Real Estate Department, East Side Life Insurance Company, 20 Madison Avenue, New York, New York, or, if to you, to the address to which this letter is addressed. Either party hereto may from time to time designate another address in the City of New York, New York, for the receipt of future notices by a notice given as herein provided.

2-Forms Federal Taxes Affecting Real Estate [E]

21. *Nonassignability.* This commitment may not be assigned by you without our written consent.

22. *Entire agreement.* This commitment supersedes all agreements previously made between us relating to its subject matter. There are no other understandings or agreements between us.

23. *Non-waiver.* No delay or failure by either of us to exercise any right under this commitment, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

24. *Headings.* Headings in this commitment are for convenience only and shall not be used to interpret or construe its provisions.

25. *Governing law.* This commitment shall be construed in accordance with and governed by the laws of the State of New York.

26. *Counterparts.* This commitment may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

27. *Binding effect.* The provisions of this commitment shall be binding upon and inure to our benefit and that of our respective legal representatives, successors, and assigns.

If the foregoing is satisfactory to you, will you please so indicate by signing and returning to us the enclosed copy of this letter agreement within ten days from the date hereof, whereupon it shall become a binding agreement between us in accordance with its terms. Until the receipt thereof within such ten-day period, there shall be no obligation on our part hereunder.

Very truly yours,

East Side Life Insurance Company

E.14 Construction loan--agreement between construction lender and long-term lender

COMMENT

In certain circumstances, the commitment for permanent long-term financing will precede the obtaining of a loan for commercial construction. Where no immediate sale of the completed building is contemplated the funds required to repay the construction loan will come from the long-term lender. In the situation anticipated by the agreement illustrated here, the borrower has obtained such a long-term loan commitment. Under this agreement, when the conditions of the long-term loan agreement have been met or waived or modified by the borrower the long-term lender agrees to purchase the note given by the borrower to the interim lender in connection with the construction loan.

For further information, see Chapters 11, 12, and 19.

FORM

November 26, 2002

Garden State Life Insurance Company
100 Madison Avenue
Trenton, New Jersey

Re: Premises 150 Central Avenue
Toms River, New Jersey

Gentlemen:

With reference to your commitment dated September 10, 2002, issued to Spargo Investing Corp., we propose to act as interim lender for the construction loan of \$3,000,000 on this property (reserving to ourselves the right to increase the same to \$3,500,000). Such loan shall be secured by a first mortgage lien affecting the property in the sum of \$3,500,000.

We understand that in consideration of our making a construction loan to the Borrower in an amount of \$3,000,000 and of incorporating in the construction loan documents certain provisions which will obligate the Borrower to execute an extension agreement with you under the terms of the permanent loan, as provided in your commitment, you do hereby agree to purchase the note of the Borrower from us when the requirements of your commitment have been met, on or before October 1, 2003, or within the extended period of the commitment, if any, as hereinafter provided; subject, however, to our agreement to the following conditions, and the assent thereto of the Borrower.

1. *Assignment of construction loan note and mortgage by interim lender.* At such time as the conditions of your commitment have been met, or such conditions shall have been waived or modified by you, on or before October 1, 2003 (or within the extended period of the commitment, if any, as hereinafter provided), we agree to sell and assign to you (by endorsement of the note to your order, without recourse, and by assignment of the construction loan mortgage), and you agree to purchase, the note and mortgage of the Borrower, for the amount of principal advances made by us thereon (the Borrower to pay us, at the time of such sale, all interest accrued thereon and unpaid up to, but not including, the date of purchase). We agree that all papers regarding the purchase will be forwarded to your home office, upon your request, prior to endorsement for transfer thereof, with allowance of a reasonable time to permit your final examination of such papers and the taking of other actions incidental to the purchase by you and all other persons concerned.

2. *Enforcement of borrower's obligations under construction loan.* If the Borrower shall default in performing its obligations to us, under the loan documents or any collateral documents, prior to October 1, 2003 (or within the extended period of the commitment, if any, as hereinafter provided), we reserve the right in our sole discretion and without your prior consent to enforce the obligations of the note, mortgage, and construction loan agreement in accordance with the terms of such instruments, but we shall promptly notify you of the nature of such default and of any action we have taken.

3. *Extension of construction loan.* If, on October 1, 2003, the Borrower shall not have met the requirements of the commitment on which the permanent loan is conditioned, you shall have the option, for 20 days thereafter, either (a) to purchase the note of the Borrower from us, or (b) to extend the period of the commitment for a reasonable period of time, not to exceed a period of 60 days from the date such option is exercised, by written notice delivered to us and the

2-Forms Federal Taxes Affecting Real Estate [E]

Borrower. In the event of such extension, the parties hereto agree that the date on which payment of the note to us is due will be extended for a period equal to the period of such extension; that during such extended period the Borrower will not offer to pay the note held by us, and we will not voluntarily accept payment of the note, either with or without interest to maturity; and that we will take no action to foreclose the lien of the mortgage securing the note, nor voluntarily sell or assign the note to any other person or institution without your assent, during such extended period of the commitment. You, in turn, agree to purchase the note from us, within such extended period of the commitment, when the terms and conditions of the commitment as modified have been fully complied with by the Borrower or waived by you.

4. *Acceptance by borrower.* Our agreement to the terms outlined herein is subject to the acceptance of those terms by the Borrower, as to such obligations as these terms impose upon it, and upon an understanding that these obligations of the Borrower will be binding upon it, its successors, and assigns.

5. *Execution of agreement.* We request that you indicate your assent to this agreement by your endorsement of a copy of this agreement and returning such copy to us, with a copy to the Borrower, and that the Borrower indicate its assent to the terms hereof by its endorsement of a copy of this agreement and returning such copy to us.

Yours very truly,

Central Bank of New Jersey

by _____

President

In consideration of your undertakings in the foregoing agreement, we are pleased to accept the terms thereof and agree to be bound by the obligations imposed on us therein.

E.15 Construction loan mortgage--New York title company form--property to be leased

COMMENT

Although state statutes applicable to mortgages vary considerably, the following protections for the mortgagee are generally included in a mortgage, regardless of where the real property is located: (1) insurance against fire losses must be carried by the mortgagor; (2) the mortgagor must pay taxes, assessments, sewer or water rents, and all other charges levied by governmental authorities; (3) buildings on the premises may not be altered, removed, or demolished without the mortgagee's consent; (4) awards for taking by eminent domain are to be applied first to reduce the mortgage debt; (5) personal property on the premises is subject to the mortgage; (6) upon a default in the payment of the mortgage debt or in the performance of other conditions of the mortgage, the full amount of principal and interest is to

become due; and (7) expenses incurred by the mortgagee to defend or uphold the lien of the mortgage are to be paid by the mortgagor.

If the property is to be leased, an additional protection for the mortgagee is an assignment of rents in the event of a default under the mortgage. There should also be a limitation on the right of the mortgagor to receive advance rentals which diminish the value of the leases as security for the debt.

Regardless of whether the mortgagee's interest is equitable, as under this mortgage, or whether the mortgagor has conveyed legal title to the mortgagee, the mortgagee is subject to the same treatment for tax purposes. The mere possession of a mortgage interest, whether legal or equitable, does not entitle the mortgagee to take any of the deductions arising in connection with the property, such as depreciation and taxes. Such items are deductions of the mortgagor. Even if the rents are assigned to the mortgagee in satisfaction of defaulted payments of the mortgage debt, the rents would nevertheless be treated as having been paid first to the mortgagor. That is, the rents would constitute ordinary income to the mortgagor, and the mortgagee would be considered to have received a nontaxable payment of a debt.

For further information, see Chapters 11, 12, and 19.

FORM

THIS MORTGAGE, made December 3, 2002, between Ashwood Shopping Center, Inc., a domestic corporation having its place of business at 148 Forest Avenue, in the Borough and County of Richmond, City and State of New York (the "Mortgagor"), and First Federal City Bank, a banking association created and existing under the laws of the State of New York, and having an office at 99 Park Avenue, in the Borough of Manhattan, City and County of New York (the "Mortgagee"), to secure the payment of an indebtedness in the sum of \$500,000, lawful money of the United States, or so much thereof as may be advanced, to be paid according to a certain bond, note, or obligation bearing even date herewith. The Mortgagor hereby mortgages to the Mortgagee all that certain plot, piece, or parcel of land, with the buildings and improvements thereon erected, situate, lying, and being in the Borough and County of Richmond, City and State of New York, bounded and described as follows:

(Insert description)

Together with all right, title, and interest of the Mortgagor in and to the land lying in the streets and roads in front of and adjoining such premises;

Together with all fixtures and articles of personal property now or hereafter attached to or used in connection with such premises, including, but not limited to, furnaces, boilers, oil burners, radiators, and piping, coal stokers, plumbing and bathroom fixtures, refrigeration, air conditioning and sprinkler systems, washtubs, sinks, gas and electric fixtures, stoves, ranges, awnings, screens, window shades, elevators, motors, dynamos, refrigerators, kitchen cabinets, incinerators, plants and shrubbery, and all other equipment and machinery, appliances, fittings, and fixtures of every kind in or used in the operation of the buildings standing on such premises, together with any and all replacements thereof and additions thereto;

Together with all awards heretofore and hereafter made to the Mortgagor for taking by eminent domain the whole or any part of such premises or any easement therein, including any awards for changes of grade of streets, which awards are hereby assigned to the Mortgagee, who is hereby authorized to collect and receive the proceeds of such awards and to give proper receipts and acquittances therefor, and to apply the same toward the payment of the mortgage debt, notwithstanding the fact that the amount owing thereon may not then be due and payable; and the Mortgagor hereby

2-Forms Federal Taxes Affecting Real Estate [E]

agrees, upon request, to make, execute, and deliver any and all assignments and other instruments sufficient for the purpose of assigning such awards to the Mortgagee, free, clear, and discharged of any encumbrances of any kind or nature whatsoever.

The Mortgagor covenants with the Mortgagee as follows:

1. *Payment.* That the Mortgagor shall pay the indebtedness as hereinbefore provided.
2. *Insurance.* That the Mortgagor shall keep the buildings on the premises insured against loss by fire for the Mortgagee's benefit; that he shall assign and deliver the policies to the Mortgagee; and that he shall reimburse the Mortgagee for all premiums paid for insurance made by the Mortgagee on the Mortgagor's default in so insuring the buildings or in so assigning and delivering the policies.
3. *Alterations.* That no building on the premises shall be altered, removed, or demolished without the Mortgagee's consent.
4. *Default in payment of principal or interest.* That the whole of such principal sum and interest shall become due at the option of the Mortgagee: after default in the payment of any installment of principal or of interest for 15 days; or after default in the payment of any tax, water rate, sewer rent, or assessment for 30 days after notice and demand; or after default after notice and demand either in assigning and delivering the policies insuring the buildings against loss by fire or in reimbursing the Mortgagee for premiums paid on such insurance, as hereinbefore provided; or after default upon request in furnishing a statement of the amount due on the mortgage and whether any offsets or defenses exist against the mortgage debt, as hereinafter provided. An assessment which has been made payable in installments at the application of the Mortgagor or lessee of the premises shall nevertheless, for the purpose of this paragraph, be deemed due and payable in its entirety on the day the first installment becomes due or payable or a lien.
5. *Receiver.* That the holder of this mortgage, in any action to foreclose it, shall be entitled to the appointment of a receiver.
6. *Taxes, assessments, etc.* That the Mortgagor shall pay all taxes, assessments, sewer rents, or water rates, and in default thereof, the Mortgagee may pay the same.
7. *Mortgage debt.* That the Mortgagor, within five days upon request in person or within ten days upon request by mail, shall furnish a written statement duly acknowledged of the amount due on this mortgage and whether any offsets or defenses exist against the mortgage debt.
8. *Notice.* That notice and demand or request may be in writing and may be served in person or by mail.
9. *Warranty of title.* That the Mortgagor warrants the title to the premises.
10. *Extended coverage on fire insurance.* That the fire insurance policies required by paragraph 2 above shall contain the usual extended coverage endorsement; that in addition thereto the Mortgagor, within 30 days after notice and demand, shall keep the premises insured against war risk and any other hazard that may reasonably be required by the Mortgagee. All of the provisions of paragraphs 2 and 4 above relating to fire insurance and the provisions of Section 254 of the Real Property Law construing the same shall apply to the additional insurance required by this paragraph.
11. *Foreclosure sale.* That, in case of a foreclosure sale, such premises, or so much thereof as may be affected by this mortgage, may be sold in one parcel.
12. *Expenses of foreclosure sale.* That if any action or proceeding be commenced (including an action to foreclose this

mortgage or to collect the debt secured thereby), to which action or proceeding the Mortgagee is made a party, or in which it becomes necessary to defend or uphold the lien of this mortgage, all sums paid by the Mortgagee for the expense of any litigation to prosecute or defend the rights and lien created by this mortgage (including reasonable counsel fees) shall be paid by the Mortgagor, together with interest thereon at the rate of nine (9) percent per year or the note rate, whichever is greater. Any such sum and the interest thereon shall be a lien on such premises, prior to any right or title to, interest in, or claim upon such premises attaching or accruing subsequent to the lien of this mortgage, and shall be deemed to be secured by this mortgage. In any action or proceeding to foreclose this mortgage, or to recover or collect the debt secured thereby, the provisions of law respecting the recovering of costs, disbursements, and allowances shall prevail unaffected by this covenant.

13. *Assignment of rents.* That the Mortgagor hereby assigns to the Mortgagee the rents, issues, and profits of the premises as further security for the payment of such indebtedness, and the Mortgagor grants to the Mortgagee the right to enter upon the premises for the purpose of collecting the same and to let the premises or any part thereof, and to apply the rents, issues, and profits, after payment of all necessary charges and expenses, on account of such indebtedness. This assignment and grant shall continue in effect until this mortgage is paid. The Mortgagee hereby waives the right to enter upon such premises for the purpose of collecting such rents, issues, and profits, and the Mortgagor shall be entitled to collect and receive such rents, issues, and profits until default under any of the covenants, conditions, or agreements contained in this mortgage, and agrees to use such rents, issues, and profits in payment of principal and interest becoming due on this mortgage and in payment of taxes, assessments, sewer rents, water rates, and carrying charges becoming due against such premises. The Mortgagee, however, may revoke such right of the Mortgagor upon any default, by giving five days' written notice. The Mortgagor shall not, without the Mortgagee's written consent, receive or collect rent from any tenant of such premises or any part thereof for a period of more than one month in advance. In the event of any default under this mortgage the Mortgagor shall pay monthly in advance to the Mortgagee, or to any receiver appointed to collect such rents, issues, and profits, the fair and reasonable rental value for the use and occupation of such premises or of such part thereof as may be in the Mortgagor's possession. Upon default in any such payment the Mortgagor shall vacate and surrender the possession of such premises to the Mortgagee or to such receiver, and in default thereof may be evicted by summary proceedings.

14. *Default in observation of conditions.* That the whole of such principal sum and the interest shall become due at the option of the Mortgagee if any of the following events shall occur: (a) failure to exhibit to the Mortgagee, within ten days after demand, receipts showing payment of all taxes, water rates, sewer rents, and assessments; (b) the actual or threatened alteration, demolition, or removal of any building on the premises without the Mortgagee's written consent; (c) the assignment of the rents of the premises or any part thereof without the Mortgagee's written consent; (d) if the buildings on such premises are not maintained in reasonably good repair; (e) failure to comply with any requirement or order or notice of violation of law or ordinance issued by any governmental department claiming jurisdiction over the premises within three months from the issuance thereof; (f) if on application of the Mortgagee two or more fire insurance companies lawfully doing business in the State of New York refuse to issue policies insuring the buildings on the premises; (g) in the event of the removal, demolition, or destruction in whole or in part of any of the fixtures or articles of personal property covered hereby, unless the same are promptly replaced by similar fixtures and articles of personal property at least equal in quality and condition to those replaced, free from any security interests or other encumbrances thereon and free from any reservation of title thereto; (h) after 30 days' notice to the Mortgagor, in the event of the passage of any law deducting from the value of land for the purposes of taxation any lien thereon, or changing in any way the taxation of mortgages or debts secured thereby for state or local purposes; or (i) if the Mortgagor fails to keep, observe, and perform any of the other covenants, conditions, or agreements contained in this mortgage or of those contained in the building loan contract hereinafter mentioned.

15. *Advances.* That the Mortgagor shall, in compliance with Section 13 of the Lien Law, receive the advances secured hereby and shall hold the right to receive such advances as a trust fund to be applied first for the purpose of paying the cost of the improvement and shall apply the same first to the payment of the cost of the improvement before using any part of the total of the same for any other purpose.

2-Forms Federal Taxes Affecting Real Estate [E]

16. *Building loan contract.* This mortgage is made pursuant to a certain building loan contract between the Mortgagor and the Mortgagee dated December 3, 1994, and intended to be filed in the office of the Clerk of the County of Richmond on or before the date of the recording of this mortgage, and is subject to all the provisions of such contract as if they were fully set forth herein and made part of this mortgage.

17. *Performance.* That the Mortgagor shall observe and timely perform all covenants, conditions, and agreements contained in any lease now or hereafter affecting the premises or any portion thereof on the part of the landlord to be observed and performed.

18. *Modification of leases.* That, pursuant to the provisions of Section 291-f of the Real Property Law, the Mortgagor shall not cancel, abridge, or otherwise modify any lease of such premises or of any part thereof.

19. *Corporate authority.* That the Mortgagor represents that: (1) the Certificate of Incorporation of the Mortgagor does not require a vote or consent of the shareholders to authorize the execution and delivery of this mortgage, and (2) the Mortgagor's Board of Directors has by proper action, which has not been revoked or modified, duly authorized the execution and delivery of this mortgage by the officer or officers who have executed the same.

20. *Schedule of leases.* That, within 15 days after demand, the Mortgagor shall furnish to the Mortgagee a schedule, certified to by the Mortgagor, setting forth all leases of space in the premises then in effect, including in each case the name of the tenant, a description of the space occupied by such tenant, the annual rental payable by such tenant and such other pertinent information with respect to such leases as the Mortgagee may reasonably request. As additional and collateral security for the payment of the principal sum and interest secured hereby, the Mortgagor, within ten days after demand by the Mortgagee, shall assign to the Mortgagee all right, title, and interest of the Mortgagor, as landlord, in and to each lease of space in the premises. Each such instrument of assignment shall provide, among other things, that the assignor shall be permitted to collect, use, and enjoy the rents payable under each such lease as such rents become due so long as there is no default under this mortgage.

21. *Prepayment privilege.* That the Mortgage shall, after completion of the improvements, have the privilege of prepaying the principal, in whole or in part, at any time without penalty.

22. *Modification; binding effect.* This mortgage may not be changed or terminated orally. The covenants contained in this mortgage shall run with the land and bind the Mortgagor, the the heirs, personal representatives, successors, and assigns of the Mortgagor and all subsequent owners, encumbrancers, tenants, and subtenants of the premises, and shall inure to the benefit of the Mortgagee, the personal representatives, successors, and assigns of the Mortgagee and all subsequent holders of this mortgage.

In witness whereof this mortgage has been duly executed by the Mortgagor.

E.16 Construction loan deed of trust

COMMENT

In jurisdictions where the deed of trust rather than a mortgage is utilized to provide a security interest in real property, the lender should be afforded the same kinds of protection as those afforded a mortgagee in jurisdictions where a mortgage is the customary security device. The technique for establishing a deed of trust as the security interest is by a conveyance of the fee title by the owner of the fee to trustees designated by the lender. The terms of the trust are set forth in the deed of trust and are fundamentally the same as those contained in a mortgage. The lender retains the power to appoint substitute trustees. While this deed of trust secures a construction loan, the provisions necessarily included in the instrument in order adequately to protect the lender would be appropriate for a long-term security instrument as well. It should be noted that the deed of trust is not the most common form of encumbrance that is used and the practitioner should ascertain the form that is proper for the jurisdiction in which the property is located.

For further information, see Chapters 11, 12, and 19.

FORM

DEED OF TRUST made November 25, 2002, between Boswell Developers, Inc., a corporation organized and existing under the laws of the State of New York (the "Borrower"), and Paul Nielsen and James Crabtree (the "Trustees").

Whereas the Borrower is indebted to Municipal Trust Company, a New York corporation, in the principal sum of \$2,500,000, for money loaned, for which amount the Borrower has made and delivered a promissory note of even date herewith (the "Note"), payable to Municipal Trust Company, or order, on April 1, 2006, at its office at 20 Fifth Avenue, New York, New York, or at such other place as the holder may in writing direct, together with interest on the principal sum or so much thereof as shall at any time be advanced, at the rate of 6 percent per year, payable monthly on the first day of each month until the Note is paid in full, except that if any interest payment shall be due on a Saturday, Sunday, or public holiday the maker shall pay interest thereon to the next succeeding business day; and

Whereas the Note provides that the principal sum evidenced by the Note shall become due and payable at the option of the holder thereof on the happening of any default or event by which, under the terms of this Deed of Trust or under the terms of the Construction Loan Agreement hereinafter referred to, such principal sum may or shall become due and payable; and that in any event such principal sum or so much thereof as shall have been advanced with interest thereon shall become immediately due and payable at the sole option of Municipal Trust Company, its successors and assigns, at any time subsequent to the earlier of (1) April 1, 2006, or (2) 60 days subsequent to the date of issuance of a permanent Certificate of Occupancy or an irrevocable temporary Certificate of Occupancy permitting use of the entire building to be erected pursuant to such Construction Loan Agreement; and

Whereas the Borrower desires to secure the prompt payment of such principal and interest and the full performance of the covenants herein contained, as well as the prompt payment of principal and interest on any renewal, extension, or change of such Note, and any note given in substitution thereof, which renewal, extension, change, or substitution shall not impair in any manner the validity or priority of this Deed of Trust; and also to secure reimbursement to any Trustee acting hereunder and to any purchaser or grantee under any sale under the provisions of this Deed of Trust for all money which may be advanced as herein provided, and for all costs and expenses, including reasonable attorneys' fees, incurred or paid on account of any litigation at law or in equity which may arise in respect of this Deed of Trust, or the indebtedness, or the property herein mentioned, or obtaining possession of the property after any sale which may be made as hereinafter provided;

Now, therefore, under this Deed of Trust, the Borrower in consideration of the premises and One Dollar in lawful money to it in hand paid by the Trustees, the receipt of which, before the signing and delivery of these presents, is hereby acknowledged, does hereby grant and convey unto the Trustees, their successors and assigns, in trust in fee

2-Forms Federal Taxes Affecting Real Estate [E]

simple, the following described land and premises, with the improvements, including any building hereafter constructed or placed thereon, easements, rights, ways, and appurtenances, now or hereafter belonging thereto, hereinafter called the Property, situated in the District of Columbia:

(Insert description)

together with all right, title, and interest of the Borrower in and to all machinery, apparatus, equipment, fittings, and fixtures of every kind and nature whatsoever, now owned or hereafter acquired by the Borrower and now or hereafter placed in, affixed to, or used in connection with the operation of, the Property. Such machinery, apparatus, equipment, fittings, and fixtures shall include, but not be limited to, all engines, furnaces, boilers, stokers, pumps, heaters, tanks, dynamos, motors, generators, fans, blowers, vents, switchboards, electrical equipment, heating, plumbing, lifting and ventilating apparatus, air cooling and air conditioning apparatus, gas and electrical fixtures, elevators, escalators, shades, awnings, screens, radiators, partitions, ducts, compressors, vacuum cleaning systems, call systems, and fire prevention and extinguishing apparatus. All of such machinery, apparatus, equipment, fittings, and fixtures are hereby understood and agreed to be part and parcel of the Property and appropriated to the use of the Property, whether affixed or annexed or not, and shall for the purposes of this Deed of Trust be deemed to be fixtures and accessory to the freehold and a part of the realty as between the parties hereto, and shall be deemed to be a portion of the security for the indebtedness herein mentioned and to be subject to this Deed of Trust, in and upon the following uses and trusts:

1. *Borrower's rights absent default.* Until any default in the payment of any indebtedness hereby secured, or until the breach of any covenant herein contained, the Borrower, its successors and assigns, shall possess and enjoy the Property, and receive the rents, issues, and profits therefrom. Upon full payment of the Note, and any extension or renewal thereof, and interest thereon, and all sums advanced or expended as herein provided and all other proper costs, charges, expenses, commissions, and half-commissions, incurred at any time before a sale as hereinafter provided for, the Trustees shall release and reconvey the Property, at the Borrower's cost, to the Borrower, or to any party then claiming through or under it.

2. *Obligations of borrower.* The Borrower shall be required to do the following:

(a) In the event of the assessment or imposition of any tax, assessment, or other charge, not including income taxes, pursuant to any laws of the District of Columbia, or any subdivision thereof, upon any holder of the Note or such holder's interest in the Property by reason of such indebtedness, or upon this Deed of Trust, or the debt secured hereby, or the note evidencing such indebtedness, as well as any specific mortgage tax or intangible tax now or hereafter imposed by law in such jurisdiction, such holder shall have the right to give written notice to the Borrower requiring the Borrower to pay the debt secured hereby within 120 days after receipt of such notice. The Borrower shall not be required to pay the debt secured hereby if it or its successors or assigns, without violation of usury laws, pays any such tax, assessment, or charge in full as it becomes due and payable.

(b) The Borrower shall pay the indebtedness secured hereby and the interest thereon at the time and in the manner provided in the Note. Upon default in such payment, the holder of the Note shall have the option to cause the whole indebtedness to become immediately due and payable.

(c) The Borrower shall keep the Property and the fixtures thereon constantly insured against loss or damage by fire and the casualties included under extended coverage and against loss by other casualty including, without limitation, war risk or war damage, if available, in amounts and under types of policies in companies satisfactory to the holder of the Note with losses payable to the holder in such form as the holder may require. The Borrower shall deliver such policy or policies with evidence of the payment of premiums thereon to such holder. In the event the Borrower shall at any time fail to perform such requirements, then such holder may cause the Property to be insured and may pay the premiums for such insurance, and any premium paid or expense incurred in so doing shall be secured by this Deed of Trust and shall

2-Forms Federal Taxes Affecting Real Estate [E]

be repaid with interest at the rate of 6 percent per year by the Borrower within five days after demand. The right of such holder to cause the Property to be insured and to pay any such premium shall not be construed to prevent it from exercising an option to cause the whole indebtedness hereby secured to become immediately due and payable upon such default. If, however, such holder shall exercise the right to cause the Property to be insured or to pay any such premium, such holder shall have the option to cause the whole indebtedness to become immediately due and payable only if repayment is not made as above provided. Such holder may, at its option, apply any insurance proceeds received to the payment of the indebtedness secured hereby or make such proceeds available to the Borrower for the replacement and repair of the Property, under such terms and conditions as it shall see fit.

(d) The Borrower shall pay all taxes, assessments, and charges that may be levied or assessed on or against the Property as the same become due and payable, and deliver official receipts to the holder of the Note on demand showing such payment to have been made. Upon default in such payment, the holder may, at its option, pay or cause to be paid the amount due, and such amount, with any expenses of payment, shall be secured by this Deed of Trust, and shall be repaid with interest at the rate of 6 percent per year by the Borrower within five days after demand. No such right of payment by the holder of the Note shall prevent it from exercising its option to cause the whole indebtedness hereby secured to become immediately due and payable upon such default. If, however, such holder shall pay the amount due, it shall have the option to cause the whole indebtedness to become immediately due and payable only if repayment thereof is not made as above provided.

(e) The Borrower shall at all times maintain the Property and the fixtures thereon in good order and repair, and shall not commit any waste or injury to such an extent as to impair the value of the same as security for the debt. Upon the failure of the Borrower to perform this requirement, or upon actual or threatened demolition or removal of the building hereafter constructed or placed on the Property or the fixtures or any part thereof, the whole indebtedness hereby secured shall become immediately due and payable at the option of the holder of the Note.

(f) The Borrower shall comply with the requirements of all laws and regulations in force in the District of Columbia or any subdivision thereof and with all orders, decrees, or requirements of all governmental bodies having jurisdiction over, or with respect to, the Property. The Borrower may, however, after written notice to the holder of the Note, contest any such law, regulation, order, decree, or requirement, in any reasonable manner which will not affect the title of the Trustees to any part of the Property, or the lien of this Deed of Trust, or the maintenance of that standard of physical condition of the Property which is provided for in subparagraph (e) of this paragraph.

3. *Dispossession of borrower.* Upon default by the Borrower in the performance of any requirement provided for in this Deed of Trust or in the Note secured hereby which under this Deed of Trust gives the holder of the Note the option to cause the whole indebtedness to become immediately due and payable, the Trustees, at the written request of such holder, shall have the right forthwith, after any such default, to enter upon and take possession of the Property, to let the Property and to receive all the rents, issues, and profits therefrom which are overdue, due, or to become due, and to apply the same after payment of all necessary charges and expenses against the balance of the then remaining indebtedness hereby secured. For this purpose, such rents and profits are, in the event of any such default, hereby assigned as security to the Trustees. The Borrower or any subsequent owner of the Property shall in such event pay to the Trustees, in advance, a reasonable rent for the property occupied by them. In default of such payment, the Borrower or such subsequent owner may be dispossessed by the usual summary proceedings. Any tenant defaulting in the payment to the Trustees of any rent may be likewise dispossessed. This covenant becomes effective either without or with any action brought to foreclose this Deed of Trust and without applying at any time for a receiver of such rents. Such collection and application of rents shall in no manner be taken or held to interfere with or abridge the power of sale and disposition granted to the Trustees by this instrument, nor shall such collection and application of rents in any manner at law or in equity discharge or relieve the Borrower, its successors or assigns, from the full payment of the balance of the indebtedness hereby secured, in strict accordance with the terms hereof and of the Note hereby secured.

4. *Sale upon borrower's default.* Upon default by the Borrower in the performance of any requirement provided for in

this Deed of Trust or in the Note secured hereby which under this Deed of Trust gives the holder of the Note the option to cause the whole indebtedness to become immediately due and payable, the Trustees, at the written request of such holder, may sell the Property at public auction, at such time and place, upon such terms and conditions and after such previous public notice, and with such postponement of sale or resale as to the Trustees shall seem best for the interests of all parties concerned. The Trustees shall convey fee simple title to the purchaser in such sale, and the purchaser shall be discharged from all liability for the application of the purchase money. The Trustees shall apply the proceeds of the sale, after paying all expenses of the sale, all taxes and assessments thereon due, all sums advanced as herein provided for, with interest as above set forth, and a Trustees' commission of 1 percent on the gross amount of the sale, to the payment of the then remaining indebtedness hereby secured whether then due or not, and the interest thereon to the date of payment. Any proceeds of the sale in excess of the amount so applied, less the expenses, if any, of obtaining possession of the Property, shall be paid to the Borrower, its successors and assigns, upon the surrender and delivery to the purchaser of possession of the Property so sold and conveyed. If the Property shall be advertised for sale as provided in this paragraph and not sold, the Trustees shall be entitled to one-half of the above commission to be computed on the amount of the debt then remaining indebtedness.

5. *Trustees.* The irrevocable power to appoint a substitute Trustee or Trustees hereunder is expressly granted to the holder of the Note, to be exercised at any time, without notice and without specifying any reason therefor, by filing, for record in the office where this instrument is recorded, a deed of appointment. Such power of appointment of a successor Trustee or Trustees may be exercised as often and whenever such holder deems it advisable. Upon the recording of such deed or deeds of appointment, the Trustee or Trustees so appointed shall thereupon without any further act or deed or conveyance become fully vested with identically the same title and estate in and to the Property with all the rights, powers, trusts, and duties of their, his, or its predecessor hereunder, with like effect as if such Trustee or Trustees were originally named as trustee or trustees hereunder. Whenever in this Deed of Trust reference is made to the Trustee or Trustees, it shall be construed to mean the Trustee or Trustees for the time being, whether original or successor or successors in the trust.

6. *Condemnation.* Should all or any part of the Property conveyed hereby be condemned or taken through eminent domain proceedings, all such part of any award or proceeds derived from such proceedings, as the holder of the Note in its sole discretion may determine, shall be paid to such holder and applied against the then remaining indebtedness hereby secured, and all such proceeds are hereby assigned to such holder to the extent of the then remaining indebtedness hereby secured.

7. *Renewal, extension, waiver.* The holder of the Note, at its option, may at any time renew or extend this Deed of Trust or the Note secured hereby, or alter or modify the same in any way and (except to the detriment of the Borrower) may waive any of the covenants and conditions of the Note or this Deed of Trust in whole or in part either at the request of the Borrower or of any other person then having an interest in the Property or in any way liable on the indebtedness secured hereby; take other security for the indebtedness or release any portion of the Property, or release any party primarily or secondarily liable on the Note; grant such extensions or indulgences in relation to the Note and this Deed of Trust and the payment thereof; and apply to the principal or interest of the indebtedness secured hereby any part or all of the proceeds obtained by sale or otherwise as herein provided, without resort or regard to other security. Such waivers, renewals, extensions, or other indulgences may be granted without in any way releasing the Borrower from any covenant, agreement, or condition of the Note or this Deed of Trust, or affecting the lien of this Deed of Trust on all Property covered hereby and not specifically released.

8. *Subordinate liens.* If the Borrower shall grant any lien on the Property subordinate to this Deed of Trust, such subordinate lien shall be subject to the condition that the time for the payment of the indebtedness hereby secured and the manner and amount of payment thereof, and the benefits of the security afforded hereby and by the Note, or any obligation substituted for the Note, may, without the consent of such subordinate lienor, and without any obligation to give notice of any kind thereto, be extended, re-extended, or suspended on any terms whatsoever without in any manner affecting the priority of the lien hereby created, as security for the payment of the indebtedness secured hereby.

9. *Attornment.* If the Borrower has leased the Property or any part thereof, any such lease shall be subject to the condition that, in the event of any foreclosure sale hereunder, such lease shall continue in full force and effect and the tenant thereunder will, upon request, attorn to and acknowledge the foreclosure purchaser as landlord, unless the holder of the Note, or such foreclosure purchaser or the Trustees hereunder, shall, at or prior to the time of such sale or within 60 days thereafter, notify the tenant in writing to vacate and surrender the leased premises within 90 days from the date of sale. In the event of such notice, any such lease shall fully terminate and expire at the end of such 90-day period. The holder of the Note hereby consents to the creation of such leases subject to such condition.

10. *Incorporation of construction loan agreement.* This Deed of Trust and the Note secured hereby are executed and delivered to secure moneys advanced or to be advanced in accordance with a Construction Loan Agreement of even date herewith between the Borrower and Municipal Trust Company, which Construction Loan Agreement is incorporated herein by this reference. Failure by the Borrower to carry on or complete the construction of improvements in accordance with such Construction Loan Agreement or any other default by the Borrower under such Construction Loan Agreement shall constitute a default under this Deed of Trust and the holder of the Note may at its option cause the entire indebtedness secured by this Deed of Trust to become immediately due and payable. In the event of such default by the Borrower, and whether or not such holder shall cause the indebtedness secured hereby to become immediately due and payable, the Trustees at the written request of such holder, after due notice to the Borrower, may enter upon the Property, employ watchmen to protect the improvements thereon from theft or injury, continue all outstanding contracts for the erection and completion of improvements, enter into any further contracts and obligations wherever necessary, either in their own name as Trustees hereunder or in the name of the Borrower, and pay all debts, obligations, and liabilities incurred thereby. All sums so advanced by the Trustees or by such holder and all sums advanced under such Construction Loan Agreement shall be secured by this Deed of Trust and, to the extent they shall not be included in the principal amount of the indebtedness secured hereby, shall be due and payable on demand with interest at the rate of 6 percent per year.

11. *Deferral of tax payments.* Notwithstanding any other provisions of this Deed of Trust, the Borrower, upon giving to the holder of the Note written notice, shall have the right to defer payment of any tax or assessment levied or imposed against the Property so long as the Borrower shall in good faith and with due diligence at its own expense contest the validity thereof by appropriate legal proceedings. Pending any such legal contest, such holder shall not have the right to pay or discharge such taxes or assessments thereby contested unless such payment is necessary to protect the title to the Property. Such delay by the Borrower in paying the same until final determination of such disputed matter shall not be deemed a default in the performance of the conditions of this Deed of Trust; provided that upon such final determination the Borrower pays such tax or assessment as finally determined together with penalties and interest, if any, thereon; and provided further that on demand of such holder the Borrower shall furnish indemnity satisfactory to such holder against loss or damage on account thereof.

12. *Notice.* Any notice or demand that may be given or made hereunder or with reference to this Deed of Trust shall be sufficient notice or demand if mailed, postage prepaid, addressed to the Borrower at 35 Third Avenue, New York, New York, and to the Municipal Trust Company at 20 Fifth Avenue, New York, New York. Such notices shall be considered to have been given at the time they are deposited in any letter box or post office of the United States Government.

13. *Binding effect.* All provisions, covenants, and agreements contained in this Deed of Trust shall bind, inure to the benefit of, and equally relate to the Borrower, its successors and assigns, and any other succeeding owners of the Property jointly and severally, and the Trustees, the survivor of them or substituted Trustees or Trustee, or other successor or successors in trust and those claiming by, through, or under them. The provisions herein relating to the Municipal Trust Company shall equally relate to its successors and assigns or other holder or holders of the Note secured hereby, including any endorsee, assignee, or pledgee of the Note receiving title thereto by or through Municipal Trust Company, its successors or assigns.

14. *Warranty of title.* The Borrower warrants specially the Property hereby conveyed, and that it shall execute such further assurances with respect to the Property as may be requisite or necessary for vesting title in the Trustees or Trustee acting hereunder for the time being, in and upon the same trusts hereinbefore declared.

In witness whereof the Borrower has caused these presents to be executed in its corporate name as of the day, month, and year first hereinabove written.

E.17 Commitment for permanent real estate loan

COMMENT

In this agreement the institutional lender offers, through the medium of its correspondent, to commit itself to the making of a permanent loan for the initial part of the development, as illustrated here.

Second state financing:

In this commitment, the lender's obligation to proceed with financing the second section is expressly conditioned upon the achievement of a satisfactory rent roll for the first section. In this manner, the institution's financial backing is tied to the demonstrated success of the project.

The long-term lender will issue a commitment for the next stage of the project (in this case, the third and last sections) when it is satisfied that the development has demonstrated its financial feasibility. The form of such commitment will be substantially the same as the commitment for the first two sections but will provide for consolidation of all four loans when the final advance is made for the last section.

Collateral:

The loan is collateralized, in part, by the borrower's granting a security interest in certain fixtures included among the improvements to be installed. Typically, the lender will advance the funds to the borrower so that the latter may acquire the specific assets. The lender obtains ultimate protection with respect to such items by creating a purchase money security interest in the fixtures. Filing of such a security interest will be necessary to perfect the lender's lien on the personalty.

Prepayment penalties:

Prepayment penalties, here labeled "surrender payments," are deemed compensation for the use of money for a shorter period than the period to maturity stated in the mortgage or loan instrument. In that sense, they are deemed interest, to which the general rules both of deductibility (by borrower) and taxability (to lender) would apply.

For further information, see Chapters 11, 12, and 19.

2-Forms Federal Taxes Affecting Real Estate [E]

Newark, New Jersey

June 30, 2002

Horizon Gardens, Inc.

P.O. Box 123

Union, New Jersey

Re: Horizon Gardens, Inc.--Sections I and II
South Side of Allen Road
Borough of Claremont
Middlesex County, New Jersey

Gentlemen:

We have received a commitment from the Urban Life Insurance Company for a permanent mortgage loan covering the captioned property, containing the following provisions:

1. *Amount of loan.* The loan shall be in the total amount of \$3,035,000.
2. *Borrower.* The borrower is Horizon Gardens, Inc.
3. *Term of loan and repayment.* The term of the loan shall be 20 years from the date of final payment to the borrower. The loan shall be repaid in equal monthly installments of \$19,601.05 each, beginning on the first day of the third month after the date of final payment to the borrower, and each succeeding month thereafter, to be applied first to interest at the rate of 5.80 percent per year, and the balance on account of principal.
4. *Prepayment.* The borrower may pay the entire balance of the loan (a) on the first day of any month commencing five years from the date of the first monthly payment of principal and interest, by giving 30 days' written notice and by paying a surrender charge of 3 percent, computed on the balance prepaid, and (b) on the first day of any month commencing six years from the date of the first monthly payment of principal and interest, by giving 30 days' written notice and by paying a surrender charge of 2.5 percent, computed on the balance prepaid, and reducing 1.5 percent each year thereafter to a minimum of 1 percent.
5. *Location and size of lot.* The real property affected by the permanent mortgage loan is located at the south side of Allen Road on a plan of Horizon Gardens situated in the Borough of Claremont, Middlesex County, New Jersey, as revised May 13, 2002, and designated Sections I and II and which lies in the southwest corner of the plat consisting of approximately 800,000 square feet.
6. *Improvements.* The improvements on the property shall include 15 two-story, frame, brick veneer apartment buildings consisting of 376 apartments, 1,412 rooms, 376 bathrooms, and on-lot parking for 562 cars.
7. *Insurance value.* The insurance value of the property affected by the permanent mortgage loan shall be \$3,870,000,

2-Forms Federal Taxes Affecting Real Estate [E]

including fixtures valued at \$140,000. We shall be furnished with original fire insurance policies which must be based on the above insurable value, but in no event is the insurance to be less than \$3,035,000.

8. *Liability.* The note shall provide that the sole remedy of the holder shall be foreclosure of the mortgage on the real property in the event of default.

9. *Mortgage.* The note shall be secured by a mortgage which shall be a first lien on the unencumbered, marketable, fee simple absolute title to the real property, to easements appurtenant thereto (if any), and to all improvements to the property described in this commitment, free of the possibility of all (a) prior mechanics' liens, (b) prior materialmen's liens, or (c) special assessments for work completed or under construction on the date of the first payment on account of the loan. All title exceptions shall be subject to the approval of the Law Division of the Urban Life Insurance Company.

10. *Security interest.* (a) The borrower shall grant to us or our designee a security interest in fixtures consisting of 376 ranges, 376 refrigerators, and 376 sleeve air conditioning units, and all additions and accessions thereto, and all proceeds of their sale or disposition.

(b) The borrower shall execute alone or together with us or with our designee as the secured party any financing, continuation, or termination statement or other document or procure any document, and pay all connected costs, necessary to protect such security interest against the interest of third persons.

(c) The borrower shall not permit any other security interest to attach to any of such fixtures, permit such fixtures to be levied upon under any legal process, or permit anything to be done that may impair the value of such fixtures or the security intended to be afforded thereby.

11. *Survey.* We shall be furnished with a final survey from a licensed surveyor upon completion of all improvements. The survey shall show the dimensions and total square foot area of the plot, interior lot lines, if any, the dimensions and location of all improvements, parking areas, and easements, and the location of adjoining streets and the distance to and name of the nearest intersecting streets.

12. *Title policy.* We shall be furnished with a title policy for the loan amount insuring us as the holder of the mortgage from a title company acceptable to us.

13. *Taxes.* All taxes and assessments affecting the real property or any part thereof shall be paid when due, and the mortgage shall require the borrower to pay concurrently with each installment of principal and interest payable on the note such amount as in the mortgagee's discretion will enable it to pay (out of moneys so paid to the mortgagee), at least 30 days before due, all taxes, assessments, and similar charges affecting the real property. No interest shall be payable on such deposits.

14. *Certificate of occupancy.* We shall be furnished with a certificate of occupancy and other evidence satisfactory to us indicating that all improvements and their use comply with all applicable zoning, building, and other governmental laws and requirements.

15. *Leases.* All leases to be executed by tenants will contain no rental concessions, nor will the leases contain any provision which would cut off or impair the lien of the mortgage. This must be certified to by the closing attorney at the time of the closing of the permanent loan. In addition, all leases shall contain a clause, satisfactory to our attorney, subordinating the leases to the mortgage contemplated herein, together with any future advances or modifications thereof.

16. *Approval of documents.* Each document required in connection with this loan shall be delivered to, and shall be in form and substance acceptable to, the Law Division of the Urban Life Insurance Company. Without limiting the

generality of the foregoing, the detailed legal description of the real property set forth in the mortgage shall be acceptable to the Law Division of the Urban Life Insurance Company. The survey, title report, and drafts of all documents shall be submitted to the Law Division of the Urban Life Insurance Company for approval.

17. *Survival of representations.* Except as may be otherwise required by this commitment, the loan, the rental income of the real property, the credit of the borrower, and all other features of the transaction shall be as represented to us without material, adverse change. No part of the real property shall have been damaged and not repaired to our satisfaction nor taken in condemnation or other like proceeding, nor shall any such proceeding be pending. Neither the borrower nor any tenant nor any assignee of such tenant nor any subtenant, nor any guarantor of the loan or any such lease or sublease, shall be involved in any bankruptcy, reorganization, or insolvency proceeding.

18. *Plans and specifications.* The building or buildings and all other improvements contemplated by this commitment (including any grading, seeding, and landscaping and all other on-site and off-site improvements) shall be completed in accordance with plans and specifications to be approved in writing by our architect and shall be equipped and paid for to our satisfaction, and each such building shall be ready for occupancy. The representatives of the Urban Life Insurance Company shall have the right to inspect all such improvements periodically during and after construction. Periodic inspections during construction shall be made, and construction shall be approved, by the architect of the Urban Life Insurance Company or its designee. All corrections required by them must be complied with prior to the next construction advance. No changes are to be made in the original plans and specifications without our written approval.

19. *Signs.* By acceptance of this commitment, permission is granted by the owner for the erection of a sign during the construction period, indicating the source and origination of permanent financing.

20. *Adjoining streets.* Evidence is to be submitted that all streets adjoining the real property have been completed, dedicated, and accepted for maintenance and public use by the appropriate governmental authorities.

21. *Conditions of commitment.* The plans and specifications prepared by T. A. York, Architect, must be reviewed and approved by the Urban Life Insurance Company. In addition to all requirements of its architect, the following, including the use of the specified materials, are conditions of this commitment:

- (a) Compliance with all local codes and ordinances.
- (b) The Urban Life Insurance Company is to be furnished with final heating plans and specifications for its review and approval.
- (c) 235# asphalt shingle roof.
- (d) 1/2" sheetrock interior partitions.
- (e) Full ceramic tile baths.
- (f) #1 oak flooring.
- (g) 30" ranges and 12 c/f refrigerators.
- (h) Aluminum single-hung windows.

22. *Utility lines.* The necessary permanent easements, subject to the approval of the Law Division of the Urban Life Insurance Company, must be supplied with all utility lines which are necessary for the operation of the project. These

2-Forms Federal Taxes Affecting Real Estate [E]

utilities shall include, but not be limited to, gas, electricity, water, and sewerage.

23. *Zoning compliance.* Evidence, acceptable to the Law Division of the Urban Life Insurance Company, must be supplied confirming compliance with all local zoning requirements with regard to, but not limited to, the setbacks of all buildings.

24. *Swimming pool.* An additional parcel of land at the southerly end of the property shall be encumbered by the mortgage, and shall have constructed upon it a swimming pool of a minimum size of 5,000 square feet. At the time of the final disbursement of either section of this loan, we shall require permanent access to the pool.

25. *First section of loan.* The loan shall be made as Section I and Section II, in accordance with the market plot plan dated May 13, 2002. We shall not be obligated for the second section until the first section has been satisfactorily completed and occupied in accordance with the rental condition stated below. The following conditions shall apply to Section I only:

(a) *Amount of loan.* \$1,600,000.

(b) *Improvement.* Completion of construction of eight buildings consisting of 200 apartments, 748 rooms, 200 bathrooms, all the land designated as Section I and Section II, the additional land in the area of the swimming pool, and the completed swimming pool.

(c) *Term.* Twenty years after date of final payment to the borrower.

(d) *Interest rate.* 5.80 percent per year.

(e) *Conditions.* Equal monthly payments by the borrower of \$10,333.34 each, beginning on the first day of the third month after final payment to the borrower, and each succeeding month thereafter, which are to be applied first to interest and the balance on account of principal.

(f) *Mortgage.* The note shall be secured by a mortgage upon all of the land heretofore specified.

(g) *Insurance value.* \$2,000,000. We shall be furnished with the original fire insurance policies which must be based on the insurable policies which must be based on the insurable value, but in no event is the insurance to be less than \$1,600,000.

(h) *Expiration date.* The commitment in respect of Section I will expire April 30, 2003, by which time the final disbursement must be made and the loan assigned to the Urban Life Insurance Company.

26. *Second section of loan.* The following conditions shall apply to Section II only:

(a) *Amount of loan.* \$1,435,000.

(b) *Improvement.* Completion of seven additional buildings consisting of 176 apartments, 664 rooms, 176 bathrooms.

(c) *Term.* Twenty years after date of final payment to the borrower.

(d) *Interest rate.* 5.80 percent per year.

(e) *Conditions.* Equal monthly payments by the borrower of \$9,267.71 each, beginning on the first day of the third month after finally payment to the borrower, and each succeeding month thereafter, which are to be applied first to

interest and the balance on account of principal.

(f) *Mortgage.* The note shall be secured by a mortgage upon all of the land heretofore specified.

(g) *Insurance value.* \$1,870,000. We shall be furnished with the original fire insurance policies which must be based on the insurable value, but in no event is the insurance to be less than \$1,435,000.

(h) *Rental condition.* The eight buildings in Section I shall have a gross rental income from not more than 77 percent of the apartments in the buildings on an unfurnished basis of not less than \$214,000, and the space rented shall be rented on a basis so that if the building were 100 percent rented, the annual rental would be at least \$279,500. Such apartments shall be occupied by tenants on a current rent paying basis under written leases or rental agreements. Horizon Gardens, Inc., shall give us a rent roll certified to be correct indicating that apartments and the annual rental therefrom relied upon to satisfy this condition. No rental concession to tenants shall have been made, and the Horizon Gardens, Inc., certificate shall so state.

(i) *Consolidation.* At the time of the final disbursement on Section II of this loan, it will be consolidated with the loan made pursuant to Section I. The consolidated loan must be a first lien on the entire property, and the Urban Life Insurance Company must be furnished with title insurance, satisfactory to its Law Division, to this effect.

(j) *Expiration date.* The commitment in respect of Section II will expire April 30, 2004, by which time the final disbursement must be made, and the loan assigned to the Urban Life Insurance Company and consolidated with the loan made pursuant to Section I.

(k) *Interim subordination.* If necessary for construction loan purposes in connection with Section II of this commitment, only that portion of the land designated as Section II may be subordinated in order to provide the interim lender with a valid first lien. However, any such subordination shall be in such a manner as not to disturb any easements or other requirements as provided for in other sections of this commitment.

27. *Closing.* Howard Wood, Esq., shall be the closing and disbursing attorney in respect of this case and all legal expenses including survey costs, title costs, recording charges, etc., are to be without charge to this company. We shall receive a letter from the title company indicating that Mr. Wood is approved and bonded by such title company, if such a letter is not now in our files.

28. *Deposit.* Upon acceptance of this commitment, you shall deposit with us a check in the amount of 1 percent of the amount of the mortgage, as pertains to each section, which will be held in escrow until the time of the first construction advance, at which time this deposit will be considered income earned by us for services rendered. If for any reason this loan is not assigned to the Urban Life Insurance Company pursuant to the provisions hereof, this deposit must be remitted by us to the Urban Life Insurance Company as the consideration for the commitment's not having been fulfilled.

29. *Disbursements for material and labor.* We shall forward to Mr. Wood the permanent mortgage and mortgage note forms, to be drawn in accordance with the terms of our permanent mortgage commitment. The executed forms of the mortgage and mortgage note, together with the necessary title binder, survey, and other papers, as required, will be returned to us. We shall forward them to the Law Division of the Urban Life Insurance Company, and upon approval, we shall disburse against this mortgage from time to time an amount equal to 90 percent of the cost of material and labor in place and material on the site as certified by the Architect, and verified by us.

30. *Broker's fee.* In consideration of our arranging the construction financing on your behalf, we are to receive a fee of \$1,000 in respect of each section, payable at the time of our first construction advance on that section.

2-Forms Federal Taxes Affecting Real Estate [E]

31. *Anticipatory completion.* If at any time before the expiration of this commitment the improvements on the property, in the judgment of the Urban Life Insurance Company, have been sufficiently completed and you have otherwise complied with the terms of the commitment, the final disbursement is to be made, and amortization is to commence, in accordance with the terms of the commitment.

32. *Commencement of construction.* Construction must be started by August 1, 2003, or at our option the commitment will be terminated.

33. *Assignment.* This commitment is not assignable without our express written approval. In order that our records may be complete, we would appreciate your acknowledging your acceptance of the terms and conditions of this commitment on the duplicate copy enclosed.

Very truly yours,

Atlantic Mortgage Company

E.18 Land mortgage and note--guaranty by corporate principals

COMMENT

Illustrated here are a mortgage encumbering all the land except the portion which will be improved first and the promissory note of the borrower corporation guaranteed by the principals. The institutional lender usually requires its loan correspondent to participate in the land loan. Consequently, shortly after the note and mortgage have been delivered, they will execute a participation agreement setting forth their internal arrangements, such as the amounts of their respective participations, their respective rights in payments, and their separate rights if foreclosure of the mortgage should be undertaken. The participation may be recorded to put third parties on notice.

For further information, see Chapters 11, 12, and 19.

FORMS

(1) Land mortgage

THIS INDENTURE, made July 1, 2002, between Horizon Gardens, Inc., a corporation organized and existing under the laws of the State of New Jersey (the "Mortgagor"), and Atlantic Mortgage Company, a corporation organized and existing under the laws of the State of New Jersey (the "Mortgagee").

Whereas the Mortgagor has become justly indebted to the Mortgagee in the sum of \$260,000, with interest thereon at the rate of 8 percent per annum for which amount the Mortgagor has signed and delivered unto the Mortgagee a certain note bearing even date with these presents, the terms of which are incorporated herein by reference, the principal and interest to be payable at the office of the Mortgagee in Newark, New Jersey, or at such other place as the holder thereof

2-Forms Federal Taxes Affecting Real Estate [E]

may designate, in the following manner: interest, only, from the date of disbursement, to be paid in monthly installments of \$1,354.17 on the first day of each month thereafter, to and including the thirtieth month following the date of disbursement; the principal amount of \$260,000, plus accrued interest, shall become due and payable on the first day of the thirty-first month following the date of disbursement; and

Whereas the Mortgagor is desirous of securing the prompt payment of such note and the several installments of principal, interest, and the monthly payments hereinafter provided for, and any additional indebtedness accruing to the Mortgagee on account of all future payments, advances, or expenditures made by the Mortgagee as hereinafter provided.

1. *Grant of mortgage.* The Mortgagor, for the purpose of securing the prompt payment of the indebtedness as it becomes due, and also for and in consideration of the sum of One Dollar to it in hand paid by the Mortgagee, at or before the ensembling and delivery of these presents, the receipt whereof is hereby acknowledged, has granted, bargained, sold, aliened, released, conveyed, and confirmed, and by these presents does grant, bargain, sell, alien, release, convey, and confirm unto the Mortgagee forever, all that tract or parcel of land situate, lying, and being in the Borough of Claremont, County of Middlesex, and State of New Jersey, as more particularly referred to in the description annexed hereto and made part hereof.

Together with all and singular the tenements, hereditaments, and appurtenances thereunto belonging or in any wise appertaining, and the reversion or reversions, remainder and remainders, rents, issues, and profits thereof, and also all the estate, right, title interest, property, possession, claim, and demand whatsoever as well as in law as in equity of the Mortgagor, of, in, and to the same, and every part and parcel thereof. To have and to hold the herein granted and described premises unto the Mortgagee to its own proper use, benefit, and behoof forever; and the Mortgagor does covenant with the Mortgagee that it is seized of an indefeasible estate in fee simple in such premises and will warrant and forever defend the title thereof unto the Mortgagee, against all lawful claims whatever.

2. *Release of sections from lien of mortgage.* It is understood and agreed that the Mortgagee will release the respective sections of the mortgaged premises from the lien of this mortgage in the following order, and upon performance of the following conditions:

- (a) Section II, upon the payment of \$90,000;
- (b) Section III, upon the payment of \$90,000, and, at the option of the Mortgagee, the issuance and acceptance by the Mortgagor of a mortgage commitment for the permanent financing of the garden apartments to be built on such section;
- (c) Section IV, upon the payment of \$80,000, and, at the option of the Mortgagee, the issuance and acceptance by the Mortgagor of a mortgage commitment for the permanent financing of the garden apartments to be built on such section.
- (d) However, Mortgagee shall be under no obligation whatsoever to grant any release if any default by Mortgagor exists under the terms of the note and mortgage. Mortgagor must fully cure any such default(s) before any release goes forward.

3. *Payment of note.* These presents are upon the express condition that if the Mortgagor shall pay unto the Mortgagee the indebtedness according to the terms of the note hereinabove referred to, without deduction or credit for taxes, then these presents and the estate hereby granted shall cease, determine, and be void.

4. *Covenants of mortgagor.* The Mortgagor, in order more fully to protect the security of this mortgage, does hereby covenant and agree as follows:

- (a) That it shall pay all ground rents, taxes, assessments, water and sewer rates, and other governmental or municipal

2-Forms Federal Taxes Affecting Real Estate [E]

charges, fines, or impositions levied upon such premises or upon the interest of the Mortgagee in and to such premises for which provision has not been made heretofore, and shall deliver proper receipts therefor to the Mortgagee; and in default thereof, the Mortgagee may pay the same. All payments so made by the Mortgagee shall be a lien on the mortgaged property, and shall be added to the amount of the indebtedness secured by these presents.

(b) That it shall not claim or demand or be entitled to receive any credit or credits on the principal indebtedness to secure payment of which this mortgage is made, or on the interest payable thereon, for so much of the taxes assessed against such lands as is equal to the tax rate applied to the principal indebtedness due on this mortgage or any part thereof, and that no deduction shall be claimed from the taxable value of such lands and premises by reason of this mortgage; and that during the continuance of this mortgage the Mortgagor shall keep all the buildings subject to this mortgage in good and substantial repair, and that if the Mortgagor shall neglect to do so the Mortgagee may, at its option, enter upon the premises from time to time, in order to repair, and keep in repair, such premises, without thereby becoming liable to the Mortgagor, or any person holding under him in possession, and that the Mortgagee's expense of so repairing or keeping in repair shall be a lien on the mortgaged premises, added to the amount of the indebtedness secured by these presents.

(c) That it shall keep the improvements, now existing or hereafter erected on the mortgaged property, insured as may be required from time to time by the Mortgagee against loss by fire and other hazards, casualties, and contingencies in such amounts and for such periods as may be required by the Mortgagee, and shall pay promptly, when due, all premiums on such insurance. All insurance shall be carried in companies approved by the Mortgagee, and the policies and renewals thereof shall be held by the Mortgagee and have attached thereto loss payable clauses in favor of and in form acceptable to the Mortgagee. In the event of loss, the Mortgagor shall give immediate notice by mail to the Mortgagee, who may make proof of loss if not made promptly by the Mortgagor. Each insurance company concerned is hereby authorized and directed to make payment for such loss directly to the Mortgagee instead of to the Mortgagor and Mortgagee jointly, and the insurance proceeds, or any part thereof, may be applied by the Mortgagee at its option either to the reduction of the indebtedness hereby secured or to the restoration or repair of the property damaged. In the event of foreclosure of this mortgage or other transfer of title to the mortgaged property in extinguishment of the indebtedness secured hereby, all right, title, and interest of the Mortgagor in and to any insurance policies then in force shall pass to the purchaser or grantee. Any premium not paid by the Mortgagor may be paid by the Mortgagee, and the amount so paid shall be a lien on the mortgaged property, and shall be added to the indebtedness hereby secured.

(d) That in the event the premises or any part thereof shall be taken or condemned for public or quasi-public purposes by the proper authorities, the Mortgagor shall have no claim against the award for damages, or be entitled to any portion of the award until the within mortgage shall be paid and all rights to damages of the Mortgagor are hereby assigned to the Mortgagee to the extent of any indebtedness that remains unpaid. The Mortgagor, however, shall have the right to appeal such award to any court of competent jurisdiction.

(e) That, on and after any default in the payment of any sum secured hereby, the Mortgagor or anyone claiming by, through, or under it shall, upon demand of the Mortgagee, become a month-to-month tenant of the Mortgagee, and shall pay as monthly rental for the portion of the mortgaged premises occupied by the Mortgagor the respective sums agreed to be paid as monthly payments in this mortgage in advance on the dates and in the manner provided for such payment in such note. In default of so doing, the Mortgagor and anyone claiming by, through, or under it may be dispossessed by proceeding under the Landlord and Tenant Act, or any other appropriate summary proceedings. This covenant shall be effective either with or without any action being brought to foreclose this mortgage and without applying for a receiver to collect rents.

(f) That the Mortgagee's failure at any one or more times to assert its right to the security created by the assignment of rents shall at no time be deemed a waiver of its right to the security and the right to collect the rents, nor shall it impair the security of the mortgage or have any effect on the amount due hereunder.

(g) That upon default by the Mortgagor of any covenant herein contained, or upon its default in the payment of interest or any installment of principal, or of any part thereof, or of any monthly installment for ground rent, taxes, assessments, water and sewer rates, or other municipal or governmental rates, charges, impositions, or liens, or any other payments to be made by the Mortgagor hereunder; or in the event the Mortgagor shall fail to comply with the laws, rules, regulations, and ordinances made or promulgated by lawful authority which are now or may hereafter become applicable to the mortgaged premises, within 60 days after written notice is given by the Mortgagee to the Mortgagor; or if any building, structure, or other improvement on the premises shall be removed or demolished by the Mortgagor, or its agents, or servants without the Mortgagee's written consent; then in any of these cases the principal indebtedness or so much thereof as may remain unpaid with all arrearages of interest charges and all advancements at the Mortgagee's option shall become and be due immediately thereafter.

5. *Receiver of rents.* The Mortgagee shall have the right, in case of the Mortgagor's failure to perform any act, covenant, or condition in this mortgage or the note secured hereby, upon a complaint filed or any proper action being commenced for the foreclosure of this mortgage, to apply for, and the Mortgagee shall be entitled as a matter of right without consideration of the value of the mortgaged premises as security for the amounts due the Mortgagee, or of the solvency of any person or persons obligated for the payment of such amounts, to the appointment by any competent court or tribunal, without notice to any party, of a receiver of the rents, issues, and profits of the premises. Such receiver shall have the power to lease the premises, or such part thereof as may not then be under lease, and shall have such other powers as may be deemed necessary. Such receiver, after deducting all proper charges and expenses attending the execution of the trust as receiver, shall apply the residue of the rents and profits to the payment and satisfaction of the amount remaining secured hereby, or to any deficiency which may exist after applying the proceeds of any judicially decreed sale of the premises to the payment of the amount due, including interest and the costs of the foreclosure and sale. Such rents and profits are hereby, in the event of any default or defaults in the payment of such principal or of any installment thereof or interest, or any tax, assessment, water rate, or insurance, pledged and assigned to the Mortgagee, who shall have full power and authority to enter upon and to take possession of the mortgaged premises, to institute and carry on all legal actions or proceedings necessary for the protection of the herein described property, including such actions or proceedings as may be necessary to recover the possession of the whole or any part thereof, to institute and prosecute all suits for the collection of rents now due and unpaid, and hereafter to become due, to institute and prosecute summary proceedings for the removal of any and all tenant or tenants or other persons from the property, to pay the costs and expenses of all such suits, actions, and proceedings out of the rent received, to maintain the property and to keep the same in repair, to pay the cost thereof and of the services of all employees, including their equipment, and all gas, electricity, power, coal, awnings, and generally all of the running expenses and expenses of maintaining and keeping of the property in repair and first-class condition, and in such condition as property of the style and kind of the real property herein described is customarily kept, and also all interest on this mortgage, and the note to secure which this mortgage is given, and all taxes, assessments, and water rates, which may hereafter become liens on the real property, and all premiums of insurance on policies of insurance effected by the Mortgagee as security for the amount hereby secured, and also the principal sum of this mortgage and of the note to secure which the same is given out of the rent received. The Mortgagee shall also have power and authority to rent or lease the whole or any part of the property for such term or terms and on such conditions as it may deem proper, to employ an agent to rent and manage the property and to collect the rents and profits thereof, and to pay the reasonable value of the agent's services out of the rent received.

6. *Change of law.* In the event of the passage after the date of this mortgage of any law deducting any lien from the value of land for the purpose of taxation, or changing in any way the laws now in force for the taxation of mortgages or debts secured by mortgage, or the manner of collection of any such taxes, so as to affect and lessen the net income on the indebtedness secured by this mortgage, the whole of the principal sum secured by this mortgage, together with the interest due thereon, shall, at the Mortgagee's option, without notice to any party, become immediately due and payable.

7. *Counsel fees and expenses.* The Mortgagor shall pay on demand the Mortgagee's counsel fees and expenses incurred in any action or proceeding wherein the lien or the amount secured thereby may be affected. Such counsel fees and

2-Forms Federal Taxes Affecting Real Estate [E]

expenses shall be added to the mortgage debt and secured by all of the provisions contained herein.

8. *Entire agreement.* This instrument supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

9. *Notices.* All notices or other documents under this instrument shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

10. *Non-waiver.* No delay or failure by either party to exercise any right under this instrument, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

11. *Headings.* Headings in this instrument are for convenience only and shall not be used to interpret or construe its provisions.

12. *Governing law.* This instrument shall be construed in accordance with and governed by the laws of the State of New Jersey.

13. *Binding effect.* The provisions of this instrument shall be binding upon and inure to the benefit of both parties and their respective legal representatives, successors, and assigns.

In witness whereof the Mortgagor has caused these presents to be signed by its President, attested by its Secretary, and its corporate seal to be hereunto affixed, the day and year first hereinabove written.

Attest:	Horizon Gardens, Inc.

(2) *Land mortgage note*

\$260,000

Union, New Jersey

July 1, 2002

FOR VALUE RECEIVED, Horizon Gardens, Inc., a New Jersey corporation, having its principal place of business at Union, New Jersey, promises to pay to the order of Atlantic Mortgage Company, a New Jersey corporation, at its office at 40 Warren Avenue, Newark, New Jersey, or such other place as the holder of this note may from time to time designate, the principal sum of \$260,000 with interest from the date at the rate of 8 percent per year, in the following manner:

Interest, only, from the date of disbursement, to be paid in monthly installments of \$1,354.17 on the first day of each month thereafter, to and including the thirtieth month following the date of disbursement.

The principal amount of \$260,000, plus accrued interest, shall become due and payable on the first day of the thirty-first

2-Forms Federal Taxes Affecting Real Estate [E]

month following the date of disbursement.

This note is secured by a mortgage of even date herewith, made by the maker hereof to Atlantic Mortgage Company on real property situate in the Borough of Claremont, County of Middlesex, State of New Jersey, the terms, covenants, conditions, provisions, stipulations, and agreements of which mortgage are hereby made part of this note, to the same extent and with the same effect as if they were fully set forth herein. The maker hereof does hereby covenant and promise to abide by and comply with each and every covenant and condition set forth in this note and in the accompanying mortgage.

And it is hereby expressly agreed that upon the failure of the maker hereof to pay any sum herein specified, when due, or upon a breach of any other of the terms, covenants, conditions, provisions, stipulations, and agreements of this note or the accompanying mortgage, the entire principal debt, or so much thereof as may remain unpaid at the time, shall, at the option of the holder of this note, become due and payable immediately. Payment of such principal debt, or the balance thereof, and all interest thereon, together with all other sums due under the terms hereof or the accompanying mortgage, may be enforced and recovered at once. Any sum not paid when due shall bear interest at the rate of 8 percent per year.

The maker hereof and all parties who at the time may be liable hereon in any capacity, jointly and severally, waive presentment, demand for payment, protest, and notice of dishonor of this note.

(3) Guaranty

Guaranty Annexed to and Forming Part of \$260,000 Note
Executed by Horizon Gardens, Inc., in Favor of Atlantic
Mortgage Company

FOR VALUE RECEIVED, we and each and all of the endorsers herein, jointly and severally, guarantee the payment of the principal and interest of the attached note, as and when the principal thereof and the interest thereon shall become due, and of any extensions of such note. We do hereby accept all of the provisions of such note and authorize the maker, without notice to us or to any of us, to obtain an extension or extensions of such note in whole or in part, and we do hereby waive presentment, notice of nonpayment, and protest. Suit may be brought by the holder of this note against one or more or all of us at the option of such holder, whether a suit has been commenced against the maker or not, and, in any such suit, the maker may be joined with one or more or all of us at the option of the holder. We do further hereby waive any and all exemptions existing by virtue of any state or federal statute now in effect or at any time hereafter becoming effective.

E.19 Performance bonds--provisions for deposit--subdivider's completion bond--cash escrow--letter of credit

COMMENT

A legal device to assure completion of real estate subdivisions under development may be necessary to comply with various local and federal regulations. Performance bonds or subdivision improvement guarantees are the most widely accepted instruments for this purpose.

Local jurisdiction:

Subdivision improvement guarantees are contracts used by local governments to assure that required capital improvements are completed in a satisfactory manner by subdivision developers. They are seldom publicized yet are a vital part of the planning process. One type of subdivision improvement guarantee, the performance bond, dominates the field, although many other forms of guarantees may also be used. The authority of local governments to require developers to install improvements and to accept improvement guarantees, in lieu of immediate installation, is well established.

Challenges to the use of improvement guarantees have been infrequent, primarily because the use of improvement guarantees is generally in the financial interest of the subdivider. The subdivider will usually find it less expensive to post an improvement guarantee than to install and pay for improvements immediately.

Time of guarantee:

Guarantees may be required either before preliminary plat approval or after final plat approval. If the final plat is not approved, then the community must refund the guarantee. Once the requirements for a performance guarantee have been met and final plat approval has been secured, building permits may then be issued.

Completion of improvements:

The basic approach is to require completion and dedication of improvements prior to final approval and recording of the plat. Final approval of such contracts, plats, and other legal instruments usually is vested solely in the legislative body. Large subdivisions may require more than two years to complete, no matter how diligently development proceeds. In such cases, the work will probably be done in stages or sections. It may work to the advantage of both the developer and the community to approve those stages separately. Occupancy permits for completed sections can be obtained sooner and performance guarantees need be posted only during the actual development period.

When a monetary or property security has been used, it must be refunded to the party putting up the

guarantee. A contract alone does not assure completion of improvements in every case. Therefore, the subdivider may be required to make one of the following arrangements in order to guarantee sufficient funds to complete the improvements:

(1) Surety performance bonds: Performance bonds are a kind of insurance, in the form of a bond payable to the community. The subdivider pays a bonding company a premium to guarantee the funds necessary to complete the improvements. In case of default by the developer, the specified amount of the bond goes to the community.

(2) Escrow account: Here, the subdivider deposits either cash, a note, a bond, or some other instrument readily convertible into cash for a specific face value, with a bank, in an account payable to the community. If the developer fails to complete the improvements within the specified time, the bank turns over the account to the community. If the improvements are completed in a satisfactory manner the community releases the funds back to the developer. The developer cannot withdraw any funds that have not been released by the community.

(3) Property escrow: This technique is essentially the same as escrow accounts in (2) except that property, rather than cash, is held in escrow. Land is the most common form of property used, with stocks and bonds also being used.

(4) Sequential approval of subdivision segments without a guarantee: In this technique the subdivider is given final plat approval and allowed to develop small sections of the subdivision without offering an improvement guarantee for the entire subdivision. This assumes that approval of each succeeding segment is sufficient incentive to complete improvements in the next segment. Final plat approval is granted to only one section at a time. Plat approval for succeeding sections is not granted until the improvements on each preceding section have been completed and accepted for dedication. Reductions of guarantees may be provided for sequentially as stages of development are completed. Of course, a minimum should be set to cover costs. Thus, failure to complete improvements on any section halts subsequent development of all remaining sections and ends the subdivider's hopes for profits on those remaining sections.

(5) Special assessment: Under this technique, the community assumes responsibility for raising the funds necessary to finance improvements and assessing the costs to the subsequent lot purchasers in the subdivision.

(6) Letter of credit: This method is approved in a number of subdivision ordinances. The subdivider secures a letter of credit from a bank or other institution or from a person with resources sufficient to cover the cost of improvements in case of default by the subdivider. The credit may not be revoked without the community's approval.

Inspection:

To insure proper construction, a knowledgeable community official, usually the municipal engineer, will inspect improvements both while under construction and upon completion. The official should either certify that the improvements have been completed according to specification or else make known the defects in their construction. In most instances, legal formalities ceding the improvements to the community are necessary for the community to take possession of the improvements. After such dedication, all documents are filed, and the community is deemed to have accepted the improvements.

For further information, see Chapters 6 and 11.

FORMS

(1) Performance bond--Midwest usage

KNOW ALL MEN BY THESE PRESENTS:

That we, John Rowe, as Principal, and Martin Wilson, as Surety, are held and firmly bound unto the City of Wichita, County of Sedgwick and State of Kansas, in the sum of \$1,500,000 lawful money of the United States, for payment of which we bind ourselves, our heirs, executors, successors and assigns jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH THAT:

Whereas said Principal will make the following improvements, all improvements and other work as set forth to be done and performed in accordance with the plans, specifications and provisions as determined by the City of Wichita for the development and improvement in Liberty Acres Plat located in Section 25, Township 5, Range 20, Sedgwick County, Kansas.

THEREFORE, the Principal, John Rowe, shall perform the following obligations and conditions:

1. Install all sewers, and hook up to main line;
2. Grade and pave all roads;
3. Bury all utility cable conduits underground.
4. Reimburse to the City of Wichita at an actual cost figure, all costs and expenses related to the preparation of plans and specifications and the inspection of construction of the above listed projects.

All of the above obligations shall be performed before May 1, 2002, in accordance with presently established standards and specifications of the Department of Public Works of the City of Wichita.

Therefore, if the Principal shall fully and faithfully perform all the work specified to be done and performed within the time prescribed, and in accordance with the plans, specifications, and provisions to which reference is here made, then this obligation shall be void; otherwise it is to remain in full force and effect in law.

It is expressly understood and agreed that the liability of the Surety for any or all claims hereunder shall in no event exceed the penal amount of this obligation, as herein stated. It is expressly understood that the City may declare the bond forfeited if the conditions herein have not been fully complied with in every respect, and that the City may install these projects and pay for them out of the forfeited bond funds.

The Surety hereby stipulates and agrees that no modifications, omissions, or additions, in or to the plans or specifications, or any extension of time, shall in any way affect the obligation of said Surety on its bond.

In witness whereof we have hereunto set our hand and seal on January 1, 2002.

*(2) Bond for completion of land subdivision improvements--
East
coast*

KNOW ALL MEN BY THESE PRESENTS:

That we, William R. Martin of the City of Nordale, County of Nutmeg, and State of Connecticut, as Principal, and Bernstein Bonding Corporation, a corporation duly licensed to conduct a surety business in the State of Connecticut and having its principal office at 10 Main St., Nordale, as surety, are jointly and severally bound unto the City of Nordale, Connecticut, in the sum of \$2,000,000, for which payment we jointly and severally bind ourselves, our heirs, executors, administrators, successors, and assigns by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH THAT:

Whereas the Principal has made application to the City of Nordale for the approval of a plan for the subdivision of certain land located in the City of Nordale, which plan is entitled "Luther King Park," was made by William R. Martin and is dated January 1, 2002, and

Whereas the Planning Commission of the City of Nordale has approved this plan on condition that the Principal file with the City Clerk a bond in the amount of \$2,000,000, with surety and conditions satisfactory to the Commission securing to the City the actual completion within one year of certain work and installations required by the Commission, as more fully appears in the record of the hearings of the Commission on the Principal's application, which record is hereby made a part hereof:

Now, therefore, if the Principal shall on or before January 1, 2003, make and complete to the satisfaction of the Common Council of the City of Nordale the work and installations herein referred to, this obligation shall be null and void; otherwise the Principal and Surety shall pay to the City of Nordale, the amount which the City *provided, however*, the amount which the Principal and Surety shall be required to pay hereunder shall not, in any event, exceed the penal sum hereof;

Notwithstanding the foregoing, the Committee on Subdivisions of the City Planning Commission of the City of Nordale shall have the right to approve or disapprove modifications of this bond, upon application of the Principal, as follows:

- A. Reduction in bond amounts not to exceed a total of 50 percent;
- B. Granting of extensions of time;
- C. Approving minor changes in construction design.

In witness whereof the said Principal and Surety have caused these presents to be signed and their seals to be affixed hereunto January 1, 2002.

*(3) Performance bond--secured by bank deposit--
Massachusetts*

KNOW ALL MEN BY THESE PRESENTS:

That I, John L. Standish, of the City of Revere in the County of Ipswich, Massachusetts, hereby am held and stand firmly bound, and bind and obligate myself and my successors, assigns, executors, administrators, heirs, and devisees to the city of Pittsford, a Massachusetts Municipal Corporation in the County of Hampshire, in the sum of \$1,000,000 and have secured by compliance with this obligation by the deposit with the Treasurer of said City of said sum in savings bank books duly assigned in an amount satisfactory to the Treasurer.

The CONDITION of this obligation is such that if the undersigned or his successors, assigns, executors, administrators, heirs, or devisees shall have within the time specified in the order of the Pittsford Planning Board fully and satisfactorily performed in the manner specified, all of the conditions, covenants, terms, agreements, and provisions contained both in the application signed by John L. Standish and dated January 1, 2002, and in the approval of a definitive plan of a certain subdivision entitled Belmont Acres and drawn up by Edward Stone, AIA and dated November 1, 2001, which was granted on January 31, 2002, by the Pittsford Planning Board, then this obligation shall be null and void; OTHERWISE it shall remain in full force and effect, and the aforesaid security for the payment of said sum shall be and become the sole property of the City of Pittsford as liquidated damages.

In witness whereof, the obligor has hereunto set his hand and seal, February 1, 2002.

John L. Standish Applicant

(4) Subdivider's completion bond--Florida

KNOW ALL MEN BY THESE PRESENTS, That we, Conboy Construction Company ("Principal"), and Martin Finance Company ("Surety"), are held and firmly bound unto the County of Palmer, a political subdivision of the State of Florida ("County"), in the sum of \$2,000,000, lawful money of the United States of America for the payment of which we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents:

Whereas the above named Principal has applied to the County for approval of a plat of a certain area of land within Palmer County to be known as Utopia Condominiums, and has agreed, as a condition to the approval of said plat by

2-Forms Federal Taxes Affecting Real Estate [E]

said County, to install the improvements set forth in Exhibit A attached hereto and hereby made a part hereof by reference thereto, which improvements may consist of, but are not necessarily limited to, paving, curbing, grading, filling, storm sewers, sanitary sewers, bridges, catch basins, headwalls, pipe lines, and other similar improvements, and

Whereas the approval of said plat by said County is further conditioned upon the furnishing of an adequate Surety Bond to be furnished to the County,

Now, therefore, the condition of this obligation is such that, if the Principal shall in all respects comply with the terms and conditions of the approval of said plat, these conditions being more specifically the completion of the improvements referred to in Exhibit A hereof, in accordance with the ordinances and regulations of Palmer County in regard to subdivision improvements and according to the plans, specifications, and schedules covering said work, and such approved additions, amendments, or alterations as may be made in the plans, specifications, and schedules for such work as approved by the County Engineering Department, and shall complete all said work on or before January 1, 2004, then this obligation shall be void, otherwise remaining in full force and effect.

And the said Surety, for value received, hereby stipulates and agrees that no change involving an extension of time, alterations, or additions to the terms of the contract or to the work to be performed or materials to be furnished thereunder, or in the plans, specifications, and schedules covering same, shall any way affect said obligation of said Surety on this bond, and the said Surety does hereby waive notice of all such changes, extension of time, alterations or additions to the work or of the plans, specifications, and schedules.

This bond shall be for the use and benefit of the County if it should elect to proceed with said work upon the failure or refusal of the Principal by the date hereinabove specified, or any subsequent date provided through an agreement between the Principal and the County for any extension of time.

In witness whereof the Principal and Surety have caused these presents to be duly executed, January 1, 2002.

(5) Cash escrow mutual agreement form--Atlantic region

MUTUAL AGREEMENT FORM BETWEEN Blue Grass Builders, the Developer of Happy Acres Farms Subdivision, and Lexington Federal Bank, a lending institution.

and

2-Forms Federal Taxes Affecting Real Estate [E]

Hortonville-Capstan County Planning Commission, on behalf of and for the community of Hortonville.

The above parties agree to the following conditions of this agreement, which is hereby established to fulfill the requirements of the Subdivision Regulations.

A. The developer agrees:

1. To the establishment of an escrow account in a local lending institution of a sufficient amount to cover the entire cost of the improvements required in the Subdivision Regulations for said Subdivision. The amount shall be determined by the bids received from reputable contractors for each construction item, and shall be the bids accepted and approved by the developer.
2. The funds established in said account shall only be used to install the required improvements in said Subdivision, and said funds shall not be disbursed except by mutual agreement of the developer, the local lending institution, and the Planning Commission or its appointee.
3. That a maximum of 10 percent of the escrow account established to cover the cost of physical improvements shall remain in the account until the last payment is requested, and said percentage shall be disbursed with the last payment. Other payments shall be made on a basis of the percentage of work satisfactorily completed, as stated in B-3. All required improvements shall be satisfactorily installed within 18 months of the date of final plat approval.
4. To notify the Planning Commission at least two days prior to the construction of the improvement items.

B. The lending institution agrees:

1. That \$1,750,000 has been established in an escrow account for the purpose of installing the required improvements in said Subdivision and shall only be used to install said improvements.
2. To withhold a maximum of 10 percent of the escrow account established to cover the cost of the required improvements, which shall be disbursed with the final payment.
3. To disburse funds from said account on a basis of the percentage of the improvements satisfactorily completed. This percentage shall be determined based upon the itemized cost figures stated in A-1 above, and shall be the lesser of the percentages estimated by the local lending institution and the Planning Commission or its appointee.
4. Not to disburse any money from said account until the local lending institution has received written notice from the Planning Commission or its appointee that a specified percentage of the required improvements has been satisfactorily completed and approved by the Planning Commission or its appointee.

C. The Planning Commission agrees:

1. To accept this agreement in lieu of a performance bond or in lieu of the completed improvements required in the Subdivision Regulations.
2. To have the Commission's Staff or City-County Engineer periodically inspect said improvements while under construction and inspect completed improvements within seven days after receiving written notice that the improvement item has been completed. The Commission Staff or City-County Engineer shall notify the local lending institution and the Developer within ten days after receiving written notice, as stated above, as to the percentage of improvements

Daniel Clay Webster Chairman, Planning Commission

*(6) Regional planning commission agreement to be used with
cash bond--Louisiana*

THIS AGREEMENT made and entered into January 1, 2002, by and between Michel St. Jacques ("Owner"), and the Parish of Plaquemines, herein represented by the Honorable Giles Honore, Mayor.

Whereas the Owner owns and desires to develop Lots 100--684, Tenth Subdivision, 8th Filing, and

Whereas the final plat of Lots 100--684, Tenth Subdivision, 8th Filing, will be given final approval by the Planning Commission of the Parish of Plaquemines, upon Owner posting a bond insuring the satisfactory installation and construction of the following improvement as specified by Department of Public Works:

1. Sewer installation and hook-up;
2. Utility lines installed below ground;
3. Grading and paving of all public streets and access roads;
4. Construction of towpath footbridge

and, as shown on plans prepared by James de Rose, Civil Engineer, is attached hereto and made a part hereof, according

2-Forms Federal Taxes Affecting Real Estate [E]

to the terms and conditions of this agreement; and,

Whereas the Owner now desires final approval of the Plat of Lots 100--684, Tenth Subdivision, 8th Filing, prior to the installation and construction of the above described improvements, which improvements will be installed and constructed at Owner's sole cost and expenses:

Now, therefore, it is hereby agreed by and between the Owner and the Parish of Plaquemines that, for and in consideration of the final approval of Lots 100--684, Tenth Subdivision, 8th Filing, Owner binds and obligates himself within 12 months from date hereof, to install and construct the described improvement in accordance with plans prepared by James de Rose, Civil Engineer, which plans meet the requirements of the Louisiana State Board of Health and have been approved by the Director of the Department of Public Works of the Plaquemines, said plans being attached hereto and made a part hereof.

The Owner, in order to further insure faithful performance of said obligation, has executed a check (cashier's or certified) in the amount of \$1,000,000, which check is attached hereto and made a part hereof, to guarantee the installation and construction of the following improvements:

1. Sewer installation and hook-up;
2. Utility lines installed below ground;
3. Grading and paving of all public streets and access roads;
4. Construction of towpath footbridge.

According to plans and specifications therefor, said bond may be canceled only after said work has been completed, inspected, and approved by written acceptance of the Director of Public Works of the Plaquemines. The above described improvements shall be constructed under the supervision of James de Rose, Civil Engineer, in full compliance with the specifications and requirements of the Parish of Plaquemines, and when complete, said engineer shall furnish the Director of the Department of Public Works with a certificate of satisfactory completion.

It is further understood by and between the parties to this agreement that, in the event said improvements are not constructed within 12 months from date hereof, the Parish of Plaquemines shall have and is hereby granted the right, without putting the Owner in default, to cause the improvements to be made and to use the deposit made herewith for payment of all costs and expenses incurred in the construction thereof.

In witness whereof these presents have been signed in the presence of the undersigned competent witnesses, at Plaquemines, Louisiana, January 1, 2002.

Michel St. Jacques

(7) Letter of credit--developer's form

Whereas the Principal herein does hereby obligate itself and does agree to complete the construction and installation of said improvements in the said Subdivision in accordance with the said Preliminary Plat plans and specifications now on

2-Forms Federal Taxes Affecting Real Estate [E]

file and as bounded and modified by the final plat of Happy Acres Farms Subdivision, Unit I, approved by said Commission.

Now, therefore, Blue Grass Builders, as Principal, does hereby firmly bind itself, its heirs, executors, administrators, and successors and assigns unto the County of Fay, Kentucky in the sum of \$1,000,000, conditioned upon the performance by the Principal of its undertaking herein and its completion of the said Happy Acres Farms Subdivision, Unit I, in the construction and installation of all improvements herein called for. Such improvements shall be completed on or before January 1, 2004. Upon their completion this obligation shall be null and void, but otherwise shall remain in full force and effect.

If the Principal fails to complete the construction and installation of all the improvements of said Subdivision as shown and provided for by said plans and specifications herein referred to or has not obtained an extension of the above completion date prior to the completion date herein above specified, then the authorized agent of the County of Fay, Kentucky, with approval of the County Road Engineer, shall be entitled to perform the construction and installation of the improvements herein above referred to. In such event, the Principal shall pay or cause to be paid to the County of Fay, Kentucky such sums as may be necessary to complete said improvements, as secured by an irrevocable Letter of Credit, terminating no sooner than 12 weeks after the completion date for said improvements above mentioned, executed with this instrument, but not to exceed the amount referred to herein. Witness our hands this January 1, 2002.

*(8) Irrevocable letter of credit--subdivision improvement
guarantee*

WICHITA STATE BANK

Date: June 1, 2002

THE CITY OF WICHITA
WICHITA, KANSAS

Dear Sirs:

We hereby open our irrevocable credit in your favor available by your drafts at sight on us for a sum not exceeding \$1,000,000 for the account of Blue Grass Homes (PURCHASER), to be accepted by your signed statement that drawing is due to default or failure to perform by PURCHASER, the following improvements on or before June 1, 2004, or two years from approval of plat by local authorities:

1. Paving of main access and side roads;
2. Sewerage hook-up and installations;

2-Forms Federal Taxes Affecting Real Estate [E]

3. Street lights on specified main thoroughfares.

in Happy Acres, Ward II, a subdivision of the City of Wichita, Kansas. Acting through the City Engineer, you shall notify us when either:

1. The improvements have been timely completed and the credit may be released, or
2. The purchaser has failed to perform or is in default thereunder.

All drafts drawn hereunder must be marked: "Drawn under Wichita State Bank, Credit No. 5-1287, dated June 1, 2002."

The amount of any draft drawn under this credit must, concurrently with negotiation, be endorsed on the reverse side hereof. The presentment of any such draft shall be a warranty by the negotiating bank that such endorsement has been made and that documents have been forwarded as herein required.

Except so far as otherwise expressly stated herein, this credit is subject to the uniform customs and practices for commercial documentary credits fixed by the 13th Congress of the International Chamber of Commerce.

We hereby agree with the drawers, endorsers, and bona fide holders of drafts under and in compliance with the terms of this credit that the same shall be duly honored on due presentation and delivery of documents as specified if negotiated on or before June 1, 2004.

Very truly yours,

Wichita State Bank

Endorsement by _____

John Dowe, Sec'y

(9) Escrow account form--Texas

I, John Houston, do hereby agree that if the proposed plat of Wayne Ranch Estates, filed by me for approval on January 1, 2002, is approved by the planning commission of the City of Amarillo, Texas, the director of planning of said city may retain said plat in his possession, without recording same until I have either constructed all site improvements required under the provisions of the City of San Tonio Planning Area Subdivision Regulations other than water, gas, and electric lines, or have filed with the Director of Planning a bond equal to the cost of all such uncompleted improvements, as estimated by the Director of Public Works, guaranteeing that all such uncompleted improvements will be constructed within two years from the date of such bond. Such bond shall comply with the requirements of local ordinances, insofar as such requirements are applicable. A trust account agreement is appended hereto as Exhibit A.

Executed January 1, 2002.

John Houston (subdivider)

EXHIBIT A

This agreement is between John Houston, subdivider, and Walter Fay, trustee.

The subdivider has deposited (or herewith deposits), subject to the order of subdivider and trustee jointly as provided in this agreement, in the Alamo National Bank, Amarillo, Texas, the sum of \$1,000,000 for the purpose of constructing site improvements on a subdivision in Cantwell County, Texas, for the benefit of the public represented by the City of Amarillo, more particularly described as follows:

1. Street lights on main thoroughfares;
2. Pavement of access roads;
3. Public water distribution system.

The trustee hereby agrees to authorize expenditures from such trust account and to execute checks, drafts, and other orders of withdrawal only for the purpose of constructing such site improvements.

The subdivider agrees to construct such site improvements within two years of the date of approval of the plat by the commission. Upon the failure of the subdivider to provide such site improvements as are herein provided, any remaining balance in such trust account shall be paid to the City of Amarillo for the sole purpose of completing, repairing, maintaining, or otherwise working on the site improvements in such subdivision. A resolution of the City Council of the City of Amarillo declaring that such site improvements have not been completed as required by applicable subdivision regulations shall be final and conclusive on the parties to this agreement. Payment to the city shall be made on the order of the trustee without the necessity of joinder by the subdivider.

The subdivider hereby declares that he has filed with the commission an executed copy of such contract together with a letter from an official in the bank named in this contract certifying that the required sum is on deposit in such bank, subject to withdrawal as provided in this agreement.

John Houston

Walter Fay

E.20 Letter of credit agreement between real estate developer and bank granting letter of credit--letter of credit may be needed to cover cost of building infrastructure for development

COMMENT

As a condition for granting subdivision approval, municipalities frequently require the real estate developer to produce a letter of credit as security for the completion of the infrastructure in the development. In the event that the developer fails to complete the development's roads, sewers or water system, the municipality may draw on the unconditional letter of credit and complete the improvements using these funds.

The lender who will be obligated on the letter of credit will require a written agreement with the

developer, whereby the developer pledges to repay to the lender any sums drawn by the municipality for completion of the infrastructure. The agreement provides for payment of interest by the developer on the sums drawn by the municipality. In addition, the agreement also provides for collateralization of the amount drawn by the municipality. In the event payment is not promptly made, legal fees and expenses are recoverable by the lender.

For further information, see Chapter 7.

FORM

STANDBY LETTER OF CREDIT AGREEMENT

TO: _____ SAVINGS BANK

RE: _____ [_____ *insert name of subdivision*] Subdivision,
Town of _____, Irrevocable Letter of Credit
No. _____

In consideration of your opening your Irrevocable Letter of Credit (herein called the "Credits"), dated _____, 20 _____, naming the Town of _____ as beneficiary of up to an aggregate amount of \$ _____, and for other valuable consideration, receipt of which is hereby duly acknowledged, the undersigned (herein called the "Applicant" and "we") hereby agrees as follows with respect to the Credits:

1. *Developer to reimburse bank for each sight draft.* We agree, in the case of each sight draft, to reimburse you at your main office, _____, City of _____, State of _____, in United States currency in immediately available funds on demand, the amount due on such draft, or, if so demanded by you, to pay at your office in advance the amount to pay such draft. In all instances, you have the right to set off any amount due you under any Credit against any account we may have at any branch of yours, your subsidiaries or affiliates.

2. *Developer to pay commission and reimburse bank for all charges and expenses paid by bank.* At the time you issue the above-mentioned Letter of Credit, we agree to pay you, on demand, your usual commission and all charges and expenses paid or incurred by you in connection therewith, including costs of reserve requirements, if any. If any Credits issued by you provide for an extension or extensions beyond the expiration date, we agree to pay you, on demand, for each extension period, your usual commission in effect at the time of the extension and all charges and expenses as set forth above.

3. *Developer to pay interest on funds disbursed to municipality.* If, for any reason, you make payment under the Credits prior to your receipt of the aforementioned funds from the Applicant, we agree to pay you interest per annum at a rate equal to 2 percent over the highest United States Prime Rate, as published in the *Wall Street Journal*, and in effect at the time you make your payment, and as it may change from time to time, plus customary charges, commencing from the day of your payment and ending upon your receipt of the funds we remit to you for the actual days elapsed, on the basis of a 365-day year. In no event shall the interest rate charged under this Agreement exceed the maximum rate authorized by applicable law or regulation.

4. *Extension of maturity or time for presentment of drafts.* We agree that, in the event of any extension of the maturity or time for presentment of drafts, or documents or any other modification of the terms of any Credits, at our request or

2-Forms Federal Taxes Affecting Real Estate [E]

pursuant to the terms of the Credits, or in the event of any increase in the amount of any Credits at our request, this Agreement shall be binding upon us with regard to such Credits so increased or otherwise modified, to drafts, documents and property covered thereby, and to any action taken by you or any of your correspondents in accordance with such extension, increase or other modification.

5. *Users of credits are agents of developer.* The users of the Credits shall be deemed our agents, and we assume all risk for their acts or omissions. Neither you nor your correspondents shall assume any liability to anyone for failure to pay, if such failure is due to any restriction in force at the time and place of presentment, and we agree to indemnify you and hold you harmless from any consequences that may arise therefrom. Neither you nor your correspondents shall be responsible for verifying the existence of any act, condition or statement made by any party in relation to their drawing or presentment under the Credits, or in verifying or passing judgment on the reasonableness of any statement made by any party in relation to their drawing or presentment under the Credits: for the validity, sufficiency or genuineness of documents, even if such documents should in fact prove to be in any or all respects invalid, insufficient, fraudulent or forged; or for failure to give any notice; for any breach of contract between the beneficiary of the Credits and us. Furthermore, neither you nor your correspondents shall be responsible for errors, omissions, interruptions or delays in transmission or delivery of any messages by mail, cable, telegraph, wireless or otherwise, nor shall you be responsible for any error, neglect or default of any of your correspondents, and none of the above shall affect, impair or prevent the vesting of any of your rights or powers hereunder. In furtherance and extension, and not in limitation of the specific provisions hereinbefore set forth, we agree that any action taken or not taken by you or by any correspondent of yours, under or in connection with the Credits or the relative drafts, documents or property, if taken or not taken in good faith, shall be binding on us and shall not put you or your correspondents under any resulting liability to us, except if due solely to your gross negligence or willful misconduct.

6. *Developer supplies collateral for letter of credit.* As security for the payment or performance of all of the Applicant's present or future obligations or liabilities of any and all kinds to you, however incurred by us, due or to become due, howsoever or whensoever acquired by us (all of which are herein collectively referred to as Obligations), the Applicant does hereby grant you a security interest and a lien in and upon any of our property, including our bank accounts held by you, or property in which we may have any interest, which is now or may at any time hereafter come into your possession or control, or into the possession or control of any other party acting on your behalf, whether for the express purpose of being used by you as collateral security, or for safekeeping, or for any other different purpose, or covered or affected by any documents in your possession or control, or in the possession or control of any third party acting in your behalf.

7. *Developer to pay bank's attorneys' fees and related expenses in event of developer's default.* Upon Applicant's failure to pay any Obligations when becoming or made due, as aforesaid, you shall have, in addition to all other rights and remedies allowed by law, the rights and remedies of a secured party under the Uniform Commercial Code as in effect in the State of _____. We agree that the said collateral secures, and further agree to pay on demand, all expenses--including, but not limited to, reasonable attorneys' fees for legal services of every kind, and the cost of any insurance and payment of taxes or other charges--of, or incidental to, the custody, care, sale or collection of the said collateral, or in any way relating to the enforcement or protection of your rights hereunder.

8. *Further collateral for letter of credit.* Upon our failure to pay any obligations hereunder when becoming or made due, as aforesaid, you shall have, in addition to all other rights and remedies allowed by law and this agreement, your rights under real estate mortgages held by you and recorded in the _____ County Clerk's Office, in Book of Mortgages No. _____, at Page _____, and covering the premises known as _____, in the Town of _____, County of _____, State of _____, and the applicant does hereby acknowledge that our obligations hereunder are secured by said mortgage.

9. *Waiver of bank's rights.* You shall not be deemed to have any of your rights waived hereunder unless you or your authorized agent shall have signed such waiver in writing. No failure on your part to exercise and no delay in exercising

any right, remedy or power hereunder shall operate as a waiver thereof, nor shall such failure or delay preclude you from any future exercise of any other right, remedy or power.

10. *Definition of "property."* The word "property", as used in this agreement, includes case proceeds, deposit accounts, goods and documents relative thereto, securities, funds, and any and all other forms of property, whether real, personal or mixed, and any right or interest therein.

11. *Obligations in agreement are binding on developer's personal representatives, successors and assigns.* The Obligations hereof shall continue in force and apply notwithstanding any change in the membership or ownership of any partnership or corporation undersigned, and the Obligations hereof shall bind the personal representatives, successors and assigns of the undersigned, and all rights, benefits and privileges hereby conferred on you shall be and hereby are extended to, and conferred upon, and may be enforced by your successors and assigns.

12. We further agree that your rights, remedies, powers, security interest and liens hereunder shall continue unimpaired, and that we shall be and remain obligated in accordance with the terms hereof, notwithstanding the partial exercise by you of any right, remedy or power, or the release or substitution of any of the said interests therein, or any delay, extension of time, renewal, release, substitution or addition of parties, compromise or other indulgence granted by you, in reference to any of the Obligations, or any promissory note, draft, document or other instrument given in connection therewith, the undersigned hereby waiving all notice of any delay, extension, release, substitution, renewal, compromise or other indulgence, and hereby consenting to be bound as fully and effectually as if we have expressly agreed thereto in advance.

13. *Events of default by developer.* We agree that all Obligations of the undersigned to you, although contingent and not matured, shall become due and payable upon the occurrence of any one of the following events:

(A) admission in writing of our inability to pay any debt when due;

(B) a violation of any of the terms and conditions of this agreement, be it willful or involuntary, not expressly waived by you;

(C) a default in the payment of any interest or fees due and payable to you, and in particular the payments due under the mortgage note executed in connection with the mortgage referred to at No. 8 above;

(D) if the undersigned generally shall not pay its debts as they become due, or be the subject of any insolvency proceedings; or

(E) if the undersigned shall make an assignment for the benefit of its creditors or a trustee, receiver, intervenor, or custodian appointed for the purposes of reorganization or liquidation of the undersigned.

14. Each and every right, remedy and power hereby granted to you or allowed to you by law or other agreement shall be cumulative and not exclusive of any other right, remedy or power that may be exercised by you from time to time.

15. *Controlling law.* This agreement shall be construed in accordance with, and governed by, the laws of the State of _____.

(4) Obtain information about beneficial owner..... ☐

B. Financial reliability of parties..... ☐

1. Obtain references..... ☐

2-Forms Federal Taxes Affecting Real Estate [VI.]

- a. Bank with which party has business account..... ☐
- b. Regular supplier..... ☐
- c. Current landlord or tenant..... ☐
- 2. Obtain permission to contact references and get credit report on tenant..... ☐
- 3. Do Lexis/Nexis search on landlord, tenant, and their principles..... ☐
- 4. Information to be supplied by tenant..... ☐
 - a. Complete financial statement..... ☐
 - b. Copies of prior years' tax returns..... ☐
- C. Premises..... ☐
 - 1. Identify lease premises in detail..... ☐
 - a. Specify location by state, county and municipality..... ☐
 - b. Set forth street address, if one exists..... ☐
 - c. State lot or unit size (if rent is based on size of space, include exact square footage)..... ☐
 - d. Specify room, suite or unit number where property is in multi-unit facility (*e.g.*, office building, warehouse complex, shopping center)..... ☐
 - e. Attach floor plan to lease, with leased unit marked..... ☐
 - 2. Buildings, structures and other permanent improvements located on premises (*e.g.*, garages, pools, etc.)..... ☐
 - a. Set forth buildings, structures and permanent improvements included in lease..... ☐
 - b. Set forth buildings, structures and permanent improvements excluded from

2-Forms Federal Taxes Affecting Real Estate [VI.]

lease..... ☐

3. Appurtenances (*e.g.*, common areas, parking lots, garages, storage space, rest room, meeting rooms, etc.)..... ☐

a. Set forth appurtenances included in lease..... ☐

b. Set forth appurtenances excluded from lease..... ☐

c. Identify appurtenances available to tenant at additional costs..... ☐

(1) Set forth cost of use of item..... ☐

(2) Set forth procedure to obtain use of items..... ☐

(3) Set forth conditions for use..... ☐

4. Fixtures and equipment (*e.g.*, HVAC system, lighting fixtures, built-in cabinets, etc.)..... ☐

a. Set forth fixtures and equipment included in lease..... ☐

b. Set forth fixtures and equipment excluded from lease..... ☐

5. Personal property (*e.g.*, office equipment, furniture, etc.)..... ☐

a. Set forth personal property included in lease..... ☐

b. Set forth personal property excluded from lease..... ☐

c. Identify personal property available to tenant at additional costs..... ☐

(1) Set forth cost per unit..... ☐

(2) Set forth procedure to obtain items..... ☐

(3) Set forth present condition of items..... ☐

(4) Set forth maintenance, repair and replacement responsibilities..... ☐

(5) Specify condition in which items are to be returned at end of lease term.....

☐

6. Condition of premises, fixtures and personal property included in lease..... ☐

a. Specify condition premises, fixtures and personalty will be leased in (*e.g.*, "as is," or "good working order" or "working order")..... ☐

b. Set forth maintenance, repair and replacement responsibilities..... ☐

c. Specify condition in which items are to be returned at end of lease term..... ☐

7. Option or obligation to expand or contract space..... ☐

a. Option to lease adjoining or nearby space..... ☐

(1) Right of first refusal to lease available space..... ☐

(2) Right of first offer to lease available space..... ☐

b. Restriction of surrounding tenants to short-term leases..... ☐

c. Lease rights of surrounding tenants subject to landlord's right to relocate them..... ☐

d. Tenant's obligation to lease additional space..... ☐

e. Tenant right to abandon part of premises to decrease space..... ☐

(1) Specify space to be abandoned..... ☐

(2) Time period within which option to abandon must be exercised..... ☐

(3) Formula for rent adjustment..... ☐

D. Tenant improvements or alterations in premises..... ☐

1. Identify initial improvements, alterations or construction necessary to make the leased premises suitable for use by tenant..... ☐

2. Provide for further alterations or improvements desired by tenant during term of lease.....

2-Forms Federal Taxes Affecting Real Estate [VI.]

☐

3. Specify who will pay for such improvements (landlord, tenant, or both) and set forth any limits or caps on amount to be paid..... ☐

a. Construction allowance from landlord..... ☐

b. Requirements for competitive bidding..... ☐

4. Consider tax consequences to tenant and landlord of determination of who will pay for improvements..... ☐

5. Plans, blueprints and specifications..... ☐

a. Specify who will prepare or have plans prepared..... ☐

b. Specify if landlord or tenant must approve plans and what grounds are for disapproval..... ☐

c. Contractor..... ☐

(1) Name contractor who will do work..... ☐

(2) If contractor not named in lease, set forth who will choose contractor and any guidelines for or conditions on choice..... ☐

d. Specify who must obtain necessary governmental permits and approvals..... ☐

e. Specify date when improvements must be completed..... ☐

f. State if tenant must remove improvements at end of lease term and restore premises to their original state..... ☐

6. Protecting landlord from liens for materials and services..... ☐

a. Tenant covenant not to encumber landlord's title..... ☐

b. Require landlord's approval of all work in excess of specified amount..... ☐

c. Require bond for completion of work free of encumbrances..... ☐

2-Forms Federal Taxes Affecting Real Estate [VI.]

d. Require waivers of liens of materialmen, architects, contractors, etc..... ☐

e. Require tenant security deposit..... ☐

f. Landlord right to discharge liens on record for longer than specified period and to add cost of discharge to rent..... ☐

E. Lease price..... ☐

1. Base rent..... ☐

a. Annual rental amount or total amount for lease term..... ☐

b. Periodic payments to be made throughout year (*e.g.*, monthly installments)..... ☐

(1) Amount..... ☐

(2) Frequency of installments..... ☐

(3) When due..... ☐

(4) Grace period for late payment of rent, if any..... ☐

(5) Late fee, if any..... ☐

2. Additional rent for fixtures, appurtenances or personal property..... ☐

3. Percentage rent..... ☐

a. Basis for calculation..... ☐

(1) Gross income..... ☐

(2) Adjusted gross receipts..... ☐

(3) Net income..... ☐

(4) Gross sales..... ☐

b. Set forth rate (percentage of basis) to be paid..... ☐

c. Specify amounts included in or excluded from basis..... ☐

(1) Receipts of tenant's licensees or concessionaires..... ☐

(2) Receipts of other offices or stores owned by tenant resulting from sales at leased premises..... ☐

(3) Sales to tenant's employees..... ☐

(4) Returned items..... ☐

(5) Donated items..... ☐

(6) Interest and credit charges..... ☐

(7) Uncollected credit sales..... ☐

(8) Telephone or catalog sales..... ☐

(9) Off-premises deliveries..... ☐

(10) Sales tax receipts..... ☐

(11) Vending machine proceeds..... ☐

(12) Customer charges for delivery or alterations at cost..... ☐

(13) Other..... ☐

d. Set forth any guaranteed minimum rental..... ☐

e. Reporting by tenant to landlord..... ☐

(1) When reports made..... ☐

(2) How reports made..... ☐

2-Forms Federal Taxes Affecting Real Estate [VI.]

(3) Information required..... ☐

(4) Landlord right to review tenant's books and records..... ☐

(5) Audit by independent public accounting firm..... ☐

f. Specify that parties do not intend to create a partnership for tax or other purposes..... ☐

4. Security deposit..... ☐

a. Amount..... ☐

b. Date(s) when due..... ☐

c. Form of payment..... ☐

d. Set forth how deposit may or may not be used..... ☐

(1) Encumbrance by tenant..... ☐

(2) Final month's rent..... ☐

(3) Repair of damages..... ☐

(4) Cleaning costs..... ☐

(5) Rent or charges unpaid by tenant..... ☐

(6) Liquidated damages..... ☐

e. Terms for refund..... ☐

f. State whether interest will be paid, the rate, if compounded or adjustable, and who will pay income taxes on such interest..... ☐

g. State financial criteria for institution in which deposit must be maintained..... ☐

5. Escalating or additional rent or charges..... ☐

- a. Common area charges for cost of maintaining and repairing common areas..... ☐
 - b. Maintenance costs..... ☐
 - c. Water and sewer charges..... ☐
 - d. Utilities..... ☐
 - e. Garbage disposal..... ☐
 - f. Janitorial services..... ☐
 - g. Insurance..... ☐
 - h. Real estate taxes..... ☐
 - i. Assessments..... ☐
 - j. Other operating expenses..... ☐
 - k. Retail facilities and shopping malls..... ☐
 - (1) Advertising charges..... ☐
 - (2) Merchants' association dues..... ☐
 - l. Expenses arising from default or litigation..... ☐
6. Rent abatement to induce tenant to enter lease..... ☐
- F. Utilities..... ☐
- 1. Types of utilities..... ☐
 - a. Water..... ☐
 - b. Sewers..... ☐

c. Gas..... ☐

d. Electricity..... ☐

e. Fuel oil..... ☐

f. Heat..... ☐

g. Steam..... ☐

h. Air conditioning..... ☐

i. Chilled water..... ☐

j. Telephone..... ☐

k. Rooftop antenna access..... ☐

l. Internet/broadband access..... ☐

m. Cable television access..... ☐

2. Charges..... ☐

a. Specify who will pay utility charges..... ☐

b. Specify how charges will be determined..... ☐

(1) Separate meters..... ☐

(2) Proportional charges to tenants in multi-unit building with single meter.....
☐

G. Real property taxes and special assessments..... ☐

1. Tenant payment of ratable share of taxes..... ☐

2. Tax increases..... ☐

3. Responsibility for special assessments..... ☐
- a. Assessments existing before lease for completed improvements..... ☐
- b. Assessments made during lease term..... ☐
4. Right to protest assessment and delay tax payment while protest pending..... ☐
5. Tenant's right to require landlord to protest assessment..... ☐
6. Tenant's right to share of any tax refunds obtained by landlord..... ☐

H. Lease term..... ☐

1. Commencement date..... ☐
- a. Date certain..... ☐
- b. Period of time after triggering event..... ☐
2. Consequence of failure to deliver possession on commencement date..... ☐
- a. Rent abatement..... ☐
- b. Right to cancel..... ☐
3. Termination date..... ☐
4. Renewal or extension..... ☐
- a. Set forth tenant's right to renew or extend, if any..... ☐
- b. Set forth any conditions to be met prior to renewal or extension (*e.g.*, tenant may not be in default)..... ☐
- c. When and how tenant must give notice to landlord that tenant is exercising the right to renew or extend..... ☐
- d. Changes in lease terms for renewal or extension period..... ☐

2-Forms Federal Taxes Affecting Real Estate [VI.]

(1) Amount of rent..... ☐

(a) Specify exact amount..... ☐

(b) Amount based on Consumer Price Index or other index..... ☐

(2) Length of renewal or extension term..... ☐

(3) Provisions for additional renewals or extensions, if any..... ☐

(4) Provisions for improvements, increase or decrease in space..... ☐

(5) Other changes in terms of lease..... ☐

I. Option or obligation to purchase, rights of first offer or refusal..... ☐

1. Purchase option..... ☐

a. Purchase price..... ☐

(1) Specify exact amount..... ☐

(2) Fair market value, with provision for appraisal..... ☐

b. Period of time when option exercisable..... ☐

c. When and how tenant must give notice to landlord that tenant is exercising right to purchase..... ☐

d. Terms of contract of sale..... ☐

e. Closing date for sale..... ☐

f. Termination of option by landlord..... ☐

2. Right of first refusal or right of first offer to purchase leased premises..... ☐

a. Conditions for triggering activation of right..... ☐

(1) Right of first refusal third party's bona fide offer to purchase premises.....

☐

(2) Right of first offer landlord's decision to offer premises for sale to third parties..... ☐

b. Notice to tenant of triggering event..... ☐

c. Period of time to exercise right..... ☐

d. How right to be exercised..... ☐

e. Determination of price..... ☐

f. Termination of right..... ☐

g. Contingencies acceptable to tenant in contract of sale..... ☐

h. Closing date..... ☐

3. Tenant's obligation to make rejectable offer to purchase property in certain circumstances..... ☐

a. Offer to be made in event of tenant's determination or obsolescence..... ☐

b. Offer to be made at end of lease..... ☐

c. Required amount of offer to be based on outstanding senior debt..... ☐

d. Notice of offer to landlord..... ☐

e. Notice of offer to senior lender..... ☐

f. Period of time for landlord to consider offer..... ☐

g. Prohibition of rejection of offer without consent of senior lender..... ☐

J. Right to assign or sublet..... ☐

1. Procedure to be followed by tenant..... ☐

a. Notice to landlord..... ☐

b. Landlord's written consent..... ☐

2. Limitations on right to assign or sublet..... ☐

K. Limitations on use of property..... ☐

1. If limited to commercial purposes only..... ☐

a. Specify tenant's business..... ☐

b. Specify permitted activities allied to main enterprise..... ☐

2. Noncompetition (exclusive use) provisions..... ☐

a. Landlord restricted for entering lease with another tenant for specified use..... ☐

b. Landlord prohibited from giving naming rights to tenants for specified uses..... ☐

c. Landlord covenants not to permit particular use in another space in landlord's facility..... ☐

d. Tenant granted exclusive right to specified use in landlord's facility..... ☐

e. Tenant granted right to approve other tenants or control quality of goods sold by other tenants..... ☐

3. Radius restrictions..... ☐

a. Tenant prohibited from operating similar business within specified distance from premises..... ☐

b. Income or sales from business operated by tenant within specified distance from premises to be included in determination of percentage rent..... ☐

4. Use of natural resources..... ☐

- a. Exterior open space..... ☐
- b. Recreational use of vacant land..... ☐
- c. Water sources other than municipal water..... ☐
 - (1) Site from which water to be drawn..... ☐
 - (a) Well..... ☐
 - (b) Lake or pond..... ☐
 - (c) River, stream or brook..... ☐
 - (d) Marsh..... ☐
 - (e) Other..... ☐
 - (2) Volume of water to be drawn per day..... ☐
 - (3) Release of water after use..... ☐
 - (4) Record keeping..... ☐
 - (5) Tenant to obtain governmental approvals..... ☐
- d. Energy sources (*e.g.*, natural gas, coal, oil, etc.) other than commercial sources..... ☐
 - (1) Additional consideration for use of nonrenewable resources..... ☐
 - (2) Site from which resources to be taken..... ☐
 - (3) Limitations on volume of use..... ☐
 - (4) Location, storage and removal of equipment..... ☐
 - (5) Record keeping..... ☐
 - (6) Tenant to obtain governmental approvals..... ☐

e. Harvesting resources (*e.g.*, shale, timber, iron, silver, fish, game, etc.)..... ☐

(1) Royalties to landlord..... ☐

(2) Site from which resources to be taken..... ☐

(3) Method for measuring volume harvested..... ☐

(4) Location, storage and removal of equipment..... ☐

(5) Reclamation of land..... ☐

(6) Record keeping..... ☐

(7) Tenant to obtain governmental approvals..... ☐

5. Other limitations on uses..... ☐

a. Hazardous uses..... ☐

(1) Pesticides and insecticides..... ☐

(2) Cleaning agents..... ☐

(3) Storage, use, production or disposal of hazardous substances..... ☐

(a) Tenant required to keep records..... ☐

(b) Landlord right to review records and audit for compliance..... ☐

b. Uses that increase insurance rates..... ☐

c. Uses that impair landlord's title..... ☐

d. Uses that adversely affect property value..... ☐

e. Uses that may disturb other tenants..... ☐

f. Uses that violate certificate of occupancy..... ☐

g. Illegal uses..... ☐

h. Nuisances..... ☐

L. Maintenance and repair obligations..... ☐

1. Maintenance..... ☐

a. Set forth who has duty to maintain premises..... ☐

(1) Cleaning and janitorial services..... ☐

(2) Painting..... ☐

(3) Window washing..... ☐

(4) Trash removal..... ☐

(5) Landscaping and lawn care..... ☐

(6) Snow removal..... ☐

b. Tenant duty to maintain premises in good repair..... ☐

c. Landlord duty to maintain common areas..... ☐

2. Repairs..... ☐

a. Set forth who has duty to perform repairs to premises, if any..... ☐

(1) Minor nonstructural repairs..... ☐

(2) Minor structural repairs..... ☐

(3) Major nonstructural repairs..... ☐

(4) Major structural repairs..... ☐

b. Landlord duty to repair common areas..... ☐

c. Notice requirement..... ☐

(1) Notice to other party that repairs necessary..... ☐

(2) Notice that repairs being undertaken..... ☐

d. Right of access to make repairs, emergencies..... ☐

M. Insurance..... ☐

1. Types..... ☐

a. Fire..... ☐

b. Boiler..... ☐

c. Other casualty..... ☐

(1) Permitted exclusion for acts of war..... ☐

(2) Permitted exclusion for acts of terrorism..... ☐

d. Liability..... ☐

e. Plate glass replacement..... ☐

2. Set forth who has responsibility for obtaining insurance and who is insured party..... ☐

a. Landlord..... ☐

b. Tenant..... ☐

c. Both..... ☐

3. Amount of coverage required..... ☐

4. Set forth who is designated payee of policy..... ☐

5. State rights of mortgagee, if any..... ☐

6. State whether landlord has right to approve tenant's insurance company or policy..... ☐

7. Subrogation rights..... ☐

8. Require notice prior to cancellation of policy..... ☐

9. Require proof of coverage..... ☐

N. Damage by fire or other casualty..... ☐

1. Premises unfit for use..... ☐

a. Procedure for determining unfitness..... ☐

b. Abatement of rent until repairs made..... ☐

2. Specify who is responsible for repairs or rebuilding..... ☐

a. State when work must begin and end..... ☐

b. Describe type, size cost of repairs or rebuilding required..... ☐

3. Termination of lease..... ☐

a. State whether landlord or tenant entitled to terminate lease..... ☐

b. Specify circumstances in which termination is permitted..... ☐

c. Notice of intention to terminate ☐

4. Tenant required to notify landlord of occurrence of casualty..... ☐

5. Landlord right to inspect damage..... ☐

6. Set forth disposition of insurance proceeds in event of damage or destruction..... ☐

7. Dispute resolution mechanism..... ☐

a. Independent adjuster as arbitrator..... ☐

b. Binding determination..... ☐

O. Eminent domain..... ☐

1. Specify who is entitled to proceeds of award..... ☐

2. Restoration of portion of premises not taken..... ☐

a. Use of condemnation award for restoration..... ☐

b. Expenses exceeding award..... ☐

3. Set forth procedure for determining whether taking terminates lease..... ☐

a. Entire or partial taking..... ☐

b. Effect of taking on leased premises..... ☐

4. Rent abatement and sharing of award for partial taking..... ☐

5. Sharing of award for entire taking..... ☐

P. Contingencies..... ☐

1. General provisions applicable to all contingencies..... ☐

a. Specify who must obtain satisfaction of contingency and what that party must do..... ☐

b. Set time limit for resolving contingency..... ☐

c. Set standard for determining whether contingency is satisfied..... ☐

d. Specify whether landlord, tenant or both have right to waive satisfaction of contingency..... ☐

2. Governmental approvals..... ☐

- a. Certificate of occupancy..... ☐
- b. Certificate of compliance with local ordinances, such as building, housing, safety, environmental, or fire ordinances..... ☐
- c. Zoning..... ☐
- d. Emission of substances into air or water..... ☐
- e. Waste disposal..... ☐
- f. Business operating permits..... ☐
- g. Sign approval..... ☐
- 3. Testing of well water quality..... ☐
- 4. Testing of well water quantity..... ☐
- 5. Septic or other on-site sewage disposal system..... ☐
 - a. Condition (*e.g.*, "good working order")..... ☐
 - b. Capacity..... ☐
 - c. Availability of sewer connections..... ☐
- 6. Radon gas inspection..... ☐
- 7. Asbestos inspection..... ☐
- 8. Urea formaldehyde insulation..... ☐
- 9. Inspection for lead pipes..... ☐
- 10. Inspection for lead paint and dust..... ☐
- 11. Environmental site assessment..... ☐

Q. Termination of lease..... ☐

1. Condition of premises

a. Tenant not responsible for repairs during lease term to return premises in "broom clean" condition..... ☐

b. Tenant responsible for repairs during lease term to return premises in as good condition as at beginning of lease, reasonable wear and tear excepted..... ☐

c. Tenant to have premises professionally cleaned..... ☐

d. Personal property..... ☐

(1) Tenant to remove all..... ☐

(2) Landlord to inspect premises upon termination and determine what property tenant must remove..... ☐

(3) Landlord to have right (but not obligation) to sell property not removed by tenant..... ☐

e. Trade fixtures..... ☐

(1) Tenant right to remove..... ☐

(2) Tenant to repair damage caused by removal..... ☐

f. Tenant alterations..... ☐

(1) Landlord to have right to retain..... ☐

(2) Landlord to have right to require tenant to remove and restore premises to original condition..... ☐

2. Tenant to vacate on or before termination date..... ☐

a. Penalty for holding over..... ☐

b. Return of keys..... ☐

R. Defaults and remedies..... ☐

1. Default by tenant..... ☐

a. Nature of default..... ☐

(1) Failure to pay rent..... ☐

(2) Enumerate events of default in other terms of lease..... ☐

b. State whether landlord required to give notice of default to tenant..... ☐

(1) Describe contents of notice..... ☐

(2) Specify how, where and to whom notice to be delivered..... ☐

(3) Proof of service of notice..... ☐

c. Opportunity to cure default, setting forth amount of time given to cure specified defaults.....
☐

d. Landlord right to make advances on tenant's default in payment of taxes, insurance, etc.....
☐

e. Effect of default..... ☐

(1) Automatic termination of lease..... ☐

(2) Landlord right to terminate lease..... ☐

f. State whether acceptance of rent or waiver of any breach waives such breach or any succeeding breaches..... ☐

g. Right to evict..... ☐

(1) Summary eviction..... ☐

(2) Self-help..... ☐

h. Measure of damages payable to landlord..... ☐

- i. Tenant's liability for rent payments preserved beyond premature termination date following default..... ☐
- (1) Tenant payments required over remaining lease term..... ☐
- (2) Acceleration of rent..... ☐
- j. State whether landlord has a lien for rent..... ☐
- (1) Security deposit..... ☐
- (2) Tenant's personal property..... ☐
- k. Reimbursement of expenses arising from default or litigation..... ☐
- (1) Collection of rent..... ☐
- (2) Expenses to cure other defaults..... ☐
- (3) Legal expenses..... ☐
- (4) Expenses to recover possession..... ☐
- l. Reletting of premises following surrender or eviction..... ☐
- (1) Examine state law concerning landlord's duty to mitigate damages by re-letting..... ☐
- (2) Provide in lease whether landlord has obligation to mitigate damages by re-letting..... ☐
- m. State whether landlord's remedies are cumulative..... ☐
2. Default by landlord..... ☐
- a. Tenant right to cure landlord's defaults..... ☐
- b. Tenant option to terminate..... ☐

c. Ouster of tenant by superior title..... ☐

d. Damages..... ☐

(1) Reimbursement of amounts spent to cure default..... ☐

(2) Application of expenditures against future rentals..... ☐

(3) Maintenance of separate action for reimbursements..... ☐

(4) Liability limited to abatement of rent..... ☐

S. Other provisions..... ☐

1. Set forth required days and hours of business operation by tenant..... ☐

2. Signs and advertising..... ☐

a. Location of signs..... ☐

b. Size limitations..... ☐

c. Style and content limitations..... ☐

d. Permits required..... ☐

e. Responsibility for installation, maintenance and repair of signs..... ☐

3. Compliance with governmental regulations..... ☐

a. Set forth who is responsible for changes or alterations necessary to conform to governmental laws and regulations regarding premises and business conducted there..... ☐

b. Set forth who is responsible for compliance with Americans with Disabilities Act..... ☐

4. Tenant guaranteed possession of lease property throughout lease term absent default.....
☐

5. Landlord's right to show space to prospective tenants near end of lease term..... ☐

6. Broker..... ☐

a. Identify brokers involved in lease transaction and specify who will pay commissions..... ☐

b. Cross-indemnification against other brokerage claims..... ☐

T. Miscellaneous clauses..... ☐

1. Non-waiver provision..... ☐

2. Select state law which will apply to transaction..... ☐

3. Illegal portions of lease deemed excised..... ☐

4. Merger clause providing that lease contains entire agreement between parties..... ☐

5. Binding effect of lease on parties and their successors and assigns..... ☐

6. All amendments to lease to be in writing..... ☐

7. Provision for the giving of notice between the parties..... ☐

8. Subordination to any mortgages..... ☐

9. Dispute resolution mechanism..... ☐

U. Execution of the lease..... ☐

1. Signed by parties or their representatives..... ☐

2. Dated..... ☐

3. Witnesses if desired..... ☐

4. Acknowledgment if desired..... ☐

5. Multiple originals..... ☐

V. Attachments..... ☐

1. Floor plan..... ☐

2. Work letter ☐

3. Rules and regulations ☐

Appendix Forms: CHECKLISTS

2-Forms Federal Taxes Affecting Real Estate [VII.]

[VII.] Checklist for Drafting Residential Real Estate Lease

A. Identification of parties..... ☐

1. Landlord..... ☐

a. Name..... ☐

b. Address..... ☐

c. Taxpayer identification number..... ☐

2. Capacity of landlord..... ☐

a. Individual..... ☐

(1) Meets the age of majority..... ☐

(2) Competent to act..... ☐

b. Corporation..... ☐

(1) Obtain proof of authority to act on behalf of corporation (e.g., secretary's certificate)..... ☐

(2) Obtain copy of resolution of board of directors authorizing lease..... ☐

2-Forms Federal Taxes Affecting Real Estate [VII.]

(3) Obtain proof of legal existence of corporation..... ☐

(4) Is court approval required (e.g., bankruptcy court)?..... ☐

(5) Is approval of any state agency required?..... ☐

c. Partnership or limited liability company..... ☐

(1) Obtain proof from representative of partnership or limited liability company that he/she has authority to act on behalf of partnership or limited liability company..... ☐

(2) Obtain copy of partners', members', or manager's decision authorizing lease..... ☐

(3) Obtain proof of legal existence of partnership or limited liability company, e.g., copy of partnership or limited liability company agreement and affidavit that is still in effect..... ☐

(4) Is approval of court (e.g., bankruptcy court) required?..... ☐

(5) Is approval of any state or local government agency required?..... ☐

d. Fiduciary..... ☐

(1) Obtain proof of appointment..... ☐

(2) Determine source of appointment..... ☐

(a) By law..... ☐

(b) By court order..... ☐

(c) By document (e.g., will or trust agreement)..... ☐

(3) Determine whether court order is required for lease..... ☐

(4) Obtain information concerning beneficial owner..... ☐

e. Attorney-in-Fact or agent..... ☐

- (1) Obtain proof of appointment..... ☐
- (2) Obtain proof that appointment has not been revoked..... ☐
- (3) Is principal alive?..... ☐
- (4) Is principal competent?..... ☐
- (5) Does grant of authority include lease of real property?..... ☐
- (6) Obtain information concerning beneficial owner..... ☐
- 3. Tenant..... ☐
 - a. Name..... ☐
 - b. Address..... ☐
 - c. Taxpayer identification number..... ☐
- 4. Capacity of tenant..... ☐
 - a. Individual..... ☐
 - (1) Meets the age of majority..... ☐
 - (2) Competent to act..... ☐
 - (3) Financially reliable..... ☐
 - (a) Obtain references..... ☐
 - (b) Obtain permission for credit report from tenant..... ☐
 - b. Corporation..... ☐
 - (1) Obtain proof of authority to act on behalf of corporation (e.g., secretary's certificate).....
☐

2-Forms Federal Taxes Affecting Real Estate [VII.]

(2) Obtain copy of resolution of board of directors authorizing lease..... ☐

(3) Obtain proof of legal existence of corporation..... ☐

(4) Is court approval required (e.g., bankruptcy court)?..... ☐

(5) Is approval of any state agency required?..... ☐

c. Partnership or limited liability company..... ☐

(1) Obtain proof from representative of partnership or limited liability company that he/she has authority to act on behalf of partnership limited liability company..... ☐

(2) Obtain copy of partners', members', or manager's decision authorizing lease..... ☐

(3) Obtain proof of legal existence of partnership or limited liability company, e.g., copy of partnership or limited liability company agreement and affidavit that is still in effect..... ☐

(4) Is approval of court (e.g., bankruptcy court) required?..... ☐

(5) Is approval of any state or local government agency required?..... ☐

d. Fiduciary..... ☐

(1) Obtain proof of appointment..... ☐

(2) Determine source of appointment..... ☐

(a) By law..... ☐

(b) By court order..... ☐

(c) By document (e.g., will or trust agreement)..... ☐

(3) Determine whether court order is required for lease..... ☐

(4) Obtain information concerning beneficial owner..... ☐

2-Forms Federal Taxes Affecting Real Estate [VII.]

e. Attorney-in-Fact or agent..... ☐

(1) Obtain proof of appointment..... ☐

(2) Obtain proof that appointment has not been revoked..... ☐

(3) Is principal alive?..... ☐

(4) Is principal competent?..... ☐

(5) Does grant of authority include lease of real property?..... ☐

(6) Obtain information concerning beneficial owner..... ☐

B. Identification of leased premises..... ☐

1. Location..... ☐

a. Describe location by county and by municipality..... ☐

b. Describe location by street address..... ☐

c. Describe location by lot number or size..... ☐

d. Describe location by unit number, if apartment, condominium or cooperative..... ☐

2. Identify all structures which are included in the lease, e.g., garage space, barn, etc..... ☐

3. Identify all appurtenances which are included in the lease, e.g., lawn or yard rights, pool privileges, community room privileges, etc..... ☐

4. Identify any structures which are excluded from the lease..... ☐

5. Identify any appurtenances which are excluded from the lease..... ☐

6. Identify any personal property which is included in the lease (e.g., appliances)..... ☐

a. Specify whether personal property is leased "as is" or in "good working

2-Forms Federal Taxes Affecting Real Estate [VII.]

order" ☐

b. Specify responsibility for cost of repair and replacement during lease term..... ☐

c. Specify condition in which personal property is to be returned at end of lease term..... ☐

7. Identify fixtures which are included in lease (e.g., HVAC system)..... ☐

a. Specify whether fixtures are leased "as is" or in good working order..... ☐

b. Specify responsibility for cost of repair and replacement during lease term..... ☐

c. Specify condition in which fixtures are to be returned at end of lease.....
☐

8. Identify any personal property which is available to tenant at additional cost (e.g., appliances, draperies, etc.)..... ☐

a. Specify cost per unit..... ☐

b. Specify procedure to obtain items..... ☐

c. Specify present condition of items..... ☐

d. Specify repair or replacement responsibilities of tenant and landlord.....
☐

e. Specify condition in which items are to be returned at end of lease term.....
☐

9. Identify appurtenances which are available to tenant at additional cost (i.e., garage, pool, use of community room, etc.)..... ☐

a. Specify cost of item..... ☐

b. Specify procedure to obtain item..... ☐

C. Rent..... ☐

1. Specify annual rent..... ☐
2. Specify whether rent is to be paid in periodic installments..... ☐
 - a. Amount of each installment..... ☐
 - b. When due..... ☐
 - c. Specify grace period for late payment..... ☐
 - d. Specify late fee..... ☐
3. Security deposit..... ☐
 - a. Specify amount..... ☐
 - b. Specify when due..... ☐
 - c. Specify terms for refund..... ☐
 - d. Specify whether interest will be paid..... ☐
 - e. Specify where deposit will be held (e.g., name of bank)..... ☐

D. Lease term..... ☐

1. Commencement date..... ☐
2. Termination date..... ☐
3. Renewal rights..... ☐
 - a. Conditions to be met (e.g., no prior defaults in rental payments)..... ☐
 - b. Notice of desired renewal given by tenant to landlord..... ☐
 - c. Term of renewed lease..... ☐
 - (1) Increased rental amount..... ☐

(2) Length of renewed term..... ☐

(3) Other changes in terms of existing lease..... ☐

4. Option to purchase property..... ☐

a. Determination of price..... ☐

b. When option is exercisable..... ☐

c. Required notice from tenant of tenant's intention to exercise option..... ☐

d. Closing date of sale..... ☐

e. Termination of option by landlord..... ☐

5. Right of first offer or first refusal to purchase property..... ☐

a. Conditions for..... ☐

b. Determination of price..... ☐

c. Termination of right..... ☐

d. Contingencies acceptable to tenant in contract of sale..... ☐

e. Closing date..... ☐

f. Notice provisions..... ☐

E. Other obligations of tenant..... ☐

1. Condition of premises..... ☐

a. Maintain property in good condition..... ☐

b. Basic cleaning..... ☐

2-Forms Federal Taxes Affecting Real Estate [VII.]

- c. Lawn care..... ☐
- d. Minor repairs..... ☐
 - (1) To the structures..... ☐
 - (2) Non-structural repairs..... ☐
- e. Notice to be given to landlord if major repair is required..... ☐
- f. Notice to be given to landlord if alterations are desired..... ☐
- 2. Insurance..... ☐
 - a. Amounts of coverage..... ☐
 - b. Types..... ☐
 - (1) Liability..... ☐
 - (2) Casualty..... ☐
 - (3) Fire..... ☐
 - c. Permitted exclusion for acts of war..... ☐
 - d. Permitted exclusions for acts of terrorism..... ☐
 - e. Notice must be given to landlord prior to cancellation of policy..... ☐
 - f. Landlord is to be designated payee of proceeds of policy..... ☐
 - g. Tenant must present to landlord proof of coverage..... ☐
- 3. Limitations on use of property..... ☐
 - a. Residential purposes only..... ☐
 - b. Limitation on number of persons who may occupy premises at any time..... ☐

- c. Compliance with fair housing laws..... ☐
- d. Limitations on use of chemicals..... ☐
- (1) Pesticides..... ☐
- (2) Insecticides..... ☐
- (3) Drain cleaners..... ☐
- (4) Cleaning agents..... ☐
- (5) Other..... ☐
- e. Other limitations on use..... ☐
- f. Prohibition against storage of chemicals or flammables..... ☐
4. Upon termination of lease..... ☐
- a. Property must be "broom clean"..... ☐
- b. Remove personal effects..... ☐
- c. Return keys..... ☐
- d. Vacate on or before date of lease's termination..... ☐
- e. Landlord's right (but not obligation) to sell remaining personal property..... ☐
- F. Other obligations of landlord..... ☐
1. Major repairs..... ☐
2. Janitorial services in common areas..... ☐
3. Trash removal..... ☐

2-Forms Federal Taxes Affecting Real Estate [VII.]

4. Snow removal..... ☐
5. Provide utilities..... ☐
- a. Heat..... ☐
- b. Air Conditioning..... ☐
- c. Electricity..... ☐
- d. Water..... ☐
- e. Gas..... ☐
- f. Sewer rents..... ☐
6. Guarantee the tenant quiet enjoyment of leased property..... ☐
7. Guarantee the tenant possession of leased property throughout lease term..... ☐
8. Real property taxes..... ☐
9. Lawn care..... ☐
10. Other obligations..... ☐

G. Contingencies in lease (i.e., lease does not become binding upon parties unless contingencies are satisfied first)..... ☐

1. Septic system is in good working order..... ☐
2. Testing of well to determine..... ☐
- a. Purity of water..... ☐
- b. Acceptability of water's taste and smell..... ☐
- c. Quantity of water..... ☐

- d. Whether pump is in good working order..... ☐
3. Inspection for asbestos insulation..... ☐
4. Inspection for urea formaldehyde insulation..... ☐
5. Test for presence of radon gas..... ☐
- H. Other provisions..... ☐
1. Default by tenant in payment of rent or fulfilling other terms of lease..... ☐
- a. Notice of default given to tenant..... ☐
- b. Opportunity to cure default..... ☐
- c. Right to evict..... ☐
- d. Damages payable to landlord..... ☐
- e. Re-letting of premises following eviction..... ☐
- f. Provide whether landlord has obligation to mitigate damages by re-letting.....
☐
2. Damage by fire..... ☐
- a. Landlord responsible for repairs?..... ☐
- b. Tenant is entitled to terminate lease and vacate property..... ☐
- c. Notice must be given by tenant to landlord of former's intention to terminate lease..... ☐
3. Eminent domain..... ☐
- a. Landlord is entitled to proceeds of award..... ☐
- b. Termination of lease..... ☐

2-Forms Federal Taxes Affecting Real Estate [VII.]

(1) Does the eminent domain constitute an entire taking?..... ☐

(2) Partial taking?..... ☐

(3) If partial taking, lease will not terminate if leased premises are unaffected by eminent domain..... ☐

4. Landlord's right to show property to prospective tenants near end of lease term..... ☐

5. Broker..... ☐

a. Identify broker involved in lease and specify who will pay commission..... ☐

b. Cross-indemnification against other brokerage claims..... ☐

6. Miscellaneous provisions..... ☐

a. Non- waiver provision (e.g., "the waiver of any provision of this agreement shall not be valid unless it is in writing and signed by the party granting the waiver")..... ☐

b. Any modifications of agreement must be in written form and signed by both parties.....
☐

c. Agreement is to be construed in accordance with the laws of the State of _____ ☐

d. Provision for the giving of notice between the parties..... ☐

e. Agreement is binding on both parties and their successors and assigns..... ☐

f. Illegal portions of lease deemed excised..... ☐

g. Merger clause providing that lease contains entire agreement between parties..... ☐

h. Subordination to any mortgages..... ☐

i. Dispute resolution mechanism..... ☐

I. Execution..... ☐

1. Signed by parties..... ☐

2. Dated..... ☐

3. Witnesses..... ☐

4. Acknowledged..... ☐

Appendix Forms: CHECKLISTS

2-Forms Federal Taxes Affecting Real Estate [VIII.]

[VIII.] Environmental Questionnaire to Be Completed by Seller or Lessor of Commercial Real Property

A. Location of the site..... ☐

1. Street address..... ☐

2. State and city, town or other political subdivision..... ☐

3. Streets bordering site..... ☐

4. Streets to which site has access..... ☐

B. Ownership history..... ☐

1. If structure(s), time of construction..... ☐

2. Name and address of builder..... ☐

3. Name and address of first owner of structure..... ☐

4. Uses of property by first owner..... ☐

5. Names and addresses of subsequent owners..... ☐

6. Uses of property by subsequent owners..... ☐

2-Forms Federal Taxes Affecting Real Estate [VIII.]

7. Name and address of present owner of structure..... ☐

8. Uses of property by present owner..... ☐

9. Has survey of site been performed recently, and, if so, is copy available?.....
☐

C. Description of site..... ☐

1. Number of structures..... ☐

2. Number of floors in each structure..... ☐

3. Total number of square feet of each structure..... ☐

4. Total number of square feet covered by entire site..... ☐

5. Parking lot..... ☐

a. Total number of spaces..... ☐

6. Have any improvements, additions, or renovations been made at the site or are any under consideration?..... ☐

a. If yes, obtain copies of architects' drawings, and other relevant, descriptive materials..... ☐

D. Description of operations..... ☐

1. What is the current nature of operations at the site?..... ☐

2. How long has the site been occupied and how long have individual tenant(s) occupied/operated at the site?..... ☐

3. Have there been any changes in the nature of operations/process since first occupancy? If so, describe changes..... ☐

4. Who were the previous owner/occupants and what if any industrial, storage, or disposal activities did they utilize?..... ☐

2-Forms Federal Taxes Affecting Real Estate [VIII.]

5. List each agency that the owner/operator of the facility would report any environmental, safety, or health problems including the name, position, address, and telephone number of the contact person at each agency..... ☐

6. What, if any, industrial, manufacturing, storage, and disposal practices are currently used at the site?..... ☐

7. What, if any, industrial, manufacturing, storage, and disposal activities have been discontinued?..... ☐

8. Are there any storage/stockpile areas outside buildings located on the site? What are the nature of the materials?..... ☐

9. Has an emergency contingency plan or spill prevention and response plan been developed for the site?..... ☐

E. Raw materials and bulk storage..... ☐

1. What are the raw materials used at the site? (i.e., metals, paints, solvents, cleaning solutions, caustics, acids, oils, greases, etc.)..... ☐

a. How are these materials shipped?..... ☐

b. How are they stored?..... ☐

c. Are Material Safety Data Sheets ("MSDS") maintained for all chemicals used at the site? Provide copies..... ☐

d. What quantities are used?..... ☐

e. Which of these materials are considered hazardous?..... ☐

f. Have any releases of materials occurred in loading/unloading areas?..... ☐

F. Underground and aboveground storage tanks..... ☐

1. Are underground storage tanks ("USTs") utilized at the site or have they been utilized in the past?..... ☐

a. How old are the tanks and where are they located?..... ☐

2-Forms Federal Taxes Affecting Real Estate [VIII.]

- b. Describe construction of tanks..... ☐
- c. What type, if any, of protection is used (i.e., cathodic, double-walled tanks, etc.)?..... ☐
- d. What chemicals (including oil and gasoline) are stored in each tank?.....
☐
- e. Identify all permits/registrations required by applicable federal, state, and local law with respect to such tanks..... ☐
- (1) Is the site in compliance with all such requirements?..... ☐
- (2) Identify all such permits/registration obtained for the site?..... ☐
- f. What is the storage capacity of each tank?..... ☐
- g. Have the tanks been tested?..... ☐
- h. Is there any evidence of tank leakage?
- i. If the tanks are no longer in use, how and when were they abandoned?..... ☐
- (1) Was there any evidence of potential concerns (i.e. corrosion, stained soil, free product in excavation, odors, etc.)?..... ☐
- (2) Were the tanks abandoned in accordance with applicable federal, state, and local laws?..... ☐
2. Are aboveground storage tanks ("ASTs") utilized at the site or have they been utilized in the past?..... ☐
- a. How old are the tanks and where are they located?..... ☐
- b. Describe construction of tanks..... ☐
- c. Are there any secondary containment features (i.e., berm, double-walled tanks, etc.)?.....
☐
- d. Is there a leak detection system?..... ☐
- e. What chemicals (including oil and gas) are stored in each tank?..... ☐

2-Forms Federal Taxes Affecting Real Estate [VIII.]

f. Identify all permits/registrations required by applicable federal, state, and local law with respect to such tanks..... ☐

(1) Is the facility in compliance with all such requirements?..... ☐

(2) Identify all such permits/registration obtained for the site?..... ☐

g. What is the storage capacity of each tank?..... ☐

h. Have any instances of leaks or releases occurred?..... ☐

i. If the tanks are no longer in use, how and when were they abandoned?..... ☐

(1) Was there any evidence of potential concerns (i.e. corrosion, stained soil, free product in excavation, odors, etc.)?..... ☐

(2) Were the tanks abandoned in accordance with applicable federal, state, and local laws?..... ☐

3. Are there underground and/or aboveground pipelines at the site?..... ☐

a. What materials do they transfer?..... ☐

b. Are they tested?..... ☐

c. Have any releases of chemicals occurred?..... ☐

G. Waste streams..... ☐

1. Does the site generate, store, treat, or dispose of any hazardous wastes? If so, identify all such materials and the permits required in connection with such activities..... ☐

2. Does the site have a permit for the storage, treatment, or disposal of hazardous waste? If so, what is the permit number?..... ☐

3. Does the site have a hazardous waste generator's permit? If so, what is the permit number?..... ☐

4. What solid waste materials are generated at the site (i.e. sludge, scrap metals, foundry sand, medical

2-Forms Federal Taxes Affecting Real Estate [VIII.]

waste, radioactive waste, etc.)?..... ☐

a. What quantities of each type of solid wastes are generated?..... ☐

b. Are any of these wastes considered hazardous or special medical wastes?.....
☐

c. Are solid wastes stored on-site prior to disposal? If so, where? How long?..... ☐

d. Is the solid waste tested before disposal? If so, by whom? What parameters are tested?..... ☐

5. What liquid waste streams/wastewater are generated at the site (i.e. sanitary sewage, discharge water, spent solvents, used oils, etc.)?..... ☐

a. Are the wastewater streams monitored? If so, how often? What parameters are tested?..... ☐

b. Have there been any citations for permit issues of noncompliance?..... ☐

c. Is any wastewater pretreated and/or treated at the site? If so, how? How are these processes monitored?..... ☐

d. What types of waste chemical are produced (spent solvents, acids, used oils, etc.)?..... ☐

e. Are any of these liquids considered hazardous?..... ☐

f. How are these chemicals stored (drums, holding tank, etc.)? Where are they stored? How long are they stored?..... ☐

g. How are they disposed?..... ☐

(1) Who is the hauler?..... ☐

(2) Where is it taken?..... ☐

(3) Is it tested prior to disposal?..... ☐

(4) What is the amount of quantities disposed?..... ☐

2-Forms Federal Taxes Affecting Real Estate [VIII.]

h. Does the site have floor drain trenches, or sumps? If so, how are they used? Where are they located?..... ☐

6. What are the sources of air emissions at the site?..... ☐

a. Are there any air pollution control devices operated at the site?..... ☐

b. Are air emissions monitored? If so, how often? What parameters are tested?..... ☐

c. Have any citations been issued for permit excesses?..... ☐

H. Solid waste disposal..... ☐

1. How is the solid waste produced at the site disposed of?..... ☐

a. Contract with private hauler..... ☐

(1) Identify hauler..... ☐

(2) Identify disposal destination..... ☐

b. Municipal waste removal services..... ☐

c. Does site contain..... ☐

(1) An incinerator?..... ☐

(2) A landfill?..... ☐

(3) A system for recycling solid waste?..... ☐

d. Have all required government permits (federal, state, and local) been obtained to operate the incinerator, landfill, and/or recycling system?..... ☐

I. Waste water disposal..... ☐

1. Sewage..... ☐

2-Forms Federal Taxes Affecting Real Estate [VIII.]

- a. Is site hooked up to municipal sewage system?..... ☐
- b. Is site served by its own septic system?..... ☐
- c. Is sewage treated and discharged into waterway?..... ☐
- d. Average amount of sewage produced monthly (in gallons)..... ☐
- e. Have all required government permits (federal, state and local) been obtained? List all permit numbers..... ☐
2. Waste water produced in the course of industrial operations..... ☐
- a. Types..... ☐
- b. Amounts..... ☐
- c. Where is wastewater discharged?..... ☐
- d. Have all required government permits (federal, state and local) been obtained? List all permit numbers..... ☐
3. Runoff of rainwater..... ☐
- a. Where is rainwater discharged?..... ☐
- (1) Into municipal storm drainage system..... ☐
- (2) A waterway..... ☐
- (3) Wetland/marsh..... ☐
- (4) Other..... ☐
- b. Have all required government permits (federal, state and local) been obtained?..... ☐
- c. Does rainwater carry off any industrial wastewater produced at the site?..... ☐
- d. Location of drainage system, waterway, wetland, etc..... ☐

J. Wetlands..... ☐1. In the past, has any wetland on the site been..... ☐a. Filled?..... ☐b. Drained?..... ☐c. Dredged?..... ☐2. Has construction occurred within the wetland?..... ☐3. Explain in detail..... ☐a. When this was done..... ☐b. Where it was done..... ☐c. How it was done..... ☐4. Were all required government permits (federal, state and local) obtained?..... ☐K. Emissions into the air..... ☐1. Specify the source of energy for heating and cooling at the site..... ☐2. Is fuel-burning machinery used at the site for industrial purposes?..... ☐3. Are smoke, gases, vapors, or other substances emitted into the air?..... ☐4. If so, what specific types of emissions are released?..... ☐a. Carbon monoxide..... ☐b. Sulphur dioxide..... ☐c. Nitrogen oxide..... ☐

2-Forms Federal Taxes Affecting Real Estate [VIII.]

- d. Ozone..... ☐
- e. Hydrocarbons..... ☐
- f. Organic compounds..... ☐
- g. Vinyl chloride..... ☐
- h. Mercury..... ☐
- i. Asbestos..... ☐
- j. Lead..... ☐
- k. Other..... ☐

5. In what quantities?..... ☐

6. Have all required government permits (federal, state and local) been obtained? List all permit numbers..... ☐

L. Hazardous substances..... ☐

1. Has any hazardous substance, whether solid, liquid or gaseous, ever..... ☐

- a. Been released into the air?..... ☐
- b. Leaked?..... ☐
- c. Spilled?..... ☐
- d. Been discharged?..... ☐
- e. Escaped?..... ☐
- f. Leached?..... ☐

2. If so, what type of substance was involved?..... ☐

2-Forms Federal Taxes Affecting Real Estate [VIII.]

3. When did this event occur?..... ☐
4. How much of the substance was released?..... ☐
5. What was the cause of the mishap?..... ☐
6. What was the nature and extent of the damage?..... ☐
7. What clean up actions were taken?..... ☐
8. Was any governmental agency (federal, state or local) notified of the mishap?..... ☐
9. Was an action of any type brought against you by a governmental agency as a result of the environmental mishap?..... ☐
10. If so, what is the current status of such action?..... ☐
11. Was an action of any type brought against you by any other party, e.g., a neighbor whose property was contaminated as a result of the mishap?..... ☐
12. If so, what is the current status of such action?..... ☐
13. As part of your business activities, is any hazardous substance..... ☐
- a. Brought onto the premises?..... ☐
- b. Used?..... ☐
- c. Produced?..... ☐
- d. Treated?..... ☐
- e. Stored on the premises?..... ☐
- f. Disposed of on the premises?..... ☐
14. If so, what is the substance?..... ☐
15. What quantity of the substance is regularly present on the site?..... ☐

16. Where on the site is the substance located?..... ☐

17. Has any governmental agency been made aware of the presence of the substance on the site?..... ☐

M. Hazardous wastes..... ☐

1. As part of your business activities, is any hazardous waste..... ☐

a. Brought onto the premises?..... ☐

b. Used?..... ☐

c. Produced?..... ☐

d. Treated?..... ☐

e. Stored on the premises?..... ☐

f. Disposed of on the premises?..... ☐

2. If so, what type of waste is it?..... ☐

3. What quantity of waste is regularly present on the site?..... ☐

4. Where on the site is the waste located?..... ☐

5. What methods are used to store the waste?..... ☐

6. How long does it remain on the site?..... ☐

7. Has any governmental agency been made aware of the presence of the waste on the site?.....
☐

8. Where is the hazardous waste transported to for disposal?..... ☐

9. What is the name of the company performing this service?..... ☐

N. Review of potential concerns..... ☐

2-Forms Federal Taxes Affecting Real Estate [VIII.]

1. Are you aware of any pending, threatened, or past litigation, administrative proceedings, or possible liability related to hazardous substances or petroleum products having been used or currently in use at the site?..... ☐

2. Are you aware of any environmental liens, either recorded or unrecorded, against the site?..... ☐

3. Has the site ever been cited for noncompliance with discharge, wastewater, air emissions, and/or hazardous waste permits?..... ☐

4. Has the site been identified by a state or federal agency as a site allegedly contaminated by the release of hazardous materials?..... ☐

5. Who else would be knowledgeable about past and present site operations or conditions resulting in adverse environmental conditions (e.g., architects, engineers, adjacent property owners, local governmental agencies)? List name, addresses, and telephone numbers..... ☐

6. Attach copies of the environmental permits, correspondence with federal, state, and local governmental authorities, public utilities, and any as built site plans showing the general property layout, utilities, etc..... ☐

Appendix Forms: CHECKLISTS

2-Forms Federal Taxes Affecting Real Estate [IX.]

[IX.] Checklist for Phase I Environmental Site Assessment

A. Identify subject premises..... ☐

1. Street address..... ☐

a. Street name and building number..... ☐

b. State, municipality or other political subdivision..... ☐

2. Survey map..... ☐

3. Deed..... ☐

4. Abstract of title..... ☐

5. Boundary line definition..... ☐

6. Tax map..... ☐

B. Identify all adjoining parcels..... ☐

1. Names of owners..... ☐

2. Structures..... ☐

2-Forms Federal Taxes Affecting Real Estate [IX.]

3. Boundary lines..... ☐

4. Character and uses (both past and present) of each adjoining parcel..... ☐

a. Residential..... ☐

(1) How solid waste is disposed of..... ☐

(2) How sewage is disposed of..... ☐

(a) Septic system..... ☐

(b) Public sewer system..... ☐

b. Commercial..... ☐

(1) How solid waste is disposed of..... ☐

(2) Where solid waste is taken..... ☐

(3) How sewage is disposed of..... ☐

(a) Septic system..... ☐

(b) Public sewer system..... ☐

(4) Use of ground water (i.e., water from wells, springs, etc.)..... ☐

(5) Discharge of ground water..... ☐

(6) Use of surface water (i.e., water from ponds, streams, marshes, etc.)..... ☐

(7) Discharge of surface water..... ☐

(8) Manufacturing..... ☐

(a) Products produced..... ☐

(b) Raw materials required (e.g., chemicals, etc.)..... ☐

2-Forms Federal Taxes Affecting Real Estate [IX.]

☐

(d) Manufacturing processes used..... ☐

(e) Storage facilities..... ☐

(f) Any hazardous substances used, produced, stored or disposed of on property..... ☐

(9) Services..... ☐

(a) Services performed..... ☐

(b) Raw materials required (e.g., chemicals, etc.)..... ☐

(c) Equipment, machinery and tools required..... ☐

(d) Processes used..... ☐

(e) Storage facilities..... ☐

(f) Any hazardous substances used, produced, stored or disposed of on property..... ☐

(10) Office building..... ☐

(a) Services performed..... ☐

(b) Equipment, machinery and tools required..... ☐

(c) Storage facilities..... ☐

(d) Any hazardous substances used, produced, stored or disposed of on property..... ☐

(10) Length of time premises were used for these purposes..... ☐

C. Identify past and present uses of subject premises..... ☐

2-Forms Federal Taxes Affecting Real Estate [IX.]

1. Review title records..... ☐
2. Review historic maps..... ☐
3. Review aerial photographs for as many years as are available..... ☐
4. Interview neighbors..... ☐
5. Interview police department officials..... ☐
 - a. About their personal knowledge concerning use of subject property..... ☐
 - b. Inspect police records for indications of how property was or is being used (e.g., citations, complaints from neighbors)..... ☐
6. Interview fire department officials..... ☐
 - a. About their personal knowledge concerning use of subject property..... ☐
 - b. Inspect fire department records for indications of how property was or is being used (e.g., citations, complaints from neighbors)..... ☐
7. Interview public works department officials..... ☐
 - a. About their personal knowledge concerning use of subject property..... ☐
 - b. Inspect department records for indications of how property was or is being used (e.g., complaints from neighbors)..... ☐
8. Interview officials of local health department..... ☐
 - a. For their personal knowledge regarding possible environmental hazards on property..... ☐
 - b. Inspect department records for possible citations issued by department or complaints brought by neighbors and others..... ☐
9. Review municipal records..... ☐
 - a. Applications to zoning and municipal planning boards..... ☐

- (1) Change in use applications..... ☐
- (2) Construction permits..... ☐
- (3) Demolition permits..... ☐
- (4) Maps on file..... ☐
- 10. Review Internet databases with respect to property and surrounding area..... ☐
- 11. Character and uses (both past and present) of subject premises..... ☐
 - a. Residential..... ☐
 - (1) How solid waste is disposed of..... ☐
 - (2) How sewage is disposed of..... ☐
 - (a) Septic system..... ☐
 - (b) Public sewer system..... ☐
 - b. Commercial..... ☐
 - (1) How solid waste is disposed of..... ☐
 - (2) Where solid waste is taken..... ☐
 - (3) How sewage is disposed of..... ☐
 - (a) Septic system..... ☐
 - (b) Public sewer system..... ☐
 - (4) Use of ground water (i.e., water from wells, springs, etc.)..... ☐
 - (5) Discharge of ground water..... ☐
 - (6) Use of surface water (i.e., water from ponds, streams, marshes, etc.)..... ☐

2-Forms Federal Taxes Affecting Real Estate [IX.]

(7) Discharge of surface water..... ☐

(8) Manufacturing..... ☐

(a) Products produced..... ☐

(b) Raw materials required (e.g., chemicals, etc.)..... ☐

(c) Equipment, machinery and tools required..... ☐

(d) Manufacturing processes used..... ☐

(e) Storage facilities..... ☐

(f) Any hazardous substances used, produced, stored or disposed of on property..... ☐

(9) Services..... ☐

(a) Services performed..... ☐

(b) Raw materials required (e.g., chemicals, etc.)..... ☐

(c) Equipment, machinery and tools required..... ☐

(d) Processes used..... ☐

(e) Storage facilities..... ☐

(f) Any hazardous substances used, produced, stored or disposed of on property..... ☐

(10) Office building..... ☐

(a) Services performed..... ☐

(b) Equipment, machinery and tools required..... ☐

(c) Storage facilities..... ☐

(d) Any hazardous substances used, produced, stored or disposed of on property..... ☐

(11) Length of time premises were used for these purposes..... ☐

D. Geography of surrounding area..... ☐

1. Topography (i.e., features of the area)..... ☐

a. Perform personal inspection of area..... ☐

b. Check U.S. Geological Service maps..... ☐

(1) Elevation..... ☐

(2) Relief features..... ☐

(a) Hills..... ☐

(b) Mountains..... ☐

(c) Valleys..... ☐

(d) Other..... ☐

(3) Bodies of water on or near premises..... ☐

(a) Ponds..... ☐

(b) Springs..... ☐

(c) Lakes..... ☐

(d) Rivers..... ☐

(e) Streams and brooks..... ☐

(f) Wetlands and marshes..... ☐

2-Forms Federal Taxes Affecting Real Estate [IX.]

(g) Other..... ☐

(4) How well does surface water run off the subject premises?..... ☐

(5) Natural vegetation..... ☐

(a) Trees..... ☐

(b) Shrubbery..... ☐

(c) Other..... ☐

2. Geological setting..... ☐

a. General soil type..... ☐

b. Properties of soil (e.g., sandy, clay-like, dense, rocky)..... ☐

c. Presence of radon..... ☐

d. Ground water..... ☐

(1) Quantity..... ☐

(2) Quality..... ☐

(3) Movement of ground water from subject property to adjoining properties and vice versa..... ☐

3. Manmade features..... ☐

a. Storm drains and sewers..... ☐

b. Electrical poles and lines..... ☐

c. Electrical underground lines..... ☐

d. Electrical transformers..... ☐

2-Forms Federal Taxes Affecting Real Estate [IX.]

e. Gas mains..... ☐

f. Telephone poles and lines..... ☐

g. Telephone underground lines..... ☐

h. Storage tanks..... ☐

(1) Used to store _____ ☐

(2) Present condition of tanks..... ☐

(3) Location of tanks..... ☐

i. Water pipes and lines..... ☐

j. Sewer pipes and lines..... ☐

k. Roadways..... ☐

l. Parking lots..... ☐

m. Buildings and other structures..... ☐

(1) Age..... ☐

(2) Construction type (e.g., brick, stone, wood, etc.)..... ☐

(3) Additions to buildings and other structures..... ☐

(4) Blueprints of existing and prior buildings and other structures..... ☐

(5) Present condition of buildings and other structures..... ☐

(6) Floor drains in buildings and other structures..... ☐

(7) Percentage of current occupancy of buildings and other structures..... ☐

E. Identify potential environmental hazards on or near subject premises..... ☐

1. Review "National Priorities List" (NPL)..... ☐

a. To see whether subject premises is listed thereon..... ☐

b. To see whether adjoining parcels are listed thereon..... ☐

c. To determine location of nearest parcel listed on NPL in relation to subject premises..... ☐

2. Review "Comprehensive Environmental Response, Compensation and Liability Information System" (CERCLIS)..... ☐

a. To see whether subject premises is listed therein..... ☐

b. To see whether adjoining parcels are listed therein..... ☐

c. To determine location of nearest parcel listed in CERCLIS in relation to subject premises..... ☐

3. Review equivalent state environmental agency's list of sites requiring clean up, if any..... ☐

a. To see whether subject premises is listed thereon..... ☐

b. To see whether adjoining parcels are listed thereon..... ☐

c. To determine location of nearest parcel listed on list in relation to subject premises..... ☐

4. Physically inspect premises..... ☐

a. For stains on or near utility poles..... ☐

b. For signs of underground tanks..... ☐

c. For barrels and cans of liquid substances..... ☐

2-Forms Federal Taxes Affecting Real Estate [IX.]

- d. For signs of buried refuse..... ☐
 - e. For pools of oil, chemicals, etc..... ☐
 - f. For mounds of trash..... ☐
 - g. For dumpsters and receptacles of refuse..... ☐
 - h. For smokestacks..... ☐
 - i. For asbestos insulation..... ☐
 - (1) In ceiling tiles..... ☐
 - (2) In floor tiles..... ☐
 - (3) On pipes..... ☐
 - (4) On boiler or furnace..... ☐
 - j. For urea formaldehyde insulation..... ☐
 - k. For surfaces covered with lead-based paint..... ☐
 - l. For fungus, mold and other similar growths..... ☐
 - m. For evidence of infestation by insects and rodents..... ☐
 - n. Other..... ☐
- F. Laboratory analysis of air, water and soil samples (optional)..... ☐
- 1. Within structures..... ☐
 - a. Air samples..... ☐
 - b. Dust samples..... ☐
 - c. Paint samples..... ☐

d. Other..... ☐

2. External samplings..... ☐

a. Soil..... ☐

b. Surface water..... ☐

c. Ground water..... ☐

d. Air..... ☐

G. Analyzing data and drawing conclusions therefrom..... ☐

1. Specify precisely what was done during environmental site assessment..... ☐

2. Specify any potential environmental concerns..... ☐

3. Determine probability of environmental mishap in the future..... ☐

4. Limitations of environmental site assessment conducted..... ☐

a. No sampling of air, water, soil, etc., for evidence of contamination..... ☐

b. Reliance on oral statements made by those interviewed..... ☐

c. Inability to independently verify oral statements..... ☐

(1) Because of incomplete data..... ☐

(2) Because of contradictory data..... ☐

5. Warranties provided by environmental consultant..... ☐

a. To whom given?..... ☐

b. Warranties do not extend to other parties not expressly named..... ☐

c. Other limitations on warranties..... ☐

2-Forms Federal Taxes Affecting Real Estate [IX.]

- d. Disclaimers of liability for erroneous or incomplete information found in report..... ☐
- e. Caveats..... ☐
6. Review of owner/occupant's compliance with environmental laws and regulations..... ☐
- a. Review not part of scope of work..... ☐
- b. Or: specify laws reviewed..... ☐
- (1) Federal..... ☐
- (2) State..... ☐
- (3) Local..... ☐
- c. Specify any lack of compliance found..... ☐
- d. Specify any limitations on scope of this review..... ☐
- (1) Lack of cooperation from owner/occupant or others..... ☐
- (2) Necessary reliance on oral statements..... ☐
- (3) Inability to independently verify statements..... ☐
7. Specify when site assessment was performed..... ☐
8. Specify standard of care to be used in judging the performance of the environmental consultant..... ☐
9. Specify qualifications of consultant..... ☐

Appendix Forms: CHECKLISTS

2-Forms Federal Taxes Affecting Real Estate [X.]

[X.] Checklist for Use by Counsel to Real Estate Developer

- A. Planning phase..... ☐
 - 1. Define nature and scope of project..... ☐
 - a. Residential housing development..... ☐
 - (1) Single-family/owner-occupied..... ☐
 - (2) Multi-unit/developer-owned..... ☐
 - b. Commercial development..... ☐
 - (1) Retail..... ☐
 - (2) Office..... ☐
 - (3) Mixed use..... ☐
 - c. Industrial..... ☐
 - (1) Light industry..... ☐
 - (2) Heavy industry..... ☐
 - 2. Select site..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

a. Determine feasibility of each possible site ☐

(1) Determine availability of utilities and cost of installation or hook-up.....

☐

(a) Natural gas..... ☐

(b) Electricity..... ☐

(c) Potable water..... ☐

(d) Sewer system..... ☐

(e) Cable television..... ☐

(f) Telephone..... ☐

(2) Assess access of site to public
roadways ☐

(3) Assess property tax rates..... ☐

(4) Determine availability of quality public
schools ☐

(5) Estimate number of units that can be placed on parcel ☐

b. Review environmental aspects of each site ☐

(1) Determine present and past uses..... ☐

(2) Perform phase I environmental site assessment if such assessment has not been done in recent
years..... ☐

(3) Perform phase II environmental site assessment if phase I reveals evidence of adverse
environmental impact on property ☐

(4) Bodies of water on or near site?..... ☐

(a) Rivers..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

(b) Lakes..... ☐

(c) Streams..... ☐

(d) Springs..... ☐

(e) Ponds..... ☐

(f) Wells..... ☐

(g) Aquifers..... ☐

(h) Other..... ☐

(5) Wetlands on or near site?..... ☐

(6) Other significant environmental features of the site ☐

(a) Pine barrens..... ☐

(b) Seashore..... ☐

(c) Habitat of protected or endangered species..... ☐

(d) Other..... ☐

(7) Protected wildlife in the area?..... ☐

c. Is site located within or near a special
district? ☐

(1) Historic preservation district..... ☐

(2) Environmental conservation district..... ☐

(3) Federal or state park..... ☐

(4) Other..... ☐

3. Assembly of real estate development team ☐

a. Engineer..... ☐

(1) Determine scope of duties..... ☐

(2) Review qualifications..... ☐

(3) Investigate references..... ☐

(4) Reach agreement on compensation..... ☐

(5) Prepare contract for services..... ☐

(a) Specify in detail services to be
rendered, e.g., ... ☐

(i) Preparation of site plan,
drawings, etc ☐

(ii) Appear at all governmental hearings for project approval ☐

(iii) Supervise building of
infrastructure ☐

(iv) Other duties..... ☐

(b) Deadlines..... ☐

(c) Developer reserves right to terminate
contract ☐

(d) Developer reserves right to make use of engineer's work product even if contract is
terminated..... ☐

(e) Compensation..... ☐

(i) Hourly rate?..... ☐

(ii) Percentage of total cost of
construction? ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

(iii) Other method?..... ☐

(f) Does engineer carry sufficient malpractice insurance? ☐

(g) Other contract provisions..... ☐

b. Surveyor..... ☐

(1) Determine scope of duties..... ☐

(2) Review qualifications..... ☐

(3) Investigate references..... ☐

(4) Reach agreement on compensation..... ☐

(5) Prepare contract for services..... ☐

(a) Specify in detail services to be rendered ☐

(b) Deadlines..... ☐

(c) Developer reserves right to terminate contract ☐

(d) Developer reserves right to make use of surveyor's work product even if contract is terminated..... ☐

(e) Compensation..... ☐

(i) Hourly rate?..... ☐

(ii) Flat fee?..... ☐

(iii) Other method?..... ☐

(f) Other contract provisions..... ☐

c. Architect, if needed..... ☐

(1) Determine scope of duties..... ☐

(2) Review qualifications..... ☐

(3) Investigate references..... ☐

(4) Reach agreement on compensation..... ☐

(5) Prepare contract for services..... ☐

(a) Specify in detail services to be
rendered ☐

(b) Deadlines..... ☐

(c) Developer reserves right to terminate
contract ☐

(d) Developer reserves right to make use of architect's work product even if contract is
terminated..... ☐

(e) Compensation..... ☐

(i) Hourly rate?..... ☐

(ii) Percentage of total cost of
construction? ☐

(iii) Flat fee?..... ☐

(iv) Other method?..... ☐

(f) Does architect carry sufficient malpractice insurance? ☐

(g) Other contract provisions..... ☐

d. Financial advisor (independent contractor) ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

- (1) Determine scope of duties..... ☐
- (2) Review qualifications..... ☐
- (3) Investigate references..... ☐
- (4) Reach agreement on compensation..... ☐
- (5) Prepare contract for services..... ☐
- (a) Specify in detail services to be rendered ☐
- (i) Accounting services..... ☐
- (ii) Bookkeeping services..... ☐
- (iii) Tax advice..... ☐
- (iv) Make projections regarding project costs & revenue ☐
- (v) Other..... ☐
- (b) Deadlines..... ☐
- (c) Developer reserves right to terminate contract ☐
- (d) Developer reserves right to make use of advisor's work product even if contract is terminated..... ☐
- (e) Compensation..... ☐
- (i) Hourly rate?..... ☐
- (ii) Flat fee?..... ☐
- (iii) Other method?..... ☐
- (f) Non-competition clause..... ☐

(g) Confidentiality clause..... ☐

(h) Other contract provisions..... ☐

e. Other consultants, e.g, marketing advisor. ☐

(1) Determine scope of duties..... ☐

(2) Review qualifications..... ☐

(3) Investigate references..... ☐

(4) Reach agreement on compensation..... ☐

(5) Prepare contract for services..... ☐

(a) Specify in detail services to be
rendered ☐

(b) Deadlines..... ☐

(c) Developer reserves right to terminate
contract ☐

(d) Developer reserves right to make use of consultant's work product even if contract
is terminated..... ☐

(e) Compensation..... ☐

(i) Hourly rate?..... ☐

(ii) Flat fee?..... ☐

(iii) Other method?..... ☐

(f) Other contract provisions..... ☐

f. Prepare timeline for project..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

B. Form of ownership of real estate development project ☐

1. Limited partnership..... ☐

a. Identify partners..... ☐

(1) One or more general partners with unlimited liability ☐

(2) One or more limited partners with limited liability ☐

b. Identify partner(s) responsible for management and control of project..... ☐

c. Specify the powers and responsibilities of the managing partner(s) ☐

d. Capital contributions of partners..... ☐

(1) Amount of cash to be provided by each
partner ☐

(2) Non-cash contributions..... ☐

(a) Land..... ☐

(b) Services..... ☐

(c) Equipment..... ☐

(d) Other..... ☐

(3) Specify ownership interest of each
partner ☐

e. Tax considerations..... ☐

(1) Appointment of tax matters partner ☐

(2) Determination of basis of contributed property..... ☐

(3) Restrictions on transfer to avoid publicly traded status..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

f. Buy-out considerations, e.g., whether partnership or partners shall be required to buy, or shall have option to buy, the partnership interest of a partner in the event of his or her..... ☐

(1) Death..... ☐

(2) Physical or mental disability..... ☐

(3) Retirement..... ☐

(4) Desire to withdraw from firm..... ☐

(5) Other reasons..... ☐

g. Causes of partnership termination..... ☐

h. File organizational papers and, if required publish..... ☐

i. Draft and, if required, file partnership agreement..... ☐

2. Limited liability company..... ☐

a. Identify members..... ☐

b. Identify member(s) or managers responsible for management and control of project.....
☐

c. Specify powers and responsibilities of managing members or managers..... ☐

d. Specify capital contributing members..... ☐

(1) Amount of cash to be provided by each member..... ☐

(2) Non cash contributions..... ☐

(i) Land..... ☐

(ii) Services..... ☐

(iii) Equipment..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

(iv) Other..... ☐

(3) Specify ownership interest of each member..... ☐

e. Tax considerations..... ☐

(1) Appoint tax matters members..... ☐

(2) Determination of basis of contributed property..... ☐

(3) Restrictions on transfer to avoid publicly traded status..... ☐

f. Buyout considerations, e.g., whether LLC or members shall be required to buy, or shall have option to buy, the membership interest of a member in the event of his or her..... ☐

(1) Death..... ☐

(2) Physical or mental disability..... ☐

(3) Retirement..... ☐

(4) Desire to withdraw from firm..... ☐

(5) Other reasons..... ☐

g. Causes of LLC termination..... ☐

h. File certificates of organization and publish, if required..... ☐

i. Draft and, if required, file LLC operating agreement..... ☐

3. Corporation..... ☐

a. Identify incorporator(s)..... ☐

b. Identify shareholder(s)..... ☐

c. File articles of incorporation..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

- d. Determine purchase price for stock..... ☐
- e. Issue shares to shareholders..... ☐
- f. Restrictions on transfer of shares?..... ☐
- g. Meeting of shareholders..... ☐
- h. Control and operation of corporation..... ☐
- (1) Election of board of directors..... ☐
- (2) Adoption of corporate by-laws..... ☐
- (3) Appointment of officers..... ☐
- (4) Specification of powers of board..... ☐
- (5) Specification of powers of officers..... ☐
- i. Tax considerations..... ☐
- (1) Tax on corporate income..... ☐
- (2) Tax on corporate dividends..... ☐
- (3) Federal S corporation election?..... ☐
- (4) State and local S corporation election..... ☐
- (5) Other..... ☐
- j. Buy-out considerations, e.g., whether corporation or shareholders shall be required to buy, or shall have option to buy, the stock of a shareholder in the event of his..... ☐
- (1) Death..... ☐
- (2) Physical or mental disability..... ☐

(3) Retirement..... ☐

(4) Desire to withdraw from firm..... ☐

(5) Other reasons..... ☐

k. Causes of corporate dissolution..... ☐

l. Draft appropriate shareholder agreements ☐

(1) Redemption agreement..... ☐

(2) Cross-purchase agreement..... ☐

(3) Corporate control agreement..... ☐

(4) Voting trust agreement..... ☐

(5) Other..... ☐

4. General partnership..... ☐

a. Identify partners..... ☐

(1) General partners with equal
ownership ☐

(2) General partners with unequal
ownership ☐

b. Identify partner(s) responsible for management and control of project..... ☐

c. Specify the powers and responsibilities of the managing partner(s) ☐

d. Are there any limitations on the actions of any partners? ☐

e. Capital contributions of partners..... ☐

(1) Amount of cash to be provided by each

2-Forms Federal Taxes Affecting Real Estate [X.]

partner ☐

(2) Non-cash contributions..... ☐

(a) Land..... ☐

(b) Services..... ☐

(c) Equipment..... ☐

(d) Other..... ☐

(3) Specify ownership interest of each
partner ☐

f. Tax considerations..... ☐

(1) Appointment of tax matters partner ☐

(2) Determination of basis of contributed property..... ☐

g. Buy-out considerations, e.g., whether partnership or partners shall be required to buy, or shall have option to buy,
the partnership interest of a partner in the event of his..... ☐

(1) Death..... ☐

(2) Physical or mental disability..... ☐

(3) Retirement..... ☐

(4) Desire to withdraw from firm..... ☐

(5) Other reasons..... ☐

h. Causes of partnership termination..... ☐

i. Draft and file partnership agreement..... ☐

5. Sole proprietorship considerations..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

- a. Unfettered control of project..... ☐
 - b. Personal liability for all debts arising from project ☐
 - c. Personal liability for all tort claims for injury to person or property arising from project..... ☐
 - d. Income, deductions, gains, losses, etc., to be reported on sole proprietor's individual tax return..... ☐
 - e. Continuity of project if sole proprietor dies or becomes ill ☐
 - f. Difficulty in raising investment capital ☐
- C. Land acquisition phase..... ☐
- 1. Draft option agreement giving developer option to purchase land ☐
 - a. Time period of option..... ☐
 - b. Extensions of option period..... ☐
 - (1) Automatic upon request of developer..... ☐
 - (2) Automatic upon payment of extra consideration by developer ☐
 - c. Consideration for option..... ☐
 - (1) To be applied to purchase price..... ☐
 - (2) To be applied to purchase price if sale is closed by specified date..... ☐
 - (3) Not to be applied to purchase price..... ☐
 - d. Events triggering exercise of option..... ☐
 - (1) Passage of fixed amount of time..... ☐
 - (2) Developer obtains governmental approval of project ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

(3) Completion of survey..... ☐

(4) Satisfactory results of environmental site assessment ☐

(5) Developer obtains acceptable financing for project ☐

(6) Other..... ☐

e. Purchase price of land..... ☐

(1) Set forth in option..... ☐

(2) Set per acre..... ☐

(3) Based on appraisal at closing of sale ☐

2. Purchase agreement..... ☐

a. Contingencies..... ☐

(1) Purchase contingent upon developer obtaining governmental approvals.....
☐

(a) Planning board..... ☐

(b) Zoning board..... ☐

(c) Subdivision approval..... ☐

(d) Environmental impact study..... ☐

(e) Other..... ☐

(2) Purchase contingent upon locating adequate source of potable water..... ☐

(a) Well water..... ☐

(b) Water company..... ☐

- (3) Purchase contingent upon devising means of disposing of sewage ☐
- (a) Individual septic system for each house in residential development.....
☐
- (b) Use municipal sewer system..... ☐
- (c) Build private sewage treatment facility for use by development. ☐
- (d) Obtain all necessary governmental approvals for whatever method
chosen..... ☐
- (e) Conduct geological and other studies to determine feasibility of method
chosen..... ☐
- (4) Purchase contingent upon acquiring basic utilities for development..... ☐
- (a) Natural gas..... ☐
- (b) Electricity..... ☐
- (c) Telephone..... ☐
- (d) Cable television..... ☐
- (5) Purchase contingent upon acquiring land acquisition financing ☐
- (a) Seller to provide financing..... ☐
- (b) Investors to provide financing..... ☐
- (c) Commercial lender to provide
financing ☐
- (i) List loan terms and conditions acceptable to developer, e.g., interest rate, repayment
period, collateral, etc..... ☐
- (6) Purchase contingent upon results of environmental site assessment ☐
- (7) In the case of a rehabilitation project, purchase is contingent upon the following..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

- (a) Structural inspection..... ☐
- (b) Pest inspection..... ☐
- (c) Insect inspection (e.g., termites, carpenter ants, etc.). ☐
- (d) Radon gas inspection..... ☐
- (e) Lead-based paint inspection..... ☐
- (f) Urea formaldehyde insulation
inspection ☐
- (g) Other..... ☐
- b. Title insurance must be obtained..... ☐
- c. Time of sale..... ☐
- d. Place of sale..... ☐
- e. Warranties granted to developer..... ☐
- f. Detailed description of property being
conveyed ☐
- g. Purchase price..... ☐
- (1) Price set forth in option..... ☐
- (2) Price per acre based on survey..... ☐
- (3) Based on appraisal..... ☐
- h. Other provisions..... ☐
3. Financing..... ☐
- a. Owner-financed sale..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

- (1) Down payment..... ☐
- (2) Purchase money mortgage for balance..... ☐
- (3) Mortgage subordination clause so developer can more easily obtain financing for infrastructure..... ☐
- (4) Provision allowing for partial release of mortgage as units in development are built and sold..... ☐
- (a) Per lot..... ☐
- (b) Per acre..... ☐
- (c) Per section..... ☐
- (d) Release for infrastructure..... ☐
- (i) Roads..... ☐
- (ii) Sidewalks..... ☐
- (iii) Water System..... ☐
- (iv) Other..... ☐
- (5) Payment provisions..... ☐
- (a) Amortization period and loan term are the same ☐
- (b) Long amortization period, shorter loan term with balloon payment ☐
- (c) Interest payments only, followed by balloon payment ☐
- (d) Payment of portion of principal upon release of each lot ☐
- (e) How often are payments to be made to seller? ☐
- (f) Amount of each payment..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

(g) Portion of each payment to be applied to principal and portion to be applied to interest.....
☐

(h) Other provisions..... ☐

(6) Interest on mortgage..... ☐

(a) Fixed rate..... ☐

(b) Variable rate..... ☐

(i) If variable rate, is it tied to the prime rate or some other index?..... ☐

(ii) How frequently may rate be
adjusted? ☐

(iii) What is maximum rate?..... ☐

(7) Seller's remedies upon default..... ☐

(a) Reclaim full title to property..... ☐

(b) All foreclosure costs, including attorney's fees, to be paid by developer..... ☐

b. Institutional financing (usually not available for vacant land) ☐

(1) Developer must satisfy conditions to receive loan commitment letter..... ☐

(a) Obtain title insurance..... ☐

(b) Obtain survey..... ☐

(c) Other..... ☐

(2) Loan amount..... ☐

(3) How and when loan funds will be
disbursed ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

- (4) Recourse or nonrecourse loan?..... ☐
- (5) Collateral..... ☐
- (6) Loan guarantees..... ☐
- (7) Provision allowing for partial release of mortgage as units in development are built and sold..... ☐
- (a) Per lot..... ☐
- (b) Per acre..... ☐
- (c) Per section..... ☐
- (d) Release for infrastructure..... ☐
- (i) Roads..... ☐
- (ii) Sidewalks..... ☐
- (iii) Water system Other..... ☐
- (iv) Other..... ☐
- (8) Repayment provisions..... ☐
- (a) Amortization period and loan term are the same ☐
- (b) Long amortization period, shorter loan term with balloon payment ☐
- (c) Interest payments only, followed by balloon payment ☐
- (d) Payment of portion of principal upon release of each lot ☐
- (e) How often are payments to be made to lender? ☐
- (f) Amount of each payment..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

(g) Portion of each payment to be applied to principal and portion to be applied to interest.....

☐

(h) Escrow account for real property and school taxes ☐

(i) Other provisions..... ☐

(9) Interest on mortgage loan..... ☐

(a) Fixed rate..... ☐

(b) Variable rate..... ☐

(i) If variable rate, is it tied to the prime rate or some other index?..... ☐

(ii) How frequently may rate be
adjusted? ☐

(iii) What is maximum rate?..... ☐

(10) Lender's remedies upon default..... ☐

(a) Claim full title to property..... ☐

(b) Claim full title to collateral..... ☐

(c) All foreclosure costs, including attorneys' fees, to be paid by developer..... ☐

4. Closing..... ☐

a. Deed..... ☐

b. Note..... ☐

c. Mortgage..... ☐

d. Title insurance..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

e. Title affidavits..... ☐

f. Escrow letters of instruction, if needed ☐

D. Construction phase..... ☐

1. Agreement with general contractor..... ☐

a. If government funds are used..... ☐

(1) Provision requiring use of some minority subcontractors ☐

(2) Provision requiring use of some female subcontractors ☐

(3) Provisions requiring payment of prevailing wages ☐

b. Define scope of general contractor's services ☐

c. Provisions pertaining to selection of subcontractors by general contractor..... ☐

d. Amount of compensation..... ☐

e. Method of compensation..... ☐

(1) Schedule of "progress" payments..... ☐

(2) Lump sum payment upon completion of
work ☐

f. Penalties for missed deadlines..... ☐

g. Provision allowing developer to make changes in site plan and in contractor's responsibilities after
construction has begun ☐

h. Will general contractor be required to produce
bonds? ☐

(1) Performance bond..... ☐

(2) Material and labor bond..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

- i. Warranties made by general contractor to developer ☐
- j. Risk of loss to be assumed by general contractor in the event of a strike by construction workers..... ☐
- k. Insurance to be obtained by contractor ☐
- (1) Workers' compensation..... ☐
- (2) Liability..... ☐
- (3) Builders' all risk coverage..... ☐
- (4) Hold harmless provision protecting developer ☐
- l. Completion date..... ☐
- m. Other provisions..... ☐
2. Construction financing..... ☐
- a. Developer must satisfy conditions to receive loan commitment letter..... ☐
- (1) Obtain title insurance..... ☐
- (2) Obtain survey..... ☐
- (3) Other..... ☐
- b. Land acquisition loan must be paid off or subordinated to construction loan..... ☐
- c. Loan amount..... ☐
- d. How and when loan funds will be disbursed ☐
- (1) Advances must correspond with builder's contract ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

- e. Recourse or nonrecourse loan?..... ☐
- f. Collateral..... ☐
- g. Loan guarantees..... ☐
- h. Provision allowing for partial release of mortgage as units in development are built and sold..... ☐
- (1) Per lot..... ☐
- (2) Per acre..... ☐
- (3) Per section..... ☐
- (4) Release for infrastructure..... ☐
- (a) Roads..... ☐
- (b) Sidewalks..... ☐
- (c) Water system..... ☐
- (d) Other..... ☐
- i. Repayment provisions..... ☐
- (1) Amortization period and loan term are the same ☐
- (2) Long amortization period, shorter loan term with balloon payment ☐
- (3) Interest payments only, followed by balloon payment ☐
- (4) Payment of portion of principal upon release of each lot ☐
- (5) How often are payments to be made to lender? ☐
- (6) Amount of each payment..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

(7) Portion of each payment to be applied to principal and portion to be applied to interest.....

☐

j. Interest on mortgage loan..... ☐

(1) Fixed rate..... ☐

(2) Variable rate..... ☐

(a) If variable rate, is it tied to the prime rate or some other index?..... ☐

(b) How frequently may rate be adjusted?..... ☐

(c) What is maximum rate?..... ☐

k. Lender's remedies upon default..... ☐

(1) Claim full title to property..... ☐

(2) Claim full title to collateral..... ☐

(3) All foreclosure costs, including attorneys' fees, to be paid by developer..... ☐

3. Approval of municipal building inspector ☐

a. Building permit..... ☐

b. Certificate of occupancy..... ☐

E. Marketing phase..... ☐

1. Select marketing staff..... ☐

a. In-house (employees)..... ☐

(1) Commission..... ☐

(2) Salaried..... ☐

(3) Other method of compensation..... ☐

b. Independent contractor..... ☐

(1) Flat fee..... ☐

(2) Commission..... ☐

(3) Other method of compensation..... ☐

2. Prepare marketing agreement..... ☐

a. Advertising..... ☐

(1) Frequency..... ☐

(2) Medium..... ☐

(a) Television..... ☐

(b) Radio..... ☐

(c) Newspapers..... ☐

(d) Magazines..... ☐

(e) Billboards..... ☐

(f) Telemarketing..... ☐

(g) Mass mailing..... ☐

(h) Internet..... ☐

(i) Other methods..... ☐

(3) Who will prepare advertisements?..... ☐

(4) Of what size or length shall they be? ☐

(5) Who is responsible for expense?..... ☐

(6) Who is responsible for content of advertisements? ☐

b. Termination provision..... ☐

(1) For cause..... ☐

(2) Without cause..... ☐

(3) Specify notice required..... ☐

(4) Specify consideration due to marketing advisor(s) on termination ☐

c. Specify whether following will be made available to marketing staff..... ☐

(1) Office space..... ☐

(2) Equipment..... ☐

(3) Supplies..... ☐

(4) Other..... ☐

d. Specify scope of representations marketing staff may make on behalf of developer..... ☐

e. Specify any obligation to supply information to buyers prior to executing purchase contracts..... ☐

f. Specify other duties of marketing staff ☐

3. Develop standard sales contract..... ☐

a. Description of unit to be purchased..... ☐

b. Location in development..... ☐

c. Price..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

- d. Down payment..... ☐
- e. Standard features of unit..... ☐
- f. Optional features of unit..... ☐
- g. Set forth construction period..... ☐
- h. State whether purchaser has right to inspect during construction period..... ☐
- i. Form of title purchaser will be receiving, e.g., fee simple absolute, etc..... ☐
- j. Any restrictions or easements to use of property ☐
- k. Requirement that transfer of title occur immediately after issuance of certificate of occupancy..... ☐
- l. Warranties..... ☐
- m. Other provisions..... ☐
- 4. Transfer of title..... ☐
 - a. Prepare deed..... ☐
 - b. Obtain mortgage releases for acquisition and construction loans ☐
 - c. Attend closing, deliver deed and receive certified funds ☐
- 5. For property to be leased, rather than sold ☐
 - a. Determine applicability of rent control or rent stabilization laws..... ☐
 - b. Establish rental amount..... ☐
 - c. Establish term of lease..... ☐
 - d. Establish frequency of payments..... ☐

2-Forms Federal Taxes Affecting Real Estate [X.]

(1) Monthly..... ☐

(2) Quarterly..... ☐

(3) Semi-annually..... ☐

(4) Annually..... ☐

(5) Other..... ☐

e. Specify leased area..... ☐

(1) Unit number..... ☐

(2) Diagram..... ☐

(3) Other description..... ☐

f. Set forth repair and maintenance obligations of landlord ☐

(1) Structural and heating, ventilation, air conditioning ☐

(2) Non-structural..... ☐

g. Set forth repair and maintenance obligations of
tenant ☐

h. Security deposit..... ☐

(1) Amount..... ☐

(2) Bank where it will be held..... ☐

(3) Interest-bearing account?..... ☐

i. Termination provision..... ☐

(1) Upon failure to make rental payment..... ☐

(2) Fire or other casualty..... ☐

(3) Other reasons..... ☐

j. Lease renewal provision..... ☐

Appendix Forms: CHECKLISTS

2-Forms Federal Taxes Affecting Real Estate [XI.]

[XI.] Checklist for Use by Counsel to Real Estate Broker Who Will Be Selling Development or Units Therein

A. In general..... ☐

1. Define duties of broker..... ☐

a. Locate purchaser(s)..... ☐

b. Negotiate agreement for purchase and sale. ☐

c. Draw up agreement subject to approval by purchaser's and developer's attorneys..... ☐

d. Assist purchaser in locating financing for the purchase ☐

e. Comply with fair housing laws..... ☐

2. Compensation..... ☐

a. Amount..... ☐

(1) Flat fee..... ☐

(2) Percentage of purchase price..... ☐

b. When earned?..... ☐

(1) Upon execution of contract..... ☐

(2) Upon transfer of title..... ☐

c. When payable?..... ☐

(1) At closing..... ☐

(2) Over time, where purchase price is paid over time ☐

(3) Periodically (e.g., monthly or
quarterly) ☐

3. Termination..... ☐

a. With cause..... ☐

(1) Upon notice..... ☐

(2) Specify reason for termination..... ☐

(3) Arbitration?..... ☐

b. Without cause..... ☐

(1) Upon notice..... ☐

(2) When may termination without cause occur, e.g., beginning of the
quarter..... ☐

c. Broker's right to compensation for..... ☐

(1) Contracts negotiated but not yet
executed ☐

(2) Contracts executed but not closed..... ☐

(3) Contracts closed but not yet paid..... ☐

B. Sale of entire subdivision..... ☐

1. Additional duties..... ☐

a. Assist purchaser in meeting requirements for obtaining municipal approval of his proposed use of the development, as well as all other necessary governmental approvals..... ☐

b. Assist purchaser in successfully resolving contingencies upon which deal is based..... ☐

(1) Environmental site assessment..... ☐

(2) Locating adequate water source..... ☐

(3) Locating means of sewage treatment..... ☐

(4) Soil testing..... ☐

(5) Traffic study..... ☐

(6) Marketing study..... ☐

(7) Wetlands permit..... ☐

(8) Permission from historic district..... ☐

(9) Permission from conservation district..... ☐

(10) Other..... ☐

2. Additional concerns..... ☐

a. Advertising..... ☐

(1) Television..... ☐

(2) Radio..... ☐

Appendix Forms: CHECKLISTS

2-Forms Federal Taxes Affecting Real Estate [XIII.]

[XIII.] Checklist for Use by Counsel to Purchaser of Development

Part 1: Pre-Contract Stage

A. Determine status of governmental approvals ☐

1. Determine which approvals were necessary for development to be built.....

☐

a. Zoning board..... ☐

b. Planning board..... ☐

c. Environmental impact study..... ☐

d. Approval of site plan and subdivision..... ☐

e. Historic review commission..... ☐

f. Conservation district..... ☐

g. Wetlands commission..... ☐

h. Other..... ☐

2. Determine status of approval process..... ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

a. Has it been completed?..... ☐

b. What conditions were imposed by the governmental authority? ☐

(1) Have these conditions been met?..... ☐

(2) What time limits were imposed on the developer for compliance? ☐

(3) Has there been any notice of violation sent to the developer? ☐

(a) Currently?..... ☐

(b) Previously?..... ☐

(4) Are there any violations that have gone unnoticed by the governmental authority?.....
☐

(5) What conditions, if any, remain to be
met? ☐

(a) Too costly to comply?..... ☐

(b) Too difficult to comply?..... ☐

c. Completion bonds and letters of credit ☐

(1) Required by governmental authority?..... ☐

(2) Are they currently in full force and
effect? ☐

(3) Are they transferable?..... ☐

(4) What would be the cost to replace or renew them? ☐

d. If roadways have been constructed, do they meet municipal standards so as to be eligible for dedication to the
municipality as public roads?..... ☐

B. Environmental issues..... ☐

1. Has a phase I environmental site assessment been
completed? ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

a. Are complete written results of the assessment available? ☐

b. What is the reputation of the company that performed or will be performing the assessment?..... ☐

(1) Licensed and in good standing?..... ☐

(2) How much experience does it have in performing assessments? ☐

c. Was any testing performed?..... ☐

(1) Air..... ☐

(2) Surface water..... ☐

(3) Groundwater..... ☐

(4) Soil..... ☐

(5) Other..... ☐

(6) Is data available for review?..... ☐

(7) What was the scope and nature of the testing? ☐

(8) What was the reason for performing the testing? ☐

(9) Were satisfactory results achieved?..... ☐

(10) Were any limitations placed on the testing or on the resulting report?.....
☐

(11) Is further testing needed?..... ☐

2. Wetlands..... ☐

a. Has a wetlands study been performed?..... ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

b. What is the reputation of the company that performed or will be performing the study?.....

☐

(1) Licensed and in good standing?..... ☐

(2) How much experience does it have in performing such studies? ☐

c. Were any wetlands found?..... ☐

d. How much land is affected?..... ☐

e. What restrictions on use affect the wetlands
area? ☐

f. Has the municipality considered and approved the site plan and the wetlands
designation?..... ☐

3. Does real estate development project include the rehabilitation of existing structure(s)?..... ☐

a. Determine whether asbestos exists..... ☐

(1) Has licensed asbestos handler been
found? ☐

(2) Cost of asbestos removal project..... ☐

(3) Location and amount of asbestos to be
removed ☐

(4) Will asbestos be removed or
encapsulated? ☐

b. Determine whether urea formaldehyde insulation exists ☐

(1) Has company been found to remove
insulation? ☐

(2) Cost of removal project..... ☐

(3) Location and amount of insulation to be removed ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

(4) Will removal be too difficult to perform? ☐

c. Determine whether wood-boring organisms exist ☐

(1) Has licensed exterminator been found? ☐

(2) Nature of infestation..... ☐

(a) Termites..... ☐

(b) Carpenter ants..... ☐

(c) Other..... ☐

(3) Extent of infestation..... ☐

(4) Location of infestation..... ☐

(5) Nature of damage..... ☐

(6) Extent of damage..... ☐

(7) Location of damage..... ☐

(8) Cost to repair..... ☐

(9) Difficulty of repair..... ☐

d. Other site-specific concerns..... ☐

C. Title issues..... ☐

1. Survey..... ☐

a. Was it certified by a licensed land surveyor? ☐

b. Was it performed recently?..... ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

- c. Does it show all improvements made to date? ☐
- d. Does it show all major natural features of the land? ☐
- (1) Bodies of water..... ☐
- (2) Wooded areas..... ☐
- (3) Other..... ☐
- e. Determine whether any encroachments exist. ☐
- f. Determine whether any easements and other restrictions are included..... ☐
- g. Does it include the location of wetlands found on the property? ☐
- h. Are individual lot lines shown?..... ☐
- (1) Is number of lots consistent with the government approvals already granted?..... ☐
- (2) Is size of lots consistent with the government approvals already granted?..... ☐
- (3) Are any lots unusable?..... ☐
- i. Have setback requirements been met?..... ☐
- j Have green space requirements been met? ☐
2. Covenants and restrictions..... ☐
- a. Determine whether covenants and restrictions exist on the use or transfer of the property.....
☐
- (1) Determine whether they are filed with county clerk or other appropriate governmental authority..... ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

(2) Determine whether they are violative
of law ☐

(a) Discriminatory?..... ☐

(b) Unreasonably restrictive?..... ☐

(c) Other basis..... ☐

(3) Determine whether any violations of the covenants or restrictions have already
occurred..... ☐

b. Determine whether additional covenants and restrictions are needed ☐

(1) Regarding use of land?..... ☐

(2) Regarding type of construction permitted in the development? ☐

(3) Regarding quality of construction required in the development? ☐

(4) Regarding transfer of property?..... ☐

(5) Regarding rental of property?..... ☐

(6) Regarding membership in homeowners' association? ☐

(7) Regarding membership in merchants' association? ☐

(8) Other types of covenants and restrictions necessary? ☐

(9) Determine method of amending these covenants and restrictions ☐

(a) Permission of developer required?..... ☐

(b) Permission of any existing owners
required? ☐

D. Municipal services..... ☐

1. Determine whether municipal water and sewer services are available for the site..... ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

a. Determine cost to hook up the site..... ☐

b. Determine need for, and cost of, any development-wide equipment prior to installation..... ☐

c. Determine cost of receiving services..... ☐

2. Determine whether private water and sewer services are available for the site..... ☐

a. Determine who provides the services..... ☐

b. Determine whether provider has all necessary licenses and governmental approvals necessary to provide services ☐

c. Determine cost to hook up the site..... ☐

d. Determine need for, and cost of, any development-wide equipment prior to installation..... ☐

e. Determine the fees to be charged for these services ☐

f. Determine whether there are limits on fees for these services ☐

g. Determine whether provider is obligated to provide services to site..... ☐

(1) Is this obligation mandated by operation of state law? ☐

(2) Is the obligation contractual?..... ☐

(a) Determine whether contract is assignable to purchaser of development..... ☐

(b) Determine terms and conditions of assignment ☐

3. Determine whether other municipal services are available ☐

a. Trash removal..... ☐

☐

c. Police protection..... ☐

d. Fire protection..... ☐

e. Primary and secondary schools..... ☐

f. Emergency medical services..... ☐

g. Other services..... ☐

E. Marketing considerations..... ☐

1. Location of the development..... ☐

a. Easy access to roadways?..... ☐

b. Easy access to public transportation..... ☐

c. Is there a need in the surrounding area for a development of this type?.....

☐

d. Does a similar development already exist in the area, and, if so, does it meet the community's needs?..... ☐

e. Is the development in close proximity to a major population center?..... ☐

2. What is the general character of area surrounding the development? ☐

a. Residential/affluent..... ☐

b. Residential/middle class..... ☐

c. Residential/blue collar workers..... ☐

d. Residential/low income..... ☐

e. Heavy industrial..... ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

f. Light industrial..... ☐

g. Retail..... ☐

h. Offices..... ☐

i. Mixture of the above..... ☐

j. Rural..... ☐

3. What is the reputation of the local schools? ☐

4. Are local property taxes high?..... ☐

5. Are there recreational facilities near the development? ☐

6. Will recreational facilities be made a part of the development? ☐

7. Are there shopping areas near the development?. ☐

F. Other considerations..... ☐

1. Determine whether any lots in the development have been sold already..... ☐

a. Are the structures already built, if any, fully compatible with their intended use?..... ☐

b. Will use of such lots be sufficiently restricted to protect value, style and use of lots under consideration?..... ☐

Part 2: Contract Stage

G. Contract of sale and purchase..... ☐

1. Identify seller(s)..... ☐

a. Name..... ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

b. Address..... ☐

c. Taxpayer identification number..... ☐

2. Capacity of seller

a. Individual..... ☐

(1) Meets age of majority..... ☐

(2) Is competent..... ☐

b. Corporation..... ☐ ☐

(1) Obtain proof from representative of corporation that he has authority to act on behalf of corporation (e.g., letter from president) ☐

(2) Obtain copy of board of directors' resolution authorizing sale ☐

(3) Is approval of court (e.g., bankruptcy court) required? ☐

(4) Is approval of any state or local government agency required? ☐

c. Partnership..... ☐

(1) Obtain proof from representative of partnership that he/she has authority to act on behalf of partnership..... ☐

(2) Obtain copy of partnership agreement and partners' decision authorizing sale ☐

(3) Is approval of court (e.g., bankruptcy court) required? ☐

(4) Is approval of any state or local government agency required? ☐

d. Limited liability companies..... ☐

(1) Obtain proof from representative of LLC that he/she has authority to act on behalf of LLC..... ☐

(2) Obtain copy of LLC operating agreement and members' or manager's decision authorizing sale..... ☐

(3) Is approval of court (e.g., bankruptcy court) required?..... ☐

(4) Is approval of any state or local government agency required?..... ☐

e. Fiduciary..... ☐

(1) Obtain proof of appointment..... ☐

(2) Determine source of appointment..... ☐

(a) By law..... ☐

(b) By court order..... ☐

(c) By document (e.g., will or trust agreement) ☐

(3) Determine whether court order is required for sale ☐

f. Attorney-in-Fact or Agent..... ☐

(1) Obtain proof of appointment..... ☐

(2) Obtain proof that appointment has not been revoked ☐

(3) Is principal alive?..... ☐

(4) Is principal competent?..... ☐

(5) Does grant of authority include sale of real property? ☐

3. Identify purchaser(s)..... ☐

a. Name..... ☐

b. Address..... ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

c. Taxpayer identification number..... ☐

4. Capacity of Purchaser..... ☐

a. Individual..... ☐

(1) Meets age of majority..... ☐

(2) Is competent..... ☐

b. Corporation..... ☐

(1) Obtain proof from representative of corporation that he/she has authority to act on behalf of corporation (e.g., letter from president) ☐

(2) Obtain copy of board of directors' resolution authorizing purchase..... ☐

(3) Is approval of court (e.g., bankruptcy court) required? ☐

(4) Is approval of any state or local government agency required? ☐

c. Partnership..... ☐

(1) Obtain proof from representative of partnership that he/she has authority to act on behalf of partnership..... ☐

(2) Obtain copy of partners' decision authorizing purchase ☐

(3) Is approval of court (e.g., bankruptcy court) required? ☐

(4) Is approval of any state or local government agency required? ☐

d. Limited liability companies..... ☐

(1) Obtain proof from representative of LLC that he/she has authority to act on behalf of LLC..... ☐

(2) Obtain copy of LLC operating agreement and members' or manager's decision

2-Forms Federal Taxes Affecting Real Estate [XIII.]

authorizing sale..... ☐

(3) Is approval of court (e.g., bankruptcy court) required?..... ☐

(4) Is approval of any state or local government agency required?..... ☐

e. Fiduciary..... ☐

(1) Obtain proof of appointment..... ☐

(2) Determine source of appointment..... ☐

(a) By law..... ☐

(b) By court order..... ☐

(c) By document (e.g., will or trust agreement) ☐

(3) Determine whether court order is required for purchase ☐

f. Attorney-in-Fact or Agent..... ☐

(1) Obtain proof of appointment..... ☐

(2) Obtain proof that appointment has not been revoked ☐

(3) Is principal alive?..... ☐

(4) Is principal competent?..... ☐

(5) Does grant of authority include purchase of real property? ☐

5. Identify the subject premises..... ☐

a. Describe location by county and by municipality ☐

b. Describe location by street address..... ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

c. Describe location by reference to filed map(s) of subdivision ☐

d. Describe location by real estate tax
map number ☐

e. Describe location by prior recorded deed(s) ☐

f. Describe location by metes and bounds..... ☐

6. Identify all structures which are located on
premises, e.g., ... ☐

a. Office building(s)..... ☐

b. House(s)..... ☐

c. Garage(s)..... ☐

d. Storage shed(s)..... ☐

e. Barn(s)..... ☐

f. Other..... ☐

7. Identify fixtures which are included in sale price ☐

8. Identify personal property included in sales
price, e.g., ... ☐

a. Appliances..... ☐

b. Furniture..... ☐

c. Swimming pool..... ☐

d. Window shades/blinds..... ☐

e. Other..... ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

f. Which items will be transferred in "as is" condition? ☐

g. Which items will be transferred in good working order? ☐

h. Who will bear risk of loss between contract date and transfer of title?..... ☐

9. Identify fixtures which are excluded from sale price ☐

10. Identity personal property excluded from sale price ☐

11. Identity fixtures to be transferred at additional cost to purchaser..... ☐

a. Which will be transferred in "as is" condition? ☐

b. Which will be transferred in good working order? ☐

c. Who will bear risk of loss between contract date and transfer of title?..... ☐

12. Identify personal property to be transferred at additional cost to purchaser..... ☐

a. Which will be transferred in "as is" condition? ☐

b. Which will be transferred in good working order? ☐

c. Who will bear risk of loss between contract date and transfer of title?..... ☐

13. Purchase price..... ☐

a. Total amount..... ☐

b. Additional cost to purchaser for fixtures listed above ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

c. Additional cost to purchaser for personal property listed above ☐

d. Will purchaser assume existing mortgage(s)? ☐

e. Deposit..... ☐

(1) Amount..... ☐

(2) When due..... ☐

(3) Form of payment (e.g., cashier's
check) ☐

(4) Where funds are held..... ☐

(5) Who is entitled to earnings on deposit?..... ☐

f. Adjustments to purchase price..... ☐

(1) Property taxes..... ☐

(2) Fuel oil..... ☐

(3) Prepaid services (e.e., trash
collection) ☐

(4) Water and sewer levies..... ☐

(5) Special assessments..... ☐

(6) Other..... ☐

g. Who is responsible for sales and other transfer taxes?..... ☐

14. Contingencies: specify date by which each contingency must be resolved and standard to be used in determining whether contingency is satisfied..... ☐

a. Inspection for wood-boring insects..... ☐

b. Structural inspection..... ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

- c. Test for radon gas..... ☐
- d. Inspection for asbestos insulation..... ☐
- e. Inspection for urea formaldehyde insulation ☐
- f. Attorney's approval of sale-purchase agreement..... ☐
- g. Environmental site assessment..... ☐
- h. Locating source of potable water..... ☐
- i. Locating sewage treatment service..... ☐
- 15. Type of mortgage..... ☐
 - a. Will seller provide financing?..... ☐
 - b. Will institutional lender provide financing? ☐
 - c. Will some combination of the foregoing methods of financing be used?..... ☐
 - d. Will senior lender permit subordinate financing?..... ☐
 - e. Determine whether mortgage will be recourse or nonrecourse ☐
 - f. Determine security for debt..... ☐
 - g. Fixed rate?..... ☐
 - h. Adjustable rate?..... ☐
 - i. Balloon?..... ☐
 - j. Convertible?..... ☐
 - k. Term of mortgage..... ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

- l. Maximum interest rate..... ☐
- m. Maximum points purchaser will pay..... ☐
16. Existing mortgages to be assumed..... ☐
- a. Review all loan documents..... ☐
- (1) Determine whether loan is assumable..... ☐
- (2) Determine whether approval of assumption is required ☐
- (3) Determine conditions for assumption..... ☐
- (4) Determine whether subordinate financing is permitted..... ☐
- b. Obtain certifications from lender regarding ☐
- (1) Amount still due..... ☐
- (2) Existing defaults, if any..... ☐
- c. Determine whether original mortgagor will remain liable for debt ☐
- d. Determine whether mortgage provides for releases upon sale of individual lots..... ☐
17. Determine whether mortgages must be paid from proceeds of sale and purchase..... ☐
- a. Determine whether sufficient proceeds will exist to satisfy mortgages..... ☐
18. Environmental and other regulatory considerations..... ☐
- a. Site conditions..... ☐
- (1) Warranty by seller that site does not contain adverse environmental condition..... ☐
- (2) Disclaimer by seller regarding whether site contains adverse environmental condition..... ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

(3) Representations by seller..... ☐

(a) Present condition of site..... ☐

(b) Past use of site..... ☐

(c) Present use of site..... ☐

(d) Property is in compliance with all environmental laws and regulations (federal, state and local)..... ☐

(4) Hold harmless clause..... ☐

(5) Indemnification clause..... ☐

b. Environmental site assessment..... ☐

c. Special governmental approvals from agencies, districts or boards ☐

(1) Conservation district..... ☐

(2) Historic district..... ☐

(3) Zoning board..... ☐

(4) Wetlands protection..... ☐

19. Type of deed to be given..... ☐

a. Warranty..... ☐

b. Bargain & sale..... ☐

c. Executor's..... ☐

d. Administrator's..... ☐

e. Trustee's..... ☐

2-Forms Federal Taxes Affecting Real Estate [XIII.]

f. Referee's..... ☐

g. Quitclaim..... ☐

20. Purchaser will take property subject to following conditions ☐

a. Zoning laws..... ☐

b. Environmental laws..... ☐

(1) Federal..... ☐

(2) State..... ☐

(3) Local..... ☐
